VOL. 38

UNION BANK OF HALIFAX TO AMALGAMATE WITH ROYAL

Royal Will Gain Forty-five Branches, Some Of Them Having a Splendid Volume of Business.— Union Share-Holders Sell at 200 Per Cent.

A special despatch from Montreal to the Chronicle says—

The important deal by which the Royal Bank of Canada purchased the assets amounting to about fifteen million dollars of the Union Bank of Halifax has been consummated, as far as the Directors of both institutions are concerned. In fact the offer made some time ago by the Royal to the Union has been accepted, and the closing of the transaction depends now upon the ratification of the shareholders of the Union.

HAS FORTY-FIVE BRANCHES

As the annual meeting of the Union does not take place till February it is quite probable that a special meeting will be called, notice of four weeks being given to each shareholder.

The Union has forty-five branches but it is supposed that the branches in Amherst, Bridgewater, Lunenburg, Sydney, Truro, St. John, N. B., Charlottetown and San Juan, Porto Rico will be closed, as the Royal has also branches in those localities. As for Halifax where both the Royal

and Union Bank buildings are crowded, it is supposed that the Union office will be called the Hollis Street Branch of the Royal.

BOTH WILL PROFIT

The banking fraternity it may be said views the purchase with favor. Mr. John Wright the Secretary of the Canadian Bankers Association being interrogated on the subject today stated that he had reason to believe that the negotiations between the banks in question were for the purchase of the assets of the Union Bank of Halifax by the Royal Bank of Canada under section 99 of the Banking Act, and that both institutions would probably profit by the outcome.

The par value of Royal Bank shares is \$100, and of Union \$50. The prestige and good-will of the Union Bank's business is a valuable factor in this merger. It will add many good branches to the Royal, some of them having a splendid volume of business. The Union's shareholders will receive 200 per cent. of the value of their shares.

Town Council

Meeting of the Town Council of Bridgetown was held in the City Hall, Monday evening, July 5th at eight o'clock, p.m. with Mayor Hoyt in the chair and Council members present as follows:— James DeWitt, Edward A. Craig, William H. Burns and Oliver F. Ruffee. It was ordered that the following bills be paid:— Charles Berry, \$9.87 labor on streets, William Ruffee, \$8.62 labor on streets, Charles Berry, labor on water works \$2.00; William Ruffee, labor on water works \$1.62, making in all on street account \$18.49 and on water works account \$3.62. Also Edward Barteaux, surveyor, for running out Town boundaries, \$8.00, Edwin L. Fisher, \$1.50 balance on Policeman's uniform, Alden G. Walker, \$46.40 for gravel on streets, R. A. Crowe, labor on water works, \$17.00. It was resolved that the account of Mrs. James Curran, be not paid, as in the opinion of this Council this Municipality is not liable therefor, but that the said account is a charge against the Municipality of the County of Annapolis to be adjusted by the Arbitration Committee on joint liability account. It was resolved that the committee on water works be authorized to purchase about sixteen feet of fire hose with the necessary couplings for the purpose of filling the watering cart. Minutes read and approved and Council adjourned.

Insurance Rebates

Cannot be Accepted

It is illegal, according to the Insurance Act just issued, for any person to accept any rebate of premium on any life insurance policy in any form whatever, or any favor, advantage, benefit, consideration or inducement, directly or indirectly. The public is hereby warned against dealing with any life insurance agent or company which offers any inducement whatever other than the regular form of the policy.

The penalty for the first violation is double the amount of the annual premium, in no case less than \$100; and for the second violation not less than \$250.

TELLS NOVA SCOTIANS THEY ARE WASTING MONEY ON ROADS

Amherst, N. S., June 24—A W. Campbell, deputy minister of railways and canals, arrived in Amherst on a special train today, accompanied by members of the railway board and W. B. Mackenzie, chief engineer of the I. C. R. Mr. Campbell addressed a large meeting of citizens of the town and surrounding country tonight on the subject of good roads. His address was one of the ablest efforts ever heard on an Amherst platform. He condemned the present system of road making in this province, and said it is waste of labor and of money.

District Sunday-School Convention

A Convention of the Bridgetown district in connection with N. S. S. A. was held in the schoolroom of the Baptist church, on Wednesday last.

The President, Mr. W. Jewitt, took the chair. Other officers present were the vice president, A. D. Brown, County Secretary, Miss A. E. Young, Supt. of Adult dept. Miss N. Healy, Home Dept. Supt., A. O. Price. The meeting opened with devotional exercises. Mrs. Dixon then read a paper on "The Relation of the Sunday School to the church."

Supts. of Departments then gave reports and explained the work of departments, urging the schools to take up the work with the aim of making all church members also members of the S. S. Supt. John Hicks and Mr. A. D. Brown spoke on the value of the Adult Bible class and pleaded for the seeking of the Holy Spirit's aid by the teachers.

It was exceedingly gratifying to hear from the President that the executive had been instrumental in re-organizing the Ingewald school and opening a new school in Beaconsfield with a prospect of still further development in other sections. After a musical selection "Come unto Me" rendered very acceptably by the ladies' quartette; Miss Annie Young, County Secretary, who attended as delegate the International Sunday School Convention at Washington, gave a very interesting and inspiring report of the uplift and enthusiasm of such a huge international gathering.

Rev. Allan Simpson, of Halifax, closed a most interesting and helpful meeting in a few words of commendation of Miss Young's valuable report and the work of the great unpaid voluntary body of Sunday school workers; directing attention also to the immense value of home tuition in assisting their noble efforts.

The President gave notice that an other similar meeting would be held in a few months time, which he believed would increasingly stimulate interest and zeal in the work.

FURNESS LINE TO RUN PASSENGER SERVICE.

A special to the Morning Chronicle from Montreal says:— The Furness Withy & Co. are to run a passenger service to Montreal next year, and will have Halifax as a winter port. It is not yet decided whether Manchester will be the English port or not.

Hymeneal

TUTTLE—JOHNSON.

A very interesting event was solemnized at the Methodist Parsonage, Bridgetown N. S., on Wednesday, June twenty-ninth, at ten o'clock. The occasion was the wedding of Miss Anna, daughter of Mr. and Mrs. G. F. Johnson to Aubrey Stephen Tuttle M. A., a member of the Alberta Conference, and stationed at Calgary.

The ceremony was performed at ten o'clock a. m. by the Rev. Mr. Johnson, father of the bride, assisted by Rev. Dr. Jost, in the presence of a number of relatives and friends. The bride entered the drawing room on the arm of her brother, Dr. C. B. Johnson, to the strains of the wedding march, played by the groom's nephew, Roderick Fraser, a student at the school for the blind, Halifax.

The bride looked charming in her going-away gown of russet brown shantung silk with hat to match. She also wore the groom's gift, a lovely pearl pendant brooch.

Rev. Mr. and Mrs. Tuttle left on the noon train for St. John, followed by the good wishes of a host of friends; they will also visit New York, Chicago and other American cities.

The bride was the recipient of many beautiful gifts, which were arranged in the library, the bride's table being banked with panics and pink roses.

Just at the close of the ceremony telegrams of congratulation were received from friends in Halifax, Edmonton and Calgary.

A few days before the wedding, the bride gave her a kitchen maid, Miss Mary, a very pretty and useful gift. Among the guests were Mr. and Mrs. Woodbury, Mr. and Mrs. Purdy, Bear River, Mr. and Mrs. Wolfman, Wolfville, Dr. C. Johnson, Winnipeg, Miss Kate Lawrence, Southampton.

Both Mr. and Mrs. Tuttle have an unusually large circle of friends, as both are graduates of Mt. Allison, and Mrs. Tuttle of Acadia also.

TEMPLEMAN—BRINTON

The marriage of Foye R. S. Templeman, of Hampton, N. S., to Miss Goldie Esther Brinton, of Hampton, N. S., was solemnized June 22nd, at the home of Mr. and Mrs. Frederick A. Hudson, of 13 Whitney street.

The ceremony was performed at 7.30 o'clock by Rev. William M. Gilbert pastor of the Cliftondale Methodist church. Mrs. D. C. Woodward, of Saugus, presided at the piano and played the "Bridal Chorus," from Lohengrin, as the party entered the parlors and Mendelssohn's "Wedding March" as they retired.

The single ring ceremony was used the bride being given away by her brother, Leo E. Brinton, of Lynn. The maid of honor was Miss Hattie M. Brinton, a sister of the bride, and the best man was Mr. Quinn, of Salem.

The bride wore a costume of embroidered point d'esprit, with satin trimmings, and her veil was caught up with roses. She carried a shower bouquet of roses and wore a beautiful gold watch, the gift of the groom. The maid of honor was gowned in white and carried a bouquet of pink sweet peas.

The rooms were beautifully decorated for the occasion with potted plants and cut flowers, and the ushers were Roy Brooks, of Lynn, a cousin of the bride, William Snow, of East Saugus, a cousin of the bride, and Leo E. Brinton, of Lynn, a brother of the bride.

Following the ceremony there was a reception, from 8.30 to 10 o'clock, for which over one hundred invitations had been issued. The bridal couple stood in the parlor and were assisted in receiving by Mr. Quinn and Miss Brinton.

The couple left for Nova Scotia on a wedding journey and at the conclusion will reside in Salem.

Don't wait for fortune to smile on you. Fortune doesn't smile all the time. When she does, she usually favors those who hustle, not those who wait.

Teachers' Salaries

The Monitor-Sentinel's Smith Cove correspondent writes on the question of Teacher's Salaries as follows:—

To the Monitor-Sentinel:— The school meeting for the district was held in the school house on the evening of June 27th. Mr. A. H. Weir was chairman, and the duties of Secretary were efficiently performed by Mr. W. B. Snow. The retiring trustees were Mr. T. O. Morgan, and Mr. E. Winchester was elected to take his place. Mr. R. S. Longley, treasurer of the advanced department, had informed one of the trustees that he could not remain another year for less than \$325, and as the sum of only \$225 was voted for the advanced department the section will be deprived of Mr. Longley's services, which were satisfactory in every particular. It is thought Miss Lambert, of the Primary department, will remain another year, and the people of the section will be very glad if she does, because her record has been all that could be desired.

It is likely that Mr. Longley will go west, where teachers command good salaries. The East would do well to think twice before parting with too much of its cream. It is a great mistake to think that skim milk is good enough for home consumption. Mental growth cannot be expected to take place when children are ill fed. The vigorous mentality of the west is due to the liberality of her people towards the school and universities. Recognizing the importance of providing facilities for the developing of boys and girls into men and women possessing qualities of leadership, equipped in every particular for supremacy in all the activities of national and international life, the West is offering great inducements for the institutions of learning.

There is a proverb reading "As a man thinketh so is he." This applies to nations as to individuals. The West thinks well of itself. According to one of the bright citizens of Winnipeg, the centre of Empire will one day be transferred from London to Western Canada, and if the people keep such lofty ideals before them there is no telling what will happen. But ideals are never realized when the fountain of national greatness begins to dry up, and THIS BEGINS WHEN BOYS AND GIRLS ARE NOT CONSIDERED OF MORE VALUE THAN CATTLE, SHEEP AND HORSES.

Scientific methods in the care and feeding and training of animals, in the raising of crops are being adopted everywhere, and the expenditure thereby is increasing each year. But when you come to the only and true source of physical well being and prosperity of human life itself, what do you find? Well, you find first race suicide, many men and women looking upon children as nuisances landlords refusing to rent houses to the heads of large families, and perhaps WORST OF ALL THE EXERCISE OF RIGID ECONOMY IN THE RUNNING OF PUBLIC SCHOOLS. No matter what section you tackle there is as much difficulty in securing an increased appropriation for school purposes as there is in drawing blood out of a stone.

The salaries paid teachers are kept down to the level of twenty-five years ago, notwithstanding all that enters into a teacher's preparation for his work, books, board, instruments, clothing, etc., has increased fifty to one hundred per cent. There is no use talking about increased industrial activity, about growth and expansion about holding our own in the march of progress unless we are willing to spend more money on our schools. We cannot hold teachers at the salaries our grandfathers paid. The times demand an increase in outlay, and to expect that our schools can be run on the same old appropriation year in and year out is folly of a most disastrous kind. Stagnation means decay.

We cannot remain cramped and narrow in our views when dealing with the training of children and expect to develop a class of citizens capable of keeping their country in the forefront in all that makes for national greatness. ALL THE ORCHARDS, ALL THE STOCK ALL THE MINERALS IN THE LAND

EXHIBITION OF FLYING

MACHINES AT MONTREAL

Aviators in Wright Machines Give Some Remarkable Performances.—Crowd Thrilled When Dirigible Balloon Exploded, But Boy Aviator Escaped

Montreal June 23—At Aviation Park yesterday there was one of the finest exhibitions of mechanical flying ever given on this continent. The weather conditions were ideal, with the result that the aviators had no difficulty in showing the perfection of their machines, both for high flying, speed and manoeuvring.

De Lesseps made two flights, but did not succeed in making any sensational moves, each time being beaten on by Wright machines, the superiority of their biplanes over his monoplane being easily demonstrated.

McCurdy, with his machine, Baddeck No. 2, was the most disappointed man on the ground, as although he made two efforts at flight, he could hardly get it off the tracks, it rising a little and then coming down again, evidently being too heavy to fly, despite the powerful engines it carried.

The real sensation of the day was caused by Dixon, the boy aviator, with his dirigible balloon. He was starting for a flight when he leant over the car just as it was a few feet from the ground, while reaching for the control rope and fell out. Dixon landed unburnt, but the balloon shot into the air at terrific speed, and rose to a height of over 3,000 feet, when it burst, and dropped like a stone.

The crowd was horrified, thinking that Dixon was still in the car and must meet a terrible death. Everybody waited in a silence only broken by a few shrieks from women as the big balloon dropped, and it was not

until some time later that the crowd discovered that Dixon was safe on land.

Nine flights altogether were made during the afternoon, six by the Wright biplanes, two by Lesseps in his monoplane, and one by McCurdy, which, however, was too short to be counted.

The speed trial was easily won by Lachapelle in a Wright machine, he covering the route twice around the course, a distance of over 4,000 yards, at a speed of about forty miles an hour, making the distance in three minutes twenty-nine seconds.

