Canada's Sons Won Glory in The Great Battle of Friday

General Byng Grasped Idea That Dominion Troops Have Initiative and Sent Them to the Offensive; and They Did Their Work Well

British Front in France, Sept. 18 (via London, Sept. 19)—The most dramatic and picturesque battle of the British army in all its two years in France was fought on September 18. Here is the story of how all kinds of men from the ends of the earth took part in this mighty conflict.

When the word was given they started for Courcellette, which they were ordered to take. Now this village had been "less crumpled" than any village in the world. It was a perfect example of the methods recently adopted in German official reports.

Says President Wilson Has Humiliated the United States

Congressman Gardner of Massachusetts Recognizes the Spectacle the American Republic Has Made of Itself

Congressman A. P. Gardner of Massachusetts, speaking at a Republican rally at Bucksport, Maine, said: "So President Wilson has kept the country out of war, has he? In a sense that is true. At any rate it is certain that the mighty shout which he emanated that Germany should disavow the destruction of the Lusitania has now sunk to a voice so still and so small that even the ghosts of the 112 American victims no longer hear it. "Yes, Wilson has kept the country out of war, and if Wilson had been King of Belgium, he would have kept Belgium out of war. There would have been no crepe on Belgium doors, no heart-broken Belgium mothers, and no Belgian homes in ashes. Instead there would have been plenty of Belgium ballrooms and dance halls, plenty of fat on Belgian paunches, plenty of powder and paint on Belgian beauties; but where, oh where, would be Belgium's soul, where, oh where would be Belgium's manhood? Dead, dead as completely as American history would be dead if the thought of whether or not you can point with pride to the page of this nation's history? If you are either more or less than a human, I for one shall never believe that Americans of today are indifferent to the very things which Americans of yesterday gave their lives. Do you know, kindling spot of a new country is more revered, more honored, or more held in awe than it was two short years ago? Is there a man living, strong who can say that today he is prouder than ever that he is an American? Has not every man who shows a conscious feeling that his national pride rests on more slender buttresses than heretofore?

Retaliation for the Blacklist International Justice Instead of International Law as Guide for American Policy

New York, Sept. 19, 1916. To the Editor of the New York Times: It is to be expected that American firms who have been blacklisted by the English should be angry at the loss of prospective gains. Too, merchants whose dealings with neutral countries have been curtailed or whose letters have been delayed, not to mention others who have been cut off from all trade with Germany, will naturally blame them for demanding the enforcement of the letter of international law. But should they have the power to obtain their demands and dictate the policy of this country? These merchants are not the whole country, nor anything like it; they make up a small fraction of the population. What is the situation with regard to those of us who, with no axes to grind, respect international law, but respect international justice still more? We may sympathize with these merchants, but we have other and deeper sympathies as well. We sympathize with Belgium, which 'we hold has been wronged, with England, for blood is thicker than water, or should be, with France, our sister republic and old ally; and we believe that they are fighting for the cause of international justice. We are officially neutral. We adopted neutrality because we did not think that self-interest required us to take part in the war. But neither neutrality

PATRIOTIC FUND DRIVING HUNS OVER THE HILLS

British Advance is Over Rising Ground Fighting An Uphill Battle

Once Over Crest Work of Allied Armies Will be Vastly Easier, Germans Fight From Strongly Fortified Positions

Despatches from the western front have not made it as clear as might be expected that the British advance is over rising ground, that it is now near the crest, and that when the high ground is taken it will be a comparatively easy matter to seize Bapaume, one of the chief objectives of the drive. A map prepared by the British government and reproduced in the New York Times, as well as letter-press contributed by a member of the British Intelligence staff gives a clear idea of the task the British are undertaking, and the headway they have made. From the Somme river where the drive began, the country rises in undulating hills, the highest being this village is rather below the crest. It then declines with few undulations to the Ancre, rising again slightly to Bapaume, which is on about the same level as Arras. The hills that follow the crest of the Ancre are too small to be noted in the ordinary map. The highest peak is not 600 feet above the level of the Somme. Yet since the Germans have had a couple of years in which to turn them into fortresses, it will be understood that an elevation of even ten feet just doubles the task of the assailants.

As they regard the rentals of city lands as too low in most cases, they have begun to sell them privately based upon the rental, and suggest methods of meeting this situation. The commission proposes against the widespread system of privately owned and leased lands, and suggest methods to protect the interests of the city and the citizens in this regard.

In order to tangible personal property, our commissioners recommend that household effects be exempted from taxation.

In reference to live stock and vehicles, our commissioners recommend a vigorous enforcement of the use of certain classes of property. Since this value, the assessors should use every effort to locate it and to value it accurately.

It may still be necessary to license certain occupations or the use of certain classes of property. And since the license certain privileges, the fee imposed may be greater than the tax on the property employed, but the owner should not pay both the license and the tax.

The third form of tangible property is manufacturers' and merchants' stocks in trade. There was a strong desire on the part of many witnesses to have machinery used by the industries situate in the city exempted from taxation and our commissioners have recommended such exemption subject to the limitations specified in the proposed act.

It is with reference to the taxing of intangibles such as stocks, notes, bonds and securities in general, that the present tax on personal property utterly fails.

Your commission has therefore decided to recommend a tax on this form of incomes at a rate of six per cent. A similar recommendation was made to the Commonwealth of Massachusetts in a report of the special committee on taxation submitted in January, 1916, as a substitution for their personal property tax on intangibles.

The difficulty still remains to overcome evasion of taxation on this property whether placed on capital values or on its income, but an income tax which takes only a reasonable and fair rate of the field is much less liable to be evaded than the old personal property tax which practically confided on one-half of their value.

They are of the opinion that the present poll tax cannot be commended. They recommended the abolition of the poll tax and the substitution of a more efficient income assessment of \$150. Since in every case where the income assessment exceeds the minimum there is no extra taxation this abolition of the poll tax is equivalent to an increased exemption of \$100 from the income. The commission has also recommended the abolition of the tax on household goods; and this is the equivalent of a further increase of the exemption of small incomes, but inasmuch as the tax does not have the additional advantage of affording such relief to the man with a family. Your commissioners prefer the abolition of this tax to an increase of the tax on household goods, and regard the latter as a fairer measure of ability to pay and a better form of taxation.

In addition to these changes they proposed that the present exemptions from taxation be increased to \$400 on earned incomes, in every case where the total income is not more than \$1,000, and to \$800 on each earned income where the total exceeds \$1,000 but does not exceed \$2,000. These alterations will lighten the tax burden of wage earners and small salaried men. Under the present system a man earning a wage of \$800 is taxed about \$20, consisting of property tax of \$2, income \$12, personal property \$6; under the proposed act this entire tax will be in income and will amount to \$8.

