Mr. Speaker reported, That when The House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a Speech to both Houses of Parliament, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he read to the House, as followeth:—

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

It is with much satisfaction that I again have recourse to your advice and assistance in the administration of the affairs of the Dominion.

By the sudden and lamented death of the late Right Honourable Sir John Thompson, Canada has sustained a grievous loss. The deep and heartfelt sympathy expressed by Her Most Gracious Majesty the Queen, and the manifestations of sorrow with which the distressing intelligence was received throughout the Empire, as well as tokens of esteem and respect everywhere paid to the memory of the deceased statesman, have been gratefully appreciated by the people of Canada.

Satisfactory assurances having been received from Her Majesty's Government respecting the interpretation of certain clauses in the Treaty of Commerce with France, ratifications will be exchanged as soon as the necessary legislation has been passed.

The recent action of the Imperial Parliament enabling the various Australasian Governments to enter into preferential trade relations with the other self-governing Colonies of the Empire, affords gratifying proof that the suggestions of the Colonial Conference are being favourably entertained by Her Majesty's Government.

In conformity with a recent judgment of the Lords of the Judicial Committee of the Privy Council, to the effect that the dissentient minority of the people of Manitoba have a constitutional right of appeal to the Governor General in Council against certain Acts passed by the Legislature of the Province of Manitoba in relation to the subject of education, I have heard in Council the appeal, and my decision thereon has been communicated to the Legislature of the said Province. The papers on the subject will be laid before you.

The depression in trade which has prevailed throughout the world for the past few years has made itself felt in Canada, but, fortunately, to a less degree than in most other countries. Although this has not resulted in any considerable decrease in the volume of our foreign trade, yet, owing to low prices and recent reductions in, and removal of, taxation, it has been followed by a serious decrease in revenue derived from Customs and Excise. In order to produce equilibrium between revenue and expenditure for the coming year, it will be necessary to observe the greatest possible economy in the appropriations for the various branches of the public service.

During the period that has elapsed since the last Session of Parliament, I have had an opportunity of visiting many portions of the Dominion, including the Maritime Provinces, Manitoba, the North-west Territories and British Columbia. Throughout these tours I have been impressed and gratified by manifestations of an abounding loyalty and public spirit; and, notwithstanding the phase of trade depression already referred to, I observed everywhere unmistakable signs of that confident hopefulness in the future, based on a thorough belief in the greatness of the resources of Canada, which is one of the characteristics of her people, and which furnishes a good augury and pledge of further development and progress.

The Government of Newfoundland having intimated its desire to renew negotiations looking to the admission of that colony into the Dominion of Canada, a sub-committee of my advisers have recently met in conference a delegation from the

Island Government and discussed with them the terms of union. It will be a subject of general congratulation if the negotiations now pending result in the incorporation of Her Majesty's oldest colonial possession into the Canadian Confederation.

Measures relating to bankruptcy and insolvency, and to joint stock companies will be laid before you. You will also be asked to consider certain amendments to the Insurance Act, to the Act respecting Dominion Notes, to the Dominion Lands Act, to the Indian Act, to the North-west Territories Representation Act, and also, a Bill respecting the land subsidy of the Canadian Pacific Railway Company.

Gentlemen of the House of Commons :

I have directed that the accounts of the past year shall be laid before you. The Estimates for the ensuing year will also be presented. They have been framed with every regard to economy compatible with the efficiency of the public service.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I now leave you to the discharge of the important duties devolving upon you with an earnest prayer that, being guided by the spirit of wisdom and patriotism, your deliberations may, under the divine blessing, conduce to the unity and well-being of Canada.

On motion of Mr. Foster, seconded by Mr. Costigan,

Ordered, That the Speech of His Excellency the Governor General to both Houses of the Parliament of the Dominion of Canada, be taken into consideration To-morrow.

On motion of Mr. Foster, seconded by Mr. Costigan,

Resolved, That Select Standing Committees of this House for the present Session be appointed for the following purposes:—1. On Privileges and Elections.—2. On Expiring Laws.—3. On Railways, Canals and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9. On Agriculture and Colonization,—which said Committees shall be severally empowered to examine and enquire into all such matters and things as may be referred to them by The House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

Mr. Speaker communicated to The House, the Report of the Joint Librarians of Parliament, on the state of the Library of Parliament. (*Sessional Papers No. 17*)

And then The House adjourned till To-morrow.

Friday, 19th April, 1895.

PRAYERS.

The following Petitions were severally brought up, and laid on the Table:—

By Mr. Coatsworth,—The Petition of Mary Bradshaw Falding, of Rockliffe Park, in the Township of Gloucester, in the County of Carleton, in the Province of Ontario, the lawful wife of Frederick John Falding, of the City of Cleveland, in the State of Ohio, one of the United States of America, mining engineer; and the Petition of the Toronto, Hamilton and Buffalo Railway Company.

By Sir James A. Grant,—The Petition of William Jackson Conroy, of the Township of Hull, and others of other places in Quebec and Ontario; and the Petition of Alexander Maclaren and others, of the Town of Buckingham and other places.

By Mr. Rosamond,—The Petition of the Municipal Council of the County of Lanark, Ontario.

By Mr. Denison,—The Petition of James G. Howorth and others, of the City of Toronto, Ontario.

Mr. Foster, a Member of the Queen's Privy Council, delivered to Mr. Speaker a Message from His Excellency the Governor General, signed by His Excellency; and the said Message was read by Mr. Speaker (all the Members of the House standing and being uncovered), and is as followeth:—

ABERDEEN.

The Governor General transmits to the House of Commons an approved Minute of Council, appointing the Honourable George Eulas Foster, Minister of Finance, the Honourable Sir Charles Hibbert Tupper, Minister of Justice, the Honourable John Graham Haggart, Minister of Railways and Canals, and the Honourable Joseph Aldric Ouimet, Minister of Public Works, to act with the Speaker of the House of Commons, as Commissioners for the purposes and under the provisions of the 13th Chapter of the Revised Statutes of Canada, intituled: "An Act respecting the House of Commons."

GOVERNMENT HOUSE,

OTTAWA, 18th April, 1895.

