THE SITUATION.

The Allies have reported victories on five fronts, a fact which constitutes still further evidence of the present condition of their offensive preparedness, and of the effective manner in which they are co-ordinating for the common end.

1—On both the Somme and at Verdun, the French continue to make gains. In the former instance they captured an entire line of German defences on a half mile front.

2—The Huns yesterday made five violent attacks on the positions won by the British on Friday and Saturday, but were driven back with tremendous losses.

3—The Russians continue to make their way towards Kovel and Lemberg.

4—The Italians have captured strong Austrian positions and have taken 3,600 prisoners.

5—In German East Africa the resistance of the foe is about ended and General Botha has gone there to aid in the final round up.

Add to these things the fact that the second attack of the Turks on the Suez Canal resulted in an even more disastrous smashing for them than first recorded, and it will be seen that the handwriting on the walls for the Teutons is commencing to show in large and indelible letters.

TRIBUTE TO SIR SAM.

Toronto Saturday Night has been one of the papers which has taken delight in slamming Sir Sam Hughes on every possible occasion. In its last issue, however, the paper in question paid tribute to his worth as follows:

"American journals have taken more than usual interest in the late shell enquiry, for the reason that the contracts investigated were let in the United States, and many newspapers seem to be pleased that Sir Sam Hughes has been exonerated of any suspicion of personal corruption.

They have watched the growth of Canada's citizen army with deep interest, because it has been, generally speaking, a test of democratic institutions on this continent, and experience shown them that scandals invariably arise in the multimillion requirements of large military enterprise.

To these observers the salient fact as it should be to all Canadians, that this country has, with Sir Sam Hughes as its chief military dynamo, created an army from raw material that would do credit to any nation.

On this point the "Christian Science Monitor," of Boston, a journal closely in touch with American thought, apart altogether from religious belief, says:

"This is the point that has most weight with the Canadian people. The Minister of Militia has done things, some of them wonderful things, some unbelievable things. In the doing of them he has stepped on many tender toes. He has not always been considerate of individual feelings. It has apparently been impossible for him to attend to minor details. He has been obliged to trust others. He has not always wisely placed his trust. But he has done in the main what Canada and the Empire wanted him to do, expected him to do; and he has done it well."

Sir Sam has his failings, and it is quite possible that his critics have theirs, but the central and indisputable truth is that he has done things. From the very first he has proved himself to be just the man for the herculean task suddenly thrust upon him—a man of marvellous energy and quickness of thought and action, without regard to previous red tape restrictions.

His achievements will rest secure despite the efforts of the small-souled howlers, who for petty political reasons have been at his heels.

MUNICIPAL MANAGER.

The civic affairs of Dayton, Ohio, are managed on the commission plan. The residents of that place look upon themselves as shareholders in a large business—the city—and they elect a board of five commissioners. These directors appoint a municipal manager and exercise a supervisory watchfulness over his work. This includes control of the various organizations of the city, the preparation of estimates, control together with the chiefs, of the police and fire departments, the standardization and

concentration of all purchases, and so on. With regard to all matters of finance, he takes counsel with the commissioners, and both he and they are subject to a recall if ratifiers consider that they are not doing their duty.

Another feature is that the newspapers are used for official announcements, so that the people can be kept posted at all times on what is contemplated and the reason, together with the cost.

It is announced that the city manager plan has saved money to the residents of Dayton, and that the tax rate is going down all the time.

Another feature which has been established, is a municipal loan department, in order to get rid of grasping grafters.

Eighty other cities in the States have followed this lead of Dayton, and it is stated that all are securing good results.

NOTES AND COMMENTS.

Right now the Kaiser is commencing to get a good deal wiser.

Since the hydro electrification of the London and Port Stanley Railway, the concern has proved a tremendous success. The citizens, during the hot summer weather, have greatly appreciated this easy access to Lake Erie, and the opportunity has been greatly for their happiness and comfort.

A like advantage has been opened up for the residents of this city by the Lake Erie and Northern line to Port Dover. The enterprise has brought citizens into close touch with probably the finest and safest bathing advantages on any lake, and with increased and more sanitary accommodation there, the place should become an ideal summer resort.

The ring is steadily pressing around the neck of the Huns.

Sir Edward Grey is now a Viscount. As far as the last part of the title is concerned, he has counted now for a good many moons.

If the Hun submarine Bremen ever started for the States she has not yet arrived. Probably captured by the British. If so, nothing is likely to be said, even as the Deutschland, if caught, will simply be known to have disappeared. Such is John Bull's way.

The London Advertiser claims that "Sir Sam Hughes has fled to England." In reality it is the organ itself which is up in the air over anything connected with the "Minister of Militia."

It sounds like an anomaly to say that the Teutons are getting it in the neck on five fronts, but such, nevertheless is the fact.

The Germans are taking consolation out of the fact that a lessened food diet is lessening their "corporations." No doubt, and in the long run it will

also greatly help to lessen their stomach for war.

HUNGARY WANTS TO QUIT WAR

Count Karolyi to Make a Vigorous Effort to Obtain Peace.

London, Aug. 8.—Count Karolyi, as the head of the Opposition party, will make a vigorous effort this month to force a separation of the Austrian and Hungarian armies so that Hungary may sue for a separate peace, according to a letter received here yesterday from the Morning Post's correspondent in Budapest.

The Post's correspondent asserts that it is due solely to self-sacrificing bravery of the Hungarians that Austria has not been entirely crushed. "The Austrians," the newspaper says, "have not done as much for the monarchy or itself in the last four centuries as the Hungarian army has done in the last two years."

The correspondent adds that parliament reassembles on August 9th, when Count Karolyi will open a debate on the subject of a separate Hungarian army.

The Situation.

"The crux of the whole movement is the question of peace," says the correspondent. "Without a separate army nothing can be done, whereas with one, Hungary not only can make peace, but also can get the upper hand of Austria."

In Hungary it is realized that there is nothing to gain and everything to lose by a continuation of hostilities, and the question now is whether to lose everything or try to save something. The Opposition under Karolyi knows, as everybody in the country knows, although nobody dares to say it, that Hungary cannot continue the war indefinitely. Another year of the war will see the whole nation starved and bankrupt and nearly all its men killed or crippled.

Everyone also knows the Entente powers are determined to go on for years, if necessary, and will talk peace only when Germany is on her knees asking for it. They believe Germany, too, can go on for years, but the monarchy cannot, and they believe Germany will press the monarchy not to desert her. They know Austria will be a ready vassal to Germany and accede to German wishes, even at a price which Hungary cannot pay, even if it means the sacrifice of the whole Hungarian nation.

"This is what the Hungarian opposition wishes to avoid and it urges, therefore, that it is absolutely necessary that the nation command its own military forces and withdraw them whenever the Hungarian nation sees fit, rather than when the Austrian military party thinks a step desirable."

DOING WELL. The countless friends of Mr. J. Fisher, M.P., will be glad to know that he is doing well at the hospital after his recent operation. He is now able to see visitors.

A GOOD NIGHT. Word was received to-day from Joseph's Hospital, Hamilton, that Very Rev. Dean Brady spent a good night and is doing well although yet out of danger.

THE MARKET. A small market was in evidence this morning in spite of the threatening weather. A few fresh vegetables, onions, carrots, etc., were on hand and also potatoes and apples.

TRENCH JOURNAL. Lt.-Col. H. F. Leonard received this morning an interesting copy of the war in the form of a trench journal. The Brantford Trench Journal is published at the front for the third Canadian Infantry Brigade. The paper is sent by Lance-Corporal Bob L. Highlanders.

BUILDING PERMITS. Three building permits were issued this morning in the city of Brantford, they being as follows: A. R. Hall, frame garage and porch at 27 Arthur St., \$450; Susan Robertson, frame garage at 118 Oxford St., \$25; Daniel Burns for a frame porch at 142 Albion St., \$50.

TOWNSHIP COUNCIL. Routine business occupied the whole of a short session of the township council held yesterday. The passing of accounts was the principal item of business.

COURT OF REVISION. The Court of Revision met this afternoon at 2 o'clock in the City Hall.

AUTO-MISHAP. A lad named Kennedy, who at St. Paul's Avenue, was struck by an auto at the Y. W. C. A. on last night about 6 o'clock. He was taken in to Dr. Hanna's office attended to his injuries, which, latest accounts, are not serious.

WEDDING BELLS. On Monday, August 7th, Rev. E. Bowyer, pastor of Calvary Church, united in marriage Joseph Nephew and Clara May Ham; the ceremony being performed at the Calvary Baptist manse.

NUPTIAL NOTES. A very pretty wedding took place on Saturday last, when Miss M. Gregory became the bride of James Kennedy, the ceremony being performed at the home of the bride's parents by Rev. W. E. Bowyer, pastor of Calvary Baptist church. Both contracting parties are of Brantford.

NARROW ESCAPE. A youngster, residing at 12 Dalhousie Avenue, had a truly hair-breadth escape from serious injury or possible death on Dalhousie street this morning. Riding a bicycle, the lad fell from George into Dalhousie, and wheel skidding on the wet pavement slipped and fell almost directly beneath the hoofs of a horse standing at the roadside. That the boy was stepped upon was nothing short of a miracle, but he succeeded in getting his feet without injury to himself, his bicycle or the parcel he carried.

In reply to a communication from "Constant Reader," The Courier is advised that the location for this attraction will be decided on to-day and published in Wednesday's Courier.

GRASS FIRE.

A grass fire at the rear of 417 Colborne street was the cause of an alarm which summoned the Central fire department thither about 5 p.m. yesterday. From the grass the blaze had spread to a fence, and was drawing dangerously near to the buildings. On the arrival of the firemen, however, the conflagration was soon extinguished by the use of chemicals, with little damage done.

BOARD OF WORKS.

A meeting of the board of works has been called for 4 p.m. to-day to deal with the paving of Erie Avenue. The city solicitor, city treasurer, city engineer, city overseer, the Mayor and the chairman of the finance committee will also be present. Final arrangements will be made as to the commencement of the work, and the matter of the deed to the Massey-Harris land will also receive consideration.

POLICE COURT.

Three poll tax dodgers who appeared in the police court this morning, were ordered to lose no more time in paying. Charles Milman, charged with assault and disorderly conduct, was remanded until to-morrow, while another assault charge preferred by Joseph Cielstelski against Frank Wiesniewski was adjourned for a day after the taking of considerable evidence. A theft charge against Adam Aird was dismissed. It being the first occasion upon which he had succeeded to the flowing bowl, Charles Champion was allowed to go.