A splendid flight was made by Ralph Johnson in a Wright machine when he flew out over Lake St. Louis and cruised in the air for 35 minutes, making all sorts of short turns and glides to show the perfect control he had over the flying machine. The highest flight ever made in Canada was registered by Brokens in a Wright machine, when his official figure was 1,500 feet. The machine went up until it was lost in the clouds, and Brokens claimed that he had ascended 3,500 feet. He kept ascending in circles for twenty minutes, and then, when his machine was a mere speck in the sky suddenly stopped his motor and swooped to earth in a wonderful long glide, only turning up when twenty feet off the ground in the aviation field, and alighted easily.

There were 3,000 people at the meet the attendance being decidedly disappointing.

Conductors on the D. A. R.

The Bluenose trains are in charge of Conductor Ritchie between Halifax and Kentville and of Conductors Mar

gesson and Clarke between Kentville and Yarmouth. Conductor Fizzle has the mail trains between Halifax and Kentville and Conductors Mennie and Nichols between Kentville and Yarmouth. Conductors Conrad and Simmonds have the accommodation trains between Halifax and Annapolis Conductor William Herbert the early morning train from Kentville to Halifax and return, Conductor George Williams the accommodation between Digby and Yarmouth, Conductor A. Herbert the accommodation between Digby and Annapolis and Conductor Dickie the trains on the C. V. branch—Yarmouth Times.

That Red Rose Tea is of surpassing quality is accepted everywhere it is used as an undisputed fact, but it is in the Maritime Provinces especially that it has by unvarying goodness so well earned the term "is good tea."

Prices: 30c., 35c., 40c., 50c. and 60c.

MINARD'S LINIMENT CURES PAIN

A NARROW ESCAPE.

An Englishman's Adventures in British Columbia.

A London magazine publishes the following thrilling story of adventure in British Columbia. It is vouchered for as true:

A bright, crisp morning at the end of March, 1900, found me standing at the door of my log cabin gazing down the valley of Hat Creek, in British Columbia, some 6,000 miles away from England. Suddenly my attention was attracted by a band of wild horses, which I saw outside my fence, about half a mile away, near a meadow in which my horses were grazing. As I looked, the lord and master of the band, a fine black stallion, leapt the fence. I ran down the hill to the meadow, but too late; the horse had jumped back, followed by a valuable grey mare of mine, and, regaining the band, galloped away with them.

I knew that if I did not cut my mare off from the rest of the horses there was small chance of my ever seeing her again. In less than five minutes I was in the saddle, galloping madly after the fast retreating band, which had now reached the fringe of trees at the foothills and were rapidly disappearing into the forest beyond. For hour after hour I continued the chase—through valleys and forests, over hills and across plains. At length, about two o'clock, I drew rein and reluctantly gave up the chase. For a couple of hours I rested with my horse by the side of a small river, when suddenly, about four o'clock, the tramp-like blast of a wild stallion started me to my feet, and there, only a few yards away, was my mare with the rest of the horses. They were gone like a flash and I, like a fool, decided, to my everlasting regret, to follow them.

But again I saw the chase was hopeless and had decided to give it up when one of the reins suddenly gave way, and I was, practically at the mercy of my steed. He took advantage of this, and rushed madly after the flying horses. I was powerless, so all I could do was to stick to the saddle. Which direction we were going I knew not nor cared, for most of my time was taken up with dodging trees and drawing my feet up to avoid getting caught in projecting branches. Suddenly, in the fast-gathering dusk, before me lay a sheet of ice some thirty feet long.

At the pace we were traveling it was impossible to pull up; so, hunching up his back, my horse prepared for the leap. He made a tremendous bound in the air. Then came a great crash, a thousand lights danced before my eyes, and all was blank. Some hours later I opened my eyes to see a bright moon shining overhead. I lay for some time in a sort of dream, until at length consciousness fully returned to me and I attempted to raise my head, which was now beginning to ache terribly. To my surprise I found that it seemed to be fastened to the ground. Putting my right hand up, for my left arm was under my body, I found my hair was frozen to the ice, through the blood which had flowed from a wound on my head.

Little by little I gradually raised myself, and, looking about me, I saw that I was pinned to the ice. Then, with the greatest effort, I managed to cast myself from under the ice. I got to my feet after many minutes. Then I found that I could not move my left arm, and that my side was so painful that I could scarcely breathe.

I picked my way along the trail, and, to make a long story short, after a very trying journey, walking the last ten miles in a heavy snowstorm, I arrived at my cabin utterly exhausted.

It was ultimately found that my left cheekbone was smashed, my elbow fractured and dislocated, besides three ribs being broken. I had to lie in my bed for three weeks; all this time heavy snowstorms were raging, and was impossible for anyone to get either up or down the creek. Then I was taken down in a sleigh, where I saw Dr. Williams, who could do nothing for me as my arm had set solid, and I could not bend it or use it at all. Finally, I came to England and went into King's College Hospital, where Mr. William Rose (now Sir William) made a false joint by breaking the arm again, so I can now use it to a limited extent.

In conclusion, I might add that, as near as I could judge, I lay under my horse, insensible, from 6 p. m. to midnight. I arrived at my cabin twenty-four hours later, having walked forty miles and had nothing to eat for forty-eight hours.

More Cash for Exhibitors at Dominion Exhibition

The generous increase in awards at the St. John Dominion Exhibition is possible through the grants of the Dominion, Provincial and Civic governments, Cattle prizes, especially in the Shorthorn, Hereford, Ayrshire, Holstein and Jersey classes have been increased 100 per cent.; in the Clydesdale, Shire, and Percheron horse classes the increase is fifty per cent.; Dairy breeds of cattle receive 125 per cent more money than on previous occasions, while sheep and swine breeders receive much greater incentive than heretofore. Poultry fanciers will be interested in a new system of judging, and the prize list will vary with the number of entries in each class. Dairy awards have been revised upwards as well, after consultation with representatives of the feature in this section of the show will be the separation in competition of the professional dairymen and the household butter-maker, special prizes being awarded for each. In the Horticultural department the prize list has undergone a lot of changes, made with a view to improving the quality of exhibits. Naturally this has entailed the elimination of several classes of apple, not fit for competitive purposes so early in the autumn. The funds withheld on this account have been put into new classes. Potatoes will be judged in a new manner instead of judgement being rendered in each individual variety, they will this year be classified in six types—White Round, White Long, Rose Round, Rose Long, Red and Black. The Women's Work and Household Science Department, also the Educational section, have been included in the increase of prize monies. Entries in the Live Stock and Agricultural departments close August 1st.

Makes Hair Grow

Mr. Warren has an invigorator that will grow hair or money back.

The time to take care of your hair is when you have hair to take care of.

If your hair is getting thin, gradually falling out, it can't be long before the spot appears.

The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed.

And remember, it destroys the Dandruff germ, the little pest that saps the life that should go to the hair from the roots.

SALVIA is sold at Warren's Drug Store, a positive guarantee to cure dandruff, stop falling hair and itching scalp in ten days, or money back. A large bottle costs 50 cents. The word "SALVIA" (Latin for sage) is on every bottle.

CAT CLAWS AN INFANT.

Nearly Gouged Eye From Child's Mother—Finally Shot by Police.

New York despatch.—A big black house cat, which for years had curled itself comfortably in front of the hearth of Mrs. Henry Sauer, in Ninth Avenue, went suddenly mad today and with an angry cry attacked a three months old infant of Mrs. Sauer as it lay in its carriage. The infant was pulled out of the carriage and fell to the floor, suffering a probable fracture of the skull. The baby will probably die. The cat is believed to have become mad from the loss of her kittens, which had been drowned. Mrs. Sauer heard the cat's cry and hurried to the nursery. The baby lay unconscious on the floor with blood streaming from its ears and nose. The yellow eyed cat crouched in the corner and snarled, then leaped at Mrs. Sauer.

The animal nearly gouged out her right eye with its claws and tore her face until Mrs. Sauer seized the animal by the neck and threw it down stairs.

The screams of Mrs. Sauer caused a panic in the house. The police were called and the cat renewed its attack on an officer who finally cornered the cat and shot it.

Chased by a Bear.

Moody McLeod, son of John McLeod, seventh generation of Roxborough, near Chesterville, Ont., is telling of a thrilling experience which reads like a tale of pioneer days.

Hearing his dogs barking in the woods, McLeod took his gun. Suddenly he came upon a big black bear. McLeod fired both barrels, the second bringing down Mr. McLeod. He drew his knife and was bleeding his game, when a second, but smaller bear arrived on the scene. McLeod's gun was empty and as the bear showed fight, he struck out for the house with bruin a good second. He tripped and fell, breaking the stock of his gun, but just then the bear was attacked by one of the dogs that had been wounded and thrown under a stump by the big bear. The smaller bear climbed a tree and was kept there by the dogs till McLeod secured another gun and ended its career. The little dog was so badly wounded that he died the next day, and the other dog is badly disabled.

Lucky for G.Hbert.

During a recent speech Sir Gilbert Parker told an amusing story of his boyhood days. He had a fight with another boy, and was duly reprimanded by his father, who inquired how the other boy had fared. "I just licked him," young Gilbert replied. Upon which his father remarked, somewhat grimly, "If you had not, I would have licked you."

The Normal Graduates

The closing of the Provincial Normal College at Truro took place on Thursday, June 23rd.

The presentation of Diplomas by the Superintendent of Education, brought the interesting exercises to a close.

Five pupils were awarded Academic rank.

Eight are to be promoted to Academic rank after successful experience in teaching.

One hundred and seventeen were awarded first rank.

Twenty will get first rank after successful experience.

Fifty-five received second rank.

Eleven will receive second rank after successful experience.

One received third rank.

Five were awarded kindergarten certificates of first class.

Eight were awarded certificates of special proficiency as primary teachers and one was recommended to license in Mechanical Science.

The following are Annapolis County graduates:—

Awarded first rank:—
 Kathryn Gormley, Annapolis.
 Mary Kent, Tupperville, N. S.
 Ethel Morse, Middleton.
 Mary Palfrey, Bridgetown.
 Ethel Phinney, Lawrencetown.
 Mary Phinney, Middleton.
 Myrtle Robbins, Bear River.
 Delma Snow, Port Wade.
 Edna Wade, Granville Ferry.
 Carrie Whitman, Granville Ferry.
 Lulu Withers, Granville.

Awarded second rank:—
 Ida Marshall, West Dalhousie.
 Lettie Marshall, Bridgetown.
 Ethel Phinney, Lawrencetown.

Chamberlain's Stomach and Liver Tablets gently stimulate the liver and bowels to expel poisonous matter cleanse the system, cure constipation and sick headache. Sold by all dealers.

Joker's Corner

NOT SLOW TO TAKE A HINT

He was a quiet, bashful sort of young man. He was calling on a young lady one evening not long ago, says a writer in the Denver Post, when her father came into the room with his watch in his hand. It was about half past nine. At the moment the young man was standing on a chair, straightening a picture on the wall. The girl had asked him to fix it. As he turned, the old gentleman, a gruff, stout man, said, "Young man, do you know what time it is?"

The bashful youth got off the chair nervously.

"Yes, sir," he replied. "I was just going."

He went into the hall without any delay and took his hat and coat. The girl's father followed him. As the caller reached for the door-knob the old gentleman asked him if he knew what time it was.

"Yes, sir," was the youth's reply. "Good night!" And he left without waiting to put his coat on.

After the door had closed the old gentleman turned to the girl.

"What's the matter with that fellow?" he asked. "My watch ran down this afternoon, and I wanted him to tell me the time so I could set it."

HUMORIST'S COMPLIMENT.

There was no one so handy at paying a quaint compliment as Mark Twain, and the simple sincerity of his kindness of heart added much to his charm of speech. A clergyman of Hartford gives an instance of this. He says, "He waited for me at the church door at the service and, and taking me by the hand, said gravely 'I mean no offence, but I feel obliged to tell you that the preaching this morning has been of a kind that I can spare. I go to church, sir, to pursue my own train of thought. But I couldn't do it. You forced me to attend to you, and lost me a full half-hour, I beg that this may not occur again.'"

WHERE SHE CAUGHT

"What's the matter with you this morning, Delia?" asked Mrs. Rose.

"O! ma'am," replied the servant girl, "tis the terrible earache I have this mornin'."

"Ah! you should be careful, Delia. All the keyholes in this house are very draughty."

ONWARD AND UP

"We should keep going upward," said the earliest of "with our minds fixed on altitudes.

"That's what I'm doing," the busy person. "I have traded my automobile in as part payment on an aeroplane." — Washington Star.

Quebec, P. Q. Aug. 25th, 1910.

I can testify that Empire Liniment is the best remedy that I have ever used in my stable. I had a horse with chronic case of Crevasse (scratches) a few applications made a complete cure and I find it equally good at my home, when you buy Empire your investment is all right. Will do all it claims to do.

OCTAVE BROCHURE.

To the Empire Liniment Co. Ltd. Bridgetown, N. S.

BOSTON EDUCATOR

DIES OF INJURIES.

Boston, June 28—Robert E. Burke, assistant superintendent of schools of the city of Boston, died at the city hospital this morning as the result of injuries received in an automobile accident in Dorchester Sunday, June 19th. One of the wheels of the automobile in which Mr. Burke was riding collapsed, throwing him out and causing a fracture of the skull.

Mr. Burke was born in Boston in 1874 and has been closely identified with the schools of the city all his life.

FIG PILLS

Cure Backache, Bladder and Kidney Trouble

A few doses of FIG PILLS will convince you that a few more will cure you. Every box of FIG PILLS is guaranteed. If they do not cure all Etdader, Kidney, Rheumatism and Liver Trouble, your money will be refunded.

25c. a box at all leading drug stores. W. A. Warren, special agent.

At the opening of the sanitarium for consumptives at London, Eng., Dr. Osler said we now had knowledge of how to cure consumption, and it rested with the public whether the disease would be stamped out. In three more generations it would be wiped out unquestionably.

More Cash for Exhibitors at Dominion Exhibition

The generous increase in awards at the St. John Dominion Exhibition is possible through the grants of the Dominion, Provincial and Civic governments, Cattle prizes, especially in the Shorthorn, Hereford, Ayrshire, Holstein and Jersey classes have been increased 100 per cent.; in the Clydesdale, Shire, and Percheron horse classes the increase is fifty per cent.; Dairy breeds of cattle receive 125 per cent more money than on previous occasions, while sheep and swine breeders receive much greater incentive than heretofore. Poultry fanciers will be interested in a new system of judging, and the prize list will vary with the number of entries in each class. Dairy awards have been revised upwards as well, after consultation with representatives of the feature in this section of the show will be the separation in competition of the professional dairymen and the household butter-maker, special prizes being awarded for each. In the Horticultural department the prize list has undergone a lot of changes, made with a view to improving the quality of exhibits. Naturally this has entailed the elimination of several classes of apple, not fit for competitive purposes so early in the autumn. The funds withheld on this account have been put into new classes. Potatoes will be judged in a new manner instead of judgement being rendered in each individual variety, they will this year be classified in six types—White Round, White Long, Rose Round, Rose Long, Red and Black. The Women's Work and Household Science Department, also the Educational section, have been included in the increase of prize monies. Entries in the Live Stock and Agricultural departments close August 1st.

