# Form of Bequest of Personalty.

I give and bequeath to the Board of Governors of McMaster University, and their successors, for the purpose of \_\_\_\_\_\_, the sum of \$\_\_\_\_\_, and I direct that the said legacy be paid exclusively out of such part of my personal estate as may lawfully be appropriated to such purpose, and in preference to any other payment thereout.

Norm.-Mortgages, although ordinarily treated as personality, are regarded as reality in cases of bequests for charitable purposes. Parise intending to benefit the University, and whose estate consists of mortgage securities, must bear in mind that a will containing bequests for charitable uses of such property must be made six months prior to the death of the issuitor.

# Form of Devise of Realty.

I devise to the Board of Governors of McMaster University, and their successors, for the purposes of \_\_\_\_\_\_, Lot (here describe the lands).

Norm - Intending testators are particularly requested to notice that a will containing a devise of real estate must be made six months prior to the death of the person making the will, otherwise the devise is incoverable.

# ORGANIZATION OF THE UNIVERSITY.

In April, 1887, a Bill was passed by the Ontario Legislative Assembly, uniting Toronto Baptist College and Woodstock College, under the Corporate name of McMaster University. In September of the same year, through the decease of the Hon. William McMaster, the Corporation of McMaster University came into possession of about \$900,000 endowment for the purpose of Christian education, as set forth in Mr. McMaster's will and in the Charter. This was in addition to the amount which had been previously raised by the denomination towards the endowment of Woodstock College, and for the land and buildings in connection with the same, as well as in addition to the property in connection with Toronto Baptist College previously provided by Mr. McMaster. In accordance with the Charter, the Board of Governors and the Senate of McMaster University entered upon the performance of their duties in November, 1887.

At the Educational Convention, held in the City of Guelph, in March, 1888, it was decided by the representatives of the Regular Baptist Churches of Ontario and Quebec, that McMaster University be organized and developed as a permanently independent institution in the City of Toronto, and that Woodstock College be maintained, with increased efficiency, in the Town of Woodstock.

At a meeting of the Senate and Board of Governors, held May 25, 1888, it was decided that "Woodstock College be organized and maintained permanently in the Town of Woodstock, as a Christian school of learning, which will provide for males a thorough and practical general education."

At the same meeting it was also decided "that the education of ladies be discontinued in Woodstock College, and that a Ladies' College be established in the City of Toronto, and opened for the reception of students, September, 1888."

This latter action was rendered practicable by the generosity of Mrs. William McMaster, who placed at the disposal of the Senate and the Board of Governors, for this purpose, on conditions which these bodies readily accepted, the McMaster residence on Bloor Street, and funds for adapting the building to its new use. Mrs. McMaster's whole gift is of the cash value of \$26,000. The institution thus founded is known as the Moulton College, and perpetuates the family name of the founder.

In accordance with a resolution of the Senate, March 19, 1889, the Arts work was inaugurated at the beginning of the College year of 1890-91.

The Senate at its meetings of March 20 and May 16, decided that sixteen Chairs of Instruction be established in Arts and Theology, and that the Lectures upon the subjects of these chairs be delivered by a staff of twelve Professors. The Chairs of Instruction in Arts and Theology, are, in the order of their institution, as follows:

# Chairs in Arts.

- 1. Philosophy, Psychology, and Logic.
- 2. History.
- 3. Hebrew and Cognate Languages.
- 4. Science of Education, Ethics and Civil Polity.
- 5. Mathematics and Physics.
- 6. Latin and Greek Languages and Literatures.
- 7. Modern Languages and Literatures.
- 8. English Language and Literature.
- 9. Natural Sciences.
- 10. Apologetics and Evidences of Christianity.
- 11. Biblical Theology and English Bible.

- 6. Apologetics and Evidences of Christianity.
- 7. Biblical Theology and English Bible.

# Examinations and Standings.

1. Students in every department of the University, including academic departments, shall be required to pass a satisfactory written examination at the close of each College year.

2. The questions for all written examinations shall be prepared by the professors or teachers who gave the instruction to the students to be examined. These questions, except for junior classes in Woodstock College and Moulton College, before being used, must be approved by associate examiners appointed by the Senate.

3. The written answers on all subjects below the senior year of any course, shall be read and valued by the professor or teacher who prepared the questions; but the answers on all subjects in the senior year of any course shall be read and valued by the associate examiners to whom the questions were submitted for approval.

4. The professor or teacher who gives the instruction in each subject shall furnish the associate examiner at the opening of the College year with a complete list of the texts to be used during the year, and also not later than ten weeks before the examination takes place, with a complete outline of the work done by him, on both of which students are to be examined.

5. A standing shall be given for class work and for written examiations. The class standing shall be given for faithful attendance upon class instruction, earnest effort put forth to perform all the work assigned from time to time during the College year, and for the knowledge and mental discipline acquired in performing this work. The standing in this case shall be ascertained by the application of such tests as each professor or teacher may deem best. The written examination standing shall be given for written answers to questions prepared as provided for above, and shall be determined by the person who reads and values the answers.

6. The rank of a student in each department of study shall be determined by the standing he receives. A student will be ranked in the third class on a standing of 40%; in the second class on a standing of 60%; and in the first class on a standing of 75%.

, the ar of

that and by a heo-

7. The standing on which a student is ranked as passing in the third, second or first class shall be ascertained as follows :

The standing in each department shall be determined by dividing by two the sum of the class standing and the written examination standing, except in the senior years in Arts and Theology. In determining the standing in these senior years, the class standing shall be reckoned as one-third and the written examination standing two-thirds.

8. Standings shall be reported to the Secretary of the Senate on blanks provided for that purpose. Class standing must be so reported at least two days before the written examination commences. No professor, teacher or associate examiner shall be at liberty to divulge the standings reported to the Secretary of the Senate.

9. It shall be the duty of the Principals of the several Faculties to have kept a proper record of the results of the various examinations, as reported to the Secretary of the Senate.

10. The rank of each successful candidate in an examination, but not the percentage obtained, shall be published in the *Canadian Baptist* and in such secular papers as each Faculty may determine. The names thus published shall be arranged in each case alphabetically.

11. Students in Arts or Theology who fail in any subject at the regular examinations shall be required to take a supplemental examination, to be held at or before the opening of the following year. In the event of any supplemental examination being unsatisfactory, it shall be in the discretion of the Faculty whether such student be allowed to proceed with the work of the year, but a student failing in two consecutive supplemental examinations on the same subject shall not be allowed to proceed in such subject. Supplemental examinations shall not in any case include more than three subjects, each language being counted as a separate subject.

12. Matriculation examinations in Arts may be held in Toronto and in Woodstock each year, at such times as may be announced in the Calendar of the University. The questions for these examinations shall be prepared by the Professors in Arts. The questions, before being used, must be approved by the associate examiners appointed by the Senate. The answers shall be read and valued by the professors who prepared the questions. Questions for the matriculation Diploma in Arts at Woodstock and Moulton, may be prepared and valued in the same manner, in the discretion of the Chancellor.

Va

th

of

tra

by

ter

wh to 13. Graduation from the matriculation course in Arts of Woodstock or Moulton College shall be accepted as matriculation in Arts in the University.

14. A certificate of matriculation in Arts in any University of recognized standing shall be accepted in the place of passing the matriculation examination provided for in 12. A certificate from the Head Master of a High School, or from the Principal of a Collegiate Institute, or other Academic Institution of recognized standing, showing that the applicant has completed in a satisfactory manner all of the work prescribed for matriculation into any course of Arts or Theology of the University, shall be accepted as evidence of literary qualification for attendance on classes of the first year.

15. The Junior Leaving and Senior Leaving examinations of the Education Department shall be accepted *pro tanto* at any matriculation examination.

# Methods of Self-Help and Aid for Ministerial Students.

The following are the means of self-help afforded ministerial students, and the general rules by which the Ministerial Aid Fund is administered by the Committee on Ministerial Education :

1. All available opportunities for preaching and for missionary service are afforded ministerial students during term time and the summer vacation of five months, under direction, respectively, of the Faculty and the Ministerial Committee. For this service a minimum remuneration of \$150, and a maximum of \$200 per annum, exclusive of board and travelling expenses, is assured from the field served, and, if necessary, by supplementary grants from the Home Mission Board and the Ministerial Educational Fund for the long vacation as below.

2. Remunerative service is assured only to ministerial students who are fully approved by the Ministerial Committee, and special aid to those only of whose need its members are altogether satisfied.

3. No student shall have any claim to free tuition or to aid who leaves his classes in any department of the University before the close of the year, without the permission of the Faculty, or who fails to undergo his examination.

4. It is not expected that students having little or no experience in regular preaching or pastoral work shall receive aid while pursuing their first year of study, in any department of the University.

5. The minimum remuneration is assured students the first year of appointment to fields of labor.

6. No special grant is made to students in receipt of the maximum remuneration of \$200.

7. Ministerial students in any department of the University are eligible to receive aid, in the regular way, pro rate for summer work.

8. Students during term time are not expected to accept of Sabbath supply of churches except under the direction of the Faculty; and the Ministerial Committee deem it inexpedient for students to supply oftener than once a month.

ŋ

8

N

to

m

81

m

m ye T D

se

9. If in the judgment of the Ministerial Committee the circumstances of a student require it, and the funds permit, he may receive a loan on his own promissory note, without interest; it being understood that if the person who has given such note should die, or be permanently unable through illness, to engage in the work of the Ministry, the note shall be cancelled. In any other case the Committee expect the note to be honorably paid, in order that it may be possible for them to afford similar aid, from time to time, to other students.

10. In extraordinary cases, a free grant may be made to students at the discretion of the Ministerial Committee.

11. Students needing special aid are expected to apply to the Faculty at the beginning of the year.

12. Application for aid, from students in any department of the University, will be considered on their merits.

### The University.

#### MCMASTER HALL.

This is one of the most complete and commodious educational buildings in the country. Built with brown stone, with red brick facings, it is both unique and beautiful in its architecture. The dimensions are 149 feet by 54, and there are four stories above the basement. An extension in the rear contains the servants' apartments, together with the kitchen and heating apparatus. In the basement are the dining rooms and a gymnasium ; while on the first flooy are the chapel, library, and lecture rooms. Above, there is accommodation for resident students. The whole building is heated by steam, and every room has independent ventilation at floor and ceiling. On each floor are bath room and other convenience. No expense has been spared to secure a substantial and convenient building.

#### BOARD AND EXPENSES.

The rooms are provided with the staple articles of furniture—chairs, tables, bedsteads, mattresses, pillows, and washstands. The charge for board, including care of rooms, is \$3, to be paid directly to the Professor appointed to receive the same. Payment must be made at the beginning and the middle of each term, as announced on the University bulletin. No deduction from the board bill will be made for absence of less than two weeks, and only in cases where such absence has been specially approved by the Faculty. Washing will be done at reasonable rates. The fee for matriculation examination in Arts is \$5, tuition in Arts, \$25 per annum, annual examinations in Arts, \$5, in Theology, \$1. The fee for tuition may be remitted in whole or in part in exceptional cases specially recommended by the Chancellor in the case of ministerial students of the first year class only. No charge for tuition is made to students in the Theological courses. Fees for Diplomas: B.A., \$10; M.A., \$5; Diplomas in Theology, \$2. Admission ad eundem gradum in Arts, \$10.

#### LIBRARY.

The Library of the College now consists of about 9,500 carefully selected volumes. In founding it, Mrs. S. M. McMaster was the chief

contributor. The Hon. Wm. McMaster and Mr. Thomas Lailey made important gifts to it. The list of contributors, in Toronto and elsewhere, has become too long to publish here. Grateful acknowledgements are hereby made to all who have helped to make the Library efficient, and the hope is expressed that this want of the University, which must be supplied by gifts from friends, will be remembered. Nowhere will contributions be more useful than in founding a permanent and worthy

The Reading Room is supplied with the best periodicals-domestic and foreign, religious and secular. From its opening it has been indebted to Mr. John Stark, of Toronto, for steady and generous contributions.

# THE FYFE MISSIONARY SOCIETY.

The Fyfe Missionary Society exists for the fostering of the missionary spirit and the doing of missionary work, at home and abroad. The Professors and all the Christian students of the University are members. The Society works, as far as possible, through the existing missionary organizations of the denomination, but occasionally enters new fields for pioneer service. It also sustains two native preachers-one under the Ontario, and one under the Maritime Board-either in their studies or at work on the Foreign Mission field.

One day in each month is given up by the University to the work of this Society, and is known as the Missionary Day. This service has proved one of the most interesting and useful of all exercises of the year.

# LITEBARY AND THEOLOGICAL SOCIETY.

The Literary and Theological Society seeks to improve its members by the cultivation of the literary spirit, and the discussion of Literary, Social, Theological, and Philosophical questions.

# Matriculation in Arts.

Candidates presenting diplomas from Woodstock or Moulton College, of graduation in the Matriculation Course, are admitted to the University as full matriculates in Arts. A certificate of matriculation in any University of recognized standing will also be accepted. Candidates will be admitted to all the work of the first year in Arts, on presentation of certificates from the Principal of Grande Ligne Seminary, the Head Masters in High Schools, or Principals in Collegiate Institutes (or other Academic Institutions of recognized standing), of having a satisfactory knowledge of the subjects required for matriculation, and will receive full University standing, or senior matriculation, on passing successful examinations at the close of the year. Candidates holding teachers' Provincial certificates, or leaving examination certificates, will be required to undergo examination only upon those subjects which are not included in the examinations for such certificates. Certificates of good moral character are required in all cases. Students qualified to do so will be permitted to take any subjects in the course, even though not entered for a degree.

