CONGO HORRORS TO BE EXPOSED

Atrocities to Be Brought to Light in Court of Law FEARFUL TALES Man Flayed Alive, Woman Bound on Ant Hill to Be Devoured by Insects—Exposure by Lieutenant of Company.

Brussels, Oct. 14.—The atrocities perpetrated by King Leopold of Belgium through his representatives in the Congo Free State are to be exposed at last in a court of law.

The torturing and maiming of defenseless native men, women and children, which have excited the indignation, but never the active interference, of the civilized world, will be bared, and it is hoped, proved by Lieutenant Emil Dorepaha, a naval officer, who, in utter disgust, has given up his contract as an official in the Congo to come home and reveal to his countrymen the horrors that he has witnessed with his own eyes.

Leutenant Dorepaha has been for two years in the employ of the Societe Anonyme Belge in the Congo. He managed to endure the sight of a native man flayed alive because he had failed to bring in a full load of rubber to the Belgian officials. But when the lieutenant beheld a woman bound and devoured by the insects, he gave up his commission and returned to this country.

Driven Into the Open The company, alleging breach of contract, refused to pay his back salary or to reimburse him his expenses. The lieutenant admits breaking his contract, but sets up the defence that the company breaks the law and by that act invalidates the contract. He is now suing the company, and there is to be a court of hearing at which the atrocities of the Congo will be brought home to King Leopold and laid bare as they have never been before.

In his presentation of facts the lieutenant is prepared to give the official record of what he saw, and it is declared that his revelations will stagger humanity. "Needless to say," leaders of the anti-Congo movement all over the world will support Lieut. Dorepaha.

The most recent movement against the atrocities has been headed in England by Sir Arthur Conan Doyle, E. D. Morel, secretary of the Congo Reform Association, who are planning a series of mass meetings throughout the United Kingdom for the purpose of arousing the public to an understanding of, and a protest against the situation in Africa.

THREE NEW NAMES ON DIRECTORATE OF UNION PACIFIC

Salt Lake City, Oct. 14.—At the annual meeting of the stockholders of the Union Pacific railroad, a board of directors was elected which contains three names as follows: Jacob Schiff, William G. Rockefeller, Jacob Schiff and H. W. Detroit.

Rockefeller succeeds W. D. Cornish, and Schiff succeeds W. D. Cornish. The place of E. H. Harriman is filled by DeForest. Seventy-four per cent of the stock was represented at the meeting.

The new directors, whose selection had been forecast, are all in accord with the Harriman interests.

Toledo, Oct. 12.—Jay Gould, the youngest son of George J. Gould and was elected a member of the board of directors of the Washash Railroad at the annual meeting of the stock and debenture bondholders here.

Young Gould succeeds Judge William B. Sanders of Cleveland, who declined reelection. All the other members of the old board, including President A. Delano, were re-elected. Seventy-nine per cent of the stock and bonds were voted.

The report on gross earnings for the first week in October show a gain of \$95,188. Reports also show an increase gain from July 1 to October 7 of \$218,307.

NEW C. P. R. LINE TO BE COMPLETED THIS WEEK

Winnipeg, Man., Oct. 14.—(Special)—The new main line of the Canadian Pacific railway to Northern Alberta, which will connect Winnipeg with Edmonton, will be completed this week. It will tap the Calgary and Edmonton road at Wetsaskiwin

FOUND IN DEATH ON GRAVE

Unknown Man Discovered by Visitors to Cemetery—Alderman Injured by Bomb in Saloon—Jury Disagree

Markham, Ont., Oct. 14.—(Special)—Some visitors from Toronto, on going to St. Andrew's Presbyterian church cemetery to see the graves of relatives were startled to find a man lying on one of the graves apparently dead. The police were notified, and a doctor called. The latter found that the man had been dead for some time.

Investigation led to identification as John Watson, about sixty years of age, who had been working in and about Malvern and Agincourt, for the past twenty years. Death was found to be due to acute pneumonia. He had no known relatives.

Ingersoll, Ont., Oct. 14.—(Special)—The police of Ingersoll and district are investigating a peculiar affair which took place last night in the bar of the Kirwin House. Ald. James Buchanan was in the bar with others, and was lighting a cigar when, according to some, a bomb or some other explosive, was thrown at him. Whatever it was, it exploded with terrific force, tearing away two of Buchanan's fingers, his right hand, and otherwise injuring him.

He was unconscious for some time. The police are looking for a stranger who appeared at the door about the time the explosion took place.

North Bay, Ont., Oct. 14.—(Special)—After being out two hours, the jury in the case of Saul Gouin, on trial for the murder of Carrie Russell, near Cobalt last November, reported disagreement, ten standing for acquittal, one for manslaughter, and one for murder. They were discharged, and the case retried by the next assizes. The woman was also known as Mary E. Smith.

PICKS ROOSEVELT AS PRESIDENT TO SUCCEED TAFT

Spokane, Wash., Oct. 14.—John P. St. John, former governor of Kansas, who has come to Spokane to begin the fight for prohibition in the state of Washington, made two predictions in the course of an interview.

"Nothing except his death will prevent the nomination of Theodore Roosevelt to succeed President Taft, and if he is not elected no other Republican can be." "Ten years hence there will not be a legalized saloon within the boundaries of this commonwealth. Spokane will be 'dry' in five years from this time."

Mr. St. John said, among other things, in speaking of Roosevelt and Taft:—"Theodore Roosevelt is the sharpest politician in the United States. Roosevelt knew Taft, believed him to be an honest man, and so do I, but he knew that Taft is a putty man, soft putty at that. Roosevelt helped to elect Taft. He knew that his administration would be a failure."

"Roosevelt went off to Africa. He is not mixed up in any of the questions before the people today. In the course of eighteen months he will return, covered with rime, hides, elephant tusks and ivory. The howl and yell element in politics will raise the cry for Roosevelt. The country will go 'wild' over him. Nothing except his death will prevent his nomination to succeed Taft, and if he is not elected it will be because no Republican could win."

