OUTDILTING THE GIANTS, ATHLETICS WIN THIRD

Connie Mack's Heavy Batting Brigade Big Factor in Victory.

PITCHER BUSH PROVES TOO MUCH FOR GIANTS.

New York Made But Five Scattered Hits—Fans Believe Philadelphia Will Win World Series on the Run Now.

BY "DUTCH" ERVIN.

Special to The Standard.

Pho Grounds, New York, Oct. 9.—Another dark day greeted thousands of fans and although the grounds were soggy after an all night rain which this morning threatened to continue, the Polo Grounds were once more crowded to capacity. McGraw pitched Teebeau because he thought him best for a dark day. It was indeed dark and McGraw's team of swatters pounded him unmercifully and in seven innings made eleven hits with a total of thirteen bases. Teebeau was once benched and Crandall twirled the last two innings only one being made off him, a home run to right field after two were out.

Big Jack McLean caught well for five innings and in that inning whiplined the ball to left safely, scoring Murray, and giving the Giants their first run. Like in Philadelphia yesterday, McLean was benched as he had run fast enough on bases. Great news for him. As a catcher and bitter critic claim McLean has it all over the much admired Indian. Meyers, the Giants' regular catcher, Big McLean is called one of the best on the New York line-up.

After today's exhibition New York fans are throwing up the sponge and now think "Mack's" Athletics will win the series. The Athletics had the best of today's game in every way. They outbatted and outpitched the Philadelphia team. The Athletics, all through the game, had McGraw's men guessing all the time. The Athletics' infield is the fastest ever and it looks like another world's championship for McGraw's team. They figured in three sensational double plays and displayed more snap than their opponent. All through the game, the Athletics had an over-throw that would not be made by a St. John East End leaguer, gave the Athletics two runs in the first inning, but with that exception the Giants were played off their feet. The total attendance today was 26,883 paid admission, receipts, \$18,742.50, which is five hundred and seven dollars larger than opening game.

It is now predicted that the Athletics will finish the series in two more games unless something unforeseen happens.

New York, Oct. 9.—A new star blazed forth in the world's series baseball firmament today, when Leslie Bush pitched the Philadelphia Athletics in the third game of the championship struggle, by a score of 8 to 2.

Bush was materially aided in his rush to a pedestal in the baseball hall of fame by the savage batting of his team mates, but the major portion of the glory was accorded by both fans and players to the youngster who started the diamond veterans with his speed and control in his debut in a world's series.

While his pitching was not as spectacular as that of the veteran Mithrewson and Plank yesterday, his box work was of the caliber that entitles him to a niche alongside Hugh Bedent, of the Boston Red Sox and Adams, of the Pittsburgh club, who performed similar feats of twirling valor in the past world's series.

So effective was Bush's pitching that the Giants secured but five hits, and three of these were of the scratch order. But three of the twenty-seven put outs credited to the Athletics were made outside the infield, and there were feignings on a stretch when the Giants never drove the ball out of the diamond.

Giants Outbatted.

Bush made his leap into the limelight on the most favorable circumstances for his hard hitting team mates into Teebeau with a fusillade of hits in the first two innings that netted five runs and relieved the youngster of the strain of pitching with the margin of safety narrow or by runs of the first four Athletics on Connie Mack's batting Hat. Murphy, Oidring, Collins and Baker between them made nine of the twelve hits recorded for the Philadelphia club and these nine hits scored seven of the eight runs that made the victory so one-sided. The marked contrast to this vigorous assault in the offerings of Teebeau and Crandall was the five hits scattered through nine innings that marked the Giants' efforts with the bat. Not a single National League representative secured two hits and

UNDERWOOD FIGHTS FOR TARIFF BILL

Efforts to Repeal Five Per Cent Discount Clause Meets Setback.

PRESIDENT WILSON STILL UNDECIDED.

State and Treasury Departments Greatly Exorcised Over Matter—Champion Believes it will Work Out.

Washington, Oct. 9.—Efforts to repeal the five per cent tariff discount provision on imports in American ships, which has aroused the state and treasury departments, met a setback today with the return to the city of Representative Underwood, chairman of the Ways and Means committee, original champion of the class.

After Joseph W. Folk, solicitor for the state department, who advocates repeal of the provision, had talked to Mr. Underwood, he announced that there would be no developments in the matter for several days.

It is also stated that President Wilson's mind in the premises is still open.

Mr. Underwood still emphatically favors the provision, and had no hesitancy in saying so.

"The tariff is now a law and I am for the bill as it stands," Mr. Underwood declared. "If the President thinks the issue grave enough to send a message to Congress urging the repeal of the discount provision, or if he indicates that he wishes it repealed, I will call the Ways and Means committee to consider the idea. But even then, I would not favor a repeal until a thorough hearing had been held on both sides."

Mr. Underwood further stated that he believed there was a misconception in the departments regarding the clause and that he believed it would work out advantageously to this country.

UHLAN LOWERS THE WORLD'S RECORD

Lexington, Ky., Oct. 9.—Uhlan, hatched to a running mate today lowered the world's record for a mile to 1:54 1/2. Uhlan set the previous record at 1:58 last year.

Uhlan, driven by Charles Tamersand, was favored with a perfect track and beautiful weather conditions.

GUNBOAT SMITH WINS.

New York, Oct. 9.—Gunboat Smith, of California, defeated Carl Morris, of Oklahoma, in the fifth round of their ten-round bout here tonight. The referee disqualified Morris for fouling. The Californian heavyweight had the better of the match every round except the second.

U. S. REGISTERED BONDS REACH NEW LOW LEVEL.

New York, Oct. 9.—United States two per cent registered bonds reached a new low level today when a \$5,000 block was sold on the floor of the New York Stock Exchange at 94 1/2, a decline of 1 1/4 points from the previous record of 95 3/4, established July 29.

STEAMER BJORGVIN FLOATED

Halifax, Oct. 9.—The Norwegian steamer Bjorgvin, which stranded on Indian Rock, off Prince Edward Island coast on Sunday, was floated by wreckers today. The steamer will be brought to Halifax for repairs.

Shafer's double was the only one good for more than one base.

The Athletics' latest twirling star who will not be twenty years of age until November 27, did not pitch his

DELEGATION ENCOURAGED BY RESULTS ACHIEVED AT YESTERDAY'S CONFERENCE

Information Received from Mr. Gutelius Shows Agreement Between the I. C. R. and the Canadian Pacific Was Far from Being Completed.

WOULD HAVE BEEN SUBMITTED TO THE MINISTER OF RAILWAYS FOR SANCTION.

Rates Proposed Were Regarded by Delegates as Discriminatory but There is Every Reliance in Premier's Promise of Fair Play All Round—Mr. Hazen and Committee to Meet Sir Thomas Shaughnessy Today.

Ottawa, Ont., October 9.—Members of the St. John delegation are tonight in a frame of mind which, if not actually comfortable, is less unsettled than at any previous moment of their visit. There are two reasons for this somewhat improved condition. One is that they have secured, although in a very incomplete form, some information concerning the agreement between the intercolonial and the C.P.R. The other reason is found in the hope that, at least, the two Empress steamers will come to St. John. Certainly the delegation has made progress today and, while the members are not all cheered to an equal degree, yet optimism regarding a satisfactory outcome to their mission is generally prevalent.

Mr. Hazen, Senator Thorne, Mr. Robinson and Mayor Frink will meet Sir Thomas Shaughnessy in Montreal. The entire delegation proceeds to Montreal tonight and will reach St. John on Saturday. As regards the agreement reached between the railways, the delegates on brief study consider it discriminatory against St. John, and are taking action to oppose it. If their opinion is well founded, they rely on Premier Borden's statement yesterday, "that the government will not permit any discrimination whatever." Two general meetings and several committee conferences were held today. The gathering, which took place at one o'clock, was somewhat excited, as the information asked for yesterday had not arrived and a suspicion was developing that a colored gentleman was somewhere concealed in the fuel supply.

This meeting, however, adjourned until five o'clock, without anything decisive being done, and during the interval the committee. Mr. Hazen had been made was brought about by a committee. Mr. Hazen was for President Robinson, who joined in consultation at the Club with the Minister, Senator Thorne and A. H. Harris, of the C. P. R. During the course of the conversation the statement was made that the first published C. P. R. schedule was an error. Mr. Harris has returned to Montreal.

SECURE INFORMATION.

