## McKINLEY PEAK IS CONQUERED BY MISSIONARY

### Archdeacon Stuck Cables That He and Three Companions Reached Hitherto Unattained Summit on Seventh of June—More Than Twenty Thousand Feet Above Sea Level.

SEATTLE, Wash., June 20.—(Can. Press.)—Archdeacon Hudson Stuck, the Episcopal missionary who set out from Fairbanks, Alaska, several months ago to climb Mount McKinley, reached the summit of the highest peak of the great mountain June 7, according to a private cable despatch received here today.

The message which was sent by Archdeacon Stuck from Fairbanks said:

"Expedition successful. Accomplished first complete ascent of Mount McKinley June 7. H. P. Karstens, R. G. Tatum, Walter Harper and I reached top of south (the highest of all) peaks on clear day, when it was possible to read all the angles of the mountain and other points and make certain that the peak we had conquered was the highest of all."

Height Exceeds 20,000 Feet.

"We successfully carried a mercurial barometer to the top and made complete readings and observations which, with simultaneous readings at Gibben, should permit a close approximation of the true altitude when proper corrections are applied. Water boiled at 174.9 degrees. The present estimate of the summit's height is upwards of 20,500 feet."

"We were able to read angles of all prominent points. With field glasses we clearly saw the flagpole erected in 1910 by the Thomas Lloyd expedition on the north peak (the lower of the two main peaks)."

"After completing observations on the summit we hoisted the American flag on the upper basin, erected a six-foot cross and said 'Te Deum' on the highest point of North America."

Shattered by Earthquake.

"The northeast ridge is the only possible approach to the summit. Due to the violent earthquakes of last July, the highest ridges were terribly shattered, and this added largely to the danger, difficulty and labor of the ascent."

"We spent three weeks in continuous bad weather, hewing a passage three miles long thru this side. This was the chief cause of delay and we made rapid progress at all other stages of the journey."

"The chief credit for our success is due to Karstens' good judgment, resourcefulness and caution. We did not have a single mishap."

## HIT BY BULLET BOY IS DYING

### While Walking With Sister, Child Falls With Wound in Breast.

MOSCOW, Ont., June 20.—(Special.)—Shot thru the breast as he was returning from school along the Bay of Quinte Railway tracks this afternoon, the seven-year-old son of Thomas Mills is dying at his home here.

His sister, aged 11, who accompanied him, says that she heard the report of a gun, and that her brother fell. She did not see the person who fired the shot.

Examination showed that the bullet had barely missed the heart, coming out at the shoulder.

It is believed that the bullet was a random one from the rifle of a hunter, but no clue has yet been obtained.

## IMMIGRATION AGENT CHARGED WITH FRAUD

Robert Verrity, an agent for home-seekers, was arrested last night by Detective Cronin, charged with defrauding William Barrister, 56 Augusta avenue, of \$40, the sum being \$1000 he is bringing out Barrister's wife from England.

ACCIDENTALLY SHOT. Graydon Bell, aged 21 years, 69 Coleman avenue, accidentally shot himself in head at his home early yesterday morning. The young man's parents heard the report and found that the bullet had gone thru the cheek. Dr. Williams was summoned, but Graydon died at noon. No inquest will be held.

## JEWELRY STOLEN AT ASCOT RACES

### Numerous Complaints Made of the Mysterious Disappearance of Valuables of All Kinds.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World.

LONDON, June 20.—Mrs. Olive Wigram, wife of King George's equerry, is sorrowing over the loss of a \$2500 diamond pendant which she missed when she was in front of the royal box at Ascot, in the very midst of a cluster of high court functionaries.

There have been numerous other complaints at the present race meet at Ascot of the mysterious disappearance of valuables. Even in the marquee of the most select clubs it has come to be considered risky to leave any valuables out of sight for an instant. The buffet of the royal enclosure itself is not exempt.

Canes, racing glasses, purse bags, jewels, are all eagerly snapped up, the police say.

## BLUFF THAT FAILED MAKES GOOD TITLE

### For Yarn That Jack MacKinnon Told to Police Before Being Arrested.

"The Bluff That Failed" should be the title of a story that could be written about Jack MacKinnon, a smooth-looking youth who is being held on a nominal charge of vagrancy.

Yesterday he went to Inspector Kennedy at the detective office and told a long story about having no funds, on account of missing his mother, who was rushing to Toronto, with a large amount for him. He wanted the police to guarantee his hotel bill for one night.

Arrangements were made for him to spend the night at the Welcomes Home, but no sooner had he agreed to go there than a chauffeur entered the detective office and told how MacKinnon had run up a bill for \$75 by being driven to Grimsby and return. MacKinnon, bluffed the chauffeur that he was going to cash a cheque at the detective office, but the chauffeur took no chances, thinking that his man intended to give him the slip.

After listening to the chauffeur's story, the detectives placed MacKinnon under arrest.

### Hungarian Count is Advertising For Young and Pretty Woman With Rich Parents.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World.

BERLIN, June 20.—In a leaded type in The Conservative Noisette tonight, there appears the following advertisement:

"Young Hungarian aristocrat, a count, bearer of one of the noblest and historically famous names, heir to great estate and a seat in the Hungarian class family, seeks with a view to marriage, the suitable acquaintance of a young lady.

"She must be young and pretty, and absolutely stainless. Her family must have property worth between \$4,000,000 and \$6,000,000 at her disposal."

## FALL DOWN STAIRS KILLED FRED ROSS

### Missed His Footing While Putting Glass in Reid Building and Fractured Skull.

Injuries to his head sustained when he fell down the stairs at the A. T. Reid Building, King and Duncan streets, yesterday, caused the death of Frederick Ross, 123 Collier street, in Grace Hospital last night. The body was removed to the morgue, but it is not likely that an inquest will be held.

Ross was employed by Joseph McCausland and Sons, and was working on the first floor at the head of the stairs. He missed his footing and fell 15 feet. He was removed in the police ambulance to Grace Hospital, where he was found to be suffering from concussion of the brain.

## TWO DROWNED NEAR TIMMINS

### France and Perist Swept Away by Swift Current of Grassy River.

TIMMINS, Ont., June 20.—(Special.)—J. L. A. France and N. Perist, two Frenchmen, aged 19 and 20 years respectively, were drowned while bathing in the Grassy River about ten miles from Timmins. They went into the water after a meal and were not seen again. The bodies have not been recovered.

They came from Matheson to work for a lumber gang at Grassy River. It is believed they were swept away in the swift current.

## CRUSHED BETWEEN CARS

With injuries so serious that he may die at any time, Sidney Brown, a young man living at 868 East Gerrard street, lies in the Western Hospital. Brown was employed as a brakeman on the C. P. R. He fell between two cars at the foot of Bathurst street yesterday afternoon and an iron casting dropped onto his chest and neck.

## THREE BROTHERS ESCAPE GALLOWS

MALFAX, June 20.—(Can. Press.)—The trial of the three Graves brothers, charged with the murder of Kenneth Lee, 38 June last year, was concluded at Bridgetown today, and the jury brought in a verdict of manslaughter.