### Junior Matriculation.

#### Subjects of Examination.

#### GENERAL REGULATIONS.

All candidates for Junior Matriculation shall take the following subjects :--Latin, English, History, Mathematics, French or German, and either (1) Greek or (2) the second Modern Language with Physical Science (Physics and Chemistry.)

The examination may be divided into the following two parts, of which (I.) shall be taken before (II.) and in a different year :--(I.) Arithmetic and Mensuration, English Grammar and Rhetoric, Physics, and the History of Great Britain and Canada ; (II.) Greek, Latin, French, German, English Composition, English Literature, Ancient History, Algebra, Geometry, and Chemistry.

Candidates for the Matriculation examination of 1896, may, in 1895. take Part I. of the examination on the courses prescribed for 1895 in the subjects of Part I

wh

hav

in t

and

pass

1896

1897

1898

The percentage for Pass shall be thirty-three and one-third per cent. on each paper, at the examination taken by the candidate.

The marks for sight-work on each of the "Authors" papers shall constitute at least thirty-three and one-third per cent. of the whole of the marks for the paper.

Junior Leaving certificates will be accepted pro tanto at both Part I. and Part II. of the Pass Junior Matriculation examination.

# PART I. English Grammar and Rhetoric.

The main facts in the development of the language. Etymology and Syntax including the inflection, classification and elementary analysis of words, and the logical structure of the sentence. Rhetorical structure of the sentence and paragraph. As far as possible the questions shall be based on passages from authors not prescribed.

### Arithmetic and Mensuration.

ABITHMETIC :- Proofs of Elementary Rules ; Fractions (Theory and Proofs) ; Commercial Arthmetic.

MENSURATION :- Rectilinear figures, right parallelopipeds, [prisms and pyramids; the circle, cylinder, cone, and sphere.

# History of Great Britain and Canada.

Great Britain and Canada from 1763 to 1871, with the outlines of the preceding periods of British History.

The Geography relating to the History prescribed.

#### Physics.

Metric system of weights and measures. Use of the balance. Phenomena of gravitation. Matter attracts matter. Laws of attraction. Cavendish experiment. Attraction independent of condition. Illustration of weight of gases, liquids, and solids. Specific gravity.

Meaning of the term "a form of matter." All matter may be subjected to transmutation; "Chemistry;" application of measurement by weight (mass) to such transmutation leads to the theory of elements. Matter in destructible.

Meaning of "Force." Various manifestations of force, with illustrations from the phenomena of electricity, magnetism and heat. Force measured in gravitation units; consequent double meaning of the terms expressing units of weight as mass, and units of weight as force.

Meaning of "Work." Measurement of work in gravitation units. Meaning of "Energy,"

Effects of force continuously applied to matter. Laws of matter in motion. Velocity. Acceleration. Statement of Newton's Laws of Motion. Definition of "Mass." Meaning, value and application of "g." Mass a measure of matter.

Conservation of Energy. Energy like matter indestructible and transmutable

Study of the three states of matter. Properties and laws of gases, liquids and solids. Laws of diffusion

Elementary laws of heat. Mechanical equivalent. Latent heat. Specific heat. Calorie.

#### PART II.

#### Greek.

Translation into English of passages from prescribed texts.

Translation at sight (with the aid of vocabularies), of easy Attic prose, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the prescribed texts by additional practice in the translation of Greek.

Grammatical questions on the passages from prescribed texts shall be set, and such other questions as arise naturally from the context.

Translation from English into Greek of sentences and of easy narrative passages based upon the prescribed prose texts.

The following are the prescribed texts :--

(Selections from XENOPHON, Anabasis I, in White's Reginner's Greek 1896. Book (pp. 304-428), with the exercises thereon.

HOMER, Iliad I.

Selections from XENOPHON, Anabasis I. in White's Beginner's Greek Book (pp. 304-428), with the exercises thereon.

HOMER, Iliad 1.

1898.

3

1897.

Selections from XENOPHON, Anabasis I. in White's Beginner's Greek Book (pp. 304-428), with the exercises thereon. HOMER, Iliad VI.

#### Latin.

Translation into English of passages from prescribed texts. Translation at sight (with the aid of vocabularies), of passages from some

casy prose author, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the prescribed texts by additional practice in the translation of Latin.

Grammatical questions on the passages from prescribed texts shall be set, and such other questions as arise naturally from the context.

Translation from English into Latin of sentences and of easy narrative passages based upon the prescribed prose texts.

The following are the prescribed texts :---

1896. VIRGIL, Æneid III and CÆSAR, Bellum Gallicum V, VI.

1897. VIRGIL, Æneid III and CÆSAR, Bellum Gallicum II, III, IV.

1898. VIRGIL, Æneid I and CÆSAR, Bellum Gallicum II, III, IV.

NfB.—The Roman method of pronouncing Latin is recommended :— $\vec{a}$  as in far,  $\vec{a}$  the same sound but shorter;  $\vec{e}$  like a in fate,  $\vec{e}$  as in set;  $\vec{i}$  as in machine;  $\vec{i}$  as in  $\vec{not}$ ;  $\vec{o}$  as in note;  $\vec{v}$  as in obey;  $\vec{u}$  as in rule;  $\vec{u}$  as in full; j (i.e., i consonant) like y in year; c and g always hard, as in can, go; t always as t, never as sh; ae as ai in aisle; au as ou in our; ei as in feint;  $eu = \vec{e}h - oo$ ; ee as oi in oil; ui almost as we.

ALGEBRA. — Elementary Rules; Highest Common Measure; Lowest Common Multiple; Fractions; Square Root; Simple Equations of one, two and three unknown Quantities; Indices; Surds; Quadratics of one and two unknown Quantities.

GEOMETRY .--- Euclid : Books 1, 2 and 3 ; Deductions.

#### French.

The candidate's knowledge of Grammar will be tested mainly by questions based upon prose extracts.  $\_$ 

The Examination in Composition will consist of (a) translation into French of short English sentences as a test of the candidate's knowledge of grammatical forms and structure, (b) formation in French of sentences of similar character, and (c) translation of passages from English into French.

Translation at sight of modern French, to which special importance will be attached. Candidates will be expected to have supplemented the reading of the following texts by additional practice in the translation of French:—

1896. / ÉNAULT, Le Chien du Capitaine.

1898. | FEUILLET, La Fée.

1897. {DE MAISTRE, Voyage autour de ma chambre. LABICHE, La Grammaire.

#### German.

The candidate's knowledge of Grammar will be tested mainly by questions based upon prose extracts.

The Examination in Composition will consist of (a) translation into German of short English sentences as a test of the candidate's knowledge of grammatical forms and structure, (b) formation in German of sentences of similar character, and (c) translation of passages from English into German.

1896. 1898. HAUFF, Das Kalte Herz; Kalif Storch.

1897. LEANDER. Traumereien. Selected by Van Daell.

#### English.

COMPOSITION: An essay, to which special importance will be attached, on one of several themes set by the examiners. In order to pass in this subject, legible writing, correct spelling and punctuation, and proper construction of sentences are indispensable. The candidate should also give attention to the structure of the whole essay, the effective ordering of the thought, and the accurate employment of a good English vocabulary. About three pages of foolscap is suggested as the proper length for the essay; but quality, not quantity, will be mainly regarded.

#### 1896.

#### COLERIDGE :- The Ancient Mariner.

LONGFELLOW :--Evangeline, A Gleam of Sunshine, The Day is Done, The Old Clock on the Stairs, The Fire of Driftwood, Resignation, The Ladder of St. Augustine, A Psalm of Life, The Builders, The Warden of the Cinque Ports.

The following selections from Palgrave's Golden Treasury :---

WORDSWORTH :--The Education of Nature, A Lesson, To the Skylark, To the Daisy, and the following Sonnets : To a Distant Friend, "O Friend ! I know not which way I must look," "Milton ! Thou shouldst be living at this hour," To Sleep, Within King's College Chapel.

CAMPBELL :--- "Ye Mariners of England," Battle of the Baltic, Hohenlinden, The River of Life.

COLERIDGE :- Youth and Age.

#### 1897.

GOLDSMITH :- The Traveller, The Deserted Village.

BYRON :- Fourth Canto of Childe Harold.

The following selections from Palgrave's Golden Treasury :----

WORDSWORTH :--- "She was a Phantom of Delight," The Green Linnet, To the Cuckoo, and the following Sonnets: England and Switzerland, Upon Westminster Bridge, The Inner Vision,

KEATS :--Ode to Autumn, Ode to a Nightingale, and the following Sonnets : On Chapman's Homer, The Terror of Death, The Human Seasons.

SHELLEY :- Ozymandias, To a Skylark, The Recollection.

Scorr :- The Outlaw, Jock o' Hazeldean, The Rover, Rosabelle.

#### 1898.

TENNYSON :--Morte d'Arthur, Elaine, Recollections of the Arabian Nights, To Virgil, Early Spring, Ulysses, "You Ask Me Why," "Of Old Sat Freedom," "Love Thou Thy Land," Freedom, Enone, The Lotos Eaters, Crossing the Bar, Lady of Shalott, St. Agnes' Eve, Sir Galahad, the six interlude songs in the Princess, and "Tears, Idle Tears."

The following selections from Palgrave's Golden Treasury :----

GRAY :--Ode on Vicissitude, Ode on the Spring, Elegy written in a Country Churchyard, Ode on Eton College.

COWPER :---Sonnet to Mary Unwin, To the Same, The Castaway, The Poplar Field, The Shrubbery.

#### Ancient History.

Outlines of Roman History to the death of Augustus, and of Greek History to the battle of Chaeronea.

The Geography relating to the History prescribed.

#### Chemistry.

Properties of Hydrogen, Chlorine, Oxygen, Sulphur, Nitrogen, Carbon, and their more important compounds. Nomenclature. Laws of combination of the elements. The Atomic Theory and Molecular Theory.

# ARTS,

# Course of Instruction for the Degree of B.A.

#### FIRST YEAR.

- LATIN.-CICERO, Pro Archia, Pro Lege Manilia; HORACE, selections from the Odes, (equivalent to one Book); Latin Grammar: Latin Prose, Bradley; Sight Reading, with aid of vocabularies; Latin Literature.
- GREEK.—HOMER, Odyssey IX; Plato, Apology; Greek Grammar; Abbott's Arnold's Greek Prose Composition; Sight Reading, with aid of vocabularies; Greek Literature.
- ENGLISH.—\*The Coming of Arthur, and \*one of the Idylls of the King; Wordsworth, Ode on Intimations of Immortality, six of the Sonnets of Liberty, Ode to Duty; Selections from Burns, Cowper, Southey, Campbell, as contained in Palgrave's Golden Treasury; Macaulay or DeQuincey, one \*Essay; Lamb, Selections from Essays of Elia; Rhetoric; Composition Exercises, every week; Lounsbury, English Language, part I; History of English Literature, the Modern Period.
- FRENCH.—ERCKMANN-CHATRIAN, Waterloo (Heath & Co.'s ed.); LABICHE, Le Voyage de Monsieur Perrichon; Grammar, Dictation, Translation into French; Translation of unspecified passages from easy French authors.
- GERMAN.-MOSER, Der Bibliothekar; VOLKMANN, Kleine Geschichten (Heath & Co.); Grammar, Dictation, Translation into German; Translation of unspecified passages from easy German authors.
- NATURAL SCIENCE. BIOLOGY. Introductory Lectures; Structural Botany and the Elements of Systematic Botany; Systematic Zoology of the vertebrates and invertebrates; Human Physiology.
- MATHEMATICS.—ALGEBRA; Equations, Proportion, Progressions, Combinations, Binomial Theorem : GEOMETRY, Euclid, Elements, IV-VI; TRIGONOMETRY, Plane Trigonometry, to the solution of Triangles inclusive.

THE ENGLISH BIBLE.-The Old Testament.

#### SECOND YEAR.

LATIN.-VERGIL, Georgics, I, IV; LIVY, BK. II; Latin Grammar; Latin Prose; Bradley; Sight Reading; Latin Literature. SPECIAL WORK.-CICEERO, Pro Sulla, Pro Milone; Latin Grammar'; Latin Prose; Sight Reading; Philology.

\* Subjects marked with an asterisk are to be studied critically.

GREEK.—ÆSCHYLUS, Prometheus Vinctus, DEMOSTHENES, Philippics, I, II; New Testament Greek, Luke; Greek Grammar; Abbott's Arnold's Greek Prose Composition; Sight Reading; Greek Literature. SPECIAL WORK.—THUCYDIDES, Bk. II; Greek Grammar; Greek Prose; Sight Reading; Philology.

- ENGLISH.—Selections from Shelley, Byron, and Keats, as contained in Palgrave's Golden Treasury; Milton, \*Lycidas and Sonnets; Shakespeare, Julius Cæsar, and Merchant of Venice; Burke, one Speech; Addison, \*Selected Essays; Rhetoric. Composition exercises every week; Lounsbury, English Language, part II; History of English Literature, the Period of Settlement. SPECIAL WORK.—Freeman, Race and Language; Selections from Pope or Dryden; Selections from Elizabeth Barrett Browning's Poems, with Stedman's Essay on Elizabeth Barrett Browning.
- FRENCH.—AUGIER, Le Gendre de Monsieur Poirier ; ABOUT, Le Roi des Montagnes. Translation of unspecified passages from Modern French authors; Grammar, Diotation, Translation into French. SPECIAL WORK. —BOILEAU, L'Art poétique (extracts) ; SAND, La Mare au diable ; Com position, Conversation, and Sight Reading. SAINTSBURY, Primer of French Literature.
- GERMAN.—GOETHE, Minor Poems (Ed. Sonnenschein); SCHILLER, Lyrical Poems (Ed. Turner and Morshead). Translation of unspecified passages from Modern German authors; Grammar, Dictation, Translation into German. SPECIAL WORK.—SPIELHAGEN, Deutsche Pioniere; Composition, Conversation, and Sight Reading. CONANT, Primer of German Literature.
- NATURAL SCIENCE.—CHEMISTRY.—Lectures on the occurrence, preparation and properties of the principal elements and their compounds. The Atomic Theory, Laws of Combination, Avogadro's Law, Mendelejeff's Law. Laboratory Practice by students. SPECIAL WORK.—Biology.
- MATHEMATICS AND PHYSICS. GEOMETRY, Analytical Plane Geometry, the point, straight line and circle. MECHANICS, Elements of Kinematics, Kinetics, Statics and Hydrostatics. SPECIAL WORK.—Higher Algebra (Hall & Knight's). Conic Sections (Smith); Special paper in Mechanics of the regular course.

