Authoritative Statement Issued Giving Exact Status of Discussions.

ADOPT ALLIANCE TO LEAGUE PLANS

Conditions Upon Which Premier Meighen Agreed to Consideration of Measure.

London, July 4.—(By Grafton O'Leary, Staff Correspondent Canadian Press.)—So much confusion has resulted from conflicting statements as to what has really taken place in connection with the renewal of the Anglo-Japanese Alliance that a statement of the precise position, gleaned from authoritative sources, seems necessary. Briefly, the situation is as follows:

Last July the British Government informed the League of Nations that the treaty with Japan would be adapted to the requirements of the League. That declaration appears to have been accepted by the Dominions, and indeed by the British foreign office as a denunciation of the Alliance. It was with the understanding that Hon. Arthur Meighen, Premier of Canada, entered the conference and made his case against renewal of the treaty. He was under the impression that unless the Alliance was renewed it would lapse on July 13. A curious thing that Lord Curzon and Hon. A. J. Balfour, who preceded the Canadian Prime Minister in statements on that subject were under similar impressions.

Premier Meighen, in fact, interrogated the British secretary for foreign affairs, apparently having some slight doubts about the matter, but present Curzon assured him that the note of the League of Nations constituted a denunciation, and that it was wholly a question of letting the Alliance lapse or entering into a new one. On this assumption, therefore, argument for and against the new Alliance proceeded, and it was not until Friday last, after the question had been under debate for a week, that Lord Birkenhead appeared before the conference and gave the information that the note of the League did not constitute denunciation, and that, therefore, the treaty remained in force another year whether they wanted it or not.

Montreal, July 4.—In the afternoon when the Police Association of Canada met here, W. R. Whistley, chief of Hamilton, Ont., thanked the gathering for the honor conferred in electing him president last year. He said that the closing months of 1920 and the opening months of this year had witnessed a wave of crime which would probably not find example in the memory of the oldest members. The author of this phenomenon, armed youths figuring largely in the criminal exploits. Thanks to their association of chief constables and the earnest co-operation obtaining amongst them, he thought it could be said that the worst was over, at least for the present.

RESUME WORK IN COAL PITS

London, July 4.—There was a general resumption of work today throughout the coal fields, even in Lancashire, where to the last the miners had rejected the terms offered by the owners. Many pits, however, are in bad condition and some are likely to be closed permanently. Many thousands of workers will be unavoidably idle for some time to come, while the mines are being placed in working order.

"WETS" HOLD BIG PROTEST PARADE TWO MILES LONG

Marchers Reviewed by Mayor Hylan in Jersey City in Sweltering Day.

CARRIED BANNERS TO EXPLAIN VIEWS

Only a Few Women and Children Were in Line That Passed Mayor.

New York, July 4.—A great many New Yorkers let the world know today that they bear no love for the eighteenth amendment. Several thousand of them raised a terrible thirteenth trumpeting in an anti-prohibition demonstration, and others packed the sidewalks for more than two miles to cheer them.

It was called a wet parade, and it was wet—soaking wet—with perspiration. The afternoon was one of the hottest of the year, a scorching sun shining down through a humid atmosphere that carried scarcely a whiff of breeze.

Mayor Hylan smiled and sweltered in the seat of honor in the reviewing stand at Madison Square. Each group greeted him with complimentary outbursts as they passed by. The native born addressed him bluntly and impatiently, and every now and then somebody would loudly inquire if "His Honor didn't long for a seahorse of Lager on such a hot day."

Not a few women and children participated in the parade, they were so outnumbered by the masculine marchers, however, that it seemed manifest that the male of the species is more thirsty than his mate.

Carried banners.

Banners urged people to take the parade and the sentiment it represented with seriousness, explaining that the marchers against the eighteenth amendment repealed and the Volstead Act "liberalized," and "furthermore, that they were going to fight for that cause."

When the parade ended, participants and spectators, hot and dry-throated, poured into every available soda fountain to quench their collective thirst with soft drinks.

In Jersey City, too.

Jersey City, July 4.—Several thousand persons paraded along Hudson avenue today in New Jersey's first organized protest against the Van Nuys State Prohibition Enforcement Act.

Three camels were in the line of march. One near the head of the procession was escorted by a score of men. On its back was a caricature of a prohibition fanatic, and on its side a placard reading "this is like the Sahara." "I like drink every eight days, I don't like hooch."

Few of the marchers remained to hear the speaking which followed the parade in West Side Park.

KILLED NEAR MONTREAL

Montreal, July 4.—Two men were fatally injured and a third was severely injured when the Albany-Montreal train of the Delaware and Hudson and Nantawville Jet Railway struck and speared a siding near Napierville, N.B. today.

FIRE'S SWEEP DOWN VALLEY OF GATINEAU

Ottawa and Hull Hidden in Smoke from Biggest Outbreak in Years.

EFFORTS TO PUT OUT BLAZE UNSUCCESSFUL

Many Points Report Fierce Fires Raging in Woods With Forests Like Tinder.

Ottawa, July 4.—One of the largest brush fires that the Gatineau Valley has seen for years started yesterday thirty miles north of Maniwaki and at one o'clock today was still raging uncontrolled.

The smoke from this fire this morning drifted down the entire Gatineau Valley and hung like a haze over Ottawa and Hull. At Chelsea and other points the smoke was reported as being very dense.

Fine at Halifax.

Halifax, N. S., July 4.—Halifax enjoyed the most delightful weather of the season today after several days and nights of showers. The mercury in the thermometers in the heights of Citadel Hill in the heart of the city cooled by a refreshing breeze, could not climb above seventy-three.

IRISH LEADERS IN CONFERENCE

Government Prepared to Make Large Concessions to Secure Peace in Ireland.

Dublin, July 4.—For three hours today the Irish Republican leaders, Arthur Griffith, founder of the Sinn Fein, and four Southern Unionists, Earl Middleton, Sir Maurice Dockrell, Sir Robert Henry Woods and Andrew Johnston, conferred on the Irish situation with a view to preparing the way for possible negotiations with the British Prime Minister and the Ulster Premier, Sir James Craig.

Popular sentiment is very hopeful of peace. This was voiced by the Lord Mayor in a speech at a meeting of the Dublin Corporation after the conference, in which he said that was breaking no confidence in de-Jarzag that such good will would come of it.

