HAMILTON MOVES FIRST TO PROTECT CHILDREN

Fire Escapes to Be Put on Schools - Fire Drill to Be Perfected - General News.

HAMILTON, March 5.—(Special).—As a result of the Cleveland school disaster, the board of education committee decided to take action this evening to improve the equipment of the public schools.

Drill instructor Higgins was also instructed to take charge of the fire drill and make it uniform in all schools. Six girls will also be installed at all schools of more than two stories, and the building committee decided to ask for senders at once for fire escapes for the Cannon, Hess and Victoria-avenue schools.

City Engineer Barrow has decided to hand in his resignation, and there will probably be a lively fight in the city council Monday evening, when it will be considered.

Schools Without Fire Escapes. Chief Ten Eyck says that none of the public or separate schools are equipped with fire escapes.

The residents on the mountain east of Westwood-street are petitioning for annexation to the city, in order to get a water supply.

EDUCATION ESTIMATES WOULD LARGE SUMS

\$60,000 for Enlargement of Harbord Collegiate Institute to Be Asked.

All the estimates which the board of control will be asked to finance were passed by the board of education last night, to the amount of \$1,461,004. It became necessary to add \$100 to the annual school estimates account and \$100 for high school certificates, which had been overlooked.

The total maintenance of the technical high school is figured at \$44,782, less \$3872, for students' fees, leaving \$40,910 to be provided by the city. For colleges and high schools \$113,829 is required, less \$24,297, government grant, leaving \$89,532. Public school maintenance, \$850,000, additional high school accommodation \$145,000; new buildings, additions and new sites, public schools, \$27,147.

As a step towards arriving at an equitable and fair scale of salaries for teachers of all departments, Dr. Hunt moved that the secretary write to eight Canadian cities and secure the schedules of salaries paid for the years 1904, 1904 and 1905.

The inspectors will be asked to report upon what professional, physical, religious and efficiency standards, teachers are recommended for appointment to the staff.

Mr. Houston gave notice of motion to the effect that first classes in the public schools be enlarged to include the same commercial course as employed in the technical schools, to be made optional with the pupil.

NEW ELECTION ORDERED FOR THE HORSE BREEDERS

Irregularities in the Last One Because of Barring Out Some Societies.

The statement that a new election of directors of the Ontario Horse Breeders' Association will be held owing to the irregularities in the last annual election on Feb. 14 last, was made at the meeting of the Canadian Pony Society last night.

There has been much dissatisfaction among the members of this latter organization and also in the Standardbred Association and Thoroughbred Society, because of the irregularities which were ineligible to vote under the provision whereby only breeders or importers were declared to be so qualified.

Carrying out the provisions of the newly adopted constitution the following gentlemen were appointed inspectors for record purposes: A. E. Major, Whiteville; Robert Miller, Stouffville; H. A. Cox, Brampton; J. H. G. Carberry, Man. H. M. Johnston, Doncaster; E. C. H. Tidale, Beaverton; P. McCullough, Markdale; C. S. Read, Ottawa; Dr. J. H. Ford, Toronto; Robert Graham, Bedford Park; Robert Taber, Condie, Sask.; W. R. Mead, Norway.

A CHAIN OF CATS. Five Were Joined Together Like Siamese Twins. OTTAWA, March 5.—A fine looking grey and white tabby cat recently gave birth to five perfectly formed kittens, all joined together in Siamese twin fashion. The weanlings lived for a week with a dog apparently perfectly happy among them, and then were accidentally killed by the parent in an excess of parental affection and regard for their safety. The entire five were joined together in a row, side by side.

NOTE AND COMMENT

Spring cannot be long delayed—the sun is strong, the days are perceptibly lengthening and now the entries given out by the Ontario Jockey Club of the King's Plate, Stanley Frodoe Stakes, Brokers' and Maple Leaf stakes, which closed March 2, are unmistakable signs that the early spring flocks may soon be looked for and winter left well behind.

