IS SWINDLER BAG  
MIDDLETON THE BIGAMIST  
OF WOODSTOCK MEMORY?

One Who Knew Middleton Intimately  
Photograph, and Comparison  
of Photos Adds to  
the Belief.

BAGLEY, KNIGHTLEY OR MIDDLETON?

Is John Bagley, or as the police believe him to be, Charles V. Knightley, arrested Thursday night for uttering a forged \$2000 cheque upon the College and Yonge-street branch of the Bank of Commerce, really Lancelot Willoughby Middleton, bigamist and swindler, who was sent to the penitentiary for seven years from Woodstock, Ont. in 1895?

His picture has been seen by one of Middleton's victims before his commitment to Kingston, and she positively declares that Knightley is none other than her former husband.

Inspector William Greer of the provincial detective department, who arrested Middleton, last night, after comparing police photographs of Knightley with one of Middleton which he had preserved in his records, pointed out a number of points of surprising likeness, and, indeed, when the aging influence of a seven-year term in prison and the passage of 12 years in all are taken into account, the pictures bear great resemblance.

Inspector Greer has a wonderfully clear recollection of the Middleton case. Middleton, then a man in his 30s, set out to let contracts for a supposed C. P. R. line from Woodstock to Brantford. He used C. P. R. letter paper for all his correspondence, and this is a point of resemblance to the methods of Knightley.

The line was surveyed and Middleton started to sub-let the contracts for clearing the line, and work was begun. He asked for deposits as guarantees upon the contracts let, and would have received a number of these had he not been exposed just a little too soon.

He was arrested by Inspector Greer at Calneville, near Brantford. The arrest was made upon a charge of false pretences or fraud, which was later dropped when Middleton in Kingston, which was at Woodstock to a term of seven years in Kingston for bigamy. He had married two estimable women, one of Woodstock and one of Brantford. He was defended by present Crown Attorney Ball.

Inspector Greer says that he remembers hearing that Middleton met with an accident while in Kingston, which would account for the present lameness of Knightley, should the two prove to be identical. He also remembers hearing that Middleton turned very religious while in the penitentiary, but that he also tried to escape, which lost him any good conduct time. The Inspector says that Middleton was, present wanted in New York, and remembers having heard that he had swindled one of the women of the Gould family out of a considerable sum.

A photograph of Middleton was sent to England to identify the man as an English crook, and was returned, first to Deputy Chief of Police Wm. Stark, and then to himself. The fact that Middleton was an Englishman is another point in the identification, as Knightley is apparently an Englishman, the claimant to be an American. Middleton, at the time of his conviction in Woodstock, was 27 years of age; the man under arrest here is apparently about 50, which coincides exactly.

**LITERARY GIRL TRIES SUICIDE.**  
NEW YORK, Aug. 30.—A young woman who shot herself in the Hotel Astor, last night and declined to reveal her identity, was identified as Vera Fitch of Oakland, California. Her condition is critical. An operation was performed to-night, but the bullet was not removed. It entered the left lung. The girl, according to hospital authorities, was detected over her literary failure.

**OPTIMISTIC CROP REPORTS.**  
WINNIPEG, Aug. 30.—(Special.)—The Canadian Northern Railway crop report for the week ending Aug. 27, indicates that the outlook is generally this week. The reports from most points are very optimistic. Around Oakville the average yield is about 22 bushels; around Dundurn 18 bushels, and around Tresser 18 to 20.

SAYS ONTARIO MINES  
LACK GOLD AND SILVER

Chief Chemist of Federal Mines  
Branch Reports on Examination  
of Various Samples.

OTTAWA, Aug. 30.—(Special.)—A report on the recently discovered gold and silver mines in Ontario and Quebec has been issued by F. G. Warchief, chief chemist of the mines branch, and shows that a majority of them are practically devoid of ore of value.  
Of 19 locations and "so-called mines" examined for gold, 16 contained absolutely none of the precious metal, and three contained traces of gold. These were all in various parts of Nipissing district, including James Township, Coleman Township, Lorraine Township and Trout Lake. Out of the same number, seven contained no silver, and the rest values which were, in all cases except two, from a trace to 25 ounces of silver per ton. The two exceptions, which were in James Township, ran to over 100 ounces of silver per ton.  
From six samples examined from six different claims about Larder Lake, five contained no gold and one a trace of it, while none contained any silver.  
Two samples from Algoma and one from Parry Sound district contained no gold nor silver. A Bucks Township claim furnished a trace of silver.  
A claim at Sturgeon Lake contained silver at the rate of seven ounces per ton, while one on the shore of Lake Huron had traces of platinum. Of seven samples from different parts of Pontiac County, Quebec, four contained no gold and four no silver. Three ounces to the ton was the highest silver value, and in no case was there more than a trace of gold. Three samples from Ottawa County were examined and one produced a trace of silver.

RING AND CASH MISSING

Windsor Police Have Two Mysteries to Solve.  
WINDSOR, Aug. 30.—(Special.)—The police are investigating the disappearance of a \$150 diamond ring from the showcase counter in Ashby's jewelry store, between 6 and 7 to-night, when a commercial traveler went to pack up his samples after showing them to Mrs. Ashby. The diamond, together with some other goods, was kept on top of the case. Mr. Ashby was called away to wait on the other side of the store. The ring was missing when two young ladies went out of the store. Julien Mousseau, grocer, on Wyandotte-street, Windsor, went into the Merchants' Bank this afternoon. Complaint he left a wallet containing \$100 on the counter. He missed the money a short time after, but the money was gone.  
Big crowds from all over Essex County attended the annual farmers' picnic of South and North Essex, at the Casino grounds, Kingsville, this afternoon. Speeches were delivered by John Auld, Oliver J. Wilcox, M.P., Mrs. Watt of Clinton, and Miss Laura Rose of Guelph Agricultural College.

A Hint to the Visitor.  
One of the best barber and manicuring parlors in the city, away also from the plate-glass fronts of the noisy streets, is situated on the second floor of the Trades Bank Building, corner of Yonge and Colborne-streets, just below King. Ask the elevator attendant. You'll be directed to an elegant apartment, which, being off the beat-track is more to be desired and where prices are just the same as you will pay elsewhere. Mr. Forsyth, the proprietor, looks well after the comfort of his patrons. The work is antiseptic in the fullest sense of the term.

A False Alarm.  
The firemen were given a useless run to box 4, at Queen and Elizabeth-streets at 1.45 this morning.

SBARETTI NOT  
COMING BACK

Absence of Papal Delegate at Ottawa From Great Congress Is Significant.

MONTREAL, Aug. 30.—(Special.)—The question as to the attendance of the highest Roman Catholic church dignitary in the Dominion at the coming Eucharistic Congress celebration has at last been settled by an official statement given out this afternoon just before Mr. Bruchesi left for Rimouski to meet the cardinal legate.  
Mr. Sbaretti will not be at the congress, nor has the papal delegate at Ottawa left his native Italy, having been residing quietly in the vicinity of Rome for some months past. In a letter received lately by the Archbishop of Montreal, his excellency expresses the keenest interest in the work done by the clergy and lay promoters of the congress, and wishes them the greatest possible success, but adds that he had hoped to be present in Montreal, but he is obliged to give up the cherished hope, as family matters render his presence absolutely necessary at home.  
It has been rumored for some time past that there have been acute differences between the delegate at Ottawa and the bishops of Quebec over the appointment of a successor to the late Archbishop Duhamel, and the opinion prevails that the delegate will not return to Canada, altho his secretary remains here.  
Then there is the unpleasant question of precedence. Mr. Sbaretti represents the Pope in the Dominion of Canada, but at the congress the head of the Roman Catholic world will be especially represented by Cardinal Vaughan, one of the most commanding figures in Rome, and he, of course, takes precedence over all others at the magnificent church function which will be begun here at the end of the week.