After the conversation at the Club the three St. John men went to Premier Borden's office and there found two messages from Mr. Gutelius. These messages stated that the agreement between Mr. Gutelius and Mr. Bosworth was in the form of a memorandum, that the formal contract was in course of preparation, that it had not yet been signed, and that when ready it would be submitted to the Minister of Railways for his approval. The agreement, it was explained, is couched in railroad phraseology and could not readily be transmitted intelligently by wire. Mr. Gutelius added that a copy of the memorandum had been sent to the Minister of Railways. Premier Borden at once secured the copy and correspondence from Mr. Cochran's office and presented his visitors with the information contained therein.

While Mr. Borden's communication was in a sense private, Mr. Robinson was privileged to report to his associates on the delegation. Accordingly the party assembled in the hotel at five o'clock, when the whole situation reported as above by Mr. Robinson, was carefully considered. The rates as contained in the traffic agreement were compared with those paid by leading shippers among the delegates. The rate per ton mile was figured out, the possible carrying capacity of a passenger train of twelve cars was estimated, and deductions made as to the actual per capita cost to the C. P. R. on the basis of the maximum charges provided by the agreement.

Although none of the delegates admitted any expert knowledge such as would undoubtedly be required for a proper and intelligent interpretation of the agreement, yet, by the exercise of common sense, they reached the unanimous decision that the rates are very decidedly discriminating against St. John, and that the feeling of the delegation should be placed on record. Action on this end was taken on motion of Dr. Daniel, seconded by Mr. Kestler: "That, in the opinion of the delegates, the details of the traffic agreement, so far as they are now known, are discriminatory against St. John." A copy of this resolution was handed to Mr. Hazen, the meeting expressing the fullest confidence in his ability to protect St. John's interest to the utmost.

Members of the delegation are discussing in a most flattering way the manner in which J. M. Robinson has handled a rather difficult situation. In all conferences, in negotiations with public men, and in private business matters with his associates, he has won strongly complimentary opinions. Members of both political parties admire the manner in which he not merely avoids, but absolutely ignores, any suggestion of partisanship. He has quietly and with dignity controlled the too enthusiastic and encouraged the retiring members of the delegation and has honestly earned the highest regard of those with him.

U. S. ANXIOUS TO EMULATE CANADA NOW

D. Hazen, minister of marine and fisheries, will represent Canada and deliver an address. President Wilson will deliver the opening address and distinguished representatives of the States and other countries will participate.

It has been intimated that the congress is especially anxious to have Canada's plans for improving Canadian waterways, the present government's advanced position in waterway improvement having attracted attention in the United States. It has been also intimated that a large number of American citizens desire to have their government emulate Canadian citizenship and a signal honor under completion in Canada would be much appreciated.

The membership of the congress represents the very best in American citizenship and a signal honor has been conferred upon the representative of Canada in being asked to deliver one of the most important of the addresses.

Hon. Mr. Hazen has a number of important engagements besides his

AGED WOMAN IS VICTIM OF A BRUTAL ASSAULT

DR. THOMAS STEWART ELECTED PRESBYTERIAN CHURCH AGENT

Synod in Annual Meeting at Sydney Transacts Much Business—Reports of Committees Prove Favorable—Intense Interest Being Taken in Work.

Sydney, Oct. 9.—There was no apparent abatement of the intense interest in the meetings of the synod shown by the delegates and the general public when the synod entered its third day's deliberations yesterday.

The Rev. Thomas Stewart of Pine Hill was, by acclamation, appointed church agent and he in an extremely modest speech acknowledged the honor placed upon him by the synod and accepted the position.

Reports from committees on foreign missions, the college board, suggestion and home missions were received and resolutions containing to same were passed. The final budget was also confirmed. Two or three most eloquent and impressive speeches were made by the proper authorities refuting the suggestions of heresy which had been irresponsibly and quite unnecessarily raised.

Rev. Dr. Thomas Stewart, of Pine Hill College, Halifax, was elected church agent in place of Rev. E. A. McCurdy, resigning. Dr. Stewart had been asked to report his decision respecting the appointment at the afternoon session, and at a suitable interval in a brief, but nicely worded speech, he intimated to the synod his acceptance of the position they had appointed him to.

Foreign missions were the subject occupying the attention of the synod for the greater part of the afternoon and under this head several recommendations were made and some seven or eight resolutions were agreed to. Mrs. Thompson, a zealous and faithful worker in the mission field, was called to the platform of the house and received the formal thanks of the synod for her endeavors.

In a neat speech she intimated that the best form of thanks to her would be for the synod, Presbyterians and people to stir up interest in the church and among young people with reference to missions. She advocated the establishment of mission bands to educate the people in the work of home and foreign missions.

The resolution giving effect to this idea was seconded and ably spoken to by Prof. Falconer.

FEAR MISSING NEGRO GIVEN LIFE TERM IN ACCIDENT DORCHESTER

Ed. Corbett of Hartland May Be Man Killed by Team at Harvey—Other News of Carleton County.

Special to The Standard.

Hartland, N. B., Oct. 9.—Today's Observer has the following, which may be of interest to St. John readers.

"Ed. Corbett, an elderly man, who for a time lived at Middle Simonds, and who lately has been living at Upper Brighton, has been missing from his home for about two weeks, and his wife has grave fears for his safety. He has been in the habit of absenting himself for several days at a time, but has never been so long. About the time he disappeared news came of a man's body on the railway track near Harvey. Mr. Corbett formerly lived at St. John and has visited there at odd times. His wife fears that the remains found on the track may have been those of her husband. They were buried but not identified, and the description corresponds with the missing man. Friends hope, however, that the supposition may prove groundless."

Last Saturday some boys of this place imbued with the idea of having good meat for Sunday's dinner, started out on the hunt, and seeing an animal in the distance all three discharged their fire arms with the result that a two-year-old colt belonging to C. H. Taylor was badly wounded. The colt may recover, but in the meantime there are three anxious boys and equally anxious parents.

News has reached here of the burr near Fort Fairfield, on Wednesday, and the findings of two human skeletons in the ashes. At this writing particular details could not be obtained. There is a girl mill in that section and it may be the old story of a jag and falling asleep with a lighted pipe in action.

Trains going through here these days are getting their motive power from Minto coal, and experts here on the engines to note the effect of the new fuel.

On Wednesday night there was a meeting at Windsor addressed by Messrs. Morgan, Britton and London. As at the Hartland meeting Mr. Birmingham was conspicuous by his absence.

On Nov. 11 he will address the Canadian Club in New York and on Nov. 29, he will represent the town of the "Glasier Dominion" at the Illinois St. Andrew's Society.

Queens County Jury Finds McIntyre Guilty of Manslaughter—Prisoner Killed Indian With Stick.

Special to The Standard.

Gagetown, Oct. 9.—At today's sitting of the Circuit Court the grand jury brought in a verdict of manslaughter against Charles Medley McIntyre, the negro who killed Gabriel Sebattis, an Indian, by striking him over the head with a stick. The accused was sentenced by His Honor Judge Barry to life imprisonment in Dorchester.

Hon. W. C. H. Grimmer, Attorney General, came to Gagetown this morning to represent the Crown in the case. F. A. Guthrie appeared for the prisoner, McIntyre. Court opened at 10 o'clock. After the jury had been sworn in the indictment was read over. It was found that the indictment should have read manslaughter and not murder, which was the case when the jury brought in their finding a few days ago. To the murder charge the prisoner had pleaded not guilty. When the manslaughter charge was made, however, he pleaded guilty. The accused and the Indian were with some others working at the mill. The Indian took offence when he was told to perform some of the work differently to what he was doing. He called the prisoner names and threatened to strike him. McIntyre, the accused, saw the Indian stooping down and promising that he intended to (the prisoner) hastily picked up a stick and in an instant struck the Indian over the head with it, the blow resulting in the Indian's death. He asked for the consideration of the court for his client.

The Hon. Mr. Grimmer then delivered his charge to the jury after which they retired, returning shortly with the verdict "guilty of manslaughter."

The jury was composed of the following: William H. Gale, Ruben Gaudin, E. L. Dykeman, A. C. Phasen, J. A. Armstrong, J. T. H. Carpenter, Cyrus Keyes, Thos. S. Goding, E. Melvin Carpenter, Melvin Jones, Charles Coy and C. H. Webster.

During the trial the prisoner's wife was present sitting near the prisoner's box. She held in her arms their baby a few months old and received

tearfully the verdict condemning her husband to imprisonment for life. The prisoner, however, remained unperturbed throughout the proceedings and heard the verdict and judgment without apparent emotion.

McIntyre will be taken to Wickham this morning to catch the boat for St. John, from whence he will be escorted to Dorchester Penitentiary.

