## \$5,145 to Col. Burleigh's Credit To Offset \$11,911 Total Which Is Not Properly Accounted For

### Court of Inquiry Into the 19th Regiment Finances Closed Last Night After Some Rebuttal Evidence Was Produced.

### Court Holds Conference to Decide What Recommendations Shall Be Made—Offers to Reopen Enquiry If Col. Burleigh Has Any Further Evidence to Offer.

The military enquiry into the finances of the 19th Regiment while it did guard duty on the Welland Canal came to a sudden close last night after lasting about eight days, with night sessions held in Gen. Cruikshank, president, and his associates, Col. Young and Col. Elkins and Major Smythe, are hard workers, and did not scruple to run over the arranged time for adjournment, especially at the night sessions.

A corps of expert stenographers and typewriters was kept constantly at work taking and transcribing the evidence. The stenographers worked in relays, each taking a witness or two and then retiring to the outer room to dictate his notes to a typewriter. Millions of words were taken.

The previous day's evidence was always ready in neatly typewritten form for the use of the members of the court each day.

Last night some rebuttal evidence was put in by the special investigators, two witnesses being examined. One of them Private Lawrence Jones, said he thought food from the men's rations had been used by the officers' mess.

As things stood at adjournment, there is something over \$5,000 Col. Burleigh's credit to offset against the \$11,911 which the court told him represents the unexplained total. This amount will probably be allowed by the court.

Besides the \$5,000 odd, evidence from day to day showed that many things were purchased for cash and no receipts asked from the vendor.

At the conclusion of the evidence last night Gen. Cruikshank announced that the court had adjourned to hold a conference on the evidence and consider what recommendations were to be made. If Col. Burleigh had any other witnesses to call the enquiry would be reopened to admit this evidence.

Colonel Panet went on the stand first yesterday afternoon at the military enquiry into the 19th Regiment finances, and gave evidence to the effect that departmental organizations of purchases of supplies locally could easily be obtained. He said the regular equipment of supplies to units called out for active service, like the 19th, was, in his opinion, very inadequate.

Major Sidney Stott, on special duty as stock-taking officer attached to the staff of the D.E.O.S., stated that he first inspected the 19th on November, 26, 1916. The quartermaster was Lieut. R. Greenwood. His method was to compare vouchers with ledger entries. His books were well kept and his vouchers were filed.

"I considered him a very capable quartermaster, and he used an elaborate system of checking off rations, etc. at the various posts," said Major Stott. "I would expect he would be equally methodical and exact with reference to his financial transactions as in his other duties."

Sergt-Major Charles Yaxley, acting quartermaster of the 19th, said there was very little camp equipment on hand. There was nothing on charge except a lot of oil stoves, a set of scales, some knives and forks and some dishes and mugs. There are about eight gas ranges belonging to the engineers.

Colonel Burleigh was recalled to testify again on accounts of local interest. Major Smythe doing the examining. An account of \$320.32 of Watts and Bate was shown him and he could not state definitely whether any of the goods were used for the mess, but he was quite certain they had not been used for the officers' mess.

J. H. Sandham's account was for \$92.59. He identified it.

"I think that Colonel Burleigh should state that he presents these accounts as a set-off against the sum total of the amount charged against him," suggested the General.

Colgate's account was \$532.34. Against this account were issued departmental cheques totalling the

## POSTMEN MAY TAKE A REFERENDUM ON STRIKE

### Restlessness All Over Canada on Account of Low Wages.

OTTAWA, Jan. 23.—Restlessness among letter carriers in many places in Canada because of low wages, which has been brought to light by strike votes and protest meetings in several cities—notably, Toronto, Hamilton, London and Quebec—is to be made the subject of a national inquiry by the head officers of the organization of letter carriers of Canada.

Announcement has been made in Ottawa that this inquiry will probably take the form of a referendum, asking if the letter carriers are in favor of a general strike from coast to coast to enforce wage demands. No definite information could be gleaned last night, but it is believed that the machinery for taking the referendum has been prepared and that the result of the vote will be in the hands of the union within a few weeks.

The letter carriers at present start on a wage of \$1,427 a year, and the general demand is for a minimum of \$1,700 a year.

## Over Five Years Of Active Service

### Major C. G. Nash Pays Visit to Parents Here on Way From Mesopotamia.

Major C. G. Nash, son of Dr. A. H. C. H. Nash, has arrived in this city from Mesopotamia for a ten-days' visit to his parents. He is on his way back to London, where he was formerly in the offices of the Bank of England.

Major Nash went into service in August, 1914, and will be demobilized until he returns to London, so that he has had five and a half years of active service in behalf of his country, not only in Mesopotamia, but in France. He has had a highly creditable military career, and citizens of St. Catharines, we feel certain, extend a welcome to him.

## McBride Insulted By Rollo's Remarks

### QUESTIONS HIS RIGHT TO LEADERSHIP—LABOR IS NOT A U. F. O. ADJUNCT.

BRANTFORD, Jan. 23.—"All I want to say in reply to Mr. Rollo's insulting remarks," said Mayor McBride, M.P.P., to the Star yesterday, "is that if he would spend a little more of his time acting in the interests of the Labor Party and a little less helping hunt seats for seatless U.F.O. Ministers, there probably would not be so much discontent. We know he was one of the committee on the seat-hunting campaign, and we can't see where Labor should have had anything to do with this disgraceful piece of political juggling.

With reference to the conference of Labor members held in Toronto on Tuesday, Mayor McBride said: "I called the meeting at the request of several of the Labor members. Only those who had asked me to call it were present. They were Messrs. Halerov, of Hamilton; McNamara, of Toronto; Greenlaw, of St. Catharines, and Swazyie, of Niagara Falls. All were more or less restless, and thought that things were not going right. They asked me to call a meeting, and I did so. My position is exactly the same as on the day that I bolted from the so-called joint conference.

"I am not trying to influence any other members. They can do as they like. But as a Labor man, I am not going to accept any responsibility for the ridiculous seat-hunting campaign which is going on. I think what prompted the meeting was general dissatisfaction, and the apparent in-

## 'THERE IS NO GULF BETWEEN HEAVEN AND EARTH,' SAYS SIR OLIVER LODGE IN A SPEECH

### BIG BEN TRYING TO RUSH SEASON?

There is something radically wrong with Big Ben on the Court House tower. This morning, to the writer's personal knowledge, he struck six at five o'clock; seven at six, and eight at seven. It may be the old fellow is trying to rush the season in daylight saving, perhaps in an endeavor to make up for lost time of a year ago, when, because he happened to be located on top of the county buildings, it took him several days to find out what time it actually was.

## Out of Darkness Comes the Light

### Noted Japanese Scholar and Preacher Brings the Gospel to People Who Have Been Sending It to His People.

It is a remarkable thing that a man who forty years ago was a heathen in Japan, and who was converted to Christianity should now be coming to this city and delivering a pleasant address for the Inter-church Forward Movement, telling the people facts of an impressive nature and which inspired them with greater zeal. This, however, is what occurred at St. Thomas' Church last night. Rev. Paul Kanamori spoke before a large audience, not all who attended being able to get seats. He delivered a message which will long be remembered by those who heard him.

### Out of Darkness

Forty years ago this noted Japanese scholar, like thousands of his countrymen, through an American military man, who was stationed in Japan, he was taught the Bible and became deeply interested in its mission. When persecution was carried on among his people against those who took up Christianity, he, with other youths fled to the mountain of flowers and there vowed to preach Christ or forfeit their lives. Later on he became interested in German studies of theology and philosophy. As a consequence he lost most of his keen interest in the religion, he had learned till the death of his wife changed the whole tenor of his career and the Bible brought a new and richer meaning to him. From that time he pursued his study of the Scriptures and has in the years that have followed been active in converting many thousands of Japanese to Christianity.

### Told of Experiences.

At the service last night he gave a recital of some of his experiences. He told what Christianity had done among his countrymen and said that the time had come when the Church of Christ must exercise a new and livelier sense in Japan and elsewhere if the principles that had won the war were to continue to triumph. Rev. Mr. Kanamori paid the Anglo-Saxon race the tribute of saying that it was through their determination that the great European struggle had been won.

During the service Rev. Canon Read the service, and Rural-Dean Almond of Merriton read the tesson. Rev. A. H. Howitt introduced the speaker. Rev. A. H. West was also in the chancel.

A feature of the programme was the rendition of Sullivan's fine anthem, "Sing, O Heavens," which was conducted under the direction of Mr. Ison of St. George's Church, and Mr. Sidney English.

The Cassandra was damaged in a collision with the tug F. W. Roebing in Halifax harbor.

### Reaches Peak and Has View Beyond Veil—To Construct a Pathway to Great Beyond.

NEW YORK, Jan. 23.—There is no gulf between Heaven and earth. Love bridges the apparent chasm. The other life is screened from us, but it is all around us. The saints and prophets spoke truly. The peak from which things beyond the veil may be seen has been reached. We must believe that the youths who lost their lives in the war live on. We must think of them as being with us still.