The proposed changes in the assessment act will involve some loss of taxes, and some shifting of the tax burden. Your commissioners are unable to make an accurate statement either of the loss of present taxes, or of the gain by the new impositions.

The following is a rough estimate of the losses:

Table with 2 columns: Assessment, Taxes. Rows include Income assessment on earnings of \$1,000 and less, Personal property, Household goods, Intangibles, Total.

Income assessment on earnings of \$1,000 and less \$1,770,000 853,000. Personal property 18,000. Household goods 20,000. Intangibles 2,000,000 40,000. Total \$3,800,000 70,000.

Losses: Taxes on household goods \$188,000. Total \$188,000. The commission does not expect any real loss of revenue by the remission of \$50,000 from the shoulders of small taxpayers through the abolition of the poll tax and the moderate increase of the income exemptions, since an accurate assessment of the higher incomes should make up this amount. The change means that the burden of this tax should rest according to ability to pay.

SAYS PRUSSIA IS NOT FIRM ENOUGH WITH THE COMPLAINING WIVES

A popular woman writer of short stories named Marie Diers has published an "appeal" to the German authorities reading, according to the Berliner Vorwarts, in part, as follows: "Instead of letting the stupid women cry we want our husbands back, one ought from the beginning to have checked them with a firm hand, so that no woman could ever have raised her head. The fact that the shrieking women have absolutely no idea of the politics today is the fault of our leaders, who lacked a firm and ruthless hand. "Instead of letting the women gather together in public for example, outside the butter shops—to gossip and curse as they like, so that they make any sensible being sick, a strong police ought once to have pulled out the abusive ones and put them in prison. "Resolute justice has always won more respect than weakness and submission. Must one now proclaim this simple truth in Prussia as a new discovery?" Father Morrissey's

Writes Wounded New Brunswick Soldier ONE OF FIRST CONTINGENT

Letter From F. J. Carsten of Fredericton to Lieut. Col. Guthrie—One Day at Front Worth Months of Hard Training

The following comes from a Fredericton soldier in a British Hospital: Lieut-Colonel P. A. Guthrie, Fredericton, N. B. Dear Sir:—

I have just received your card with photograph this morning. Not at first recognizing the face, a certain amount of wonder was natural. After reading the outside the greatest pleasure succeeded.

I wish to thank you very much and you may be sure that I shall never lose or mislay the picture. I have followed your career in the papers with a great deal of interest always.

And while in Montreal last spring looked forward to seeing you, while you were on your way to Ottawa. I was disappointed. It is with regret that I hear that you were wounded, how seriously I did not know until now.

I myself have received a rather nasty wound in the left arm, and until the last couple of weeks it looked as though I was going to be minus. I am glad to say that everything is coming along all right, although it will be some time before I can use the arm.

I left the 13th R. H. C. to go in a draft with the 11th Battalion, R. H. C. You will know the latter battalion, and know the name they have. I was getting along finely, with then until a trench mortar of Fritz's and myself got into a row—well, I came out on a stretcher.

"Up the line" is a pretty lively place, isn't it? One thing particularly that struck me was the number of Fredericton men there. It is wonderful the number of men from home one sees, and dead indeed is the soul of any Fredericton man who does not feel a wonderful thrill of pride for the work the Central City has done and the number she has contributed.

I hear that you are raising a new battalion, and trust that you are having the best of success. The men joining now are very lucky. They are under officers who have been at the front and who know what's what. Canada has sent a lot of men but there should be no trouble in getting as many again. If the men could understand what the First Division went through. Just to think of taking part in the most wonderful war that the world has ever seen! One day at the front is well worth the months of hard training.

Very gratefully yours, F. J. CARSTEN.

FRUSTRATED ATTEMPT TO STEAL SOLDIERS' VOTE Woodstock, N. B., Sept. 19.—The attempt of the provincial government forces to steal the soldier vote in Carleton county by securing furloughs for the Conscription voters among the Carleton county men at Valcartier and having leave refused to the Liberals has been frustrated. F. B. Gavett, M. P., took up the matter with the under-minister of militia and the camp commandant and secured permission for all Carleton voters to visit Woodstock to vote while on their way to Halifax.

STRAILING THE SOLDIER VOTE.

So the soldier vote was to be manipulated in Carleton county. It was tried in British Columbia also, but the government candidates were not saved. A day or two before the elections in that province the Vancouver Sun exposed the whole scheme. The story is worth reading as an illustration of what the party which professes patriotism and regard for the men who are ready to fight and die for Canada will stoop to in order to keep itself in power. We quote:—

A QUESTION OF HONOR.

The result of the election campaign in Carleton county this week will determine the character of the Conservative elections of that constituency. They are asked point blank to endorse graft or denounce it. That is the issue, and they will be judged by their action. When they nominated Mr. J. K. Flemming as their federal candidate after the revelations made at the Dugal enquiry the people of the rest of the province gasped with incredulous amazement. It was explained, however, that because Mr. Flemming had so long been prominent in public affairs they took this method of letting him down easy, but that he would withdraw in good time and permit the nomination of another candidate. But the party leaders have now taken him to their bosom, and he has thrown himself into this campaign. The government press says he is applauded not only by the party leaders but by the Conservative rank and file. Can this be true? The people of other constituencies are very reluctant to believe it. They prefer to believe that the election who has no axe to grind, and who value the reputation of their country, will now send Mr. Flemming about his business, and with him the Hon. Benjamin Franklin Smith and Major Sutton, thereby redeeming the good name of Carleton county. Should they do otherwise, the rest of the province would be very keenly disappointed, and the name of Carleton would become a by-word throughout Canada, as the name of New Brunswick was after the scandalous revelations made, until Westmorland county gave reason to hope that the name of the province was sound and would not tolerate the continuance of Flemming methods in the administration of provincial affairs. Is Carleton less jealous than Westmorland of its honor and the honor of our public men?

The steady hammering on all fronts about reducing the man-power of the Central Powers at a rapid rate. How long can they succeed in keeping the ranks filled? The strain must be growing almost unbearable.

The Times is not making any predictions about the Carleton county election, further than to say that if the people of that county elected Smith and Sutton they would lose the respect of the people of the other counties of the province, and of the other provinces of Canada, wherever the record of the government is known. And that is a perfectly safe prediction.