Warrant Out for Arrest of John Rislet—Believed to Have Plotted Escape of Haynes from Jail.

Sydney, Oct. 9.—A warrant for the arrest of John Rislet was issued this morning charging him with attempt to facilitate the escape of Frank Haynes, now in the jail charged with the murder of Ben. S. Atkinson. Rislet is the man who is said to have informed Jailer Karn of Haynes' alleged attempt to escape. Rislet was arrested at North Sydney some time ago charged with stealing forty-two dollars from a fellow workman at Florence.

According to the story told at the trial the man insisted the money on returning to his hotel and immediately

Mrs. J. W. Penery of Upper Hampstead Lies at Death's Door.

VICIOUS CRIME OF YOUNG SCOTCHMAN.

James Gibson Enticed Victim Into House—Broke Both Her Ribs—Escapes to Narrows But is Captured.

Upper Hampstead, Oct. 9.—Brutally assaulted by a young Scotch degenerate named James Gibson, Mrs. J. W. Penery, a woman 67 years of age, lies at the point of death in her home here and the whole community is horror-stricken at the heinous nature of the crime. Locked in a cell next the manslaughterer McIntyre, Gibson waits the issue of his crime.

Gibson, who is only sixteen or seventeen years old, has been employed at the farm of Alfred Slipp for some time. This morning, while Mr. Slipp and his family were away from home attending the funeral of their little girl, who set fire to her clothing while playing with matches the other day and was burned to death, Gibson went to the home of Mrs. Penery, who lives at the next farm, and told her she was wanted on the telephone at the Slipp residence. She accompanied the youth back to the house, but as she went to the telephone, Gibson assaulted her and proceeded to lash her on both sides, and that she had sustained other injuries as well. Owing to her advanced age it is doubtful if she will survive the shock and injuries.

After the brutal assault, Gibson, unmindful of the piteous pleadings of the aged woman, left her lashed to the telephone, and ran away. Stealing a boat belonging to Mr. Slipp, he went across the river to Cambridge and then roved into Grand Lake.

Meantime the unfortunate victim of his crime had managed to get clear of her lashings, and crawled on her hands and knees to her home. On the return of the neighbors from the funeral her plight was discovered and Dr. Caswell was hastily summoned to attend her. Dr. Caswell fears she will not recover. An examination showed that her ribs had been broken on both sides, and that she had sustained other injuries as well. Owing to her advanced age it is doubtful if she will survive the shock and injuries.

When the old lady revived sufficiently to tell the story of the crime, Sheriff Williams was notified, and he started out on the hunt for the young criminal with a party of deputies. Leslie Slipp and George Colwell, taking a motor boat, started out for Grand Lake, and late this afternoon they caught the youth about three miles from the Narrows as he was making for the Washademoak. When captured he was carrying a 22-calibre revolver and a small box of cartridges. He was taken to Gagetown and lodged in the jail.

DETECTIVES HUNTING FOR SYDNEY MAN

Warrant Out for Arrest of John Rislet—Believed to Have Plotted Escape of Haynes from Jail.

Sydney, Oct. 9.—A warrant for the arrest of John Rislet was issued this morning charging him with attempt to facilitate the escape of Frank Haynes, now in the jail charged with the murder of Ben. S. TEARING DOWN ASTOR HOUSE

All the Material is Being Carted Away and Will Be Used Again — Marble for Tombstones.

New York, Oct. 9.—Every day for the last two or three weeks, wreckers who are pulling down the Astor House have had a most interesting gallery of idlers watching every movement they make in prying apart the material which gave shelter to thousands for more than three-quarters of a century.

It is probably safe to assume that few give mind to the destination of the material composing the old hotel, which, since it was assembled in 1838, has been one of the prominent buildings of this city.

The Hudson Wrecking and Plumbing Co., which bought the hotel from the city for \$3,888, sold the granite for \$5,000, and is now disposing of the brick at the rate of five and six dollars a load.

ST. JOHN, N. B., FRIDAY, OCTOBER 10, 1913.

MAKING PROGRESS.

Despatches regarding the delays of the St. John delegation at Ottawa, published elsewhere in The Standard, this morning, indicate a very decided improvement in the situation and a reasonable belief that, at least, the Embassies may be restored to St. John this winter.

It is now apparent that the famous "agreement" between the Intercolonial Railway and the Canadian Pacific was, in reality, nothing more than a memorandum of negotiations between Mr. Guellet of the I. C. R. and Mr. Boe-

ward of the Canadian Pacific. It is true these negotiations were leading to an agreement that the St. John delegation has concluded would be highly discriminatory against this port, but no agreement had been completed.

This being the case, the delegation, bearing in mind Mr. Borden's promise that there will be no discrimination against St. John but absolute fair play all round, were, naturally, much lighter in heart last evening than when they set out on their mission.

All members of the delegation were most favorably impressed with the manner in which Hon. J. D. Hazen treated the delicate situation. He was found ready and anxious to exert all his efforts in the interests of St. John and it may be most emphatically stated that he will suffer no injustice to be done to this port.

Headed by Mr. Hazen, the delegation went last night to Montreal, there to confer with Sir Thomas Shaughnessy. This conference, probably, will be held today and after it more definite news regarding the Embassies should be available.

Our Provincial Finances. That was a most encouraging prediction made by Premier Fleming, in Fredericton, yesterday, to the effect that New Brunswick's revenue for the fiscal year, ending the end of this month, will be the greatest in the history of the province.

Prosperity has been the portion of New Brunswick during the past year, despite the fact that in other parts of Canada, and throughout the United States, there has existed a condition of pronounced stringency.

Here is a description of the situation there from the pen of a staff correspondent of the Chicago Examiner: "Illinois has the prize financial problem of the country. It is a condition where, if it were a private corporation, some stockholder would be harrying into court with a petition for a receiver.

In addition to the natural prosperity enjoyed by New Brunswick, the people have the assurance, proven by past records, that the public money of this province is carefully collected and honestly expended.

CHATEAUGUAY TOMORROW. Tomorrow's voting will tell whether Hon. Sydney Fisher, the rejected of Borden, will also go down into history as "the unwanted of Chateauguy."

press in Quebec province that the nomination of Mr. Fisher has meant a close hard fought contest and, according to all precedent, the Liberals should win, as the constituency of Chateauguy has never returned a Conservative since Confederation.

The official record of the seat is as follows: 1867 Luther Halton (Lib.) .. 427
1872 Luther Halton (Lib.) .. 338
1874 Luther Halton (Lib.) .. 332
1878 Luther Halton (Lib.) .. 179

It will be noted that only three times since 1867 has the Liberal majority been less than 100.

Chateauguy is one of the Eastern Townships in Quebec which is gradually losing its English characteristics. The French population has very steadily increased while the last census returns show a decrease in the English speaking vote.

The following extracts from editorials in Le Canada, the leading French Liberal organ in Montreal, will furnish an indication of the case which the Liberals make out for Mr. Fisher:

"Have we to ask ourselves why our influence has come to nothing in Ottawa?"
"Who has our representation in the government been reduced?"

"Why have we lost positions in the civil service and even on the bench?"
"Who is the business of the Transcontinental taken to Toronto instead of Quebec?"

"Why is the business of the Transcontinental taken to Toronto instead of Quebec?"
"Who is the business of the Transcontinental taken to Toronto instead of Quebec?"

The result in Chateauguy will be important only so far as it may illustrate the trend of feeling in Quebec. If Mr. Fisher is beaten it will be a distinct triumph for the Government, while if he wins the seat will merely continue in the allegiance it has held since 1867.

Montreal's New Paper. Montreal's new daily paper, "The Daily Mail," made its first appearance on Wednesday morning. Judging from a copy received at The Standard office yesterday, the paper shows evidence of much care in all departments and will undoubtedly make for itself a place in Canadian journalism.

Montreal's new daily paper, "The Daily Mail," made its first appearance on Wednesday morning. Judging from a copy received at The Standard office yesterday, the paper shows evidence of much care in all departments and will undoubtedly make for itself a place in Canadian journalism.

In their new venture they have the advantage of abundant capital, and they promise an absolutely independent newspaper. An idea of the principles of the Montreal Mail can be found in the following extracts from its editorial announcement to the public:

The Daily Mail stands firmly and unalterably for British connection in all that term implies. It believes that Canada's destiny lies in its development as a nation with in the British Empire, and it will promote all measures which conduce to the realization of that project.