## CURRENCY BILL IS DESCRIBED AS MAKESHIFT

### President Wilson's Measure Seems to Have Stirred Up Considerable Opposition in Senate—Merely Provides More Machinery For Emergency Currency.

WASHINGTON, June 20.—(Can. Press.)—President Wilson tonight began his conference with the rank and file of the currency committee of the two houses of congress. It is understood his purpose is to learn just what changes are likely to be demanded in the new Glass-Owen-McAdoo currency bill by its present critics and opponents in the senate and house.

Tonight the president talked at length with members of the house committee; next Wednesday he is to confer with members of the senate committee, and on different days next week he will talk over details of the bill with Republican senators who have been closely identified with previous efforts at currency reform.

Antagonism to present action on the currency and criticism of the new bill as it has finally been agreed upon by the administration leaders, became well defined among members of the senate today.

Critics Are Busy.

Comments on the measure by senators were guarded, but several expressed the belief that the provision asked for by Senator Owen for the retirement of national bank notes and the refunding of the 2 per cent. government bonds now securing that currency, with a three per cent. issue, should have been left on the bill.

The most striking criticism of the measure came from Senator Nelson, a Republican member of the currency committee.

"The bill made public by Mr. Glass seems to me but a temporary makeshift," he said, "and amounts to no more than the Aldrich-Vreeland emergency currency law. It is simply a provision for emergency currency and is more cumbersome in its machinery than the Vreeland bill. While it proposes to decentralize by creating twelve or more reserve associations, yet it leaves control in the hands of a single board located here at the national capital, composed largely of government officials."

A makeshift measure.

"It fails utterly to amend or improve our present system of national banks and the system of bond secured currency appertaining to them. In other words, all the bill really attempts to do, with all its verbosity and popperous plan, is simply to provide for emergency currency—a currency entirely different from all other paper currency. At best it can only be looked upon as a temporary measure."

Democrats expressed a desire to go over the measure in detail with President Wilson, and so far no committee meeting has been called. The plan embodied in the measure has never been passed upon or endorsed by the senate committee, but it will furnish a basis upon which they will attempt to meet the president in case he is insistent on legislation at this session.

## PERJURY GALORE IN THIS ACTION

### Twenty Thousand Dollar Judgment Secured by Blackmail and False Testimony, Says Soubrette.

Special to The Toronto World.

NEW YORK, June 20.—Edith St. Clair, musical comedy soubrette, who, following two sensational trials last fall, obtained a judgment of \$22,500 against the theatrical firm of Klaw and Erlanger for breach of contract, filed in the county clerk's office today papers in a motion that is unprecedented.

In affidavits sworn to before William Travers Jerome, counsel for the theatrical company, Miss St. Clair declares that at both trials she perjured herself at the suggestion of Max D. Steuer, a lawyer, and asks that in view of the fact that she won the suit because of her testimony, the verdict be set aside and a new hearing of the case be granted.

At the trials Mr. Erlanger alleged that Steuer had combined with the actress to blackmail him, and vigorously assailed the lawyer in court. That a feud existed between the two was apparent, and the trials were marked by bitterness from the outset.

As a result of the charges, the grievance committee of the Bar Association took up the matter, and is still considering it.

In this connection it was learned that on May 28, after making the affidavits, Miss St. Clair appeared before the grand jury and gave testimony supporting the statements contained in the papers filed today. On the same day she appeared before the grievance committee and repeated her allegations.

## Parents Criminally Negligent.

WELLAND, June 20.—The adjourned coroner's inquest to ascertain the cause of the death of an infant found buried on the farm of Robert Nugent, near here today, resulted in a verdict that its death was caused by hemorrhage.

The jury found Lizzie Bredlen and Robert Nugent, parents of the baby criminally negligent in not providing proper attention.

Nugent is still held under arrest on a nominal charge.

## REV. DR. O'BRIEN CHOSEN TO SUCCEED LATE BISHOP O'CONNOR AT PETERBORO

PETERBORO, Ont., June 20.—(Special.)—Notification was received here today from the apostolic delegation at Ottawa of the appointment of Rev. Dr. K. J. O'Brien, pastor of Sacred Heart Church, to the bishopric of the Peterboro Diocese, which office was made vacant by the death of the late Bishop R. A. O'Connor.

The bishop-elect was born in Peterboro 38 years ago. Within the past three years his parents have passed away. He obtained his early education here and, after graduating from St. Michael's College, Toronto, he pursued his philosophical and theological studies in the Grand Seminary, Montreal.

Ordained as priest in 1897, he went to Rome for a post-graduate course of two years, and in 1899 he took his degree of Doctor of Divinity. Returning to Peterboro, he was appointed curate at St. Peter's Cathedral and ten years later he took charge of the new Sacred Heart Church.

## DENIAL IS GIVEN REPORT THAT TRADE PACT WITH AUSTRALIA IS DELAYED BY NAVAL POLICY

### Ottawa Despatches to Sydney Describe Canadians as Attributing Hiccup in Negotiations to Australia's Resentment Toward Borden Dreadnought Program—Premier Fisher Resigns Office.

LONDON, June 20.—(C.A.P.)—The Sydney correspondent of The Times says that, according to telegrams received there, the Ottawa press attributes the delay in reference to the negotiations with Canada to the Australian dislike of Canada's naval policy. It is regrettable that such misstatements should gain currency. The sole cause of the postponement is the result of the elections, which in the opinion of the government, deprives them of authority to conclude important negotiations in the name of Australia. It is hoped and believed here that the negotiations will be resumed with the Canadian trade commissioner as soon as the political complications have been unraveled.

Fisher Resigns.

Premier Fisher today tendered the resignation of his ministry and it was accepted by Lord Denham, governor-general. The premier took this course because the latest figures show that Sir W. Lyne was certain to lose in the home division, thus placing the government in a minority of one in the house of representatives. Cook will accept Lord Denham's commission to form a Liberal ministry tomorrow afternoon, and it is expected his task will be completed by Monday night. The new parliament will meet at the end of the second week in July. Cook has left for Melbourne.

## WILY SHIPPERS TRICK RAILWAY

### Stopover Privileges at Winnipeg Paves Way to Big Rebates, C. P. R. Complains.

OTTAWA, June 20.—(Can. Press.)—That the Canadian Pacific Railway was "done" out of a lot of money every year by shippers who took advantage of a unique stopover privilege accorded them at Winnipeg, and substituted waybills to obtain large rebates on shipments, was the evidence given today by Assistant Freight Traffic Manager W. B. Lanigan of the C. P. R. in the western rate enquiry before the railway commission.

Mr. Lanigan's evidence was of interest as going into the fundamentals of the reason why the Canadian freight classification is not so profitable as the C. P. R. claims, the American known as the western classification is. The reasons were, first, the stopover privilege, to which reference has been made, and second, the lower carload minimums, that is, the lower weights of shipments for which a carload rating will be given, accorded by the Canadian roads. At the close of his evidence the commission adjourned to meet again on Monday.