The Chatham World, edited by Mr. J. L. Stewart, M. L. A., says:—"The Bowser government has been badly defeated in British Columbia, and it deserved its fate. The New Brunswick government will be the next to go. The people will not endorse the Flemming blackmail conspiracy nor the men who condoned the offence and whitewashed the offenders. They will have to go, even as the Bowser government has gone."

The Russians have resumed the offensive in the north. The Russian and Roumanian armies have halted in their retreat in the Dobruja region, and will endeavor to check the enemy's advance. The Allies are making further gains on the Macedonian front, and the Roumanians are still unchecked in Transylvania. The Italians are successfully holding ground recently gained. The British have dealt what is described as their most effective blow in the west since the war began. The French have made further important gains. The tide is everywhere setting more strongly against the enemy.

Mr. Irving R. Todd says the Clarke government was not consulted in the matter of the settlement of the claim of Smith & Merrithew, in the course of which \$2,500 found its way into the pockets of Mr. James H. Crockett of the Gleaner. Mr. Andriell, in his affidavit, declares that members of the government knew all about the transaction. If Mr. Andriell has made a false affidavit, why is he not prosecuted? And why was \$2,500 given to the proprietor of the government organ at Fredericton? The people are asked to believe that this was an act of pure philanthropy. Do they believe anything of the sort? Their credulity is being put to a severe strain by defenders of the government, not only in regard to this but many other matters.

HIS HEART BADLY AFFECTED

"Fruit-a-lives" Soon Relieved This Dangerous Condition

689 Gerrard St., East Toronto. "For two years I was a victim of Acute Indigestion and Gas in the Stomach. It afterwards attacked my Heart and I had pains all over my body, so that I could hardly move around. I tried all kinds of Medicine but none of them did me any good. At last I decided to try 'Fruit-a-lives.' I bought the first box last June, and now I am well, after using only three boxes. I recommend 'Fruit-a-lives' to anyone suffering from Indigestion."

LIGHTER VEIN

A gentleman, having in his cellar some ale on the verge of spoiling, was one day walking round his estate when he came upon a party of workmen. Halting the foreman, he ostentatiously presented the beer to the men, giving them leave to fetch it as they required it. Some time afterward he met the foreman, and proceeded to extract a suitable acknowledgment of his bounty. "Well, did you and your men have that ale?" "Yes, sir, and thank you."

"I've lost a wallet containing \$600," said Mr. Baker to a friend. "How much reward shall I offer for its return?" "Where did you lose it?" asked the friend. "In New York city."

### LUMBER MILLS TO CUT 120,000,000 FEET

Amherst Man Tells of Big Mills and Big Farms Operated by New Brunswick Firm

(Amherst Guardian)  
The following interesting reference to farming and lumbering operations near Plaster Rock, New Brunswick, were written for The Guardian by John C. Reeves, who recently returned to Amherst after a trip to Plaster Rock in the interests of the Rhodes-Curry Company. I spent a week lately at Plaster Rock on the Tobique, Victoria county, N.B. The village has about 700 of a population, having four churches, post office and schools and several stores. The whole village is practically dependent upon the large saw mill of the Fraser Lumber Company which is located there. A branch of the C. P. R. runs in from Perth, 28 miles away, with a daily train. The National Transcontinental also touches Plaster Rock.

Eleven Mills Busy  
The Fraser have 11 mills in all, cutting about 120,000,000 feet this season. The mill at Plaster Rock this year will cut 18,000,000 feet, the average daily cut being 150,000 feet, besides shingles and laths. The whole cut at Plaster Rock goes on the C. P. R. to the United States.

In connection with the mill, they have a 300 acre farm all in a high state of cultivation. The man in charge told me that they had put 200 large loads of hay in the barns. They were cutting grain with a reaper and binder, the crop being very heavy. On this farm he keeps 36 milch cows. He supplies the village with milk, night and morning. He has a special barn for his cows and also has a pigery in which there were 83 pigs varying in size from very small to very large. They have 86 horses, mostly Clydes, weighing from 1400 to 1700 pounds each. These are mostly used in the mill yard.

The "Potato Patch."  
They have another farm at North View, about four miles out. Mr. Fraser took me out to see what he called his "potato patch." The farm is large and slopes gradually towards the river. We found the men spraying Bordeaux mixture for the last time to prevent blight. In one square field were 40 acres of potatoes as green as in June. He pulled up one hill having five shipping potatoes in it, at which rate they would average about 200 bushels per acre, all of the Green Mountain variety. They have a special potato cellar which holds 4,000 bushels.

The potatoes are planted with a seeder, the rows 32 inches apart and about 14 inches in the row. They are cultivated every few days and generally sprayed for bugs and blight five or six times, all by machinery. Commercial fertilizer was used, wholly. Owing to the war, the fertilizer was not so good this year, as it lacked potash, consequently the crop will not be as large as last year, the crop being good last year and the price high. Mr. Fraser told me he realized in the vicinity of \$10,000 from the same acreage.

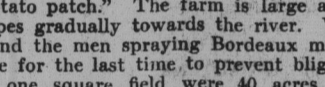

The land in that section and along the Tobique river, I think, produces the largest crops of grain and grain I ever saw in this country and when the Transcontinental Railway gets fully under way it will be a great farming country. The road is already averaging about 10 trains daily.

### THERE'S A DIFFERENCE

between the Zam-Buk method of treating and that of ordinary ointments. That is why Zam-Buk cures when other ointments fail, and why Zam-Buk cures are permanent.

Mr. A. Josey, of Spry Harbor, N.S., writes: "For three years I suffered with eczema on my hands. The burning and irritation were so intense that I could not sleep at nights. I tried numerous remedies, but nothing gave me relief until I used Zam-Buk. This herbal balm, however, soon ended the burning and irritation, and before long my hands were completely cured. I shall never be without Zam-Buk again—it is certainly a wonderful ointment."

Zam-Buk is also best for ringworm, old sores, boils, pimples, ulcers, abscesses, piles, cuts, burns, scalds and all skin injuries. All druggists, or Zam-Buk Co., Toronto 50c. box, \$ for \$1.25.

### Canadians Had Share in Victory

Meagre bulletins received at Ottawa regarding the past taken by the Canadian divisions in the big allied gains of the last three days on the Somme front merely state that the Canadians held a conspicuous share in the taking of the ground won and that the casualties are not as heavy as might have been expected, considering the ground gained and the impetuous character of the Canadian attack. From what is known of the position in the British line held by the men from Canada, there is no doubt but that the "capture of Mont St. Pierre and of the Danube French," as mentioned in Sir Douglas Haig's despatches, was the work of the Canadians.