In the list of the thirty-seven entries for the Plate, no less than twenty-eight are three-year-olds. Little is known of the first four on the list, Milnamk, Goodhennes, Nimble and Henry Forstall. Captain, a four-year-old, showed a great deal of speed last year, but seemed to train off. In the hands of Tim Gaynor, both of the horses comprising the entry from Barrie carried silk in 1907 and are sure to attract attention. A note was made of the race run by Courtown II, when he finished a good third to Johnnie Bell and Sir Bala at Hamilton last spring.

Flying Arrow, now owned by T. P. Phelan, is a smashing fire horse, good looking enough for anything, and said to have done well when at Woodbine last year. Of the entry from Newmarket, New Gull satisfied his trainer as a two-year-old, he was "marked" for a good looking colt. Friday last, when at the Horse Show, where he was down in a class for thoroughbred stallions foaled subsequent to January 1, 1905, he was in the same class at the same show. Will history repeat itself?

Mr. Seagram has entered eight, of which the good looking Half a Crown is the only one of the entry not a three-year-old. Half a Crown was only beaten a head last year; the increased weight which he will have to shoulder on Saturday, March 14, will allow him the service of a man in the saddle, which should be to his advantage. Milverton, by Milner, a three-year-old, is a very good looking colt, the sire of Gaiter More (Kendal), John Porter tells us, could make Ormond gallop as fast as any horse in the country by himself. Rudstone, by Thiborne from Adeline, illustrious as the grand dam of St. Simon, is a fashionable bred as any horse in the country. The president's entry, the Mill on the Floss, a four-year-old, is a sharp looking racing filly.

The Valley Farm Stable has an entry of five, with the fillies Shiloh-staler and the Linte, the latter a half sister to their game little mare, Keils, both of which were repurchased from the Kirkfield Stable, together with Kirkfield, a two-year-old, from the same stable. Wicklight, who with Antrim Maid, will represent T. Amos Woods, the owner of the yearling, is a good looking filly, who has improved wonderfully in appearance and is a fine looking five-year-old—older than the few better looking horses in the field than the brother to Wire in and War Whoop. The Woodstock Stable, presided over by the veteran John Boyle, has a quartet to choose from.

It is most interesting to note the number of good imports that have been introduced into the service of breeders in Canada and better horses foaled in the Province of Ontario in the future. In the list of mares entered by the president of the Ontario Jockey Club, the breeding enthusiast in the Golden Garter, Blairfinn, Donovan, St. Blaise, Royal Hesperion, Cyrene and Common, all sires of mares owned by Mr. Seagram, who has been matched to such horses as St. Amos, Milner, Havoc and Pershere.

Verily may, the Ontario Jockey Club will pride to the entry in the Stanley Produce Stakes and note the numbers of mares entered here by the breeders of Ontario and reflect upon the great good which must follow year by year to the horse breeding interests, not only of this province, but to the whole of Canada from such a constant distribution of thoroughbred blood.

As suggested in this column last fall, the proposed race track bill has been proposed in the legislature, and Herb Lennox, M.L.A., is its author. But is not the proposed measure too drastic? By its each Ontario track would be restricted to sixteen days in the year and this would interfere with the G. J. C.'s thirteen days in the spring and sixteen in the fall, which no one in reason ever charged was too much. The Jockey Club's limit, might well be adopted as the maximum by Mr. Lennox.

The determination of the C.A.A.U. to hit back at the Sporting Globe Union is forcing Jim Whitton to work as time. Yesterday an anonymous correspondent, done by the same typewriter machine, which advances notices of various guides are produced, reached this office, giving the articles of alliance between the A.U. and the professional Quebec Federation, and the account of the visit of the Buffalo boxes to the recent championships.

RECORD'S The only Remedy which will permanently cure Gonorrhoea, matter how long standing, is the only one of its kind. It is a safe, reliable, and effective remedy without any of the disagreeable effects of other remedies. It is sold by SCHOFIELD'S DRUG STORE, 404 STREET, COR. TREASURY, TORONTO.

