GREECE THREATENS BULGARIAN BORDER TOWNS MAY BE OCCUPIED IF NO REPARATION

Crisis Follows Assassination of Greek Merchant
TROOPS ON MOVE

Word has reached here from Athens that the Bulgarian reception of the Greek ultimatum, but that the Greek Government had recently sent a note to Sofia explaining that the Greek troops on the Greco-Bulgarian frontier were not sent to arrest and punish the criminals responsible for numerous killings which culminated in the murder of a well known Greek merchant at Staniaka, Bulgaria.

EXPRESS REGRET.
While one report from the Greek capital is that the Bulgarian reception of the demand for reparation has not been favorable, a despatch from Sofia, the Bulgarian capital, says that, in reply to the Greek communication, Foreign Minister Kalof has expressed extreme regret over the assassination and promised that all measures would be taken to punish the offenders.

DENIES SERIOUS CRISIS.
Officials of the Greek and Bulgarian legations in Paris, have deprecated talk of serious tension between the two countries, emphasizing that such troubles as those which occurred recently, were not unknown among the Balkan countries. They were aware of no other cause for trouble between Greece and Bulgaria, and it is plain that they should be astonished if a conflict developed from the Nicolaides affair.

APPEAL TO LEAGUE.
M. Dendramis, Greek delegate to the League of Nations, and Green minister of Greece, is represented in a despatch from Geneva as saying that if the reply to the note sent from Athens to Sofia is not considered satisfactory in Greece, an appeal would be taken to the League of Nations.

GENEVA, Aug. 4.—The present tension between Greece and Bulgaria has been caused by the assassination of Greek citizens in Bulgaria, declared Vassil Dendramis, the Greek delegate to the League of Nations last night.

NO ULTIMATUM.
Speaking by telephone from Bern, where he is the Greek minister, M. Dendramis said that he was not aware of the existence of an ultimatum, but that the Greek Government had recently sent a note to Sofia explaining that the Greek troops on the Greco-Bulgarian frontier were not sent to arrest and punish the criminals responsible for numerous killings which culminated in the murder of a well known Greek merchant at Staniaka, Bulgaria.

CALDWELL BACKS GRAND FALLS WORK

Belittles Opposition Canvass That Operation Would be Unprofitable.

WOODSTOCK, N. B., Aug. 4.—With Ontario Hydro available to municipalities at an average cost of \$4 per H. P. and with practically every municipality listed in the report of the Ontario Hydro Commission showing a profit in the distribution of electricity after paying its operation charges, and providing for the retiring of bonds and establishment of adequate sinking fund, T. W. Caldwell, M. P. P., belittled the canvass being made by candidates of the Opposition forces that the development of Grand Falls would prove an unprofitable undertaking and would add greatly to our taxation burden.

SMIDDY PRESENTS IRELAND'S CLAIMS
Points Out Progress Made Since Allowed to Govern Themselves.

WILLIAMSTOWN, Mass., Aug. 4.—The Irish Free State asks only in regard to Ulster that she transfer to the Free State the powers now transferred to the British parliament, Professor T. A. Smiddy, Irish minister plenipotentiary at Washington, said at the Institute of Politics yesterday. He represented the Free State as being willing that Ulster should retain her autonomy with that proviso.

PROGRESS MADE.
As evidence of the progress made by the Free State, Smiddy pointed to the fact that order now is maintained by 7,000 unarmed civilian guards, proving, he said, that the Irish people were law-abiding when allowed to govern themselves. Other matters cited as proof were the land act, the establishment of a new judiciary, the grading of dairy products, exported to England, and the improvement of roads and housing conditions.

COMPLETES SECOND CANADIAN HIKE
Halifax Shoemaker Covered About 9,000 Miles During His Trip.

HALIFAX, Aug. 4.—The Rhodes government's cry of "Bring the Boys Home" had nothing whatever to do with the return to Halifax of Alex. Mollison, the well known North End shoemaker. He returned home after over a year's absence, he having completed his second hike from Halifax to the Pacific coast.

QUEBEC HAY CROP IS A BUMPER ONE
Rain Delays Harvesting But Farmers Not Worrying—Corn Yield Poor.

SHERBROOKE, Que., Aug. 4.—The general condition of crops in this section of the province, is excellent. The corn crop is particularly good, but most of the farmers do not seem to take a very serious view of this, as there has not been enough rain to actually harm the hay and as they are confident of an improvement of the weather soon. The hay crop itself is a bumper one, and not for years has it been so good.

Barn Is Destroyed In Woodstock Fire

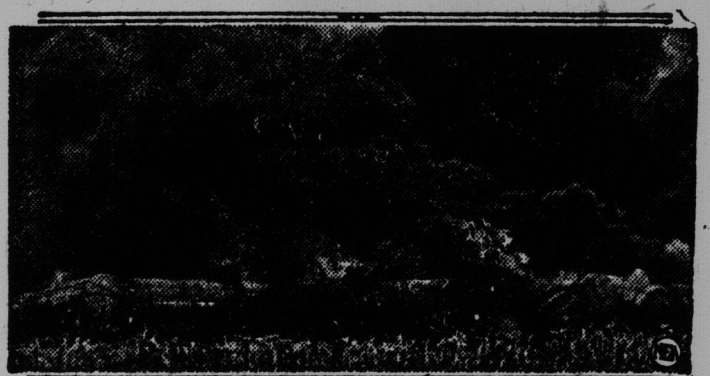

WOODSTOCK, Aug. 4.—The barn of Mrs. Nelson, St. Andrews street, which contained several pieces of furniture, was burned to the ground Sunday, the origin of the blaze being attributed to the electrical storm which raged here yesterday. The house was slightly damaged. Little if any insurance was carried.

SAYS GOVERNMENT SIDES WITH REDS
Ramsay MacDonald Critical of Settlement of British Coal Crisis.

DUNNOWN, England, Aug. 4.—Ramsay MacDonald, former premier, in a speech yesterday, commenting on what he termed the government's surrender to the coal miners, declared the government had come to a sound conclusion, "by a way abominably bad."

ACTION HELD AS SURRENDER TO LABORITES

Subsidy To Mining Industry Will Cost \$100,000,000

ECONOMY GOES
Surrender to Sea Lords on Building Programme Means Another \$300,000,000

LONDON, Aug. 4.—Heavy clouds struck the political horizon of Parliament's final week before the summer recess. The Government's decision to purchase temporary peace in the coal mines dispute by means of a subsidy which may entail the expenditure of fully \$100,000,000 is widely held to be nothing less than a surrender to the miners and may prove a disastrous precedent as well as the death knell of the "Tory" Government as at present constituted.

At the beginning of the session the Government held out hope of a great economy were its administrators not substantial cuts in expenditure.

Within the last week however the Government has surrendered to the miners to grant a subsidy equivalent to the building fund. In addition, it has agreed to grant a subsidy to the mining industry which will cost \$100,000,000. The building programme and the cost subsidy will be \$300,000,000 or the taxpayers, fully \$600,000,000.

DAILY MURDER CHICAGO RECORD

Thirteen Times as Many as All Canada in the Year.

ASTOUNDING COMPARISONS IN CRIME STATEMENTS—LONDON'S FIGURE FOR YEAR, 27.

CHICAGO, Aug. 4.—Persons are being murdered in Chicago at a rate of more than one each day. A total of 227 have been murdered to date this year. If that pace for the 311 days continues for the next 154 days, the murders at the end of 1925 will number 381.

That estimate is comparable with 247 Chicago murders last year, 270 in 1923, 228 in 1922, 160 in 1921, 194 in 1920, and 330 in 1919, which was the record for the second city in the nation. These figures are of murders, not of killings or homicides.

Chicago had a population of 2,701,705 in 1920. All of Canada in 1920 had a population of 8,788,482. These are official census figures of each. In 1919 Canada reported 19 murders when Chicago's was 330; in 1920 Canada reported 57 murders, while Chicago reported 247; in 1921 Canada reported 56, while Chicago's totalled 228.

On the basis of these figures for 1922 Chicago had one murder for each 11,845 of population, while Canada had one for each 156,919 persons. Relatively, Chicago had thirteen times as many murders as all of Canada.

Another view of the local situation by contrast is available because of the arrival of the annual report for 1923 of W. Norwood, commissioner of police of London. That shows 27 murders in the world's metropolis for 1923, as compared with 270 in Chicago. Talking London's population as reported for 1921 Chicago's for 1920, London had one at 1,480,201 for its greater area, and murder for each 278,896 persons, while Chicago had one for each 10,000 of its inhabitants. With the population ascribed to the territory under the jurisdiction of the London county council, the British would not make so good a showing.

HOW THEY FARED. The fate of the murderers in the two cities in the same year supplies more illuminating material. Concerning "crimes of violence," Commissioner Norwood prints in his report: "Twenty-seven cases of alleged murder of persons above one year of age were recorded (in 1923) as against 28 in 1922, two cases of murder by abortion being included in the figures of 1922. One murder included in the figures of 1922, which was presumed to have been committed in April, 1922, but was not known to the police until October, 1923.

"In 17 cases, sixteen persons (one in respect to two murders) were arrested. Nine were convicted and sentenced to death—including a double murder, four were found to be insane at the time of committing the offence, one was acquitted on the ground that the act was committed in self-defence, one died while awaiting trial, and one is yet to be dealt with. In the other ten cases, three of which were double murders, the murderers committed suicide. It may be pointed out that no case of unsolved murder occurred during the year."

