SALE-TWO STORY BRICK,

The tendency in prices of all manufactured goods has for years been steadily downward. In most lines the quality has gone down with the price. The public has gone bargain mad.

We deplore the fact that this spirit has invaded the fine arts—and people are buying pictures, books and musical instruments at "so much a square yard." But there is no royal road to true culture. A highly artistic musical instrument cannot be made by the "hit or miss" process, and sold for a trifle. A good plano is the result of painstaking, intelligent effort, and costs a fair price. It is cheaper at a fair price than cheap stuff is at a trifle.

THE NORDHEIMER PIANO represents the highest possible standard of merit at the lowest possible cost. Not a dollar put in for the non-essentials, and not an essential left out. A full assortment of these artistic planos always on exhibition in our warerooms. Sold on easy payments.

#### NORTH MIDDLESEX SOLID TOUGH ON THE TAILOR It is pretty tough on the tailor when on comparing his suit with one of the ready-made kind you cannot tell the difference. If we cannot make a suit which you will admit outclasses anything but the highest perfection in FOR ROSS AND PROGRESS

Enthusiastic Liberal Raily at Ailsa Craig.

Premier Addresses a Large and Influential Gathering.

Speeches by Mr. W. H. Taylor, the Candidate, and Others-Victory Is In the Air.

It needed but the enthusiasm and devotion engendered by a visit from Middlesex's honored and loved son, Hon. George W. Ross, to insure that the staunch north riding should, to use the premier's own phrase, follow the good Presbyterian doctrine of the perseverance of the saints, and not fall from grace in the coming fight. The premier's visit to Ailsa Craig was not a mere political event, it was a literal homecoming, for there he was within a few miles of where he first saw the light of day, there he had, as he him-self expressed it, been a boy with the other boys; there he had later taken his part in the life of the country and had done his duty as a citizen; and there (and his voice thrilled with pride as he told of it) he had labored with his hands, in the sweat of his brow, and he had tried to do it well. Little wonder the hearts of the leal men of Middlesex went out to him who had been to them in turn playmate, instructor, fellow-citizen, respected legislator, honored statesman and loved leader. Little wonder that every hamlet gave its quota to swell the throng that cheered the premier's utterances and promised him, in no uncertain tone, that North Middlesex would again send to support him a man who has done good work in the past, and who is ready and able to do still better service for his constitu-

ents and the province at large.

The premier reached Ailsa Craig at noon yesterday by the west-bound G. T. R. express. On alighting he was welcomed by Mr. W. H. Taylor, exexecutive of the association. Mr. Ross greeted his old acquaintances heartily, and the vigor with which he returned their hand-clasps was a good omen that his virile nature is still proof against the fatigues of a hard-fought

campaign. While the premier was being escorted to a carriage, the Ailsa Craig band played an inspiring march, while Piper Wilson, of St. Thomas, struck up a Highland air that stirred the Scotch blood of the stalwarts present. The premier was heartily cheersent. The premier was heartly cheered as he drove away along the main street of the village, which was gaily decked with flags and bunting, while streamers suspended across the street bore varying legends, among them being: "Welcome," "Middlesex is Satisfied," "Stand by the Prosperity Government," and "Unity, Peace, Friendship and Fraternity."

ship and Fraternity.' Premier Ross was entertained at luncheon by his nephew, Dr. A. J. Anderson, at the latter's pretty residence. Other guests present were, Dr. J. Gunn, Mr. Will Ross, Jos. Rosser

and Sam R. Gillies. As the time drew near for the afterstreets kept increasing, and every road was carried out to sea. Then on the Biddulph, from Adelaide and from Mc-Gillivray. Strathroy, Parkhill, Dashwood, Crediton, Denfield, Lucan, and many other places, each furnished a contingent that went to swell the assemblage that gathered to do honor to Ontario's gifted premier.

The Big Meeting. At 2 o'clock a procession was formed, headed by Messrs. James McFarand Piper Wilson followed, and after them came the premier and the prominent Liberals of the riding. Some hundred or more enthusiastic members of the rank and file completed the procession. After traversing the principal streets, the procession reached the skating rink, a commodious building, which proved well adapted for the purpose for which it was used yesterday. It had been hung with flags, and the mottoes "Vote for Taylor," "Develop New Ontario," were displayed above the platform. The ladies were admit-ted by a side entrance so as to avoid the crush, and they occupied the front seats in large numbers. The interest and enthusiasm they displayed throughout the proceedings were an evidence that if woman suffrage existed in North Middlesex the Liberal M.P.P., the popular candidate for re-election; Dr. J. Gunn, secretary of the North Middlesex Association; Dr. A. J. Anderson, and other members of the at least 1,500 souls gathered in front of the platform. The premier's entrance was the signal for a fresh outburst of

cheering, which did not subside until the big gathering had given full vent [Continued on page 2.]

#### Mont Pelee Still Continues in Eruption

The Panic-Stricken Islanders Are in Danger of Starvation.

Several Thousand Persons Rescued, But Scarce a Score Escaped From St. Pierre-Most of the Buried Corpses Consumed by the Burning Lava.

Fort-de-France, May 13.-Mont Pelce is still in eruption, and violent and disastrous eruptions may yet follow. The central and southern parts of St. Pierre are still burning. The country side is deserted. Every family on the island is mourning the loss of relatives or friends.

PATH OF THE FIERY TORRENT. The path of the volcanic torrent, which swept over St. Pierre, is marked out in a strange manner. The vicinity of the shore where vessels anchored has been swept by a whirlwind of volcanic gas, which ripped, tore and shattered everything in its passage, but left few traces of cinders behind. On the other hand, the fort, center and adjoining parts of St. Pierre are buried under a thick bed of cinders, which consumed everything beneath it.

G. Morris, of New York, of the Roraima, the Quebec steamer destroyed in St. Pierre harbor, who are at the military hospital at Fort-de-France, say vessel arrived at six. As eight bells was struck a frightful explosion was heard up the mountain. A cloud of fire, toppling and roaring, swept with lightning speed down the mountain side and over the town and bay The Roarima was nearly sunk and caught fire at once. "I never can forget the horrid, fiery, choking whirlwind which enveloped me," said Mr. Consul Printis, his wife and two Evans. "Mr. Morris and I rushed below. We were not very badly burned, not so bad as most of them. When of still blazing ruins. Nor has any the fire came we were going to our posts (we are engineers) to weigh anchor and get out. When we came up we found the ship all afire aft, and fought it forward until 3 o'clock, when the Suchet came to our rescue. We were then building a raft."

Ben Benson, the carpenter of the Roraima, said: "I was on deck amidship when I heard an explosion. The captain ordered me to up-anchor. I got to the windless, but when the fire came I went to the forecastle and got 'duds.' When I came out I talked with Capt. Muggan, Mr. Scott, the first officer, and others. They had been on the bridge. The captain was horribly burned. He had inhaled flames, and wanted to jump into the sea. I tried to make him take a life preserver. The captain, who was un-dressed, jumped overboard, and hung on to a line for a while, then he dis-

#### APPALLING SOUNDS.

James Taylor, who was one of the officers of the Roraima, says: "We experienced the greatest difficulty in getting into port. Appalling sounds were issuing from the mountains behing the town, which were shrouded in darkness. All the passengers were up, and some were trying to obtain photographs. Suddenly I heard a tre-mendous explosion. Ashes began to refugees continues incessantly. When the cable repair ship Pouyer Quertier (Captain Thirien) started on her on us. door and dragged him into the room. It soon became unbearably hot, and I went on deck. All about were lying

He was in dreadful agony, and kept begging piteously to be put on board his ship. Picking up some wreckage and a tool chest, I and some others who joined me succeeded in forming a rude raft, on which we placed the captain. Seeing an up-turned boat, I asked one of the five to swim out to it, and bring it over, so that Captain Muggah might have an opportunity to live. An evidence of the swiftness of the onslaught of fire is found in the fact that none of the victims was blinded, although the eyelids of most of them are nearly burned through. NO TRACE OF THE CONSULATES.