Live stock rates took up Mr. Lanigan's time during the first part of the afternoon's session. He estimated that the C. P. R., taking into consideration the difference in carload minimums, would have earned \$550 per car more than it had on the 883 cars of stock shipped in 1912 under the American classification.

## MAKE CUTS IN METAL TARIFF

### Other Important Changes in Underwood Bill Considered at Democratic Caucus.

WASHINGTON, June 20.—(Can. Press.)—Important reductions in the Underwood tariff bill rates on iron, steel and other metal products, the addition of cattle, wheat, pig iron, Angora wool and many other articles to the free list; and an increase in rates on many classes of cotton goods and some silk products were the chief features of the revised tariff bill, as it was laid before senate Democrats today by Chairman Simmons of the finance committee.

After weeks of work in which every item of the bill had undergone close scrutiny by sub-committees of the majority membership of the finance committee, the redrafted measure was brought into the Democratic caucus today. For two hours the important changes were explained to Democrats and the bill was then made public. Experts of the committee at once began work on a comprehensive summary of its changes.

Sugar and Wool Unaffected.

President Wilson's desires as to free sugar in 1916 and free wool at once prevailed in the redraft of the bill. To the list of "market basket" reductions the Underwood bill contained, the senate committee added many important items. In the general level of its rates the "Simmons bill" represents a heavier cut from existing rates of the Payne-Aldrich law than did the bill as it passed the house some time ago.

The senate caucus adjourned early and members spent the afternoon working out private analyses of the measure. The caucus will reconvene tomorrow morning. Senate leaders believe the bill will reach the senate itself late next week.

## UNABLE TO OPERATE LINE.

NEW YORK, June 20.—(Can. Press.)—Announcement was made from the offices of the New York, New Haven & Hartford Railroad here tonight that Boston & Maine Railroad had been obliged to give up the operation of the Hampton Railroad and the institution of a thru service between New York and Boston by that route, because of the inability of the Boston & Maine to secure the approval of its lease of the Hampton Railroad by the railroad commissioner of Massachusetts.

## EMBEZZLER IS SENTENCED.

PROVIDENCE, R. I., June 20.—(Can. Press.)—Convicted of embezzling \$40,000 from the People's Savings Bank in Woonsocket, of which he was teller, three years ago, Hermeville Bessette was sentenced today to three years' imprisonment. He had returned \$3000.

## Hold on to the Straps

In military operations the most implicit obedience to superiors is, the heroic virtue of the good soldier. But military virtues are not always compatible with a successful public career in which the independence of an intelligent individuality is the factor of most advantage to the people.

The Telegram has from time to time enlisted recruits in its civic campaigns, and now has an army of two, which it seeks to adorn with a military reputation by connoting their baptismal diminutives with the world-honored endorsement of the British soldier. Alas! And again we say, Alas! We apologize to the British soldier for even having to think of him in this connection.

However, The Telegram has recruited two "Tommys" and they have the military virtue of abject obedience. The order has gone out from headquarters on Bay street that the enemy must be defeated, and in order to slay Mayor Hocken, it is necessary for the strapholders to hold on to the straps for eight years and a half longer. And The Telegram says the strapholders are simply delighted with the prospect of supporting the two Tommys.

For it's Tommy this and Tommy that and Tommy with the tongue, and Tommy with the wooden head, and Tommy with the lung, and Tommy stout, and Tommy thin, and Tommy hold your nose, but hold the straps for eight years more, for Tommys, they're the boys.

## MANIAC KILLED CHILDREN IN SCHOOL

### Armed With Ten Automatic Pistols, Bremen Teacher Runs Amuck, Causing Death of Three and Wounding Sixteen Others—Was Overpowered by Police.

BREMEN, June 20.—(Can. Press.)—Three school children are dead, five others and a teacher are perhaps mortally and fourteen additional children and two men more or less seriously wounded as the result of a madman with automatic pistols running amuck in a Catholic school here today.

The murderer is a young head teacher named Schmidt, who has been without employment for some months. Entering the school corridor this morning, Schmidt, without warning, fired upon and wounded the woman teacher. Then, with an automatic pistol in each hand, he entered the class room where the little girls were at their studies and opened fire upon them. There was a wild panic during which one girl fell down the stairs and broke her neck. The lunatic then fired into the court yards, where the boys were gathered, bullets striking several of them.

Workman Wounded.

One stray bullet from the madman's weapons wounded a workman in an adjoining building. The janitor in the school attacked Schmidt and was shot thru the chin, and a teacher who grappled the murderer received bullets in the breasts and abdomen.

The lunatic finally was overpowered, but not before he had been badly injured by a crowd of enraged people who were attracted to the schoolhouse by the shooting. The police were compelled to use their sabres in order to protect the murderer from death at the hands of the mob.

Ten automatic pistols were found in Schmidt's pockets. Most of these had been fired until their chambers were empty. As there was no question that Schmidt was violently insane, he was committed to an asylum.

## FIND SMALLPOX ON OCEAN LINER

### Pisa, After Being Fumigated, Is Allowed to Leave Quarantine at Quebec.

QUEBEC, June 20.—(Can. Press.)—Steamer Pisa wharved here tonight, landed a case of smallpox at quarantine. She comes from Bremen, etc., and had on board 1187 steerage passengers.

The smallpox patient was discovered some time before reaching the station this morning at 9 o'clock. He and all the people in the same compartment, 168 in number, were landed. The vessel was then fumigated and allowed to leave quarantine soon after 6 o'clock this evening.

As the Pisa was coming into her berth here, she struck the wall of the dock and damaged her stern.

#### CONTRACTOR FELL TO DEATH.

Simon Bero of Hogsburg Was In-specting Bridge.  
CORNWALL, June 20.—(Special.)—Simon T. Bero, a lifelong resident of Hogsburg, was accidentally killed by falling from an abutment on the new bridge being built across the Rackett River, on the St. Regis Indian Reservation. Mr. Bero was one of the contractors engaged in building this bridge and was watching the progress of the work on the abutment.

Mr. Bero caught his foot and fell headlong to the rocks below, a distance of about 20 feet, fracturing his skull, breaking his collar bone and several ribs, and sustaining other injuries. He never regained consciousness and died in about an hour and a half.

### CANADIAN BERRIES COMING IN SLOWLY

Day's Sunshine, However, Will Materially Improve Situation.

#### SUMMER SEASON OPENS

Wholesale Fruit Dealers Take Up Summer Quarters Monday.

If there are any strawberries on the Toronto market this morning they are few and far between, for the last shipment of Baltimore berries was disposed of yesterday and there has not been enough sunshine on the Canadian berry patches this past week to ripen a fraction of the number needed to supply the Toronto demand. The carload from across the line which arrived Thursday night sold in a fairly stiff market owing to the shortage of home-grown fruit. Few boxes brought less than 19 cents, while some went as high as 22 cents. A day's sunshine will make a big difference in the situation and a large shipment from Canadian farms is expected Monday.

