SEINE RISING AGAIN; TODAY'S CONDITIONS WORSE THAN EVER

Heavy Rain Swells Rivers and Floods Invade Places Which Heretofore Have Escaped

Masons Build Wall in Hope to Divert Flood From Famous Historical Paris Buildings - Rue St. Lazare Inundated Today - Network of 900 Miles of Sewers Under City Adds to the Dangers

Paris, Jan. 28.—The boiling waters of the Seine were still rising at noon today at the rate of an inch and a quarter an hour. There was a steady downpour of rain and the temperature is falling. Everywhere the situation is appreciably worse than yesterday.

Decidedly Worse

Throughout yesterday the spirit of the afflicted people rose and fell with the flood, but during the night there was little "encouragement" and with the early hours of today came a decided change for the worse. The temperature moderated today, and in some instances the suffering of the homeless ones was alleviated. Messages of sympathy from the outside many of them accompanied with substantial financial contributions, was another feature of the situation that afforded cause for thanksgiving.

The Seine continued to rise today and lacked but a few inches of attaining the greatest flood maximum on record. This was in 1915, and when the country was without the modern barriers which are designed to protect Paris and nearby points in such emergencies.

The sewers, with which the foundations of Paris is honeycombed have complicated and added to recent flood disasters. The main sewers are eighteen feet in diameter and the total length of this network of drains is 900 miles. Under flood pressure these vast tunnels burst and frequently undermined the foundations of the buildings.

INSURANCE MEN TALKING OLD RATES

Dissatisfaction at Today's Fire - Engineer Murdoch Says it is Untrue Dual Water Service is Being Operated

It is said that one of the results of this morning's fire and the water supply, will be an important session of the board of Fire Underwriters at the next meeting and that a matter to be discussed will be an increase in insurance rates.

One of the members of the board said this morning that the service today's fire was very poor. At the time of the first alarm, the insurance man said there was hardly any pressure at all. "To the fact that we did not have a direct service," he said, "I attribute the cause of the poor supply this morning. Our agreement calls for one direct service to all parts of the city, and it does not seem as though we had it this morning. I understand there were two services today. It is likely that the results of this will be that we will jump the rates, and they will go back to the former figure."

DESTROYER ASHORE, RESCUES WITH BREECHES BUOY

British War Vessel Eden Breaks From Moorings in Gale in Channel - May be Lost

Dover, Eng., Jan. 28.—Fifty-three officers and crew were saved from the British torpedo boat destroyer Eden today by means of the breeches buoy.

GRIPPLE STABBED FOR PLAYING THE PART OF A MAN

Defended Old Man From Tormentors in New York - Ladies in "Auto" Rush Him to Hospital

New York, Jan. 28.—While defending an aged and helpless man from three tormentors today, Thomas Gripples, a partially paralyzed newsboy, was stabbed three times by one of the men in Herald Square. An ambulance failing to respond promptly, two women in an automobile who had passed at sight of the crowd, took the wounded newsboy into their machine.

DUKE OF CONNAUGHT INVITED TO OPEN TORONTO EXHIBITION

Lord Carrington May be Next Governor General; Earl of Crewe Viceroy of India

(Times' Special Cable) London, Jan. 28.—The Duke of Connaught has been asked to open the Toronto Exhibition.

SKATING CHAMPS WILL BE HELD IN PITTSBURG

Pittsburg, Jan. 28.—The International amateur championship indoor skating races will be transferred from Cleveland tonight to this city. Edmund Lang of Saranac (N. Y.), and all the big stars have entered.

UNIONISTS CHOSEN SO FAR FOR PARLIAM OF BRITAIN

More Gains in Counties - A Big Turnout - Disappointment in Dorset - For Advantage in Numbers

(Times' Special Cable) London, Jan. 28.—The Unionists held one in ten English county divisions declared on Friday. They now hold five, thus raising the Unionists in the new parliament to 263. Waterford in Herts was the greatest Unionist victory. Mrs. Humphrey's Ward's son turning the 1906 Liberal majority of 1176 into a Unionist majority of 4054. The Unionists were disappointed at their failure to reverse the Liberal majority of 1907 in Dorset. The Unionists hold five seats in today's pollings and the margin of possible gain in these seats is small. The Unionists hope Balfour's strength in the new parliament will reach 280, but afraid his strength will not reach beyond 275. A Canadian, Foster, in Boulton, is among the Liberal candidates the Unionists expect to slaughter in today's pollings.

WOULD RESTRICT CHINESE AND JAPS FROM HOLDING LAND

Victoria, B. C., Jan. 28.—(Special)—That Japanese are monopolizing the best fruit and market garden lands in the province and that drastic action on the part of the national government has become necessary is the substance of a statement to the British Columbia legislature by W. H. Hayward, member for Cowichan.

RETURNED UNOPOSED

Sherbrooke, Que., Jan. 28.—(Special)—Hon. P. S. G. MacKenzie, provincial treasurer, was re-elected in Richmond county by acclamation. At the nomination meeting the new treasurer addressed his constituents for the first time, since his appointment.

BOSTON BEEF PRICES DROP UNDER PRESSURE OF "NO MEAT" BOYCOTT

Boston, Jan. 27.—The agitation against the high cost of food has begun to show results in Boston. Retail prices have fallen from 2 to 4 cents a pound on the higher grades of meat. The No Meat Club will hold its second mass meeting in Faneuil Hall tomorrow to discuss the situation.

SIXTEEN SURVIVE WRECK ONLY TO BE FROZEN TO DEATH

Victoria, B. C., Jan. 28.—(Special)—News of eight Japanese out of forty who survived the wreck of the steamer Kosaku Maru were frozen to death while eight others were left to a life fate in Kamchatka islands, was brought by the steamer Aymeric, which arrived yesterday.