FINANCIAL HELP.

The Martinique fund at Paris now amounts to 100,000 francs (\$20,000). King Victor Emanuel contributed 25,000 liere (\$5,000) to the fund. The government of the Netherlands has ordered the Dutch warship Koningin Regentes to proceed from the Island of Curacoa (Dutch West Indies) to the Island of Martinique at full speed, in order to assist sufferers from the Mont Pelee outbreak.

AMERICAN RELIEF. Washington, May 14.-The president has appointed a committee to receive funds for the relief of the sufferers

from the recent catastrophe in Martinique and St. Vincent. In the senate, Mr. Cullom, from the committee of foreign relations, reported a joint resolution appropriating \$500,000, including the \$200,000 already appropriated, to be expended under direction of the president in such manner as will most promptly and efficient-

had no reason to fear Harris and he "I've come to ask you to return to me. Alice," Harris said, stepping close beside his wife.

The girl did not answer, and Harris, who had observed the buggy which was standing in front of the house, at once flew into a jealous rage. "You are going riding with some other man," he exclaimed. "I will not allow it. Will you come home with

#### Mr. W. H. Taylor ex-M. P. P.

The warmth of Mr. Taylor's recep-tion was a convincing token of the satisfaction evoked by his course in parliament, and a happy augury of Premier Ross: the result of his campaign. The young men no longer go to the United States to make a living. They go to New Ontario and found homes for themselves and their descendants. Railways are being built to open up the country and the tide of settlement is following the railways. The opposition's policy had been a different one. When the government undertook to bonus the Algoma Central Railway, the opposition strenuously opposed it. Yet the road has already given a great impetus to the settlement of Algoma, and has assisted greatly in the building up of Sault Ste. Marie. Since then the leader of the opposition has supported a similar bonus to the Manitoulin and North Shore road, thus showing that he must have become convinced of the wisdom of the government's policy.

Mr. Taylor then referred to the opposition charge that the government had been

> Mr. Taylor expressed his pleasure at the cordial support he was receiving in his campaign, a feeling which he attributed more to the high regard and honor in which the premier is held than to whatever merits he himself possessed. The Conservative candidate's stock argument in North Middlesex seemed to be that it was time for a change in both the government and the representation of North Middlesex. In respect to the former contention Mr. Taylor thought it would

Mr. Taylor said, however, that he was sure on the night of May 29 North Middlesex would again show itself a loyal supporter of the Ross Government-the best government Ontario had ever had.

#### Mr. Valentine Ratz, ex-M. P.

After Piper Wilson had contributed an inspiring air on his pipes, the chairman called upon Mr. Valentine Ratz, ex-M.P., for North Middlesex, to address the meeting. Mr. Ratz was heartily applauded on his rising. After paying a high tribute to Mr. Ross' ability as a leader and his worth as a man, Mr. Ratz went on to speak of New Ontario. He pointed out that it was due entirely to the efforts of the Liberal Government at Toronto that this magnificent country was secured to the province, as the Conservatives would have wrested that domain from Ontario's control. Can anyone place a finger on any grievance and say truthfully that the govern-ment is to blame for it? All the separate school grievances, those of the Patrons, the business men, the agriculturists, all the grievances of every race and creed, have been settled, and today there is only prosperity and contentment from Glengarry to the Lambtons, from James Bay on the north to the great lakes on the south. Of course, we do not claim all the credit for the government. The government and Providence have been working together, that is all. The government has been working with foresight and intelligence-working for the laboring men, the farmers, and for all the people. Where the people enjoy absolute protection of rights under the law, where the government is administered with the object of securing the peace and comfort of the home, there

and it is this IDEAL OF GOVERNMENT that the Liberal administration in On-

tario has striven to attain. The legislation which does not seek to lighten the burden of the toiler and restrain the strong from encroaching on the weak, is not government in its highest form. CAREFUL AND ECONOMICAL.

Continuing. Mr. Ross said the government had endeavored to give careful and economical administration of the affairs of the province as was possible. Such an administration is necessary in a province whose total revenue per year is only about \$4,000,-000. In order to set at rest Conservative charges of extravagance and the non-existence of the surplus, Mr. Ross said he had, on assuming the premiership, had a royal commission appointed, composed of three leading finan-ciers, to audit the finances of the province. This commission found that on Dec. 31, 1899, the province had to its credit over and above all liabilities, a surplus of \$2,268,494 44. Today that surplus totals over \$2,571,000. The exinstence of this surplus has been admitted by Mr. Miscampbell in his re-cent speech at Sault Ste. Marie.

ONTARIO'S EXTENT.

"Do you realize the magnificence of the heritage we have in this province?" asked Mr. Ross. "A province which is 39 out of every 40 who get those six farther from end to end than the distance between John O'Groats and Land's End, a province more than thrice as large as England, Ireland, Scotland and Wales together, a province of which only one-tenth is settled! Mr. Ross then spoke of the government's saw-log policy, by which the logs which formerly went to Michigan, are now sawed in Canadian mills on the Georgian Bay. This meant that Canadian pork and beans, butter and cheese and flour, went to feed the 1,800 employes of these mills, while adian goods clothed them. [Continued from page '.] wisdom of the government's policy, which aims at

PROVIDING EMPLOYMENT for the sons of Ontario. The govern-ment's pulp policy was based on the same principle. The granting of seven pulp concessions means the investment in Canada of \$5,000,000 of United States capital, and the employment of 2,500 hands. It means the saving of the forests from fire and their conversion into money. It means employment and aid for the settler. When East Wil-liams was cleared of forest, what became of the timber, which today would be worth money? It was rolled into great heaps and burned. What an aid it would have been had there been railways to transport it and factories to manufacture it into furniture and other wares? The New Ontario settler gets his land; he sells the spruce on it to the pulp mill, and then he sells the products of his farm to the mill hands. Canadian railways haul the wood to Canadian mills, there to be made into

WOULD GET A VERDICT. "If I could get twelve fair-minded Conservatives to act as a jury here today," said Mr. Ross, "I could get a verdict from them in favor of our pulpwood policy as a most praiseworthy, businesslike one. Get away from partisanship, look at the matter as Canadians, and you will acknowledge that the policy is a good one!" Speaking of the government's mineral policy, Mr. Ross said that though the center of the iron and steel trade had moved from England to the Unit-

ed States, there may soon be

ANOTHER MOVE, to the north side of the border. Five years ago no pig iron was smelted in Ontario. Last year 140,000 tons were turned out from four smelting works. Two years ago no iron ore was taken out in Ontario. Last year 230,000 tons came from Mr. Clergue's Helena mine. Two weeks ago at Sault Ste. Marie. the premier said he saw 600 tons of Canadian pig iron manufactured into Bessemer steel; last week that steel became steel rails, the finest ever made in Canada, and all through the enterprise and forethought of the Ontario

