Parties holding numbered coupon tickets, purchased as above will be entitled to their seats at any hour during the entertainment. Full commences at 8. Carriages may be ordered at 10:45.

W. J. CHAPPELLE, Agent. Guelph, August 29th, 1874. 6tu

A. J. BREWSTER, Commissioner in R. B., General Agent, & Co., Hespeler, Ontario. Deeds, Mortgages, Leases, Agreements, Wills, Bonds, Discharge Mortgages, &c., made with neatness and dispatch. Charges reasonable. Money to loan at 8 per cent. on good farm security. 82-wt

Guelph Evening Mercury

TUESDAY EVENG, SEPT. 1, 1874

Town and County News

REMEMBER THE Primitive Methodist Peach Festival to-morrow afternoon and evening, in the Drill Shed.

ACCIDENT.—A brakeman on the Wellington Grey and Bruce Railway, named Zims, had his hand badly smashed while coupling cars at the station here yesterday afternoon.

Mr. JOHN ANDERSON has sent us the September number of "The Presbyterian at Work," containing a large amount of interesting reading, and notes for the International scheme of lessons for Sabbath Schools. Specimen copies sent on application.

BASE BALL.—We understand that a Base Ball match on Thursday, 10th inst., between the Staten Island Club (Amateur Champions of the United States) and the Maple Leaf of this town (Amateur Champions of the World).

ACCIDENT.—While Mr. Smith, a farmer in Guelph Township, was driving in a load of wheat to-day, when opposite Mr. Crowe's residence, the axle of his wagon broke in the centre. It had probably been weakened by the hole through which the king-bolt passes, and having a heavy load it collapsed. He succeeded in getting it to a blacksmith shop, where, no doubt, it will soon be repaired.

ELECTION COURT.—The time and place of trial of election petitions against elections held in the following places have been fixed. They are:—North Leeds and Grenville, Brockville, on Nov. 10th; North Victoria, Lindsay, Nov. 4th; Cardwell, Toronto, Oct. 15th; East Toronto, Toronto, Sept. 29th; South Norfolk, Simcoe, Nov. 3rd.

BAPTIST CHURCH SOCIAL.—The social held in the Baptist Church on Monday evening was a decided success. The attendance was as large, if not larger than on any previous occasion, while the entertainment was very creditable to those taking part therein. The programme consisted of an opening address by the Rev. Dr. Davidson, pastor of the congregation, dialogues, music, recitations by Messrs. Curran and Bates, and a reading by Mr. Bengough. A collection was taken at the close which was liberally responded to. Towards the close of the entertainment some miscreant youths amused themselves by throwing stones at the windows, and otherwise disturbing the meeting. Our advice to them is to desist from such proceedings in future, else they may find themselves placed rather unexpectedly in "durance vile."

The Point Farm, Goderich. We direct attention to the advertisement in another column about this now favorite summer resort, which is year after year becoming better known and more appreciated as a place where rest may be secured and health and strength regained. The Rev. I. B. Howard, of the Wesleyan Church, Guelph, is at present staying there, and in a letter to a friend here, thus speaks of the place:—

"Point Farm, Goderich, Aug. 29, 1874. "Here I am at Point Farm, about five miles from Goderich on the high shores of Lake Huron, where I hope to enjoy a fortnight's quiet rest, which I very much need. I came here, instead of taking the long journey to the sea shore, by the advice of the Rev. Mr. Ball, and I do not regret doing so. This is a delightful spot, the scenery is charming, the atmosphere pure and invigorating, the house is spacious and airy, the accommodation excellent, the charges moderate, and Mr. Wright, the enterprising proprietor, is exceedingly gentlemanly and obliging. The railroad furs from Guelph is only \$2.50, and you can come here in four hours' travel.

If any of the overworked citizens of Guelph want rest and recreation, here is the place to get it, and as this is the most pleasant season of the year for travel and relaxation, I would advise them to come before the season closes."

About the Crops. Messrs. John I. Mackenzie & Co., of Hamilton, have furnished the Hamilton Times with some interesting information with regard to the crops in several sections of the Province, which they obtained by sending circulars to reliable correspondents at the points named. We give the returns from a few of these places:—

GARAFAXA.—Fall wheat, poor average, 15 to 20 bushels per acre; Spring wheat good, 20 to 25 bushels; hay, good crop; barley good—over average; oats, good—over average; potatoes, good—up to mark; turnips, prospects good—not far advanced yet; peas, good crop; clover seed, none. Splendid crops all around here—every farmer seems to be well pleased in this locality.