"We are now 'Pork,'" says The Times. Even "so truculent an adversary" as The Standard has refrained from breaking the news quite as bluntly as that.

DIARY OF EVENTS

HISTORIC DAYS

The "Fathers of Confederation" assembled in Quebec forty-nine years ago today to begin that memorable conference which was to result in the laying of the foundation of a new nation under the British flag.

October 10 is the birthday of William Kendrick Hatt, the distinguished civil engineer, at Fredericton, N. B., 1868.

THE PASSING DAY

YOM KIPPUR.

At sunset this evening the most significant day in the Jewish year will be ushered in with fasting and prayer. Yom Kippur, the Day of Atonement, is more generally observed than any other Hebrew feast by those who are not orthodox Jews.

At sunset tonight and sunset tomorrow night, the orthodox Jew must drop all worldly affairs and devote the period to fasting, penance, prayer and attendance at a synagogue.

BIG REVENUE FOR PRODUCE IS ESTIMATED. Best Fiscal Year in History of Province Predicted by Premier Fleming-Government Meeting. Fredericton, N. B., Oct. 9.—The greatest revenue in the history of the province was predicted by Premier Fleming this morning, at a meeting of the Executive Council of the Government, held at the Hotel Brunswick, at 10 o'clock this morning. Premier Fleming, in his address to the Council, declared that the revenue for the fiscal year ending 31st October, 1913, by Premier Fleming's revenue in history and that is exclusive of bonuses on crown timber sales, declared the Premier at his office at noon. Besides being Minister of Finance, Premier Fleming is also acting Provincial Secretary-Treasurer, and therefore had a most intimate knowledge of the province's financial affairs.

BIG REVENUE FOR PROVINCE IS ESTIMATED

Best Fiscal Year in History of Province Predicted by Premier Fleming—Government Meeting.

Fredericton, N. B., Oct. 9.—The greatest revenue in the history of the province was predicted for the fiscal year ending 31st October, 1913, by Premier Fleming this morning. "It looks to me as though we would have the greatest revenue in history and that is exclusive of bonuses on crown timber sales," declared the Premier at his office at noon. Besides being Minister of Lands and Mines, Hon. Mr. Fleming is also acting Provincial Secretary, Treasurer, and therefore had a most intimate knowledge of the province's financial affairs.

"The territorial revenues are about the same as for the past two years," continued the Premier, "although the lumber cut was smaller this year and stumpage collections therefore considerably less, the revenue from other sources is increasing. Fees in the provincial secretary's office, taxes from incorporated companies, King's Printer's office and other items are in excess of previous years. The estimate for succession duties was \$50,000, but through one or two large estates paying their tax this year the amount probably will be well up to double our estimate, one estate alone paying upwards of \$34,000."

Premier Fleming is here to attend a meeting of the Provincial Government, Hon. James A. Murray and Hon. Dr. Landry also here for the same purpose. Hon. John Morrison turned from his inspection tour along the route of the St. John Valley Railway this afternoon, and Hon. W. C. H. Grimmer, who arrived here last evening from St. Stephen, went to Gagetown this morning to appear in his capacity as Attorney General and returned this afternoon. Hon. John E. Wilson is in Ottawa with the St. John delegation and will be here tomorrow.

The Premier has been busily engaged in departmental work this morning, his callers including W. C. Milner, of Halifax, who is Dominion Architect for the Maritime Provinces; A. B. Gould, Inspector of the St. John & Quebec Railway Company, who is here to appear before the Government on St. John Valley Railway matters; and others who are here to meet the Government. W. E. C. Parsons, of Drummond Iron Mines Company at Bathurst; H. W. Wood, M. L. A., for Queens; W. B. Dickson, M. L. A., for Albert; James K. Pinder, M. L. A., for Restigouche, and others. The Provincial Government's session opened this evening and will continue tomorrow.

It is said to be unlikely that the new indicative Act will be proclaimed at this meeting of the Government.

CARMEN MUSIC LINE OF WIMMERS TREATS

Special Music will add to Success of Big Event — Full Rehearsal Being for Tonight.

Two scenes from the opera of Carmen will be the special musical treat of the coming Kinness, that will be presented at the York Theatre next Thursday, Friday and Saturday nights, for the benefit of the Children's Play Group Association. There will be over seventy voices on the stage at the time, and in singing the famous waltz and the inspiring "Florencia" the society boys and girls and the principals are at their best, and as the principals were picked out for their acting and singing ability, it is expected that many agreeable surprises are in store for the music lovers of St. John.

Full Rehearsal Tonight. A full rehearsal will be held tonight at the York Theatre of several of the grown people's groups, and it will be the last public rehearsal as the directors insist on everything being rehearsed privately from Friday night on, and as every one is working very hard a smooth like professional production is expected. Next week two full dress rehearsals will be held with the special orchestra, scenery, costumes and electrical effects, and by an opening every little detail will have been mastered.

The names of the ladies and gentlemen participating in the Carmen scene are as follows, with a synopsis of the scene:

- LA CARMENITA. From the Opera Carmen, Chaperoned by Mrs. Dr. Crockett. LaCarmenita, a cigarette girl... Miss Dorothy Creighton... Miss Ermine Climo... Barton Wetmore... P. L. Lynwood.

At the noon hour in Seville a party of young men await the coming of the young girls who are employed at a cigarette factory. They are singing the Middy Bell. Soon the young girls appear singing the cigarette chorus led by Michela, Don Jose, a brigadier, is desperately in love with the Senorita Carmen, but she has had a recent quarrel, and decides to show indifference to the overtures towards her reconciliation. He joins the singers and dancers who tease him concerning his quarrel with Carmen. This only serves to increase his anger. Carmen appears and tries to win back the love of the soldier which she fears she has trifled with too much. Furious at his refusal, she casts a flower in his face to show that she forever casts from her heart the memory of their love. The hero of the hour, a victorious torador, is heard approaching in the distance. He is welcomed and lionized by the populace. Carmen lays her net and while he sings "Here's to You," she follows him around the stage desperately making love and bringing to her assistance all the charms and wiles with which a Spanish woman loves. In triumph, the torador offers his arm to Carmen, she accepts and has made one more conquest and awaits in the face of Don Jose her victory.

Cigarette Girls—Mrs. Dudley Robb, Miss Christine Crawford, Miss Eulotta Dykeman, Miss Annie Eakley, Miss Jane Creighton, Mrs. James W. Griffith, Miss Hazel Campbell. Royal Serenaders—James W. Grid, William Charlton, George Cochrane, W. L. Creighton, Walter Griffith, F. G. Poole, A. E. Williamson, Albert Belding.

FIVE MINUTE PURE IF STOMACH IS BAD

"Pape's Diapepsin" is quickest, surest indigestion cure known.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you must injure it with drastic drugs. Pape's Diapepsin is noted for its speed in giving relief. Its harmless nature; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach troubles has made it famous the world over. Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and causes gas, flatulency, causes headache, dizziness and nausea; eructations of acid and undigested food—remember a soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

DIED. BRUNDAGE—On October 9th Inst. Eleanor Jane, widow of the late Thomas Brundage, in 88th year of her age. Services at the late residence, 306 Service at the rate, 3 p. m. Sunday, October 12th.

While these statistics do not specify the number of pilgrims who came from the Philippines, there can be no doubt that the 1,000,000 Moros who are living there under American protection sent some of their number on the annual Hadji, or sacred pilgrimage.

DR. A. W. CHASE'S 25c CATARRH POWDER. It is sent direct to the diseased parts by the Improved Blower. Holds the mucus in the air passages, stops dripping, cures Catarrh and Hay Fever. It is a box, 1 blower free. Accept no substitutes. All Dealers or Directly from Dr. Chase & Co. Limited, Toronto.

HOW A FAKIR MADE MONEY FROM OCEAN

Gold in Salt Water in Bay of Fundy—Cost Public Big Sum—A Lovely Scheme.

For many years a paragraph has been floating around the world stating that sea water contains a definite proportion of gold. One metallurgist has taken the trouble to trace the statement of its source, with the result that the trail ran up a tree. No authoritative statement of the contents of gold "per ton of ocean" could be discovered. But it was enough to start the exploitation of the public by the Electrolytic Salt Company. Circulars were issued, stating, among other things, that sea water contained gold. The "inventor" stated the amount of gold to be one grain per ton of sea water. Possibly there is some infinitesimal trace of gold there. Certainly it is not that much—but the amount matters very little. Now a ton of material couldn't be handled for four cents—about the value of one grain of gold. But that difficulty could be overcome if we let nature handle the job for us. So in the Bay of Fundy, where tides run high, were placed tanks or reservoirs so that they would fill at high tide and empty at low tide. In the reservoir were "plates" for the deposition of the gold. In flows the water, down goes the gold. This only work is to scrape off the beautiful stuff deposited on the plates and there you are.