This was the burden of Sir Oliver Lodge's message to a huge audience in Carnegie Hall yesterday afternoon. He said at the outset that he did not wish to be dogmatic; that he was not ready yet to arouse controversy; and that he did not believe his theories to be infallible. He put them forward as the result of a lifetime of experiment and study.

Half a dozen times he referred to the doubt that befores men's minds on the issues which are now occupying his attention. He indicated plainly that the time had come when he and men who had spent their lives trying to get behind the veil were ready to construct a pathway for the

stumbling, the doubting and the skeptical. He explained that his lecture on "The Reality of the Unseen" was introductory to a series, in which he proposed to treat of the evidence of survival and the destiny of man.

Sir Oliver was matter-of-fact, and logical in his first public address since landing in America this time. He might have been delivering an after-dinner address, so calm and informal was his manner.

"I believe the ether of space is a substantial reality," he said, "with extraordinarily perfect properties, with enormous energy, a constitution which we must discover and a substantiality more impressive than that of matter. It is the most important thing in the material universe. Matter is made of ether. In these days of the Einstein theory, it is legitimate to doubt the reality of ether. But it is always easy to doubt. And the fact that ether does not make a direct appeal to our senses makes some of us skeptical. But I feel certain that in ten or twenty years the skeptics will come to the view that ether cannot really be dispensed with."

## McCoig, Liberal Backs Doherty In East Kent

### M. P. Will Support the Minister of Agriculture Against a Liberal Candidate.

CHATHAM, Jan. 23.—Chances are that Hon. Manning Doherty, minister of agriculture, will be elected by acclamation in the coming election in East Kent. If not he will have the actual support of local leaders in the Liberal and Conservative parties, who feel that the Drury Government should be given an opportunity to perfect its organization and get on with the sessional program.

Mr. Archie McCoig, Liberal member for Kent, in the House of Commons, says that he is not in favor of a contest at the present time. He thinks the Liberal party should not embarrass the United Farmers, but should give them ample scope to carry into effect their legislative program.

"It would be in the interests of the county to have a Cabinet Minister as its representative in the Legislative Assembly," said Mr. McCoig.

Mr. McCoig's views are shared by Mr. R. L. Brackin, Liberal M.P.P. for West Kent, who is not in favor of contesting the seat. The defeated Liberal candidate in East Kent at the recent general election, however, has been in favor of nominating a Liberal to oppose the new Minister of Agriculture, though he is not anxious to be the standard bearer himself. He was beaten by over one thousand votes at the general election by Mr. J. B. Clark, who has retired in favor of Mr. Doherty.

If Mr. Hartley Dewart, Provincial Liberal leader, insists on a battle in East Kent, he will not have the support of local Liberal leaders, who have a strong hold on the county.

Mr. McCoig has the confidence of the United Farmers in Kent, and if Mr. Dewart insists upon a contest there is every assurance that Mr. McCoig will take the stump against the Dewart candidate and will be found fighting for Hon. Manning Doherty.

If the Conservatives decide to oppose the minister, which is very improbable, the Federal Liberal member will be a formidable opponent of the Tory forces.

In view of the attitude of Mr. McCoig, Mr. J. J. Morrison has intimated

## Crown Counsel Attacked By Men At the Peg Trial

### Defendants Charge Prejudice Against Prosecuting Lawyer as Members of Citizens Committee.

WINNIPEG, Jan. 23.—That all motions to challenge the array of the jury panel would have to be made today was the ruling delivered by Mr. Justice Metcalf, after a prolonged argument at the trial of the seven strike leaders in the Assize Court.

Alderman John Queen, one of the accused, who is defending himself, made a motion objecting to the fitness of the Crown Counsel to represent the people in the present case on the ground that they were prejudiced and biased and that their past actions clearly indicated this. His main argument was based on the fact that the four leading Crown counsel had been prominently active in the Citizens' Committee of One Thousand.

W. A. Pritchard, another one of the accused, who is defending himself, made a similar motion.

Strong feeling against Mr. Andrews was shown by both defendants, who spoke on their own behalf.

Pritchard declared that he would not put it above Andrews to ask the jury.

Mr. Justice Metcalf allowed the men to speak at length, and at times halted the proceedings, explaining legal points safeguarding their rights to them.

He declared, however, he knew no legal method except disbarment by which right the Crown counsel to appear could be challenged.

E. J. McMurray, representing the accused, George Armstrong, it is understood, will argue the legal aspects of these motions.

Wall Street was quiet, and trading was within narrow limits.

Demand Sterling opened at new low record of \$3.60 1-4 but rallied to \$3.62 1-2.

The United Farmers will support McCoig at the next Federal election. They have nothing to gain by opposing the sitting Liberal member in the House of Commons since he has protected their interests better than anyone else could.

VIEWING OUR NEIGHBORS

In the interest of neighborly relations Canadians should try to view events in the United States, until the Presidential contest is over with patience and a sense of humor, says the Toronto Globe today. The most amiable qualities of a nation are not the most conspicuous in the calcium light of a political campaign. Adam Smith, a century and a half ago, spoke of "that insidious and crafty animal vulgarly called a statesman or politician, whose councils are directed by the momentary fluctuations of affairs." He should have discriminated between the statesman and the politician, but the latter is usually uppermost during an election.

Just now across the line he is showing his professional agility in trying to keep step with the "momentary fluctuations of affairs," and in his merry dance he will have no compunctions about treading on John Bull's corns. The pro-Sim Fein resolutions of Congress, the attempt to deny every British Dominion a seat in the League of Nations Assembly, and the spectacle of a Senate Committee inviting Egyptians and Hindus to recite their grievances against Great Britain while millions of negroes in the United States have no political rights and the Filipinos are refused their independence, should be dismissed by British peoples as so much election froth, in no degree representing the solid, sober sense of the country. In the end our neighbors will choose, as they have done almost invariably, a broad-minded gentleman as president, who will treat other nations with courtesy and try to keep peace with the world.

As neighbors bound to the United States with innumerable intimacies we have a special responsibility to remain good-natured under these provocations. The mischief-makers are more noisy than numerous, and it will be seconding their designs if we resort in kind. Our aim should be to preserve and strengthen our relations with the great body of thinking Americans who have only cordial sentiments toward Canada and the British Empire.

Canadians would not care to be judged in the United States by the occasional antics of some of their own politicians. Tall-twisting in the republic had its Canadian counterpart in the anti-reciprocity campaign of 1911. Canadians cannot recall with pleasure the bitter attacks upon a president who was an honest friend of this country. The anti-American cry was, of course, hollow and insincere, raised to serve a party purpose. We shall have to ignore a good deal of similar claptrap over the border.

Rev. Max Arndt, a well-known Lutheran minister, pastor of a church in Bridgeport, died suddenly at his home in Kitchener.

Friendship

Sometimes, in the hurry of life, we forget the sacredness and overlook the value of that friendship which can make life so much sweeter if we will let it.

No matter how busy you may be, you should never be too absorbed not to keep in touch with your friends. A note, a book, a message—something that says:

"I am here if you want me; I have not changed. I do not have much time, but I do not forget."

If you have a friend to whom you can go in times of joy and sorrow, on whom you can count on at high tide or low tide, one who understands you as you are, loves you in spite of your faults, will stand by you through thick and thin, then you are lucky.

And if you have not such a friend, who you are missing much of life's sweetness. And if you think it over you will realize that it is your own fault.

You will remember that letter you have never answered, that book you have never returned, and that visit you never have paid, that message you never sent.

Maybe you think that friendship should overlook this neglect, that it should live in spite of these affronts. And sometimes it does. But, if so, it is because your friend is true to her friendship, which you are forgetting.

With most of us it is just a habit to say we have no time. It does not take much time to keep up with one's friends, but it does take thought. Your friend, if a real friend, will not expect much of your time, but she will expect your loyalty. She will want to feel that she can count on you for that, and if she can then she will overlook your small shortcomings.

Friendship is too precious, if it is real, to be lightly thrown away. The time will come, no matter how many acquaintances you may have, when your heart will turn to that deeper relationship, and when nothing can take the place of that voice you know and the touch of that hand that has clasped yours so many times.

But if you have deliberately given up that friendship, will it be there to be called back at your will?

EDITORIAL NOTES

A Hamilton despatch states that Mr. G. G. Halrow, M.P.P. for East Hamilton, is coming in for a good deal of criticism at the councils of the Labor Party there for his remarks with regard to Premier Drury. He is credited with having stated that Mr. Drury is not big enough man for the job that is ahead of him. It would, we feel certain, be better if factious criticisms were withheld till a session of the Legislature has met and the public is given an opportunity of fairly sizing up the men who have been chosen to administer public affairs. To hang a man before he is tried is not the fairest way.

WOMAN SO ILL COULD NOT WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health.

