GOVERNMENT REFUSES TO FURNISH STATISTICS

Notice to Supply Members With Adequate Information on Which to Consider Reciprocity...

MEMBERS HEKLED THE MINISTER OF FINANCE

OTTAWA, April 6.—(Special)—The opposition presented a united front against reciprocity in the house of commons to-day when on the motion to go into committee of ways and means, Geo. H. Peirley (Agentuel) presented an amendment calling upon the government to give adequate information to the members to enable them to discuss the question in all its aspects.

FORCED TO HEAR STATISTICS

After the amendment had been lost, Dr. Reid (Greenview) insisted on reading a number of statistics which had been furnished by different departments bearing on the trade pact, which way, he said, that he was not allowed to bring before the country, and for nearly two hours the doctor read and interpreted the statistics.

THE LANCET CASE

When the house read the report of the privileges and elections committee in regard to the Lanctot enquiry was read and Sir Wilfrid Laurier stated in reply to a question that a day would be set apart after the Easter recess for its discussion.

Tariff Reduction in the United States

WASHINGTON, April 6.—Representative Burleson of Texas introduced in the house to-day a budget of tariff legislation bills, providing that many articles be placed on the free list, including leather, hides, boots and shoes, harness, wire nails, wrought iron or steel, salt, cotton bagging, gunny cloths and other articles.

ESCAPED IN NIGHT CLOTHES

Several persons were driven to make their exit over the front verandah of 25 Grange-avenue, a rooming house kept by Mrs. Mary Malone at 1 o'clock this morning by fire which started from a gas jet. The second floor of the house was gutted.

General Favorite

The beautiful and talented young actress, Miss Billie Burke, who visits this city next week, in a new play, "Suzanne" is one of the most popular artists now before the public. Her marked ability on the stage and her pleasant manner in everyday life have made her a general favorite.

The Toronto World

FOURTEEN PAGES—FRIDAY MORNING APRIL 7 1911—FOURTEEN PAGES

A Sign of the Times

OTTAWA, April 6.—(Special)—There is great indignation amongst newspaper correspondents and many members of parliament over the fact that the postoffice department, over which Hon. Rodolphe Lemieux presides, has given exclusive information to-day regarding the forthcoming issue of the coronation postage stamps to the correspondents of two New York papers who are now in Ottawa, and refused this information to the correspondents of Canadian newspapers.

WORKER ON HYDRO PLANT WAS CRUSHED TO DEATH

Reel of Cable Fell on John Newman's Head, Killing Him Instantly. John Newman, 55 years, an employee of the city's hydro-electric department, was instantly killed at 4 o'clock yesterday afternoon when a heavy reel of cable which he was helping to take out of the department's storehouse in West Front-street, fell upon his head, crushing it. The body was removed to the morgue, and Chief Coroner Johnson is investigating.

MEN DISMISSED BY G. N. W. TO GET POSITIONS BACK

But Judge Teetzel Intimates Operators Will Not Get Full Increases Sought. Much progress toward the settlement of the dispute between the G. N. W. Telegraph Company and its operators was made by the arbitration board yesterday. At least the men scored one important point. All those operators who have been discharged by the company for higher salaries, will be re-instated.

LITTLE HOPE OF CANADA ENDORSING JAP TREATY

Provision for Unrestricted Migration Would Arouse Storm of Protest in the West. (Canadian Associated Press Cable). LONDON, April 6.—(C.A.P. Cable).—The Morning Post, agent the Anglo-Japanese treaty, says: "Enquiries in Dominion circles have confirmed the impression that there is no likelihood of any of the self-governing dominions declaring their adherence. There has been no opportunity yet on the part of the Canadian Government to give the matter their consideration, but the treaty provides for full and unrestricted migration between the parties, if Canada came under the treaty it would explicitly abandon all restrictions on immigration questions were specially made out by the most favored nation clause and secure the same advantage as England."

HAMILTON SHOWS THE WAY

Auto Chemical Hose Wagon of Type Seen Here to Be Purchased. In the matter of securing an auto chemical hose wagon, Hamilton has beaten Toronto to it. The purchase of the Hamilton Fire and Light Company and Board of Control taken yesterday is approved by the city council this Monday night next. Then Hamilton will be able to boast of having the first equipment of the kind in Ontario, although Toronto is likely to have one soon.

ANOTHER STRIKE THREATENS

Men in Western Car Shops of C. P. R. May Go Out. CALGARY, April 6.—The representatives of the men working in the car shops here, four in number, have returned from Winnipeg. They have not made their report on the negotiations with the railway company at Winnipeg, in connection with the refusal of the men made for an increase in wages. Five hundred men working in the car shops in this city will be called out if a strike is declared. The executive of the men's organization in Winnipeg, the men understand, is a decision which will affect all the men in the railway shops of the Canadian Pacific Railway in western Canada in a few days. The carmen affected include painters, carpenters, laborers and other trades, while blacksmiths, machinists and boiler-makers are also included in the negotiations.

THE CASE OF HUMPTY DUMPTY

JACK CANUCK: He's had a "great fall" all right, but why should I butt in to "put Humpty up there again"?

MINERS PREPARE FOR LONG STRIKE

Leaving Different Camps by the Trainload—Support of International Executive Promised. LETHBRIDGE, Alta., April 6.—Miners are leaving the different camps in train loads, having decided that the strike will be a long one. Little and other small towns in the pass are nearly deserted, and the sale of tickets in Lethbridge for Europe is unprecedented.

BIG FIRE AT GODERICH LOSS W'LL BE \$50,000

Two Buildings of Kingston Furniture Co. Destroyed—Third Badly Damaged. GODERICH, April 6.—Fire, which broke out at 10:15 o'clock tonight, caused \$50,000 loss to the plant of the Kingston Furniture Co. The loss is covered by insurance. The plant consisted of three buildings, two wooden and one brick. The two former were wiped out and the latter was badly damaged. The fire started in the top floor of one of the wooden buildings, used as a packing room, and spread rapidly to the second wooden building, where varnishes were stored. The firemen had a hard breeze to work against, and were thus handicapped, but succeeded in saving the machine shop, that had died 11:10.

SHELDON AGAIN ARRESTED

Complications Delay His Removal to Montreal. PITTSBURG, April 6.—Complications continue to develop in the case of Chas. D. Sheldon, alias Ross and Robinson, who was arrested here on March 27 as a fugitive from Montreal, Canada, where his financial operations are alleged to involve upwards of \$2,000,000. Following a lengthy hearing before Judge Robert Frazer today, during which Assistant District Attorney Seymour asked that minor local charges be disregarded and the prisoner turned over to the Canadian authorities, Sheldon was again arrested. It is now planned by the assistant district attorney and chief McCaskill to have Sheldon confess judgment to-morrow, which will dissolve the capias on which he is now detained. Local attorneys, however, declare they will have Sheldon arrested on a capias, charged with abducting.

STABBED SHIP'S PHYSICIAN

LONDON, April 6.—During the voyage of the Steamer George Washington, which sailed from New York last Thursday, and arrived at Plymouth today, a second-class passenger, an American, who was suffering from the delusion that members of "The Black Hand" were seeking to murder him, stabbed Dr. Vogherr, the ship's physician, while being taken to the hospital. The physician was severely injured, the knife penetrating his lung. It is said, however, that he is making satisfactory progress.

UNEDUCATED MEN UNDERMINE CHURCH

Sir Mortimer Clark Declares That Type of Missionaries Imported From Britain Are Lowering Tone of Presbyterianism in Canadian West—Knox College Buildings.

Sir William Mortimer Clark started the faculty, students and friends of Knox College at St. James-square Presbyterian Church last night by an arraignment of their Canadian north-west home mission policy. The address was a feature of the annual convention of the sixty-seventh session of Knox College.

G.T.R. MAN KILLED ANOTHER MAY DIE

Joseph Richards Pinned Between Cars, Succumbs—Thos. Taylor Lost Foot to Save Life. Two G.T.R. employees were injured at their work yesterday evening. One of them was hurt so severely that he died in Grace Hospital a few hours later, while the other lost his right leg, and is in a critical condition at the hospital.

A PROVINCIAL STRIKE?

Novia Scotia Mine Workers to Discuss Wage Schedule. HALIFAX, April 6.—A meeting of the officers of the U.M.W. for the Nova Scotia district has been called for Halifax on April 15, and an invitation to attend it has been sent to the coal operators of the province.

MONTREAL BUILDING BOOM

MONTREAL, April 6.—For the three months of the present year which have elapsed building operations have practically doubled the record for the same period of last year. Figures obtained to-day at the office of the building inspector show that during January, February and March this year the building permits issued is \$2,109,785, as compared with \$1,110,344 for 1910.

The Latest Hats for Easter

If you are going to buy a new hat for Easter it certainly should be something new and good. The Dineen Company is showing something of the very latest designs in Men's Hats, Silks, Derby and Alpine. Dineen is sole Canadian agent for Henry Heath of London, and Dunlop of New York. Store open Saturday night.

April is the Month for Rain Coats

No matter how bright the morning breaks you can almost bet it will rain before night. 'Tis the weeping month of the clouds, and no man is safe from a wetting unless he be protected with a good Rain Proof Coat. Every coat that is sold as a Rain Coat is not really so--there are so many inferior lines upon the market that you should be careful where and how you select a Rain Coat. For instance we never buy a coat from a manufacturer unless he will put his absolute guarantee of goodness upon each garment and stand behind it. We can then protect our customers in the only way that we believe in and that is your coat will do exactly as we say it will or you get a new coat in place of it. Of late seasons the Parametta Rubber Coats have replaced the Cravenettes, and to-day we are selling a cloth called Gabardine that has come to the front as a rain cloth without rubber. These are the two cloths now in use and we have positively the greatest range of Rain Coats, every one guaranteed, that has ever been placed in any house for your inspection. Priced from \$5.00 up to \$35.00. You will indeed be hard to please if we fail to do so with our magnificent stock.

Chauffeurs and Auto Drivers Attention! We have a special line of slip over coats that will make your work a real pleasure on wet days. Priced at \$10.00, large flowing skirts, no possible chance of getting wet.

HAMILTON HAPPENINGS

WILL ELECT BISHOP OF NIAGARA ON MAY 2

Clergy Select Eight Names for Consideration—Trustee Bookers Calls Vict. Ave. School a Pigstye.

HAMILTON, April 6.—(Special.)—The election of a bishop for the Diocese of Niagara will be held on May 2. This was decided by the standing committee of the synod at its meeting this afternoon. The consensus of opinion in Anglican circles seems to be that a local man will be chosen for the office, and the selection of Rev. Canon Abbott is regarded as very probable.

Four from outside the Diocese of Niagara were selected at the conference of clergy held in St. Mark's parish house this morning at 11 o'clock, as a result of the letter sent out to all clergy of the diocese by Canon Howitt and Sutherland. The local men are: Canon R. G. Sutherland, rector of St. Mark's Church; Canon R. F. Almond, rector of Christ's Church Cathedral; Archdeacon Ferner, rector of St. John's Church; Archdeacon Clark, archdeacon of the diocese.

The outside men mentioned are: Rev. Patterson—Smythe, Montreal; Canon Tucker, London; Archdeacon Coady, Toronto; Dean Bidwell, Kingston.

Called School a Pig Stye.

Trustee Bookers shocked the internal management committee of the board of education to-night at its meeting, when he stated that the sanitary conditions of Victoria-avenue School were as bad as a pig-stye. Chairman Lamoreaux refused to accept such language, and under his threat to vacate the chair Mr. Booker modified his language by saying that the school was unfit for children to attend. Mr. Booker wanted a class of pupils from ward one, now being taught in the Victoria-avenue School, moved back to the Stinson School, where they formerly attended. This cannot be done, but it is probable that the class will be accommodated with a room at the Technical School.

The committee considered a novel situation when it came to deal with the question of salary to be paid to classes of teaching children. The board had tendered Miss Matthews a cheque for salary at the rate of \$400 a year, but it was returned with the statement that the teacher considered services worth \$750 a year, and that if the board did not think she worth that figure she would teach for nothing. Miss Matthews will see the figure she asks for. The committee decided that in future the absence of teachers with pay will be limited strictly to the twenty days a year allowed for personal sickness.

Drop Lansdowne Park.

The board of control at its meeting this morning disposed of the question of expropriating a portion of the Trol-

CARNEGIE DECLINES TO HEAD PEACE ASSOCIATION

Not the Time to Accelerate Public Opinion—Believes Arbitration Treaty Will Pass.

NEW YORK, April 6.—Andrew Carnegie has declined to become chairman of a proposed united association of all organizations now working for the cause of Great Britain. He believes that this is not the time to accelerate public opinion, but that it is wiser to allow the United States Senate to deliberate on the form of a treaty unhampered and unprompted.

Mr. Carnegie believes that many prominent Democrats will co-operate with the administration to that end. Among those he names, whose position he believes, "cannot be doubted," are Governors Dix of New York, Woodrow Wilson of New Jersey, Simon Baldwin of Connecticut, Speaker Champ Clark, and "last but not least," William Jennings Bryan, none of whom have hitherto in any way indicated their attitude. Mr. Carnegie's letter is in the simplified spelling of his preference. He says he has of late been deluged with invitations to preside at meetings to attend banquets in various cities and has invariably declined.

"Festival of the Lilies."

