Miss M. Miller spent Saturday at her home in Bridgetown.

Mrs. Eva Green, of Brickton, spent a few days with Mrs. Elbert Whitman.

Miss Lina Whitman has gone to Paradise, N. S., to stay for an indefinite time.

Mrs. Fred Bishop, of Paradise, was a recent guest of Mr. and Mrs. E. C. Shaffner.

Mrs. Phillips and two children, of Halifax, have arrived to spend the summer with Mrs. B. M. Shankel.

Miss Edna Miller, of Bridgetown, and Miss Iowa Bishop, celebrated their birthdays on May 9th at Mrs. B. Bishop's.

Mr. and Mrs. W. A. Hunt and family motored to Round Hill, where they were the guests of their daughter, Mrs. E. Spurr.

A number from here took part in the piano recital given by Miss Freeman in the Demonstration Building on Wednesday evening. Much credit is due Miss Freeman for the splendid way in which the program was carried out.

The carpenters and plumbers are busy in this community. Mr. Willard Whitman has had spring water put in the house. Mr. E. C. Shaffner has had a bathroom installed. Mr. B. M. Shankel has had a bay window and verandah built on the east side of his house. Mr. Barclay Bishop is having a large verandah built on his house and Mr. Bryan Morse is beautifying his residence with a fresh coat of paint.

VIRGINIA EAST

McDougall, druggist, have returned from a fishing trip at Cedar Lake, about 20 miles from Weymouth. They brought home some fine "speckled beauties" as souvenirs of a delightful outing.

HOW YOU CAN TELL

GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only cheap imitations.

Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians for nineteen years and proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at any drug store. Made in Canada.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

SUMMER SERVICE ON THE YARMOUTH LINE

The two trip schedule will continue until June 3rd, and commencing June 7th there will be four trips per week.—Leave "Yarmouth on Tuesdays, Wednesdays, Fridays and Saturdays: Return from Boston on Mondays. The full summer service will become effective on July 3, with six round trips weekly: Leave Yarmouth daily except Sunday, and return from Boston daily except Saturday.

Steamships PRINCE ARTHUR and PRINCE GEORGE will perform the service. Present indications are such that there will be heavy travel to the Provinces this summer, as shown by the number of bookings at the present time.

LOTS OF PULPWOOD

A Parrsboro despatch says:—At the regular meeting of the town council last evening a resolution was passed granting rights to E. A. Piper, representing a Maine Pulp Manufacturing Company, to store pulpwood in Lake Glooscap. The company, which recently purchased the Gow property on the water front for wharfage purposes, proposes to store 100,000 cords of pulpwood annually in the lake. This will mean an income of \$2,500 to the town.

MARINE NEWS

The tern schooner Barbara W., Captain Aaron Tower, is loading mahogany at Santa Cruz for New York.

The tern schooner Stewart T. Salter, which is discharging coal at St. John, will load piling at Noel for Boston.

The Weymouth tern schooner Edith Belliveau, Captain Robert Bonniart, at St. John from Bermuda, brought a cargo of scrap iron.

Having a cousin a member of the crew of the Canada and another on the Mayflower, the editor of the Canso Breeze feels that he is closely represented in schooner racing circles.

The tern schooner Peaceand, recently purchased by Captain Medley Blenkhorn, Captain C. W. Baird and others from Annapolis owners, arrived in St. John on Saturday. She will load lumber and lathes for New York shipped by A. O. Seaman and P. L. Spicer, respectively.

Four-masted schooner Charlotte Comeau, which is in command of Captain John Stuart, of Church Point, Digby, where the vessel was built, is now loading at Wisner, Demerara River, for Boston. The Charlotte Comeau, which is 228 tons net, was expected to sail for Boston May 18.

Mr. G. H. Shaw, Windsor, recently sold his auxiliary yacht "Zola" to Mr. W. J. Dean of St. John, N.B. Mr. Shaw, accompanied by his son Cecil and Mr. Fraser Spicer, sailed the yacht across in 15-1/2 hours, a third of which time it was necessary to stem the tide. (This yacht for several years visited Digby annually.)

The new steamer R. W. Henry, Captain F. D. Campbell, sailed at nine o'clock Saturday night and was due at Pictou Monday night, to leave there at noon Monday, for the Magdalen Islands via Souris, P. E. I., the service for which she was built. William C. Leslie, one of the owners of the new boat and who has large interests at the Magdalen's, went from Halifax by the steamer.

Referring to the steamer Bernard M., which was withdrawn from the Halifax-Yarmouth shore service for want of a subsidy, the Shelburne Gazette says: "Her rates were considerably lower than those which prevail on the railway and she was much appreciated by business men all along the shore. At present it costs over eight dollars to get a dory to Halifax by rail. This is a ridiculously high rate and interferes seriously with the output. In fact all lines of business feel the effects of the exorbitant railway freight rates.

