Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below / Ce document est filmé au taux de réduction indiqué ci-dessous.

10x	12x	14x	16x	18x	20x	22x	24x	26x	28x	30x	32x
								<input checked="" type="checkbox"/>			

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

BULLETIN No. 213

FERTILIZERS 1910

LABORATORY
OF THE
INLAND REVENUE DEPARTMENT
OTTAWA, CANADA.

BULLETIN No. 213

FERTILIZERS 1910.

OTTAWA, August 12, 1910.

W. J. GERALD, Esq.,
Deputy Minister of Inland Revenue.

SIR,—I beg to hand you a Report upon the Inspection of Fertilizers for the current year. This is the first inspection made under the *Fertilizers Act, 1909*. For the purpose of giving publicity to this Act, I have introduced a copy of the Act,—as an Appendix to this report.

The report deals with 161 samples, of which our inspectors found 97 to be offered for sale under registration numbers required by section 7 of the Act. In the cases of 53 other samples, although the registration number was not attached to the sample as offered for sale the description furnished to the inspectors was sufficient to enable us to identify the article, from recorded documents in possession of the department. Although a high degree of certainty attends such identification, it is to be noted (1) that neither vendor nor manufacturer can be legally held responsible for its accuracy, (2) that the fertilizers in question are sold illegally, and the vendor is subject to the penalty prescribed in section 15 of the Act.

Eleven (11) samples, sold without registration numbers, cannot be identified with any registered numbers in the books of this department; and appear to be unregistered.

These samples are clearly sold in violation of the law, and the vendors are subject to the penalties named in section 15.

Interpretation of the results of analysis is strictly speaking, only possible in the cases of the 97 samples sold under registration numbers. Of these samples, 81 (= 83·5 per cent) meet the requirements of their guarantee. The deficiency in the remaining 16 samples is usually in potash, and it is fair to remark that in general, the deficiency is very slightly in excess of that permitted by the Act—(sec. 15 allows of a deficiency of not more than one half of one per cent in cases when the total value is essentially equal to the claim) and is, in some cases compensatedly an excess of other valuable ingredients.

Of 53 samples, in whose case identification with registered brands has been attempted at this office, 44 are found to meet the requirements of the registered brands with which they have been so identified. In the 9 instances in which correspondence has not been found, I have considered it better to judge identification as faulty than to declare them adulterated as failing to meet a standard of uncertain application.

The remaining eleven (11) samples are apparently sold without being registered.

The efficiency of the Act of 1909, in protecting purchasers of fertilizers, is dependent upon the registration of all fertilizers offered for sale, and upon their carrying the registration number when actually sold. These conditions are made clear by sections 5 and 7 of the Act; and a penalty is imposed for violation of these conditions by section 15. It may be reasonable to exercise some leniency in this, the first year in which the Act has been operative; but the importance of fulfilling the above named conditions is such that I would respectfully urge the necessity of bringing vendors who neglect registration and proper labelling or tagging, under the penalties named in section 15.

I beg to recommend the publication of this report, with Appendix, as Bulletin No. 213.

I have the honour to be, sir,
Your obedient servant,

A. MCGILL,
Ch'f Analyst.

per ALP. LEMOINE.

(Enclosure)

8-9 EDWARD VII.

CHAP. 16

An Act respecting Agricultural Fertilizers.

[Assented to 19th May, 1909.]

HIS Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. This Act may be cited as *The Fertilizers Act, 1909.* Short title.
2. In this Act, unless the context otherwise requires,— Definitions.
 - (a) "Minister" means the Minister of Inland Revenue; "Minister."
 - (b) "fertilizer" includes every natural or artificial manure containing phosphoric acid, or nitrogen, or potash, except ordinary stable manure; "Fertilizer."
 - (c) "registration number" means the specific number given by the Minister, under this Act, to each brand of fertilizer; "Registration number."
 - (d) "agent" means any person whose name has been filed with the Minister as provided in section 4 of this Act; "Agent."
 - (e) "guaranteed analysis" means the valuation of a fertilizer by the manufacturer or agent in terms of its content of phosphoric acid, nitrogen and potash. "Guaranteed analysis."
3. Fertilizers shall be considered as of distinct brands when differing either in guaranteed composition, trade mark, name, or in any other characteristic method of marking. Distinct brands.
4. Where the manufacturer of any fertilizer has his factory or chief place of business elsewhere than in Canada, he shall file with the Minister the name of a person resident in Canada, and acceptable to the Minister, or a corporation having its head office in Canada, as the agent or representative of such manufacturer for all the purposes of this Act; and any notice to, or communication or dealing with, such agent or representative by the Minister shall be effectual for all the purposes of this Act. Name of foreign manufacturer's agent or representative in Canada to be filed with Minister.