In a statement to the Associated Press today, an important official in touch with all sides of the situation, asserted that the Government was prepared to make large concessions, the far-reaching effect of which Mr. De Valera would appreciate. He added that fears that Mr. De Valera would be hampered by physical forces was baseless.

NEWFOUNDLAND RAILWAY LINES

Sir George Bury Makes Report to Government on Their Condition.

St. John's, Nfld. July 4.—Premier Squires, after submitting to the legislature today a report by Sir George Bury, a Canadian railroad authority, upon the condition of the railway system in Newfoundland, announced that he would introduce a resolution tomorrow setting forth the government's policy on the railway problem.

Sir George was asked by the government to conduct an investigation into the situation which has resulted in the refusal of the Newfoundland Railway Company, losses to continue, operation of the system without government aid.

Costs are enormous. He reported that the system from 1904 to the present time had cost to operate five and three quarters million dollars more than the railway had earned.

He said that earnings were falling, and advised against government ownership and recommended that the government contract with the Newfoundland Railway Company to operate the railway for one year, the government agreeing to pay operating losses up to a million and a half dollars and any losses above that amount to be borne by the company. He suggested creation of a public utilities commission with powers similar to those of the Canadian Railway Commission and recommended betterments to the physical structure of the railway.

TYPHOON AT MANILA

Manila, July 4.—A typhoon early today caused heavy damage in Manila and its environs. The city's power supply was cut off and the city was in darkness. Houses were unroofed and several small vessels in Manila Bay driven ashore. Street car service was paralyzed.

Japan is anxious to have Pres. Harding call the naval disarmament conference to discuss disarmament plans.

ASIA

Yokio Ozaki, former Japanese minister of justice, on the conclusion of a 10,000 mile campaign of the Empire in behalf of limitation of armaments a campaign unparalleled in Japan's political history, declared his conviction today that if the United States government proposed a conference on limitation of armaments it would meet with an eager response throughout the length and breadth of Japan.

M. Ozaki, whose achievements have made him the foremost Japanese Liberal declared:

"If the United States government proposes an international conference to discuss restriction of armaments it will surely be the beginning of a solution of all the diplomatic questions between Japan and the United States. If we are unable to prevent the clearly unnecessary wasteful naval competition, how can we expect to solve other irritable and more complicated questions between our two countries? The latter will easily adjust themselves when the former has been settled."

Speaks at Many Places.

M. Ozaki explained that he spoke in almost all the important cities and towns from Kyushu, in the farthest south, to Hokkaido, in the farthest north, and at all places post cards were distributed so that his hearers could vote freely on disarmament.

The final result on the return from these cards, M. Ozaki asserted, showed that ninety-four per cent. favored limitations.

The intense endeavor of M. Ozaki appears to have awakened the nation's opinion on the subject of armaments. The government would welcome a conference on limitation.

All Witnesses in Yarmouth Murder Have Been Heard by the Court.

MANY SWEAR TO FRIENDLY RELATIONS

One Claims He Saw Mysterious Stranger in District Night of Tragedy.

Yarmouth, N. S., July 4.—The case of Mrs. Clara Elizabeth Perry, charged with the murder of her husband, Capt. George Henry Perry, who was discovered in a dying condition a few feet from his own back doorstep on the night of February 26 last, reached its final stage today, when hearing of five witnesses for the Crown and twelve witnesses for the defense concluded the evidence.

Witnesses who testified as to the relations which existed between Capt. and Mrs. Perry were: Rev. H. L. Hisslam, who said that he had found Mrs. Perry a most dutiful woman in her home and that on the day following the tragic death of her husband she appeared to be much distressed, and Clara Perry who told the court that following her parents' separation and subsequent reconciliation, they had "spent their evenings together," and that last October, when she returned home from New Hampshire, she had seen her "father smoking in the house and enjoying himself with his family."

EARLY HISTORY OF ENGINEERING AS YET UNTOLD

Extraordinary Monuments Antedate Earliest Written Records of Man.

CAN ONLY GUESS AT METHODS USED

Ancient Practised on Scale and With Ingenuity Perfectly Astounding to Moderns.

Engineering is a profession so old that it has never been. All the records of its beginnings. When we get back to the earliest accurate historical records and that vague time which we call "pre-history," we find extraordinary monuments to the genius of engineering which have already been standing for centuries. All the records of progress of archaeological discoveries has not brought our knowledge of the pyramids of Egypt, for instance, beyond the speculative stage, yet they are among the engineering marvels of all time. The methods employed in the construction of the Grand Canal of China, the waterway several hundred miles long with seventy-five locks, built thirty centuries ago, can only be guessed at. The prehistoric drainage of Lake Copais by a tunnel four miles long of finished workmanship, penetrating sometimes to a depth of one hundred and fifty feet, is shrouded in mystery. The triliths of Stonehenge, the erection of the Egyptian obelisks, the building of the great monuments recently discovered in Yucatan, Peru and Mexico, the tunneling of the Englishes dug probably four thousand years ago, and countless other examples, prove that not only was engineering exceedingly important in prehistoric times, but that it was practised on a scale and with an ingenuity that is perfectly astounding in the light of our modern knowledge of applied science.

Moderns Stand Aghast

The modern engineer, given the job of building a Cheops pyramid, with all the new methods of modern machinery—drills and dynamite to quarry the rock, railroads and steam navigation to transport it, and cranes to lift it into place—would realize that he was confronted with a problem that would require his most concentrated effort. Imagine his position, however, if you took from him every device based on such simple mechanical movements as that of the wheels and the pulley, all power derived from harnessing the forces of nature, and gave him nothing but the crudest cutting tools, wooden sledges, ropes, the lever and the inclined plane, and the services of one hundred thousand men. He would then be in somewhat the same situation as the engineers of the fourth dynasty in Egypt, who nevertheless performed the feat which has endured from that day to ours through all the growth of our civilization.

Monuments to Genius

The relics of the stone age, the Stonehenge temple, the dolmens, the lake-dwellings of Switzerland, are brilliant examples of the working of the primitive constructive instinct. In these early times we see the constant effort of all the human faculties to live up to the vision of the dreamer. The imagination of the stone-age man worked on a large scale. The dream of the man who conceived the idea of the Brooklyn Bridge, the Eiffel Tower, or the Woolworth Building was nothing in magnitude to the conceits of the sun-worshipper who planned one of the early monuments of the stone age, because the available resources for the accomplishment of his ideal were infinitely less. His tools were rudely cut by stone from stone, while the modern engineer works with steam hammers and drills, the stone-age engineer depended on manpower alone, while we have the fuses of steam and electricity to do our work.