The first carload of California fruit came in Wednesday, made up of peaches, plums and apricots. A quantity of this fruit has been auctioned off by Mr. English of the Toronto Fruit Market Co., which has for the past few days been located in the summer fruit market. Monday is the opening of the summer season, however, when McWilliam and Everist, White and Co., and other wholesale fruit dealers take up their summer quarters in the market at the foot of Yonge street. After Monday, accordingly, the daily auction will be held in the regular fruit auction Co. building, on the East Esplanade.

Southland tomatoes from Texas, brought \$1.30 a crate at yesterday's auction. On the regular wholesale market \$1.50 was asked for them. The first car of California cherries is expected to arrive on the market today and will be sold at auction Monday.

First Lot of Beets.  
The first shipment of Canadian-grown beets came in this week. The beets were auctioned yesterday at 50 cents the dozen. Carrots fell to the neighborhood of 25 cents. The season for green onions is now practically over and the number of bunches on sale is negligible. These are old and coarse and do not find a very ready market.

Prevailing prices on the market are as follows: Strawberries, 18c to 22c a box; asparagus, \$1.50 to \$2 a basket; cabbage, \$3 to \$4 the crate; watermelons, 50c to 75c the piece; oranges, 35 to 40 a crate; lemons, to \$5.99; California plums, \$1.50 to \$2.50; peaches, \$1.75 to \$2.75; apricots, \$1.50 to \$2.25 a crate; Texas tomatoes, \$1.30 to \$1.50 the 4-basket crate.

### FINE SHOWING BY MIMICO CADETS

Industrial School Corps Complimented by Major R. K. Barker.

#### HELD KIT INSPECTION

Six Boys Presented With Gold Watches For Good Conduct.

That the Mimico Industrial boys handle themselves in drill much better than the average city company and as well as the best of the high school cadets was the compliment paid by Major Barker after an hour's inspection of the Industrial School cadets yesterday afternoon at Mimico Industrial School.

Altho the picnic and garden party portion of the program was completely spoiled by the rain, the school's drill shed was resorted to for drill and kit inspection.

Here the two companies of boys, resplendent in their red and black uniforms, went thru without a hitch all the difficult movements, including extended order work, company drill, squad drill and skirmishing, in fact, as advanced and difficult movements as the crack city regiments go thru. A complete accoutrement inspection was also made by the major.

"That's fine, boys, fine," he remarked in an address to the boys. "I must compliment you both on your drill and skirmishing and on the spick and span appearance of your accoutrement. I must admit I am surprised; I expected well of you, but not so well as you have performed this afternoon."

Instructor Mr. McFadyen superintended the boys' work.

After the inspection six boys were presented with gold watches for excellent in good conduct and general efficiency in all their work. Fourteen boys also received medals for general efficiency.

The presentations were made by Beverly Jones, president of the Industrial Schools' Association; Rev. Canon Tremayne of Mimico, Rev. Mr. MacMillan and Major Barker.

The garden party in connection with the day has been postponed for a week.

### "OPEN DOOR" POLICY FOR NEW HOSPITAL

Doctors Can Attend Own Patients in Proposed Howard Park Institute.

PROMOTERS WILL MEET Laymen Will Form Majority of Members on New Board.

The promoters of the proposed new Howard Park Hospital which is shortly to be established in the west end, have called a meeting of the management committee for the purpose of electing a board of managers. An enclosed list will be sent to the board members to have the board composed of as many laymen as possible, with a minority of medical men.

A unique feature of the new hospital will be a system by which doctors will be able to bring in their patients and attend them during their sojourn. This is the "open-door" policy.

Sir Robert Land Commander, No. 3, Knights of Malta, will hold their annual church parade on Sunday afternoon next at St. John's Church. The lodge will leave the corner of Keele and Dundas streets, headed by the Weston Prize Band.

The West Toronto Cricket Club are scheduled to play the Old Country C. C. this afternoon on the High Park athletic grounds. So far they have lost 2 and won 2 of the four games played.

The C. P. R. carmen from the shops at Lambton and West Toronto played the second game of a series in soccer yesterday afternoon on the Lambton athletic grounds, when the Lambton team by 2-0. The return game will be played next week.

St. John's A. Y. P. A. will hold their second outing of the season this afternoon to Long Branch.

SCARBORO JUNCTION.  
The Scarboro Junction branch of the East York Women's Institute held their annual picnic on the grounds of Mr. Robert Lawrie on Wednesday afternoon. Fifty were present and were welcomed by the newly-elected president, Mrs. J. Graves. Much interest was shown in the address and delegate, Mrs. Altemeyer of Toronto, on sewing and dressmaking. The next meeting will be held at the home of Mrs. Leslie, Kingston road, on July 8.

# THE LIFE OF A MARTYR

Was In Agony For Years And Nothing Gave Him Relief Until He Used "Fruit-a-tives" The Famous Medicine Made From Fruit.

ALFRED FERRIS, ESQ.

PENETANGUISHENE, ONT., March 4th, 1918.  
I want to inform you of what your remedy, "Fruit-a-tives," did for me. For years I was a martyr to Dyspepsia and Constipation, often having to leave work from the agonizing pains of Acute Indigestion. Doctors treated me continually, but without satisfactory results. It seemed to me that I tried every advertised medicine on the market, and got no relief.

"On one of the days that I was compelled to absent myself from work, a neighbor came to my house, to whom I told of my suffering, and he said to me that all I had to do, if I had Dyspepsia, was to take "Fruit-a-tives." They would cure me. He had cured himself. I immediately procured a 50c box and continued taking them until cured. I suppose I took in all, about seven boxes, and I am glad to be able to say that I have been free of Indigestion for nearly two years. They cured the Constipation also. They were worth their weight in gold to me, and I will be glad to have you publish this letter, along with my photo, if it will induce another dyspeptic to take the right road to a permanent cure.

"Yours truly,  
ALFRED FERRIS."  
Don't suffer any longer. Today—right now—get "Fruit-a-tives" and cure yourself. "Fruit-a-tives" will sweeten the stomach—strengthen the stomach muscles, increase the quantity of digestive juices, regulate Kidneys and Bowels, and make the digestion as sound as a bell. "Fruit-a-tives" will positively cure every case of Dyspepsia, Indigestion, Sour Stomach, Belching Gas, Bloating, Feeling after eating, and all other disorders of the Stomach, Liver and Bowels. 50c a box, six for \$2.50, trial size 25c. At all dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

#### WOMEN DROWNED AT BANFF

Raft on Which They Were Standing Carried Over Falls.  
BANFF, June 20.—(Can. Press.)—Eval Ballens and Lily Sutherland, each twenty-five years of age, employed at the Banff Springs Hotel, were drowned late yesterday afternoon when a raft upon which they were standing carried over Spray Falls.

The two girls and five male employees of the hotel were standing on the raft, which was tied to the embankment at the confluence of the Bow and Spray Rivers. The fastenings broke

and the raft rushed out into the swirling waters of mid stream. Four of the men whose names cannot be learned, sprang overboard and swam for shore, leaving the women to their fate. The fifth man made frantic efforts to run the raft to safety, but failed. He was later rescued in an exhausted condition.