The 17th annual Easter entertainment of the festival of the lilies, under the auspices of the Methodist Social Union of Toronto, will be given in Massey Music Hall, on Monday, April 17, 1911, and will be conducted by Mr. Lewis Rees. The program will consist of selections by the Festival Chorus, instrumental solos, and quartet, and violin solo by Miss Eileen Ferguson, (especially arranged) under the direction of Mrs. H. B. Somers, with selections and accompaniments by the band of the Royal Grenadiers, under the direction of Mr. John Waldron. All seats are reserved at 50 cents and 25 cents each. The plan will be at Massey Hall on Monday, the 17th inst., at 9 a.m.

The Toronto Festival Chorus. A general rehearsal of chorus and orchestra for "Redemption" will be held in Victoria Hall, East Queen-street, on next Tuesday evening. The first general rehearsal, held Monday night, was well attended and, musically, most satisfactory.

Booker T. Rebuked.

Booker T. Washington, after a certain brilliant and powerful oration, will speak on the platform of a railway station when a newsboy straddles up to him.

"Here, 'ere boss," he said, "Herald extra; Booker Washington's great speech! Only two cents."

"Nonsense, boy," said the noted teacher. "That speech isn't worth one cent."

"Ah, go on—jealous," said the boy angrily. "What do you know about it?"

"What's the latest thing in pajamas this year?"

"Same as last year. The clubman."—Houston Post.

SOCIETY NOTES

Mrs. T. F. Montpenny, 57 Langley-avenue, will not receive again this season.

Mrs. Ernest McMurry, 42 Bernard-avenue, will not receive again this season.

On Tuesday evening Mr. and Mrs. A. E. Humphrey of 10 Palmerston-boulevard, very hospitably entertained several members of West Presbyterian Methodist choir. The gift was from the dinner, a beautiful bracelet set with pearls and sapphires was presented to Mrs. Stewart, soprano soloist of the church choir. Mrs. Stewart is severing her connection therefrom to take a similar position in Sherbourne-street Methodist choir. The gift was from those present as a tangible evidence of their appreciation of her services.

Among those present were the Rev. Dr. Turnbull, Mr. and Mrs. J. B. Hay, Mr. and Mrs. John Dods, Mr. and Mrs. Norman Sommerville, Dr. Stewart, with other friends and relatives of the family. As many present were musical, a very enjoyable evening was spent.

Mrs. D. Creighton of 25 Spadina-rd., will receive this afternoon and not again this season.

Sunday Opening.

CHATHAM, April 6.—The Chatham Free Library board this evening discussed the advisability of keeping the library open longer during the day, and also of having it opened several hours on Sundays. Action was deferred.

Odd.

"That a man can die of good living. That titled marriages often turn out rank failures. That an auctioneer builds up his business by knocking things down. That the bigger the mountain ranges the colder the air around them. That a man who loses his temper gets into one at the same time. That the sharper a man is the harder it is to make a fool of him. That the man with the most rocks in his pocket finds it easiest to keep his head above water.—Boston Transcript.

A CANADIAN ENTERPRISE

J. S. Irvin Invades California With Big Cement Plant.

OTTAWA, April 6.—J. S. Irvin has just returned from Spokane, Wash. While he was there a new company was formed to manufacture cement for the great inland empire, a fruitful region of 150,000 square miles, which hitherto has had to draw its supplies from distant outside points.

Mr. Irvin was elected president of the new company, which, it is understood, includes several Canadians. It is the intention to have the factory in operation within the current year.

TAROLEMA CURES ECZEMA PSORIASIS & BARBER'S ITCH

NO T. E. L. SUB-COMMITTEE.

"There has been no sub-committee appointed and I know of no report to be presented to the board of directors," said Sir Henry Pollitt, president of the Toronto Electric Light Company. It was in reply to a question as to the authenticity of a statement that a meeting of the board of directors was to be held to-day to get a report from a sub-committee with reference to the sale of the physical assets to the city.

"I know of no other meeting than the one of the shareholders which is called for Saturday noon," continued Sir Henry.

"Have you any idea as to the feeling of the shareholders on the question of selling to the city?" he was asked.

"I have not," was the reply. "I am not in a position to speak for the views of such a large number."

Joseph O'Brien Sentenced.

Brought back from Chicago by Detective Twigg for the theft of some \$800 worth of jewelry and other household effects from his erstwhile landlady and her next-door neighbor, Joseph O'Brien pleaded guilty to two charges of theft in police court yesterday morning and was sent to the Central Prison for 15 months.

O'Brien had given the ladies tickets to the theatre, and in their absence, cleaned out their houses. He then left for Chicago.

LOOK TO NORTH ONTARIO ADVISES J. L. ENGELHART

He Tells Board of Trade Why Province's Hinterland is Truly Land of Promise.

J. L. Engelhart, chairman of the T. & N. O. Railway Commission, addressed the board of trade at a luncheon at the National Club yesterday, given to inaugurate the opening of a campaign for the development of Northern Ontario. President Gourlay was in the chair, and among those present were: Mayor Geary, Controller Church, Hugh Blair, J. L. Baillie, C. T. Somers, Commissioner Fred Dane, W. J. Gage, Geo. Watson, K.C., Samuel Nordheimer, John Ferguson, North Bay; P. W. Ellis, P. Home Smith, W. P. Gundy.

President Gourlay announced that they met under the auspices of the Ontario Development Committee, the chairman of which, R. Home Smith, he designated as one of the most important men on the board of trade. They had dreams and visions, but their forest areas conserved and reforested, their mineral areas conservatively but aggressively developed; their lakes and streams conserved and stocked, the great lakes for food, and the smaller lakes with game fish, they would make the chain of lakes the holiday summer camp of the whole continent, and a great source of revenue and line was \$100 to \$200 to the merchants of Ontario.

Colonization and the cultivation and development of the hinterland of Ontario, said Mr. Gourlay, would be the great work of the board for the next ten years. They were setting their feet to the plow, and there would be no turning back.

He introduced Mr. Engelhart as "Our Ontario Railway King" (Applause). There was a significance in Mr. Engelhart's presence, for they could not have a Northern Ontario until the country was gridironed with railways. He considered himself as one of the 35 per cent. of the people who knew nothing of the great province in which they lived, and welcomed Mr. Engelhart's information.

Gen. Equal Manitoba Wheat. Mr. Engelhart was glad they had awakened to their possession and re-discovered it. He exhibited a sample of No. 1 Northern wheat equal in all respects to No. 1 Manitoba hard, and invited expert inspection. The lands whose settlement was the problem of the past year, would amply repay every effort of the settler. He gave some figures of the progress of the T. & N. O. Railway to illustrate the possibilities.

Table with 2 columns: Item, Amount. Rows include Passengers carried, Passenger car miles, Freight traffic, Wages paid, etc.

"We propose to send out a small survey party during the season, leaving about June 1st, for the purpose of exploring the district particularly around the mouth of the Moose River and James Bay, with a view to extending the railway if warranted. That it is effective in the cure of croup, bronchitis, whooping cough and the most severe coughs and cold is attested by the many years of continued success and enormous sales. 25 cents. all dealers, or Edmanson, Dates & Co., Toronto.

the future seed-bed for roots was this clay belt.

Agriculture Prime Necessity. "If there is one thing more than another that appeals to me as an absolute essential necessity," said Mr. Engelhart, "it is the following up of agriculture. It further appeals to me, if there is one department more than another that should have the very best that is obtainable, and which furnishes the largest and most lasting results, it is that great department of the government of Ontario, of that rugged, honest, loyal and sturdy, Mr. Gourlay possesses the very essence of belief in the prospects of the province, evidently being of the opinion that what was formerly predicted for Canada could be accomplished by Ontario alone.

Mr. Engelhart stated that the correspondence received indicated a desire on the part of many to return from the west and he wished to have the trek from the west lined up for the north. "We have had enough of the west," said one man. "Six months of good hard labor it is, and six months of desolation, all but death."

Ontario, with the northland at its back, is a whole domain in itself," said Mr. Engelhart. "It is for you, gentlemen, to consider whether it would not be advisable to take up the question of removing settlers from the rocky lands of Muskoka and adjacent lands, whether it would not be advisable to take these so-called farms off their hands, remove the people to Timiskaming lands, and utilize the Muskoka lands for reforestation. Should you not appoint committees to inspect these lands and note their condition?"

"The west has been boomed by brass band methods," declared Mr. Engelhart. "Our people have overdone it, and the greatest of the provinces—their own. They have been looking to distant pastures. "Within that zone," he said, "is the district we call the Timiskaming lands—agricultural lands equal to any on the continent."

Quebec Alive to Opportunity. He pointed out that the merchants of Quebec had awakened to the importance of the population of 50,000, and were catering to their trade, while the Ontario merchants neglected it. "The commission had made large sacrifices to bring out these facts, and he feared they were hardly understood or appreciated. They had gone ahead, and now all the railways were following their example. (Applause.)

M. Engelhart detailed the resources of the country, and the great possibilities of the future. He spoke of the power of Atlantic engines from 500 to 1,000 tons, and of the larger engines from 200 to 300 tons.

Province in itself. "If we develop the lands within our own zone, the clay belt, we have a province in itself. The period of navigation may be ever so short. Harbors are undoubtedly possible at the mouth of the Nelson and Albany Rivers, and the Ottawa government will build railways to those points. Manitoba and the Northwest are provided for. Moose River mouth and James Bay will take care of Ontario.

"The area of this coastal plain south of the Albany River and James Bay, within the present boundaries of Ontario, is nearly equal to that of the better known clay belt, and this coastal plain extends north of the Albany River to Hudson Bay, a distance of 250 miles at least, and westward from James Bay at least 200 miles—all good agricultural lands.

"We propose to send out a small survey party during the season, leaving about June 1st, for the purpose of exploring the district particularly around the mouth of the Moose River and James Bay, with a view to extending the railway if warranted. That it is effective in the cure of croup, bronchitis, whooping cough and the most severe coughs and cold is attested by the many years of continued success and enormous sales. 25 cents. all dealers, or Edmanson, Dates & Co., Toronto.

incidentally that much new and active blood could be brought into the board if every member who had son old enough to be introduced were to nominate him.

The number of applications has now reached within a few of 650. It is thought several captives have applications in reserve which will be announced at the luncheon to-morrow in the National Club, when the final result will be announced.

It is the intention of the board to give its attention to reforestation and also to the preservation and population of the lakes and streams. Mr. Gourlay possesses the very essence of belief in the prospects of the province, evidently being of the opinion that what was formerly predicted for Canada could be accomplished by Ontario alone.

OBITUARY.

George Clay. A prominent resident of this city passed away yesterday in the person of George Clay, chartered accountant, living at 11 Aberdeen avenue. Deceased was born in Yorkshire, England, in 1841, and came to Canada about 25 years ago, settling in Toronto. He was a prominent society man, being a member of St. Andrew's Lodge, A. F. and A. M., Sons of England, and the A. O. U. W. A widow, one son and one daughter, will take place Monday, from his late residence to Mount Pleasant Cemetery.

William Gillard, butcher, of 188 Dundas-st., died on Wednesday. Mr. Gillard was born in Somerset, N.Y., and has lived in Canada for the past twenty years. Mr. Gillard was a member of the Church of England, and the A.O.U.W., and is survived by a widow and one daughter, who lives in Vancouver.

Proficiency Recognized. The urban music teacher was endeavoring to be polite yet truthful. "Of course," he said, "your daughter does not yet read notes very good, and she strikes der wrong key occasionally. "But" he added with enthusiasm, "she plays her rest fine!"

IMITATION COUGH CURES

Is an Imitation Cough Medicine Good Enough for Your Children?

When you are sick and send for the doctor, you don't want him to send a young medical student he has in his office. You would rather have the young fellow experiment on somebody else.

No more do you want imitations of the medicine you know to be of proven value in the cure of disease. The remarkable success of Dr. Chase's Syrup of Limes and Turpentine in the cure of croup, bronchitis and colds has proven too great a temptation to imitators. They expect you to take chances with their medicines because the price is a few cents less.

Imitations are never sold on merit, but depend on the merit of the article they imitate. You don't want to be experimented on, and for this reason insist on seeing the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on the bottle you buy. As it is made of simple ingredients of proven value, it is well suited as a treatment for children. That it is effective in the cure of croup, bronchitis, whooping cough and the most severe coughs and cold is attested by the many years of continued success and enormous sales. 25 cents. all dealers, or Edmanson, Dates & Co., Toronto.

SIXTY CROWN WITNESSES IN JARDINE MURDER CASE

Comes Up for Trial Tuesday—Report That Prisoner is in Failing Health Denied.

GODERICH, April 6.—Crown Attorney Seager has announced that there will be 60 crown witnesses called to testify against Edward Jardine, when, on Tuesday next, he comes up for trial, charged with the murder of Lizzie Anderson. Only about 35 witnesses gave evidence at the various sessions of the inquest, and the increased number shows that the crown has not been idle in the interval. A recent report stated that Jardine was in failing health, since his alleged confession a few weeks ago, and that he was losing flesh. On the contrary, he is gaining steadily in health, and the jail officials state that they see no change in his conduct. Neither his confession, nor the approaching trial seem to affect him in any way.

THE HEAVEN KNEW

Got Off Train at Plymouth Rock—Left Fare on the Pilot.

WINSTED, Conn., April 6.—The Nauticard division passenger train of the New York, New Haven and Hartford System, leaving Thomaston, south-bound for New York, 10:40 Tuesday morning, picked up a Plymouth Rock hen. Engine driver and fireman supposed the hen had been killed until they reached the rocky quarry at Plymouth Rock, known as Plymouth Rock, two miles south.

