The French fourth army is conducting the attack in conjunction with American forces and the front extends to the east and west of the Argonne Forest.

Italians Cut Off One Army of Enemy---Serbians Advance on Uskub, Chief Centre of Communications.

London, Sept. 26.—The reports received today emphasized the demoralization of the Bulgarians, who are retreating in confusion, leaving behind an enormous amount of material and probably many thousands of prisoners, as the allied troops strain every effort to get to Uskub and thereby make the victory complete.

Gen. Allenby's Cavalry Drives Turks Up Hedjaz Railway Into Arms of Arabs.

British Clear Shores Of Lake of Tiberias

After Occupying Amman, Gen. Allenby's Cavalry Drives Turks Up Hedjaz Railway Into Arms of Arabs.

London, Sept. 26.—In Palestine, the southern and western shores of the Lake of Tiberias are generally in British hands. The Turkish garrisons retreated stiffly but were overcome. Our cavalry occupied Amman and are now driving the enemy up the Hedjaz railway into the arms of the Arabs.

Paris, Sept. 26.—The Franco-American attack on both sides of the Argonne is continuing satisfactorily, according to the war office announcement tonight. French troops have made an advance of nearly four miles at certain points west of the Argonne. The statement says: "Storming Franco-American troops, in close contact, carried out an attack on both sides of the Argonne. The operations continue satisfactorily."

ed the Bulgarians from either side of the great salient, which now stretches far into Serbia. The Serbians are at the gates of Iahit, and their cavalry, entering the town of Iahit, has cut the only remaining road northward—that running from Pripel to Velea, and among which a large body of Bulgarians is reported to be attempting to escape. This probably will lead to an abandonment by the enemy of the Babuna mountains, which are considered virtually impregnable.

FRENCH LOSSES REPORTED LOW

Germans Sacrificed Thousands of Men to Hold Lost Positions.

With the French Army on the Champagne front, Sept. 26.—Troops of the French army, operating in conjunction with the Americans in a new battle along the Champagne front, have today conquered positions which the Germans have been fortifying for four years, positions that have sacrificed thousands of men to hold. The French losses have been remarkably light, in spite of the fact that the German resistance stiffened this afternoon.

NO SUBMARINE RUNS IN THE TORONTO BAY

Much Curiosity Aroused Over Strange Craft Employed by Royal Air Force.

Much curiosity has been aroused lately by what was apparently a submarine running around the bay and out towards the western gap. The boat is at the dock at the York street wharf. It lies low in the water, is painted grey and is covered with armor plate. A tall top like a periscope is all that can be seen above the water when the boat is moving. It belongs to the Royal Air Force, and is used by the School of Aerial Gunnery at Beamsville for target practice, but is at present undergoing some repairs at the dock of the Canadian Beaver Company.

CANADIANS TAKE FURTHER GROUND

Ontario Troops in Front, Manitobans on Flank, Make Advance.

Ottawa, Sept. 26.—Fred James, official correspondent with the Canadian armies in the field in France, writes as follows: "Yesterday Ontario troops, by the application of clever tactics, outmanoeuvred a substantial force of Huns in front of Vis-en-Artois and Cherey. They applied the pincer method. One party attacked on a flank and another to the front in a strong trench system and pinched off a nose of enemy territory that promised to be a source of nuisance. This morning they hit out again, while Manitoba troops on the left charged ahead and captured another 1,500 yards. When the pincers closed a useful strip of ground, with a considerable number of machine guns, was in our hands with over 400 prisoners. In one strongly fortified position the entire garrison was wiped out."

BRITISH TAKE STRONG POINTS

Capture Trenches Near St. Quentin With Fifteen Hundred Prisoners.

London, Sept. 26.—Two British divisions have captured in the last few days a German system of trenches and strong points northwest of St. Quentin, with 1500 prisoners, according to the war office tonight. There were only minor encounters today. The text of the statement reads: "Except for encounters between raiding parties and patrols on different parts of the front, in the course of which we captured a few prisoners, there is nothing of special interest to report. In the past few days the first and sixth divisions of the ninth corps under command of Lieut.-Gen. Sir W. E. Braithwaite, captured by hard fighting, but at small cost, an intricate system of trenches, strong points, woods and villages northwest of St. Quentin, with over 1500 prisoners. In these operations the enemy has delivered a counter-attack in strength, all of which have been repulsed by the troops concerned with great gallantry and determination."

