DRADER'S PLANING MILL DESTROYED

Eighteen Men Now Out of Employment — Good Work of Firemen — Loss Partly Covered by Insurance — Warren Lambert Was a Busy Man

9.00—From Alarm Box No. 32, W. M. Drader's Mill, Queen street.
9.30—From Alarm Box No. 8, from Gray's Factory, William street.
9.35—From Hotel Glassford, Christ Church on fire.

10.40—From Alarm Box 23, Taylor's Woollen Mills, William street.

hot inside they had to beat a hasty retreat.

For two full hours the firemen struggled with the blaze. They were unable to save the mill, but they must be highly commended on their success in preventing the fire from spreading. All of the members of the department deserve much credit for their courageous and untiring efforts. The firemen were very grateful to a large number of citizens who turned in and aided them in their work.

BURNED TO THE GROUND.

At noon to-day nothing remained of the Drader Mill but a portion of the walls and a few charred scantlings. The building and its contents is a total loss. Efforts were made to get an estimate of the loss, but Mr. Drader is out of the city to-day, and is spending the day in Detroit. The amount of insurance on the building could not be ascertained.

The fire is supposed to have started in the drying kiln, and had got an enormous start before it was noticed. The first alarm was sent in by St. Hancock. Aid. Potter stated this morning that great difficulty was experienced in getting the alarm into the Fire Department. It seems that the alarm did not work properly, and it was a long time before they could get in touch with the department over the phone.

WORKMEN WERE BURNED.

There were a number of narrow escapes from burning by falling embers, but the firemen all escaped without any serious injury. Two of the workmen at Drader's, however, received bad burns while attempting to get their tools from the building. Charles Walters had his neck badly burned, and Richard Towle got one wrist scorched.

HOSE BURST.

One line of hose, while being taken to an opening in the upper story, burst midway between the building and the street. This greatly lessened the pressure on this particular line, but the firemen made the best of their crippled opportunities.

Some of the old hose on Queen St. was also injured by heavy vehicles, which were driven over it by careless drivers. Another feature, which was pointed out to The Planet, was the fact that a number of persons were using private lines of hose for the cleaning of buggies and other purposes during the fire. One man, whose place of business is only a short distance from the mill, was seen calmly washing his buggy while the Waterworks Department were struggling to get up enough pressure. This, it is understood, is contrary to a civic by-law.

EIGHTEEN OUT OF WORK.

The employees of the Queen street planing mills, which now lie a mass of charred ruins, number eighteen. These eighteen men are all out of work as a result of this morning's conflagration. Some of the workmen also had their tools burned in the building.

MR. MARTIN INTERVIEWED.

Mr. Drader could not be found by The Planet, but his nephew, Basil Martin, of the office staff, informed a reporter that Mr. Drader and his wife were spending the day in Detroit. Mr. Martin immediately telegraphed Mr. Drader when the fire broke out.

Mr. Martin could not say what the estimated loss would be, or what the insurance on the building and contents amounted to.

"Mr. Drader himself kept all the insurance books," said Mr. Martin. "I cannot say what the total loss will amount to. There were a large number of orders all ready for shipment in the building."

The most dangerous feature with which the firemen had to battle was the strong veering wind. At one time it blew from the south and at another from the south-west and west. This made things very difficult for them.

WIND WAS STRONG.

The wind was so very strong that burnt cinders were blown as far as the northern outskirts of the city. Large cinders fell on the O. C. I. lawn during the fire. Buildings in the vicinity of the Glassford Hotel and Christ Church were many times in danger from hot, small fire balls

THE INSURANCE

The Planet is informed from reliable sources that the insurance on the Drader building and contents is about \$10,500.

It is estimated that the total loss after all insurance is paid, will probably be in round figures seven or eight thousand dollars.

As Mr. Drader is out of the city, it is impossible to secure the exact figures, but this is a close estimate.

started there at various times, but were put out before they assumed any dangerous proportions.

FRESH ORDERS BURNED.

Orders which had just been completed for the C. Austin Co., the General Hospital, and a large consignment of goods for a Wallaceburg firm were destroyed and are a total loss. One of the workmen, Chas. Walters, had \$500 worth of tools destroyed. He had no insurance on them. It was while trying to rescue these that Walters was severely burned.

FIRE AT TAYLOR'S.

At 10.40, while the firemen were still engaged with the Drader fire, a number of them were called away to respond to an alarm from the Taylor Woollen Mills, on William Street. The alarm was sent in by Mrs. D. J. McDonald.

The fire, however, was put out by the employees of the Woollen Mills before the arrival of the brigade.

TEST FOR WATER SERVICE.

Chairman W. D. Sheldon of the Water Board, was on the ground early and, in fact, he did consider.

PRECAUTIONS AGAINST TYPHOID.

Mayor Stone has received from C. R. Couteau, of Ottawa, a circular which gives some very valuable information on the question of how to take effective precaution against typhoid fever. The letter says in part:

Public methods of sanitation have been developed in a splendid manner wherever population has admitted of the expenditure. These methods have actually lessened the typhoid despite the fact that dense populations have rapidly concentrated where nothing was prepared for their reception.

Public water supplies replace old wells which invariably become polluted, and pure water reservoirs are carefully guarded to prevent contamination by debris from human beings.

Sewers drain away with open pits, and also drain out old sewers. All contaminated drainage is carried to outlets whence the germs will not reach the food or water used by human beings.

Large cities control and inspect all supplies of milk, fruits and vegetables and other foods.

The urgent necessity of personal effort to stamp out this plague of typhoid is forgotten because the individual unwittingly depends too much on general methods alone.

Human beings are the only animals that contract typhoid fever. It is a germ disease. A germ may be considered a very minute plant growth. It is like a fine particle of dust, easily transported, and if fresh ready to take root and grow.

The typhoid germ is taken through the mouth, swallowed, passed into the stomach and into the intestines, where it takes root and grows. The growth creates substances which poison the system until our bodies automatically produce an antidote.

Yellow fever enters the South only by importation from less careful communities. Typhoid enters a home by importation, so each house must enforce its own quarantine methods. It is transported by water, by milk, by food, by garments of persons visiting sick rooms, and by flies and insects coming from sick rooms.

The typhoid sufferer is the great and only source from which the disease will spread.

Released from the sick room the germ is launched in all directions. The closer the case of typhoid the shorter the path of infection and the stronger is the floating germ to take root.

Use every precaution to prevent infection reaching any part of the house, especially the kitchen. Throw no waste water from sick room into the yard until it has been disinfected.

When scattered cases begin to be reported in your vicinity reason this way: Typhoid is going about. It does not originate mysteriously in the air, in the water, in the milk, nor in the earth, but it is due to a germ of disease carried by water, by milk, by flies and by other vermin. It is a disease taken through the mouth only, and spread only by the debris of mankind.

In winter dirt collects under successive layers of snow, so be careful about throwing out infected wastes in winter as well as in summer.

Water is the great source of typhoid transportation because wells become polluted, and we drink the water unboiled or use it to wash milk vessels.

Milk is an ideal medium for the multiplication of germs when once they are introduced into it.

Be determined that typhoid will go, and in three years it will be as mild as the present type of smallpox.

A little while ago the Toronto Globe wrought itself into a frenzy of bogus indignation over an alleged miscarriage of justice at Orangeville. The good Globe hurled hysterical denunciations at the Whitney Government and blamed at the mouth—that is to say it had an eruption of scare headlines and poster type on its front page. But the Whitney Government, strange to say, never turned a hair, and the Globe evidently recovered. A few months ago a Toronto woman who was sent to prison for a long term for a somewhat similar offense, was released upon the plea of insanity. But the good Globe will not make any fuss over this case for the simple reason that this woman was let out of prison by the Globe's political pals at Ottawa, and that any uproar created upon the grounds of miscarriage of justice would prove embarrassing to the Hon. Mr. Aylesworth, the Minister of Justice. And that's the kind of political moral code the Toronto Globe has.—Brockville Times.