OTHER COMPARISONS. In London 36 defendants appeared in court. In Chicago 136. In Chicago the crime commission reports that sixty-five of the accused in court, or 45 per cent, paid a penalty for murder. In addition to nine sentenced to death, fifty-six were sent to the penitentiary. The commission says the other 70 received no penalty. The cases of 11 were struck off, 14 more were nolle prosequi and 45 were found not guilty, a word, only 65 persons paid a penalty for 270 murders in a year.

British Newspaper Writers To Visit Saint John This Month

A party of 12 British journalists, representing some of the largest and most influential newspapers of Great Britain, will visit Saint John during the latter part of August as the guests of President E. W. Beatty of the C. P. R.

They are expected to arrive in Canada early this month for the purpose of gaining an insight into Canadian conditions. They will probably leave Montreal about August 23rd en route through the Maritime Provinces. New Brunswick they will visit Fredericton, Saint John and Moncton.

The morning match first was the Tyro only to the junior members or newcomers and the range is 800 yards.

The winner of the match was Reg. Q. M. S. Moore, who carries off the cup and \$10 with a score of 84 points out of a possible 85.

NOTHING TO SAY. When asked this morning if the Grand Falls contract had been signed yet, officials of the New Brunswick Electric Hydro Commission referred the representative of The Times-Star to the chairman of the Commission.

NAVIGATION INTERESTS. The C. G. S. Laurentia is replacing buoys in Yarmouth harbor today and it is expected that this work will be completed tomorrow, after which the vessel will leave for Saint John. The C. G. S. Dollard sailed this morning with supplies for government stations at Grand Manan and the vicinity.

GIRL SEES FIANCE BURNED TO DEATH

Young Italian Pleads as Friends Refuse to Give Him Aid.

MILAN, Italy, Aug. 4.—A terrible accident has put an end to all the hopes of Emma Barusi, a young girl of 19, who lived in Milan with her father and mother. She was happily engaged to a young man of 24, Mauro Cortesi, and they were to have been married soon. Recently at the girl's home Cortesi had gone out to buy a bottle of benzine to clean his galiers. The bottom of the bottle came out and all of the benzine was spilled, partly on the young man's trousers and partly on the floor. The girl and her mother, who were put on a pair of her father's trousers; but Cortesi said, as he was just going home, it did not matter. He then remained a little longer, talking, and the affair of the benzine was almost forgotten. At last he said good-night and stopped to light a cigarette as he was going, throwing away the match before he had gone out.

But a flame sprang up, for the match had fallen on the benzine on the floor. The girl and her parents screamed and Cortesi, anxious to prevent further damage, attempted to stamp out the fire without thinking of his own grave danger. He tried to run to the door, but he was so close to it that he was unable to get through. He tried to put out the fire with his hands and was soon enveloped in flames. Gasoline Explodes Aboard; Captain, Blown on Rocks, May Die. GREENWICH, Conn., Aug. 4.—The yacht Onoway, owned by Fred P. Caskill of Larchmont and valued at \$80,000, was wrecked by an explosion and fire. It was blown up by an accumulation of gasoline fumes while under repair at the Milton Boat Yards. Residents of Miller Point were almost thrown from their beds by the force of the explosion. Patrick Malloy, the captain of the yacht, was blown from his perch landing upon a pile of lumber. His clothing was blown into the air and he was seriously burned. He was removed to the United Hospital at Portchester, where it was said his condition was critical.

MAYOR AGAIN ON MILK QUESTION

Potts at Musquash Trains Guns on Dr. L. M. Curren

Attacks Him Also on Matter of Hydro for Lancaster and Simonda.

At a meeting of Opposition supporters held last night in the school house at Musquash with Judge George Thompson as chairman, the speakers were Mayor Potts, Opposition candidate; Commissioner R. W. Wigmore and R. G. McInerney. The room was filled to capacity and the speakers were accorded an appreciative hearing as they spoke of the issues of the election campaign. The Mayor resumed the controversy regarding pasteurized milk and the health board that has been going on between him and Dr. Curren.

REFERS TO HYDRO BILL.

"Here is a plain, frank statement to prove to you that Dr. Curren first attempts to find out which is the strongest force to join and then throws his support with that body, but as his judgment is poor he usually gets in the wrong group. Take for instance the hydro bill," continued Mr. Potts. "There was a bill promoted by the Hydro Commission of the City of Saint John last April and presented to the House, praying that the City Hydro Commission might supply current for lighting and manufacturing purposes in Simonda and Lancaster. This bill was vigorously opposed by Dr. Curren because it did not suit Messrs. Campbell and O'Brien, of the Parish of Lancaster, and was finally laid on the table.

SAYS HE SOMERSAULTED.

"Then the good people of Lancaster got up in arms and got a petition signed by some five hundred of the ratepayers, went to Fredericton and presented the bill with the Health Act of his own Government, when every school boy knows that the Government took out of all municipalities any control of the Health Act and placed it entirely in the hands of Dr. Roberts, the Minister of Health, and no change could be made without the sanction of the Minister," declared Mr. Potts.

YOUNG MEN'S CLUB

The Opposition candidates last night addressed a well attended meeting of the Young Men's Liberal-Conservative Club which W. Grant Smith, president, was chairman and Paul C. Quinn was secretary. A considerable amount of organization work was done during the meeting and the members prepared to take an active part in the election campaign.

The Evening Times-Star

The Evening Times-Star printed at 25-27 Canterbury street every evening (Sundays excepted) by New Brunswick Publishing Co., Ltd., J. D. McKenna, President.

SAINT JOHN, N. B., AUGUST 4, 1925.

BALDWIN AND RHODES. Ramsay MacDonald joins Lloyd George in denouncing Mr. Baldwin's plan by which the great coal strike was averted, characterizing it as a surrender to the coal miners. He agrees that it was a great thing to prevent industrial paralysis, but he objects very strongly to the method by which the end was achieved, and says that the Government has handed over at least the appearance of a victory "to the very forces that sane socialism felt to be probably its greatest enemy," and that the Ministry "in fact and in substance by its general policy has sided with the wild Bolsheviki."

BRITISH RUBBER. Those who are making an outcry over Britain's system of control of the export of rubber apparently forget that the price paid for this commodity by British subjects is the same as that paid by foreigners. The price has undergone spectacular changes. A little more than a year ago it was only seven cents a pound. Not long ago it was as high as a dollar and twenty-five cents and only recently it fell below the dollar mark again.

SIGNS OF CHEER. In contributing to a "Prosperity Number" issued by the Brantford Expositor, President Beatty of the C. P. R. refers to "better times ahead," and declares "there is enough in the way of encouragement in sight to make us all distinctly hopeful."

Who starts the rumors which occasionally lead to wholly unjustified movements of stocks in Wall Street? Last week "the street" in a single day heard a report that the President had been assassinated, another that Governor Smith was dead, and a third that John D. Rockefeller was seriously ill, all without the slightest foundation or excuse.

is one murder for each 11,848 of population. Another comparison is with London, which in 1923 had twenty-seven murders, while Chicago had 270. In London they arrest and hang most of the murderers. In Chicago comparatively few pay the penalty.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

"Two Hard-Boiled Eggs" (The Dystander in Toronto Globe). A wireless story in which an early celebrity in that wonderful field played a part is told by William Le Queux in a new book, "Things I Know."

"During the war he was an operator in a very important position in the Grand Fleet, and a certain most secret signal was required to be sent to him."

"O.K. I Two hard-boiled eggs." "He rapped this out half a dozen times, and all the stations around the coast were much puzzled."

"His Education." (Manitoba Free Press). Mr. Keynes, the eminent financial expert, is to marry a well known Russian dancer. He will undoubtedly learn a whole lot more about finance.

Not So Bad. (Ottawa Citizen). The western wheat crop will aggregate 270,000,000 bushels, say crop estimate experts. That is not a bad harvest for a region which six years ago was declared by other "experts" to be largely uncultivable.

Answers. (Christian Science Monitor). Examinations have been proceeding in London schools, with the usual crop of howlers and occasional answers that baffle the wisdom of a philosopher beneath the guilelessness of a child. At one school the children were asked to explain the difference between conscience and cowardice. One child replied: "Conscience is when you are afraid. Cowardice is when I'm other fellow's afraid."

Who starts the rumors which occasionally lead to wholly unjustified movements of stocks in Wall Street? Last week "the street" in a single day heard a report that the President had been assassinated, another that Governor Smith was dead, and a third that John D. Rockefeller was seriously ill, all without the slightest foundation or excuse.

Ever since April the Canadian dollar has been at par or above in New York except for a day or two in May. Financial experts in New York say this is due to "confidence of United States capital in the Dominion, optimistic preparations for the new Canadian financing, prospect for an excellent crop, large United States purchasing in Canada, and heavy expenditures of American tourists in the Dominion."

Chicago, with a population of a little less than 2,000,000, has thirteen times as many murders as the whole of Canada, with a population of, roughly, 9,000,000. The Chicago Crimes Commission has just compiled some astonishing figures which show that up to August 2 there have been 227 murders in Chicago this year, and that if the same rate is continued the number for 1925 will be 391, or an average of more than one a day. It is explained that this list does not include any hangings but plain murder. While in Canada the average is about one murder for every 158,000 people, the Chicago rate

To Settle Debt

The Measure of a Man. (Presbyterian Record). Not— "How did he die?" But— "How did he live?" Not— "What did he gain?" But— "What did he give?" These are the units To measure the worth Of a man, as a man, Regardless of birth.

Not— "What was his station?" But— "Had he a heart?" And— "How did he play His God-given part?" Was he ever ready With a word of good cheer, To bring back a smile, To banish a tear?"