GE

PSYCHOLOGY-Physiological Psychology; the Intellect, the Emotions, the Will.

LOGIC-Deductive and Inductive Logic ; Noetics.

#### THIRD YEAR.

- LA TIN.-JUVENAL, I, III, IV, V, VII; CICERO, De Oratore, I, II; Latin Grammar; Latin Prose, Papillon; Sight Reading; Latin Literature. SPECIAL WORK.-HORACE, Odes, two books; Ars Poetica; TACITUS Agricola and Germania; Latin Grammar; Latin Prose; Sight Reading; Philology; Roman History, Smith's.
- GREEK.—XENOPHON, Mem., II, III, IV; ARISTOPHANES, Clouds; CHRYS-OSIOM, Selections; Greek Grammar; Greek Prose, Sidgwick: Sight
   Reading; Greek Literature. SPECIAL WORK.—THUCYDIDES, Bk. III; EURIPLOES, Alcestis; Greek Grammar; Greek Prose; Sight Reading; Philology; Greek History, Smith's.
- ENGLISH.—Selections from Vaughan, Lovelace, Herrick, Ben Jonson, Marlowe, and Spencer, as contained in Palgrave's Golden Treasury; Shakspeare, \*Hamlet; Macbeth or The Tempest; \*Bacon's Essays (Selections); Essays, with criticism, fortnightly; Historical Grammar, with Grimm's and Verner's Laws; History of English Literature, the Period of Transition. SPECIAL WORK.—Borroughs, Nature and Poets; Emerson, Essays on Books, Beauty, \*Culture, Eloquence; Carlyle, Essay on History; Morley, Essay on Popular Culture; Milton, Comus and outline study of Paradise Lost, with special study of two books; Spenser, Færie Queene, with special study of one book; Dowden's Shakspere Primer, chaps. IV to VII, inclusive.
- FRENCH.—MOLIÈRE. Le Bourgeois Gentilhomme; CORNEILLE, Le Cid; RACINE, Adromaque; BOSSUET, Oraison funèbre de Henriette de France; LA BRUYÈRE, chap. I; DAUDET, (selections); Translation of unspecified passages from Modern French Authors; Grammar, Dictation, Translation into French. SPECIAL WORK.—CORNEILLE, Polyeucte; RACINE, Athalie; ERCKMANN-CHATRIAN, L'Ami Fritz; Composition, Conversation and Sight Reading. SAINTSBURY, History of French Literature in the 17th century.
- GERMAN.-Schiller, Wilhelm Tell; AUERBACH, Edelweiss; GOETHE, Iphigenie auf Tauris; Translation of unspecified passages from recent German authors; Grammar. Dictation; Translation into German. SPECIAL WORK.-GOETHE, Die Leiden des jungen Werthers; LESSING, Minna von Barnhelm; VICTOR VON SCHEFFEL, Ekkehard (D. C. Heath & Co.'s ed.) Composition, Conversation and Sight Reading. GOSTWICK & HARRISON, History of German Literature in the 18th century.

- MATHEMATICS AND PHYSICS.—Optics and Heat, (with laboratory practice). SPECIAI. WORK.—Higher Plane Trigonometry (Lock's); Spherical Trigonometry (Todhunter's); Theory of Equations (Burnside and Panton's); Differential Calculus (Edwarda).
- NATURAL SCIENCE.—GEOLOGY.—Lectures on Physical Geography, Historical and Dynamical Geology, and the Economic Minerals of Canada. SPECIAL WORK.—I. Advanced inorganic chemistry, qualitative analysis, and blowpipe analysis. 2. Optics and Heat (with laboratory practice).
- HISTORY OF PHILOSOPHY-Introduction; Review of Ancient and Mediæval Philosophy; Modern Philosophy; Present Tendencies in Philosophy.
- ETHICS.—The Nature and Effects of Conscience; Moral Freedom, its nature and extent; Relation of Feeling and of Intellect to Morality; Virtue, Vice, Duties, Conduct, Rights and Goods; the Relation of Natural Ethics to Christian Ethics.
- HISTORY AND CIVIL POLITY.-Constitutional History and Political Economy.
- THE ENGLISH BIBLE,-The New Testament.

#### FOURTH YEAR.

- LA TIN.-CICERO, De Natura Deorum, I, II; PLINY, Letters to Trajan; QUINTILLIAN, Bk. X. XII; Latin Grammar; Sight Reading; Latin Literature. SPECIAL WORK.-VERGIL, Georgics, II, III; TACITUS, Annals, XV; Latin Grammar; Latin Prose; Sight Reading; Philology.
- GREEK.—PLATO, Republic, I, II, VII, X; Pheedo; ARISTOTLE, Ethics, I, II, III; Greek Grammar; Sight Reading; Greek Literature. SPECIAL WORK.—ÆSCHYLUS, Agamemnon; DEMOSTIENES, De Corona; Greek Grammar; Greek Prose; Sight Reading; Philology.
- HISTORY.—(a) Preparation for Christianity in the religious, philosophical, literary, and political events of the preceding time; Origins of Christianity; Conflict between Christianity and Heathenism; the Blending of Christianity with Egyptian, Greek, Persian and Indian thought; History of early Christian Literature; Union of Church and State; Doctrinal Controversies; the Byzantine Empire; the Disruption of the Western Empire by Barbarian Invasions; Rise and Growth of Islam; the Empire of Charlemagne; Feudalism; Development of the Papacy; the Holy Roman Empire; Crusades; Inquisition; Medizeval Philosophy, Science, Theology and Universities; Medizeval Monasticism; Medizeval Reforming Parties; the Revival of Learning; Growth of the Democratic Spirit. (b) Freeman's General Sketch.

- ENGLISH.—Sketch of English Hymnology, with critical study of twelve great Christian hymns; Development of the English Language, illustrated by the study of Sweet's Anglo Saxon Primer, Chaucer's Prologue to the Canterbury Tales, and Lounsbury's History of the English Language; Selections from Browning; Essays, with criticism, monthly; Historical Grammar; History of English Literature, the Formative Period. SFECIAL WORK.—Ruskin, A Crown of Wild Olives; Gladstone, Kin Beyond Sea; Lowell, On a Certain Condescension in Foreigners; Tennyson, \*In Memoriam; Shelley, Adonais; Sydney, An Apologie for Poetry; Leslie Stephen, English Thought in the Eighteenth Century, yol. II, chap. x, sec. 5 to 9 inclusive; Sweet's Anglo-Saxon Reader.
- FRENCH.—VOLTAIRE, Alzire; MONTESQUIEU, Grandeur et Décadence des Romains; CHATEAUBRIAND, Atala; DUMAS, Henri III et sa Cour; BALZAC, Le Médecin de Campagne; Translation of unspecified passages from recent French Authors; Grammar, Dictation, Translation into French. SPECIAL WORK.—MOLIÈRE, his life and times, and the following plays: L'Avare, Le Misanthrope, Le Tartuffe; EDMOND LAREAU, Histoire de la Littérature Canadienne; MASSON, La Lyre française; Composition; Conversation; SAINTSBURY, History of French Literature during the 18th century.
- GERMAN.—SCHILLER, Wallenstein, Part II; HEINE, Prosa (ed. Colbeck); WILDENBRUCH. Neue Novellen; Translation of unspecified passages from recent German authors; Grammar, Dictation, Translation into German. SPECIAL WORK.—EBERS, JOSUA; FUNKE, Die Schule des Lebens; BUCH-HEIM, Deutsche Lyrik; Composition, Conversation; Gostwick and HARRISON, History of German Literature in the 19th century.
- MATHEMATICS AND PHYSICS. Electricity and Acoustics (with laboratory practice). SPECIAL WORK.—Solid Geometry (C. Smith's); Calculus (Edwards'); Astronomy (Barlow & Bryan's); Dynamics (Williamson's); Elementary Modern Plane Geometry.
- NATURAL SCIENCE.—Electricity and Acoustics (with laboratory practice). SPECIAL WORK.—I. Biology. 2. Chemistry, Crystallography, Chemical and Physical Mineralogy, and Quantitative Analysis.

HEBREW.-Genesis i.-viii., with Harper.

METAPHYSICS. -

EDUCATION.-Theory and History of Education; Principles and Practice of Teaching; Principles of School Organization, School Management and Discipline.

EVIDENCES OF CHRISTIANITY .-

#### REQUIRED SUBJECTS.

The required subjects of the Course are the following :

FIRST YEAR .--- English, Mathematics, Biology, The English Bible, and two of the languages-Latin, Greek, French, German-one of which shall be Latin or Greek.

SECOND YEAR.-English, Mathematics and Physics, Chemistry, Psychology. Logic and the two languages taken the previous year.

THIRD YEAR.-English, History of Philosophy, Ethics, Constitutional History and Civil Polity, The English Bible, Physics or Natural Science, and two of the languages-Latin, Greek, French, German,

FOURTH YEAR.—English, History (a), Evidences of Christianity, Educa-tion (First Term), Metaphysics (First Term), and two of the languages— Latin, Greek, French, German, Hebrew. An option is permitted the last term between Metaphysics and Education.

NOTE 1.-In any case a language must be taken for two consecutive years, except Hebrew. Nors 2 .- Instead of continuing the study of a language taken in the First and Second Years, a student may in the Third and Fourth Years, with the sanction of the Faculty, take two of the other languages of the First and Second Years.

Undergraduates who have obtained first-class standing in English, Mathematics, Classics, Moderns, or Natural Science at the First Year examination, and at least an average second-class standing on the whole examination, are allowed in the Second Year to take a limited amount of special work in any one department in which they took first-class standing, and in the Third and Fourth Years may substitute the SPECIAL WORK of that department for certain other subjects of the Course, as shown below :

- ENGLISH. --The SPECIAL WORK in English of the Third Year may be substituted for Physics or Natural Science, and one of the languages -Latin, Greek, French, German; and of the Fourth Year for one language.
- MATHEMATICS. --The Spectra. Work in Mathematics of the Third Year may be substituted for the languages, except English ; and of the Fourth Year for the languages, or one language and History.

CLASSICS.-The SPRCIAL WORK in Classics of the Third Year may be substituted for Physics or Natural Science; and that of the Fourth Year for English and History.

MORENS.—The SPECIAL WORK in French and German of the Third Year may be substituted for Physics or Natural Science ; and of the Fourth Year for History and Metaphysics.

NATURAL SCIENCE. — The SPECIAL WORK in Natural Science of the Third Year may be substituted for the languages, except English ; and of the Fourth Year for the languages, or one language and History.

OPTIONS.-By availing themselves of certain options indicated in the foregoing Course, students having the ministry in view may, after receiving the degree of B.A., complete their Theological Course in two years.

Students wishing to be recognized as specialists by the Education Department of Ontario must obtain at least second class standing in each department and sub-department of their special work at the final examinations, and should include the following additional subjects in their course :

- In English and History.-Latin and Greek of all Years, Special Latin and Special Greek of the Second and Third Years, French or German of First and Second Years, History (a) and (b) of the Fourth Year, and Education of 2nd term of Fourth Year.
- In Mathematics.-Three languages of First and Second Years, one of which shall be Latin ; and Education of the 2nd term of the Fourth Year.

In Classics. - An additional language of the First and Second Years, History (a) and (b) of the Fourth Year, and Elucation of the 2nd term of the Fourth Year.

In Moderns.-Special English of all years. History (a) and (b) of the Fourth Year, and Education of the 2nd term of the Fourth Year.

In Science.-Three languages of First and Second Years, one of which shall be Latin ; and Education of the 2nd term of the Fourth Year.

Horor Work — Undergraduate maintaining at least an average first-class standing in all the subjects of their Course may, with the consent of the Faculty, take as Honor Work (i.e., as additional, not substitutional,) the SPECIAL WORK in any department prescribed under the Third and Fourth Years.

# ADVANCED COURSES .- M.A.

The undergraduate course for the degree of B.A. is a general course designed to give acquaintance with the leading subjects of knowledge, and to develop and co-ordinate mental power. Holders of the degree of B.A. will be granted the degree of M.A. on successfully completing any one of the following specialized courses. Examinations may be taken in two parts or at one time, at the same time as the annual examinations for undergraduates. Fee for each examination, or part, \$1. A candidate for the M.A. degree will correspond with the Professor of the department in which he chooses his course. Attendance on lectures is not required for examination for this degree, but on notice being forwarded to the Chancellor by the first week in January, arrangements will be made by which any candidate for M.A. who so desires may have board and lodging in the Hall at \$3 a week, from May 15th to May 30th, and free access to the Library.