Default of filing.

2. In default of such filing, the Minister may take any proceeding or action under this Act *ex parte*, and without any notice to or communication with such person or corporation.

Registration number.

3. Every brand of fertilizer offered for sale in Canada shall bear a registration number, which shall be permanently assigned to the particular brand or species of fertilizer for which it is issued. The number shall be granted by the Minister on the application of the manufacturer of such brand of fertilizer, or his agent, and on payment of a fee of two dollars.

Fee.**Application for registration number.**

6. Every application for a registration number shall be accompanied by a statement giving the following particulars:—

- (a) Name of brand for which the registration number is asked, and trade mark, if any;
- (b) Name and address of manufacturer;
- (c) Name and address of the person applying for registration;
- (d) Guaranteed analysis;
- (e) Materials from which the fertilizer is made.

Registration number, how affixed.

7. The registration number must be affixed by the manufacturer, or agent, in a plain and legible manner, to every package of fertilizer sold or offered for sale, and shall constitute an identification of the brand. In addition to the registration number there must be legibly printed, on every package of fertilizer sold, the statement set out in schedule A to this Act. This condition shall be held to be fulfilled if a printed tag, bearing the registration number and the statement required, is securely attached to the package.

Notice of change of formula and application for new number.

8. If a manufacturer elects to change the formula or composition of any fertilizer for which a registration number has been granted, he shall notify the Minister to that effect, and shall apply for a new registration number to designate the new or altered fertilizer, and the former registration number shall be cancelled, and shall not be reissued.

Annual license to sell.**Fee.****Period of validity.****Renewal.**

9. No manufacturer of a fertilizer, and no agent of any such manufacturer, shall sell or offer for sale any fertilizer, as defined by section 2 of this Act, unless he has a license under this Act authorizing the sale thereof.

2. Upon application of any such manufacturer or his agent, and upon payment of a fee of five dollars therefor, the Minister may grant a license authorizing the sale of such brands of fertilizers as are named in the license.

3. Such license shall be in such form as the Minister prescribes and shall confer authority to sell during the calendar year in which the license is issued.

4. The Minister may renew any such license from year to year.

10. Any purchaser of a registered fertilizer may obtain from the Minister an analysis of the fertilizer as delivered to him, by making application for such analysis, accompanied by a sample of the fertilizer of at least one pound weight, and taken in accordance with the directions given in schedule B to this Act, ^{Purchaser of registered fertilizer may obtain analysis} Fee, and on payment of a fee of one dollar.

11. The officers of Inland Revenue, the officers of Customs, ^{Certain officers to act as inspectors.} and the inspectors and deputy inspectors of weights and measures, and the inspectors of food, drugs and agricultural fertilizers acting under *The Adulteration Act* shall, when required so to do by any regulation made in that behalf by the Governor in Council or the Minister, act as inspectors of fertilizers, and shall procure and submit for analysis samples of fertilizers offered for sale in Canada.

12. Every inspector of fertilizers shall, whenever instructed by the Minister so to do, obtain for analysis a sample of every fertilizer for sale in the district for which such inspector is appointed. ^{Inspectors to procure samples for analysis}

2. Every sample so obtained shall be transmitted to the Minister for submission to the chief analyst for analysis; and the result of all such analyses shall be published annually by the Minister in such manner as he sees fit, together with such other information pertaining to fertilizers as he deems it desirable should be published. ^{Analysis and publication of results.}

13. If any fertilizer is imported for the personal use of the importer, and not for sale, this Act shall not apply thereto, but such importer may secure an analysis of the fertilizer, as delivered to him, on application to the Minister and on payment of a fee of five dollars. The sample submitted must be taken ^{Analyses} in accordance with the requirements of section 10 of this Act. ^{Fertilizers imported for personal use.}