Perth Amboy, N.J.—"For three years I suffered with a severe female trouble, was nervous, had backache and a pain in my side most of the time. I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in your newspaper, and I tried it. Now I am better, feel strong, have no pains, backache or dizzy spells. Every one tells me now well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound—that is what makes me feel well and look well. I recommended it to my sister and she is using it now. You can see this letter if you wish for it is certainly a grand remedy for a woman's ills."—Mrs. MARTHA STANISLAWSKI, 624 Penn St., Perth Amboy, N.J.

For forty years Lydia E. Pinkham's Vegetable Compound has been overcoming such serious conditions as displacement, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

Old Joe

He dropped into his usual seat One night in Stokes' store; His weather-beaten, whiskered face A sad expression bore.

He was a pessimistic soul, As most folks were aware, And really couldn't see much good in people anywhere.

Bob Stokes, the grocer, was a man Good-natured to the core, And always had a word of cheer For patrons of his store.

He asked Old Joe about his health, And Joe, he says, says he is well; "Altho' my health is pretty good, 'Tain't what it ought to be."

Bob spoke of friends around the place, As cheery as could be; Joe made a face, and sighed and said "Tain't what they ought to be."

And business everywhere, he thought, Was fairly up a tree, "Altho' it's pretty fair," he says, "Tain't what it ought to be."

Bob spoke of this and spoke of that, The church and school and all; Joe's face took on a dismal look, Just like a cellar wall.

"They may be good enough," he said—His nature plain to see—"But all the same," they're none of them."

Bob Stokes could not stand any more And thimiped his fist "kerswat!" Down on the counter good and hard, Joe jumped like he was shot.

"Old Joe," Bob said, "you make me tired, It sort of seems to me, Most things are good enough but you Ain't what you ought to be!"

Halt Bolsheviks In South Russia

LONDON, Jan. 23.—The war office announces that the centre and left fronts of the Caucasus army the Bolsheviks have been forced back from the line of the Sal River astride the Tsaritsyn-Ekaterinodar railway. Farther west the Bolsheviks have made repeated attempts to cross the Don east of Rostoff, and have succeeded in establishing small bridge-heads on the left bank at two different places.

To the west of Rostoff their attempts to cross have been repulsed with heavy losses. The Red cavalry here lost twelve guns, one hundred machine guns and many prisoners. On the Crimea front the Bolsheviks are approaching Esthumses, Chongar and Perekop.

WILL SEND YACHT FOR TRIAL WITH CUP CHALLENGER

NEW YORK, Jan. 23.—Sir Charles Allom, a leading English Yachtsman, who arrived in New York yesterday on the Cedric, said today that Sir Thomas Lipton will send a 3-meter Shamrock to America this spring to meet the cup challenger, Shamrock IV, in a series of trial races. Alfred Draper will be the skipper of the 23-meter boat, Sir Charles said.

Jack Dempsey has appealed for an official investigation into the charges that he was a draft-dodger during the recent war.

THE BETTER YARN

"In Borneo" remarked George "women do the pearl fishing." "Don't they elsewhere?" demanded Tricotine.—Louisville Courier-Journal.

"Pop." "Yes, my son." "Why do they call a ship 'she'?" "I suppose it is because she always seems to require a mate, my boy."—Yonkers Statesman.

"Why don't you go out before your people and tell them that you have earned this great office and you want it because you are entitled to it."

"That procedure," rejoined Senator Sorghum, "would be extremely unattractive. No polished politician thinks of accepting public responsibility excepting with reluctance and as a great favor to his fellow man."—Washington Star.

"Why are so many young people sent away from home to study music?" "Most natural thing you could imagine. Folks round the house don't want to be bothered hearing them practice."—Washington Star.

Hospital for Sick Children TORONTO

Upkeep of Big Charity Requires Fifty Cents a Minute.

Dear Mr. Editor:

The 44th annual report of the Hospital for Sick Children, Toronto, shows a notable advance in every department of its service to the suffering and crippled youngsters of this province. The ward accommodation has been taxed to its capacity, and the summer annex, the Lakeside Home, was opened for the first time since the outbreak of war. The daily average of out patients has increased during the year from 192 to 228, including children from practically every county in Ontario. Even had the cost of supplies and labor remained stationary, the substantial increase in the number of patients would alone account for the addition to the city's debt, which at the close of the fiscal year was \$109,000. This debt has become an embarrassing burden. Further increase must threaten impairment of its existing facilities.

The Hospital is in the forefront of all institutions upon this continent devoted to the care of sick children. It cost \$286,339 to maintain last year. This great sum not only puts at the service of the children of Ontario all the resources of medical science, but, in addition, provides for a training school for 120 nurses and for numerous clinical facilities for the University students who are preparing to engage in their profession throughout the province.

The income which must be forthcoming to finance this absolutely essential work amounts at seven hundred dollars a day; and, as there is no endowment fund, all but a fraction of that amount has to be derived from individual benevolence. Therefore, the Trustees are making a Christmas appeal to every lover of children to foot the bills for some period of time, no matter how short it may be. A minute of mercy costs fifty cents.

For churches, societies, lodges, etc., who have more ample funds wherewith to assist the youngsters to a fair start in life, the naming of cottages is extended in recognition of gifts of \$2,000 to the Main Hospital or \$500 to the Lakeside Home, which can be paid in annual installments if so desired. Literature, illustrative of all branches of the past year's work, together with any other information desired, will be gladly furnished on application to the Secretary, the Hospital for Sick Children, College Street, Toronto. Contributions should also be addressed to the secretary.

POISON LIKE UNTO VENOM OF SNAKES

Professor H. Strauss, M.D., of the Royal Charity Hospital, says: "The cause for an attack of gout, rheumatism, lumbago, is supplied by the increase of uric acid in the blood serum, the result of various causes, the most frequent of which is renal. Before an attack, one suffers sometimes from headache, neuralgia, twinges of pain here and there."

When your kidneys feel like lumps of lead, when the back hurts or the urine is cloudy, full of sediment, or you have rheumatic pains or lumbago, seek relief, obtain at your nearest drug store "Anuric" (anti-uric acid).

This is the discovery of Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y. "Anuric" is an antidote for this uric acid poisoning and dissolves uric acid in the body much as hot coffee dissolves sugar.

"Anuric" will penetrate into the joints and muscles, and dissolve the poisonous accumulations. It will stamp out toxins.

Medical Question—I cannot praise Dr. Pierce's Anuric (anti-uric acid) enough for what it has done for me. For three months I was under the doctor's care and got no better. I was always complaining of my kidneys. I did not know what to do. I read about Anuric and made up my mind to try it. I have taken two boxes and don't complain any more. Have gained in weight and am still gaining. My appetite is great and sleep has come to me. That is what the Anuric Tablets have done for me. I do truly recommend them to those who are suffering the way I did. The tablets are really good, though not expensive. Easy to buy but hard to beat. S. T. A. BROWN, 308 Dorchester St. W.

Sand 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package.

Big Power Action Settled at Ottawa

Toronto Power Co. Reduces Claim to \$800,000—Another Action Before Court.

OTTAWA, Jan. 23.—The million-dollar power action of the Toronto Power Company against the Dominion Government has been settled out of court. The claim was reduced from \$1,200,000 to \$800,000, and of this amount the Ontario Power Company is to pay \$510,000, and the Dominion Government the balance.

The suit of the Niagara Park Commissioners for water used for the development of the power is a question which is to be argued in the Exchequer Court today.

In this latter action Mr. Justice Middleton gave judgment that the Ontario Power Company was entitled to a maximum of 124,000 horse power, and that any amount over this the Park Commission should be paid.

The Dominion Government takes the attitude that it was waste water that was utilized, and it had not been used for this, it would have run past the domain of the park commis-

sion without being used. The Government claim is that if the had any value it is a nominal only. The question of the waters between the Federal and Provincial Governments is also involved, also the question of using water from a navigable aid international stream. There is also the matter of treaties bearing on the matter.

Owen Sound beat Chateaufort the final for Tankard group in the National Hockey League decided to adhere to the one system.

The New Electorate The Women of Canada

CHANGING conditions have given the Dominion a new electorate—the women of Canada.

Canadian womanhood, to take full advantage of its prerogatives, to take its proper place in the management of Canadian affairs, must keep informed on the questions of the hour—must have the knowledge of events that will be the foundation of definite opinions on public questions.

Women Must Read the Daily Newspaper

The extension of the franchise to women was the fulfillment of a policy consistently advocated by The Globe in season and out of season.

But this is only the beginning. Womanhood must serve as well as vote. They must advocate reforms that are badly needed.

There must be legislation for the aged, as well as for the young, pensions for mothers, educational improvements, unemployment and sickness insurance.

These are some of the questions on which the womanhood of Canada will now have to take sides. Therefore, in this respect, The Globe has a special appeal for progressive, right thinking Canadian women.

The Globe is not a political organ. It never has submitted to outside dictation. It supports progressive liberalism, because it believes that true liberalism draws its inspiration from the needs of the people.

Its daily Women's Department and Thursday's Women's Section have a special interest for womanhood in the home. It was the first Toronto paper to establish a women's department, edited for all Canadian homemakers.