The British official statement issued last night says that the British line has been advanced 1,000 yards along a one-mile front. A powerfully fortified German work was captured.

To the south of Comblis the French have taken additional trenches, making stronger their investment of the little town.

Franco-Serbian troops have surrounded the Bulgarian forces in northwestern Macedonia, which are falling back precipitately on Monastir, according to reports received in Athens.

A French statement says that French troops have carried by assault the important town of Florina in Macedonia.

PLAYGROUNDS EXECUTIVE PREPARE FOR WINTER WORK.  
A special meeting of the executive of the Playgrounds Association was held last evening with Rev. W. G. Lane in the chair. Commissioner Fisher was also present and participated in the discussion. The question of finances for the period until May next was referred to a special committee, of which the president, W. B. Fennell, is chairman, the other members being the treasurer, secretary, and Miss Leavitt and R. J. Walsh. The president, secretary and R. E. Armstrong were appointed a committee to consider the method of carrying on the work of the Boys' Club; and the ladies' committee, of which Mrs. H. Colby Smith is convener, was instructed

to confer with Miss Pitt and Miss Hefner concerning the Girls' Club and its work for the fall and winter. Mrs. William C. Good was added to the executive.

LOOKING INTO THE SKY. A Pleasant Pastime That Yields Some Delightful Dreams.

It is pleasant to lie on the earth and look at the sky. The dreams you have had on the bank of the creek where you caught no fish and where you watched the sleepy clouds in the blue through the leaves that hung close above you, are pleasant even as memories. Sometimes the leaves danced and you could hear the faintest whispering among them, sometimes the leaves were still and you knew that a fairy was peeping at you from behind each one.

Little Boy Nine Months Old Had Dysentery

Dysentery is one of the worst forms of bowel complaint. The pains in the bowels become intense, the discharges occur with great rapidity, and are very often accompanied by blood, and the sufferer becomes very weak and languid.

Unless these discharges are checked, death may ensue in a very short time.

There is only one remedy to use in all cases of dysentery, and that is Dr. Fowler's Extract of Wild Strawberry. It will cure when all other remedies fail.

Dr. Fowler's Extract of Wild Strawberry is the remedy you want. Buy it today when you see it.

Subscriptions for **WAR LOAN** **DOMINION OF CANADA** **YIELDING PRACTICALLY 5 1/2 %**

As with the previous Loan, we predict a great success for this issue. During this period of stress our Government needs our help and counts upon our patriotism. But a chance is given investors of placing their money in securities of the highest grade, upon terms the liberality of which will, perhaps, not be fully realized until the return of normal times.

If this Loan were issued to yield 4%, instead of about 5 1/2%, the price would be 105-41, instead of 97.50. A 4% yield (the basis on which Dominion Government bonds sold so recently as 1914) would mean a price of 111 for the present issue.

We will forward your application, procure your allotment and render other services free of charge to you.

**STOLE TO PLAY IN WALL STREET**

**A \$10,000 a Year Salesman Not Content With That**

New York, Sept. 18.—George W. Simm, whose salary and commissions as salesman for E. J. Wile & Co. of 140 Fifth avenue, manufacturers of clothes, amounted to more than \$10,000 annually, has been arrested, charged with grand larceny. From an investigation which the firm has been conducting within the last two weeks, it is believed he has taken goods valued at between \$60,000 and \$80,000 in four years. Simm was taken before Assistant District Attorney Owen Bohan, to whom he made a complete confession attributing his thefts to a desire to speculate in Wall Street. He admitted, according to Mr. Bohan, that he had made money for his investments, and at present held 200 shares of General Motors. He offered to make a partial restitution of the money. He said that he lived at the Hotel Ansonia with his wife and was accustomed to visit Europe each year on a vacation. Mrs. Simm is now traveling in Canada.

Simm brought a suitcase each day to his place of business, Mr. Bohan said he confessed, and at opportune moments would take some of the best coats and conceal them in it. The suit case would then be sent to the Ansonia, from where he negotiated the sales.

Fifty garments were found at two stores, both of high reputation in the uptown retail district, by detectives acting on information furnished by Simm. The proprietors voluntarily came to the district attorney's office and said they were not aware that the goods had been sold to them unlawfully. Mr. Bohan said that he was inclined to believe their stories, as one of the visitors produced checks showing the manner in which Simm was paid.

The specific charge on which the salesman was held mentioned the larceny of six coats on Sept. 6, valued at \$164. Simm was arraigned before Magistrate Ten Eyck in the Tombs Court and held in \$5,000 bail for a hearing.

When a member of E. J. Wile & Co., whose head is the president of the cloak and suit manufacturers' Protective Association, was asked how it was possible for the robberies to escape notice for such a period, he was reported as saying at the district attorney's office: "I didn't suppose a \$10,000 a year salesman would be guilty of petty larceny."

**ELABORATE PLOT TO SWINDLE BANKS IS BELIEF IN CHICAGO**

Chicago, Sept. 18.—Details of what is said to have been an elaborate plot to swindle seventeen banks in the United States out of an amount estimated at between \$200,000 and \$300,000 were made public here today. At the same time it was announced that a detective is to leave Chicago for Gothenburg, Sweden, armed with extradition papers for Karl von Bardt, wanted in connection with the alleged plot.

Von Bardt, according to the Swedish consul here, has been in Gothenburg jail since last May, when he was captured through a wireless message on a charge of having forged checks for \$3,000 in the name of a local varnish manufacturing company. Although the Swedish authorities have refused to extradite him, they have also refused to release him from jail.

According to the police, von Bardt assumed in Chicago the name of a French count. Here and in other American cities he worked for five years in one bank after another, familiarizing himself, it is said, with the bank officials' signatures and gathering a supply of stationery and blank forms.

lots had been cast by British Columbia men in the various camps from Alberta east. These ballots have all been sent to the office of the provincial secretary in British Columbia, where they will be kept sealed in a vault to be opened and counted on Oct. 12.

In British Columbia itself there are about 8,000 soldiers' votes while overseas there are approximately 12,000 more. Until these votes are counted the final result of the provincial elections will, of course, not be known, but according to the opinion of those who have been in close touch with the taking of the votes, there is not likely to be much change in the present standing of the parties in British Columbia when the final count is made.

the house do now resolve itself into committee. (The Marquess of Crewe.)

Earl Grey—My Lords, before the house resolves itself into committee on this bill, I wish to address a question to the Lord President. In the speech that he made yesterday he stated that a representative conference would be shortly convened to consider what steps should be taken for the purpose of securing to the country the advantage of a really representative parliament.

