Montreal Stock Market.

OUTSIDE DISTURBANCE CHECKS WHAT WOULD BE A BULL MARKET - A PROMINENT HOUSE BULLS DULUTH, DOM. COT. AND ELECTRIC - CONSOLS 1/2 LOWER.

Montreal, Nov. 8.

One of our leading brokers today on being asked to state his impression about the present market said that we are certainly in a bull market, if it could be left alone. Prices now are good, but they would be very much higher but for the derangement of outside affairs caused by the war. My impression, he said, is that in six months prices will have advanced very materially. The present position of the market continues as often before to deepen my conviction that our local market never has had a sufficiently large short interest connected with it. Many abrupt breaks and many days of inactivity would be avoided by stronger short interests and the speculative activity short interests generate would keep high average prices up while allowing of large fluctuations.

Perhaps the most prominent feature in this morning's session was Dominion Cotton's advance some 3 points, on the buying of a prominent house which bought up the stock on comparatively small dealings to 103 1/2. It required a 3 point advance to bring out 100 shares as holders receiving 6 p.c. dividend now for several years, are in no hurry to sell.

The same house was noticeable also in the low priced stock movement and on purchases of 225 shares raised Duluth Common's quotation 1/2 at least to 63. Stock bought by this house may be looked on as having innate merit and its business showing up to date is of a very favorable description. As still higher quotations may be therefore looked for, it may be recommended as a purchase.

Business in Pacific while less than yesterday ran up to a considerable quantity and formed the largest of the fourteen sale items that were transacted.

Royal Electric on three sales at an advance may be said to have gained 1 point on previous price. New stock today sold at

virtually former value 100. The old stock showed greater strength at the closing.

On good buying of 200 shares in one lot, a price 1/2 higher was got by Toronto Ry., but it closed weaker. War Eagle and Republic changed hands at the same price. Payne fell off 1 point and Montreal-London on sale of two broken lots, as always happens with broken lots, fell off some two points.

Gas, under a tentative raid from opposing interests, suffered a little depression to 192. At this point there was support and consequently the bearish bid of 191 1/2 was not accepted.

Montreal Telegraph advanced 2 points to 177 Halifax Ry dropped 1/2 and Bank of Montreal selling at 285 1/2 gained 1/2.

MONTREAL MINING EXCHANGE

STOCKS INACTIVE AT STEADY PRICES - CALIFORNIA STRONG AT 13 - KING SELLS AT 28.

Montreal, Nov. 8.

Transactions were slow, on a dull market with trading limited to six issues, and sales amounting to seven thousand shares.

The dividend payers were steady at unchanged prices, 117 being bid for Payne; which continues to show signs of firmness. Republic also was quiet at regular quotations, and War Eagle was inactive at 275 bid. The president of the latter company, Mr. Buck, has just returned from the Boundary Country, B.C., he expresses himself much pleased with the progress and general development of Greenwood camp.

Virtue remains firm without any sales being recorded, the quotations being 47 1/2-48 1/2.

Canadian Gold Fields sold at 8 to the amount of 1000 shares, 8 was bid for more at the close, the stock being offered at 8 1/2.

California engaged the majority of the trading being firm at 13. The opening sale was made at 12 1/2 for a 1000 share lot, the remaining sales of 2000 shares were made at 13.

Big Three remains strictly at 13, 2000 shares changing hands at that price.

The demand for Monte Christo and Golden Star was better, 4 being bid for the former and 30 1/2 for the latter.

Slocan Sovereign sold to the amount of 1000 shares at 35, it was offered at the close at 36.

There was a sale of King at 28, 1000 shares changing hands, this is the best price of late.

Work on the Chemical is to be resumed immediately, the mine was closed down recently on account of the temporary closing of the Jacques Cartier Bank.

MORNING SALES

- Slocan Sov.—1000, 35.
- Mont.-London—100, 44
- Can. G. F.—1000, 8.
- California—1000, 12 1/2. 2000, 13.
- Big Three—2000, 13.
- King—28.

AFTERNOON SALES.

- Big Three—7000, 12 1/2.
- Deer Trail No. 2—2000, 21 1/2.
- Monte Christo—500, 5.
- Can. G. F.—1000, 8.
- Payne—1000, 117 1/2
- Republic—1580, 118.

NEW YORK EXCHANGE.

WHITE'S SUCCESSES HELP THE MARKETS — LEATHER REACTS, LOSING 6 IN A FEW MINUTES — SO. PAC. HEAVILY DEALT IN AT ADVANCES — COALERS AND GENERAL LIST ACTIVE — MONEY DECIDEDLY EASIER.

New York, Nov. 8.

The tone of the London market both yesterday and today is decidedly more cheerful. The news from the Transvaal is better. Yesterday's elections are looked on as satisfactory.

The Republican majority in Ohio is quite as large as expected. In New York State the Republicans made gains.