NEED WEATHER WISDOM WHEN CUTTING HAY

Harvesting the Hay Crop in Good Condition Essential to Successful Farming.

There is no operation on the farm so dependent upon weather conditions as that of hay making, and the farmer who can always gather in a crop of juicy fodder, neither too young nor too ripe which will come out of the mow fragrant and palatable, needs to exercise his best weather wisdom with good judgment and lots of snap when the work is rushing.

All grasses and clovers make the best fodder if cut while the stalks, having obtained their largest growth, are yet full of sap. If a large area is to be cut, it will be necessary to avoid some part before it is ready, to avoid having a large quantity of too old and woody fodder to be rashed.

Need Weather Wisd.

In the maritime provinces, where many mornings are apt to be overcast and there may be some doubt as to what the afternoon will bring forth, weather wisdom is especially required and frequently used to advantage. It must be borne in mind, however, that even the official forecasts on the sea coast cannot be as accurate as inland places because no reports are available as to weather prevailing far out from shore; therefore the meteorological bureau only knows what is happening on one side of the district instead of all around it.

In the early part of haying and especially during the first part of a week it is generally good policy to cut down well in advance of the morning strength of the hay crop so that the largest possible quantity of hay may be housed before Saturday night.

Time To Cut

The preferable time to cut grass is after the dew is off until, say, 11 o'clock and again after 4 p. m. When cut late in the evening the grass will be green and the night dew will not blacken it. The new binder cannot be made without cutting the law for one night before it is housed. Very many men are content to leave their hay in windrow, or even lying flat, over night and save all the labour of cutting up and opening out the colla next morning, but such methods may blacken 50 per cent. more of the hay and damage both its palatability and nutritive qualities as well as lower its sale value.

Salvation Army Workers Farewell

Words of Praise for Accomplishments of Adj. and Mrs. Moore Who Leave Here.

In the Salvation Army Citadel last evening a farrow meeting was held for Brigadier and Mrs. Moore who have been in charge of the St. John and Prince Edward Island Division of the Army for two and one half years. Mr. and Mrs. Moore who have been engaged in this work for 38 years, and have been instrumental in securing many workers for the Army, are leaving on Wednesday night to take charge of the East Toronto Division of the Army. The meeting was very largely attended, and from the manner in which the many Salvationists spoke of the Brigadier and his wife, it was very easy to see the warm places that they occupied in the hearts of their co-workers. Many glowing tributes were paid to them, and in a very hearty manner these popular Army people assured their friends that although they were moving to far off fields they would always have happy memories of their stay in this city. Adjutant Owen, Chancellor of the St. John Division, was in charge of the meeting and led in the services.

ADOPT ALLIANCE TO LEAGUE PLANS Conditions Upon Which Premier Meighen Agreed to Consideration of Measure.

(Continued from Page 1) The strongest part of the transaction, and the one exciting most comment in conference circles, is that it now appears that the British foreign office, although holding that its note to the League of Nations constituted denunciation of the Alliance, does not appear to have communicated its understanding of the matter to Japan. As for the resultant position, it is this: the old Alliance entered into in 1902, remains in force. It will remain in force until twelve months after such time as the British Government may serve notice that it desires to terminate it. Will Notice Be Given? Whether this notice will be given, and when, depends largely upon one development, namely, the possibility of a successful conference of the three powers—the British Empire, the United States and Japan—upon the Pacific and disarmament problems.

"TIZ" FOR TIRED OR ACHING FEET

Just put those weary, shoe-crushed, aching, burning feet into a Tiz bath. Tiz is grand, glorious for tortured feet. It draws the swelling and poisonous exudations right out. Stops the pain of corns. Ends torture and puts your feet into perfect condition. Your shoes won't seem tight and your feet will never hurt or get sore and swollen. Think of it, no more foot misery—and you will wear smaller shoes. Get a box of Tiz at any drug store and get inside relief for a few cents. The conference of Prime Ministers is, beyond doubt, in favor of such a conference being held.

Bicycles for Everyone

ANY BOY OR GIRL in the Maritime Provinces can secure a sixty-five dollar "Pathfinder" bicycle, complete with mud-guards, air pump, parcel carrier and stand, with coaster brake, reinforced frame, spring saddle, and in fact everything that goes to make a bicycle complete, and at the same time earn fifteen dollars pocket money, payable in cash.

If there is a boy or girl who does not want a bicycle, any of them may earn a watch or any other prize they desire by the most generous proposition that has ever been made to the young people of the Maritime Provinces.

Pictorial Review is desirous of securing one million additional readers and in order to do so offers the Pathfinder bicycle mentioned above to any boy or girl who will, before October 15th, sell three hundred copies of this popular woman's magazine. Pictorial Review retails at twenty-five cents per copy. Anyone who wishes to enter this competition pays only twenty cents per copy for the magazine and thus makes five cents on every copy sold. To win the bicycle it is necessary that you shall send your money and your order for whatever number of copies of the July issue you may require, to H. V. Mackinnon & Son, P. O. Box 1109, St. John. These magazines will be delivered to you free of charge by Dominion Express. Sell them as quickly as you can and order more. A strict account is kept of all you buy and as soon as you have sold three hundred copies the bicycle will be shipped to you; all charges prepaid. In case you do not desire a bicycle write for particulars about the number you have to sell to secure one or other of the various watches which will be given as prizes. Already boys and girls in different places have sold more than one hundred copies of the June issue of Pictorial Review, and at the rate they are going will have earned their bicycles by the middle of July. Any one can do it!

The generosity of this magnificent offer will be realized when it is remembered that three hundred copies of the magazine costs the competitor only sixty dollars and that the bicycle is worth more than the entire sum paid for these magazines. No such offer was ever made to the boys and girls of these provinces. Do not lose time. You can secure scores of customers this month who will take the magazine from you every month, and in a very short time you will have finished your three hundred sales and be in possession of an up to the minute bicycle. Let us hear from you at once.

SAW NO SIGN OF TROUBLES WITH PERRY

Continued from Page 1. Clara Perry also offered testimony as to the condition of the cellar in the Perry home during her absence there.

Nathaniel Adams, a crown witness who had previously deposed that Perry had suggested that he arrange the steps for the purpose of causing injury to Captain Perry, said she had never known anything about them being disarranged until she read about it in the papers.

Miss Perry said that she had hit her father over the head with coffee pot.