Mr. Bennett moved, seconded by Mr. Belley, and the Question being proposed; That an humble Address be presented to His Excellency the Governor General to offer the respectful thanks of this House to His Excellency for the gracious Speech he has been pleased to make to both Houses of Parliament, namely:—

To His Excellency the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia, &c., &c., Governor General of Canada, and Vice-Admiral of the same.

MAY IT PLEASE YOUR EXCELLENCY:—

We, Her Majesty's dutiful and loyal subjects, the Commons of Canada in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the opening of the Session.

We also thank Your Excellency for the expression of your satisfaction at again having recourse to our advice and assistance in the administration of the affairs of the Dominion.

We share most sincerely Your Excellency's feeling that by the sudden and lamented death of the late Right Honourable Sir John Thompson, Canada has sustained a grievous loss. The deep and heartfelt sympathy expressed by Her Most Gracious Majesty the Queen, and the manifestations of sorrow with which the distressing intelligence was received throughout the Empire, as well as the tokens of esteem and respect everywhere paid to the memory of the deceased statesman, have been gratefully appreciated by the people of Canada.

We learn with interest that, satisfactory assurances having been received from Her Majesty's Government respecting the interpretation of certain clauses in the Treaty of Commerce with France, ratifications will be exchanged as soon as the necessary legislation has been passed.

We are pleased to be informed by Your Excellency that the recent action of the Imperial Parliament enabling the various Australasian Governments to enter into preferential trade relations with the other self-governing Colonies of the Empire, affords gratifying proof that the suggestions of the Colonial Conference are being favourably entertained by Her Majesty's Government.

We thank Your Excellency for informing us that, in conformity with a recent judgment of the Lords of the Judicial Committee of the Privy Council, to the effect that the dissentient minority of the people of Manitoba have a constitutional right of appeal to the Governor General in Council against certain Acts passed by the Legislature of the Province of Manitoba in relation to the subject of education, Your Excellency has heard in Council the appeal; that Your Excellency's decision thereon has been communicated to the Legislature of the said Province; and that the papers on the subject will be laid before us.

We are glad to hear from Your Excellency that the depression in trade which has prevailed throughout the world for the past few years has made itself felt in Canada to a less degree than in most other countries. We regret, however, to learn that, although this has not resulted in any considerable decrease in the volume of our foreign trade, yet that, owing to low prices and recent reductions in and removal of taxation, it has been followed by a serious decrease in revenue derived from Customs and Excise. We respectfully concur in Your Excellency's opinion that in order to produce equilibrium between revenue and expenditure for the coming year, it will be necessary to observe the greatest possible economy in the appropriations for the various branches of the public service.

We are pleased to be informed by Your Excellency that during the period that has elapsed since the last Session of Parliament, Your Excellency had an opportunity of visiting many portions of the Dominion, including the Maritime Provinces, Manitoba, the North-west Territories and British Columbia; that throughout these tours Your Excellency was impressed and gratified by manifestations of an abounding loyalty and public spirit; and that, notwithstanding the phase of trade depression already referred to, Your Excellency observed everywhere unmistakable signs of that confident hopefulness in the future, based on a thorough belief in the greatness of the resources of Canada, which, Your Excellency is graciously pleased to say, is one of the characteristics of her people, and furnishes a good augury and pledge of further development and progress.

We receive, with a deep sense of their importance, Your Excellency's statements that the Government of Newfoundland having intimated its desire to renew negotiations looking to the admission of that colony into the Dominion of Canada, a sub-committee of Your Excellency's advisers have recently met in conference a delegation from the Island Government and discussed with them the terms of union, and that it will be a subject of general congratulation if the negotiations now pending result in the incorporation of Her Majesty's oldest colonial possession into the Canadian Confederation.

We thank Your Excellency for the information that measures relating to bankruptcy and insolvency, and to joint stock companies will be laid before us, and that we shall also be asked to consider certain amendments to the Insurance Act, to the Act respecting Dominion Notes, to the Dominion Lands Act, to the Indian Act, to the North-west Territories Representation Act, and also, a Bill respecting the land subsidy of the Canadian Pacific Railway Company. Your Excellency may rest assured that all these matters will receive our best consideration.

Our thanks are due to Your Excellency for the information that the accounts of the past year shall be laid before us; and also, that the Estimates for the ensuing year will be presented to us, and that these have been framed with every regard to economy compatible with the efficiency of the public service.

In entering upon the discharge of the important duties devolving upon us, we join with Your Excellency in an earnest prayer that, being guided by the spirit of wisdom and patriotism, our deliberations may, under the divine blessing, conduce to the unity and well-being of Canada;

And a Debate arising thereupon;

On motion of Mr. Mills (Bothwell), seconded by Mr. Davies,
Ordered, That the Debate be adjourned.

And then The House adjourned till Monday next.

Monday, 22nd April, 1895.

PRAYERS.

Also, laid before the House,—Return of Treasury Board, Over-Rulings on Appeals from the decision of the Auditor General, between the Sessions of 1894 and 1895. (*Sessional Papers No. 23.*)

Mr. Wallace, laid before the House, by command of His Excellency the Governor General,—Tables of the Trade and Navigation of the Dominion of Canada, for the fiscal year ended the 30th June, 1894, compiled from Official Returns. (*Sessional Papers No. 6.*)

The Order of the Day being read, for resuming the adjourned Debate on the Question, which was on Friday last, proposed, That an humble Address be presented to His Excellency the Governor General to offer the respectful thanks of this House to His Excellency for the gracious Speech he has been pleased to make to both Houses of Parliament, namely:—

To His Excellency the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen; Viscount Formartine, Baron Haddo, Methlic, Tarves and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, County of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia, &c., &c., Governor General of Canada, and Vice-Admiral of the same.

MAY IT PLEASE YOUR EXCELLENCY:—

We, Her Majesty's dutiful and loyal subjects, the Commons of Canada in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the opening of the Session.

We also thank Your Excellency for the expression of your satisfaction at again having recourse to our advice and assistance in the administration of the affairs of the Dominion.

We share most sincerely Your Excellency's feeling that, by the sudden and lamented death of the late Right Honourable Sir John Thompson, Canada has sustained a grievous loss. The deep and heartfelt sympathy expressed by Her Most Gracious Majesty the Queen, and the manifestations of sorrow with which the distressing intelligence was received throughout the Empire, as well as the tokens of esteem and respect everywhere paid to the memory of the deceased statesman, have been greatly appreciated by the people of Canada.