CHILDREN'S SUMMER CLOTHES.

Children's clothes are extraordinarily prettily this summer, and luckily the general taste in the matter of dressing the children improves from year to year.

Never was there a time when you could dress a child prettily and smartly with less expenditure and labor, and yet never was there a time when you could spend more upon a child's clothes without offending the laws of good taste. Elaboration on a child's frocks takes dainty, childish forms. Fussiness and pretentiousness are avoided. Fine materials of a sort suitable to the age of the child, fine and delicate hand embroideries, narrow good laces, hand-run tucks, these are the elements entering into the expensive little frocks nowadays, and the most beautifully dressed children at a children's party give absolutely no impression of being overdressed. They are only exquisitely dainty; and if their simplicity is of a most expensive kind, at least it has the merit of not being unchildish.

The frocks in linen and pique are not so 'dressy' in effect as the sheer frocks, but they are smart, and of course more practical than the filmy sort of frock, so they are being worn for all save very festive occasions.

The type of child that is to wear the frock is a consideration which many mothers fail to grasp. A certain sort of small girl is at her best in sheer frilly things and fluttering ribbons. Another demands a quaint severity of dress. A plain child may be made to have quite a good appearance by tasteful selection of her clothes.

So, whether a mother has much or little to spend, she should first consider carefully the possibilities of her small daughter, the good points that can be emphasized, the flaws that must be disguised or minimized. She must choose the becoming colors, debate seriously the comparative becomingness of round or square neck and have strength of mind to declare in favor of gumpe and tiny standing collar if the low cut is unbecoming to a scrawny little neck or emphasize too forcibly a thin little face and sharp, unchildish chin. She must choose her model with reference to fat chubbiness or slim legginess, must broaden narrow shoulders and cover thin elbows. In a word, she must not buy or make a frock simply because it is pretty, but must buy or plan what suits the individual child.

For play frocks one piece models of the kind known as Russian are very popular.

KNIGHTED BY KING GEORGE

Sir Edmund Walker, president of the Bank of Commerce, who is the leading authority on banking in Canada, who has just been knighted. He is one of three Canadians who have been honored by King George. Sir Edmund was formerly known as Byron E. Walker, but he has decided that he would prefer to be called Sir Edmund, as this is his family name, and the one by which his family calls him.

PURITY FLOUR

A MATTER OF PRIDE

(Ottawa Citizen)

It is always good to hear something pleasant about one's own country from abroad. Especially is it appreciated when it is justified, and in this connection an excerpt from the New York Evening Press seems to fulfil all the conditions. The Post publishes a despatch from Chicago as follows:

"Law enforcement in Canada and the slow reform of court procedure in the United States, according to Chicago lawyers, are proving a force in the migration to the provinces of western settlers, they say, may give new impetus to the lagging efforts. A Minnesotan who had bought a farm in Saskatchewan, after telling of the crops, the railways, elevators, and the influx of settlers, concluded:

"I'll tell you what it boils down to. Ever since the settlement of this country began it has been understood and recognized that the man who breaks the law is going to be jailed. It don't matter if he is as spry as a gopher or as husky as a buffalo. It don't make any odds if he can crawl into a prairie dog's hole. If he breaks the law he's going to be jailed, good and sure! He can have fifty guns and \$50,000, he can have any sort of blame pull you like—but he is just going to be jailed. It may take a day, a week, or a year; but he'll be jailed sure. May be he'll kill a Northwest policeman—may be he will. Well, then, he'll hang, for a dead sure thing! He'll never buy a northwest policeman, nor he'll never escape jail if he breaks the law. All Canada knows it, and we Americans know it, and that's why this country is a good country to live in."

This is the proper sort of advertising and Canada and the northwest, in particular, cannot get too much of it. A guarantee of fair play and justice to all is surely an asset in the development of a new country. It should be jealously guarded.

Regulate the Bowels

"I have been troubled with constipation for several years, and have tried a great many kinds of pills, as well as medicine from the doctor. Nothing seemed to help me until I began taking Dr. Miles' Nerve and Liver Pills. I found the little pills very effective, and I am thankful that at last I have a reliable remedy."

MRS. F. M. DUNKIN,
LeRoy, Ills.

Dr. Miles' Nerve and Liver Pills
simply cause the bowels to move in a normal manner, and without the gripping effects of cathartics and purgatives. That's why they are so universally used by women and children. The longer they are taken the less are needed. Natural conditions gradually being restored.

Price 25c at your druggist. He should supply you. If he does not, send price to us, we forward prepaid.

DR. MILES MEDICAL CO., Toronto

Nitro Culture

Nitro cultures consist of the same kinds of bacteria which grow in the nodules or tubercles on the roots of leguminous crops, such as clovers, alfalfa, peas, beans and vetches. The presence of those bacteria in the soil can always be recognized by the presence of those nodules on the roots and possess the exceptional power of living upon the roots. These bacteria lodge in the free nitrogen of the air. This they yield up as a rental to the plant which affords them lodging. When these bacteria are absent the crops will not grow to advantage; hence the use of artificial means of inoculating the soil with these organisms. The nitro culture contains these bacteria growing on the surface of a jelly-like substance, which, when washed off and sprinkled on the seed before sowing, inoculates the soil with that specie of bacteria. It should be clearly understood that the use of artificial inoculation with bacterial cultures will in no way compensate for poor seed, careless cultivation, insufficient drainage, lack of lime or fertilizer, grasses, grains, roots and other non-leguminous plants.

During the past few years several hundreds of these nitro cultures have been distributed from the Agricultural College, Truro, N. S., amongst the farmers of the Maritime Provinces and where other conditions are satisfactory, the reports have been highly favorable toward their use. During this spring we are again shipping from the College nitro cultures for the following leguminous crops: Alfalfa, alsike, red, white and crimson clovers, peas, beans, and vetches. Each of these crops have a distinct form of bacteria as found in the nodules on the roots; hence a different culture which will give no result if used on any crop other than specified. If this crop has been grown successfully on your land previously, these organisms will in all probability, be in the soil and nitro cultures will give slight if any, results.

A nominal charge of 25c per bottle is made to help cover cost of material and postage and as a sign of good faith in the user. These same cultures are put out by manufacturing concerns in the U. S. for which is charged \$1.00 or more per bottle. Each bottle sent from the College at Truro contains sufficient to inoculate sixty pounds of seed and all the culture may be used on less seed without harm. In writing, kindly state crop you intend to inoculate and the date of seeding. Full directions are enclosed with cultures.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by all dealers.

INVESTIGATING AFFAIRS OF PRINTING BUREAU, OTTAWA

Official, Who Entered Service Seventeen Years Ago, Still Missing—Police Searching for Him.

Ottawa, June 27.—There is no trace of Frank S. Gouldthrite, the fugitive superintendent of stationery, who decamped on Monday last following the discovery of the frauds at the government printing bureau consequent upon the investigation by Hon. Charles Murphy. Circulars have been sent out by Col. Percy Sherwood, chief of the dominion police, to various police departments in Canada and the United States, giving a description of the missing man, and the government will spare no effort to have him arrested.

Meanwhile an attachment will be made against his property in Ottawa to cover the loss of at least part. Gouldthrite was appointed to the staff of the printing bureau seventeen years ago. His salary was \$2,300 a year.

Hon. Mr. Murphy, assisted by the king's printer, Charles Parmelee, is continuing the investigation into affairs at the bureau and until it is completed no details as to the other members of the staff against whom irregularities are proven, will be made public. The minister has determined on a thorough reorganization of the whole bureau with a view to making any further rake offs or fraud of any kind impossible.

As far as can be learned at present all the instances of collusion between employees at the bureau and sellers of stationery have been in connection with United States firms. A searching audit of all the accounts for years is now being made, and it is probable that many firms who have been doing business with the bureau will be asked to tell all they know about the matter.

Novel Marketing Plan

The life of Genesee is much like that of other small western New York towns, and it was recently decided to see if something could be done to develop more local interest in trade. A number of the merchants in Genesee decided to combine and form a business men's association to advertise the town and help the community.

A large number of the men decided that the thing to do was to arrange some method for bringing the people to town. It was decided, therefore, to try holding a free auction each month. Any farmer could send in anything he desired to sell, and the business men would advertise it, catalogue it, pay for an auctioneer to sell it and turn over the proceeds without any expense to the farmer.

At this time the different merchants arranged special prices on certain lines of goods, thus: seven cakes of soap for twenty-five cents, or nineteen pounds of sugar for one dollar. One enterprising jeweller on the first public auction day sold five hundred solid silver thimbles at seventeen cents each. As this auction was held before Christmas, he had all Christmas stock arrayed around the store with special prices marked on each article.

The public auctions kept the farmers busy—horses, cows, tools and farm products attracted several hundred men. People who would not come to town for any reason came on market day, and those who did not come to purchase, came to discuss things and see what was going on.

The first market day was a decided success. The cost to the merchants was made up by a levy of one dollar each on the members of the association. It has since been decided that they will contribute one dollar each month and try the system for a year. The second auction in January was held under unfavorable climate conditions, but was extremely profitable to the merchants and some \$3000 worth of farm stock was sold, nearly double that sold at the first auction.

SEED SELLING A SUCCESS

At the third auction, that of February, recently held it was decided to add a new feature. Three weeks before the event, notice was sent to all the county papers that a seed distribution bureau would be established by the association. A committee outlined the following plan: All farmers having farm seeds for sale anywhere in the vicinity were invited to send samples with the amounts they wished to sell and the price. In the case of seed corn, they could bring ten ears, or half a peck shelled; half a peck of oats or beans and ten potatoes; also samples of grass, clovers and alfalfa seeds.

First, second and third prize cards were awarded in each class, the judging being done by Dr. Gilbert of the state college of agriculture at Ithaca. The fact of placing samples in competition added interest.

Since the auction was not to be until after dinner, the morning was devoted to an institute, Dr. Gilbert giving an address on the importance of good seed. This allowed time to discuss the samples shown and to give in detail methods for their improvement. The exhibit and address were held in the village hall. On a bulletin board were posted the names of all people having produce to sell and of any person who wanted to buy, and the committee sought to bring the parties together.

The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. Sold by all dealers.

TO HALLEY'S COMET.

(The following lines were composed by a lady over eighty years old).

Hail to thee; stranger: in our northern sky,
Pain would we gaze and trace thy path on high,
Till lost in boundless space to Him our minds we turn
Whose mandate marked thy course and caused thy light to burn.
What wonders hast thou seen, majestic and sublime
Far, far beyond the sphere of earth or boundaries of time
Since last on this our world thy fiery brightness shone
And o'er the darkness of night thy beams of light were thrown.
And still on thee we gaze, our souls with rapture glow,
Our Father's greatness fills our hearts and bows our spirits low.
We see His glory and His power throughout the Heaven afar,
We view Him in the glowing blaze and every shining star.
The work by Him designed with swift obedience ye fulfil.
Ye sing His praise, His power declare and speak His matchless skill.

MRS. R. H. H.

IN FASHION'S MART.

The New Bavarian Girdle—Crochet Buttons For Blouses.

One of the belts of the season is the folded girdle of panne velvet, which is bound on an excessively long point in front. The dressmakers have given it the name of the Bavarian girdle or the girdle of Venice. It will be worn on dressy afternoon and evening frocks. Instead of pearl buttons we will use Irish crochet ones on blouses and tail-

JUDIC CHOLLET.

These May Manton patterns come for the girls in sizes from 12 to 20 inches waist measure and for the blouse from 32 to 38 inches bust measure. Send 10 cents to this office, giving number, 663, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

THE LAW OF DRESS.

No Ironed Fashion Rules This Season—Individuality in Clothes.

Women are becoming more independent of the set modes and are going in for individualism in their

FRIBBLES OF FASHION.

"Chantecler" Velling Will Decorate the Faces of Modish Women.

"Chantecler" velling is the newest thing at the velling counters. It comes in two toned colorings that copy the shadings in the rooster's plumage. The craze for imitations of the barnyard rooster abounds in buttons, and there is an evening slipper completely covered with the brown feathers of the pheasant hen. All fashion-

JUDIC CHOLLET.

This May Manton pattern comes for girls fourteen, sixteen, and eighteen years of age. Send 10 cents to this office, giving number, 664, and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

SNAPSHOTS OF THE MODES.

The Girdle Appears on All Kinds of Costumes.

Even on princess gowns the wide girdle is seen, sometimes in the guise of a pinafore bib or in a deep point far below the waist line.

Combination skirt and corset covers are to be worn as persistently as ever. Too many women ignore the fact that any opening at the neck or shoulders of a gown should be lower in front than in the back. A deviation from this rule even in a décollete gown makes the wearer look as if her clothes were riding up in front.

Long sleeves to the knuckles will be in fashion for thin gowns, and the

JUDIC CHOLLET.

Three-quarter sleeves will be back for street wear.

Simple nightgowns that are made with sleeves and body portions in one are a feature of the present season, and the nightgown seen in the cut is simplicity itself. There are only shoulder and underarm seams to be sewed up, yet it is graceful and attractive.

JUDIC CHOLLET.

WEDNESDAY, JULY 6, 1910.

—One of the Monitor-Sentinel's staff
reporters refers to the intended de-
parture of one of our teachers for the
West, where tempting inducements
are offered. Our correspondent makes
this the text of a homily on the folly
of letting our best teachers go out of
the province for the sake of a few
paltry dollars that would induce
them to remain at home. Many read-
ers will agree with him that it is a
"penny wise and pound foolish pol-
icy" on the part of the powers that
be, and that a more liberal remun-
eration would be repaid an hundred
fold in the benefits to be derived in
raising the standard and quality of
the teaching.

—The merger of the Union Bank of
Halifax with the Royal as announced
elsewhere in this issue, is expected to
take place immediately after ratifica-
tion by the shareholders is obtained,
by a meeting to be announced later.
The policy of the Union has been
most liberal to the people of this
province, capital being retained here
which might have been more profit-
ably employed elsewhere. It is to be
hoped the attitude of the larger bank
will be equally generous and as well
suited to the needs of our people.

Obituary.