SHE JUGGLED WITH MILLIONS, NOW IS A BANKRUPT

London, Oct. 14.—In the court of bankruptcy this week was written an unromantic closing chapter of the wonderful romance of Violet Gordon Charlesworth. Two years ago this terrific young woman, after deftly eluding the slanders of stock brokers and tradesmen in London through mysterious rumors of a huge fortune that was coming to her, disappeared. A wrecked automobile was found at the edge of a cliff in Wales and Miss Charlesworth was reported dead.

Soon after the missing heiress was seen in Scotland and was arrested. Today before being adjudged a bankrupt she declared her failure was due to "unlimited extravagance."

During her brief career, Miss Charlesworth juggled with millions, mansions and manors as children play with marbles.

and is generally known as the Wetsaskiwin branch. There remain but sixteen miles of steel to lay, and the last spike will be driven before Saturday night next. This will give practically another main line through to the Alberta capital via Portage la Prairie, Saskatoon and Yorktown.

DONOVAN AND MADDOX RIVALS IN THE CHAMPIONSHIP GAME TODAY

DISCOUNT RATE GOES TO FOUR P. C.

Bank of England Announces Increase This Morning—Little Effect on Stock Exchange as Increase Was Anticipated

London, Oct. 14.—The depletion of the reserve, the continued foreign gold requirements and the gradual hoarding of private discount rates had the anticipated effect on the Bank of England discount rate, which was put up to four per cent this morning. It had been three per cent. The amount of reserve is nearly \$5,000,000 below last week, while the demands for the metal abroad, especially from Egypt and Argentina, show no signs of abatement.

The high rate however is also directed against Germany and America. A large amount of American finance paper already has been placed here and it is anticipated that the United States will soon be in a position to withdraw gold to the further disturbance of the London money market.

In Germany speculation made money extremely tight, and an expansion of German demands for gold is looked for. In some quarters there is doubt if the four per cent rate will attract sufficient gold to build up the reserve as well as to meet future demands from Europe and America, so the market would not be surprised if a higher rate is imposed.

Today's advance was so confidently anticipated that it had little effect on the stock exchange, where the feeling was rather one of relief. When the suspense was over, operators marked up consols 1/4. On the other hand American securities, which opened well over parity, decreased a quarter to half a point from the best on the higher bank rate.

The weekly statement of the Bank of England shows the following changes: Total reserve, decreased \$268,000; circulation, decreased \$249,000; bullion, decreased £1,068,408; other securities, increased £471,000; other deposits, increased £21,000; public deposits, increased £387,000; government securities, increased £4,000. The proportion of the bank's reserve to liability this week is 44.09 per cent; last week it was 45.21 per cent.

BACK AFTER HUNTING TRIP, TO SHOOT DEER NEAR HOME

Engaging in an unseasonable hunt for big game and spending a week in search of something worth while, failing to secure anything which would justify his returning home satisfied with the result of his endeavors, but on his way back, the object of his wandering almost at his very door, was the experience of Fred A. Dykeman.

The Dykeman, top a trip last week toward the upper counties of the province, but the heavy rains prevented him from hunting. He was compelled to return practically empty handed.

But good things were in store for him for yesterday morning near his home in Renforth, he shot a fine deer. Mr. Dykeman's experience will show that it is not necessary to travel far from home in order to get game.

ARM CUT OFF, BOY WALKS THREE MILES FOR HELP

Hamilton, Ont. Oct. 14.—(Special)—Henry Bailey, a boy run over by a Grand Trunk train three miles from this city, and had an arm cut off. Leaving the amputated limb lying beside the track, he walked all the way to the city and to the hospital. He will recover.

TAFT AND DIAZ TO MEET TOMORROW

El Paso, Tex., Oct. 14.—The Mexican authorities issued orders yesterday closing every saloon in Ciudad Juarez, opposite El Paso from tomorrow noon, five hours before the arrival of President Diaz, until Sunday morning, ten hours after he leaves.

This is done, it was explained, as a precautionary measure for the protection of Presidents Taft and Diaz during their meeting here. The federal authorities in Ciudad Juarez also issued an order forbidding the discharge of fireworks of any character and forbidding crowds to stand close to the reviewing stands.

CRANE'S RESIGNATION HAS BEEN ACCEPTED

Washington, Oct. 14.—All doubt as to what action Pres. Taft would take with respect to the resignation of Charles H. Crane, minister designate to China, was dispelled this morning by the receipt of a despatch from the president, directing him to convey to Mr. Crane announcement of the fact that the resignation has been accepted.

ALLIANCE SECRETARY DISCREDITS REPORT

Montreal, Oct. 14.—(Special)—The reported action of the Ladies Day Alliance in protesting against delivery of milk at the Red Cross hospital there is apparently without authority of central officers. Rev. T. Albert Moore, dominion secretary, Montreal, today, said: "I have not heard of it, and I cannot believe it."

Detroit Desperate and Pittsburg Confident at Start of Important Match—Speculators Lost Heavily on Tickets—Twenty-four Have Been Arrested

Detroit, Mich. Oct. 14.—Chilly weather again greeted Pittsburg and Detroit as they prepared for what may be the last game of the world's championship series at Bennett Park today. Both teams arrived in good shape from Pittsburg in the National football train. A heavy frost greeted them as they emerged from the cars but the bright sunshine warmed the air a bit and conditions for the game promise to be better than any that have been played in this city.

Detroit Desperate

Detroit is desperate and will fight to the last ditch to win today as a defeat will give the greatest honors in organized baseball to the National League champions. During the series each team has won the alternate game, Pittsburg taking the first and Detroit the second. There fore it is Detroit's turn to win and both Manager Jennings and his men are confident of victory.

Pittsburg is equally confident of carrying off the championship in today's game and one of the most desperate battles ever waged is expected by thousands of enthusiasts who journeyed out to the park many of them several hours before the game was scheduled to begin.