ATTITUDE OF THE C.P.R.  
TOWARD CITY OF TORONTO

Vice-President McNicoll's Reply to Query of Board of Trade Asking for an Explanation.

The following telegrams, which passed yesterday between the parties named are self-explanatory:  
"Toronto, Aug. 30, 1910.  
"D. McNicoll, vice-president C. P. R., Montreal.  
"The Globe of this date has Montreal despatch as follows:  
"Ridiculous, absurd, a mountain made out of a molehill," said Mr. D. McNicoll, vice-president of the C.P.R., summing up Toronto's attitude over the so-called freight traffic congestion by the railways favoring Montreal against Toronto interests.  
"Am instructed to ask if you authorize this statement and if it represents your views. Please answer.  
"(Signed) F. G. Morley,  
"Secretary board of trade."  
"Montreal, Aug. 30, 1910.  
"F. G. Morley, secretary board of trade, Toronto.  
"Have not seen Globe report, but if same as published in paper here, it does not represent my views. I do, however, class as ridiculous and absurd any statement that we favor Montreal as against Toronto, or any city as against another.  
"(Signed) D. McNicoll.

BOY SCOUTS TOOK  
POSSESSION  
OF FAIR

Baden-Powell Reviews 2100  
Little Khaki-Clad Disciples  
and Incidentally Formally  
Sets Wheels of the Exhibition  
in Motion—Jokes  
About His "Elusiveness."

**The Boy Scout Code.**  
A scout's honor is to be trusted.  
A scout is loyal.  
A scout's duty is to be useful and to help others.  
A scout is a friend to all and a brother to every other scout, no matter to what social class the other belongs.  
A scout is courteous.  
A scout is a friend to animals.  
A scout obeys orders.  
A scout smiles and looks pleasant.  
A scout is thrifty.  
Motto: "Be prepared."

"Boy Scouts and Baden-Powell" was the keynote of the opening of the great exhibition, great in design, greater in execution, greater in spirit.  
There is nationality, patriotism, cosmopolitan vitality about the big Toronto fair. No country in the world could present more varied products from more inexhaustible resources. No people in the world have such a heritage from the Lord. There is much of the spirit of the feast of tabernacles in the gorgeous ingatherings of the fruits of the land and the harvests of handicraft and the work of the deft artificer which year by year draw the multitudes to Toronto from the new world's Dan and Bursheba. The tremendous undercurrent of the national life throbs thru the whole organization.

It was an inspiring sight to see those 2100 boys with the good clean marching step moving along the big track and many a father and mother's heart swelled with the thought that "the boy" was shouldering his pole and keeping time in the lawn ranks.  
"If I'd had a chance like that I'd have been twice the man I am," was father's frequent reflection as he rejoiced for his son.

There was fine applause for the English contingent and the Buffalo boys had a cordial greeting. The little khaki vivandiere from Brampton was accorded a hearty recognition. Then the line swung over to the south side of the track where all could see and the smart pacing of the lads elicited a burst of applause.

**Continues Elusive.**  
"B.P." was not very contentous with the officials and continued to prove himself elusive and to disregard the program. He spent most of an hour with Frank Ritchie of the Dominion Y.M.C.A. Boys' Work Department, who is keenly interested in the scout movement, and with W. B. Wakfield, an English gentleman of means, who has devoted much of his time to the work. Mr. Wakfield had just returned from Silver Bay camp on Lake George, N.Y., and gave complimentary reports of the Toronto boys there.

No more impressive background has ever been given to the grand stand stand performance than the historical sweep of British warriors represented on the canvas, the historical changes of Spitehead and the Soleat. The weather was excellent and the east wind did not chill, tho the threatened rain which did not come. The grounds are more beautiful than ever.

**OH, YOU LITTLE SCOUTS!**  
The Wind likes you and so it tells you that the Old Scout got you brown. He tried to get you out. He's got your scalps at his belt. He didn't come by the ambulance trail, but by the back track. Never let it happen again. When next you're out scout your man. Go up the line, board the train, and pass the window signal down.

But not only did the Old Scout do you, but a Scout Reporter wrote in The Telegram on Monday afternoon, hours before B.P. got to town:  
"The hero of Mafeking and the leader of the boy scout movement arrived at the Union Station on the Winnipeg train at 4.45 this afternoon. The sight of the tall stalwart soldier as he alighted from the platform was the signal for a wild demonstration.  
Remember, Scouts, that the scout business is a game. Remember also, oh you little scouts, that the false intelligence bureau is not good for you. Yes, oh you little scouts, he did you brown. He did you Khaki brown. He's got your little bleedin' scalps. He rolled you in the mud but he didn't do you dirt. He PLAYED THE GAME. Play, you the game. But he put it all over the Bureau of False Information. Scout the false but play the game."

**LIKE B.P.**  
It was a great day for the boy scouts who were red-headed and freckled.  
**Something for the Visitors.**  
Among other things to interest the visitors to the exhibition is the display of imported French neckwear and feather boas shown in the display rooms of the Danes Company at 140 Yonge-street. There is also a splendid exhibit of select ties, scarfs, muffs and stoles in Canadian mink, Hudson Bay sable, ermine, chinchilla and Baum Marten.

Hand-Clasp Round the Empire

B-P.'s hand-clasp round the empire bids fair in the hands of the Boy Scouts to make an immense time cannot rub out.  
B-P. is an inspiration. He is a man, his own man, the empire's man, a world-man. He has done his duty; that's the stuff heroes are made of. He, in the flesh, is the sort of man to fire boys to do their duty. The boy scout of to-day is the man scout of to-morrow.  
B-P. is a many man. Manliness is marked all over him. His clear grey eyes, looking you full in the face, without a blink, make you believe his nature is as clear as his eyes. His handclasp is firm as a rock. His look and his handclasp go together; they set up an electric connection.  
And he looked the Boy Scouts over. They knew his story. He was living heroism to them. Some few got his handclasp. It was the left hand clasping the left hand—the left hand, the hand nearest the heart. It was the handclasp of a hero with the handclasp of a boy who may, if he wills it, be a hero also some day—to-day if he does his duty as a many chap.  
And all this is what B-P.'s handclasp means. It shows the Boy Scouts that doing one's duty in a many way is real heroism.  
B-P.'s handclasp is a bond that will fasten all parts of the empire together. That's the inspiration B-P. carries with him. That's what makes the Boy Scouts' game the greatest imperial game.

MR. HYMAN INJURED

His Auto in Collision With a Street Car.  
LONDON, Ont. Aug. 30.—(Special.)—Mon. C. S. Hyman's auto collided with a street car to-night. Mr. Hyman was thrown forward, had his face cut and several teeth damaged and he may be injured internally. The auto was badly wrecked and the fender was knocked off the car.  
Miss Gladys Elliott of Goderich, his niece, escaped uninjured.

MAY GO TO CORONATION.

### HAMILTON HAPPENINGS

#### HOSPITAL GOVERNORS

##### Matter of Cross Infection Discussed by Governors.

HAMILTON, Aug. 30.—(Special.)—The question of cross-infection came up at the meeting of the city hospital governors this afternoon. Dr. Langrill applied for equipment for the new addition to the isolation hospital, and he said the best way to guard against cross-infection was to have two sets of furnishings.

Controller Allan cautioned the governors to keep within the bounds of their appropriations, as there was no money to spare, and it was decided to prepare a list of requirements and submit it to the board of control.

Medical Superintendent Langrill reported that already there was an increase in the number of patients over last year of 800 and that by October 15,000 patients will have been treated in the hospital this year.

Mrs. J. Faskin Macdonald, a well-known vocalist, died unexpectedly this morning. She was well known in several Canadian cities.