# English Language and Literature for the Degree of M.A.

#### PART I.

Shakespeare, Spenser, Bacon and Milton. A general acquaintance with the life and works of each of these authors is required. Attention is specially directed to the following: Shakespeare,—Hamlet, Julius Cæsar, King Lear, Macbeth, Tempest, Richard II., Henry IV. (Parts 1 and 2), Henry V., Merchant of Venice, Twelfth Night, As You Like It; Spenser,—Færie Queene, Bks. I. and II.; Bacon,—Essays and Advancement of Learning; Milton,—Paradise Lost, and Minor English Poems.

Books of Reference.—Bascom's Philosophy of English Literature, Dowden's Mind and Art of Shakespeare, Church's Life of Spenser (Eng. Men of Letters), Abbott's Life of Bacon, Masson's Life of Miton, Sweet's New English Grammar.

#### PART II.

Middle English, -- Chaucer, -- Prologue, Knightes Tale and Nonne Preestes Tale.

Books of Reference.—Ten Brink's Early English Literature, Stopford Brooke's Early English Literature, Lounsbury's Studies in Chaucer, Pollock's Primer of Chaucer.

Anglo Saxon.-Wülker's Anglo Saxon Poetic Reader.

ARTS,

# Moderns for the Degree of M.A.

#### PART I.

## FRENCH.—Victor Hugo, his Life and Times, and the following of his works: Les Châtiments, Les Feuilles d'Automne, Hernani, Marie Tudor, Notre Dame de Paris.

Phonology and Grammar.-Darmesteter, Cours de grammaire historique, Première partie.

Old French.—Chanson de Roland, 300 lines (Clèdat's Edition), Morceaux choisis des principaux écrivains du XVI<sup>o</sup> siècle (Darmesteter and Hatzfelt).

#### PART II.

GERMAN.—Buchheim, Deutsche Lyrick, from the death of Schiller; Pestalozzi, Lienhard and Gertrud; Zschokke, Das Goldmacherdorf; Ebers, Josua; History of German Literature in the 19th century. Selections from German Authors of the early periods. Behagel's History of the German Language.

Phonology and Grammar of Old and Middle High German, Wright's Primers of Old and Middle High German. Phonology, Accidence and Syntax historically treated.

# Latin for the Degree of M.A.

1. Vergil, Æneid, i-xii, or

2. Horace (complete), or

3. Tacitus, Histories, or

4. Augustine, Confessions : Cicero, De Finibur, I., II.

With each of the above, Simcox's Roman Literature, vols. I. and II., and King and Cookson's Philology.

# Greek for the Degree of M.A.

1. Homer, Iliad, i-xii, or

2. Plato, the Republic, or

3. Heroditus, i-ix, or

4. Æschylus, Agamemnon; Sophocles, Ajax; Euripides, Medea; Aristophanes, Knights.

# Mathematics for the Degree of M.A.

DTO

37

Group 1 is required with any three of the other groups.

1. History of Mathematics to the end of the eighteenth century.

2. Minchin's Statics (selected course). Routh's Rigid Dynamics, (selected course).

3. Salmon's Conic Sections. Salmon's Higher Plane Curves, (chaps. i-iv).

4. Scott's Determinants. Burnside and Panton's Theory of Equations.

5. Kelland and Tait's Quaternions.

# Natural Science for the Degree of M.A.

Chemistry :- Remsen, Organic Chemistry; Thorpe, Quantitative Analysis; Tilden, Chemical Philosophy; Ostwald, Outlines of General Chemistry; Laboratory Practice; or,

Biology:—Sachs, Physiology of Plants; Goebel, Classification of Plants; Martin, Human Body (Advanced); Claus and Sedgwick, Textbook of Zoology; or,

Geology :--Geikie, Text-book of Geology ; Lyell, Principles of Geology ; Nicholson, Ancient Life History ; Judd, Volcanoes ; Chapman, Geology of Canada.

# History for the Degree of M.A.

Examination on not less than 2,000 8vo pages of literature, prescribed by the Professor of History, on any one of the following subjects :

- 1. The Norman Conquest.
- 2. The Renaissance.
- 3. The Reign of the Emperor Charles V. and that of Philip II. of Spain.
- 4. The Thirty Years' War and the Peace of Westphalia.
- 5. The Puritan Revolution in England.
- 6. The French Revolution.
- 7. American Colonial History.
- 8. The American Revolution.
- 9. History of the United States of America.
- 10. Canadian History.
- 11. English History during the 18th and 19th Centuries.
- 12. German History since the Peace of Westphalia.

With a thesis of not less than 10,000 words, showing grasp of the historical principles underlying the period selected, of the international relations of the time, of the bearing of the events of the time on subsequent history, and the lessons of the period for the present time.

# Philosophy for the Degree of M.A.

#### PART I.

Psychology :--James' Advanced Course ; or, Bain's Senses and Intellect, and Lotz's Outline Psychology ; or, Bain's Senses and Intellect, and Baldwin's Emotions.

Logic :- Sigwart's.

Æsthetics :- Bosanquet's History of.

#### PART II.

Philosophy :--Plato, Theætetus ; Aristotle, Metaphysics, (selections from) ; Locke's Essay and Cousin's Refutation of Locke, or Kant's Critique of Pure Reason; Bowen's Schopenhauer and Hartmann; Collins' Synthetic Philosophy of Herbert Spencer.

# Matriculation in Theology.

1. The literary requirements for Matriculation in Theology are specified at the head of each of the four following Courses.

2. Students for the ministry, who desire to become duly recognized students in Theology, must be examined by the Ministerial Committee with reference to their intellectual, moral and spiritual fitness for the work of the ministry. They must also pass the matriculation examinations referred to above. A certificate from the Ministerial Committee of having passed all these tests will admit the holder to all the lectures and privileges of a duly recognized student in Theology.

3. Any person seeking admission to the classes in Theology should make application some time before the commencement of the session he proposes to attend. Such application should, in every case, be accompanied by a license to preach, or a recommendation to study for the ministry, from the church of which the applicant is a member; also by a full statement regarding his past and present occupation, the Christian work he has performed, his pecuniary circumstances and literary qualifications. (See Methods of Self-support and Aid for Ministerial Students, page 17.) These papers will be placed before the Ministerial Committee at the opening of the session of the University.

4. Ministers, and other persons who desire to fit themselves for Christian work, but whose circumstances will not permit them to complete any one of the prescribed Courses, and who come properly recommended, will be admitted to any of the classes, for a longer or shorter period, as their circumstances may determine. Persons desiring to take advantage of this provision, must make application in advance.

## COURSES OF INSTRUCTION IN THEOLOGY.

1. The course of training for regular students consists of instruction by the Faculty during seven months of each year, and practical missionary and pastoral work under the direction of the Faculty in the vacation.

2. The Faculty is expected to arrange as far as practicable, for the employment of the students in mission or pastoral work during the five months of vacation in each year, and one Sunday a month, on an average, during the session of the University. In making such arrangements the Faculty works as far as possible through the existing missionary organizations of the denomination.—See Methods of Self-Help and Aid to Ministerial Students, p. 17.

3. The missionary and pastoral element in the Course may, in part, be dispensed with, if, in any student's case, the Faculty finds good and sufficient reasons for dispensing with it, such reasons always to be matters of record. But in no case shall this element be wholly dispensed with, and no student shall be held to have completed his course who has not performed so much missionary work as to enable the Faculty to judge that he possesses practical qualifications for the ministry.

#### ÷

## 1. Courses for the Degree of Bachelor of Theology, (B.Th.)

#### 1. THREE YEARS' COURSE.

The literary conditions of matriculation into this Course are the possession of a degree in Arts or a certificate of having passed examinations on the work of the first two years in Arts in McMaster University or in any University of recognized standing.

> Hebrew Language. New Testament Greek. English Bible (O. T. (I.) Homiletics. Elocution.

Fourth Year.

Hebrew and Aramaic. Historical Theology. Systematic Theology and Polemics. Apologetics. Education. Pastoral Theology and Church Polity.

2. THREE YEARS' COURSE.

The literary conditions of matriculation into this Course are a certificate of the completion of the English or Modern Language Course in Woodstock College or in Moulton College, or an examination upon a full equivalent to either of these Courses.

First Year.

English Bible { O. T. (I.) Historical Theology. Homiletics. Elocution. English. Biology.

Second Year.

English Bible { O. T. (II.) N. T. (II.) Acts and Epistles. Systematic Theology and Polemics. Homiletics. Mental Science. English.

Third Year.

Pastoral Theology and Church Polity. Historical Theology. Systematic Theology and Polemics. Apologetics. Ethics (one term). Education (one term).

## Special Lectures.

For on notice being received by the Chancellor by the first of April, provision will be made for persons engaged in the pastorate who have not enjoyed opportunities of special theological study, for board and lodgings in the Hall at \$3 a week, from May 15th to May 30th, free use of the Library, and special lectures in Homiletics, English Bible, Theology and Church History. There will be no University Examinations in connection with these lectures.

#### THEOLOGY.

# SYSTEM OF INSTRUCTION.

...

# 1. Exegetical Theology.

# 1. The Study of the English Bible.

# DANIEL M. WELTON, O. C. S. WALLACE.

This study embraces the Old and the New Testaments.

In the Old Testament the plan of study embraces two courses :

First—An outline course, in which are noticed in their Chronological order, the principal persons and events of Biblical history from Genesis to Malachi.

Second-A special course on particular topics and Books, including Introduction.

The study of the New Testament is divided into two parts, in the first of which the four gospels, and in the second the Acts and Epistles, come under consideration. The study will be inductive, and will deal not only with contents, but embrace Introduction also.

# 2. Old Testament Interpretation, Hebrew and Aramaic.

## DANIEL M. WELTON.

Instruction is given, with thorough drill, in Hebrew and Chaldee Grammar. Various parts of the Old Testament are read, with study of the language: Hebrew Syntax is reviewed in the latter parts of the course: the principles of interpretation are applied in the study of selected books of the Old Testament. Special attention is given to Introduction. Students sufficiently advanced may take up the Syriac, in the last half of the third year.

## 3. New Testament Interpretation in Greek.

#### JONES H. FARMER.

This course extends through two years. It is intended not so much for the impartation of the results of study, as for the training of the student in power to study the New Testament on sound principles for himself. Hence the work consists largely in actual interpretation, with constant practice in the application of grammatical hermeneutical principles and in analysis of the writer's thought. Thus by the experience of actual work the student is aided in learning the peculiarities of New Testament Greek, and the methods of sound interpretation. The course includes the study of the Grammar of New Testament Greek, of Introduction, and of Textual Criticism.

## H. Historical Theology.

#### ALBERT H. NEWMAN.

In the first year Ancient Church History is taught, embracing such topics as-Introduction to Church History in General; Constitution of the Apostolic Church ; relation of Christianity to the Roman Empire during the first three centuries ; internal development of Christianity during the first three centuries-the consideration of Heretical and Reforming bodies ; Christian literature and doctrine during the first three centuries; internal and external condition of the Church at the beginning of the fourth century ; union of Church and State, and effects of this union on the Church ; Controversies and Councils during the fourth, fifth, sixth, seventh and eighth centuries ; development of the Hierarchy until the death of Gregory the Great ; Heretical and Reforming bodies ; extension of the Church throughout the Carlovingian rulers; further development of the Hierarchy, especially under Hildebrand and Innocent III. ; Papal Captivity and Schism ; Reforming Councils ; Mediæval Philosophy and Theology ; reaction against Papal Absolutism, manifested in the various Reforming Movements of the Middle Ages ; the Revival of Learning ; with Essays by members of the class.

In the second year, Modern Church History is taught, embracing such topics as—Preparation for the Reformation ; general characteristics of the Reformation ; separate consideration of the Erasmian, Lutheran, Zwinglian, Anabaptist, Calvinistic, and English Reformations ; comparative view of the Protestant Confessions of Faith and Catechisms ; Roman Catholic resistance to Protestantism—Jesuits, Inquisition, and Council of Trent ; the history of Modern Denominations, especially the Church

THEOLOGY.

of England, the Congregationalists, the Presbyterians, the Methodists, and the Baptists ; with Essays by the members of the class.

The Professor's printed notes are used as a text book, with reference to best works on each subject discussed.

## III. Dogmatic Theology.

#### 1. Systematic Theology.

## CALVIN GOODSPEED.

In this department there is a systematic setting forth of the doctrines of the Bible, embracing a full and orderly exposition and discussion of the Articles of the Christian Faith, evidencing their Scriptural authority and their inter-dependent relations. Special attention will be given to the higher criticism as it affects the doctrine of inspiration.

# 2. Apologetics and Relation of Science and Religion.

#### CALVIN GOODSPEED.

The defences of Christianity are set forth under this head. The Biblical view of the Being of God is made the ground of argument against Atheism, Pantheism, Materialism and Modern Agnosticism. Various disputed points are taken up for consideration, and full freedom of discussion is allowed to the students.

Under the Relation of Science and Religion are discussed various topics connected with the Natural Sciences, the aim being to give the student a knowledge of scientific method, and to teach him to apply it in the investigation of religious truth. Other subjects discussed under this head are : The Necessary Limits of Scientific Investigation, the Harmony between Natural and Spiritual Law, and the Alleged Antagonism between Science and the Bible.

## IV. Practical Theology.

## 1. Homiletics.

#### O. C. S. WALLACE.

In this department Dr. Broadua's Preparation and Delivery of Sermons is used as a text book and guide, but it is intended that the work shall include more than the mastering of a text book. Sermons and plans of

sermons are prepared and criticised by the class, and attention is given to the study of the literature of the pulpit. As much labor as the time allows is spent upon style, and the preacher's general literary preparation for his work. It is the aim to help the free, manly development of each student's personality, and to secure the utmost effectiveness in the work of preaching.