RUMANIAN PEASANTS RESISTING GERMANS

Allied Victories Produce Local Revolts at Many Places.

Rome, Sept. 26.—The situation in Rumania, according to information received here, has become alarming for the central powers. The Rumanian peasants, made enthusiastic by the victories by the entente countries, are beginning to resist openly the German and Austro-Hungarian military. Local revolts have occurred at a number of places and the Rumanian Government has sent agents to Berlin and Vienna to obtain a mitigation of the Austro-Hungarian rule. The Rumanian Government is reported to have pointed out that if its request is rejected it will be unable to guarantee the maintenance of order or avoid the eventualities of a sanguinary crisis.

ONE HALF MILLION MEN FOR BOLSHEVIK ARMY

Soviets Plan Fifty-one Divisions on Volga Front Against Czechs.

London, Sept. 26.—The plans for the Bolsheviki army on the Volga front, which seriously endangers the Czech army in that region of Russia, call for 51 divisions, or a half million men. The army is constantly being reinforced by Germans and to a great extent it is led and instructed by Germans. The reports indicate that while some of the Bolsheviki personnel of this army have improved in value, a majority of the soldiers are comparatively worthless.

SERBIANS TAKE VELES.

London, Sept. 26, 7.30 p.m.—Veles, 25 miles southeast of Uskub in Macedonia, has been captured by the Serbians.

CITY HALL TAFFY WILL NOT MEET THE CASE.

Hok: Would you mind, mister, coming over the fence and meet me? I want to ask you something. Confetti Tommy: About what? Hok: About how workmen of Ward One and Tomorden are to get to the new national railway yards and shops at Leaside. Tom: I'm taking that up with the civic heads, and I'm getting a lot of sawdust ready for the situation. Hok: But they and the workmen all along the upper part of the town want to get there, too, not hand-shakes. Tom: Well, I could give them the glad assurances with a shower of city hall confetti. Hok: But that won't do. The government will have work for a thousand men with families in their shops and yards in a short time, and how are they to get there? And, now that Toronto is to be headquarters for the national railways, and, maybe, a little later, the headquarters of the Grand Trunk, is the city to make a move to meet the situation and opportunities that impend? Or will Montreal get it? Tommy: Well, give me a chance to consider the heads of departments, and— Hok: You'd better. There may be a man out for mayor who'll catch the votes of the workmen and the veterans. Tommy: Give me a chance. But don't throw too much of a scare into me, Hok. In the meantime have a packet of city hall confetti for any of the dear workmen and vets that you meet on the road. Hok: Not for me, mister. Action is what they want, not city hall taffy.

TIBERIAS OCCUPIED IN BRITISH ADVANCE

Other Towns Taken on Shores of Sea of Galilee.

London, Sept. 26.—British troops operating in Palestine are extending their occupation about the Sea of Galilee. They have occupied Tiberias and Semakh, on the borders of that sea, and Es-Samra, it was officially announced today. Pushing on to the east of the Jordan, the British have occupied the strategic town of Amman, on the Hedjaz Railway. The British casualties during the offensive were less than one-tenth of the number of prisoners taken from the Turks, the announcement states. (The latest official report gave the total prisoners as "more than 40,000.") The statement follows: "In the northern area our cavalry has occupied Tiberias, Semakh and Es-Samra, on the shores of Lake Tiberias (Sea of Galilee) despite the determined resistance of the Turkish garrisons. "East of the Jordan our cavalry has occupied Amman on the Hedjaz Railway and are in pursuit of the Turkish force retreating northwards along the railway. "Since the commencement of the operations on the night of Sept. 15 our total casualties from all causes amount to less than one-tenth of the number of prisoners captured." The fourth Turkish army on the Palestine front is virtually surrounded in the region east of the Jordan and faces annihilation by General Allenby's forces, today's advices show. The total of prisoners already taken was increased today to 45,000. The annihilation of the fourth army, now hoped for, would complete the cleaning up of the Turkish forces in Palestine, accounting for about 80,000 men. The precarious position of the fourth army may be seen from the fact that Arab cavalry and infantry are north of it, Arab and British forces east of it and British troops to the south. All these are pressing inward on the enemy, while the Jordan, with the crossings, is in the hands of the allies. The number of Turkish prisoners taken in Palestine now aggregates 42,000, according to the latest advices reaching Paris.

FISH CATCH LESS THRU SUBMARINES

August Statement Shows That Nine of the Fleet Were Sunk.