### BLAZE IN THE SCENERY WAS NIPPED IN THE BUD

#### Precautionary Measures by Firemen and Quick Application in Time of Need Squelched It.

The public didn't know it, but just before the final shower of fireworks, a blaze started which might easily have developed into a conflagration that would have swept the entire canvas and pasteboard city in the grand stand arena.

It was a flight of bombs in the rear of the canvas wall and about the center that started the mischief. The sparks came down thickly, and, in a trice, the top of a large tent in which was housed a valuable automobile was in flames. Until last night the fire-fighting equipment behind the scenes consisted of two cans of fire extinguisher containing six gallons each, but just before the night performance started, Capt. Gunn had succeeded in getting 150 feet of hose attached to the single small hydrant. He was on the spot when the tent caught fire, and the water soon put out the blaze.

A few minutes after the performance a pile of rubbish on the lake front south of the arena was discovered to be alight. A hurry up call brought the hose wagon in quick order and the fire was squelched.

The disappearance of an automobile owned by John M. Ogilvie, Macdonell-avenue, gave the police some worry during the afternoon. The machine was left by the owner standing in front of the main entrance of the grand stand, and when he returned, presto! it had vanished. Detectives Jarvis and Twigg found it later near the transportation building, but how it got there was a mystery.

It was not a strenuous day at the emergency tent, altho a few minor hurts were attended to.

**At Scarborough Beach.**  
An unassuming, modest young German, Adones by name, electrified the crowds at Scarborough Beach last night by presenting an act which for disregard of danger and consummate discipline any act seen in Toronto this season. His only apparatus is a limber stool, fifty feet in height, which is supported solely by braces at the bottom, without the aid of the usual guy-wires, but on this frail perch, which sways many yards out, which sways in and executes a number of equilibristic and acrobatic stunts which cause the spectators to marvel.

The other marvellous attractions of the park have diverted thousands of the citizens of Toronto during the season.

**Wednesday Lake Trip.**  
Take the fine steamer Turbina today at 2 p.m. for Hamilton and spend three hours, leaving at 7 p.m., arriving home 10 p.m. 50 cents return.

The 6th Regiment of Montreal will provide a guard of honor for the papal legate at the Eucharistic Congress. James Blackburn, aged 65, was killed in a Mount Forest factory by a blow from a board.

### THE SAFETY OF "FRUIT-A-TIVES" MAY BE TAKEN FOR YEARS

#### The Ideal Remedy for Young and Old.

Nature's gifts do us good, if used judiciously. We eat bread from baby-food to old age without ever tiring of it. We drink water, year in and year out, with the greatest benefit to our health. So, too, we eat fruit in season and are better for the change of diet. This is true, because such things are the natural foods and drink of mankind. It is for this reason that "Fruit-a-tives" may be used for years in correcting some of the body's ailments. "Fruit-a-tives" is made of the juices of apples, oranges, figs and grapes.

Just as fresh fruit may be eaten at every meal, so "Fruit-a-tives" may be taken every night for 30 days or more with the greatest benefit.

The absolute safety of "Fruit-a-tives" has been a great factor in its success. Those who suffered with chronic troubles such as Constipation, Dyspepsia, Rheumatism, etc., naturally took a number of boxes of "Fruit-a-tives."

As they became better they found that instead of being compelled to increase the dose, as in most medicines, they were decreasing it, and gradually taking fewer doses, at last, 50c a box, 6 for \$2.50, or trial box 25c. At dealers, or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

### VISITORS FROM BRISTOL HAVING A GLORIOUS TIME

#### Trip Thru Western Ontario Pleasant and Impressive—Busy Time is Ahead of Them To-day.

The delegates from the Bristol Chamber of Commerce returned to the city last evening from their tour of Western Ontario. Among the places they have visited since Monday morning are Niagara Falls, Hamilton, London, Stratford, Guelph and St. Catharines. In each town they received a right royal welcome, and what with speech making, dining and sight-seeing, they were fairly tired out, the happy when seen at the King Edward last night.

"We are very much impressed with Canadian hospitality," said Henry L. Rieley, the spokesman, "and we are, of course, very pleased at the success of our mission, which is to promote good feeling and better knowledge between the trade institutions of Great Britain and Canada. This is the first deputation of the sort from England to visit Canada. Bristol has led the way, and you may be sure that this is the forerunner of many more such deputations. I myself visited Canada two years ago, and I was so delighted with your great and growing country that I wanted to come again."

So warmly welcomed the party will be formally welcomed to Toronto by special council meeting of the board of trade at 11.30, after which they will attend the Luncheon and Dinner at the Empire Club. This afternoon they will be taken for a motor drive around the city by the board of trade members, visiting the Lambert Golf Club, the Threewheel Model Farm, and other points of interest. To-morrow they will be taken to the exhibition, it being West of England Day at the grounds, and on Friday the party will leave for the west via Sudbury.

**Northern Navigation Company.**  
Sailings from Sarnia, 3.30 p.m. every Monday, Wednesday and Saturday. From Collingwood, 1.30 p.m., and Owen Sound 11.45 p.m., every Wednesday and Saturday. From Penetang, 3.15 p.m. daily, except Sunday.

The yacht Dolphin of Napanee arrived in Toronto harbor Monday evening with E. Mills, his daughter Mabel and son Frank, Wm. E. Miller and Wilbur Card on board.

**Being Brought Back.**  
FORT FRANCES, Ont., Aug. 30.—(Special.)—Detective Sackett of Toronto left to-night with Chas. Hardy, wanted for the alleged murder of Thos. Horder of Toronto.

The provincial treasury has received the \$12,250 imposed fines at Fort Frances in connection with the wolf bounty frauds. In connection with these prosecutions 16 persons were sentenced to terms of imprisonment, eight were fined and seven released on suspended sentence.

### York County and Suburbs

#### TOWN COUNCIL HOLD AN IMPORTANT SESSION

##### Analyst's Report Says Local Water Supply is Absolutely Pure—News Notes.

**NORTH TORONTO, Aug. 30.—(Special.)**—To-night's meeting of the North Toronto town council, the first held in a long time, was singularly free from fireworks of any description, and those, if any, who attended with a view to see the two rival electric light companies vie with each other for the town's business, were disappointed. There was but a bare reference to the matter by the Toronto Electric and Interurban advising council, but they were not in a position to quote terms. So that if the hydro-electric gets a move on, they may corral the trade.

There was a good deal of interest manifested in the diverse views of the town council with respect to the mill rate, and by the way the mayor voted out, and the tax rate, which, it is stated, stand at 18 mill on the dollar. At the outset Councillor Murphy said "I think the rate might very well be reduced to 17 1/2 mills and still provide for all demands. We have struck out some \$1000 in order to bring it down to the sum named and there was no reason why, with a slight error of some \$1300 found by the late clerk, the 17 1/2 rate should not obtain."

As he believes in making the present generation pay for everything, said Councillor Reid. "Consolidating the new well, the improvements to the new well, the engineer's office and the fire alarm system into a general debenture debt," said he, "and let us have a 16 mill rate for this year. If you give them a 16 rate this year, they will rate next."

The mayor stood out strongly against any form of debenture debt. "The first thing you know you will be able to borrow any more money," said he. The magistrate enumerated a number of items, small in themselves, but totaling some \$100, and which had apparently been overlooked. "I'm dead against so much of this debenture business," said he, and Councillor Howe and Councillor Peers, together with Councillor Muston, backed his worship up in it.

A vote was taken on Councillor Murphy's motion to bring the rate down to 17 1/2 mills, but only Messrs. Murphy and Lawrence supported it, and the rate stands at 18. Councillor Reid wanted it 15 and so could not support either.