In connection with the work in Homiletics, ample time will be given to the study of Hymnology; also to the reading of the Scriptures and Hymns. 01

# 2. Pastoral Theology.

# O. C. S. WALLACE.

Under Pastoral Theology are considered such topics as : The Nature of the Pastoral Qflice; Call to the Ministry ; Qualifications of a Minister ; Settlement and Ordination ; The Conduct of Public Worship ; the Administration of the Ordinances ; Pastoral Visitation ; Marriage Rites ; Funeral Services ; Devotional Meetings ; Business Meetings ; The Sunday School ; Young People's Societies ; The Administration of Discipline ; The Pastor's Relation to Missions, Society, the Press, Social Movements, Other Ministers, Other Denominations.

## 3. Church Polity.

# CALVIN GOODSPEED.

Under Church Polity such topics as: The Scriptural Form of Church Organization; The New Testament Law of Membership; The Officers of the Church; The Reception of Members; Principles of Discipline; The Relations of the Church to other Churches, to Associations, Councils, Benevolent Societies, and the State; The Ordinances; Creeds; The Principles and Claims of Episcopacy, Presbyterianism, Methodism and Plymouthism.

#### Degrees.

Students who have passed successfully the required examinations upon all the subjects of either of the courses in Theology which do not lead to a Degree, will receive the Diploma of the University for the course completed.

Graduates in Arts, and students in Arts of two years' standing, who have completed the three years' course of Theological study (including Greek, Hebrew and Aramaic), and who have complied with all the requirements of the Senate, will receive the Degree of Bachelor of Theology. Full credit will be given for Theological work done in other institutions of recognized standing.

## THEOLOGY.

# ADVANCED COURSES-B.D.

Holders of the degree of B.Th. will be granted the degree of B.D. on successfully completing any one of the following courses. Examinations may be taken in two parts or at one time, at the same time as the annual examinations for undergraduates. Fee for each examination, or part, \$1. Fee for diploma, \$2.

#### Course in Theology for the Degree of B.D.

1. Harris' Philosophical Basis of Theism.

2. Dorner's System of Christian Doctrine.

3. Muller's Doctrine of Sin.

4. Anselm's Cur Deus Homo.

5. Turretin's De Satisfactione Christi necessitate et veritate.

6. Athanasius' De Incarnatione.

Note.—Three hundred pages of Kahnis' Lutherische Dogmatik may be substituted for either 4 and 5, or for 6 of the above.

#### Courses in Greek for Degree of B.D.

#### I.

1. The reading of Psalms i.-xli.

2. The reading of I Maccabees and Josephus, Bk. xii., Chap. vi.-xiii. inclusive.

3. A knowledge of the origin and importance of the Septuagint and of the Apocrypha.

4. A careful exegesis of II Corinthians or its equivalent in a book not done in the applicant's undergraduate course. A full analysis must be handed in.

5. Textual criticism :

(1) Westcott and Hort's Introduction, 129-200; 224-243.

(2) Discuss in writing and hand in a week before the examination, Mark i.-v., Acts i., James i., Galatians i.-iii., Revelation i., ii. Remarks upon every reading mentioned by Tischendorf that seems worthy of remark.<sup>4</sup>

6. Westcott on the Canon of the New Testament.

50

II.

1, 2 and 3, or 4, 5 and 6 above, together with 200 pages of reading in the Greek Fathers, selected in consultation with the Professor.

Courses in Historical Theology for the Degree of B.D.

# I. ANCIENT CHURCH HISTORY.

1. Examination on 100 pages of Patristic Latin, and 50 pages of Patristic Greek (large 8vo.), to be selected in consultation with the Professor; or on 300 pages of *Harnack's* Dogmengeschichte.

2. Examination on 300 pages each of the Anti-Nicene and Post-Nicene Fathers (edition published by the Christian Literature Publishing Company of New York), to be selected in consultation with the Professor.

3. Examination on the History of Doctrine during the first six centuries on the basis of *Hagenbach's*, *Schedd's* and *Orippen's* works on the History of Doctrine.

4. Examination on *Hatch's* Hibbert Lectures on the Influence of Greek Ideas and Usages upon the Christian Church.

5. An Essay of not less than 10,000 words on a subject connected with Early Church History, selected at least six months prior to the last examination, in consultation with the Professor.

# II. MEDLEVAL CHURCH HISTORY.

1. Examination on 200 pages (large 8vo.) of Medizeval Theological Latin, to be selected in consultation with the Professor, or on 300 pages of *Harnack's* Dogmengeschichte (medizeval portion).

Examination of the History of Doctrine during the Middle Ages,
 Examination of the History of Doctrine during the Middle Ages,
 on the basis of Hagenbach, Shedd and Orippen.

3. Examination on Ueberweg's History of Philosophy, vol. 1, pages

355-485, on The Scholastic Philosophy.

4. Examination on Lea's History of the Inquisition, vol. 1.

5. Examination on Hatch's The Growth of Church Institutions.

6. Examination on Creighton's History of the Papacy, vol. 1.

7. Essays as in Course 1.

## THEOLOGY.

## III. REFORMATION HISTORY.

1. Examination on 200 pages of Reformation Latin, or 300 pages of Reformation German, to be selected in consultation with the Professor.

2. Examination on Schaff's "The Renaissance."

3. Examination on Dorner's History of Protestant Theology.

Reformation History (continued).

4. Examination on Schaff's History of the Christian Church, vols vi. vii.

5. Essays as in the other Courses.

IV. HISTORY OF MODERN DENOMINATIONS.

A thorough study of the history of any one of the leading denominations, to be selected in consultation with the Professor, involving the use of the best available materials, the passing of examinations on book-work equal to that prescribed in the above Courses; the writing of a short history of the denomination chosen, of at least 20.000 words.

Course in Old Testament for the Degree of B.D.

1. Chaldee Grammar and Chaldee of Ezra.

2. The first six Minor Prophets, with grammatical and exceptical questions on the same.

3. Harper's Syntax of the Hebrew Language.

4. Syriac Grammar, and first ten chapters of John's Gospel in Syriac.

5. Ochler's Theology of the Old Testament.

6. Introduction to the book of Job.

## **RELATION TO MCMASTER UNIVERSITY.**

Woodstock College is the Academic Department of McMaster University, for boys and young men. Its Faculty is selected by the Senate and appointed by the Board of Governors, and the Senate prescribes its courses of study and its examinations for Diplomas. The Chancellor of the University has, under the Board and Senate, responsible supervision of its administration.

#### PRINCIPALS.

## General Information.

### ÷

#### SITUATION.

The College is beautifully situated in Woodstock, County Town of Oxford, population 9,000. Owing to the intersection of four lines of railway, it is easy of access from any point. The sur rounding country, one of the most elevated and healthful districts in Ontario, is beautifully undulating, and the scenery diversified and picturesque.

## GROUNDS AND BUILDINGS.

The grounds are large, being over thirty acres in extent. They are well drained and finely ornamented with trees and shrubs. They afford the most ample room for all kinds of outdoor sports. These sports hold, in the College, an important place in promoting a healthy physical development, as well as a manly character, in its students.

The buildings, three in number, besides the workshop and gymnasium, are all substantial brick structures, finely adapted to the purposes for which they are used. They are lighted with gas, heated chiefly by steam, and are well ventilated throughout. There are bath-rooms and closets on each flat, provided with hot and cold water. The buildings are thus fitted in every respect to minister to the physical comfort of the students, as well as promote in the best sense the educational work of the institution. It is not too much to say that in the matter of buildings, including students' rooms, dining-room, library, reading-room, society rooms, teachers' residences, chapel, class-rooms, laboratories, gymnasium and workshop, Woodstock College affords first class advantages.

## CHARACTER AND AIM.

Woodstock College is designed to be, above all else, a Christian school of learning. Its aim is to surround the student with Christian influences; to guide him sympathetically in the pursuit of know ledge, and teach him the Christian way of seeing things; to keep before him Christian ideals; and by word and life commend the k at

w er th

be by shi No to de sup ma des the eve

Co full Ins exa ente the

of s othe four

the pled

stud

knowledge of God and Christ-like character as the highest possible attainment.

For this purpose thorough class-work is essential. In harmony with the two fold aim of building up Christian character and ensuring thorough scholarship are the principles of government and the courses of study.

#### ADMISSION.

Application for admission should be made to the Principal before coming to school. Such application should be accompanied by a certificate of character and statement of the age and scholarship of the applicant and of the studies he desires to pursue. None, however, need apply for admission but such as are prepared to comply heartily with all the requirements of the College and devote their entire time and energy to the work prescribed. The superior advantages for study and for the development of a true manhood which the College affords are intended for such only as desire to make the best possible use of their school life and who can therefore enter fully into the spirit of earnest work which pervades every department of the Institution.

To gain admission into any one of the regular courses of the College, the applicant must pass a satisfactory examination upon a full equivalent to what is required to enter a Provincial Collegiate Institute or High School. A certificate of having passed such examination will be accepted. Applicants who are not prepared to enter any of the regular courses of the College will be admitted into the Preparatory Course.

## PRINCIPLES OF GOVERNMENT.

I. In seeking to develop a symmetrical character and the power of self-government in each student, the Golden Rule, "Do unto others as ye would that they should do unto you," is made the foundation of every requirement.

2. The relation of teacher and student involves a pledge on the part of each to regard the interests of the other as sacred, which pledge is assumed to be given when the student enters the College.

3. From the very nature of the relation between teacher and student, the teacher is always to be regarded as the proper judge of

what is to be viewed, under any given circumstances, as right or wrong, but before making any decisions, all the circumstances are fully considered.

4. The highest good of the individual student, so far as it is compatible with the highest good of the whole College, is regarded as a fundamental principle in all discipline.

5. No requirements are made of any student that are not,

under similar conditions, made of every student in the College. The spirit in which everything is done is considered more

important in its effect upon the student and the College than the form.

7. Character and correct deportment receive the first attention

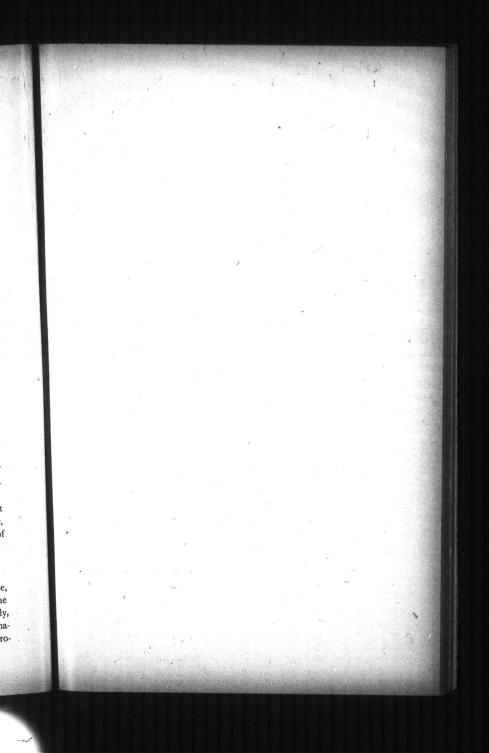

Mental discipline alone is not the highest measure of success of the teachers.

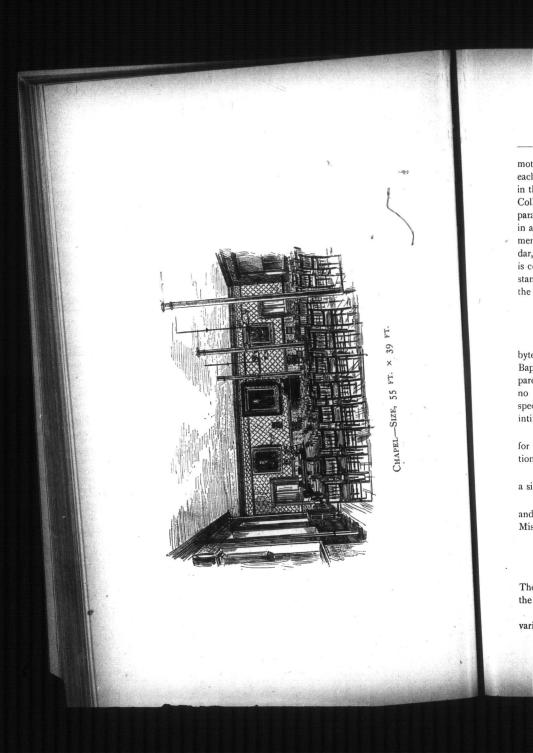

in practical life, nor is it the measure of the highest form of manhood. The power acquired through the study of various subjects under the guidance of teachers will be effective in after life just to the extent to which strength of character and the power of self-control have been developed. In view of these facts, character and proper deportment are regarded as the crowning excellence of true scholarship. The various regulations of the College are not intended simply to secure order, that the teachers may perform their work successfully, but they are designed to cultivate correct views of the relations of the governing to the governed, correct habits, and the power of self-

Students will not be allowed to remain in the College after it government. becomes evident that they fail to enter into the spirit of the College, as indicated in the foregoing. It is believed that the excellence of the School can be maintained in no other way.

## EXAMINATIONS AND STANDINGS.

Examinations are held regularly, and upon the results of these, combined with the record of daily work in the class-room, the student's standing is estimated. Examinations are held monthly, also at the close of each term. The results of the terminal examinations are sent home to parents and guardians. Students are pro-

moted only upon passing satisfactory examinations upon the work of each year. Matriculation, as well as teachers' examinations, are held in the College. The members of the Faculty will remain after the College closing in June to give special assistance to the class in preparation for the teachers' examinations. Students who have failed in any of the work of their year, will be required to take a supplemental examination on that work at the time specified in the Calendar, and such students shall not be promoted unless this regulation is complied with. A student will be ranked in the third class on a standing of 40%; in the second class on a standing of 60%; and in the first class on a standing of 75%.