In Iowa the Republican majority is substantial. Kentucky has gone Republican. It is true that Mr. Bryan's party has been successful in Nebraska, but this was expected.

Maryland has not unnaturally returned to the Democratic fold. Looking at the elections as a whole, there is nothing whatever to show that Mr. Bryan's chances for election to the presidency next year are any greater than they were in 1896.

The satisfactory results of the elections and the higher prices from London should have a stimulating effect on our market. Apparently the greatest gains abroad are in Un. Pac. and So. Pac., and inasmuch as the latter is now a first class speculative favorite, higher prices may be looked for.

As to Un. Pac. local interest in this stock appears to be for the moment dead, although the earnings of the road are good and those who are in a position to know, predict that in 1900 not only will the full dividend on preferred be earned, but there will be a surplus amounting to at least 2 p.c. on the common.

There is no further news about Leather. Rutter and Gross continue to be enormous purchasers.

There are vague stories about the coming rise in Con. Tobacco common. The company is said to have made extremely advantageous purchases of raw tobacco. As far as can be ascertained the banks expect to lose less to the interior than for many weeks past. That the condition of the banks is improving is thought to be indicated by the absence of any real stringency on Monday.

New York (noon), Nov. 8

To-day's London market was undeniably strong, being influenced in the first place by the reports of British success at Ladysmith, and second by the Republican successes in election. Just before the opening London prices showed a further advance on what was considered to be reliable confirmation of heavy Boer losses outside Ladysmith.

Our opening was naturally strong with fairly heavy buying by London and commission houses.

After the first ten minutes there were evidences of heavy liquidation, the whole market reacting, more especially Leather common, which lost over 6 points in a few minutes. This stock, however, acts independently of the market, and consequently has no effect on the market.

Trading in So. Pac. at opening was extremely large at sharp advances over Monday night's prices. London was quite a buyer and the stock was well maintained in spite of the fact that certain houses supposed to be connected with inside interests sold several thousand shares.

There is some disposition to bull the anthracite coalers on the statement that although the October production was 4,900,000 tons as against 4,765,000 for October 1898, nevertheless all mines are being worked to their fullest capacity, and it is difficult to keep pace with demand.

Other strong stocks were Un. Pacifics, which advanced easily in somewhat light trading, and Atch. pfd.

All advices from West indicate that in the Un. Pac. and Nor. Pac. and Atch. systems all are earning far beyond anything they have done in previous years.

That Un. Pac. pfd and N. P. are sure of the full dividend, while an increase in the div. on Atch. pfd is not unlikely.

Interest in the Industrial is comparatively small. A.S.W. was most active, advancing on rumors that news of a favorable nature would soon be published. The market, although less active than it was at opening, is decidedly strong and there seems to be less fears of tight money than there has been for some time.

NEWS OF THE MINES.

THE SPUR TO WELLINGTON.

It is now said that the Canadian Pacific will not extend its line from Greenwood to Midway for the present, owing to the lack of steel rails. It is said that instead the rails that are on hand will be used to construct the spur from the main line to the Wellington camp. In this camp are the Winnipeg, the Brandon & Golden Crown, the Old Ironsides, the Knob Hill, the B. C. and other mines which are ready to ship. The reason the Canadian Pacific Railway has determined to build to the Wellington camp is said to be because there is a considerable tonnage of ore there that is immediately available for shipment to the smelter. It is thought that the mines there will be shipping in about six weeks.

THE DOUGLAS.

Mr. Henry Hunter, of Portland, Ore., and Dr. Allison of Spokane, president and vice-president, respectively, of the Douglas-Hunter Mining company, owning the Douglas property on Sophie Mountain, have been visiting the mine this week in view of the reported decision of the C.P.R. to run a spur out to Sophie mountain. Over 700 feet of tunneling has been done on the Douglas. In the centre of No. 2 tunnel the work is 360 feet in, giving a depth of 180 feet. The work at this point is all in ore and a fine body of a shipping quality has been encountered. In the lower or No. 3 tunnel which is in 160 feet, men are now at work and it is the intention of the management to continue this work until the ledge struck in the tunnel above is reached, when stoping will be commenced.

BUNKER HILL.

J. J. Warren, secretary of the Bunker Hill company, is at the property overseeing the operations. The mill is expected to come to hand shortly. A force is at work erecting the mill structure and arranging for the reception of the machinery. From the forward state of the work it is anticipated that it will not take long to get the mill in motion after it is on the ground. There is plenty of ore on the dump and in the stopes to keep the mill in operation for a considerable period.

DEER PARK.

The shaft on the newly found ledge has reached a depth of 60 feet. Three eight-hour shifts are at work. The work recently installed is working in a satisfactory manner. Drifting continues on the 300-foot level. The drift is now within 100 feet of the new shaft. The intention is to hurry the work as rapidly as possible so as to get under the new shaft at the earliest possible date. The ore in the new shaft is improving and the property generally is looking well.