MISS ELLA McCORMICK

The community of Granville Centre
was saddened on Tuesday evening, June
28th., to hear of the sudden death of
Miss Ella McCormick after a few hours
illness from hemorrhage of the brain, at
the age of 58 years. Miss McCormick
was a daughter of the late George and
Elizabeth Bent McCormick, and is sur-
vived by three brothers, John and
George, and A. E. McCormick at
present teaching in Belle Isle.

She was of a retiring disposition pos-
sessing many excellent qualities, and
will be greatly missed by her brothers
in the home. For many years she has
a valued member of All Saints Church,
and beloved teacher in the Sunday
School.

The funeral took place on Thursday
afternoon, being very largely attended,
the service being conducted by the Rector
of St. Andrew's, assisted by Rev. W. J.
Metropolis, and the remains
laid away in the cemetery.

FLOODS IN EUROPE.

A Vienna despatch says:—The de-
struction of life and property by
floods throughout Hungary exceeds
all records. The number of deaths
has not yet been ascertained, but it
is believed that they will aggregate
close to 1,000. The damage to crops
and property will amount to several
million kronen. The harvests are
seriously threatened with destruc-
tion.

MARRIED

HALEY—SHAW.—At Bridgetown,
June 30th, 1910, by Rev. E. Under-
wood, Daniel Joseph Haley, of
Bangor, Maine, to Annie Ethel
Shaw, of Round Hill, N. S.

BORN

POTTER.—At Bentville, June 28th,
to Mr. and Mrs. L. B. Potter a
son.

Dust and Disease

To the Editor of the Monitor.—
Would you have room to copy the
enclosed article in an early issue of
The Monitor? I have seen a person
with an advanced case of tuberculosis
expectorate within a few yards of my
home, and another person commit
the same foul offence at her neigh-
bor's door.

Bridgetown, June 27th.
Following is the clipping referred
to by our correspondent:—

"In Outdoor Life the journal of the
Serenac Sanatorium the relationship
between dust and disease is graphically
described. On the coast of China
it is said, is found a seaweed from
which the natives prepare a jelly,
agar-agar, which serves them as an
article of diet. The jelly prepared
from agar-agar is transparent and of
a pale yellowish green color, very
much like our gelatine, but it solidi-
fies into a firmer mass. This sub-
stance finds little if any use in this
country as an article of diet, but it
is used in all bacteriological labora-
tories as a medium on which to culti-
vate bacteria. Wherever a living
germ has fallen on the surface of the
agar-agar during the few minutes
that the cover was removed from the
dish on the previous day, a colony of
bacteria has grown, and from each
germ thousands of descendants have
arisen.

"Notable among the dust borne dis-
eases is tuberculosis. The germ caus-
ing this disease is thrown off in enor-
mous number in the sputum of ad-
vanced cases, and if such patients
spit carelessly about the house or on
the streets the sputum dries, be-
comes pulverized, and, as dust carry-
ing the germs, may be breathed into
the lungs of healthy persons and
there set up the disease. In the same
way the germs carrying diphtheria
and a number of other diseases may
be distributed and infect humanity.
There are, of course, numbers of
other substances besides agar-agar
which are used as food and in which
or upon which germs may flourish.
The commonest of these is milk.
Says Dr. Moss, of the Johns Hop-
kins Hospital, 'introduce a single
"typhoid fever germ into a pitcher of
"milk and allow it to stand over
"night in a warm place and millions
"of typhoid germs will develop. A
"single typhoid germ, if swallowed,
"would scarcely cause typhoid fever,
"but drink a glass of milk from a
"pitcher into which a single typhoid
"germ has fallen a few hours pre-
"viously, and you will almost cer-
"tainly develop typhoid fever."
How often one has heard concerning
a child or an adult who has develop-
ed a contagious disease. "I cannot
"think where or how he or she has
"caught it!" Perhaps the answer is
"Dust."

Rains Have Come in West

Crop is Saved by Showers for Which
the Land Cried.

Winnipeg, June 30—Rain at last.
Showers today and last night in
many of the drought-affected districts
of Manitoba and southeastern Sask-
atchewan have saved the situation.
Old-timers, who know something of
the wonderful recuperative abilities
of the spring wheat crop in July, look
for improved conditions within the
next few weeks, but there is no get-
ting away from the fact that the
crop has suffered severely over most
of the country, and has been burned
out on light lands. The worst affected
districts, however, often lie next to
sections which have not suffered at
all, owing to useful showers, while
whole territories, such as the famous
heavy lands around Indian Head and
Regina are reported doing splendidly
with no damage.

A WONDERFUL CHILD.

The wonder of the Deaf and Dumb
Institution is a little girl from Gran-
ville Ferry, whose parents are now
living in Berwick, Kings Co. She is
nine years old and her name is Mary
Jean Veinot. She is deaf, dumb and
almost totally blind. This little girl
is so bright that with proper care
she can read, write and talk.

Her sight allows her to distinguish
light from darkness but that is all
and is no help in education. This lit-
tle girl would have had no chance if
it had not been for this Institution.

The first attempt to teach her was
to take her hand and push back cer-
tain of her fingers and, in fact talk
on her hand as many seeing dumb
people do. In this way striking the
hand in a certain way and bringing
in some connection by touch with a
certain object she after a long time
grasped the connection and after once
realizing the meaning of the dummy
talking has made quick progress. Dr.
Forrest looks upon her as a second
Helen Keller.—Chronicle.

A Query

To the Editor of the Monitor-Sentinel.
Dear Editor:—

Can you inform a Reader if
there is such a thing as a Board of
Trade in Bridgetown? It seems to me I
have heard the name mentioned, but
possibly it was by someone suggesting
the need of one. This is exemplified just
now, as the train known
commencing next Thursday, the known
locally as the "Owl" is to run through
to Middleton three evenings per week,
Thursday, Friday and Saturday, return-
ing Friday, Saturday and Monday
mornings. I note that only on Sat-
urday evenings is it to run on to Annapolis.
This it seems to me is unfortunate
for us. There are often times when one
would like the opportunity of getting to
Halifax and back in one day. But this
is only possible when the "Owl" runs
through to Annapolis two evenings in
succession and returning the following
morning. Now, I am under the impres-
sion that the concession to Middleton of
three evenings per week is largely owing
to the continuous representations made
to the Ry. Co. by the Board of Trade of
that very recently incorporated town to-
gether with petitions from communities
intervening between there and Kentville
likely at the instigation of the Middle-
ton Board. Is it too late to gain the
same privileges for Bridgetown? It sure-
ly would be a great gain to the com-
munities between Middleton and Annapolis
to be thus accommodated, but we
need some body like a Board of Trade
to take the matter up and urge it along.
Such a Board, too, presuming most of
the merchants would belong to it, might
also take up the vexed question treated
in your leading article last week namely
how to keep our local trade at home.

READER.

Hymeneal.

GILLIATT-ROBBLEE.

The home of Mr. Walter O. Bent
Granville Centre was the scene of a
pretty wedding on Tuesday evening
June 28th. when his step-daughter Alta
May Robblee, daughter of the late
Capt. Frank Robblee of Lower Gran-
ville was united in marriage to Mr. Ira
Eugene Gilliatt of Granville Ferry.
Rev. G. P. Raymond pastor of the Bap-
tist Church performing the ceremony.
The bride was very pretty in white silk
with bridal veil and orange blossoms.

The wedding march was rendered by
Miss Estella Eaton. The wedding was
a very quiet one owing to the recent death
of the groom's father. Mr. and Mrs.
Gilliatt will be at home to their friends
July 5th, 6th. and 7th. from seven till
ten o'clock. COM.

**The Boston-Digby
Service Inaugurated**

About one hundred and fifty passen-
gers arrived on the Boston on her
first trip to Digby on the 2nd inst.,
the inauguration of the new line of
boats to run twice a week between
Digby and Boston in connection with
and operated by the D. A. R. Besides
a great crowd of the citizens and
tourists a reception committee greet-
ed Captain Simms and his good boat.
The committee were Major Jones,
Clarence Jameson, M. F.; O. S. Dun-
ham, editor of the Courier, and Pres-
ident Peters of the board of trade.
The luncheon held at the Pines
hotel arranged for by the committee
on entertainment was the chief part
of the program, and among the in-
vited guests were General Manager
Giffins, Superintendent William
Fraser, Marine Superintendent Mac-
Gregor, Captain Simms and officers
of steamer Boston, Captain Potter
and officers of steamer Prince Rupert;
John F. Master, New England Su-
perintendent of the D. A. R.; A. C.
Currie, New Brunswick superintendent;
C. F. McBride, D. A. R. steam-
ship agent at Digby; O. C. Jones,
D. A. R. station agent at Digby.

A NORTHERN UTOPIA.

Iceland has no jail, no penitentiary
there is no court and only one po-
liceman. Not a drop of alcoholic
liquor is made on the island, and its
78,800 people are total abstainers
since they will not permit any liquor
to be imported.

"There is not an illiterate person
on the island, not a child ten years
old unable to read, the system of
public schools, being practically per-
fect.

"There are special seminaries and
colleges, several good newspapers,
and a printing establishment, which
every year publishes a number of
books on various lines.

Such is the report brought by
Northern travellers of this incom-
parable and ideal land. It speaks
with a mighty voice for prohibition.

The School Ma'ams

(Colchester Sun.)

God bless them. Do we ever stop to
properly estimate the debt of grati-
tude we owe these, in very many
cases, frail little bodies that have
from time to time gone forth into
city, town village, hamlet and coun-
try nook to disseminate knowledge in
the minds of the young? Many men
and women who have reached posi-
tions of affluence in the world of pol-
itics, arts and letters, can look back
to the little school house in the coun-
try district and the bright girl at
the desk, as the starting point in
their successful careers.

This week the faculty of the Pro-
vincial Normal College sent forth an-
other bevy of these missionaries into
the garden of humanity to bend the
young twigs in the direction of suc-
cessful after life. It is true, after all
the study, the burning of midnight oil
many of them do not teach long after
they receive their diplomas, but then
that is but human. They succumb to
the battle of hearts, and are led cap-
tive by Cupid to the altar of Hymen,
graduating from the school room to
the head of a household.

A teacher's diploma is a valuable
asset in the mental equipment of a
wife and mother. Then again it is
well for those who follow that in
ninety cases out of one hundred
teachers marry within a short time
after receiving their diplomas. Were
this not so the teachers' profession
would not be as attractive a field for
females as it is. If school ma'ams
never married, the Normal Schools
would become the next thing to being
out of business—there would be no
material from which to continue
turning out the finished teacher.

From the above it must not be un-
derstood that there is more stiekto-
itiveness on the part of males. In
comparison the males do not stick
to teaching any longer than the fe-
males, for while the latter forsake
the ruler for the altar the former
forsake it for some other profession.
They make teaching a stepping stone
to the pulpit, the bar, or surgery.
God bless the teachers.

THE MONITOR-SENTINEL

LOCAL AND SPECIAL

The Grand Lodge of Nova Scotia, I. O. G. T. is in session at Truro this week.

Miss Bess Hoyt has resigned her position as teacher of the primary department of the public school.

The Sunday School of the United Baptist church of Paradise has a membership of over one hundred. The singing is a special feature.

The Medical Association of Kings and Annapolis counties met at Canning last Wednesday. Between thirty and forty members were present.

Miss L. E. Walker, of Upper Grandville Annapolis Co., will be the next teacher in the preparatory department of the High School at Bridgewater.

The annual picnic of the Baptist Sunday School will be held on Friday the 15th inst. The steamer Grandville will convey the party and Port Wade will probably be the landing place.

In reporting the funeral of Mr. Leander Marshall last week, an error was made in stating that the services were conducted by Rev. G. F. Johnson. Rev. N. A. McNeill was minister in charge on that occasion.

The little son of Mr. Harry Egan, who was taken to the Victoria General Hospital two weeks ago, was successfully operated on for appendicitis and his parents were notified yesterday that the danger was past.

Mr. and Mrs. Ritson Bent, of Mount Rose celebrated the twenty-fifth anniversary of their marriage on Wednesday evening, June 23rd. About sixty guests were present and many valuable gifts testified to the esteem in which the host and hostess were held.

Domintion Day was very quietly observed in Bridgetown. The day was a public holiday and a considerable number went to Middleton to take in the sports there offered. Others made brief journeys by train or carriage for the days outing. The weather was ideal after a prolonged rainy spell.

Mr. Philip Ring, of the Public Works and Mines Office of Halifax, Inspector under the Nova Scotia Factories Act, has been in town a few days. Mr. Ring expressed his surprise at finding so many factories in so small a place as Bridgetown, and thought it betokened a creditable amount of industrial enterprise.

The Rev. C. F. Johnson preached his last sermon in Providence, Methodist church last Sunday night, and on Sunday next the services will be conducted by Rev. B. J. Porter. Mr. and Mrs. Johnson will leave for their new home in Nappan this week and the kind remembrances and best wishes of many friends will accompany them.

The Provincial examinations are taking place this week. Mr. Lenest Ruggles is deputy examiner for this section and is assisted by Mrs. Ruggles, Miss Ena Graves and J. H. Spinney. There are twenty-three candidates in grade eleven, thirty in grade ten and thirty-seven in grade nine, besides others taking supplementary examinations.

The closing of the Institution of the Deaf and Dumb took place June 24th. Rev. Dr. Forrest presided. Mr. Fearon, the Principal, said there was a total attendance of 106 pupils during the year, fifty-eight boys and forty-eight girls. Of these seventy-nine were from Nova Scotia, thirteen from Prince Edward Island, eight from New Brunswick and nine from Newfoundland.

A severe electrical storm swept this part of the province during the early hours of Monday morning and continued until about eleven o'clock. It was so dark through the morning that artificial lights were required and users of electric light were favored by the service. The rain fell in torrents, with no little damage to crops, and the wind blew with almost the fury of a tornado for a time.

The drill of the Artillery of the Province is taking place at Aldershot. The troops arrived on Tuesday last and have been actively engaged in their routine work whenever the weather permitted. About seven hundred men are in camp the field batteries coming from Sydney, Halifax and Antigonish in the East and Digby and Yarmouth in the West. The camp will continue for the regular fortnight. — Advertiser.

LOCAL AND SPECIAL

Acadia will accept the offer of Rockefeller of \$50,000 on the provision of raising another \$150,000.

Many friends regret to learn of the very serious illness of Miss Muriel Lloyd, second daughter of J. E. Lloyd.

The William Lawrence Company gave a successful performance of "Uncle Dave Holcomb" in the Court House here on Monday night.