It was a lovely scheme. Subscriptions flowed in. Then came a real \$15,000 dividend, paid in hard cash.

Now, indeed, money came in fast. There had been enough apparatus appeal to scientific principles to satisfy those to whom electrolytic operations are a fact well known, but who have never bothered themselves as to details. Doubts were dispelled by the money. The stale old trick of a dividend paid from stock subscriptions had worked once more.

Then came the closing down of the mill, the flight of the promoter to a more congenial climate and other highly uninteresting details—Metallurgical and Chemical Engineering.

NEW YORK CRITICS ON "THE GAMBLERS"

Prominent Critics Unanimous in Opinion that Stock Co's Next Bill, Chas. Klein's Greatest.

It is often interesting to read articles written by intelligent, educated men, and those which The Standard quotes will be particularly interesting to the people of St. John, inasmuch as they pertain to "The Gamblers," Chas. Klein's greatest play, the second bill to be used by the Thompson-Woods Stock Company at the Opera House.

Louis Daffin, of the New York World says: "Quick, sure success for 'The Gamblers,' Charles Klein's new Wall Street play is exceptionally fine from many points of view. Also admirably acted. Characters boldly and faithfully drawn."

Arthur Warren of the New York Tribune: "An electrifying success for the playwright and players."

The New York Sun: "For dramatic strength 'The Gamblers' stands at the top of this season's new dramas."

New York Evening Globe: "Left one with the impression that here, at last, was a play."

Adolph Klausner, New York Times: "Mr. Klein has written a play which grips, which moves with little obviousness to an interesting conclusion, and which is tense and holding."

John Corbin, Saturday Evening Post: "The success of 'The Gamblers' is remarkable for many things, but for nothing more than for the evidence it gives of the debt that our native stage owes to Mr. Charles Klein. Every scene is sincere and convincing, and the interest mounts steadily, logically, until the final curtain."

BANKERS NOW PLAN TO AID THE FARMERS

Will Take Intelligent and Effective Stand on Question of Agriculture — Criticise Currency Bill.

Boston, Oct. 9.—The American Bankers Association closed its 29th annual convention here today. Further adverse criticism of the pending congressional plan of currency and banking reform developed when James J. Hill, of St. Paul, Minn., speaking as a friend of agricultural developments, termed the bill "too Socialistic to suit most Americans," and predicted "disturbances, monetary crisis and business depression" from its enactment.

Before adjourning the convention settled a close contest for the honor of holding the next convention by deciding to go to Richmond, Va.

Arthur Reynolds, of Des Moines, first vice-president, was elevated to the presidency. W. A. Law, of Philadelphia, succeeded to the first vice-presidency without contest.

"The bankers gave over much of their time today to consideration of addresses dealing with the movement for closer relations between the financial interests of the country. It was under the head of 'agriculture in the United States' that Mr. Hill spoke.

Joseph Chapman of Minneapolis, chairman of the association's committee of social and agricultural development, prophesied a time when as a result of a decrease in the production of cattle portentious steak would cost a dollar a pound and the price of meat would be prohibitive to the working man. "What the bankers must do," he said, "is this—they must devote themselves to making the farmer a better credit risk."

"The bankers have taken a much more intelligent and effective stand on the question of agricultural development than they have on the currency question," Mr. Chapman declared. "We have too many brokers, too many lawyers, yes, even too many bankers," said Dr. George E. Vincent, president of the University of Minnesota. "And, gentlemen," he added, "we have too few farmers, too few dairymen. Everything in our education has tended to draw the country boy into the city. Do we want culture in Minnesota? Yes, but we don't want the kind of thing thought culture was, when I graduated from Yale University. We want that culture which makes for national efficiency, economic, moral and democratic."

The delegation of country bankers which is to go to Washington on Monday to present the resolutions opposing features of the Owen-Glass bill, adopted a few days ago, had a final meeting tonight. They are to be received by President Wilson Monday afternoon.

THE WORLD'S SERIES GAMES.
The Standard has arranged for telegraphic service covering the world's series of baseball games, by innings. The results will be posted on the bulletin board in the window of The Standard office as they are received and this paper will be pleased to answer, to the best of its ability, all telephone enquiries on days on which games are played.

KILBANE WINS.
New York, Oct. 8.—Johnny Kilbane, of Cleveland, the featherweight champion, outfooted Kid Julian, of Syracuse, throughout their ten round bout tonight. In the sixth round Kilbane sent his man to the floor with a hard right to the jaw for the count of nine, and it was only by clinching and wrestling tactics that Julian managed to last until the final bell.

FOR SALE BY
THE J. A. McDONALD PIANO & MUSIC CO.
7 Market Square, St. John, N. B.

Victor-Victrola -- The Creator of Pleasant Evenings

The Victrola is the ideal entertainer, it adds gaiety and pleasure to any occasion. it is a whole concert or "show" in itself. When classical music is desired the greatest singers and musicians in the world render it for you. When the lighter, popular forms of entertainment are wanted, the foremost entertainers provide it, by way of the Victrola, each in his or her own inimitable style.

Don't be without a Victrola any longer.

There is a "His Master's Voice" dealer in your town who will be glad to play any music you wish to hear on the Victrola. If you find it inconvenient to call on him it would be a pleasure to him to give a demonstration of any instrument you desire, in your own home. Victrolas cost from \$20 to \$300 and are sold on easy payments (as low as \$1 per week) if desired. Victor records are 90c for 10-in. double sided. Ask for our Catalogue listing over 5000 Victor records.

LADLAW & CO'S CLOSING STOCK LETTER

New York, Oct. 9.—Today's stock market showed no change of general characteristics from that of its immediate predecessors and bear interests were therefore encouraged to continue their attacks upon the general list. U. P. and U. S. Steel were made the targets early and yielded easily under pressure. A moderate rally ensued on short covering but the rallying power at best was feeble and it looked as if only the general depression had been saved from further decline.

STOCK MARKET PRICES WERE CONTRADICTORY YESTERDAY

New York, Oct. 9.—The stock market of today was a contradictory affair. Prices moved up and down in abrupt swings during the forepart of the day, although there was nothing in the way of definite news to account for the fluctuations. And when the one important development of the day was made known, which might have been expected to find instant reflection in the level of quotations, the market placidly ignored it.

NOON LETTER ON NEW YORK STOCKS

(F. B. McCURDY & CO.)
New York, Oct. 9.—After a period of weakness at the opening, the market rallied, but there was a good deal of lack of uniformity about price movements, some issues being in good demand while others were pressed for sale and sustained material losses.

PRODUCE PRICES IN CANADIAN CENTRES

Montreal, Oct. 9.—CORN—American No. 2 yellow, 80 @ 81.

NEWSPAPERS ON THE MARKET SITUATION

(J. C. MACKINTOSH & CO.)
New York, October 9.—Union Pacific directors meet today. Government grant report due at 2 15 p. m. American Bankers' Convention adopts report condemning many features of currency bill. At suggestion of President Wilson bill will be introduced repealing the clause in tariff bill granting five per cent discount on duties on goods imported in American merchant ships. Attorney General McReynolds and New Haven officials confer today in Washington. Bank of England rate unchanged at 5 per cent. Wisconsin Central \$2,500,000 four per cent first and refunding bonds stricken from list of stock exchange. Government bonds at private sale make new low record. Buffalo declares embargo against Canadian grain shipments on account of blockade there. Twenty railroads declined 0.82 per cent. Americans in London steady, one eighth off to three-quarters up.

EVANS ON STOCKS

(F. B. McCURDY & CO.)
New York, Oct. 9.—The market continues to decline under dribbling liquidation from widely scattered sources and receives but little support. When selling pressure relaxes the market rallies in a feeble sort of way, but nobody seems to be interested on the constructive side, and although it would be fair to expect some rally today after the weakness yesterday, such a rally is not apt to go far. The tendency seems to be distinctly toward lower prices.
H. K. EVANS.