Not— "What was his church?" But— "Had he befriended Those really in need?" Not— "What did he sketch In the newspaper say?" But— "How many were sorry When he passed away?"

Letters to The Editor

A WIDOW'S APPEAL. To the Editor of The Times-Star: Sir—I would like to make an appeal to all voters of New Brunswick, if you would spare the space in "A Mother's Appeal" was far too mild. That only applied to the widows' vote. Do all mothers and mothers who this province realize what the mothers' allowance bill would mean to them and their children? No man can count his days or even his hours of life, and does he realize the struggle those whom he loves will have to face after he is gone? If so, let him study that bill and see that the candidate whom he intends to vote for will also stand firm for the bill. We hear a great deal of hydro, roads, etc., but we all know those things will go, no matter who or which party is elected. But for five years have the Women's Council of Saint John been trying to get this bill passed, only to have it switched aside. Now, I think it is time for you voters to make a serious study of the future welfare of your homes, your wives and little ones and see that they do not have to be parted because you have been called to the "Great Beyond."

Careless About Little Details? (The Listener in Boston Transcript). Our British cousins have one great point in their favor—they do not appear to be under the need of flattery and puffing themselves all the time, but can stand a "slam." They are always providing themselves with their own "insularity"—and insularity must be a good thing if it knows that it is insularity and can expose its own ignorance and prejudices. The columnist of the London Morning Post records some instances of British geographical ignorance. He says that when Kansas sent a note of condolence on the death of Queen Victoria a reply was sent thanking it for its "loyalty," the sender absurdly mistaking Kansas for a British colony. Directed once to the House that Delhi was on the Ganges; and the Duke of Newcastle was astonished when told that Cape Breton was an island. "Dear me, so it is," he said, when confronted with a map. "I must go and tell the King that Breton is an island."

Your Hydro. Canterbury Street

To The People of New Brunswick:

So many mistaken and wrong statements have been published recently concerning me that it has become necessary to defend myself through the press and for this purpose I have engaged space in a morning and evening newspaper, and am paying for same at the regular rate for such service. One newspaper a few days ago refused to publish a letter I sent their editor, in which I set forth my position and called attention to the inaccuracy of a despatch which appeared in that paper, but with this exception the press has been very liberal and fair in circulating any articles which I have submitted. However, in view of the personal character which the controversy is now assuming, I cannot expect them to continue this service, which costs considerable money, free of charge.

Next let me say that I have no knowledge as to how, in Doctor Baxter's opinion, the Grand Falls power should be developed that is whether under public or private ownership. I do believe, however, that his position on this question as set forth in newspaper accounts is a sound one, when he states that there is not sufficient information given on which to form a judgment; that information should be secured; signed contracts secured; the power of the power to be developed and the authority of the people secured, before construction is proceeded with.

Whereas there is no prospect of relief by way of increase in the selling price of lumber to European and Pacific Coast competitors, which is becoming keener every year, as is evidenced by the fact that the quantity transported from the Pacific Coast through the Panama Canal and sold in Eastern United States has increased during the past five years over eight hundred per cent.; and Whereas rigid economy and better efficiency the lumbermen have reduced their costs of production during the past five years approximately forty per cent.; and cannot make further reductions without imposing hardships on employees and their families; and Whereas in view of the above, and in view of the fact that, owing to New Brunswick Rules and Regulations, the lumbermen of this province are handicapped to the extent of approximately five dollars per thousand feet as compared with the lumbermen of the Province of Quebec, it is evident that further cost reductions must come by way of decreased Government charges; therefore

BE IT RESOLVED that the Bathurst Board of Trade respectfully urges upon the New Brunswick Government immediate relief to the industry by way of reduction in Government charges. The lumbermen need the assistance asked for now and a promise of help a year from now is no good as we cannot carry on that long under present conditions. In the resolution of the Bathurst Board of Trade reference is made to the fact that the lumbermen, by rigid economy and increased efficiency were able to reduce their costs of production approximately 40 per cent. during the past five years. A considerable portion of this saving was necessarily affected by a reduction in men's wages. The men engaged in our industry realized the situation and accepted the reduced wage, otherwise it would have been an absolute impossibility to continue to operate the saw mills. While the production cost during the period mentioned has been reduced by 40 per cent. the sales price during the same period declined approximately 55 per cent. and there was no prospect of any improvement. As a result, and notwithstanding the co-operation between operators and employees a large number of the mills have been unable to survive and approximately 80 per cent. of the mills operating five years ago are now out of business.

Former Premier Says Average Increase Under Opposition \$1,625,000 Annually and Under Government, \$1,460,000

SAYS HE AND VENIOT GOT RESULTS

Tells St. Martins Audience Valley Railway Costs Cent a Second—Declares Administration Saved People Nearly Million on Bond Redemption—Ross Answers Taxation Charges—Curd Speaks

ST. MARTINS, N.B., Aug. 3.—In a comprehensive statement regarding the bonded and bonded indebtedness of the province...

Dr. L. M. Curran, M.L.A. and W. A. Ross, Government candidates, and A. P. Bentley, member in the last Legislature...

TAXATION CHARGES

Mr. Ross replied to the charge that the Government had levied direct taxation and said the engineer considered a hydro line to St. Martins from Musquash...

HIS VIEW OF FIGHT

Mr. Bentley dealt chiefly with the Grand Falls hydro development policy. He said the present election campaign was in reality a fight between the attempt of his interest to gain control of the hydro development and the effort of the Government to retain for the people the power developed from the streams of the province...

DR. FOSTER SPEAKS

Dr. Foster spoke in part as follows: "This is what the Opposition campaign has narrowed down to—petty criticism, charges of extravagance and the Grand Falls power development. If extravagance is judged by the return or value received for money expended, a little bit of comparison will not be out of order. When our Opposition friends came into power in 1908 the bonded debt was, in round figures, about six million dollars, and when we came into power in 1917 it had grown to 15 millions, and we found they had expended large sums of money with no provision to pay for it, and large unpaid accounts for capital expenditures on bridges completed and contracts uncompleted to the amount of \$950,000, together with a floating indebtedness of about \$1,000,000, which brought the increase in the debt up to more than \$11,000,000 during their regime from 1908 to 1917."

ASKS OF RETURNS

"That increase in the public debt would be all right were it spent judiciously and in the interest of the people and in such a way that proper and fair returns would be received for it. But the question is, what did we get for it? It is well that we should examine into this carefully in order to see whether or not the province could send either a boy or a girl to the school without paying any fee, but a charge would be made against the county, and the Government would make a grant for the revenues of the province, this without increasing the taxation of the people in any way."

MR. ROSS SPEAKS

W. A. Ross's speech was progressive legislation placed on the statute books by the present administration since 1917. He said that this legislation had been enacted for the benefit of the masses rather than for any class. He said the new vocational school in Saint John was not only for the benefit of the people of Saint John, but that any person residing in the parish of Saint Martins or any other part of the province could send either a boy or a girl to the school without paying any fee, but a charge would be made against the county, and the Government would make a grant for the revenues of the province, this without increasing the taxation of the people in any way."

CHARGES EFFORT TO CONFUSE

Mr. Ross stated that when Mayor Potts and Mr. Baxter said that people were being driven from this country because of taxation, they were attempting to confuse the people. The Provincial Government levied no direct tax, other than the amusement tax, and that portion of the county tax bill which is set forth under the heading "For Highway Purposes."

SAYS STATEMENTS FALSE

Mr. Ross spoke at some length on the hydro policy of the Government and the development of Grand Falls. He criticized Mr. Potts for the allegedly false and misleading statements he was making to the cost of the development at Musquash. Mr. Potts at Saint Martins stated that the Musquash work was estimated at \$1,000,000. This he must know to be false, as he knew the estimate to be \$2,000,000. He named the actual cost as being \$5,000,000, whereas he well knew that the cost (including exter-

"Saintry" Tourist Sections of Province Invite Visitors

By R. E. ARMSTRONG

Tourists from the United States and elsewhere, who mingle with the Saintry areas of New Brunswick, greatly enjoy their experiences, and express hearty delight with the smooth highways, the charming scenery they are constantly visioning, the healthful atmosphere and the many delightful, sporting and pleasure opportunities which are placed at their disposal. Saint Stephen—Canada's chief motor gateway with its eastern boundary of the United States—is the first of these agreeable Saintry to be mentioned. Not only does it afford rest and pleasure for tourists, but it also furnishes them with information as to the courses throughout the Saintry. Almost midway between Saint Stephen and Saint John—the tourist distributing section for Eastern Canada—there are two other beautiful Saintry, Saint Andrews and Saint George—at the mouth of which can linger and enjoy themselves. Saint Andrews, the nearest to Saint Stephen, possesses not only lovely and scenic beauties on land and sea, but it also includes many opportunities for restful enjoyment, such as bathing, boating, fishing, golf and tennis playing and other pleasures.

CONCERNING SAINT GEORGE

Saint George is a section that is closer to Saint John and that has been richly endowed by nature. It has good hotels and restaurants, such as the Victoria Hotel, Boyd's, Mrs. George Grant's, Arthur Callaghan's and Oren Tatton's. One of the most delightful regions within the whole province is the Lake Utopia, a pondous sheet of water with many contributory fishing lakes and streams, including Trout, Mill, Dam, Cray and Long lakes. Not only do all of these contribute to Utopia's great lake, but by a natural canal that is over a mile in length and that has only one canal that equals it in all of North America, these richly-adorned waters with their trout, bass and salmon, connect with Magaguadavic River and empty into Passamaquoddy Bay. In addition to Utopia's lakes and streams, there are no other lakes of fine sporting character, such as Digdeguash, Lily, Mud, Red Rock, Clear, (the possessor of rainbow trout), Sparks, Porbit and Pocologan lakes and streams.