THE BRANT.

The Brant theatre continues to draw large crowds during the hot weather, not only because of the splendid programs invariably offered, but also because of the refuge offered from the outside heat. Wright's Hawaiian, head the bill at the theatre for the first of the week, presenting a novel repertoire of native dances and songs. White and Lyall stage a clever burlesque mind reading performance, which is interesting and amusing to all. The movie bill includes George Beban, in a novel and thrilling Italian war drama, Pasquale, an episode of the Who Pays? series and an installment of The Mishaps of Musty Suffer.

AVERAGE SEED CROPS THIS YEAR.

The dry weather has had no ill effect on the alkali seed crop this season. Last year on account of the wet weather acres were left on the ground to rot. Threshing is now in progress and farmers report an average yield.

The first big loads were brought to town to-day and sold to Douglas and Roy.

STEAMER TRIDENT SUNK.

By Special Wire to the Courier. London, Aug. 8.—The British steamer, Trident, of 3,120 tons gross, is believed to have been sunk, according to an announcement made to-day at Lloyd's shipping agency. The Trident was 325 feet long, 45 feet beam, and 23 feet deep. She was built at Stockton in 1902. Newcastle was her home port.

A BUSY SEASON.

The Victorian Order of Nurses have had an especially busy summer in all branches of the work, including Child Welfare. The finances are low and the management would appreciate if subscribers would pay their annual subscription, and would welcome new subscribers and members. During the absence of the Treasurer subscriptions will be received by the Secretary, Mrs. R. S. Schell.

THE PROBS.

Toronto, Aug. 8.—Since yesterday morning, showers and thunderstorms have occurred generally from Lake Superior to the Maritime provinces. The rain-fall in many localities being heavy and in the west the weather has been fine and quite warm.

Forecast:—Moderate north to west winds, generally fair to-day and on Wednesday and not quite so warm.

BILLION DOLLAR CROP EXPECTED

After a thorough canvass of various points throughout Western Canada, Dr. McGill of the Dominion Grain Commission, is quoted in Calgary as saying that Alberta would have a crop as good as last year, that the Dominion would have a billion dollar grain crop and that the grain crop of the three Prairie provinces would be little, if any, behind that of last year.

"The country as a whole never looked better than it does at present," said Dr. McGill. "The weather was made to order, as you might say and I am of the opinion that this year's harvest will be another wonderful one."

Those who contemplate going West will do well to remember that the most fertile districts in Western Canada are served by the lines of the C.N.R. and that this season they can travel from their home districts to destination Canadian Northern all the way.

Arrangements have been made whereby passengers may travel in comfort. Colonist and lunch counter cars being a feature.

The first of these excursions will be run in August, the date will be announced later.

For further information apply to nearest Canadian Northern Agent, or write to R. L. Fairbairn, General Passenger Agent, 68 King St. E., Toronto.

THE CARRANZA NOTE

Wilson Cabinet to Take Up Mexican Reply To-day.

Washington, Aug. 8.—President Wilson and his cabinet will take up to-day Gen. Carranza's note informing this government of the appointment of the Mexican members of the joint commission to be created by the two governments for the settlement of their difficulties.

It is believed from intimations dropped by high officials yesterday that the Carranza note will be accepted as a basis for proceeding to the appointment of the American commissioners, and that the United States will agree to having the commission consider first the three propositions defined by Gen. Carranza.

Car Service is Resumed in New York

About 75,000 Employees Affected by the Settlement.

By Special Wire to the Courier.

New York, Aug. 8.—Normal service of the most important surface street car lines in Manhattan and the Bronx was resumed to-day after having been partially interrupted by strikes of motormen and conductors beginning about two weeks ago and culminating Friday night last in a walk-out of the employees by the New York Railways Company. About 7,500 employees of this company and of the Third Ave. Railway system are affected by the settlement agreed upon yesterday by the directors and officials and the men after conferences with Mayor Mitchell.

Under the terms of the agreement the right of the employees to organize is conceded, and the two companies promised to treat with committees of their employees in considering grievances. A demand for increased wages will be discussed by committees not later than Aug. 30, and if they fail of an agreement the controversy will be submitted to arbitration.

Help for Prisoners.

Dear Sir,—The accompanying letter may prove interesting to many of your readers, and may be the means of more prisoners of war being "adopted" either by individuals or societies.

The Ladies' Aid Society of Zion Church undertook four months ago to send food twice a month to twelve prisoners in Germany, through the Canadian Red Cross Society in London, England.

From postcards received in acknowledgement of their boxes, it is quite evident they are keenly appreciated, this letter makes assurance doubly sure.

All information in regard to the work may be had by communicating with Mrs. Rivers Bulkeley, Prisoners of War Department, Canadian Red Cross, Cockspur St., London, Eng.

Sincerely yours,
A. M. WATT.

Interned Prisoner of War.

Lt.-Sgt. Colin Alexander, Regt. No. 24554,
13th Batt. Canadian Infantry,
Hotel Beau Sejour,
Chateau d'Oex,
Switzerland, 28th June '15.

Mrs. Wm. Watt:
Dear Friend— I write from this country, Switzerland, to thank you so much for your kindness in helping me by sending parcels of food to me whilst a prisoner of war in Germany. I really cannot thank you enough for such a kindness, because you have helped me to sit down to a good meal which the Germans never would have shown us. Let alone give us, I have written to the Canadian Red Cross to stop all my parcels, but let the Red Cross continue to help others through their good arrangements, because they know more of the names of those wanting food. Do not stop helping prisoners in Germany, because all are needing wholesome food and moreover all are worthy of it. It is no waste of money to help such a good cause, so please keep on sending to our men in Germany.

I am now lucky enough to get to Switzerland, and to appreciate being in such first class hotels. We all have feathered beds and first class food and the doctors are also doing their best for us.

I was wounded near Ypres, April 24th, 1915, having a fractured thigh from the effects of a German shell. The doctors (Swiss) gave me to understand that they were going to break it again and reset it. In Germany I had four X-ray photographs taken each time sewing the bones together with silver wire. They did not do it properly and very soon I expect to go to Lucerne to have my leg properly attended to. My leg is now fairly strong, but I 1-2 inches short in length, but if I were to have a very slight fall it would easily break again. I have always to use a walking stick, but I've done my little bit for the right of civilization and bit for the right of civilization and time. May God help our cause and may all our men come forward and do their bit towards treading down this German militarism.

Again thanking you for your kindness.

Yours thankfully,
COLIN ALEXANDER.

BRITISH AND FRENCH FORCES

(Continued from Page 1)

The French attack north of the Somme was made by infantry operating on the right of the British in the course of an attack made by the British on Guillemont. The French took 40 prisoners.

The announcement follows: "North of the Somme, our infantry, operating on the right of the British, in the course of an attack by our allies on Guillemont, made an advance east of Hill 139, north of Hardecourt and took 40 prisoners."

"East of Monacu Farm the Germans made two attempts this morning to recapture trenches which we took yesterday. Both attempts were repulsed by our infantry fire. The enemy was compelled to fall back, leaving a number of dead before our lines. The number of unwounded prisoners taken yesterday in this region is 230, of whom two are officers."

"On the right bank of the Meuse (Verdun front) the bombardment was resumed during the night with extreme violence on the Thiaumont front. At about 5 o'clock this morning the Germans delivered a series of powerful attacks with heavy forces against our positions from the village of Fleury to a point north of Thiaumont work, accompanied by a curtain of fire. All the attacks were checked along the Fleury road and in the village by the fire of our machine guns, which caused large losses to the enemy. The Germans succeeded in gaining a footing in Thiaumont work after a desperate encounter which is still continuing at this hour.

"In the Vosges detachments of the enemy which attempted to approach our trenches near Senones, were dispersed easily by our fire."

TUG IS MISSING.

New York, Aug. 8.—Wireless messages were flashed down the Atlantic coast to-day in an aerial search for the seagoing tug Charles W. Morse, which, having left New York on July 17 with twenty-six persons on board, is twelve days overdue at Porto Rico. Local shipping circles assume that the tug may have been blown from her course during a West Indies hurricane. She carried a crew of 23 men.

ARMONY LODGE PICNIC

Invitations have been issued the members of Harmony Lodge of Oddfellows and their families to attend a picnic to be given by the lodge on Civic Holiday at Mohawk Park in the afternoon. As in former years, no doubt, this one will prove as great a success.

DORCHESTER BARN AND CROPS BURNED

St. Thomas, Aug. 8.—The season's crop of hay, 400 bushels of last year's wheat and 400 bushels of oats were destroyed and the barn burned to the ground at a fire on the premises of George Demaray, concession 10, lot 8, Dorchester, yesterday morning. Mr. Demaray has just turned out the cows after milking them when he discovered the roof on fire. The neighbors came to his assistance and saved some of the implements. The loss will be considerable and is protected by \$2,000 insurance.

Milk.

"Milk at a penny a quart" is the ideal propounded by a number of Scotchmen who think that the goat will enable them to realize it. Taking their cue from a demonstration at the National Economy Exhibition in London, they have formed a co-operative association with the object of securing goats and arranging for their settlement with farmers throughout Linlithgow, Princess Louise, the Duchess of Argyll, is interesting herself in the movement, and declares that the goat's milk that she tasted at the exhibition referred to was "wonderfully good." To make a goat pay and to get that quart of milk at a penny a bit of ground is necessary and the garden waste comes in handy. That is the reason why many small-holders and country dwellers are now realizing the utility of the goat. Some goat-keepers, indeed, have stated recently that they are obtaining goat milk at less than a half-penny a quart.

THE WHOLE OF ERIE TO BE PAVED,

Special Session Laid to Proceed With man Ward Stationer Would Not be

The paving of the whole of Erie Avenue, from Emille street to the T. H. and B. station is to be carried out this year following upon the resolution of the city council at a special session held last evening to deal with the matter and to wind it up once and for all. A deputation of residents of Eagle Place waited upon the council in regard to the question, and when the final vote was taken a total of 9 years was shown, against four years.