The annexation vote will not be taken for a few months yet, the mayor intimating that the preparation of the tax bills would be the first of the officials busy for the next six weeks. He said they would set to work to prepare the list of what to go into the city, said Councillor Muston, but I want the agony over."

After the report of the solicitor and clerk, it was found that the petition was fully signed. There was no disposition to delay the vote," said the mayor, "and it will probably be taken about the 10th of November."

There was not much ceremony wasted on the resignations of the board of health, and on the motion of Councillor Murphy, the board was appointed and the gentlemen chosen are: For three years, Robert Ferguson and McQueen; for two years, Thos. Joseph Cousins and Arthur Mullins.

A number of applications were received for the office of sanitary inspector, but nothing was done in a characteristic letter was received from W. H. Moore, general manager Metropolitan, in which the manager dealt with the question of sanitary service, offering to operate the service if the town and legislature would establish their rights, altho Mr. Moore declared that the operation was only to satisfy the public and would result in no financial advantage. The matter of water street car allowance and the question of installing steps or platforms along the roadside were not treated seriously.

Score another for North Toronto. The report of the provincial board of health re the condition of the water supply of the town, received to-day, is pure and shows no trace of colibacilli.

Chief Engineer Black of the waterworks department is away on a holiday to Bay City, U.S.A.

The Melrose Park Co. has just completed a four-foot concrete sidewalk half a mile straight west. Altogether they have put down a mile and a half. The public library board held a meeting to-night.

**THORNHILL OLD BOYS.**  
An enthusiastic meeting of the Thornhill Old Boys was held last night at 64 George-street, to complete arrangements for the reunion at Thornhill, Saturday, Sept. 17. Committees were formed to provide a list of sports. A brass band has been engaged and a huge time can be looked forward to. A special car service will be run over the Metropolitan Railway during the afternoon. The committee will meet at a general meeting, to be held at Thornhill, on Saturday, Sept. 3, to complete arrangements.

### AGINCOURT.

**Coroner's Jury Say No Blame Attached to Train Crew or Companion.**  
AGINCOURT, Aug. 30.—(Special.)—The adjourned coroner's inquest held in the Temperance Hall here this morning touching the death of the late David Thompson, killed on the C.P.R. tracks on Sunday, Aug. 21, was in progress at 10 o'clock this morning. After hearing the evidence of Dr. Coulters, Miss Thompson, Mr. Wells, the man who accompanied him, the engineer and conductor on the train, Mr. O'Dair, section foreman, and one or two others, the jury returned the following verdict: "We find that the said David Thompson came to his death on August 21, at the crossing on the C. P. R. main line, by being struck by train No. 4, engine 3114."

Struck by the train No. 4, engine 3114. From the evidence adduced, no blame was attached to the train hands or his companion, Mr. Wells.

**TUDHOPE**

**OTORISTS AND DEALERS** will be greatly interested in the first showing of the new "EVERITT 30" as "Made in Canada" by TUDHOPE of Orillia.

The exhibit will be found in the Transportation Building at the Canadian National Exhibition. It should be noted that the "EVERITT 30" in its entirety is manufactured in the plant of TUDHOPE at ORILLIA, and is NOT AN ASSEMBLED CAR. This insures to the purchaser interchangeability of parts, which may be required at any time.

On orders placed at the Exhibition date of delivery will be guaranteed. Applications from dealers for agencies will be considered. Territory is now being allotted.

# EATON'S DAILY STORE NEWS

## EATON'S SEPTEMBER BLANKET SALE

Starts Thursday, September 1st, and from start to finish promises one continuous round of exceptional value-giving in Blankets and Flannels

With the Sale of last year hardly over, we began preparations for this year—that, and the immense quantity we ordered, were chief reasons for the splendid values we're enabled to offer this year, for there came a scarcity of wool—prices went up, but our orders were placed, and the maker had every opportunity to buy to the very best advantage. With the makers blanket prices are really higher than last year, but not with us, for you'll buy during this Sale, not only less than last year, but lower than we can buy the same goods now, for with a determination to keep up our record of exceptional values, should mean such blanket selling as we've seldom seen. QUANTITY is almost double last year—the increase is absolutely necessary, for blankets are comasked for more and more into use, and the demand we experienced last Sale influenced us to order almost double the quantity this year. Better qualities are mostly asked for, particularly in our Canadian and Scotch sections, for from these places we get the best makes of blankets possible.

**COLD, FROSTY WEATHER IS ON THE WAY; soft, warm, comfortable, serviceable blankets are needed, and during this Sale is the time to buy, and the few items for opening day should cause a rush that will make of this Sale the greatest blanket selling event in our history.**

**White Unshrinkable Wool Blankets, long stripe yarns, thoroughly scoured, close, even napped, finished in pink or blue borders; 7 lb. weight, size 64 x 82 inches. Thursday, pair . . . . . \$2.95**

**White All Pure Wool Blankets, made from carefully selected stock, thoroughly scoured, free from burrs or specks, lofty napped, pink or blue borders; 8 lb. weight, size 70 x 90 inches. Thursday, pair . . . . . \$4.75**

**American Reversible Silken Comforters, splendid choice of dainty colors and designs, fancy stitched patterns, well quilted, pure filling; sizes 72x78 inches. Thursday \$1.53**  
**Canadian Printed Wrapperettes, fine twilled weave, in small, neat striped, figured, and dot patterns, suitable for children's wear, in large assortment of colorings, 28 inches wide. Thursday, yard . . . . . 10c**  
**White or Grey Flannellette Blankets or Winter Sheets, good heavy quality, soft napped finish, pink or blue borders, double bed size; 70 x 84 inches. Thursday, pair . . . \$1.19**

**All-wool Grey Shirting Flannel, thoroughly cleaned, free from grease, superior quality, light and dark shades, plain and twilled weaves; 28 inches wide. Thursday, per yard . . . . . 24c**

The races carded for the second day of the Exhibition Association meet were somewhat delayed by the ceremony in front of the grand stand. The reviewing of the boy scouts and march band, also very interesting, took up a good amount of time, but fortunately yesterday's program was not as long as the previous one, otherwise it would have been unduly long before the races were finished.

On the Grand Circuit

READVILLE, Mass., Aug. 29.—Two American harness handicap Derbys, two minor heat events, and an unsuccessful attempt by C. K. G. Billings to drive his big black gelding Ulian better than 2 to 1 in a wagon market. The opening of the Grand Circuit here today, Bob Douglas, a local horse, won the \$10,000 trotting Derby from scratch. Alton Wilson, another Boston entry, with the same handicap, captured the Derby for pacers.

8,000 INCREASE IN FIRST DAY'S ATTENDANCE

Continued From Page 1.

This year. While the setting is splendid the whole effect is somewhat less spectacular than usual. This is not due to any shortcomings in the execution, but simply that the circumstances do not lend themselves to so liberal display of red fire, brilliant rockets and flaming magnificence as in previous years.

Realistic is the manner in which the warships thread their way across the hazy main, their bows tossing aside a white smother of foam, and when the royal yacht puts its way energetically thru the gray lines of Dreadnoughts, and the hand plays "Rule Britannia," the troops on board forget that he is vouching the scene painter's art and is patriotically thrilled.

The troops and sailors drawn up to honor the event present a picture rich in color, truly a splendid ensemble. With booming of cannon and volleys of musketry, the event is signalled, while the sailors, carried away by enthusiasm, indulge in some vigorous outland exercise.

Great Fireworks. A picturesque parade followed the naval review. Eight batteries, about 1900 strong, marched in front of the stand, each wearing on the end of his staff a colored light, the effect being striking.

The fireworks display is brilliant and introduces some novel concepts in set pieces, one being the flight of a bird. Hand Breezes are at their best with bombs, rockets, cascades and all the other forms in which they can make fireworks do service, up to the final "Good-night."

