Fine Liberal Convention in Chatham Selects M. P. Again

Hon. J. P. Burchill Says Liberal Outlook in County is Excellent—Mr. Loggie Reviews Government Policy and Shows How Reciprocity Will Benefit the People of North Shore

(Special to Times)
Chatham, N. B., June 16.—The annual meeting of the Northumberland County Liberal Association was held in Chatham on Thursday night with a large number of delegates from the various parish associations present.

The chair was occupied by the president, Hon. J. P. Burchill, who, in opening the proceedings, extended a cordial welcome to the delegates, and expressed his pleasure at seeing so many of the members of the party who were present. The time of holding the meeting was perhaps not a very convenient one for the majority of them, but it was fixed by the constitution of the association, and no good citizen, particularly if he is a Liberal, should begrudge a little of his time for the good of the country.

In addition to the ordinary business which usually came up at those meetings, they would have to consider the matter of nominating a candidate for the next election.

As they were all probably aware, Sir Wilfrid Laurier, was at the present time in England attending the imperial conference, and they had no doubt read his speeches with much interest, and they would see that he had expressed his surprise to find talk of disloyalty in Canada prevalent in England, when it did not exist except in the imagination of certain politicians, and that only for party purposes.

The great question before the county at the present time was that of reciprocal trade relations with the United States. In 1884 Sir Wilfrid Laurier made the first party who went from this county to Ottawa to help to frame a platform upon which the Liberal party, then led by Sir Wilfrid Laurier, could go to the country. Its two chief planks in that platform were tariff for our neighbors and reciprocal trade with the United States. That platform was acceptable to the people, and when the Liberal came into power in 1896, they at once put it in force. The first step was the British preference, which they successfully inaugurated. They next sent delegates to Washington to try and bring about reciprocal trade, but they were not successful, and came back having accomplished nothing.

Sir Wilfrid then said they would wait for our neighbors to make the first move to that in the elections of 1904 and 1906 reciprocity had not been an issue, because Sir Wilfrid had no confidence in the United States. Since then there had been these overtures, and the government was trying to force them through. The policy of the Liberal party was to reduce taxation. When they came into power taxes were about 19 per cent, now they were 16 per cent only; and if reciprocity carried it would make a further reduction of about 3 per cent. The Conservative party said the government had no mandate for reciprocity. Why it had been the policy of the government ever since it first came into power.

Reciprocity would not injure vast interests in the West. It would reduce the duties on raw materials, and the necessities of life, but it hardly affected manufactured articles at all. A small reduction in the duties on raw materials and agricultural implements was all that was required. Typing machines were put on the tariff list, and the duties on them were reduced. The duties on agricultural implements were reduced. The duties on agricultural implements were reduced. The duties on agricultural implements were reduced.

The first business before the meeting was the appointment of officers, and after some discussion a nominating committee was appointed by the chairman, consisting of two delegates from each parish to make up the county. The committee was to be the only nominating committee for the county. The committee was to be the only nominating committee for the county.

Mr. Loggie Candidate
The next business was the nomination of a candidate to run for the county at the next election. Some discussion ensued as to the mode of selection, when W. S. Loggie was nominated. He was elected by a large majority.

R. Z. Walker to Be Traveling Freight Agent—More Good News From Drives—A New Pitcher

PROMOTION FOR I.C.R. MAN IN FREDERICTON

(Special to Times)
Fredericton, N. B., June 16.—R. Z. Walker, station agent of the Blackville Chatham Junction section of the Canada Eastern, if he could not do so, he would be promoted to the position of traveling freight agent for Nova Scotia and New Brunswick. He will enter upon his duties on July 1. It is said that G. F. Ward, of Chatham Junction, is likely to be promoted to the position of station agent at Dalhousie before coming here.

Report from up river are more encouraging. Mr. Vanderbeek wanted to know if Mr. Snowball's name was not going to be put before the meeting, as he had heard that gentleman was willing to stand.

Mr. Snowball said that he was not. Mr. Loggie's name was then put to the meeting and carried by a standing vote.

Mr. Burchill, in tendering the nomination to Mr. Loggie, humorously remarked that the meeting had decided to condone his past offences and give him another chance, and notwithstanding his sins of omission and commission, they still had some confidence in him and hoped he would do better in the future. (Much laughter.)