Government. BEET SUGAR INDUSTRY. Struck by the fact that Germany and France made each year £10,000,000 worth of sugar, said the premier, he had had the subject investigated, and found that Ontario-grown sugar beets were better than even the European article. With valuable assistance from Mr. Taylor, a bill was passed eighteen months ago to bonus the sugar beet industry, and the result is seen today in four factories, with others contemplated, and room for many more. The development of the industry means the opening of a new source of revenue for the farmer, the employment of many who could not otherwise find suitable work, the investment of half a million capital in each factory, the improvement of stock by the feeding of the factory refuse, and finally the securing of the complete independence of On-

tario in the matter of food products. GOOD ROADS MOVEMENT. Then the government had done something for the highways of old Ontario. "In 1864," said Mr. Ross, "I built the little house at the rear of this building, and I built it well, and it's standing

there today. Well, I had to bring the lumber from the old Sylvan mills, several miles away, and I tell you the For Ross and Progress roads were very bad. They're better now." The government determined to apply \$1,000,000 to the improvement of roads. Mr. Whitney opposed the plan. Now Simcoe county is to improve 370 miles of roads, and Hastings county is to improve 300 miles. Welland, Wentworth and Wellington will all probably take advantage of the government's offer. It looks as though every dollar of the million would go, "and they're welcome to it," said Mr. Ross. One of the most enthusiastic supporters of the bill was Mr. Taylor, and he suggested A SLUGGISH. some important changes, which were

incorporated in the bill. WISE AND FARSEEING. Mr. Ross then referred briefly to the imposition of the tax on corporations, the passing of the succession duties act, the large expenditures on charity, education and agriculture, the endeavor to secure remount stations, the building of the London Normal School and the Strathroy Dairy School. and other enactments and undertak ings of the government, all of which had resulted in a complete vindication of the Liberal policy, despite the oppo-sition, and dire prophecies of Mr. Whit-

ney and his followers. NO PAUPER POLICY.

"Ours is no pauper policy," declared the premier in accents of ringing eloquence. "Our policy is the building up of this great land in which toil has its reward, and in which capital can exercise no tyranny; this land of the freeest democracy under the sun; this land that has inherited the traditions of the old land, the traditions of love and freedom, which come down to us from our fathers; this land, which will yet be—as it is almost recognized to be to-day—the greatest gem of the galaxy of colonies which have just been called to an imperial conference, which can-not fail to have a far-reaching and perhaps incalculable effect on the destinies of the mightiest empire the world

has ever seen!" Mr. Ross closed with a stirring appeal that North Middlesex again prove herself true to the glorious principles of Liberalism by returning W. H. Taylor to the legislature on election day. Cheers for premier, candidate and King were given with a will, and so ended a demonstration which will be long remembered in Ailsa Craig and its surrousding country.

Canadian Trade Interests in England

To Be Looked After by Special Commissioners—Banquet to Sir Wilfrid

Postponed Till He Returns From England.

[Special to The Advertiser.] Ottawa, Ont., May 13 .- A delegation, representing the Boards of Trade of Ottawa and Toronto and the Manufacturers' Association, waited on the pre- life and property, and by the explosion mier this morning and asked that the Government appoint trade commissioners to England and to have a building dreds of people had been attracted to the spot by the burning naphtha, which there. It was also suggested that a was sending up flames a hundred feet there. It was also suggested that a commissioner be appointed from each of the provinces, who would work in harmony with the Dominion commissioner, who would be chief. Mr. Allen, of Toronto, the principal speaker, put the case strongly, and other members of the delegation presented their views

was intended to give a banquet to Sir Wilfred Laurier by the Liberal party before leaving for England, but it was decided today to defer it until the premier's return. Liberal members and senators have the matter in hand. IN PARLIAMENT.

In the house today Mr. Borden moved a resolution condemning the gov-ernment for large expenditure and for not reducing the public debt.

Mr. Fielding replied that if it were true that the expenditure was greater since 1896 the revenue had increased accordingly and the country, from the Atlantic to the Pacific was generally prosperous. To produce a larger revenue extra expenditure was required, but opposition members who were clamorous for higher expenditure were not in position to criticise the government. Four months leave of absence have been granted to Judge Ermatinger, of Elgin county, Ont., from 1st June next.

## INACTIVE LIVER closing:

Brings Biliousness, Indigestion and Most Painful Bodily De rangements-The Wonderful Curative Influence of

#### DR. CHASE'S KIDNEY-LIVER PILLS.

Not only is the liver the largest and one of the most important organs in the human body, but when deranged it becomes the source of endless suffering. When the liver is clogged by the inactivity of the kidneys and bowels, it becomes torpid and fails to filter the bile from the blood, thus producing biliousness and a general impairment of the digestive system. The tongue is coated, the head aches, digestion is imperfect; there is aching of the limbs and back, feelings of fullness, weight and soreness over the stomach and liver; the eye becomes yellow and jaundiced, and the complexion muddy; the urine is scanty and highly colored, and the bowels irregular, constipation and looseness alternating. There is little use of treating the liver separately, as it can never be set right until the kidneys and bowels are made active by removing the waste matter from the body. It is for this very reason that Dr. Chase's Kidney-Liver Pills have always proved so wonderfully successful in curing the most chronic cases of liver complaint, biliousness and complicated ailments of the kidneys, liver and bow-

Dead From Naphtha Explosion Number 21.

A Series of Four Accidents Culminating in a Frightful Disaster.

Reference to a Speech by Sir Wil-

fridLau rier in London.

AT THE CAPITAL A Vigorous Debate on the Subject of Trade—The British Preference

Pittsburg, May 13.-The number of dead

-Private Bills.

The list of dead and the long list of injured is the result of a series of four accidents, culminating in one of the most frightful disasters in the history of Greater Pittsburg. The telescoping of naphtha tank cars in the yards of the Panhandle Railroad Company, in Cork's Run, was following by the ignition of the naphtha by an open switch lamp; by the flowing of the naphtha, first free, then ignited, through the culvert leading to the Ohio River, half a mile away, and its explosion, with attendant damage to of three other naphtha tanks at the point of the original mishap, after hun-

high.
Fully two hours after the fire had started came the second explosion. There were three other naphtha tanks near the two tanks which had been telescoped and were three other naphtha tanks near the two tanks which had been telescoped and were burning. These had been growing hotter, and efforts to get them out of range had for some reason been ineffectual. These tanks exploded almost at the same moment, with terrific force. Tons of burning naphtha, faming timber and red-hot iron descended on the people on the hilltops.

Regarding the big main beneath the burning wreckage, it is feared that the intense heat from the fire will get down to the pipes if the fire is not soon extinguished. If the concussion has not caused any breaks, it is feared that the intense heat may.

About twenty cars are piled up between the Sheriden station and Cork's Run, in the Sheriden yards. This is still a mass of flame. It covers an area 40 by 150 feet. In this there are all kinds of merchandise. The volunteer fire department of Sheriden and No. 10 engine company, from the west end, are playing streams on the burning debris, but little headway is being made, owing to the fact that the entire wreckage is saturated with

#### FATE OF THE CONDOR DEFINITELY KNOWN

Crew of Schooner Mary Taylor Saw Her Founder, But Could Give No Help.

Victoria, B. C., May 13 .- At last the Condor's fate is definitely known. Information to the effect that she foundered, carrying her crew of 110 to death, in a gale on the night of Dec. 3. is given in a letter written from Bamfield Creek by a hunter on the sealing schooner Mary Taylor. The sealer, Robert Marshall, writing to his brother, who lives on a farm near this city says: "It's too bad about the Condor, isn't it? One of the schooners saw her in distress on Dec. 3 night. She was firing off guns and rockets, but it was too rough to go to her. Afterwards they could not see her." Marshall makes another reference to the lost warship in his letter, which indicates that he could tell more of the fate of the Condor, for he says in "But I suppose you know from the newspapers all about how she

went down." The Mary Taylor is now bound to the Bering Sea, and will not be back for about two months. The Condor sailed from here for the South Seas, via Honolulu, on Dec. 2, and a very heavy gale raged for two days afterwards. Some lifebuoys, a boat, and small wreckage from her was found on the west coast of Vancouver Island, and she was posted as lost by the admiralty on Feb. 17. Until now nothing was known of how she met disaster.