We learn with interest that satisfactory assurances having been received from Her Majesty's Government respecting the interpretation of certain clauses in the Treaty of Commerce with France, ratifications will be exchanged as soon as the necessary legislation has been passed.

We are pleased to be informed by Your Excellency that the recent action of the Imperial Parliament enabling the various Australasian Governments to enter into preferential trade relations with the other self-governing Colonies of the Empire, affords gratifying proof that the suggestions of the Colonial Conference are being favourably entertained by Her Majesty's Government.

We thank Your Excellency for informing us that, in conformity with a recent judgment of the Lords of the Judicial Committee of the Privy Council, to the effect that the dissentient minority of the people of Manitoba have a constitutional right of appeal to the Governor General in Council against certain Acts passed by the Legislature of the Province of Manitoba in relation to the subject of education, Your Excellency has heard in Council the appeal; that Your Excellency's decision thereon has been communicated to the Legislature of the said Province; and that the papers on the subject will be laid before us.

We are glad to hear from Your Excellency that the depression in trade which has prevailed throughout the world for the past few years has made itself felt in Canada to a less degree than in most other countries. We regret, however, to learn that, although this has not resulted in any considerable decrease in the volume of our foreign trade, yet that, owing to low prices and recent reductions in and removal of taxation, it has been followed by a serious decrease in revenue derived from Customs and Excise. We respectfully concur in Your Excellency's opinion that, in order to produce equilibrium between revenue and expenditure for the coming year, it will be necessary to observe the greatest possible economy in the appropriations for the various branches of the public service.

We are pleased to be informed by Your Excellency that during the period that has elapsed since the last Session of Parliament, Your Excellency had an opportunity of visiting many portions of the Dominion, including the Maritime Provinces, Manitoba, the North-west Territories and British Columbia; that throughout these tours Your Excellency was impressed and gratified by manifestations of an abounding loyalty and public spirit; and that, notwithstanding the phase of trade depression already referred to, Your Excellency observed everywhere unmistakable signs of that confident hopefulness in the future, based on a thorough belief in the greatness of the resources of Canada, which, Your Excellency is graciously pleased to say, is one of the characteristics of her people, and furnishes a good augury and pledge of further development and progress.

We receive, with a deep sense of their importance, Your Excellency's statements that the Government of Newfoundland having intimated its desire to renew negotiations looking to the admission of that colony into the Dominion of Canada, a sub-committee of Your Excellency's advisers have recently met in conference a delegation from the Island Government and discussed with them the terms of union, and that it will be a subject of general congratulation if the negotiations now pending result in the incorporation of Her Majesty's oldest colonial possession into the Canadian Confederation.

We thank Your Excellency for the information that measures relating to bankruptcy and insolvency, and to joint stock companies will be laid before us, and that we shall also be asked to consider certain amendments to the Insurance Act, to the Act respecting Dominion Notes, to the Dominion Lands Act, to the Indian Act, to the North-west Territories Representation Act, and also, a Bill respecting the land subsidy of the Canadian Pacific Railway Company. Your Excellency may rest assured that all these matters will receive our best consideration.

Our thanks are due to Your Excellency for the information that the accounts of the past year shall be laid before us; and also, that the Estimates for the ensuing year will be presented to us, and that these have been framed with every regard to economy compatible with the efficiency of the public service.

In entering upon the discharge of the important duties devolving upon us, we join with Your Excellency in an earnest prayer that being guided by the spirit of wisdom and patriotism our deliberations may, under the divine blessing, conduce to the unity and well-being of Canada;

And the Question being again proposed:—The House resumed the said adjourned Debate.

On motion of Mr. McMullen, seconded by Mr. Landerkin,
Ordered, That the Debate be adjourned.

And then The House adjourned till To-morrow.

Tuesday, 23rd April, 1895.

"The interest on which sum, together with the subsidy provided by Statute to be paid on account of a fast Atlantic service, will entail an addition to our already very heavy annual fixed charges of \$1,400,000.

"That, inasmuch as enormous sums of money are now exacted from the people of Canada, which are not paid into the Treasury, and inasmuch as the burthens of the people are thereby greatly and unnecessarily increased, and it is of the utmost

“importance to the well-being of the community that not only should the present
“extravagant expenditure be diminished, but that the said burthens should be redu-
“ced as largely and speedily as possible,—it is expedient that in making provision to
“restore ‘the equilibrium between revenue and expenditure,’ as recommended in
“the Speech from the Throne, the existing tariff be so modified that it may be made
“a tariff for revenue only,” inserted instead thereof;

The Order of the Day being read, for resuming the adjourned Debate on the Question, which was on Friday, the 3rd May last proposed, That Mr. Speaker do now leave the Chair (for the House in Committee to consider of the Ways and Means for raising the Supply to be granted to Her Majesty);

And proposed amendment thereto, That all the words after "That" to the end of the Question be left out, and the words "the Estimates for the fiscal year, 1894-5, amount to the sum of \$38,517,152, independently of any further Supplementary Estimates which may be brought down."

“ That the said sum of \$38,517,152 is in excess of the amount expended in 1893-4 by the sum of \$922,127.

“ That the deficit for the year 1893-4 amounted to \$1,210,322.

“ That the deficit for the present year is estimated by the Minister of Finance at \$4,500,000.

“ The interest on which sum, together with the subsidy provided by Statute to be paid on account of a fast Atlantic service, will entail an addition to our already very heavy annual fixed charges of \$1,400,000.

“ That, inasmuch as enormous sums of money are now exacted from the people of Canada, which are not paid into the Treasury, and inasmuch as the burthens of the people are thereby greatly and unnecessarily increased, and it is of the utmost importance to the well-being of the community that not only should the present extravagant expenditure be diminished, but that the said burthens should be reduced as largely and speedily as possible,—it is expedient that in making provision to restore ‘ the equilibrium between revenue and expenditure,’ as recommended in the Speech from the Throne, the existing tariff be so modified that it may be made a tariff for revenue only,” inserted instead thereof;

PRAYERS.