Address by Candidate
Mr. Loggie, in returning thanks said that sometimes words failed to adequately express a person's real feelings, and that was his position then; but, notwithstanding the chairman's little lecture, he felt very deeply the kind manner in which they had received his name and offered him the nomination. He had tried in the past to do his duty as a member, and he felt that the county had received its full share of public works. They would no doubt expect him to say something about the issues of the present day.

CORONATION EVENTS

Official Arrival of King's Guests Today—West Indies Trade Outlook—London Hotel Men Are Hit—Dr. Owen Claims Success Attends Search

(Canadian Press)
London, June 16.—A unique display of diamonds loaned by the DeBeers Company and valued at more than \$10,000,000, was yesterday included among the exhibitions of the Festival of Empire at the Crystal Palace. This is the largest exhibition of precious stones ever seen in England.

The coronation of the king's guests for the coronation will begin today when the foreign representatives, such as the Chinese and Japanese, who have been here for some time in a private capacity, will present themselves for official recognition. With the return of the court from Windsor and the constant arrival of new visitors, the remaining few days before the coronation will be a continuous round of social entertaining.

Among the important features of the coronation will be the lighting of 2,000 bonfires all over the kingdom at 10 o'clock on the night of June 22, while the immense "feet," which is now assembling at Spitham, will be illuminated from 9.30 until 11 o'clock on that night. The whole fleet will also fire a royal salute of twenty-one guns at the time of the crowning ceremony in the abbey.

Speaking last night at a dinner given by representatives of the West Indies, who had arrived here for the coronation, Mr. Asquith said that the outlook for the colonies was full of promise, and not less so by reason of the fact that the Panama canal was approaching completion.

The ultimate effects of that great enterprise were incalculable, but hardly could be doubted. It would in the long run favorably influence the economic progress of the West Indies.

Hotel Men Hit
The Morning Post says that the London hotels never have experienced a poorer season. For the month of June nearly every room full owing to the policy of unreasonable tariffs.

Dr. Orville Owen, who has been searching the River Wye for the remains of the Shakespeare plays which he believes were hidden by Bacon, has made a new discovery, which he asserts fits with his theory. It is a triangle stone structure thirteen feet high, under the eaves of Chepstow Castle. It was hidden under eight feet of clay, and at high tide covered by several feet of water. He says he believes this to be the long sought cache.

POLICY NEED NOT BE PAID TO MEMBER IF LIQUOR DEALER

A. O. W. Wins Case Carried to Supreme Court in Connecticut

New Haven, Conn., June 16.—(Canadian Press)—According to a decision by the supreme court of errors yesterday, the Ancient Order of United Workmen are not obliged to pay an insurance policy of a member who engages in the liquor business.

John Burns, of Waterbury, after becoming a member of the order, engaged in the liquor business, and paid his premiums regularly. At his death the order refused to pay the \$2,000 policy he carried on his person, on the ground that he was a liquor dealer, and according to laws of the order such a person could not carry life insurance. The superior court the order was upheld and on appeal the supreme court sustained the lower courts.

LONDON IS READY
Boston, June 16.—When Mayor Fitzgerald learned that Aid McGoldrick had captured Mayor Frink and was bringing him to Boston, he ordered another Union Jack, and another bunch of keys of the town, also an additional automobile and another case of lemon soda. THIS IS SERIOUS
Washington, June 16.—A cable to the state department from Port-au-Prince conveyed positive information that ex-President Castro is on board the ex-gubernatorial Groutack at that port, and that he is accompanied by Dr. Beattie Nesbit of Toronto, who will finance the revolution with the funds of the Farmers' bank, and expects to be made finance minister of Yucatan. Sir James Whitney will be notified at once.

La MARQUISE de FONTENOY

An Italian Marriage Annullment—The Lord High Steward of England—France's New War Minister—A Peer of Ancient Lineage

(Copyright, 1911, by the Brentwood Company.)

Hall Caine and Lord Raglan are engaged in a public squabble concerning one another in connection with the constitutional crisis, which is turning the Isle of Man into a seething caldron—or rather tea-cup—of political passion. Lord Raglan has for a number of years been the \$10,000 a year governor of the Isle of Man, where, in the name of the king, he exercises an extensive sovereignty.