Regarding the transfer of the tern schooner Peaceand, before reported in THE MONITOR, the Annapolis Spectator says: "The sale of the controlling interest in the three-masted schooner Peaceand by the estate of the late L. D. Shaffner was recorded here this week to Captain Charles W. Baird, of Windsor, and Captain Medley Blenkhorn, of Parrsboro, Mrs. Shaffner retaining, it is understood, 16 shares. The vessel will go under command of Captain Blenkhorn and will be loaded here with lumber by E. E. Amey for Boston.

REVISING THE SCRIPTURES

An English preacher, who was not a highly educated man, but who had a native wit which often helped him out of difficulties, was reading as the scripture lesson one Sabbath morning the third chapter of Daniel. He came to a batch of words that gave him trouble: "At what time ye heard the sound of the sormet, fute, harp, sackbut, psalter, dulcimer," etc.

Now this list of instruments is repeated several times in the chapter, and the second time he stumbled through it with even greater difficulty than the first. Before he reached it again, however, he had discovered a way of escape. So the third time he believed himself and his listeners by reading with the utmost gravity, "And the band payed as before."

NOT TO BE DISTURBED

Clarence, the footman, called his master on the telephone: "I regret to inform you, sir, that your house is on fire," came the voice across the phone. "What a terrible misfortune! But my wife—is she safe?" queried his master. "Quite safe, sir; she got out among the first." "And my daughters—are they all right?" "All right, sir; they were with their mother." "And what about my mother-in-law?" "That is what I wanted to speak to you about, sir. Your mother-in-law is asleep on the third floor, and knowing your regard for her comfort, I wasn't sure whether I ought to disturb her or not, sir."

NEW DEFINITION OF ORPHAN

"What is an orphan?" asked the teacher. None of the children seemed to know.

"Well, I'm an orphan," said the teacher.

Then a hand popped up and the small boy remarked: "An orphan is a woman who would like to be married, but nobody'll have her."

I SUFFERED FIVE YEARS

Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Paris, Ont.—"For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking different medicines that I thought were good. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in perfect health and do all my own work. I recommend it to others, and give you permission to publish this letter in your little books and in the newspapers as a testimonial."

—Mrs. D. CASSADY, Box 461, Paris, Ont.

Why women will continue to suffer so long more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound!

For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

A LARGE AMOUNT OF SUBSCRIPTIONS ARE DUE

Every firm or company requires money to conduct its business successfully. We are no exception to this rule, and must call the attention of many subscribers to the fact that their payments for "THE MONITOR" are long overdue.

MR. McRAY'S LECTURE

Those who heard Mr. McRay's lecture at the Court House on Monday evening, "The Soul of the Nation," are well satisfied that it was the best that has been given in our town in many a day.

A PLEASANT AFFAIR

An invitation from the officers and members of the Bear River B. Y. P. U., about 40 of the B. Y. P. U., of Bridgetown visited Bear River last Friday evening, making the trip in autos, which indeed, was a pleasant one, both going and coming.

LLOYD'S REAL ESTATE AGENCY

HAS ACCEPTED THE CALL

A telegram received from Rev. Clyde W. Robbins, of Dorchester, Mass., announces that he has accepted the call to the Bridgetown Baptist Church and expects to take up his duties here the first Sunday in August.

CHANGED CAPTAINS

After six years of successful service as master of the star, Valinda, on the Bridgetown-St. John route, Capt. E. H. Lewis has resigned his command, to be followed by Capt. Percy Drew, of Advocate, N.S., who took charge last Monday.

Local Happenings

There will be Baptism next Sunday evening in the Bridgetown Baptist Church.

The St. John Exhibition will be held in September this year, opening on the 3rd and closing on the 10th.

It is said that the best forecast for rain in the future is to see the watering cart out on its regular route.

Yesterday being a holiday the MONITOR Office was closed. It was therefore impossible to get the latest news in this issue.

A large number of Bridgetown sports enjoyed a week-end fishing trip, many of whom included Victoria Day, before returning.

Mr. J. R. Skinner has moved his household effects to Bridgetown and as already reported is taking over Mr. H. W. King's milk route.

An interesting paper was read last week before the Nova Scotia Historical Society in Halifax by Rev. W. Bruce Muir, now of Sherbrooke.

Denton & Condon have finished excavating for the new Bank of Nova Scotia at Annapolis, and have laid much of the concrete foundation.

James V. Sanford, of Aylesford, has decided to make his home in Annapolis Co., and has purchased the farm of Avery Sanford, Williamston.

Capt. W. E. Gesner has received from Capt. Joseph Conrad, to be presented to Crescent Lodge of Oddfellows, a beautiful photograph of the schr. Canada.

At the induction of Rev. Mr. Hagen into the Presbyterian pastorate at La Have, on Wednesday evening, the sermon was preached by Rev. D. K. Grant, of Yarmouth.

Mr. Lewis Sabean, of Port Lorne, caught a halibut on the hook about 8 miles off shore in the Bay Fundy last Monday, which weighed 226 lbs. He retailed it in Bridgetown the following day.

The late Mrs. Maria Newcomb, a notice of whose death appeared in our last issue, is survived by one brother, Mr. Edmund Smith, of Nic-taux Falls, and one sister, Mrs. James Daniels, of Lawrencetown.

