Explanations and Principal Articles of the Calendar FOR 1876.

EXPLANATIONS.

All the calculations are reduced to local mean time for Charlottetown, with the exception of the Sun's right ascension and declination, and the equation of time, which are given for the instant of apparent noon.

The various phenomena of the Moon's motions and the Tides, are given to the nearest minute. The bearings of the Moon, at the time of its changes, are given for the purpose of assisting or testing the truth of weather forecasts.

The days of expected atmospheric disturbance are those on which the Moon, in its orbit, crosses the equinoctial line, or attains its greatest north or south declination. When these days fall close upon—within two days—the time of the Moon's change, or perigee, the disturbing influence on the atmospheric tides is proportionally increased. These cases are marked ** or *** according as two or three of these influences are combined, and the more closely these times agree, the stronger and more certain is the disturbance to be expected.

In addition to the general local disturbance on these days, it sometimes happens that the effects of a storm generated within the tropics, may be propagated so as to arrive within two or three days, it having been ascertained that the average rate at which the centre of such storms travel, is about sixteen miles an hour.

CHRONOLOGICAL NOTES

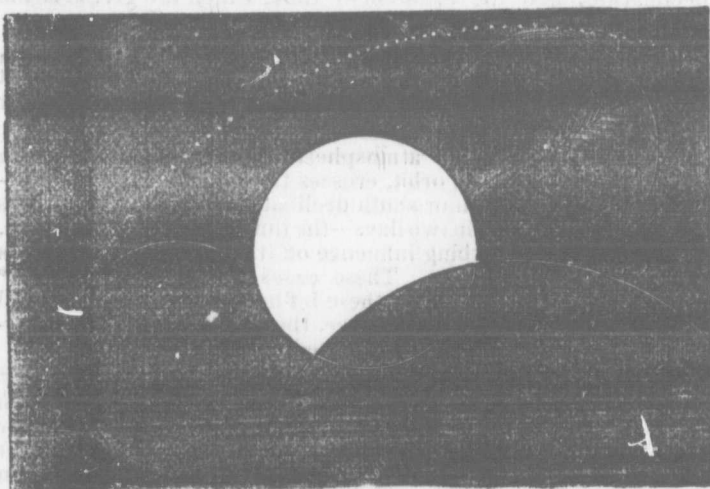

Epact—Moon's age, January 1,	-	-	-	4
Golden Number—year of Lunar Cycle of 19 years—placed against the day of full Moon next preceding Easter, falling this year a day earlier than the ecclesiastical computation.	-	-	-	15

Ramadan, Turkish month of abstinence commences	-	-	-	Sept. 20

Orders from PRINCE EDWARD ISLAND for anything in my line will be punctually attended to.

ECLIPSES.

During the year, there will be four Eclipses, viz: two solar and two lunar.

I. A partial Eclipse of the Moon, March 9-10, visible at Charlottetown. Greenwich mean time of opposition, March 9, 17h 30m 9.8s

1st contact with penumbra 11h 44.3m p. m. March 9. 1st contact with shadow 1h 8.7 a. m. March 10. Middle of Eclipse 2h 8.7 a. m. Last contact with shadow 3h 8.7.1 a. m. Last contact with penumbra 4h 33.1. a. m. The dotted circle shews the extent of the penumbra.

II. An annular Eclipse of the Sun. Greenwich mean time of conjunction, March 25, 8h 42m 6.2s. Line of centrality passes from Hawaii through Vancouver Island, north of Hudson Bay, to Holsteinberg, on the west coast of Greenland; visible as a partial Eclipse at Charlottetown. The Moon enters on the western limb of the Sun at 42m past 4 in the afternoon; the middle of the Eclipse, or phase of greatest obscuration, at 33m past 5; portion of disc covered 5.2 digits of the sun's diameter.