Canadian Bureau of Breeding Extends from Quebec to Rockies

The Canadian National Bureau of Breeding, whose organization was first announced in The World, has made rapid strides during the past month and now extends from Quebec to the foothills of the Rockies. The greatest demand for thoroughbred stallions comes from Alberta and Saskatchewan. Owners of ranches in these provinces have written to the bureau describing the immense facilities for breeding there. They claim that they are able to give a colt "the foundation" because the dam can be turned out with her foal in rich pastures and the foal is brought up in the hands of the dam. Their whole aim is to get stallions and that he will take ten stallions to one of the Canadian League of breeders.

PARKDALE TRIM. A. A. BERTRAND, BRATFORD 6

O.H.A. Season Closes To-Night at Midland With Collingwood — Toronto Cup Dates.

HOCKEY RESULTS. Junior City Championship. Parkdale, 4; A. A. Bertrand, 3. North Toronto, 7; St. Pauls, 1. Avenue-road, 5; St. Andrew's, 1. Exhibition, 3; Watford, 0.

Parkdale Canoe Club Juniors successfully defended their title in the championship regatta, held at night, winning by a score of 6 to 2. At half time the score was 3 to 0.

Both teams were plainly out of condition and the fast pace at the start was a surprise. The Parkdale team received an accidental crash over the head that required four stitches, respectively. The game was a fair exhibition of hockey, but resulted in favor of the Midgates by a score of 6 to 0.

Strathroy Beat Midland. WATFORD, March 5.—A slightly exciting game of hockey was played here in the local rink to-night between the Strathroy Tormentors and the Watford Midgates. The game, although slightly one-sided, was a fair exhibition of hockey, and resulted in favor of the Midgates by a score of 6 to 0.

Berlin 5, Brantford 6. BRANTFORD, Ont., March 5.—Berlin defeated the local professionals here to-night in the Ontario Hockey League, by a score of 5 to 2. The teams: Berlin (G. Goss, goal; center, Brown; cover, McDonald; rover, Taylor; right, Robinson; left, McKinnon). Brantford (G. Goss, goal; center, Brown; cover, McDonald; rover, Taylor; right, Robinson; left, McKinnon). Referee, Pete Layton.

Field Defeats Shaw. A large crowd witnessed the swimming contests at Central Y.M.C.A. last night, the special feature of the night being the match race between W. Shaw of Varsity and A. H. Field of Central. Both men are captains of their respective clubs and the contest was taken in the race.

The race was 50 yards, Shaw winning the first in 35 seconds, while Field took the second in 32 seconds. The final heat and the match was won by Field, Shaw not finishing.

The Toronto Hockey League is now in the hands of the Wanderers for the Stanley Cup. The Wanderers, under the leadership of Frank Switzer, have defeated the local professionals here to-night in the Ontario Hockey League, by a score of 5 to 2.

Rapid Strides Made Within a Month and Now Branches Are Established in Four Provinces - Demand for Stallions.

The Canadian National Bureau of Breeding, whose organization was first announced in The World, has made rapid strides during the past month and now extends from Quebec to the foothills of the Rockies. The greatest demand for thoroughbred stallions comes from Alberta and Saskatchewan. Owners of ranches in these provinces have written to the bureau describing the immense facilities for breeding there. They claim that they are able to give a colt "the foundation" because the dam can be turned out with her foal in rich pastures and the foal is brought up in the hands of the dam. Their whole aim is to get stallions and that he will take ten stallions to one of the Canadian League of breeders.

ROYALS IN ATHLETICS TO-NIGHT

Big Program for Their Indoor Meet — List of Officials.

The outlook for the Royal Canadian Amateur Athletic Association's indoor meet to-night at the Ryerson Gymnasium is very bright and the present indications are that an unusually large crowd will be present. The program is a rather extensive one and some excellent sport should be furnished. The feature event, the two-mile steeplechase, will be contested as an added attraction, and will repay the crowd, the novelty of the event being that it is a jump, to be negotiated, making a race rather than a Canadian track follower. The 1000 yard handicap, will be contested by Roy and Olan, who are both of the Royal Canadian Amateur Athletic Association.