VELVET.

The main drift is in for a distance of 398 feet. From the 250-foot level an upraise is being made to the 160-foot-level. This upraise has been made on the ledge for a distance of 10 feet. A full force is at work and the development will be pushed with more vigor than usual now that the railroad has been promised to the Sophie Mountain section.

CALIFORNIA.

The work of crosscutting and drifting from the main tunnel continues. The work of erecting a residence for Mr. J. W. Spalding, the foreman, is making good progress. The lumber for the compressor building is now being delivered upon the property.

WAR EAGLE AND CENTRE STAR.

Both Mr. Hastings and Mr. Kirby are at present away from the camp, but before leaving on Friday Mr. Kirby stated there was nothing of importance to add this week to the full statement made in this column last Sunday.

VIRGINIA.

Ore continues to be extracted from ledge No. 3 and a carload has been loaded and will be sent to the smelter today. The wet weather has interfered somehow with the development of ledge No. 4.

WHITE BEAR.

The crosscut on the 350-foot level has been driven to the east for a distance of 40 feet. Some ore is being met and the property is looking well.

MOUNTAIN TRAIL.

The concentrating mill will be ready for operation in a few days. The work of deepening the two shafts continues. There were no developments of note last week.

PORTLAND.

The tunnel is in for a distance of 140 feet and the shaft is down for 60 feet. There were no new developments of moment during the past week.

IRON MASK.

Superintendent Samuel Hall of the Iron Mask company, reports that the ledge has been cross-cut on the 400-foot level. It was met in the winze at a point 60 feet from the shaft. The ledge is 18 feet in width and there is from six to seven feet of first class ore, and the remainder is second class, but all of a shipping grade. The mine is looking quite well throughout. It keeps up its reputation as a shipper, and last week it sent 120 tons to the smelter. The present 100 horse power electric motor in use is insufficient for current requirements and is to be replaced by one of 160-horse power. The motor at present in use operates three hoists, five drills and three pumps. The motor which is to be put in, and which should be in operation in 30 days, will enable the management to operate ten drills and the remainder of the machinery. The compressor in use is of ten-drill capacity, and when the large motor is installed the mine can be operated to all necessary capacity for some time to come.

Wall Street Journal reports that October net earnings of T.C.I. will be close on \$250,000 which minus \$46,000 fixed charges yields surplus \$200,000.

CHICAGO MARKET.

CHICAGO MARKET—November 8, 1899.

From the Bartlett Prazer Co., Chicago. H. J. Cook, Manager, 29 St. Sacramento St.

WHEAT WORKING LOWER AFFECTS CORN ADVERSELY — PORK OPENED STRONG — TRADERS BEARISH.

Chicago, Nov. 8.

Weak openings at Chicago were general. Dec. wheat $\frac{1}{4}$ lower at 68 $\frac{1}{2}$, May $\frac{1}{4}$ lower at 72 $\frac{1}{2}$. Corn, Dec. and May each $\frac{1}{4}$ down, Jan. corn however, $\frac{1}{4}$ higher. Oats, Dec. and May each $\frac{1}{4}$ weaker.

Provisions opened steady with Pork strong Liverpool — Wheat prices were all $\frac{1}{4}$ beneath the previous closings, the openings being 5-11 $\frac{1}{4}$ for Dec., 6-0 $\frac{1}{4}$ for March and 6-0 $\frac{1}{4}$ for May.

New York openings were weaker even than Chicago and Liverpool. Dec. wheat opened $\frac{1}{4}$ lower at 73 $\frac{1}{2}$, and May wheat $\frac{1}{4}$ lower at 77 $\frac{1}{2}$. The position apparently is one of slow liquidation accompanied by prices that are sagging, but doing so very slowly and is without any feature in sight to effect a reaction. Foreign buying may be counted on some time to move more actively and bring along with it speculative purchasing of long stock and a large short interest among traders. Until real transactions start speculative buying and short covering it seems unavoidable that prices should work lower.

Puts and Calls for Nov. 9— Puts, Dec. Wheat 67 $\frac{1}{2}$ Calls " " 68 $\frac{1}{2}$
 Puts, May Corn 32 $\frac{1}{2}$ Calls, " " 32 $\frac{1}{2}$
 Curb Dec. Wheat 68 $\frac{1}{2}$ - $\frac{1}{4}$

For each \$500 over \$1000 of call loans 25 cents has been ordered to be collected by Collector Treat. Loans renewed from day to day would thus be charged 18 p.c. a year. This tax may be included in the rate for call money, and its effect upon call money rates will create considerable disturbance.

But the tax can be resisted in various ways. \$100,000 loan can be made into 100 loans of \$1000 each, none of which are taxable. Technical grounds and common sense are against the tax.