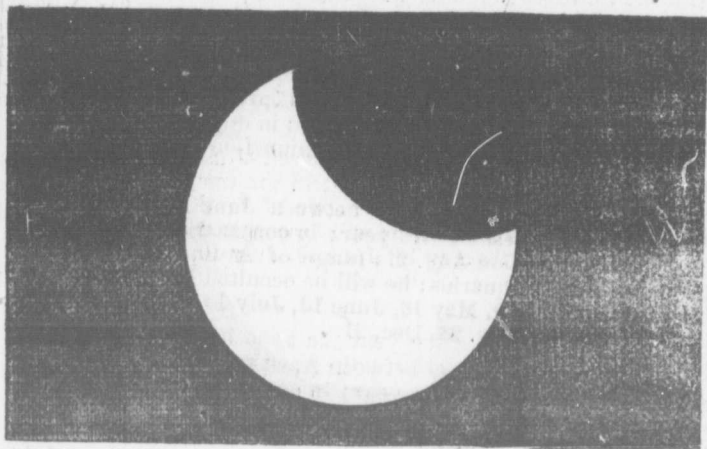

Eclipse of Sun
greatest obscuration
where the Eclipse

Eclipse of Sun as seen at Charlottetown March 25. Phase of greatest obscuration, 5h. 53m. p. m. The arrow shews the point where the Eclipse commences, at 42 minutes past 4; and the dotted circle the phase at sunset.

III. A partial Eclipse of the Moon, Sept. 3. Greenwich mean time of opposition, 8h 32m 31.1.

IV. A total Eclipse of the Sun September 17. Greenwich mean time of conjunction, 10h 19m 10.9s; the line of centrality passes from near New Guinea across the South Pacific towards Cape Horn; only seen as a partial Eclipse on the eastern side of Australia.

PLANETS.

MERCURY.—Apparent motion alternately retrograde and direct between the following dates, when he is stationary, to the east or west of the Sun—Feb. 3, E; Feb. 25, W.: June 3, E.; June 27, W.; Sept. 30, E.; October 21, W.; Dec. 31, E.—being a morning star while to the west, and an evening star when to the east of the sun: he will be in inferior conjunction with the sun on Feb. 12; June 15; Oct. 12; in superior conjunction April 22; August 4; Dec. 3; he will be occulted by the Moon Sept. 19.

VENUS.—Apparent motion direct till June 21, then retrograde till Aug. 4, and afterwards direct to the end of the year; in inferior conjunction with the Sun July 13; occulted by the Moon Jan. 28, and Oct. 13.

MARS.—Motion direct throughout the year; in conjunction with the Sun Aug. 12, after which he reappears as an evening star; occulted by the Moon on Jan. 2 and 31.

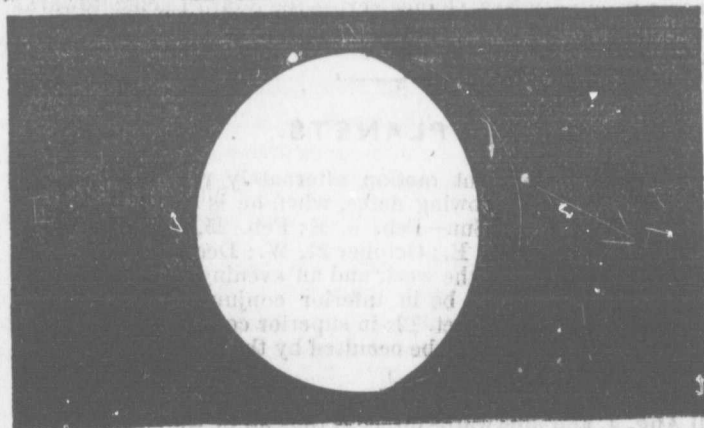

JUPITER will be direct till March 17; retrograde to July 19, afterward direct to the end of the year; in opposition to the Sun May 17, and a morning star to his conjunction with the Sun December 4.