The noble marquis instanced the question of woman suffrage and that of university representation as the "two" subjects which would engage the attention of the conference. There is one question, in my opinion, which far exceeds in importance all others dealing with this matter, and that is the question of proportional representation.

I hope the noble marquis may be able to give an assurance to the house that the conference about to be convened will be empowered to consider how far the application of the proportional representation principle to our electoral system will secure the object he has in view—namely the establishment of a really representative assembly.

I would also express the hope that His Majesty's government would appoint on this conference an expert who is thoroughly conversant, not only with the principle, but with the details of proportional representation.

The lord president of the council and president of the board of education (The Marquess of Crewe): My Lords, when I alluded yesterday to the prospect of

a general conference of the kind being held . . . I merely cited by way of illustration one or two subjects with which the conference might be expected to deal. In reply to the question which the noble earl now puts, I have no doubt whatever that the important subject of proportional representation must necessarily fall within the purview of such a conference whenever it is held.

As the tendency has grown, and presumably will grow with succeeding reform bills, towards a nearer assimilation in size and numbers of electoral areas and the disappearance of voters representing special privileges, many minds, like that of my noble friend on the cross benches, have turned to the need for a variety of representation which clearly would not be given by a system of equal electoral areas or anything approaching them, or by a vote depending entirely upon one qualification.

That being so, it is impossible to suppose that such a conference could neglect this important subject as one suitable to their enquiry; and although, of course, I am in no position to speak of the line which their proceedings will follow, I can with confidence answer in the affirmative the question of my noble friend.

America, and Not Norway, the First to Launch Such Vessels

Washington, Sept. 18.—A newspaper statement that Norway had put into op-

eration the first stone vessel ever built with concrete hull and ribs of steel is disputed by the bureau of navigation, department of commerce. According to what was said at the bureau, scows No. 58 and No. 66 were built of concrete at Painesfield, Md., in 1912 and 1913 by the Arundel Sand and Gravel Company of Baltimore.

The American-built concrete vessels measure approximately 112 feet in length and 28 feet in beam. It is believed that they were the first vessels ever built of concrete. No. 66 was abandoned as unfit for service in the early part of 1916, but No. 58 is still in commission.

Kilties Plan 225 Meetings For Coming Fortnight: News of the Soldiers

A total of 87 men were secured in the province during the last week for overseas service. The preceding week's total was 89. The county totals for last week was as follows: St. John, 22; Northumberland, 16; York, 12; Gloucester, 10; Westmorland, 10; Charlotte, 8; Madawaska, 4; Albert, 3; Kent, 2; Carleton, 2; Kings, 1, and one recruit for the 160th from Quebec.

Three recruits were secured for the 242nd battalion yesterday afternoon: Arthur Manley, Truro; Adolph Barnes, New Haven, and Frank Atherton, Houlton, Me.

Fifteen recruiting meetings will open the recruiting campaign for the 236th Kiltie Battalion on Monday, September 25, and will be followed by as many meetings on the succeeding fourteen nights. Thus in fifteen days there will have been 225 held in the province.

Mr James W. S. Lengerman Reports the Germans Defeated There

Sir James W. S. Lengerman who has arrived in New York from South Africa on the White Star liner Lapland on his way to attend the Dominion Trade conference at Vancouver, B. C., said:

"The attempt to start another rebellion with De Wet was an echo of the one which took place two years ago. The Rand miners threatened to strike in June of this year, and the rebel agitators tried to get the men mixed up in another rebellion. The strike did not occur, and consequently there was no rebellion and that was the end of the matter. The war in East Africa is practically over, and what is going on now is guerrilla fighting. The South African military leaders know the country and also are thoroughly conversant with the proper methods of conducting a campaign in the most vigorous fashion which the Germans have by now discovered for their cost."

Race in Both Leagues Becomes More Uncertain

**Dodgers Win and Lose**

**Red Sox Climb Back Into Lead of American League; Detroit Shut Out by Philadelphia; Giants Win Another and Make it Twelve Straight**

The race for the championship of both major leagues becomes more interesting day by day as the season draws to a close and it is impossible to pick a winner.

As a result of the Brooklyn Dodgers dropping the second game in a double header with Cincinnati and the Phillies and Braves both winning their games the gap closed considerably and the race becomes more uncertain.

Tyler pitched a great game for Boston, holding his opponents to three scattered hits.

The Giants continue to win and have now clinched twelve straight games and tied one. This is the team's third straight year. If they continue at the rate they are going they are very apt to spoil one of the leading team's chances to top the pennant.

In the American League the Red Sox climbed back into first place noosing out the Tigers, who were defeated by Connie Mack's aggregation. Myers held Ty Cobb and company to three hits, which is certainly going some.

Shoemaker was lucky to get away with his game against the White Sox. Both teams had errors which would settle any game.

**JACK COOMBS WILL PILOT BALL PLAYERS AFTER BIG GAME**

John W. Coombs of the Brooklyn Nationals will pilot several major league ball players through the Allegheny route on a big game hunting expedition after the world's series is completed. He has agreed to take along McCarty of the Giants, recently exchanged for Myers, Danny Murphy, manager of New Haven and one of Connie Mack's stars when the Athletics were winning all kinds of championships. Smith and Pfeffer, pitchers for the Dodgers.

Coombs writes a Portland man that these men will arrive in Portland the night of October 18, and he will join them in Portland, going thence to Greenville and then across Moosehead Lake to Northeast Carry. They will put their canoes into the West Branch, October 20, and start for the Allegheny route to be gone twenty-four or twenty-five days, all told, and remain until everybody in the party gets his quota of game, big and small.

A. Muller is head guide and there will be ample preparation made with experienced guides to see that the men get where there is game, find comfortable camping spots and enjoy to the utmost the rare sport afforded in the interior of the state. Mr. Coombs has been over the same territory several times and could guide a party alone, if necessary, but he prefers to have the men with him given every opportunity to hunt without stint.

He was on a similar trip two years ago after the Braves had made a clean up of the world's series, and was one of the men released by Mack, along with Bender and Plank, the manager being picked at the slump of the team in the series. They came out of the woods at the extreme northern point of the state, Fort Kent, and return to their homes by rail.

**INNOVATION AT THE IMPERIAL CATCHES ON**

Playlet a Distinctive Feature—Excellent Pictures Also Are Enjoyed

Entertainment in the big Imperial Theatre took a new twist yesterday and judging from the large attendance and the very favorable comments, a twist that will prove highly popular. After treating the people of St. John to motion picture shows in all their diversified forms, adding a little wholesome vaudeville from time to time and during certain periods a cultured vocalist or two to the list, the Keith house now enters the realm of the spoken drama in all its variety.