The Globe is first and last a Great Family Newspaper. It serves the women in the home, in public life, in business, in the professions and in industry.

What The Globe has been in the past is its guarantee of what it will be in the future. The aim of its publishers and its Editor is to take advantage of the tremendous facilities at its disposal—to make it even more worthy of a place in every Canadian home.

Whiskey is Needed In Influenza Cases

Who Says Congressman Sabath Wants [Suspension] Prohibition.

WASHINGTON, Jan. 23.—Ame- ment to the national prohibition act to permit the manufacture, sale of beer, ale and porter of 10 per cent alcoholic content, was passed yesterday in a bill introduced by Representative Sabath of Ohio.

Representative Sabath of Illinois yesterday introduced a resolution declaring that whiskey is needed "in the treatment of influenza, which is alarmingly increasing," and proposes dispensation for ninety days of provisions of the national prohibition law requiring special permits and reports from druggists, doctors and others as to the use of liquor for medicinal purposes.

The resolution declared its purpose was to end that whiskey now prescribed and obtained for medicinal purposes without unnecessary delay.

Large increases in the number of influenza cases were recorded in all provinces yesterday. There were 12 deaths from pneumonia, but none from influenza.

"Whiskey is Needed in Influenza Cases"

So Says Congressman Sabath Who Wants Suspension of Prohibition.

WASHINGTON, Jan. 23.—Amendment to the national prohibition law so as to permit the manufacture and sale of beer, ale and porter of three per cent. alcoholic content, was proposed yesterday in a bill introduced by Representative Sabath of Illinois.

Representative Sabath of Illinois yesterday introduced a resolution declaring that whiskey is needed as a "cure for influenza, which is alarmingly increasing," and proposing dispensation for ninety days of provisions of the national prohibition law requiring special permits and reports from druggists, doctors and others as to the use of liquor for medicinal purposes.

The resolution declared its purpose was to the end that whiskey may be prescribed and obtained for medicinal purposes without unnecessary hindrance and delay.

Large increases in the number of influenza cases were recorded in Detroit yesterday. There were 12 deaths from pneumonia, but none from flu.

Detroit "Flu" Cases Show Big Increase

Twenty Pneumonia Cases With Twelve Deaths Reported Yesterday.

DETROIT, Mich., Jan. 23.—Influenza cases reported to the Board of Health up to six o'clock last evening, had increased from Wednesday's total of 191 to 328 cases.

Twenty pneumonia cases were recorded, with twelve deaths from this disease and none from influenza. Far more cases were reported for today, the fourth day of the outbreak than on the fourth day of last year's attack of the disease, according to Dr. Henry F. Vaughn, Health Commissioner.

The apparent increase this year is partly due to the fact that Detroit does not lack physicians now as it did last year, many having returned from overseas, and therefore cases are being reported more promptly than was possible then.

May Start at Last To Collect Taxes

OTTAWA, Jan. 23.—Union Government is at last, under the spur of public sentiment, going to make an effort to collect income taxation. The Justice Department is instituting rigorous measures. In every inspection district there will be from forty to sixty prosecutions, either for failure to make return or for understatement of income.

Strong representations have been made by citizens who complied with the law that, before increasing the tax, the Government should make those who have so far failed to pay.

As the business profits tax will almost certainly be dropped, it is necessary to make good the loss by greater income tax collections. It is believed the new minister of Finance is insisting upon radical reorganization of his department. Enabling legislation will probably be needed at the coming session.

TO ASSUME CONTROL OF IMPERIAL PENSIONS

Ottawa, Jan. 22.—The administration of the pensions of ex-members of the Imperial Forces resident in Canada has been transferred to the jurisdiction of the Board of Pension Commissioners for Canada. Authority for this change is contained in an order-in-council which was passed on January 19th and made retroactive to January 1.

BIG LOSS IN GRANARIES

Bad Weather and Mice Destroy Much Grain.

Concrete Structures Best — How to Make Old Granary Efficient — Flush Ewes to Increase 1919 Lamb Crop — Great Shortage of Fall-Wheat Seed.

NO hard and fast rules can be laid down for the erection of a convenient and efficient granary. Each problem requires a knowledge of local conditions and requirements. Granaries in the majority of cases, are built in enclosures on the barn floor, and constructed with no little regard for strength, durability and convenience.

These structures should be located immediately over the feed room, each bin having a chute with a controlling slide, or a canvas distributor to convey the grain to the hopper of the grinder; or if the grain is intended for market, to a sack placed on the scales below the chute ready to receive it. To facilitate emptying the grain, the floor of the bins should be sloping.

The important consideration in the construction of granaries and bins for loose grain is to be sure that the structure is designed with sufficient strength to prevent bulging of the sides and spriding of the floor, for grain, owing to its enormous outward thrust, corresponding somewhat to that of water, has a tendency to burst the sides unless well braced or supported. Thicker construction requires frequent repairs to prevent decay and general depreciation from use. It is always liable to climate conditions. The boards will crack and shrink in the summer when the bins may be empty, and when the new grain is dumped into the bins an enormous quantity of moisture appears into the cracks and crevices, causing considerable loss to the farmer, if the consumer and to the nation. Thousands of bushels of grain are, in this way, annually lost to the producers through sheer indifference to the condition of the granary. Yet this preventable waste may easily be remedied and made secure by lining the bins with sheet metal.

The watchword is "Conservation." Every grain is needed to feed the Empire and its allies. It is, therefore, highly desirable at this time to bend every effort to eliminate all possible leakage and conserve our grain for the need of the Allied nations. While there is an annual depreciation on a timber structure varying from 4 to 8 per cent, concrete construction grows better as it grows old. Hence concrete properly reinforced, is the ideal material for granaries, because it is both damp-proof and rat-proof, two very essential factors in the construction of granaries.

Concrete properly made to suit existing conditions, is absolutely impervious to moisture, and can be kept as dry as any structure of wood ever built. The experience of many farmers is that grain, mature enough to be placed in storage, will not spoil on contact with concrete, nor will it grow mold, provided there is good ventilation and the roof is tight. To get rid of rats and mice destroy their nesting place and to this end concrete is pre-eminently the best material and is recommended for all farm structures.

Under average present day conditions a reinforced concrete granary may represent an additional outlay of about 25 per cent over that required to construct of timber, but the high efficiency distinctive of concrete quickly offsets this increased initial cost. Concrete construction has many in short, important advantages. The contents are safe from the depredations of rodents, is damp-proof, requires neither paint nor repairs, is fireproof, the grain is perfectly preserved under all conditions of climate and temperature, and the resulting structure is practically everlasting. — Prof. John Evans, Ontario Agricultural College, Guelph.

Care of Ewes After Weaning. In order to avoid undue trouble it is necessary to keep a close watch of the ewes for a few days after they are separated from the lambs. Not a few cases of defective udders can be traced to the want of care in this respect. Milk out just enough to keep the udder soft the day after the lambs have been weaned. After two days' time they are again milked out. Some ewes do not need any more attention after the second milking. Such ewes may be marked to indicate that they are dry. Three more days should elapse before the next milking is done. This method followed until it is certain the entire flock is safe. In conjunction with the method outlined above the ewes should be separated some distance from the lambs and be on scant pastures until all are perfectly dry. This is a good time to go over the flock and cull out all undesirable members. Non-producers and those with broken mouths and poor udders should not be retained. A good deal of the success of the subsequent lamb crop will depend upon the treatment the ewes receive from time of weaning until after they are bred. They should have good pastures and be given an opportunity of putting on flesh. This is what is commonly called "flushing." Nothing is better for this purpose than rape pasture. It is usually from six weeks to two months from date of sowing that rape is ready for pasture. If rape pasture is not available new seeding or second-crop of clover will serve fairly well. Stock should not be turned on rape or fresh clover for the first three weeks when the leaves are wet from rain or even dew, in order to avoid trouble from bloating. — J. P. Sackville, B.S.A., Ontario Agricultural College, Guelph.

Kingston is to have an industrial commissioner, who will also act as secretary of the Board of Trade, his salary to be \$4,000.

11,911 Not Accounted For

(Continued from page 1.)

he had told him so long before these proceedings were commenced.

A letter was read from Colonel Burleigh to Colonel Campbell to the effect that he had made an arrangement whereby Bradley's were to feed the 81st quota at 75 cents per man. The letter was dated October 10, 1915.

On September 20th, the Bradley firm had rendered an account at 45 cents.

"Why should they do that if the contract was 75 cents?" asked the witness.

Last Night's Session. When the court of enquiry resumed last night at 8.30, President Cruikshank asked Major Smythe to give a total of the accounts submitted by Colonel Burleigh to offset the \$11,911.91 representing the missing fund.

He said the accounts totalled \$7800.27 but deducting \$28.65 representing conjugal accounts, it would leave a balance of \$3,155.87 to Colonel Burleigh's credit.

General Cruikshank announced that Colonel Burleigh would have an opportunity to bring on any further witnesses he had, and after the court closed for conference on the evidence, it could be re-opened if necessary to admit of more witnesses for Colonel Burleigh being heard.