#### THE KOHINOOR FOR THE QUEEN'S CROWN

Famous Diamond Will Not Be Worn by King Edward at His Coronation.

London, May 13.-Owing to the desire of the king and queen that no seats shall be placed eastward of the Sacrarium in Westminster Abbey, as on for mer coronations, the timber-built annex, which at the coronation of Queen Victoria was added outside the west door of the Abbey, is now being constructed in much greater proportions. It will accommodate several hundreds, as well as provide robing rooms and other apartments for the king and queen. It will be covered with a stucco preparation, giving it the appearance of solid masonry.

The king and queen will enter and Edward county, Ont., states: "Eleven leave the abbey through a large door that is being prepared on its north side. The chapel of St. Edward the Confessor, to which the king and queen will pass after the service, has no altar. One is now being erected at which the king will deliver his scepter with the dove of the Archbishop of Canterbury, and his golden spurs and steward's staff to the Dean of Westminster to be laid on the altar.

There was a long discussion early in the year as to what place the famous Kohinoor diamond would take among the crown jewels at the coronation Some people said that it would be in the king's, and others that it would be in the queen's crown. It is now known that it will be in that of the queen. There are some interesting superstitions connected with this stone queen. ney Liver Pills, which have done so in India, from which place it came into much for me. #### A RIOT AT BARNUM AND BAILEY'S CIRCUS

Those Unable to Obtain Admission Stoned the Employes.

Beziers, France, May 13.—Barnum & Bailey's circus was the cause of a serious riot Sunday afternoon. The crowd seeking admission to the per-formance was greater than the tent could accommodate, and those who were unable to enter began stoning the circus employes, five of whom were injured. One had his skull fractured,

and will probably die.

The crowd numbered about seven thousand. They cut the tent ropes, and several thousand persons forced their way to the arena. The police were powerless to check them. Troops were called out and restored order, finally driving the rioters away. The performance was concluded, but at its termination the tents were taken down and arrangements were made to start immediately for Carcassonne, the next place on the route.

there was evidence that the ballots had been tampered with.

The M. C. R. station at Dutton was entered the other day, but as the agent had taken nearly all the money with him the robber only secured 18 cents from the till. On Thursday Detective Heenan and Chief of Police James Crawford arrested Dave Quick, a boy about 18 years of age. Quick was taken before A. J. Leitch, J.P., and held for trial. He was afterwards arraigned before his Honor Judge Hughes, pleaded guilty and was remanded for sentence.

The special meeting of the Windsor board of education ended in a row on Saturday night. The proceedings became so personal that Judge McHugh and Michael Twomey, two Roman Catholic members of the board, tendered their resignations to the secretary and left the room. A moment afterwards E. S. Wigle, A. J. E. Belleperche, William Millard and Arch. Whittaker left their seats and walked out of the building. This left the board without a quorum, and matters were effectively blocked. Business of the meeting was the consideration of a proposition for the school board to make a demand for \$5,000 from the council to pay the expense of the separate schools this year, as there is a question as to whether the expense of the separate schools this year, as there is a question as to whether the money can be legally collected by the separate school board. Several members were opposed to the proposition, and made the claim that it is the duty of the city council to give the money and not saddle the school board with the responsibility.

The Free Press goes into hysterics this morning because The Advertiser rebuked its sniveling cant about the electoral purity of its own party.

The organ says The Advertiser has not dared to say what it thinks about the ballot frauds in the mayoralty election. The Advertiser has condemned those practices as the Free Press well knows, but it is bearing false witness to attempt to fasten the responsibility for them upon the Liberal party, which as an organization took no active part In the contest. The law is now exacting its penalty, but at the same time, one cannot help contrasting the spirit which animated the prosecution of the young man in question with that shown by the Liberals when they might have inflicted punishment for the same offense on Mr. Beattie's supporters, but refrained from motives which were not discreditable to human nature. #### The Beet Sugar Industry.

The corner-stone of a beet sugar faclory was laid the other day at Wiarlon. A factory has been completed at Wallaceburg, and others are being projected at Galt, London and other places. This development is the immediate result of the Ontario Government's legislation in 1901.

Results of experiments already made h this Province in the growing of Bugar beets have been most satisfac- said: tory. As many as twenty tons to the acre of sugar beets have been grown at the Ontario Experimental Farm, at Buelph. Tests made at Aylmer, Weland and Newmarket have shown an Average of 1616 tons to the acre. At these places the expenses per acre were found to average \$28 37, leaving a net profit to the producer of \$43 per

An investment of \$100,000 is required lor a factory of 100 tons capacity per lay. A factory of suitable size cannot be built for much less than \$350,-300. Land to the extent of an ordinary township is necessary to grow beets for one establishment. The industry rives employment to labor and in-

reases farm values. It is mere political clap-trap to rep-

resent to the farmer that he has a grievance because no direct bonus is paid him. His interests have been thoroughly safeguarded. The Government has set aside the sum of \$225,000 as a bounty to the manufacturers, to be spread over three years, but under the conditions of the grant the growers are guaranteed during the first year \$4 per ton, regardless of the quality of the beets, and 331/4 cents per ton for each additional percentage of saccharine after the first 12 per cent. After the first year they will receive 331/2 cents for every 1 per cent of sac-

This is the only practical scheme of aiding the beet sugar industry.

#### A One-Sided Arrangement.

Mayor Howland of Toronto has

been incubating a scheme for the pooling of the debts of Ontario municipalities. His idea seems to be that if they can present a united front in the money market they will improve their borrowing powers. We fancy the cities, of the Province will see more benevodon can borrow money at from 3.80 lower rate. Would either of them gain anything by assuming a liability for the debts of smaller municipalities?

#### The Stock Market.

Tightness of money is responsible for the temporary lull in the stock market. A number of Canadian banks are nearing the end of their financial year, and in the desire to make the best possible showing are not lending money as freely to margin speculators. There is no actual calling of loans, but new stock market customers are initiative and a rare enterprise and of the brokers can get no further advances for the present. In a month or six weeks the money market will bold and vigorous hand has shaped loosen up, and another flurry in "inhe policy which should guide the dustrials" may be expected before the ffairs of Ontario in this era of ex- holidays. A number of Toronto brokers' offices may not close for the holidays, but it is not likely there will be any great or sustained activity on 'Change until the fall. We are informed that operators are looking for another boom in November.

WEEKLY REVIEW.

The deliveries of farm produce on this market for the week ending Wednesday, May 14, were up to the average for this May 14, were up to the average for this season of the year. A substantial increase in prices was noted in oats, hay, live and dressed hogs; also a slight advance in potatoes and wheat.

Grain—With the exception of oats the deliveries in this line have been light. The amount of oats marketed has not been sufficient to meet present requirements, and prices advanced from \$1.27 to \$1.32 per cwt. Wheat sells at \$1.32 per cwt.

to \$132 per cwt. Wheat sells at \$132 per cwt.

Hay and Straw-Nearly 125 loads of hay have been offered during the week; sales are easily made, and prices advanced from \$9 and \$9 50 to \$10 and \$10 50 per ton. Straw is scarce, at \$6 per ton. Dairy Produce-Butter has been almost a drug in the market; prices are lower; butter in crocks sells at 15c to 16c, and pound rolls at 15c to 17c; the majority of the butter offered is of an inferior quality; it lacks that richness which will come as soon as the grass is long. The market for eggs continues strong, with prices firm, at 11½c to 12c per dozen for crate and basket lots.