Streets to be Oiled

The first matter dealt with by the council was that of the oiling of a number of additional streets. On the motion of Ald. Ward, seconded by Ald. Freeborn, an amendment was made to the oiling and watering of the city streets, to include the following: Burford, Oxford to Brant, Oak, Balfour to Brunswick, Marlboro, Brock to Rawdon, Brock, Park Ave. to 17 feet north of Mary, Brock, Drummond, Superior, Cayuga to Brighton Row, Strathcona, Erie to River Road, Main, Wilkins to Buffalo, Park, Brock, Drummond.

The by-law introduced for the purpose having passed, Ald. Welsh moved the prohibition of the sale of any meat on the city market after the hour of 1 p.m. between April 1st and Oct. 1st. This resolution was later withdrawn.

Erie Ave. Matters.

The matter of the paving of Erie Avenue was then broached. Ald. Ward submitting a report of the board of works, which moved that the work be proceeded with at once from Emille St. to the T. H. and B. station, the necessary finances to be provided by the finance committee. Messrs C. H. Waterous and D. J. Ansell, members of the deputation of Eagle Place residents, then addressed the council.

All or Nothing

Mr. C. H. Waterous favored the completion of the paving at once, at the present time, if possible, and at a future date, if present finances would not permit, of the other alternative. The general opinion of Eagle Place residents was to have all done at once. The speaker admitted the necessity of watching every dollar of the city finances, but favored the completion of the work if possible at the present time. He expressed assurance that the interests of the city were in the heart of every member of the council.

Mr. J. D. Ansell spoke also in favor of the immediate paving of the entire street, pointing out the desire of Eagle Place residents to obtain a thoroughfare in keeping with that section of the city.

Suggested Holding for a Year

Ald. Bragg questioned the advisability of the work at present, because of the labor situation, and also because of the tying up of the Street Railway, essentially atten-

British Aviators' Work Surpasses Wildest Dreams

Not a German Village Near Front Has Escaped Them.

With the Allied Armies in France, Aug. 8, London.—The aviators felt the concussion nine thousand feet in the air when a brigade of British aeroplanes bombarded Henin Lielard, northeast Arras, with a shower of 112-pound bombs.

When the German sheds and store houses at Martinpuich were fired by incendiary bombs, a vast pillar of smoke from the resulting conflagration rose to a height of 8,000 feet. The work of the British aviators recently has surpassed the wildest flights of imagination. Aerial fights which attract sensational attention are only incidents of the offensive campaign. Overwhelming numbers of aeroplanes are concentrated on the narrow front of the Somme battle, in co-ordination with a superior, unceasing volume of gunfire. The planes move in larger and larger flotillas, and there have been cases with a dozen engaged in battle on either side.

The German first line and second line trenches, headquarters, billets and supply posts of all kinds have been bombed, the aerial offensive being limited only by the number of planes and the supply of bombs. Not a village occupied by the Germans in the neighborhood of the front that has not had its aerial bombardment. If a German village is not being bombed by aeroplanes, it is being shelled by a motor truck which has been set on fire and one moving train was blown up.

The dry official accounts of the aviation corps and their aviators' jargon reveal a number of amazing feats every day. A pilot describes an average experience thus:

"I first attacked a railroad, but finding a fokker behind me, I turned and manoeuvred under his tail. I fired one drum at very close range, and the fokker nose dived and went down with a spin."

If he goes down direct it would have been a "crasher."

Second statement concerning the present cost of labor, declaring that provision was made for present prices in the amount estimated by the City Engineer.

The Mayor's Objections.
Mayor Bowly argued that the paving of the street should have been included in the 1916 estimates if it were to be carried out in the present year. As the Eagle Place residents' Harris Company land had not yet been obtained, it would be difficult to proceed with the work.

Ald. Wiley queried as to when the deed to the land would be obtained the matter having hung fire for over a year.

A Prophecy on the War.
Ald. Dowling prophesied that the war could terminate in another year, as was being presumed by many members of the council, who favored deferring the work if it could be given to returned soldiers. He favored the execution of the whole work or none, and in view of the assurances of the board of works concerning the labor situation, the former alternative. Ald. Ward expressed assurance that the labor could be obtained without draining the resources of the shops.

The Vote.
After a little further discussion, the vote was taken by the clerk, resulting as follows:
Yeas—Ald. Ward, Freeborn, Jennings, Ballantyne, Minshall, Wiley, Welsh, Jowling, Harp.
Nays—Mayor Bowly, Ald. Bragg, Secord, Pitcher.

The council adjourned in short order following the vote. The absentees of the evening were Ald. Hess, Melten and A. O. Secord. The entire assembly, with the exception of His Worship, the mayor, appeared as members of the hot weather shirt sleeve brigade.

WHO IS THE MOST POPULAR YOUNG LADY IN BRANTFORD?
In connection with the Moose big mid-summer carnival and festival will be a popularity contest for the young ladies of this city. Part of the proceeds will go toward one of the patriotic funds of the city, and the contest is open to any lady of the city.

Votes will be one cent each, and voting boxes and envelopes will be placed in the leading stores of the city.

Contest starts Thursday and the prize will be a beautiful diamond ring valued at \$150, which will be bought and on display at one of the jewelry stores of the city.

Contest will close Thursday night August 17th and therefore will run only one week.

Any one wishing to enter may do so by calling on this paper or by notifying Mr. White, telephone 534.

The votes will be counted each day by a committee appointed by the Moose and the standing of the contestants given.

Votes are one cent each—enter your contestant and vote for her.

CORNSTALK CASTLE

Roger often thought of that strange moon-colored bird who called himself the corn-crake express and ran about in the cornfield carrying the corn-husk knights and ladies on his back. He wanted to see him again, but watch as he would at his window, the moon-colored bird with the moonstone eyes failed to appear. And then one night Roger remembered that the bird sometimes sat on the fence by the railroad catching the whistles that tumbled out of the smokestack as the train went by. He'd said so. The fairies must have a whistle for the corn-crake express.

"I'll walk along the fence in the moonlight!" said Roger to himself in great excitement. "And likely I'll find him sitting there."

And, sure enough, he did! But cranky! Dear me, that moon-colored bird sitting on the fence was cranky as cranky could be.

"The train's late!" he snapped. "And the fairies in the cornfield are being kept waiting. What's more, they won't travel without a whistle."

"Let me whistle for you again," begged Roger. "I'm awfully sorry I tumbled off your back before. I didn't mean to."

"It was stupid and clumsy," grumbled the crake. "Besides, the minute you hit it you'll whizz off like a rocket until you find your bed."

"I—I didn't know that," said Roger. "No rent for 13 years. A most extraordinary case as a sequel to an eviction has just been adjudicated upon by the Court Sessions of Dublin. A family, Donnelly by name, occupied Donnelly's Orchard Farm, for no fewer than thirteen years without paying any rent. The trustees of the farm at length took action for the payment of arrears. It was contended by the Donnellys that they had occupied the farm for generations without paying rent, but in order to compromise the case they were prepared to pay \$250 in full settlement of rent, and to let the taxing of a rent for the future go to the Rent Commissioners for adjustment. This, however, the plaintiffs would not agree to, and the Recorder had no alternative but sustain the action of the trustees. An interesting feature of the case was that the father of the present Donnelly when in occupation of the farm had his rent fixed by the late Cardinal McCabe.

MAKING THE BEST OF A BAD SITUATION

By Special Wire to the Courier.
Hunger in Germany Reduces Weight and Improves the Health.
By Special Wire to the Courier.
London, Aug. 8.—(N. Y. World cable).—The Daily Mail quotes the Cologne Gazette of the 4th as saying that the food restrictions in Germany have brought many benefits in their train, that double chins and "corporeations" have disappeared from Germany, and it has been noticed that the popular health is rapidly improving.

A well known surgeon, Prof. Kuttner, writes in the German Review that appendicitis is disappearing as a result of the severe plainness of Germany's war diet, and other ailments and ills are also decreasing as a result of abstinence from rich foods.

BRUSSIOFF, COMMANDER OF RUSSIAN ARMY, WELL BORN; WAS A COURT FAVORITE

Received Splendid Education and Began His Army Life in a Fashionable Cavalry Regiment

Petrograd, Aug. 8.—General Alexis Brussloff, commander of the Russian army which swept through Bukovina, was little known outside of Russia before the present war. In fact it was not until 1914 that he was given command of an army corps. His work in the war won him promotions. He is almost the only one of the many prominent social figures in the army who has made good.

General Brussloff is 68 years old, searching eyes and nose with a high, commanding curved bridge, and a square jaw. His hair is close cropped; he wears a long thin gray moustache.

It was General Brussloff who commanded an army in the first Carpathian campaign when the Russians were ready to pour down into Hungary, but were forced to retreat for lack of ammunition. Unlike many Russian generals, Brussloff had the advantages of an excellent education, and began army life in a fashionable cavalry regiment. Ability and influence combined to make his advancement rapid. He held many positions, was recognized a favorite at court, distinguished himself as a daring rider, encouraged cavalry officers to go in for polo and cross country steeplechases, and was popular in Petrograd society. Then came the war to try out the capacity and characters of men. Brussloff was one of the studious, professional type of officer who came to the front and made good.

SECURITY OF BONDHOLDERS NOT LESSENED

Northern Fires Will Result in Bigger and Better Towns Being Built.

By Special Wire to the Courier.

Toronto, Aug. 5.—In response to an inquiry by the Monetary Times as to the financial position of the fire-swept towns in Northern Ontario, Hon. T. W. McGarry, Provincial Treasurer made the following statement.

"We cannot at present make any declaration in regard to the question of the bonds of these towns, for we do not yet know the position in this respect. The government have already stated that they will render every assistance possible in the stricken district. I imagine that the people in the towns which have been destroyed will most likely build up their communities again and that the bondholders will have just as much security, if not more, as they had before. Better towns of more permanent construction are likely to be built in the place of those destroyed. The government are in a very receptive mood and will certainly do all they can. No doubt the town authorities have made known their various requirements to the minister of lands and mines, who is now in the north country, examining the situation."

Asked as to the interests of the holders of bonds of these towns, Mr. McGarry said: "There will probably be some scheme worked out. The government will certainly do all they can to relieve the situation as far as possible."