Colonel Young asked Burleigh if he had drawn an allowance for a car in 1916.

He said he had used his own automobile, drawing \$8.00 a day for it. He had sold the Ford he had purchased in 1915.

Private Lawrence Jones went on the "canal force" about August 8th, 1914. He was put in the officers' mess, staying there till Mrs. Smith's daughter came in and took his place. He was then put on guard. He drove the mail wagon drawn by Lieutenant Greenwood's horse. It was kept in a Welland Ship Canal barn. This was the same horse that delivered the rations. He said the hay the horse got was mostly taken from the Dragoons but he didn't know if forage was especially obtained for it.

"Were any oats bought?" asked Colonel Young.

"We fed him oats, but we didn't know where they came from."

Jones said the Smith family was pretty well provided for on the pay sheets, the whole family apparently being in the service.

The Greenwood horse, Jones said, was kept pretty busy. Jones thought meat from the mess rations found its way to the officers' mess.

He said he thought he began driving the horse first about the end of August, 1914.

"Did Private Empe ever drive the horse?" Jones could not remember.

He was asked if he ever got extra rations. He said sometimes they got hard-boiled egg and pie. This was two or three times a week anyway, he said.

He was employed in the officers' mess two or three months.

"Where was the meat delivered?" asked the General.

"At the quartermaster's store." Jones said he got meat each morning from the quartermaster's store and carried it to the officers' mess. He also got tea, sugar, etc.

In the officers' mess was Mrs. Smith, her daughter, and John Brett. Jones left the 19th and joined the 176th overseas battalion in the spring of 1916.

To Colonel Burleigh Jones said the rations he brought over may have been for himself and others employed in the officers' mess.

Joseph Hodgins, fish merchant, accepted General Cruikshank's invitation to give evidence. He said Mr. Smith of the officers' mess had bought about \$14 worth of goods in his store for the officers' mess and had paid only \$4. He wanted to know who would pay the balance.

Previously Lieut. Greenwood had bought the goods for the officers' mess.

He asked him about it and Greenwood told him to look to Mr. Smith for pay.

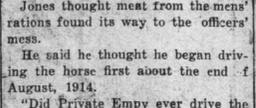

General Cruikshank said it looked as if Mr. Hodgins had been done and received no redress.

Asked to explain, Colonel Burleigh said it was merely Mr. Smith's private account.

Color-Sergt. George Adkins testified that Bradley and Son supplied recruits with rations in the month of August. Questioned closely he was not sure if it was August. That was the month Major Bradley said his firm had no ration contract.

"At that time in August the recruits didn't know where they were going to get their pay," said Adkins. He was absolutely positive these men did not draw subsistence. He got his own field allowance.

Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drogs and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine, nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTAUR COMPANY, NEW YORK CITY

Round Up Brokers With Coil of Rope

NEW YORK, Jan. 23.—Three police sergeants and four patrolmen descended on the Broad Street Curio market yesterday, herded the brokers together and stretched a rope around them.

Henceforth the rope, supported by iron standards reaching to the shoulder, will be the official boundary of the Curio market, which recently had overflowed its allotted space in the middle of the street until it blocked the sidewalks and most of the roadway.

The other day a horse ran away through the Curb market, and two brokers were taken to the hospital. As a result a lane is now reserved for traffic on the west side of the street, while the brokers jostle and push in their crowded enclosure.

WANT CANADIAN CURRENCY

LONDON, Jan. 23.—Dissatisfaction is being shown by Canadian soldiers still here that their payments are being made in English Currency with a consequent loss of exchange. This they allege, is contrary to enlistment conditions, and at a meeting on Tuesday they appointed a committee of nine to obtain Canadian currency in the future, and to recover back balances. If necessary they will enforce their right by constitutional procedures.

Agricultural Training For Soldier Settlers

A SOLDIER is entitled to the benefits of the Soldier Settlement Act if he can satisfy the Agricultural Qualification Committee in his district that—

- (a) He has performed the required military service;
(b) He is sincere in his intention to make farming his permanent occupation;
(c) He is physically capable and is fitted in general to make a success of the farming business.

If he is otherwise qualified, but has not had sufficient practical agricultural experience, the Committee may recommend that he be given agricultural training. A generous scale of allowances for soldiers in training has been adopted.

Training Centres For Soldier Settlers

The applicant who is recommended for instruction in agriculture may first be sent to a Training Centre, specially operated for the purpose, where he will learn, by practical experience, how to handle and feed horses and other live stock; milking; the operation of farm machinery, ploughing, etc.; general farm building work; farm blacksmithing; the different kinds of soil and rotation of crops; the selection and judging of live stock and the marketing of farm products. Short lectures on the business management of a farm will be given.

With A Selected Farmer

After the course at the Training Centre, the length of which depends on the progress of the individual but will not exceed three months, the man is placed with a carefully selected farmer in the district in which he intends to settle, to complete his training. During this period (not exceeding one year), the soldier is visited from time to time by representatives of the Soldier Settlement Board, who check his progress and recommend when he is considered qualified to take up a farm of his own.

On His Own Farm

It will be evident that by this system of preliminary training the soldier settler will gain a thorough practical knowledge of farming without expense; will learn to appreciate the responsibility involved in the venture, and at the same time gain a clear conception of just what farm life means.

Fair To Both

The professional soldier not only gives the soldier an opportunity of becoming familiar with his environment and of gaining the experience requisite to success, but ensures, acting to the nation's fundamental industry only competent and satisfied producers.

Detailed information regarding the provisions of the Soldier Settlement Act and further particulars regarding agricultural training may be obtained from the Provincial Superintendent, 32 Adelaide Street East, Toronto, Ont.

The Soldier Settlement Board W. J. BLACK, Chairman, Union Bank Building, OTTAWA

EMPLOYMENT SERVICE OF CANADA THE EMPLOYMENT SERVICE OF CANADA THE PROFESSIONAL and BUSINESS SECTION has been established to assist professional, business and technical men and women. Many officers, soldiers, sailors and war workers, who sacrificed their positions during the war, now desire to secure employment in the occupations for which they have been specially trained. Employers should not wait until increasing business forces them to employ anybody they can obtain, but should look ahead and avail themselves of this unusual opportunity to enlist the services of highly trained workers, ordinarily secured only with difficulty. On application there can be referred to you, for example:— ENGINEERS ARCHITECTS BUSINESS EXECUTIVES ACCOUNTANTS SECRETARIES TEACHERS LAW CLERKS COMMERCIAL ARTISTS SALES MANAGERS TRAVELLING SALESMEN CHEMISTS YOUNG COLLEGE GRADUATES These workers are returning to civil occupations with increased initiative, a broader view of life, and a greater capacity for work. ### AFTERBIRTH RETAINED

The Cause and Cure of a Not Uncommon Trouble.

Cows of All Ages Are Sometimes Affected — Remedies Suggested Where Veterinary Cannot Be Had—Grape Pruning For the Garden.

(Contributed by Ontario Department of Agriculture, Toronto.)

RETENTION of the afterbirth, foetal membranes or placenta, commonly called "the cleanings," is not uncommon in cows. Its cause is not understood. While it is probably more frequently met with in cows in low condition and unsanitary surroundings, no care, food, attention or surroundings act as preventives. It is noticed in cows of all ages, all breeds, cows in all conditions and at all seasons. We cannot understand why it occurs, or why it cannot be prevented, but experience teaches us that such is the fact. Good care, comfortable surroundings, avoidance of cold and dampness, especially in cold weather, and giving a warm mash for a day or two after calving tend to aid expulsion of the membranes, but even all precautions frequently fail. The administration of medicines is ineffective. In ordinary cases the membranes are expelled shortly or in a few hours after parturition, while in other cases they are retained for 24 hours or longer and then spontaneously expelled. In other cases spontaneous expulsion does not take place until after decomposition, when they are expelled in pus and small pieces. The symptoms are usually evident by the protrusion through the vulva of a portion of the membranes, but in rare cases this symptom is not present, the membranes being wholly contained within the uterus. In such cases, provided the cow has been injured it is hard to know whether they are retained or have been eaten by the cow. Cows have the objectionable habit of eating the afterbirth. We cannot account for this taste, and when possible it should be prevented. In some cases the consumption of the membranes does not appear to affect the health or general condition of the animal. In others it causes trouble, and in some cases death from various conditions.

**Treatment.**—When the membranes have been retained for 24 hours or over in warm weather or in a dry, cold eight hours in cold weather they should be carefully removed by hand. Where a veterinarian can readily be procured it is probably wise for the ordinary stock owner to employ him, but a stockman who understands the anatomy of the parts, and is not afraid of a dirty and sometimes tedious job can operate himself. The lining membrane of the womb is covered with many little lumps (called cotyledons) which are attached by constrictor necks, with surfaces varying from one inch or less to three or four inches in diameter, to which the membranes are attached. The operator should have an antiseptic lotion as a 2 per cent. solution of one of the coal tar antiseptics in warm water. A gallon of two of this should be injected into the womb. The operator then disinfects his hand and arm with the same, introduces the hand into the womb and carefully separates the membrane from each cotyledon, being careful not to tear off any of them. If a few are removed the consequences are not likely to be serious, but it is better to remove none. When the whole has been removed a little more of the antiseptic should be injected into the womb. It is a good practice to give the cow 40 to 50 drops of carbolic acid in a part of cold water as a drench, or sprinkled on her food three times daily, until all discharge ceases.—J. H. Rogers, O. A. College, Guelph.