PARK AT UTOPIA

The potentialities and pleasurable opportunities of these rich waters are not at all difficult to realize. Adjacent to the shores of Lake Utopia, a beautiful park has recently been provided. It enjoys the old Indian name of Utopia. One cottage has already been erected on this fine natural park and other cottages are being erected on the bluff of Utopia. There are also private camps in the neighborhood, which impress its value as a summer pleasure region. While these inland lakes afford many fishing opportunities, there are also adjacent river and harbor sections, such as Letete, Magaguadavic, Black's Harbor, Pocologan, Beaver Harbor and Letang Harbor, which afford sections such as cod, pollock and salmon are available and likewise bathing and boating facilities.

Milk Sent From The City To The Country—Because it was Better.

The digging up of the pasteurized milk controversy by Opposition candidates to do duty as ridicule of the Government's Department of Health is meeting with some sharp rebuffs from those who realize the great benefits of the universally employed method of purifying this important food element. A well-known citizen volunteers the information that after raising two of his children on pasteurized milk he found it necessary to import from the city to his country home the same pure article, as his little ones could not assimilate the milk supplied by farms in the country where the family was sojourning. The milk would not keep and moreover it had a covey taste and compared to the well-iced fluid secured in the city was not nearly so palatable. "This statement will be vouched for by affidavits if necessary."

A PUBLIC SAFEGUARD

Saint John is in line with the leading cities of Canada and the United States in protecting its child life and citizens in general with absolutely pure pasteurized milk. Previous to pasteurization the tests of all milk supplied to Saint John people ran from three million to twenty-seven million bacteria per cubic centimeter. Scientists claim that after milk reaches the half-million mark it ceases to be class A quality and that such appalling counts as have been quoted here are highly dangerous, particularly to the children. Under the pasteurized milk regulation all milk coming into Saint John is brought to a common standard of purity. Just what a return to typhoid fever and other infectious diseases if this regulation is ever tampered with, to say nothing of infant mortality. Even Montreal has had to order compulsory pasteurization.

Weddings

West-Chilcott. The home of Mr. and Mrs. Thomas Chilcott, North Wakefield, was the scene of a pretty wedding on Wednesday, July 29, at 11 a.m., when their daughter, Anna Alexandria, became the bride of Mr. Claude Percival West, of Detroit, Mich., son of the late Mr. and Mrs. Frank S. West, of Rothesay, N.B. The nuptial knot was tied by Rev. Shorten, pastor of the Methodist church in the presence of a large number of friends. The rooms were tastefully decorated with a display of ferns and cut flowers. The wedding march was played by Miss Annie Omond as the bride, accompanied by her father, entered the room. Gowned in a lovely French of white satin with touches of white tulle and a face-shaped tulle veil caught up with orange blossoms the bride presented a winsome appearance. She carried a lovely shower bouquet. The bridesmaid, Miss Eleanor Goodie of Ottawa, wore a lovely gown of orchid gorgette trimmed with blonde lace and hat to match and wore a ser-

Dr. Spahlinger Used \$625,000 in Research Against White Plague.

Refuses to Dispose of Treatment and Will Not Accept Any Fees

LONDON, Aug. 4.—M. Spahlinger, who would have been a rich man had he not spent \$625,000, his all—in establishing his famous treatment for consumption, has become "Number 10" at the Berkeley Hotel, W. In the round dozen minutes our correspondent had with him yesterday, he could have answered, had he wished, a dozen callers. A man would call: "Is Dr. Spahlinger in?" "Number 10's engaged," or, "Boy, Number 16," or just, bluntly, "Tell him I'm out for the day."

FINANCIAL HANDICAP.

"Of my own treatment I will not speak," he said. "It is for others to judge. Financial difficulties, it is true, are a handicap, but if I could only live to see tuberculosis stamped out in every country, what a great thing that would be!" It is 19 years since M. Spahlinger first gave the world his complete treatment for consumption. Exactly how much money he had spent on his research work by them would be difficult to estimate.

SCORN'S EXPLOITATION.

Two years ago an effort was launched by Baron Henri de Rothschild to ensure that Spahlinger's treatment should be accessible to both rich and poor, and \$500,000 was applied for. Gifts staved off the crisis and enabled Spahlinger to continue. But his treatment is not yet accessible to all. Commercial exploitation has scored. His systematic refusal to dispose of his treatment is typical of the man who has cured some 600 individual patients free of fee. "They come to me. What can I do?" he asks.

BACK TO 1781.

The local industries that are a calling themselves of these natural resources are the granite mills of Milne, Coutts & Co., Meating, Eggs Co., H. Gratton the Bonny River Lumber Co., the St. George Pulp and Paper Co., which functions twenty-four hours a day, and wood pulp, which is forwarded to New York, Conn., for completion. The bulk of these goods are shipped by schooner in the summer from the Saint George pier at the foot of the Magaguadavic Falls. This pulp company has developed the hydro-electric power in the falls, which power is also utilized by the pulp mill, but also by the town for street lighting. At present there are 80 street lights in the town. On the whole, Saint George is a progressive industrial community as well as a pleasure area of a good character. Further industrial development is anticipated when the Grand Falls power has been completed. The town has many good business stores, as well as motoring quarters. There are four churches within its limits, Anglican, Roman Catholic, Presbyterian and Baptist; a good school system, with a patronage of about 275 pupils; Masonic, Forester and other bodies, athletic clubs, tennis and baseball organizations. There are two physicians in the community, viz. Dr. H. I. Taylor and Dr. C. C. Alexander. Both are men with good reputations.

DEATHS

Mrs. Hubert Webb HOYT STATION, Aug. 3.—The death of Mrs. Sadie L. Webb occurred at Hoyt Station on Friday, July 31, after a long illness. She was the wife of Hubert Webb, a well known farmer of this community. Besides her husband, she leaves one daughter, Mrs. Frank A. Taylor, and three grandchildren, all residing at Hoyt. She was the daughter of the late Sibus and Elizabeth Messereau. One sister, Mrs. Elliot Hoyt, and four brothers, Dow of Hoyt Station, Charles of Washington, Eber of Idaho, and Thomas of Florida, survive her. She took an active part in the religious and social life of the community. Her funeral was held Sunday afternoon at the Ellenville United Baptist church and was very largely attended. Services were conducted by Rev. J. Corey.

FRANK BOLZER.

At the East Saint John County Hospital yesterday Frank Bolzer, adopted son of Mrs. Charles Bolzer of South Devon, died, aged 21 years. He had been ill for some time and about three weeks ago was taken to the hospital. He is survived by his mother, two adopted sisters, Mrs. Thomas Roberts of Fredericton and Mrs. William Glendinning of Waterville, Me., and one adopted brother, Henry Bolzer.

GO SLOW ON HEADACHE "DOPE"

USE of dangerous drugs, described as headache remedies, destroys the nervous system, thereby causing organic lesions and death. Too few realize that patent medicines may relieve a headache at the expense of some other part of the human system. Direct or indirect cause of headache are: bad air, fatigue, eye strain, indigestion, constipation, hunger, nasal growths and mouth breathing, hasty eating, lack of sleep and the like. The causes themselves suggest their remedy or cure. A laxative will remove or remedy a headache caused by indigestion or constipation. Fruits and vegetables, prunes, bran muffins and the like will help. A little olive oil is invaluable. A little walk early in the morning or after work in the evening will bring relief from headache caused by bad air while eye strain headaches will vanish with a little rest. Fatigue is quite a common cause

of headache, and rest is the only medicine required. Worry, anger and the like provoke headaches which can only be cured by removing the cause and not through the use of headache medicines. It is better to be cautious in the treatment of headaches than to encourage a drug habit through the continuous use of medicines which contain drugs.

Adventures of the Twins

By OLIVE ROBERTS BARTON. A LOT OF FUNNY PEOPLE.

The next person the Twins met in the Land of Wonders was the Mandrake. Now a mandrake is a lovely flower that grows in the spring, under a cute little green umbrella-leaf, and known to many people as the May-pole blossom. But not this mandrake! This one was most unusual. He had a man's body and a drake's head, and looked quite satisfied with himself and the world in general. Particularly with his polka-dot tie done in a neat bow under his chin. Beside him was a canvas-back duck dressed neatly in a dress of dark brown canvas. "How do you do?" said Nancy and Nick. "Did you see any stray bees hereabouts? They belong to the Fairy Queen and they are lost. She hasn't had any honey for two weeks."

"No," said the Twins. "The Fairy Queen doesn't care for anything but honey on her bread. The pixies stole the bees and brought them here. If you see them, will you please tell us." "Sure, we will," said Mr. Mandrake grandly. "We'll look as loudly as we know how, if they come this way." And they passed on. Next the Twins met a griddle-cake and a butterfly. "Hello here!" said the griddle-cake. "Pretty well, thank you," said the Twins in surprise. "And how are you?" "Pretty well, thank you," said the griddle-cake. "Light as a feather," answered the butterfly. "It was one that was left over, so I came to the Land of Wonders. You may not know it, but I am the most unusual person here. I am the first and last and only left-over

FINED \$20.

Yesterday afternoon at 3.35 o'clock when Robert E. Roberts was being ejected from the Palm Gardens at the corner of Union and Coburg streets, he produced a bottle of liquor and took a drink. He was arrested on Union street by Police Constable Corvic and charged with being drunk and drinking liquor in public. The accused appeared before Magistrate Henderson in the police court and was fined \$20.

FOUR MEETINGS ARE HELD IN CITY

Candidates and Others Present Issues of Campaign to Electors.