Middleton had a very successful celebration of Dominion Day. About three thousand people assembled in the town and the weather was all that could be desired. Horse-racing was the principal sport. The 3-minute trot was won by Mabel G. (Lydiard) purse \$150, the 3-minute pace by Ferona, (Annis) purse \$150, the 3rd race 2.23 class trot and pace was won by Ariel Wood (Hennigar) purse \$200. A base-ball team from Halifax defeated the home team. There were also amateur foot races, and a concert by local talent in the evening. Only one thing marred the day, the evidence of liquor drinking, which resulted in a quarrel when a man by the name of Bent was seriously injured.

NINETEEN KILLED

MIDDLETON, Ohio, July 4.—Nineteen persons were killed outright, three were fatally hurt, and half a dozen were seriously injured in a head-on collision between a freight and passenger train on the Cincinnati, Hamilton and Dayton Railroad to-day. Of the killed, eighteen are passengers.

The Big Fight Over

Jeffries the champion heavy weight pugilist lost his honors (?) to Johnson his colored rival in the great fight at Reno on Monday. The contest took place under great excitement by the sporting element and every corner of the English speaking world found groups of people interested in the outcome. A force of one hundred telegraph operators were gathered in the little city in the desert of Sierras and a carload of modern equipment was sent from the east and set up. The brutal contest ended by Jeffries being done up by his opponent in the fifteenth round. Enormous sums of money were lost by the betting fraternity, Jeffries being the favorite.

OFTEN FORGOTTEN.

(From the Hampshire Gazette.)
A Northampton manufacturer who is generally supposed to be making considerable money was recently questioned about it, and said: "Yes, people think I am making too much, but they don't know of the fourteen long years I put in at the start, experimenting with machines and material, years when it took every cent I could borrow, when my credit was strained and when I was often tempted to give up and throw it all overboard, a total loss; fourteen long years when I did not make a dollar."

Let's try to remember that conscientious work gives the biggest returns in the end.

MICMACS CELEBRATE 300TH ANNIVERSARY FIRST INDIAN BAPTISM.

Round Hill, July 2.—On June 24th a great Indian Pow Wow took place being the three hundredth anniversary of Micmac Indians Christianity. The Grand Chief Memberton, the first Micmac to embrace the white man's religion, was baptized at Port Royal on June 24th 1610.

Dartmouth's well-known Indian Joe Cope was selected from thousands of other Indians, to deliver a lecture to his brother Micmacs. His subject was "The Similarity of God's family of Nations and Tribes to human families. Nations like the children are not born at the same time. Indian is God's last born pappoose."

THE PARENTS TO BLAME

Twenty-five States of the America Union have adopted laws holding parents responsible for contributing to the delinquency of their children. Such a law has recently been passed in New York State. It provides that the parents or guardian of a child under sixteen years old, who does not exercise proper diligence in the care of the child, and permits it to associate with the vicious or criminals, to grow up on the streets, remain in idleness, solicit alms or do anything by which the morals of the child are endangered, is guilty of a misdemeanor. These laws have not been uniformly successful.

PERSONAL

Miss Brenda Troop returned yesterday from Kentville.

Miss Maud Dargie is recovering from a severe attack of bronchitis.

Mr. and Mrs. Messer, of Lynn, are guests of the latter's sister, Mrs. J. I. Foster.

Miss Agnes McMillan of Annapolis Royal is the guest of her aunt, Mrs. Murdoch.

Miss Lillian Jacobson, of St. John is visiting her sister, Mrs. Barnett Jacobson.

Mrs. Gordon Goldsmith has returned from a visit to Annapolis Royal and Perotte.

Mrs. Howard Abbott and Miss Georgie Roop are spending the week with Mrs. Harry Abbott.

Mrs. Florence Muir, who has been the guest of Mrs. Alfred Hoyt, has returned to Lawrencetown.

Mrs. George Ruffee of Wolfville is spending a fortnight in Bridgetown, the guest of Mr. and Mrs. Oliver Ruffee.

Mr. S. P. Grimm, of Springfield, returned home today after spending the past week with his son, Stanley Grimm.

Rev. E. Underwood is attending the Deacons meeting at Weymouth, where he is the guest of Mr. and Mrs. G. D. Campbell.

Mr. and Mrs. J. W. Peters, Mrs. J. Harry Hicks and Miss Marguerite Hicks were registered at the Carleton Halifax, yesterday.

Mrs. Nutter, who has been visiting her sister, Mrs. W. R. Troop, for some months, returned to her home in Waltham last week.

Mrs. E. B. McDaniel and children of Annapolis spent a few days in Bridgetown last week. Mr. McDaniel was also in town over Sunday.

Dr. and Mrs. M. E. Armstrong left yesterday for Yarmouth, where the doctor will attend the meetings of the medical association. They will return on Friday.

Miss Mosaic Bishop is spending a vacation in Lawrencetown. Miss Nettie Bishop is filling her sister's position as post office assistant during the latter's absence.

Mr. F. L. Milner arrived from Amherst last Friday and when he returns, which will probably be in a few days, he will be accompanied by Mrs. Milner and children.

Mr. and Mrs. H. F. Williams have returned from their trip and will be at home to their friends Tuesday, Wednesday and Thursday afternoons, July 12th, 13th and 14th.

Mr. Kenneth Dodge has resigned his position with the D. A. R. on account of ill health and left last week for California where he will visit his sister, Miss Florence Dodge, and two brothers, Alfred and Arthur.

Rev. Mr. and Mrs. Bent and family of Lawrencetown and Mrs. Keating and daughters of Halifax are occupying "Hillside" one of the Misses Marshall's cottages at Port Lorne, for a few days.

Miss Mildred Longley, of Lynn, Mass. arrived on Monday to spend the summer with her aunt, Mrs. E. S. Piggott and other relatives. She was accompanied by her friend, Miss Ruby Clarke, who will spend the summer in Truro.

Dr. Beckwith of Halifax, accompanied by Mrs. Beckwith and little son, arrived by automobile on Friday last to visit his parents. Returning on Monday they were accompanied by Miss Angie James, who will spend a few weeks in Halifax.

MURDERERS OF LYNN MEN ARRESTED.

The arrest of three bandits at Everett Mass. who resisted the authority of a police officer and answered his summons to stop with a fusillade of bullets took place after a chase of some hours. Several squads of police surrounded the Everett marshes to which the bandits fled and captured them after their ammunition had been expended. The bandits confessed to killing and robbing Mr. Landregan of the Watch and Landregan factory, when returning from the bank with a bag of money, and a policeman who accompanied him.

No Better Time for Entering Than Just Now

St. John's summers are so cool, our position so elevated and our rooms so well ventilated, that we do not find it necessary to take a summer vacation, and we have good classes during the warmest weather.

Also, students can get more attention than in winter, when our rooms are crowded.

Clothing and Furnishings

Greatest Spring-time display of merchandise that has ever been seen in this store.

Each season it seems as if we could go no farther, and yet this spring we are as far ahead of last, as last spring as we were ahead of the previous year.

The SMARTEST SPRING STYLES for Men and young Men and Boys' are bidding for your favour, come in for closer inspection.

Our Clothing, Hats and Haberdashery will stand the most critical examination and satisfy you of their superior merit.

Never did you see such stylish, refined looking clothes at the prices.

J. HARRY HICKS

According to Prescription

Even that class of readers upon whom high prices and low wages have pressed with severity that means actual hardship will enjoy with me the report of a scene in the public court of a manufacturing city, not a hundred miles from New York. Besides the respite of a laugh breaking in upon somber calculations and forebodings, there are a text and a lesson to be drawn from the story.

A woman complained that her husband had been guilty of disorderly conduct the evening before, and that she had been obliged to call in the policeman to quiet him.

"She's in favor of the reduction of meat prices," the prisoner told the court. "So she won't buy any. I'm a hard-working man, and the doctor says I need meat. She says if all the people in the land would abstain from meat, and stand firm, the prices would come down. She started this meat boycott thing away yonder—December 15th. I've lived on breakfast foods and pre-digested fodder so long now that I'm ashamed to look an honest horse in the face. I have the feeling that I'm taking the food out of his mouth. And when I confront a dish of stewed carrots or a pile of Brussels sprouts I begin to see red."

"Not a smell of meat have we had on the table in two months! When I came home last night, hoping the missus might relent and give me a pig's knuckle, or a bit of corned beef and I found the table looking like a vegetable garden—well! I admit that I may have said a few things. I told my wife I didn't care if meat went to \$1 a pound, I wanted at least a dime's worth, because I really need it!"

The court suspended sentence, and the aggrieved husband left the hall, declaring that he would institute divorce proceedings if his wife continued to deprive him of his rightful sustenance.

MINARD'S LINIMENT LUMBERMAN'S FRIEND.

"SLEEP CURE" NEW PANACEA FOR ILLS.

After years of strenuousity the "sleep cure" now appeals to smart London. The advocates of physical culture, the partisans of golf, the votaries of tennis and hunting have been relegated to the ground, and the expounder of the boys of sleep occupies the vacant pinnacle of society's attention.

The new cult must not be confused with the "rest cure." Its adherents declare that sleep is the greatest medicine and the most powerful tonic in the world. In "rest cures" the rest is physical, not mental. The "sleep cure" rests the brain as well as the body, and pleasure seekers are persuaded to spend their week-end in bed, sleeping every possible minute.

The pioneers of the new movement put their faith in the recent utterances, after years of experimenting, of a Geneva scientist, who maintains, in all seriousness, that if we take thirty-six consecutive hours of sleep once a week we should store up a wondrous accumulation of energy and prolong our lives by as long as fifty per cent.

MINARD'S LINIMENT CURES DIPHTHERIA.

A Striking Movement

Toronto has five thousand boy scouts, and there is much reason to believe that this excellent movement will spread over Canada with great rapidity. Indeed, it is so spreading. Its originator, Sir Robert Baden-Powell, is to arrive in Canada this summer, and no doubt his presence here will give additional impetus to the organization. The Imperial Defence Department has already adopted officially the "Boy Scouts' handbook" for training cadet corps, and the New Zealand and South African governments are following the same course. A patrol of British boy scouts is due in Canada next month, and they are to remain in this country for six weeks, receiving some insight into our method of life and our way of doing things.

It is not difficult to explain the enthusiasm with which the boy scout movement has been taken up throughout the British Empire. Every man with children of his own, or who is interested in children and in the future of his country, is likely to be impressed by the principles upon which Baden-Powell based this organization, and will not readily resist the idea that the plan is one making strongly for increased national strength and sane morality. The Telegraph has previously printed some of the leading features of scout law, but it may be well to repeat them in anticipation, and perhaps in furtherance, of the spread of the movement in this region. Scout law is a creed of honor and chivalry, immensely attractive to growing lads, and without doubt, immensely beneficial to them. Here are examples:

- A Scout's honor is to be trusted.
- A Scout is loyal.
- A Scout's duty is to be useful, and to help others.
- A Scout is a friend to all, and a brother to every other Scout.
- A Scout is courteous.
- A Scout is a friend to animals.
- A Scout obeys orders.
- A Scout smiles and whistles.
- A Scout is thrifty.

Of these nine rules, the governing one is that about helping others. Scout law makes the boy, or tends to make him, a good soldier, a good Christian and a gentleman. The recreant boy is punished; the deserving boy is promoted and honored. Judging from the progress this organization has already made, it is one that will exercise no little influence upon this country during the next decade.

THE SCORCHING HEAT IS TERRIBLE.

Brandon, June 28—For the first time this season leading farmers admit that the scorching heat is working injury on the crops in the immediate district. Sunday the temperature was 96 1-2, with a hot wind. Monday at noon the thermometer registered 97, with a hotter wind than ever, and the danger of a heat record for the season being broken before the afternoon is over. Prominent farmers agree that heat and wind are drying the land right out and the situation is becoming alarming, as there is no indication of immediate relief through rain. Superintendent Murray, of the experimental farm, says the crop is coming along altogether too fast and that the baking heat is drying up the land at a remarkable rate.

National Defence

Once in a while one hears in Canada the term "militarism," and frequently it is used by earnest folk who are protesting against increased expenditure on the militia, or the introduction of physical and military exercises in the public schools, says the St. John Telegraph. Canada is not in any danger of militarism, and now that it is prosperous and has a buoyant revenue, it is but right that the Federal and provincial governments should give increasing attention to the matter of defence, not that the Dominion expects to be attacked, but because throughout the British Empire today, in the present state of civilization, it is still necessary that every country under the flag shall be able to contribute to the upholding of the honor and integrity of the Empire in case the need shall arise.

It is of interest in this connection to turn for a moment to the new confederation of South Africa, and see what is being done there in these matters. Here is an outline of the plan of the newly united states there. All school boys between the ages of ten and fifteen will be compelled to join the cadet forces, and from fifteen to eighteen to enroll in the senior cadets. Provision is made for all cadets to undergo training in camps annually.

From eighteen to twenty-five young men will have to take part in drills and a course for trained soldiers, with an annual camp lasting fourteen days.

From twenty-five to thirty-five they will join the Union reserves, and be required to spend from four days to a week in an annual camp.

To carry out the system the whole of South Africa will be divided into small areas, with a permanent instructional officer to each, while a military college will be established at Bloemfontein for training officers. There will be territorial inspectors in each province, assisted by warrant officers, who will be placed on the Civil Service list, and by officers of the Union Army.

It will be said by some that this would closely resemble compulsory service. It should be said, rather, that it closely resembles voluntary service; and volunteer service today is precisely what every country in the British Empire needs. It is neither the hope nor the purpose of British statesmen to drill and maintain a tremendous standing army such as Germany has by means of conscription, but there will be, no doubt, a marked extension of the territorial plan which has been tried in Great Britain. That country is best defended which is safeguarded by men who voluntarily undertake a measure of drill and preparation, rather than by regulars recruited through the desire for army life or because of their failure to do anything useful as civilians.

Baptist Association

(Continued from last week.)

Monday afternoon, the Women's Missionary session was held. This was conducted by Mrs. A. J. Archibald of Digby. Addresses were delivered by Mrs. A. H. Saunders, Mrs. P. M. Kempton, Miss Helena Blackadder and other women. The Association then resumed business when resolutions thanking the good people of Freeport for their hospitality were passed. Also by unanimous vote, the Association urged upon the Government of Nova Scotia the strengthening of the Nova Scotia Temperance Act along the lines indicated by the speakers at the temperance meeting.

NEEDS OF HOME FIELD.