Donovan is the probable choice of Manager Jennings despite the cold weather as he is the favorite of the American League fans and Donovan is considered the proper man to win this game because of his experience in the series. If Donovan is able to win today, the Detroit supporters are confident that they will be in condition to win the seventh game which will then be played here Saturday.

Jennings Criticized

Many Detroit enthusiasts are criticizing Jennings for using Summers in yesterday's game. Summers was given a third beating in the first inning of the third game.

CAPTAIN REFUSES TO LEAVE VESSEL THOUGH SINKING

New York, Oct. 13.—The fishing schooner Alice M. Parsons was run down and sunk by the schooner Kentucky just off Sandy Hook at dawn yesterday. The sixteen crew members were saved by the crew of the Kentucky, which was badly damaged. The captain of the Parsons refused to leave his four-footed vessel and remained alone for hours perched in the rigging.

The Parsons belongs to J. Fenberg, who is laboring toward the harbor before a stiff breeze with a cargo of fish. A heavy fog lay over the water and the captain discovered the Kentucky coming along under full sail not a hundred feet away. He put the helm hard to starboard and yelled, but it was too late. Before the Parsons could veer around the Kentucky had struck her amidships. The sixteen crew members were picked up by the crew of the Parsons and taken to Stapleton and beached.

Captain Johnson, who is a Norwegian, was seen after his vessel was put ashore, and he declined to consider himself a hero. "I would have stayed five feet deep, instead of three," was all he would say about his feat of arms.

STORM VICTIMS NOW NUMBER 15

MATADOR IS KILLED IN RING BY BULL

Famous Fighter of El Toro, Tossed Aloft by Bull's Horns and Picked Up Dead—Someone Blundered

San Luis Potosi, Mexico, Oct. 14.—Harper E. Lee, a professional bull-fighter, was killed here Tuesday afternoon by a bull, in the presence of several thousand persons who flocked to the Plaza de Toros to celebrate the feast of St. Columba, one of the biggest holidays of the Mexican year.

Lee, an idol of the populace was a native of Texas and was a college graduate. Civil engineering was chosen by him as his supposed forte, and when he received his diploma he came to the City of Mexico and was employed in 1902 by the Mexican National Railroad.

He failed and cast about for something else. He decided to try bull-fighting. He went to Spain, where the bull-fighters are trained, and soon became a successful matador. He was not then a professional.

Leaving Spain, the American came to Guatemala as an amateur bull-fighter, and won renown. Next he visited the Argentine Republic, and gave many exhibitions of skill and courage. Then he duplicated his wonderful performances in Brazil.

Lee afterward came to Mexico and settled in Guadalajara. He so distinguished himself in the bull ring that the State of Ahuacatlan, Mexico, voted that he be invited to give a public exhibition. He was entertained lavishly, and his professional career began. That was last June.

Going to the City of Mexico he made the Spanish and Mexican matadors look like wallflowers. Managers offered him \$1,000 for a single performance.

Yesterday's fight was to have been his last before his departure for the United States. He entered the ring amid wild cheers, and nearly crazed the spectators by his skill, slaying a bull in remarkably short time. The second bull was brought down from Ottawa, to suspend several of the famous matadors were cast aloft by the bull's horns and picked up dead.

There is deep grief in Mexico over Lee's death, because of his great popularity. President Diaz is said to have been his close friend, having witnessed many of his exhibitions.

SUSPENSION OF CONDUCTORS IS ORDERED

Mr. Brady at Moncton Gets Word from Ottawa But Will Give no Names

Moncton, N. B., Oct. 14.—(Special)—Further light has been thrown on certain charges against several I. C. R. conductors. Mr. Brady this morning received instructions from Ottawa to suspend several of the conductors indefinitely. He would give no reasons or names, or say on what division they are.

DIVORCES MAN SHE KEPT FROM PRISON

New York, Oct. 14.—Sophie Woodhall, of No. 351 Eastern Parkway, who two years ago saved her husband, John H. Woodhall, from prison, has just been granted a divorce in the supreme court. Woodhall was alleged to have defrauded the bank of \$11,000 from the Long Island City branch of the Corn Exchange Bank, of which he was manager.

Anxious to have it known, Woodhall inserted an advertisement in the papers announcing the granting of the decree. By her determination to secure a divorce Mrs. Woodhall showed that she would sacrifice anything and everything while her husband was in trouble, but when another woman came between them she could just as bitterly oppose him. In order to clear her husband of the charge brought against him Mrs. Woodhall, it is said, advanced the sum involved in the alleged defalcation. Mrs. Woodhall also furnished her husband with additional funds to start in business when he had left the bank.

Mrs. Woodhall later obtained evidence against her husband which enabled her to secure her divorce. Bennett C. Carter, a Brooklyn detective, who had been engaged to follow Woodhall at the time of his trouble at the bank, testified that he had shadowed Woodhall on March 19. The defendant, he said, met an unknown woman and went with her to a hotel, where he registered as "E. Wood and wife."

CROP REVIEW

Washington, Oct. 14.—In its review of the foreign crop conditions, the crop report issued by the United States bureau of statistics today states that the results of the harvest this year came well up to expectations in Canada.

Schooner Florence R. Hewson Is Abandoned, Waterlogged

Rigging Carried Away and Crew Taken to Boats—Picked up by Steamer and Taken to Key West, Florida.

Key West, Fla. Oct. 14.—Mrs. Pheme Thompson Finmer and her infant daughter died here yesterday from injuries received during the storm. This, with the loss of the crew of twelve of the tug Sybil, wrecked at Nahia Honda and of Timeskeeper Murphy, drowned at Marathon, brings the total death list to fifteen.