The following Petitions were severally brought up, and laid on the Table :—

By Mr. McAlister,—The Petition of Edward Jack, of the City of Fredericton, New Brunswick, and others, of other places.

By Mr. McKay,—The Petition of the Municipal Council of the Town of Welland, Ontario.

By Mr. McLennan,—The Petition of the Municipal Council of the Township of Lancaster, County of Glengarry, Ontario.

By Mr. Amyot,—The Petition of H. J. Beemer, President of the Quebec, Montmorency and Charlevoix Railway Company.

By Mr. Choquette,—The Petition of Alfred A. Thibaudeau, Merchant, and others of the City of Montreal.

By Mr. Kenny,—The Petition of Messieurs Kenny and Company and others Merchants, &c., of the Port of Halifax, Nova Scotia.

Mr. Sproule, from the Select Standing Committee on Standing Orders, presented to the House the Fifth Report of the said Committee, which was read, as followeth :—

Your Committee have examined the Notices given on the Petition of the Ontario Accident Insurance Company, for an Act of Incorporation, and find them sufficient.

Your Committee have also examined the Notices given on the following Petitions, and find them somewhat short in point of time; but, as they will have matured before the Bills are considered in Committee, your Committee recommend that they be deemed sufficient, viz. :—

Of the Lindsay, Haliburton and Mattawa Railway Company, for an Act of Incorporation; of Gilmour and Hughson (Limited), for an Act of Incorporation; of the St. Clair and Erie Ship Canal Company, for an Act to enlarge their bonding powers.

On the Petition of the Kingston and Pembroke Railway Company, for amendments to their Act of Incorporation, your Committee find that the Notices are sufficient to cover all the proposed amendments, with the exception of those asking for power to reduce their capital stock from \$5,000,000 to \$2,000,000, and for power to issue preference stock, which are not mentioned in the Notice.

Your Committee have also examined the Notices given on the Petition of the Hamilton and Lake Erie Power Company, for an Act of Incorporation, and find them in accordance with the requirements of the Rule, except as regards the County of Welland, in which no Notices were published.

In examining the Notices given on the Petition of the Independent Order of Foresters, for certain amendments to their Act of Incorporation, your Committee find that while they have been published in the proper newspapers for the required length of time, they are not, strictly speaking, in compliance with that part of the Rule which requires that all Notices shall *clearly and distinctly* indicate the nature and object of the application, inasmuch as it is necessary, owing to the peculiar wording of the Notice, to refer to the statute to ascertain the real meaning of the amendments asked for, but, while your Committee, generally speaking, do not approve of Notices so worded, and do not consider them within the requirements of the Rule, in this particular instance, they have reason to believe that all persons affected are fully aware of the nature of the proposed legislation, and they therefore recommend that these Notices be deemed sufficient.

Your Committee have considered the following Petitions, for leave to present a Petition for a Private Bill, notwithstanding the expiration of the time limited for receiving such Petitions, and recommend that leave be granted in each case, viz. :— Of the Clifton Suspension Bridge Company, for an extension of time for the construction of their works; and of the Canada Insurance Promotion Association, for an Act of Incorporation.

Your Committee have also examined the Petition of the Eastern Assurance Company of Canada, for an Act to legalize an agreement entered into with the Union Assurance Society of London, England, and find that no Notices have been published; but, as the necessity for the application arose too recently to admit of the Notices being published, and, as the proposed measure will only affect the shareholders and policyholders, your Committee recommend that the 51st Rule be suspended in this case, provided that the rights of the parties affected are duly guarded in the Bill.

Mr. Sproule, from the Select Standing Committee on Agriculture and Colonization, presented to the House the Second Report of the said Committee, which was read, as followeth :—

Your Committee recommend that the House authorize a special issue of Two hundred and ninety-five thousand (295,000) copies of the evidence of Mr. J. W. “That, the construction of such substructures was carried out by the Department of Railways without calling for public tenders, without proper supervision or check, and with a reckless abandonment of business rules which invited and encouraged fraud and wrong doing.

“That, after knowledge had been brought home to the Minister and Department of the reckless extravagance which prevailed in the construction of these bridges, no real or effective attempt was made to ensure an honest carrying on of the work, but, on the contrary, enormous sums of money were, after such knowledge, improperly paid to contractors and others, and the door was left wide open for the perpetration of fraud upon the Government.

“That, although the evidence discloses the names of many persons who were parties to these frauds, no attempt has been made to punish any of them criminally except St. Louis.

“That, under these circumstances, the Minister of Railways is responsible, and deserves the severest censure of this House, for negligence, inefficiency and gross mismanagement in connection with these works, and for the losses the country has sustained,” inserted instead thereof;

McNeill, a Member of this House :—

"PRIVY COUNCIL OFFICE, OTTAWA, 2nd April, 1895.

"A. McNEILL, Esquire, M.P.

"MY DEAR McNEILL,—I have no doubt you have seen, as I have, notices in the papers that you had been or were to be offered a Senatorship. I know of no man in the Commons whom I would rather see elevated to the honourable and responsible position of a Senator than yourself; but the rumour must have been set afloat by persons having some ulterior object in view, as no such offer has been made nor has it been considered. Certainly a Senatorship was never asked for by you, either directly or indirectly. Moreover, such a step is precluded for the present by the fact that there are no vacancies that have not long since been promised.

"Trusting that you may be successful in the contest before you.

"I remain, etc.,

"Sincerely yours,

"MACKENZIE BOWELL.

"That it further appears that the vacancies referred to in the above letter occurred on the following dates:—Ontario, Honourable Billa Flint, died 15th June, 1894. Quebec, Honourable W. H. Chaffers, died 16th July, 1894. New Brunswick, Honourable John Glasier, died 7th July, 1894. Quebec, Honourable Joseph Tassé, died 17th January, 1895. Ontario, Honourable Elijah Leonard, died 14th May, 1891. Quebec, Honourable G. G. Stevens, died 15th April, 1892, Quebec, Honourable Sir J. J. C. Abbott, died 30th October, 1893, New Brunswick, Honourable A. E. Botsford, died 19th March, 1894. New Brunswick, Honourable John Boyd, died 4th December, 1893. Nova Scotia, Honourable T. D. Archibald, died 18th October, 1890.