Ottawa, Sept. 26.—Canadian fisheries suffered a material loss thru the activities of a German submarine operating off the Atlantic coast during the month of August. The monthly statement on sea-fishing results issued from the department of the naval service shows that nine vessels from Lunenburg County, N.S., valued at \$284,000, and laden with fish worth \$186,000, were sunk. One Yarmouth vessel with a good catch of fish, on board also fell a prey to the Hun raider. Notwithstanding its great loss, the quantity of cod landed by the Lunenburg fleet during August was only 4,800 cwts less than during the same month last year.

PAN-RUSSIANS FORM CENTRAL COMMITTEE

Washington, Sept. 26.—Out of the chaos which has existed in Russia since the overthrow of the Kerensky Government by the Bolsheviks there is emerging a central authority which officials and diplomats here hope will be able to re-establish order and renew the fight against the common enemy.

Official information reached the Russian embassy today that the pan-Russian conference at Oufa, European Russia, which has been recognized by the provisional government as opposing the Bolsheviks, including the Siberian Government, has constituted a committee of five as the lawful authority for all Russia. This committee will be responsible to the constituent assembly of all Russia, which will convene next January 1 and provided 250 members attend.

INFERIOR RESISTANCE TO AMERICAN ATTACK

Dazed German Artillery Never Recovered Balance—Many Guns Taken.

With the American Army on the Champagne front, Sept. 26.—The assumption of the general staff that the Germans had not discovered the intention of the Americans to attack was proved by the earlier phases of the fighting. Apparently dazed by the suddenness and ferocity of the artillery preparation, the German artillery reaction was slow in being registered. It never recovered its balance.

From the moment the Americans appeared the intensity of the enemy resistance was marked. Early this morning the enemy had laid down artillery fire calculated to cover a local attack. That intention was forgotten in the magnitude of the operations that followed.

One division reports the capture of 77-cm. guns and the quantity of ammunition. The check on the amount of booty has not yet been taken, but every report indicates that the amount is large.

Officer prisoners show that there was much enemy perplexity as to the exact point of attack, but say they were aware that one was impending.

TWO CHINAMEN HELD FOR POSSESSING LIQUOR

With the arrest of James Wong, 53 Hamilton street, and Wong Tong, 121 East Queen street, by the police of Page avenue station, the police of that division are of the opinion that the centre of the Chinese liquor traffic has been located. Late yesterday afternoon Sergeant Lydiatt and Police Constable Winters arrested Tong on East Queen street carrying a suitcase filled with liquor. The officers then visited the home of Wong on Hamilton street and found 20 cases of rice whiskey. Another large quantity was located in a deserted house on Elizabeth street. The total value of the confiscated liquor is \$2000.

FRENCH RENEW DRIVE THREE YEARS LATER

Allies Avoid Wasting Ammunition on Evacuated Trenches—Outlook Promising.

With the French Army on the Champagne front, Sept. 26.—Three years and a day after launching their memorable Champagne offensive of 1915, the French again attacked the German front along the line of the old battlefield from the Sulpe River to the Verdun battlefield today.

The attacking army was led by General Gouraud with General Pettain in supreme command. Brief reports received warrant full confidence in the result. General Gouraud's tactics on July 15 were imitated by the German command and the enemy troops were quickly withdrawn from the exposed advance zones as soon as it was realized that an attack was imminent.

When it was learned that the enemy was falling back on his principal line of resistance, fresh orders were issued to the French artillery and, instead of battering the empty trenches abandoned by the Germans, the French batteries kept their fire directed with appalling intensity on the German main defenses and the roads over which the enemy reserves were moving up to the front.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

In a new effort of major character undertaken by Marshal Foch in France yesterday, French and American troops drove two large wedges into the German front in the Champagne and in the region of Verdun. The allies attacked the enemy on both sides of the Argonne Forest, while their centre remained before that fort. The French on the left wing drove in a shallow salient, having a base of twenty miles and a maximum depth of about four miles. The Americans on the right wing drove in a sharper salient, having a base of 20 miles and a maximum depth of seven miles. These Americans captured twelve towns and 5,000 Germans. The French do not officially record the number of towns or prisoners taken by them. In the Champagne, also the Germans expected the attack, they gave up almost without a blow strong ridges and carefully elaborated defences. The feeble German resistance betokens their extreme nervousness. They appear half-defeated already.