Monday evening was devoted to Missions in Canada. Our Home Mission work in Nova Scotia and P. E. Island. Rev. R. O. Morse advocated strengthening the Grande Ligne Mission by adding to it an up-to-date Industrial Department. Rev. H. G. Mellick, who has spent over twenty years in pioneer work in Western Canada, delivered an unreportable speech. This address moved the large audience to the laughter, tears, admiration, and enthusiasm. This address should be delivered before all the Canadian Clubs in the Maritime Provinces. Thus ended the work of the Association.

Many strong laymen were in attendance and participated in the work of the Association. Among these were Col. Shipp Spurr, of Melvern Square; N. M. Beckwith, Nictaux; Dean I. J. Whitman, Torbrook; Capt. Jacob Wyman of Digby; T. H. Chipman, Round Hill, and others. Their counsels were highly prized. Many of the delegates visited the neighboring village of Westport, on Brier Island, Revs. H. T. DeWolfe, L. F. Wallace, J. D. MacLeod, and Ira W. Moland preaching there on Sunday. Few of the delegates had ever visited these islands before. They were greatly surprised at the size and substantial character of the two places. Even the natives of P. E. Island were convinced that there are other islands.

HOW MANY REALIZE THE MARVELLOUS VALUE OF FRUIT IN CURING MANY DISEASES?

Wonderful Success of "Fruit-a-lives"
—The Famous Fruit Medicine

Fruit juice consists of about 91% water, 8% of sweet matter, and only 1% of an intensely bitter substance. Careful experiments show that it is this bitter principle, which is the active or medicinal material of fruit juice.

Under certain conditions, the bitter principle can be made to replace or transform some of the sweet atoms in the juice, thus making a new compound which is much more active medicinally than the ordinary juice.

Many fruits were analyzed and it was found that the juices of apples, oranges, figs and prunes gave the best results. These fruit juices, having been made more active by the secret process of changing the sweet principle into the bitter, are combined with tonics and antiseptics and made into tablets. These "Fruit-a-lives"—known in every part of Canada for their wonderful curative qualities in diseases of the Stomach, Liver, Bowels, Kidneys and Skin.

"Fruit-a-lives" is the only medicine in the world made of fruit juices, 50c. a box, 6 for \$2.50 or trial size, 25c.

Torbrook.

(June 28th.)

E. M. Bartheaux left on Saturday last for Boston where he expects to undergo a surgical operation.

Saturday, while out picking berries Mrs. John Morse fell, breaking her arm just below the elbow.

Mrs. Trask and two children are visiting her father, S. Parker.

Miss Woodward spent the week end the guest of Miss Carrie Spurr.

Miss Ethel Wheelock is spending her vacation with her parents, Mr. and Mrs. H. Wheelock.

Mrs. Annie Ward arrived from California to spend the summer with her sister Mrs. S. Bartheaux.

James Sprowl of Springfield is visiting his sister, Mrs. J. Hopson.

Mrs. H. H. Durling spent a few days last week at Mrs. Allen's.

Nictaux.

(June 28th.)

Mrs. Palmer and her two children, of Massachusetts are guests of Mrs. Whitman Ruggles.

Miss Mary Chipman entertained the young ladies of the neighborhood at a "thimble party" last Thursday afternoon in honor of her friend, Miss Hazel Chute, of Middleton, who has been visiting her for the past week.

Mr. and Mrs. P. P. Nelly spent the week end with friends in Kingston.

Mrs. Fred A. Chipman returned last Friday from a week's visit with her parents, Mr. and Mrs. A. W. D. Parker, of Belleisle.

Mr. Theibert Rice of Bear River, has begun work in his quarry recently purchased from Mr. F. M. Chipman.

Hon. A. P. and Mrs. Welton of Kingston visited Miss Ena Morse on Saturday of last week.

Sound as a Dollar

That's the only way you can afford to keep them, because any lameness means less work and less profit to you.

Spavin, Splint, Curb, Sweeney, Ringbone, Swelling or Lameness need not prevent your horses from working. Simply use Kendall's Spavin Cure.

It works while the horse works—takes away the pain—reduces swellings—makes legs and joints sound and strong—leaves no scars or white hairs because it does not blister.

Kendall's Spavin Cure

has been the horseman's standby for 40 years and is used all over the world.

Burns, Ont. Sept. 10th 1909.
"I have used Kendall's Spavin Cure and it cures Old Shuben Casses."

WILLIAM H. DODD,
Keep your horses sound a dollar. Get Kendall's today and you will have it tomorrow if needed. \$1 a bottle—6 for \$5.

When you buy, ask for free copy of our book "A Treatise On The Horse" or write us

51
Dr. B. J. KENDALL CO., Eastport Falls, Vt.

Here's the Truth, Madam, About Brown Breads

A prejudice, is an imaginary truth surrounded by falsehood. Which reminds you of the Brown Bread prejudice, the Whole Wheat Idea and the Food Fads.

If, Madam, you will kindly introduce us to the brilliant individual who started the fallacy that Brown Breads is sounder, more substantial, more sustaining than White Bread made, say from FIVE ROSES flour, we will gladly undertake to put him right. For, you see, we deny the allegation and, if necessary, would face the—"alligator".

This is the how of it, Madam. Brown or "Graham" Bread is made from Graham Flour. Which, of course, is just common flour with the Bran added—lots of it, from 25 to 100 per cent. maybe.

Now, Bran is nothing but the woody fibrous husks of the wheat berry which are utterly indigestible in the human food tube, and therefore absolutely useless as nutrients. Might as well eat an orange plus the skin, a banana plus the peel, a cocoon plus the shell.

So that, Madam, if YOUR brown bread contains 25 to 80 per cent. bran, worse than useless as food, it's a very costly fad. Aren't you paying too much for your whistling?

Then think that while bread made from FIVE ROSES flour contains no waste at all, being 100 per cent. pure nutrition. Moreover, the sharp, horny particles in bran-charged flour (Graham) tend to irritate the alimentary tract. Any attempt to eat brown bread three times daily without intervals slowly very quickly resulted in setting up a diarrhoea with well-marked disturbance of the stomach. This was one of the many valuable contributions to science of Sir Lancelot Brunton who established the fact of this cumulative irritating effect and even gave to the resultant "irritation" the title of "BROWN BREAD GASTRITIS".

This, Madam, lest you lend too ready an ear to calumnies against White Flour.

For we make FIVE ROSES, and from it you can make bread infinitely more substantial, sounder, tastier, more satisfying, more digestible and healthful than the very best of brown or whole wheat breads. Ay, Madam, and infinitely cleaner—for it's impossible to purify the low-grade flour and bran in brown bread like we clean FIVE ROSES. Our word on it.

MADE BY THE WOODS BAKING CO., LTD., MONTREAL (Q)

THE HOME

WORTH REMEMBERING

Cider vinegar which poses in the stores as "apple vinegar," is the best for all salads. It should be clear and very pale in color.

If a colored cotton gown has faded, it can frequently be made perfectly white by boiling a long time and then hanging in the sunshine.

Never rub fabrics roughly between the hands when cleansing them. It is sufficient to rub the cleansing fluid on gently with a fresh cloth.

A cereal pan is much more easily cleaned if cold water is allowed to run into it as soon as the cereal is is dished. Hot water hardens the mixture.

When placing a mirror it is well to bear in mind that strong sunlight or intense heat is fatal to it as the quicksilver will wrinkle and run.

Covering a pan when fish is frying is apt to make the fish soft. A solid, firm meat, which is at the same time flaky, is what a good cook likes.

A glass of milk to which has been added a raw egg beaten light, a little sugar and grated nutmeg, will relieve physical exhaustion in hot weather.

CARE OF SCHOOL CHILDREN

Dr. Coyle, medical examiner, thinks Ald. Dubeau has the right idea in suggesting that men be appointed to care for the teeth of children in the city schools. A few could do the work he says, and the benefits would be great.

"People don't realize," remarked the doctor, "how much had health results from poor teeth. It is not only indigestion that follows. I examined a child last week who had been sent home because there was something the matter with her throat and all that was wrong was the teeth. These were in such bad condition that both the face and throat were swollen.

Dr. Coyle's only criticism of Ald. Dubeau's proposal is that it does not go far enough. He believes the children's eyes as well as their teeth should be cared for by specialists.

WHEN BUYING MEAT.

Shun the rag end of dark red, dried up lamb or mutton the butcher offers when you ask for chops. Meat must be freshly cut from a fair-sized joint to hold the needed complement of juices, especially lamb, which is the most easily withered of all meats. For beefsteak and onions a round cut of the meat is used; for roast ribs or top-sirloin is asked for; and the most excellent beefsteak is a porter-house sirloin or tenderloin.

Fish are tested by the redness of the gills, the wholeness of the eyes and the shine of the scales—also a little with the nose. The feet of the tender poultry are a bright yellow and never scaly and the breast bone bends to pressure and the skin under the wing tears easily.

WOMEN'S HATS IN CHURCH

The fashion in women's hats is affecting the architectural plans of Dr. Aked's new church. The floor of the auditorium is to be built with a decided 'slant,' against which the aesthetic instincts of the architect revolted. Dr. Aked insisted however, on the 'rake,' saying that so long as women wore 'towering millinery,' church floors must be 'dished,' so that all pews might command an unobstructed view of the pulpit. At Pembroke Chapel, during Dr. Aked's ministry, many ladies were in the habit of leaving their hats in the vestibule in hot weather.—Exchange.

RHUBARB AND ORANGE JAM

Cut some tender rhubarb into pieces an inch long; to every pound allow twelve ounces of sugar, and three large sweet oranges. Grate the and pips, and put the orange pulp rind, remove all white skin, pith, and rind into the preserving pan with the rhubarb and sugar. Boil for about an hour, stirring well; and when you think it is done, put a spoonful in a saucer. If in five minutes it becomes a jelly, the jam has been boiled long enough. Pour into pots and tie down in the usual way.

GETTING AHEAD OF ONE'S SELF

"If I have anything to do that I particularly dislike, I start to work on it the first thing after breakfast, subordinating all routine work to that task," said a successful house-keeper recently. "One can expend enough energy thinking about and worrying over an unpleasant duty to accomplish it. When it is finished and one's mind early in the day, one gets ahead of one's self, so to speak."

To remove ink stains from colored wash goods cover spots with lard, rub well, then wash in usual manner. While this method is simple it is sure and will not injure the most delicate colors.

Another Nova Scotia Railway to be Built

Contract Signed Last Week for One from Dartmouth to Guysboro

Halifax, June 27.—A contract between the Nova Scotia government and the Halifax & Eastern Railway Company was signed this afternoon for the building of two hundred and four miles of railway from Halifax to Guysboro, with a branch across the province from New Glasgow to Country Harbor on the Atlantic seaboard.

The enterprise has been promoted by J. B. Bartram, of Toronto, and the company is composed chiefly of capitalists. T. B. Fogg, lately of the Toledo Terminals Railway, is the general manager. One of the London financiers is Zeigmond Hirsch and the others belong to what is known as the South African group.

This road will be completed within three years. It has subsidies from the provincial and dominion governments of \$12,800 a mile. The same people have purchased the Dickie and other timber areas in Nova Scotia, amounting to 440,000 acres, paying over \$3 an acre for the property.

The capital of each company is \$3,000,000, a holding company with a capital of \$6,000,000 holds the bonds and stocks of the railway and the lumber companies.

The Royal Bank of Canada receives about \$1,000,000 for a claim they had on the Dickie limits, which partly accounts for a recent advance of five points in the value of the stock of that bank.

MINARD'S LINIMENT CO. Ltd.

Dear Sirs,—This fall I got thrown on a fence and hurt my chest very bad, so I could not work and it hurt me to breathe. I tried all kinds of liniments and they did me no good.

One bottle of MINARD'S LINIMENT, warmed on flannels and applied on my breast, cured me completely.

C. H. COSSABOOM,

Rossway, Digby Co., N. S.

COLLIDED WITH TRAIN.

Man and Woman Had Narrow Escape From Death.

On Thursday evening a dreadful accident occurred at the railway crossing on South Main Street, as the train from Pictou was coming down the grade to Stellarton depot. A Mr. McDonald from Westville with his aunt, Mrs. Campbell, were driving, when the horse became frightened and unmanageable, and was struck by the train and was instantly killed. Mr. McDonald had his foot almost severed at the ankle and sustained other injuries, and Mrs. Campbell was thrown from the carriage and received a severe shock; she was taken into Mr. McQuarrie's home, where she was unconscious for some time. The wagon was almost demolished and both had a miraculous escape from death. The ambulance was sent for to convey Mr. McDonald to Aberdeen Hospital, where his foot had to be amputated. And Mrs. Campbell's injuries proved so serious that Friday morning she was also taken to that institution for treatment, and her husband telegraphed for from the United States, from where she had just arrived a day or two previously on a visit to her sister, Mrs. McDonald.—Eastern Chronicle, 21st.

When the stomach fails to perform its functions the bowels become deranged, the liver and the kidneys congested causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by all dealers.

BROWNING AT CHESTER.

After two days dragging by a fleet of boats, the body of Mrs. Langille who was drowned at Chester on Friday, was found Saturday afternoon. The body was taken to Dr. Dymond's office where the inquest was held and the coroner's jury returned a verdict of accidental drowning. The body was later taken to Tanook, where the funeral took place on Sunday. Mrs. Langille was forty-five years of age, and is survived by her husband and eight children, the youngest of whom is not three years old. Two brothers of the deceased were drowned in Chester Bay some years ago.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and ten castor oil to cleanse the system. It is safe and sure. Sold by all dealers.

KING'S CORONATION IN MAY 1911

London, June 21.—It has practically been arranged that the coronation of King George V. will take place the middle of May, 1911. Immediately after this ceremony the Duke of Connaught will proceed to Canada to assume the office of Governor General.

HAMAR GREENWOOD'S SCOOP.

How British M.P. Made a Bit of Money on the Side.