"That the conduct of the Government in allowing one-eighth part of the total number of Senatorships provided in the British North America Act to remain unfilled under circumstances set forth in the said letter and in this Resolution, is in the highest degree derogatory to the dignity and usefulness of the Senate, and is calculated to bring that branch of the Legislature into contempt," inserted instead thereof;

And the Question being put on the amendment; the House divided: and the names being called for, they were taken down, as follow:—

PRAYERS.

The following Petition was brought up, and laid on the Table:—

By Mr. Martin,—The Petition of C. F. Forrest and others, of Winnipeg, Manitoba.

Mr. Tisdale, from the Select Standing Committee on Railways, Canals and Telegraph Lines, presented to the House the Eleventh Report of the said Committee, which was read, as followeth:—

Your Committee, in obedience to the Order of the House of 28th June, 1895, have further considered Bill respecting the Toronto, Hamilton and Buffalo Railway Company, and have agreed to again report the same with further Amendments.

Mr. Tisdale moved, seconded by Mr. Boyd, and the Question being proposed, That leave be granted the Select Standing Committee on Railways Canals and Telegraph Lines to sit during the time that the House is in Session.

And the Question of Order having been raised that such a Motion could not be made without Notice, or without a Report from the Committee itself;

Mr. Speaker said: "With regard to the Motion which has been proposed by the Honourable Member for South Norfolk, I would say that I do not regard it as exactly in the same light in which I regarded the Motion which was made the other day to reduce the Quorum of the said Committee. Then, it was urged that the Committee could not meet for want of a Quorum; but, in the present case, the Chairman has moved, without any Report being made by the Committee, that the Committee have leave to sit during the Sessions of the House. Now it is quite competent for the House, in a case of urgency, it seems to me, to grant to that Committee power to sit during the sittings of the House; but, I think before coming to that conclusion, we ought to have some definite statement from the Committee itself, such as a Report, that it is necessary to enable the Committee to get through their work, that they should be allowed to sit during the sittings of the House. I do not, however, agree with those honourable gentlemen who say that this Motion could not be put without notice, if a Report has been made by the Committee that it was necessary for the prosecution of its business that the Committee should have leave to sit during the Session. For these reasons I consider that the Motion should not be put to the House on the present occasion."

Mr. Montague, a Member of the Queen's Privy Council, presented,—Return to an Order of this House, dated 3rd June, 1895, for a Return showing the names, if any, of persons appointed to the Civil Service of Canada under Chapter 18, 57-58 Victoria, and the offices, if any, to which they were appointed. (*Sessional Papers No. 94.*)

The Order of the Day being read, for the third reading of the Bill further to amend the Act respecting the Judges of Provincial Courts;

SPEAKER'S CHAMBERS,
29th June, 1895.

REPORT OF SUB-COMMITTEE ON EXCHANGES.

The Sub-committee appointed to consider and report upon the distribution and purchase of exchanges, met at 11 o'Clock, A.M., on Monday, 17th June, 1895.

The Librarians were instructed to distribute certain copies of Kingsford's History of Canada to Canadian Universities and foreign exchanges.

The Sub-committee agreed to recommend to the Joint Committee the purchase of fifty copies each of "Acadia," by Edward Richard, and of the Life of Sir John Macdonald, by Joseph Pope.

In making this recommendation the Sub-committee unanimously agree in advising that in view of the large sums that have been taken recently from the Library grant for the purpose of purchasing works for exchange, the Joint Committee should return to the rule laid down in 1890 by a Sub-committee consisting of the Honourable the Speaker of the House of Commons and Honourable Messieurs Davies and Blake, as follows:—

"The Sub-committee report that it is of opinion that the grant for the Library "is not large enough to justify the purchase of books for the purpose of encouraging "native literature, and that the purchase of exchanges should be confined to books of "a character similar to that of the exchanges received from other Countries."

The present Sub-committee also advise that, hereafter, when the Joint Committee is disposed to encourage the circulation of any valuable native work, it should recommend such work to the notice of the Government, in order that a sum might be placed in the estimates for the purchase of a certain number of copies.

17th June, 1895.

So it was resolved in the Affirmative.

Mr. Davin moved, seconded by Mr. McDonald (Assiniboia), and the Question being proposed, That the Commissioners appointed to inquire into Canadian Pacific Railway freight rates have reported that Canadian Pacific Railway existing rates for grain are from one-half to one cent per 100 pounds less than the Dakota schedule from all points west of Regina, which last, however, applied to Edmonton and Prince Albert, would be six or seven cents lower than the Canadian Pacific tariff; that as regards live stock the Canadian Pacific Railway rate runs at \$1.35 to \$1.84 per car to Montreal, while the Northern Pacific and Great Northern charge

from \$1.63 to \$1.91 for the same distance; that as regards coal and lumber the comparisons show still more favourable rates to the Canadian public. That this House would suggest to the Government that it would be well to open negotiations with the President of the Canadian Pacific Railway, with the view of coming to an arrangement with that Company to carry for the next twenty years produce from the Northwest to the sea-board ten per cent cheaper than at present, on condition of the Government guaranteeing bonds to a certain amount for twenty years, and should the railways of the United States lower their rate, the Canadian Pacific Railway shall lower theirs proportionately;

He accordingly presented the said Bill to the House, and the same was received and read the first time; and ordered to be read a second time To-morrow.

Mr. Sproule, from the Select Standing Committee on Agriculture and Colonization, presented to the House the Third and final Report of the said Committee, which was read, as followeth:—

The investigations made by your Committee at its sittings during the Session have embraced the subjects of Agriculture in its several divisions; the question of branding cheese and immigration.

On the subject of Agriculture the several Officers of the Central Experimental Farm were examined, and a Report of the information obtained from them is herewith annexed and submitted for the consideration of the House.

It will be found to contain information not only of interest to the farmers of Canada but of economic value to all who are interested in the welfare of the Dominion, considered in relation to agricultural development. Much new matter will be found in this report and evidence, while many facts, which were before known, are presented in a new and striking light.