Enriches For the Kings Plate Stake Events

Canada's Greatest Horse Race to Be Run on May 23 at Woodbine Park Has a List of 37 Candidates—85 in Stanley Produce.

The Ontario Jockey Club Stakes, which closed March 2, have filled more than well, in every instance but one showing an increase.

The King's Plate has a list of thirty-seven, as against thirty-three last spring. As usual, they come from all over the province, from Windsor to Ottawa. The big stables are strongly represented, and the smaller breeders are again present in large numbers.

The Stanley Produce, with \$1500 added, for mares covered in 1907, to be run in 1908, has no fewer than eighty-five nominations, as against sixty-two last year. The Breeders' Stake, 1000 added, for three-year-olds, foaled in Canada in 1907, to be run in 1908, following are the entries:

The King's Plate, 500 added, (the gift of His Majesty) with \$200 added by the club; the first horse to receive the golden stakes and \$250; the second horse and the third horse the breeder of the winner to receive \$200, 140 miles; a place of plate will be presented by the club to the winner, declarations Friday, May 8; to be run Saturday, May 23.

95 CARS AT THE YARDS BEST CATTLE SELL STEADY

Common Grades Easier—Sheep, Lambs, Calves Firm—Hogs, Easy at \$5 Cwt.

Receipts of live stock at the City Market, as reported by the railways for Wednesday and Thursday, were 56 cars, composed of 181 cattle, 388 hogs, 719 sheep and lambs, and 154 calves.

The quality of fat cattle generally was not as good as last week, too many of the rough, half-bred classes being offered, in comparison with those of the better class.

There was all right for the finished cattle, but the common, rough cattle were sold at lower prices and the market was slow and drab.

Exports. One load of export steers, weighing 1225 lbs., was sold at \$10.00 per cwt.

Butchers. Prices for the best picked butchers were not any higher than \$10.00 per cwt.

Feeders and Stockers. There was little doing in feeders and stockers, said Harry Murby, but steers, 800 to 1000 lbs., are worth \$3.40 to \$3.75.

Sheep and Lambs. Export sheep sold at \$4.50 to \$7.25 per cwt.

Hogs. Receipts were not so heavy as last week, but the market was steady.

Representative Sales. Maybe, Wilson & Hall sold 7 butchers, 1000 lbs. each, at \$4.75 to \$5.00.

Breeders' Stake. Breeders' stake, for three-year-olds foaled in 1907, to be run in 1908.

Stanley Produce Stakes. Stanley Produce Stakes, 1000 added, for three-year-olds, foaled in 1907.

Maple Leaf Stakes. Maple Leaf Stakes, for three-year-olds foaled in 1906, and owned there at time of starting.

Market Notes. John Dunn, receiver of Beaverton, was a visitor at the market for the first time since Christmas.

Settlers' Trains. Settlers' trains will leave Toronto every Tuesday during March and April.

Public Works Department. Public Works Department to investigate the accounts of the Supreme Court.

PROTECT OUR SCHOOLS. PROTECT OUR SCHOOLS. PROTECT OUR SCHOOLS.

SHALL THE PEOPLE RULE? SHALL THE PEOPLE RULE? SHALL THE PEOPLE RULE?

PUBLIC MEETING in MASSEY HALL, on FRIDAY Ev'g., March 6th, 1908.

Under the auspices of Toronto Citizens' Committee, to consider the action of the City Council in refusing to submit the License Reduction Bylaw.

A VOTE OF THE PEOPLE. Addresses by prominent citizens in all walks of life. Chair will be taken at 8 p.m. Doors open at 7.30 p.m.

Vocal and Instrumental Concert by 48th Highlanders' Band. A. R. BOSWELL, Chairman. W. J. HEVEY, Secretary.

AMUSEMENTS. PRINCESS MATINEE SATURDAY VIOLA ALLEN "IRENE WYCHERLEY" March 9, 10, 11 - The Dairymaids.