HALTON COUNTY.—Fall wheat, 5 to 25 bushels per acre, average 13; Spring wheat, not much sown, but good; hay, barley and oats, average crop; potatoes and turnips, look well at present; clover seed, not much gathered. Spring wheat, barley, oats and peas are good in quality and quantity. Fall wheat is a good sample, but not much to the acre, being winter-killed; average ten bushels. Hay is an average crop, and well cured. Roots at present look well. There is not much clover seed gathered in this neighborhood.

BEVERLY.—Fall wheat, about 20 bushels per acre; Spring wheat, 22 do. do.; hay, 2 tons per acre; barley, 37 bushels do.; turnips, 300 do. do.; peas, 40 do. do.; oats, 45 do.; clover seed, estimated to be an average crop. The quality of all is good.

FREELTON.—Fall wheat, yields well; Spring wheat, not much sown; hay, good crop; barley, average; oats, good; potatoes, fair crop; turnips, looking well; peas, good crop; clover seed, not very good.

Silver Creeks vs. Cricketers. Those who went to the Maple Leaf Base Ball grounds yesterday afternoon had the pleasure of witnessing a very interesting game of base ball between the first nine of the Silver Creek Club and a nine selected from the members of the Cricketer Club; which resulted as will be seen by the appended score, in a victory for the Cricketers:

Table with columns for Silver Creek and Cricketers, listing players and scores. Includes a table for Runs Each Innings.

Fergus Correspondence. The harvest is an abundant one in this section, and the weather is all that can be desired.

The letter from the Secretary of the School Board to Matthew Anderson, Esq., Reeve of this village, is still creating some discussion.

A reward is offered for ferreting out the boys who, in throwing stones, broke the bell of the Public School.

The School Trustees have, at a cost of \$55, erected a new bell.

Mr. Jas. Black, Mr. James Milne, and Mr. John Ellison, of Garafaxa, with Mr. A. D. Fordyce and Miss Fordyce returned last week from a three-months trip to Scotland.

Mr. Geo. Monger, of Garafaxa, near Fergus, is now in such a low state that he is not expected to live much longer.

The new pastor of the W. M. Church, Mr. Crook, preached the first sermon in Fergus to a large congregation on Sunday.

The Governor General's Movements. The Governor-General and suite left Niagara for Toronto on Monday morning about eleven o'clock by the steamer City of Toronto. A large crowd of persons were assembled on the wharf at the former place, including the same guard of honor and band which were present upon his arrival on Saturday.

The City of Toronto reached the Yonge street wharf about half-past two. A strong detachment of the 10th Royals was there drawn up as a guard of honor, accompanied by the band of the regiment, and by a detachment of the Governor-General's Body Guard for an escort to His Excellency. A large crowd of citizens was assembled on the wharf, and many others thronged Yonge and Front streets in the vicinity.

The New Manager of the Grand Trunk. The new Manager of the Grand Trunk Railway for the general public was announced last week, and gives hopes for improvement in the conduct of that road. A day or two since he left on his first tour of inspection from Montreal. He went alone, and is evidently determined to see with his own eyes, and not with those of officials interested in everything couleur de rose.

The Witness says:—"The splendid new car recently reported as having been built for Mr. Hannaford's special use (but at the Company's expense), was attached to the train for Mr. Sergeant's use. After a little search the gentleman was found comfortably ensconced in an ordinary Pullman among the general passengers, and, on being invited to the special car, much to the astonishment of the officials, he declined, observing that what was good enough for the general public was good enough for him, and ordered the car to be detached."

We anticipate that Mr. Sergeant will have an opportunity of seeing things to which the officials of the road have been habitually blind, and that we may look for reforms in more than one branch of the Company's service.

The Attacks on Mr. George Brown. The Montreal Gazette, the most respectably conducted, and the ablest of the Opposition journals, says of the slanderous attacks on Mr. Brown:—"The attack on Mr. Brown is one greatly to be regretted. It is a style of warfare which cannot be pursued without injury to the country and degradation to the press. In Canada we are above all things concerned in having in public life men of honesty and character, and such men are but too frequently sensitive to attack. A man who has no motive for entering public life than that of serving his country, is apt to shrink from a position which will subject him to such attacks as that which is now to be answered for and before the Courts. Political controversy is not only legitimate, but necessary."

But when discussion overlaps these legitimate bounds, and invading the privacy of private life, drags before the public the minutest details of private life, it becomes a curse instead of a blessing."