14. This Act shall not apply to fertilizers which are manufactured to the order of the purchaser and are not intended for sale, unless such fertilizers be actually sold by such purchaser; but such purchaser may secure an analysis of the fertilizer as delivered to him, under the conditions stated in section 10 of this Act, on payment of a fee of five dollars. ^{Fertilizers made to order and not intended for sale. Analysis}

15. Every manufacturer or agent, or purchaser in the case provided for in the next preceding section, who sells or offers or exposes for sale any fertilizer in respect of which the provisions of this Act have not been complied with; or who sells or offers or exposes for sale any fertilizer which does not contain the percentage of constituents mentioned in the manufacturer's certificate accompanying such fertilizer, shall be liable in each case to a penalty not exceeding fifty dollars for the first offence, and for each subsequent offence to a penalty not exceeding one hundred dollars. ^{Penalties for non-compliance with this Act.}

Proviso as
to evidence
of fraudulent
intent.

dollars and, in default of payment of such penalty, to imprisonment for thirty days. Provided that a deficiency of one-half of one per cent of the ammonia or its equivalent in nitrogen or nitric acid, or of the phosphoric acid, or of the potash claimed to be contained in the fertilizer, shall not be considered as evidence of fraudulent intent, if the total value of the fertilizer in fertilizing materials is substantially equivalent to the guaranteed statement made by the manufacturer or agent.

Forgery of
certificate,
registration
number, etc.

Penalty.

16. Every person who forges, or utters or uses knowing it to be forged, any manufacturer's certificate, registration number, or certificate of analysis required under this Act, is guilty of an indictable offence, and is liable to imprisonment for a term not exceeding two years, with or without hard labour.

Unlawful
use of
certificate,
registration
number, etc.

Penalty.

17. Every person who wilfully applies to any fertilizer a certificate, or tag, or registration number given in relation to any other package or lot of fertilizer, every person who sells an unregistered fertilizer, and every person who lowers the fertilizing value of a registered fertilizer by mixing any other substance therewith, after the said fertilizer has been placed upon the market by the manufacturer or agent, shall be liable, on summary conviction, to a penalty not exceeding five hundred dollars, and in default of payment to imprisonment for a term not exceeding twelve months.

False
certificate.

Penalty.

18. Every person who gives a false certificate in writing with respect to a fertilizer sold by him as a principal or agent, shall be liable on summary conviction to a penalty not exceeding five hundred dollars, and in default of payment to imprisonment for a term not exceeding twelve months.

Application
of fees and
penalties.

19. All fees paid and penalties recovered under this Act shall form part of the Consolidated Revenue Fund of Canada.

R.S., c. 132
repealed.

20. *The Fertilizers Act, chapter 132 of the Revised Statutes, 1906, is repealed.*

Commencement
of Act.

21. This Act shall come into force on the first day of January, one thousand nine hundred and ten.

SCHEDULE A.

STATEMENT TO BE ATTACHED TO PACKAGE.

1. (*Name of brand.*)
2. (*Registration number.*)
3. (*Name and address of manufacturer.*)
4. (*Analysis, as guaranteed by the manufacturer.*)

5. Notice. Any purchaser may have an analysis made by the Department of Inland Revenue, on payment of one dollar. Samples must be taken in conformity with the regulations. For regulations address the Deputy Minister of Inland Revenue, Ottawa.

SCHEDULE B.

INSTRUCTIONS FOR TAKING SAMPLES OF FERTILIZERS TO BE SUBMITTED FOR ANALYSIS IN ACCORDANCE WITH SECTION 10.

Samples of fertilizer submitted by a purchaser for analysis must be inclosed in glass jars or bottles, and properly sealed. The samples must be taken in the presence of the vendor or of his representative.

Process of Sampling.

In lots of five tons, or less, portions shall be drawn from each separate package, and from at least ten packages; or if less than ten packages are present, all shall be sampled. In lots of over five tons, at least ten per cent of the packages shall be sampled. The portions so taken shall be thoroughly mixed in the presence of the parties interested, and from this mixture the sample sent to the Minister is to be taken; and must bear the signature of vendor and purchaser; and at the same time a duplicate sample is to be left with the party whose goods are inspected, subject to the call of the manufacturer or agent.