DRINK PLENTY GOOD WATER

Nature's Great Remedy and Valuable Prescription Anyone Can Prepare

Try This at Home If You Are Afflicted With Kidney Trouble or Rheumatism

"The people here do not drink enough water to keep healthy," exclaimed a well-known authority. "The numerous cases of stomach trouble, kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected."

Stop leading your system with patent medicines and pills; but get on the water wagon. If you are really sick, why, of course, take the proper medicine—plain, common vegetable treatment, which will not shatter the nerves or ruin the stomach.

When requested for such a prescription for the cure of rheumatism and kidney trouble the answer was: "You must make the kidneys do their work; they are the filters of the blood. They must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and, most of all, you must keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions I would suggest the following prescription, which is composed of only vegetable ingredients, which can be obtained from any good prescription pharmacy. Any one can mix them by shaking well in a bottle. Fluid Extract Dandelion, one-half ounce; Compound Sassafras, 3 ounces; Compound Syrup Sarsaparilla, 3 ounces; be taken in teaspoonful doses after meals and at bedtime, but don't forget the water. Drink plenty and often." This valuable information and simple prescription should be posted up in each household and used at the first sign of an attack of rheumatism, backache or urinary trouble, no matter how slight.

RIDGETOWN

Ridgetown, Sept. 18.—L. J. Beycraft is in Chatham to-day on business.

Mr. Miles, of Blenheim, has purchased John Sheldon's interest in the Arlington Hotel. We are pleased to learn that Mr. Sheldon and family do not intend leaving the town.

A transaction has just been closed in which Dr. W. H. Fry has disposed of his livery and feed barns to Pete Gilbert. Pete takes possession at once, and we are sure the business will be a success under his keen management.

John Lee, of Highgate, was in town this evening.

Dufferin Brien has left for Listowel to assume his duties as Provincial Judge of short-horn cattle, sheep and heavy horses.

OUR NATIONAL DANGER

Time to Cry a Halt Before a Panic Comes.

The business spirit is crushing out the sweeter element of home life. We are in danger of a great commercial decline, because men, as a whole, think only of getting wealth.

There are thousands, both men and women, who do not take time to rest properly. They rush through life, and as a result we have an age of indigestion, nervousness, irritability, sleepless nights, and morose disposition.

With the discovery of Mi-on-a tablets, there is no longer any excuse for one to have ill health from stomach weakness.

Mi-on-a strengthens the walls of the stomach, stimulates secretion of the digestive juices, regulates the liver and restores muscular contraction to the intestines and bowels, so no laxative is needed.

Sick headaches, palpitation, bad taste in the mouth, yellow skin, irritability, coated tongue and melancholy are a few of the many distressing results of indigestion. Mi-on-a never fails to dispel all these troubles.

C. H. Gunn & Co. sell Mi-on-a in 50 cent boxes, and guarantee to refund the money if the remedy does not give complete satisfaction.

Prosperity covereth a multitude of sins.

You very seldom see a woman chafeur!

A SUGGESTION OF RARE VALUE. A diseased condition of the surfaces of the passages causes bad breath, but more commonly emanates from indigestion or an impure condition of the blood. Thousands of cases prove that Dr. Hamilton's Pills, through their specific action on the secretory and eliminative organs, not only cure bad breath, but so thoroughly purify the system that anything suggestive of blood or digestive troubles is impossible. Through Dr. Hamilton's Pills the skin grows rosy and clear, activity of the body and mind increases, and bounding health is established. Sold everywhere.

Mr. Smith Walker attended the Chatham Fair this week.

The Blenheim fire brigade had the engine out last night and filled some of their tanks.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

IMPORTANT ARRESTS.

Men Carried Nitro-Glycerine, Were Armed to the Teeth.
Niagara Falls, Ont., Sept. 19.—Chief Mains and Officers Kelly and Greenwood of the Ontario police force made an important arrest yesterday.
Three men, named William Pasquay of Niagara Falls, N. Y., and "Harding" of Toledo and a third man, name unknown, were standing at the southwest corner of the depot.
The chief drew his gun on Pasquay and threatened to shoot and made him stop and arrested him. The unknown, who got a good start, made his escape. The two men arrested held tickets for Hagersville.
Harding had in his possession an eight-ounce bottle of nitro-glycerine, while Pasquay had a cake of soap to do the loading of the nitro-glycerine in new combinations.

SUFFERED FOR CURIOSITY.

Woman Stares at King Edward and Runs Into Tree.

King Edward's sojourn at various continental resorts has been rendered unpleasant by the indiscreet way in which some people have followed him about, although disapproval of such conduct has been made public by the King. Still this did not seem to have the desired effect at Carlsbad, and a lady met with deserved punishment for acting in this way.
King Edward was breakfasting with Sir John Fisher and some friends in the gardens of the Savoy Hotel when a lady ostentatiously walked past the table with her husband and was so intent on staring at the King, as if he were a zoological curiosity, that she marched straight into a tree and embraced it, much to her own discomfort and the amusement of all who witnessed the incident.

The unpleasantness to which the King has to submit has been caused by his own subjects, not by foreigners, and it is worth mentioning that at a party in Marienbad with Austria recently the King remarked that the attitude of the latter toward him was all that could be desired. He wished their example would be copied by some English men and women.

If we were all as free with assistance as we are with advice the world would be very different.

SMASH AT VAUDREUIL

Brakeman Robertson Killed and Fireman Badly Hurt.

Three Freight Trains Mixed Up In a Rear-End Collision—Six Cars Damaged—One Tumbled Off Bridge Into River—Engine Remained on the Track Preventing Greater Loss of Life.

Montreal, Sept. 19.—One brakeman was killed and a fireman badly injured in a rear-end collision near Vaudreuil station at 9.30 o'clock last night, in which three freight trains were mixed up, six or seven cars damaged and one knocked into the river off the Vaudreuil bridge.

The loss of life was not great, it is due to the fact that the train which caused the collision was not going fast, and her engine did not leave the track.
The dead man is Brakeman Robertson of freight train No. 883, which was moving east up to Vaudreuil station, and dashed into the rear of No. 1,263, which had stopped on the bridge and was just starting up again. At the same time No. 95, the last Toronto freight, was stationary on the adjoining track, having stopped for a short time to take on coal. The collision with the freight train ahead, but four or five cars of the latter train were derailed and knocked against No. 95 on the adjoining track, causing one car attached to the latter train to be knocked into the river. Robertson, the brakeman, who succumbed to his injuries, had both legs severed, and died before he could be brought to Montreal on a C. P. R. train.

Fireman William Meier of Montreal was caught between two cars, but is not thought to be fatally injured.

JEALOUSY PROMPTS MURDER.

Army Officer Kills Woman For Whom He Left Wife.

New York, Sept. 19.—Miss Draga Zeigel, the 30-year-old daughter of Col. Zeigel of the Austrian army, was shot in the chest yesterday with three bullets in her body, and Julius Hoffman, a former lieutenant in the Austrian army, is under arrest, charged with shooting the girl, for whom he left his wife. Miss Zeigel is an heiress to \$100,000, which she came into her possession within a year.

Hoffman tried to end his own life, but was prevented by the girl, whom he had already fatally injured. Jealousy prompted the shooting.
Hoffman told the police that he often met the girl and was jealous of her because of the attentions of another man.