ABORTION AT KINGSTON.—Dr. Baker, coroner, Kingston, held an inquest this morning on the body of the infant child of Rebecca Thompson, a patient in the General Hospital, whose death it appears from evidence, was brought about in consequence of pre-mature birth, produced by instruments used by a young man named Spencer. The illegal act was performed by Spencer in the hospital. The child only lived about 20 minutes. A warrant for his arrest has been issued.

BY TELEGRAPH TO THE MERCURY

Cession of Porto Rico to the Germans.

Fire in Portland.

The Jersey City Scandal.

The Black Hills Expedition.

Brigands in Sicily.

London, Aug. 31.—The Great Eastern, up to yesterday noon, had paid out 647 nautical miles of the Anglo-American Company's new cable, and all was going on well.

Madrid, August 31.—The Carlists made two determined assaults on Puyoerda today. Both attacks were defeated, and the besiegers in their rage set fire to and destroyed houses outside the walls.

Rome, Aug. 31.—Mount Etna has been in a state of eruption since Saturday, and streams of lava are pouring from three craters.

Several regiments have been sent to Sicily because of the increase of brigandage and general lawlessness. Court martials have been established for the prompt punishment of offenders.

New York, August 31.—The Sun's Washington special states that it is well known that an arrangement has been completed by which Spain will cede to Germany the Island of Porto Rico as soon as the Carlists are ejected from Spanish territory and that our Government will not interfere in the matter.

In Jersey City to-day, Rev. John L. Glendenning, of Prospect Presbyterian Church, appeared before Judge Aldridge on a charge of bastardy. The counsel for the people asked if the dying statement of Mary Pomeroy would be admitted as evidence, and offered to produce other evidence. Defendant's counsel would admit nothing; and the case was withdrawn to be brought before the higher courts, on the charges of seduction and breach of promise.

The Montreal Cricket Club and the St. George's Club played a game on the ground of the latter at Hoboken, to-day. Only one innings was played, resulting in a score of 203 to 60 in favor of the St. George's.

Portland, Maine, Aug. 31.—The American House was damaged by fire to-night to the extent of about \$8000. During the fire a ladder 60 feet high, on which were four firemen, broke and the men were all injured.

Fort Lincoln, Dakota, via Bismarck, Sept. 1.—The Black Hills expedition, after completing the exploration of the Black Hills, returned to this post yesterday by way of Little Missouri River, and explored the valley of that river, the greater portion of the stream having never been visited by white men before.

The valley contains a large area of rich, valuable soil, and well timbered. The expedition encountered no hostile Indians since its departure from this post. An impression prevails generally that it will be impossible to prevent people from occupying the country as they will seek to enter it from every quarter. Gold in unlimited quantities was discovered at various points, also silver, lead, galena, plumbago, mountains of iron and inexhaustible beds of gypsum.

New York, Sept. 1.—A special from Washington reports increase of Ku Klux outrages in Alabama, South Carolina and Louisiana.

The Fergus News-Record Libel. Special per Montreal Line. Fergus, Sept. 1st.

John Craig, of the News-Record, was before a Bench of nine Magistrates at Elora yesterday afternoon on a charge of libel preferred by Charles Acton Burrows. The case occupied the Court from three o'clock until nine. It was heard in the Town Hall, and a large crowd attended throughout the trial. The case was dismissed.

The Way the Cable Talks. An operator sits at a table in a room darkened by curtains. On his desk stands a little instrument named the "reflecting galvanometer," the invention of Sir William Thomson, without which Atlantic telegraphy would be a slow process, not exceeding two or three words per minute, instead of eighteen or twenty the present rate. This delicate instrument consists of a tiny magnet and a tiny mirror swinging on a silk thread, the two together weighing a few grains. The electric current, passing along the wire enclosed with his voting paper, a number of extracts from pro-Sangster newspapers, said extracts being headed "Another lie nailed," and so on. He puts the pertinent question, in conclusion—How many more received like enclosures, and who sent them? This is a matter which ought to be enquired into, as it is quite clear there must have been a screw loose somewhere, and we know there were very grave rumors of a similar nature floating about during the progress of the election.

Should be Looked Into. Mr. David EBoyle, Principal of the Elora Public Schools, writes to the Globe concerning the source from which the teachers received their voting papers during the recent election. He inquires very properly, in view of the facts he recites, whether they were sent from the Department directly, or whether they came through the County Inspectors. He states that a friend of his found enclosed with his voting paper a number of extracts from pro-Sangster newspapers, said extracts being headed "Another lie nailed," and so on. He puts the pertinent question, in conclusion—How many more received like enclosures, and who sent them? This is a matter which ought to be enquired into, as it is quite clear there must have been a screw loose somewhere, and we know there were very grave rumors of a similar nature floating about during the progress of the election.