SATURN.—Motion retrograde between June 19 and Nov. 29; direct during the rest of the year; in conjunction with the Sun Feb. 17; in opposition Aug. 27; range of motion $14\frac{1}{2}$ degrees in the constellation Aquarius; he will be occulted by the Moon ten times, viz: April 19, May 16, June 13, July 10, Aug. 6, Sept. 3, Sept. 29, Oct. 27, Nov. 23, Dec. 21.

URANUS.—Motion direct between April 22 and Nov. 29; retrograde during the rest of the year; in opposition to the Sun Feb. 6; in conjunction, Oct. 26; occulted by the Moon Dec. 6; range of motion $8\frac{1}{2}$ degrees in the commencement of the constellation Leo, approaching on the 29th Nov. 3 deg. 23 sec. of the bright star Regulus.

NEPTUNE.—Motion direct between Jan. 11 and Aug. 8; retrograde during the rest of the year; in conjunction with the Sun April 22; in opposition Oct. 26; range of motion $4\frac{1}{2}$ deg. in the commencement of Aries.

Of the sixteen occultations above enumerated, only two will be observable at Charlottetown; namely, those of Saturn, on Aug. 6, and 7, and Sept. 3, from 3h 40m to 4h 34m a. m.; and from 12h 3m to 12h 38m.

Occultation of Saturn August 6-7. Disappearance 12h 3m midnight, N. 23° E. Reappearance 12h 38m, N. 77° W.

Honey Cake.—One pound and a half of dried and sifted flour, three quarters of a pound of honey, half a pound of finely-pounded loaf-sugar, a quarter of a pound of citron, and half an ounce of orange-peel, cut small, of pounded ginger and cinnamon, three quarters of an ounce. Melt the sugar with the honey, and mix in the other ingredients; roll out the paste, and cut it into small cakes of any form.

Seasoning for Soups.—Take eight parts of parsley, one of thyme, and one part of bay-leaves; dry them, and crumble them together into a powder. Some of this, added to broths, makes an excellent seasoning.

A hint on Baking.—A basin of water put into the oven with cakes or pastry, will keep them from burning.

To preserve Siberian Crab Apples.—One quart of water, to two and a quarter pounds of loaf sugar, one lemon-peel. Put two pounds of loaf sugar into a preserving-pan, with the peel of a small lemon and a quart of water. Boil till it becomes a thick syrup. Take some fine red crab apples with their stalks on, prick them with a needle and then put them into the syrup.

When the skin begins to crack, take them carefully out, and drain them separately on a dish; add the rest of the sugar to the syrup and boil it up again to thicken it, then take out the peel, put the apples into wide-mouthed bottles, and pour the syrup over them. When it is cool, tie down tight to exclude the air.

Sliced Bacon fried with Bread.—Cut through the middle of a small roll, and lay on it some slices of bacon; divide the bread and bacon into slices, dip them in some raw eggs beaten up, and fry them over a moderate fire. They may either be sent to table as they are, or with any sauce that may be preferred.

may be substituted: but so little will suffice that it will hardly be suspected. Then stir in as much good stock as will cover the carrots; when it boils throw them in; season, very slightly, with pepper and salt. As stock reduces, keep stirring them, to prevent sticking and burning. By the time they are done, the gravy should be reduced almost to a glaze. Transfer them to a hot vegetable dish, and pour the gravy over them.

L'S,
Queen St.

All liquids are taken in imperial gallons, and one-fifth added to tariff rates, per gallon, on all Spirits, \$1.20; Wines, 72 cents; Coal Oil, 18 cents.

The two following provisions are found in the Customs Act of 1871:—The Governor in Council may, from time to time transfer to the list of Goods which may be imported into Canada free of duty, any or all articles (whether natural articles or products of manufactures), used as materials in Canadian manufactures; and any such materials mentioned in any Order in Council in that behalf, shall be free of duties of Customs from the time therein appointed for that purpose.