JOHN C. REED IS DEAD IN SANITARIUM IN DRACUT, MASS.

Dracut, Mass., Jan. 28.—(Special)—John C. Reed who came here from St. John and who has a brother and sister in St. John died suddenly in a sanitarium here yesterday. He was a prominent business man. Little is known about his trouble but he is supposed to have had a severe collapse on account of overwork. He was aged fifty-four.

TWELVE CHILDREN CAME IN NINE YEARS

Los Angeles, Jan. 28.—Two girls and two boys arrived at the home of Mr. and Mrs. W. W. Wilson in this city this week making twelve children born to them in nine years.

POLES STRIKE; MANY LOSE WORK BY IT

Valley Falls Mill Closes - Trolley Men and the Philadelphia Strike Talk

Valley Falls, R. I., Jan. 27.—Four hundred employees of the Tilton Mill Company, which manufactures fine gingham, were thrown out of work today by the strike of 100 Poles employed as weavers, who struck because of the discharge of three of their number for insubordination. The strikers alleged that a new assistant foreman had been engaged for the purpose of discharging all the Polish employees. When invited to appoint a committee to confer with the mill superintendent, the Poles deserted their looms in a body. The mill was then closed and will not be opened until Monday.

NEW YORK HOUSEWIFE THIS WEEK CAN REPLENISH LARDER FOR 10 TO 20 PER CENT. LESS THAN BEFORE - FARMERS TRY BOYCOTT

New York, Jan. 28.—Effects of the anti-meat campaign were still strongly reflected in local markets today. While accessions to the list of "no meat" for thirty days' families are perhaps less numerous, the impetus of the initial movement is still strong enough to influence prices, which continue to drop somewhat at wholesale and to a greater degree in the retail shops. The retailers are cutting figures on all

VALLEY FALLS MILL CLOSURE - TROLLEY MEN AND THE PHILADELPHIA STRIKE TALK

Pawtucket, R. I., Jan. 27.—The combined influence of the older operatives and of several labor leaders today prove sufficient to obtain from the striking back-boys at the J. & P. Coats, Limited, thread mills, a half promise to return to work Monday. The strike of the back-boys, who were followed out by the girl twisters and spare hands, caused a shutting down of the plant.

PHILADELPHIA STRIKE TALK

Baltimore, Jan. 27.—At the annual banquet of the Merchants and Manufacturers Association at the Hotel Rennet today, Secretary of Commerce and Labor, Chas. Nagel was the principal speaker. A similar meeting will be held at 9 o'clock tomorrow morning by the mill spinners.

ASSOCIATED PRESS

London, Jan. 28.—Four Unionist gains out of eleven election returns made today give promise of a very close finish in the race of the Liberals and Unionists for numerical advantage in the next parliament. The Unionists now have 262 seats and the Liberals 260, while the Nationalists hold 76 and the Laborites 34.

Morning Cotton Letter. New York, Jan. 28.—Yesterday's depression uncovered no short orders and when early sellers for stop account found no long cotton coming on the market, they turned to cover and with offerings very light, prices ran up to a net advance of about 16 to 19 points. The close was within three or four points of the best on active previous day. It is becoming quite evident that the recent liquidation has relieved the market of all weak speculative holdings. The cotton situation itself from the standpoint of available supplies and probable requirements for the balance of the season, is bullish enough to form a foundation for an upward movement in price, but there is no speculation to take advantage of the opportunity, and if prices advance it would probably be through an actual trade demand, which means many irregularities and many reversions, even if the general trend is upward. Speculative sentiment is prejudiced by the unsettled condition arising from agitation against high priced living and against exchange, as well as by the approach of the new planting season and the promises of greatly increased crops. E. & C. RANDOLPH. New York Financial Bureau. New York, Jan. 28.—Irregularity today need not be surprising in view of the close of the latest public days, although a substantial recovery is long overdue on technical considerations alone. We said yesterday morning "in the absence of new and pressing liquidation" relying should

extend, but liquidation was again in evidence and the large interests do not intend to accept stock at prices any higher than offered, except to prevent a loss. The only factor in the market is to be made as low as possible because of its strength. Supporting orders are under the market, but liquidation impairs their withdrawal and daily operations in buying bear indicated supporting levels, may be if temporarily expedient to place a stop order just below same, unless willing to average. Averaging of course, requires capital, but will give immense profit a little later on. Stocks of worth being below intrinsic levels now, and they seldom stay there long. Conservative action is suggested until the situation is clearer. An urgent liquidation point, so far as daily traders are concerned. Orders may buy and hold satisfactorily. Hill's interview confirms our statement that the selling is hysteria, and Rockefeller supports Hill. Margie calls sent out again, however, may induce more of it. The Paris flood is much exaggerated. Insurance selling to protect Paris losses is noted but is not large. The bargain hunter is reported much in evidence, while the small investors are buying freely. The outlook for money is still better, with trade reaction making for still easier funds. Present comment is remarkable for its pessimistic tone today, while the majority of market literati is more unfavorable than usual, being influenced, judging from gossip, by the continued liquidation of Union Pacific and the unsettling rumors scattered by the bears on it. When nobody wants good stocks it is often the best time to buy.

CANADIAN LOAN IN LONDON GREAT SUCCESS

Hon. Mr. Fielding Congratulated—Passengers of the S. S. Empress of Britain (Times' Special Cable) London, Jan. 28.—The Canadian government loan has been fully subscribed. In financial circles it is being congratulated on his achievement in that it is considered that the Canadian loan of 4,000,000 3-1/2 per cent. at 99, follows close on the heels of the success of the Indian government loan of 3,000,000 3-1/2 per cent. at 99. The success of the loan of the Empire of Britain, which is the Empire of Britain, includes Stewart, Lord of the Toronto Globe, Joe Clark of the Toronto Star, J. M. McAdam and A. B. Archer.