Miss Zeigel refused to identify him as the man who shot her. As Hoffman was being led away she feebly cried that she still loved him. Hoffman has confessed to the police.

DISCUSS LEMIEUX BILL.

Railway Delegates to Trade Congress Denounce It.
Winnipeg, Sept. 19.—The Lemieux bill was the principal question before the Trades Congress yesterday, some of the delegates, particularly railway men, opposed it bitterly, but the general feeling seemed to be to give it a trial.

Solicitor O'Donoghue strongly defended it as in the best interests of labor. He presented his report and in a three-hour speech reviewed the legislative history of the bill, and the fact that a resolution was presented by Pettipiece of Victoria yesterday, calling upon the Dominion Government to take steps to shut out the Hindoos.

The question will come before Congress to-day.

A big banquet was held at the Royal Alexandra last night.

Mix Up In Detroit River.

Windsor, Sept. 19.—No less than five boats got in a jam at the Lime Kiln Crossing, near Amherstburg, at an early hour yesterday morning. The Lycoming, lumber laden, took the east channel, which is not open for down-bound boats, and ran into the Isabella Boyce, up-bound and coal-laden. The latter was quite badly damaged.

Each steamer had tugs, which grounded in the channel.
Two tugs are working to clear the passage.

France Will Withdraw.

Paris, Sept. 19.—If the peace negotiations at Casablanca are successful, France intends to prove her loyalty to the terms of the Algeiras convention, by immediately repatriating the main portion of the troops, leaving only a sufficient force at Casablanca to insure, in conjunction with the Spanish troops, the policing of the city.

Four More Cardinals.

Rome, Sept. 19.—The next Papal Consistory will be held in the middle of November or the middle of December. It is not believed that any foreign cardinals will be created, but the names of four Italians have already been decided upon for elevation to the cardinalate.

Half-Drunken Man Killed.

London, Ont., Sept. 19.—An unknown stranger, in a semi-intoxicated condition, met with fatal injuries here yesterday by falling down a flight of steps in the Bank of Toronto building. He suffered concussion of the brain, and doctors say he will die.

Fatal Accident at Stratford.

Stratford, Sept. 19.—J. J. Hamilton, a G. T. R. foreman, met with sudden death yesterday afternoon in the yard of the G. T. R. shops here. While stepping on the front of a moving engine, he fell and the front wheels passed over him.

ENGINEER REID GUILTY.

Jury at Guelph Find Collision Was Due to Negligence.

Guelph, Sept. 19.—Engineer Mark Reid, who was concerned in the wreck at Guelph a year ago, was found guilty by the jury of negligence and will receive sentence to-day. Some difficulty was experienced in getting a jury to sit on the case, but after a dozen jurors had been challenged the requisite number were finally secured. Very little evidence was taken at the first sitting, the witnesses being Conductor John Hunt of the mixed train which figured in the collision; Lorne Palmer, and Night Operator Ayresworth of Guelph Junction.

The evidence of Reid himself told in part the story of the trip until the accident occurred. He admitted that he should have kept clear of No. 44 by five minutes, but he did not consider himself to blame for running into Hespeler, although he admitted that it was his duty to side there.

ENGINEER EXONERATED.

Coroner's Jury Recommends That Brakes Be Inspected.

Peterboro, Ont., Sept. 19.—The coroner's inquest into the death of Edward Wansboro, the C. P. R. freight conductor of Toronto Junction, who was killed in a rear-end collision between two freight trains at Manvers station a few weeks ago, rendered its verdict yesterday. The jury might at first have held another sitting in the Orange Hall, Manvers.
That the deceased, Edward Wansboro, came to his death by one train colliding with another train, said collision being caused by inefficient air brakes, and was exonerated. Engineer John Ritchie from all blame in not being able to stop his train. We further recommend that all air brakes in future shall be thoroughly inspected at terminal points.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliancy vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change: ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed countenance. Nearly all women who have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the general schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and to have freedom from all ailments, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorant and strengthening nerve tonic, adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Madman Kills Wife.

New York, Sept. 19.—Following his discharge as sane from the psychiatric hospital, 43 years old, once a prosperous real estate promoter, murderously assaulted his wife, Della, aged 22, and frightfully injured himself.

When she had fallen fast asleep he beat her with a hammer and slashed her with a razor, with which he also cut himself.

German Balloon Wins.

Brussels, Sept. 19.—The long distance prize in the international balloon race has been won by the German balloon, *Passant*, piloted by Herr G. G. G. The *Passant* came down at Bayonne, France, 631 miles from Brussels.

The Swiss balloon *Oona*, and the English balloon *Zephyr* probably will tie for second place. All the balloons have been accounted for.

New Bodyguard For Czar.

St. Petersburg, Sept. 19.—For the further protection of his own person, Emperor Nicholas has ordered the creation of a new regiment of life guards, composed of specially selected officers, non-commissioned officers and soldiers, drawn from regiments throughout the entire Russian army, on the personal recommendation of the commanders of the various corps.

Troops Clash With Rioters.

Rome, Sept. 19.—Agrarian troubles have broken out again in Southern Italy. The troops present are insufficient to cope with the rioters, who already have done much damage to property.

There have been frequent conflicts among the strikers, the non-strikers and the troops, in which the soldiers have used their bayonets freely.

Abductor Sentenced.

Chatham, Sept. 19.—Raymond Toulou, of Big Point, a married man, who was accused of running away with 14-year-old Maggie Bellaire of Chatham, was sentenced to one year in Central Prison by Judge Houston yesterday.

MRS. THOMAS GOES FREE

Jury Refuse to Convict on Charge of Killing Gilbert.

Three Rioters Sentenced to Eight Months in Central Prison—Deputation Pleads For Leniency—Chief Justice Mulock's Scathing Remarks—Attack Not Only Illegal But Unmanly—Sentences Causes Comment.

Warkenton, Sept. 19.—Agnes Thomas, who shot Philip Gilbert in the Warkenton riot, is free. The jury, after being out an hour, found her not guilty of manslaughter, and she took the first train to London.

Mrs. Thomas burst into tears when the verdict was announced.

Chief Justice Mulock expressed the hope that the tragic nature of the incident would cause her to lead a better life.

John Lancaster, William Lancaster and Walter Lancaster, charged with unlawful assembly and rioting, and who pleaded guilty, were each sentenced to eight months in the common jail.

In addressing the prisoners the judge referred to the seriousness of the offence.

He styled the attack on the two women as not only illegal, but unmanly. The sentence of the Warkenton men was a source of much surprise. Most of the kind had been anticipated. The prisoners themselves seemed almost stunned by his lordship's decision.

After hearing Chief Justice Mulock's charge, the jury retired at 10.30. "It is commonly said," remarked his lordship, "that a man's house is his castle and that he may kill persons entering forcibly without his permission, but that is altogether too broad an interpretation of the law. No man is justified in shooting another unless he fully believes his life or the life of some inmate of his house to be in danger. If Mrs. Thomas had reasonable grounds to fear bodily harm at the hands of her assailants, her case should not be prejudiced by the manner of woman she was. The fact that she was there for the purpose of doing good, and that she was a mother, are matters which should not be taken into consideration except as affecting the credibility of the witness."
Mr. McKay, counsel for Mrs. Thomas, objected to his lordship's charge, holding that the law did justify Mrs. Thomas in shooting persons forcibly entering her home, even though she did not fear personal injury. His lordship overruled the objection, however.

Warkenton Sends Deputation.