Berwick Register: The baseball team was given its first work-out on the diamond a few nights ago. They are a husky and capable looking outfit, and with a little confidence and plenty of practice should prove equal to any team in the Valley League.

Orchards throughout the length and breadth of the Valley are commencing to unfold their gorgeous bloom. Trees of the earlier varieties of fruit are about out, and if the great profusion of bloom escapes the elements there will be a record crop of apples in the Annapolis Valley this fall.

A great many private residences and other buildings are being painted in Bridgetown this spring. Nothing improves the looks of the town and protects the buildings better than a coat of paint purchased from our local dealers and put on by Bridgetown painters. We have the goods and the people.

MRS. JAVARD CHUTE'S FUNERAL The funeral of the late Mrs. Henrietta L., wife of Mr. Javard Chute, a notice of whose death appeared in our last issue, took place from her late home last Thursday afternoon with interment in the Riverside cemetery. The services were conducted by Rev. M. S. Richardson, pastor of the Bridgetown Baptist Church, assisted by Rev. Geo. T. Bryant, pastor of the Gordon-Providence United Church. The pall bearers were A. C. Charlton, W. R. Longmire, B. N. Messenger, and E. O. Thies. The floral tributes were beautiful, showing the high esteem in which the deceased was held by her large circle of relatives and friends.

WOULD BE A GOOD ONE

It is reported that the Rev. G. Osgoode Morse, of Grand Manan, has been offered the editorship of the Maritime Baptist as a successor of the late Rev. Mr. Colpitts. Mr. Morse has had considerable experience in journalism and has held many clerical appointments in connection with the denomination. His decision will likely be given in a day or two.

BIG TIMBER SALE

The sale of 50,000 acres of timber land in Yarmouth and Digby counties, by the Fraser Pulp and Paper Company of New Brunswick, to the Nova Scotia Timberland Company, Ltd., was announced Tuesday by Ralph P. Bell, Halifax, who negotiated the transaction. Mr. Bell did not state the exact price, but said that several hundred thousand dollars were involved in the sale. The timber tracts sold include all those formerly known as the Dickie & McGrath properties.

ANOTHER CIRCUS COMING

The Sells Floto Circus, one of the largest shows, is coming to the Maritime Provinces this season, being the first time they have been east of Montreal in Canada. E. N. Wiley, the advance contracting agent, is in the provinces arranging for the dates.

School Notices

The Board of School Commissioners for the District of Annapolis East will meet at Lawrencetown, Thursday, June 2, at 2 o'clock. The Anna. W. Board meets Saturday, June 4, at Annapolis, at the same hour. The April Journal of Education will be published about June 1st. The new Manual of School Law, it is expected, will be published some time in July. A copy will be mailed from the Education Office, Halifax, to each Secretary of Trustees. The Provincial Examinations will begin Friday, June 24.

There will be an Inspectorial "training institute" held in Bridgetown this summer, similar to one held last year. The date of this institute and full information in regard to the same will be published in the April Journal. Teachers and Secretaries of Trustees must notify the Inspector as soon as an engagement is made. School closes June 30, and if possible all School Returns should be at the Inspector's Office by July 2nd. Owing to certain unavoidable circumstances the County Treasurer may be unable to pay all the grants to the sections in August as in former years. Some sections may have to wait two or three months. The grants will average about \$150 for schools employing one teacher and open full year. Poor sections will get about \$100.

Sections wishing an earlier school meeting than the June meeting should take action regarding the same at the Annual meeting June 27.

During his brief stay in Digby he was a guest at the parsonage, he and the local pastor having been very intimate friends from the beginning of their studies for the ministry.

FRATERNAL VISIT, I. O. O. F.
(Digby Courier)
A number of the members of Zelma Rebekah Lodge, I. O. O. F. visited Elita Lodge at Bear River last Monday evening. A. L. Morsehouse drove the party in his big car and as the weather conditions were ideal, the tide just right and the numerous cherry trees on the road looking their best, the drive was a particularly enjoyable one. Probably at no other season of the year would it be possible to enjoy so much beauty of scenery. The Joggin was exceptionally beautiful, the tree-clad hills and farm houses on the shores being reflected in the still waters as in a mirror. In Bear River the degree was conferred by the Elita team and after the business refreshments were served and the local party arrived home about midnight.

REFLOATING OF CITY OF COLOMBO ABANDONED
St. John, May 18—The attempt to refloat the freighter City of Colombo, ashore at Trout Cove, near Digby, has been abandoned by the Atlantic Salvage Company, Limited, of Halifax, according to advice received by J. T. Knight and Company, her agents here. The remainder of her cargo will be salvaged and brought to St. John; and this operation will occupy several days, after which work on the vessel will be stopped. It will be very difficult to save a large portion of the cargo, which is submerged, but it is expected that it will be successfully salvaged. Considering the conditions most of the cargo is in fairly good condition, but some of it, including a quantity of iron, has been considerably damaged by water.

