Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Time for Going Through the Falls.

The Falls are level or still water at about three and a half hours on the flood, and about two and a half on the ebb, so that they are passable four times in twenty-four hours, about ten or fifteen minutes each time. No other rule can be given, as much depends on the floods in the River Saint John, and the time of high water or full sea, which is often hastened by high winds, and in proportion to the height of them.

PARKS' COTTON MANUFACTURES.

ESTABLISHED 1861.

COTTON YARNS

Awarded the only medal given at the Centennial Exhibition for Cotton Yarns of Canadian Manufacture.

Nos. 5 to 10's,

WHITE, BLUE, RED ORANGE AND GREEN,

made of good American Cotton with great care, correctly numbered, and warranted full length and weight.

We would ask purchasers of Cotton Warps to remember that our Yarn is spun on Throstle Frames, which make a stronger Yarn than the Ring Frames used in making the American Yarn.

It is also better twisted and more carefully reeled; each hank being tied up in seven lease of 120 yards each. This makes it much more easy to wind than when put up without lease, as the American Yarn is, and also saves a great deal of waste.

Those acquainted with weaving, will understand the great advantage it is to them to use Yarn put up in this manner.

COTTON CARPET WARP

Made of 10's Yarn. 4 Ply Twisted,

WHITE, RED, BROWN, AND SLATE,

ALL FAST COLORS.

Each 5lb. bundle contains 10,000 yards in length, and will make a length of Carpet in proportion to the number of ends in width.

We put more twist into this Warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material.

Since its introduction by us a few years ago, it has come into very general use throughout the country.

BEWARE OF IMITATIONS.

None are genuine without our name on the Label.

TIME BALL.

The Time Ball on Northern Tower of the Custom House Building, will be hoisted half its elevation each day (Sundays excepted) at fifteen minutes before one o'clock. At 1 minute before 1 o'clock it will be hoisted its full length; and at 1 o'clock, mean time, the Ball will be dropped. A Chronometer keeping correct Greenwich time should then show 5h 24m 15s, and the difference between this and the time shown by a Chronometer, is its true error on Greenwich time at the moment. At the above hour of one o'clock when the Ball drops, represents 5h 24m 15s, at Greenwich, the error of a Chronometer may be ascertained, no matter where the ship is lying. Masters of vessels arriving at Saint John should compare their Chronometers by the Time Ball as it will enable them to get the sea rate, which frequently varies from harbor rates. Latitude 45deg 16m 42s, North: Longitude in time, 4h 24m 15s, West of Greenwich.

GEORGE HUTCHINSON,
Director.