Potatoes-The supply is fair and the demand good; prices have advanced 5c to 10c per bag; sales are made at 80c to

10c per bag; sales are made at 80c to ic per bag.

Dressed Hogs—The number offered for sale during the week was considerably less than the previous week; prices rang-ed from \$8.75 to \$9 per cwt. Live Hogs—Quoted at \$6.50 to \$6.75 per

cwt; prices are expected to go higher. Butchers' Meat—The supply has been equal to the demand; choice beef sells as high as \$50 per cwt; medium grades sell at \$6 to \$7 per cwt; medium grades sell at \$6 to \$7 per cwt.

Wool—Quoted at 6c to 7c for unwashed, and 12c to 13c for washed.

About the only thing offered on the market today was hay. Nearly 40 loads were on sale; prices were a trifle easier, at \$0 to \$10 per ton. The demand is fair. Straw is scarce, one load selling at \$3 50.

A few loads of oats comprised the offerings in grain, selling unchanged, at \$134 per cwt.

#### ENGLISH MARKETS.

LONDON WOOL SALES. London, May 13.—The offerings at the wool auction sales today numbered 14,235 bales. Competition was spirited. Scoureds were in active demand, especially for the home trade. LIVE STOCK MARKETS.

TORONTO, May 13.—There was a big run of cattle at the cattle market today, the total receipts being 113 cars; with 2,120 head of cattle, 135 sheep and lambs, 316 hogs and 54 calves. Such a large delivery of cattle had the effect of easing down prices a little. Even the buyers admitted that prices were off about 25c all round. Although more cattle were in the market than are needed for immediate demands, there was a fair amount of buying at the easier prices. For the choicest lots the top prices were as high as they have lately been. Some very choice exporters sold at \$5.5. The average sold at \$5.90 to \$6; choice butchers' cattle sold at \$5.50 to \$5.35 and \$5.50; some picked cattle a bit higher. There was a fair demand for stockers and feeders. The light run of sheep and lambs held prices steady, and everything in this line sold out. There was a light run of hogs and prices took another jump to \$7.25 for the best and \$7 for light fats. Wesley Dunn bought sheep at \$4.25, yearling lambs at \$4.75, spring lambs at \$5.50 each and calves at \$6.50 each. W. Mackintosh, of Montreal, bought about 15 loads of export cattle at \$5.90 to \$6.25; Jesse Dunn bought \$1 loads of exporters, 1.200 to 1,300 lbs, at \$5.90 to \$6.25. Thomas Hailigan bought a couple of loads of butchers, 900 to 1.200 lbs, at \$4.60 to \$7.5. William McCleilan bought 57 butcher cattle, about 1,000 lbs, at \$4.50 to \$6.50. to Moscow for Relief!

wit: Sale of Corset Covers Drought and Frost in Russia Result in Great Suffering.

> Tax on British Breadstuffs Claimed To Be the Initial Step in Forming a Great Zellverein.

London, May 14.-Advices from the Baltic provinces show that drought and cotton, well made and finished, frosts have greatly damaged the winter sowings. So far there is no trace of grass and the peasants are reduced to feeding their stock on rotten straw from the roofs of the cottages. Enormous crowds of starving peasants are flocking to Moscow from the central provinces, in search of means of existence. Half a dozen freight trains, each

carrying some 1,500 persons, are disworth 50c to \$1. They are sell- patched daily from Riazan, about 100 ing at the ridiculously low price miles from Moscow, in addition to the of 25c per yard. There's a big ordinary traffic. The railroad station lot of them, but of course first at Riazan is inadequate to hold the refugees, and the wretched crowds bivouac in the open air, suffering from rain, cold and hunger.

THE BRITISH TAX ON GRAIN. In the British House of Com-Sir Henry Fowler directly challenged the government to deny that the duties on wheat and flour were not the first step in preferential treatment of the colonies. He said it was impossible that the British ministers now refuse to reciprocate Canada's preferential tariff by saying is against British policy to give preferential duties. Canada would reply that it only wants to be put in the same position as Britain, for we are all members of the same empire, with common interests. In fact, Sir Henry Fowler added this may be the commencement of a great zollver-ein of the British Empire.

Mr. Renwick, who represents a large working class constituency in New-castle, hoped the tax would make it impossible for Mr. Chamberlain to inaugurate a preferential policy. The Westminster Gazette warns the ministers that their attitude gives away the best British reply to colonial demands for a preference.

The House of Commons, by a vote of

296 to 188, rejected the amendment of-fered by Sir William Vernon Harfered by Sir William Vernon Har-court (Liberal) at the second reading of the finance bill, that this house de-clines to impose duties on grain, flour and other food of the people.

Mr. Dillon. Yesterday the house was with him to a man. He was loudly cheered when he directed Mr. Balfour's Roosevelt in recommending an immediate appropriation of \$500,000 for the relief of the sufferers in the West Indies, and asked whether the British Government intended to take steps of

a similar character. Mr. Balfour stated that every assistance that could be given on the spot by the government would be given, but he was uncertain about granting a vote, for which there was no pre-

cedent. SINGULAR SITUATION. The situation is a singular one. The government is anxious to show sympathy in a practical way. The House of Commons is anxious to pass a vote, and yet nothing can be done because the records of the mother of parlia-

ments have established no precedent in such a matter. Mr. Balfour informed the house that the question of relief for the sufferers penditure for which the country of St. Vincent and Martinique was undoes not receive and cannot expect der the consideration of the cabinet. Mr. Dillon was not satisfied with this assurance, and he proposed to ask Mr. Balfour again today to state definitely

## FINANCES OF THE DOMINION

Mr. Borden's Resolution Cesnuring Government Voted Down.

Mr. Fielding Eloquently Justifies the Expenditures.

The Growing Country's Demands-The Award to Mackenzie and Mann, Contractors

Ottawa, May 13 .- The House of Comnons today concurred in the senate amendments to Dr. Roddick's medical council bill.

The bill to amend the joint stock Only the other day all the Conser- companies act, the object of which is the aid given by this government, and vative and Liberal members of the to facilitate incorporation by letters honorable gentlemen opposite found House of Commons were opposed to patent was talked over briefly in com- fault with us for having given that mittee. It being too important a do you find? These gentlemen, who measure to deal with in the dying pride themselves so much on what they attention to the action of President hours of the session, the premier did for the Northwest, managed to proagreed that it be held over until next duce a condition of affairs there

On motion to go into supply, Mr. R. L. Borden took up the expenditures has happened since? Under the adof the present year and also those of the coming year. His speech was a condemnation of the alleged extravagance of the government. He moved a resolution which concludes as follows: "That the house desires to place on record the opinion that the penditure of the year ending June 30, 1902, and the proposed expenditure for the year ending June 30, 1903, are excessive and extravagant, and regrets that the government, with the exceptionally large revenues at its command, has not only failed to reduce, but has largely increased the public debt, and has increased capital exdoes not receive and cannot expect any adequate return."