FANCY PRICES FOR FANCY POULTRY Hens at Boston Show Held at \$750 Each—\$325 for a Single Bird At the fourteenth annual poultry show in Mechanics Building, Boston, recently one of the most beautiful and interesting exhibits in the show was the Buckeye, a breed which is fast coming to the front. This strain originated on the farm of the late Wm. Rockefeller in the town of Sandusky, Ohio, and is entirely different shape and color to any other. The birds are the nearest to the so-called egg type of any variety. The marvels of the incubator, which has revolutionized the poultry business, were a source of never-ending joy to the patrons of the show. It is estimated that more than 2,000 chicks were turned out by the incubators during the week. A single incubator holds 300 eggs. Most of the chicks found ready sale at five cents apiece, being bought by amateur poultry fanciers and by marketmen, who it is said, fasten them up and dispose of them as a choice article of the real Philadelphia squab. The high price of eggs and the glittering accounts of the profits to be made in the poultry business made the sale of chicks at this year's show, a decided success. Some spirited bidding and large sales were made during the week on many of the winners. There was a bid of \$800 for a White Wyandotte cockerel, but the bid was not taken. There was a pair of Crowned Cranes sold for \$500 and a pair of Paradise Cranes sold for \$200, and a pair of Silver Gray rabbits was sold for \$100. A pair of Silver Gray rabbits was sold for \$100. A pair of Silver Gray rabbits was sold for \$100.

PROBATE COURT TODAY In the probate court this morning before Judge Armstrong the matter of the estate of John Stewart, railroad engineer, leaving his widow, Jean, two sons—William H. Stewart, of St. John; pastor, and John Stewart, Jr., of Moncton, New Brunswick, and four daughters—Christine Henry, wife of Walter B. Henry, of Salisbury, St. John; Margaret, wife of Dr. W. B. Smith, of St. John; Margaret, wife of Frank R. Reid, of Harvey Bank, Albert County, factory; and Jean, unmarried. The widow and daughters renounce in favor of the two sons, who were sworn in as administrators; real estate, personal estate, \$2,300. Amos A. Wilson, proctor. Stephen T. Goding, heavy stable keeper, died intestate leaving his widow, Polina G., a son Ernest Arthur, and a daughter Sadie M., wife of O. G. Branscombe, dry goods traveler. The widow was sworn in as administratrix. Real estate in Princess street is valued at \$2,800, subject to a mortgage for \$1,800; personal estate \$309. Amos A. Wilson, K. C. is proctor.

CONDENSED DESPATCHES Bluefield, Jan. 28.—Private despatches received state that the imprisonment of prominent families of Granada and Managua still continues and that Madrid has virtually re-established a reign of terror. Managua, Nicaragua, Jan. 28.—The court at Mesaya today acquitted General Medina, prosecuting attorney Solomon Selva and other members of the court, martial of responsibility for liberal conviction and execution of the Americans Groves and Cannon. Chicago, Jan. 28.—The season of the American baseball league will open this year on April 14. New York, Jan. 28.—On the ground that aiding and abetting a suicide is not a crime in the state of New Jersey, counsel for the three Wardlaw sisters now in jail awaiting trial on charge of causing the death of Oleg W. M. Stead, the East Orange bath-tub victim, are making steps to free the elderly prisoners.

Boy Read Hig Det Wh Sim In the police court this afternoon a fine of \$10 was struck against Morris Green charged with trespassing in the Union Depot on Friday last. The fine was allowed to stand, a fine of \$10 was also imposed on Harry Coyne for selling cigarettes to a minor. The fine was allowed to stand as he made a satisfactory explanation. Miss Mabel Peters is vigorously working to secure a model playground, as one of the exhibits at the Dominion Fair. She has interested directors of the Exhibition Association, written to Toronto and secured information about the exhibit there, and is confident that she will have a similar one on perhaps a smaller scale will meet with favor here. The scholars in the Leinster street school were given a short recess this morning from their studies, owing to an accident to the water pipes in the basement. No steam could be got through the pipes to warm the rooms, so the scholars were dismissed. Considerable water flowed in the basement, and made it quite damp. The leakage was attended to, and the school was to be open again this afternoon. Of the ninety-seven passengers who arrived in the city yesterday on the steamer Montserrat, there were forty for points in the States and fifty-seven for the Canadian West. The American officials held up twenty-two, and the Canadian officials detained only two. The reason of the hold up was an account of the immigrants being short of funds. They were placed in the detention building, according to the arrangement made recently, whereby passengers detained for lack of money are placed in a room above the detention hospital.