The British steamer Pieterma arrived here yesterday bringing the crew of the schooner Florence R. Hewson, which was so badly wrecked by the storm that it was abandoned when she became waterlogged. The Hewson encountered the storm off Havana about twenty-five miles. Her decks were swept clean and her rigging carried away. Finally, when all hope of saving the vessel was gone, the crew embarked in small boats managing to keep afloat until picked up by the Pieterma.

The Pieterma was anchored when she encountered the gale off Marathon. Two of her anchors were carried away and she otherwise damaged. Both crews escaped but had harrowing stories of hardships suffered.

Additional details from the Florida Keys tell of great damage to the Key West extension railroad. Martial law still prevails here but it is reported the United States regulars will relieve the state militia which has been patrolling the storm swept areas.

BORDEN LIBEL CASE

Miss Chalefour Says She Was Asked to Make Evidence to Get Money From Minister

Kentville, N. S., Oct. 14.—(Special)—The King against Carruthers, was resumed this morning, and Miss Chalefour was the first to take the witness stand. Cross-examined by Mr. Ritchie, she said she had received \$2,000 from Sir Frederick Borden. Examined by Mr. Wyclif, she said that she was written by her to her mother at the latter's instigation. She had been asked to make evidence to prove enough against Sir Frederick to get money from him.

It was after she had told her mother that she had got some money that she asked her to give her evidences to get more. An affidavit, relating that she had never had improper relations with Dr. Borden at her mother's house, nor had Sir Frederick induced her to go to Montreal, was acknowledged. He had never made improper proposals for her to Montreal.

BANKS HAVE MANY MILLIONS IDLE MONEY

Montreal Star Although the banks have put the rate on call loans up to 4 1/2 per cent, the advance was more or less manufactured and is scarcely a harbinger of tight money.

The truth is that the Canadian banks have many millions of idle money on hand, and although business is expanding and demands are increasing, loans will have to go up several millions yet before the hardening of the money market becomes real.

In the States a similar condition prevails and the higher rate now prevailing in Wall street is merely the result of a concerted effort on the part of the banks to secure a little profit out of a very unprofitable loaning season. At least that is the view some papers are taking in commenting on the rise.

The crop movement affords the surface excuse for the rise there as it does here. In the States the banks have \$300,000,000 of so-called "Aldrich money," to fall back on; here we have the Fielding emergency currency.

In Europe the situation is less clear than in America. The advances in the German and English bank rates were based on circumstances that made the rise genuine and more or less urgent.

DINNER AND WATCH FOR MATT HENSON

New York, Oct. 14.—A committee of negro citizens of New York have completed arrangements for a banquet in honor of Matthew Henson, who accompanied Commander Peary to the North Pole. The affair will be held at the Tuxedo, Fifth-ninth street and Madison avenue, on October 19. A gold watch and chain will be presented to Henson.

NEW ICE BREAKER TURNED OVER TO MARINE DEPARTMENT

Charlottetown, P. E. I. Oct. 14.—(Special)—The new icebreaking steamer Earl Grey, built by Vickers Sons & Maxim for service between Prince Edward Island and the mainland, was formally handed over last evening by J. C. Ferguson, of Barrow-in-Furness, representing the builders to A. Lord, local agent, representing the marine department. The Earl Grey arrived here on September 23 but overhauling was necessary before making the transfer. The new steamer is pronounced to be admirably adapted for the service. She is more than 7,000 horse power and is up to date equipment.

TENEMENT HOUSES

From two different quarters yesterday an attack was directed against an enemy of the public health in this city. That particular enemy is the unsanitary and therefore unhealthy tenement house.

CONGO ATROCITIES

The active participation of Dr. A. Con-roy Doyle in the agitation against the mis-erable and horrible atrocities perpetrated in the Congo is the latest development in an affair that has disgraced the Christian nations of the world for many years.

THOUGHTS ON CANADA

Rev. Canon Tucker, in the course of his illuminating address before the Canadian Club, gave his hearers a new conception of the importance to Canada of the development of New Ontario.

and Canada's share of the Pacific coast. The great trade development of the future, he pointed out, will be on the Pacific ocean. When the vast population of Asia has been raised to the present level of European and American civilization its wants will create a trade of colossal proportions, in which Canada should largely share.

MR. BORDEN'S CONVICTION

Mr. R. L. Borden is reported to have said in a recent speech that "he was convinced that the time was near when the elections throughout the Dominion, once thoroughly aroused, would sweep the present administration from its high place and put in its place men who would rule wisely as the Conservative party in Ontario and other provinces."

INTO THE TWILIGHT

Out-worn heart, a time out-worn, Come clear of the mist of wrong and right; Though heart again in gray twilight, Sigh, heart again in the dew of the morn.

IN LIGHTER VEIN

Drummer—"I declare there are all kinds of titles among your checker players, isn't there? Colonel, major and lieutenant."

COULD ACCOMMODATE HIM

Brownbags—"Ain't yer got nothin' comin' I likes to 'ave somethin' funny to look at while I'm 'ere?"

SAME OLD WORLD.

Mother—"You were a long time in the conservatory with Mr. Wilking last night, my child. What was going on?"

A SURE SIGN.

"Say," said the girl in the candy store, she weighed out a dime's worth of peppermint lozenges and put them in a paper bag.

THE FINAL TRANSACTION.

"Father," said little Rollo, "what is the ultimate consumer?"

A TEMPORARY COVERING.

When Robert was only 3, he found a discarded calendar, and on it the best picture of a woman with only a drapery thrown loosely over her shoulders.

LOCATED.

"Say," queried the would-be humorist, "where is that place, Atoms, that so many people are blowing up?"

HIS SAD CASE.

Progressive Party—"My good man, how did you become homeless?"

COLLEGE SENTIMENT.

Dr. Blank, about twenty years a professor in the university of Virginia was on the eve of a trip to Europe, to be absent for some time.