ORGANIZED EMIGRATION TO MANITOBA.—Mr. S. McDonald, of Dundas county, is in Manitoba, engaged in prospecting for a reservation in behalf of a colony from East Ontario, under the auspices of W. Gibson, M. P. for Dundas, Mr. Barrie, of Morristown, and himself. They propose taking to Manitoba 500 families, 150 of whom are at the present moment ready to start. Mr. McDonald first visited the country in the vicinity of Emerson, and was much pleased with it. He afterwards proceeded to the Saskatchewan, where, at last accounts, he was prospecting for a suitable place to establish his colony.

Dynamite.

ITS EXPLOSIVE USES AND QUALITIES. Mr. Thomas Wallace, who represents a Scottish manufactory is on a tour through Canada for the purpose of introducing and exhibiting the remarkable qualities of Dynamite, a peculiar and very powerful explosive agent. What its essential ingredients are, none outside of the makers know or can discover. It is alleged to be composed of eight gases, compounded with clay, the concussion of which when ignited tears and shatters any hard substance with which it is brought in contact. For blasting purposes it is a most valuable invention. The labor of drilling is entirely dispensed with. The dynamite is simply placed on the surface of the stone, covered with a few handfuls of sand, dirt or any similar material, the fuse is lighted and the work is done; the most surprising features of the experiment being that the force of the explosion seems to expand itself downward. The great explosive power of dynamite is due to the sudden development of various gases which at the ordinary temperature of the atmosphere would occupy a space nearly a thousand times greater than before explosion, but the heat produced by the combustion expands these gases eight times more, or eight thousand times in all. It is this rapid expansion to such a bulk which does for it its great disruptive power. It is said on good authority that for equal bulk it is ten times stronger than gunpowder, while for equal weight it is eight times as strong. By the law of expansion, explosive power is most spent in the line of least resistance, and many wonder how the dynamite acts so effectively in a downward direction. We do not attempt a solution of the scientific problem; we need only say it does as stated. But it has power in an upward direction as well, and will astonish the farmers of this country by the rapidity with which their lands can be cleared of stumps, and in fact almost any obstructions by its use, at a trifling expense. At Hamilton, Mr. Wallace experimented on the rocks of the mountain, in the water. The dynamite was in the shape of a rifle cartridge, about three inches long, and somewhat soft in texture. First in the operation a length of fuse is cut on one end of which Nobles' patent detonator is attached, then inserted and fastened in the end of the cartridge. If a rock in the harbor is intended to be removed, the dynamite is laid contiguous to it—if possible, under it—and the fuse, being ignited, burns in the water until it reaches the cap, when the report is heard. For water purposes a gutta percha case is prepared, on which dampness does not take effect. The one charge is sufficient to move anything under two tons; and when necessary the explosion can be increased in weight and violence by adding one, two or more cartridges, the one detonator and fuse doing for all. To examine the dynamite its merits are not fully recognized; to burn a small quantity on a dry surface adds to the apparent deception, but used in its proper sense the result is perfectly astounding. It is evidently pretty safe material to use, perfectly safe when the proper instructions are observed. It is true it is dangerous when heated with indifference in the same manner in which gunpowder becomes destructive; when handled under ordinary circumstances it will bear a temperature of four hundred and fifty degrees Fahrenheit, and will not explode, but if placed in a stove pipe or other warm substance, it is liable to become irritated and explode. With the exercise of ordinary care, however, it need not be submitted to this crucial test. Its expense is about equal to that of powder, but it has a much wider field of usefulness, and can be applied advantageously in very many cases where the former would fail to manifest its virtues. Dynamite is manufactured in but three places in the world—in Russia, Germany and Scotland, and in the last named place having the patent right for Great Britain and Canada.

The English Agricultural Laborers. Twenty-two agricultural laborers, who were marching through the north of England, were ordered into custody on the 7th inst. by the chief constable of Bradford, for marching through the town. The chief constable, when the men were charged before the magistrate, said he had ordered them into custody for begging. They were all able-bodied men, and liable to be sent to prison for a month. If he had been in town a fortnight ago when they held a public meeting, he would have ordered them all in to custody. There was plenty of work to be had and no excuse for begging. The magistrate discharged the men, but said they would be sent to prison if they were again seen in the town with collecting cards or boxes. The pilgrims broke up their band at Halifax.

Local and Other Items. There are 800,000 more women than men in England.

An exchange heads a notice of a big, any case as "Bignany Extraordinary." William Allingham, the poet, has succeeded Mr. Froude as editor of "Fraser's Magazine."