#### RELIGIOUS PRIVILEGES.

There are in the town the following churches, viz. : Two Presbyterian, two Episcopalian, two Methodist, a Congregational, and two Baptist. All students are required to attend such church as their parents or guardians may prefer, and without their written consent no pupil is allowed to change his place of worship. Parents are specially requested to send with the pupil, in each case, a written intimation of their wishes in this respect.

As will be seen from the curriculum, special provision is made for Bible Study, in accordance with the general aim of the Institution as a Christian school of Learning.

Prayer meetings are held weekly, which, in the past, have proved a signal blessing.

Under the auspices of the Judson Missionary Society, afternoon and evening sessions are devoted monthly to the consideration of Missionary work at home and abroad.

#### THE HEALTH OF THE STUDENTS.

Special care is given to the physical needs of the students. They are required to take regular exercise in the gymnasium under the direction of a master.

The dining-table is provided with a wholesome, abundant, and varied bill of fare.

Every attention has been given to sanitation.

#### SOCIETIES.

THE JUDSON MISSIONARY SOCIETY meets monthly, and is composed of all the Christian students and teachers of the College—the Principal being *ex officio* President of the Society. At these meetings lectures are delivered, and essays and papers bearing on Mission work are read.

THE PHILOMATIC LITERARY SOCIETY is composed of the senior students, and holds weekly meetings, at which the exercises consist of orations, essays and debates.

THE EXCELSION SOCIETY, composed of the junior students, has similar exercises.

THE ALUMNI SOCIETV is composed of teachers and former students of the school. Its object is to unite them in the closest bonds of friendship, not only to one another, but also to their *Alma Mater*.

An Annual Meeting is held in connection with the Commencement exercises in June. At this meeting old friendships are renewed, new friendships formed, and matters of interest to the Alumni, and of importance to the College, are discussed and promoted. An interest is thus awakened which it is not difficult to foresee will be of no slight value in advancing the welfare of the

College.

84

## OFFICERS FOR 1895-96.

President.—REV. W. H. CLINE, B.A., B.D. First Vice-President.—MR. A. N. HOTSON, M.D. Second Vice President.—MISS ETTA M. STEWART, B.A Secretary.—REV. G. B. DAVIS, B.D. Treasurer.—MR. N. S. MCKECHNIE, B A. Musical Director.—MR. J. M. WHYTE.

#### LECTURES.

The aim of the College being to broaden and liberalize as well as to instruct, a course of lectures will be given during the year by

prominent men.

## READING ROOM.

The Reading Room is well supplied with the leading papers and magazines of this and other countries. Special care is taken by th Re

sel thi all for val lib and ma nev ma

ger bei

stu reg Mc the

regut the

dee

the dee

min Sch

the Faculty to direct the reading of the students, and thus make the Reading Room a most valuable educational adjunct.

#### LIBRARY.

The College Library consists of about 4,000 volumes, nearly all selected with special reference to the wants of the Institution. To this all students have daily access to consult books of reference, and all necessary facilities are afforded by the Librarian at stated times for the withdrawal of other books for private reading. Mrs. Fyfe's valuable gift to the College of 1,250 volumes, from the private library of the late Dr. Fyfe, is highly appreciated both by students and teachers. During the past few years large additions have been made to the Library by purchase and by gift, and it is expected that new volumes will be added from year to year, the hope being to make the Library one of the most important he'ps of the College.

In connection with the use of the Library, special courses in general reading are arranged by the Principal and Faculty for the benefit of the students.

#### SCHOLARSHIPS AND PRIZES.

#### Among the prizes are the following :

rs

)y

The Hiram Calvin Scholarship of \$50, awarded annually to the student for the Baptist ministry, who in the last two years of the regular course, proves most worthy, and continues his studies in McMaster University.

The S. J. Moore Scholarship of \$50, to be awarded annually to the student for the Baptist ministry, who in the third year of the regular course is deemed most worthy.

The D. W. Karn Scholarship of \$25, to be awarded annually to the student who in the second year of the regular course is deemed most worthy.

The Rev Dr. Thomas Prize of \$15, to be awarded annually to the student who in the first year of the regular course is deemed most worthy.

The Wm. Davies prize of \$10, to the student for the Baptist ministry, who in the preparatory class is deemed most worthy.

The John M. Whyte prize of \$15, to the best essayist of the School.

The Mrs. Joseph Codville prize of \$10, to the second best

DRAWING.—First Year, Junior, a prize of \$10, by Miss Jeanie essavist of the School.

DRAWING.—First Year, Senior, a prize of \$10, by Wm. E. Stuart. C. Hendrie.

## TEACHERS' COURSE.

Primary Examinations.—First Prize, \$10, presented by Professor M. S. Clark: Second Prize, \$5, presented by McEwen Brothers. Junior Leaving Examination.—First Prize, \$10, presented by Pro-

fessor M. S. Clark. Second Prize, \$5, presented by McEwen

The P. W. Dayfoot Prize of \$10, to the best speaker of the

School.

# MANUAL TRAINING DEPARTMENT.

Senior Year.-Gold Medal, presented by Dr. F. C. Bartlette. Silver

Medal, presented by R. Whitelaw, Esq. Middle Year.-First Prize, \$10, presented by W. J. Copp, Esq., Hamilton. Second Prize, valued at \$10, presented by Mrs. D.

Junior Year.-The A. M. Scott Prize, of the value of \$8. Second Prize, \$5, presented by Messrs. Dudley and Burns, Toronto.

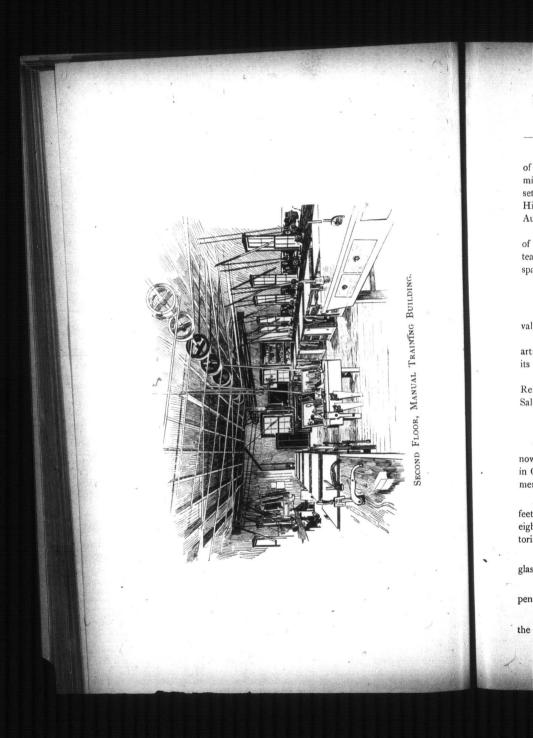

Other prizes may be awarded, the particulars of which will be announced at the College opening in September.

# FACILITIES FOR INSTRUCTION IN THE SCIENCES.

The Science Class-room is provided with raised seats, dark shutters, a sciopticon, and every convenience for purposes of illustration and demonstration in the various departments of Natural

The Chemical Laboratory is well lighted and ventilated. It Science. provides ample accommodation for 48 students, of whom 24 may work at once. All necessary apparatus for elementary, as well as advanced, analytic work has been provided, and all students who study this subject will have the advantage of doing so practically under the direction of their teacher.

In the Biological Laboratory facilities are provided for the study of Botany and Zoology. Among these may be mentioned ten microscopes magnifying up to six hundred diameters; a complete set of microscopic preparations for the study of animal and vegetable Histology, and some fine models of human anatomy made by Dr. Auzoux, of Paris.

The department of Natural Science has been fitted up at a cost of over \$3,000. The most approved appliances are provided for teaching purposes and for student practice; and no pains will be spared to make the work done both thorough and practical.

#### MUSEUM.

The College Museum is constantly growing in interest and value.

Through the kindness of former students and friends, many articles of historical and scientific interest have found their way to its shelves.

We gratefully acknowledge a collection of Florida woods from Rev. H. C. Speller ; and specimens of Georgia Pine from Rev. Geo. -Sale, received during the past year.

#### ASTRONOMICAL OBSERVATORY.

Through the liberality of a few friends of the College, what is now one of the most completely fitted Astronomical Observatories in Canada, has been provided. The following is a list of the instruments :

EQUATORIAL TELESCOPE.—This has a focal length of eleven feet, a clear aperture of 8 1-6 inches, a finder of 2 inch aperture, and eight eye pieces with powers ranging from 75 to 800, and is equatorially mounted with hour and declination circles and driving clock

TRANSIT INSTRUMENT, fully mounted and adjusted; object glass, 2<sup>1</sup>/<sub>4</sub> inches.

SIDEREAL CLOCK.—Gravity escapement, mercurially adjusted pendulum, with electrical attachments.

MICROMETER, with position circle, and graduated to measure the ten thousandth part of an inch.

#### METEROLOGICAL OBSERVATIONS.

Observations are made in the following elements: Pressure and relative Humidity of the Atmosphere; Mean, Maximum and Minimum Temperature; Clouds; Depth of Rain and Snow; the Rate, Force and Direction of the Wind. First class apparatus of the Dominion Government, including Robinson's Anemometer, with Electric Registering Apparatus attached, is used; and students who desire it are thus afforded an opportunity of becoming practically acquainted with the details of Meterological Observation.

#### RECREATION.

The large grounds belonging to the College afford excellent facilities for healthful out-door sports. There is ample space for double sets of players at the same time. Football, Baseball, Lawn Tennis, Cricket and Lacrosse Clubs are maintained. It will be the aim of the teachers to encourage in students a love of outside exercise. No pains will be spared to secure to the students the health-giving effects of fresh air and out-door recreation.

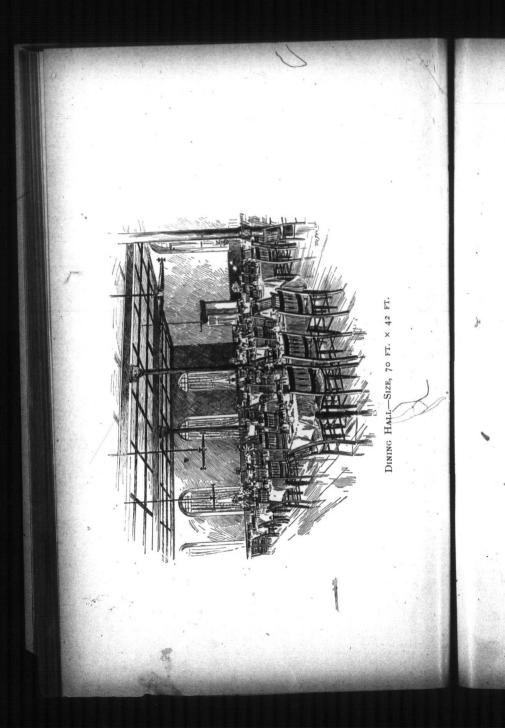

During inclement weather, and during the winter season, the Gymnasium building may be advantageously used. In this connection it is found that the practical work in the shops and laboratories is proving exceedingly attractive to the students. The aim of the School in this regard is to afford the means of acquiring, amid home-like surroundings, a thorough, substantial training in the real things of life.

#### STUDENTS' ROOMS.

In no case will more than two students be put in one room, and then each has a bed to himself. To secure rooms, early application must be made. Rooms secured will not, however, be kept vacant for the applicant after the first day of the term unless the cause of delay be previously communicated to the Principal. The applicant should state whether he wishes to room alone.

Each room is furnished with an iron bedstead, a woven-wire spring bed, hair mattrass, pillow, bureau, washstand, toilet set, table and chairs—the students provide towels and bed-clothing, including at least three sheets and two pillow-cases. In addition to this each

student is expected to provide himself with four table napkins, a napkin ring, and a spoon for use in case of sickness. All linen and articles of clothing must be marked with the owner's name.

#### Воок Коом.

All books and stationery required may be obtained at the College book room.

#### EXPENSES.

The total cost for the school year is \$145.

	Fall Term.	Winter Term.
Tuition	\$12 50	\$17 50
Board, room rent, light, heat and laundry,		
when two students occupy one room	47 25	66 75
Library and Reading Room Fee.	40	60
а с	\$60 15	\$84 85

It is made possible to offer these very reasonable terms because of an annual endowment of \$8,000.

#### SPECIAL EXPENSES.

Manual Training, for use of material, \$9 per year. Pianoforte Instruction, 15 lessons, \$10. Use of piano, one period per day, 10 cents per week. Meals brought to student's room, 10 cents.

Diploma Fee, \$2.

By paying 50 cents extra a week, a student may have a room to himself. For all washing over eight pieces per week, 50 cents per dozen will be charged. No charge will be made for washing table napkins, towels or bed linen.

#### TERMS OF PAYMENT.

The payment for the Fall Term is required in advance. An advance payment of one-half is required at the beginning of the Winter Term, and the balance on March 12th.

No deduction in expenses is made for absence during the first two or last two weeks of a term. No deduction is made in board

bills for an absence of less than two weeks at a time, nor in tuition for an absence of less than five weeks. If a student is required to withdraw from the school, the refunding of fees is at the option of the Principal. Cheques not payable in Woodstock must have exchange added.

■ A reduction of 10 % on all charges is made to ministers' sons of any denomination.

A reduction of 10 % is allowed when two or more are from the same family.