BASEBALL IN ANnapolis
(Spectator)
Reorganization of the local baseball team was effected on an encouraging basis at a meeting of business men on Thursday last when the following officers were elected: President, E. A. Mills; Vice-President, W. Cunningham; Secy-treas, H. A. West; Finance Committee, E. E. Amey, H. A. West, F. M. Dargie and Dr. Boyd Crowe. Mr. Mills was appointed a committee to look after the grounds and keep them in order, and Dr. Crowe was elected manager. Strong efforts will be made to keep the club upon its feet financially, but the generous offer of \$400 that may be necessary for this purpose was received with much applause.

BIG MUSICAL EVENT IN ANnapolis
At the Annapolis Band Concert last Friday night, under the direction of Paul Yates, fifty-four musicians took part. The hit of the evening was made by the Junior Band of twenty three players who had been under instruction only four months. The Middleton Male Quartet were called up from the audience for two songs, and Mr. Harry D. Newcombe, the noted baritone singer, formerly of Halifax, but now of Boston, rendered a suite of three selections of the strictly classic kind.

LOCAL DEATH ROLL

MRS. LEMMIA PATTON
(Annapolis Spectator)
In the death of Mrs. Lemmia Patton which occurred at her home on St. George street about 6 a.m. Tuesday, the community is called upon to mourn the loss of a most highly esteemed lady and one whose passing away will be sincerely deplored by all classes of the population. Mrs. Patton was a daughter of the late Robert J. Harris and was born in the old homestead west of Allen's Creek 57 years ago, one of a family of twelve children of whom only three now survive: Hon. Robert E. Harris, Chief Justice of Nova Scotia; Rev. Canon V. E. Harris, of Halifax, and Augustus (father of Fred W. Harris, town clerk of Annapolis Royal) now residing at Long Beach, Digby Co. Previous to her marriage Mrs. Patton taught school and was for a time in charge of the primary department in this town, in which she was very efficient and universally loved by her pupils. On her marriage to the late Thomas M. Patton who was a native of St. John, N.B., they went to New Glasgow to reside. Mr. Patton being manager there for a large mercantile establishment, and subsequently they lived in Charlotte-town. Mr. Patton died in Butte, Montana, number of years ago and he family became welcome residents of Annapolis Royal.

Deceased leaves three sons and one daughter:—Reginald, (with Eaton's in Winnipeg), Arthur (mechanic science teacher in Halifax), Harold (now farming at Kealy Springs, Sask.), and Miss Blanche at home. Harold and Reginald distinguished themselves through the war by faithful service in the Navy and subsequently had an enjoyable vacation here before going west. Mrs. Patton was an active and faithful worker in the membership of St. Luke's Church, this town; and the passing of few, if any citizen, has caused more genuine regret and more popular sympathy for her family.

The funeral took place from the residence Thursday afternoon at 2.30 with service at St. Luke's Church at 3, and burial in the family lot in Oak Hill cemetery, west of Allen's Creek.

MRS. SETH WADE
Death has again visited Bear River, taking from it one of its most honored and esteemed residents. The late Cynthia Wade, widow of the late Seth Wade, passed peacefully to her rest on Monday morning, May 16th, after an illness of five months which she bore with Christian fortitude and with only a great longing to depart and be with Christ and the loved ones gone before. She had reached the age of eighty-seven years and nine months. She was the daughter of the late George Troop, of that place. She had been a constant member of the Baptist Church for sixty-two years; always a zealous worker for her Master, having united with the church during the pastorate of the late Joshua Cogswell. Her large circle of friends to whom she was always known as "Grandma" will miss her sweet smile and cheery words. She leaves to mourn her loss, one son, George A. Wade, also one daughter, Mrs. F. A. Chalmers, eight grandchildren and ten great-grandchildren. The funeral service which was in charge of James Purdy, took place at the home of her daughter, Mrs. Chalmers, with whom she has made her home for many years. Rev. Mr. Gregg, assisted by Rev. J. W. Wright spoke wonderful words of comfort to all who mourn. Interment was in Mount Hope cemetery. She will rest from her labors and her good work will follow her.

GEORGE HARDY
The death of George Hardy occurred last Monday at his home in Milton, Annapolis county, in his 78th year. Mr. Hardy was born in Smith's Cove, Digby Co., but 32 years ago moved to Milton. He was always an ardent worker in the temperance cause and as a young man suffered persecution for his principles. He was the only surviving Charter Member of the Sons of Temperance in Smith's Cove. There is left to mourn, the widow, his companion for 52 years; a son, Clifford, of Saskatchewan, and a daughter, Mrs. Ernest M. Mosher, at home; also grandchildren and other relatives and a host of friends. All who knew Mr. Hardy unite in recognition of the loss of a leader, a brilliant thinker, and above all, a good man. Funeral services were held Thursday by Rev. J. D. Spidel, Liverpool, assisted by Rev. A. Avery Gates and Rev. Charles Snow.