#### ANNOUNCEMENT

### Would You Like To Be a Real Man Again?

Here is a new method by which you (like thousands of men all over the world are doing today) may secretly and safely restore your vitality with a view to quickly restoring your youth that you may get back your complete vigor, which has been lost through the use of stimulants, narcotics, and other drugs. I will gladly send you free, sealed, by mail, just as soon as you write for it.

Please use the free coupon below for a free personal observation of hundreds of thousands of cases of lost vitality in young, middle-aged and elderly men, covering an experience of over 16 years. I honestly believe that "Real Vitality," as we term it, is actually a real disease that can be cured. As you are able to understand, I am able to suggest, and which I have used under certain favorable circumstances, any man, anywhere, who is unable to perform his duty, store his own full strength and nerve force, let me make an honest, conscientious effort along with you to restore your vitality. I include absolutely no medicines or drugs in my treatment. You simply use a little vitalizing, called the "Health Belt," which is a wonderful treatment for rheumatism, liver, stomach, bladder disorders, etc. I wear comfortably around your waist during sleep, and which is the best of the whole treatment, excepting, of course, you are expecting to lead a decent, manly life, free

from debilitating excesses and dissipation. This Health Belt in itself is a marvel of science, and sends a great, soft, even flow of vitality into your blood, organs and often from one application, and builds up the strength, thus giving back the full vigor of your youth, and your own health, while they secretly answer: "Never felt better in my life" to your treatment for rheumatism, liver, stomach, bladder disorders, etc. I have completed, and will send to you, a complete private guide for men, young or elderly, (pocket size) which means as a complete private guide for men, young or elderly, which reveals certain truths and gives a clear, wholesome idea of those great vital subjects which should be familiar to every man. It fully describes my Health Belt, and tells you how and where you may secure one to wear for the restoration of your health. There is absolutely no obligation involved in accepting this free book, as over a million have been sent all over the world, if in or near the city of Street.

DR. A. B. SANDEN CO., 140 Yonge Street, Toronto, Ont.

# MODEL CITY REALTY & BUILDING CO.

## HEAD OFFICE: LEASIDE, ONTARIO

### FOUR GOOD REASONS WHY YOU SHOULD SEE US FIRST:---

Every reader of the Toronto papers knows by this time the location of Leaside—the Model City of the Century—comprising over a thousand acres of rich tableland overlooking Rosedale with its million dollar Government House on the south and the picturesque Don Valley to the east—now being laid out in crescents and parks, in boulevards and avenues—but only the readers of this "ad" are aware that the

#### Model City Realty and Building Company

- 1---Are the first to open an office on the ground.
- 2---Are the first to offer individual lots at lowest retail prices.
- 3---Are the first to sell you on easy payments a house and lot---Payments may extend over 3 years if purchaser desires.
- 4---Are the first to offer to the public \$100,000 of its stock at par value.

**No Other Company Can Make these Claims or Offer You Similar Inducements**

#### The Model City Realty and Building Company

is organized to ASSIST the man of moderate income to secure a home in what will be the most beautiful and exclusive suburb in Ontario—we speak advisedly—

# WILKINSON @ DRAKE

## SOUDAN AVENUE

### EXCLUSIVE AGENTS

## LEASIDE, ONT.

WANTED:—SOME "LIVE WIRES" AS A GENTS—HIGHEST COMMISSION TO GOOD MEN OR WOMEN. CITY OFFICE—18 TORONTO ST.

#### Two Salient Facts Worth Noting Are These:

- 1—There will be but one BUSINESS street in Leaside, Soudan Avenue. What does that spell? Owners of beautiful homes will be free from the worry and annoyance of having "SHOPS" as neighbors as is the case with Avenue Road and Bloor Street and other fine residential streets of Toronto.
- 2—No unsightly telegraph and telephone poles will disfigure its beautiful streets, as these will be placed at the rear of the lots. There will be no exception to this rule.

#### Location of Office and Builder's Residence

Our office is conveniently located at the corner of Soudan Avenue and Sutherland Drive—a short distance from Bayview Avenue, which is the dividing line between Leaside and Toronto. On this exceptionally fine lot owned by the Company is a fine brick house, at present occupied by our builder, Mr. R. Livingston. Here the

#### Model City Realty and Building Company

has its office. This is the best location in Leaside for a Postoffice, which we have applied for, at the suggestion of the officials of the York Company. This lot is 50 ft by 120 ft, and inside of two years we will offer it to the government for a \$50,000 building, and we will get it. We are opposed to annexation, believing that the citizens of Leaside will be better served as a separate municipality than if annexed to Toronto.

#### Watch Leaside Grow

- We will commence building at once, and will have the additional honor of erecting the first brick buildings in the Model City.
- Our representatives are your servants.
- Our architect will furnish your drawings and plans for your new Leaside home FREE OF CHARGE. This office is at your service.
- We specialize in Leaside property only. Come and see us.

#### How To Get There

—Until the bridge is built over the railway ravine which will connect North Rosedale with Leaside the most convenient route is by way of Yonge Street and Soudan Avenue. —We will be pleased to motor intending BUYERS—not MERE SIGHTSEERS—either from our City Office, 18 Toronto Street, or from the junction of Yonge and Soudan, 1 1/4 miles west of Leaside.

### SPENCE AND M'BRIDE IN WORDY WARFARE

#### Ward Six Alderman Charged Confre With Uttering Falsehood.

#### DUFFERIN ST. WIDENING

#### Property Committee Recommend Going Ahead on Local Improvement Plan.

Ald. Spence tried to sit on Ald. McBride in the committee on works yesterday and honors were even. Ald. Spence's reference motion that fences encroaching upon streets be not ordered moved back until next October, so that plants and shrubs would be undisturbed through the summer, was up for consideration.

Ald. Spence repeated his charge that Ald. Spence is selling rose bushes and for that reason had moved to delay the time the bylaw would be effective. Ald. Spence informed the committee that Ald. McBride was a stranger to truth.

Ald. McBride retorted that Ald. Spence was a nonentity as an alderman. Ald. Spence said Ald. McBride's usefulness as an alderman was questionable. Both meant all they said, but they did not completely lose their tempers. The motion was lost on a tie vote.

Ald. Weston put thru a motion that the widening of Poplar Plains road be on the ratio of 50 to 50, instead of 75 to 25. The property owners had insisted that the widening of the road would be a detriment instead of a benefit to them.

The committee were in the doldrums with the Dufferin street widening, south of King street, and got out only when Ald. Anderson, tipped off by the bunch of officials behind him, explained that the council had approved agreements of sale for the widening and had afterwards somersaulted when the recommendation was to proceed on the local improvement plan.

The deputations of property owners on Dufferin street exited.

"I'll move," said Ald. Anderson, "that we go ahead under the local improvement plan." The committee decided to recommend going on with the widening on the local improvement plan.

Ald. McBride got thru a motion that all streets laid out hereafter have rounded corners.

Only two objections made before July 15 for water outside the city will be granted. Meters are to be used. Leaside was specially excluded.