Regarding stories of great newspaper beats, which have recently appeared in the Canadian papers, another Canadian, who is entitled to rank in the honor-roll, is a former Toronto man, Hamar Greenwood, of whose reverse at the polls in York during the late British elections many Canadians learned with sincere regret. In his early campaigning tours in England, he had done considerable journalistic work. Three or four years ago he was one of a party of English M.P.'s who, under the direction of Sir Alfred Jones, visited Jamaica to study conditions on the island. During their sojourn a large portion of Kingston, the capital city, was destroyed by an earthquake. Mr. Greenwood had left his hotel for a short walk from which he was returning, when the calamity occurred and the building was shattered. So destructive was the shock that many lives were lost and property damaged to the extent of millions of dollars. It did not take Hamar Greenwood long to size up the news value of the terrible catastrophe, but the perplexing problem was how to forward a despatch. Every telegraph and cable line connecting Jamaica with the outside world had been sundered by the 'quake. Resource and tact must be resorted to. He had covered important assignments for The London Daily Mail and, if he could only get the news through exclusively to that paper, it would mean many shillings and pence to him. Correspondents of all the leading papers in an European dailies were on the island, but to scoop them was the all-important question, especially as communication of all kinds had been cut off. Greenwood, however, kept a cool head and knew how to be diplomatic. In the harbor was a U. S. warship and near by a swift cutter. The M.P. for York hastily pencilled a three hundred word report of the disaster, and going aboard the man-of-war he addressed the commander in official tones, declaring that he was a representative of the Imperial Government and must get an important despatch through to Mr. Winston Churchill, who was then Under-Secretary of State.

"Have this conveyed to the nearest cable station at once," requested the smart, stalwart, and soldierly appearing British visitor. The officer offered no serious objection, and soon the despatch was being conveyed to Cuba, the nearest cable station, by the speedy cutter. Here, the message was sent to the Home Office, and, by private instruction, found its way to The London Daily Mail, which thus secured the first story of the calamity hours ahead of any of its contemporaries. Mr. Greenwood, who was not in regular newspaper work, being a full-fledged barrister, did not suffer financially from his stroke of enterprise. On his return to London he found a Harmsworth check awaiting him for the "scoop." Well, never mind how much, but it was generous enough to meet his board bill for a week or two.

This Consul Keeps Moving.

Mr. K. Moorhead, U. S. Consul at Rangoon, B. who has been promoted to consulate at Rangoon, British Burma, has seen service for his Government in many parts of the world.

Mr. Moorhead entered upon his consular career in St. Thomas, Ont., where he married a daughter of Judge Emminger. When the office there was abolished he was transferred to Belgrade, the capital of Serbia. After serving for two or three years with distinction he was sent to Acapulco, Mexico, and about a year ago was promoted to St. John. The policy of the State Department evidently is to keep the younger officers moving. Rangoon is the chief town and principal seaport of Lower Burma, and had a population of 232,326 in 1901. It covers an area of 22 square miles, and is populated by Hindus, Mohammedans and Christians. The town, which was founded in 1753 by Aloung Chosa, the founder of the Burma dynasty, occupies a long stretch of high lands with wide, boulevard streets. Its name is chiefly familiar to most readers because it is mentioned in Kipling's "Mandalay."

Long Distance Talkers.

Mr. Fisher, who holds the Parliamentary record for lengthy speeches, although he has close competitors for this doubtful honor in his colleagues, Messrs. King and Lemieux, must look to his laurels. His supremacy in the straight away talk race was seriously challenged recently by Mr. George H. Bradbury, the member for Selkirk, who occupied four hours and a quarter of the time of the House in explaining the circumstance surrounding the "ditching" of 21,000 acres of land from the St. Peter's Reserve Indians by the Department of Interior, who sold it to a group of political friends at an average of \$5 an acre; the Indian agent who was supposed to look after the wards of the Government helping the thing along by himself buying some of the lands thus obtained. It costs no less than \$21 to run Parliament for a minute, so Mr. Bradbury's speech was expensive, costing \$5,335. There was some pedometer system which would tax each member so much on his indemnity for these long trials of the patience of the House, Parliament would not find it necessary to sit for six months in the year.

A Blind Campaigner.

Mr. J. B. Mulloy, the young Canadian student who went to the South African war to fight for the Empire, and returned totally blind as a result of being shot in the face, was the subject of a column in a recent London paper. Mr. Mulloy is one of the Imperial pioneers, representing the different overseas dominions, who are to talk to the people at home about the Empire and its needs. The Imperial Pioneers want to gather together in one body the men in Britain who are of no particular party, and who will try to direct their fellow-countrymen towards an Imperial policy. Preference is, of course, one of the points on which they feel strongly.

"CATCH-MY-PAL"

The "Catch-My-Pal" movement is going on in Ireland as hopefully as ever. It has been originated only a few months ago, and more than 100,000 Irishmen have joined its ranks. One man lays kindly hold on his companion and invites him to join the Total Abstinence ranks—to pledge himself an abstainer, and then to bring in another "Pal," or chum, or associate. It is a good society, and is still spreading.

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them.

25c. a box.

Would You Provide for the Care of Canada's Needy Consumptives?

THEN SEND YOUR CONTRIBUTIONS TO THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES. MAIN BUILDING FOR PATIENTS.

A national institution that accepts patients from all parts of Canada. Here is one of hundreds of letters being received daily:—

John D. McNaughton, New Lisford, Ont.: A young man not belonging here, and suffering from it is believed, consumption, is being kept by one of the hotels here. He has no means and has been refused admission to our hospital. The conditions where he is offer him no chance. Could he be admitted to your Free Hospital for Consumptives? If not, could you inform me where he can be sent, and what steps are necessary to secure prompt admittance? SET A SINGLE PATIENT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL BECAUSE OF HIS OR HER INABILITY TO PAY.

Since the hospital was opened in April, 1902, one thousand five hundred and twenty-four patients have been treated in this one institution, representing people from every province in the Dominion. For the week ending November 20th, 1903, one hundred and twenty-five patients were in residence. Ninety-six of these are not paying a copper for their maintenance—absolutely free. The other twenty-nine paid from \$2.00 to \$4.00 a week. No one pays more than \$3.00. Suitable cases are admitted promptly on completion of application papers.

A GRATEFUL PATIENT

Norah P. Canham: Enclosed you will find receipt for my ticket from Graydonport, hoping that you will be able to oblige me with the fare. I was at your Sanatorium ten months, and I was sent away from there as an apparent cure. I am now working in the city, and I am feeling fine. I was most thankful for the care I got from the doctors and staff, and I must say that I spent the time of my life while I was there.

TAKING THE CURE IN WINTER AT MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

The Muskoka Free Hospital for Consumptives is dependent on the good-will and gifts of the Canadian public. Money is urgently needed at the present time to make it possible to care for the large and increasing number of patients that are entering the institution.

Will you help?

Where greater urgency?

Truly, Canada's greatest charity.

Contributions may be sent to W. J. Gage, Esq., 84 Spadina Ave., or J. S. Robertson, Sec'y-Treas. National Sanitarium Association, 847 King St. W., Toronto, Canada.

Paradise

Mrs. Ingraham is visiting her sister Mrs. J. S. Longley.

Mrs. Spurr, of Deep Brook, is the guest of her sister, Mrs. I. M. Longley.

Mr. and Mrs. T. A. Elliott leave on Wednesday for Maine, where Mr. Elliott has a position during the summer months.

Mrs. Ponton of Winnipeg is visiting her sister, Mrs. R. W. Elliott.

Mr. and Mrs. Geo. Pearson enjoyed a drive through eastern Annapolis and Kings Co. recently, being absent a week and attending the meetings of the Central Baptist Association.

Misses Edna and Eliza Marshall spent Sunday at home.

Mrs. J. C. Morse received a telegram on Friday announcing the death of Mrs. Ensign, of Simsbury, Conn., who in company with her daughter, Mrs. Wm. I. Morse, visited Mr. and Mrs. J. C. Morse in the summer of 1908.

Miss Lizzie Jackson, of Boston, is visiting her parents, Mr. and Mrs. C. Jackson.

Annual meeting of the Ladies Aid Society of the Baptist church was held at the Parsonage on Tuesday.

West Paradise.

A heavy thunder and lightning storm passed over here Monday morning. From eight o'clock until ten, rain poured in torrents and it was nearly as dark as night.

Mrs. Harry Prall, who has been visiting her daughter, Mrs. Frank Poole, has returned to her home in Windsor, Hants Co.

Miss Ida Poole has gone to Windsor to spend part of her vacation with her aunt, Mrs. W. L. Saunders.

A number from here spent the first of July at Hampton, enjoying the fine day and the salt water breeze from the Bay of Fundy.

Capt. J. E. Morse and Sgt. Major B. W. Saunders attended the Rifle Competition at Kentville on the first of July.

The second 'League' shoot was shot over the Rifle Range in this place last Saturday. Major F. W. Bishop scored 98 points, and Capt. J. E. Morse 96; Sgt. Maj. B. W. Saunders 94 points.

Springfield.

Messrs. LeRoy Roop and F. O'D. Grimm spent Sunday at Middleton and Margaretsville respectively.

Mrs. Archie Gildert from Lunenburg, called on friends here recently.

Miss Myrtle Morrison and Miss Florence Morrison are attending the Provincial Exam. at Middleton.

S. P. Grimm went to Annapolis last week.

Quite a number from here attended the celebration at Middleton on the 1st.

Miss Hallie Baker left on Friday for her home in Margaretsville.

Edwin Langille is home for a few days.

Torbrook.

Mrs. W. O. Eaker returned on Monday from Chester, where she has been visiting friends.

Miss Hattie Spinney is spending her vacation with her parents, Mr. and Mrs. Arthur Spinney.

Misses Leota and Josie Banks, and Parker and Mr. Malcolm Foster, are attending the examinations at Torbrook.

Mr. Stronach spent Sunday at home with his parents, Mr. and Mrs. Nelson Hatt.

Messrs. Leander and Edward Freeman were called to Greenfield on Thursday to see their mother, who is very ill.

Miss Jessie Stoddart of Springfield, is visiting friends in this vicinity.

Miss Helen Barteaux is with her aunt, Mrs. MacMasters for a week.

Mr. William Barteaux, after a short visit at his old home, Mr. Ezekiel Barteaux's, returned to Brockton on Saturday. He was accompanied as far as Lawrencetown by his daughter Miss Mina.

ALWAYS VULGAR AND USUALLY WICKED.

The protest of Rev. Father Staley, in his sermon to the Holy Name Society of the parish of St. Mary's church against "the senseless and wicked habit of cursing and of using profane and blasphemous language," should be repeated by every preacher of righteousness, and by every teacher of "English undefiled." Profanity is sometimes a habit which arises out of an inadequate vocabulary. It is always vulgar and usually wicked.

Toronto Globe.

Lawrencetown.

Rev. J. T. Eaton is visiting Rev. G. H. and Mrs. Mellick and calling on former friends. On the evening of the Jubilee Service Mr. Eaton gave a very interesting address on reminiscences of his seven years pastorate over Lawrencetown church.

Miss Minnie Archibald of Truro, is spending her vacation with Mrs. E.A. Phinney.

Mrs. Elmira Pollard was the guest of Mrs. C. S. Baltom on Thursday.

Mrs. Annie Buckler left on Saturday for Boston to visit her son for a month. She was accompanied by the Misses Jackson, of Paradise.

The Ladies Aid will meet at the home of Mrs. Israel Brown Monday afternoon. If the day proves stormy it will take place on the next fine day. After the meeting a social time will be enjoyed and tea served at six o'clock.

Mrs. Frank Dodge and sister, Miss Minnie Buckler, of Bridgetown, were the guests of their cousin, Mrs. Duncan, on Friday.

We are glad to report Mrs. Richardson much improved in health and able to be around again, after several weeks illness.

Mrs. (Rev.) Turner (nee Estella Saunders) of Branford, Vermont, is visiting her father, Mr. P. Saunders.

Mrs. Mary Wheelock and daughter, Etta, have returned from U. S. They were accompanied by Mrs. Wheelock's son, and sister Mrs. Doanes.

Miss Lizzie Morgan is spending the holidays with her mother.

The teachers and students are returning to their respective homes and are preparing for examinations at Bridgetown during the coming week.

Mr. Clifford Duncan visited his mother and sister over Sunday.

Services for Sunday, July 10th: Baptist 11 a.m., Methodist 11 a.m.; Episcopal 3 p.m., S. S. 10 a.m. The Sunday school is in a prosperous condition. The teachers are punctual. Classes well attended. Ten minutes is given each Sunday to music. Mr. H. Phinney, musical instructor, Miss M. Stoddart, organist, Mr. Vernon Stoddart, coronet accompanist.

Hampton.

Mr. Jones and wife and son of Lynn, are visiting Mrs. Jones' parents and friends here.

Judson Foster was visiting his father at Karsdale last week. The aged gentleman has recovered from his late illness, and is able to be about the house and says he is as well as heart as he ever was.

A violent thunder storm passed over here on Monday morning last. At times it was quite dark. The lightning struck the house of William Foster causing some damage.

Albert Tolan is at home after an absence of a year or more.

Our school is closed and the juveniles are having a free run.

E. B. Foster had new potatoes from his garden for dinner on Dominion Day.

Port Wade

Mr. Edgar Bent, of Paradise, visited this place from Friday till Monday. He expresses himself as highly pleased with this locality.

Miss Ella John came from Lynn Saturday to spend the summer with her parents here.

A large party from this place availed themselves of the special trips made from Port Wade to Digby by the Ferry boat on July 1st. There was a ball game by Digby and Yarmouth, won by the latter, and horse racing, boat racing and dancing. Crowds lined the wharves and hills watching power boats of all dimensions show their speed. The day was an ideal one, and many enjoyed a delightful sail on the Basin.

Maggie and Harry Snow of Digby, are visiting friends here.

Mr. George MacWhinnie, an aged and respected citizen, passed away at the Hospital, Halifax, on Tuesday of last week, having undergone an operation for cancer. His remains were brought home and the interment and funeral took place here Thursday afternoon. Rev. Mr. Whitman officiating.

James Slocumb and family of Digby, visited with his parents here over Sunday.

Miss Ada Burns, of St. John, is visiting with her sister, Mrs. Cornelius Ryder.

Schooner 'Onward', Capt. Johnson, sailed last week for Boston, loaded with piling.

The works here are nearing completion and men are leaving daily. The spur of the wharf will probably not be built now.

Keep Minard's Liniment in the house

MINARD'S LINIMENT CURES DYPHTHERIA.

Bear River.

Oakdene school closed on Thursday last. Those of the teaching staff leaving for their homes were Misses Graves, Kempton and Woodman, the Mr. Colman Anthony returned to Boston on Saturday.

Mr. and Mrs. L. Ruggles went to Bridgetown on Saturday last. Mr. Ruggles being on the staff of examinations for that section.

Messrs. Walter and Alfred Troop are guests at the Bear River Hotel.

Rev. Arthur Archibald, Brockton, Mass. arrived on Saturday last.