L. J. Roy, Jr. told the court at the time of the separation of Mrs. Perry and her husband he had moved furniture up and down the cellar and had not been warned about condition.

Eleanor Perry, her father's said that she had never been warned about the cellar steps. She did know that her mother had gone to Perry home during her separation from the captain at any time.

Saw a Stranger. Benjamin MacNutt, a neighbor of the Perry's, repeated his testimony at a preliminary hearing as to seeing a man near the Perry home during the evening preceding the murder. MacNutt said he usually sat in his window in the evening "ing tobacco and spitting in the seat and that on the night of the tragedy there was a light in the window of northeast bedroom, but no light in any other part of the house.

Captain C. C. Horner, superintendent of schools in Salem, a Yarmouth suburban district, testified that he visited Captain Perry some time before the murder. Mrs. Perry admitted to be on good terms with her husband.

During the afternoon sitting the tie dog, that was discovered barking and jumping about the almost lifeless body of Captain Perry on the morning of February 25, found his way into court, and making his way to Perry's side snuggled up against black garbed prisoner.

The Morning Evidence.

The crown rested its case this morning after the examination of four witnesses, and R. W. E. Lan, counsel for the prisoner, addressed the jury in his opening remarks. The first witness called by the crown today was Mrs. Adams, wife of Nathaniel Adams, had previously testified that several years ago Mrs. Perry had given wax impressions with which to make keys that would accord him access to the Perry home in order that she might disarrange the cellar steps so cause the Captain to injure himself. She testified that her husband had never told her how or why impressions had come into his possession and that she had asked no questions concerning them. She testified that this explained why she had been kept in a trunk since a state of preservation. She had herself made the wax impressions, writing on the clothes in which were kept, "front door" and "cellar door" was not hers. G. Shible, manager of the Royal Bank of Canada at Yarmouth, testified as a handwriting expert, said in his opinion the two labels had been written by different persons. He said the writing might have been for the

Clara Perry also offered testimony as to the condition of the cellar steps in the Perry home during her residence there.

Nathaniel Adams, a crown witness, had previously deposed that Mrs. Perry had suggested that he disengage the steps for the purpose of causing injury to Captain Perry.

Witness said he had never known anything about them being disarranged until she read about it in the papers.

Miss Perry said that she had once hit her father over the head with a coffee pot.

The morning evidence.

The crown rested its case this morning after the examination of four witnesses, and R. W. E. Landry, addressed the jury preparatory to calling witnesses.

The first witness called by the crown today was Mand Adams, wife of Nathaniel Adams, who had previously testified that eight years ago Mrs. Perry had given him wax impressions with which to make keys that would accord him access to the Perry home in order that he might disarrange the cellar steps and so cause the Captain to injure himself.

She testified that her husband had never told her how or why the impressions had come into his possession and that she had asked no questions concerning them.

She said they had been kept in a trunk and testified that this explained why they had been maintained in such a good state of preservation.

She had not herself made the wax impressions and writing on the clothes in which they were kept, "front door" and "cellar door" was not hers.

G. Shute, manager of the Royal Bank of Canada at Yarmouth, recalled as a handwriting expert, said that in his opinion the two labels had been written by different persons.

He said the writing might have been forged.

Western Unemployment.

Vancouver, B. C., July 4.—The unemployment situation in this city is not improving, according to reports.

Within the past two weeks 4,000 men have registered at the Central Unemployment Bureau here.

The closing of the Whelan Pulp Company, at the end of June, and the shutting down of many logging camps has added to the number of unemployed on the coast.

Start Suit To Collect Sum Due For Niobe

Information Laid in Exchequer Court by St. John Agent of Justice Department.

Ottawa, July 4.—The government has taken the first step in its suit to collect \$115,000 from the New Brunswick Rolling Mills, Limited, of St. John, N. B., which it claims is the balance due on the former Canadian cruiser Niobe and two obsolete submarines, sold to the New Brunswick firm for scrap.

The filing of an information in the exchequer court by the St. John agent of the justice department constitutes the first step in the suit.

The sale of the Niobe came under fire at the last session of parliament when Hon. C. C. Ballantyne was endeavoring to pilot his naval estimates through the house.

Questioned in House.

In answer to questions from A. K. Frapp, member for Ottawa, as well as other members the minister explained that the Niobe and two obsolete submarines had been sold to the New Brunswick Rolling Mills for the sum of \$115,000 but that the purchasing company had paid only twenty thousand dollars of the total amount.

The account had been placed in the hands of the justice department for collection. The sale was severely criticized by members of the house.

Mr. Frapp the minister stated that an Ottawa firm had offered \$100,500 for the Niobe alone. Mr. Ballantyne stated that this, as well as other firms which submitted tenders for the Niobe, had been informed that they might tender on an unconditional basis.

The bid of the New Brunswick Rolling Mills for the Niobe was the highest received, if the figure of \$115,000 for the submarines was accepted as fair.

There was a lengthy debate on the transaction and the minister's estimates were held up for some time.

Supervised Grounds Are Open Now

Playgrounds Now in Full Swing—Capable Staffs in Charge of Each One.

The supervised playgrounds of the city were opened yesterday morning with the equipment all in place for the summer's work and with a large attendance at each.

Miss Heffer, general director expressed herself as having high hopes of an even more successful summer than last. Some trouble was experienced owing to the resignation of several of last year's staff, but this had been remedied and each playground now had a capable staff in charge.

At the Allison playground about one hundred kiddies were taking advantage of the opportunity for wholesome recreation. The equipment here consists of several swings, chutes, and slides, etc. The handicraft work will be started soon.

Those in charge are: Miss Woodrow, director; Miss Agar, play leader, and Mr. Chaisson, male instructor.

At Centennial grounds the staff consists of Miss Simonds, director; Miss Dever, play leader, and Mr. Williams, boys' work instructor. The swings, chutes and other equipment were in great demand. An exciting ball game was in progress under the direction of Mr. Williams. A basketball floor is used in connection with this ground.

The rafta and reed work is also started and the kiddies are making fine progress along this line.

At Aberdeen grounds the work is well under way and a very large attendance was reported. The swings appeared to be the centre of attraction.

Here are Miss Nugent, play leader, and Mr. Holder, male instructor.

At the West Side playgrounds the equipment is somewhat more extensive, as there are a very large number of children in this district. Miss Leontis is in charge here and is assisted by Miss Dever, play leader, and Mr. Crowley, boys' work instructor.

