REPORT OF THE DEPUTY MINISTER.

To the Honourable

SIR R. J. CARTWRIGHT, G.C.M.G.,  
Minister of Trade and Commerce.

SIR,—In submitting the fifth annual report of the Department, it is gratifying to be able to point to the substantial increase during the year under review of the trade of the Dominion as compared with previous years, and in particular with that ended 30th June, 1896, which showed a greater aggregate trade than any up to that time since Confederation. Not only has there since been a very material increase in the *value* of both imports and exports which might have been taken as and is to a certain extent a natural consequence of the appreciation of prices were the fact not demonstrated by the Tonnage Tables that there has been an increase in volume equally as material.

The aggregate value of the imports during the year is less than in 1873, 1874, 1875, 1882 and 1883, when exceptionally high prices prevailed, and less than from 1890 to 1894, inclusive; but as regards exports the value is nearly sixteen millions greater than in any previous year, and although in 1895 and 1896 the *total* exports largely exceeded the *total* imports, and in 1870-1871, and from 1893 forward the *total* exports exceeded the imports *entered for consumption*, yet in no previous year since Confederation have the exports of *home produce* exceeded the total imports, such excess this year is nearly four and one-half millions.

A reference to No. 9 Statement of Quantities and Values of Principal Articles Exported, &c., will show wherein have occurred the chief variations both as to quantities and values during the past *fifteen* years, and while there has been this year, as compared with the previous one, a falling off in the value of live animals, fish, furs, hay, leather and manufactures thereof, and other items of minor importance, there has been a marked increase in breadstuffs, fruits, metals and minerals, provisions, notably butter, cheese, eggs, bacon and hams, and in lumber, wool, &c.

Statements Nos. 3, 4 and 5 show the values for each of the past five years of imports from, exports to, and aggregate trade with the various countries with which Canada has business connections. These tables, although in a condensed form, will, it is hoped, prove of interest to those desirous of knowing the *trend* of Canadian trade.

Other statements not heretofore published have been added with a view to making apparent further fast-growing potentialities.

Advantage is also taken of the opportunity afforded for alluding to and making record of important events materially bearing upon Canadian trade interests which have transpired since the issue of the last annual report of the Department.

In this connection is noted the fact that in the past Canada has been in a manner hampered in her desire to assist in developing the enterprise of those engaged in her export trade by reason of obligations imposed upon her in certain treaties made in years

gone by between the Mother Country and various nations, in which the terms of the so-called *most-favoured-nation clauses* debarred her from entering into reciprocal trade relations with foreign countries or giving preferential tariff rates to the Mother Country unless giving the same advantages without compensation to *all* holding most-favoured-nation treaties.

The countries with which Great Britain has Treaties still in force defined by the Law Officers of the Crown as binding in this respect upon Canada are:—

Argentine, Austria-Hungary, Belgium, Bolivia, Columbia, Denmark, France, Germany, Liberia, Morocco, Norway, Persia, Russia, Salvador, South African Republic, Spain, Sweden, Switzerland, Tonga and Venezuela.

The most objectionable from a Canadian point of view by reason of their peculiar wording are those with Belgium and Germany.

The interpretation put upon them by the Imperial Authorities being that:—

1. *They do not prevent differential treatment by the United Kingdom in favour of British Colonies.*
2. *They do prevent differential treatment by British Colonies in favour of the United Kingdom.*
3. *They do not prevent differential treatment by British Colonies in favour of each other.*