TO STANDARDIZE TEA
Shanghai, Aug. 8.—Chinese tea merchants in Shanghai are planning the organization of a tea association at that port, whose purpose shall be to standardize and improve the grades of tea exported to foreign countries. This organization will be based on suggestions made by Chen Chi, superintendent of the Chinese department in the Panama Exposition. Chen Chi has advised tea merchants that under proper organization, Chinese tea can regain the position it held in the American market before it was displaced by Indian and Ceylon tea.

According to the Parliamentary correspondent of the Daily Express, the British Government is considering measures which aim at the abolition after the war of what sociologists term "preventable poverty" in Great Britain. Excess profits will be shared.

Changes Foreshadowed In France After War

No Longer Will the French People Have at the Head of Departments Men Who Are Not Specialists.

Paris, Aug. 8.—(Correspondence of the Associated Press).—Although French scientists have done a good deal to help the government catch up with Germany in the scientific departments of her military preparation, there is still complaint that their services have not been utilized to the best advantage, and the Academy of Sciences now poses a question as to whether men of technical training shall not have a greater share in the formidable work of reorganizing France after the war.

Henry le Chatelier, of the Institute, proposes that the Academy go to work at once to formulate the working methods best calculated to accelerate the industrial and economic recovery of the country, without waiting for politicians to decide whether the services of technical and scientific men will be accepted.

Members of the Institute expected that the government would have recourse to their technical knowledge in the organization of some of the army departments. Instead, members of parliament, entirely lacking in technical knowledge, were placed in charge of services such as the munitions, sanitary and aeronautic department, while men of technical training were allowed only to submit inventions and suggestions.

Under the parliamentary regime,

New Union in Germany

It Is Said, With Its 60,000 Members, to Be Greatest in the World.

Berlin, Aug. 8.—In the new German Union of Technical and Economic Associations, with its 60,000 members, there has been organized the greatest industrial body in any country in the world. The members include architects, engineers, electro-technical experts, marine engineers, coal and iron men and chemists.

Planned many years ago, the completion of the organization has been hastened by the war, since one of its main purposes is to prepare for the great commercial battle which will begin as soon as the military fighting is at an end.

This German Union proposes to work in close relations with similar bodies in Austria and Hungary, the ultimate aim being to incorporate them all into a Great Central

European body of enormous extent and power. It is argued that such a force will make itself heard in the settlement of the great industrial problems which will come up after the war and the governments will be forced to pay attention to the commercial interests. And it is also asserted that the military interests of the State will benefit also from such a powerful organization as the technical sciences and chemistry are all the time becoming more important for the army and navy and the general defense of the country.

Just prior to the Tangiers incident that threatened war, the navy was administered by a journalist and the war department by a stockbroker.

The navy department has been administered by a naval officer only three years out of the last twenty. The rest of the time it was in the hands of lawyers or journalists.

War Office advertisements appearing in Vienna newspapers indicate that preparations are being made in Austria-Hungary for another winter campaign. Tenders are invited for the supply of furs and woollen goods of all kinds.

Capt. James P. Fallon, Roman Catholic chaplain of the London camp, and a brother of Bishop Fallon, has left for service at the front.

Dutch Reaping Herring Harvest

Catching Vast Quantities and Selling Them to Germany

Vlaardingen, Netherlands, Aug. 5.—Although the real herring fishing season has not yet begun, Dutch fishermen are already reaping a golden harvest, as a result of the absence of the German and a large part of the British fishing fleets from the North Sea, and of the enormously high prices obtainable in Germany for the catches. One fortunate man has brought in a catch of herring estimated at a value of \$14,000, or three times as much as its owners make in the whole of a normal year. The great bulk of the exports goes to Germany.

Turf Moss For Troops

Women and Boys Dotting Scottish Hills Picking Balm for Wounded Men

Glasgow, Aug. 8.—The hills of Scotland are dotted with moss pickers—women and boy scouts in search of an added comfort for the wounded soldiers. According to the medical authorities turf moss on account of its elasticity and great properties for sucking up liquids, forms a most useful dressing for open wounds. It may also be used as padding for splints.

After the moss is picked it is covered with absorbent cotton gauze at various Red Cross depots and sent off to headquarters in London. Every day big packages arrive there, telling silently of long days spent in all kinds of weather in search of the moss. In many places working parties of women, who are not skilled with their needle, go out for the day, coming back in the dusk of evening with great baskets full.

BRITAIN'S WAR EXPENDITURE

Total Credit Since Beginning of War Now Approaching \$14,160,000,000.

The vote of credit of £450,000,000 asked for by Premier Asquith in House of Commons last week is the largest asked by the Government since the beginning of the war. It will bring the total voted this year to £1,050,000,000 and the total since the beginning of the war to £8,000,000,000 (approximately \$14,160,000,000).

The Premier said the recent expenditure out of the vote of credit was approximately £5,000,000,000. The £5,000,000,000 referred to by Reginald McKenna, the Chancellor of the Exchequer, represented the outgoing, the premier said, the expenditure from April 1 to July 22 was £559,000,000.

Mr. Asquith said that the new army and munitions cost £79,000,000, the loans to Great Britain's railways, etc., £23,000,000. The average daily expenditure on the war he said, was £4,950,000.

After expending £559,000,000 between April 1 and July 22, continue the Premier, there was a balance hand of £41,000,000, which was sufficient to carry on the services to end of July instead of the first of August, as he had estimated.

The daily average of expenditure risen from £4,820,000 during the period from May 1 to June 30 to £5,050,000 during the period from June 21 to July 22, or an average over the two periods of £4,950,000. The principal causes of the increase were the army and army munitions. During the first period average recoverable expenditure was £3,000,000, being exclusive of supplies to the Allies. During the second period it was £3,600,000. From both figures should be deducted the average peace expenditure of £220,000 daily. The naval expenditure, as the Premier, proceeded at a high rate and was not expected to increase in the near future. Army expenditures, he said, reached the high mark, exclusive of munitions, in November and, from January to remained fairly constant at a level less than that of last November.

The daily average of loans in dominions had dropped £490,000 in the first period to £1,320,000 in the second period, but these figures, the Premier, were "very misleading" because in the first period there was one item of £12,000,000 attributed in reality to the previous period owing for that, the average expenditure

OVER 12,000 RECRUITS HAVE COME FROM THE RANKS OF LABOR UNIONS OF CANADA

Brantford Unions Have Sent Overseas 96 Men, 4 of Whom Were Reservists—22 Cities in Canada Comprise Half of Trade Union Strength

The fifth annual report on labor organization in Canada, containing statistics, etc., for the calendar year 1915, has been issued by the Department of Labor.

The opening chapter is devoted to showing the extent to which the trade unionists of the Dominion contributed to the Canadian expeditionary forces, and contains also the pronouncements which various several labor bodies have made on the war. Of the 1883 local branch unions in Canada, 961 have had one or more members enlist for overseas service since the beginning of the war. The trade unions furnished 11,972 recruits and 439 reservists, making in all 12,411 members in the ranks.

The following statement shows the enlistments from the chief cities and the totals for each province:

The was, has evidently subjected Canadian trade unionism to a severe strain, the returns received for 1915 showing a loss of 120 local branches and 22,820 members. The total numerical strength of organized labour in Canada at the close of 1915 stood approximately at 143,343, made up as follows: 1661 local branches owing allegiance to international organizations, comprising a membership of 114,722; 191 local branches of non-international bodies with a combined membership of 23,664; and 31 independent units with a reported membership of 4,957. These figures as compared with those of 1914, indicate a loss for the year 1915 of 113 local branches and 25,760 members of international organizations; a reduction of five branches of non-international bodies, but a gain of 2,729 in membership; the independent units, a loss of two, but a gain of 211 in membership reported. The membership of all classes of organized labour in Canada as reported to the Department for the past five years has been as follows:

1911	133,132
1912	160,120
1913	175,739
1914	166,163
1915	143,343

Organized Labor in Canadian Cities.

Nearly one half of the local trade union branches is found in twenty-two cities, and these branches comprise over forty per cent. of the entire trade union membership in the Dominion. Montreal, as in 1914, stands in first place as to the number of local branches, the total proportion of branches reporting was not as good as in some other localities. Toronto, with a reduction of 13 branches, still retains second position. The following summary gives the names of the cities, number of branches in locality, number of branches reporting membership and the membership reported:

Benefits Paid by Central Labor Bodies.

A table is furnished showing the expenditure on account of benefits paid during the year 1915 by the various central labor organizations operating in Canada. Of the international bodies, 81 have benefit features on a varying scale. The total disbursements for 1915 amounted to \$14,665,385, an increase of \$1,727,378, as compared with the amount paid in 1914. The expenditure for each class of benefit was as follows:

Death benefits	\$7,428,876
Sick benefits	3,208,604
Sick and accident benefits	1,840,459
Old age pensions	1,236,305
Unemployed and travelling benefits	661,323
Four of the non-international bodies reported having made payments on account of benefits, the total expenditure amounting to \$8,370.	
Benefits Paid by Local Branches	
Death benefits	\$19,649
Unemployed benefits	30,435
Strike benefits	1,324
Sick benefits	53,303
Other benefits	23,465

General Features of the Report

The report follows closely along the lines of former reports on labor organizations in Canada, the various phases of the scheme of organization, showing the progress and achievements of the various bodies discussed.

The report serves as a directory of trade unions for the Dominion for 1916, including, as it does, particularly not only of every known local trade union in Canada, but also a list of all international and non-international central organizing bodies, together with the names and addresses of the chief executive officers.

REMOVE MARKETS TO OUTSKIRTS OF THE CITY

Great Wall of Paris Also will be Completely Torn Down.

Paris, Aug. 8.—(Correspondence of The Associated Press)—The municipal council of Paris is considering a proposition for the removal of the "Halles"—central markets—from the centre of the city to the outskirts, along the line of the present fortifications.

The great wall of Paris with its moats and casements was doomed to destruction after its uselessness was demonstrated in 1870-71. Its disappearance will leave a broad space available for all kinds of public improvements, including parks, playgrounds, sporting arenas and boulevards. A new hospital to replace the Beaujon hospital will be erected near the Neuilly section and farther north and east, in close proximity to the Martin's canal. It is suggested, a location can be provided for the markets where they can be reached directly by water and rail, reducing by more than half the cost of re-handling the provisions of Paris.