In strategy Marshal Foch is borrowing from Napoleon. The central problem of the strategist is to make the enemy stand to be beaten. Foch has done this by his threats to the Hindenburg line between Douai and Cambrai. By making the enemy stand and give battle he is fulfilling the Napoleonic maxim of obtaining a fixed point round which to manoeuvre. The fixed point is the Hindenburg line; the manoeuvre is the combined attack in the Champagne and the region of Verdun. The immediate aim of the allies is to turn the obstacle of the Argonne Forest and then to proceed with their operations against the flank of the Hindenburg line. Their general aim is to hold the enemy on that line, while they strike him on the flank, so as to destroy his military organism. It is also probable that shortly the British first and second army, from La Bassée to Ypres, will attack the German right flank. The allied effort is plainly to obtain a military decision this year.

R. T. Riley and C. M. Hamilton Have Arrived and More Are Expected This Morning.

C. M. Hamilton, Weyburn, Sask., is in Toronto attending the meeting of the board of directors of the Canadian Northern Railway system. Mr. Hamilton is a prominent grain grower and president of the Union of Saskatchewan Rural Municipalities. He was the Liberal nominee for parliament in the Weyburn district last year, but withdrew in favor of R. F. Thompson, the Unionist candidate, who was returned by acclamation.

The new board of directors of the Canadian Northern Railway system will hold their first meeting today, with President D. E. Flanagan in the chair. R. T. Riley of Winnipeg and C. M. Hamilton of Weyburn, Sask., arrived in the city yesterday, and other out-of-town members are expected here this morning.

URGENT APPEAL MADE FOR BELGIAN CHILDREN

One-half of the child population of Belgium is destitute. In the fight to save these children from the ravages of tuberculosis, rickets and other diseases threatening the next generation with extinction, the one indispensable weapon is milk.

Preparations for the Catholic army hut campaign are going on briskly at headquarters, 14 East King street. The efforts of the devoted men and women who carry on this work are limited only by diminishing funds and increasing costs. To the Belgian Relief Commission these charities look for continued and augmented support.

Every Woman Needs IRON at Times

If women would only take Nuxated Iron when they feel weak, run-down, nervous and haggard—there are thousands who might readily build up their red corpuscles, become rosy-cheeked, strong and healthy and be much more attractive in every way. When the iron comes from the blood of women, the health, the charm and vivacity depart. A two weeks course of Nuxated Iron works wonders in many cases.

NUXATED IRON

"Nevermore"

Is an expression invariably used by those induced to purchase a substitute tea for "Salada". It may cost a trifle more than some others, but its economy in use amply compensates.

Where Are Our Live Men?

Does anyone know what the views of the board of trade or of the mayor and Corporation of Toronto are on the selection of this city as a centre for the management of government railways as they are now being organized...

It is the most momentous thing that could happen any city in the Dominion...

It is the most momentous thing that could happen any city in the Dominion, and one could imagine the fierce competition that would exist in the United States were there any doubt as to which city might be chosen for such a purpose...

Where are the young men who are able to swing the big national movements for charity and patriotism when there is need for brains and energy in our government?

Where are the young men who are able to swing the big national movements for charity and patriotism when there is need for brains and energy in our government? Are we so clouded and shadowed by rotten municipal politics and machine government that we cannot shake ourselves free from the clod?

Radicals and Power First.

Mayor Church in the evening papers favors a move to have the Hydro Commission build a public telephone system. All very good, Mister Mayor, but dispose of things on hand first. Why not get hold of the radicals and power lines? Let the mayor go up and see Sir Wm. Hearst and Sir Adam Beck about a clean up in this direction before other things are attempted.

A Farmer on the Board.

The National Railway System begins work with a practical farmer on its board of directors in the person of Mr. C. M. Hamilton of Saskatchewan. The western farmer has been the big shipper for many years, but the railways under corporation management seem to antagonize instead of trying to serve him. They never had the business sense to call the farmer to their counsel.

Other People's Opinions

Re Soldiers' Insurance. Editor World: Will you thru the medium of your morning paper kindly insert the following as I do not wish to be misunderstood regarding the word 'organization' which I used at the B. I. A. meeting on Monday night at the Earlscourt Public School? I wish to say here that I am not referring to the local G. W. V. A. or any other local body or the G. W. V. A. in the city. My stand is this, that as far as I can read, or see the organizations in the city are lukewarm on the matter. What are the ratepayers and other patriotic associations doing in the matter? They should see that the city fathers live up to their agreement with the boys who left their homes with the mayor's and the city insurance. Our city fathers would benefit if they should be so unfortunate as to pay the supreme sacrifice. Since these boys have gone many of their parents have been known to themselves, not knowing that by doing so they would lose their son's insurance. Our city fathers have sent the insurance to different parts of the city, surely to goodness the city will not go back on their promise. Trusting this will be taken up soon and this explanation will be satisfactory. Henry Parfrey, J. P. Toronto, Sept. 25, 1918.