And in effect further than a self-governing colony like Canada cannot enter into a trade arrangement through the Home Government with any Foreign Power giving in return for compensating advantages any tariff concessions whatever unless such concessions shall be fully shared in unconditionally by all countries holding most-favoured-nation treaties, by the Imperial Government and by all sister colonies. Canada has more than once had occasion to approach the Home Government with the suggestion if not request that in the interest of inter-Imperial trade these two Treaties should be either modified or abrogated if the broad interpretation put upon their meaning was to be adhered to—but on each occasion the time for action in connection therewith did not seem opportune—and it was only on a direct offer of Reciprocal Tariff and Preferential Treatment of articles the growth, produce or manufacture of countries admitting such products of Canada on like favourable terms—as embodied in section 17 and Schedule D. of the Canadian Tariff Act—chap. 16 of 50, 61 Victoria—in force on and from the 23rd of April, 1897, that the wishes of Canada in respect of such treaties were acceded to—and the Imperial Authorities at or during the celebration of Her Majesty's Jubilee, in the month of June, 1897, took the necessary steps toward the abrogation of the two treaties in question—thus opening from the 1st day of August, 1898, at which date they determine, the door for such action as it is hoped will lead to an unprecedented increase of inter-Imperial trade and a further cementing together of the interests of the 375,000,000 of human beings living under the protection of the British flag.

The Act 50-51 Victoria, chapter XI (1887) which provided for placing the Departments of Customs and Inland Revenue under control and supervision of the Minister of Trade and Commerce which was brought into force 3rd December, 1892, was by the Act 60-61 Victoria, chapter XVIII, repealed and those departments

## Trade and Commerce.

restored to their former independent status from the 29th June, 1897, or practically from the close of the fiscal year covered by this report.

Special Trade Commissioners were appointed in the month of May to visit Japan, Mexico, the Central and South American States with a view to ascertaining from personal investigation to what extent and in what manner an increase of trade between Canada and those countries can be brought about; their reports will it is hoped be ready for publication shortly.

The value of commercial statistics is in proportion to the promptness with which they are made public. The figures in an annual report covering the ground and entering into details as does this one cannot be collated and published until some months after the close of the fiscal year, they therefore lose in a measure their immediate value and assume the role of an historical record. In order, therefore, that the ascertained results of the trade and commerce of the country up to the date of issue from the press may be placed before those interested, the aggregates (unrevised) of the imports and exports for the six months to the 31st December, 1897, as compared with those for the previous six months and for the half-year ended 31st December, 1896, are hereto appended from which it will be seen that the recent impetus given to Canada's export trade has resulted in an unprecedented increase during the past half-year, and gives promise, if no unforeseen disaster occurs, of continued prosperity during the remaining half.

It should be noted that the figures given in the various statements herewith published have reference to *total* imports and exports unless otherwise stated.

All of which is respectfully submitted.

W. G. PARMELEE,  
*Deputy Minister of Trade and Commerce.*

## COINAGE, WEIGHTS AND MEASURES.

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce ( $437\frac{1}{2}$  grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the "Imperial Gallon," contains 277.274 cubic inches, or 353.036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word "Metric" being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver bullion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs .801 of an ounce, its fineness is .900, therefore  $75 \times .801 = 60.075$  which  $\times .900 = 54.0675$ , or a small fraction over 54 cents, as the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard*; thus for instance on a certain day the London quotation reads "fine silver per ounce standard 32 d.," while on the same day it is quoted in New York "69½ cents per ounce fine;" as 32 d. is equal to a fraction over 64½ cents, there would appear a difference of about 4½ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York "fine" to London "standard"

## Trade and Commerce.

(of .925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about  $\frac{2}{3}$  of one cent per ounce, the London price being that much in excess of the New York.

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

\* Old weights and measures sometimes used. † The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1 113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese monmes, or 579 72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3 61 grains from the weight usual (say 1 1/2 oz. per tael) in dealing with the weights other than those of gold and silver. † For many years the value of the peso in Chili has been 91 2 cents, but by the Resumption Act of Feb. 11, 1886, the value of the peso is made equal to 18 pence = 36 5 cts.

§ Usually reckoned the same as the Chinese picul of 133½ lbs. \* Old weights and measures sometimes used. † It has been recently stated that Tripoli has adopted the Turkish monetary system. ‡ This is long measure. Cloth measure is 25% greater in length than long measure. Therefore by cloth measure 1 sun = 1-4916 in., 1 shaku = 14-916 in., and 1 I jo = 149-16 in. ¶ Japan has adopted the Gold Standard, which came into effect Oct. 1st., 1897. Value of Gold Yen being 49½ cts.