EDMONTON, Alta., June 20.—(Can. Press.)—"I have no more to say than it is absurd," said Attorney-General C. W. #### DEMAND PUBLIC BATH

KINGSTON, June 20.—(Special.)—The trades and labor council is out with a strong censure on the city council for not providing a public bathing place. Council voted money for the proposition some time ago, but as yet no steps have been taken to erect a bathing house.

### MEASLES EPIDEMIC IS NOT ABATING

#### Provincial Health Board Commence Campaign Against Disease.

In view of the increased prevalence of measles in the province, as shown in the monthly health records, the provincial board of health is taking active measures to deter it. The fact that this malady has carried off more children in Ontario in 1913 than for a large space of years, and that the number of cases is not abating, has shown that an epidemic of, unusually virulent nature is in progress.

Dr. J. W. McCollough, chief health officer, in speaking of the situation declared that measles was a disease more easily preventable than curable. Much of the fault of its spread lay with parents who refused to take precautions.

Notwithstanding the fact that it was the most communicable eruptive disease of childhood, the taking of ordinary quarantine measures in affected homes was nearly always a matter of enforcement by the local officers. Moreover, although primarily a disease which attacked children, it was one to which all people were susceptible. Those escaping it in early life usually experienced it later in a more severe form.

The warnings of the department are being circulated broadcast in every section of the country, and an appeal is made to all who know of such cases to see that they are properly guarded. Already 50,000 circulars have been published, and more are at the disposal of any who wish them.

Some of the statements made therein are as follows: "Measles, in addition to causing many deaths, is the forerunner of other serious diseases; it is contagious from the beginning of the symptoms, and mild cases as much so as the severe; it carries off more children under two years than any other malady."

Complete isolation, the absence from school of children or teachers in the same house, and the most thorough disinfection measures are advised under penalty.

#### Special Express Steamer Service to Montreal.

Commencing Saturday, June 21, the Richelieu and Ontario Navigation Co. will inaugurate special express service tri-weekly between Toronto, 1000 Islands, Montreal and east, leaving Toronto at 6 p.m. every Tuesday, Thursday and Saturday. This service will be performed by the steamers Toronto and Kingston and the schedule, leaving Toronto at 2.30 p.m. daily, except Sunday, during June and daily during July and August, will continue in effect, owing to the steamer Rochester being put on the Toronto-Montreal Line. Tourists and business men alike will no doubt appreciate this extra fast service, further particulars of which can be had at ticket office, 46 Yonge street, Toronto.

### LAWYERS CRITICIZED BY JUDGE LENOX

#### His Honor Doesn't Like Counsel's Habit of Making Interruptions.

The habits of Toronto lawyers in walking around while a witness is being cross-examined by a counsel greatly annoyed Justice Lennox in the assizes yesterday, who declared that he would do his best to put a stop to this practice.

"They also break in and interrupt," he said. "Some times the witness does not speak loud enough, and in this case they can, I suppose, be excused, but nearly always it is unnecessary. If they want to say something while the witness is being cross-examined let them stand up from the table say it

### BIG EXPANSION IN SUNDAY SCHOOL WORK

#### Presbyterians Have Divided Dominion Into East and West Divisions.

Arrangements are being completed for a big expansion movement by the Presbyterian Sunday school board. Rev. C. A. Myers of Edmonton, who was recently appointed associate to Rev. J. C. Robertson, general secretary, is here, and has begun his new work. The executive of the board has decided to divide the Dominion campaign for organization work. The west will be in charge of Rev. J. C. Robertson and Rev. C. A. Myers. The synods in east will be looked after by Rev. Dr. Alex. McGillivray, Toronto, and Rev. W. R. McIntosh, London, the joint convener of the board.

## HAVE YOU A WEAK STOMACH?

If so, you find life nothing but misery. Tortured after your meals by pain or an uneasy sensation in the stomach, with gas and belching, with constipation and a half-dead feeling, you can get no enjoyment out of business or pleasure. You need not suffer this way. My Electric Belt will cure you. As soon as you put it on you will find relief and by using it regularly for some time you will be entirely cured. Life will again become a pleasure instead of a burden. I have a number of genuine testimonials from those who have been cured of this distressing malady. Read the following letter and you will then have no reason to doubt that Electricity, properly applied, can also cure you.

INDIGESTION CURED. O'Sullivan's Corners, Ont., Aug. 12, 1912. Dear Sir,—After giving your Belt a fair trial I am very well satisfied with the result. I can eat, sleep and work as well as I ever did. I have not worn the Belt for six weeks now and have had no sign of indigestion since laying the Belt away. I would gladly recommend your wonderful Belt to anyone who suffers as I did. You have my permission to use this statement in any way, if it will be of any benefit to you and mankind. Yours very truly, W. H. HEADLEY.

### Dr. McLaughlin's Electric Belt

will cure all these weaknesses of men. It will make the nerves strong, the eyes bright, and will fill the body with that fire, that vim, that snap which denotes perfect youthful manhood. No pain or debility can exist where the body is full of electricity, for this is the source of vitality of manhood and womanhood. Twenty-six years I have spent in developing the best means of curative electricity. I know every pain and weakness that man is subject to, and have so succeeded in my remedy as to bring perfect health and strength to all those using my marvelous treatment. Men exposed to rough weather, hard work, mentally and physically or overtaxing vital forces, are quickly and lastingly cured by my method. Many suffer from a breaking down of vitality, which never yields to medicines. My Belt restores this energy. Every man would like to be happy and make others happy. There's a lot of the "Good Samaritan" about every man, but he can't radiate much happiness and sunshine if he suffers from pain or weakness. If you are suffering from Dyspepsia, Rheumatism, Lame Back, Insomnia (Sleeplessness); if your Blood Circulation is bad; if you lack Energy and Courage; if Manhood's power is below the proper standard; if you suffer from Headaches, Nervous Debility, and of those manifold evils that result from disipation—exercise—overwork and worry, make up your mind that some of the organs of your body, some of the bodily functions are weak in action; your system lacks NERVE POWER—ELECTRICITY. That is my doctrine, and it's sound, for it's founded upon Scientific Fact. It's as good for women as for men. Worn while you sleep, it causes no trouble. You feel the gentle heat from it constantly, but no stings, no burning, as in old-style belts.

How the Gourlay Responds

Draw your piano stool into position before a Gourlay and lightly run your fingers up and down the smooth ivory keys.

The gentle rise and fall of that perfectly pure and even tone, without the slightest perceptible change between the bass and the treble sections is a distinctive mark of the world's highest grade pianos.

In very truth, the Gourlay Piano has been described as "The living exponent of the executant's impulse."

Gourlay Piano

Only an instrument of the most highly developed process of construction can respond so effectively. Every minute detail of the Gourlay reflects the most finished artistic workmanship.

The materials used in every part are of the very best money can buy. The work of each department is brought to the highest achievement of human skill till the finished Gourlay comes from the factory—a glorious example of the world's best efforts in piano manufacture.

The Sunday World

The Illustrated Section of The Sunday World this week contains pictures of a number of the most interesting local and foreign news items, including a set of photographs of Niagara Military Camp.