Revolution on the Way.

Few people six months ago looked for the astounding success that has blessed the British and allied arms since last July, and least of all did it enter into the calculations of the German high command. An old warning was uttered for the wicked: 'Sudden destruction cometh upon them.' The events in Palestine, in Serbia and Bulgaria on the western front, are of a character utterly beyond the conceptions which the Kaiser and his advisers have had in mind for a generation past. Once more we recall the old word of the Koran: 'Among those who plot God is the greatest of plotters.' There is another word in a more familiar scripture about those who digged a pit and fall therein, which is particularly applicable to the German Government in connection with their part in the overthrow and disorganization of Russia. The most recent revelations make it plain that the schemings of the Kaiser, the disintegration of such feeble forces of control as remained, the stimulation

CENTRIST LEADER OPPOSES HERTLING

Adolph Groeber Causes General Surprise by Unexpected Attitude.

Copenhagen, Sept. 26.—It appears from reports of yesterday's session of the debating main committee in Berlin that Adolph Groeber, one of the centrist leaders, delivered a speech before that body which is interpreted as being somewhat antagonistic to Chancellor Von Hertling, who himself is a centrist, and has heretofore had that party's support. Herr Groeber's speech came as a surprise to his hearers, as it had been expected that he, as the party's spokesman, would place himself back of the chancellor. According to the Tagblatt, however, "the circles of the left see in his speech, if not a complete disavowal of the chancellor, nevertheless a policy which is no longer in agreement with all the measures of the government. The sharp attack on the war minister, Von Stein, aroused special interest."

BOSTON BEGS TORONTO TO SEND SOME NURSES

Telegram From Governor to Mayor Church Says Their Resources Are Taxed to Limit.

Boston, Mass., Sept. 26.—An urgent appeal for nurses to assist in combating the alarming spread of influenza and pneumonia in this state was telegraphed tonight to Mayor Thomas L. Church of Toronto, by Lieutenant-Governor Coolidge, who declared that the state's medical and nursing resources were taxed to their limit, and that many cases were receiving no attention whatever. The humanitarian and skill of Canadian nurses were so well recognized, Lieutenant-Governor Coolidge said, that he had hesitancy in addressing his appeal to the mayor of Toronto. Any aid Canada could render, he said, would be gratefully accepted by his state.

ALL ATTACKS REPULSED WEST OF ST. QUENTIN

Paris, Sept. 26.—The text of the official statement issued at the war office last night reads: "In the region west of St. Quentin the enemy made an attempt this afternoon to drive our forces from L'Epine de Dallon. All his assaults were repulsed.

"Between the Ailette and the Aisne the day was marked by violent reactions by the enemy upon the plateau of Moisy Farm and in the region north of Allement, where violent combats took place during the entire day. The enemy was not able to recover the ground gained by us during preceding days. He suffered heavy losses and left prisoners in our hands."

FRENCH BEGAN ATTACK AT FIVE IN MORNING

Paris, Sept. 26.—The French War Office reports: "Between the Ailette and the Aisne, the Germans renewed their attacks last evening in the region of Allement and Moisy-Laffaux. The enemy succeeded at the latter point in penetrating the French lines, but energetic counter-attacks by the French re-established the situation.

"Farther south the French have enlarged their gains east of Nancy, and have taken prisoners."

"This morning at 5 o'clock French troops attacked on the Champagne front in co-operation with the American army operating farther to the east."

YORK COUNTY AND SUBURBS EXPECTED OPPOSITION DID NOT MATERIALIZE

Oaklawn Cemetery to Have Permit if Board of Health Approves, Says Council.

The expected opposition to the projected Oaklawn Cemetery at Willowdale did not materialize at yesterday afternoon's session of the township board of health, held at the township office, 51 Jarvis street. The board recommended that the Oaklawn Cemetery, to be permitted to use Lot 20 of Concession 1 (10 acres), as a cemetery, provided the provincial board of health gave a permit for this purpose.

Opponents of the scheme claimed that a road should run thru the cemetery from Finch avenue south.