At Alexandra playground Miss Higgins is director, Miss Walsh play leader and Mr. McMurray is male instructor. King George grounds are directed by Miss Eleanor (Miss, assisted by Miss Graman, play leader.

START THEIR EXAMINATIONS.

Fredericton, N. B., July 4.—Almost a thousand students will begin to write the annual departmental examinations which commence tomorrow at fifteen stations throughout the province.

The actual number of applications which have been received is 954, as compared with 905 last year. Of the total number of applications 200 are for university matriculation, 42 for high school leaving, while there are 712 for normal school entrance and 20 for superior licenses.

"First Aid" Boy Saved His Chum

Antigonish, N. S., July 4.—Running to the edge of the "Sandy pool bathing hole," on the Clydevale River, and discovering the apparently lifeless body of his boy chum, Graham Brine, son of R. C. Brine, lying on the bottom, ten year old Adolphus Bernasconi plunged into the water and bringing little Graham ashore in an unconscious condition, effectively rendered first aid. Last year young Bernasconi rescued little Billy McLean, another pal from a somewhat similar predicament. Billy and Graham were bathing in the Clydevale River yesterday when the latter who was unable to swim, got beyond his depth.

Smuts Is Likely To Visit Belfast

Object of His Trip is to Con- ciliate the Nationalist Party.

Belfast, July 4.—General J. C. Smuts Premier of South Africa, thus far has not visited Belfast, although no surprise would be occasioned here if he came. It is believed part of the object of his mission would be to conciliate constitutional nationalist sentiment, which was greatly hurt by the failure—which political leaders here now say was a mistake—today a Nationalist representative, such as Joseph Devlin or John Dillon to the proposed conference in London of Southern and Northern Irish leaders and members of the British Government.

Sir James Craig, the Ulster Premier, and General Smuts are old acquaintances. They fought on opposite sides in the Boer War.

New Wife Makes Hubby Wear Ring

Women, Winning Rights, In- sist Mate Share News.

New York, July 4.—The advent of women into politics, where they serve as congresswomen, judges and jurors, is bringing with it a day when man as well as women shall wear the wedding ring, according to clerks in New York jewelry stores.

With man it has been largely a matter of his own choice whether he wore a ring, the clerks say, but that day is rapidly passing. Along with other equalities women are demanding the ringed finger.

"We are witness to many a case where a young woman literally guides her fiance to the store and buys him a ring," said a Broadway jewelry clerk. "They didn't use to do that. The young man bought his future

UNVEIL TABLET TO THE FALLEN

Memorial Service in St. John's Presbyterian Church at Chatham.

Special to The Standard

Chatham, N. B., July 4.—Sunday was Anniversary Day in St. John's Presbyterian church and was marked by special services morning and evening while in the afternoon the congregation and community generally assembled for the unveiling of a handsome bronze tablet in honor of those who served in the war.

The mayor was pleased to welcome to the pulpit for the occasion the Rev. J. M. McLean of Strathmore, C. B., minister of St. John's church for fifteen years, resigning seven years ago. Large congregations were in attendance and an augmented choir gave fine leadership to the service of praise and rendered appropriate anthems. The special offerings amounted to over \$500.

The Memorial

The afternoon service for the unveiling of the tablet was simple and impressive and attended by many outside St. John's congregation. The mayor and members of the town council, members of the G. W. V. A. and kindred organizations were present, while the other local clergymen and officers in charge. A. Corp. assisted at the service. J. E. Nicol contributed a solo. The address was given by Mr. McLean who spoke of the service our soldier boys had rendered, the memories they inspired and the obligations they laid upon all. The pastor, Rev. J. H. A. Anderson briefly emphasized the nature of the gathering as a family remembrance with love and tenderness. He called upon Mr. McLean under whose ministry most of these boys had grown to manhood to unveil the tablet in their honor. The service closed with the National Anthem. The tablet is a beautiful one and contains the names of nine young men of the congregation who gave their lives and fifty-three who served overseas. The names of the fallen are Herbert Brenner, Roy Dick, Fred C. Gunn, R. Lawrence Jack, John Matthews, Carter McLeod, Arthur Forley, Sanford Savage and Benson Stewart.

DALHOUSIE BOY DROWNS.

Dalhousie, N. S., July 4.—Keys McNeil, aged 18, son of the late Daniel McNeil was drowned at Nouvelle, Que., on Saturday evening while on a fishing trip. An inquest will be held today at Nouvelle and the funeral will be held in Dalhousie on Tuesday.

He is a ring and then had his own way about having one himself.

"Women are objecting on the ground that the ring is a false bearer disclosing whether the person in question is married or not, and it is no more fair that the woman should have to wear one than the man. So the young man finds he must give or give up the girl. You know which they do."

Insane Man Is Drowned At Sea

Eluded His Guardian and Plunged Overboard While Coming from St. John's.

Halifax, N. S., July 4.—Emanuel his guardian, John Beggs, a demented fisherman who was being brought from St. John's to Halifax on the steamer Rosalind, jumped overboard and was drowned, officers of the steamer reported on arrival here today.

Beggs, who had been landed at St. John's by a schooner of the Lunenburg fishing fleet and was being sent to his home in Matamoras Bay, N. S., leaped from the Rosalind's stern as the steamer was passing Cape Race Saturday evening. He disappeared before any help could reach him.

NEW ITALIAN CABINET.

Rome, July 4.—Signor Bonomi, who was entrusted with the task of forming a new cabinet to succeed that of Signor Giolitti, which resigned last week, has constituted the new ministry. Signor Bonomi is premier and minister of the Interior. He will also take the ministry of foreign affairs, until the Marquis Della Torre, to whom the portfolio was offered, has accepted or refused the office. The cabinet is composed of the Centrist elements, Signor Bonomi having excluded both the extreme lefts and rightists and the Nationalists and Socialists.

MEIGHEN UNVEILS CROSS OF SACRIFICE AT VIMY RIDGE

Bravest of the Brave of Allied Army Sleep Together in Little French Cemetery—Premier Pays Glowing Tribute to Bravery of the Armies That Gained Great Victory

Vimy Ridge, France, July 4.—(By Gaston O'Leary, staff correspondent of the Canadian Press.)—Hard by the ruins where stupendous French industry, despite the magnitude of the task, and despite this year's almost unexampled drought, has turned the blasted and bleached surface of the ridge to fresh green of growth, and mellow yellows of an oncoming harvest, Right Honourable Meighen, premier of Canada, this morning unveiled the Cross of Sacrifice, erected in the cemetery where rest hundreds of Canadian dead, who fell at the capture of this famous height, four years ago.