Mr. William Saunders, the Director of the Experimental Farms, was first examined (7th May). He stated that in all the operations which have been carried on, the lines prescribed by the Experimental Farms Act had been closely followed. The work of clearing, cleaning and fencing the land was begun at the Central Farm in 1887; that on the Farm in the Maritime Provinces was commenced in the following year, as was also that on the Farms at Brandon and Indian Head, and that on the Agassiz Farm in 1889. The Director stated that it required three or four years to complete the effective organization of the Farms. It is, therefore, yet early to estimate all the advantages for the farmers of the Dominion which may be reasonably expected to flow from them.

The nature of the work carried out includes experimental tests with the grains, root crops, vegetables, fruits, trees and plants, in particulars which are of interest and great importance to farmers. The number of varieties of farm crops he said on which experiments had been made is upwards of 500, and the number of varieties of large and small fruits much greater, including, at Brandon, 200 varieties of the hardiest sorts of Russian apples, and the same at Indian Head. So far, however, only one variety of Siberian crab has proved entirely hardy at Brandon and Indian Head.

At the Experimental Farm at Agassiz there now exists in very successful operation one of the largest test orchards in the world. As many as 1,800 different varieties of fruits are under test, of which upwards of 1,200 are large fruits, and it is believed that valuable results will be obtained.

The distribution of samples of seed grain in three-pound bags was actively continued during the past year. It was reported to your Committee last Session that 88,501 of these samples had been distributed to 44,181 farmers from the commencement. This year, between the 11th of February and the 6th of May, 19,040 three-pound samples had been sent out to about 19,000 farmers, while there were at the date mentioned, about 8,320 applications which could not be supplied. These facts show the very great interest of farmers in this sample distribution. The practical results have been highly satisfactory in improving some of the grain crops of the country. From a sample of three pounds, carefully sown one year, a farmer can obtain a good supply of seed for the next, and afterwards have enough for the improvement of his neighbourhood. This makes an appreciable accretion to the wealth of the country.

There has been a new feature in the grain distribution of the present year, namely of one-pound packages of some of the new cross-bred wheats and hybrid barleys which have been produced at the Central Farm. The trial of these in many parts of the Dominion may be looked forward to with much interest. As many as 1,150 of the one-pound samples of cross-bred wheats and the same number of one-pound samples of hybrid barleys have been distributed.

In explaining the several crosses tried at the Farm, the Director pointed out that he hoped to succeed in producing a variety of wheat having the qualities of the Red Fife, but ripening a few days earlier. If such a result could be obtained it would be one of very great importance for the whole of the Canadian North-west.

The Director of the Experimental Farms gave much practical information in his evidence relating to experiments with barnyard manure and some of the artificial fertilizers, showing the results obtained by applications to the different crops. The practical details afforded being of most interest in the information given; the farmer is referred to the report annexed.

The information given with regard to hedge and tree planting, including shelter belts, at different points of the Dominion, is interesting, and the farmer is referred to the details.

The Director gave an account of the trouble which had been found in connection with the disease of Tuberculosis among the herds of the Experimental Farms and the methods taken for its extirpation.

The Dairy Commissioner, Mr. James W. Robertson, of the Experimental Farms, next gave evidence before your Committee, and the information he furnished had relation to what had been already achieved and what was hoped to be by the opera-

tions carried on by him under the administration of the Minister of Agriculture. The information he furnished was divided into four heads, namely (1) Dairying in connection with the various experimental dairy stations established in the different Provinces of the Dominion; (2) The action taken under the direction of the Minister to help the butter trade by means of shipments to the United Kingdom; (3) The cold storage service and accommodation proposed to assist in the development of this trade; and (4) The outlook of the cheese market for the current year.

The dairying progress which has been made under the operations which have been carried out, can only be described as remarkable. In Prince Edward Island, in 1892, there was only one dairy station on that Island. It was put up by the farmers and the department loaned the machinery to fit up the factory. Some other factories were built and fitted up at the expense of joint stock companies of farmers. In 1893 the Dairy Division of the Department of Agriculture managed 11 dairy stations, patronized by 1,187 farmers, turning out cheese to the value of over \$48,000. The actual cost to the Government in bringing about this result was \$2,500 for the year, including the salary of Mr. Dillon, the Dairy Superintendent. In 1894 there were 16 cheese factories and 2 creameries, and, at the end of that year, the value of the cheese and butter turned out was over \$90,000, of which amount \$11,830 was in butter. The quality of cheese made in Prince Edward Island was the highest, and sold for half a cent a pound above the average price of Ontario cheese. The growing of corn ensilage and winter butter-making are gaining a decided footing on the Island, and, it is clear, that very soon no further assistance will be required from the Department, the whole cost of which to the Dominion, to the end of 1894, was \$4,800. A wealth making progress of importance has thus been set in motion at a trifling money cost, the effects of which will be permanent.

The Dairy Commissioner showed that in the Provinces of Nova Scotia and New Brunswick similar operations have been carried on, with promise of much success, in addition to that already obtained. In 1894, 16 new factories were built in Nova Scotia, and 39 were in operation. The farmers are commencing to make butter in winter and cheese during the summer in that Province. During the present year (1895) the Commissioner believed that there would be 49 cheese and butter factories in operation, and Nova Scotia will this year become an exporter of cheese. The methods pursued in New Brunswick are similar in kind. The travelling dairy in New Brunswick visited 68 places in the Province, and the farmers were shown how to avoid making losses, and how, instead, to make gains. The Dairy Commissioner pointed out that the presence of His Excellency the Governor General at very large dairy meetings in the Maritime Provinces, during the past year, had the effect of quickening the interest and exciting enthusiasm among the farmers; as many as from three to ten thousand people being at each of these gatherings, together with Lieutenant-Governors and Provincial Premiers. There was also present ex-Governor Hoard, of Wisconsin, a very high authority in dairy matters; and he published in his paper,—*Hoard's Dairyman*—the most widely circulated dairy paper, after his return, the statement: "They make the finest cheese there (Prince Edward Island), that I ever saw. . . . You would never know that all that cheese was not made by one man, on account of its uniformity. Every single cheese had been trained to a given standard." This is very satisfactory testimony from very high expert authority.