There will be a congress of deaf mutes at Vienna, on September 6th, and the members will illuminate one another in their usual light-fingered way.

The yield of the harvest in the Channel Islands is above the average, no such crops having been seen there for the last twenty years.

The Toronto Sun-skit Ulrich rises to remark: "The name of the proprietor of the Preston Baths is Kress. We step out of our way to remark that he is certainly a water-Kress."

At a concert, the other day, one of the vocalists found her voice thick; she strained it, but without any good effect.

Suits have been commenced in Trenton against the Pennsylvania Railway Company for running locomotives without screens over the smokestacks.

Dr. Glenn, of Colusa county, Cal., has about 30,000 acres in wheat, from which he expects a total of 750,000 bushels.

Scotland consumed nearly 7,000,000 gallons of British proof spirits last year more than Ireland, and more, in proportion than England. But as the Scotch are frugal, and Scotland is advancing in wealth and prosperity, the fact does not furnish much of an argument for prohibition.

At Woodford, Vt., an indignant farmer has put up the following notice in his field: "If any man or woman owns or oxen gets into these here oats, his or her tail will be cut off, as the case may be. I am a christian man and pay me taxes; but blast a man who lets his critters run loose, say I."

Josh Billings says, "After several years uv reflection I hev kum to the kinikshuv that the three most difficult things in life are—1st, carrying an armful uv live cels up a steep hill without spillin' an cel; 2nd, Aktin' as referee at a dog fight without gettin' mad; 3rd, Editin' a newspaper."

"Thistle never do, Jones," said an Erasmus pathmaster to a neighbor, who didn't weed his crops. "You think yourself some pumpkins, don't you?"

In Lethbride thirty-two appeals have been entered against Conservative names on the voters' list. A number have also been entered against Reformer voters.

The Reformers of Brock have appealed against 128 voters. One man owning 49 acres of land near Cannington, is assessed for only \$175.

The Governor and the Model Farm.

The London Free Press, following the example of the Guelph Herald, has its little fling at the Model Farm in connection with the Governor-General's visit to our town, and like its Guelph confrere does not scruple to tell as many lies as might be necessary to give a show of consistency to its story. It says:—

"When the Governor-General was at Guelph it was but natural that he should have expressed a wish to visit the Agricultural College—that monument of Grit stamens and foresight. So it was arranged that a visit to McKellar Hall should be included in the programme. But when word was sent up to 'the farm' that the Governor was coming, there was a terrible commotion. Everybody tumbled over everybody else amid the prevailing confusion, and when the scuffling was over, and some approach to reason had re-established itself, the true position was realized. And this was, that everything was in such disorder inside the building and so disreputable outside of it, that in order to avoid public exposure the Governor must be asked not to come. So he did not go; and His Excellency was thus deprived of an instructive lesson."

Now, the fact is that the Governor-General did not express a wish to visit the College. After his arrival in Guelph on Saturday, the Mayor, in speaking to him about Monday's programme, suggested that he might visit the Farm, and some other farms in the vicinity of the town where he could see some first-class stock. But His Excellency having heard a great deal about our manufacturing establishments, expressed a wish to see them, and as there were only two hours at his disposal on Monday, there was not sufficient time to visit the factories and the Farm, and so he preferred going to the former. The "terrible commotion" which the Free Press says was caused at the Farm when word was sent that he was coming, is also purely imaginary. No word was sent to the Farm that His Excellency intended to visit it, no preparations were made for such visit, there was no commotion of any kind. On the contrary, the ordinary routine of work and study went on uninterrupted. At the same time, he would have received a cordial welcome had he gone there, and the students and everybody about the place were disappointed that he did not find time to visit it.

That "everything was in such disorder inside the building and so disreputable outside of it" is equally untrue. The building inside and outside are models of cleanliness and good order, and the work on the Farm is being carried on with spirit. We have the testimony of an unprejudiced stranger, who visited it last week, and who stated to many in Guelph, that after reading the accounts in the Tory papers about its condition, he was surprised and delighted to find everything about it in such excellent order, and he left most favorably impressed with all he saw about the place.

Of course it would be useless to ask the Free Press or the Herald to correct their wilful misstatements. To speak the truth is about the last thing they think of, when they have any political purpose to serve. They follow closely the tactics of the Mail and every day attack some public institution, or some member of the Government, in the belief that some deluded readers will believe their falsehoods and echo their assaults.