The future "Fair of Paris," to be organized somewhat on the lines of the recent "Lyons Fair," may, also, be located on the site of the fortifications. It is proposed to build an exposition palace, reserved more especially for industry and commerce than art which finds its place in the Grand Palais, and the favorite sites are the emplacement of the fortifications near the Porte Maillot or the Porte d'Auteuil.

How France Can Economize

In Five Years Could Wipe Out Its Probable Losses

Paris, Aug. 8.—France could economize on food alone to the extent of twenty billion francs a year, or enough to wipe out its probable war losses in less than five years, according to Mile. Dymska, an authority on scientific housekeeping, who herself is carrying out some extreme ideas in household efficiency. The French people she declares, are spending twenty billion francs a year merely to satisfy their palates, and all this might be saved if the people would consent to be nourished scientifically on the most economical rations measured each day as are those of horses and livestock. It could be done, too, she declares, without imposing any hardship on French stomachs.

SOLDIERS IN HIGH SPIRITS

By Special Wire to the Courier.
London, Aug. 8.—(Correspondence of The Associated Press)—To the civilian who notes the figures in the casualty lists issued every twenty-four hours, and sees fresh convoys of wounded arriving daily at the big London Railway stations, it seems that England is paying a terrible and ghastly price for whatever she is gaining by the "big push."

On that point the opinions of the fighting men themselves are of interest, especially of leaders who are habituated to a somewhat larger perspective than is possible in the ranks. Chance afforded a London reporter an opportunity to obtain the views of two such on the question of casualties.

It was when a hospital ship laden with wounded reached the landing stage at Southampton, and he was permitted to go aboard.

Comparatively few.
"What do you think of the British casualties?" he asked the wounded Second-in-Command of a Battalion which played its part at Fricourt, Montauban, and Bazentin. He was sitting with another officer, the lieutenant of a Battalion, which fought its way through La Boisselle to Contalmaison. Both were "walking cases," one with two machine-gun bullets in his shoulder and arm, the other with bomb splinters in his left side. One had the experience of Loos for a standard of comparison; the other the Adjutant, has been at the front since the early days of 1915.

"Well, there's a good many of them, of course. Seeing the whole here, it must seem tremendous. There are a good many, of course. You can't move head or foot on the western front, without casualties. But I'm bound to say it wasn't the number, but the fitness of them that impressed me out there. I mean, of course for the fire we've had to face. What do you think?"

He turned to the Adjutant.
Simply Paring the War.
"I think the proportion of casualties is pretty much the same as it's and selling, fifty thousand pounds is a lump of money to spend; but in business, people don't worry about the laying out of fifty thousand, if they see a good and safe return for it. It's always a good investment, if you can buy sixty or seventy, or a

FLIES, HEAT, DUST, THE PLAGUES OF MESOPOTAMIA

This Formidable Combination Has Stopped Fighting on the Tigris.

TEMPERATURE 130 DEGREES.

British Headquarters in Mesopotamia, Aug. 5.—(Correspondence of The Associated Press)—Flies, heat and dust, the three principal plagues of Mesopotamia, are what have stopped the fighting for the past several months in this theatre of the great war.

Flies are so thick that soldiers say it is impossible to keep them out of their food. A squadron of cavalry riding down a road looked as if they were wearing chain armour. When they came close enough it was found that what looked like mail was the steely blue metallic mesh of flies.

At night the flies disappear and the mosquitoes and sand-flies relieve them. Many species bite or sting. The thermometer runs up to 130 degrees in a tent. All the men wear a sun guard over their helmet and a spine pad, for a person can get a sunstroke here through the small of the back.

The persistent hot wind is better than complete stillness, though it flings sand and dust in the faces of the men, who eat sand, breathe sand, lie in sand, have sand in their ears, eyes and clothes.

There are different kinds of heat—the moist and tropical heat of the swamps of the Euphrates and the Shat-al-Arab, the parched and desert heat of the Tigris and the Karun. Each variety has its attendant insects and peculiar ailments, which often take the form of boils and eruptions. Disease has incapacitated more troops than bullets.

that's a small thing to the enormous gain in man-power and morale. You take it from me, our new armies can stand a lot of this; a deuced sight more of it than Germany could possibly stand. Our chaps are in better heart to-day than they've ever been since 1914.

"In the early days it was a case of pitting flesh and blood against metal. The Germans had the overwhelming advantage of us at every turn, and in every mortal way; except in the spirit of his men. He never could beat us at that. But in numbers, in preparation, and above all in guns and munitions, it was big fighting, and lots of it, to finish this war; and there can't be big heads: you win and tails I lose. But

fighting without proportionately big casualties. On the basis on which we are fighting just now, I wouldn't care if our casualties were ten times as numerous; and do you know why? Because, on the present relation of gains to losses, of what we sell to what we are getting for it, if our casualties were ten times what they are, the war would be over before the summer is over, and Germany would be down and out.

"And I'll tell you another thing," said the other officer. "A rare lot of those present casualties will be fighting fit within a month from the time of landing; and you watch their smoke when they get out again."

INJURED IN BALL GAME AND DIED

Martin Meyer, Hit on Head by Pitched Ball, Succumbs to Injuries. By Special Wire to the Courier. New York, Aug. 8.—An injury sustained in a baseball game resulted in the death yesterday of Martin Meyer, 24 years old, a pitcher on a nine representing a Long Island railroad electrical shop. Meyer was hit on the head by a pitched ball while at bat in a game on Saturday. He resumed playing, but later became unconscious.

A bad rear-end collision took place on the main line of the L.C.R. north Shore Division, near Gloucester Junction. No lives were lost.

BAD BLOW NEAR SOO

Sault Ste. Marie, Aug. 8.—In a terrific rainstorm which struck this section the steamer Ishpeming, bound up light, was blown ashore near the dyke at Sailor's Encampment. Tugs released her this afternoon and, after making an examination at the Soo, she passed up this evening. The vessel suffered little damage. The steamer Ranney, which went ashore at Cedar Point in heavy smoke of yesterday caused by forest fires, was released to-day by tugs after fighting 800 tons of iron ore. She locked down this morning.

WHITE SOX WON THE FIRST FROM THE CHAMPIONS

Chicago-Increase Their Lead by Defeating Boston By 7 to 1.

Chicago, Aug. 7.—Chicago increased its lead for first place over Boston to-day by winning the first game of the series from the world's champions 7 to 1. The White Sox outplayed the visitors at all stages of the game. Leonard's offerings were batted to all corners of the lot, and Russell received perfect support, Ness, Weaver and John Collins making sensational plays. Russell had little difficulty holding Carrigan's men safe. Ness' home run, Russell's steal of a home and squeeze play executed by Ness and Schalk were features. Score:—R.H.E. Boston 000000001—1 7 7 Chicago 10121020X—7 13 0 Batteries—Leonard and Agnew; Russell and Schalk.

At Detroit—By losing to-day's game the Philadelphia club placed itself on a position to tie Boston's record of 20 consecutive defeats, established years ago. To-day's defeat was the nineteenth straight for Connie Mack's team. The Athletics had an excellent opportunity to end their losing streak, as Myers was very good and Covaleski had, but

Haley's wild throws killed their chances. Score: R.H.E.

Philadelphia . . . 002000010—3 10 2 Detroit 02000200X—4 5 1 Batteries—Myers and Haley; Covaleski and Baker.

At Cleveland—Superior base running gave New York a 3 to 2 victory over Cleveland to-day. Stolen bases gave New York one of its runs, while bad base running by Cleveland cost two runs. The winning tally was scored in the 8th on Peckinpah's double and Oldring's single. Cleveland knocked Fisher out of the box, but found Shawkey quite a puzzle. Score: R.H.E. New York . . . 002000010—3 10 2 Cleveland . . . 000101000—2 8 2 Batteries—Fisher, Shawkey and Nunamaker; Bagby and Daly.

At St. Louis—St. Louis took sixth place from Washington by defeating them in ten innings to-day by 3 to 2. Sisler's double in the 10th scored Shotton, who had singled, with the winning run. Shotton made all St. Louis' runs. Score: R.H.E. Washington . . . 0000000200—2 7 0 St. Louis . . . 101000001—3 9 2 Batteries—Gallia, Ayres, Johnson and Henry, Ainsmith; Weisman, Groom and Severoid, Hartley.

Merchants who display the "Red Pennant on Dollar Day, will issue "Treasure Box Coupons" to purchasers. Two men of St. John were killed when fifteen tons of sugar fell upon them.

Took Three Games Out of Four with a Total of 13 Hits for Whole Series.

New York, Aug. 8.—New York made it three out of four from Chicago here yesterday, winning the last game of the series by a score of 3 to 2. A feature of the series just finished is that New York made only 13 hits in the four games and won 3 games, in each of which it made only three hits. Score: R.H.E. Chicago . . . 001000010—2 6 2 New York . . . 00003000x—3 3 0 Batteries—Lavender, Fremdergast, Seaton and Wilson; Archer; Schupp, Tesreau and Rariden.

At Philadelphia—Philadelphia won yesterday's game from St. Louis by knocking Ames off the rubber in four innings, the score being 5 to 3. Nichols had three singles and a double in four times at bat. Score: R.H.E. St. Louis . . . 100000110—3 11 2 Philadelphia . . . 02030000x—5 11 7 Batteries—Ames, Steele, Litz, Williams and Gonzales; Brotter, Snyder; Chalmers, Demaree and Kellner.

At Boston—The Braves scored a double shut out over Cincinnati yesterday, winning the first game by 2

to 0 and the second by 6 to 0. Toney pitched a great game for the Reds in the first contest, allowing but two hits, a triple by Maranville and a double by Wilhoit. He received wretched support. Boston connected for only six safe drives in the second game of Moseley, but they were timely and scored runs. The scores: First game—R.H.E. Cincinnati . . . 000000000—0 5 4 Boston . . . 00101000x—2 2 1 Batteries—Toney and Wingo; Barnes and Blackburn. Second game—R.H.E. Cincinnati . . . 000000000—0 10 0 Boston . . . 22002000x—6 6 0 Batteries—Moseley and Huhn; Allen and Blackburn.

INJURED IN BALL GAME AND DIED

Martin Meyer, Hit on Head by Pitched Ball, Succumbs to Injuries.

By Special Wire to the Courier. New York, Aug. 8.—An injury sustained in a baseball game resulted in the death yesterday of Martin Meyer, 24 years old, a pitcher on a nine representing a Long Island railroad electrical shop. Meyer was hit on the head by a pitched ball while at bat in a game on Saturday. He resumed playing, but later became unconscious.