The site of the monument is distinguished. It crowns the ridge and looking west across the valley one sees the white ribbon of the railway, the church at St. Elier. Westward stretches the gentle slope of Douai plain. The cemetery is but one of hundreds dotting the whole countryside, which when they are completed will be the amazing places of pilgrimage and devotion for generations to come. Here lie together officer and ranker, English, Scotch, Canadian, Australian and South African, beneath uniform headstones, under the shadow of Sir Royal Bloomfield's magnificent Cross of Sacrifice, and the massive stone of remembrance, both exquisite in line and proportion, worthy memorials of the immortal dead below it. Some of the cemeteries are completed and when the whole great task is accomplished the result will be one which the British peoples may well regard with pride.

The Ceremony. This morning's ceremony was held while the church bells in nearby villages were summoning the faithful to mass. It was a befitting solemn setting. The number present which included the chairman of the Imperial War Graves Commission, General Sir Fabien Ware, commander of the British troops in France, the French general commanding the Arras division, the prefect of Pas de Calais, the mayors of surrounding towns and villages, and a number of British and Canadian visitors stood with bare heads as Premier Meighen, who spoke with more emotion than is his wont, delivered the oration.

Premier's Address. His address which was afterwards repeated in French, follows: "The great war is past; the way that tried through and through every quality and mystery of human mind and might of human spirit; the war that closed, we hope forever, the long story of the arbitrament of man's differences by force. "The last clash and crash of earth's millions is over now. There can be heard only the sporadic conflicts, the moan of prostrate nations, the cries of the bereaved and desolate, the

struggling of exhausted people to rise and stand and move onward. "We live among the ruins and echoes of Armageddon. Its shadow is reading backward into history. "At this time the proper occupation of the living is first to honor the dead, next, to repair the havoc, human and material that surrounds us, and, lastly, to lean aright and apply with courage the lessons of the war. "Bravest of the World. "Here in the heart of Europe we meet to unveil the memorial to our country's dead. In the earth which has resounded to the drums and the clappings of many conquests, these rest in the quiet God's acre, with the brave of all the world. At death they sheathed their hearts' sword of devotion and now from oft-stricken heads they hold aloft the Cross of Sacrifice, mutely beckoning to those who would share their immortality. "France lives and France is free, and Canada is better because she did something worth while to help free France to live. In many hundreds of plots throughout these hills and valleys, all to way from Flanders to Picardy, lie fifty thousand of our dead. Their resting places have been dedicated to their memory forever by the kindly and grateful heart of France, who will be tended and cared for by us in the measure of love we bear them. "Around and over all are being planted the maple trees of Canada. In thought, her sons will root the better under the trees which they know so well in life. Across the leagues of the Atlantic the strings of our Canadian nation will reach through all time to these graves in France. We shall never let pass away the spirit bequeathed to us by those who fell—their name lived forevermore."

Obituary

John Treacartin. The death of John Treacartin took place yesterday morning at his home, 371 Lancaster street, from heart failure. He leaves his wife, and six sons, Thomas, William, Frank, Larry, Samuel and Allan and one sister, Mrs. Alice Herven of Boston, Mass. He had been employed for some years on the C. P. R. The funeral will be on Wednesday at half past three o'clock.

Mrs. Edmund Walsh. Mrs. Cecilia B. Walsh, wife of Edmund Walsh died in Carney Hospital, Boston Sunday after an operation for appendicitis in the 32nd year of her age. Mrs. Walsh who was the daughter of Mr. and Mrs. Thos. Graham of West St. John, leaves to mourn her sad loss her husband, three sons and one daughter, parents, four sisters, two brothers. The funeral will be held from her father's residence, 160 Queen St. West, on Wednesday morning at 7:45 to the Church of the Assumption.

Mrs. George Debeck. Vancouver, B. C., July 4.—Mrs. Geo. Debeck, believed to be Canada's oldest woman, and who celebrated her 107th birthday on Monday last, died at her home at Marpole, near here Friday. She was born at Canterbury, N. B. June 27, 1814, her maiden name being Elizabeth Dow. She came to British Columbia in 1866. She was the mother of twelve children and she leaves several grand children.

A Matter of Looks. A homely young English chap having his view obstructed by the headgear of the girl in front of him, ventured to protest. "See here, miss," he said, leaning over, "I want to look as well as you."

"Monohan" House On City's Hands

Traffic Cop Needed at Corner of Brindley and Waterloo Sts. Says Commissioner.

The rescinding of the order in council selling a house to J. J. Goldie was the only business transacted at the committee meeting of the Common Council yesterday morning. Some other matters were brought up but no action taken. Commissioner Bullock reported that he had received from Jas. J. Goldie a request that the deposit paid on the purchase of the "Monohan" house be returned and the sale declared off as there was no driveway to the back of the property, and recommended that the request be complied with and the order in council of February 21 for the sale of the property be rescinded.—Carried.

Convict Is Victim of A Cruel Fate

Escaped 15 Years Ago, Reformed, Married and Prosperous; Again in Toils. RECOGNIZED BY SECRET POLICE. Refuse to Listen to His Plea and Take Him Back to France. Paris, July 4.—Two months ago Ferdinand Barlier was the proprietor of a big automobile business on one of the main streets of Rio de Janeiro. Upon one of the hills, back of the harbor, he owned a handsome white house, where he lived happily with his wife, daughter of a rich Rio merchant, and their three children. He was a member of leading clubs and commercial organizations, and was widely known and respected. One day a member of the French secret service met him on the street and recognized him as the man who, sixteen years before, had been sentenced by the tribunal at Paris to 20 years' hard labor after his conviction as the chief of a gang of robbers. He had been sent to French Guiana, and fifteen years ago had been listed as "disappeared."

Arrested and Sent Back. Two secret service agents investigated the case. It was found that, after almost unbelievable adventures, he had escaped from the French prison colony, and had found his way to the Brazil capital, where he had changed his name, reformed his ways and made a place for himself. But the regeneration of Barlier did not appeal to the secret service men, who went to the French Consul in Rio de Janeiro and asked for the arrest of the prosperous merchant as an escaped convict. Taken to the consulate, Barlier protested that he had paid for the error of his ways, and pointing to his wife and children, asked to be set at liberty. In vain he appealed to the Brazilian authorities, but the treaty of extradition left no course open to them except to comply with the demands of the French police. Yesterday, alone except for the man who had arrested him, Barlier arrived at Marseilles on board the steamer Formosa. This afternoon he arrived in Paris, his two policemen and was locked in a cell not far from where he robbed a jeweller's store sixteen years ago.