Naval Spectacle at the Exhibition. Last night saw the first representation of "A Naval Review at Spitehead," in front of the grand stand at the exhibition, and it proved itself to be a pronounced success.

A fleet of twenty Dreadnoughts are manoeuvred and brought into line down which the royal yacht is to review them. The boats are beautiful models on an immense scale. Smoke pours from their funnels, and their rigging is decorated with thousands of flags for the occasion. The entire scene is a beautiful piece of work.

As for the fireworks display, we can only say that it is as beautiful as ever. Certainly the bombshells and rockets were never excelled in size or beauty. There were many novelties amongst the set pieces and ground fireworks. One gigantic set piece, "Battle Between an Aship and a Dreadnought" was of immense length and height, and was a marvel in its way. You will have to see the fireworks more than once to be able to remember the dazzling wonders that are presented.

WOMEN IN CHURCH COURTS

Methodist Conference Votes Down the Proposal. VICTORIA, B.C., Aug. 30.—(Special.)—The Methodist General Conference this morning discussed for ten minutes a proposal to admit women into the ministry.

The steady conservatism of the delegates was plainly manifest when a number of recommendations to change the wording of the discipline was voted down and one recommendation especially carried to have churches built so that people could kneel at prayer, in accordance with the instructions of the discipline.

Provision is made for holding a regular annual congregational meeting. Strong disapproval was expressed against the practice of employing Indians for exhibition purposes in western Canada. The government is also urged to prevent the transportation of intoxicating liquors into any province of Canada under the prohibition law.

1911 RUSSELL-KNIGHT "38"

The Automobile De Luxe

AN APPEAL TO REASON

TWELVE months ago, after prolonged investigation and experiment, we placed our faith in the Knight motor as the greatest improvement of the decade in automobile construction.

Many believed us, bought cars and are today congratulating themselves on their judgment. There were takers then, perhaps there are to-day, but we hear less of them.

They said—The engine was an experiment—forgetting that it had stood the greatest engine test on record before the Royal Automobile Club of Great Britain and Ireland.

They said—it will not stand up on Canadian roads; although they knew a challenge of \$1,250 was open to anyone who wished to measure his motor against the Knight for reliability.

They said—That it would not be taken up in Europe and that the Daimler Company were about to discard it. We knew at the time—and anyone can verify it now—that the leading countries in six of the countries of Europe have adopted the Knight motor.

They said—No one in the United States would take it up. We know that over twenty of the largest concerns in the United States have from time to time applied for consideration in the American rights. And we know to-day that leading United States firms will announce 1912 models with Knight motors in another twelve months.

We seldom refer to or bother about the suggestions of interested opponents. We wait, however, to repeat our conviction, formed a year ago and confirmed by twelve months' experience in the factory, on the road, and in the users' hands:

Our 1911 model is out, but our 1910 users can smile, for their car is up-to-date still. 1911 is only a refinement in details on 1910.

The same motor. The same body lines, with high front doors, now pretty universally copied. Is this not the type of car to buy?

REALTY AND BUILDING.

An application has been filed by The Evening Telegram, for a permit to construct a five-story addition to their building at the corner of Bay and Melinda-streets. The new structure, which is to adjoin the present building on the east, with a lane between, is to present the same exterior appearance. The construction will be fireproof throughout, with steel girders and terra cotta flooring.

For the last week business has been much better in real estate circles than at any time during July and the first part of August. The many Torontonians are still out of town, a number of house properties have just been sold, and several prominent agents report wealthy buyers on their lists, who are looking for high-class investments.

CHIEF CORONER'S THEORY OF ROBERT ST. MURDER

Pieces Together Evidence of Bullets to Show How Merkt Killed Wife and Then Himself.

Most of the material facts concerning the alleged murder of Monday afternoon last of Louise Merkt at her home, 18 Robert-street, followed immediately by the suicide of the husband, were adduced last evening by the jury under Coroner Young at the undertaking parlors of John D. McGill, 283 College-street.

Miss Charlotte Merkt, a daughter, also in a very nervous state, gave a clear description of the awful scene which awaited her on her arrival home for lunch on Monday. On approaching the house, she detected an odor as if of something being burnt, and running thru to the back of the house, she found her mother stretched out in the bathroom.

"As mother had a club foot, I had always been in constant dread on coming home, to find that she had fallen and injured herself. Accordingly, when first I saw her, I believed that she had simply fallen and fainted; but in a moment I discovered the pool of blood beneath her, and almost immediately I seemed to imagine the details of what had happened as they were afterwards told to me. At the time I was not a little girl as a professional nurse would have been, and hearing someone descending the front staircase, I endeavored to get to the door before father, for I believed he would be in the house. He was Mr. Clark, however, who had roomed with us in the house for about four years, and I exclaimed: 'My God, has father been in there?'

"He replied that he did not know, and as we stood in the doorway leading into the drawing room, he turned half around and saw the image in the mirror of someone lying on the parlor floor, and remarked that that was probably him in there."

Miss Merkt stated that she had always understood that her father had been committed to the Toronto Asylum in May last by the authorities. Since the time of his commitment she had not seen him. She was not aware of the fact that he had been around the house during the last four months of his life, as she believed that he had visited her sister's home once at 118 D'Arcy-street.

Her father had purchased a revolver when she was a little girl as a protection for her mother, who was often away from home for periods at a time. Her mother had hidden this revolver, after her father had shown her many signs of violent temper. He had many times threatened to kill both her mother and herself.

Miss Merkt told of the finding of the bodies, Merkt was standing in him as being a man with 'a grouch,' but he had never heard him make threats. Merkt was very kind and peaceable.

Chief Coroner Johnson, who conducted the post-mortem, said: "Merkt evidently fired the first shot at his wife while she was standing in the kitchen. This penetrated on the right cheek between the eye and the ear. She evidently turned to run, and fell face downward in the doorway. Merkt then fired another shot into the back of his wife's neck."

Merkt then ran into the other room, and as people so often are fascinated before a mirror, so I believe he peered there, standing sideways before it, that he might be in full view of his every action, as he fired on himself. His vision was directed at the first shot, merely glanced thru his right eye, back thru the root of the nose, and out between his left eyebrows. Turning in full view of the mirror this time, he fired the second shot, which proved instantaneously fatal."

The balance of the evidence will be taken on Friday evening, Sept. 8.

ILLINOIS ORDERS CUT IN THE EXPRESS RATES

Railroad Commission Demands That Charges Be Reduced and Made Uniform For Service.

SPRINGFIELD, Ill., Aug. 30.—The big express companies of the country were dealt the most severe blow of their existence Saturday afternoon when the Illinois railroad and warehouse commission promulgated an order cutting in half many of the rates charged by the companies and making sweeping reductions along the line. The state commission orders that the schedule of rates fixed by it shall become effective on Oct. 15.

This is the first attempt ever made in Illinois to control the rates charged by the express companies and the companies already have announced their intention to fight it thru the court of last resort. The commission's action is based upon an opinion given by Attorney-General Stead over a year ago to the effect that the express companies are common carriers and that the Illinois statutes give the railroad and warehouse commission authority to control them.

From the investigation and the record the commission draws the following conclusions: First—That the returns from the capital employed in the operation of express service by the express companies in the state is excessive. Second—That the rates and charges imposed by the express companies, which yield these excessive returns upon the capital actually and necessarily employed in the business, should be reduced to a basis which should bring a fair remuneration on a fair value of the actual property employed in the business.

Third—That the present basis of rates, besides being excessive, is in many instances discriminatory, as is also varying charges for the same services. Fourth—That transportation charges should be based upon the distance and weight in proportion to weight. Fifth—That terminal charges should be based upon the wagon service being rendered uniformly to all shipments upon the actual distance between the points of shipment and delivery.