In the Province of Quebec very active work has been done under the supervision of the Assistant Dairy Commissioner, Mr. J. C. Chapuis, who, during the past year, addressed 9 meetings in Prince Edward Island, 1 in New Brunswick, 8 in Ontario and 82 in Quebec, besides delivering 34 lectures to the students at the Dairy School at St. Hyacinthe. The Dairy School at St. Hyacinthe receives \$1,000 a year from the Dairymen's Association of Quebec, and the Department of Agriculture meets other expenses. The work of teaching and spreading information, as to the best methods of dairy practice, appears to be very active in that Province. The total number of cheese factories in Quebec is 1,192, and of butter factories, 262.

The Dairy Commissioner expressed the opinion that this year the Province of Quebec will produce about half of the total amount of cheese exportable from Canada.

In the Province of Ontario, the Dairy Commissioner stated that in 1894 the butter-making plant which had been loaned by the Department to companies of farmers was sold to them, and, last winter, they commenced to manage the business for themselves. It is believed that the teaching assistance, may in the future, be withdrawn from that Province. The operations of winter butter-making, with the assistance of a vote of Parliament, under the direction of Dairy Commissioner Robertson, were commenced at Woodstock and Mount Elgin in 1892; and from these points have since extended all over Canada. Last winter there were in operation about 100 butter-making factories in Ontario. The Dairy Commissioner particularly described the starting of a large factory at Renfrew, a joint stock company putting up the buildings and entirely furnishing them. The Department carried on the butter-making, so that the factory might have the advantage of the good name which had been gained. He said he had information that this factory would make a ton of butter a day after it had got well in operation in June.

In Manitoba and the North-west Territories the operations have been actively carried on. Travelling dairies were started in the Province and Territories last year, the procedure followed being somewhat similar to that in New Brunswick. Sixty-three places were visited. The work done appears to be approved by the people interested in Manitoba and the North-west, the fact having been expressed by resolution of the Manitoba Dairymen's Association. Butter factories have commenced in the North-west, and there is reason to hope for success.

In concluding this part of his evidence, the Dairy Commissioner expressed the opinion that the vote for dairy service in educational work in the Provinces may soon be very much reduced, with a view to discontinuance.

The second division of the information which the Dairy Commissioner furnished to your Committee, namely, the promotion of the shipment of butter, to foster the butter trade, is cognate with the third division of his classification, namely, cold storage, and both contain matter calling for serious consideration in the interest of dairy farmers. And both these points have again important bearing on his fourth division, namely, the cheese market in the United Kingdom. He stated that we now send to England 60 per cent of the total amount of cheese which is imported into that country; and he contended, that if the Canadian dairy farmers kept on extending the cheese trade only, at the same time enlarging the flow of milk per cow and lengthening the milking season, the result would probably be congestion of the market, and consequent placing of the cheese trade in a very bad condition. He, therefore, held that safety would seem to lie in the direction of turning milk in larger quantities into butter instead of continuing to enlarge the making of cheese. He said that in this would be found to rest the only hope to escape from an era of low prices which would arise therefrom. At present the influence of Canadian butter on the ruling prices of the British market was hardly appreciable, because we sent less than two pounds out of every 100 which were imported. The whole of the Dairy Commissioner's remarks on this subject are worthy of the careful consideration of the farmers, for the guidance of their operations. There is ample evidence that Canadian butter, if shipped in good condition, will command a high, if not the highest price on the English market.

He held the position that the same principle of departmental aid in dairying which had led to the results shown, increasing the exports of cheese from a figure of \$6,774,626.00 in 1886, to the very considerable total of \$15,448,191.00 last year, might, with great advantage, be applied to the stimulation of increase in the trade of butter. This very large increase of output was obtained at a comparatively small expense by the system pursued. The Dairy Commissioner held that the same principle applied to the shipping trade in butter, by providing cold storage in Canada on shipboard, also, on the other side of the Atlantic, would lead to similar results. What has been done, the Dairy Commissioner stated, has already saved

financial distress in many respects, and there cannot be a doubt that the reasonable prospect of success which is offered by the proposals to promote butter export should receive the support of Government and Parliament. The Dairy Commissioner pointed out that Denmark offered for Canada a very striking example. Denmark had been even more inert in regard to butter-making than the Canadians have been; but, from the judicious guidance and assistance afforded by the Government, that Kingdom had become one of the most prosperous in the agricultural industries in the world.

The information furnished by the Dairy Commissioner, as to methods of butter-making, may well be commended to the careful consideration of farmers.

The second division of the information obtained by your Committee, during its sittings, had relation to the branding of cheese. There was much conflict of opinion, the weight of evidence seeming to be against the branding which had been advocated; and the views of farmers, so far as obtained, are in the affirmative side. The opinions of both sides and the reasons on which they are based are sufficiently clearly stated in the evidence appended.

Mr. Craig, the Horticulturist; Mr. Shutt, the Chemist; Mr. Fletcher, the Entomologist; and Mr. Gilbert, the Poultry Manager, all furnished your Committee information relating to their respective divisions of the Experimental Farm of much interest to the farming community. Each narrated the principal incidents of his operations during the year. The Horticulturist dealt with the question of cold storage as a means of preserving the more delicate of the Canadian fruits sufficiently long to enable shipments to be made to the markets of the United Kingdom, where indubitably a large demand would be found to arise if the fruits could be safely carried there. The establishing of a cold storage system seems to be feasible in connection with that now being carried into effect for the preservation of dairy products. This proposal so far met the approval of your Committee as to lead to the passing of a resolution, on motion of Mr. Carpenter, seconded by Mr. Roome, commending it to the attention of the Minister of Agriculture, and recommending active assistance in the carrying out of the project. The information furnished by the Entomologist contained matter of much practical interest to farmers, as did also that of the Chemist of the Farm. The relations of Chemistry to farming are now so clearly elucidated that advanced farmers everywhere are beginning to avail themselves of them. These will find matter of interest in the statements of Mr. Shutt appended to this report; and almost similar remarks may be made with respect to the information furnished by the Entomologist. The damages which have been inflicted in the past by injurious insects, parasites and fungoids, have been so great as to make the means which may be employed to arrest the destruction they cause of very great interest to farmers. The Poultry Manager gave many interesting details in his evidence as to the advantages and economies of poultry keeping, which is a matter of sufficient interest to call for the increasing attention of farmers and others.