Weddings

Carle-Wightman. A very pretty wedding took place at the Methodist Church, East Florenceville, on June 28, when Miss Dorothy Wightman of that place became the bride of Frederick H. Carle, also of that place. The bride was given in marriage by her father, Rev. F. A. Wightman, who was also the officiating clergyman. She looked charming in a dress of white liberty satin with pearls and wore the conventional bridal veil and carried a bouquet of a shower bouquet of roses and ferns. The church was beautifully decorated with roses and palms by the kind friends of the bride. Miss Stella Hunt, of the bride's party, carried the choir of which Miss Wightman had been a member since coming to East Florenceville four years ago, sang "The Voice that Breathed O'er Eden." After the ceremony a reception was held at the home of the groom to which only the immediate relatives attended. The bride's going away costume was white with tulle and well matched and a beautiful marriage, the gift of the groom. Much happiness is extended to this popular young couple by all.—Carleton Observer.

Cossacks Are Not With Turk Forces

Mustapha Kemal's Envoy Also Says No Germans Are With the Army. Paris, July 4.—In an interview with your correspondent today, Bekir Samy Bey, envoy of Mustapha Kemal, Turkish Nationalist chief, disposed of the persistent report that Trotsky had sent Cossacks to fight with the Turks by saying there was not one Cossack or any other Russian soldier in the Turkish army. He stated further that Kemal was using no artillery from Russia. Samy Bey added that it was not true that Kemal's forces were directed by German officers. He said that Kemal's army had not one German officer. He repeated that Angora had no alliance with Moscow, but the relations were friendly. Samy Bey had no explanation to make of the delay in starting the Greek offensive. He believed Kemal would have no trouble in dealing with the Greeks. Kemal's envoy emphasized his statement that Kemal has no desire to bring the active opposition of the Allies against him. He indicated thereby that Kemal would make no effort, at this time at least, to capture Constantinople from the Allied troops. He pointed out, however, that the possession of Constantinople as the seat of the Nationalist government was part of the Kemalist programme. Bey had a talk yesterday with Premier Briand and today Deleale, aide Arif Bey, member of the Turkish

False Claims.

WE hope there is no Mother who thinks she can treat her sick baby without calling in a Physician, or with remedies that she uses for herself.

Most Mothers know that Baby requires remedies especially prepared for babies, yet there are some who think that what is good enough for them is good enough for Baby, and it is to these Mothers we appeal to give nothing to their babies that is not specially prepared for babies or recommended by their Physician.

False claims may kill, but false claims can never restore your child. For over thirty years Fletcher's Castoria has been aiding in the reduction of the deaths among infants as Mothers have become more and more acquainted with it. Always keep it in the house.

Are You Prepared? A doctor in the house all the time would be a good idea. Yet you can't afford to keep a doctor in the family to keep baby well or prevent sickness. But you can do almost the same thing by having at hand a bottle of Fletcher's Castoria, because it is a wonderful remedy for indigestion, colic, feverishness, fretfulness and all the other disorders that result from common ailments that babies have. Fletcher's Castoria is perfectly safe to use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Children cry for Fletcher's Castoria, and mothers recommend it because they have found it a comfort to children and a mother's friend. If you love your baby, you know how sweet it is to be able to help baby when trouble comes. You cannot always call upon a doctor. But doctors have nothing but good to say of Fletcher's Castoria, because they know that it can only do good—that it can't do any harm—and they wouldn't want you to use for baby a remedy that you would use for yourself. MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

St. Andrews By-Sea Booming

Busy Times at This Charming Summer Resort—New Water System Being Installed.

St. Andrews has been stirred to its deepest depths by the happenings of recent days, remarked a visitor who motored up from that charming summer resort yesterday.

Of late—due no doubt to the fact that most of the sardine weirs of the locality are not open for fishing—many schools of sardines, pollock, codfish, hake and other fish have appeared in Passamaquoddy Bay.

On the morning of Dominion Day, three immense whales steamed in from the Bay of Fundy and burst upon the beach.

While these were very interesting incidents, the subject that has evoked the greatest interest among the townpeople is the progress that is being made by Grant & Co., contractors of St. John, in providing the town with a water system.

The Bank of Nova Scotia is having the construction of concrete foundations for which were laid by Grant & Co. of St. John. The superstructure is being built by a Toronto contracting firm.

An extension is about to be made to the marine biological station building. This contract has been awarded to Boone & McDonald, contractors of St. John.

On Friday, Engineer Bennett, of the Public Works Department staff, was in St. Andrews to make an inspection of the work under way.

The summer business has opened under very favorable conditions. The C. P. R. hotel Algonquin, under its new manager, Mr. Brennan, has a large number of guests.

Moncton Man Says He Spent Hundreds of Medicines That Did Him No Good.

"It's a fact a few bottles of Tanlac did me more good than all the medicines I took in seven years put together," was the emphatic statement of Elie Cormier, 740 Main street, Moncton, N. B.

"First and last I spent hundreds of dollars on medicines and treatments that, with the exception of the little I paid for Tanlac, was money thrown away."

Dempsey Saw Fight Pictures

Blows in Second Round That Made Him Stagger Were a Surprise to Him.

Jersey City, N. J., July 4.—Jack Dempsey, still the heavyweight champion of the world, celebrated the 4th of July in addition to celebrating his victory over Georges Carpentier, the European challenger, Saturday. Dempsey plans to remain in this vicinity for several days, when he will go to Salt Lake City, his home, for a vacation and rest from his long training grind. The champion yesterday saw motion picture theatre that was showing pictures of the great encounter. He had in a back seat alongside of Jack Kearns, his manager, and Mike Trant, the Chicago detective sergeant, who has been his lodging to be watched the punch that enabled him to retain the championship.

Dempsey Swayed.