The case as relating to the three Lancasters, who pleaded guilty to the charge of rioting, took another unexpected turn yesterday morning, when a deputation from Warkenton, composed of Mayor McKewen, Rev. Mr. Smythe, Methodist minister; James Walsley, George Dawson, foreman of the Dominion Fish Co., and several others, waited on Chief Justice Mulock and asked that he be as lenient as possible with the prisoners. Every member of the deputation testified to the good character of the prisoners. Rev. Mr. Smythe was asked by the chief justice to state how lenient he thought he should be. After some hesitation, the minister suggested that the prisoners should be let off on suspended sentence. His lordship promised consideration.

Sentence Regarded Severe.
Warkenton, Sept. 19.—The sentence meted out to the three Lancasters by the court yesterday morning, in the rioting on the night when Philip Gilbert forfeited his life at the hands of Mrs. Thomas, for attempting to destroy her home, which consisted of a tent, has caused much dissatisfaction and adverse comment here on British justice.

Thrown Off Load of Wood.

Kingston, Sept. 19.—W. L. Allan, a coal and wood merchant of Wolfe Island, met with a serious accident yesterday. He had delivered a load of wood to the summer cottage of G. R. Hague, manager of the Merchant's Bank of this city, and was returning with Mr. Hague in the wagon to Marysville.

Suddenly the horses balked going down hill and threw Mr. Allan out. He alighted on his head, sustaining a scalp fracture. He was carried unconscious and bleeding freely to his home, and it will be several days before it is known whether he will recover.

Mrs. Hague escaped without serious injury.

"Sherlock Holmes" Married.

London, Sept. 19.—Sir Arthur Conan Doyle and Miss Jean Leckie were married in St. Margaret's Church, Westminster, yesterday. The ceremony was quiet and the name of the church at which it was performed was kept secret in order to avoid the presence of a crowd of persons who otherwise would have flocked to see the wedding of the author of "Sherlock Holmes."

Sir Arthur is 48 years old and was regarded as a confirmed bachelor. Miss Leckie lived with her parents at Blackheath.

Charged With Cattle Stealing.

Ingersoll, Sept. 19.—Frederick Hopkins, arrested here for the Brampton authorities, was taken to town yesterday afternoon by High Constable Broddy. Hopkins is charged with the theft of two cattle belonging to John Wilson, a Dereham farmer.

Fell Downstairs; May Die.

Hamilton, Sept. 19.—Ardon Lane, while walking downstairs at home, missed his footing and fell to the bottom, striking his head against the wall. His skull is fractured. He will likely die.

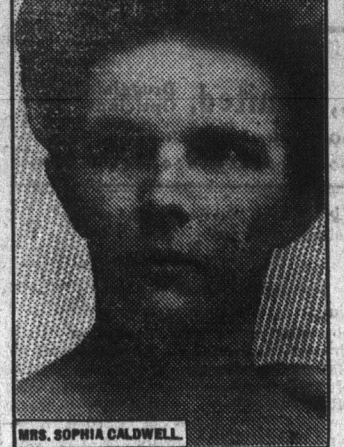

More Japanese Coffees.

Victoria, B. C., Sept. 19.—The steamship *Indiana*, chartered by emigration agencies in Honolulu, passed through quarantine yesterday afternoon, bound for Vancouver with 250 Japanese coolies on board.

A PELVIC DISEASE

Of Which Peruna Cured Me In a Very Short Time.

WAS SAPPING MY LIFE.

MRS. SOPHIA CALDWELL, 1122 McGAYOOK ST., NASHVILLE, TENN.

"After doctoring for a year and finding no relief from incurable results from prostatic urethra, and which was sapping my life force away, I finally tried Peruna, and when I found that it was helping me every day, it seemed almost too good to be true.

"But, it not only helped me, it cured me and in a very short time. I am now enjoying the best of health. I am strong and free from pain, and I certainly feel that all praise and honor are due to Peruna."

Thousands of women will read the testimonial of Mrs. Caldwell as above given.

Thousands of them will be induced to try the remedy that saved her.

Thousands of them will have the same experience she had.

Peruna is the remedy such women need. Peruna comes like a boon to suffering womanhood.

Mrs. John Hopp, Webster Ave., Glendale, L. I., N. Y., has also been relieved of pelvic catarrh by Peruna.

TERRITORIAL ARMY.

New Divisions to Be Complete in Every Detail.

The work of establishing the new Territorial Army is being taken very energetically in hand by the Headquarters Staff at the War Office. This force is to be divided into divisions complete in every arm, adjacent counties being grouped together for this purpose. But it does not seem probable that they will exceed ten, if, indeed, so many. The Imperial Yeomanry will, of course, supply the necessary cavalry for these divisions, though we are able to state that Mr. Haldane has abandoned his original intention of forming special squadrons of this force to be trained on a higher level, and to be attached to regular cavalry regiments for a certain period every year. In order to provide the necessary field artillery for these divisions it will be necessary to convert many of the existing military and volunteer corps of garrison artillery into field batteries, while horse batteries should also be provided. These new field batteries will be armed with the converted quick-firing guns, a makeshift arrangement that does not commend itself to military men. It will be necessary to raise several new departmental corps, and a considerable time is likely to elapse before these divisions can be complete. So far as transport is concerned, Mr. Haldane proposes to rely entirely upon his system of registration of civilian drivers, horses, and wagons to which he referred in the House of Commons some time ago. It seems impossible that the Territorial Army can be in complete existence for at least two years to come, and it is understood that this is the period that the Secretary of War has allotted for the completion of his scheme.

CHARGE AGAINST A PRIEST.

Pastor of Detroit Church Alleged to Be Defaulter For \$50,000.

Detroit, Sept. 19.—That Rev. Father Charles Grunewald obtained \$15,000 from Mrs. Grunewald, who is a defaulter, the exact sum, of \$50,000, is the charge made against the pastor of St. Mary's Church of this city.

The facts came out yesterday when a suit was entered to have a guardian appointed for Mrs. Grunewald, who is a defaulter. Father Grunewald is known in some of the German Catholic churches of Western Ontario, where he is said to have been a popular occasional visitor.

THE FIRES

Continued from Page One.

able valuable work in directing the efforts of the many volunteers who assisted so nobly in fighting the flames. He was there to look after the water service, and see how things worked at the water plant. When the Planet saw him when the fire was under control, he was standing on the street, hat in hand, mopping the beads of perspiration from his brow, and with the short stub of a cigar still in his mouth. His clothes were soiled and wet, showing that he had not been idle. "This fire has proven a great test for the water service," he said to the reporter. "When it first started, I had a little trouble in getting word to Mike O'Mara at the water station, to tell him that it was a big fire and to do his very best with the pressure. The wires are all down, and so finally I had to send a boy on a wheel with the message. Mike responded promptly, and he kept a good strong pressure on all the time. There were eight lines of hose working on the building all the time, and it took at least four men to hold each hose. That is not bad for a pressure. "When I first came to the fire, I found my volunteers ready to assist, but they were all excited. Down an alleyway, I found some men with a hose playing on a blank wall where there were no flames. I soon got them out of there and then Warren Lambert came along and got a hole through the building and got the hose on the flames.

PRaise for Lambert.

"I tell you, there is one man who deserves credit for the work he has done to-day, and that man is Warren Lambert. He was one of the first here, and you can see he is working yet."

Mr. Sheldon then indicated with his finger to where Mr. Lambert was working with a gang of men down the alleyway. Mr. Lambert, who is an old call fire chief, and there is very little about fighting a fire that he does not know. When he was pointed out to the reporter he was struggling with a hose along with the men, and he was doing effective work. His clothes were completely drenched with water, and his face and hands were black with dirt and cinders.