Women are Among Speakers at Rallies Held in Interest of Government.

The four Government candidates in the city, assisted by a corps of volunteer speakers, last night commenced a speech-making programme that will keep them busy evenings throughout the week in the various parts of the city.

One of the candidates spoke in each place as did also two or three volunteer workers for the party. Tonight and each succeeding night they will change places in order that each may be heard in each section. All dealt with some aspect or aspects of the work of the Government.

At St. Vincent's auditorium, Cliff street, Hon. Dr. W. F. Roberts, Minister of Health, was accompanied by Dr. J. R. Nugent and Mrs. J. W. V. Lawlor. Miss Amelia Haley presided.

Dr. Roberts asked his audience to contrast what had been accomplished by the Opposition, when in power, with what the Government had done. He classed as penitence the last minute appointing of a commission to prepare for the Workmen's Compensation Act, and the passing of the prohibition act and declared that the party had saddled the province with the Valley Railway, which had proved a \$20,000,000 millstone about the neck of the people.

GOOD ROADS.

He declared the present administration had given the province good roads, had been responsible for vocational education, had saved the people of Saint John a great deal in cutting the cost of electric light by the Musquash hydro plant and was intending to give the province cheap power through the development of Grand Falls.

In speaking of the Public Health Act he declared that the compulsory pasteurization of milk had saved \$7,500,000 annually in the cost of hospital care, and that the Government had provided clinics for all diseases and had in all ways endeavored to carry on a crusade against sickness.

Dr. Nugent spoke on the meaning and practice of public health. He told forward the cause of general health and declared that the regulations in force in New Brunswick were not purely local but had been adopted from the best authorities in medical practice in all parts of the world.

He paid special attention to the provincial laboratory service, declaring it to be the greatest aid to the Public Health Department.

MRS. LAWLER.

Mrs. J. W. V. Lawlor gave an educational talk for women, speaking of the form of government and of the duties and powers of each minister. She advised all women to attend the meetings of both parties and not to prove themselves hide-bound politicians on either side but to use their own judgment.

FAVORS PROHIBITION.

Mrs. Lawlor dealt briefly with the five main points of discussion. In regard to charges of extravagance against the Government, she declared that the Opposition had made no suggestions as to how they were to arrive at their much desired economy. She asked her listeners not to confuse the meaning of economy, saying that a proper protection of the assets of the province was not extravagance but a right economy.

She declared herself in favor of enforcement of the prohibition law but said that, as long as Great Britain made the liquor and shipped it here, she could see no hope of enforcement of the law. She also spoke on the questions of health, and good roads. Mrs. Lawlor spoke in the Victoria Rink as well.

IN STAR THEATRE.

E. J. Henneberry was the main speaker at the meeting in the Star Theatre. Mrs. E. J. Hooper and F. S. A. McMullin, of the Hydro Commission of the city of Saint John, also spoke. The chairman was Allan A. McIntyre.

Mrs. Hooper, who is a member of the Board of Health, spoke on the public health legislation put in force by the Government. She told of the agitation for the pasteurization of milk, of how it was brought about, of the difficulties overcome in convincing the Board members that the move was necessary and of the length of time needed to bring all to the same way of regarding the act.

She said that the pasteurization had followed the demand for the bottling of the milk. The compulsory pasteurization had saved the lives of 400 babies last year, she declared. She replied to the contention made by Mayor Fotts recently that he had appointed three of the seven members on the board, the Government naming the rest, declaring that the city named three, the county, four, and the Government, only two. She also declared that the clinics had been upheld.

Mrs. Hooper also spoke in the Victoria Rink.

F. S. A. McMullin spoke on hydro, reviewing the work of the local commission and the establishment of its civic distribution system.

WEST SAINT JOHN.

Dealing with the main issues of the coming provincial election, Col. Alex. McMillan, government candidate for Saint John city, gave a short address to some 100 West Saint John supporters of the government last evening in their headquarters in the Carleton curling rink. Col. McMillan also spoke to the ward workers on how to make their efforts productive of the best results.

James T. Sharpe addressed the meeting on the benefits of the Workmen's Compensation Act and claimed that the government's execution of this bill

Canadian Peonies In London

This unique picture shows the much discussed Canadian Peonies grown in Montreal by Crimston Roy and shipped to London in cold storage in a Canadian Pacific vessel at the Canadian Pacific office in London England. The Royal Horticultural Society has presented the Banksia Silver Medal to Mr. Roy and several London papers have remarked enthusiastically upon the extraordinary perfect condition of the blooms after their long sea voyage. An interesting feature of the picture is that in the window may be seen the reflection of the new Canadian Building which stands almost directly opposite the Canadian Pacific office and was recently opened by the King and Queen.

has been most commendable. He said that the attitude of a laboring man to the government enforcing the Compensation Act and giving school books to the children, from grades one to five inclusive, free of charge, was a most favorable one.

PUBLIC HEALTH.

Dr. A. F. Emery addressed the meeting on the Public Health Act and its enforcement under the eye of Hon. Dr. W. F. Roberts. Dr. Emery dealt with the beneficial effect of the enforcement of the act had on the health of the people of the province.

A. D. Cavell continued his remarks solely to hydro development in the province and claimed that the Grand Falls development would prove a boon to the province. J. Firth Brittain acted as chairman.

VICTORIA RINK.

R. T. Hayes, M.L.A., was the chief speaker at the meeting in Victoria Rink. He reviewed the work of the government during the time it had been in power, dealing briefly with the main points at issue, and declared himself in favor of a strict enforcement of the prohibitory act. Kenneth R. MacLachlan and Dr. J. B. Gosnell also discussed the policy of the government, declaring that it had accomplished a great deal in hydro development, the building of roads and the public health legislation.

Miss Ethel Sidney Smith, who spent the month of July at "The Cedars," returned home on Saturday.

Miss Du Verney, of Digby, N. S., who has been a guest at "The Cedars," is now visiting in St. John.

Miss Helen Seely arrived yesterday from New York and is with her sister, Miss Bessie Seely, at the Sign of the Lantern Hotel.

Miss Harriet Hazen has returned to town after spending several weeks at "The Cedars," on the Saint John River.

Mrs. M. D. Deacon, who has been the guest of Mr. and Mrs. T. B. Bell, King street east, left yesterday for her home in North Bay, Ont. En route Mrs. Deacon will spend a few days with her parents, Mr. and Mrs. Arthur Mackenzie, in St. Stephen.

Mrs. Frank S. McEneaney, formerly of Saint John, accompanied by her small son, Master Malcolm, sails from Montreal on the S. S. "Albatross" on August 7, for England, where she will visit her mother, Mrs. E. Brewer, of Worcester. She was also the guest of her sister, Mrs. McEneaney, who is in London, Bourne-mouth and Brighton. Mrs. McEneaney will return to Portland, Me., where she now resides, about the middle of November.

Hon. J. H. King, Minister of Public Works, will leave Ottawa shortly for Vancouver, B.C., accompanied by Mrs. King, who is visiting her sister, Mrs. George T. Baird, of Andover, for a short time.

Mr. Arnold Young, who has been in business in Boston for four years, is making his annual visit to his parents, Mr. and Mrs. F. A. Young, Seely street. He was accompanied by his sister, Mrs. Robert Thornton, who returned home after enjoying a visit to Boston for several weeks.

Mr. and Mrs. H. Beverley Robinson, of Montreal, formerly of Saint John, are visiting at the Mount Washington, Bretton Woods.

Mr. and Mrs. L. Cushing, Miss Hope Cushing and Master Jack Cushing, of Montreal, have returned from a motor trip to St. Andrews, Cushing's Island and the Maine coast.

Miss Hazel Maxwell, daughter of Mr. and Mrs. David Maxwell, of Champlain street, West Saint John, is recovering satisfactorily from the operation she was obliged to undergo last Monday.

Mrs. John Todd and Miss Ida M. Harris, of Boston, have gone home after visiting Miss Katie Reid, North street, Fairville for the week-end.

Miss Florence C. Duncan, of 150 Prince street, West Saint John, left this morning for Avonport, N. S., to visit her brother, Lewis Duncan and Mrs. Duncan.

Rev. Harold H. Titus has returned from Chicago, where he has been pursuing post-graduate studies. He is visiting his parents, Mr. and Mrs. E. A. Titus, at 61 Peter street.

Mrs. W. E. Hopper and son, John, of Montreal, are the guests of Mr. and Mrs. A. E. Titus at their home, 61 Peter street.

The many friends of George Swanwick, who has been in the General Public Hospital undergoing a serious operation, will be pleased to learn that he is sufficiently recovered to

procure their admission to the King. The chiefs through an interpreter, an Indian woman named Mrs. Williams, stated that they represented 28 reserves and 4,000 Indians and that they would not go back until they had seen the king or the Duke of Connaught. NEW INSPECTOR MAKES REPORT

Mrs. M. F. Coleman Tells of Food Exposed For Sale Uncovered

Milk, Tuberculosis Work, Nursing and City Water Statement at Health Meeting.

Some city storekeepers object to being told they must have their fruit and vegetables covered with fly-netting, when they have seen similar perishable produce uncovered when exposed for sale in the country market, it was stated by Mrs. M. F. Coleman, in her first report as acting food inspector for the Board of Health. The report was submitted at the regular meeting of the board held yesterday afternoon. Mrs. Coleman reported neglect to cover foods exposed for sale was fairly common. She had found one hotel inspected to be in a dirty condition and had made in all 826 visits and issued 17 milk permits.

MILK TESTS.