CHICAGO GRAIN AND PRODUCE PRICES

(F. B. McCURDY & CO.)
Chicago, Oct. 9.—What—Trading has been of fair volume with commission houses on both sides. News from abroad is slightly more bullish, the continued drought in India causing fears but rain in the United States and Southern Argentina. French import requirements are estimated at 32,000,000 bushels while Germany continues a good buyer of foreign wheat. Much change in the market is to be anticipated until after the issuance of the government report. Corn—Predictions of unsettled weather started local shorts to buying and lifted prices fractionally but the bids failed to hold. Market narrow. Oats—Shorts best buyers while leading elevator concerns sold. Provisions—Light offerings and market higher on scattered commission house buying of stinole lots.
A. O. SLAUGHTER & CO.
DECLARE DIVIDEND.
(F. B. McCURDY & CO.)
Chicago, Oct. 9.—Commonwealth Edison Co. declared a quarterly dividend of 2 per cent, payable November 1st to stock of record Oct. 15. This is at rate of 8 per cent and compares with previous dividend rate of 7 per cent.

THE TOPICS OF SPORT AT HOME AND ABROAD

THE HEAVY HITTING ATHLETICS TAKE THIRD GAME IN WORLD SERIES

DEMAREE OF THE GIANTS MCGRAW'S PROBABLE PITCHING HOPE TODAY.

Continued From Page One. The victory of Bush, who hails from the same town as "Chief" Bender, was exceedingly popular with the Athletic players and the club adherents. It has been known for some time that he had great possibilities as a pitcher, but until he stood today's test his status was simply that of any big league player. "Bullet Joe," as he has been nicknamed because of his great speed, broke into baseball as a member of an amateur team in his home town. During the season of 1910 he played in every position except catcher. His first professional engagement was with the Missoula, Mont., team of the Union Association. Here he was spotted by one of the Athletics' scouts and joined the Mack team in September a year ago. To-night his admirers are predicting for him a future record like those achieved by Christy Mathewson, Walter Johnson, and Cy Young.

Disappointment among the Giants' contingent over the downfall of Teareau was as keen as the elation among the Athletic rooters because of Bush's splendid work. The O'Leary mammoth was looked upon before today's game as the Giants' second best card. When Marjand and Crandall were knocked out of the box in Tuesday's game, the loyal adherents pinned their faith to Mathewson and Teareau. The old master did more than was expected of him yesterday, but Teareau fell just as heavily before the Athletics' vicious battery as did the Giant twirler in the opening game. He had his moist ball delivery breaking at all kinds of angles, but he could not control its direction. The Athletics' batting quartet refused to hit except when the ball was over the plate, and then they did against it lustily. In this lay the secret of their success.

Terrific Batting. So vigorously did they clout the sphere that the defeat would have become an utter rout but for sensational stops and throws by Doyle, Fletcher and Herzog, at critical stages of the play. Captain Larry Doyle played desperately, and his stops and plays in the second and seventh innings were of the brand that has made Honus Wagner's name famous wherever baseball is played. Eddie Collins carried off the fielding honors for the Athletics, although there were plays made by other members of both teams that would have been considered little short of remarkable in an ordinary league game. The very fact that but one error was recorded for each team testifies to the calibre of the fielding in the third game of the series, including, as it did, four double plays.

The defeat of the Giants was a severe setback to the New York club sympathizers, for Mathewson's wonderful work of Wednesday had increased the belief that the National League standard bearers were to continue along Edith's trail but for some time.

Large Attendance. Today 36,888 paid to pass into the Polo Grounds, exceeding by several hundred the attendance at the opening game. Even more in the grandstand and bleachers was occupied and standers gathered at every point permitted by the fire and police regulations. The gate receipts totalled \$76,763.60 and the club owners saw thousands of eager fans with real money in their hands turned away because there was not a foot of space inside the park that could be sold to them. Scores of speculators did business brazenly along Edith's trail but for some time. With tomorrow's game in Philadelphia the players' division of receipts will cease, but neither they nor the club stockholders have cause for complaint, since to date \$2,750,000 has been paid for the privilege of seeing the Athletics' eggs

fielders away as he backed into short right field and caught Murray's fly. McLean ended the inning by sending up a high fly which fell into Schanz's big mitt.

Third Inning. The visitors failed to count in the third inning, going out easily and quickly. McLean and Strunk both gave Burns chances which he accepted, getting both their high flies. Barry fouled out to McLean.

Fourth Inning. There was not much to the fourth inning for either side, both Bush and Teareau pitching good ball. Schanz went out for the second time by the strike out route. Bush started the Athletics' partisans cheering when he hit to left field for a single. Burns made a hard run to get up to the ball and it looked as if he caught it, but he only managed to scoop it up after it struck the ground. His stop of the ball probably prevented Bush going to second and possibly to third. The runner was left stranded on first. However, when Murphy raised a high fly to Shafer and Oldring went out, Doyle to Merkle.

Fifth Inning. Collins almost got a long extra base hit in the fifth, when he hit the right field stand, but the ball was foul. He then went out on a hard drive to Murray. Baker put up a high fly which Fletcher gathered in and McLean was the third out on a fly to Murray. Teareau's pitching continued to be good, and he was given a hand by the New York rooters as he walked to the bench.

Sixth Inning. Wilson here went in to catch for New York. Strunk, the first man up in the sixth, flied out to Burns. Barry singled to right and was left there, Wilson taking Schanz's high foul fly and raising a \$5 to Doyle.

Seventh Inning. The seventh inning saw the end of the crowd started to leave the grounds as Murphy came to bat in the ninth inning with the Athletics in the lead, 3 to 2. Murphy flied out to Murray. Oldring went out on a foul fly to Herzog and Collins ended the Athletics' inning by raising a fly to Shafer.

Eighth Inning. Wittee went to first base in Merkle's place when the eighth opened. Neither Strunk nor Barry could do anything with Crandall's pitching, both hitting weakly to the rescue pitcher, who threw them out at first.

Ninth Inning. The crowd started to leave the grounds as Murphy came to bat in the ninth inning with the Athletics in the lead, 3 to 2. Murphy flied out to Murray. Oldring went out on a foul fly to Herzog and Collins ended the Athletics' inning by raising a fly to Shafer.

Full of confidence by reason of the five run lead, Bush went in and pitched the first ball in New York's half of the second inning. Schanz' trickles a tossed out. Collins waived the other slow bouncer at Collins and he was

SHAHER

grounds as Murphy came to bat in the ninth inning with the Athletics in the lead, 3 to 2. Murphy flied out to Murray. Oldring went out on a foul fly to Herzog and Collins ended the Athletics' inning by raising a fly to Shafer.

For the Giants in the ninth inning, Burns flied out to Murphy. Shafer waited for four bad ones but was forced at second when Murray grounded to Harry, who tossed the ball to Collins for the out. Wilson ended the game by sending up a high foul to Baker.

The box score: Philadelphia. AB R BH PO A E. E. Murphy, rf..... 5 1 2 2 0 0. Oldring, lf..... 5 3 2 0 0 0. Collins, 2b..... 5 2 3 4 0 0. Baker, 3b..... 4 1 2 3 1 0. McLean, 1b..... 4 0 3 0 0 0. SUFFRAGETTES ARE SHOCKED

Announcement that Only Minor Offences Come Under "Cat and Morin Act" Upsets Plans.

London, Oct. 9.—The belief of the militant incendiaries that under the "cat and mouse" act they were assured of speedy release from prison by "hunger strike," and could then repeat their offence, received a rude shock today by the announcement of the home secretary that Miss May Richardson, who has been in prison since her arrest, would not be given her freedom. The prison authorities have been instructed to resort to forcible feeding, if necessary, to prevent the incendiaries from starving themselves to death.

Estate of Timothy Clark, light house keeper. Deceased died intestate in 1910; his wife predeceased him and he left him surviving three sons—William L. of Boston, commercial traveller; Edwin F. of the same place, carpenter, and George H. of St. John, police officer, and one daughter, Elizabeth, wife of Robert Fawcett, St. John laborer, and two grandchildren, Mabel and Adam, children of a daughter Alice, wife of Albert Lockhart of San Francisco, mariner. On the petition of the children resident here George H. Clark, the son, is sworn in as administrator. No real estate. Personalty, consisting of a leasehold, valued at \$500. Messrs. Baxter & Logan, proctors.

WEDDINGS. Robison-Cairns.

A quiet wedding took place in Newark, N. J., Oct. 4th, when Dr. J. Howard, of the First Methodist church, united in marriage Miss Amy W. Cairns, daughter of the late Alexander Cairns, of this city, to L. B. Robison, of Asheville, N. C. The bride was attended by her sister, Miss Fannie Cairns, while the groom was supported by H. Gasner, of Buffalo. After the ceremony the bride and groom left for their home in Montclair, N. J., where the groom is employed in the lumber business.