Hall Caine, whose social pretensions have not found favor with Lord and Lady Raglan, and who in fact has been unmercifully snubbed by them, has denounced the governor "mentally unfit to hold his office." He has also assailed in a much similar fashion Lord Macdonnell, chairman of the royal commission appointed by the government to investigate the political and administrative conditions of the Isle of Man, and has finally wound up by declaring that the Manxmen themselves are incapable of telling the truth, and that they are adepts in the art of trimming the latter.

Petition Brings Matter Up

The crisis has been brought about by the petition of the Manxmen, including Hall Caine, to the crown, to annul the power of veto exercised by the legislative council, which, composed exclusively of appointees of the crown, fills the functions of the House of Lords in the Manx legislature, and has the power of killing all the measures of the lower chamber, known as the House of Keys. Financial autonomy is also asked for, likewise a curtailment of the privileges and prerogatives of the governor.

Lord Raglan is a soldier by profession, and in appearance, standing well over six feet in height. He served under Field Marshal Lord Roberts throughout the Afghan war, and was recognized in recognition of two conspicuous acts of personal heroism. He commenced his career of state for war. In fact the bureaucrats there made things so unpleasant for him, that he was glad to exchange the secretaryship for the governorship of the Isle of Man.

He is a grandson of that Field Marshal Lord Raglan who commanded in chief the British forces in the Crimean war, and lost his life there. He enjoys a pension of \$100 a year from the crown, in respect of his grandfather's services. The first Lord Raglan, I may mention, was a son of the fifth Duke of Beaufort, so that the present governor of the Isle of Man is a member of the ducal house of Somerset.

Lady Raglan, who rejoices in the Christian name of Jenima, is a Londoner, and a daughter of the seventh Earl of Hereford, and is a woman of much strength of character, for she allowed herself to be publicly used some time ago for the non-payment of an exaggerated bill for a set of ill-fitting false teeth, rather than to submit to the dentist's extortion. The dentist did his best to get even with her in court, and gave all sorts of technical information with regard to the condition of Lady Raglan's mouth, and concluded by handing the false teeth, which she had so scornfully rejected, to the members of the jury, who probably never having had the opportunity of handling the molars of a personess of the realm before, examined them with the greatest curiosity and care. I am sorry to say that Lady Raglan's course was without avail; for the dentist won his case and got the full amount of his claim.

On the occasion of King Edward's coronation Lady Raglan exhibited herself in her coronation robes, for an admission of three-pence, the money thus raised being devoted to a hospital in which she was interested. The spectators, after paying their money, were ushered into her drawing-room, where Lady Raglan was seated. Every now and then she would rise, and sweep her train across the floor, giving a view of her scarlet, ermine-trimmed mantle, bringing murmurs of admiration and laudatory comment from the open-eyed open-mouthed public.

Queen Natalie Dying

Queen Natalie of Serbia is dying at her home in Paris, and her recovery is out of the question. Of late years she has been somewhat stout, almost obese, and has lost every trace of that remarkable if somewhat coarse beauty, which so long guided her when she was on the throne of Serbia. The news of her impending death will recall to some American women memories of the days when they were school-girls together at Florence, for the queen was educated at a very smart girls' school there, under the name of Natalie

of their time in Paris and on the Riviera. Altogether, her life, now drawing to a close, has been an extraordinary romance—a romance even more tragic than that of most of those other women, who, of non-royal birth, have been called upon to occupy for a time, one or another of the thrones of Europe.

 A meeting at which all the different trades in the city were represented was held in the Market building last night with the object of forming a builders' or tradesmen's exchange. The meeting was very largely attended. H. L. McJowan was appointed chairman, and C. F. Stevens secretary pro tem. A strong committee was appointed to complete details and the matter of organization will be dealt with at a meeting to be held on July 3.
 At the meeting of the "Prentice Boys' Association at Belleville, Ont., at which H. Sellen of St. John was re-elected grand master, W. Smith, of St. John, was elected assistant lecturer. The next grand lodge meeting will be held in Toronto.
 A hail storm accompanied by a little thunder and lightning was experienced yesterday afternoon.
 After an inspection of Rodney Wharf yesterday afternoon, a sub-committee of the board of works will report on the advisability of replanking the entire wharf at a cost of \$4,000, or continuing to replace the worn planks.
 Rev. F. E. Bishop, of Fairville, will be moderator of the Seventh District Baptist meeting at Campbellville today, and D. C. Clark will act as secretary. Rev. W. R. Robinson, Mr. and Mrs. C. E. Altogether, her life, now drawing to a close, has been an extraordinary romance—a romance even more tragic than that of most of those other women, who, of non-royal birth, have been called upon to occupy for a time, one or another of the thrones of Europe.