ENOCH HUTCHINSON
The death took place Tuesday at Harborville, Kings County, at the home of his daughter, Mrs. Angus Curry, of Enoch Hutchinson, of Morristown, aged 85. Mr. Hutchinson had been a life long resident of that place and was one of the leading agriculturists there. Upon the death of his wife, three years ago, he sold his farm and went to reside with his children. He was a member of the Baptist Church. He leaves a son,

Edgar, in British Columbia, and three daughters, Mrs. Forsythe, of Margareville; Mrs. Norman A. Wilson, Waterville, and Mrs. Carry, Harborville, and one brother, Francis, in Mattapan, Mass., and a sister, Mrs. Sarah Barteaux, of Berwick. The funeral was held Thursday to Morristown cemetery.

LOUISE BANCROFT
Mr. and Mrs. Aubrey Bancroft, Edmonton, Alberta, will have the deepest sympathy of their many friends in the loss by death of their daughter Louise, which took place lately, of spinal meningitis.

OCCUPANTS OF AUTO HAD NARROW ESCAPE
Kentville, May 18—What came near being a fatal accident occurred this morning one mile east of Avonport. The morning express from Halifax was making good time as usual when all at once the brakes went on and the train came almost to a stop. A look out of the car window showed a large automobile loaded with passengers stuck half way up the embankment within a car's length of the crossing, but it was top side up and everybody safe. It was all due to the deliberate carelessness of the driver and occupants of the car, for the railway crossing at that point is on a straight road and for at least a mile they could have seen the express coming, and certainly could have heard the whistle of the locomotive. Had there been a fatal accident in this case no one could have been blamed but the occupants of the car. (It is said this auto contained a party from Bridgetown.)

APPLE BLOSSOM SUNDAY
It's apple blossom time in the Annapolis Valley. The forward season has made apple blossoms appear a week earlier this year than usual. Last Sunday was therefore considered by many as "Apple Blossom Sunday" and that the fact that it was Baccalaureate Sunday at Acadia University brought many visitors to the valley, especially by auto to Wolfville.

The following programme was announced for the University Sunday: 11 a.m., Baptist church—Baccalaureate sermon by Rev. A. N. Marshall, D.D., of the First Baptist Church, Ottawa, formerly of Bridgetown. 4 p.m., Baptist Church—Vesper service. 7 p.m., Baptist Church—Y.M.C.A. Service, drama sermon by Rev. A. T. Kempton, Cambridge, Mass., also a native of Nova Scotia who became famous in the New England States delivering his illustrated lecture on "Evangeline Land."

8 p.m., College grounds—Sacred concert by the College band.

LOCAL BASEBALL NEWS
The junior ball team from Annapolis defeated the Bridgetown Juniors at Bridgetown Saturday afternoon, the score being 8-4. It was a good game, however, with 4-4 at the ninth innings.

The Bridgetown seniors played the Yarmouth seniors at Yarmouth yesterday.

Yarmouth, May 20—The baseball match played here this afternoon between the teams of the Middleton High School and the Yarmouth Academy proved to be most interesting, and was witnessed by hundreds of people. The game throughout was real ball of the highest order, and several remarkable exhibitions of playing were given. The game was won by the Yarmouth boys by a score of eight to four. The batters were: Yarmouth, Corning and Cann; Middleton, Coleman and Langille.

WOLFVILLE PAYING TOO MUCH
(Wolfville Acadian)
The quotations obtained by the city of Halifax on supplies for the City Prison, demonstrates to the satisfaction of 'The Man on the Street' that we are paying too much for many of the articles that go to make up our living. Bread, which sells in Wolfville at 13c, the loaf, was offered at 7 1/2-2, and milk, for which we pay 14c per quart was quoted at 9 1/2-5c. Flour was quoted at \$10.40 per barrel for a six months supply, and butter at 37c for dairy and 42c for creamery quality.

PRICE WEBBER IN ST. JOHN
Wednesday's Telegraph says: H. Price Webber, well known actor, arrived in the city on the Boston train yesterday from his home in Augusta (Me.) Monday he was at McAdam and delivered an address on "Side-lights of a Busy Theatrical Life," at a function held under the auspices of the Union Church. He said that he was given a flattering reception. Mr. Webber will remain in the city for a few days on business.

CULTIVATION OF GROWING CROPS

(Experimental Farms Note.)

The cultivation of crops requires reasonable care. There is seldom gain from deep cultivation after the crop has been planted. Such cultivation is necessary in preparing the soil for all hood crops, but if not done then, later cultivation will not make up for the neglect. Summer cultivation should be shallow; sufficient to destroy weeds and produce a fine surface mulch one to two inches deep.

It may be possible and is then advisable, to narrow the cultivator and cultivate deeply the space between the rows not occupied by growing roots. It should be remembered, however, that these roots penetrate the soil towards the centre of the row very rapidly and frequent observations are necessary to determine whether the feeding roots are being disturbed or destroyed by cultivation, as so very often happens. The moist soil below the loose surface soil covering is where soil bacteria are most active, and consequently where the most plant food is being liberated, as a result of which roots will be found in this soil area in greater abundance than anywhere else.