A bad rear-end collision took place on the main line of the I.C.R. north shore Division near Gloucester Junction. No lives were lost.

WHITE SOX WON THE FIRST FROM THE CHAMPIONS

Chicago Increase Their Lead by Defeating Boston By 7 to 1.

Chicago, Aug. 7.—Chicago increased its lead for first place over Boston to-day by winning the first game of the series from the world's champions 7 to 1. The White Sox outplayed the visitors at all stages of the game. Leonard's offerings were batted to all corners of the lot, and Russell received perfect support. Ness, Weaver and John Collins making sensational plays. Russell had little difficulty holding Carrigan's men safe. Ness' home run, Russell's steal of a home and squeeze play executed by Ness and Schalk were features. Score: R.H.E. Boston 000000001—1 7 7 Chicago 10121020x—7 13 0 Batteries—Leonard and Agnew; Russell and Schalk.

At Detroit—By losing to-day's game the Philadelphia club placed itself on a position to tie Boston's record of 20 consecutive defeats, established years ago. To-day's defeat was the nineteenth straight for Connie Mack's team. The Athletics had an excellent opportunity to end their losing streak, as Myers was bled by tugs after lightening 600 tons of iron ore. She locked down this morning.

Because, on the present relation of gains to losses, of what we sell to what we are getting for it; if our casualties were ten times what they are, the war would be over before the summer is over, and Germany would be down and out."

PRIMARY FACTOR IN EXPLOSION HAS BEEN LOCATED

Barge 24 Has Been Found Off Foot of Morris St., Jersey City.

By Special Wire to the Courier. New York, Aug. 8.—Attorneys for the Johnson Lighterage Co., the president of which has been accused of manslaughter with three others on charges growing out of the explosion of munitions on Black Tom Island recently, yesterday announced that barge No. 24, owned by the Lighterage Co., and alleged by the Leitch Valley R. R. Co. to have been the primary factor in the explosion, had been located to-day off the foot of Morris street, Jersey City.

WRECK NEAR INGERSOLL. Freight Cars Smashed and Line Blocked for Some Hours. Ingersoll, Aug. 8.—Four flatcars and a caboose were badly smashed in a wreck on the Grand Trunk railway about a mile east of the town early yesterday morning, and the line was blocked for several hours, east-bound trains being sent around by Hamilton. A rear-end collision between two west-bound freight trains was the cause of the wreck. The first train slowed down near the overhead bridge, and a fuse was dropped as a signal to the other train. The warning, however, failed, and the one train crashed into the other with terrific force. The caboose was turned to one side and three of the flatcars were piled in a jumbled mass, while another one bearing an empty oil tank, was broken in half. The London auxiliary cleared the line.

Wm. J. Galbraith, of Lorneville, was severely injured when his horse suddenly bolted.

GRAPE JUICE THE RULE FOR NORWEGIANS

Soldiers, Sailors, and Workers on Public Conveyances, Must Cut Out All Booze.

Christiania, Norway, Aug. 8.—A bill prohibiting all workers on public conveyances as well as soldiers of both the fighting and merchant fleets from consuming intoxicating liquors during their working hours and also six hours before they take up their duties has been introduced into the Norwegian Parliament. It is believed that the majority of the legislators are in favor of prohibition of the bill will become law in a very short time and may possibly lead to prohibition throughout the country.

The measure provides for criminal prosecution of offenders against its articles, the first offense being punishable by fine and a reprobation by imprisonment for a maximum term of three months and liability to dismissal without possibility of return to public service.

Employees on street cars, omnibuses, taxicabs, railroads and passenger boats are to be subject to the provisions of the bill, as well as soldiers and sailors, but the King has the power to grant dispensation to the officers and crews of warships visiting foreign ports where they may be entertained by their hosts or have to give entertainment in return.

Most of the Norwegian steamship lines already make it a condition of their contracts with their officers and crews that they shall totally abstain from intoxicating liquors during service.

NEW YORK GETS BIG HEAT WAVE

Two Dead and Many Prostrations, Was the Result Yesterday.

New York, Aug. 7.—With two persons dead and many prostrations during the last twelve hours, indications were that to-day would break all previous records for excessive humidity. Although the temperature was only 78, three degrees lower than at the same hour yesterday, the humidity registered 99 per cent, five per cent higher than at the same hour yesterday, and within one per cent of the highest recorded at any time during any day this year.

STRIKE CALLED IN PHILADELPHIA

1,800 Out of 4,700 Employed Responded to the Local Order. By Special Wire to the Courier. Philadelphia, Aug. 8.—The strike of the members of the Amalgamated Association of Street Railway Employees was called by Harry Flynn, president of the local division at 3.30 yesterday morning, but apparently there was no change in the running schedule of the lines of Philadelphia rapid transit Company which operate the street railway. Flynn issued a statement saying that 1,800 of the 4,700 employees of the company had responded to the order and that several lines were up and others crippled. Strike leaders had replaced the men out on strike.

Company officials asserted that a negligible number of men had been called in and that all lines were being run as usual. As a matter of fact, police were stationed at all barns and power houses. P. AN DO. LINER HAD A WARM VOYAGE. London, Aug. 8.—The Peninsular and Oriental Liner Dongola, having arrived at Bombay from Basra, had a very hot and disagreeable voyage, and reports from a hospital and reports from the voyage. Of the seventeen were fatal, and there were five other deaths which were caused by the heat.

BRITISH PUBLIC VICTIMS OF FAKE CHARITY GAME. Committee Investigating Affairs Found Many Unauthorized Funds. By Special Wire to the Courier. London, Aug. 8.—(Correspondence of The Associated Press)—London society has been stirred by the revelation that some of its titled and most prominent members have unwittingly been lending their names to fraudulent war charity organizations. The names of the funds, and of the leaders of England's aristocracy who served on committees were not given out by the government committee which made the disclosures. Following close on the heels of the report the founder of a war fund was arrested, speedily convicted and sentenced to six months imprisonment at hard labor for converting its money to his own use. In passing sentence the court condemned widely known persons who had allowed their names to be used on "dummy committees."

London, Aug. 8.—The Peninsular and Oriental Liner Dongola has arrived at Bombay from Bas Ra, Asia, Turkey, serving as a hospital ship and reports 130 cases of heat stroke during the voyage. Of these, seventeen were fatal, and there were five other deaths which probably caused by the heat.

ANOTHER WINTER OF IT. Amsterdam, Aug. 8.—War Office advertisements appearing in Vienna newspapers indicate that preparations are being in Austria-Hungary for another winter campaign. Tenders are invited for the supply of furs and woolen goods of all kinds for the protection of the troops against cold. Deliveries must be made before September 15.

CATTLE EAT BULBS. Harlem, Netherlands, Aug. 8.—Large consignments of bulbs, principally crocuses and certain sorts of tulips, are being sold for cattle food in the bulb-growing districts of Holland, in consequence of the recently announced British prohibition of imports.

XI.—A Technical Error.

By O. HENRY

[Copyright by Frank A. Munsey Co.]

NEVER cared especially for feds, believing them to be even more overrated products of our country than grapefruit, scrapple or honeysuckle. Nevertheless, if I may be allowed, I will tell you of an Indian Territory feud of which I was press agent, camp follower and accessory during the fact.

I was on a visit to Sam Durkee's ranch, where I had a great time falling off unmanicured ponies and waving my bare hand at the lower jaws of wolves about two miles away. Sam was a hardened person of about twenty-five, with a reputation for going home in the dark with perfect equanimity, though often with reluctance.

Over in the Creek nation was a family bearing the name of Tatum. I was told that the Durkees and Tatums had been feuding for years. Several of each family had bitten the grass, and it was expected that more Nebuchadnezzars would follow. A younger generation of each family was growing up with them. But I gathered that they had fought fairly; that they had not lain in cornfields and aimed at the division of their enemies' suspenders in the back—partly, perhaps, because there were no cornfields, and nobody wore more than one suspender. Nor had any woman or child of either house ever been harmed.

Sam Durkee had a girl. Her name was Ella Baynes. They appeared to be devoted to each other and to have perfect confidence in each other, as all couples do who are and have or aren't and haven't. She was tolerably pretty, with a heavy mass of brown hair that helped her along. He introduced me to her, which seemed not to lessen her preference for him, so I reasoned that they were surely soul mates.

Miss Baynes lived in Kingfisher, twenty miles from the ranch. Sam lived on a gallop between the two places. One day there came to Kingfisher a courageous young man, rather small, with smooth face and regular features. He made many inquiries about the business of the town and especially of the inhabitants congenially. He said he was from Muscogee, and he looked in his hand, in which he crocheted a rod in for the mail. He said his name was Beverly Travers, which seemed rather improbable.

One day when I was messenger for him a gross of cigarette papers and a couple of wagon tires I saw the alleged Beverly Travers in a yellow wheeled buggy with Ella Baynes, driving about town as ostentatiously as the black waxed mud would permit. I knew that this information would bring no balm of Gilead to Sam's soul, so I refrained from including it in the news of the city that I retailed on my return. But on the next afternoon an elongated cowboy of the name of Simmons, an old time pal of Sam's, who kept a feed store in Kingfisher, rode out to the ranch and rolled and burned many cigarettes before he would talk. When he did make oration his words were these:

"Sam, say, there's been a description of a galoot miscallin' himself Beryl Edged Travels impairing the atmospheric air of Kingfisher for the past two weeks. You know who he was? He was not otherwise than Ben Tatum, from the Creek Nation, son of old Gopher Tatum that your Uncle Newt shot last February. You know what he done this morning? He killed your brother Lester—shot him in the cot-house yard."

I wondered if Sam had heard. He pulled a twig from a mesquite bush, chewed it a moment and said: "He did, did he? He killed Lester?"

"The same," said Simmons. "And he did more. He ran away with your girl, the same as to say Miss Ella Baynes. I thought you might like to know, so I rode out to impart the information."

"I am much obliged, Jim," said Sam, taking the chewed twig from his mouth. "Yes, I'm glad you rode out. Yes, I'm right glad."

"Well, I'll be ridin' back, I reckon."