The plans, as they stand today, show that the cemetery was bounded by Yonge street on the west and Finch avenue on the north, but that there was no parallel road to Yonge for a distance of at least 50 feet, and that the Smith Farm was immediately to the south. It was also contended that the new cemetery should have profited by the experience of Mount Pleasant Cemetery, which had for years clamored for a road thru from east to west.

The trustees of the new cemetery are John Firstbrook, E. P. Johnson, K.C.; C. Hill and Gordon Grant, and both Mr. Grant and Mrs. Jones were present at yesterday's session.

Danforth GAP OF THORFARE TO BE READY SOON

According to the present rate of progress on the Danforth thru thoroughfare between the head of Parliament street and Danforth avenue should be ready for opening along the south side of the track allowance early next week, as the work of concreting the roadway on the south of the track allowance will be completed today, and the asphalt surfaces will be laid immediately and will take but a few days.

Work on the intersection at Danforth avenue in connection with the car tracks on the main bridge and Danforth avenue is rapidly progressing, and it is expected that the trolley wiring on the main bridge and middle section.

On the filled-in road between the Rose-dale bridge and the head of Bloor and Danforth streets work was resumed on the grading of the car track trench and good progress was made.

The section between the head of the main bridge will be similar to Rosedale bridge, that is, the lighting along the centre, four to each pole, and side lights along the sidewalk.

The section between the two bridges will be lighted with one light to each pole in the center of the pole. There were 140 men working on the job yesterday.

MORE LOCALITIES TAKEN IN ST. QUENTIN AREA

London, Sept. 26.—The British War Office reports: "Local operations were continued successfully yesterday afternoon and during the night northwest of St. Quentin. English troops progressed and captured certain strongly-defended localities in the neighborhood of Selency and Griocourt, together with a number of prisoners.

"In addition to the counterattacks already reported, which were launched by the enemy yesterday northwest of Faget, his troops twice attacked the position north of Griocourt. These attacks were unsuccessful.

"A successful minor operation was carried out yesterday by English troops northwest of La Bassée, as a result of which the line was advanced and the formidable enemy position of Arras to Leau endangered with a counter-attack launched by the enemy men.

"We improved our positions slightly yesterday and during the night northwest of Arras. In patrol counters and raids between Arras and Ypres we captured several prisoners."

ALLIED THRUST COMES UPON INACTIVE FRONT London, Sept. 26.—The new allied thrust in the west comes on a front which has not been very active since the Germans failed to advance in Champagne in the defeated offensive of July 15, east and west of Rheims. French soldiers are attacking in Champagne, which runs from Rheims eastward to the Argonne, west of Verdun. The American army is moving forward east of the Champagne salient, and several prisoners were taken.

Great possibilities might result from a successful allied advance on the front east of Rheims as the German communications would be severed and the formidable enemy position from Arras to Leau endangered with the important southern end outflanked. The length of the attacking front is not disclosed, but it may possibly be from Rheims eastward past Verdun to southwest of Metz.

In local operations between Cambrai and St. Quentin on the western front, the British are pushing further into the Hindenburg line and capturing the position of the defence of St. Quentin. West and north west of St. Quentin the British have advanced in the regions of Selency and Griocourt.

SOFA CABINET CRISIS MARKS ALLIED VICTORY

Paris, Sept. 26.—In well-informed circles there are reports that a new ministerial crisis and a complete change in Bulgaria's foreign policy is impending.

Martial law has been proclaimed in Sofia, according to reliable news printed in the German press. Says The Journal of Zurich, it is said that the Bulgarian cabinet is in continuous session, and King Ferdinand had a long consultation with Premier Malinoff yesterday.

Pacifist manifestations were held at Sofia on Sunday, Monday and Tuesday, it is reported. The German Government, according to advices to the Havas Agency from Zurich, is very uneasy over the pacifist demonstrations in Bulgaria, and the German minister has conferred with King Ferdinand.

In some Bulgarian political circles it is believed that Crown Prince Boris will become regent in the present crisis.

GERMAN PAPERS WRECKED.

Rio Janeiro, Sept. 24.—German newspapers at Porto Alegre, in the State of Rio Grande do Sul, early this week, so aroused the populace by criticisms on Brazilian affairs that attacks were made on the plants of three newspapers. The plant of the Jornal da Tarde, formerly the Vaterland, according to reports received here, was wrecked and burned. Heavy police guards were thrown about the offices of The Gazeta Popular and The Defesa do Volkshaus, the two newspapers were kept at bay until the excitement subsided.