Although there seems to be no good reason for using care in selection of seed, preparation of the soil and fertilizing to grow a good plant only to destroy the roots as soon as they have grown yet this is what is very often done. Root pruning has so far never been shown to be desirable and as the root development is a big factor in crop yields, the better chance they have for development without being disturbed the better use they can make of the plant food the soil contains. The object at this time is to point out the desirability of surface tillage by shallow surface cultivation and warn against deep culture in the area occupied by the growing plant.

Another reason why roots should not be disturbed more than possible is because injured roots may not be able to take up the full moisture required and wilting may result bringing about premature maturity; particularly in the case if the weather is hot and accompanied by drying winds.

A depth guide should be used on the cultivator to avoid too deep cultivation and as the plants grow toward the centre between the rows the cultivator should be narrowed. The advent of the horse hoe or hiller has marked the greatest advance in economic potato culture of any implement on the farm. This implement has made it possible to distribute around the potato hill a fine earth mulch sufficient to kill the weeds, if done when the weeds are young, and not in any way disturb the growing roots in the hill. The tooth cultivator should follow the horse hoe, setting it as close as possible, to loosen the hard centre between the rows in order to protect the land from drying out, form a loose soil to quickly absorb rains that may fall and give fine soil for subsequent hilling.

In potato culture the point above mentioned indicates the necessity for reasonable distance between the rows in order to grow this crop with the least amount of hand hoeing for, if the rows are narrow, there is not the space from which to draw the soil for hilling purposes and the row cannot be cultivated without doing damage to the feeding roots as there is not space enough for the cultivator to work without doing such damage. Thirty-three inches apart seems to be the distance most suitable. Tests made at Kentville covering a period of five years including 16 tests show that rows thirty inches apart yielded an average of 265.6 bushels and those thirty-six inches apart 283.1 bushels, the potatoes being spaced twelve inches apart in the row. The system of cultivation outlined above having been followed.

THE THIRD SPRAY

(By G. E. Sanders)

The third spray or that applied immediately after the blossoms fall is usually regarded as being next in importance to the second of pink application.

This spray is the most important in the control of the codling moth. In order to give maximum results on codling moth, the spray or dust should be applied before the calyx lobes close or within three or four days of the falling of the blossoms. This spray is next in importance to the second in the control of Green Fruit Worm and is of considerable importance in the control of the bud moth. It is next in importance to the fourth spray in the control of Pit or Brooks fruit spot and depending on weather conditions, it may or may not be the most important in the control of apple scab.

The material recommended for this spray is 1 lb. soluble sulphur, 1-2 lb. arsenate of lime and 3 lbs. hydrated lime. If biting insects such as Tussock moth are numerous in an orchard, 3 lbs. of dry arsenate of lead to 40 gallons of water may be used and no fungicide combined with it. The lead arsenate is as good a fungicide as the soluble sulphur. If Bordeaux is used on this application, it will give more or less russeting of the fruit, but on account of it being a much better fungicide than soluble sulphur and effective over a much longer period, many prefer to use it, claiming that the slight russeting resulting from the use of Bordeaux is less injurious than having a higher percentage of spotted apples.

Those who prefer to use Bordeaux, should use the following formula:—2 lbs. bluesone, 10 lbs. hydrated lime, 1 lb. arsenate of lime to 40 gallons of water.

AMENDMENT TO DAIRY ACT

Carrying out the unanimous request of the Nova Scotia Dairywomen's Association at its last annual meeting, a Bill has been introduced in the Provincial Legislature to amend the Dairy Legislation Act in force. If the amendment is passed it will require all creameries in the Province to grade the cream received and to pay for it according to grade, beginning with the spring of 1922.

Under the present system, although our workmanship is the very best and equipment in most cases of the highest order, the butter production often loses first place in competitions through out flavor. This is mainly due to the fact that ill kept or stale cream is delivered at the creameries by farmers. In other words, it is quite impossible to make the best butter without good cream. There is a manifest unfairness in this. The careful farmer who delivers an A1 article is penalized directly by the careless one who delivers a poor grade.

Some of the creameries have already adopted a sliding scale of prices, paying more per lb. of butter fat for the good than for the poorer grades. The Bill, if passed and put in force, calls for a uniform grade all over the Province. The tendency of a considerably higher price for sweet cream will be to induce every patron to do his best to deliver that quality. This would make possible a uniformly first class butter from the whole Province, with an established reputation, which would compete with the best in any market of the world.

NOVA SCOTIA CROP PROSPECTS

Returning from a brief business trip through the Western Counties, the Secretary for Agriculture states that whatever the rest of Nova Scotia may do the Annapolis Valley is going in for big production this year.

It is too early to make predictions regarding the apple crop, although conditions are so far very favorable. As an indication of farming intentions along other lines, however, the Secretary states that he is informed by those who know that the shipment of fertilizer into that district is 50 per cent. in excess of last year's at the corresponding date. There is no more reliable criterion of the possible production next fall than the amount of fertilizers purchased.

Conditions in other parts of the Province are more difficult to sum up. Activity in the purchase of seeds and fertilizers, however, has become much greater than was anticipated a month or more ago.