IN NOVA SCOTIA

Nova Scotia Conservatives are now asserting that the gains of their party in the provincial elections are proof that the people are against reciprocity.

The result must certainly be interpreted as a direct condemnation of Mr. Fielding's reciprocity pact which Premier Murray first endorsed, and when he found that reciprocity was unpopular apologized for the endorsement.

But though the Post makes this statement it gives quite a different explanation of Conservative success in its own country.

The result in this country is in complete accord with the eternal fitness of things. After the shabby treatment which has been heaped out to Cape Breton by the Marjory executive in the matter of representation and bad roads it would have been marvellous, indeed, if the electors had condoned these grievous offences and returned even one supporter of the ruling government.

That is to say, the fight was on local issues. The Amherst News declares that it was the recent labor troubles in Cape Breton that caused the turn-over, and probably this is very largely true.

The Halifax Recorder agrees that local quarrels in constituencies had much to do with such success as the Conservatives were able to gain, but it states another reason, as follows:

"But it will not be surprising if it later comes out that a most decidedly 'material' canvass has been carried out by the Tory party. It is well known that the government committed itself to the principle of reciprocity by a parliamentary resolution passed in the house. Now it is also well known that the great manufacturing and financial interests of Montreal and Toronto are intensely opposed to reciprocity, and rumor hath it that they have decided to provide ample ammunition for the Tories in every part of the Dominion, and it is not likely that Nova Scotia has been neglected. No doubt some constituencies have been 'attended to' in this regard more generously than others, but none have been passed by entirely."

On this point the Halifax Chronicle says: "Mr. E. N. Rhodes, M.P., for Cumberland, should see the handwriting on the wall. He made reciprocity his chief topic, and he has got his answer. The Liberal party could not ask for a better endorsement of the new trade measure than the decisive verdict recorded by Cumberland."

The verdict of Nova Scotia is not and will not be against reciprocity. The maritime provinces have much to gain by the trade agreement. It will benefit all classes of producers and give a fresh stimulus to the development of natural resources.

SCORING THE TRUSTS

The Shareholder, a financial journal published in Montreal, is not very partial to mergers, and is especially keen in its criticism of the proposed bread merger. One does not often read in financial journals such criticism as the following:

"It is hard to say just where these mergers are going to end. In so far as they mean a saving in the cost of production, and in the cost of distribution, they can be justified, but the minute a merger uses its powers to increase the cost to the consumer it becomes a menace to the public welfare. In the past too many of our mergers have resulted in increased cost to the consumer. Several companies which previously had been in competition, but all making a good living profit, became merged into one huge consolidation. To enable the promoters to get an unreasonable profit, vast quantities of water are injected into the combination, with the result that the consuming public is expected to earn dividends, not only upon the actual capitalization of the several companies, but often on the almost equal quantity of water which has been added. To do this the directors at the head of the merger must increase the selling price of their products. Another incentive to make them increase the cost price of their selling products is the fact that competition has been eliminated. A merger means that only one, instead of several companies, is catering to the needs of the public. Competition is eliminated, and behind iniquitous tariff manufacturers are protected, so that no relief can be secured

In the Springtime—Disease is Ready to Make You a Victim When the Blood is Thin—Rich, Red Blood is the Greatest of Germicides—You Can Get the Blood Right by Using

DR. CHASE'S NERVE FOOD

In the spring the human system is loaded with poisons which have accumulated as a result of artificial winter life. There has been too much breathing of poisoned indoor air, too little outdoor exercise, too much eating of heavy, indigestible food, especially too much meat and too little fruit.

The liver and kidneys struggle to overcome this condition, but the task is too great for them. They get sluggish and torpid, fail in their work and often become diseased.

They must have help, as is given them by the use of Dr. Chase's Kidney-Liver Pills. There is no great mystery of how these pills work. They get sluggish and torpid, fail in their work and often become diseased.