"That man is responsible in a great degree for the saving of these buildings," continued Mr. Sheldon. "When the crowd commenced to turn in to help the firemen, they were very excited and seemingly did not know what to do. Mr. Lambert assumed charge of the volunteers right away. He divided them up in gangs, and placed one here with a hose and told them to stay there until he came back. He was then off in another place doing the same thing, and as a result he kept all of the gangs working, and doing the most

CHILDREN WERE COOL.

Those who attended the fire had an opportunity to again witness the wonderful control which Principal J. W. Plewes exercises over the whole school. The pupils in his school. The fire occurred in close proximity to the school, and when it came time for recess the pupils, with all their childish enthusiasm, excitement and curiosity, were anxious to see the blaze. It was thought by some that it would be better not to give any recess, as the children would, no doubt, become unmanageable and run to the fire.

Mr. Plewes' course, however, was quite the contrary. He warned the children to stay in the yard, and then let them out of school. The result was wonderful. Not one of the children left the yard, even in spite of the fact that other children who do not go to school were running to the fire, and shouting to the scholars to come along, and laughing at them because they refused to disobey their teachers. Mr. Plewes' word is law in the Central school, and this law is enforced and lived up to in every little detail. The children themselves deserve credit for the excellent order they maintained.

FAIR WAS A SUCCESS

Fireworks Last Evening Livened up Matters Considerably

The Penitentiary Fair yesterday was attended by a large crowd of people, all of whom were well satisfied with the exhibition on the whole. The fair this year is said to be the best ever held in the Maple City, and the directors, who made a good honest strive to make it a success, are worthy and deserving of the highest praise and credit. The exhibits, on the whole, were good, and there was a larger display in all the classes than there has been in previous years. The horses were the best that have ever been exhibited on the grounds here. The cattle were the best in years, some excellent Jerseys and Durhams being shown. The pig show was not a very large one, but the quality of the animals was fine. The chicken exhibit was first class. The quality of the fowl shown was better than that of previous years, although there were not so many on exhibition.

The horticultural building presented a splendid array of fruits, herbs, roots, etc. The exhibit by the "Chatham Vegetable Growers' Association" was equal to any production of vegetables that could be seen either at the Toronto or London exhibitions. The members of the association were printed in flowers across the top of the fruits and vegetables. The letters were made of English Marigolds. The work was done by Messrs. Everitt and Ross, and these gentlemen are to be congratulated on doing such a creditable piece of work. The pumpkins and gourds were of a fine quality, as were also the potatoes and all roots. The grain exhibit was small, but of a good class.

The Crystal Palace was well decorated with large palms and ferns, and the exhibits of Ald. C. Austin, Mrs. Weldon and Mrs. Maynell are worth of special note. The paintings and burnt wood work were fine. The fancy work, etc., was of a high order. A good display of high grade organs and pianos was made by the piano dealers of this city.

The Midway this year was not up to the usual standard. The attractions were small and were not of a very good class. The crowd did not seem to be much attracted towards the places of entertainment put up by the different tents. The "May-Joe" the child with three legs, two bodies and one head, was the most interesting freak on the midway. The show pictures were interesting and showed Thaw's life up to within a few months ago.

The fair was a success, and the officials under whose management it was put on should feel pleased with the results.

STILL GOING THE ROUNDS

Tom Groves writes Another Interesting Letter To The Planet

He Has Been Dabbling In Politics And Won The Votes

2 Gladstone Terrace, Ripon, England.

Editor Planet,—Just a few lines to let you know that I am still on the top. I am afraid my correspondence won't come up to the mark as my time is taken up in seeing the sights, and it would not do to go into them very deeply or I should be doing nothing but write the history of my time here. But I am sure you will be satisfied with the snap shots, and I know what little I have done, if it's not according to Boyle, you'll know the reason why. Since my last letter I have visited Preston, Manchester and Leeds. I have also spent a few days at Thorp Arch and Boston Spa. I was thinking about looking up the directory in Leeds and calling on Mr. Jackson, the hero from South Oxford, and from a business standpoint compliment him on his success in getting through the lines. When I was in Thorp Arch I got into a little politics myself at the hotel. I had just passed a field and saw a binder at work, and would you believe it was a Massey-Harris New Binder. I felt pleased to think that Canadians were to the front, and on the other hand to think that the English were such fools as to allow other countries to send in their goods and ruin their own trade, and I mailed it right to the mast with a clinking article that appeared in the Yorkshire Post, saying that Secretary Haldane, of the war office, had accepted the tender from a firm in the United States for a hundred thousand horse shoes for the British army. They are all going to vote Tory next election. I am in good health. To-morrow I start for Ireland, and then I have London to do after that, that is if London don't do me. Well, the same old story—I am delighted with the country. With kind regards to old Chatham

Yours sincerely,
TOM GROVES.

A HAPPY EVENT

(Continued.)
A quiet wedding was solemnized at the home of Mr. and Mrs. Jos. Martin, Dover St., when their eldest daughter, Edith, was united in marriage to Mr. Walter Scott Huff, city. The house was beautifully decorated for the occasion with palms, ferns and asters. Miss Frances Martin, sister of the bride, gown in lavender, nuptial veiling, received.

Promptly at 5.30 o'clock the bride entered the drawing room on the arm of her father, handsomely gown in white. French batiste, Irish point and Valenciennes, and carrying a shower bouquet of white roses, to the strains of the wedding march played by Mr. Frank Phelps.

Miss Mayme Martin, sister of the bride, acted as bridesmaid, and was prettily gown in white dotted pois de soir with pink trimmings, and carried pink roses. Mr. Ernest Higley acted as best man. Rev. Dr. Battisby officiated.

The presents received were numerous and beautiful, testifying to the high esteem in which the young couple is held.

After a pleasant dejeuner the happy couple left on an extended trip east.

The out-of-town guests were, Mr. and Mrs. Geo. Neely, Miss Rheda Neely, Mrs. Scarlett, and Miss Huff, Detroit; Mrs. I. T. Mercier, Forest; Miss Mae Campbell, Sarnia; Mr. and Mrs. C. McKnight, Dover Centre, and Mr. and Mrs. Craig, Tupperville.

CLARIFIED AND BOTTLED MILK

To clarify and bottle milk is the only sanitary and up-to-date way to handle such an important product as the dairy as milk, for while it is one of the best and most necessary foods we have it is properly cared for, it is certainly one of the most dangerous if neglected or carelessly handled, and should never be exposed to street dust, as is done in the ordinary way of peddling milk from large cans with open measures. The Steam Turbine Machine used to clarify all the milk sold from the

Maple City Creamery

will certainly take all the impurities out of the milk, thereby removing the danger of many cases of sickness, especially among children, that can be traced directly to the milk supply. Don't take such chances this hot dry weather when you can get

CURE FOR SEASICKNESS.

Old Salt Prescribes Novel Remedy For Neptune's Toss.

A new remedy has been discovered for seasickness. An old sailor has proved that a pocket looking-glass is an infallible cure.

The looking-glass cure must be taken immediately the sufferer steps on board ship. The prescription directs the patient, when the first indescribable feeling comes on, to take out the pocket looking-glass and look himself fair and square in the eyes.

The result is alleged to be that the rolling of the ship, and even the smell of the engines, will pass unnoticed, and a little perseverance will transform a bad sailor into a good one.

"It is a very curious fact, and one for which it is difficult to account," said a noted city physician, "that a casual glance in a looking-glass may arrest seasickness. It may be that the 'woe-begone' countenance is responsible for introducing a vein of humor, and the sufferer resolves to 'cheer up'."

"Personally I think there is a more scientific reason. It is well known among sailors that the rise and fall of the horizon is responsible for the early stages of this distressing malady. Physicians in consequence often recommend their patients to try to fix their eyes on some immovable object, such as a ring on their finger or a book held firmly on the knee. The looking-glass is probably the same kind of antidote to the movement of the ship."