On the horse page is shown a most realistic photograph of the English Derby, showing the unfortunate suffragette in the act of stopping the King's horse.

RAGGS' WEEKLY LETTER

Squeedunk Can. June 20 1913. My Dear Toronto-Onters: With enthusiastic abandon I waved my large handkerchief most enthusiastically for three minutes this morning.

As the long line of cars tore by, to disprove his theory, "I done my durnedest." I waved, yelled "woooop!" and waved again, grinning the while from ear to ear, but no response did I get from the unsmiling faces of those critics, framed in the square windows.

As the colored gentleman was distinctly an Afro-American, my friend was too "cocky" for words over the incident. However, as I wore a middle-aged skirt, a red sweater, and no hat, perhaps the simplest explanation is that they just naturally didn't like my looks!

Gotham Bulletin. Billy and the Lamb writes: "New York, at present, is very dull and blighted 'ot. Nobody takes any interest in anything but De Wolf Hopper and his fifth spouse—which marriage, Mr. Roosevelt's drinking habits (or rather, lack of drinking habits) are also considered a great deal of notice, although I don't see what's got to do with anybody. The real important event of the season we leave to the last: we have had our photograph taken. An unaccountable wave of depression came over us as we posed, and we are sure that when we see the proofs we shall experience a shock to which even our mirrors have not accustomed us. We went to the Riverside Tennis Club on the first afternoon of the Davis Cup and saw McLaughlin and Williams beat Rice and DeWitt, Australians, who were quite outclassed. It was exciting tennis, never-the-less."

Babe, Joan and the Wasp. "This is yesterday's entry in three-year-old Babe's diary: 'When I was splashing in my tub, I quite three quarts of 'dink,' and a stingsome wasp flied round and 'an settled on my pink toes. The wasp it hit on my pink toes. I gave a hasty sponge. An' squished it dead with childish glee. Beneath the family sponge!'"

Recital at R. C. Y. C. I hear, with sorrow, that I am to miss a private song recital on Monday evening, the 23rd, at the yacht club. In the capacity of interested acquaintance, as well as musical accompanist, I have had many opportunities of noting the beautiful voice of one Canadian artist, Brenda Macrae, and the high order of her musicianship.

Some Hens. Most of us in Squeedunk chafe and keep hens; but those of us who are too lazy and "shifless," buy our butter and eggs from a man, whom we call it "Rushin'" whose maiden name was "Blinnin'." A dyed-in-the-wool Canadian is Mme. Rushin, and she distinctly despises her spouse for carelessly having been born a Frenchie.

Wings of a man. "Sure, he was a saint fappin' the wings of him on earth," said Mme. Rochon. "Nom de Dieu, me friend, that young fella was the kind of man ye read about in books, if ye have the eddification. Yes, sir, never a man, wumman, or child, was sick or hungry within a hunder' miles o' Squeedunk, but that chould o' howly St. Patrick would know it somehow. Mrs. Mockridge used to say it was his exstinkin' tote him in anyin'! was wrong—whether-it-wuz-or-no! The tales I cud tell yez, of that man's preambles, wittier-an' onions! Mere de Dieu!—did yez say onions? That blessed man was so fond o' onions that Mrs. M. an' me, we used to keep 'em under lock'n key. Never to be 'sp'n' day will I forget the Saturday night he sat up with Mrs. Antoinette—she was a sick cow—just to keep the spittin' of 'em 'n' short in 'em about a peck of onions that we'd left layin' round, carcass-like in the barn!—and, well sir, they

T. C. C. Regatta Has Big List of Events

The Toronto Canoe Club annual regatta this afternoon will be a Mecca for many of the fair sex. The war canoe event is attracting a lot of interest, as the result will give the critics the first inside information on the strength of the different crews this year. The only absence will be the Humber Bay Club, who were unable to get ready in time. The other events will provide some very close finishes also and all the paddlers need to make the program a good success is a smooth sea and a nice warm day. All paddlers from outside clubs are reminded that they must be in the water by ten minutes to three.

WOMEN WORK AND MEN PLAY

That's How They Do It in Zuzuland—Fine Girls There.

LONDON, June 20.—(Special Correspondence).—In few countries are the native girls happier than in Zuzuland. In still fewer countries do they have a harder existence after that. According to their tradition, it is not seemly for the men to work more than they can help. The women, therefore, do most of the manual labor, while their husbands, fathers and brothers laugh and sing, little about their kneads and tell one another what fine fellows they are.

But we did not stop at that. We insisted that every yard should be shrank at the mills. We did not stop at that either. Then we put them through the "shrinking" process on our own plant, until every yard had been thoroughly tested in every possible way, so we could honestly offer them to the public and give them our endorsement.

But we did not stop there. Our next move was to have them registered at Ottawa, to protect the public from impudent imitations.

It is these unusual methods that we have taken which allow us to guarantee the customers perfect satisfaction. And we say without fear of contradiction that more men in this city are wearing these serge suitings this summer than all others combined.

BRAZILIAN HIT THE BUMPS AGAIN

Stock Got Within Speaking Distance of Its Recent Low Record.

SUPPORT WITHDRAWN

General List Turned Heavy, But Values Held Remarkably Well.

Acute weakness in Brazilian, which dropped back a couple of points to within easy distance of its recent low record, was the leading feature in the Toronto stock exchange yesterday.

The movement in Brazil was the ground for considerable comment, generally of adverse nature, on "the street." The general idea was that the syndicate which had been operating in the shares in London and Toronto had been forced to take up a raft of stock on the recent decline in the week that a prominent interest, which had operated heavily in Brazilian, Mexican and Canadian, had seemingly exhausted its resources to a very great extent, and to use a modern colloquialism, was understood to be getting "hard up."

Considering the extent of this slump, the general list held remarkably well. Toronto Railway was off half a point at 187, and Mackay a shade more than that at 73 1/2. Broyer and a broken lot, Monarch preferred at 89, and Sawyer-Massey at 30 all made new low records, the latter sale comparing with the previous record in April last. General Electric at 108 1/2, Spanish River at 42, and Steel Co. at 20 were slightly higher for the day.

LONDON MARKET IS GLOOMY AGAIN

CONS. SMELTERS PUT ON DIVIDEND BASIS

The recent rise in Consolidated Smelters on the curb was explained yesterday, when the directors put the stock on a regular dividend basis by declaring a quarterly dividend of 2 per cent, payable July 2 next, or at the rate of 8 per cent, per annum. The company had an overdraft of \$240,000 at the bank a year ago, but this has been paid off and just fall a dividend of 4 per cent, was paid. The stock sold up to a new high record for the year at 81 during the afternoon.

VEIN IS DISCOVERED ON OLD KEELEY MINE

COBALT, June 20.—(Special).—It is learned from South Lorrain that a three-inch vein of high-grade ore has been cut on the fifty-foot level of the Keeley mine, and has now been opened up for some distance, and is still holding good values. The Keeley is now in the hands of the Keeley house of Ehrlich & Hamilton, who are the sole owners of the ex-manager Travers of the Farmers' Bank bank much of the money of the investors, and as such it earned a wide notoriety all over the Dominion.