RUSSIAN OFFICIAL

By Special Wire to the Courier. Petrograd, Aug. 7.—Via London, Aug. 8.—The section of the Russian official statement reporting military operations in the Caucasus says: "Caucasian front: In the region of Klakit-Tobitlik and Erzingan our troops again advanced several versts. North of the river Murachak the Turks attacked all day long, but were repelled by our troops."

"In the region of Muechsko the Turks continued to launch obstinate attacks and compelled us to retire a little distance to the north. The few Turkish forces, assisted by Kurds launched obstinate attacks which were repelled by our rifle fire, by grenade throwing and by counter-attacks."

Sam took out and opened a bone handled pocketknife and scraped a dried piece of mud from his left boot. I thought at first he was going to swear a vendetta on the blade of it or recite "The Gypsy's Curse." The few feds I had ever seen or read about usually opened that way. This one seemed to be presented with a new treatment. Thus offered on the stage it would have been hissed off.

"I wonder," said Sam, with a profoundly thoughtful expression, "if the feds has any cold beans left over?" He called Wash, the negro cook, and, finding that he had some, ordered him to heat up the pot and make some strong coffee. Then we went into Sam's private room, where he slept and kept his armory, dogs and the saddles of his favorite mounts. He took three or four six-shooters out of a bookcase and began to look them over, whistling "The Cowboy's Lament" abstractly. Afterward he ordered the two best horses on the ranch saddled and tied to the hitching post.

Now, in the feed business in all sections of the country I have observed that in one particular there is a delicate but strict etiquette belonging. You must not mention the word or refer to the subject in the presence of a feudist. It would be more reprehensible than commenting upon the mole on the chin of your rich aunt. It yet lacked two hours to supper time, but in twenty minutes Sam and I were plunging deep into the reheated beans, hot coffee and cold beef.

"Nothing like a good meal before a long ride," said Sam. "Eat hearty." I had a sudden suspicion. "Why did you have two horses saddled?" I asked.

"One, two—one, two," said Sam. (To be Continued.)

SIBERIA ROAD FREED Tie-Up Relieved and Over 200 Cars Daily Go East. Vladivostok, Aug. 8.—Over 200 cars are leaving Vladivostok daily for Siberia and Russia, with the result that the freight congestion has been relieved. Private cargo as well as government supplies is now moving. Recently there has been a slackness in government supplies. Consequently the goods of commercial concerns have moved with considerable freedom.

Many additional slips for ships have been arranged in the harbor, but that has not increased the capacity of the port for general trade to any considerable extent, as heavy railroad supplies coming from the United States monopolize the quarters much of the time.

AUSTRIAN OFFICIAL

By Special Wire to the Courier. Berlin, Aug. 8, by wireless to Sayville.—"In the southern section of Dohardo Hicout on Friday," says the Austro-Hungarian army headquarters report of August 5, "the Italians with at least seven regiments attacked our positions after four hours of artillery preparation. The Italian troops at first were frustrated by our artillery. Later the enemy temporarily entered the Austro-Hungarian positions at several points but everywhere was ejected. We took 230 wounded Italians and captured two machine guns."

Big Storm Hits Quebec

Hail, Lightning and Rain. Levelled Crops and Knock-Out Telephone Wires.

By Special Wire to the Courier. Quebec, Aug. 8.—A serious hail, rain and electric storm struck Quebec and district Saturday evening about six and wrought heavy damage to grain crops and in some places where the hay was not yet baled, this crop was also seriously hit. A number of houses in the surrounding communities were either hit by bolt or unroofed by the gale that swept at a rate of 50 miles per hour. At St. Augustin, among other accidents, four children of the Joseph Cote family were struck and numbered by lightning while at prayer. They later recovered, but all bear traces of the shock.

No real extent as to property and crop can be yet established as telephone connections are greatly interrupted. John F. Campton, a native of Souris, P.E.I., and for forty years president of the Denver National Bank, died last month in Denver, N.S., was found dead last week near the railroad. Foul play is suspected.

WAR INVENTOR DIES AT KINGSTON

Wm. Yellowly, Supt. of Canadian Locomotive Works, Dropped Off Suddenly.

Kingston, Ont., Aug. 8.—William Yellowly, superintendent of the Canadian Locomotive Works, died very suddenly at his home Sunday night of heart failure, aged 57. He was a native of Newcastle, England, and had been with the local works for over fifteen years. Deceased was a clever inventor and had put into operation a number of time and labor-saving devices. His most notable inventions were inspired by the war. He devised two machines which have materially increased the output of shells. Both are widely used in Canada, the United States and England.

BULGARIA MAY JOIN THE ALLIED FORCES BEFORE LONG

One Explanation of Inactivity of Entente Army at Saloniki is That the British and French are Simply Waiting the Course of Events When Bulgaria Will Change its Allegiance

Providence, R.I., Aug. 8.—The Providence Journal will print the following cable to-day from London: In the constant daily struggle on both the eastern and western fronts the Balkan situation has apparently been overlooked, although it is today the one element in the war which is engaging the vital attention of the Ministries of Great Britain and every country of Europe. The following statement is the essential part of a declaration made to me yesterday by a prominent official of the British War Office:

Eighty Per Cent. Veterans.
"There is now collected in and about the district of Saloniki a splendidly equipped army of 680,000 British, French and Serbian troops. Fully eighty per cent. of these troops are seasoned veterans. There have been no alleged explanations of the reason why this large and powerful fighting force has not taken part in the combined drive that has been in progress along the various fronts continuously for the past month. The reason is that Great Britain and France want to make no move that will bring them into a clash with Bulgarian troops at this time. It is very probable, indeed, that within the next few weeks Bulgaria will again shift her allegiance and declare her affiliation with Russia or withdraw from the Teutonic alliance.

"This vitally important fact, coupled with the exact knowledge now held by the British Government that Roumania is heart and soul with the allies, and will come in at the moment when they give the word, are the two outstanding developments of to-day which are causing more concern to all the fighting powers than the present military moves.

Bulgars Ignore Their King.
"Bulgarian troops, as far as can be ascertained, have been withdrawn from every line where they have been fighting with their Teutonic allies. The orders for the withdrawals are declared to have come from the War Office at Sofia, without any attempt to confer with King Ferdinand in advance.

"The elimination of Sazonoff from the Russian Ministry has taken away the last barrier to Roumania's decision to join the Allies. It is understood on authority which I am not able to quote, but which is indisputable, that the entire territory of Besarabia from Leovia at the Roumanian border east to the mouth of the Dniester on the Black Sea and along fifty miles of the Black Sea coast lies back to the mouth of the Danube on the Roumanian border is to be ceded by the Russians to Roumania, and that Roumania will at once place 450,000 troops fully equipped at the service of the allies

WOMEN'S INSTITUTE

Oak Hill.
The Oak Hill Women's Institute held its regular monthly meeting at the home of Mrs. Philip S. Fairlie. The president in the chair. The secretary being absent, Miss Mary Jennings then read the minutes, which were approved and signed. Red Cross work was then discussed once more. It was decided to send more parcels to boys at the front and also to buy more yard to knit socks for Red Cross work. A quilt is also being made to raise money for the work.

Miss Ida Ryment gave a splendid paper on the Twentieth Century Girl. She brought out some very fine points and the reading was certainly enjoyed by all.

Mrs. and Miss Farlie then served lunch and a social half hour was spent most enjoyably. The meeting closed in the usual way after giving Mrs. and Miss Farlie a hearty vote of thanks on their hospitality in lending their home for the meetings.

WHERE ARE THE KUT PRISONERS?

Had to Cross Desert at Worst Time of Year and May be Lost.

By Special Wire to the Courier.
London, Aug. 8.—3.55 p.m.—Apprehension exists as to the fate of the British prisoners taken at the time of the surrender of Kut-el-Amara to the Turks. Lord Robert Cecil said in the House of Commons yesterday that repeated inquiries had been made through the American embassy at Constantinople to ascertain the whereabouts of these prisoners, but that no reply had been received from the Porte. This, he said, inspired considerable misgivings, as the prisoners were compelled, after the fall of Kut-el-Amara, to cross the desert at the worst season of the year.

RUSSIA'S BIG CITIZEN ARMY SUPPLIES ALL WAR NEEDS

Zemstvo Union a Marvel of Organization—Supplies Everything From Boots to Bridges—Clothing Orders by the Million Executed Almost Miraculously

Petrograd, Aug. 8.—There are two mighty armies in Russia. One works in the front line trenches, shoots and charges bayonets. The other works back of the line and furnishes the front line what it needs.

One is an army of soldiers. The other is an army of citizens. But both are under the orders of the General Staff. The situation is unique in history.

The main corps of this citizen army is known as the "All-Russian Zemstvo Union," and no other nation in the world boasts anything like it. If the troops need no fur coats, the General Staff tells the Zemstvo Union provides them. Or maybe the Staff asks for socks, and underwear, or boots or bridges, or daggers, or bath-tubs, or tannin, or chop-axes. Whatever in reason it asks for it gets.

Soldiers and citizenry are working hand in hand. This statement is literal, not merely a figure of speech.

The Zemstvo—pronounced "Zemstervo"—came into being in 1864, or three years after the serfs were freed and the land divided. It began very modestly and developed very slowly, members being elected from three classes; Peasants, the landed gentry, and the urbanites owning shops, factories or other property.

Originally a Zemstvo, composed of say sixty members, averaged about twenty peasants, twenty gentry and twenty town property owners, but in 1890 the gentry were given by law what by the very nature of things they had had from the start—a preponderant voice.

Germans No Longer Manage Russ Affairs

When Great Muscovite Retreat Began a Year Ago Last Spring, Russian Industrial Men Put Their Heads Together and Very Soon Organized Its Factories.

GERMAN SPIES TRIED TO BLOCK ALL ORDERS

Mr. Hamilton Fyfe, an authority on Russian politics, and a warm friend of the present Minister for Foreign Affairs, has been reviewing his fraternalism with leading men in that grand Empire. For the first time since the war began he takes the world into his confidence and unfolds the ghastly truth about the failure of the Russian to maintain their armies in the field with sufficient munitions. It is generally supposed that the main loss began with the blowing up of the great factory at Petrograd. While that to some extent was true it was not all the truth.

This is how the situation stood twelve months ago:—"Russia was in a desperate case. I shall never forget the atmosphere of gloom in which we lived for a while after we knew that the armies were retreating because they had next to no ammunition. Many felt despair. Happily, there were stout hearts and capable heads among Russia's leaders. Not only among soldiers and officials, but among manufacturers, business men, engineers; among the people's representatives on town and county councils. Very quickly heads were put together. Changes began to be made.