Dr. T. Fred Johnston, inspector for the board, reported making 517 sediment tests of milk, and having found 95 patients attended. Milk was being given to eight patients and medicines to six. In all the nurses had made 484 visits in their intensive campaign for the discovery of active cases and contacts.

V. O. N. VISITS.

Miss H. B. MacKay, superintendent of the V. O. N., reported 620 visits made by the nurses for child welfare work and 12 babies supervised, of whom 79 were new infants. At the 18 well baby clinics the attendance was 122.

Several Come to Representative of Board of Trade Who Visited Motherland.

Invitations to social functions were contained in a letter received yesterday by R. E. Armstrong, who was recently in England for the opening of the British Empire Exhibition, at Wembley and the Secretary of State and Mrs. Amery were to be present.

There was another very interesting invitation which appealed greatly to Mr. Armstrong, he said, namely that of the Council of Dr. Barnardo's Homes for "Overseas Day" when a meeting of the Canadian Government building at Trafalgar Square on June 29; from Hon. and Mrs. Lar-

kin to attend the celebration of Dominion Day at the Canadian building on July 1 and on that day also to attend a Dominion Day dinner at the Hotel Cecil.

ROYAL GARDEN PARTY.

The Secretary of State also forwarded an invitation from His Majesty's Government to be present at the Garden party to be held by gracious permission of His Majesty the King at Hampton Court Palace on Friday, July 15, at 4 p. m. This garden party was in honor of the visitors from overseas who were at the British Empire Exhibition at Wembley and the Secretary of State and Mrs. Amery were to be present.

Man Inured For \$180,000 Is Sought

SAN FRANCISCO, Aug. 3.—Henry Schwartz, vice-president and general manager of the Pacific Cellophane Company, who was supposed to have met death in his own laboratory at Wilmet Creek, last Thursday, by an explosion, was sought by Sheriff R. R. Veale today. A dental expert declared after a minute examination of the charred body found in Schwartz's laboratory that "this dead man is not Schwartz. His teeth vary widely from Schwartz's teeth."

Schwartz carried \$180,000 in life insurance. Joe Rodriguez, a laborer, has been missing since the explosion.

Indian Chiefs From Canada Are Disappointed In London

LONDON, Aug. 4.—Three Indian chiefs who have just arrived in London from British Columbia to seek an audience of the King and submit grievances concerning treaty of their lands and the rapping of guns are disappointed and discouraged. Interviewed by the Morning Post they said they had spent a fruitless day calling upon the Duke of Connaught's private secretary, the Colonial Office and P. C. Larkin's office in an endeavor to arrange an audience with the king. Everyone they saw professed inability

to procure their admission to the king. The chiefs through an interpreter, an Indian woman named Mrs. Williams, stated that they represented 28 reserves and 4,000 Indians and that they would not go back until they had seen the king or the Duke of Connaught. Mr. and Mrs. Coffin left immediately after the ceremony for Quebec, and will sail on the Empress of Scotland, on August 5.

Several Come to Representative of Board of Trade Who Visited Motherland. Invitations to social functions were contained in a letter received yesterday by R. E. Armstrong, who was recently in England for the opening of the British Empire Exhibition, at Wembley and the Secretary of State and Mrs. Amery were to be present.

There was another very interesting invitation which appealed greatly to Mr. Armstrong, he said, namely that of the Council of Dr. Barnardo's Homes for "Overseas Day" when a meeting of the Canadian Government building at Trafalgar Square on June 29; from Hon. and Mrs. Lar-

kin to attend the celebration of Dominion Day at the Canadian building on July 1 and on that day also to attend a Dominion Day dinner at the Hotel Cecil.

ROYAL GARDEN PARTY. The Secretary of State also forwarded an invitation from His Majesty's Government to be present at the Garden party to be held by gracious permission of His Majesty the King at Hampton Court Palace on Friday, July 15, at 4 p. m. This garden party was in honor of the visitors from overseas who were at the British Empire Exhibition at Wembley and the Secretary of State and Mrs. Amery were to be present.

Man Inured For \$180,000 Is Sought. SAN FRANCISCO, Aug. 3.—Henry Schwartz, vice-president and general manager of the Pacific Cellophane Company, who was supposed to have met death in his own laboratory at Wilmet Creek, last Thursday, by an explosion, was sought by Sheriff R. R. Veale today. A dental expert declared after a minute examination of the charred body found in Schwartz's laboratory that "this dead man is not Schwartz. His teeth vary widely from Schwartz's teeth."

Schwartz carried \$180,000 in life insurance. Joe Rodriguez, a laborer, has been missing since the explosion.

Social Notes of Interest

Mr. and Mrs. W. A. Henderson have announced the engagement of their daughter, Marian Ida Cooper, to Mr. Richard Peniston Starr, son of Mr. and Mrs. Francis P. Starr, the marriage to take place on August 26, at Centenary Methodist church.

Miss Ethel Sidney Smith, who spent the month of July at "The Cedars," returned home on Saturday.

Miss Du Verney, of Digby, N. S., who has been a guest at "The Cedars," is now visiting in St. John.

Miss Helen Seely arrived yesterday from New York and is with her sister, Miss Bessie Seely, at the Sign of the Lantern Hotel.

Miss Harriet Hazen has returned to town after spending several weeks at "The Cedars," on the Saint John River.

Mrs. M. D. Deacon, who has been the guest of Mr. and Mrs. T. B. Bell, King street east, left yesterday for her home in North Bay, Ont. En route Mrs. Deacon will spend a few days with her parents, Mr. and Mrs. Arthur Mackenzie, in St. Stephen.

Mrs. Frank S. McEneaney, formerly of Saint John, accompanied by her small son, Master Malcolm, sails from Montreal on the S. S. "Albatross" on August 7, for England, where she will visit her mother, Mrs. E. Brewer, of Worcester. She was also the guest of her sister, Mrs. McEneaney, who is in London, Bourne-mouth and Brighton. Mrs. McEneaney will return to Portland, Me., where she now resides, about the middle of November.

Hon. J. H. King, Minister of Public Works, will leave Ottawa shortly for Vancouver, B.C., accompanied by Mrs. King, who is visiting her sister, Mrs. George T. Baird, of Andover, for a short time.

Mr. Arnold Young, who has been in business in Boston for four years, is making his annual visit to his parents, Mr. and Mrs. F. A. Young, Seely street. He was accompanied by his sister, Mrs. Robert Thornton, who returned home after enjoying a visit to Boston for several weeks.

Mr. and Mrs. H. Beverley Robinson, of Montreal, formerly of Saint John, are visiting at the Mount Washington, Bretton Woods.

Mr. and Mrs. L. Cushing, Miss Hope Cushing and Master Jack Cushing, of Montreal, have returned from a motor trip to St. Andrews, Cushing's Island and the Maine coast.

Miss Hazel Maxwell, daughter of Mr. and Mrs. David Maxwell, of Champlain street, West Saint John, is recovering satisfactorily from the operation she was obliged to undergo last Monday.

Mrs. John Todd and Miss Ida M. Harris, of Boston, have gone home after visiting Miss Katie Reid, North street, Fairville for the week-end.

Miss Florence C. Duncan, of 150 Prince street, West Saint John, left this morning for Avonport, N. S., to visit her brother, Lewis Duncan and Mrs. Duncan.

Rev. Harold H. Titus has returned from Chicago, where he has been pursuing post-graduate studies. He is visiting his parents, Mr. and Mrs. E. A. Titus, at 61 Peter street.

Mrs. W. E. Hopper and son, John, of Montreal, are the guests of Mr. and Mrs. A. E. Titus at their home, 61 Peter street.

The many friends of George Swanwick, who has been in the General Public Hospital undergoing a serious operation, will be pleased to learn that he is sufficiently recovered to

CARDINAL BEGIN LEFT SMALL ESTATE

Will Contains Only Small Bequests to Charity—Filed at Quebec.

QUEBEC, Aug. 3.—The late Louis Cardinal Begin, one of the senior princes of the Roman Catholic church and for many years Archbishop of Quebec and Catholic primate of Canada, died practically penniless.

He had no personal estate and his will contains only a few small bequests to charity.

The temporal will was not made public. His spiritual will, which is separate, commends his soul to God and asks forgiveness for any neglect of his duty to God or man.

Two Women and Man Are Killed by Robber

DENVER, Colo., Aug. 3.—Two young women and a man were shot and killed here last night, by a hold-up man, when he attempted to rob them up while they were sitting in a parked automobile.

Another youth was shot through the head. Mrs. Marie McCormick, 25, was killed instantly by the robber's shots while her sister, Julia Stearns, 23, and Fred Funk, 24, died while being taken to a hospital. Cary Perry, 25, the other youth, is in a critical condition. The robber pointed his revolver through the window of the machine.

Miss Stearns screamed and the bandit instantly fired at her. He then fired a half dozen shots at the other occupants of the automobile.

Policewomen Judge Saxophone Morality

WASHINGTON, Aug. 4.—The effort of the Washington police to define "indecent music" so they can prohibit it under a recently discovered statute, yielded an opinion by one official today that "any music played on a saxophone is immoral."

The authority for this assertion was Sergeant Rhoads Millen of the Women's Bureau. She was contradicted by Officer Clarence Talley, who, having just taken up saxophone playing, reached this conclusion: "The saxophone is elevating and respectable, if treated right."

WEST SAINT JOHN. Dealing with the main issues of the coming provincial election, Col. Alex. McMillan, government candidate for Saint John city, gave a short address to some 100 West Saint John supporters of the government last evening in their headquarters in the Carleton curling rink. Col. McMillan also spoke to the ward workers on how to make their efforts productive of the best results.