MR. FIELDING. The minister of finance on rising to reply, stated that great changes had taken place in Canada to necessitate an increased outlay. It was a growing time, and every large business, every railway, every business man spending more money than in 1896, but they were not, for that reason, on the verge of ruin. He pointed to the increased revenue from the Intercolonial and the postoffice as indications of the progress of the country. Mr. Borden had criticised the gross expenditure without examining it and allowing for such expenditures as those on the Yukon, which did not exist in 1896. The increased expenditure was something that the government need not be ashamed of, because it marked the increased progress and growth of the country. The increase n the expenditure outside of that on the Intercolonial, postoffice and Yukon had been very moderate indeed. The trade of the country was a fair indication of its progress, and he pointed out that in 1895 the expenditure was 19% per cent of the trade, and in 1901 it was only 15 per cent. During the five years of Liberal rule the net increase in the public debt had been \$9,982,570, an average of \$1,996,514, as against an average during the whole eighteen years of the previous government of \$6,563,060. The debt had not increased in a greater proportion than the population. If it should be admitted that this was an extravagant government, where could they find an economical government? Not armong the opposition, for they ose one after another and demanded increased expenditures on works of vote for this resolution, they would condemn the government for not spending half a million dollars to send a man to look for the north pole.

GREAT INDUSTRIAL DEVELOPMENT.

In conclusion Mr. Fielding said: Go down to the sea and you will find a great industrial development in the government for not spending the property of the prop many kinds, and, although they would Your nerves require a good bracing GREAT INDUSTRIAL DEVELOP-

They fiddled and faddled with their iron and steel bounties fourteen years, but never built up an industry which attracted much notice. It was only when this government took up the matter that the great development down there began, and that the great development in the seel indusbegan in Sault Ste. Marie. It was when we took steps to give a contract to that factory at Sault Ste. Kingston Citizens Suspend All Business

During Principal Grant's Obsequies-The Remains Laid in Cataraqui Cemetery.

Kingston, May 14.—This city paid singular tribute to the memory of Dr. Grant yesterday, for at 2 o'clock all over the city work ceased, and the citizens attended the funeral. The streets about the university were thronged. At 3 o'clock the service took place in con-vocation hall, Queen's University. The building could hold only the official bodies of the university, and the city and visiting friends.

Messrs. Jas. McBride, of Rodney, and Wm. Ford, of Comber, deputy organizers of the Threshermen's Protective Association, are today organiz-ing a county lodge of their order at Sherwood Hall. The purposes of the order are the establishment of a uniform scale of charges. The abolishing of ruinous competition, and the promo-tion generally of the welfare of threshermen. The order has about fifteen thousand members in the United States. Lodges have already been organized in Essex, Kent, Elgin and Norfolk, while Oxford and Lambton are to be next organized. Many applications for membership in the local lodge have been received, and it commences its existence under favorable

## OLD AGE AND SPRING

If You Feel Oid, the Great Medicine Will Give You the Vigor and Health of Youth.

Everyone in springtime should give attention to the purifying of the blood, the bracing of the nerves, and the regulating of the dgestive apparatus. This is the special time when old people need a tonic and strength-giver -something that will restore them to that condition of health that conduces to make old age happy, cheerful and

Old people should carry home with them today-not by-and-bye a bottle of Paine's Celery Compound. It will certainly banish the rheumatism and neuralgia that help to make life a misery; it will drive out of the system all impurities and make the life stream flow fresh and pure; it will banish weakness and all languid feelings, and impart the vigor and activity that mark youthfulness. It is the only medicine that will fully meet the needs and expectations of all in declining

Mr. J. Holdsworth, Claremont street, Toronto, Ont., says: "I was taken sick last summer, and was in bed for five weeks or more, and my physician was attending me all the time., My case was pronounced to be weakness of the heart and old age, for I am now 78 years old. I kept getting worse until my recovery was considered hopeless. One of my relatives recommended me to use Paine's Celery Compound, which I did with good results. After the first dose I felt relieved, and in a few days I was able to leave my bed and walk around. I used four bottles, and I am now quite well. I hope other sufferers will receive as much benefit as

## CITY ENGINEER HAS HARD TIME

Graydon Trouble.

Fond Papas Who Want Him to Register Births Blushingly Sent to City Clerk.

The remodeling of the city hall, which has been proceeding for several weeks, is now nearly completed. The last change was made this morning, when night was that of \$280,000 for buoying the city engineer and city clerk swapped offices. Fortunately, however, Mr. Wilson is still ernor-General's Foot Guards. able to say with Mr. Twain that the report is grossly exaggerated. His friends were pleased this morning to hear that he is much better today, and there is reason to believe that he will be spared for a long period of good service to the city.

A resident of the neighborhood of Mill street was at the city hall today, drawing attention to the condition of Carling's Creek between Richmond and Talbot streets. He said that the board of health should see that it soon gets its annual cleaning. For many months the creek has been industriously gathering in all the tin cans and rubbish in the district, until now it is quite ready for the regular clean-up.

#### RETAIL STORES WILL BE OPEN ON SATURDAY

Merchants Decide to Take Action Independent of Council

The retail merchants of this city have decided that they will not petition the city council to change the holiday from Saturday to Monday. Instead they will remain open on Saturday, having determined to take this anyway. Instead of sending around a petition, which was published in these columns yesterday, they have pledged themselves as follows: "We, the undersigned retail merthe undersigned retail merchants of the city of London, believe that the best interests of ourselves, the city and country public can be best conserved by the merchants keeping their places of business open on Saturday, the 24th inst., and closing same on Monday, the 26th inst."

It is very desirable that all the Liberals who can should register during the daytime.

The registration booths are so crowded at night that there is danger that all who go to register will not be able to do so. Liberals should make every effort to see that all who are not on the voters' list should register, and this will be made surer by as many as possible registering in the daytime. Because a man registered at the

## MINE WORKERS IN CONFERENCE

Indications That a Strike Will Be the Result.

Arbitrators Decide in Favor of Windsor Tinners and Plumbers.

Hazelton, Pa., May 14.-The general convention of the United Mine Workers of America, of the anthracite coal territory of Pennsylvania began here this morning. Before it adjourns sine die, it will have reached a definite conclusion on the question of whether the temporary strike for higher wages, or shorter hours, which was inaugurated on Monday shall be made permanent or whether the men shall return to work and await a more opportune time. While there is an absolute lack of official information by reason of the decision of the mine workers not to talk, there is every indication that the delegates in convention will decide to strike. There is a strong sentiment, however, against a permanent suspension of work at this time, and it promises to make a decided stand against a strike order. This minority is growing stronger with the passing of every hour, and the longer the final vote is delayed the smaller will become the apparent majority for a C.M.G. strike. President Mitchell and the district leaders say that they are keeping hands off and will insist that the

delegates decide the issue themselves. WINDSOR TINNERS WIN. Windsor, May 14.—Ex-Mayor John Davis and George E. White, the arbitrators appointed to settle the demands of the striking tinners and plumbers of Windsor, made their award last night and both the union and the boss

plumbers accepted the decision. The tinners and first-class plumbers are to receive \$2 50 per day and the second-class men \$2 25 per day. The agreement is to go into effect immediately and remain in force for two years. Other clauses dealing with the scale to be paid for overtime are sat-isfactory. The decision of the arbitrators is a victory for the tinners and

#### WILL OPEN BRANCH BANK IN LONDON

City's Growing Importance Attracts the Dominion Bank-New Premises Leased.

It is many years since one of the great chartered banks opened a branch in London, but the growing mercantile importance of the city and its position as the capital of Western Ontario have determined the Dominion Bank to establish an agency here at once. The premises at the northeast corner of Dundas and Talbot streets have been leased, and will be ready for occupation in a few weeks. The Dominion, it is needless to say, is one of the leading Canadian banks, having a capital of \$2,500,000, a rest account of \$2,700,000, and assets of \$28,000,000. For years the late Sir Frank Smith was the president, and all the present directors are men eminent in financial and business circles: They are: E. B. Osler, president; W. D Matthews, vice-president; W. R. Brock, M. P., J. J. Foy, K. C., M. P. P., A. W. Austin, Wm. Ince and Timothy Eaton. Mr. T. G. Brough is general manager and Mr. H. J. Bethune, inspector.