ABOUT THE HOUSE FLY Breathes Though its Body and is Enormously Strong—A Study Henry Hill, a well-known English naturalist, has been making a study of the common housefly, which, he declares, belongs to the elite of the insect world. "The fly, as a fly, never grows," Mr. Hill stated in a lecture the other evening. "All its growth is done while it is a grub and during the crystallization stage. The small flies seen in the summer are not young flies, but flies which would never grow any larger. The fly does not breathe through its mouth, but through holes in its body. This explains the great comparative strength of flies, which are able to carry from six to seventy times their own weight, the reason being that the blood is purified through the whole of its course, so that energy is rapidly generated. Mr. Hill explained that the two large jugular spots seen on each side of a fly's head were in fact compound eyes. Each of these eyes was made of 4,000 facets, but this does not mean that the fly saw 4,000 spiders coming toward it, any more than we with our two eyes see two lamp posts—except under well-understood conditions. What the fly saw was not definitely known. Between these two compound eyes it had three simple eyes. The theory he was inclined to accept was that, although the fly might dimly see objects, its sense of vision was largely replaced by an acute consciousness of currents of air created in its neighborhood. For instance, if a spider approached a fly slowly and warily, it would always catch it, whereas a spider which jumped at a fly would miss it as often propped as not, the fly apparently feeling the disturbance of the air caused by the spider jumping. "How can a fly walk on the ceiling?" "At the end of its legs," said Mr. Hill. "It has two small pads, each of which is provided with about 120 minute hairs. The fly can send small drops of gum down their hairs, which are really small tubes, so that it is practically glued to the ceiling. As a rule the gum remains moist while the fly stays there, but instances have been known in which the gum has dried, and the fly has had to break off its legs in order to get away. "How is it then," he asked, "that a fly cannot walk down a milk bowl without falling into the milk?" As a matter of fact," he said, "a fly never does walk down a perfectly smooth surface. You would never see a fly walk down a window pane, if it is clean. Yet, strangely enough, the fly always rests with its head down, and, if a fly is seen at rest with its head upward, it is either dead or about to die."

THE SMITHS. As to Smith, a correspondent points out that while there are now about 320,000 members of the great family in England alone, in Old Testament times, according to the first book of Samuel, there was no more than 500. This Smith throughout the ages. This Smith throughout the ages. This Smith throughout the ages. This Smith throughout the ages.

FAVORS WOMAN SUFFRAGE Forbes Robertson, the English actor, presided at the meeting of the Equal Franchise Society at the Garden Theatre in New York the other day, and told the audience of the struggle for the worldwide growth of the movement in the last 40 years. He said it was wonderful the amount of good literature that had been written on the subject, and that in answer to all of these sound arguments that had been presented the anti had turned out only a few feeble pamphlets that could be summed up in 20 inches of space. Forbes Robertson particularly dwelt on the fact that the militant suffragette is not so bad as she has been reported.

A PEBBLE INDUSTRY.

Near Long Island there has sprung up an industry never before heard of. Two sloops are kept busy gathering pebbles, which are taken to New York, where they are sold. The pebbles are used in making stained glass and there is a sufficient demand for them in New York to keep the owners of the two boats busy. The pebbles are claimed to answer the purpose better than other shells or stones, and they are gathered from the shores where the waves wash them. The water polishes them and brings out the beauty of their colors.

ERE IT BE TO LATE

Why don't you write? Have you forgot your promise when you went away? Why don't you write? It's surely not that you've been too busy to say. The time is going fast.

Know you how many weeks have passed And found us watching day by day? Why don't you write? We love you so.

Your silence makes forebodings chill. Why don't you write and tell us how if you are faring well or ill? Your absence weren't so cruel, dear. If we sometimes fret, you could hear. And know that you were all right still.

Why don't you write? The world-succes Cannot have lured you quite away From every thought of tenderness. For dear ones waiting day by day. Weary with longing and distress— Your silence and forgetfulness.

For such devotion is poor pay. And if you have not won success— If want sits at your board today. Why don't you write? We'd never guess At anything you did not say.

Then write and say you'll ne'er forget Your mother, that you get in debt. For stamp and paper, ne'd to pay And if the world with pomp and show Is counting you amongst her great.

Write quickly, let the old folks know, Your grandeur ere it be too late. For tho' they cannot love you more, Your proud success leaves at their door More joy than you get, sure as Fate. Pittsburg Sun.

You may build castles in the air. But just to prove your worth They'll come around and make you pay Taxes here on earth.

NO WONDER

The auto wheel assumed a pious look "I have just been on a 25,000 mile trip," it bragged. "I don't wonder you're tired," murmured a shy cart wheel.

THE MILKMAN'S STANDBY

In the blissful days of our childhood, If the milk was rather slim, Dad would cuss the merry milkman And denounce him for a skin. And he didn't have to tell us— Everyone was sure to know— That one-half the milkman's profits Came from sparkling D.D.

But a cruel legislation Put a kibosh on that plan. For a milk inspector tested Contents of each single can. So the merry milkman suffered— As have others of his ilk. When his grade was stopped he couldn't Put fresh water in his milk.

But the high financing gent Bada him grievous not any more, And they showed him how his profits Might be as in days of yore. Milkmen now are corporations. Capital, some, million rocks. And the milk is free from water. For the water's in the stocks.

Public, blame the law forbidding Milkmen to adulterate. That saving us all from typhoid, That annoying, vulgar fate Milkmen, have incorporated. Business should earn you praise For they've proved your best friend. water. May be used in better ways. —Arthur Roche.

SAYS CHINA

WILL SOLVE THE PROBLEM HERSELF

"China herself will solve the Asiatic immigration problem for the American people," said Tung Lo, Li, of Canton who is at the Raleigh. "I entirely agree with Low Sz Ki, the Chinese imperial investigator of mining, commerce and agriculture, who said, three years hence Chinese immigration will practically cease. The revival of all industries in the orient, the adoption of modern methods, manufactures and trade and the development of immense resources of minerals will keep the Chinese working man at home.

"China," continued Mr. Li, has since ceased to worry about relations with the United States growing out of the immigration problem. When the Chinese workman gets fair wages he will be more prosperous by remaining in his own country, where the cost of living is small. China is waking up as the Americans would say. The present ministry is doing all in its power to arouse the patriotic pride of the people, opening mines, stimulating trade and making China a place for Chinamen. "The mineral deposits in Kwong Si," continued he, "are among the richest in the world. They are practically in their virgin state. Gold, silver and coal are being mined from the famous Saping mountains. In this region the coal is of the best quality and is being mined difficultly. The veins have a uniform thickness of about nine feet.