James T. Sharpe addressed the meeting on the benefits of the Workmen's Compensation Act and claimed that the government's execution of this bill

procure their admission to the king. The chiefs through an interpreter, an Indian woman named Mrs. Williams, stated that they represented 28 reserves and 4,000 Indians and that they would not go back until they had seen the king or the Duke of Connaught. They recalled that during the war the Duke of Connaught saw chief Basil David at Ottawa and invited him to come to England if his grievances were not settled in Canada. Accompanying the septuagenarian Basil David are Chiefs Wm. Ferrier and John Cheipita.

A report on the city water submitted by Dr. H. L. Abramson showed satisfactory conditions.

Truro Publisher Is Married In Toronto. TORONTO, Aug. 3.—A. R. Coffin, publisher of the Daily News, Truro, N. S., was married here today to Miss Eleanor Sugart of the same city. Rev. C. W. Follett officiated. The bride was given away by her cousin, J. H. K. Mack, of this city, formerly of Truro. Miss Fern Coffin of Truro was the flower girl and Miss Mary Coffin played the wedding march with Harold Mack as usher. RANDOLPH LIME KILNS BURNED

The Randolph and Baker, Ltd., lime kilns located at the bend in the Narrows of the Saint John River about a half mile above Indiantown at Randolph, and opposite Miller's Point, were destroyed by fire between 9 o'clock and midnight last night, entailing a heavy loss, which could not be computed at the time. The property was partially covered by insurance, divided in group amounts embracing the dual enterprise, lumber mill and lime kilns. The fire originated during the operation of one of the kilns and quickly spread to the whole plant, which readily lent itself to the hunger of the flames. Foreman Robichaud was in charge at the time and alarm was given to the Fairville fire department two miles distant, by telephone. A motor pump engine made a quick response and by slipping an intake pipe into the river at the wharf nearby played an effective stream on the lumber kilns and large saw mill adjacent, thereby effectively preventing what might otherwise have been a huge loss.

OPERATION CURTAILED

Of late the kilns had been only partially operated, due to slackened conditions in the building's material trade and only ten men were regularly employed on the single unit. Each kiln had a capacity of from 90 to 100 barrels of lime per day when kept burning constantly. It is estimated that the kilns were producing about 100 barrels of lime per day when the fire broke out.

ST JOHN THE BAPTIST TEAM GAINS IN CHAMPIONSHIP RACE

SHUT OUT THE SAINT JOHNS IN THRILLING GAME

The Pitching of Bunker Murphy Was One Of Features

APPRICIATING that their chance to cop the pennant in the City Senior League was at stake, the members of the St. John the Baptist team put up a real championship class ball when they met and defeated the Saint Johns, 4 to 0, on the North End diamond last evening.

Put Up Great Fight. The Saint Johns put up a great fight but made a few errors at critical stages of the game and lost their chance to turn back the league leaders.

Scored in Fourth. There was no scoring until the first of the fourth when Conlon got on and felled when a hard drive from Jack O'Toole's bat got the Saint Johns in left field.

Many Fans Present. About 2,000 fans were in attendance and thoroughly enjoyed the game. Time after time they showed their appreciation of a good play by hearty applause.

MANLY CANDIDATES ADDRESS NOMINATION DAY CROWDS

Issues of Campaign Are Reviewed on Hustings and Many Spirited Debates Take Place; Fine Weather Helps

A CATARACT of oratory that made Grand Falls, the main topic of most of it, seem like a tiny rivulet poured over New Brunswick yesterday.

Most of the 98 candidates who on Monday, next, will go to battle for the 48 places available in the Legislature of New Brunswick, addressed great mass meetings of electors in the course of the Nomination Day proceedings. And there were other speakers besides the candidates.

BAXTER IN QUEENS Gagetown, N. B., Aug. 3.—A crowd of 1,200, representing every parish in Queen's county, assembled for the nomination day proceedings here today.

DR. HETHERINGTON Dr. Hetherington spoke first. He referred to roads and considered that he and Mr. King had put Queen's county on the map by good roads.

RESENTS REMARKS Dr. Hetherington took decided exception to the remarks of Mr. Evans with regard to prohibition, uttered at a meeting of Opposition women in Gagetown, and he made the charge against Mr. Evans' stand on prohibition was not the same in every place.

CRITICISES CONTRACT Dr. Baxter next accused the Premier of rushing in ten days before an election with his contract for Grand Falls.

ROADS TORN UP With reference to road work he said permanent roads were being torn up as an interval road.

FAVORS GAS TAX Mr. Evans said the Opposition stood for a tax on gasoline which would make the tourists share the cost of upkeep of the roads.

GEORGE H. KING George H. King received prolonged applause. He was cheered when he declared the by-roads of the county were now better than the trunk roads were

Gloucester

BATHURST, Aug. 3.—Nomination day dawned bright and clear. From early morning it was evident that there would be an immense gathering for the proceedings.

RYAN SPEAKS Mr. Ryan was the first speaker. He made a few remarks in French and afterwards continued in English.

OPPOSES PREMIER Musquash was going behind yesterday. If Grand Falls was to go ahead with it must be on a paying basis.

MUZZEROLL SPEAKS The next speaker was Jeremiah Muzzeroll, who spoke in French. He criticized the alleged fickleness of the present Government and said existing conditions were detrimental to the industry upon which this section of the province was dependent.

REFERS TO RAND W. J. Kent referred to the Government platform of economy in 1916, comparing it with the alleged unbusinesslike methods of developing hydro and quashed and touched upon the speech of Attorney-General Rand in relation to the proposed compensation act.

ANGUS McLEAN predicted that unless the men on the platform were elected Gloucester would be in the Opposition after Aug. 10. Mr. Veniot and himself had become estranged because Mr. Veniot wanted everything his own way all the time, he said.

GRAND FALLS With reference to compensation, Mr. McLean said that although the Opposition was reported as being against the Workmen's Compensation Act, principle had been established at Bathurst before the Compensation Act was thought of.

ROADS TORN UP With reference to road work he said permanent roads were being torn up as an interval road.

CHALLENGES PREMIER A. J. Doucet, the next speaker, challenged Premier Veniot to a joint question of both sides and asked if the Premier thought he held the destiny of the province in his hands.

GOVERNMENT MEETING The Government meeting was held in the Opera House. C. T. Richard presided.

PREMIER VENIOT Premier Veniot, was given a rousing reception. Hydro, he declared, to be the important question of the election, but he said another issue had also arisen.

REFERS TO McLEAN He referred to Mr. McLean as having been responsible for his, Veniot's, losing the chairmanship of the hydro board but said that he had no quarrel with Mr. McLean.

GRAND FALLS With reference to compensation, Mr. McLean said that although the Opposition was reported as being against the Workmen's Compensation Act, principle had been established at Bathurst before the Compensation Act was thought of.

MANY CHILDREN IN PICNIC MARCH

Cathedral Sunday School Girls and Boys in Long Procession

Glorious Weather for Big Annual Event at Bishop's Grounds, Torriburn.

The Cathedral Sunday school picnic is being held today on the Bishop's grounds at Torriburn with glorious weather to help the little ones and their elders enjoy this annual event. As has been the custom for many years the Cathedral bell was rung at 8 o'clock this morning to announce that the big outing would be held. This was the signal for the children to gather at the school, Cliff street, to receive their train tickets and to form in procession to march to the depot, headed by the City Cornet band.

VERY LONG LINE.

The parade this year was larger than has been the case for some years. Following the band came the little girls, all neatly dressed and presenting a charming picture. The boys were then in line, in anticipation of the merry hours ahead with baseball and races and other games awaiting them, followed by dinner and supper in the large hall on the grounds. The procession was in charge of Rev. W. M. Deane and the other priests of the Cathedral. For some weeks efficient committees have been at work in preparation for the picnic, planning for the carrying on of the games and arranging to supply the wants of the great numbers expected on the grounds during the day. The committees, greatly encouraged by the sunshine of the early morning, were all in readiness for the advent of the children and others on the 10 o'clock train. Many others went out on the trains leaving at 12.30, 1.30 and 2.30 o'clock while automobiles conveyed others to the grounds during the day. It was an animated scene at the depot as the children gathered for transportation to the picnic.

Hundreds of mothers with babes in arms and little tots holding on to their skirts, wended their way to the trains, while men and women, young and old, joined the merry throng of pleasure-seekers. The trains were due to return to the city at five, six, seven and eight o'clock. The early trains were said to have taken the largest crowds in years, while the 1.30 and the 2.30 both took hundreds to the picnic grounds.

FIFTIETH TIME.

The City Cornet Band, which set the parade this morning, made their fifty-third trip to the picnic grounds. One of the members, James Connolly, has played at 29 picnics, with the City Cornet Band and on three other occasions with different organizations.

CHURCH ARMY MEN IN WEST END TODAY

Services in Churches, at Military Hospital and in The Open.

The Church Army of London, England, marched from their headquarters at the City school room to West Saint John this morning and participated in the celebration of Holy Communion in St. Jude's church. Rev. J. H. A. Holmes, rector, and Rev. J. LeRoy, of the Church of the Good Shepherd, Fairville, officiated. Breakfast was served to the men at the Sunnyside school room, after which they went about the parish, announcing their services for the day.

Rev. Rural Dean W. H. Sampson welcomed them at noon at St. George's church with a similar service to the one held in Trinity church on Saturday afternoon. He was assisted by Rev. Mr. Holmes and Rev. Mr. LeRoy. Dinner was served by the ladies of St. George's in the school room of the church at 1 o'clock.