THE ROYAL ALEXANDRA. MATA, THUR., SAT., 25c, 50c; Evenings, 25c, 50c, 75c. TO-NIGHT AND ALL WEEK THE LIARS A Comedy by Henry Arthur Jones. Phone Main 3006, 3001.

TRUSTS WRITE THE TARIFFS. Representative Hitchcock Speaks of Gigantic Schemes of Plunder.

WASHINGTON, March 5.—The charge was made on the floor of the house of representatives by Mr. Hitchcock of Nebraska, that the committee on ways and means had been a party, either knowingly or in ignorance, to gigantic schemes of plunder.

"He declared that the paper 'trust' wrote into the Dingley bill the paper schedule; that the 'trust' wrote the lumber schedule; the steel 'trust' the steel schedule; and the other 'trusts' wrote other schedules affecting their interests.

The real object of those who secured the Dingley tariff on paper, he declared, was to capitalize the water and spruce forests of the United States, form a great monopoly and raise the price of print paper in America.

WANTED TO BE "FIXED." NEW YORK, March 5.—A charge that he agreed to pay \$1000 to Nathan Vidaver, an attorney, last November, to bring about a cessation of newspaper attacks upon the Hamilton Bank, after Vidaver has said, "I would not have the attacks stopped," was made by William R. Montgomery, former president of the Hamilton Bank, in an affidavit filed in the police court today.

Up to his arrest yesterday, Vidaver was one of his State attorney Gen. Jackson's special deputies.

Trying Again. Mary Anne Tidy's suit against the Toronto Railway Co. for \$2000 damages for injuries sustained in falling from a trolley car at the corner of Queen and Yonge-street, about a year ago, was re-opened before Chancellor Boyd in the jury session yesterday. In the former hearing the jury disagreed.

Week's Remand Conty. Justice Magee granted an adjournment until Monday of the injunction proceeding to restrain the Ottawa and Cobalt Mining Co. from hauling timber from a location near Halesbury.

The private bills committee referred to the assistant provincial secretary the bill introduced by Mr. Preston (Durham), which was intended to revive the charter of the Port Hope Gas Co.

DIDN'T SEE ACCIDENT TOOK VICTIM'S WORD

Was to Get Proportion of Verdict Says Steele, Accused of Perjury.

William Steele, 16 Grant-street, one of the two young men charged, with Rupert Baseman, 301 Parliament-street, with committing perjury at the hearing of Baseman's action for damages brought against the Street Railway Co. at the last sittings, is now willing to help the crown when the case is called in the police court to-day.

He said last night that he had not seen the accident, which happened at Parliament and St. David-streets, but that he had been at Parliament and Queen-streets and had seen the crowd up the street.

He knew Baseman and had met him on Queen-street, when Baseman had asked him to be a witness in the case. Baseman had promised to make it all right with him and was to give him money in proportion to the verdict which he might give against the company. He had said it might be as much as \$300.

I only swore that Baseman said true and he said that the company were going to have a lot of men there to swear falsely. He said he had been dragged by the car and I thought that he had been dragged by the car.

"After the court was over I asked Horowitz why he did not swear that the man had been dragged, and he said that he did not want to do that, as his mother had warned him the night before not to swear what was not true. He did not think I was doing anything very wrong," said Steele.

There were no newspaper journalists, but there were a number of other people, including the Mayor, who suggested that objectionable advertisements might be relegated to some part of the paper where they would not be seen.

SCHOOL BUILDING WHERE SCORES OF CHILDREN MET AN AWFUL DEATH.

EXTEND I.C.R. Continued From Page 1.

country was a great freight regulating factor. The canal system had been opposed by private owned railways, Germany was building a great canal system in connection with the state owned railways of that country and the solution of the transportation problem was to build a system of board of trustees to accept the principle and proposed an enquiry into the subject of nationalizing the railways of that country.

Lloyd George had declared that the freight rates were lower on the state owned roads of Germany, and Mr. Maclean commented on this, said by reason of this advantage Germany was getting the leadership in trade because her railways were better than those of other countries used to building up her industries. Another, he said, was that the state owned railways of the United States had ruined many industries by this discrimination.