"The silver deposits yield from \$500 to \$1,400 a ton. The government is offering every encouragement to the development of the mining interests, and next year over 30,000 men will be employed in one mine alone. Only oriental capital is being invested. It will be seen that we shall not only keep our people on the other side of the Pacific, but we expect to bring many of these in this country. Canada and Mexico back home and keep them there. After the establishment of the new order of things in China, America will get only business men and tourists from our country. The Kwong Si mining district is about 300 miles west of Canton and also reaches the seaboard by means of navigable streams to the Tonkin Gulf."—Washington Herald.

STOMACH MISERY JUST VANISHES

Indigestion, Gas, Heartburn and Dyspepsia Go and You Feel Fine in Five Minutes

As there is often someone in your family who suffers an attack of Indigestion or some form of stomach trouble, why don't you keep some Diapasin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy Stomach five minutes after.

Tell your pharmacist to let you read the formula plainly printed on these 50-cent cases of Pape's Diapasin, then you will readily see why it makes Indigestion, Sour Stomach, Heartburn and other distress go in five minutes and relieves at once such miseries as Belching of Gas, Eructations of sour undigested food, Nausea, Headache, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with the common every-day cures advertised that they have about made up their minds that they have something else wrong, or believe their is a case of Nervelessness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours, turns to acid, Gas and Stomach poison which poisons in the digestive tract and intestines, and, besides, poisons the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Pape's Diapasin.

HIS EGG PRODUCER

Ashley—"I suppose you remember that wonderful White Leghorn hen of mine?" Seymour—"Yes, what about her?" Ashley—"I want to tell you about her laying; it's something remarkable; why, some days last summer she laid more eggs than all my other hens put together."

Seymour—"What's the matter with the other hens?" Ashley—"They were sitting."

UNCLE EZRA SAYS:

"Sometimes the wicked stand in slippery places so it will be hard for anybody to get near 'em."—Boston Herald.

SIMULTANEOUS EVANGELISTIC MEETINGS

"Can a man be born when he is old?"

Do you believe that after years of moral failure a man can hopefully begin a new life?

The reckless folly of youth becomes the vicious habit of maturity; that much we know.

But do we believe that there is any possibility of freedom for the man who has grown old in sin?

We believe in law.

We know that every man reaps as he sows.

We know, moreover, that he reaps a good deal that his ancestors and his companions have sown.

We can explain every failure by the laws of degeneration.

We believe as never before in the world's history that man must continue to be what he has become.

That is our characteristic unbelief.

We preach that doubt on every street corner to every broken out-cast man or woman.

But Jesus was open-eyed to the forces of regeneration.

He believed that a man could be born when he was old.

He made it His mission in life to go to the discouraged, down-cast, hopeless folk with the inspiration of His faith.

Do we believe that there is any hope for the man who must remember years of moral failure?

Have you any gospel for weak and sinful men?

If so, why not preach it.

That is the business of the campaign.

SENSATIONAL FACTS IN ALASKA COAL INVESTIGATION

Washington, D. C., Jan. 27.—A new and somewhat sensational factor has appeared to add intensity to the already sufficiently excited situation over the Alaska coal lands and on the eve of the beginning of the Ballinger-Pinchot investigation which largely concerns that question.

John E. Ballaine, of Seattle, said to be the largest individual property owner in Alaska, today made a proposition in writing to the senate committee of territories, of which Senator Beveridge of Indiana is chairman, offering the government a royalty of fifty cents a ton for coal mined for the lease of 5,000 acres of some of the choicest coal lands in Alaska in the Katalla and Matanuska districts. Such a tonnage royalty would net to the government, Mr. Ballaine claimed, as much as \$2,000,000 per hundred acres.

This proposal contemplates a radical departure from past practices in the government's disposal of the Alaska coal lands and it comes awkwardly to dot battle with another proposition in a bill which has been prepared but not yet introduced, designed to permit the sale or lease of such lands at a rate of \$10 per acre. It is said that the general features of the plan have the approval of officials high in the administration and of influential members of both houses of congress, including some of the prominent insurgent Republicans and Delegate Wickerman of Alaska.

Had a Bad Cough For a Number of Years.

Mrs. A. E. Brown, Ottawa, Ont., writes: "I have had a very bad cough every winter for a number of years which I was afraid would turn into consumption. I tried a great many remedies but only received temporary relief until I got a bottle of Dr. Wood's Norway Pine Syrup, and after taking two bottles my cough was cured. I can never get another bottle of Norway Pine Syrup."

Too much stress cannot be laid on the fact that when a person catches cold it must be attended to immediately or serious results may follow. Dr. Wood's Norway Pine Syrup is the medicine you need. It strikes at the foundation of all throat and lung complaints, relieving or curing all Coughs, Colds, Bronchitis, Croup, Asthma, Sore Throat, etc., and preventing Pneumonia and Consumption.

So great has been the success of this wonderful remedy it is only natural that numerous persons have tried to imitate it. Don't be imposed upon but insist on getting "Dr. Wood's." Put up in a yellow wrapper, three pine trees the trade mark, price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

LIBERALS MEETING BETTER FORTUNE

London, Jan. 27.—Speculation is active respecting the government's immediate future. The most urgent business is finance, the treasury having borrowed extensively to carry on the administration. Millions of taxation are overdue and the Liberals express little doubt that the lords will pass the budget.

Respecting the lords' claims of authority over finance it is probable Premier Asquith will introduce a resolution, followed by a bill, declaring the commons supreme, this to be followed by action against the peers' legislative veto.