And this is how the treacherous Germans served the unprepared but long-suffering Russians:—"They will not come back. One of the factories I visited was before the war under German management. It remained under management until the end of the war for some time after the war had begun. Then the direction was changed; became entirely Russian. Since then the production has increased, the workpeople are better treated, and therefore content. In every way

PLAGUE SHOWS NO SIGNS OF LET-UP

By Special Wire to the Courier. New York, Aug. 8.—To-day marked the beginning of the sixth week of the epidemic of infantile paralysis, and the daily bulletin issued by the health department this morning showed that the plague continues unabated. During the 24 hours preceding 10 o'clock yesterday morning 44 children died of the disease in the five boroughs of New York city and 145 new cases were reported. Since the inception of the epidemic there have been 5,161 cases, of which number 1,143 proved fatal.

"All-Russian Zemstvo Union" for relief of work among sick and wounded soldiers. And every Zemstvo joined in saving one, this solitary abstainer referring to work independently.

"Here we are: Use us!" said the Zemstvo people to the Government, and the Government accented. They wanted to be under the orders of the War Department and available only for work in the interior. The limitation was put upon them; they did not specify the limitation.

After this things moved rapidly. Hospitals in the interior were organized. So were first-aid, distributing centres, bases, "Front Brigades" were formed for handling wounded, sanitary trains equipped. During October and November, 1914, the Union sent the Serbian army 215,000 pairs of other warm garments, paid for by the Russian Government, but bought by the Zemstvo and handled by them.

Clothes by the Million In October, 1914, Gen. Shuvalov, then head of the Commissary (now Minister of War) asked the Union to make underwear for his men. The Union replied by delivering to the army before the end of the month, 7,500,000 complete suits! And over 7,500,000 complete suits! And over 7,500,000 complete suits!

Those of the majority declared that the Socialist party "should continue its full efforts in national defence until the invaded territories of France are liberated and Belgium and Serbia are re-established as free and independent states."

"NO TIP" MOVEMENT POPULAR

London, Aug. 8.—The "no tips" movement is gaining favor in London hotels. In one week six of them announced that they had decided to abolish the tip nuisance by adding a small percentage to customers' accounts.

TWO SUNK FOR SURE

By Special Wire to the Courier. London, Aug. 7, 4.30 p.m.—Lloyds shipping agency announces that the Italian sailing vessel Eugenia and the Norwegian steamer Aranda have been sunk. A report that the British steamer Spirai has been sunk, says the agency, is unconfirmed.

FOREST FIRE IN ITALY

By Special Wire to the Courier. Paris, Aug. 8.—A great fire in a forest near Savona, Italy, along a front of nearly miles, is reported in a Havas despatch from Rome. Two thousand soldiers have been sent to fight the fire, the cause of which is unknown.

FAIRM LOAN COMMISSION

Not all Plain Sailing in Idea to Sell Island

By Special Wire to the Courier. Copenhagen, via London, Aug. 8.—While the belief still seems to prevail that a majority of the Rigsdag has been set for next Thursday, the concession by the United States, the agitation against thus disposing of the Islands appears to be growing throughout the country, influential provincial papers strongly denouncing the proposal.

Holidays are Postponed all Over Britain

Workingmen, Except a Few, Accepted Loyalty Decision of Government

By Special Wire to the Courier. London, Aug. 7.—With the exception of a portion of the coal miners of South Wales and the cotton brokers of Lancashire the British working people to-day loyally accepted the decision of the Government that holidays should be postponed until the demand for munitions was not urgent. The South Wales miners union decided early last week to observe to-day, "Bank Holiday," one of Britain's national holidays, as usual, but later reversed their decision upon representations by the authorities that coal was necessary to the continued working of the munition factories.

COL CRAIG MAY GET COMMAND AGAIN OF UNIT

It is Understood Investigation by Ottawa Exonerates Him of Charges.

Guelph, Aug. 8.—Lieut.-Col. J. Craig, who was deposed as officer in command of the 153rd Overseas Battalion on the eve of its departure for the London camp in June, but who has put up a determined fight ever since, was in the city to-day. Col. Craig was in a happy frame of mind, he having been informed by his command, Mr. Morphy, of Listowel, that Gen. Smith, who came to Guelph to make investigation into certain charges against Col. Craig, on the strength of which he had been deposed, had made a report in his favor.

Col. Craig stated emphatically to-day that he had been exonerated from any wrongdoings that his name had been cleared of the stigma which had been attached to his dismissal and that, in all probability, he would be reinstated in his command of the 153rd.

He said that Gen. Smith, in his report, stated that Col. Craig should never have been dismissed as he was and that the charges against him were petty ones.

Tirpitz' Reply to a Friend

Makes a Rather Cryptic Remark About American Relations

London, Aug. 8.—A Reuter dispatch from Amsterdam says the Hamburg correspondent, quotes Admiral Von Tirpitz, of the German Navy as having sent the following reply to a congratulatory telegram from a German officer in our Fatherland, that Germanism can be maintained and made its way out if we emerge from this war in a firm position towards Anglo-Americans. We gain this position if Germany, not England, becomes predominant in Flanders.

THOUSANDS OF MEN REQUIRED FOR HARVESTING IN WESTERN CANADA

Thousands of men are required to help in the great work of harvesting the Western crop. The task of transporting to the West this great army of workers will fall to the lot of the Canadian Pacific Railway. Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta will be run, and special trains operated, making the trip in about thirty-six hours, without change or transfer.

"Going Trip West," \$12.00 from Winnipeg.

"Returning Trip East," \$18.00 from Winnipeg.

A Real Problem.

What is a new laid egg? That was the rubric problem that a Scotch Sheriff had to fathom, and one that led him to say, after a stiff debate between argumentative lawyers, he would require time to decide before making an judgment upon the legal questions involved. Eggs were offered for sale to which the false description was applied, "New laid eggs." As a matter of fact, not disputed at all by the defendants, the eggs were "laid" in Denmark and exported to Glasgow.

But that transpired will be gathered from the following dialogue: The Sheriff—How long will eggs remain fresh? Mr. Hutchison—1 am told about three weeks to a month. After that, I suppose, the eggs talk for themselves. (Laughter.) The Sheriff—Did you try one? Mr. Hutchison—No, but the prosecutor did, and he is still alive.

Water Works Notice Change in Hours for Sprinkling Laws

No person or persons shall be allowed to sprinkle, or use in any manner whatsoever, the water supplied by the Board of Water Commissioners upon the LAWN, GARDENS, YARDS or GROUNDS OF ANY DESCRIPTION for the Section North of the that portion of the City East of Clarence Street and North of Colborne St., except between the hours of 7:30 and 9 p.m. The balance of the city between the hours of 6 and 7:30 p.m., excepting on lawns of 5,000 square feet and over. Consumers are permitted to commence one hour earlier in each instance, and any person wishing to use the water on their lawns or gardens in the mornings in place of the evening may do so between the hours of 6 and 8 a.m. by giving notice to that effect in writing to the Secretary.

It must, however, be clearly understood that the water cannot be used on lawns or grounds both morning and evening. City time to govern in all cases.

The commissioners ask the support and co-operation of consumers in carrying out these regulations, owing to the exceptional strain upon the Works.

FRED W. FRANK, Secretary.
Water Commissioner's Office, Brantford, August 2, 1916.

Start To-morrow and Keep it Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well, what a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, split-headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the stomach and flushing system each morning, and getting the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should each morning, before breakfast, drink a glass of real hot water with a teaspoonful of lime-water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, previous day's fermentations, thus cleansing, sweetening and purifying the entire alimentary canal, before putting more food into a large volume of water and hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour ferments, and gives gas, and acid, and gives gas, and an splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, sick stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside bathing before breakfast.

ITALIAN CAVALRY AUSTRILIANS FROM DEFENSIVE POS

Only the Beginning Campaign Which V Results--Gorizia Almost in Italy's

By Special Wire to the Courier. Bulletin, London, Aug. 9.—By Italian cavalry have abandoned on the Isonzo and Carso fronts, bridged by the Italians, according to this afternoon.

Rome, Aug. 9, via Paris.—on the Isonzo front are regarded beginning of the campaign. Although great satisfaction, it has been presumed, nor have their been any. The attack was to have been made by the Austrians, but was delayed by the Austrian officers. "At last our waiting, planning fruit," says the Giornale d'Italia, Austria's flag London, Aug. 9.—(New York London Times from Italian headquarters.) "The Austrian prisoners who satulwar and men over 40. They were in the worst possible uniform—a veritable beggar's by statements of an escaped Russian morning, about the extremely trial trips on the snow."

"Very few of these men have belts, which goes to show how a attack upon them."

At Mercy of Godona London, Aug. 9.—The city of Gorizia, the powerful key position of the Austrians, on the Isonzo front, is night is at the mercy of Gen. d'Annunzio's advancing army.

The Gorizia bridgehead has fallen. After a terrific battle, which has been continuous since Friday, and which the Austrians have lost 10,000 men in prisoners alone, the Italians this afternoon. The 10,000 prisoners were storm by Italian straits fell back across the Isonzo.

Surrendering by Thousands Prisoners are still surrendering by the thousands as a result of Italian operations, says a Gen. News dispatch from Rome, in two days, the despatch adds.

"The conviction is general in Rome," the Havas correspondent there writes, "that we are at the signing of a vast offensive, the goals of which are certain, although they may be slow."

Final Link in Great Push. The Italian offensive on the Isonzo, launched on Aug. 4 in a tremendous thrust, is the first link in the general allied "push" on fronts. It has resulted in the complete capture of Monte Sabotino, Monte San Michele, the lofty peaks which look down upon Gorizia, and which stands in a valley, amid towering mountains, is now controlled.

Resolution passed by Association in Convention; Laker Loaf Advocated.

By Special Wire to the Courier. Salt Lake City, Aug. 9.—The National Association of Master Bakers in session here, is on record in favor of the ten-cent loaf bread.

A resolution favoring the increase in the size of the loaf was unanimously adopted last night. President Jay Burns, in a lengthy address, stressed the economic necessity. A resolution was also adopted, favoring a wide campaign of publicity to educate the public about the bakery.