It will not take long to get these blood filters into working order if you use this treatment. A few hours will bring improvement and you will learn how to keep these organs healthy and active.

FROM THANKSGIVING My treat stands in a garden of astor and golden-rod. Titled by the rain and the sunshine, And sown by the hand of God— An on New England pasture. Abandoned to peace and time, And by the magic of beauty Reclaimed to the sunbless.

About it are golden woodlands Of tulip and hickory; On the open ridge behind it You may mount to a glimpse of sea— The far-off, blue, Homer's Rim of the world's great shield. A border of boundless glamour For the soul's familiar field. . . . Here in the ailed sunlight A spirit seems to brood On the beauty and worth of being. In tranquil, instinctive mood: And the heart, athrob with gladness Such as the wise often know, Welles with a full thanksgiving For the gifts that life bestows.

HAD KIDNEY TROUBLE. "COULD NOT CROSS THE FLOOR PAIN WAS SO GREAT."

Miss Hazel Hess, Winchester Springs, Ont., writes:—"I was troubled with my kidneys for five years. They were so bad, at times, I could not cross the floor for the pain. The doctor could not do me any good and a friend advised me to use Doan's Kidney Pills. I bought six boxes and now I have been cured for over four years. I will recommend them to every sufferer."

No woman can be strong and healthy unless the kidneys are well. When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. . . .

Doan's Kidney Pills are a purely vegetable medicine, acting quick, permanent relief, with no after ill effects. A medicine that will absolutely cure backache and all forms of kidney and bladder trouble.

METHODIST CONFERENCE

The Bookroom—The Wesleyan—Religious Teaching in Schools—Mount Allison

The report of the book room committee, the reception of delegates from the Anglican synod, and the report of the Wesleyan conference, yesterday afternoon, addressed by Dr. B. C. Borden and H. A. Powell, K. C., on the Mount Allison institution were delivered to the evening session.

Dr. W. Stewart, book steward, reported sales during the year to the amount of \$17,184.33. The expenses were \$2,804, and the net profit \$14,380.33.

Rev. Dean Schofield of Fredericton, and Rev. G. A. Kuhring of this city, impressed the conference with the great need of religious instruction in the public schools, and asked for the appointment of a committee to co-operate with that of the Anglicans. On motion of Dr. Hunt it was decided to consider the matter later.

A deficit of \$500 was reported by Rev. Dr. Johnson, editor of the Wesleyan. In the discussion which followed this report, a division of opinion arose over the continuance of the paper. Considerable reflection was thrown on the business management and the editorial staff of the paper. Dr. Johnson defended his position by remarking that the whole burden of running the Wesleyan was borne by him alone. News was obtained only through exchanges. A motion for continuance and an extension of the subscription list was put by Rev. H. E. Thomas and carried.

The evening session was well attended by the general public. Circles had been distributed in the pews which contained a statement of the financial position of Mount Allison University. These showed that for the four years ending June, 1910, the total deficit on the university amounted to \$13,308.78. For 1909-10 it was \$3,689.91; for 1907-08, \$5,147.42; 1908-09, \$1,214.44; 1909-1910, \$1,258.31.

Rev. M. R. Knight presided and offered devotional exercises had been led by Dr. Sprague and Dr. J. R. Inch, the chairman called upon Prof. Watson, who presented the results of the year's giving to the educational institutions by the conference. This showed a total of \$16,010.86, which Dr. Watson said was a falling off of about \$100 in the amount.

Dr. B. C. Borden, the new president of Mt. Allison, was the first speaker. The growth of the institutions at Sackville was first traced. The university, he contended, filled an important place in the work of the church. The advantages of personal contact of students and teachers as well as the residential benefits were secured at Mount Allison. The moral and religious training, justifying the existence of the institutions, Canada had need of trained men to develop her resources. The institution had been handicapped financially, but the raising of \$250,000 would alleviate this want.

H. A. Powell, K. C., followed in an excellent address. He emphasized the value of a college education.

Mrs. Amy D. Winship, 81 years old, who will graduate from the Ohio state university at the commencement, has the distinction of being the oldest student in the world.

The Evening Chit-Chat

By RUTH CAMERON

"I WOULD not give a fig for that man's religion whose very dog and cat were not the better for it."

I wonder if in Sydney Smith's day people went away to the country in the summer to enjoy themselves and left their cats to starve, and that was what he was thinking about when he wrote those words.