"It would be necessary, of course, to hold the glass firmly and fix the gaze steadily on the reflected image."

"The looking-glass remedy may be something in the nature of a faith cure. If the attention can be absolutely concentrated on the image in the glass and all thought of illness banished there is an excellent chance that the voyage will have no bad effects."

"With regard to the length of time required for the cure, it is a general fact that if sickness can be successfully warded off for several hours the symptoms are not likely to recur, except in cases where no remedy will relieve the unfortunate sufferer, and sea and brain sickness are interchangeable terms."

Origin of the Halo.

"Few people—few even among artists—have any idea of the humble origin of the halo, that conventional emblem of sanctity in all artistic portrayal," said a well known painter just returned from a sojourn in Europe.

"In the eleventh and twelfth centuries, years rich in the building of churches and cathedrals, there were erected around the outside of the sacred edifices statues of the saints, long rows of them sometimes stretching the length of the building and placed for the most part just under the eaves. In time the caretakers of the buildings perceived that the discoloration from the rains falling from the roofs disfigured the images. Accordingly they placed over the tops of them flat wooden disks of sufficient size to protect the statues—embryos of halos, as it were. Giotto began to paint holy pictures, and among country boys, and his ignorance assumed the protecting disk as an essential part of the saint. Hence his earliest paintings represent each sacred figure topped off with what looks much like the bottom of a barrel. Latterly he idealized this into a circle, dark at first, but growing more luminous with each successive production of his artistic fancy until he developed the circle of light that has come down unchanged through generations of painters as the badge of sanctity."

"But," concluded the man of colors, "that celestial sign, emblematic of all that is supernatural, began business merely as an umbrella."

The King's Grape Vine.

The vineyard near Cumberland Lodge, Windsor, which has provided grapes for the royal table for 150 years, has now reached a fine pitch of excellence, owing to the fact that a new glasshouse, giving more room and light has been erected over it by the King's special instructions.

Many improvements have been effected in the lighting and heating arrangements, and the huge branches of the vine are now supported by chains attached from the roof to leather loops, instead of ropes. The new house is five feet wider than the old one, and instead of a lean-to roof a three-quarter span has been constructed, thus giving the vine a much better chance of throwing out shoots.

About 900 bunches of black Hamburgh berries are now hanging from the roof, but in one year, during the reign of the late Queen Victoria, 2,000 bunches were reared. King Edward, however, considered this too many, and the number has since never exceeded 1,000. Some of the bunches this year weigh four or five pounds each.

Battleship as Target.

The old twin-screw armored battleship Hero arrived at Portsmouth recently, thus completing what will probably be her last voyage. She was towed from the Kyles of Bute by the battleship Hannibal.

The Hero is to be used in a series of important experiments to ascertain the effect of modern armor-piercing shells fired under war conditions. Her sides will be heavily armored, and she will be used as a target by the fleet. She will probably go to her doom under her own steam. At any rate, her obsolete guns, barbettes, engines, and boilers will remain intact.

The Hero has a displacement of 6,200 tons, with an indicated horsepower of 4,500 under natural draught, and 6,000 under forced draught. She was built at Chatham, and launched in 1885.

Her armament consists of two 12-inch guns, four 6-inch guns, seven 6-pounders, and smaller guns. She was tender to the gunnery school at Portsmouth for several years, but was relieved and condemned to the scrap heap about 18 months ago.

BOY'S TERRIBLE DEED

Murders His Two Companions While Hunting.

Tragic Ending of a Day in the Woods — Dispute as to Right of Way Resulted in Scuffle—Guy Tardis Discharged His Gun With Fatal Effect — Brothers Were Instantly Killed.

Woodstock, N. B., Sept. 19.—Two boys, Guy and Oscar Downing, brothers, were shot in the woods near here Tuesday by Guy Tardis, who was hunting with his cousin, Fred Tardis. The parties met in the woods and a dispute arose over the right of each party to hunt there.

Guy Downing stood his rifle against the fence and ordered Fred Tardis to do the same. He then seized Tardis by the collar.

Oscar Downing started toward Guy Tardis, who fired his gun, the bullet piercing Downing's lung and coming out at the shoulder blade. He dropped dead.

Guy Downing started to run, but Guy Tardis fired at him, striking him on the top of the head, the bullet plowing its way through the brain and killing him instantly.

The Tardis boys were arrested. The boys were all about 17 and sons of respectable and prosperous farmers.

FOR STATE-OWNED RAILROADS.

Lord Brassey Advocates Operation Solely in Interest of Public.

Liverpool, Sept. 19.—Presiding at a meeting of the Associated Chambers of Commerce here yesterday, Lord Brassey appeared in a new relation, that of an advocate of the state ownership of railways.

He referred to the growing demand that the railways should be managed solely in the interests of the public service and not for the benefit of the shareholders, and declared that if a change of policy was seriously proposed there could hardly be a doubt that it would receive the support of Parliament.

In continental Europe, he added, where the railways were the property of the state, the requirements of the public were fully considered and the results to the treasury were satisfactory, while in Great Britain competition was carried to excess, an immense amount of capital was wasted, shippers were dissatisfied with the burdensome rates and the employees were discontented with their wages and hours of labor.

NEWFOUNDLAND'S POSITION.

Where Would Colony Be as an Independent State?

London, Sept. 19.—(C. A. P.)—Where, indeed, asks The Manchester Guardian, would Newfoundland stand in any negotiations with the United States which she conducted as an independent self-supported state instead of as a colony of the Empire?

She would stand pretty much where Venezuela or Columbia stands—at the mercy of Washington. The difference between that and her present position is one Bond should not forget. It is due to a very tangible "imperial contribution" made at no small cost and risk by the people of this island.

Jail 'Em, Says Cleave.

Louisville, Ky., Sept. 19.—A plea for the punishment by imprisonment of dishonest corporation officials and a protest against the tendency in certain quarters to attribute the recent decline in the stock market to President Roosevelt's policies were made by Henry Cleave, the noted New York banker, in an address before the Kentucky Bankers' Association here yesterday.

Caused a Collision.

Montreal, Sept. 19.—In his decision on the Prescott-Havana collision on July 2, Commander Spain censures Capt. Dunlop of the Prescott and J. K. Nael, inspector of hulls.

The evidence showed that the signal wires of the Prescott were out of order and she was not provided with a speaking tube to the engine-room.

300 Assassinations.

St. Petersburg, Sept. 19.—The police statistics for the month of August record the carrying out of 31 sentences of death, the assassination of 309 persons, of whom 107 were Government officials and 202 were citizens, and the wounding of 178 people in various encounters.

No Abrogation of Treaty.
Ottawa, Sept. 19.—The request of
the Dominion Trades and Labor Con-
gress for the abrogation of the treaty
between Canada and Japan has not
yet been transmitted to Sir Wilfrid
Laurier, but when it is there can be
but one answer.
The desire of the Dominion Cabinet
is an understanding not only with
Japan, but with India, too, which will
prevent the flooding of the labor mar-
ket in British Columbia with Japa-
nese or Hindoos.
There is good ground for believing
that through the exercise of a little
patience this object will be shortly
accomplished.

ALMOST DEAD OF BRONCHITIS.

Few people have suffered more
than John P. Taylor, of Dymont, P.
O., Ont. To-day he is well and writes,
"I must tell you how much Catarrh-
hose has been to me. I was so bad
with bronchitis sometimes that I
thought it would soon be over with
me. A spell of choking would come
on that left me prostrated and weak.
Since using Catarrhose I have had
no trouble at all. It strengthened my
throat, stopped the cough, gave me
free breathing and entirely cured."
Just the usual experience. Catarrh-
hose invariably cures whether
bronchitis, asthma or Catarrh. Two
sizes, 25c and \$1.00, at all dealers.