When a brakeman shouted "Plymouth" the hen alighted from the pilot of the locomotive, cackling lustily as it fled. Amazed bystanders examined the hen, and the increased number shows that the crown has not been idle in the interval.

THE BEAUTY OF DEVOTEDNESS.

The longer on this earth we live and weigh the various qualities of men, Seeing how most are fugitive, Or fiftal gifts, at best, of now and then, Wind-waved corpse-lights, daughters of the fen,

When hope is lost. It is the heaviest stone the melancholy can throw at a man, to tell him that he is at the end of his nature; and that there is no further state to come, unto which this seems provisional, and coldly has proven too great a temptation to imitators. They expect you to take chances with their medicines because the price is a few cents less.

"Pneumonia"

Pneumonia is nothing more or less than "Lung Fever," or as it used to be called, "Inflammation of the Lungs" and the results come entirely from a local source; as taking a violent cold.

There is more or less difficulty in breathing, a cough, at first dry, but soon accompanied by raising a thick, sticky, rusty-colored matter, composed of a mixture of phlegm and blood.

There is only one way to prevent Pneumonia, and that is to cure the cold just as soon as it appears. Dr. Wood's Norway Pine Syrup will do this quickly and effectively.

Mrs. G. W. Bowman, Pastille, Ont., writes: "Three years ago I caught a cold which ended in a severe attack of Pneumonia. Since that time, at the beginning of each winter, I seem to catch cold very easily. I have been so hoarse that I was unable to speak loud enough to be heard across the room. Last winter, however, a friend advised me to try Dr. Wood's Norway Pine Syrup, saying it had helped her. I bought a bottle and before it was half used I was completely cured. I would find it a good medicine for the children, when they have colds."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; the price 25 cents. Manufactured only by The T. Millbrae Co., Limited, Toronto, Ont.

METHODIST PASTORS WHO WILL PACK TRUNKS

Recommendations of Transfer Committee Involve Many Pulpit Changes.

A meeting of the transfer committee of the general conference of the Methodist Church was held in the Wesley Building yesterday at 10:30 a.m. Rev. Dr. Carman presided, and Rev. Dr. Chown, general superintendent, of Winnipeg, was also present. The committee is composed of the presidents of the conferences for Newfoundland and the entire Dominion. The members are as follows: Rev. Dr. Hincks, A. K. Birks, London; D. W. Snider, Hamilton; W. H. Emley, Bay of Quinte; C. S. Despreux, Montreal; Dr. Spragg, New Brunswick and Prince Edward Island; Benjamin King, Nova Scotia; T. B. Wilson, Manitoba; W. S. Rolan, Saskatchewan; A. R. Allridge, Alberta, and R. N. Powell, British Columbia.

The Toronto men leaving are: Rev. W. E. Baker, Simpson-avenue to Montreal; Rev. E. C. Laker, Clinton-st., to Bay of Quinte; Rev. J. W. Ganton, to British Columbia; Rev. J. W. Dunlop, to Hamilton; Rev. Thomas J. Whelan, to Alberta; Rev. T. Morris, to London; Rev. G. McKinley, to Ontario; Rev. W. H. Emley, Bay of Quinte; Rev. E. C. Laker, Toronto to Bay of Quinte; A. K. Birks, London to Hamilton; W. H. Emley, Hamilton to London; J. W. Herbert, Alberta to London; L. E. Marshall, Hamilton to Alberta; R. D. Hamilton, London to Hamilton; F. C. Barber, Hamilton to London; T. S. Hamilton, Bay of Quinte to Hamilton; W. R. Archer, Hamilton to Bay of Quinte; R. Milliken, British Columbia to Saskatchewan; J. C. Switzer, Saskatchewan to British Columbia; S. Jefferson, Nova Scotia to London; A. B. Johnston, Montreal to Saskatchewan; W. G. Lane, Nova Scotia to British Columbia; C. H. McKenzie, London to Saskatchewan; W. Locke, Manitoba to Alberta; J. T. Beagrie, Newfoundland to Saskatchewan; W. D. Anderson, Toronto to British Columbia; J. W. Miller, Manitoba to British Columbia; W. Quigley, Montreal to British Columbia; F. H. Stanton, Montreal to British Columbia; Allan A. Campbell, Montreal to Alberta; J. R. Heyworth, Alberta to Toronto.

BOOKS IN CANADA.

Canadians are said to be, on the average, as large, if not larger book buyers than any other people on earth. This is to be accounted for in many ways, but Mr. W. A. Crick, in the Book Monthly, points out that the most obvious reason is that because the population is so scattered and in many districts so sparse, other forms of amusement become limited, and the people fall back upon reading to occupy their leisure hours. For several months in the year the rural population has little to do, and even in the cities the severe weather confines people to their homes a great deal.

According to Mr. Crick, Dickens is the favorite author of the Canadian people. In every Canadian home which possesses a bookshelf copies of some of his novels are sure to be found. The most popular is probably "David Copperfield," with "The Old Curiosity Shop" and "Pickwick Papers" close second; at least, this is the experience of the Toronto Public Library, the Walter Scott claims the favor of Canadian readers, and following him is Thackeray, but neither of them ranks nearly as high as Dickens.

Canada, we are told, really shows a good deal of literary taste, and the authors. Ralph Connor commands a remarkable sale for his stories, and his publisher computes that there is at least one copy of his books in every

Canadian home. Sir Gilbert Parker is regarded with a good deal of pride by his fellow-countryman, who buys his books extensively. Robert E. Knowles has quite a large following. Indeed, bookshelves are coming to realize that the pride of Canadians in their country is beginning to embrace a pride in Canadian literature as well.

RADIUM ORES AND SAPPHIRE.

At the Australasian Science Congress recently held in Sydney, Douglas Dawson, one of the scientists who accompanied the Shackleton expedition to the South Polar regions, made the following statement regarding the recent discoveries of radium-bearing minerals in the Mt. Painter field in South Australia:

"It is a wonderful area for the occurrence of rare minerals. Among the more important we have found there are radium ores, monazite and sapphire. The sapphire is not of gem quality, but it has been quoted at \$340 per ton. There is an enormous lode carrying it—one of the biggest in the world. The radium lode, too, is a remarkable formation. There is an outcrop for three miles at a height of 1000 feet above the valley adjoining. In this outcrop there is manifested iron ore containing scattered crystals of the radium-bearing minerals, tobernite and autunite.

"A small company has been formed to open up this formation and see exactly what is there. The encroachment of the ore as sinking proceeds is all ready reported, but operations have only just started. We expect to get down to pitchblende. The company is called the Radium Extraction Company of South Australia, and we intend to erect extraction works at Port Pirie, which is an ideal place for such an enterprise."

DEVELOPMENT OF NEW ONTARIO

Mr. J. Englehart's voluminous statement at the board of trade luncheon yesterday regarding the resources and capabilities of, as well as the results already attained in, the northern territory of the province, may well excite the attention of the people through the length and breadth of Ontario.

Mr. Englehart's figures concerning the land, "hewn out of the wilderness in the last five years," gave force to President Gourlay's assertion that the basic vision of the board of trade activity was an Ontario with a population of ten millions. Considering that Ontario is the same size as the German Empire, with its 60,000,000, this is not an unreasonable prospect.

Mr. Englehart laid great stress on the agricultural possibilities of the clay belt, and evidently regarded the farming interests as more important than either the lumbering or mining. His anecdotes of what had been done in individual cases and the acclimatization of families in the good old patriarchal fashion, made a good impression on the members of the board, and the tale of forty cars of agricultural machinery going into the country challenged the doubts of the less sentimental.

There is already a population of 50,000 along the T. and N. I. Railway, settlement extending as far as six miles on each side of the line in some localities. The merchants of the Province of Quebec are aware of the commercial opportunities in the north land, said Mr. Englehart, while the merchants of Ontario did not seem to know the possibilities. The board of trade campaign was consequently most opportune.

Mr. Englehart sounded a new note respecting the west, against which he had no objection, he said, but had merely reported the statements made to him. He had a large correspondence with those seeking information about northern Ontario, whose object it was to return thither. If there is to be a return current of emigration he wished to direct it to the northern farm lands.

Another important point touched on by Mr. Englehart was the desirability of moving the seat of the province from the rocky Muskoka districts, hitherto agricultural purposes, to the rich clay lands of the north, leaving Muskoka to be reforested. This is a practical measure which would bring a thoroughly experienced pioneer people into more favorable conditions and thus relieve them of their present struggles.

Mr. Englehart's account of railway efficiency and improvement on the T. and N. O. Railway was of great interest, and his announcement that a small surveying party would proceed this summer north from Cochrane to James Bay suggested the prospect of a future salt water summer resort in Ontario's back woods.

The board of trade will no doubt respond to the stimulus of Mr. Englehart's figures and information. They make the development of the north country, as President Gourlay said, its great work for the next ten years.

FASHION IN THE HIDEOUS.

The Globe thinks that the hideousness of the harem skirt will prevent its adoption. How illogical! Were not peach basket hats hideous? Are not coats still hideous? Are not 75 per cent. of the fashionable hideous, and do not women boldly adopt them, and walk forth on the face of all people, unabashed. The trouser skirt has much to commend it. It is hygienic and does not carry street dirt into the house, nor disseminate germs like a patent sander. Nor does it trail all over the street car steps when a man wants to step out in a hurry, nor will it bring anathemas upon him when he walks behind because he has not avoided stepping on the train. There are worse faults than hideousness, and that, after all, will be a question of who wears the garment. The Globe evidently hates to surrender.

HARMONIOUS CO-OPERATION.

Now that the board of control has sent forward Mr. Egan's name more for appointment on the electrical commission of the city, there should be no further hesitation about its acceptance by the council. There may have been some misapprehension at first on the part of some of the aldermen as to the true relation of the hydro-electric commission to the city, but once this is removed they must see the wisdom of getting the best men that can be had, who will act independently and harmoniously for the common interest of all the municipalities concerned. The sole object of the commission is to deliver power at cost, and to reduce

COMMON SENSE OF MUNICIPAL TRADING.

Mr. George Bernard Shaw is more than a paradoxical and cynically humorous playwright and critic. He has engaged actively in the work of municipal administration and has proved his ability to write at once entertainingly and instructively on practical questions and economic affairs. Some years ago he published a little book on the common sense of municipal trading, the latter phrase being synonymous in British with the communal ownership and operation of public services. A reprint has now been issued in the United States, and is well worth perusal by all interested in a movement that is daily attaining greater proportions on this continent.

RECIPROCALITY AND U. S. TRUSTS.

Under the national policy the Dominion has enjoyed the advantage of a home market in a large measure free from external control. No doubt, Canada, like all other nations, has suffered from trusts and industrial combinations, but these are by no means so powerful as those created under the high tariff system of the United States. Free trade organs attribute the existence of such bodies to protection, although it is undoubted that they are found even in the United Kingdom with its open door. Be that as it may, the effect of reciprocity in natural fields is proposed by the Tariff Fielding agreement, will be to that extent to identify the markets of the two countries. Canadian exporters to the United States will be more able to sell directly to United States consumers than can United States producers. United States trusts and all the other intermediaries that levy toll in that country will just have Canada to raid in addition and with all the more profit to themselves.

CITY MISSION'S GOOD WORK.

The monthly business meeting of the Toronto City Mission board was held yesterday. Rev. Dr. John Neil presided.

The report of Mr. H. L. Stark showed that the deficit reported last month had been somewhat reduced, and as the need of this work in the city is constantly increasing, it is hoped that the mission will receive hearty support.

Mr. Hall will be glad to give addresses and illustrate the work by slides. He will also give addresses in churches or young people's societies.

Reports of missionaries showed important work being done. Case after case of sickness and suffering was reported, and all were assisted.

In March \$65.45 were expended in assisting needy families and 603 garments were sent out from the dress room, and now the supply is exhausted.

Rev. Mr. Hall reported that arrangements are being made for the gospel carriage meetings and the new room at home at Bronte is being renovated for the opening of the home on May 31.

EXPLOSION SHAKES NANAIMO.

VICTORIA, April 6.—The powder magazine on Protection Island, Nanaimo, exploded at midnight.

Two distinct shocks shook Nanaimo, the first being felt in the city. The second flames lit up the harbor and the city. The first explosion was of dynamite, and the second of a store of gasoline.

John Jones, chief engineer, discovered the fire, notified the engineer, and was returning when the explosion occurred. He was thrown 40 feet, sustaining pretty fatal injuries.

ADVANCE TORONTO.

Civic energies and tendencies in other large cities point to the way Toronto ought to go.

The popular trend everywhere is for the unification of all the forces of the municipality.

Boston has wrought all its organizations into one compact union.

Baltimore has followed the example of Boston and has started a campaign for a \$500,000 publicity fund.

New Orleans, roused to renewed energy by the loss of the Panama Canal exposition, is organizing for a determined fight for supremacy on the Gulf of Mexico, and is seriously considering the use of the \$7,000,000 raised for the exposition, to advertise the possibilities of the city and the resources of the state.

ANNEX NORTH TORONTO NOW.

Toronto grows fast, but only as properly as she is let grow. If she has not the streets, roads, pavements and traction to grow, she hangs fire. This is what is the matter with Toronto up north and to the east. The only outlet to the north is Yonge-street, and it has two street car fares and a bad road. Rosedale is fenced in by the Rosedale ravine and the cemetery; Avenue-road ends at Upper Canada College; Bloor-street East is a dead end that a viaduct would make a great artery.

THE RECIPROCALITY WHIRL.