TABLE of constant Factors, which multiplied by the current value per ounce of silver, either pure or standard as the case may be, will give the value of the silver contained in the coin referred to, to which if there be added a small percentage to cover the value of the alloy and the cost of coinage, the aggregate will equal the then intrinsic value in Canadian currency of the coin in question.

## CHINESE IMMIGRATION.

No. 51.—STATEMENT showing the TRANSACTIONS under the CHINESE IMMIGRATION ACT to the 30th June, 1897.

The Act went into force as respects arrivals by vessels sailing from ports in North America on the 20th day of August, 1885, and as respects arrivals by other vessels on the 1st day of January, 1886, *vide* 48-49 Victoria, chapter 71.

The Act as it appears in the Revised Statutes, chapter 67 (1866), is slightly changed from the original. There have been since then two amendments thereto, *viz.*, as per 50-51 Victoria, chapter 35 (1887), and 55-56 Victoria, chapter 25 (1892).

The administration of the Act was by Order in Council of 1st September, 1885, assigned to the Department of Customs and transferred to the Department of Trade and Commerce by Order in Council of the 13th of March, 1893.

The annual revenue, expenditure, &c., under the Act has been as follows:—

During the same period 8,702 have taken out certificates of leave or registered for leave up to 30th June, 1897, while a very large number have left the country without so registering, having no intention of returning, so that, for this latter reason, the exact number remaining in the country is uncertain.

## TREATIES AND CONVENTIONS.

Since the publication of the last Annual Report, the Treaties between Great Britain and Belgium of date 23rd July, 1862, and between Great Britain and Germany (German Zollverein) of date 30th May, 1865, have both been denounced and will terminate July 31st, 1898.

The most favoured nation clauses in the Treaty with Chili previously reported as having been denounced came to an end on the 31st May, 1897.

Similar clauses in the Treaty with Costa Rica terminated on the 26th November, 1897.

Under the provisions of a recent Anglo-French agreement relating to Tunis the Treaty heretofore in force with that country binding on Canada terminated December 31st, 1897. (See supra.)

A Treaty (Commercial Agreement) between Great Britain and Bulgaria was signed at Vienna  $\frac{1}{2}$  July, 1897.

Article 5 provides that the Arrangement shall be applicable, so far as the laws permit, to all the colonies and foreign possessions of Her Britannic Majesty, unless notification of refusal to accept be given within six months from the date of signature by Her Majesty's Representative at Sofia to the Bulgarian Minister of Foreign Affairs.

Upon the report of a Committee of the Honourable the Privy Council approved by His Excellency the Governor General under date of 23rd September, 1897, the Right Honourable the Secretary of State for the Colonies was advised of the non-acceptance of the Treaty on the part of the Government of Canada, and such non-acceptance was duly notified to the Bulgarian Minister on the 16th November, 1897.

### COMMERCIAL AGREEMENT BETWEEN GREAT BRITAIN AND BULGARIA.

SIGNED AT VIENNA,  $\frac{1}{2}$  JULY, 1897.

*Commercial Arrangement between the United Kingdom of Great Britain and Ireland and the Principality of Bulgaria.*

The undersigned, Francis Edmund Hugh Elliott, Esq., Her Britannic Majesty's Agent and Consul General in Bulgaria, and His Excellency Dr. C. Stoiloff, President of the Council and Minister for Foreign Affairs and Public Worship of His Royal Highness the Prince of Bulgaria, Grand Cross of the Princely Order of St. Alexander in Brilliants, Grand Cordon of the Orders of the Osmanieh and Medjidieh in Brilliants, &c., duly authorized by their respective governments, have agreed as follows :—