Tabloid stock companies in drama, comedy and music have been used in a great many of the best Keith houses with success and in bringing the Kendall Weston Players to St. John, Manager Golding offers his patrons something extraordinary along these lines. Yesterday's presentation of Sidney Grundy's splendid English playlet, "A Member of Parliament," was truly a treat.

In the first place, the stage was most magnificently set, even the smallest detail of furniture and ornamentation being part of a definite English scheme and people were evidently not slow to notice this, judging by the burst of applause that went forth as the curtain rolled up.

A member of Parliament is the story of an eminent English lawyer whose wife has a little secret love affair with a man who is her juror, who, on the other hand, becomes engaged to the lawyer's niece, a favorite in character and experience and although the playlet is less than a half hour, it was a gem and people seemed to enjoy it more than any other playlet that has been given at the Imperial.

Historically the Imperial had a strong bill again today. Mary Miles Minter, the "little sunshine of the movies," was starred in a sweet southern story entitled "Lovely Mary," in which she revealed among pickaninnies and Sunny South every body's delight, while a thrilling heart-interest story was being told. "The Notorious Gallagher" was the featured playlet of the evening.

**KLARK-URBAN COMPANY DELIGHT IN "BACK HOME"**

Judge Priest Stories of Irvin Cobb and Two Great Pictures at Opera House

The Klark Urban Company scored another success last night at the Opera House with "Back Home." It is called a comedy, but has one little touch of tragedy. The play is a skillful dramatization of the well known stories of the same name that ran serially for some time in the Saturday Evening Post, written by Irvin Cobb.

The chief charm of the play lies less in the plot than in the expression of the many and varied characters to whom we are introduced. Among them is a priceless jewel of a dandy servant whose awful humor is too much for a mere human to resist. More important is the figure of "Judge Priest," a brave and self-confident gentleman of the old school, well known to all those who have read the stories, and genuinely likeable. As a play "Back Home" has a genuine appeal and includes much good and enjoyable entertainment. It is worth seeing.

Previous to the play the picture program included the Famous Players' photo production of "The World's Great Snares," with Pauline Frederick in the leading role, also Pathe Fashion Views, the latter being of special interest to the ladies who like to know what is what in feminine wear; also the thrilling picture of the Quebec Bridge disaster.

The pictures and play will be repeated tonight as a big double programme.

**PLAGUE OF LOCUSTS RUINED THE CROPS**

Starvation Conditions Prevail Throughout Asiatic Turkey; Land Stripped of Food

London, Sept. 18—An American woman who recently returned from Beirut, Syria, by way of Turkey, Bulgaria, Austria-Hungary and Germany, contributes to the Times an account of her two years' experience there. She says: "The Levant is starving. This is no figure of speech, but the literal truth. Our party crossed the whole of Europe and visited the four countries of the Central Powers, and saw a lot we had never forgotten to remember, but nothing existing in Europe can even be compared with the present conditions in Asiatic Turkey."

"She then described the plague of locusts in 1915, which, she says, began the calamity. After the insects swarms had passed over and settled in the plains, where they laid their eggs, the Red Cross and other institutions sent out men and boys to dig up the eggs. Thousands of bags full were gathered up, but all in vain. Presently the larvae appeared.

"She then described the plague of locusts in 1915, which, she says, began the calamity. After the insects swarms had passed over and settled in the plains, where they laid their eggs, the Red Cross and other institutions sent out men and boys to dig up the eggs. Thousands of bags full were gathered up, but all in vain. Presently the larvae appeared.

"Like armies of black ants they marched across the plains. Every growing plant was stripped; herbs, bushes and trees were left naked, robbed even of their bark. At the end of July the whole olive and grape crop had gone. Toward spring cases of starvation began to be known. People were found in the streets unconscious. We passed women and children lying by the roadside with closed eyes and ghastly pale faces. It was a common thing to find people searching the garbage heaps for crumbs, old bones or other refuse, and eating them greedily. We went through a barren district of the Lebanon range, cases had been found of eating human flesh."

**HOME FROM WEST**

P. C. Sharkey Contrasts Some Conditions There and Here

P. C. Sharkey, accompanied by his wife and son, returned home yesterday after an extended visit to Western Canada. Speaking of his trip, Mr. Sharkey said it was one of the most enjoyable he ever had. It was thirty-four years since he last visited the west, and constantly clamoring for the unrestricted use of submarines. The story is that "disillusionment about submarine warfare is now complete in official circles and that such hints have been given to the more tractable editors and orators as must convince them of the futility of their demands. The Chancellor, so it is said, has for the first time laid all the facts before the leaders of the several political parties, informed the newspaper correspondents of the appalling losses suffered by Germany in attacking commerce, and by these and other means succeeded in persuading them that submarine warfare does not pay.

"There is little reason to believe this tale. Perhaps endeavors have been made to put a stop to the demands of a few hotheads who would disregard all neutral protests, but considering the activity of the German submarines during the last month it is extremely unlikely that this method of warfare is to be abandoned. It is pointed out in the Brooklyn Eagle that Lloyd's lists for the month of August record the loss of forty large steamers of several nationalities with an aggregate tonnage of more than 102,000, besides fifteen more of unrecorded tonnage, not to mention trawlers and various sailing vessels. In all, more than 100 ships and vessels have been destroyed, the estimated tonnage amounting to more than 145,000.

Now, for the first three months of submarine activity—beginning, that is to say, with the establishment of the so-called war zone—the Germans claimed less than 25,000 tons; hence the estimate for last month, instead of showing any falling off, rather indicates increased efficiency. If these figures are correct it is impossible to believe that there is any intention in any quarters, of relating the war on commerce, for however heavy the German losses may be, it is clear that the losses of Germany's enemies must be heavier.

**CHARLIE ALLEN ACCEPTS CHALLENGE**

Will Meet Young Hackenschmidt at Any Time Within Two Weeks

Frederick Gleener—Charlie Allen, a local wrestler, has signified his willingness to accept the deft of Young Hackenschmidt and will meet the latter at any time.

Allen has informed the Gleener that he will wrestle Young Hackenschmidt within two weeks and is ready to arrange the details of the match immediately. The local wrestler would prefer to have the match in Fredericton, however, with a fairly large side bet and, if possible, arrangements will be made in that way.