The army was to divide this afternoon, several going to the Lancaster Military Hospital for a service at 3 o'clock and the others to the Church of the Good Shepherd for a service at the same hour. The evening assembly will be at 7.30 in St. George's church with the members of the three parishes uniting in the worship, with the three choirs leading the singing.

JUDGE DELAYED

Mr. Justice LeBlanc Unable to Reach City for Afternoon Court.

The Circuit Court was to have resumed its sessions here this afternoon at 8 o'clock, but word was received today that Mr. Justice LeBlanc would not arrive in the city until late this afternoon. It is possible that court may convene this evening to determine what matters will be dealt with at this sitting.

The criminal business on the docket having been completed, trial of one or more of the civil cases will be undertaken. It was thought today that the special jury matter of J. D. O'Connell vs. the Purley Ice Cream Co., Ltd., would be the next case disposed of. This is an action in which the plaintiff is suing for \$25,000 damages for alleged malicious prosecution.

ENGAGEMENT.

Mrs. Charles Wilson of Durocher avenue, Outremont, Quebec, announces the engagement of her only daughter, Katie, to Dr. George A. Sherman, medical assistant of the Saint John County Hospital, son of Mrs. Sherman and the late Alton Sherman of Scots town, Que., the wedding to take place in August.

REVISORS MEET.

The board of revisors met last evening to check up the names to be added to the election list, and they will hold another meeting tonight. No protests have been lodged yet with the board.

HELPED ORPHANS.

Martha Callaghan, Mary Baycroft and Christina Simpson held a bazaar the other day at Glen Falls and realized \$3, which they presented to H. Robert Miller, secretary for the maintenance fund of the Protestant Orphans' Home.

IS FINED \$50.

Frederick McCall was fined \$50 or two months in jail in the police court this morning on a charge of having liquor in his possession other than his private dwelling. Detective Kilpatrick made the arrest.

GOES UP FOR TRIAL.

Mrs. Annie Drekin, charged with receiving goods knowing them to be stolen from the C. F. R., was committed for trial in the police court this morning by Magistrate Henderson. E. J. Henneberry appeared for accused, and H. H. McClean, Jr., represented the railway.

WERE IN COLLISION.

About 8.45 o'clock last evening a street car and an auto collided at the corner of Sydney and Union streets. The fender of the street car was damaged, while the running board and mudguard of the auto were badly twisted.

PREACHED IN DEVON.

Rev. W. J. Osborne, who was recently ordained in the Cathedral of the Immaculate Conception here, was heard with great acceptance at St. Anthony's church, Devon, last Sunday, when he celebrated mass in the morning and preached in the afternoon in the evening. He has been appointed curate to Rev. E. J. Conway, rector.

FETE IS PLANNED.

The workers in Stella Maria parish are busy preparing for a fete that will last for three days next week, to be held on their grounds near the church in East Saint John. The tennis courts are being put into shape and one of the members of the church said that they promised to be quite the best of the kind and will afford much profitable recreation.

ENJOYED FORTY-FIVES.

Forty-five tables of cards were played at the weekly party of Stella Maria parish, which was held last evening. Prizes were awarded as follows: Ladies, Mrs. W. Devlin, Miss Bertha Logue (McCarthy), J. McCormack and Miss Nicholson; J. Mullaly and L. P. Wall. Rev. Francis F. Walker spoke upon the occasion of the interest his people were taking on these weekly events to keep up the work of the parish.

HOME FROM ENGLAND.

Adrian B. Gilbert, of Belyea and a resident of Saint John, has returned home via Montreal, on the Empress of Scotland, after an absence of two weeks. He was accompanied by his wife, who was on an appeal case before the Privy Council in the case of Gregory vs. London, London, England, where he was on a large motor car for Lake Robertson where the annual picnic is being held this afternoon. Following an elaborate programme of events which practically all were to take part, supper was to be served at Johnson's Hotel at 6.30 o'clock. The party was scheduled to return late this evening.

AUTO USE REQUESTED.

The monthly meeting last evening of the International Longshoremen's Association, Local 273, was postponed last evening owing to the lack of a quorum. It was requested by the secretary of the association, Joseph Monteith, that any citizen willing to donate the use of his car on Friday afternoon to help convey the orphans to the fair, which is to be thrown open free to the children by the association, should call Main 276.

TOURING OLD COUNTRY.

Miss Margaret Murray, M. A., of Douglas avenue, who is touring in England, writes of the pleasant time she and Miss Beatrice Price are having in London. They have met Dr. Doris Murray and Miss Constance Murray, who are also travelling abroad. Miss Murray and Miss Price, who intend to visit Italy, will delay the trip until the weather is cooler. They will remain abroad for some time, as Miss Constance is to attend a college in Switzerland during the autumn and winter, after studying in Toronto for several terms.

As Hiram Sees It

"I see," said Mr. Hiram Hornbeam to The Times reporter, "some fellers from Canada has been tellin' the folks over in the old country that this is a good place to stay away from."

"So it appears," said the reporter, "idle factories, bread lines, and all that. Will they think it worth while to come back—do you think?"

"Back!" said Hiram. "When their money begins to run out they'll be back all right. I'd like to tell critics like that what I think of 'em. Good Canadian money gives 'em a fine time an' they go an' bite the hand that feeds 'em. We kin bite the hand that feeds us as much as we like among ourselves—but the feller that goes away an' runs down the country that gives him a livin' an' a chance to get a 'vantin' round like that bunch is doin' orto be shut out when he tries to come back—By Hen!

INJURIES ARE NOT YET DETERMINED

X-Ray Examination of Christian Ramsay Postponed—Father Speaks of Crash.

Victims of the automobile crash on Sunday evening in Rothersey avenue near Fernhill gate, are still suffering severely, and in one case the extent of the injuries has not as yet been determined. Little Christian Ramsay, daughter of W. C. R. Ramsay, whose car was one of the three in the mix-up, is still at the General Public Hospital and thus far it has been necessary to postpone an X-ray examination to determine her injuries. Mrs. Kate Jackson, Mr. Ramsay's mother-in-law, is also under the doctor's care, while Mr. Ramsay is undergoing treatment for serious cuts from glass, and the doctor is still removing pieces of glass from his arm from time to time. Two other of his daughters are also suffering from minor injuries. Ruth Ramsay has a cut on her neck while Margaret Ramsay has a bad gash on her leg.

MR. RAMSAY'S ACCOUNT.

Mr. Ramsay said this morning that he noticed E. J. Cusack's car stopped by the side of the road and the car driven by W. E. Demings coming rapidly towards the city. He says that when he found his and the on-coming car would pass about the place where the street car was stopped, he deliberately turned his own machine clear onto the street car tracks and stopped about 50 feet from the Cusack car. He also says that he blew the horn and dimmed the lights.

CHARGE AGAINST PHILIP HICKEY

Witness Identifies Him as Man in Alleyway—Other Case in Recalled.

Philip Hickey, alias Jackson, appeared in the police court this morning on a charge of acting suspiciously in the rear of Sydney Young's house, Leicester street, and also on suspicion of assaulting Miss Helen Brewster, 129 Leicester street, on the night of July 21. After evidence had been taken he was remanded pending inquiries.

On the witness stand, Miss Brewster was unable positively to identify the accused as being the man who grabbed her arm on July 21. She said she had gone into a room to pull up a window when a man, standing in an alleyway, reached out and seized her arm. She struggled so hard to free herself that when she let go, she fell. She notified the police.

GYRO MEMBERS AND WIVES ON OUTING

Picnic at Lake Robertson and Dinner at Lock Lomond the Programme.

Gyro Club members, their wives and friends to the number about 80 assembled in front of the King street east station this afternoon and left in several large motor cars for Lake Robertson where the annual picnic is being held this afternoon. Following an elaborate programme of events which practically all were to take part, supper was to be served at Johnson's Hotel at 6.30 o'clock. The party was scheduled to return late this evening.

SAINT JOHN GIRL IS REPORTED SECOND

University Matriculation Results Said to be Ready But List Not Announced.

It was reported today that the candidates for university matriculation have been notified of their marks. At the department of education, however, no list was available today. It was said that Maurice Boone of Fredericton had led the province with marks of 912, and that a young lady from Saint John was second in the list with Arthur Limerick of Fredericton third.

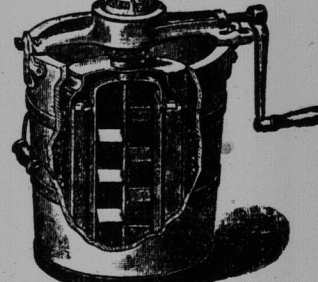

Attempt to Wreck J. W. deB. Farris' Auto

The Vancouver Province says:—"Vandals on Monday night attempted to wreck an automobile owned by J. W. deB. Farris, K. C. 2045 Whyte avenue, by allowing it to run away at Seventh avenue and Willow street, according to a report made to the police. Witnesses said that they saw three youths release the brake of the car, start it coasting down Willow street towards False Creek, then jump out. The automobile, after traveling for some distance, mounted the boulevard and came to a stop without being damaged."

CHAMOOK LIGHT OUT.

A report has been received at the local office of the Marine and Fisheries Department that the unwatched light at Chamook, Charlotte county, was not burning. Instructions have been given to the C. G. S. Dollars to relight it on the regular trip to the vicinity this week.

Dining Room Suites

should be considered from two standpoints — beauty and strength of construction. Some dealers, in their desire to cut prices show suites which are superficially attractive, but cannot possibly give many years of service. This is one of the reasons why you should come to a reliable concern which has proved, during more than thirty years of its business career, that no goods of an inferior character are sent out to its customers under any condition.