THREATENED LIBEL SUIT.—The Hon. Mr. Crooks threatens the Mail with a libel suit for alleging that in 1861 he had intrigued to get himself appointed Solicitor of the Colonial Trusts Corporation, through which Corporation was negotiated the sale in London of the Municipal Debentures handed over to the Ontario Government in payment of the debts of the Municipality to the Municipal Loan Fund. It is well known that the Mail has in vain been trying to make out a job of some kind in connection with the sale of these Debentures, and failing that, has now called in question the propriety of Mr. Crooks' course in employing the Corporation, of which he is solicitor, to sell them in London. Mr. Crooks, after explaining how he came to be appointed Solicitor for the Association, which came to him unasked and unasked, closes his letter as follows:—"I have a right under the circumstances to require your immediate withdrawal of any apology for the words I have quoted from your article. As to the attacks on my political position, they will be answered at the proper time and before the Legislature to which I am responsible. If it pleases you to continue them I am indifferent, but any unfounded statements which may injuriously affect my personal or professional character will be answered by calling on you to establish them before a legal tribunal."

Mr. HENRY SMITH has been selected by the Conservatives of Kent to run for that County at the next Ontario election.

Milk as a Diet, and its Effects upon the System.

There is a considerable difference of opinion on the subject of a milk diet. It is surrounded by a mass of whims, or prejudices, and of mistaken ideas, which are based more on individual fancies than upon certain facts. To one, a glass of milk imbibed is believed to be a sure prevention of a bilious attack; to another, a disordered stomach; to a third, drowsiness; and so on, through such a category of simple, though disagreeable ailments that we look against at the farmer who drains cup after cup of the fresh, pure liquid, time and again during the day, and wonder at the resisting powers which his organization must possess. The truth is, however, that milk is not unwholesome. On the contrary, it contains good substantial bone, muscle,

fresh and brain producing substances which, assimilating quickly, act rapidly in building up the body. Naturally, we assert it is nourishing; that it does bring on certain troubles, is nevertheless true, but the cause is in the individual stomach, not in the milk, provided, of course, the latter be fresh and sweet. The Commercial Advertiser of recent date had some excellent remarks on this subject which are well worthy of repetition: "Milk diluted one-third lime water," it said, "will not cause any one biliousness or headache, and, if taken regularly, will so strengthen the stomach as to banish these disorders. It may be taken with acid of some kind when it does not easily digest. The idea that milk must not be eaten with pickles is not an intelligent one, as milk curdles in the stomach nearly as soon as it is swallowed. When milk is constipating, as it is frequently found to be by persons who drink freely of it in the country in the summer time, a little salt sprinkled in each glassful will prevent the difficulty. When it has an opposite effect, a few drops of brandy in each goblet of milk will obviate its purgative effect. As milk is so essential to the health of our bodies, it is well to consider when to take it, and how. It is a mistake to drink milk between meals or with food at the table. In the former case it will destroy the appetite; and in the latter it is never proper to drink anything. After finishing each meal a goblet of pure milk should be drunk; and if any one wishes to grow fleshy, a pint taken before retiring at night will soon cover the scrawniest bones. In cases of fever and summer complaint, milk is now given with excellent results. The idea that milk is 'ferocious' has exploded, and it is now the physician's great reliance in bringing through typhoid patients, or those in too low a state to be nourished by solid food."

THE HERD LADDER.—Mr. Naismith received a telegram to day, which states that the Herd Ladder will be in Acton to-morrow.

TYRCATHLEN LOTS.

The Venerable Archdeacon Palmer has placed in my hands for sale the Lots in his new survey, immediately in rear of his residence and lying on the north side of Grange street. The situation cannot be surpassed in the town—convenient to Market, Post Office, Church and Schools, commanding a magnificent view of the town and surrounding country. The lots are of different sizes, and well suited for private dwellings, with a first-class soil for gardening. Those lots on Tyrcathlen Terrace are well adapted for several residences, (and will only be sold to those who will bargain to put up good buildings). Plans of the Lots can be seen at my office and particulars learned. Purchases made this Fall, interest on balance of purchase money will not commence until 1st April, next. If desired, the lots will be pointed out on the ground. Also, if other lots lying to the north of Palmer street, in Macdonald's survey, and on Queen and Arthur streets. An early call is solicited.

CHARLES DAVIDSON,
Land and General Agent, Town Hall Building, Guelph.

Free Lecture and Grand Optical Entertainment!
Free Admission and no Collection!
Town Hall, Guelph, Thursday Ev'g, September 3rd, 1874.