SYNOD WILL NOT TRY REV. MR. BLACK ON HERESY CHARGE

New York Church Court Refuses to Receive Complaint Against Young Presbyterian Pastor

New York, Oct. 14.—An attempt to have the Rev. Archibald Black, of Union Theological seminary, tried on charges of heretical doctrine, was defeated by the General Assembly when it meets in Atlantic City next May, as each side appears determined to contest the question of the action of the New York Presbytery to final appeal.

The complaint was signed by fifty-six of the two hundred members of the Presbytery, and the motion to postpone the ordination as pastor of the Bedford Park Presbyterian Church, was defeated by a majority of the members of the Presbytery.

The charges will now go to the New York Synod, which will meet in Johnson town, N. Y., on October 19. It was predicted that the matter will go to the General Assembly when it meets in Atlantic City next May, as each side appears determined to contest the question of the action of the New York Presbytery to final appeal.

FORMER TORONTO GIRL GETS LARGE ESTATE

New York, Oct. 14.—The will of Edmund Kelly, a famous New Yorker, who became the foremost American lawyer in Paris, representing nearly every American litigant who sought justice from French courts, has disclosed that nearly all his large fortune, including the magnificent Kelly home in France, has been left to his youthful wife, formerly Miss Edith Thrusdell of Toronto, to whom he was married August 22, four years ago, at the Little Church Around the Corner, here, by the Rev. Dr. Houghton.

This place, with one of the most extensive libraries in the world and filled with art treasures in pottery, bric-a-brac, antiques, paintings, etchings, engravings and sculpture, is called Cony Le Chateau. It is a very near Paris and noted as a great show place, with extensive grounds, meadows and gardens.

His American home in this city and also at Nyack on the Hudson, contains more than 100,000 volumes, which goes with the rest of the estate to his widow, after other bequests are paid. His income was more than \$100,000 a year. His fortune was invested in securities, largely American railroads.

**ATTACKS DOCTRINE OF  
CHRISTIAN SCIENCE**

**Dr. Paget, at Church Congress in Swansca, also Against Emmanuel Movement**

London, October 13.—At the Church Congress at Swansca, Christian Science and the Emmanuel doctrine of mental healing were attacked in unmeasured terms by Dr. Stephen Paget, F.R.C.S. Dr. Paget granted that Christian Science followers were made more restful, more successful in business, more active, less nervous, and less worried, but, on the other hand, he said the doctrine of Christian Science gave no great encouragement to old-fashioned virtues, the mind became too nature, and this dullness was maintained by a careful abstention from knowledge.

"Christian Science tends to make you look away from all that is painful in you or somebody else," he said. "It parodies the Lord's Prayer because it speaks of temptation and evil, it rejects the Lord's Supper because it was instituted on a mournful occasion, it locks its church on Good Friday because it does not recognize pain or death."

Quoting Mrs. Eddy's claim to cure dislocated joints and restore the lost substance of lungs and heal malignant diphtheria and cancer, Dr. Paget said: "It is here on these false miracles, that her church, People do at last believe that can work miracles, and so long as they believe, no power on earth can stop them."

From this picture of Christian Science claims, Dr. Paget turned to what he called "the hard, unpleasant facts." "Christian Science," he said, "does not wish her failures, so I wrote to some doctors and other friends asking them to tell me cases of harm that she has done. I got back a long list of killed and wounded. I wish it could be nailed to the doors of all her churches. Every body, doctor or not, can feel the cruelty in some of these scientists and the downright madness threatening not a few of babies die in pain, let cases of paralysis tumble about and hurt themselves, rob the epileptics of their bromide, angina cases of their digitalis, let appendicitis go on to septic peritonitis, watch day after day while a man or woman slowly bleeds to death. To these works of the devil they bring their one gift, willful and complete ignorance, and their nursing would be a farce if it were not a tragedy."

"Seeing all these abominations," he added, "we ought to prevent even the faintest shadow of them from falling across our church. We have not done that in London. The Society of Emmanuel is under the shadow of the Church of England. It publishes miracles which never happened, it contemplates cases which have happened, the case of a man who was healed by the laying on of hands and anointing 'after one lung had sloughed away and the other half gone' and he is 'in perfect health, with two good, sound lungs.' Can you wonder we doctors laugh at spiritual healing if this be spiritual healing?"

Dr. Paget when he approached the subject of the Society of Emmanuel, said he did not wish to offend or hurt any one's feelings, "I spoke as a medical man, whereupon I was cried of 'Go on' from the audience. 'Speak out.' To plain through, that their sympathy was entirely with the eminent surgeon.

**FORTUNES BURIED  
IN EARTHQUAKE  
RUINS OF MESSINA**

**Jewels and Valuables Worth \$200,000, Have Been Collected**

Rome, Oct. 13.—Jewelry and other valuables which the military authorities have collected from the ruins of Messina, and for which no claimants can be found, are estimated to be worth \$200,000.

This vast collection of riches is heaped up in the subterranean vaults of the citadel and in wooden shelters, and is entrusted entirely to the honesty of four officers who have not even sufficient soldiers to guard the shelters.

In one of these shelters the soldiers have constructed rough shelves, on which diamonds and gold are piled in the most extraordinary manner. A small cardboard box the size of a matchbox, contains a necklace of pearls valued at over \$20,000; an old pair of boots and a pair of cats there is a simple envelope containing state bonds of \$400,000 made out to bearer.

In another small wooden box lies a diamond solitaire, worth a fortune, which was registered by the soldiers as a white stone. Further on a petroleum can contains gold coins amounting to \$10,000.

There are also safes innumerable filled with hundreds of gold watches, rings, chains, bracelets, earrings, pocketbooks, and treasures of all sorts.

All these riches have been found in the superficial excavations carried on up to the present, while the wealthiest part of the town—the first and second floors and the cellars—is still untouched.

**VISCOUNT HINTON,  
ORGAN GRINDER PEER,  
DIES IN INFIRMARY**

London, Oct. 13.—London has missed for several months the familiar figure of the organ grinder who called himself "Viscount Hinton," and whose organ used to bear the following inscription: "I am Viscount Hinton, eldest son of Earl Poullet. I have adopted this as a means of earning a living, my father having refused to assist me through no fault of my own."

