## PROGRAMME OF PERFORMANCE,

Part First.

### CITY OF CONSTANTINOPLE!

Of so great interest during the late War with Russia. It will be animated with a number of Vessels under sail, Men of War, the splendid Transport Steamer conveying the Grenadier Guards to the Seat of War, &c. On the foreground will be seen a number of MECHANICAL FIGURES; also a CAMEL and ELEPHANT, with all the movements and animation of nature. The scene will terminate with the gorgeous and beautiful representation of the

### BIRTH OF VENUS

In the presence of the assembled Gods and Goddesses of Mount Olympus.

## PART SECOND

A BEAUTIFUL VIEW OF THE APPENINES—In which will be introduced a representation

PART SECOND

A BEAUTIFUL VIEW OF THE APPENINES.—In which will be introduced a representation

THE RISING SUN.

Night wanes,—the vapors round the mountain curl'd  
Melt into morn; and light wakes the world.  
Now mighty Nature bounds as from the birth,  
The Sun is in the heart's blood and light on earth.

Flowers in the valley, splendor in the beam,  
Health on the gale, and freshness in the stream,  
Immortal Man I behold her glories shine,  
And dry exultingly—These, these are mine!—Byao n.

The Scene is represented at three o'clock in the morning, in the Summer season; and from that hour until the sun reaches the highest point in the horizon, the various effects of light are brought in view. The lingering darkness gradually disappears—the clouds change both in form and color—the mountain peak melts into light—the river slowly sparkles into brightness, and all the gradations of light and shade are observable, without there being the slightest perception in what manner these changes are produced. In short, the beautiful scene and pictorial effects in the view of the Appenines are of the most wonderful and magnificent description, never before attempted either in Boston or elsewhere, save by Mons. Thiodon, and must be seen to be appreciated.

This piece will conclude with the amusing scene of the

## SPORTSMAN AND HIS DOGS.

PART THIRD.

### The City of AMSTERDAM !

The largest City in Holland, and by far the most beautiful. The scene will terminate with the Masquerade Feast on the River, called the Mast of Coegne.

PART FOURTH

### SLACK-ROPE VAULTER.

Acknowledged by all who have witnessed his performance as the greatest wonder in the world. Upwards of 100,000 persons witnessed this figure's extraordinary performances in Birmingham alone, where this Exhibition remained open for 600 successive nights, a thing unparalleled in the annals of public entertainment. This highly talented Mechanical Slack-Rope Vaultor performs every evolution usually attempted by a living performer, without any seeming connection or collusion whatever. This figure puzzles all, as it has already puzzled thousands. To conclude with

### A STORM IN THE BLACK SEA.

Accompanied with its characteristic Phenomena—Agitation of the Waves—Clouds, which by degrees obscure the sky—Lightning, Thunder, &c.—Vessels beating against the Tempest, struck by Lightning and finally engulfed in the Deep, with Seamen endeavoring to save themselves on the Rocks, altogether forming a faithful representation of Nature in one of her most tremendous aspects. In which will be introduced a correct Model of the