Sixth—That the charges for cars and other details should be based upon the actual value and cost of such service. In some instances it is found that the companies started business without a cent of capital, and now count their assets in the tens of millions. Every express company is found to be so closely associated and so united upon some of the big railroad systems and with the other express companies that it is impossible for the commission to separate the interests of one

Rev. F. S. Weston of Emmanuel Baptist Church of this city, leaves this week to supply for one month in the pulp of the First Baptist Church in New York City. Warren Easton, superintendent of public schools of New Orleans, is here. Mr. Easton has been summering at Barrie.

Rev. R. Weaver, late of Mount Elgin Baptist Church, has accepted a unanimous call to the Sarnia Township and Plympton Baptist Churches. In the course of another interview in London, Sir James Whitney said: "I hope I was wrong in expressing a fear that there are people in Britain whose first object is to maintain free trade, not the empire."

Among the distinguished visitors who are to have at the exhibition this year is Lord Charles Althrop Hindlip, former A.D.C. to the late governor of Victoria.

BOY SCOUTS TOOK POSSESSION OF FAIR

and the removal of the buildings near the entrance gives a noble approach to the permanent architecture.

The directors' luncheon constituted the formal opening of the exhibition. The address to Sir Robert had been set down for presentation at the grand stand, but Mr. Gooderham, who presided, read it after his introductory remarks.

The Lord Bishop of Toronto offered prayer. The national anthem was sung after the royal toast, and the subsequent "Hip, hip, hip," scored its usual triumph.

The exhibition had been honored by many representatives of his gracious majesty, said Mr. Gooderham. They had had the governor-general on several occasions. He was glad to welcome his excellency, and to see the lieutenant-governor, whose health he had not seen for some time.

Mr. Gooderham agreed that they needed no introduction to the exhibition. The movement he was associated with was one which every man in the world, when he understood it, would support. Its object was the making of better citizens, and in no sense of the word a military movement.

Mr. Gooderham's health was drunk with enthusiasm and his first word rang out in reply like the report of a Long Tom. "B-P." he said, "is the spirit of the age. He has bivouacked on battlefields and knows dead men by sight. He carries a certificate of heroism and genuine manhood and is decorated with decorations that cover his breast. He speaks one loses sight of those treasures, precious as they are. He wears, along with his medals, three stars, a golden swastika, the ancient emblem of active spiritual life. It is a correct, most of the emblems, indicating motion, forward, and back, as formed of the emblems seen in Toronto do."

It was a higher honor than he could wish, he said, to find himself in that position. His honor the lieutenant-governor, had alluded to his elusiveness, but his heart was not intended on his part. He would have faced the ordeal had he known the kind reception prepared for him.

"B-P." has no love for newspaper notoriety, and made for newspaper several times during the day. At the luncheon he said he had been in Canada before since the war, and he had been glad to see the country without the intervention of newspaper men.

They had in Canada a new home manufacture—the spirit of citizenship in the rising generation, and they had an exhibition of this citizenship and patriotism in the boy scouts.

front of the grand stand, where twelve to fifteen thousand people had gathered. They closed with the "Maple Leaf" and "O Canada," the latter eliciting warm plaudits.

"B-P." evidently regarded the boy scouts as his own special mission at the fair. Anything could wait, but the scouts. As the long lines were re-arranged, he thought it a little slow and was inclined to be impatient, but all this time "B-P." was sinking down deep into the heart of the boys. He stopped repeatedly and shook hands and talked with the scout-masters; he shook hands with a cripple boy in uniform who was unable to do active work; and singled out little boys for encouragement in the form of learning how to be men to the King's limit.

After the inspection the leaders were grouped. These were A. S. Rawson, H. G. Hammond, F. Todd, N. E. McKelvie and C. J. Stalker. Miss Knowlton carried the presentation flag of deep green and gold, with the motto "Be Prepared." around the "Ich Dien" emblem. This was presented to H. G. Hammond for the district. And then the boys formed up in solid order, and the phalanx moved away west with all the national future before them.

"B-P." could scarcely be persuaded to speak to the people at the grand stand. Urged by Joseph Oliver and finally "commandered" by W. K. McClelland, he consented to repeat a few of the sentiments he expressed at the directors' luncheon. It was a great honor to be present, he said, and he was not going to attempt to improve on the text of the premises who taught them that the great point was unity and progressive citizenship. The exhibition had one great point that was left out in others. No country was any good that enlarges itself only in a material way.

After the march around the track and the display of tent life with all its ambulance work, practical first-aid, bivouacking, and sports and scouting, the boys had found a pretty pretty customer, and he believed he had abandoned altogether his elusive habits. (Laughter.) In conclusion, he expressed the hope that the weather conditions would be such as to enable the fair to surpass all records.

Mr. Gooderham agreed that they needed no introduction to the exhibition. The movement he was associated with was one which every man in the world, when he understood it, would support. Its object was the making of better citizens, and in no sense of the word a military movement.

Mr. Gooderham's health was drunk with enthusiasm and his first word rang out in reply like the report of a Long Tom. "B-P." he said, "is the spirit of the age. The general impression got abroad that it was not open till eight o'clock.

Charles C. Hahn, Mayor of Berlin, was an interested spectator at the fair yesterday. Mr. Hahn is a young man, yet, who has the energy and business zeal that have made Berlin the Birmingham of Ontario. He is a great believer in Berlin, and its possibilities. It is now a city of 14,000 and one of the foremost manufacturing centres in the province. Mr. Hahn makes Berlin an alert, up-to-date, presentable, progressive mayor.

Manager Orr was well pleased with the condition of the exhibits. He said only one was out of place, and this was due to a delay in the arrival of the C.P.R. cars for the entrance. The children's protective branch of the provincial secretary's department, under J. J. Kelso, has a tent in connection with the fair. The Society. An agent of the department is present to give information on the work.

Well Worth Seeing. Visitors to the exhibition should not fail to stop in at the lecture building of the National Cash Register Company, which is situated just behind the women's exhibit. It is a building recognized by its distinctive white and gold front. Here is given every hour moving pictures and colored slides showing the company's model factory and the homes of its employees, which are highly interesting. It is a building which is full of valuable suggestions to every home-owner.

The Truth About Goodyear Tires Needs No Varnishing. In yesterday's issue of this paper an inadvertent error was made. In the Goodyear Tire announcement, that "on all automobiles in the Canadian National Exhibition, Goodyear Tires lead all other tire manufacturers by 41 per cent."

Look Up the Deon Canos. Practically all the championship past six years have been won by the Sunnyside cruiser. The Deon canoe is the best canoe in the world. Hundreds of races have been won by it. It has a hull of birch, and is light, strong, and durable. The "Deon" exhibit will be found under the grand stand.

Marvelous Invention in Player-Pianos. The most remarkable improvement in player-pianos to be seen at the Haines Bros. and the Marshall & Wenzel piano exhibit. This is the "flexible expression control." This marvelous invention gives the performer unlimited possibilities in bringing out the desire of composer as to expression. The flexible hammer rail, controlled by three finger keys solves all the difficulties that have existed up to this day to accentuate one particular note out of the whole chord.

Domestic Conveniences. Household and domestic economies have been well looked into by the J. A. French & Co. Limited, who are demonstrating several very useful wares in their tent at the east of the stove have the "Ruby Rub" metal polish. They have no other plates; the "Naphthalin" disinfectant, which drives away insects and disagreeable odors away from the floor and an abominable odor dip for sheep and an abominable odor dip for sheep and an abominable odor dip for sheep.

Face Horse Burned. WINDSOR, Aug. 30.—(Special).—Fire broke out last night in a barn on Glen-garry-avenue, cremating the residence of "Cumberland." Chas. Chandler, the owner, was kicked and seriously hurt. Dr. Isaac Wood of Kingston is stricken with paralysis.