What the lords will do remains to be seen. The king's position, in view of Asquith's promised demand for guarantees, is not discussed. Mr. Ballaine stated in his proposal that veins averaging a total thickness of twenty feet would yield, according to standard measurements, a total in excess of 100,000,000 tons from the 60,000 acres, making a royalty of \$30,000,000 for this comparatively small area.

COULD NOT SLEEP. DOCTOR SAID HEART AND NERVES WERE RESPONSIBLE.

There is many a man and woman tossing night after night upon a sleepless bed. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Some disease has so debilitated and irritated the nervous system, that it cannot be quieted and causes nightmare, bad dreams, starting in the sleep, twitching of the muscles, restlessness, etc.

Milburn's Heart and Nerve Pills are a specific for all people troubled in this way. They have a soothing and calming effect upon the nervous system.

Mrs. Calvin Stark, Rossmore, Ont., writes: "About two years ago I began to be troubled with a smothering sensation at night when I would lie down. I got so bad I could not sleep in the dark, I would have to sit up and rub my limbs, they would become so numb. My doctor said my heart and nerves were responsible. I saw Milburn's Heart and Nerve Pills advertised and got a box to try them. I took three boxes and the light now lies down and sleep without the light burning and can rest well. I can recommend them highly to all nervous and run down women."

Price, 50 cents per box or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WORK OF THE WOMEN'S COUNCIL

Annual Meeting Held This Afternoon; Facts From the Reports

NINETEEN SOCIETIES

The Secretary, Mrs. Chisholm, Reviews the Work of the Year—Miss Mabel Peters' Report on the Play Grounds in St. John

The annual meeting of the St. John Council of Women will be held this afternoon in the Orange Hall German street. The president, Mrs. David McLellan, will preside and the meeting will open with prayer. After the roll call and the reading of the minutes, the president will make her annual address. The following reports will be received: The treasurer's, from Miss Leavitt; the corresponding secretary's and the recording secretary's. The latter is the most important of the meeting, and is presented by Mrs. D. P. Chisholm. It deals with much interesting work accomplished during the year. Mrs. Chisholm writes:—

The Year Reviewed

"In presenting this report of the work undertaken and accomplished during the past year we have the satisfaction of knowing that the members of our St. John Council of Women have kept in touch with such reforms as stand for the betterment of mankind; especially we have sympathized with the movement tending towards the suppression of tuberculosis in our city.

"An association for the prevention of tuberculosis was formed in this city and we had the privilege of announcing our president as the first woman life member. Recently some money was voted to provide milk and eggs for those whose lack of means prevented their procuring nourishing food, the expenditure to be supervised by the members of the local council, the food to be distributed under the rules governing the free dispensary about to be established.

"I have also to report the gratification of reaping the fruits of our repeated efforts drawing attention to the non-enforcement of the by-law forbidding expectation on the streets and in the electric cars and other public places. Beginning last summer arrests were made for the offence and the presiding judge warned the public that in future offenders would be punished strictly according to the law.

"While it is a regrettable fact that no thing definite has been accomplished towards securing a jail matron for the city, the subject is as vital as when first introduced. Last year a petition was again forwarded to the municipal council praying that an appointment be made, but with the same unsatisfactory results as former years. Through the play grounds committee, of which Miss Mabel Peters is convener, the Women's Council last summer successfully operated one play ground with the usual staff of teachers and attendants. This work is increasing.

"Last October a petition was forwarded to the legislature signed by the president and executive of the Women's Council, asking that the position of woman inspector of factories be filled, as provided for by the act. Considerable correspondence on the subject has taken place between Premier Hazen and the president of our council, and it is hoped that the appointment may eventually be made.

"Our local council has placed itself on record as favoring the establishment of juvenile courts in this city, having passed resolutions in March expressing a desire to aid and support the work taken up by the W. C. T. U. in petitioning the legislature to establish juvenile courts in St. John. At this meeting it became the pleasant duty of our treasurer, Miss Grace Leavitt, to move a resolution which made our esteemed president a life member of the National Council.

"In October our council had the privilege of hearing an address by Rev. Dr. Shearer, secretary of the Social and Moral Reform Council of Canada, on the subject of the "White Slave Traffic." The details were of such a startling nature that the necessity of immediate action was made manifest.

"The council entertained the delegates to the Dominion W. C. T. U. convention in October and the reception tendered to them in the Y. M. C. A. was one of the brightest events of the season.

"Recently an invitation was received from the executive of the exhibition inviting our local council to take charge of the women's work department of the Dominion exhibition in St. John this autumn, and the affiliated societies having agreed to lend their assistance, it has been decided to assume the responsibility.

"In the month of June the international meeting of the National Council was held in Toronto and proved the most enjoyable ever held. The delegates from our local council were Mrs. Robert Thomson, Mrs. David McLellan and Miss Mabel Peters and all took a prominent part in the programme of daily events. In this connection our council had cause to regret that Her Excellency Lady Aberdeen was unable to accept our invitation to visit St. John while in this country, but her gracious reply intimating that her stay in Canada was limited, was no doubt sufficient reason.

"We have great pleasure in adding the Women's Canadian Club to our affiliated societies, making in all nineteen organizations standing together for all that is just and good. Within the last twelve months five general and three executive meetings have been held. Especial mention should be made of the special meeting called in June to hear Miss Elizabeth Robinson Scovell read a paper on "Pure Food." The paper was afterwards read at the quarterly meeting, eliciting the most favorable notices from the Toronto press.

"Before closing our report we desire to express our gratitude to the press for numerous favors received this year. The Women's Council owes much of its influence to the papers, as through their columns the work of the council spreads through the land.