"WANDA," A HUMAN BOMB.

Planned to Blow Up Secret Police by
Smothering Himself.
St. Petersburg, Sept. 18.—The girl,
nicknamed Wanda, who is accused of par-
ticipation in a plot to blow up the
headquarters of the secret police, sit-
uated on the Moika Canal, whose tor-
ture chambers have aroused most bit-
ter feelings on the part of the revolu-
tionists.

The police claim that Wanda planned
to become a "walking bomb" and
enter the headquarters building in the
middle of the day, when it is generally
full of police, wearing the uniform of
a gendarme officer, lined with wads of
gunpowder and carrying powerful
bombs.

Wanda, the police add, hoped by
blowing herself up to reduce the en-
tire building to ruins and kill all the
officers composing the staff of the
political police. The plot was be-
trayed and the police, in addition to
taking Wanda into custody, arrested
a Jewish tailor, in whose shop they
seized a half ready uniform, which
was intended for the female prisoner.
In consequence of the murderous
designs of the revolutionists, the se-
cret police have decided to give up
their present headquarters, removing
to an isolated stone building on Kam-
enny Island, where an elaborate elec-
tric signal system will be installed
in order to prevent undermining.

FAMOUS JUDGE AND JESTER.

Wit of Scottish Bench Who Lived in
Five Reigns.

The death is announced of Lord
Young, who passed away in a pri-
vate nursing home in the West End
of London. His Lordship, who was
in his 88th year, met with an acci-
dent when walking through the Tem-
ple, and the shock hastened his end.
The cause of death is certified as
cerebral hemorrhage and old age.
His remains were removed to Edin-
burgh for interment. Born when
George III. was still on the throne, his
title was purely honorary—lived in
five reigns. He was still at Edin-
burgh University when Lord John
Russell was fighting on behalf of his
Reform Bill, and before Queen Vic-
toria had been three years on the
throne he was making a name at the
Scottish Bar. For over 30 years he
was a judge of the Court of Session,
Edinburgh, retiring only two years
ago, and his long association was
pleasantly seasoned with the salt of a
ready wit. Before his nomination to
the judgeship by Mr. Gladstone he
made his mark in the House of Com-
mons, where he represented the Wig-
town Burghs in the Scotch constitu-
ency. He was twice elected Scottish
General to Scotland and Lord Advocate.
It has been said of Lord Young
that he was the only judicial bench-
man of whom Scotland could boast.
One of the shrews attributed to him
was that there are three degrees of
those who bear the name of Young:
the first, the second, and the third.
In the case of a clever scoundrel
who had covered some time as a
philanthropist, an advocate pleaded
clemency, reminding the judge that
those who gave to the poor lost to
the Lord. "Yes," said the judge, "I
know that, but I'm afraid you can-
na cash your name's post office in this
court."

A Heavy Punishment.
Another of his sayings was
that the gift of half a million to the
Church of Scotland by the late Mr.
James Baird, the brewmaster, was the
heaviest fine insurance premium
ever paid. "He was giving the
brewery when some one told Lord Wal-
mer had been returned by three votes
for West Edinburgh. The next ar-
rival explained that the figures should
have been 300, and that two Lords
of Session, whom he named, had voted
for Lord Walmer. "They were right
for the two ciphers," said Lord Young.
Going on assize with the late Lord
Deas, when it was the custom to open
the court with prayer, Lord Young
remarked at luncheon afterwards,
"Very long prayer that fellow gave
us to-day, but, after all, I suppose
it's quite right when Deas goes in
an circuit that the attention of the Al-
mighty should be specially called to
the fact." When one of the Lords
Ordinary in the outer House of the
Court of Session, Young had a some-
what heavy roll of business, some-
times owing to a vacancy. "The Ben-
ch having been kept open longer than
usual. One of his colleagues at the
time was Lord Craighill, and the new
judge, when at last he was appointed,
took the title of Lord Curriehill. On
the appointment being announced
Lord Young gratefully accepted the first
two lines of the 131st Psalm:

I to the "hills" will lift mine eyes,
From whence doth come mine aid.

Lord Young's speeches and stories
were always good. At the banquet
which followed the ceremony of dis-
missing him from the freedom of Dum-
fries, four years ago, he told the com-
pany a story about his father who
in the old days owned some very fine
apple trees.

Raids Upon Fruit.

There were many raids made upon
the fruit, and Lord Young's father
laid hold of a likely youth one day
and offered him half-a-crown if he
would give a hint as to who was re-
sponsible. The boy accepted the
money on the condition that when
the culprit's name was disclosed he
would not be punished. In telling this
story Lord Young caused much merriment
by turning to the Provost
of the town, who was in the chair,
and asking him what he did with
the half-a-crown. His Lordship was
one of the last links with Robert
Burns. He knew Jean Armour,
Burns' widow, and frequently partook
of hospitality in the house in which
the poet had lived, and in which Burn's
children and the poet's grand-neph-
ew, who lived with Jean Armour, fre-
quently visited his father's house.
Lord Young was one of the bench-
ers of the Middle Temple, and though
his visits were rare, he was one of the
most popular of the Masters. He
excepted only the King, who from
the time of his election when Prince
of Wales of course took priority.

British Heroes' Rewards.

Gold medals and \$30,000 has been
presented by the Carnegie Hero Fund
Commission to eight British heroes as
tributes to their splendid pluck. The
recipients are the captain and crew
of seven of the British schooner Elsie,
the award being made for their heroic
attempt to save those aboard the
steamer Larchmont, which was sunk
in Long Island Sound, New York,
on February 11. During a terrific gale,
when the thermometer was nearly at
zero, the Larchmont collided with a
three-masted schooner Harry Knowl-
ton and sank in a few minutes. The
Elsie stood by, and the crew, at great
personal risk, picked up as many sur-
vivors as possible. The Larchmont,
says the "Express," was an old-fash-
ioned, wooden, three-decked paddle
steamer plying between Providence
(Rhode Island) and New York. A
number of passengers who managed to
leave the sinking steamer in boats or
on rafts were afterwards swept away
by the mountainous seas or frozen to
death. Between 175 and 200 persons
were lost, and a number of those re-
scued afterwards died from exposure.

Spared That Calamity.

"Has you ever been kicked by a
mule?"
"No, thank de Lord! I never has
experienced nuthin' wuss 'n a house
callin' on me!"

PILES

"I thought I must go on suffering
from piles until I died but Zam-Buk
cured me," says Mrs. E. East, of Steen-
burg (Ont.), and adds: "I was so weak-
ened that I could hardly move about, and a little
work caused me great agony. The pain of
this grand pain, and I am thankful to
Zam-Buk who has cured me."
Zam-Buk also cures hemorrhoids, piles, stiffness,
swelling, itching, sore throat, rough red skin
patches, and all skin diseases and diseases. Druggists
everywhere. A box, of Zam-Buk Co., Toronto, 5
cents.

Forty Jap Sailors Killed.

Tokio, Sept. 18.—Forty of the crew
were killed and injured on board the
Japanese battleship Katsuragi by an
explosion after target practice near
Kure, at 4 p. m. on Sept. 12.
The explosion was caused by a shot
from the Katsuragi, which was fired
at a target ship. The shot struck the
Katsuragi's mainmast, and the explosion
killed 40 sailors and wounded many
others. The Katsuragi is the largest
battleship in the Japanese fleet.