His disappearance was explained this week, when it became known that he died, under the name of William Turnour, in the Holborn Union Infirmary, a Gaiety actress, in September of last year.

His death recalls one of the romances of the peerage. As a young officer the late Earl Poullet married the daughter of a landed proprietor, and the son, whom the husband repudiated, was born. He was "Viscount Hinton," the organ grinder, whose death is now announced.

After the death of Earl Poullet he claimed the title, but the committee of the title, which became known as the Earl Poullet, married Miss Sylvia Storey, a Gaiety actress, in September of last year.

"Viscount Hinton" went to lodge at 1 Medall Place, a narrow court off Pentonville Road North.

"When he came here," said Mrs. Breach, "he gave the name of William Turnour. He was quite alone and hardly said a word, but he told me that his wife had died about ten weeks before."

"He never said anything about being a Gaiety actress, but he was equal to being a Gaiety actress, and he was equal to being a Gaiety actress."

"By the time he came to live with us he was very thin and worn, and he was very weak."

"He seemed to worry a great deal. Every day he'd go out for a morning walk and then he would sit and read or think for hours, but never spoke."

"Afterwards he complained to me that his legs were stiffening, and I told him to see a doctor. He was taken to the Holborn Union Workhouse in Shepherdesswalk, and later to the Holborn Infirmary, and that is where he died."

"In the infirmary he was equally reticent. Beyond receiving a visit from Mrs. Breach, his landlady, he neither said nor spoke to any one."

"Just before his death he asked Mrs. Breach to see Mr. Richards, the solicitor of the Poullet family, who had been making him a small allowance, and here with her to pay for a funeral. The only mourners were Mrs. Breach and her father."

"Viscount Hinton" left no one and no thing behind him.

**BOYS IN THE DOCK,  
MOTHER FAINTS**

**A Sad Scene in a Montreal Court Room**

Montreal, Oct. 14.—With a cry that echoed through the court house, Mrs. Valere, mother of the two little boys accused of being concerned in several burglaries which have disturbed the neighborhood, collapsed in the Arraignement Court when she saw her two little boys standing in the dock. The two boys as soon as they saw their mother fall, became frightened and tried to clamber over the railings of the dock in a wild attempt to get to her side.

Water was brought and the unfortunate woman was somewhat revived, and her pitiful moans visibly affected Judge Bain, and he ordered the boys to be allowed to go to their mother. Clinging to her and raining kisses on her face, the youngest who is but nine years of age, tenderly hugged her forehead with a handkerchief which he dipped in the glass of water which had been brought. The other boy was crying silently in a corner of the room, apparently too frightened to approach his suffering mother.

Judge Bain sat silently observing this touching scene. The younger boy, in his anxiety about his mother, had evidently forgotten his surroundings, and with arms around her neck did his best to comfort her. It was evident that the youngsters were very sorry for what they had done, and they begged the judge to let them stay with their mother. Choking with sobs the poor woman added her entreaties to theirs and Judge Bain was not proof against the appeal, and allowed the boys to go home with their mother on condition, that they report to him every week.

**THE SUIT CASE MYSTERY**

Trenton, N. J., Oct. 13.—In the minds of the authorities who have been investigating the finding of the dismembered portions of the body of a young woman in the vicinity of Bulgermarsh Road, the identity of the victim is almost certain. While the head is still missing, marks characteristic of the limbs correspond to a description of such on the body of Miss Gertrude Edwards, a 17-year-old girl, of South Scituate, near Providence. The general description of either not ascertained or not mentioned in the documents stated that it could not definitely be placed until the head is located. This is the only portion of the body now missing.

**ANGLICAN SOCIAL  
AND MORAL REFORM  
COMMITTEE WORK**

Largely Attended Meetings Last Evening in the Interests of Missions—Additions to Executive

The committee of the Church of England passed a synd transacted considerable business yesterday. The Sunday school commission and the House of Bishops held sessions morning and afternoon, and the moral and social reform committee met in the evening. Three very interesting missionary meetings were also held. The Sunday school commission arranged a number of important matters affecting the work.

At the afternoon the following additions were made to the membership of the executive committee: Diocese of Nova Scotia—Rev. F. C. Warburton, C. E. Crispin, Diocese of Fredericton—Dean of Fredericton, J. K. Scammell, Diocese of Qu'Appelle (Man.)—H. D. Fickett, Diocese of Calgary—G. H. Hoggins, Diocese of Saskatchewan—Ven. Archdeacon Lloyd, Diocese of New Westminster—Rev. A. W. DePater. The financial year of the executive will remain as before. A committee was appointed for the purpose of considering the matter of publishing the general mission paper, it was decided to ask the committee on the hymnal to prepare a special edition for the use of the Sunday schools. The financial year of the commission closes December 31, 1909. The beginners and primary courses which were adopted last year have been found to be very successful and are ready for distribution.

The executive committee meeting was taken up with the preparing of a scheme for the able to attend during the year 1910-11. The next meeting of the executive committee will be held in Montreal, December 21, 1909. Arrangements made at yesterday's meeting for the issue of the quarterly bulletin showing the work accomplished by the committee.

In the evening the committee on moral and social reform met when a resolution was passed enjoining the conviction that all professional betting, principally at race meets, was declared a crime, and that a law should be enacted prohibiting such betting. Another resolution was passed that a law should be enacted by the dominion government making adultery a crime, and that the appointment of female officers in enforcing the law and keeping order in rural districts. The committee also considered the appointment of female officers in large centres, whose duty it shall be to meet unattended girls and women coming into the district and to see that they are properly placed of abode and in such places. Where no officer or officers can be appointed by the proper authorities, a committee of women should be formed for this purpose.

The next meeting of the moral and social reform committee will be held in April next, the executive sub-committee carrying on the business of the general committee in the meantime.