The Governor in Council may authorise the admission, free of duty, of any Machinery to be used in any Canadian manufactory, on satisfactory evidence that like machinery is not then manufactured in Canada.

TABLE OF PROHIBITIONS:

The following articles shall be prohibited to be imported under a penalty of two hundred dollars, together with a forfeiture of the parcel or package of goods in which the same may be found, viz:

Books, Drawings, Paintings, Prints and Photographs of an immoral or indecent character.
Coin, base and Counterfeit.

THE FOLLOWING

Under Regulations and Restrictions to be prescribed by the Minister of Customs:—Carriages of travellers, and Carriages laden with Merchandise, and not to include Circus Troops and Hawkers. Locomotive and Railway passenger Baggage and freight cars running upon any line of road crossing the frontier, so long as Canadian Locomotives and Cars are admitted free under similar circumstances in the United States. Menageries, horses, cattle, carriages, and harness of. Travellers' baggage.

THE FOLLOWING GOODS,

When the product and growth of any of the B. N. A. Provinces, may be imported free of duty, subject to alteration or regulation, by proclamation, of the Governor in Council, viz:—

Animals of all kinds; Fresh, Smoked and Salted Meats; Green and Dried Fruits; Fish of all kinds; Products of Fish, and of all other creatures living in the water; Poultry, Butter, Cheese, Lard, Tallow; Timber and lumber of all kinds, round, hewed, but not otherwise manufactured in whole or in part; Fish Oil; Gypsum, ground or unground; Hay, Straw, Seeds of all kinds. Vegetables (including potatoes and other roots); Plants, Trees and Shrubs.

The stamps for Notes, etc., to be affixed by the maker or drawer; and in case of any draft or Bill of Exchange drawn out of the Dominion, by the acceptor or first drawer.

Watson's

CONDITION POWDERS

THE

BEST IN THE WORLD

For preserving good health and prime condition in
HORSES, CATTLE, SHEEP & PIGS.

These Powders purify the blood, loosen the Skin, allay Fever and Inflammation, cure Coughs, Affections of the Throat and Founder, (if resorted to immediately). They expel Worms of every description, and in fact, are beneficial in all diseases of Horses and Cattle.

For Horse Distemper.—One of these Powders given in the first stage prevents Fever, and hastens the discharge; and after the running begins to subside, one more should be given to carry off all humors and leave the glands of the throat healthy.

DOSE.—A Tablespoonful Night and Morning in a Bran Mash, or soaked Oats. To Colts under two years old, half the quantity should be given. In the case of spasms whether caused by Bots, Cholice, or Stoppage of Water, repeat the dose, every half hour until relief is obtained. The same dose may be given to Cows after calving.

The COMMERCIAL

GRAND DIET OF WORMS!

DISSOLVED BY

WATSON'S

SCHOLEIDON.

Which is offered to the public as a perfectly safe, pleasant and efficacious EXPELLER of WORMS from the human system.

As this preparation contains no mineral ingredient, the administration of it to young children is not followed by the dangerous, and—in many cases—fatal consequences resulting from the use of many of the Vermifuges at present before the public.

A compliance with the directions accompanying this, will prove that it deserves the character claimed for it above; while the promptness and painless character of its action render it the cheapest and safest remedy for worms hitherto discovered.

DIRECTIONS.

A child, from 6 months to 1 year	may take	$\frac{1}{2}$ stick.
“ “ 1 year	“ 2 “	“ “
“ “ 2 “	“ 4 “	“ “
“ “ 4 “	“ 6 “	“ “
“ “ 6 “	and upwards	“ “

To be given at night, on going to bed, and on getting up in the morning, fasting for three hours after. Two to four doses, according to symptoms, will ENTIRELY eradicate every species of worms.

W. R. Watson, Esq., has informed me of the composition of his "Worm Candy," and I can unhesitatingly recommend it as a safe and efficacious vermifuge.