Pain anywhere, pain in the head,
painful periods, Neuralgia, tooth-
ache, all pains can be promptly stop-
ped by a thoroughly safe little Pink
Candy Tablet, known by Druggists
everywhere as Dr. Shoop's Head-
ache Tablets. Pain simply means
congestion—undue blood pressure at
the point where pain exists. Dr.
Shoop's Headache Tablets quickly
equalize this unnatural blood pres-
sure, and pain immediately departs.

Illness, Worry, Suicide.

Woodstock, Sept. 19.—Catherine
Sarah Howell, aged 54 years, the wife
of George H. Treffry, who lives two
miles east of Hawtry, committed sui-
cide by swallowing the contents of a
four-ounce bottle of carbolic acid. The
rash deed was the result of worry, as
the deceased's husband had been ill
for a long time. An inquest is deemed
unnecessary.

What a splendid type of tireless activity is the sun as the psalmist describes it issuing like a bride- groom from his chamber and rejoic- ing like a strong man to run a race." Every man ought to rise in the morning refreshed by alumber and renewed by rest, eager for the struggle of the day. But how rarely this is so. Most people rise still unrefreshed, and dread the strain of the day's labor. The cause of this is deficient vitality and be- hind this lies a deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man en- ergy and strength, as will Dr. Pierce's Golden Medical Discovery, discovered by increasing the quan- tity and quality of the blood sup- ply. This nourishes the nerves, feeds the brain, builds up enfeebled organs and gives sense of strength and power which makes the strug- gle of life a joy. The "good feel- ing" which follows the use of "Gold- en Medical Discovery" is not due to stimulation, as it contains no stim- ulant. The ingredients are plainly stated on the bottle-wrappers. It does not "brace-up" the body, but it puts it into a condition of sound and vigorous health.

Witty Women.

Women have more wit than men.
They are more sensitive than men.
Their minds are nimble. Their
thoughts flash instantly into their
conclusion; hence wit is far more nat-
ural to them. They have hardly the
intellectual patience to create or enjoy
the less obvious and more deliberate
moods of humor.

Minard's Liniment Co., Limited.
Gentlemen,—I was badly kicked by
my horse last May, and after using
several preparations on my leg, noth-
ing would do. My leg was black as
jet. I was laid up in bed for a
fortnight and could not walk. Af-
ter using three bottles of your MIN-
ARD'S LINIMENT I was perfectly
cured, so that I could start on the
road.

Suggestion in London Times That Na-

Widespread Approval—Plague Spot
of Europe—Thousands Are Ruined
Every Year—Haunt of All Kinds of
Adventurers.

An interesting letter in The Times,
signed "Indicus," suggests that it is
time an end should be put to Monte
Carlo, the plague spot of Europe.
"Before this hideous Monte Carlo
tragedy ceases to be a nine-days' won-
der," writes "Indicus," "I would sug-
gest that it is time attention should be
drawn to the fons et origo mali,
the gambling rooms of that too no-
torious place."
"I speak as one who knows, having
visited the place several times. Monte
Carlo, near the villa which the Goelds
owned, was a small town. How long
ago the nucleus of Europe going to in-
crease the continuance of this plague
spot in their midst!"
"That is the question three should be
asked in the press and disseminated
of every European country, where gam-
bling is so much a part of the life, and
yet they think that their own gam-
bling houses are not so bad as those of
Monte Carlo."

"The profits, I may state, coming
from the tables, which average \$1,000,000
annually, are divided between the
shareholders, the municipality, and
the Prince of Monaco. On the
game day the Goelds are supposed
to have won the game, and the profits
which they have won are divided be-
tween the shareholders and the Prince

Max Pemberton's Views.

Max Pemberton, the loyalist, who
is an authority on Monte Carlo, has
recently said that the diplomatic situa-
tion would make any such action diffi-
cult. "I cannot pronounce an opinion on
a crime that is still untried," he said,
"but one thing is clear—Monte Carlo
is the home of every adventurer and
adventurer in the world. It is as
difficult to keep away from the tables
as it is to keep away from the tables."

ABERDEENS 17 — ROCKETS 7

In a game which was to decide the junior championship of the city, the Aberdeens easily defeated the Rockets on Tecumseh Park yesterday afternoon.

The Aberdeens made ten runs in the first four innings, while the Rockets were blanked. Knott, who was in the box for the first four innings, was his hard; he was then taken out and Gommil took his place, but he had little effect on the Aberdeens, who had their batting eye with them. The Rockets are composed of intermediate and junior players, and looked like winners till they started to play, when it soon became quite evident that they were no match for the speedy little Aberdeens. Their fielding was poor and the throwing to bases was very wild at times.

The Aberdeens played a good, steady game, giving Johns good support. After they had the game clinched, they did not care whether the Rockets scored or not, which accounts for the Rockets' runs.

Gillis played a good game for the Rockets, while Johns and Clements, the battery for the Aberdeens, did good work, Johns striking out ten men. McLean as short, Pickler on first and Gifford on second played a star game throughout.

This makes four straight wins by the Aberdeens, and will, no doubt, be the last game this season, as they intend to disband.

FLEMING—HENDERSON

The residence of Mr. and Mrs. John Henderson, English St., was the scene of an elaborate wedding yesterday, when their eldest daughter, Maud E., became the bride of Mr. James Gibb Fleming, of the well known local firm of J. W. Fleming & Son.

The bride was given away by her father, and the nuptial knot was securely tied by Rev. Geo. Gilmore under a large arch of ferns from which was suspended a floral horse-shoe.

The duties of bridesmaid were performed by Miss Nettie Henderson, the bride's sister, while Mr. John Livingstone, of Chatham, acted as the groom's best man. Little Selva Halliday, of Berlin, prettily groomed, was flower girl, and carried sweet peas. Master Ainslee Henderson was ring bearer, carrying the wedding ring on a gold tray.

The gifts of the groom were as follows:—To the bride a gold crescent pin set with pearls. To the bridesmaid, ribbon girls and flower girl a bracelet each, to the groomsmen and pianist each a stick pin set with pearls, to each of the ribbon boys gold cuff links, and to the ring bearer a signet ring.

Mr. and Mrs. Fleming left in the afternoon to take the train from Chatham on a honeymoon trip to eastern points, and will be back to reside in Blenheim about Oct. 1st.

Among the out-of-town guests were the following:—Mrs. William Jack and Miss Coral Jack, Cayuga; Dr. and Miss Fleming, Robt. Fleming and wife, George Wanda and wife, Chatham; Miss Edith and Eva Stewart, Mr. Samuel and Miss Ella Stewart, Mr. and Mrs. David Henderson and others from Tilbury; Mr. Alex. Ainslee, the bride's grandfather, Mrs. M. Cullen, Mr. and Mrs. Geo. Ainslee, Mr. and Mrs. Frank Conduit, Comber; Mr. and Mrs. Jos. Ainslee, Leamington; Mr. and Mrs. J. N. Halliday, Mr. and Mrs. Bart. Fraser, Berlin. — Blenheim News-Tribune.

JANE ADDAMS MADE HOSPITAL DOCTORS GASP

Chicago, Sept. 18.—Miss Jane Addams, the Hull House sociologist, was asked last evening to address the American Hospital Association on a "Layman's View of Hospital Work." She accepted and some of her views were so frankly expressed that she made the hospital physicians present gasp.

"There is an inclination in some quarters to overlook individuality," she said. "The same treatment is not always accorded charity patients that is given those with money. In America, contagious cases are rushed away and isolated and relatives are unable to see the sufferers. In France, they are placed in wards partitioned off with glass, and the patients can be visited and hold conversations with their dear to them."

"Again, it is common in this country to rush a charity patient out as soon as he is able to leave his bed. In Germany, it is almost compulsory for the hospitals to keep convalescent patients until they are able to go back to work."

Be polite.