Play Grounds Report

The report of the committee on vacation schools and supervised playgrounds for 1909, was submitted by Miss Mabel Peters.

The committee, early in the year, solicited the school board to make the playgrounds a feature of the school system.

NOTICE

To—George H. Benn formerly of the City of Saint John in the City and County of Saint John and Province of New Brunswick, Placid Budgey and Mary Bent his wife or to the being executors administrators or assigns of the said George H. Benn and all others whom it may concern. NOTICE IS HEREBY GIVEN that by virtue of a power of sale contained in an Indenture of Mortgage dated the sixteenth day of July in the year of our Lord one thousand eight hundred and eighty five registered in the office of the Registrar of Deeds in and for the City and County of Saint John Libro 17 of Records pages 475-476-477 and 478 and made between George H. Benn and Mary Bent his wife of the one part and Margaret J. Bustin of the said City of Saint John widow of the other part there will for the purpose of satisfying the monies secured by the said Indenture of Mortgage default having been made in payment thereof and in pursuance of the said power of sale be sold at public auction at Clubb's Corner (so called) corner of Prince William and Princess Street in the City of Saint John in the Province of New Brunswick on Friday the twenty-eighth day of January A. REPORTS AND DISASTERS

Baltimore, Jan 26—The British steamer Strathmair, loaded with steel rails for Fremantle, Australia, and the American steamer Kennebec, coal barge, for Boston, collided near the mouth of the Patuxent river during the thick weather today. Both vessels returned to this port of survey. It was found that the Kennebec would have to effect repairs before she could proceed. The steamer Strathmair was less seriously damaged.

The home of Mrs. Alonzo Cameron, 42 Durban street, was the scene of a very enjoyable gathering last night when Mrs. Cameron entertained the members of her Sunday school class of Victoria street Baptist church to a turkey supper. About seventeen children were present. After supper the little ones adjourned to the parlor where the remainder of the evening was spent in games and amusements. During the evening Miss K. Beattie won a bottle of perfume as first prize in an animal spelling contest. The gathering broke up shortly after 11 o'clock. One of the guests present was Mrs. A. L. Colwell of Vancouver, a sister of Mrs. Cameron's, who has been away from St. John for nineteen years.

Joseph Hawker has been elected first vice president of the board of trade of Centerville, Carleton county, in which place he has been a prominent druggist for some years. He is a son of Wm. Hawker of this city.

MARINE NEWS

West India steamer Oatino will be due here next Sunday from Bermuda. Allan line steamer Corsican is due at Halifax today from Liverpool and here on Saturday. Steamship Inshoven Head, Captain Sheodard, is now on the west side taking in her grain freight for Belfast, Ire. Steamship Manchester Shipper left this port yesterday for Manchester with a full freight. Government steamer Iandowne has returned from Hull, Eng., to the United States, arrived at Boston last Wednesday in the Gallico, which berthed at the new pier at Mystic wharf. The freighter had 2500 tons of merchandise for Boston and 1700 tons for New York. The biggest shipment of grain to be made from Halifax this season will leave port on Monday next, when the Furness liner Dunag sails for Liverpool. The steamer will take about fifty thousand bushels, about all there is in the elevator at the present time.

A NEW VIEW OF THE GOOD ROADS QUESTION

At the annual dinner of the Quaker City Motor Club in Philadelphia, Supreme Court Justice John T. Elkin, in speaking of the state roads, said: "Have you ever stopped to think of the enormous wealth of our state, almost beyond the comprehension of a human mind, and then recall the fact that we are doing this vast volume of business on dirt roads in nearly every part of the commonwealth? Surely this ought not to be so. As an economic question, if for no other reason, our people should take up and solve the road problem with the same intelligence they meet and solve other important questions. Good roads are the very foundation of every progressive civilization. In the history of the world the march of progress may be traced by the improvements of the public highways. The Romans left a monument of their greatness in the Appian Way. Napoleon with 40,000 Frenchmen and three years time, carved a road over the Alps, and the Simpson Pass remains a monument to his genius even to this day. In one respect European nations are far in advance of us, and that is in the building and maintenance of good roads. No one can travel through Great Britain, Germany, France, Austria and other European countries without a feeling of regret upon his return to the dirt roads of Pennsylvania. Over there they realize the advantage and in the end the economy of good roads. Sooner or later we must do the same here. No progressive people can maintain supremacy in any field of commercial life if their products and traffic must be hauled over roads unfit for economical transportation.—New York Post.

DON'T think because you have taken many remedies in vain that your cure is incurable. Hood's Sarsaparilla has cured many seemingly hopeless cases of scrofula, catarrh, rheumatism, kidney complaint, dyspepsia and general debility. Take Hood's.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader. Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 20 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00. W. W. CORY Deputy of the Minister of the Interior. N. B.—Unauthorized publication of this advertisement will not be paid for. 218-5.

The Maple Leaf Club of St. John West held their annual dance in Oddfellors' hall, west end, last evening. About fifty couples were present. The chaperones were Mrs. Norman P. McLeod, Mrs. W. L. Ellis and Mrs. A. R. C. Clarke.

ADVICE TO YOUNG MEN TO HELP LIFE'S BATTLE

Rev. Byron H. Stauffer of Toronto Quotes Suggestions from Citizens to New Generation

(Toronto World.) Instead of preaching a regular sermon last night Rev. Byron H. Stauffer, of Bond street Congregational church read some crystallized gems of advice from Toronto citizens prominent in every walk of life to young men coming on to manhood.

James Osborne, divisional superintendent C. P. R.: "Be truthful, honest, sober and use your wits."

Major Gray: "Examine well before hand the merits of any proposition before you before going into it."