OBITUARY. Philip Black.

St. Martins, Oct. 3.—A large funeral took place here yesterday afternoon when nearly a hundred of the leading citizens of St. Martins met in respect for the late Philip Black, brother of Councillor C. F. Black. The deceased was seventy years of age, the 28th of Sept. last being his 70th birthday. The deceased enjoyed very good health right along until about three months ago, when he was taken with an attack of heart trouble, which soon ended his life. He was the eldest brother of ten, of whom James M. C. Fred and Benjamin Black remain to mourn their loss.

EXPLORER DISCOVERS NEW TRIBE

Missionary Meets Strange People in Interior of New Guinea—Women Wear Slit Skirt.

New York, Oct. 8.—The Rev. C. V. Hall, of California, now associated with the Methodist mission of Tolok Ayer, in Singapore, who has just ended a five years' trip around the world, returns to this country with an interesting tale of discovering a new tribe of negroes in the midst of the cannibals of New Guinea. This tribe, called the Kikis, and known only vaguely to other natives, was found by the five days travel through the hills with the Governor's son, two other white men and a troop of soldiers.

LOAN SHARK IS ARRESTED

New York Usurer Charged 200 per cent a Year—Wanted in Montreal and Winnipeg.

New York, Oct. 9.—David H. Tolman, notorious as a loan shark, was convicted this afternoon of violating the state law against usury and sentenced to serve six months in the penitentiary. The complainant, a clerk, testified that he had paid interest at the rate of 200 per cent a year for the use of \$10 for three months. The defendant said he had conducted for twenty-four and fifty loan offices throughout the United States.

TO ENCOURAGE SCANDINAVIAN IMMIGRANTS

Hon. Dr. Roche Confident that Tide of Emigration from Northern Europe will Turn to Canada.

Ottawa, Oct. 9.—Trouble in the Balkans has had an opposite effect on immigration from those countries to Canada than was expected. Instead of a decrease there has been a steady increase of settlers from those countries and from Austro-Hungary to Canada. Recently the government has devoted considerable attention to attracting settlers from the Scandinavian countries to Canada. Owing to the hostility of the government of Norway, Sweden and Denmark toward any attempts to secure settlers from those countries, the work of the government has been carried on under great difficulty.

Sealed tenders addressed to the undersigned and endorsed "Tenders for Docks, First Unit, Contract No. 3," "Halifax Ocean Terminal," will be received at this office until twelve o'clock noon, Wednesday, the twenty-second day of October, 1913, for the construction of about 6,500 lineal feet of quay wall foundation for buildings, sewers, dredging of harbour to a depth of 45 ft. at low water and filling reclaimed areas. Plans and specifications and form of tender may be seen and full information obtained at the office of the General Manager, Moncton, N. B., at the office of the Chief Engineer, at the Department of Railways and Canals, Ottawa, and at the office of the Superintendent, Halifax, N. S. The right is reserved to reject any or all tenders. By order, H. K. JONES, Assistant Deputy Minister and Secretary, Department of Railways and Canals, Ottawa, September 2nd, 1913.

MAIL CONTRACT. SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 28th November, 1913, for the conveyance of His Majesty's Mails, on a proposed contract for four years, six times per week each way, between Cambridge and Rural Route No. 1, from the pleasure of Postmaster General next. Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of tender may be obtained at the Post Office of Cambridge, Mouth of Jemsek, McDonald's Corner, and at the office of the Post Office Inspector, N. R. COLTHER, Post Office Inspector, Post Office Inspector's Office, St. John, N. B., Oct. 7th, 1913.

THE WEATHER.

Maritime—Light to moderate winds; a few local showers but mostly fair and warm.

Toronto, Oct. 9.—Pressure is high from the Great Lakes eastward, while a fairly pronounced disturbance which developed in the southwest is now centered over Nebraska, with the exception of light showers in the St. Lawrence Valley the weather has been fine and warm from Ontario to the Maritime Provinces. It has continued cool from the west and light snow is falling tonight in southern Saskatchewan. Minimum and maximum temperatures:

Table with 2 columns: Location, Min. Max. Includes entries for Victoria, Vancouver, Kamloops, Calgary, Edmonton, Battleford, Fort Arthur, Parry Sound, London, Toronto, Kingston, Ottawa, Montreal, Quebec, St. John, and Halifax.

Washington Forecast. Washington, Oct. 9.—Forecast for New England: Cloudy Friday, Saturday unsettled, probably rain; light to moderate variable winds.

AROUND THE CITY

A Successful Hunter.

Fred Wright, of the Royal Hotel, has returned after spending the past two weeks at his summer house near Carter's Point. Mr. Wright reports an abundance of all kinds of game in that district and an evidence of this he brought home a fine moose head.

Plan Winter's Work.

In the Methodist church, Fairville, last evening the annual meeting of the Brotherhood was held. The winter work was planned at length. The officers were elected as follows:—Rev. G. Earle, president; H. M. Stout, vice-president; W. F. Inches, treasurer; E. Stone, secretary; Berta Kelly, chaplain.

ST. JOHN MAN IN LAWSUIT IN MONTREAL

Charles F. Crandall a Co-Defendant in Conspiracy Action.

LAWSUIT RESULTS FROM NEWSPAPER SQUABBLE.

Mr. Crandall, Managing Editor Montreal Star, Bracketed With Employer in Suit Brought by Montreal Herald

Montreal, Oct. 9.—A suit for one hundred thousand dollars damages on account of an alleged conspiracy to destroy the Montreal Herald and to ruin its business, was entered in the Superior Court today by the Herald Company, Limited. The defendants are the Montreal Star Publishing Co. Limited, the International News Service (a New Jersey corporation controlled by William Randolph Hearst), Sir Hugh Graham, owner of the Star, and Standard, and Charles F. Crandall, managing editor of the Star.

Particulars of the allegations upon which the suit is based are given in full in the plaintiff's declaration, alleging a protracted and widespread conspiracy on the part of the defendants, and other persons unknown, to prevent the Montreal Herald from having access to certain sources of supply from which daily newspapers secure their circulation-building features.

It is also alleged that the Canadian defendants formed a "so-called syndicate and induced the New Jersey defendant to break its contract with the Toronto World and transfer its services to their syndicate. The Toronto World was thereby prevented from delivering to the Herald the features and services which it had contracted to deliver. The Toronto World yesterday secured an interim injunction restraining the New Jersey Corporation from delivering its services to the Star syndicate until further hearing.

PARISH ELECTIONS AT MACE'S BAY. Mace's Bay, Oct. 9.—The councilors' elections passed off quietly here yesterday. There were three candidates in the field, Messrs. Charles Giles, New River, and Burton McGowan of Mace's Bay, both Conservatives being elected. The vote was as follows:

Table with 2 columns: Candidate, Votes. Includes entries for Lepreaux Bay Total, Chas. Giles, Burton McGowan, and Melvin Mawhinney.

J. J. Cowie of the Fisheries Department, Ottawa, was in the city yesterday. Mr. and Mrs. Claude Allan left Liverpool for Montreal on Wednesday by the Tunisian.

PROGRESS ON SUGAR REFINERY SLIGHTLY BEHIND THE PLANS

F. H. Anson, Managing Director of Company Hopes, However, to have Buildings Roofed by Christmas—Improvements to Ballast Wharf Costly Work—South Africa as Sugar Producer.

"The work on the sugar refinery buildings is very satisfactory, but it is not proceeding rapidly enough to suit me," said F. H. Anson, of Montreal, managing director of the Atlantic Sugar Refineries, Ltd., who was at the Royal yesterday. Many people in St. John have been astonished at the rapidity with which the contractors have been carrying on the work at the Ballast wharf, but it appeared from Mr. Anson's remarks that the contractors would need a ladder's lamp in order to erect the buildings fast enough to please him.

"We're a little behind in our plans," added Mr. Anson, "but we hope to have the main buildings covered over by Christmas, and to keep hard at work all winter. Every feature of the machinery long ago, and it will be ready as soon as we want it. Some of it is already at hand."

"We have practically rebuilt the ballast wharf, and a good job has been made of it, too. Probably few people have any idea of the extent of the work required to prepare the foundations of the buildings. We spent more money on the underground work than we have on the superstructure so far."