Article 1. British subjects in Bulgaria, and Bulgarians in the United Kingdom of Great Britain and Ireland, shall respectively enjoy, immediately and unconditionally, in all matters relating to navigation, industry and commerce, including importation and exportation, as well as transit, the same rights, privileges, liberties, facilities, immunities, and exemptions as are enjoyed, or may hereafter be enjoyed, by natives or by subjects of any other foreign State, without payment of any impost, tax, customs duty, or other due, charge or expense, other or higher than those to which the latter are liable ;

further, no customs duties or other dues or charges shall be levied at any one frontier different from or higher than those which are levied at any other frontier on similar articles. British subjects in Bulgaria, and Bulgarians in the United Kingdom of Great Britain and Ireland, shall enjoy perfect equality of treatment with natives and the subjects of every other foreign State in all matters relating to bonding, bounties, drawbacks, facilities, patents for inventions, trade-marks, distinctive marks of manufacture or of origin, patterns and designs.

Art. 2. No prohibition or restriction shall be maintained or decreed against the importation of any article the produce or manufacture of one or other of the contracting countries, from whatever place arriving, which shall not equally apply to the importation of the like article produced or manufactured in any other foreign country. It is, nevertheless, understood that each of the contracting parties reserves the right to apply sanitary measures and restrictions affecting the importation of any goods or articles injurious to public health, or to animals or plants.

Art. 3. Her Britannic Majesty's Government consents that during the term of the present Arrangement, articles of British origin or manufacture shall pay, on entering Bulgaria, the customs, octroi, and excise duties specified in Annex (A) and in the Final Protocol of the Treaty signed on the 27<sup>th</sup> December, 1896, between the Austro-Hungarian and Bulgarian Plenipotentiaries, saving all reductions which have been or may be granted to other Powers, and excepting the articles scheduled in Annex 2 of the present Arrangement, which shall pay the duties therein specified.

Art. 4. Annexes Nos. 1, 2 and 3 shall be considered as forming an integral part of the present Arrangement.

Art. 5. The present Arrangement shall be applicable, so far as the laws permit, to all the Colonies and foreign possessions of Her Britannic Majesty, provided always that each of the said Colonies and foreign possessions shall be free to refuse its acceptance of the Arrangement within six months from the date of the signature thereof, notification to that effect being given by Her Majesty's Representative at Sophia to the Minister for Foreign Affairs of His Royal Highness the Prince of Bulgaria.

Art. 6. The present Arrangement shall come into effect on the 1<sup>st</sup>/<sub>4</sub> July, 1897, and shall remain in force until the 1<sup>st</sup>/<sub>4</sub> December, 1899.

In case neither of the contracting parties shall have notified six months before the end of the said period the intention of putting an end to it, the Arrangement shall remain binding until the expiration of one year from the day on which one or other of the contracting parties shall have denounced it.

*Circular addressed on the 3rd April, 1885, by the Ministry of Finance of the Principality to the Collectors of Customs at Bulgarian Ports, No. 8752.*

The Tariff relative to the collection of port dues annexed to the Ordinance of the 28th February of the present year, No 5277, provides for somewhat high dues; several of these dues are, indeed, useless. The Ministry of Finance, being desirous of avoiding claims on the part of native or foreign ship-owners, and wishing to avoid all difficulty, has drawn up the accompanying Tariff, instead of, and in the place of, the old Tariff, and the modifications which have been introduced into it on different occasions by former Circulars. You are therefore requested, M. le Directeur, to be guided by the new Tariff in the collection of port dues payable by vessels arriving in our ports.

### *Tariff of Port Dues.*

1. For anchorage and buoyage :—

All merchant-vessels under the Bulgarian or a foreign flag arriving in Bulgarian ports in which loading or unloading of cargo is permitted, shall pay the following dues :—

1. If vessels neither load nor unload within eight days after their arrival in port, they shall pay no dues. At the expiration of this period, if they begin to load, they shall pay :—

- (a.) Vessels up to 5 tons, 1 fr.
- (b.) “ from 5 to 50 tons, 2 fr. 50 c.
- (c.) “ “ 50 to 300 “ 10 fr.
- (d.) “ “ 300 to 600 “ 15 fr.
- (e.) “ “ 600 tons and over, 20 fr.
- (f.) Tugs or rafts, 2 fr.