Mr. Maclean wanted to see the Intercolonial extended to Toronto and the Detroit River and Georgian Bay. He said that he was in favor of public ownership, but always at the head end of the traffic. The I.C.R. was a railway built for political reasons, but there was no cause why it should not be run on business principles.

Get Where Traffic Is. If extended into Ontario, where the traffic is and harnomed with the canal system, its earning power would be increased. The growing idea, continued Mr. Maclean, was the nationalization of railways. When this had been tried it had been a success. The recent demoralization in the United States had been due to men who sought their own aggrandizement and not the welfare of the people. Public ownership of railways was based on the principle of the greatest service to the greatest number.

Mr. Maclean hoped to see the G.T.P. made part of the national system of railways, linked up with the national system of railways.

It would be a great thing for Canada to acquire the common stock of the I.C.R. that was held by the I.C.R. in London. This was the true national policy of Canada to-day. If Canada was to be the country of the 20th century, it must adopt 20th century ideas.

Referring to the statement of the minister of railways that the average passenger rate was 1.4 cents per mile, Mr. Maclean remarked that this average was arrived at by including the man who was riding together with the passenger who pays four cents a mile. What was wanted was a low maximum passenger rate.

L. J. Carter proposed to purchase branch lines in the Maritime Provinces. Mr. Maclean entirely agreed with the idea, but he said that it was necessary to increase the capital account expenditure for the acquisition of genuine feeders to the national road. Moreover, he held to the principle that every dollar of surplus of the railway should go to the improvement of the service.

Mr. Lennox (Simcoe) and Mr. Macdonald (Pictou) also contributed to the debate.

UNIONS BOSS THE ROAD. There were 3291 employees of the I. C. R., 63 per cent of whom were members of unions.

HINDOO PROBLEM NOW. Enforcing the Natal Act in Vancouver, B. C.

VANCOUVER, B.C., March 5.—(Special.)—Three Hindus who arrived last week on the Aorangi from Suva, and were deported by the Dominion Inspector were released to-day on habeas corpus by Justice Morrison, on the technical ground that they had never been informed why detained. The trio was immediately re-arrested by the provincial officer under the Natal Act, and this official took elaborate pains to inform the Hindus thru an interpreter why kept from freedom.

Eighteen arrested Hindus are making life miserable around the courthouse for every person not afflicted with a cold, so bad that the olfactory nerves are paralyzed. Undesirably filthy about their person, they insist on cooking their own food, and the stench they prepare in the basement sends forth a stench which, by comparison, would make a fertilizer factory seem like perfumery.

DEATE ROLL AT 161

escaped from this part of the school house than from any other. The children were under good discipline, they had been practiced frequently in the fire drill, their teachers without exception retained their self-possession, showing great courage in the face of imminent death, and yet more than half of these little ones died horribly because of faulty building arrangements.

Were Doors Locked? The school house was two storeys and a half in height, the walls being of brick and concrete. Inside it was a shell which burst in inconceivably rapidly. The entire interior was a mass of smoking ruins lying in the cellar within thirty minutes after the alarm of fire was sounded.

Miss Anna Moran, the principal of the school, denies that the doors opened inward, and insists that they were never locked during school hours. She said: "When the bell rang, I, and I suppose other teachers, thought it was a regular fire drill. Every child in the school has gone out over and over again from the second floor to the open air in one minute and thirty seconds. You can judge by that how quickly we reached the first floor. When we neared the front door, we saw the flames coming up the basement stairs and without knowing it we led those little children into the very face of the fire.

Perish Foot From Safety. "Only one of the double outer doors was open. The other was fastened by a spring at the top. Before the janitor got it open, the children had wedged themselves into the vestibule, and the others in a panic stumbled and climbed and crowded over them. It was frightful—so near safety. "If I could have turned my line back they would have had some chance on the third floor, they kept coming down and we could not stop them or do anything to save them. Men from the outside were trying to pull the children out, but the crush was so tight, no human strength could clear a passageway. Dozens died within a foot of absolute safety."