Speaking of the preferential trade treaty between Canada and the British West Indies, Mr. Anson said he did not think it would have any important effect from the point of view of the sugar refineries. "The British West Indies are not producing enough sugar to supply the Canadian market," he added. Under the preference the British West Indian planter has an advantage in the Canadian market, but the price the Canadian refiner has to pay is largely determined by the prices prevailing in other West Indian islands, and they in turn are

to a large extent determined by conditions in the New York market. In regard to the decision of the Canadian government to extend the preference to British Mauritians in the Indian Ocean, Mr. Anson did not think that would afford any cause for worry to the West Indian planter, as there was not much likelihood of competition from that source, practically all the Mauritian sugar going to India or England. "To my mind, they are likely to have competition from South Africa before long," said Mr. Anson. "I believe South Africa will be a great producer of sugar before many years."

Mr. Anson has an extensive acquaintance with the West Indies and South Africa. While connected with the Ogilvie Milling Company he inaugurated the Canadian flour trade with the British West Indies and was also instrumental in paying the way for the export of Canadian flour to South Africa. Before he took up the matter, shipments of Canadian flour had been made to the British West Indies, but as the flour in the hot climate, and turned sour, it was impossible to sell it. At the instance of Mr. Anson the Ogilvie Milling Company prepared a special flour adaptation, moist climates, and undertook to market it in the West Indies, not inable reputation Canadian flour had acquired there. But the effort was attended with success and the Ogilvie Company soon became a big shipper of flour to the West Indies.

Some of the Canadian milling companies have apparently forgotten that the West Indian markets require a special brand of flour, for in some of the recent reports from trade agents in the West Indies it is stated that shipments of Canadian flour have been made there, which have gone bad on the dealer's hands.

COMMISSION DECIDES IN FAVOR OF CO.

Contention of St. John Electric Company Upheld in Matter of Dam on St. John River.

Ottawa, October 9.—An international commission appointed by the Canadian and United States governments to inquire into the damming of the St. John river by the St. John Electric Company, and to investigate especially the charge that the proposed works are a violation of the Ashburton treaty, has submitted a report to the Hon. Robert Rogers, Minister of Public Works. The report upholds the contention of the Electric Company. The dam which is to be erected on the St. John river between the Shogomac and Pokok streams, was authorized by an act of the legislature, but protests came from the lumbering and fishing interests, both in New Brunswick and Maine. The commission reports that the dam if built according to the act would not prevent free access to the sea at St. John, within the meaning of the Ashburton treaty, but it states that the weight of evidence goes to show that it might impede the passage of salmon to the spawning grounds. The commission is composed of M. G. Teed and John Kerfe, representing Canada, and L. Murchie and Peter Keegan, for the United States.

GOOD PROGRESS ON FAIRVILLE SEWERAGE

Work Proceeding in a Satisfactory Manner—Contracts Call for Three Miles of Sewers.

The work of the extension of the Fairville sewerage system which was started this summer has been proceeding in a satisfactory manner. About two-thirds of the extension is now completed and the balance of the work is well in hand. The contract let to Mr. Long this summer called for the laying of about three miles of sewers.

The fact that over five miles of sewer mains have been laid in Fairville within the last three years shows that that enterprising town is making considerable progress. The councilors of Lancaster have been rather aggressive in looking over the interests of their parish, and the people of Fairville are evidently determined to give their town every opportunity and facility for future growth.

A Great Opportunity. Mr. Alfred Noyes will lecture on Nov. 4th in the York Theatre under the auspices of the St. John High School Alumnae. This will be Mr. Noyes' only appearance in Canada and St. John citizens generally will no doubt take advantage of this opportunity to hear the foremost poet of the Empire.

HALIFAX MAN SPEAKS MIND ON ST. JOHN

View of a Visitor from Nova Scotia Capitol, on Possible Withdrawal of Empire Steamers.

"St. John has no need to get over excited about the steamer situation," said a man from Halifax, who was in the city yesterday. "I noticed a report sent out from Montreal that the steamship companies might cut out or greatly reduce the sailings to St. John rather than give the passengers more wages. Where are they going to send the boats? Halifax will be crowded this winter. In order to make room for the Empire steamers it was considered necessary to cut out the call at Halifax of many of the big Allan boats."

"What excites St. John seems to be more a loss of prestige than of either traffic or passenger business. I was told the Allan turnbiers carried more passengers last winter than the Empresses. St. John should not make too much of the cry that Halifax is getting special railway traffic concessions at the expense of the people of Canada. Here you are having a tremendous amount of dredging done at the expense of the people of Canada. We don't have to get people of Canada to dredge out the harbor of Halifax for us. Talk about special concessions. The money which has been spent on dredging here—to say nothing of what will be spent in the future at the expense of the people of Canada—would haul freight for a hundred Empresses between St. John and Halifax."

"The trouble is that neither port is equipped as it ought to be, and there is likely to be serious congestion at both ports this winter. St. John, through its Board of Trade, has adopted a position of splendid isolation. It was a row over the winter port question that caused the St. John Board to withdraw from the Maritime Board. Its position may be satisfactory, but to my mind both ports have more to gain eventually by pulling together than starting fighting."

"According to the statements made by Premier Borden, the agreement between the I. C. R. and the C. P. R. was a business deal, made without the knowledge of the politicians. If the business men of St. John and other cities have made one demand more frequently than another it was that the management of the I. C. R. should be taken out of politics. But the first time the management does something important without consulting politicians, there is trouble."

If you are in need of gloves in either kid, cashmere or wool, go to F. A. Dykeman and Co. They have a variety in all colors and prices in both ladies and childrens. They are selling genuine French kid gloves at 69c. pair. Pailline kid gloves in tan and black at \$1.00 pair. Mannish kid gloves from 75c. to \$1.25 pair. They have also an excellent variety of cashmere and woolen gloves in ladies and childrens sizes, prices ranging from 50c. to 60c. pair.

On and after Saturday next, Oct. 11th, Canadian Pacific Bay of Fundy Service S.S. St. George will be withdrawn. Commencing Monday, Oct. 13th, service will be performed by S. S. Yarmouth, leaving St. John 7.00 a. m., returning leaving Digby 2.00 p. m. Service daily except Sunday.

STEADY ON GOLF LINKS

Members of St. John Club Close Season in Appropriate Manner—Prizes Presented after Tea.

SAVE COPY. Golf enthusiasts spent an enjoyable day yesterday on the local links when Stetson Day was observed by the members of the St. John Golf Club. Yesterday's play marked the close of the season and a large number of club members and followers of the game were present on the links. During the day a number of interesting matches were played. In the morning the ladies' singles were played. At noon luncheon was served and play resumed in the afternoon when the mixed foursomes were played. At the conclusion of the matches five o'clock tea was served at the clubhouse after which the vice-president of the club, Mr. Thomas Mrs. Stetson and officers of the club presented the prizes for the year.

The following is the list of prize winners for the 1913 season: Ladies' championship won by Miss Winifred Barker. Men's championship won by J. M. Magee.

LOCAL KNIGHTS HOME FROM ST. JOHN'S, Nfld.

Members of Knights of Columbus Report Most Enjoyable Visit to "Ye Ancient Colony."

A number of the local Knights of Columbus, who have been in Newfoundland assisting in the exemplification of degree work, before Terra Nova Council, St. John's, returned to the city last night. Of their visit they spoke enthusiastically and reported that the trip had been a delightful one, the Newfoundland Council having made their visit very enjoyable, providing a lavish programme of entertainment.

On Friday night last Past State Deputy W. J. Mahony, of this city, and the members of his team exemplified the third degree to a class of over fifty members. The degree work was the most successful in the history of the Newfoundland Council. The entertainment programme, which had been arranged by a committee under the leadership of Dr. J. F. McLaughlin, met the visitors stay a memorable one. On Saturday evening after the degree work a reception was held for the visitors. An interesting programme was carried out and included addresses by Grand Knight C. O'Neil Conroy, John Barrow, District Deputy, W. J. Mahony and others among the visitors. During their stay the visitors were given motor trips to points of interest in the vicinity of St. John's and were tendered a dinner at one of the summer resorts. They were entertained at the City Club and were extended all possible hospitality. Nothing was omitted by their hosts to make their visit an enjoyable one and the local knights say they cannot speak too highly of the royal manner in which they were looked after by their Newfoundland brethren.

Among those who returned last evening were W. J. Mahony, J. B. Dever, and F. W. Conroy, D. J. Barrett and C. A. O'Connell, who were present at the exemplification, remained over in Sydney en route home. The party after leaving St. John's were delayed for over twelve hours because of a train wreck and instead of getting to Sydney on Tuesday night did not arrive until Wednesday noon. Those who made the trip expressed themselves as delighted with their visit and are lavish in their praise and appreciation of the hospitality of the Newfoundland knights.