As to crop and market prospects, there are certain factors which should be kept in mind by Nova Scotia farmers. Recent reports indicate failures in the Southern States, potato crops in the New Brunswick and other parts of Canada have already determined to reduce their acreage. These facts would seem to afford good reason for Nova Scotia farmers planting at least the usual amount of this crop.

With respect to grain, it is largely necessary to state that whatever the

Western harvest may be, transportation rates are so high that imported grain foods are sure to remain on a pretty high level. The wise policy is to produce all possible grain and other feeds.

FERTILIZER AFTER PLANTING

The high prices prevailing last winter for commercial fertilizers discouraged many farmers from placing their orders. Now that prices have materially declined, buying has become quite brisk. It is quite probable, under the circumstances, that would-be purchasers now will be unable to get delivery before planting or seeding.

The same conditions were true of the United States. Agricultural journals there have lately been advising farmers that if they are unable to secure supplies in time for planting, they should go on putting in their crops, because, especially in the case of the hood crops, such as potatoes and turnips, an application of fertilizer cultivated in between the rows will give as good, and sometimes even better results than if applied before planting.

In the case of grain and grass lands a top dressing of fertilizer will also give good results after seeding.

The main point is that time should not be lost in spring planting or seeding for lack of fertilizer, because it can be secured and applied with good effect later on.

AGRICULTURAL REPORTS FOR 1920

The report of the Nova Scotia Secretary for Agriculture has just been issued and may be had on application to the Secretary.

Here is a mine of useful information, containing reports of all members of the Department, accounts of Experimental work, analyses of soils and fertilizers, indications of the value for fertilizing purposes of limestone and other deposits in the Province, etc.

The reports on Dairying, Women's Institutes and Farmers' Organizations are particularly optimistic. A good account of the First Nova Scotia Egg Laying Contest is incorporated, with photos of leading performers. Write and secure a copy.

DATES OF FIRST SEEDING

First seeding records at the Nova Scotia Agricultural College farm back to 1913, show a variation of 23 days. Four seasons have been earlier than the present and four later. The actual dates of first seeding operations run thus:

1913, April 20th; 1914, May 13th; 1915, April 22nd; 1916, April 24th; 1917, April 25th; 1918, May 4th; 1919, May 6th; 1920, May 6th; 1921, April 28th.

Although temperatures for days in April were unusually high the season as a whole is only moderately early in this section.

WHEN BABY IS SICK

When the baby is sick—when he is cross and peevish; cries a great deal and is a constant worry to the mother—he needs Baby's Own Tablets. The Tablets are an ideal medicine for little ones. They are a gentle but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation and in digestion, break up colds and simple fevers and make teething easy. Concerning them, Mrs. Philippe Payen, St. Flavien, Que., writes:—"Baby's Own Tablets have been a wonderful help to me in the case of my baby and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers, or by mail, at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ANOTHER PAPER GONE

After forty years' continuous publication, The Toronto Daily World has been forced to suspend. This will give our readers some idea of the strain imposed upon newspaper publishers by the conditions of today. A few years ago The World was valued at one million dollars. It was sold the other day for a song. It was a sacrifice to the high price of paper, and increased wages. Scores of newspapers have gone the same way, but none with the resources of The World. The decrease of this journal is notable because it had been established since 1880, and had a distinct place in public esteem for many years.

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Effect of Freight Rates on Business Exaggerated

Indications are multiplying that efforts of shippers and producers in many parts of the country to blame the unsatisfactory state of their businesses upon present freight rates are not going to pass unchallenged. The United States railroads are preparing to file with the Senate Committee on Interstate Commerce, when it takes up its inquiry into the railroad situation next month, to file these statements.

Daniel Willard, president of the Baltimore and Ohio says:

"I have personally asked many large manufacturers and shippers of goods what effect it would have upon their shipments at the present time if freight charges were cancelled altogether, and if the railroads would move the tonnage offered free of charge. Invariably the answer has been that it would make practically no difference at all in the volume of business because people were not buying at the present time."

Chairman Clark has recently made public the results of his inquiry into the assertions of Florida fruit and vegetable shippers that freight rates are now so high that they cannot profitably ship their products to market. Mr. Clark found that shipments of Florida fruits and vegetables between November 1, 1920, and February 28, 1921 amounted to 28,420 carloads, while in the corresponding period of the year before, under the old rates, such shipments had been 26,886 carloads, an increase for the present season of 1,534 carloads.

The Railway Age asserts that on April 16 the average price paid producers for cabbage in Texas was \$7 a ton, the freight rate to Chicago was \$28.50, including refrigerating charges and Federal tax on freight charges, and total cost laid down in Chicago approximately 1,000 miles from the producing fields, was \$39.30 a ton. At the same time cabbage was selling at retail in Chicago at the rate of \$140 a ton. Texas onion growers received \$42 a ton, freight to Chicago was \$29.64 a ton, total cost of onions and freight \$71.64 a ton, retail selling price in Chicago \$200 a ton. For spinach producers were receiving \$5 a ton, freight rate to Chicago was \$30.36 a ton, total of producer's price and freight \$35.36 a ton, retail selling price in Chicago \$300 a ton.