**Grape Pruning For the Garden.**  
The average neglected grapevine is generally such a tangled mess that it is very difficult to describe how to prune it. The owner should determine what sort of a trellis he means to fasten his vine on. If there are a number of vines in a row the general practice is to grow it on two wires, these to be drawn tight on posts about 16 feet apart, first wire three feet and second wire five feet from the ground. If only one or two vines are in a place it can be grown on a trellis made of two narrow strips of board nailed to posts. One thing never to be overlooked is all fruit is produced on last year's wood. Most neglected vines have too much old wood. Try to get one or two upright canes of two-year-old wood or older with four arms or younger canes equally distributed on the two wires. These arms should not be over six feet long, giving four arms of this length. This is sufficient bearing wood for any vine. Suppose the upright part is satisfactory and there are four arms on it, from these arms laterals or side shoots will grow, on which the fruit is produced. A vine should be pruned after it freezes before winter and before it thaws in the spring. Pruning in mild weather causes bleeding from the cuts. The laterals that bore fruit should be cut back, only leaving one bud to sprout the following season and the fruit will grow on that sprout. It is quite easy to occasionally renew one or more arms by training a young branch to take the older one's place. When that is done out of the old branch. With a little practice pruning is easy, the common fault being to leave too much wood. If in doubt as to the above method of pruning, write for Illustrated Bulletin 227, "The Grape in Ontario."

**Scarcity of Feeder Cattle.**  
With the growing scarcity of feeder cattle and the advance in value of farm lands, the baby-beef industry is of increasing importance and is receiving the attention of farmers in all live stock sections of the country.  
Kitchener defeated Argonauts in an O.H.A. senior game at Toronto last night 12 to 3.

### Constipated Children Gladly Take "California Syrup of Figs"

For the Liver and Bowels

Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."

### MET. WED AND SEPARATE ALL IN SEVEN HOURS

SAN FRANCISCO, CAL., Jan. 23.—Let the exponent of love at first sight glance at the record of Mr. and Mrs. Asa M. Rogers, introduced, wedded and separated all in the same day!

Here is the programme!  
Nine a.m., introduced; 10 a.m. fall in love; 11.30 a.m., he proposes; 11.31 a.m. she accepts; 12.15 p.m., arrive at Los Angeles to wed. 1 p.m., get license; 2 p.m., arrive at home of minister; 2.15 p.m. knot tied; 3.30 p.m. arrive at bride home; 3.33 p.m. ask parental blessings; 3.33 1/2 p.m. don't get it; 3.34 p.m. "My father objects. I can never live with you," says bride; 3.35 p.m. beautiful fadeout of groom leaving home of bride never to return.

Rogers, who is a New York salesman, agrees with his wife that they cannot be happy and asks jointly with her, an annulment of their marriage.

### THOUGH 103, SMOKES HER PIPE EVERY DAY

LAWRENCE, Mass., Jan. 23.—Mrs. Mary Regan, Lawrence's oldest resident has past her one hundred and third birthday. She is the mother of seven children, sixteen grandchildren and five great-grandchildren call her "grandma."

Mrs. Regan had a doctor but once in her life. She smokes a pipe every morning and night, eats a plate of ice cream every night, and says that she is willing to die now, that she has lived long enough and has seen all she cares to see.

Mrs. Regan cites the fact that her greatest pleasure in life was the raising of her family and "outside that meeting Daniel O'Connell." She shook hands with the great Irish statesman in her native county of Cork.

WANTED—Telephone operators, Apply Chief Operator Bell Telephone Building, 1037 1/2 Dundas St. W., Toronto.

### DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well, he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

### NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.  
There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

### RHEUMATIC AILMENTS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.  
Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

**Quick and Lasting Results Assured the Ailing Man**  
BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

### GETS AFTER ADMIRAL SIMS

WASHINGTON, Jan. 23.—A resolution declaring that the action of Admiral Sims in making public official instructions of the most confidential character affecting international relations deserved the condemnation of all Americans, was introduced into the Senate yesterday.

Senator Walsh, Democrat, Monday, a member of the Naval Committee, filed a request for immediate consideration of the resolution. The Senator probably will act by way of an amendment introduced by the chairman of the Sub-committee, authorizing the employment of a special committee to investigate the matter. During the discussion following the introduction of the resolution, Senator Lodge of Massachusetts, Republican, declared the charges against Sims were "unsubstantiated" and that he would not support the resolution unless it accepted a distinguished and a virtual inquiry into the conduct of the war by the navy.

WANT YIELD KAISER TO A THIRD COUNTRY  
Holland Will Wait for German Demand, Says Report.

LONDON, Jan. 23.—The Standard reports that Holland's reply with regard to the surrender of the former German emperor says it is impossible to grant extradition on the part of a third country, if his own country does not demand extradition.

PAPER, REACHES PEG: SUSPENSION AT END  
Daily Papers May Resume Publication on Small Scale Today

WINNIPEG, Jan. 23.—Unless present plans miscarry, Winnipeg dailies will publish four-page papers without advertising today. A small supply of paper has arrived, and it is assured that the supply will be maintained, the dailies will start today and resume regular service on Monday.

### CANADIAN DESERTER GIVES SELF UP AT KALAMAZOO

KALAMAZOO, Mich., Jan. 21.—Explaining that he was tired of constantly fearing arrest, Judson Collins surrendered to the police here yesterday as a deserter from the Canadian military forces. He said he thought of possible apprehension he got on his nerves to such an extent that he was unable to sleep. Collins will be turned over to the military authorities at Hamilton, Ont., where he says he deserted.

Montreal, Jan. 23.—Information has been received by the press here to the effect that Con. Jones of Vancouver will visit England with intention of arranging for a visit to Canada this year of two of the best Old Country soccer teams, provided the Dominion Association will permit it.  
He intends to leave via Montreal during the early part of February and will try before that to get the formation of the ruling soccer body of the Dominion.

# Religion Is Patriotism

It is the Root of Personal Righteousness, the Mainstay of Social Order, the Bulwark of International Peace

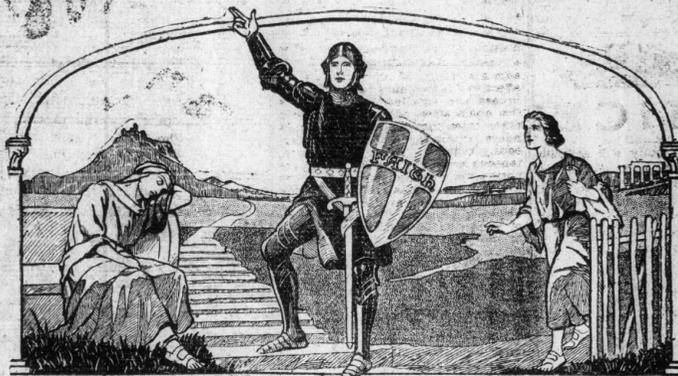

## The Makers of Canada

The earliest settlers in Canada were roused by the Call of the Church to develop a noble and useful citizenship. Young and old were invited to turn their eyes from material things, and to regard the splendor of unseen realities. Knowing that Religion is the only true safeguard of stability in the State, they built Churches, Schools and Colleges, to train men for the Christian Ministry, and to spread abroad in the land the benefits of education. This they did in their poverty, and thus directed the course of history in Canada to this day.

## The Testing of Canada

Because of such sacrifices, there arose in Canada a public spirit hostile towards all injustice, dishonesty and cruelty. The War tested the moral fibre of the Canadians of a later day. Would they choose material ease and wealth, or would they risk all in defence of freedom and the rights of the weak?

Over 400,000 men voluntarily offered their lives, and endured hardship as good soldiers for the defence of equity and fair dealing in all human relationships, and for the vindication of public right. Nor were the people at home less steadfast. Besides bearing the national cost of the War, they gave voluntarily for the help of the soldiers more than \$90,000,000. Canada nobly stood the great trial.

**Fight the Good Fight**

## The Menace of To-day

That conflict is ended. Now comes another test. Not only in Canada, but all over the world, sectional and class struggles for material rewards and for mastery threaten the present basis of Society. The vision of spiritual values gained in the War is in peril of being forgotten. The supremacy of sacrifice, the nobility of service, the reality and glory of the Unseen and Eternal, the promises of Christ; these were the things by which we lived during the War. Now there is great danger that they may fade from view, giving place to selfishness and the love of ease.