Something New in Silverware. The "new art style" is the special feature in connection with the exhibit of Fox & Seal, Artistic Silver Co. of Hamilton, who have a striking exhibit in the manufacturers' building. This company are manufacturers of high-class silver plated hollow ware, and in nearly every article made the new art style is given particular prominence. The three artistic utensils which show to special advantage this latest design are a fern dish, fruit bowl, combination sugar bowl and cream pitcher. In the latter the handle, instead of being a fixture between the two parts, is similar to that of a fruit dish, but of the new art style. Besides these special articles, a variety of other plated ware pieces, useful to the housewife in table settings, are exhibited. The company are also specializing in sporting trophies.

"Wonder-Shine" is Pre-eminent. That "Wonder-Shine," the great polish for all kinds of silver and plated ware of all kinds, is one of the wonders of the age, is apparent from the vast crowds which thronged the exhibit, and the great number of visitors to the fair show. It is a point to include this exhibit in their literature. No lady should leave her home without a package of "Wonder-Shine."

Where to Dine. No doubt you will be pleased to learn that your favorite restaurant, which is Nasmith's, of course, is doing business in their old stand this year, as usual. You will find them situated in the west end of the grand stand, where they are serving full course dinners for the medium charge of 85 and 50 cents. The entire world is most convenient, especially if you are going to view the grand stand performance, as you lose no time in getting your seat after your meal.

California Frank's Wild West. California Frank and his Wild West show, which is something of a novelty here, has been arranged to be at the Midway with all his old favorites and a score of new artists as well. He has appeared in the principal cities and cities of the world, and in the interval, where he proved to be a banner attraction.

Babbit and Bearing Metals. A huge metal giant, clothed in metal, catches the eye of everybody who enters the machinery hall. It is a worthy emblem for the "big metal man"—the Canada Metal Co., represented by General Manager W. G. Harris. This exhibit shows one of the widest assortments of metal goods ever shown in a display. It includes the "Harris Heavy Pressure" babbit metal and the "Imperial Genuine," which has proved to be the highest grade babbit metal made. There are also shown solder, lead pipe, pure block tin plate, lead traps and bends, fuse wire, battery zinc, ingot copper, lead, tin, antimony, aluminum, and all ingot metal.

CHRISTIE-BROWN'S MEDALS. Noted. Fancy Biscuit Firm Have "Cabinet Full of Grand Prizes." A change in the manufacturers' building that is very noticeable is the removal of the Christie, Brown Biscuit Co. from the north end of the building to the well-known biscuit tower, they are occupying a space twice as large as before, and arranged as a model store, constructed of glass and steel, with large plate glass display windows. Upwards of 500 varieties of biscuits, cakes and confectionery are shown in tempting profusion, which would strongly appear to bear out the firm's boast of being the largest exhibitor of biscuits in America.

The opportunities for profitable diversified farming are practically unlimited. The demand for every product of the farm is increasing, and ever increasing, the present supply being wholly inadequate for the local market. Under a system of small land holdings every acre of land is being put to the best use, because produced by labor that might otherwise be unproductive.

British Columbia fruit is preferred above all others in the markets of the middle west, where it commands a premium price. In 1904 a small exhibit of the fruit of the province was sent to England as a car lot exhibit in London won the first prize from all competitors, while no other exhibitor's exhibits were awarded the individual medals which made up the collection. Greatly increased in 1907 and 1908, collections of British Columbia apples won the gold medals of the Royal Horticultural Societies of England and Scotland, and several silver and bronze medals were awarded to individual British Columbia fruit growers. In 1909, the province was, for the fifth time, awarded a gold medal by the Royal Horticultural Society, four silver and three bronze medals being won by individual exhibitors. This was the largest exhibit so far sent from British Columbia, consisting of 40 boxes, or about twenty tons of fruit, which made a splendid display.

The exhibit is in charge of Mr. Bullock Webster, who will be pleased to explain the natural advantages of this great province to anyone desiring information. Your visit to the exhibition will be incomplete unless you have examined this attractive display.

Automobile News at The Exhibition. The attendance at the automobile exhibit yesterday was far in advance of Monday, not only in numbers, but in the prominence of the visitors. **CANADIAN MUNICIPAL ASSN. MEETING TO-DAY**

Extensive Program of Business to Transact—Convention Opens at City Hall at 2 p. m.

The tenth annual convention of the Union of Canadian Municipalities opens in the city hall to-day. Delegates will be present from many of the cities and towns of the Dominion. Mayor W. Sanford Evans of Winnipeg, president of the association, will preside. The following is the program of the business to be transacted:

Secretary Lighthall will present his annual report. Reports will be submitted by affiliated provincial unions. At 8 p.m. the committee on resolutions will submit a report.

Thursday morning W. K. McNaught, M.P.A., will speak on the hydro-electric commission's work, and the export of water power will be discussed by Mayor Williams of Fort Frances, Mayor Pelletier of Fort William and Mayor Matthews of Fort Snair. "Town planning and embellishment" will be discussed by E. C. Marsh of New York. "Municipal taxation" by A. B. Farmer of Toronto and "The American financial invasion" by Mayor Hopewell of Ottawa.

At 3 p.m. "public utility commissions" will be discussed by H. C. Small, secretary of the Ontario Railway and Municipal Board, Stuart Jenks of Halifax, Deputy Attorney-General of Nova Scotia, and Lieut.-Col. F. W. Hibbard, K.C., of Montreal, president of the public utilities commission. There will also be a lantern lecture for the public on "Embellishment of Canadian Cities" by H. Bragg. "The Board of Control and Municipal Government by Commissioners" will be discussed by F. S. Spence, Toronto. Buschart of Edmonton and others.

On Friday "automobile legislation" will be introduced by A. Whitman, Halifax, Mayor George Bell of Enderby, B.C., and Mayor Taylor of Vancouver, B.C. Level railway crossings will also be discussed and officers will be elected.

**Want New Channel.**  
 The board of control decided yesterday to make application to the Dominion Government to dredge a channel thru the Toronto harbor to allow vessels of 30 foot draught to reach the docks to be built in Ashbridge's Bay. City Engineer Rust has figured that he will be able to spend \$25,000 this year on the new docks.

In answer to five questions asked a few days ago by Controller Foster, City Engineer Rust sent the following reply to the board of control:

The new 15,000-gallon pumping engine has been pumping water since Aug. 1, but has not yet been taken out of the contractor's hands. The reservoir will be emptied and cleaned immediately after the exhibition.

Intake extension cannot be made until the Canada Foundry makes the pipe.

It would be criminal to empty water-works tunnels at present, because it is feared, because the city would be left without fire protection.

Work will be begun this week on the west-end bridges, but there will be some delay on the main bridge as the C.P.R. want to lay more tracks beneath it.

Owing to lack of labor again progress of work on the filtration plant is not so rapid as Allan Haven, the New York expert, would like.

Street Commissioner Harris has decided that the street sweepers must work on Labor Day, but they will get double pay.

The city engineer reported to the board of control the situation of the poles to resume work on the hydro-electric lines in the city.

**INVITED TO MEXICO.**

Signal Honor is Conferred Upon Dr. Macdonald.

Dr. J. A. Macdonald has been invited by the Mexican Government to attend the centennial celebrations of Mexican independence to be held on the 14th, 15th and 16th September. The 15th is the birthday of President Diaz, and it was on the night of the 15th that the declaration of independence was first promulgated. A special train for the guests of the Mexican Government will leave St. Louis, Mo., on Sept. 8, and a most interesting tour has been laid out for those who are invited. There will be a stop of a day at San Antonio and a week in the capital and afterwards a dozen of the chief centres will be visited. On the return St. Louis will be reached on Sept. 20. Dr. Macdonald leaves next Tuesday.