A discount of three per cent. on charges for winter term will be allowed when payment is made in advance for the whole year.

Each student is responsible for his own room. Any damage to property must be paid for by the student occupying the room in which the damage was committed.

There is a limited opportunity for students of some experience to supply, under the direction of the Faculty, pulpits accessible from the College; and remunerative employ on mission fields is, as far as possible, secured by the Ministerial Committee to competent students during the summer vacation.

## A WORD TO PARENTS.

It is a great gain to a student to be present on the opening day of each session.

Students have no occasion for more sponding money than when at home

It need scarcely be said that the use of tobacco, wine or spirituous liquors is not allowed.

Parents are always welcome at the College.

## COURSES OF STUDY.

#### +

The College furnishes three Courses of study, on the successful completion of any one of which the Senate will issue to the student the College diploma : *Matriculation, Teachers', English Scientific.* 

The requirements for admission are the same for all the courses, and the same as for entrance to a Provincial High School or Collegiate Institute.

The Primary and Junior leaving examinations will be held in the College, and after the June closing masters will remain to give special help to candidates for these examinations.

Matriculation from Woodstock College is accepted by any Canadian University.

Bible study forms a part of every student's work.

Every student is expected to take an active part in one of the literary societies.

Special care is given to physical training. Each student receives regular instruction in the gymnasium under the direction of a master.

Instruction in Instrumental Music is given, for which an extra charge is made.

The schedule of work is as follows :

#### FIRST YEAR.

ENGLISH.—The critical study of the extracts in the *High School Reader* required for the Primary examination for 1897. A short composition with attention to penmanship will be required of each student every week. Such grammatical exercises and analysis, as may be found necessary to aid in the appreciation and expression of good English, will also be required, together with the memorizing of selected portions of authors studied.

MATHEMATICS.—Arithmetic : High School Arithmetic ; Review of Vulgar and Decimal Fractions, Roots of Numbers, Commercial Arithmetic, General Problems.

Algebra: High School Algebra, through simple equations of one unknown quantity, Chapters I-V.

CLASSICS.—Latin : Robertson and Carruther's Primary Latin Book, Lessons 1-45.

N.B.—The Roman method of pronouncing Latin is required:— $\bar{a}$  as in far,  $\bar{a}$  the same sound but shorter;  $\bar{e}$  like a in fate,  $\bar{e}$  as in set;  $\bar{i}$  as in machine;  $\bar{i}$  as in  $\bar{fit}$ ;  $\bar{o}$  as in note;  $\bar{o}$  as in obey;  $\bar{u}$  as in rude;  $\bar{u}$  as in full; j (i.e., i consonant) like y in year; c and g always hard, as in can, go; t always as t, never as sh; ae as ai in aisle; au as ou in our; ei as in feint;  $eu = \bar{e}h - oo$ ; ee as oi in oil; ui almost as we.

NATURAL SCIENCE.—Anatomy, Physiology and Hygiene: A general knowledge of the bones, muscles, nerves, blood-vessels, digestive organs, etc., is required, together with a more particular knowledge of the sense organs.

For this Course, excellent anatomical models and microscopic sections have been provided.

DRAWING.-Freehand, Practical Geometry and Linear Perspective.

GENERAL COURSE. — The Bible—The Life of Christ. Montgomery's English History, Canadian History.

MANUAL TRAINING.—Drawing, Freehand, Practical Geometry and Perspective, drawing to scale all shop exercises—Carpentry, Woodturning, construction.

#### SECOND YEAR.

- ENGLISH.—*High School Grammar*; Grammatical analysis; social forms; invitations, notes and general correspondence. The critical study of the literary extracts required of candidates for the Primary. examination for 1896. A short composition will be required weekly, as well as the memorizing of selected portions of the authors prescribed.
- MATHEMATICS.—Arithmetic: High School Arithmetic; General Problems; Commercial Arithmetic. Algebra: The High School Algebra, Chapters VI-IX.
- CLASSICS.—Latin : Primary Latin Book completed, and Cæsar. Greek : White's The Beginners Greek Book, Lessons 1-40.
- MODERN LANGUAGES.—French: High School Grammar, Lessons 1-25, extracts from the High School Reader. German: High School Grammar, Lessons 1-20.
- NATURAL SCIENCE.—Physics: The properties of matter, the nature of energy in its various forms, and the elementary laws of sound and light are discussed and illustrated.

. Botany: An elementary course is provided in the Fall and Spring preparatory to the fuller course of the second year.

GENERAL COURSE.—The Bible—The Life of Christ. Commercial work, the High School Book-keeping. Physical Geography.

DRAWING .- Object Drawing and Industrial Design.

MANUAL TRAINING.—Drawing, Object Drawing, Mechanical and Industrial Design—Joining and turning in hard and built-up woods; Pattern-making, wood-carving.

#### THIRD YEAR.

- ENGLISH.—The High School Grammar. Grammatical analysis; Rhetorical structure of the sentence and paragraph.
- MATHEMATICS.—Arithmetic: High School Arithmetic: Commercial Arithmetic continued. Mensuration. Theory and Problems. Algebra. High School Algebra to Chapter XV; Geometry, Book I, with Problems and Appendix, Mackay.
- CLASSICS.—Latin: Translations from English into Latin of sentences, and of easy narrative passages based upon the prescribed texts.

The following are the prescribed texts :

1895-96-Cæsar, Bellum Gallicum, II., III., IV.

1896-97-Cæsar, Bellum Gallicum, II., III., IV.

GREEK: Translation from English into Greek of sentences and of easy passages based upon the prescribed texts.

The following are the prescribed texts :

1895-6-Selections from Xenophon, Anabasis I., in White's Beginner's Greek Book (pp. 304-428), with the exercises thereon.

1896-97—The same as for 1895-96.

MODERN LANGUAGES.—French. High School Grammar, Lessons 26-40. Reading portions from the following texts :

1895-96-Labiche, La Grammaire.

1896-97-Feuillet, La Fée.

GERMAN.—High School Grammar, Lessons 21-35. Reading portions from the following texts:

1895-96—Leander, Traumereien. 1896-97—Hauff, Das Kalte Herz.

NATURAL SCIENCE.—Botany : Representatives of the various Classes of the Vegetable Kingdom, from Bacteria to Phanerogams, are studied with the aid of the Compound Microscope. This includes a knowledge of Cells and Tissues and of Plant Physiology, with such practical applications as Grafting, Budding, and formation of new varieties of Flower and Fruit.

Physics : An Experimental Course adapted to the requirements of the Primary and Matriculation examinations.

GENERAL COURSE. — The Bible—Inductive study of the Apostolic Church History and Geography.—Great Britain and Canada from 1763 to 1871, with the outlines of the preceding periods of British History. The Geography relating to the History prescribed.

MANUAL TRAINING.—Mechanical and Architectural working drawings, Blacksmithing, Forging, Welding, Tempering, Brazing.

Machine Work : Chipping, Scraping, Filing, Planing, Milling and Lathe Work.

#### FOURTH YEAR.

ENGLISH: Composition. Special attention will be paid to writing, spelling, punctuation. Attention will also be given to the structure of the whole essay, the effective ordering of the thought, and the accurate employment of a good English vocabulary.

LITERATURE : The following selections will be critically studied :

#### 1896.

COLERIDGE :-- The Ancient Mariner.

LONGFELLOW:-Evangeline, A Gleam of Sunšhine, The Day is Done, The Old Clock on the Stairs, The Fire of Driftwood, Resignation, The Ladder of St. Augustine, A Psalm of Life, The Builders, The Warden of the Cinque Ports.

The following selections from Palgrave's Golden Treasury :---

WORDSWORTH: -- The Education of Nature, A Lesson, To the Skylark, To the Daisy, and the following Sonnets: To a Distant Friend, "O Friend ! I know not which way I must look," "Milton ! Thou shouldst be living at this hour," To Sleep, Within King's College Chapel.

CAMPBELL:--"Ye Mariners of England," Battle of the Baltic, Hohenlinden, The River of Life.

COLERIDGE :- Youth and Age.

#### 1897.

GOLDSMITH :- The Traveller, The Deserted Village.

BYRON :- Fourth Canto of Childe Harold.

The following selections from Palgrave's Golden Treasury :---

KEATS :--Ode to Autumn, Ode to a Nightingale, and the following Sonnets : On Chapman's Homer, The Terror of Death, The Human Seasons.

SHELLEY :- Ozymandias, To a Skylark, The Recollection.

SCOTT :- The Outlaw, Jock o' Hazeldean, The Rover, Rosabelle.

1898.

TENNYSON :-- Morte d'Arthur, Elaine, Recollections of the Arabian Nights, To Virgil, Early Spring, Ulysses, "You Ask Me Why," "Of Old Sat Freedom," "Love Thou Thy Land," Freedom, (Enone, The Lotos Eators, Crossing the Bar, Lady of Shalott, St. Agnes' Eve, Sir Galahad, the six interlude songs in the Princess, and "Tears, Idle Tears."

The following selections from Palgrave's Golden Treasury :---

GRAY :-Ode on Vicissitude, Ode on the Spring, Elegy written in a Country Churchyard, Ode on Eton College.

COWPER :--Sonnet to Mary Unwin, To the Same, The Castaway, The Poplar Field, The Shrubbery.

MATHEMATICS.—Algebra : High School Algebra completed. Geometry : Books II and III, with Problems, Mackay.

CLASSICS.—Latin: Translation from English into Latin of sentences and of easy narrative passages based upon the prescribed prose texts: The following are the prescribed texts:

1896. VIRGIL, Æneid III and CASAR, Bellum Gallicum, V, VI.

1897. VIRGIL, Æneid III and CÆSAR, Bellum Gallicum, II, III, IV.

1893. VIRGIL, Æneid I and CÆSAR, Bellum Gallicum, II, III, IV.

Greek : Translation from English into Greek of sentences and of easy narrative passages based upon the prescribed prose texts.

The following are the prescribed texts :

Selections from XENOPHON, Anabasis I, in White's Beginner's Greek Book (pp. 304-428) with the exercises thereon.

HOMER, Iliad I.

Selections from XENOPHON, Anabasis I, in White's Beginners's Greek Book (pp. 304-428) with the exercises thereon.

HOMER, Iliad I.

1897.

 Selections from XENOPHON, Anabasis I, in White's Beginner's Greek Book (pp. 304-428) with the exercises thereon.
 HOMER, Iliad VI.

MODERN LANGUAGES.-French : Grammar and Composition.

1895-96 \ Enault, Le Chien du Capitaine.

1897-98 J Feuillet, La Fée.

1896-97 De Maistre, Voyage autour de ma chambre. Labiche, La Grammaire.

GERMAN: Grammar and Composition.

1895-96 Hauff, Das Kalte Herz; Kalif Storch.

1896-97-Leander, Trâumereien, Selected by Van Daell.

- NATUBAL SCIENCE.—Chemistry: Three Lessons a week are arranged for the study and illustration of the elementary principles of Chemistry and of the more common elements and compounds. The Course will be practical throughout and will include elementary qualitative analysis.
- GENERAL COURSE.—The Bible—Inductive study of the Apostolic Church. History and Geography. Outlines of Greek History to the battle of Cheeronea, and of Roman History to the death of Augustus. The Geography relating to the History prescribed.

# Courses of Instruction for the College Diploma, arranged from the Foregoing.

Note.-The work of each year will be seen on reference to the details under Courses of Study, pp. 95-99.

#### MATRICULATION COURSE IN ARTS.

English.

Latin.

Mathematics.

History and Geography.

French or German, and either (1) Greek, or (2) the second Modern Language with Physical Science (Physics and Chemistry).

#### TEACHERS' COURSE.

FIRST FORM Examination—*Subjects*: Drawing, Writing, Bookkeeping and Commercial Transactions, Geography, Botany, Reading.

SECOND FORM Examinations—(1) Subjects Part I.—English Grammar and Rhetoric, Arithmetic and Mensuration, the History of Great Britain and Canada, Physics ; Part II.—English Composition, English Literature, Algebra, Geometry. (2) Optional Subjects : Latin, Greek, French, German.

THIRD FORM Examinations—Subjects: English Composition, English Poetical Literature, Ancient History, Algebra, Geometry, Latin, French or German, with (a) Greek, or (b) the second Modern Language and Chemistry, or (c) Physics, Botany, and Chemistry.

Candidates for a Primary certificate shall take the First and Second Form examinations.

Candidates for a Junior Leaving certificate shall take the First Form examination and Part I. of the Second Form examination, and one of the Third Form examinations.

ENGLISH SCIENTIFIC COURSE.

English. Mathematics. General Course. Natural Science. Manual Training.

In connection with this course such work as is necessary for matriculation into schools of science will be given.

#### Preparatory Course.

This is a course of one year, designed for those who are not prepared to begin the regular collegiate work.

Students must be far enough advanced to cover without difficulty in one year, the work for entrance to high schools; and are expected to present certificates of standing from the principal of the school last attended.

The following is in general the standing required for admission to this preparatory course :

*Reading.*—To be able to read intelligently the less difficult lessons in the Fourth Reader ; and to spell the ordinary words in common use.

Grammar and Composition.—To know the elements of grammar, including the classes and uses of words, analysis of simple sentences, use of capitals, easy letter writing, and short essays on familiar subjects.

Geography.—The definitions, map of the world, and of Canada or of the United States.

Arithmetic.-Familiarity with the simple and compound rules.

The Preparatory Course for the year is, in outline, as follows :

READING AND LITERATURE.—The elementary principles of reading, the careful study of selections from the High School Reader, and the memorizing of extracts from the best authors.