On the subject of Immigration Mr. A. M. Burgess, the Deputy Minister of the Interior, was examined. He informed your Committee that there had been a decline in the immigration to Canada and that he did not see any distinct evidences of revival. He stated the whole number of arrivals of the immigrant class, at the Ports of Quebec, Halifax and Montreal, during the year 1894, was 27,911, as compared with 63,447 during the previous year, and that of the 27,911 mentioned 20,680 declared their intention of becoming residents of the Dominion, being over 8,000 less than the previous year. These statistics, however, only refer to the Atlantic Maritime Ports, no attempt being made to obtain statistics from the interior ports.

Mr. Burgess gave a specific account of the homesteading which had taken place, there having been a particular movement in that direction from the Western United States. He mentioned that the reduction of the vote by Parliament from \$200,000 to \$130,000 for the present year, would necessarily make a reduction of effort in immigration propagandism by the Department; but, he hoped that in the present state of things, such would not materially affect the movement to the country. Mr. Burgess communicated to your Committee a letter from Mr. Alfred B. Owen, the

Manager of Dr. Barnardo's Homes in Toronto, in which he described the system on which the Homes are conducted in Great Britain, where the children are first taken in charge. He particularly disclaimed the prevalent impression that these children are gathered in promiscuously from among the vagrant class, known in England as "street arabs," and, he asserted, on the contrary, that Dr. Barnardo's Homes come to the rescue of children of honest parents, who have succumbed in the struggle of life, and, in consequence, of which the parental home became broken up. He showed that these children were carefully trained in the Homes in the Mother Country in which they are gathered, and where they are furnished with such education as to fit them to gain livelihoods. He said those selected for this country are particularly trained; and that the exceptions to the rule of moral and physical well-being on the part of these young immigrants are very small. Mr. Owen claims that the following points have been established by the actual facts as respects the juvenile immigration which has been conducted for some years past under the auspices of Dr. Barnardo's Homes:—(a) That the system rescues from a life of street adventure the children from homes broken up by the misfortune of sickness or the death of parents; (b) That less than one per cent of these immigrant children has been convicted of offences; (c) That the bulk of those placed in the Dominion have experienced remarkable immunity from disease, the death rate and health statistics in relation to them comparing favourably with those of any other class in the Dominion; (d) That as a rule the domestic relationships which have grown up between the children from the Homes and those who have taken them in have been mutually satisfactory; (e) and that at least 85 per cent of those children who have come to Canada and arrived at adult age are now permanently established on farms managed or owned by themselves.

The question of the advantage of these juvenile immigrants has been for many years past variously discussed before your Committee, it having been always maintained by the officers of the Immigration Department that the adverse opinions had invariably rested on the cases of a very fractional number of exceptions, while the great bulk of those who had done well and proved of great advantage to the country were not taken into account. It is, therefore, to be pointed out that a sweeping generalization should not be made on the fact of fractional exception.

Your Committee recommend that a suitable building be erected at the Central Experimental Farm in which excursionists and parties visiting the farm might be accommodated as a place of shelter and lunch taking, with a good supply of water, by fountain or otherwise, and other necessary conveniences for their comfort.

It is also recommended that at least fifty copies of the report of your Committee be supplied to each Member representing a rural constituency, in addition to those usually supplied.

The annexed Report of the Sub-committee is herewith submitted, as a part of this Report.

REPORT OF SUB-COMMITTEE.

The Sub-committee appointed to examine into and report upon the present methods of distribution of the Official Reports on Agriculture, with a view to suggest improvements in such distribution, if found practicable, beg to submit the following Report for consideration of the whole Committee:—

1. That in view of the fact that there are not likely to be any additional number of reports to those already ordered from the Experimental Farm available in time for distribution in the current year, no immediate change is recommended.

2. We recommend that the Director of the Experimental Farms take such means as he can for the present to correct the distribution lists to be used for the current year.

3. That the permanent mailing lists at the Experimental Farms be divided into Electoral Ridings so that each Member can be supplied with the names of parties in his constituency receiving reports, with a view to a revision of said lists from year to year.

4. We recommend also for the future that in addition to the number of reports provided for supply of the permanent mailing lists at the Central Experimental Farm, a quantity be provided to the number of 250 copies of each of the Experimental Farm Report and the Dairy Report, to every such Member of the House of Commons as represents a rural constituency, for his personal distribution. (*For the evidence submitted, see Appendix No. 3.*)

 “ ‘ An Act for granting to Her Majesty certain sums of money required for de-

“ ‘ fraying certain expenses of the Public Service, for the financial year ending 30th June, 1896, and for other purposes relating to the Public Service,’ to which I humbly request Your Excellency’s assent.”

After which His Excellency was pleased to deliver the following Speech to both Houses:—

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

In bringing this Session of Parliament to a conclusion, I have to congratulate you on the industry and zeal which have marked your labours.

The necessary legislation having been passed, the Treaty of Commerce with France, from which favourable commercial results may be expected, will, as soon as ratified, be put into force by proclamation.

The negotiations with Newfoundland to which reference was made at the opening of the Session, I regret to say have not resulted in any agreement for the present.

The reply of the Provincial Legislature of Manitoba to the Remedial Order issued by my Government on the 21st March last, was considered of such a character as to justify postponement of further action until next Session.

I am pleased to observe the grant of Parliament in aid of the fund contributed by the Canadian people for the benefit of the family of the late Right Honourable Sir John Thompson.

The Amendments which have been made to the law relating to the Civil Service, will, it is believed, result in increased efficiency and economy.

The Legislation of the Session will, I trust, lead to an improved administration of criminal law, to the advancement of commerce and the extension of railway and telegraphic communication.

Gentlemen of the House of Commons :

I thank you for the liberal provision which you have made for the services of the current year.

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

In relieving you from your duties, I venture to express the hope that you will find among the people you represent a continuance of that prosperity which marked the opening year.

Then the Honourable the Speaker of the Senate said:—

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

It is HIS EXCELLENCY THE GOVERNOR GENERAL’S will and pleasure, that this Parliament be prorogued until Saturday, the Thirty-first day of August next, to be here holden, and this Parliament is accordingly prorogued until Saturday, the Thirty-first day of August next.