Allen says he is now in better shape than at any time in his career. He was working out daily at the Fredericton Athletic Club gymnasium for the last few months and believes he is capable of giving the route with the best in his class. He is ready to meet any challenge in the ring.

**AUSTRIAN MEAT PRICES RISE**

Even "Cheap" Horse Headquarters Sell at 56 Cents a Pound.

Further confirmation of repeated statements that the food situation in Austria-Hungary is becoming serious and that prices have almost doubled during the last year is found in a table of comparative prices based on the average rates throughout the Austrian part of the Dual Monarchy compiled by the Vienna Arbeiter-Zeitung and reprinted in the London press. The table, which gives the prices in cents a pound for the last week in July, follows:

Beef, forequarters	1915	1916
Do, hindquarters	52	100
Pork	64	112
Horse, forequarters	32	52
Do, hindquarters	34	56
Flour	8	12
Beans	14	24
Rice	24	30
Butter	60	90

While there have been assertions in the Austrian press that the harvest this season is exceptionally good, reports from Croatia quoted by the London papers tend to show that conditions in that province are far from cheerful.

In meantime food contractors and dishonest contractors are busy trying to make fortunes out of the necessities of the people and the government. A recent issue of Az Est, the leading Budapest newspaper, tells of the sentencing of three lawyers named Elias, Brull and Sep, to two, three and two years respectively, for "violating the state contracts for supplies for the military hospital at Debrecz."

**CANADA HAS CAMP PROBLEM**

More Tuberculosis Among Home Troops Than at the Battle Front

Ottawa, Sept. 19—More Canadian soldiers have developed tuberculosis in the military camps of the Dominion than at the battle front. Despite the sordid trench conditions, tuberculosis is not as prevalent as it was in the trenches.

Dr. Alfred Thompson, medical superintendent of the Military Hospital Commission says that there are 870 tubercular soldiers in sanatoria in the different provinces. Of these 175 had been overseas and 195 had not yet been in the front. Of those who have gone overseas about thirty, instead of with tuberculosis, returned to Canada every month.

The Hospital Commission invited several experts to meet to discuss methods of dealing with the problem.

### THEIR SON WOUNDED

Mr. and Mrs. S. Lavigne Get News From Soldier Frank

Mr. and Mrs. Samuel Lavigne, of 81 Clarence street, have received from their son, Frank, of the Newfoundland regiment, a letter telling of his having been wounded and now being in the Dri London General Hospital. In his letter, written cheerily on Sept. 8, he says he was wounded at Ypres, was hit in the elbow. He describes his wound as slight, and says the arm is getting better and he hopes to see his parents in a few months. At time of writing he had been in bed in hospital for three weeks.

### COMING HERE ON MISSIONARY WORK

Mrs. M. Ronald Ford, of Indianapolis, Ind., who is at present visiting the Christian churches in the maritime provinces in the interests of the Christian Women's Board of the Home and Foreign Missions, will be an interesting visitor to the city tomorrow. Mrs. Ford has just been in P. E. Island and Nova Scotia and her coming to St. John will be awaited with keen expectancy on the part of those interested in both Home and Foreign missions.

After her sojourn in St. John, she intends visiting Deer Island in Charlotte county.

Mrs. Ford was on missionary work for fourteen years in Spanish America. At present she is professor of Spanish in the college of missions in Indiana and also assistant editor of the Mission Tidings. That she is an authority on missionary work is obvious and her visit to the city is expected to prove of value to those interested in the missionary question.

### FREDERICTON TO BUY COMBINED LADDER TRUCK AND CHEMICAL

Fredericton, N. B., Sept. 19.—The fire committee of the city council last night was authorized to purchase a two horse combined ladder truck and chemical engine. Chief Rutter and Chairman Wilkinson will visit Boston soon in connection with the purchase.

Rev. H. C. Archer, now stationed at Camp Bonah, has received an unanimous call to the pastorate of the Reformed Baptist church here to succeed Rev. S. A. Baker, removed to Moncton.

Robert H. Green, farmer of Newmarket, died last night aged eighty. He leaves his wife, four sons and two daughters.

The directors of the Canadian Antimony mines are to hold a special meeting here on Thursday. It is said that a cash offer for the mining property at Lake George has lately been received.

Farmers in this section are making good progress gathering the harvest. It is expected that potato digging will be quite general in a few days. Shippers are paying \$2 and \$2.25 for potatoes delivered at cars. The crop is reported good in this district.

### CHANGE OF NAME

Brookville, St. John county residents are pleased at word received today that the name of their post office has been officially changed from "Brookville Station" to "Brookville." There is a settlement called Brookville in Carleton county and when a post office was opened at Brookville, St. John county, it was called Brookville Station to distinguish it from the Carleton county village of the same name. On the installation of a new R. F. D. in Carleton county recently the Brookville post office there was closed, so the local people saw the opportunity of having their office officially known as Brookville, got up a petition to the postmaster general and their Ottawa representative, Hon. J. D. Hazen, with the result made known today. In the past, delay and confusion have been experienced as letters addressed to Brookville, N.B., and intended for the place near St. John have been sent to Carleton county.

#### LANCASTER BOYS TO BE REMEMBERED

At Meeting Last Night Plans Made For Campaign For Christmas Boxes

Last evening an enthusiastic meeting was held in Temperance Hall, Fairville, at which initial steps were taken to provide for every soldier who left Lancaster a Christmas box, the necessary money contributions and articles to be provided by a house to house canvass on Tuesday, September 26.

The meeting was called to order by Chas. (Bud) Tippett, formerly of the first Canadian Regiment, and who has since taken a very active part in the Returned Soldiers' Association work. The members of the congregation of each church also were present.

Mr. Tippett said that so near as could be ascertained Lancaster had sent 110 representatives to the firing line, of training camps. Some would be well remembered at Christmas time that the people at home, outside his immediate family, recognized what he was doing for them and appreciate his sacrifice.

The idea was immediately taken hold of. Ways and means discussed and it was decided to make arrangements to remember every one of the returned boys, the gift coming from his own townpeople irrespective of what any particular church or organization might also do.

In order to expedite the work the parish was divided into five sections, under two collectors who will secure assistants to help them.

Section No. 1.—In charge of Mrs. Harry Carr and Mrs. Walter Ross; territory from Tillamook corner to C. P. R. crossing, also South Bay.

Section No. 2.—In charge of Mrs. Currie and Miss Ethel Myers; territory from C. P. R. crossing up main street to the corner, also Harding, Ready, Orange and George streets.