The great non-Christian peoples of the world comprise two-thirds of the human race. They are mastering our modern scientific knowledge, and if they remain Pagan may yet turn it to our destruction. Paganism stands for the supremacy of Might, the very ideal

we fought and conquered in more than four years of war.

## Victory only through Christ

How can we retain the heavenly vision? How can the world be guarded against another attempt to establish the Pagan ideal? Only through the Church of Jesus Christ. There is no other agency or society that has any possibility or hope of bringing about a full

realization of the brotherhood of all mankind, and the reign of the Prince of Peace.

## What the Church Has Done

All the progress of humanity in Civilization for the last 2000 years has been inspired, directly or indirectly, by the Gospel of Jesus Christ. It has ended slavery, protected life, ennobled women, educated the children and safeguarded their lives, sanctified the home, established schools, missions and charities.

## The Coming Era

Victory places upon the shoulders of the Allied Nations the responsibility for directing new conditions to right ends. Canada must do her share. The Church must prepare to meet the needs of the new day. Old standards of life with old habits of thinking and of giving will be wholly inadequate. We must do in our day what our fathers did in theirs. The hope of the world is bound up with the strengthening and extension of the Church of Jesus Christ.

## The World's Need is Spiritual

I speak as one standing upon the watch-tower, and know what the need of the land is. It is not material, it is spiritual. Get the spiritual, and the material will follow. The wounds of the world are bleeding, and material things will never heal them. And that is why I hail any movement which brings the great spirit of brotherhood. The one need of England and France today is the healing and the brotherhood of the Cross of Christ.

— Rt. Hon. David Lloyd-George, Before the Brotherhood Convention, London, September, 1919.

## The Forward Movements

FIVE Christian Communions, Anglican, Baptist, Congregational, Methodist, and Presbyterian, are convinced that the time has come to rouse all Christians to a clearer understanding of their calling and stewardship in Christ, their King. They believe that the Church should be equipped adequately with men and money to enable it to meet the needs and opportunities of the New Day.

These five separate Communions are of one mind as to their be-

lieve in God, the Father Almighty, Maker of Heaven and Earth, and in Jesus Christ, His Son, Our Lord. They now

declare to their respective constituencies, and also unitedly, to the Canadian people, that the only effective method of making good citizens is by urging men to a more faithful practice of Christianity, by inculcating personal faith in Jesus Christ. They insist that there is no other dependable way of correcting evil tendencies in individual and national life. They call the people to repentance. To all Christians their message is, "Awake, Arise. Fight the Good Fight, For Canada and For the World."

EACH of the Communions named is in the midst of a Forward Movement. Each is seeking by prayer and by earnest effort to accept all its responsibilities. Each is striving to extend its activities in Canada and in Foreign Lands.

Your Church needs your help, but, far more, you need the help of your Church to learn the difficult art of living wisely and well.

Consult your Clergyman. He serves you and your children. Ask him how and when you can serve in this day of national emergency. Give yourself to the task. Say: "Here am I, send me."

Sen. Walsh says He Betrayed Official Confidences.

WASHINGTON, Jan. 23.—A resolution declaring that the action of Rear Admiral Sims in making public official instructions of the most confidential character affecting international relations deserved the condemnation of all Americans, was introduced into the Senate yesterday by Sen. Walsh, Democrat, Montana, a member of the Naval Committee. It requests for immediate consideration and was denied on objection of Republican leader Lodge.

The Senator probably will act today on a resolution introduced by Chairman Hale of the Subcommittee, authorizing the employment of a consultant a clerical force to aid in the naval award investigation.

During the discussion following the introduction of the resolution, Sen. Hale of Massachusetts, Republican, later declared the charges made by Rear Admiral Sims, who precipitated the controversy by demanding a distinguished service medal, had made the investigation an inquiry into the conduct of the war by the navy.

## CANT FIELD KAISER TO A THIRD COUNTRY

## Carniv

Banff is to have an elaborate winter carnival this year, and the festival will be on from February 2nd to the fourteenth inclusive. Situated as it is in the Canadian Pacific Rockies and surrounded by the grandeur of Tunnel Mountain, Rundle Mountain and Sulphur Mountain, Banff, a national resort, is fast becoming a centre of winter sport in Canada. As Christiania in Norway. It is a perfect winter playground with its natural mountain slides and tobogganing. The preparations for the carnival this year are on a larger and broader scale than previous years; the aim being to make Banff as attractive in winter as it is in summer. In one aspect the visitors will find combined summer and winter amusement in the hot sulphur springs, which give one the privilege of swimming out in the open with the thermometer at or even below zero, in not tepid or warm water.

The spirit of the carnival again have full sway throughout town, and those who arrive at night will find themselves in a veritable fairyland. Colored lights are strung across the streets, down the famous toboggan slide, and on the banks in thousands giving a gala effect.

The list of amusements is a long one. There are hockey and curling matches, toboggan races, snowshoe and ski races. The ski jumping year promises to be one of the events, for a new jump has been built costing several hundred dollars, and some of the best skiers in Canada will take part in the competition. The Pony ski races on the programme, and will doubtless treat much excitement. Snow shoe tramps have been planned, lunch will be served at the warden's cabin. Those exhilarating tramps are conducted by men

# Carnival Spirit at Banff

Banff is to have an elaborate winter carnival this year, and will be an fête from February 2nd to the fourteenth inclusive. Situated as it is in the Canadian Pacific Rockies and surrounded by the grandeur of Tunnel Mountain, Round Mountain, and Sulphur Mountain, Banff, the centre of winter sport in Canada, is fast becoming the centre of winter sport in Norway. It is a perfect winter playground with its natural mountain slides and ideal skiing. The preparations for the carnival this year are on a larger and broader scale than previous years; the aim being to make Banff attractive in winter as it is in the summer. In one aspect the visitor will find combined summer and winter amusement in the hot sulphur springs, which give one the privilege of swimming out in the open with the thermometer above or even below zero, in not tepid but warm water.

The spirit of the carnival will again have full sway throughout the town, and those who arrive at night will find themselves in a veritable fairyland. Colored lights are to be strung across the streets, down the famous toboggan slide, and on the rinks in thousands giving a great gala effect.

The list of amusements is a long one. There are hockey and curling matches, toboggan races, snowshoe and ski races. The ski jumping this year promises to be one of the big events, for a new jump has been built costing several hundred dollars, and some of the best skiers in Canada will take part in the competitions. The Pony ski races are in the programme, and will doubtless create much excitement. Snow shoe tramps have been planned and lunch will be served at the game warden's cabin. Those exhilarating tramps are conducted by men who

know every inch of the country. The carnival will be just one continued round of gaiety and anyone who imagines the world in the mountains to be dead in the winter will have a pleasant surprise. Rivers, brooks, cataracts and falls are all pursuing their merry course, as in the summer except in a few occasional spots. The animals are not huddled up inside their burrows or seeking shelter away from the world, but roam around as in summer.

The carnival will be opened by the Superintendent of the National Park, and a special programme has been arranged for each day and will conclude with a farewell ball and distribution of prizes. There are three comfortable hotels which remain open throughout the winter.

The carnival and bonspiel at Banff are becoming amongst the most important and widely known events of the Canadian Winter, and will attract thousands to see "Top of the World" in the winter. Nature in all the beauty of her winter garb is at her best at this time of the year. Instead of being dead Banff will be very much alive.

## TAKE SALTS TO FLUSH KIDNEYS

Meat forms uric acid which excites and overworks the kidneys in their effort to filter it from the system. Regular excess of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act like a well-oiled machine. This famous salt is made from the acid of grapes and lemon juice, combined with lithium, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

## TIP TO IMPERIAL VETERANS

On Passage Refunds—British Govt. Makes New Regulations.

There are a host of enquiries being made about the refund of passage money to Imperial soldiers and their dependents. The latest and most accurate information to hand states that the British Government has decided to refund all such passage money to Imperial soldiers and their dependents who sailed for Canada prior to April 1st, 1919. The Commission emphasizes that no applications will be considered if the soldier or his dependents returned subsequent to April 1st, 1919. The amount allowed will be approximately the cost to army funds if repatriation had been made through the usual channels. Applications should be addressed to Office I.C., Repatriation Records, 24th Hill Camp, Winchester, England, accompanied by a statement, showing the circumstances in which the application proceeded, instead of waiting for a passage in the usual way; name of ship; date of embarkation; date of disembarkation; proof of payment of passage; and whether or not application for passage was made to the repatriation record office, Winchester, or to any other army authority, and if so with what result. Local and Dominion Secretaries of the G. W. V. A. are also handling these claims.

To say That This Brand of Tea is of incomparable Quality and Value, is to make a plain statement of Fact—that's all.

## BRITISH DYE TRADE DRAWS ON HUNS.

Huddersfield, Yorkshire, Jan. 23.—A committee of dye-users has gone to Germany to select and purchase two million pounds worth of dyestuffs, owing to the shortage of available dyes for trade use here. It is reported that the Government is financing the scheme. Recently, the Board of Trade Journal announced the formation of an expert committee in connection with the distribution of dyestuffs from Germany under the repatriation clause of the peace treaty. The visit to Germany, however, is for the purchase of dyes additional to this amount.