No, I don't suppose so. I doubt if the summer vacation was an institution in his day—did it ever occur to you, by the way, of what comparatively recent development this now firmly established custom is? Why it can't be more than fifty years at the most that a summer vacation has been regarded as a necessity.

But I'm sure Sydney Smith would say that again and make it even stronger if he could live today and be a witness to some of the tortures to dumb animals which are caused by some of our old soap cans, being driven away from crumb buckets, growing thinner and more miserable and finally either dying from starvation or being caught in the weakened state by dogs and maned to death. Why, it can't be more than fifty years at the most that a summer vacation has been regarded as a necessity.

If a moving picture man could go to all the summer hotels and boarding houses and summer cottages and show a film representing the "cat that's left behind" growing about dump heaps in the hope of getting a mouthful of nourishment out of some old soap can, being driven away from crumb buckets, growing thinner and more miserable and finally either dying from starvation or being caught in the weakened state by dogs and maned to death. Why, it can't be more than fifty years at the most that a summer vacation has been regarded as a necessity.

How to Tell if Your Hair is Diseased

Even if you have a luxuriant head of hair, you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a hair tonic.

Pull a hair out of your head, if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment. If the bulb is pink and full, the hair is healthy.

I want every one to know that my hair is healthy and full because of the use of the "Recall" Hair Tonic.

It is because of what Recall "33" Hair Tonic has done and my sincere faith in its goodness that I want you to try it at my risk. Two sizes, 25c. and \$1.00. Sold only at my store—The Recall Store, Chas. R. Watson, 100 King street.

Cut Off Mexican Concessions

Chihuahua, Mex., June 15.—Reforms immediately affecting millions of dollars worth of foreign property in Mexico were announced tonight. Governor Gonzalez declared that under the new regime foreign concessions which might be regarded as monopolies would not be extended or renewed and that every legal effort would be made to restrict foreign monopolies now existing in Chihuahua, one of the richest states in minerals and timber.

The properties are largely controlled by American, British and German interests. The Americans are the largest holders.

SO GRUESOMELY. Hubby—"We must go to some quiet, inexpensive place next summer." Wife—"Great heavens! Don't talk so gruesomely! You know that there are no longer any quiet, inexpensive places except cemeteries."

CORONATION DAY PLANS

There was a good attendance last evening at a meeting of society delegates and the civic committee in reference to the Coronation Day festivities and much progress was made. A. J. Jones presided. The Sons of England, who were left to attend to the erection of the float, will head the procession, and will be followed by the Orangemen and Pretoria Boys, with other fraternal societies following after.

SHE WAS SURPRISED

When Dr. Morse's Indian Root Pills Cured her Chronic Liver Complaint

Mrs. R. Smith, of Winnipeg, Man., tells an interesting story of relief from almost intolerable sufferings. "I can hardly tell you how great my sufferings have been. Chronic liver complaint accompanied by biliousness. My only source of relief to me. I experienced the sickening effects of these ailments. I longed for some medicine that should permanently cure them away.

Hearing of Dr. Morse's Indian Root Pills, I thought they were worth a trial. My surprise was indeed great. From the very first I experienced relief. A KINGS COUNTY MAN

In a series of character sketches of Presbyterians at the General Assembly in Ottawa, a writer in the Free Press says:—"From Saskatoon," that famed city, comes an older who has a big, big place in the hearts of Halifax people and thousands elsewhere. His smile, his voice, his spirit, engaging to a degree and the stuff of him is all gold. President W. C. Murray, L.L.D., of Saskatchewan university, was formerly the Professor of Philosophy in Dalhousie university. There he made his mark and it will continue to shine as long as Dalhousie stands. President Murray is a New Brunswicker. He was educated in his native province and Edinburgh and Germany. If you do not know him, do not for any sake imagine him to be a dusty, musty philosopher who forgets to eat his dinner and reads his books on his brows. A more human and companionable and gregarious soul could not be found. He is not, has not been, never can be a forbidding and exclusive professor. The cause of his students in his cause and he seems to believe that the happiness and the welfare of each and all of them has been confided to his keeping. Saskatchewan university has a rare man to head it. Dr. Murray is an ardent churchman and in the assembly his counsel and his commentaries are the greatest help to those who love wisdom and worth."