**CORONER EXCLUDED POLICE.**

That Coroner Greig exceeded his powers in refusing to allow the police to enter a Crawford-street house where he was investigating a suicide case is the complaint made by the men who were refused admittance. Attempts by the newspapers to ask Dr. Greig for an explanation were met with a curt refusal.

**FLEET TO WELCOME CARDINAL**

Will Escort the Lady Grey From Quebec to Montreal.

QUEBEC, Aug. 30.—Accompanying Cardinal Vannutelli, papal legate to the Eucharistic Congress, now en route here on the Empress of Ireland, is Cardinal Logue, primate of All Ireland, and other dignitaries of the church. The legate and his party will land here, and a welcome will be tendered to them by Archbishop Bejin and the lieutenant-governor on the terrace of the Hotel Frontenac. Subsequently the legate and party will proceed on via Three Rivers and Sorel to Montreal on the afternoon of Sept. 2. The flotilla that will escort the Lady Grey to Montreal will meet her in the neighborhood of Point aux Trembles. It has been preparing for the function, and the effect is certain to be impressive. The yachts will fly the papal flag at the bow, and the Canadian or British flag at the stern. They will line up in two rows on each side of the Lady Grey and will steam up the river at a uniform speed. It is expected that over a hundred yachts, and also from Elizabourg, N. Y., will take part in the demonstration.

**A Rub for the Underwriters.**

Windsor Record: Can an agent of the Underwriters' Association legally turn out a town's whole fire fighting apparatus on the highway as was done in Windsor yesterday? Almost immediately after this official inspection, fire broke out, but luckily the outbreak was of a trifling character. Supposing a big fire had broken out two miles from the scene of the inspection, and the firemen had found it necessary to gather up their "tools" before proceeding, who would have been responsible for the destruction wrought here up to the necessary delay? Here is a question that the city should settle before again allowing its entire fire plant to be scattered over several city blocks at the behest of anybody.

**CHOLERA IN GERMANY**

Fourteen Cases in Berlin and Spandau.

BERLIN, Aug. 30.—Fourteen cases of cholera or suspected cholera have been discovered in Berlin and the suburbs of Spandau.

Cholera is a deadly parasitic endemic and epidemic disease, characterized by acute diarrhoea, vomiting, feeble circulation, coldness, cramps and collapse. It generally originates in Asia and is principally a water-borne disease. There have been many terribly destructive epidemics recorded in Asia and Europe, and its appearance creates intense alarm.

**Epidemic in Russia.**

ST. PETERSBURG, Aug. 30.—Eight new cases developed at Odessa during Sunday and Monday. Prof. Rein, head of the special sanitary commission, which is fighting the pestilence in the South Russia, reported to-day from the Province of Yekaterinoslav that the railways of the southeast had registered 223 cases among their passengers and employes.

**Bubonic Plague, Too.**

**Troops Guard Jail.**

HUNTINGDON, West Virginia, Aug. 30.—With three companies of state militia under personal command of Adjutant-General Elliott on guard and a machine gun in front of the county jail, no further rioting is anticipated to-day by the mobs which, for two successive nights stormed the jail in an effort to lynch the negroes, John Wayne and Charles Clyburn, alleged murderers.

**RED ROUGH HANDS On Retiring**

**CZAR VISITS GERMANY**

Imperial Party Has Safely Reached Health Resort.

FRIDBERG, Hesse, Aug. 30.—Emperor Nicholas and Empress Alexandra of Russia arrived here safely at 3.30 o'clock this afternoon. Their majesties were accompanied into German territory by a suite of fifty persons. Before the arrival of the imperial train, great crowds gathered in the streets in hopes of having a view of the visitors. They were not disappointed, for the emperor and empress were driven from the railway station to the castle, which they will occupy while here, in an open motor-car. The Russian secret police have been here for several days on the lookout for anarchists and last night at 3.30 Naimheim took into custody a Russian named Maneberg. Shortly before the royal party arrived to-day, the police arrested another man who is believed to be an anarchist. It is estimated that no less than 50 Russian and German political agents are now in Friedberg and adjacent places.

**FREAKS OF COMPRESSED AIR**

Funny Stunts That Are Being Done by Ship Salvagers.

PORT ARTHUR, Aug. 30.—(Special).—The buoyant properties of compressed air were manifested in an interesting way on the steamer Trevor, which is aground at Isle Royale. To float the boat, F. S. Wiley, who bought her, filled her with compressed air and then, before moving her sent men to make repairs in the hold. The men can perform the work of giants, can pick up heavy bags of cement, apparently without effort, or swing their bodies with the hatches on the beam, but when the hatches are taken off, must be careful or they will go flying skywards thru the openings.

**Ottawa to Welcome B.P.**

OTTAWA, Aug. 30.—(Special).—The capital will tender a civic reception to General Baden-Powell when he arrives on Friday, and an endeavor will be made to have him return and open the Central Canadian Fair.

The Canadian bureau of exports, recently established, has proved a success. Already over five thousand firms engaged in manufacturing over fifty thousand different commodities have inscribed their names. J. S. Ewart, K.C., who acted as one of the Canadian counsel in the Newfoundland fisheries case, argued before The Hague tribunal, has returned.

Cobalt—Advances of One to Four Points in Mining Issues

Strenuous Trading in Cobalts Stocks Mount Steadily Higher. Advances in Mining Issues Carried Further in Nearly Every Instance—Sentiment is Generally Cheerful.

World Office. Tuesday Evening, Aug. 30. The Cobalt stocks were kept in the limelight again today, yesterday's advance being carried further through the cheaper-priced issues.

Sentiment at the opening of the market was generally favorable to holders, and when any new buying came into broker's hands, prices were marked up in the easiest kind of a way.

Part of the day's operations were due to short covering, on the part of the stock exchanging the exchanges at prevailing prices.

As during the last few days the movement was led by Beaver, these shares opened at 2 1/2, and registered a net advance of over two points, touching 3 1/2 on the afternoon board. The rally was not an uninterrupted one, the stock being temporarily liquidated on the way up, the price at one period dropping to 2 1/2.

An upward movement was carried through the list of the cheaper stocks. The market was generally favorable to holders, and when any new buying came into broker's hands, prices were marked up in the easiest kind of a way.

Read the testimony of grateful men who have tried my Belt. Give me a chance to give you undoubted proof which confirms you that in Electricity, as applied by my Belt, there is health and strength for you. You are already strong for you have tried them and know. Now try Electricity and you will soon know that it helps and cures.

MAY CONQUER LEPROSY. United States Scientists in Hawaiian Islands Make Great Progress. WASHINGTON, Aug. 30.—Leprosy, the unconquered scourge of the ages, is making steady headway in the islands of the Pacific, and it is believed to be its last stand against science. From Mookai, the Coral Isle and prison for the plague-stricken in the Hawaiian group, a few words have been dashed to Washington telling of an achievement accounted well worth the discovery of the lepra bacillus by Hansen in 1878.

Our September Blanket Sale Opens To-morrow with a List of Sterling Values.

To the thousands of our customers, both in-and-out-of-town, who are accustomed to make our September Blanket Sale the occasion for an annual re-stocking of their bedding stores, we take pleasure in announcing that the Greater Blanket and Flannel Sale of this September will take place on the Second Floor, in a bigger, airier department, right in the Queen and Yonge St. Section.

The tremendous selling developed in our last sale showed clearly enough that our trade was out-growing our main floor space, and it was just a year ago that we began to make preparations for this greater sale in a department where we would have full scope. You will find in the early buying the explanation for the prices we are now able to quote. The Blankets and Flannels now put on sale were bought before the last boost in wool-prices was thought of, and you'll find by a careful comparison of our prices, with those prevailing elsewhere, that we are passing on to our customers most of the benefit.