Section No. 3.—In charge of Mrs. Mary O'Brien and Miss Agnes Calnan; territory from C. P. R. crossing to Barnhill corner, also Mill, Station, Prospect, Morris and McKell streets.

Section No. 4.—In charge of Mrs. Charles Hill and Mrs. Thomas Mitchell; territory from Barnhill corner to Randolph; also Manawagonish Road to Spruce Lake.

Section No. 5.—In charge of Mrs. Leonard and Miss Coyle; territory, Milford.

The clergymen have been asked to announce the collection on Sunday and a generous response is looked for, as it is a matter in which all Lancaster is interested.

On next Tuesday Temperance Hall will be open and used as a central location to which parcels may be sent. Cash contributions will be used to pay postage and also buy certain articles. The ladies who solicit will suggest what would be most acceptable to the boys overseas.

Last night's meeting was representative and judging by the spirit of the workers, Lancaster boys at the front will have a practical demonstration of no mean order that the folks at home are standing behind them.

### MERCHANTS IN RALLY IN ST. JOHN

#### Retail Men From Many Parts of Province — Names of Some — Convention Plans

The grand commercial rally of the retail merchants of the province, under the auspices of the New Brunswick provincial branch of the Retail Merchants' Association of Canada opened today. The place of meeting is the large hall in Germain street opposite Trinity church, formerly used for recruiting meetings. This morning was devoted to registration while the delegates were arriving; greetings will be exchanged this afternoon and the convention will then proceed to business. The sessions will continue until tomorrow evening when they will be brought to a close with a banquet.

The convention hall has been suitably arranged for the purposes of the convention and advantage has been taken of the space available to present an exhibition in miniature of products and manufactures. Well arranged displays give manufacturers and dealers an opportunity to show their wares to the retailers and clear up in clear touch with the exhibitors are: King Quality flour, Toledo scales, L. C. Smith & Bros. new model silent typewriter, Royal Acadia sugar, Campbell Brothers axes, Lantic sugar, Edwarsburg corn syrup, Acme starch and McCaskey record systems.

Many of the members will arrive this afternoon and many of those who came this morning did not register immediately, but those whose names appeared on the register at one o'clock are as follows: W. D. Keith, Harland; W. E. Ward, St. John; D. Y. Storm, Woodstock; D. W. Stohart, Newcastle; S. H. E. Gillingham, Hampton; Alex. Corbett, St. John; Frank C. Smith, St. John; James D. Driscoll, Fairville; F. S. Thomas, St. John; W. Daniel, St. John; Walter P. Jones, Moncton; J. P. Farrell, Fredericton; A. Murray (president), Fredericton; Fred Esauette, McAdam; James Piercy, McAdam; J. L. Newton, Grand Manan; Geo. W. Currie, St. John; James S. McEiverson, St. John; H. C. Page, St. John.

#### The Objects

The object of the gathering is to bring the retailer and wholesaler together the value of organization, to get the retailer, the wholesaler and manufacturer working in harmony, to show the retailers that they are strong enough to secure any legislation necessary to their business, to let the retail merchants know what the united strength of the retailers of the province is and to consider plans for commercial preparedness to meet after-war problems.

The president of the provincial association is Alexander Murray of Fredericton and the secretary is Robert Reid of this city.

The convention came to order at two o'clock this afternoon when addresses of welcome were delivered by the president, Mr. Murray, His Worship Mayor Hayes, Joseph Likely, president of the Board of Trade, and A. O. Skinner, president of the St. John branch.

The following are an abridgement of Mr. Skinner on "The Retail Merchants' Association—Its Benefits, etc."

"This evening 700 members and their ladies will assemble at the Imperial Theatre at 8:30 and a special R. M. A. program will be given in compliance with the wishes of the visitors.

Tomorrow morning there will be a conference of wholesalers and retailers, in the afternoon the members will entertain the harbor and land the visitors a parade of local merchants' delivery facilities. The banquet will follow at 6:30 o'clock."

### NOW IS LIEUTENANT IN 140TH BATTALION

#### Sergeant W. J. Brown of St. John Wins Way to Commission

Sergeant W. J. Brown of this city has been promoted to a lieutenant in the 140th Battalion. This news will be received with great pleasure by Lieut. Brown's friends in St. John and Kings county, and his old comrades in the New Brunswick militia. He joined the 140th when Lieut. Col. Beer was in command, stationed at West St. John, after a few months' service his commanding officer recommended him for promotion. That position has now come the eve of the departure of the 140th from Canada.

Lieut. Brown was recently in St. John with the detachment looking up men who had over-stayed their leave, and securing new recruits.

### TELEGRAPHS HIS REGRETS TO POLICE COURT FROM HALIFAX

In the police court this morning Magistrate Ritchie disposed of some by-law cases postponed from last Friday. A messenger boy shyly approached the tribunal and handed the clerk, George A. Henderson, a despatch. Opening it, Mr. Henderson smiled and passed it to the magistrate. In turn he smiled and, looking about the court room, was heard to say: "That is decent of him." The spectators, scribes and other court officials awaited an explanation; it was forthcoming. One of those reported on Friday last had since gone to the Halifax Exhibition and could not get back today, so he telegraphed "his regrets."

Eldon Wilson, reported for driving his car on the sidewalk and also with having no tail light on another occasion, was excused in the first case and fined \$10 in the second which, however, was allowed to stand.

In the case of M. T. Kane, alleged furiously driving and not sounding his horn when approaching the corner of Clarence street from Brunswick, the court upheld the argument of Mr. Kane's son, who was driving the car, that when a street does not form a crossing one was not obliged to "toot." In this charge the defendant was excused; in the other he was fined \$10 but the fine was allowed to stand.

Hugh Milley, reported for leaving his team unattended, had in court his 16-year-old son, who was driving the team at the time of the alleged violation. The penalty was struck and allowed to stand.

#### LOCAL NEWS OF SOLDIERS

**OAK HALL** SCOVIL BROS., LIMITED ST. JOHN, N. B.

### Special - Special

Here is a Foot-stool Which We Will Offer for Sale on THURSDAY, SEPT. 21, at 95c. each.

Think of it! A Foot-stool made of solid quartered oak, fumed finish, 15 inches long, 18 inches wide, upholstered in brown leatherette, for much less than half the usual cost!

This is not a flimsy article, but a solid piece of furniture, made to last a lifetime.

The legs are 1 3/4 inches in diameter, heavily blocked at the corners to ensure strength, and our reputation stands behind it.

Considering the rising cost of materials, the price we have put on these seems unbelievable. But we have 72 to sell on the one day only at 95c. each.
