A Weekly Journal of Advance Information and Public Works.

ITS PURPOSE: TO SUPPLY TO CONTRACTORS ADVANCE INFORMATION RESPECTING CONTRACTS OPEN TO TEN-DBR, AND TO ARCHITECTS, ENGINEERS, MUNICIPAL AND OTHER CORPORATIONS, A DIRECT MEDIUM OF COM-MUNICATION WITH CONTRACTORS.

ITS MERIT: ECONOMICAL AND EFFECTIVE SERVICE.

Vol. 2.

Toronto and Montreal, Canada, May 2, 1891.

No. 12

THE CANADIAN CONTRACT RECORD,

A Weekly Journal of Advance Information and Public Works,

PUBLISHED EVERY SATURDAY As an Intermediate Edition of the "Canadian Architect and Bullder."

Subscription price of "Gunadian Architect and Builder" (including "Canadian Contract Record"), \$2 per annum, payable in advance.

C. H. MORTIMER, Publisher,

14 KING ST. WEST. . TORONTO, CANADA. Telephone 2362.

62 Temple Building. -Montreal. Bell Telephone 2299.

Information from any part of the Do-minion regarding contracts open to tender, sent exclusively to this journal for publication, and noticisowhere published, will be liberally paid for.

ADVERTISING RATES ON APPLICATION.

At its Convention held in Toronto, Nov. 30 and 31, 1889, the Ontario Association of Architects signified its approval of the UANADIAN CONTRACT RECORD, and pleaged its members to use this journal as their medium of communication with contractors with respect to advertisements for Tenders.

Tenders.

The following resolution was unanimously adopted at the First Annual Meeting of the Province of Quebec Association of Architects, held in Montreal, Qet. 10th and 11th, 1890: "Moved by M. Parrault, seconded by A. F. Dunlop, that we the Architects of the Province of Quebec now assembled in Convention being satisfied that the CANADIAN CONTRACT RECORD affords us a direct communication with the Contractors.—Resolved, that we pledge our support to it by using its columns when calling for Tenders."

The publisher of the "Canadian Contract Record" desires to ensure the regular and prompt delivery of this Journal to every subscriber, and requests that any cause of complaint in this particular be reported at once to the office of publication. Subscribers who may change their address should also give prompt notice of same, and in doing so, should give both old and new address.

Scaled Tenders addressed to the undersigned, and endorsed "Tender for Engine House, etc.," will be received at this office until Friday, the 15th day of May next, inclusively, for the erection of an Engine House and Chimney for the Dry Dock enow in course of construction at Kingston, Ont., according to the plans and a specification to be seen at the Engineer's office, 30 Union Street, Kingston, and at the Department of Public Works, Ottawa.

I enders will not be considered unless made on form supplied, and signed with the actual signatures of tenderers.

An accepted bank cheque, payable to the order of the Minister of Public Works, equal to five per cent, of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party decline the contract, or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender

The Department does not bind itself to accept the lowest or any tender.

By order, E. F. E. ROV, Secretary, Department of Public Works, 1

Secretary.

Department of Public Works, } Ottawa, 16th April, 1891.

WM. J. HILL,

WM. J. HILL, Chairman Committee on Water Works. City Hall, Toronto, April 21st, 1891.

PERSONAL.

We hear that Mr. W. E. Gower, the well-known civil engineer, of Montreal, is about taking into partnership Mr. Louis Skufe, and that the firm will henceforth trade under the title of Gower, Skaife & Co., general merchants and dealers in patent girders, iron and steel joists, water works, gas works, and municipal supplies, and will also contract for the making of asphalte roadways and sidewalks. From Mr. Gower's long experience in the above lines, combined with his sterling business qualities and widespread connection, we confidently predict a prosperous future for the new firm.

Co. has awarded the contract for the new rolling nulls at Point St. Charles to Mr. Emmanuel St. Louis. The building will be of stone and brick 250 x 75 ft. The work of construction is to be begun at once, and pushed forward as rapidly as possible. Mr. St. Louis has also been awarded the contract for building a new workshop for the C.P.R. at Hochelaga, 200 x 80 ft., to replace the building recently destroyed by fire.

BIDS.

BEACHBURG, ONT,-Tenders are being considered for the erection of a Presbyterian Church.

LEFONTAINF, QUE,-Tenders have been received for the acction of a solid brick school 55x 26 st. in school section No. 2, this township,

Solder that is white and crumpy from a deficiency of tin, only can be made good again by adding a little tin. Where only a small amount of solder is bad and does not improve by adding tin, it is generally best to make it up into fine solder, to be used with the copper bit. For this reason good plumbers never fine up with bar or strip solder unless they know what it is made of. In cases of emergency, coarse solder will give a better result by heating a little above the usual temperature, and using the top without stirring, because the specific gravity of tin is a little less than that of lead, which gives the tin a tendency to floar above lead.

H. Fischer has made a series of experiments on the durability of quicksilver vermillion embracing exposure under various conditions covering over a year. He comes to the conclusion (Maler Zeitung) that there is no such thing as a quicksilver vermillion that is permanent when exposed; that good imitations made of lead with suitable analine colors in oil and varnish are to be preferred to the genuine, as they remain red though they fade, while quicksilver vermillion blackens; that reds should, in exposed situations, always be varnished, as they are thereby protected to a certain extent from atmospheric influences and consequently from change, and that natural red earths are more subject to change than any other earthy pigament.