Charlottetown, 21st Sept., 1869.
JAMES N. FRASER, M. D., L. R. C. S. Ed

Having prescribed "Watson's Scholeidon" in a large number of cases, in which Worms were indicated, we have much pleasure in stating that we consider it a very safe and efficient form of Anthelmintic.

Charlottetown, Sep. 22, 1869.

Messrs. JENKINS & BRINE, Physicians and Surgeons.

DEAR SIR,—I shall feel obliged by your making known, for the benefit of others, my opinion of your "Scholeidon." The use of it in the case of my infant child has satisfied me that it not only merits the character claimed for it in your advertisement, but also that the advertisement does not do adequate justice to a most valuable remedy.

Summerside, August 10th, 1869.

Yours truly,
Wm. M. HOWE

Wm. R. WATSON, Esq., Queen Street, Charlottetown

THE ROYAL FAMILY OF GREAT BRITAIN.

The **QUEEN—VICTORIA**, of the United Kingdom of Great Britain, and Ireland, &c., Queen, Defender of the Faith. Her Majesty was born at Kensington Palace, May 24, 1819; Succeeded to the Throne June 20, 1837, on the death of Her Uncle, King William IV.; was crowned June 28, 1838; and married, February 10, 1840, to His Royal Highness Prince Albert. The children of Her Majesty are:—

Her Royal Highness **VICTORIA ADELAIDE MARY LOUISA**, Princess Royal of England and Prussia, born Nov. 21, 1840, and married to His Royal Highness William of Prussia, Jan. 25, 1858, and has had issue, Frederick William Victor Albert, born Jan. 27, 1859; Victoria Elizabeth Augusta Charlotte, born July 24, 1860; Albert William Henry, born Aug. 14, 1862; Frederika Wilhelmina Victoria, born April 12, 1866; Joachim Frederick Ernest Waldemar, born Feb. 10, 1868; Sophia Dorothea Ulrike Alice, born June 4, 1870; and Margaret Beatrice Feodora, born April 22, 1872.

His Royal Highness **ALBERT EDWARD**, Prince of Wales, born Nov. 9, 1841; married March 10, 1863, Alexandra of Denmark, (Princess of Wales), born Dec. 1, 1844, and has issue, Prince Albert Victor, born Jan. 8, 1864; George Frederick Ernest Albert, born June 3, 1865; Louisa Victoria Alexandra Dagmar, born Feb. 20, 1867; Victoria Alexandra Olga Mary, born July 6, 1868; and Maude Charlotte Mary Victoria, born Nov. 26, 1869.

Her Royal Highness **ALICE MAUD MARY**, born April 25, 1843; married to H. R. H. Prince Frederick Louis of Hesse, July 1, 1862, and has issue four daughters and two sons (one accidentally killed).

His Royal Highness **ALFRED ERNEST ALBERT**, Duke of Edinburgh, Earl of Kent, Earl of Ulster, &c., born Aug. 6, 1844; married Jan. 23, 1874, to the Grand Duchess Marie Alexandrowna, daughter of the Emperor of Russia, and has issue one son.

Her Royal Highness **HELENA AUGUSTA VICTORIA**, born May 25, 1846; married to His Royal Highness Prince Frederick Christian Charles Augustus of Schleswig-Holstein-Sondenburg-Augustenburg, July 5, 1866; issue two sons and two daughters.

Her Royal Highness **LOUISE CAROLINE ALBERTA**, born March 18, 1848; married to the Marquis of Lorne.

His Royal Highness **ARTHUR PATRICK WILLIAM ALBERT**, born, May 1, 1850.

His Royal Highness **LEOPOLD GEORGE DUNCAN ALBERT**, born April 7, 1853.

Her Royal Highness **BEATRICE MARY VICTORIA FEODORE**, born April 14, 1857.

Statistics, &c., relating to P. E. Island.