Doors open at 7 past 7 o'clock. Lecture to commence at 8 in the evening. Seats will be reserved free for Ladies. Children not admitted unless accompanied by their parents or guardians.
A PUBLIC POPULAR LECTURE
WILL BE DELIVERED BY
PROFESSOR EDWARD S. FRANKS,
Consulting Oculist, Oculist and Aurist of the
Royal Eye and Ear Infirmary of Manchester, Lancashire, England.
Inventor and Patentee of the Important Improvements in Spectacles.
Will Lecture on the Anatomy and Physiology of the Human Eye; and on the USE AND ABUSE OF SPECTACLES.
The Lecture will be illustrated by large colored Diagrams, Models, Natural and Artificial Eyes, &c.

Dr. Franks lectures to disseminate useful knowledge, to introduce himself, and his uniform focal Spectacle Lenses to the inhabitants of this Town, knowing how wide a field there is in Ontario for the professional services of a well skilled oculist, in this much abused and neglected branch of science (the correct adaptation of spectacles to defective vision). The dealers in spectacles, generally being merely merchants, entirely unacquainted with the formation, and functions of the Human Eye, its diseases, the peculiar construction of different Lenses, or their individual relation, to the needs of optically impaired vision, the laws of Optics, or Light, or its action on the Nerves of Sight, therefore are unable to advise in the selection of Spectacles, and are equally ignorant of the principles governing their scientific adjustment, points most required by the patient.

FROM THE ROYAL COLLEGE OF PHYSICIANS AND SURGEONS, KINGSTON, ONTARIO.

TO EDWARD S. FRANKS, M. D.:
Sir—We, the undersigned Physicians, having seen high Testimonials of your abilities as a Lecturer, and capacity as an Oculist, will esteem a favor your delivering a public lecture on the Anatomy and Physiology of the human eye, and the use and abuse of Spectacles. It will benefit the community by instructing them of the dangers of using improperly adapted Spectacles, and the benefit of wearing proper ones, at the same time disseminating information on the functions and formation of the delicate, little organ—the eye.
Horatio Yates, M.D., Professor of the Principles and practice of Medicine, and Dean of the Faculty of Royal College of Physicians and Surgeons, Kingston.
M. Lavell, M.D., Professor of Obstetrics and Diseases of Women and Children, of the Royal College of Physicians and Surgeons, Kingston.
John B. Dickson, M.D., M. R. C. S. L., and M. B. C. S. E., Physician to the Provincial Penitentiary, and Superintendent of Rockwood Lunatic Asylum, Kingston.
J. A. Grant, M.D., F. R. C. S. E., M. R. C. S. L., First President of the College of Physicians and Surgeons of Ontario, and Representative of the Honourable of Toronto, Victoria College, Queen's, Trinity, &c., Ottawa.

THE NOTED TEA HOUSE
SUGARS, SUGARS!

A Large Lot now arriving, and will be sold Cheap during the Preserving Season.

J. E. McELDERRY
 2 DAY'S BLOCK,
 THE NOTED TEA HOUSE

Guelph, August 1st, 1874.

To the Public.

I take this opportunity to let my old friends and customers know that early this Fall I intend opening up one of the most extensive and varied stocks of Staple and Fancy Dry Goods to be seen in Ontario. I have had erected for my own special retail business a most complete arranged store, and from my long experience in the mercantile business, I feel and know that I will present for the inspection of my old patrons and others not only the most choice selection of Fancy Goods, but goods that will in reality be of such a character as to give to the purchaser the most entire satisfaction. The value will form one of the most important features of my establishment; the fact of going direct to the fountain head for my whole stock, and buying all for the ready money, and in addition having no old stock to palm off, is of itself a positive guarantee that my establishment will present inducements to the purchaser that none other in Guelph can approach. I earnestly request my old friends and customers to pay a visit to my establishment, when the old motto that I used for so many years to their advantage will again be adopted, viz: the best goods in the trade at the smallest possible profit. Good goods and Cheap goods. One price and no abatement. No misrepresentations, and the interests of the public doing business with me strenuously watched.
 Yours truly,
JOHN HOGG.

GUELPH TEA DEPOT

"The Only Shoe Store on that side of the Street."
 Guelph, July 29th, 1874. dw

... weeks past—opened at Waterloo, and will continue for three days. Both Waterloo and Berlin are beautifully decorated, especially Waterloo, in whose spacious driving park the Jubilee is being held.

IMPROVED FARMS AND WILD LANDS FOR SALE

107½ acres, three miles from the Town of Guelph, on the leading road to Berlin. The land is of an excellent quality; 60 acres under crop, 47 acres covered with valuable timber, log house and frame barn, a small orchard, and good water. Immediate possession will be given if the crops are also purchased.