The mission meeting in Stone church was largely attended and the addresses made by the distinguished visitors were very interesting and inspiring. The church was occupied by Bishop Richardson. The first speaker was the Right Rev. Dr. Twenty, Bishop of Fredericton, who spoke of the general mission work in the diocese of the home church. His subject was the creation of light in the religious life of the people. God created the world and made light out of the darkness, said the speaker, and the creation of light is still in the power of God and if the light falls in her day in every light to the heathens it is always in the power of the Almighty to create light and to say to the heathen world, "Be ye light."

His Grace the Lord Archbishop of Rupertland, Primate of all Canada, spoke of the general mission work in the northwest. He referred to three dioceses—Calgary, Saskatchewan and Qu'Appelle—giving the statistics of the missionaries in that part of Canada.

Canon Tucker, secretary of the missionary society of the Canadian church, described the work of the missionaries in the northwest. He dwelt chiefly with the missions in China. The extraordinary vigor and power of these people in woodwork, he said, and the sending out of more missionaries.

The meeting held in St. George's church, Carleton, was also well attended. Bishop Farthing of Montreal, presided and the speakers were Rev. O. G. Dobbs, former pastor of St. George's parish; Rev. W. S. Shaford, of Montreal, and Bishop Pinkham of Calgary.

The meeting held in St. Luke's church was largely attended and able sermons were delivered. The devotional services were conducted by the Rev. Mr. McKim, after which Bishop Anderson, of Moose One (Ont.), addressed the congregation in a masterly manner the meeting in a masterly manner the meeting in a masterly manner.

**PRICE OF SHOES TO  
BE ADVANCED**

Scarcity of Hides and American Tariff the Causes—Hides Take Big Jump

(Toronto News):

First it was rubbers and now it is shoes. There doesn't appear to be any doubt the price of these must go up. The reason is simple. Shoes are made of leather and leather is very scarce, therefore sells at a higher price. Just when boots will increase in price is not known, but it appears that it will be as soon as the manufacturers exhaust the supply of leather which they have on hand at the present time.

All the trouble arises from the supply of hides. In Canada, and in all other countries, there are fewer of these than there have been in the past. While the hides are decreasing the supply is increasing and the use of leather is getting commoner every day. In Canada the situation is made still worse by reason of the American manufacturers, who are enabled by the low tariff to buy here.

"Hides have advanced in value from 50 to 100 per cent," said a tanner this morning. "We have been asking about a ten per cent. increase for the leather. The manufacturers complain that the price is too high, but the increase in price will be greater yet, or some of us will go out of business."

"Why," said W. D. Beardmore, "we bought Canadian hides for 5 cents a pound last year. They rose to 7 cents but now we are paying 15 cents."

These hides are used extensively for boot and shoe uppers, and as the price of sole leather has also taken a great jump it will be seen the manufacturers are getting hit at both ends. All of which, of course, means that the householder will have to pay a little deeper in their pockets when they need new footwear. They will not be able to save much by having their boots repaired either, for the leather takes leather and consequently will cost more.

**KINGS COUNTY  
MUNICIPAL HOME**

Norton, N. B., Oct. 12.—It would be very difficult to find an institution of its kind whose sanitary conditions and regulations would excel those of the Municipal Home Kings County. At present there are nineteen inmates. The commissioners are aiming at making the home self-sustaining and this year five acres of untilled land has been brought under cultivation and now about all the farm is under cultivation.

This year eighty barrels of potatoes, 150 bushels of oats and fifty barrels of turnips, beets, carrots and cabbage were raised to sustain the home this winter.

A few years ago there was no stock, but this year three cows and one horse, for farm work, are being kept; plenty of hay has been raised to winter these. They also raise their own pigs for pork (900 pounds) and three to winter. Thus all the pork, vegetables and milk raised on the home farm.

It is a credit to any county to have a home of this nature kept in such a perfect manner, and Mr. Laughey is indeed a model caretaker.

**PROVINCIAL APPOINTMENTS**

**STAR WITNESS IN  
BORDEN CASE  
MAKES DENIAL**

Kentville, Oct. 13.—The case of the King vs. Carruthers occupied the attention of the court all day.

At the afternoon session Walter M. Carruthers, the defendant, was called at 2.15. He said he was an elector of Kings County. At the time he named the Eye Opener to the jury. An election was in progress. This was in 1908. He believed the alleged libel to be true.

Mr. Roscoe objected to the question, as he did not think it was relative to a question concerning the public interest. He drew a distinction between matters of public interest to the public, Sir Frederick was able to perform his duty as a member and a minister of the crown, and the public interest was not concerned in his private life.

Mr. Ritchie said that such a matter as the one in question was in the public interest. He said that any man out of the penitentiary would be secure from capture by the electors.

Mr. Roscoe answered and the worthy combat appeared likely to go on an interminable time when his lordship called a halt. The judge noted the objection and ruled that Sir Frederick's private actions were matters of public interest.

Mr. Carruthers, to Mr. Ritchie, said he believed the letters to be true, as the facsimiles seemed to be evidences of good faith and had the ring of truth.

To Mr. Roscoe, Mr. Carruthers said it had been two or three years since he has spoken to the minister of militia. He had not had a conversation with Sir Frederick for thirteen years. He was not on particularly good terms with Sir Frederick. He had been appointed postmaster of Kentville through Sir Frederick's good offices. He left in 1882 and came back again to remain in 1886.

Mr. Wickwire sprang a sensation when he called Miss Chalefour, Mrs. Allison's daughter, in rebuttal.

She said Sir Frederick Borden never visited her at Mrs. Archambault's house. Sir Frederick Borden had never had improper relations with her. She had never had her board paid by Sir Frederick, nor had she ever been helped financially by him. She had at one time to leave her lodging house because she could not pay her board. She had to work hard for her money.

The case was adjourned until the morning.