## CANCERS AND TUMORS

By the New Constitutional Home treatment of Bright's Disease, Cystitis and Diabetes, upon application, Remedy, Without the Need of Operation, Paste or Plaster.

Statistics show that over 90 per cent of cases of cancer that are operated upon, terminate fatally. If drawn out by the plaster or eaten away by a corroding paste, the results are equally

discouraging. These superficial and extremely painful methods of treating cancers and tumors, have been entirely superceded by the new Constitutional remedy, which searches out the Cancer poison in the system and completely destroys it without causing the patient the slightest inconvenience or discomfort. It is a pleasant home treatment which has cured dozens of supposedly hopeless cases here in Canada. Full reports of some of these cases and particulars of the remedy are to be found in our book, "Cancer, Its Cause and Cure," which will be sent to any address on receipt of two stamps.

portion of her letter reads as follows: ly father had often promised mother stop drinking, and would do so for to stop drinking, and would do so for a time, but then returned to it stronger than ever. One day after a terrible spree he said to us: 'It's no use. I can't stop drinking.' Our hearts seemed to turn to stone, and we decided to try the Tasteless Samaria Prescription, which we had read about in the papers. We gave him the remedy, entirely without his knowledge, in his tea, coffee, or food regularly, according to directions, and he never knew he was taking it. One package removed all his desire for liquor, and he moved all his desire for liquor, and he says it is now distasteful to him. His health and appetite are also wonderfully improved, and no one would know him for the same man. It is now fifteen months since we gave it to him, and we feel sure that the change is for good.

"We are both rather lonely creatures, aren't we" Agnes said, with a little smile that was almost pathetic. "I think I should be very glad to go back home when I get a little stronger, and you are very kind to ask me to do so."
"Then that's settled," the old gentleman said his face lighting with plage.

I should feel as if I really had some claim should feel as if I really had some claim on you then; besides, I'm getting to be an old man—I shall not stay here as long as you will, probably, and I've a few dollars and those things over at the house that somebody must have when I am done with them, and I think I'd rather you'd have them than somebody who didn't care a straw for me."

The idea of being adopted by this quaint old man struck Agnes as being somewhat ludicrous, and yet, at the same time, it touched a very tender chord in

the world.
Why should she not allow him to adopt her, if it would be any comfort to him to do so? She owed him a great deal for what he had already done for her; surely she need not deny him this small grain of happiness, and she would try to make the few years that remained to him as pleasant as possible.

She had not a suspicion that all this was done to try her, and that if he carried out his intention of adopting her she uld have a magnificent fortune at her All this passed through her mind very rapidly, and after a moment she looked up at him, smiling archly. "Why, yes, Mr. Archibald," she said,

Tif you want to assume the responsibility of a grown-up daughter. I have no objection; in fact, I think it would be rather nice to feel that I really belong to some one."

Give me your hand on that little woman," he said, reaching out his own with an eager gesture.

Agnes laid hers upon his palm and gave it a most cordial grip, thus sealing the compact.

"There is just one thing, Uncle Archibald, that your adopted daughter will insist upon bereafter." Agnes said with a roguish glance at the obnoxious hand-kerchief, "and that is, you shall give me that handkerchief as a souvenir of this day, and use white ones in its place. You just hav yourself a dozen nice fine ones, and I will begin to hem them right away. I need something to do to keep the time from hanging heavily on my hands while I am getting strong."

"All right." the old gentleman cheer-

Accordingly the necessary papers of adoption were made out the next morning, and Mr. Archibald brought them to Agnes for her signature, before sending them to a lawyer to attend to all the necessary legal formalities.

"Now everything is as square and tight as I want it," he said, as he folded and returned them to his pocket, after securing her signature, and there was a strange ring of triumph in his tone as he said it.

Then he drew a smaller slip of paper from his wallet and laid it upon Agnes'

She looked more amazed than ever.
"My quarterly allowance!" she repeated. "Three hundred and seventy-five dollars! Why. that would be fifteen hundred dollars a year!"

"Exactly! Well, isn't it enough?" he demanded, thoroughly enjoying her wonder.

'I can't understand," Agnes began, king deeply perplexed. "But—I never thought of such a thing—and such a sum as this! you ought not—you can't afford—" and the fair girl looked about ready to burst into tears.

"I ought not—I can't afford," her compamon chuckled with infinite amusement. "Really, little woman, it seems to me that you are beginning pretty early to lay down the law to me—telling me what I can't afford, and so forth."

Then, seeing how flushed, really distressed she appeared, he dropped his bantering tone and resumed, more grave-ly:

upon a time, in spite of the handsome fortune that she's come into lately."

Agnes had grown quite pale by this time under these revelations.

"I never dreamed that you were a rich man," she said, in a low, wondering tone. "I know you didn't," said Mr. Archi-"I know you didn't," said Mr. Archi-bald, with twinkling eyes. "and I've had as much fun out of the fact as any boy with a new top. No offer from Detroit to buy the player's release will be considered by Col. Rogers at this time, so further effort was useless, and Mr. McNamara started for this city.

No contest in years has aroused such a great amount of interest as the forthcoming struggle for the Guineas. The race will take place at Woodbine a week from next Thursday, being the feature event of the opening day of the annual spring meeting of the Ontario

In previous years the race has been looked upon as a struggle between two Revelstoke, and Mr. Reinhardt's Antior three of the most prominent Can-adian owners, but this spring it is be-ers any worry. Mr. Clancy will send adian owners, but this spring it ! lieved that there are at least half a dozen candidates who have a royal chance for the Blue Ribbon of the Ontario

The public and the bookmakers have

SEAGRAM STABLE FAVORITES more in view of previous victories than anything else. Mr. Seagram will likely send four candidates to the post. Flyin-Amber is a doubtful starter, but Oneiros, Eastern Prince, Elcho, and Stake-Winner will surely face the barrier on race day. The Waterloo people are quietly confident that one of the quartet will be returned winner. iros is the choice, but should he fail to deliver the goods, Eastern Prince, a long, lean, lanky three-year-old, is expected to get home in front. In recent trials at Little York he has shown very good form, and will be a reliance of the black and yellow in the race. Oneiros, however, has everything that has been asked of him and the stable will likely declare to

win with him. Mr. William Hendrie believes he has a royal chance with Maple Sugar, See and Yet, and Lyddite. Doonside, the other candidate, is on the small side, but is possessed of a fine burst of speed, and my go to the post. Maple Sugar's public performances last year stamp her as the best in the race, and she has shown great improvement this spring, so that Mr. Hendrie has good reason to fancy his own stable. In Scotland Yet and Lyddite the Hamilton owner has a pair of fine threeyear-oids, who have worked exception ally well at Woodbine. Scotland Yet is a sluggish animal, and requires an energetic rider, while Lyddite is freest runner seen around here in many days. Both have speed, and can go the route, and will be mighty dangerous in the race. MR. DAVIES IS CONSIDERED TO

BE A FACTOR With Parisian Lady and Opuntia, two tried horses that have been carefully prepared by the veteran trainer, John Nixon. Parisian Lady figured last spring as a sprinter, and set the pace for over six furlongs in the Plate race. She has yet to show that she can go a distance and retain her speed. Opuntia is a grand looking horse common report is to the effect that he is inclined to "back up" when the question is asked. The pair have comming along gradually, and will be sent the full distance a couple of times before race day. Mr. Davies has a third candidate in Quarter Penny, 3-year-old, but he is not expected to

cut much of a figure. As far as looks are concerned, Mr Higgins' Cardigan holds the field safe. The Prescott colt has a very handsome What is

Trades and Labor Council Do Not Approve of Plan of Lord's Day Allianoe.