Deputy State Fire Marshal Eighnam, who made an inspection of the ruins after the fire, declared positively that the doors coming up the basement opened toward the inside, and that the rear door was locked when the children reached it.

Little Truant's Life Spared. Like returning from the dead, Golen Marks surprised her father to-day by slipping up behind him and throwing a prod among his neck, while he was prodding among the ruins of the Lakeview School for her body. The girl was sent to school yesterday morning as usual. Instead she played truant and visited an aunt in the country. They knew nothing of the fire till to-day. Not returning to her parents yesterday they supposed she had perished. Neither could the father find among the dead bodies one he could identify as that of his daughter.

In despair, he was prodding about the ruins when the girl threw her arms about him and cried: "Guess who I am, papa." Mr. Marks was nearly overcome with joy and emotion.

Another School Fire. GRAND RAPIDS, Mich., March 5.—Fire this morning destroyed the Central School.

That there was no panic in the school was probably due to the fact that a professional photographer had been taking flashlight pictures in the corridor of the high school a few minutes before the fire broke out, and the children had been warned not to be alarmed. When the fire alarm rang and the drill began they thought therefore that it was for another picture and all of them marched out coolly.

The fire started below the floor of the chemical laboratory on the first floor, and only the quick action of the fire department prevented a serious conflagration.

The photographer was in the school, with the intention of holding 300 pupils for the purpose of showing its awfully crowded condition. These photographs are to be used in furthering a campaign already inaugurated by the board of education for a larger high school.

The children's laxative—Cascarets. Candy tablets, pleasant to take, gentle in their effects. Throw out the old-time physics.

Look back at your childhood days. Remember the physic that mother insisted on once in a while—castor oil, salts or cathartics. How you hated them. How you fought against taking them. How you dreaded their after-effects. That was all wrong, but then nobody knew better.

With our children it's different. They belong to the day of the gentle in medicine. The day of harsh physics is over. We don't force the bowels now; we coax them. We have no dreaded after-effects. And the dose is a candy tablet.

Mothers who cling to the old form of physic simply don't know what they do. The children's revolt is well-founded. Their tender bowels are harmed by them. The modern way is to give a gentle laxative, and to give it more frequently. To keep the bowels always active. The best method is Cascarets. One-half a tablet, as often as needed, does more than anything else to keep a child well.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and Ten Cents per Box

Men's "Victor" Shoes

NEW SPRING STYLE READY

While good shoes of every sort keep costing more to make, we're constantly adding to the value of our "Victor" Shoes at \$4.00.

For the better we make them the faster we sell them. They show at a glance superior quality and finish, with a full range of all the new models. We're building up a phenomenal shoe trade by being absolutely sure in advance that the shoes are right, and giving them the fine touches of style that young men cling to. "Victor" Shoes are best because we pay more for leather and workmanship. If we make less money than we ought, we are sure at any rate of your goodwill.

MEN'S "VICTOR" BOOT. STYLE V. P. \$4.00—If you ordered a pair of boots like the Victor V.P. from the New York Bootmaker who originated the style, he would charge you from \$5.00 to \$6.00 and then not give you footwear better in material detail than this VICTOR V.P. MODEL. The toe has a half-narrow shape, and widens gracefully on the outside. The sole is medium weight, with a custom extension. A Flexible and Brilliant Patent Colt, selected for its wearing qualities, is used in the vamp, dull matt calf Blucher top, with rounded corners, finest quality of duck linings, inside top-stays, back-stays and facings. Solid oak-bark-tanned sole leather at heel, C, D and E widths, all sizes from 5 to 11\$4.00

Saturday in the Cloak Department

"There's one thing above all others, I like Simpson's for," said a fair young creature in our eleventh floor, "their suits and things are not the same as everyone's else." That is one great advantage. But there are many others. Ours is a nice stock. "Nice" is a very expressive word and it applies to the styles and the finish of our spring suits, coats and skirts admirably. Have you seen the new skirts?