NEW YORK STOCKS DRIFT DOWNWARD

Investors Less Eager and Big Financial Interests Hold Aloof.

C. P. R. IS AGAIN WEAK

Selling For London Account Depressed Sentiment at Outset.

NEW YORK, June 20.—By slow and easy stages the stock market drifted downward today. The force of the reaction seemed entirely to have spent itself, and although the volume of business was light and there was no appearance of severe pressure at any time, the small offerings were sufficient to make further inroads on the gains which followed last week's severe break.

The declining tendency of the market bore no relation to the developments of the day, which consisted of news of real weight, in the determination of speculative influences. The rise in prices has made stocks heavy, the former losing 2-1/4 to 3-1/4 and the latter 2 to 109, both closing at the latter price showing a loss of 3 points, but with the close somewhat firmer at 216 1/2 bid. Iron sold at 45 1/2, divided in the afternoon, the equivalent of 5-4 decline. Textile closed off fractionally to 80; Detroit to 67 and Brazilian and Richelieu were heavy, the former losing 2-1/4 to 85 1/4 and the latter 2 to 109, both closing at the latter price showing a loss of 3 points, but with the close somewhat firmer at 216 1/2 bid. Iron sold at 45 1/2, divided in the afternoon, the equivalent of 5-4 decline. Textile closed off fractionally to 80; Detroit to 67 and Brazilian and Richelieu were heavy, the former losing 2-1/4 to 85 1/4 and the latter 2 to 109, both closing at the latter price showing a loss of 3 points, but with the close somewhat firmer at 216 1/2 bid.

STOCK EXCHANGE SEATS ARE CHEAP

They Carry Privileges, Which Make Them Look Attractive at Any Time. NEW YORK, June 20.—Memberships in the New York Stock Exchange are quoted at \$42,000 asked. The recent increased business of brokers brought about at great cost to members of the big board an increase in a long time. It goes to show that some level not far from the present one is being reached.

WORLD'S COMMERCE AT STUPENDOUS FIGURES

WASHINGTON, June 20.—Exports and imports the world over have been made the basis of elaborate statistics by the bureau of foreign and domestic commerce, disclosing the interesting fact that the sum of all the countries in the world aggregated in value \$18,868,880,000 in 1911, as compared with exports valued at \$18,848,908,000. The discrepancy is doubtless represents imports from unclassified countries, where no records of exports are kept. It is interesting also to learn that the total exports and imports only 9.2 per cent of the total imports.

FORD MOTOR COMPANY CUTS JUICY MELON

DETROIT, June 20.—That a \$10,000,000 dividend has been declared by the Ford Motor Co. is the well-founded report received by several of the banks on Griswold street today. Henry Ford, owning a majority interest in the stock, gets \$5,000,000. The capital of the company is only \$2,000,000, so the dividend is at the rate of 500 per cent.

COBALT, June 20.—(Special).—To June 17, 717 tons of ore went over the scales at the old Silver Cliff mill and 225 tons was left in the bins, making a total of 492 tons handled. The last dividend was hand-picked as high-grade ore, 422 tons, and 485 tons treated. The heads for this ore, 215 tons, were 14.40 ounces, and it was put thru in 208 hours.

ERRATIC MOTION IN MINING MARKET

Sentiment Showed Variable Tone and Price Swings Were Irregular.

HOLLINGER UP AGAIN

But Half a Dozen Issues Broke Thru to Lower Levels.

The action of the mining market was so erratic yesterday that it effectually precluded the formation of any definite opinion as to the underlying trend to prices. In some instances stocks showed a disposition to better their position, while in others the tendency was undoubtedly lower. Sentiment was therefore of a variable nature, and at the close opinions were divided as to the outcome of the day's business.

A 40 point rise in Hollinger was the most inspiring incident of the session. The shares were not dealt in on the morning board, and on the incoming of buying orders during the last hour it became plainly apparent that little stock was available. The truth of the matter is that Hollinger is being held as an investment by many people, and these cannot be coaxed out of their shares by moving the price up in fits and starts. The only other strong spots were Trethewey Cobalt, which went to a new high for this month at 36, and McIntyre, which made up 5 points of Thursday's break.

TELLURIDES IN KIRKLAND LAKE ORE

Newest Gold Camp Up North Has Great Interest For Mining Men. It has been ascertained that an excavation of specimens of ore received in Toronto from the Kirkland Lake district is telling us that tellurides in these ores. It is found in samples taken from several different veins. The form in which the tellurides occur is a compound of gold, silver and tellurium.

TELLURIDES IN KIRKLAND LAKE ORE

Mining men generally are becoming greatly interested in the wonderful showings now being made by the tellurides in this district. The "Foster-Tough-Oakes" proposition, has the strongest and richest veins at present, but a number of good discoveries have been made on adjacent properties as the Teck-Hughes Gold Mines (incorporated company) and on the Burns side claims, controlled by the Cecil crowd. On the other hand, the actual development work is now being carried on. It is understood that the Teck-Hughes shaft is now down about 80 feet, a crosscut to be made to the level of the 100-foot level. It will be interesting to note what the developments in this level.

TELLURIDES IN KIRKLAND LAKE ORE

The shaft on the Burns side is now down about 50 feet. A large number of syndicates are now operating—the Bagshaw crowd, the Westlauer, the Woodward and many others. If the developments continue to be as favorable as the reports are, the future of this district is inevitable. Tellurium metal has as yet no technical use, and therefore there is little demand for it. A number of uses to which it might be put have recently been proposed, however, and concerning this Thomas A. Edison says: "I have worked out a considerable quantity of substance. I could use it in large quantities if it were cheaply produced."

TELLURIDES IN KIRKLAND LAKE ORE

Tellurium-containing ores have remarkable lure for prospectors and a valid indication to the miner. The Bagshaw camp is a telluride proposition. Gold generally is found in its native state, but is also discovered with sulphur, and is therefore designated as a sulphide form.

WAGER DOME WILL PAY DIVIDEND SOON

The mining brokers have evidently turned very optimistic over the outlook for Dome Mines Ltd. since the issue of new stock was called off by the directors. On the Standard Exchange yesterday afternoon traders offered to be even money that a dividend of the company within the next few days. Others who were not so confident took up the wager, several bets being recorded.

HUDSON BAY KEEPS IT UP

COBALT, June 20.—(Special).—The timekeeping & Hudson Bay Mining Company has declared its forty-eighth dividend, payable June 27. The last dividend was paid on May 23. It is the usual 300 have paid 22,500, or \$1,772,500, in eight years.

# Genius Expressed in Clothes

Most of us have an appreciation of beauty, whether in things or people. We know when we "like" a man's home or the style of his clothes. But how few of us, unaided, can design for ourselves even the most ordinary articles of apparel.

It is precisely for the average, every-day man that our great men's wear store is designed. It furnishes him with nicely designed, well made clothing at prices that enable him to have plenty and up-to-the-moment clothing at the too-often price of a scant supply of "custom made clothing." Are you the average man?