200 acres in the Paisley Block, five miles from Guelph, on a good road, 155 acres cleared, fenced, and under cultivation, well watered by creek and springs, buildings log. Four acres of an orchard of choice fruit bearing trees, and ten acres of standing hardwood timber.

200 acres in the Township of Pausinech, seven miles from Guelph, and one mile from Aberfoyle, viz: Lot 22, in the 9th con. The land is of a good quality, 150 acres under crop. The buildings are all of the very best quality; a good orchard and eighty acres of valuable bush.

50 acres two miles from Rockwood Station on a good road, viz: East half, Lot 6, 7th Concession, Eramosa, 48 acres cleared, balance hardwood bush. The land is all of the very best quality, clean and in good condition, a commodious log house and frame barn 55 x 50. Well watered by two springs, and a good orchard of 100 fruit bearing trees.

10 acres in the Town of Guelph, with a two story stone house, nine rooms and cellar. A good frame barn, stable and out-buildings complete, orchard, pump, well, &c.

6th—175 acres, 3½ miles from Guelph, 140 cleared, well fenced, and in a high state of cultivation. A large stone house and frame barn and outbuildings complete. There are ten acres of uncultivated bush land, an excellent orchard, and a never-falling spring near the house. This is in every respect a desirable property.

THOMPSON & JACKSON.

\$20,000 Now waiting investment on terms more favourable than hitherto offered.

VALUABLE FARM FOR SALE.

The farm occupied by the late James Forster, being the southeast half of lot No. 7, in the 3rd concession of Eramosa, 100 acres, 60 cleared, the remainder good hardwood, chiefly beech and maple. There is a nursery of choice fruit trees ready for transplanting, and a never-falling spring well. The buildings consist of a frame house, a large frame barn, shed and stable, with other useful buildings. This property is situated two miles from the village of Rockwood, and six miles from Guelph.

For further particulars apply on the premises, or if by letter to Rockwood P.O.

THE RECENT CASE OF DEATH
 by strychnine poisoning from taking
SYRUP OF HYPOPHOSPHITES, noticed in
 the Montreal Daily Witness of August 1st,
 renders great caution necessary not to con-
 found Dr. Wheeler's Compound Elixir of
 PHOSPHATES and Calissaya with COM-
 POUND SYRUP OF HYPOPHOSPHITES.
 Observe well the difference in orthography
 and bear in mind that medicinal there is
 no similarity in action or effect.
PHOSPHATES
 ARE ABSOLUTELY NECESSARY to sus-
 tain life, being an element of every solid
 and fluid of the body, and they are suscep-
 tible of injurious results at any period from in-
 fancy to old age, or under any possible
 condition of the system, and no more harm can
 result from taking more than the prescribed
 dose than from eating too hearty a dinner.
 Guelph, August 29th, 1874. dwtw

PAIN-KILLER
 THE GREAT
 Internal and External Remedy
 TAKEN INTERNALLY it relieves instantly
 the most acute pain. USED EXTERNALLY it
 is the best Liniment in the world. Its effect
 is almost instantaneous, affording relief
 from the most intense pain. It soothes the
 irritated or inflamed part, and gives rest and
 quiet to the sufferer. It is essentially the
 people's friend, and every one should have
 it with them, or where they can put their
 hands on it in the nick of time.
 PRICE, 25 CENTS PER BOTTLE.

Perry Davis & Son,
 Sole Proprietors.
 THE GREAT
ENGLISH REMEDY.
DR. WILLIAM
GRAY'S
 Before Taking. After Taking
Specific Medicine
 Cures all Nervous Diseases, such as Trem-
 ors, Debility, Prostration, etc., which, in
 many cases, are treated by over indul-
 gence in the use of tobacco and alcoholic
 spirits; but the Specific Medicine is more
 especially recommended as an unfailing
 cure for Seminal Weakness, Spermatorrhoea,
 Impotency, and all diseases that follow as a
 consequence of Self Abuse, as Loss of Memory,
 Universal Lassitude, Pain in the Back,
 Dimness of Vision, Premature Old Age, and
 many other Diseases that lead to insanity
 or consumption, and a Premature Grave, all
 of which, as a rule, are first caused by deviat-
 ing from the path of nature and over indul-
 gence.
 The Specific Medicine is the result of a
 life study and many years of experience in
 treating these special diseases. Full partic-
 ulars in our pamphlet, which we desire to
 send free by mail to every one.
 The Specific Medicine is sold by all Drug-
 gists at 81 per package, or six packages for
 \$5, or will be sent by mail on receipt of the
 money, by addressing
WILIAM GRAY & CO.,
 Windsor, Ont.