## Coming Events Cast Their Shadows Before

Not since the pre-Confederation days has the political life of Canada been surcharged with so much uncertainty.

Great events in Canadian politics are about to take place. The reorganizing and rehabilitating of great political parties is in progress. New leaders are appearing.

The order is changing. All things are becoming new.

THE next two years will be a momentous period in the political life of the country. Reconstruction is a greater task than Confederation.

How will you take your place in the affairs of the nation? What opinions will you form? How will you cast your ballot intelligently if you do not keep in touch and inform yourself on the great questions of the day by reading a daily newspaper national in viewpoint and international in scope?

This is the task and responsibility of The Globe—to give all the news, progressive views, and space for opposing opinions. Such was the threefold purpose of George Brown. His ideal was a Great Family Newspaper with a place in every home. That is The Globe's ideal to-day.

It is not a party organ, but a medium for the development of

public opinion and an advocate of reform. It is the servant of the people from whose needs it draws its inspiration.

To be informed of the progress of events, you should avail yourself of The Globe's great news-gathering organization. For an analysis of these developments, and clear, sober thought upon them, read its editorial discussions from day to day. They are written by close students of economics, politics, industry, commerce, social reform and religion.

And further, what The Globe has been in the past is a sure guarantee of what it will be in the future. The personality and ambitions of its founder ever dominate the activities of its publishers.

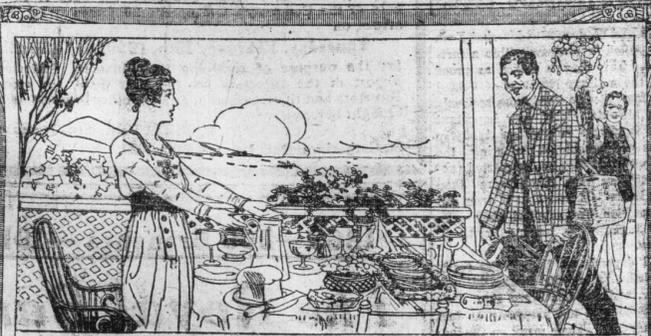

Therefore, nothing will be left undone to make The Globe the newspaper that George Brown would have it be and to earn a place for it in every Canadian home.

### Drys Would Stop Liquor Importation

**Petition Now in Circulation in Bridgeburg Asking Government to Stop Movement of "Red Eye" From Province of Quebec.**

BRIDGEBURG, Jan. 23.—The "drys" on this side of the river are already active here, and a petition is now in circulation asking the Ontario Government to put a stop to the importation of good red liquor from the Province of Quebec, and also the removal of whiskey from the breweries in Ontario to the ultimate consumer, owing to the fact that they may order from Quebec brokers.

The petition, as is usual with all petitions, is receiving a fair number of signers. The "wets" on the other hand, declare that they have nothing to worry about, as if the Government takes a plebiscite they now believe that they would win out.

The petition asks that the Government submit the question to the people in the form of a plebiscite. The Government can take no action in regard to prohibiting the movement of booze from Quebec to Ontario, or from one province to another, without first submitting the question to the people in the form of a referendum, owing to the constitution in respect to the movement of traffic from one part of the province to another.

The Government has as yet made no announcement as to whether or not it is planning to submit a plebiscite. That is probably the object of the petition.

**WHIPPING WOMEN IS ORDERED DISCONTINUED**  
ATLANTA, Ga., Jan. 23.—Whipping of women at the city stockade was ordered discontinued entirely by the Prison Committee yesterday after a police hearing of charges brought by the Atlanta Humane Society that women had been strapped to a contrivance resembling a chair and flogged.

### Embargo Not Causing Much Inconvenience

REGARDED AS DUE TO SNOW BLOCKADES ON EASTERN N. U. S. LINES.

ST. THOMAS, Jan. 23.—The embargo placed by the United States Railroad Board on all freight moving east from Canada to the United States through the Niagara frontier is not disturbing local railway officials to any extent, according to reports heard today.

The embargo is regarded as the result of the severe disruption of service on the railroads east of Buffalo, and especially on the New York Central Lines through the Mohawk Valley, where traffic has been badly tied up for several days on account of snow blockades.

Freight is still being received from the Buffalo terminals for Western points, the Michigan Central handling over three hundred cars yesterday, and slumps in business necessitating the laying off of train crews are not anticipated.

The continuation of the embargo for a lengthy period might seriously affect the local roads, however, through the isolation of the Canadian division of the United States railroads, but the local officials are inclined to believe that the embargo will be lifted as soon as traffic resumes normal conditions again.

NIAGARA FALLS, Ont., Jan. 23.—The embargo on Canadian freight affects only M. C. R. traffic going by the N.Y.C. railroad. Grand Trunk cars have been notified of the embargo yesterday afternoon to discuss the freight diversion from the Falls to other border points. No statement was given out after the meeting.

There is no congestion so far here.

**NOTICE**  
NOTICE is hereby given that the forty-second annual meeting of the shareholders of the Lincoln Paper Mills Company, Limited, will be held at the office of the Company, Merrittton, on

**Wednesday, Feb. 4, 1920**  
at two o'clock p.m. for the following purposes: The election of Directors, submitting the Annual Report, and for any other business, expedient or necessary touching the affairs of the company.

P. MITCHELL,  
Secretary.

### Foch For Warsaw To Tackle Reds

WARSAW, Jan. 23.—Marshal Foch is expected in Warsaw within a fortnight. This may be taken as proof that the military situation of Poland is being taken in hand more seriously than hitherto. It is very important that it should be realized that the Poles are capable of defeating the Bolsheviks, if they are supported properly. They have shown more than once in the last year that if arms and ammunition are supplied they can rout numerically larger Bolshevik forces.

All depends on their being ready to strike before the Bolsheviks are ready, and there is every sign that the Bolsheviks are preparing as fast as they can. Their army on the Polish front has been reinforced. Siberian regiments have been identified. Concentrations are going on in the neighborhood of Bokrnitz. They are mobilizing also in the area abandoned by General Denikine.

### Investigating Again Stench At Collegiate

A committee from the Collegiate Board is this afternoon visiting the Collegiate to make another investigation with reference to the odor in two rooms which has caused so much speculation and criticism.

Some time ago the odor was partly taken up and a search made, but nothing of an objectionable nature was found.

Principal Coombs said today that the two rooms in question were not used any more than was absolutely necessary.

### PREMIER OPPOSES RAISE

Quebec, Jan. 23.—No promise for higher salaries to civil servants was held out by Sir Lomer Gouin in the House, when at the close of a two-day debate, in which both sides of the House had joined, he made a long speech, in which he defended the Government's treatment of civil servants, gave the employees some advice, answered attacks, and went back to the time when the Conservative Government was in power.

## THE NEW ADVANCE

ESTABLISHED 1859

### THE CANADIAN BANK OF COMMERCE

M. German, the Organizational Mayors of St. Catharines and Niagara Falls, Presidents, and Treasurer; Qu...

a representative gathering of representatives of various municipalities of the Niagara District, in Welland, City Hall yesterday afternoon, Industrial Association of the Niagara Power Zone came into being. The subject, briefly, is to bring before the world the desirability of the Niagara District as a location for fac-

At the meeting were: Mayor Jos. Battle, Mayor E. P. A. B. Begg, A. J. Brady, J. E. Center, and Reeve George T. ...

St. Catharines: Mayor E. J. Love, Ald. E. C. Graves, P. B. Yates, J. A. Forster.

Thorold Township: Thos. Coulter, Ed. Ross and Robt. A. Abbey.

Niagara Falls: Mayor H. P. Stephens, F. H. Leslie, C. N. Clendenning, Ald. W. P. Dixon and H. H. ...

Merrittton: Mayor T. F. Hastings, Mayor Stewart, C. R. Kline, J. H. G. Hickey and Wm. Thompson.

Welland: W. M. German, L. Blake, Ald. J. C. Duffin, Mayor Suther-

Bridgeburg: Reeve C. W. Vahey and John James.

Port Colborne: Mayor A. D. Ross, Geo. Snyder and John Young.

Edgewater: Reeve Rayden.

Lambertown Township: Reeve Bonhardt.

William M. German of Welland occupied the chair, and in calling the meeting to order outlined the history of the movement, pointing out the importance of the project, the splendid possibilities of the Niagara District should be shown to the world. With energetic, united and harmonious work by the various municipalities the project can be made a great success. It will bring people from outside who never were before and show them just what the Niagara district can offer.

W. P. Dixon of Niagara Falls drew attention to the desirability of factories locating in the Niagara District even from the mere standpoint of economy of power. He presented a report that in transmission of power from Niagara Falls to Toronto it loses eight per cent.

Mr. Duff of Welland spoke of the good effect of advertising the Welland power facilities; showed the historical aspect of this Niagara District.

Mr. Duff said he had drafted a set of resolutions on his own initiative.