Imagine Canada ever again leaving its made-a-pawn in the game of American politics? Watch the proceedings and the talk at Washington these days. Mr. Taft, who signed for reciprocity, and who made our tariff for us (or thought he did), finds he can't deliver.

NO LEASE TO B. W. L.

It was reported in a morning paper that an extended lease had been granted by the Grand Trunk to the British Welcome League for their property on Front-street, which is on the site of the new Union station. Officials of the railway were quick in denying the reports, however, declaring that the property on the site would be rented, and not leased to anybody.

HYMAN'S STORAGE HOUSE BURNED.

LONDON, Ont., April 6.—The storage department of the big tannery of Hon. C. S. Hyman was badly gutted by fire early this morning. The blaze was left to defective electric wiring. The loss is placed in the neighborhood of \$120,000.

There appears every week in the Sunday World a sermon by Bishop Evans that is creating interesting comment and inviting the attention of the thoughtful. Suppose you order a copy of next week's issue and read his sermon? For sale by all newsdealers and newsboys.

AT OSGOODE HALL ANNOUNCEMENTS.

Judges' chambers will be held on Friday, 7th inst., at 11 a.m.

Divisional court will sit at 11 a.m. for the purpose of examining witnesses, etc., in the Re Michael Fraser appeal.

Master's Chambers.

Before Cartwright, K.C., Master, Northern Superior, Occidental Syndicate—H. W. Mickle, for defendants, R. B. Henderson for plaintiffs. Motion for defendants for leave to withdraw statement of defence and deliver another which will omit the admission made in their former defence, and put in defence in a different shape. Judgment according to the decision in Williams v. Leonard. I think the motion is entitled to succeed. It is quite made under a mistake which was excusable under the existing conditions. The plaintiffs will have such further time to reply as they may require. The costs lost or occasioned by this motion will be to them in any event.

CITY MISSION'S GOOD WORK.

The monthly business meeting of the Toronto City Mission board was held yesterday. Rev. Dr. John Neil presided.

The report of Mr. H. L. Stark showed that the deficit reported last month had been somewhat reduced, and as the need of this work in the city is constantly increasing, it is hoped that the mission will receive hearty support.

Mr. Hall will be glad to give addresses and illustrate the work by slides. He will also give addresses in churches or young people's societies.

Reports of missionaries showed important work being done. Case after case of sickness and suffering was reported, and all were assisted.

In March \$65.45 were expended in assisting needy families and 603 garments were sent out from the dress room, and now the supply is exhausted.

Rev. Mr. Hall reported that arrangements are being made for the gospel carriage meetings and the new room at home at Bronte is being renovated for the opening of the home on May 31.

EXPLOSION SHAKES NANAIMO.

VICTORIA, April 6.—The powder magazine on Protection Island, Nanaimo, exploded at midnight.

Two distinct shocks shook Nanaimo, the first being felt in the city. The second flames lit up the harbor and the city. The first explosion was of dynamite, and the second of a store of gasoline.

John Jones, chief engineer, discovered the fire, notified the engineer, and was returning when the explosion occurred. He was thrown 40 feet, sustaining pretty fatal injuries.

ADVANCE TORONTO.

Civic energies and tendencies in other large cities point to the way Toronto ought to go.

The popular trend everywhere is for the unification of all the forces of the municipality.

Boston has wrought all its organizations into one compact union.

Baltimore has followed the example of Boston and has started a campaign for a \$500,000 publicity fund.

New Orleans, roused to renewed energy by the loss of the Panama Canal exposition, is organizing for a determined fight for supremacy on the Gulf of Mexico, and is seriously considering the use of the \$7,000,000 raised for the exposition, to advertise the possibilities of the city and the resources of the state.

ANNEX NORTH TORONTO NOW.

Toronto grows fast, but only as properly as she is let grow. If she has not the streets, roads, pavements and traction to grow, she hangs fire. This is what is the matter with Toronto up north and to the east. The only outlet to the north is Yonge-street, and it has two street car fares and a bad road. Rosedale is fenced in by the Rosedale ravine and the cemetery; Avenue-road ends at Upper Canada College; Bloor-street East is a dead end that a viaduct would make a great artery.

THE RECIPROCALITY WHIRL.

Imagine Canada ever again leaving its made-a-pawn in the game of American politics? Watch the proceedings and the talk at Washington these days. Mr. Taft, who signed for reciprocity, and who made our tariff for us (or thought he did), finds he can't deliver.

NO LEASE TO B. W. L.

It was reported in a morning paper that an extended lease had been granted by the Grand Trunk to the British Welcome League for their property on Front-street, which is on the site of the new Union station. Officials of the railway were quick in denying the reports, however, declaring that the property on the site would be rented, and not leased to anybody.

HYMAN'S STORAGE HOUSE BURNED.

LONDON, Ont., April 6.—The storage department of the big tannery of Hon. C. S. Hyman was badly gutted by fire early this morning. The blaze was left to defective electric wiring. The loss is placed in the neighborhood of \$120,000.

There appears every week in the Sunday World a sermon by Bishop Evans that is creating interesting comment and inviting the attention of the thoughtful. Suppose you order a copy of next week's issue and read his sermon? For sale by all newsdealers and newsboys.

AT OSGOODE HALL ANNOUNCEMENTS.

Judges' chambers will be held on Friday, 7th inst., at 11 a.m.

Divisional court will sit at 11 a.m. for the purpose of examining witnesses, etc., in the Re Michael Fraser appeal.

Master's Chambers.

Before Cartwright, K.C., Master, Northern Superior, Occidental Syndicate—H. W. Mickle, for defendants, R. B. Henderson for plaintiffs. Motion for defendants for leave to withdraw statement of defence and deliver another which will omit the admission made in their former defence, and put in defence in a different shape. Judgment according to the decision in Williams v. Leonard. I think the motion is entitled to succeed. It is quite made under a mistake which was excusable under the existing conditions. The plaintiffs will have such further time to reply as they may require. The costs lost or occasioned by this motion will be to them in any event.

CITY MISSION'S GOOD WORK.

The monthly business meeting of the Toronto City Mission board was held yesterday. Rev. Dr. John Neil presided.

The report of Mr. H. L. Stark showed that the deficit reported last month had been somewhat reduced, and as the need of this work in the city is constantly increasing, it is hoped that the mission will receive hearty support.

Mr. Hall will be glad to give addresses and illustrate the work by slides. He will also give addresses in churches or young people's societies.

Reports of missionaries showed important work being done. Case after case of sickness and suffering was reported, and all were assisted.

In March \$65.45 were expended in assisting needy families and 603 garments were sent out from the dress room, and now the supply is exhausted.

Rev. Mr. Hall reported that arrangements are being made for the gospel carriage meetings and the new room at home at Bronte is being renovated for the opening of the home on May 31.

A MATTER OF \$3,000,000

How the City of Calgary Spends Money on Ambitious Projects for Civic Development, Improvement and Beautification.

CALGARY, April 6.—(Special.)—It will perhaps open the eyes of easterners inclined to entertain erroneous ideas concerning the urban aspect of the great Canadian west and about its luxuries and general modernities, to learn that with all the public utilities and services which mark the older cities of Canada, the young City of Calgary, twenty-five years ago an obscure hamlet on the vast prairie, now a metropolis of over 55,000—is fully equipped.

Following is a list of large works of extension and improvement under way or about to be started, of which the city is paying full cost:

Electric lighting	\$ 350,000
Water mains	245,000
Conduit system	60,000
Trunk sewer and sewer connections	358,000
Asphalt paving plant	20,000
New fire hall	120,000
Land for fire hall sites	45,000
Park improvements	66,000
Exhibition buildings	484,000
Sites for industrial purposes	100,000
Totals	\$3,028,000

Not is this all. Mayor Mitchell said as the board of trade banquet recently held in the city this year would amount to practically \$5,000,000. There are many smaller undertakings that are not included in the big ones mentioned above.

The mayor also stated that, in his opinion, the assessment next year would be \$75,000,000 to \$80,000,000. Judgment by the building inspector's office, issued at the building inspector's office, it looks as though the assessment will be increased to the mayor's estimate.

In the light of such facts it is not surprising that the city is attracting the attention of investors.

Palpitation of The Heart.

When the heart begins to beat irregularly or intermittently, palpitate and throb, skip beats, beats fast for a time, then go slow as to seem almost to stop, it causes great anxiety and alarm.

The least excitement or exertion seems to affect it.

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, through this unnatural action of the heart.

To all such sufferers Milburn's Heart and Nerve Pills can give prompt and permanent relief.

Wm. John Thompson, Mill Cove, N.B., writes: "Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I have been troubled with weakness and palpitation of the heart; would have severe choking spells, and could scarcely lie down at all. I tried many remedies but got none to answer my case like your pills did. I can recommend them highly to all suffering with heart and nerve trouble."

Milburn's Heart and Nerve Pills are sold in boxes of 3 for \$1.25 at all dealers or will be mailed direct on receipt of price by The T. M. Milburn Co., Limited, Toronto, Ont.

BOUGHT BY PELLATT

Winnipeg Hears He Has Purchased Old Rifle Range Near That City.

WINNIPEG, April 6.—It has been stated here that Sir Henry Pellatt has bought the old rifle range at St. Charles' near Winnipeg, paying the militia department \$600 per acre. It is certain that this is a private investment, but local opinion is that something is behind the deal. It is also stated that this is a private investment, but local opinion is that something is behind the deal. It is also stated that this is a private investment, but local opinion is that something is behind the deal.

Argyle Not for Grimsey Route.

H. H. Wylie, the Cleveland real estate financier, who has recently purchased lands on the summer park road, known as Grimsey Park, yesterday denied the report that he intended to buy the steamer Argyle to carry passengers to Grimsey. Negotiations were under way, however, but Mr. Wylie wishes to secure a more modern

JOHN CATTO & SON
65 to 61 King Street East, TORONTO.

JEWELRY ROBBERS NOW IN HANDS OF POLICE

John Leslie and James Williams Suspected of Other Shop-breaking Job.

John Lester, 23 years, and Jas. Williams, 19 years, arrested in Niagara Falls, N.Y., where they had pawned much of the jewelry stolen from Ellis Bros' jewelry store on Yonge-street Tuesday night, were brought back to the city last night by Detective Cronin. Most of the jewelry, consisting of 32 diamond rings, several watches and considerable miscellaneous jewelry, was recovered in pawnshops at the Falls. The men had tried the stores off of several of the rings. The total theft was valued at \$70,000.

The police have located the place in York-st. where the men secured the jewelry, and it will be made their business to go to the premises to saw out the panels. The premises of the Warren Sporting Goods Company, at Agnes and Yonge-sts., was one of the places where the police believe that they may be able to find these men with that job.

The men say that they had been in the city only a few days and refused to reveal their place of abode. It is said that the younger man has worked for some time in a city restaurant, but nothing seems to be known of the place.

M. T. Ellis of Ellis Bros. accompanied Detective Cronin to the Falls and identified the jewelry found. Detective Cronin says that the men confessed to him that they entered the store by sawing their way thru the panel. They were arrested at the Falls on charges of having committed a big jewelry robbery in Buffalo Wednesday. They were found not to be the men who had done that job.

THE SPOILED PRINCE.

Dr. Woods Hutchinson, the brilliant scientist of Newark, was discussing his recent declaration in Baltimore that if all normal children were started fair, they would all grow up into good citizens. "It is no advantage," he said, "for a child to be born a millionaire. In fact it is a disadvantage. Such children grow up spoiled. They have ungovernable tempers.

"I remind me of the hereditary Prince of Hesse-Homburg, who fought so bravely in his devoted physician, Staudenheimer. The final irreparable breach between the two arose at the breakfast table over a yard of sausage. "The prince, who he had flying gout, did not wish to be deprived of the 36th of sausage which was being served to begin the day. But Staudenheimer insisted. The prince flew into a violent rage. The two men sweating angrily, seemed to have the sausage by the throat. He never missed it again."

Alumni to Meet.

The annual meeting of the Toronto branch of the University of Toronto Alumni Association, which is open to all graduates, will be held at McCorn's Key's Friday evening, April 7, 7:30. Open discussion will take place on subjects of great interest and importance to all graduates. Addresses will be delivered by President Falconer and Sir Edmund Walker.

The Soviet, Man, school board has decided to build a new high school, to be the first in time for the fall term.

THE WEATHER

OBSERVATORY, TORONTO, April 6, (8 p.m.)—Since last night showers have occurred in Ontario, Quebec and the maritime provinces, where the west weather has been fine, and in Saskatchewan and Alberta, considerably mild.

Minimum and maximum temperatures: Dawson, 16 below; Prince Rupert, 30-42; Victoria, 40-52; Vancouver, 32-52; Kamloops, 24-56; Calgary, 16-40; Edmonton, 18-44; Prince Albert, zero-34; Moose Jaw, 9-34; Qu'Appelle, zero-20; Winnipeg, 14-30; Fort Arthur, 20-34; Parry Sound, 23-40; London, 37-57; Toronto, 35-47; Ottawa, 35-52; Montreal, 36-52; Quebec, 39-52; St. John's, 48-49; Halifax, 22-52.

—Probabilities—
Lower Lakes and Georgian Bay—
Fresh westerly winds; fine, stationary or a little lower temperature.
Ottawa Valley and Upper St. Lawrence—Fair; stationary or lower temperature.
Lower St. Lawrence—Mostly fair; stationary or lower temperature.
Gulf and Maritime—Fresh to strong southerly winds; showers, few showers, but mostly fair and mild. Superior—Fair; not much change in temperature.
Saskatchewan and Alberta—Fair and mild.
Manitoba—Fair and milder.