Mr. and Mrs. Lloyd Field and children, Edward and Dorothy, of Waltham are visiting Mrs. Field's mother at Fairview Farm.

Dr. W. H. Magee and Miss Mabel Magee, Annapolis, are the examiners at the Provincial examination this year.

Miss Marion Daley, Digby is the guest of Miss Helen Jones at the Bear River Hotel.

Miss Ethel Purdy returned from Bridgetown on Tuesday.

About twenty of the members of Keith Lodge (Masonic) went to St. John on Tuesday on a fraternal visit to St. John Lodge, No. 2.

Mrs. Jennie Parker, Brooklyn, is the guest of Mr. and Mrs. W. G. Clark.

Mr. M. C. Armstrong arrived home on Wednesday last. Mrs. Armstrong is still critically ill.

The inside of the Methodist church has been re-decorated by Jas. H. Purdy.

Mrs. F. W. Purdy, Mrs. W. W. Wade and Miss Helen Jones went to Digby on Monday.

Miss Linnie Wade went to Digby on Saturday last.

Miss Dorothy Lovitt went to Kentville on Saturday last on a visit.

Mrs. William Milligan and daughters, Misses Agnes and Ruth, New York arrived on Saturday and are guests at the Bear River Hotel.

Messrs. Brooks and Reuben Alcon went to Middleton on Dominion Day.

A goodly number visited Digby on Dominion Day, a number went in teams and a lot of others went via St. George L., who made the round trip between Bear River and Digby on that day.

On Monday this section was visited by one of the most severe thunder storms accompanied by lightning that we have experienced for years. The lightning struck in several places but fortunately did no damage to any extent. It entered the barn of Edward Wright and damaged the end of barn slightly, also entered the dwelling of Mr. B. C. Clarke, blowing out the cut off and scorching the curtains slightly.

A curious phenomenon occurred during the heavy storm on Monday, says the Monitor's Bear River correspondent. After the tide ebbed one and one quarter hours it again flowed back and raised about eighteen inches, and then receded. In a short time it again returned, continuing to return and recede for the fourth time.

Bark. Ethel Clarke arrived on Friday last and on Monday went on marine blocks for repairs.

Terri Sch. Annie E. Banks, Haugh master arrived on Saturday to load lumber for Messrs. Clark Bros.

Try Electric Varnish for your furniture, it covers up scratches and makes it look as good as new. For sale by W. W. Wade.

Granville Centre.

Mr. and Mrs. A. W. Longley and children of Paradise, spent Sunday with Mrs. Longley's mother, Mrs. Henry Calnek.

Mr. and Mrs. Norman Willett spent Sunday with the latter's parents in Lower Granville.

Mr. Moore McCormick, of Clements-Port, attended the funeral of his cousin, Miss Ella McCormick, on Thursday last.

Mrs. Franklin of Wolfville is the guest of Miss Ethel Eaton.

Our teachers are all at home for the summer vacation.

The friends of Miss Belle Longmire are sorry to know that she was obliged to leave her position in Runciman's store at Annapolis, and return to her home here on account of illness.

Mr. John W. Wade has just completed a fine new stable which adds greatly to the appearance of his farm. Others who are making extensive improvements in building are Mr. Simcoe Willett and Mr. John M. Troop.

A young lady died at Gainsborough Eng., recently, from injuries caused by the explosion of a celluloid comb she was wearing, which became ignited by the heat of the fire while she was making toast. Celluloid, a detector told the coroner, had been known to explode by exposure to the heat of a tropical sun.

Lower Granville

Mr. and Mrs. E. P. Fleteher of Dorchester, Mass., who visited Mr. and Mrs. Silas Balcom last week, returned to their home on Saturday.

Miss Sarah G. Oliver's house is rapidly nearing completion, and is now in the hands of the painter, when his job is finished it will present a very pretty appearance.

The ladies of the Karsdale Baptist church held an ice cream social at the residence of Warren Letteney on Tuesday evening. A very pleasant evening was spent and the sum of six dollars added to the funds of the Sewing Society of that church. We understand the ladies have a very praiseworthy object in view, namely, erection of a stable on the grounds of the Baptist church in their section for the use of the minister, who hitherto has had to tie his horse out in the cold or else seek shelter for it in some nearby barn. It is intended to use this money to help carry out this purpose and it is hoped that before fall, a suitable building will be put up and made ready to occupy.

Mr. and Mrs. James F. Morrison, junr. made a short visit to Torbrook last week.

Rev. G. W. and Mrs. Whitman were making farewell calls last week. Their many friends regret that the inexorable law of the Methodist church make these separations unavoidable and hope that they may find their new circuit all they could possibly desire.

Mr. and Mrs. Edward Manning went to St. John last week on a visit to Digby.

Granville Ferry

Dr. F. F. Smith enjoyed a visit from his father last week.

Mr. Ralph Woodbury, of Halifax, was a visitor at the home or his uncle, Mr. W. H. Weatherspoon last week.

Miss Edna Wade and Miss Carrie Whitman are home from Normal College, Truro.

The annual school meeting was held in the school house Monday evening. The usual business was transacted, S. C. Shafner, the outgoing trustee, was re-elected, and Dr. F. F. Smith was elected trustee to fill the vacancy caused by resignation of S. R. Eaton on account of ill health.

Miss Ethel Gilliat came home from Deep Frook last Saturday.

Rev. and Mrs. Boyd, of Digby, are visiting the Rev. and Mrs. A. D. Parker.

Rev. W. T. Suckling is enjoying a visit from his father, of Truro.

Albany.

(June 28th.)

Mr. Kenneth Zwickler was home from Port Wade to visit his parents for a few days recently.

Mr. Hubley has begun services for the summer. He will also preach at Dalhousie.

Miss Agnora Stoddart spent the 14th and 15th visiting Mr. Chas. Whitman and Mr. Chas. Oakes.

The Sunday School held a very successful dime social on Saturday evening, June 25th. A large number were present, Lawrencetown and Middleton being both represented. Ice cream and pies spread upon the tables under the shade of the beautiful trees, were sold to the amount of sixteen dollars and twenty cents. After a very pleasant time spent in swinging and other games the people repaired to the church, where they were highly entertained with music and recitations. Proceeds to be used for books for the school.

Mrs. Harris Oakes has gone to Belleisle to visit her niece and nephew Mr. and Mrs. Stephen Wade.

Miss Hettie Fairn will attend the teacher's examination at Middleton. Our school will close on Thursday.

Miss Carrie McKeown is home for the summer.

Mr. and Mrs. Christopher Borden were the guests of Mr. and Mrs. Harris Oakes over Sunday 19th.

Mr. Jonathan Woodbury, who is in very poor health, was recently visited by two sisters and two brothers, J. F. and Stanley Woodbury, of Greenwood and Mrs. L. R. McFarland of Cambridge, Mass. and Mrs. L. Foster.

Mrs. Wm. Oliver, of Lynn, Mass, Mrs. Daniel Roberts with daughter, Charlotte and son, Cecil, of Digby, are guests of Mr. and Mrs. Lemuel Murray and Mrs. Charlotte Oakes, also Mr. Chas. Whitman.

Rev. Wm. Brown recently called on friends here on his way to Conference L. R. Fairn and brother, C. W. of Dartmouth Manual Training school, have been the guests of their uncle and aunt Mr. and Mrs. A. B. Fairn.

MINARD'S LINIMENT CURES DYPHTHERIA.

LOUIS OF BATTENBERG May's Probable Successor Is Well-Known and Popular In Canada.

Reports from England state that Admiral Sir W. H. May, one of the most eminent officers of the British navy will relinquish his post as chief in command of the Home Fleet, and that his successor will probably be a sailor agreeably known to Canadians, Prince Louis of Battenberg. He has indeed been personally known to Canadians for more than a generation. As a young man in the seventies being then a younger scion of an impoverished German principality he had a project of marrying an English girl in Toronto. Thirty years later he came back and spent a real happy holiday among old friends at Quebec, Montreal and Toronto and incidentally touched the button at the opening of the Canadian National Exhibition. It is said that he has not benefited in the least in his relationship to the royal family. Indeed it is not too much to say that the reverse has been the case. Had he possessed another and less German name there is no doubt that he would have been First Sea Lord of the Admiralty before to-day. Years ago he was passed over for command after command for which he was eminently fitted in every way owing to the German atmosphere that surrounds his name. If he succeeds Admiral Sir W. H. May in the Home Fleet there will no doubt be some outcry raised, says Modern Society, but as a matter of fact the prince is thoroughly British in his sentiments and aspirations, otherwise he would have accepted the throne of Bulgaria when it was offered to him several years ago. He is one of the most popular men in the royal navy to-day. Not only is he noted for his possession of all those kindnesses of heart and tender delicacies of feeling which endear him to all who serve under him, but his natural sense of justice is so true, and his administration is so lenient, and tempered with so full a consideration of all extenuating circumstances, that the prince says a thing has to be done that is all the men want to know. And it has always been so, ever since he was a midshipman, when his "command" consisted of a boat's crew ashore. He is said to have never lost a man on these occasions. With all, he is a strict disciplinarian—none more strict—but not through fear, and is perhaps the best and most thoroughly up-to-date officer in the royal navy to-day. Everything new in science, so far as it affects his profession, he has at his finger ends. His knowledge of mechanics is that of a skilled expert, and many of his inventions and improvements are in daily use in the navy at the present moment. His modesty is as great as his ability. In every way he is a "good" man—that is what the sailors call him.

How to Enjoy Ginger Ale.

Down in Ottawa Parliamentary banquets come as often as a shower in April. Nearly every day an item appears in the society columns that Mr. So and So gave "a jolly dinner last night." At most of these functions it is customary to have wines included on the menu, but not always. Hon. William Paterson, Minister of Customs, was once host at what he was proud to call a "dry" banquet. Ginger ale constituted the sole line of refreshments, or was supposed to. Not a few of the guests felt that they could not do justice to the dinner without something a trifle stronger than ginger ale, so they entered into a conspiracy with the waiters at the cafe to have their favorite brands smuggled to the table with all the approved methods of those conscientious travelers who manage to evade the customs duties which the collectors under the Minister of the Crown are paid to levy.

The waiters received special instructions to serve Scotch and soda to certain guests, but not to use anything but ginger ale bottles, previously tampered with, of course.

The plan worked to perfection, and the dinner was one of the jolliest of the jolly. In fact, it has passed into the annals of Parliamentary entertainment as a record-breaker for merit, but the climax was reached at an early hour in the morning when Hon. Mr. Paterson, in rising just before the time came to sing "Auld Lang Syne," took occasion to remark: "I am delighted that we have all had such an enjoyable time with nothing stronger than ginger ale, and it only goes to show what remarkable advances the temperance cause is making in this country."

Marriage Unnecessary.

When a drunkard among the Nascapue Indians was found frozen to death recently on their Canadian reservation, the other members of the tribe made up a jury for an inquest, as they had seen their white neighbors do, and brought in this verdict: "The deceased came to his death from the freezing of a great quantity of water inside him, which, they were of the opinion, he had drunk for rum."

These Indians are the most primitive tribe now in existence and live as their fathers did for untold generations. When conversing they either shout or adopt a petulant, whining tone which would lead one to imagine that they are quarreling violently, where as they are only discussing some trivial topic in the most peaceful way.

Marriage with them is simply a consent to live together. If the girl is willing, so much the better; if not, provided her parents agree—she is dragged off forcibly to the wigwam of her future husband. Doing most of the hard work, they soon grow hideously ugly.

Are Poets Insane?

"The poet is one whose troubled nature urges him towards drink, suicide, and madness." Thus Mr. W. B. Yeats, the "Celtic Charles Lamb," as he has been termed. Mr. Yeats, who first studied with a view to becoming an artist, began writing at twenty-one. Now he is forty-five, and during the last twenty-five years has earned the reputation of living in a fairy world of his own. He certainly holds some very peculiar notions, and tells uncanny tales.

Ask for MINARD'S and take no other

Port Lorne

Mrs. Emma Hamm, of Salem, Mass., is spending a few weeks with her friends here.

Mrs. Albert Eisenhour, of Lunenburg, and Mr. George Daniels of Brocton, Mass. are guests of Mrs. Maurice Dalton.

Mr. P. J. Smith and family of Nutley, N. J. arrived last week for the summer.

Mr. Perry Anderson is home from sea.

Miss L. W. Foster is home for a few weeks.

Quite a number from here spent Friday, 1st at Digby.

The Mission Band concert held in the church Sunday evening was a success. The sum of six dollars was taken at the close.

The ladies W. M. A. S. will meet in the church Wednesday afternoon, July 6th.

Sunday school July 10th at 10 a.m. Preaching service 7.30 p. m.

Don't worry about things that may happen. They may be opportunities not trials, by the time they reach you.

Praises Work of Women's Council

In the course of his sermon at St. Paul's Church, Halifax, last Sunday evening, Ven. Archdeacon Armitage spoke to the National Council of Women. He said that he regarded the National Council as one of the most important bodies in the land. Its aim was simple and direct, and it worked upon unifying lines. It had proved by its work, its right to exist and its interest, was not simply sentiment, but most practical, and showed a marvellous power of initiative.

To the National Council was due the credit of many important movements, such as the introduction of the supervised playgrounds, the campaign against tuberculosis, the effort to reduce infant mortality and to improve public health.

The freest and most enlightened nations are those that have given the largest liberty to women and it was where Christian principles prevail that their emancipation was most complete.

While woman's true sphere of work and influence was the home, this great principle does not limit her interests, but only defines the lines of her greatest activities.

Of Interest to Both

husband and wife is the savings bank book. Every entry in it means a step toward independence and a comfortable old age.

UNION BANK OF HALIFAX SAVINGS DEPARTMENT

will open accounts in the name of a husband and wife, mother and daughter, or any two friends, so that in case of illness or death of one the other can withdraw the deposit without any expense.

What is said of the GOURLAY PIANO

Messrs Gourlay, Winter & Leeming GENTLEMEN:— It affords me great pleasure to testify to the excellence of your Pianos. As accompanist for upwards of fourteen years to Madame Adeline Patti, Madame Albani, and other world famous artists, I have had occasion to use the Pianos of all the greatest makers throughout the civilized globe, and I unhesitatingly declare that as an "UPRIGHT" your Piano has given me the keenest satisfaction of any I have ever met.

Write for "FREE BOOKLET" and information to J. H. POTTER, MANUFACTURERS' AGENT PIANOS, ORGANS and SEWING-MACHINES. MIDD ETON, N. S. Telephone 59

Bridgetown Boot and Shoe Store