Tell those who insist that there is more drinking than ever before, under prohibition. There is more drinking indeed—of milk. It is the natural and inevitable substitute for beer and wine. A sensible and healthy nation has already made the discovery, and acting on it, is steadily growing more sensible and healthy. Beer played hob with people's kidneys. So did wine. Whiskey frazzled their nerves and stomachs. Milk is good for nerves and digestion. It puts flesh on bones and color in cheeks. People talk about "home brew" more than they do about milk, just as people gossip more about vice than about virtue; but it's easy to see, neither case, what the situation is.

9,178 SETTLERS VIA C.P. FLEET

English Settlers Brought \$175,000 Here to Buy Land

Despite the strengthening of restrictions against fresh immigration into this country, and the continuation of the ruling that all new settlers must show \$250 in cash and their railway fare to their destination before being admitted into the Dominion, these new settlers continue to arrive in large and increasing numbers.

During the months of January, February and March no less than 9,178 new colonists entered St. John via the Canadian Pacific vessels alone, being 1,450 in January, 2,045 in February and 5,682 in March. These numbers would have been considerably higher had the shipping men aver, if the \$250 requirement had been dropped to the former \$50 rate, as it was recently thought that the high rate was to be maintained. In fact, steamship officials state that many hundred intending immigrants cancelled their bookings upon learning that the high rate was to be maintained.

In detail, the Canadian Pacific records for the three months are as follows:

During January, five of the company's steamers arrived at St. John, N.B., with a total passenger list of 2,854, of which 1,450 were new colonists for Canada and 1,307 for the United States.

In February, six steamers arrived with a total of 5,622 passengers, of which 2,045 were new colonists for Canada and 1,430 for the United States.

Nine steamers arrived in March, bringing 9,851 passengers; 5,962 being new colonists for this country and 699 for the United States.

As to the type of colonists on these incoming vessels, the case of the "Minnedosa"—the last to arrive in March—might be cited as fairly representative.

She brought sixty-five farmers together with their wives, ninety children and \$175,000 to invest in Canadian lands. These new settlers were personally conducted to their western destination by A. M. E. Hill of the C. P. Colonization and Development Department. Most of these were for the district around Lloydminster, a flourishing town on the Alberta-Saskatchewan border. There were also 40 domestics bound for Regina and forty for Toronto.

From which it will be seen that this country is procuring a goodly share of the sprit of newcomer it most requires.

A Dangerous Practice

A matter of vital concern to all railway travellers was expressed in a letter that appeared in a recent issue of the "Montreal Star" under the heading of "The Editor's Mail." This letter was as follows:

A DANGEROUS PRACTICE.

The Editor:—

Sir,—There is one thing which I should be brought to the attention of the big officials of our railway companies. That is the highly dangerous practice of smoking in sleeping berths.

In a train in which I was travelling the other night from Toronto to Montreal, I heard a porter go up to a berth and ask the occupant if he were smoking. There was a very sheepish denial, but as a matter of fact the man was smoking a cigarette in the smoking room. I remember, but in his berth. Quite apart from the lack of consideration which this showed for the other passengers—amongst whom were several ladies—think of the danger of it, where an accidental little fire might have endangered the lives of some score more. There are several enough instances on record where men smoking in bed in their own homes have fallen asleep and been burned to death, without having to emphasize the much bigger danger in a bed on a train.

I spoke about this case to the porter in the morning, and he told me that one day there would be a big fire, and then people would perhaps sit up and take notice. The worst offenders, he said, are not the people in the ordinary berths, who can be asked to stop, so much as those who occupy compartments, and who can lock their doors and tell the porter who remonstrates to go to the devil.

I am not an anti-smoking crank, but I am a very frequent traveller, and I once had the misfortune to lose a relative in a railway fire, which started in a way somewhat like this, and I am sure that if the big railway officials realized the seriousness of this they would, in justice to the travelling public, issue strict orders about it. B. L. T.

Interviewed on this matter, a prominent railway official said that the writer of this letter had been misinformed in thinking that the matter had not been drawn to the attention of the railway companies, for it was one that had been engaging their attention for some time. They are taking every precaution possible to prevent fires, but they were hampered to a very great extent by the indifference of many members of the travelling public. He quoted one case that occurred recently in which the occupant of a compartment had set his bedding on fire through smoking in bed, a bad fire having been prevented only by the vigilance of the porter. Consideration for the safety and comfort of others—if not of themselves—should be the only method of combating this bad and dangerous practice, which, he added, seems to be growing rapidly in volume.

The Lesser Evil

The man from Glasgow had suffered grievously in crossing the Channel, and when he next had occasion to repeat the journey he did not intend that there should be so much acute physical discomfort attached to it. So he visited a chemist's shop, "have ye anything to say the pangs of seasickness?" he asked in his winning Glasgow accent.

"Certainly, sir; we have the very thing," said the obliging druggist. "How much is it?"

"Half a crown, sir."

The Glasgow man, says the Public Ledger, staggered back a pace, visibly shaken. "Loosh," he gasped when he recovered himself, "I would sooner be seasick."