MARRIAGES.

LILLEY—WESTLAND—On April 6, by the Rev. A. P. Bruce, 85 Wheeler-avenue, Miss Jessie M. Westland, daughter of Hagerman to Walter Lilley of Dollar P.O., Ont.

DEATHS.

BEEL—In his home at 14 Alexander-st., Toronto, Susan Hall, beloved wife of John Beel, Services to be held on Tuesday evening, 8:30, at St. Lawrence-st. Church. Funeral takes place at Orono Cemetery on Saturday, 8th inst., on arrival of train at Newmarket, at 10:15 a.m., to Orono and Newcastle papers please copy.

CLAY—On April 6, 1911, at 11 Aberdeen-avenue, George Clay, chartered accountant.

PLETCHER—At 63 Admiral-road, Toronto, on Wednesday evening, April 5, 1911, Robert Fletcher, Esq., of "Roselawn," Barris, Ontario, dearly beloved husband of Jane Ronald, and father of the late William and Mary Esten Fletcher of Hillsboro, County Down, Ireland.

Funeral from the above address on Saturday, April 8, at 3 p.m., to Mount Pleasant Cemetery.

SMYTH—At her late residence, 132 Waverley-road, Toronto, on Thursday, April 6, 1911, Catherine Ann, beloved wife of H. Langtry Smyth, and eldest daughter of the late Judge Roland Macdonald of St. Catharines.

Services at above address on Saturday, 8th inst., at 11 a.m., Funeral from St. George's Church, at 2 p.m., on arrival of train leaving Toronto at 12:15.

Mrs. Susan Beel.

The death occurred last night of Mrs. Susan Beel, wife of John Beel, employed on the Donlands Farm. Mrs. Beel, who was 73 years of age, was taken ill with a cold last February, and did not rally. She was born in Bodmin, Cornwall, came to Canada about 25 years ago and had since lived near Orono Village, where she was highly respected. She leaves a son, Ernest Hawke of Newmarket, and two daughters, Mrs. (Mrs. J. W. Ough, Toronto.

Desert Pastime for Motorists.

The run down coyotes is a new use to which motor cars are put at Nipigon, a town on the northeastern border of this country. A party of Searchlight motorists secured several near Nipigon. The driver selected one of the animals as prey and the race started. The coyote led for six miles, the occupant of the motor in the meantime trying to shoot him.

The goal of the race proved to be the coyote's home, a hole in the ground that was not large enough for the machine. The chase aroused much enthusiasm, and chasing coyotes with motor cars is becoming a popular pastime on the desert—Los Angeles Examiner.

Knox College Plans.

Plans for the new Knox College, to be erected on the university grounds, were presented to the building committee of the senate yesterday. J. K. Macdonald, the chairman, stated that work could not be done on with immediately, as things were not in shape. It will be three months before anything can be done in the way of construction.

"Subscriptions are steadily coming in," he stated. "We have something like \$400,000 subscribed now, and we aim at \$400,000."

Salting Babies.

A strange custom of salting newborn babies is still practiced, we said, in certain remote regions of Europe and Asia. The mothers imagine that this custom brings health and strength to her children and serves to keep away evil spirits, as well. Among the Armenians of Russia it is the custom to cover the entire skin of the infant with very fine salt. This is left on the baby for three hours or more, when it is washed off with warm water. Women of a mountain tribe in Asia Minor are even more zealous, for they are alleged to keep their newborn babies covered with salt for a period of three weeks. The modern Greeks also sprinkle their babies with salt; and even in certain parts of Germany salt is still used on a child at birth—London Globe.

BIG LINER STRAGGLED ON LONG ISLAND COAST

Has Suffered No Damage as Yet—1720 Passengers on Board—Attempt Release To-day.

NEW YORK, April 6.—Seventeen hundred and twenty passengers, within sight of the first of the big lights which marked the finish of the tremendous Atlantic voyage, spent a sleepless night, to-night on the great steamship Prinzess Irene of the North German Lloyd Line, fast in the sands off the seaward coast of Long Island, on the edge of the "graveyard of the Atlantic," and less than 50 miles from the bay of New York.

As night fell, a high ground swell was battering the high height of the vessel's superstructure.

After running her barge nose in the sand during the fog early this morning, the star buoy helplessly throut the day, surrounded by tugs and revenue cutters, efforts to pull her free at a high tide had failed and because of a rough sea the transfer of passengers was attempted. The decision was reached to leave all hands on board pending renewed attempts to drag her clear early to-morrow morning.

Prinzess Irene, which is owned by the Prinz Friedrich Wilhelm of the same name, which was sent to the scene from her dock here soon after day-break.

At low water this evening, the stranded liner lay with her length of 525 feet broadside to the beach, and with a wind which blew from the west, she rocked the vessel visibly, as seen from her black sides and other swell roofs, the water splashed about the side of the superstructure. The fog of the morning had been blown away and a wisp of moon lighted the scene.

Life Guards Patrolled Beach.

As the night wore on, life guards patrolled the beach with surf boats and buoys, in readiness for any emergency, and pinned little faith in the sturdy efforts of the tugs to pull the vessel out. The scene of the grounding is about ten miles east of Fire Island, approximately 46 miles from the battery shore over to the east end of the treacherous sand pit, which skirts the outer edge of Long Island. Creeping in the murky water, the Prinzess Irene, the only vessel, which was lost last night, was sighted her in fog this morning, and endeavored to remain aloft all night to do what they might to rescue the more than 1,700 passengers on board.

Capt. Chas. W. Baker, seasoned with 25 years' experience with the treacherous sea, was in command of the crew, and all night, and with him, in his oil skins, ready to put out a life boat or shoot a breeches buoy line if the wind assumed the gale force of a storm, the vessel would be easy to cast a line to the stranded vessel in case of necessity, as she was so near the beach.

First Blast in Winter.

The veteran life-savers have seen many a worse night than this, Capt. Baker said. It was their first big task this winter. He felt, however, that he noted the increasing breeze, which came from the most undesirable quarter, the southwest, and the danger of Long Island, to catch the wind and the liner, it looked more threatening, also. Capt. Baker assured the onlookers that the vessel would not strike hard, if they would keep her dry, even if some of her plates were sprung by the strain.

The eighteen hours the steamer had been stuck, up to midnight, she had suffered no apparent damage, also during the early hours of the night she was moved as gently as possible, and was caught in the grip of the sands, but the incoming tide swung her from north-northwest to northeast, where she rocked with considerable list to port.

Meanwhile, a number of boats manned by the firemen, but with no one attempted to board her on account of the treacherous ground swell. A visitant exclaimed, "That's my mode of bearing the name of 'Mrs. Monroe F. Ellis' and written on the back were the names of the men, William and Miss Tatt. The identity of these passengers.

Little Hope For Liner.

NEW YORK, April 6.—The Prinzess Irene, which was grounded last night, showed no signs of moving by 10 o'clock this morning. Tugs had moved her 22 degrees, but the tide had again begun to recede after 1 o'clock. At that hour there appeared to be little hope of dragging her clear.

GOVERNMENT REFUSES TO FURNISH STATISTICS

Continued From Page 1.

which had reached his ears, were being equaled by Mr. Willard, marine agent at Montreal, and the inspector of agencies at Washington.

Glen Campbell (Dauphin) drew the attention of the minister of the interior to a report in certain Manitoba papers to the effect that in connection with the proposed boundary extension the government was willing to concede to Manitoba six million additional acres of swamp lands.

Hon. Frank Oliver said that he had written letters explaining that the new territory which it was proposed to add to the province would probably include six million acres to which the province would be entitled as soon as the land was surveyed.

Mr. Gordon (Nipissing) urged Mr. Oliver to take steps to encourage the settlement of the lands of New Ontario, particularly between Haliburton and Cochrane. He said thousands of people were pouring into the country, and Mr. Oliver said that so, there, though the government would be free to do as it pleased in the case of lands in districts not so well known. He declared that Ontario was not being forgotten by the government.

Want Official Figures.

Mr. Perley said every day people were becoming more opposed to the reciprocity agreement. As to the effect of the reciprocity agreement, he had more information than the government had, but what they wanted was some official figures. The government had statistics in Canada, but they were not to be used for the farmers and buccos them.

The minister of customs had admitted that all the statistics they had at Washington were from the United States Government that the prices of farm products in the United States were lower than in Canada. Some of the statistics were: Horses in the United States, 1108; in Canada, 123; dairy cows, in the United States, 25, in Canada, 48; other cattle, in the United States, 119; in Canada, 45; sheep, in the United States, 84; in Canada, 86; swine, in the United States, 41; in Canada, 41.

Perley Moves Amendment.

Mr. Perley said his desire was to get the figures in black and white, so that the government would not be able to say that the figures were not correct. He showed that eggs in Waterloo, New York, were at the present time 15 cents, and butter 20 cents, and corn 14 cents, in the United States, and the motion to go into committee on ways and means: The government should cause to be forthwith laid on the table a bill of reciprocity in respect to the products and commodities included in the proposed reciprocity agreement with the United States full and reliable information respecting prices and cost of production: (A) in Canada, (B) in the United States, and (C) in the United States, in order that the Canadian markets will be open under the said proposal.

"And that the government has been neglectful of the public interest in having the proposed reciprocity agreement and to submit the same to parliament."

Mr. Fielding's reply was spirited. He said that the reciprocity agreement, and there was continued cross-firing between the minister and members of opposition.

"Has reciprocity always been the policy of the prime minister?" asked Mr. Boyce.

"Yes," countered Mr. Fielding.

"There never was a time when reciprocity ceased to be desirable in this country until this agreement came about. There was a time when it did not seem to be desirable when there was no prospect whatever of obtaining it."

No Information on File.

Mr. Fielding then went on to say that there was no information on file beyond what he had given. If there was any, he would like to see it.

"There was at a time when I was minister of agriculture," Mr. Fielding said. "You cannot bluff me that way." "I do not know the meaning of the word," came back the answer of the minister.

"I think the hon. gentleman found out the meaning of bluff in Washington recently," replied the member for Lincoln.

Geo. H. Perley—"I would like the minister to explain to us how the farmers can believe what he is saying. He says that the wheat, corn or oats under this agreement unless he has those figures."

"The hon. minister," said Mr. Fielding, "is not in a position to say that the wheat, corn or oats under this agreement unless he has those figures."

There were three forms of fluctuation, remarked Mr. Fielding, "the licit, the illicit, and the stolen."

"That is a rather dangerous proposition to lay down in view of the budget speech," interjected Mr. Boyce.

Is Which of the Other Classes?

"In which of the other classes?" Mr. Fielding then read resolutions from the National Grand of the United States, which were adopted at a Canadian fair, by reason of the Canadian general tariff, preferential trade agreements and the purchase of manufactured goods at a lower price than in the United States, enjoyed an advantage over the United States farmer, who would be expected to "unfair competition."

He denied that when in Washington he and Mr. Patterson did not possess all the information that was necessary. As for the United States commissioners it was to be remembered that the

AMERICAN GOVERNMENT HAD DECIDED ON AN IMPORTANT CHANGE IN ITS FISCAL POLICY INVOLVING A REDUCTION IN DUTIES ALIKE THE LINE. A tariff commission had been at work reviewing the situation, and of necessity had compiled a large mass of figures. What Canada sought was a free interchange of natural products, and it was not essential to have corresponding statistics. The government believed that if the American market for natural products could be opened up, it would be good for the people of the Dominion, and there was no need of more statistics to demonstrate the truth of this.

Shakespeare Up-to-Date.

Proceeding with his quotations of views of American agriculturists who were opposed to the agreement because they believed it would hurt the American farmer, Mr. Fielding said he would quote another. Senator Ames of Iowa, who had some correspondence with a mandate to fight the agreement. No doubt, he said, there were farmers and other interests on both sides of the line who were afraid of the changes which were proposed. Protection, like conscience, made cowards of us all, and the high-tariff farmer was not an exception.

He believed that the worst effect of the agreement would be to encourage the breaking away from party lines on this question. The government was making its existence on the issue, and in the course of a few months, when the elections were held, the people decided that the government was wrong, the minister of agriculture would be free to cancel the arrangement. He doubted, however, if they would ever repeat it if once it came into effect.

Mr. Borden said that when the finance minister stated there was no need for further information as to the statistics demanded, he spoke with either utter recklessness or deplorable ignorance of conditions. Who should be single out the Canadian manufacturer from United States competition and not the Canadian farmer also.

Mr. Borden showed how the United States was given the knowledge that Canada was not a party to the agreement was discussed, thru the United States ways and means committee, thru tariff reports, thru the presidential message, American statistics were enabled to discuss the question intelligently with knowledge of the basic facts while the Canadian had to guess as to the conditions. One man would make a statement, another would deny it, while there was no way of getting accurate information and could be drawn upon to settle finally the question of fact.

Hon. Sydney Fisher recalled that in his speech on the reciprocity agreement he had offered to give a number of the statistics that were now asked for. But the member for Lambton refused the courtesy of allowing those figures to be placed on the Hansard without reading. Yet a certain hon. member on the reciprocity agreement had offered to give a number of the statistics that were now asked for. But the member for Lambton refused the courtesy of allowing those figures to be placed on the Hansard without reading.

Differences in Alcohol.

More than two-thirds of the total production of German alcohol is obtained from potatoes, but only a comparatively small portion is sold in the form of beverages, for the reason that other kinds of alcohol are better adapted to the manufacture of liquors and brandies.