**CIRCUIT COURT**

The trespass case of Margaret Sullivan vs. John McNamee was continued yesterday afternoon in the circuit court when the examination of Mrs. Margaret Moran was concluded and Mrs. O'Neil, of Somerville, (Mass.), Timothy O'Leary, of Golden Grove and P. Walsh, of Golden Grove, were also examined. Mr. Skinner caused the plaintiff, also put in evidence two deeds which were claimed to represent the property in dispute.

When adjournment was made until this morning it was agreed that Mr. Skinner should produce a map of the district.

The days of the black and white hat are numbered.

**AD IN SEARCH FOR JOSEPH HAUX**

Missing From Mill Street Boarding House Since Tuesday—Belongs in Chatham

Earnest efforts are being made to locate Joseph Haux of Chatham, who disappeared from his boarding house on Mill street, on Tuesday morning and has not returned and seemingly left no reason for his absence. A man called at the police station this morning and asked if there was any tidings of Haux who, he said, was his room-mate in a lodging house in Mill street. One of the policemen in the guard-room looked over the report book but could find record of no one answering to the description of the missing man, so he left the building with a disappointed air.

Enquiry by the Times at the lodging house confirmed the man's story and added more facts. The landlady said that she had known Mr. Haux for about three years. He had boarded at her house or in the house in every way a gentleman. He was going to work for Messrs. Mooney in Brunswick street, as his trade was that of a stonecutter. He went down stairs and had almost reached the street when he came tearing back saying he had forgotten something, and went into his room, evidently to get it.

"Have them search for me," he said, "I'll be back to dinner." Since that time no one in the house has seen him.

In his room he left practically all his belongings, which are considered to be worth something, comprising a number of toilet articles, traveling effects and a valuable suit of clothes. A strange feature of the case is that Messrs. Mooney, when asked about the matter, said that they knew of no man named Haux employed by them.

The missing man is about twenty-five years of age, is about five feet in height and weighs in the vicinity of 160 pounds.

**BY FIRE IN THE ST. JOHN IRON WORKS**

Early Morning Alarm Brings Firemen Out For Effective Work—Loss Covered

At an early hour this morning fire badly gutted the blacksmith shop of the St. John Iron Works, doing damage in the vicinity of \$2,500 to machinery and building. Prompt and effective work of the fire department checked what looked like a more serious blaze. As it was, the roof of the machine shop caught fire but only slight damage resulted. Fortunately there was little or no wind at the time or the night watchman, about 4 o'clock, he had visited the building only a short time before and there was apparently no sign of fire. When first noticed, the flames were breaking through the roof toward the front of the shop. The watchman hurried for the fire hose and was working with it when the fireman of the Pender Mill Works noticed the flames and sent in an alarm.

The firemen were quickly on the scene but as a good start had been gained the wooden structure burned fiercely. Little but the frame of the shop stands. The exact extent of the damage to the machinery can not be ascertained but will be considerable.

A new steel hammer only put in position was among the machinery damaged. The loss is partially covered by insurance in the Caledonian, Northern, British American, Home, Phoenix, German American, Norwich Union, Anglo American, Acadia and Liverpool, London and Globe companies.

Manager Charles H. McDonald today spoke highly of the prompt and effective work of the firemen.

**Oak Hall Clothes are Always Satisfactory-- There's a Reason**

If you want to erect a substantial building, you must be sure the foundation is solid. If you want to make satisfactory clothing, you must see that the foundation is right. The inside of the garment—the canvas and stays and attiches and work which is not seen—that's the FOUNDATION. That's the base of all good clothing. No matter how good the outside, no matter how handsome the cloth, no matter how many new kinds are shown; if the inside work is poor, the garment will never be satisfactory. It won't hang well; it won't hold its shape; it won't wear well. Yet it's the inside details of the garment that are oftentimes slighted because the inside CAN'T BE SEEN.

The foundation is and always has been one of the strongest points about OAK HALL CLOTHES. No one ever could accuse us of making clothing that gave poor service. OAK HALL CLOTHES have always worn well because they have always been built on a good foundation. We put work on the inside of our garments that counts in fit and wear. We use the best canvas and hair cloth and stays that can be obtained. It's simply impossible to get better wearing clothes than we make—and, after all, what satisfies the average man so well as good service? Our great clothing business—the largest in Eastern Canada—is the result of the tested good service of our garments.

Now, in addition to their unquestioned goodness—our clothes are as SMART AND STYLISH as any in the land. We offer you a larger variety than any other store, and because you buy directly of the makers when you buy of us—you get this unsurpassable clothing at 14 to 13 BELOW PREVAILING PRICES for equal grades.

**SUPERIOR PAINLESS DENTISTRY!**

"There is a world wide cry against the dentists that they torture their patients. Those of strong physique submit and endure the agony. With a second class this is simply impossible, and thousands of teeth are neglected and lost even though the patients may be able to pay for our most skillful services. Then there is a third class who, after months of mental torture in anticipation, finally come into our hands, and, with nerves strung to a hurtful point, pass through the ordeal, but at what a cost! We do not sufficiently consider the consequences of shock in the dental chair, yet undoubtedly many suffer for months and even years from injuries to the nervous system received whilst in our hands.

The greatest duty of our profession today is to discover and adopt a mode of painlessly performing our operations."

**CIRCUIT COURT**

The case of Sullivan vs. McNamee was continued this morning in the circuit court before Judge White. The trial was marked by numerous passages between counsel. Miss Margaret Sullivan, the plaintiff, told of her father's claim to the land through occupation and of work done on the property by her father. After her father's death she took possession.

She saw the defendant trespassing on the property and cut down and haul away trees without her permission.

The witness was then stood aside and C. G. Murdoch, engineer, was questioned concerning a survey of the land.

Mrs. Sullivan was then cross-examined by Mr. Powell as to her memory of certain work done on the property by her father, the witness herself and McNamee.

Mrs. Sullivan was still under cross-examination when adjournment was made until 2.30 o'clock this afternoon.