He also saw the pictures that in the second round caused the mass of humanity in the great arena to gasp in the belief that the blonde French boxer was to make good his threat to carry the title across the sea. Dempsey saw himself better and swayed as the Frenchman sent those punches to his jaw. Perhaps not until he saw the picture did he realize just how near he had been to dropping to the canvas. He declared the blows had not bothered him. As Dempsey saw himself on the screen inflicting punishment upon his lighter opponent his eyes sparkled and he leaned forward eagerly and uttered an exclamation of admiration for the way Carpentier gamely came back. "He did take it, Mike, now didn't he?" whispered the champion to Trant, and his husky bodyguard assented with: "He did that, Jack, he did that."

Carpenter All Right.

Manhasset, N. Y., July 4.—Georges Carpentier, his right arm hanging by its side, joined in flag raising, fire cracker salutes and other Fourth of July ceremonies. He was accompanied by a number of guests came to camp for the day. Carpentier laughed and talked with them and assured them that he was all right. He said he had a right hand was not so painful. The guests brought a large supply of fireworks with them to be used in a great demonstration after midnight.

Close Finishes, Fast Time and Largest First Day Crowds Featured the Curtain Raiser

North Randall, Cleveland, O., July 4.—The grand circuit horse racing season of 1921 was inaugurated at North Randall today under the most auspicious conditions. Close finishes, fast time and one of the largest first day crowds marked the opening. One track record went by the boards in winning the Edwards' stake for 2000 paces, the feature event on today's card. Prince Loree, the double galloping champion of the world, won the second heat in 2:02 3/4, half a second faster than the previous record for the stake established by the Game of Chance in 1918. The last quarter was covered in 12 seconds, a full second faster than the first.

Two-base hits by White was a feature of the game, while St. George's only got three hits off Logan in a seven inning game.

Nashwaak Indians Win Over Simms

By Score of 7 to 4 in Baseball Classic of Industrial League Last Evening.

The Nashwaak Indians defeated Simms 7 to 4 last evening in the Industrial League. The first two innings were scoreless and there was but one hit allowed by each pitcher. Simms' first three men up in the next session were retired, and when the Indians came to bat Carvee started a batting rally which continued till the help of a bad error or two. It netted them six runs. Simms' big inning was the sixth. Allen got to first on an error by O'Toole, the Indian's shortstop, and Pirie and Hogan hit safely. All three crossed the plate. SPANISH LABOR PARTY ORGANIZE REIGN OF TERROR

Five Frenchmen Murdered in the Barcelona District.

GERMANS REMAIN WITHOUT MOLESTATION

Citizens Are Panic Stricken—Officials Powerless to Protect Populace.

Paris, July 4.—An amazing reign of terror in Barcelona and the surrounding region, in the course of which five Frenchmen were murdered by gunmen of the Spanish labor party, will form the subject of an interpellation in the near future by Deputy Emmanuel Brousse. He will ask the Government, the Matin says, to take steps to insure the protection of the lives and properties of French citizens in Spain, in view of the impotence of the Spanish authorities.

The interpellation will be none the less urgent because German industrialists have been wholly untroubled by what looks like an organized campaign of murder.

A typical case occurred early this month. Francois Lefevre, the French manager of a metallurgical concern in Barcelona, had occasion to dismiss a 25-year-old employee, a Spaniard named Porch. A week later, at eleven o'clock in the morning, while work was in full swing, Porch walked coolly into Lefevre's office and shot him dead in front of his terrified clerks and secretary. Porch then departed without molestation and no attempt to arrest him has been made. Four other French industrial managers have been murdered in Spain for equally trivial reasons in the last two months without anyone having been arrested, and twelve others have been forced to leave the country by threats of a similar fate.

Protection Refused.

Not long ago the French consul had a delegation from the Chamber of Commerce demanded protection from the military governor of Barcelona. General Anido, who is alleged to have replied that it was all he could do to protect his own life from labor malcontents.

His civil colleague, Mayor Domenech, was not even successful to that extent. A fortnight ago, while driving his automobile in the principal street of Barcelona, he was surrounded by a group of workers and made the target of a hail of bullets, one of which passed through his body and he is now lying between life and death.

The following day three well-known syndicalists were unexpectedly released from Montjuich prison, where they had been held since the first of March. On their way home all three were shot dead by persons unknown. Their labor comrades attributed the killings to notice reprisals, with the result that death warnings have now been received by the majority of the municipal authorities and the principal businessmen.

A state bordering on panic prevails among the population, as is illustrated by an incident which occurred outside the Lyceum Theatre, in the main street of Barcelona, a few days ago. The engine of a motor cycle, suddenly ravened to a series of loud explosions. Immediately there was a mad rush for shelter on every side. Cafe tables and flower stalls were upset by the panic-stricken mob. The increased confusion, to which the civil guards and carabinieri put the finishing touch by firing their rifles and revolvers indiscriminately in all directions.

Crew in Irons.

New York, July 4.—The Texas Company tanker, Harvestar, has arrived at Bayonne, N. J., with several Mexicans in irons, who will face a charge of felonious assault and mutiny.

Just before the ship left Port Labor, Mexico, there was a battle of axes against rifles, the axes wielded by the men and the rifles by Captain Hilliard Hillbrook and the first assistant engineer, Andrew M. Greve.

The mutineers crept upon the two officers with their weapons, but were discovered before they got within striking distance. The officers fired at the ugly crowd, wounding one man.

The sailors succeeded, after backing the captain severely, in disarming the officers, but Greve in the confusion, regained his weapon and used it so effectively that he backed them into the brig, while Hillbrook handcuffed them. Then the door was locked.

Other officers on shore leave returned to find the two men unconscious from loss of blood. The sailors had not been able to escape, however.

IN FOR REPAIRS.

Halifax, N. S., July 4.—With boiler trouble, the American steamer Secacrafta, New Orleans for Plymouth and London, put into port today for repairs.

ANTRIM FLOATED.

Sydney, N. S., July 4.—The British freight steamer Lord Antrim, which went ashore in a dense fog at Bay St. Lawrence, Sunday evening, was successfully floated off under her own power at six o'clock this morning.

The captain says her fore part took the ground gently and was resting upon a bed of sand. He does not think any damage was done. The ship is steaming to North Sydney where a diver will examine the hull.

PREACHER WAS COOL.

Montreal, July 4.—Although clerical dress has never been popular in the Baptist churches, and many of the pastors have refused to wear the Oxford collar or the "white choker," the fact that Rev. Dr. O. C. S. Wallace accented the pulpit of Westmount Baptist Church yesterday clad in a Palm Beach suit and wearing a soft collar, gave rise to no little speculation as to the propriety of the act.

No, Indeed!