"The alcohol of wine, cider, cherries and such purposes, but only a comparatively small portion is sold in the form of beverages, for the reason that other kinds of alcohol are better adapted to the manufacture of liquors and brandies."

A Cook in Need.

Husband—Did the cook you hired show up? "Wife—No. Wasn't it fortunate? Another of my rang our bell by mistake, thinking for Mrs. Gilt next door, and I've kept her instead—Harper's Bazar.

WORK COUNTY

West Toronto North Toronto East Toronto... 'T WAS GREAT NIGHT FOR THE TORONTO HOCKEYISTS... First Annual Banquet Was Big Success—Doherty Property Sells High—County.

NORTH TORONTO, April 6.—(Special)—Without all the mud and slush and comparative darkness, but inside the four walls of the Masonic Hall to-night, at the first annual banquet of the North Toronto Hockey Club, all was brightness and good cheer. It was a delightful gathering, and one of the most informal and social functions ever held in this town.

The seat of honor was occupied by President S. J. Loughead, and the warm place Mr. Douglas occupies in the minds and hearts of the athletes of the North Toronto Hockey Club, all the more apparent, and presented a fine appearance. The handsome representative men in all lines of commercial and professional life, while the town council was present almost in a body. His Honor Mayor, representing the city, was unavoidably detained, in a kindly message, voiced his hearty appreciation of the many wins scored by the hockey boys of North Toronto.

The toast list, a lengthy one, was carried thru in admirable form, every name, whether along oratorical or local lines, was greeted with hearty acclaim. It was a great night, and Manager Ramsay was the proudest man in the big crowd. Following the usual loyal and patriotic toasts, that of "Our Club" was proposed by the president, and responded to by Messrs. Richards and Gibson. "The Boys of North Toronto" fell to the lot of the venerable ex-Mayor John Fisher, whose rousing address to the toast in the absence of the Mayor were the names of Councilors Frank Howe, chairman of the board of works, and Councilor W. J. Lawrence. The great possibilities of the hockey as a residential centre, and the contemplated improvements were touched upon by these representatives.

"Hockey" was proposed by E. H. Harcourt, and responded to by Rev. F. G. Beck and ex-Councilor James Pears. "Our Fair Fans, the Ladies," proposed by the president, was intrusted to W. G. Ellis, and handled by that gentleman with all his characteristic gallantry and ease. The presentation of the cups and medals won by the team during the season on many a hard-fought game, was made by Councilor D. D. Reid, that good friend of the hockey boys, and didn't they make the ratters ring again when with new kindly words of encouragement and good cheer he handed out the trophies. Together with the twelve who won the cups were represented the inter-association League, and the Northern City League, and high honors in the Markham tournament. As a result, and one to be proud of is the fact that the North Toronto team never lost a league match during the season.

Manager Ramsay and Capt. A. Crocker replied briefly to the felicitations; and the first annual banquet of the North Toronto Hockey Club was a matter of history. Among those who kindly assisted during the evening in vocal and musical selections were Messrs. Lawrence, Onley and Collett, the latter an accompanist. Harry Rutheven, as usual, catered in his usual faultless style. The officers of the club are: President S. J. Loughead, vice-president Douglas, Treasurer Ed. Brown and in charge of the finances, Messrs. Ramsay, A. Crocker, E. Brown, J. Pears, J. and Norman Brown. "Solofortos-o-a J. J. d-M-T-C. a

SCARBORO JUNCTION, April 6.—(Special)—A very interesting meeting of the Scarborough Junction branch of the Women's Institute was held at the home of Mrs. Fred Vivian on Tuesday on the "Care of the Sick." An interesting paper was read by Miss Reynolds, in several songs were rendered by Mrs. Vivian and Miss Lola Brown. A demonstration of salads was given by Mrs. N. Camp. The next meeting will be on Thursday, April 13th.

LONDON, ENG. TORONTO, CAN.

MONTREAL STOCK MARKET.
MONTREAL, April 6.— While price movements on the Montreal stock market to-day were somewhat irregular, there were some sharp advances. Richelieu, Toronto Ralls, Quebec Railway, Shawinigan and Porto Rico Ralls were the active issues in the trading. Richelieu, which was the leader, in point of activity, after selling at the opening at 119 1/2, reacted rather sharply to 117 1/2, or 2 1/2 points below yesterday's close, but recovered to 119. Toronto Ralls on active buying advanced to a new high price on the present movement to 121 1/2, but reacted to 120 1/2, with that figure bid at the close. There was active buying of Quebec railway which advanced 2 points above yesterday's close. Porto Rico Ralls had a sharp advance, selling up to 51 1/2 or 2 points above yesterday's close. Shawinigan came into prominence in the late trading by a sharp advance, selling up to 115 1/2, or 1 1/2 points above yesterday's close. Steel Corporation was quiet after yesterday's excitement, and advanced fractionally to 8 1/2.

WALL STREET TRADING.
NEW YORK, April 6.— Trading fell to the low point of the year to-day on the stock exchange; in fact it was the dullist day since July, 1908. The level of prices did not vary perceptibly at any time during the entire session, and even the specialties which were the features of yesterday's market were comparatively quiet. Efforts to create a market for these stocks which have no bearing upon the general market met with no success, and merely served to emphasize the paralysis of speculation, and the unwillingness of traders to make fresh ventures until some clear idea is obtained as to what may be expected in the way of tariff legislation, and the conditions in the anti-trust cases.

WALL STREET POINTERS.
Bank of England rate remains at 3 per cent.
American stocks in London quiet and steady.
Widespread rainfall and heavy snow in the Northwest give promise of large crops.
American Steel and Wire Co. established a new high record in March for shipment of products.
Pig iron production in March at rate of 70,585 tons a day, as against 64,000 tons in February.
Representative Stanley of Kentucky reintroduces resolution for investigation of U. S. Steel Corporation.
Sub-treasury lost \$133,000 to the banks yesterday, reducing the cash net gain since Friday to \$379,000.
Report of sale of Union Pacific holdings of B. & O. to Penna. receives no confirmation at headquarters.
Berlin—Bank of France statement expected to show a loss of 11,000,000 francs in gold, and an increase of over 2,800,000 francs in silver.
Harriman lines placed orders Wednesday for 72,000 tons of rails, divided among the Colorado Fuel and Iron Co., Illinois Steel Co. and Tennessee Coal and Iron Co.
James McCrea, president of the Pan Handle, in annual report, takes independent view and says legislation has put a heavy burden on railways. Roads income for 1910 shows decrease of \$1,985,481.
None of the rail manufacturing subsidiaries of the U. S. Steel Corporation has as yet received formal notice from the Harriman lines placing the order for rails which has been under negotiation for some weeks. The U. S. Steel Corporation expects that its share of the order will be 40,000 tons. The Colorado Fuel and Iron Co. it is said, will get 32,000.

Rio Earnings.
Rio gross earnings for last week as received by cable were as follows:
This year's \$20,620
Last year's 186,958
Increase \$3,362

London Market Steady.
LONDON, April 6.— Money and discount rates were steady to-day. The stock market was depressed by the tightness of money and the poor weekly statement of the Bank of England. Consols declined 3-16, and gilt-edged securities and home rails eased off in

Speculative Interest at Low Ebb In All Markets

SPECULATORS A HINDRANCE TO IMPROVEMENT
World Office
Thursday Evening, April 6.
There was nothing in the Toronto stock market to-day to distinguish it from several preceding days. The best that any of the stocks dealt in could do was to make fractional advances, and at these points prices lacked substance. In most instances securities are easier to obtain than to dispose of, but inside interests are not overburdened, and are not averse to taking small amounts of stock when pressed. The best impression is that the market is building up, but altogether too slowly for speculators, and these at present would only be a hindrance to improvement.

Another Dull Day on Wall St.
Trading Decidedly Apathetic
New York Stocks Register Only Fractional Price Changes—Toronto Market Left About to Its Own Devices.
World Office,
Thursday Evening, April 6.
To-day's Toronto stock market showed no breadth of operations. The list of active shares was small and these evidenced the kindly interest of syndicates. The announcement of the government that securities would cease on steel manufactures was met yesterday by Dominion Steel Corporation shares, but these held to-day by reason of an outstanding short interest. Porto Rico was the only stock which showed any force. Earnings of this company are expected to be such that a small dividend might shortly be made, and the market is in course of preparation for the announcement. Sao Paulo came out in good sized amounts on the afternoon board, and quotations were lowered almost a point from the high because of this. Rio offers a free market for those trading without commissions and fractional scalps make transactions frequent. The prices of Rio declined a good sized fraction from yesterday. Wall Street is particularly apathetic and even C. P. R. could not withstand the absence of speculative enthusiasm. The other interlisted stocks were under equal treatment.

ON WALL STREET.
Erickson Perkins wired the following
to J. G. Beatty, 14 King-street west:
This was the dullist day of the year in stocks, but the tone was steady, and closing prices were but slightly changed. We see nothing in sight to change the market position. We look for a trading situation for the remainder of the week. Interest again centres in the probable action of the U. S. supreme court, which will convene again next Monday. Guesses are less numerous. A "don't care" attitude prevails in many quarters. We think it idle to try to fathom the intentions of the court. Of more importance is the probable trend of business in the meantime. There is a slowing down in many quarters. This means lower prices in our market.
Chas. Head & Co. to R. R. Bongard:
This has been another of the hesitant uncertain days, with a general air of uneasiness. No one particularly cares much to buy and still less to sell. A dribbling of investment buying continues in evidence, which should tend in time to raise the level of the good standard dividend paying securities and has, in fact, so operated to a limited degree. The afternoon session of the board was dull and uninteresting, with a slight setback in prices. Closing was little changed from yesterday's prices. The market is still professional and the buying is not extensive, with a slight dip on breaks and selling on rallies.
J. P. Bickell & Co., from Finley Barrer:
There was a big contraction in the falling off amounting to about 50 per cent. There is less talk about the report of the level of the good standard dividend paying securities and has, in fact, so operated to a limited degree. The afternoon session of the board was dull and uninteresting, with a slight setback in prices. Closing was little changed from yesterday's prices. The market is still professional and the buying is not extensive, with a slight dip on breaks and selling on rallies.

EXTENT OF FAILURES.
In their geographical distribution the failures for the first quarter of 1911 as reported to R. G. Dun & Co., present about the same features as in the former sections as they are in the whole country, namely, that of increased number of defaults and of decreased assets. In the western states the number of failures for the first quarter numbered 2885, as compared with 3225 for the same period in 1910. In the eastern states the number of failures were 287, as compared with 311 in 1910; in the middle states they numbered 1067 as compared with 931 in 1910. In the southern states they were 1510, as compared with 1219 in 1910. In the Pacific states they exceeded the 1910 figures by 65; in the central states by 45; in the western states by 11, and in the Pacific states by 24. The total liabilities of the defaulting firms in the whole country in the first quarter of the year amounted to \$52,651,761 as compared with \$73,075,154 in the first quarter of 1910. This is a decrease of nearly 30 per cent. from last year. The total assets however, were only \$38,800,008, or about 66 per cent. of the total liabilities, comparing with 77 per cent. in 1910.

Lower Prices Reached by Porcupine Gold Stocks

Mining Market Lacks Support And Gold Stocks Decline Again

Porcupine Issues on Down-Grade Under Heavy Realizing—Cobalts Inactive With Some Advances in Evidence.

World Office, Thursday Evening, April 6. The mining markets were almost entirely lacking in support during today's sessions, and prices were lowered considerably in consequence. The declines were most pronounced in the Porcupine stocks, interest being concentrated in these issues that Cobalts were left about to their own devices.

It was noteworthy that the public were good buyers of the gold stocks on the declines, but the purchasing orders were not of sufficient calibre to offset the realizing which prevailed almost throughout the list, and while in some instances a small recovery was made late in the day, prices in the main were around the low points registered.

The higher priced stocks naturally recorded the greatest declines. Hollinger was off 40 points to \$8.50 at one period, but this issue was one of those which were bought in heavily at the lower levels, and the price was lifted to \$8.87 at the close. Rea, the new offering on the board, dropped back a dollar in the bid price, but no transactions were put thru.

Smaller declines were in evidence throughout the lesser priced Porcupines, and Dome Extension, Nippon, Pearl Lake and Preston all sold several points below yesterday's levels. The movement in the gold stocks was reflected in certain of the Cobalts, and Beaver, Chambers-Ferland and Cobalt Lake all sold lower. Rochester on the other hand, was stronger, the shares advancing a large fraction on the report that arrangements had been made whereby the new issue of stock would be all taken up at 50 cents a share. This rumor could not be confirmed, however.

It was stated on the street that the Right of Way Mine had run into gold again, and the stock was quoted up over a point in consequence. The market at the close was depressed, and the big active issues lack of support in most instances.

NO MERGER IN PROJECT.

Toronto interests identified with the Gold Reef Mining Co. deny that any overtures have been made so far with any other properties or companies, as stated by The World's correspondent in Porcupine in yesterday's issue. The Gold Reef property will be worked as a single unit, as it is not the intention of the company to spread out the values to other claims not yet proven.

COL. CARSON ON BOARD

Montreal Financier to Be Director of Rea Mines.

It is announced from Montreal that Col. Carson would be one of the Montreal directors of the Rea Mine, which is controlled by the Consolidated Gold Fields of South Africa. The Toronto interests are also said to be heavily interested in the property.

