The expenses, though larger in amount are comparatively smaller than any previous year, and, in salaries, actually less, the excess being due to the cost of the outfit of a large number of new offices opened on 1st July, part of which cost was paid in this year.

\* Change in termination of Post Office fiscal year.

The expenditure column for each year includes the payments and liabilities for Railway Mail service of each year respectively, and also an amount estimated as the equivalent of the Canadian Packet Sea Postage comprised in the Revenue of each year, for as the Ocean Mail subsidy is not charged in the Post Office accounts, this charge is necessary in order to shew the true relation between the amount of Revenue produced by the domestic rates of postage and the expenditure required to maintain the ordinary Postal Service.

Ninety-three new Money Order Offices were opened in July, 1866, and the total number in operation on the 1st. July, 1867, was 425.

Arrangements were made with the Post Office of the United States for the transmission of correspondence for the West Indies, South America, Australia and New Zealand *via* Panama, in the mails made up for these destinations in the New York Post Office.

The street letter Boxes put up in the city of Montreal have worked satisfactorily; the number of letters and papers posted therein weekly, appeared from returns taken to be, Letters 2,400; Papers 500, or at the rate of 150,000 letters and papers per annum.