The Trades and Labor Council met last night and considered the question of celebrating Labor Day in this city. After fully discussing the matter, it was decided to have a demonstration here, and to make it excel all that have formerly been held in this city. The council received a letter from the

Lord's Day Alliance asking co-operation in securing legislation for the cessation of all Sunday traffic on steam and electric railways. It was decided that this would be unwise, and the secretary was instructed to reply, expressing appreciation for the work of the alliance, and stating that the council could not approve of the proposal to cut off all traffic on Sunday, a certain amount being, in their opinion, neces-

The committee appointed to confer with the Typographical Union respecting their representation upon the council, reported that in their opinion the difference might be overcome, and the union's delegates seated; but the union itself wrote, refusing to recognize the council's right to dictate to them as to who should be their delegates. This letter was filed. A list of questions was received from headquarters, to be handed to each of the local candidates for the legislature, and to the candidates in

the adjacent ridings. Upon these answers which are given these questions will depend the support which will officially be gives them by the council. JAMES MILNE

This is done by various secret processes. In many factories this process is still carried on by hand, but in others improved machinery has been invented for the purpose. After the chicle has been thoroughly cleaned and this is one of the most delicate steps in the manufacture of gum-it it stowed away in trays and is allowed to cure and dry. The curing pro-cess consumes from two to three weeks, depending upon the condition of

the raw material when it is received. HOW CHEWING GUM IS MADE.

After the chicle has been properly seasoned the real work of gummaking begins. The material is taken from the storage barrels, and after being London gum that is consumed every twelve months you could construct a again hand-picked and granulated, is cement walk on one-seventh of all the deposited in large kettles. #### MUST EAT SUGAR

#### Why People Have a Strong Appetite That Way.

When food is properly digested and absorbed into the system, diabetes, dyspepsia and such diseases do not occur, and if, after these diseases have attacked the stomach and kidneys, the right kind of food is used, it will generally cure unless the disease has made too much progress. A merchant in Young, O., E. D. Leedon, says: "Last August when I was in miserable health, I was visiting

at my daughter's, up in Indiana. She prepared Grape-Nuts Breakfast Food for me, the first I ever tasted. I had diabetes and dyspepsia with sour stomach from almost everything I ate. Of course the doctor kept me from eating sugar, but I had an al-most ungovernable appetite for it. After I had been using Grape-Nuts every day for a short time my appetite for sugar was satisfied. I got the Grape Sugar from the food and it

agreed with me perfectly.
"My dyspepsia left and I began to pose of spending a social evening with you, and to bid you farewell before I was using that improved me so much. > The annual meeting of the Western Ontario Bible Society took place last night in the Dundas Center Methodist Church. There was a fair attendance. The Bishop of Huron occupied the chair, and with him on the platform were Rev. G. J. Bishop, of the First Methodist Church: Rev. S. N. Geggie, of the Parkdale Presbyterian Church, Toronto: Rev. C. T. Scott, of the Dun-

Kennedy. The directors' report showed a fairly successful year's work. Two new made them more joyful. The issues for the year are 982 Bibles, 486 Testaments, and 61 portions of the scrip-

tures. The officers and committee for 1902 are as follows: President, Right Rev. Maurice S. Baldwin, D.D.; vice-presidents, Rev. George J. Bishop, Very Rev. Dean Innes, D.D., Rev. Jas. Kennedy, Rev. Dr. Johnston, Ven. Archdeacon Davis, D.D., Messrs, John Cameron, Thomas McCormick, George Robnson, V. Cronyn, A. Thompson, G. F. Jewell, Edward Towe; treasurer, Mr. John H. Adams; permanent secretary, Rev. James H. Orme; honorary secretaries, Mr. John Cameron and Rev. J. Kennedy; general committee, Revs. J. W. Holmes, W. H. Claris, C. Scott, B.A., J. H. Moorhouse, J. G. Stuart, B.A., C. C. Owen, B.A., A. J. MacGillivray, T. E. Harrison and Messrs. J. H. Adams, T. H. Luscombe, G. Rowntree, Thomas Kent, O. H. Talbot and John Holman.

The meeting was addressed by the Rev. Mr. Bishop and Rev. Mr. Geggie. MR. BISHOP.

Mr. Bishop, who spoke first, dwelt upon the greatness and the pre-eminence of the Bible over all other books. All the Bible societies had during their existence published over 280,000,000 copies. The British and Foreign Bible Society alone had published 165,000,000 copies. The Bible, the speaker went on to state, had been issued to the number of 5,000,000 copies during the sleep well at night. I have kept up past year. How does this sound in the face of what Ingersoll said 25 years new man all over. I liked it so much and it agreed with me so well that I exploded book and that in ten years at New York. The number this year and it agreed with me so well that I exploded book and that in ten years bids fair to be over half a million. he might make me stop it as he had most everything I tried to eat, but one day I told him it was the food gress. We were told that 130,000 copies of the Word of God had been bound in khaki and presented to the soldiers in South Africa. Since the persecu tions in China the demand for the Bible has been marvelous. I think of the multitudes who have been awakened by its warnings and who have

verse criticisms had it not been subjected, and what forces had not been marshaled against it? Voltaire was dead; Tom Paine was dead, and Ingerwas dead, but Moses and the prophets still lived. How could this be accounted for? Only by the fact that God was in it and it was one of the trinity of forces employed by God for the uplifting of mankind.

In conclusion, the speaker stated that the income of the British and For-eign Bible Society for last year was \$1,157,000, which enabled the organization to distribute something like 4,914,-

REV. A. N. GEGGIE.

Rev. A. N. Geggie, of Toronto, followed in a very vigorous address, saying that he was present to speak on behalf of the Bible Society, and that he realized that he had a big subject. If literature were to be tested by its prominence, what book would stand the test better than the Bible? No book was so deeply studied as the Book of God. It was in the hands of men before they realized what book it was. It did not come with a flourish of trumpets. It told its own stories, and its stories touched the hearts of men. It claimed an inspiration pe-culiar to itself. It stood pre-eminent in literature, for no other book could compare with it for fineness of feeling: It borrowed no light from the wisdom of men. A noteworthy feature is the fact that the British Sciety published the Bible without comment of any

In the very heart of the immortal Shakespeare was the inspiration from the Bible. The Book was "God-breathed." for that was the original of the word inspiration. While we looked upon the Book as literature, it was something outside of literature. Here was the Book, but there was some-thing lying in it that was not to be found in any other book. The Bible lived because it had that element in Very few books would stand being read a second or a third time without detracting from their interest; the Bible never became antiquated, because God lived in it, and even in translation it lost none of its power and meaning. It always maintained the same mighty

spiritual force.
The Bishop of Huron. in closing the meeting, referred to the fact that the American Bible Society had ceased publishing because the secular press had taken up the work and was able to produce Bibles so much cheaper. The demand on the part of the people for the eternal word of God was unceasing. The Bible could only grow owing to the fact that it met tremendous wants—because it dealt with the great doctrines of the word of God which satisfied the yearning, trou-bled heart of man as nothing else could. possibly do. The speaker went on to relate that one of the greatest bless-ings he had experienced, during 40 long years, that he had been trying to preach the living Christ, was when he sat by the bedside of the dying and delivered the message of comfort embodied in the cleansing power of

The audience, by vote of thanks, expressed their appreciation for the addresses of the evening, also for the services of the officers and members of the Western Ontario Bible Society, and the choir, and also thanked the trustees of the church for their kindness in permitting the meeting to be held in the Dundas Center Church. The meeting closed with the singing of the Doxology.