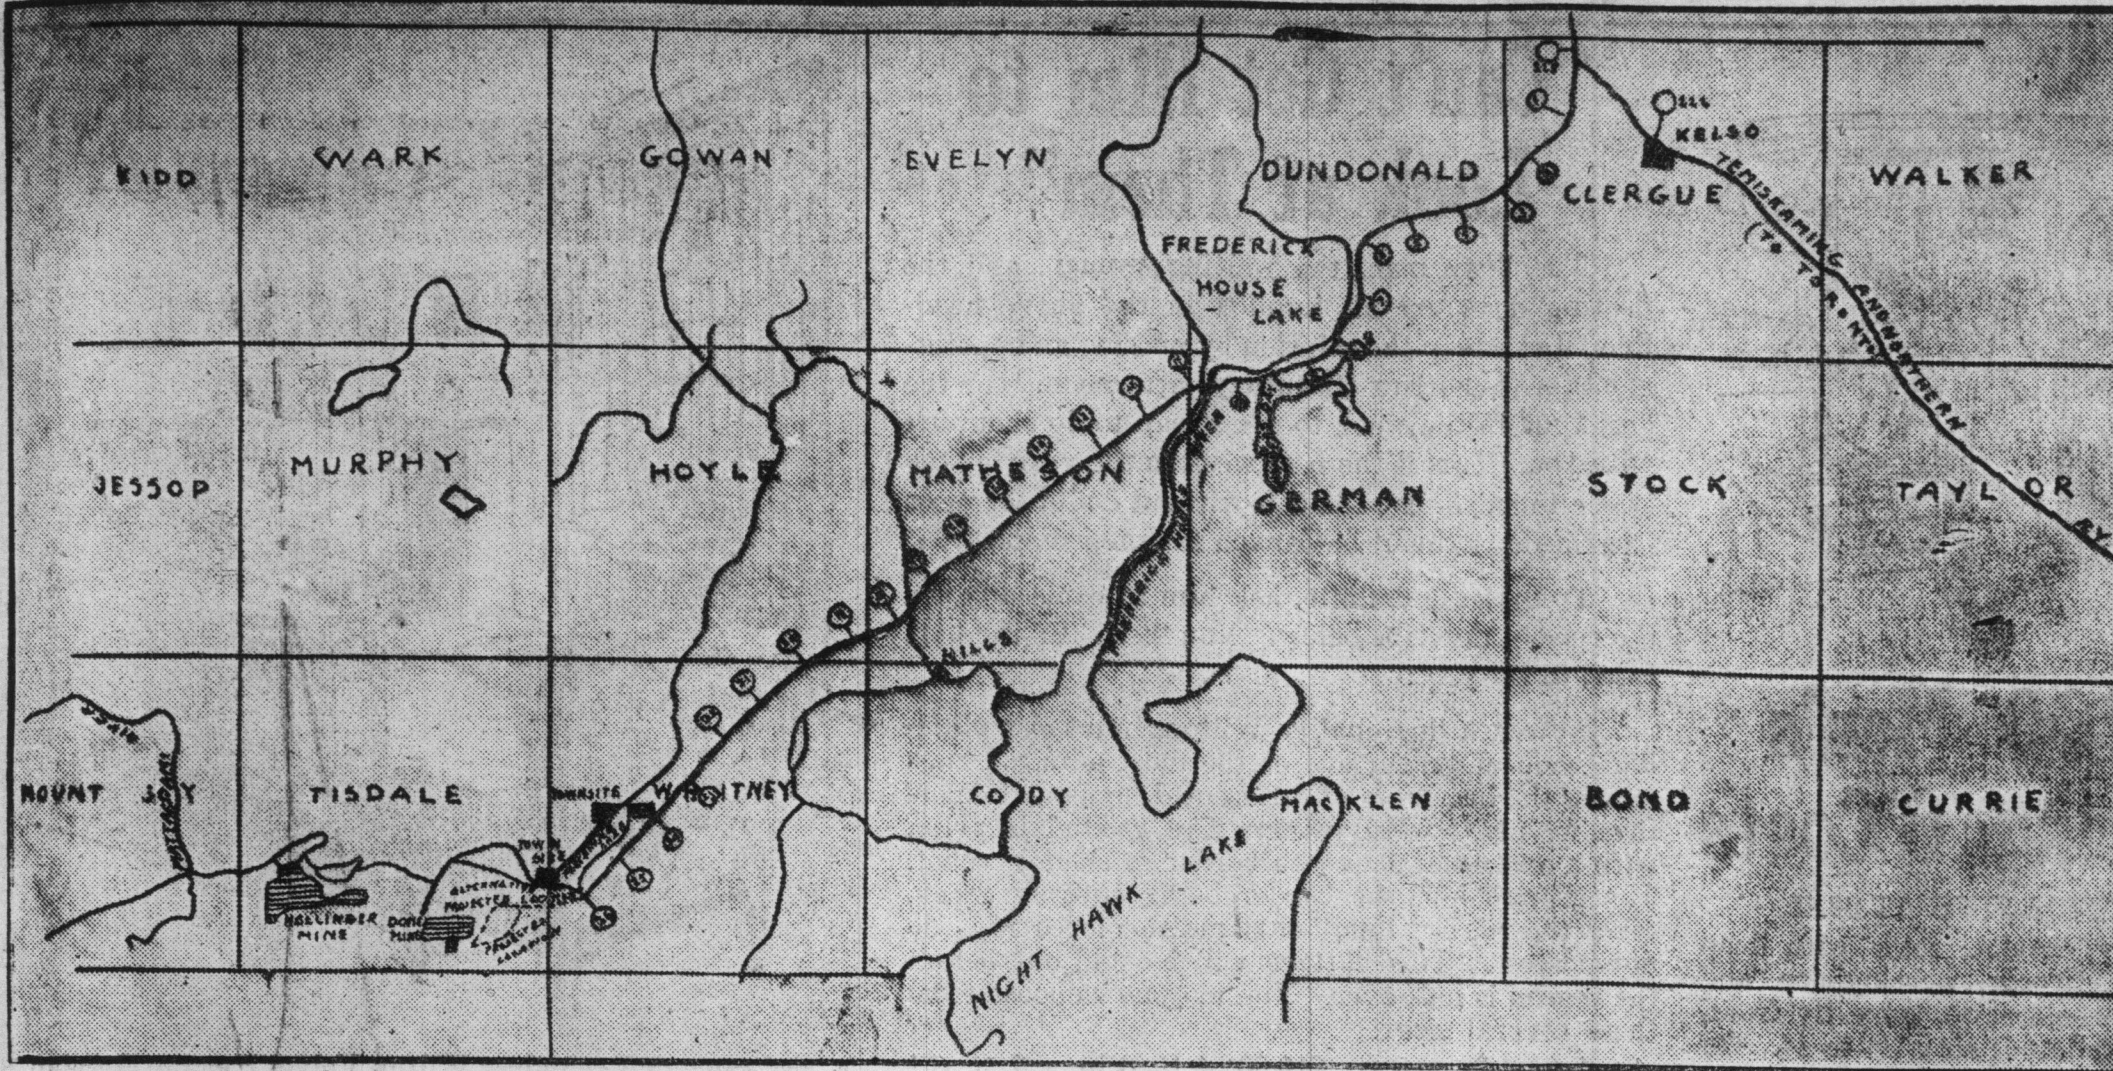

It was understood that other Rea directors would be Louis Webb, the famous mining expert; C. P. Hill, of the Hillcrest Mine; C. Lockhart, of the Mines Finance Co. and two others possibly representing Timmins and Bewick-Mooring interests.

New York Curb.

Chas. Head & Co. report the following prices on the New York Curb: Buffalo, closed 2 to 2 1/2. Cobalt Central, 2 1/2 to 3. K. Rose, 3 1/2 to 4. K. Rose, 4 to 4 1/2. K. Rose, 4 1/2 to 5. K. BOUND FOR PORCUPINE

The Government Railway Now Building to the New Gold Fields up North.

The above map shows the location of the line of railway from Mileage Post 225 on the main line of the Timiskaming & Northern Ontario Railway to Porcupine, a distance of twenty-six miles to the foot of Porcupine Lake.

The steel is now laid for eight miles, and will be across Porcupine River, more than ten miles of the journey, before next Saturday night. Frederickhouse River will be clear of ice and navigable in two weeks up to Hill's Camp, which is shown on the map. The present terminal of the road is at Smith Porcupine, at the foot of the lake, but it is proposed to extend it later on in the direction of the group of mines known as the Domes, and a little later on past the Hollinger to the Mattagami River, which will allow of the navigation of the Mattagami to be in touch with the rails. The main station will be at the townsite at the head of the lake.

Porcupine Gold Camp

LANGMUIR PROPERTIES ARE IN GOOD DEMAND

Three Claims Sold For High Figure—Adjoin Rich Mattson Property.

PORCUPINE CITY, April 4.—(From Our Man Up North.)—Another sale of much prominence in Langmuir Township has been made, and while the price is understood to run up to five figures, nothing definite is given out.

Edward J. Logan of Montreal, representative of the Shamrock Mining syndicate, has taken over the three Heitman, Byrne and Bannala claims adjoining the Victor Mattson bunch, which was sold to McIntosh of New York for \$250,000 last January. The location is in the southern central portion of the Township of Langmuir.

On the one Mattson claim, just west of the Byrne, two veins cut thru at right angles, one a four-foot vein, and the other a 20-foot. Here was where the big values were found, which induced McIntosh to part with so much cash for lots in a practically undeveloped district at the time the deal was made. The 30-foot lead is caught by the Heitman on the north, and the four-foot lead runs into the Byrne to the east.

A small boiler, steam hoist and compressor will be installed here, and face prospecting and sinking which the Nighthawk River is navigable.

Charles Fox.

PORCUPINE WATER IS BAD.

PORCUPINE CITY, April 4.—(From Our Man Up North.)—Microscopical examinations of the lake and well water of the three townships revealed a dreadful state. There is no water in the entire three communities fit for human consumption, and there is agitation on how to have the government take a hand in sinking a public well down to the bed rock so as to get free water for public use.

The water is so bad that it is a means for public nuisance, and the holder is unable to get to a depth that will bring him pure water.

Charles Fox.

SMITH CLAIMS SOLD.

PORCUPINE CITY, April 2.—(From Our Man Up North.)—North Whitney is again in the limelight, and yesterday A. S. Fuller and J. A. Dowling, brokers of Boston, Mass., took over the two Smith claims in the north-west half of Lot 3, Concession 6, Active West to start to-morrow.

Edward L. Forsythe, a well-known western mine man, who closed the deal for the Halleyville Silver lots in Deloro last week, closed the transaction Saturday. He will take charge of the mine.

Charles Fox.

MORE RAILWAY INTERSECTIONS.

Application has been made to the Ontario Railway and Municipal Board by the Toronto Railway for permission to place intersections at Spadina-avenue and Front-street, Queen-street and Spadina-avenue, College-street and Spadina-avenue and Bloor-street and Spadina-avenue. The application also asks for permission to put in the necessary curves and connections.

General Manager R. J. Fleming and Superintendent Guck credit the report that Montreal interests seek to oust Sir William Mackenzie from control of the system.

The reward of \$1 to each of the first six persons bringing information as to accidents Mr. Fleming says is intended to adduce information as to number of the cars and any other information as to the accident they may be able to give of what they have actually seen.

The Alberta Central Railway has been authorized to build bridges across the Medicine and Saskatchewan Rivers west of Red Deer.

PORCUPINE GOLD TRUST HAS 2 PEARL LAKE LOTS

Subsidiary Company to Big South African Trust Gets Richardson-Shillington Claims.

PORCUPINE CITY, April 4.—(From Our Man Up North.)—Engineer James Miller, with the Jupiter Mines, Limited, and also representative of the Porcupine Gold Trust, a subsidiary organization to the South African Trust, returned yesterday from Montreal, where he went a week ago to close another deal, in which his company is interested.

The two Shillington - Richardson claims, just north of the Armstrong-McGibbon holdings, at the east end of Pearl Lake, were taken over by the Porcupine Gold Trust for \$150,000, and this morning 29 men were set to work on the property.

The two recently acquired lots will be prospected and worked this summer. Although no information is given out relative to the future intentions of the Porcupine Gold Trust, it is believed that when the property is developed and shown to carry values at depth, as are handsomely exhibited on the surface in quartz leads that carry sulphides in quantities, the holdings will be turned into a company and stock put out.

The two Shillington - Richardson claims are admirably located in a section of the belt where leads carry in great width.

Charles Fox.

REVISION OF WATER RATES

Report Will Be Based on Proposed Frontage Tax of 3c Per Foot.

There was a brief session of the civic works committee's sub-committee on water rates yesterday afternoon and George H. Mitchell, the detail expert of the waterworks branch, was asked to prepare a revised schedule showing the different rates charged.

He will also bring in suggestions for a revision of the rates, taking into consideration a proposal to charge a frontage tax of 3 cents per foot on all frontages, including vacant lands, with a view to fixing a flat rate on ordinary consumers who get their water thru meters. He will also deal with the supply to manufacturers who use metered water.

NOT FIT FOR FOOD

Montreal Health Department Investigating Cold Storage Fish.

MONTREAL, April 6.—Two or three tons of fish in a city cold storage warehouse are being withheld from sale until the bacteriologist and chemist of the medical health department have made a report.

"People have an idea that because fish is kept in cold storage it cannot deteriorate," said Dr. Louis Laberge this morning. "That is an error. There is a certain amount of deterioration which makes it necessary for us to inspect cold storage fish at times. Our inspector says this fish is not fit for food, and the merchant says it is. If it is not dangerous we will let it go."