Vessels which, after a period of eight days, load no cargo, shall pay half the above dues, but if after paying the latter they commence to load, they shall pay the other half.

Note 1 : Small vessels trading with a coasting certificate, mail-steamers and Navigation Companies performing a regular service are exempted from payment of these dues.

Note 2 : Vessels coming from a Bulgarian port shall pay half the anchorage dues.

Note 3 : Exemption from anchorage dues is also granted to vessels which by stress of weather, or other accident of the seas, touch at a point on the coast where loading and unloading of cargo is not allowed.

2. Dues payable yearly by owners of Bulgarian vessels and craft :—

- (a.) Every owner of a vessel measuring up to 5 tons pays 8 fr. a year.
- (b.) Every owner of a vessel measuring from 5 to 50 tons pays 15 fr. a year.

- (c.) Every owner of a vessel measuring from 50 to 100 tons pays 25 fr. a year.
- (d.) Every owner of a vessel measuring from 100 to 200 tons pays 40 fr. a year.
- (e.) Every owner of a vessel measuring 200 tons and above pays 50 fr. a year.

Small fishing-boats and floating mills are exempt from payment of these dues. Fishing-boats shall pay only the dues imposed by the Fisheries Law, and mills shall pay the dues imposed by the Law of Licences.

(3.) New vessels built in the Principality will pay, when launched :—

- (a.) Vessels measuring 5 tons, 2 fr.
- (b.) “ “ from 5 to 50 tons, 10 fr.
- (c.) “ “ “ 50 to 100 “ 15 fr.
- (d.) “ “ “ 100 to 200 “ 20 fr.
- (e.) “ “ “ 200 tons and over, 25 fr.

4. Vessels built abroad, and flying the Bulgarian flag, shall pay dues at the rate provided for in section 3.

5. Duty for furnishing various documents, and for *visa* :—

(a.) Vessels under the Bulgarian flag desiring to provide themselves with a certificate of their nationality are liable to—

1. Vessels measuring from 5 to 300 tons, 10 c. a ton.

2. Vessels measuring above 300 tons, 4 c. a ton more. The certificates must further bear a registration stamp of 1 fr.

(b.) For a clearance certificate delivered to vessels under the Bulgarian flag, 5 fr. is collected. The certificate must also bear a stamp of the value of 1 fr.

(c.) For a list of the crew supplied to vessels under the Bulgarian flag, for a long or short voyage, 2 fr. is collected.

(d.) For a navigation certificate for the coast furnished to small boats, 1 fr. This certificate must bear a 50 c. stamp.

(e.) For drawing up or legalizing any certificate, 4 fr.

(f.) For *visa*, on the vessel's departure, 2 fr.

Note 1 : The documents furnished to small craft plying along the coast are exempt from the *visa*.

Note 2 : All other dues for drawing up and legalizing various certificates relating to navigation are collected by the competent Courts or by Bulgarian Agencies abroad, in accordance with the Tariff annexed to the Law of Navigation and Commerce (See *Législation Ottomane*," Tome I, translated by Ch. S. Arnaudoff, p. 346.)

6. Ballast dues :—

(a.) Every vessel discharging ballast in a Bulgarian port in the place fixed by the port authority shall pay a duty of 3 centimes on every ton of the vessel's measurement. If the ballast is discharged ashore, or into another vessel, no dues are leviable.

(b.) Every vessel taking in ballast in a Bulgarian port in which ballasting is farmed out, shall pay the contractor the price fixed by the Tariff in force.

Harbour dues must be paid in silver when they do not exceed 20 fr. and above that amount in gold, as is laid down by the custom-house Regulations.