Prince Edward Island contains an area of about 1,250,000 acres, nearly all of which is fit for cultivation. It is divided into three Counties, 67 Townships, and 15 Electoral Districts. The population, by the census of 1871, is 94,021, of whom about 42,651 are in Queen's County. The population of Prince County is 28,022; and of King's County, 23,068. Charlottetown, the Capital of the Island, is in Queen's County, and contains about 8807 inhabitants; Georgetown and Royalty, 1056; and Summerside and Township No. 17, 3,562. The House of Assembly is composed of 30 members, and the Legislative Council of 13, all of whom are elected by the people. The Executive Council is limited to nine members. Responsible Government was granted in 1851. The number of Schools now in operation is 397 attended by about 19,000 children. In 1852, when the present Free Education Act was passed, the number was 160. There are besides the Prince of Wales College (public.) St. Dunstan's College, Christian Brothers and other schools, (Roman Catholic,) the Wesleyan Academy (Denominational), a County Grammar School in Georgetown and Summerside, and eighteen similiar Schools throughout other parts of the Island. The whole cost of public instruction, which is under the control of a Board of Education, consisting of nine Members and two Examiners, is defrayed out of the Provincial Treasury. There is a School Visitor for each County, who reports to the Board, and the latter to the Government. In 1871 an Act passed the Legislature, authorizing the Government to construct a line of Railway from Alberton to Georgetown, with branch lines to Souris and Tignish. This Road—measuring 197 miles—was completed and handed over to the General Government of Canada, in December 1874. On the first day of July, 1873, the Island entered the Union, and became part of the Dominion of Canada.

The Septennial growth of the population is as follows:

Year	Population	Year	Population
1797	4,500	1848	62,678
1833	32,292	1855	71,496
1841	47,034	1861	80,857
		1871	94,021

The last Census was a decennial one. Divided into Electoral Districts, the population stood thus in 1871:—

QUEEN'S COUNTY:

	Protestants	Roman Catholics	Total
First District,	6804	2243	9047

THE ELIAS HOWE

SEWING MACHINE.

Made by the original inventor.

There have been many claimants for the honor of having invented THE SEWING MACHINE, and doubt has often been expressed as to whom that honor is due. Now, the fact is, that no modern invention can be so clearly traced to its author. To ELIAS HOWE, Junior, undoubtedly belongs the honor of the invention. At the trials in various minor Courts for infringing of his patent rights this was clearly brought out. At last it was decided in his favor at the Supreme Court of the United States of America,—the Singer, Wheeler and Wilson, the Grover and Baker Sewing Machine Companies paying a royalty to MR. HOWE for every machine which they made till the expiring of the patent. It will also be in the recollection of many that the late Emperor Napoleon decorated Elias Howe with the Cross of the Legion of Honor at the Exhibition in Paris of 1867, for the benefits his invention had conferred on humanity.

THE SEWING MACHINE (though invented by Elias Howe, jun., upwards of 20 years ago) has only fairly seen in the hands of the Public during the past Ten Years, so that they have only been enabled to judge of the Superior Durability of THE HOWE, now that the Machines by other makers which have been in use during that time, are all worked out and useless.

It is a fact worth attention that within the last three or four years, since the Public have had an opportunity of testing the Superior Durability of THE HOWE as compared with any other Machine, that the Sales have INCREASED SIX TIMES AS FAST as those of any other of the principal makers. For sale on easy terms by

ROBERT YOUNG,

Dealer in all kinds of Sewing Machines.

It will be sent to subscribers at \$1 20 a year, including postage, when paid in advance; when not paid in advance, \$1.50 will be charged.

Only a limited space will be devoted to advertisements; and no cuts, handbills, nor patent medicine advertisements will be inserted at any price.

The **NEW ERA** has now the largest local circulation of any secular paper on the Island; and as its columns are not occupied with stereotyped matter, patent medicine advertisements, nor hand-bills, the **NEW ERA** is the very best medium through which merchants, farmers, mechanics, or professional men, can advertise their business.

ADVERTISING rates reasonable.

In connection with the **NEW ERA** is a