Winnipeg Improvements.

Winnipeg will spend \$1,500,000 on permanent improvement work this year. This money will be laid out chiefly on new streets and sewerage service, asphaltizing and the like.

The new union station has not been occupied yet, but it is found necessary to enlarge it, and two storeys will be added, making the building a six-storey structure. This will not delay using the station as far as it is finished and occupation will start this month.

Standard Mines Have Shafts Down 40 Feet

Hum of Activity Will Soon Be Heard in Deloro—Sensational Finds Made.

PORCUPINE CITY, April 4.—(From Our Man Up North.)—A boiler and steam hoist have been installed at the Standard Mines just across the line in Deloro south of the Callinan claims, recently sold, and within a few days work will start up in this quarter, at a rapid rate. Two shafts are down now on this property to a depth of more than 40 feet on two different levels.

Last week most sensational finds were made at the bottom of the shaft on the most northerly lead in the sulphides, with an average run after the free gold was molten of 82 1/2 per cent.

This is the property on which the lenses of gold were found a year ago when the quartz lead on the surface was first opened.

For some time mine men have watched carefully the development of the leads in this section, as it appears that just south of the Tisdale south boundary line a sectional dyke runs east and west, from the Bridges on the east to the Imperial on the west. All along this dyke free gold has been located. More work to determine the true nature of the vein was awaited.

It is understood that capitalists from Arizona are endeavoring to round up the holdings of the Imperial and the Standard, as well as that of the Bridges, but nothing definite has been announced.

Chas. Fox.

WANT \$43,000 BACK

Paving Company Prefers to Give Bond Covering Four Years.

A somewhat unusual request is so common before the civic works committee this afternoon, when the Constructing and Paving Company will request that the \$43,000 drawback held by the city treasurer for work, the guarantee limit of which expires in 1912-13-14-15, be paid over to them. Instead of leaving this amount of cash on deposit with the city treasurer, they ask that they be permitted to give a guarantee bond. They agree to furnish a bond that will be approved by Mr. Coady.

The Molson Bank and several other banks have forwarded a complaint to the civic works committee regarding the first lane running west from Keele-street north of Dundas. They suggest that it be paved and put into reasonable shape.

The laying of concrete walks by day labor as suggested by the trades and labor council, the engineer says, is one of policy which council should decide.

The assessment commissioner and the city engineer report that it will cost \$4600 to widen Bloor-street to 88 feet between High Park-avenue and Quebec-avenue.

The rounding of the corner at the corner of Bloor-street and Lansdowne-avenue, at a cost of \$2000 for 21 feet is reported against.

For sanitary reasons the city engineer reports that the Garrison Creek should be continued between Ossington-avenue and Shaw-street at a cost of \$25,000.

The 'New Persian Ministry.

Persia has a new ministry headed by the Sipahdar as minister of war. The other portfolios are filled thus: Public works and education, Ala-es-Sultaneh; Interior, Mushtashar-ed-Dowleh; finance, Mumtaz-ed-Dowleh; posts and telegraphs, Muavin-ed-Dowleh; foreign affairs, Motehem-es-Sultaneh.

Mutamin-ed-Mulk succeeds Mumtaz-ed-Dowleh as president of the majlis, or parliament. The ministry has issued a declaration of policy under twelve headings, all of them absolute by common-place. However, the combination is regarded as sincere and fairly strong. The Sipahdar has the confidence both of the Persian people and of the foreign governments.

Russia has made a beginning of withdrawing her troops from northern Persia.

MAY LAY PONTOONS TO-DAY

Some Progress on Raising Broken Pipe—Typhoid Situation Assuring.

Up to about 4 o'clock yesterday afternoon Superintendent Leslie and his men were able to work out on the lake preparing for the raising of the broken pipe, then the rough sea made it necessary to abandon efforts.

Some men are at work on the pontoons to the pipe have been put in place. With good weather it is expected to sink the pontoons to-day and the first length of the pipe will probably be raised to-morrow.

Another case of typhoid fever was reported yesterday. This makes only five this month.

The latest analysis of the water shows it to be quite safe but Dr. Hastings advises those who are timid as to its purity to boil it.

A new land office and a new railway station will be built at Dauphin, Man., and the waterworks and sewer system will be finished this year.

Carry Mails by Relays During the Break-up

Service Into the Porcupine Will Not Be Discontinued During Spring Thaw.

PORCUPINE CITY, April 4.—(From Our Man Up North.)—Postmaster Lloyd announces to-day that the firm now carrying the mails have a year's contract for a trip each way daily, and that the mail man will make daily trips during the break-up. Just how the mail stage driver can accomplish so difficult a feat in getting over water and ice during thawing times is not known, but it is pointed out to carry the bags from Kelso to the river, and then relay to others who will take the mail on to Hill's, where another relay will take place for the last lap of the journey into Porcupine. From three to four mail bags arrive here daily, and not less than two well-filled ones go out each day.

Charles Fox.

HOW TO SAVE MONEY

A Pointer to Housekeepers. Look at the financial side of Zam-Buk's use. A cut sustained in the home, the store or the workshop, a sore which is unattended, results, say, in festering or blood-poisoning. You have to lay off for a day or two. What does that mean when pay day comes round? Zam-Buk insures you against that loss! A little Zam-Buk applied to such an injury prevents all danger of blood poisoning, takes out the smarting and heals.

Heads of families know how costly doctoring is. Be wise and act on the preventive line. A box of Zam-Buk in the home is so all-round useful. The baby's rashes, the older children's cuts and bruises, the inevitable burn, cut or scald—for all these, as well as for more serious ailments, such as piles, ulcers, eczema, ringworm, etc., Zam-Buk is without a rival.

Dangers of Shaving—You got a cut at the barber's shop. A little Zam-Buk smeared on the wound prevents all danger. If any ailment has been contracted, Zam-Buk cures. Mr. George Hobden, 108 Manitoba-street, St. Thomas, Ontario, says: "I contracted barber's rash, and the whole of my left cheek broke out in one mass of red, watery pimples and sores. These spread to my eyes, and the inevitable burn, cut face and neck were covered with running sores. How far the disease would have spread had it not been for Zam-Buk, I don't know. I applied this balm, and in a short time Zam-Buk effected a complete cure."

Zam-Buk Soap is as good as the balm, but in a different way. Washed in Zam-Buk Soap the skin is disinfected and disease germs lying upon it are killed. Mothers will find it unequalled for baby's bath.

Zam-Buk Balm and Zam-Buk Soap are sold by all druggists and stores at 50c for the balm and 25c for the soap.

MICHIGAN ANTI-SALOON LEAGUE GETS SETBACK

Superintendent of League Admits Not Ready Yet For State-wide Prohibition.

LANSING, Mich., April 6.—(Special.)—Eighteen of Michigan's counties, eleven dry and seven wet, have voted on the prohibition question this week and their electors have given the anti-saloon league the greatest setback it has yet received in Michigan.

Three years ago that organization carried ten counties. The liquor interests looked on passively. Two years ago 18 more counties went dry. The liquor interests began to take notice. In 1910, 38 counties voted. When the election was over 40 counties were dry, at least a prohibitory law had been adopted. The liquor dealers organized and began a campaign of education.

The week came the test of the sanity and reasoning powers of the citizens. The results were not consoling to the anti-saloon league's prosperous agitators. Only 38 counties now have the prohibitory law, and Superintendent George W. Morrow, of the anti-saloon league, announced that Michigan is not yet ready for state-wide prohibition. Michigan tried prohibition from 1833 to 1837, and then rejected it. In this week's election the anti-saloon league lost three big counties, which had tried prohibition for two years, and gained only one hitherto wet county. Contests are in progress which are likely to reduce the total of wet counties to 38.

Wet counties, which rejected prohibition, are Kalamazoo, with the city of Kalamazoo having 69,000 population; Cheboygan, with the cities of Cheboygan, Wolverine, and Mackinac; Alpena, with the city of Alpena; Huron, with the cities of Bad Axe, Figeon, Sebawing and Grindstone; Montmorency, with the cities of Hillman and Lewistown; Iosco, with Oscoda and East Tawas.

Dry counties which have repudiated prohibition after two years' vain effort to enforce the law: Calhoun, with the cities of Battle Creek, Albion and Marshall; Jackson, with Jackson City and Hartsville; Montcalm, with the cities of Plint, of automobile fame; Montcalm, with the cities of Ionia, Newaygo, Sanilac, Tuscola, Emmet, Benzie, Clare and Allegan all repudiated prohibition, but by very much reduced majorities. Sanilac County, simple, and this is a farmers' county, voted dry two years ago by 2,200 majority, but this year the majority for prohibition was only 400. Montcalm County, which has been switching back and forth for a score of years is dry again by a very few votes.

The strength of the anti-saloon league is dissipated in Michigan, and the recent spasm of effort in favor of summary legislation by referendum is dying, according to political observers in the capital here. Until this week the anti-saloon league lobbyists here were supposed to be powerful. To-day they are openly ridiculed. The legislature has just adopted, in the house of representatives, a bill which gives the saloons the right to remain open on certain minor holidays, like Washington's Birthday, Lincoln's Birthday, Columbus Day, etc. This demonstrates the weakness of the anti-saloon league.

In some of the counties voting the result was very close, but the dry majorities totaled 2,400 out of a total vote of 150,000, while the wet majorities totaled 4,800. There are now in wet territory about two million population, while in so-called dry territory are only 700,000.

Irreverent Robert.

Robert, aged ten, was playing with the other boys, when his mother, who had been listening to his conversation, called him.

"Robert," she began, in a grieved tone, "I never thought I'd hear you swearing."

"Why, I wasn't swearing, mother," the boy defended himself. "Only said 'the devil.' That isn't swearing."

"Well," replied the mother quickly, "maybe it isn't exactly swearing, but it is making light of sacred things."

PORCUPINE

As we are not engaged in or connected with the promotion or flotation of Porcupine securities, we are in position to give unprejudiced advice regarding purchases and sales. Our Statistical Department will gladly furnish special reports on any stocks in which you may be interested. Commission orders on Porcupine, Cobalt, New York Curb, Boston and Atlantic stocks promptly, carefully and satisfactorily executed.

"Can't Get Him to Look at Them"

The busy man, the waiting woman, and the fleeting days are all implied in the above headline. Let's help the solution by making an appointment for to-morrow (Saturday) afternoon. It's the best time in the week to get a man to do shopping with you. This is the best week in the year for the Home Furnishings. This is without doubt the most elegant department in Canada for their display.

To make it definite, ask him to come and see the rug we describe below. You'll say it's the best value in the city:

An extra fine quality Wilton, in a most pleasing shade of green; one of the most admired rugs among the hundreds of different designs and colorings we are now showing. The ground is plain, with a green floral wreath border in shadow relief. The ground and the border being entirely green, gives the rug a "tone" that multi-colored rugs do not possess. This pattern will be sold out before the season is half over. You may now choose from these several sizes:

4 ft. 6 in. x 6 ft., \$10.00; 4 ft. 6 in. x 7 ft. 6 in., \$12.50; 4 ft. 6 in. x 9 ft., \$15.00; 6 ft. 9 in. x 9 ft., \$32.50; 9 ft. x 10 ft. 6 in., \$32.50; 9 ft. x 12 ft., \$37.50; 11 ft. 3 in. x 12 ft., \$47.50; 11 ft. 3 in. x 13 ft. 6 in., \$55.00.

While you are in looking at this rug, you should

Nottingham Lace Curtain Sale

see some new seamless Wilton Velvet Rugs in Persian designs, the very best quality made. There are three sizes at these special prices for Saturday only:

3 x 3 1/2 yards, \$15.99; 3 x 4 yards, \$18.99; 3 1/2 x 4 yards, \$22.99.

Saturday closes our special sale of Nottingham Lace Curtains. As previously announced, these Curtains are this season's selections, and represent the newest and best styles in Nottingham. If you have not already shared this big saving, come Saturday.

Nottingham Lace Curtains, 50 inches wide, 3 1/2 yards long, new designs and good qualities; a large range of choice. Saturday's sale price, per pair79

Nottingham Lace Curtains, 50 to 60 inches wide, 3 1/2 yards long, many patterns, including several designs which are copies of Swiss curtains. Saturday sale price, per pair99

Nottingham Lace Curtains, 50 inches wide, 3, 3 1/4 and 3 1/2 yards long; very pretty point d'esprit centres, with lace insertion borders. Saturday sale price, per pair 1.29

Red Cedar and Matting Boxes

For service and appearance, these Matting Boxes are not equaled. Each box is well made, bamboo trimmed, burnt work scroll design on feet and handles, braced corners, hinges and lid supports; some mounted on castors, some with trays. Selling at close prices. Saturday 2.75 to 10.00

Nottingham Lace Curtains, 50 to 60 inches wide, 3 1/4 and 3 1/2 yards long, including fish net designs, extremely durable and effective. Saturday sale price, per pair 1.39

Nottingham Lace Curtains, 50 inches wide, 3 1/2 yards long, fine mesh and dainty floral spray designs for the bedroom windows. Saturday's sale price, per pair 1.59

Nottingham Lace Curtains, 50 and 52 inches wide, 3 1/4 and 3 1/2 yards long, particularly strong, in renaissance effects, and of the finest quality. Saturday's sale price, per pair 1.89

Nottingham Lace Curtains, finest quality, will outwear almost any weave, elegant designs for any window, 52 and 54 inches wide, 3, 3 1/4 and 3 1/2 yards long. Saturday's special sale price, per pair 2.39