W. F. Maclean, M. P.: "Since your body is the temple of the soul, take care of your body."

T. C. Robinette's advice was for the young man to study the book of Proverbs and ground his rules of life upon the common sense everyday philosophy contained in the writings.

Crown Attorney Corry also quoted from Proverbs: "A merry heart maketh a cheerful countenance."

Ex-Mayor Oliver advised the young man to get punctual and to always be truthful.

Rev. Dr. Briggs: "Be faithful, don't spend all your energy holding down your job—spend some of it mastering the one ahead."

Dr. Sheard, medical health officer: "Be above the crowd, be above the noise, be above the fray."

Rev. Father Minahan advised the young man to get married when his salary reached \$700 a year, and to avoid gambling.

R. J. Fleming tells the young man to be clean in his habits, honorable and truthful.

Peter Ryan: "Refrain from intoxicating drink and marry a prudent, economical wife."

F. S. Spence: "Abandon narrow desire for personal advantage. Take hold of a profession which has vitality and needs aid."

Controller Ward suggests being ambitious with lofty ideals.

A HINT TO LADIES WHEN SHOPPING

If you wanted anything badly, and when you got to the store were persuaded to take something else instead, when you came away wouldn't you feel a little disappointed? As if somebody had "got one over you"—and not for your benefit, mind, but for their own profit!

And when you proved that the something which was represented as being "just as good" as what you asked for was not as good—as was not to be compared even with the real thing, wouldn't you feel a little worse?

This is just the case about Zam-Buk. Like all good things it has many imitations. Why buying it just ask for Zam-Buk, and see that you get it. The name is protected by law, and is clearly marked on each package. Don't have anything else. Then you won't feel that somebody has made a few extra cents out of your lack of firmness.

WEDDING ANNIVERSARY

The home of Mr. and Mrs. Silas McDiarmid, Goodrich street, was visited last evening by several relatives and friends who wished to offer congratulations on the occasion of the 25th anniversary of their wedding.

On the occasion of the 25th anniversary of their wedding, appropriate gifts were presented to Mr. and Mrs. McDiarmid, accompanied by the best wishes for their future happiness.

In the evening season the London service is to be considerably improved. The Canadian government have renewed the contract with the service between France and the Dominion.

The death of James Main, the Scottish international, is the first that has been recorded since football was introduced into the International A. C.

Yachting C. H. South, of the sailing committee of the St. Lawrence Yacht Club, Montreal, has announced that one of the builders of a challenger, for the Season Cup would be McKay Edgar of Montreal.

Skating Cleveland, Ohio, Jan. 27.—Edmund Lamy of Saranac Lake (N. Y.), held his championship title in the indoor skating races held last night and tonight and made four new records.

THE CHANGES IN RULES OF BASEBALL

Summary of The New Regulations Made at Pittsburgh Meeting

SPORT MATTERS

Last Night's Bowling Scores and Other St. John Sporting Happenings—Ring, Athletic, Yachting—Other Timely Notes of Interest

The joint rules committee of the American and the National League at its session in Pittsburgh made many changes of importance.

A new section was added to Rule 26. It reads: "Whenever one player is substituted for another, whether as batsman, base-runner or fielder, on when two or more fielders shift position, the captain of the side making the change must immediately notify the umpire, who in turn must announce the same to the spectators."

When a ball passes a fielder and hits the umpire, if the latter is on foul ground, the base-runner may take as many bases as he can.

Hereafter when a fielder shall throw his glove or mask at a batted ball the batter shall be allowed three bases instead of the single base he has been allowed heretofore.

In order to stop yelling and interference from the players' bench, the umpire is instructed to fine each offending player \$10 on the first offence.

The umpire shall hereafter be the sole judge of the time to call a game in case of rain.

The terms "wild pitch" and "passed ball" have been eliminated from baseball; hereafter they will be put down as plain errors.

In running down a player between bases the man getting the put out shall also get an assistant in case he shall have made a pass with the ball in the play.

A batter throwing a bat before running so that it hits the umpire's catcher will be fined \$5 for the first offence.

If an umpire is hit by a ball no runner can score unless forced by base runners.

Manager Barrow of Montreal, has succeeded in landing from the Oakland Club of the California League, Big Jim Wiggs, who pitched a memorable twenty-four inning game last summer.

Wiggs was awarded to Alton, which has sold him to Montreal.

Manager Patay Donovan, remembering his serious trouble the New York American club had when Hal Chase contracted small pox last spring during the training trip in the south, has decided to take proper precautions against any such experience for the Boston Americans.

He mailed to each player on the team a certificate that he be vaccinated by a competent physician at once so that by the time the men reach Hot Springs there will be no soreness left in the arms.

The Ring

John L. Sullivan, who arrived in Boston Tuesday, denied the reports that he contemplated matrimony.

Bats of Tuesday were—Pittsburg, Jan. 25.—Frank Moran and "Thunderbolt" Smith fought six rounds to a draw.

Philadelphia—Jack Britton of this city edged Harry Catch of New York in six fast rounds at the Douglas A. C.

Buffalo—Paddy Lavin of Buffalo and Fighting Dick Nelson met ten rounds to a draw at the International A. C.

Utica—Billy Ryan of Syracuse outlasted Bob Critcher of Montreal in ten rounds to a draw at the International A. C.

Winnipeg—The famous London service is to be considerably improved. The Canadian government have renewed the contract with the service between France and the Dominion.

The death of James Main, the Scottish international, is the first that has been recorded since football was introduced into the International A. C.

Yachting C. H. South, of the sailing committee of the St. Lawrence Yacht Club, Montreal, has announced that one of the builders of a challenger, for the Season Cup would be McKay Edgar of Montreal.