Spelling. — The spelling and principles of pronounciation of words in fordinary use, and verbal distinctions.

Composition.—Letter writing, business forms, essays, reproduction of atories and conversations, direct and oblique narrations, punctuation and correction of errors. The first 120 exercises in One Hundred Lessons in Composition.

GRAMMAR. --- The Public School Grammar.

- GEOGRAPHY.—The general geography of the continents and their political divisions; and the particular study of Canada, the United States and the British Empire, and map drawing. *Public School Geography.*
- HISTORY.—The outlines of English History; First History of England, by Louise Creighton.

ARITHMETIC.—Practical business Arithmetic, as far as percentage. WRITING AND DRAWING.

BIBLE.

#### Manual Training.

Woodstock College has been the first school in Canada to introduce this feature into its educational course. In European schools as well as in the United States, Manual Training has been for some time adopted, and is every year becoming more general. Its aim is to cultivate the practical side, at the same time that the more strictly mental and theoretical are being cultivated in the ordinary class-room It is designed to give a student a practical acquaintance with work. the principles underlying mechanical operations in general; not only to enable him readily to appreciate all mechanical pursuits, but to give him greater sympathy with all those engaged/in these pursuits, as well as greater influence over them, to qualify him, in short, to become more manly among men and more successful in any business he may pursue. At the same time Manual Training has been found, wherever adopted, to have a beneficial effect upon the other departments of work.

It is a great benefit to a boy to learn *how* many things are done, but while he is learning this, other objects of even greater importance are attained. He is trained to habits of accuracy in every

exercise he draws and executes; his taste and appreciation for beauty are cultivated by turning and carving; thoughtfulness is developed throughout by the constant oversight and care of his tools and machinery; and independence and self-reliance are the natural outcome of a boy's exercising every day his power over material things and natural laws.

The result of the work as carried on since the opening of this department in Woodstock has realized the best that was expected of it, and the development of practical manliness, thoughtfulness and earnest application, has been fostered by nothing more than by the discipline afforded by Manual Training. The great expense at which the department was equipped has been more than justified by the benefit that it has proved itself capable of conferring upon those who take advantage of it.

The present equipment which has cost about ro,000, comprises a two and a half storey brick building 30 x 80 ft., a ten horse power gas engine, a combination planer, circular and scroll saws, 25 turning lathes and benches, 48 sets of tools for carpentry and turning, 24 sets of wood-carving tools with benches, two engine lathes, a milling machine, a 20" drill with sensitive attachment, an iron shaper and planer, 8 anvils, and forges and sets of blacksmithing tools. In addition there is a very complete set of special tools for occasional use.

18.30

The course of instruction extends over three years, and comprises drawing, cabinet work, turning, pattern-making and woodcarving; blacksmithing, and machine work in iron and brass. This course is indicated in detail under *Courses of Study*.

The work in Manual Training may be completed before the beginning of the last year of the College course, and all students are thus able to take it without interfering with any of the matriculation examinations.

Woodstock College provides for matriculation into Schools of Science and Engineering, and through its very superior equipment for practical work in Physical Science, together with Manual Training, it affords to students proposing to enter upon any of these courses advantages unequalled by any other in Canada.

The only extra charge in this department is a fee of \$9 a year, which is merely intended to cover the actual cost of material used.

\* Manual training is optional, and is taken by students in addition to their other work. In the *English Scientific Course*, however, it forms a part of the regular work of the course.

All articles made during the regular course of instruction are the property of the school, but students who, because of aptness or industry, complete the required work before the expiration of the specified time, may make articles of their own choice, under the direction of the instructor, and such articles will become their own property upon the payment of the price of the material used in making them.

# RELATION .TO MCMASTER UNIVERSITY.

Moulton College is the Academic Department of McMaster University for girls and young women. Its Faculty is selected by the Senate and appointed by the Board of Governors, and the Senate prescribes its courses of study and its examinations for diplomas The Chancellor of the University under the Board and Senate has responsible supervision of its administration.

# Courses of Study.

The College furnishes four courses of study for young women, the successful completion of any one of which will entitle the student to the College diploma—the Matriculation, Classical, Modern Language, and English Scientific Courses. Mature students not studying Music may complète the Matriculation Course in three years ; the others will require four years. Provision is also made for the additional work required by candidates for the Primary and Junior Leaving Examinations. Lectures on human Physiology and Hygiene are given to all the students of the first, second, and third years.

The work of the fourth year in English, Latin, Greek, French, German, Mathematics, Science, Psychology, and Ethics, is taken in McMaster University.

There are two courses in Music—Vocal and Instrumental--covering four and five years respectively. On completion of either of these, with the required class work, the Musical Diploma will be given.

The schedule for College work is as follows :

### FIRST YEAR.

ENGLISH.—Grammar and Rhetoric. Literature.—Longfellow's Evangeline; Lamb's Tales from Shakespeare or Irving's Sketch Book; or, the texts prescribed for the Primary Examination. Exercises in composition weekly, and the memorizing of selections from different authors. Supplementary reading required.

MATHEMATICS.—Arithmetic, Easy Mensuration, Percentage, Commercial Work. Algebra—High School Algebra, through Simple Equations of one unknown quantity, Ch. I-VIII inclusive.

CLASSICS.-Latin-Harper's Inductive Method.

MODERN LANGUAGES.-French Conversation Grammar. Reading.

HISTORY.—Buckley and Robertson's England, to the Revolution of 1688, and Geography.

COMMERCIAL WORK. FREEHAND DRAWING. Optional.

PHYSIOLOGY.

BIBLE.—The Life of Jesus, from the four Gospels.

CHORUS PRACTICE.

ELOCUTION.

2 2 3

#### SECOND YEAR.

ENGLISH.—Grammar and Rhetoric. The History of Literature. Critical study of Tennyson's Princess, and one or two of the plays of Shakespeare ; or, the texts prescribed for the Primary Examination. Essays weekly ; supplementary reading required.

MATHEMATICS.—Arithmetic continued and general problems. Algebra, IX to XV. Geometry, I, with problems —Mackay.

CLASSICS.—Latin—Cæsar ; Bellum Gallicum, V, VI ; Bradley's Arnold, 1-24. Greek—Harper's Inductive Method.

MODERN LANGUAGE.—French and German Conversation. Grammar. Modern Authors and Composition.

HISTORY. —Great Britain and Canada, from 1763 to 1871, with the outlines of the preceding periods of British History.

SCIENCE.—Physics—Dynamics, Heat and Electricity. Botany—with Plant Analysis. Physiology.

S

P

Μ

BIBLE.—The Apostolic Period, from the Acts of the Apostles and Epistles. CHORUS SINGING.

ELOCUTION.

#### THIRD YEAR.

ENGLISH.—The texts prescribed for the Junior Leaving Examination.

MATHEMATICS. - Arithmetic, Review and Problems. Algebra completed. Geometry, II, III, with Problems.

CLASSICS.—Latin—Cæsar; Bellum Gallicum; Vergil, Æneid, III; Bradley's Arnold, 49-65. Greek — Xenophon, Anabasis, I; Homer, Iliad, I; Abbott's Arnold, 1-15.

MODERN LANGUAGES.—French—Enault, Le Chien du Capitaine; Feuillet, La Fée. German—Hauff, Das Kalte Herz; Kahlif Storch.

HISTORY.—British—Green's English People. Greek—To the Battle of Chæronea, and Geography.

SCIENCE. — Chemistry—Elementary Inorganic Chemistry. Physics. With Laboratory Practice. Physiology.

BIBLE.—The Period of the Hebrew Monarchy.

CHORUS SINGING.

ELOCUTION.

#### FOURTH YEAR.

ENGLISH.—Prose and Poetical Selections from English Authors; Genung's Rhetoric; Composition exercises every week; Lounsbury's English Language, part I: History of English Literature, the Modern Period.

MATHEMATICS .- Plane Trigonometry, to the Solution of Triangles, inclusive.

- CLASSICS. Latin.—Cicero, Pro Archia, Pro Lege Manilia, Pro Marcello Horace, Odes, I, II; Latin Grammar; Latin Prose, Bradley; Sight Reading with aid of vocabularies; Latin Literature. Greek.—Homer, Odyssey, IX, XI; Plato, Apology; Greek Grammar; Abbott's Arnold's Greek Prose Composition; Sight Reading with aid of vocabularies; Greek Literature.
- MODERN LANGUAGES.—French—Erckmann-Chatrian, Waterloo (D. Heath & Co., Ed.); Labiche, Le Voyage de Monsieur Perrichon; Grammar; Dictation, Composition, Translation of unspecified passages. German—Moser, Der Bibliothekar; Auerbach, Anf Wache; Grammar, Dictation, Composition, Translation of unspecified passages.
- SCIENCE. Biology; Introductory Lectures; Zoology of the Vertebrates and Invertebrates; Human Physiology.

PSYCHOLOGY.—Physiological Psychology. The Intellect, the Emotions, the Will.

MORAL SCIENCE. — Conscience ; Moral Freedom, Relation of Feeling and of Intellect to Morality ; Virtue, Vice, Duties, Conduct, Rights and Goods.

# Preparatory Course.

#### ÷

For the benefit of applicants for admission to the College, who are not prepared to pass the required examination to enter one of the regular courses, there has been arranged the following course which furnishes the best facilities for preparation to enter upon the regular work.

READING—A general knowledge of the principles of elocution ; reading with proper expression, emphasis, inflection and force.

ORTHOGRAPHY AND ORTHOEPY—Pronunciation, and spelling from dictation of passages from any English author, and the spelling of non-technical words.

ENGLISH GRAMMAR-Etymology and Syntax exercises.

COMPOSITION—The framing of sentences and paragraphs; familiar and business letters; paraphrasing; synonyms, correction of errors; themes.

LITERATURE—The careful reading of easy extracts of prose and poetry from the best authors.

HISTORY-The leading events of Canadian and English history.

GEOGRAPHY—Political, physical and mathematical geography. Map geography generally.

ARITHMETIC—The simple and the compound rules; Fractions; Decimals; Percentage; a thorough drill in practical problems; Mental Arithmetic.

DRAWING, ETC.—Penmanship, Elementary work in Freehand Drawing.

Sciler, Vocal Exercises; Miksch, Solfeggi; Concone, Vocal Studies; Spiritual Songs and Ballad Singing; Harmony; with the Second Year of Instrumental Course, or its equivalent.

### THIRD YEAR.

Sciler, Vocal Exercises; Miksch, Solfeggi; Concone, Vocal Studies, Spiritual Songs and Ballad and Oratorio Aria Singing; Harmony; with Third Year Instrumental Course, or its equivalent.

## FOURTH YEAR.

ti

e

fi

M

Damorean, Vocal Studies ; Spiritual Songs and Ballad, Oratorio and Italian Aria Singing ; completion of Harmony.

# Remarks on the Foregoing Courses.

I. ADMISSION TO REGULAR CLASSES—The advantages to be gained from systematic study are so great that all who are prepared are expected to enter one of these courses and take its studies in order. The requirements for admission are the same for all the courses, and the same as for entrance to a Provincial High School or Collegiate Institute. A High School entrance certificate will be accepted in place of the entrance examination at the College. Admission to advanced classes is gained upon passing examinations upon all the previous work.

2. PREPARATORY CLASS—This is in charge of an experienced and successful teacher, and furnishes the best facilities for preparation to enter upon College work. No examination is necessary for admission, nor is any time fixed for doing the work. Students are promoted on its completion to the Junior Division of the first year class after Christmas, and to the Senior Division at the close of the College year.

3. SPECIAL STUDENTS—In exceptional cases students of mature years who have completed the first year's work, or its full equivalent, are allowed to arrange special courses of study, with the advice and approval of the Principal. This does not allow poor scholars to skip the hard subjects and take only what they happen to fancy, but is a provision for certain students who, for good reasons, cannot take a full course, and may wisely make selections. Such students have to accommodate themselves to the order of recitations arranged for the regular classes.

4. MUSICAL COURSES—Students can pursue either of these in connection with one of the College courses by adding the necessary time. Or, having met the requirements stated in No. 3, they may elect Music as a special study, taking always one full study besides five recitations a week—and the Bible work. Before receiving the Musical Diploma they must have completed at least the full equivalent of two years of College class work. This requirement does not

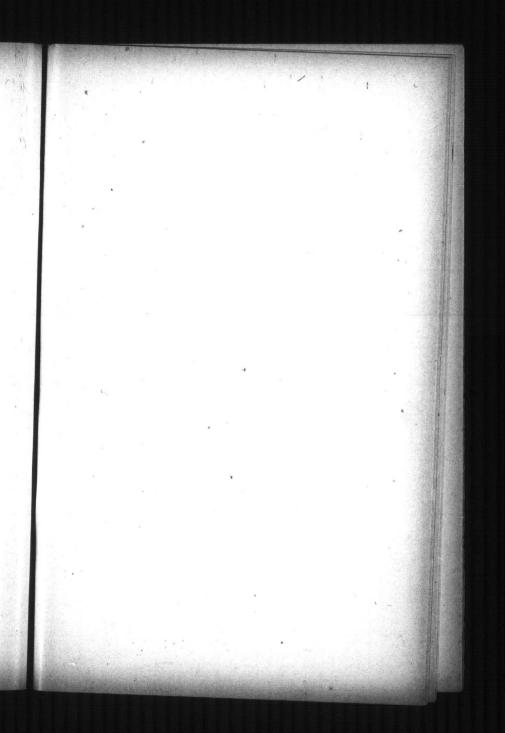

interfere with their progress in Music, for no student can give her whole time profitably to a single study; and it secures a fair general education to our musical graduates.

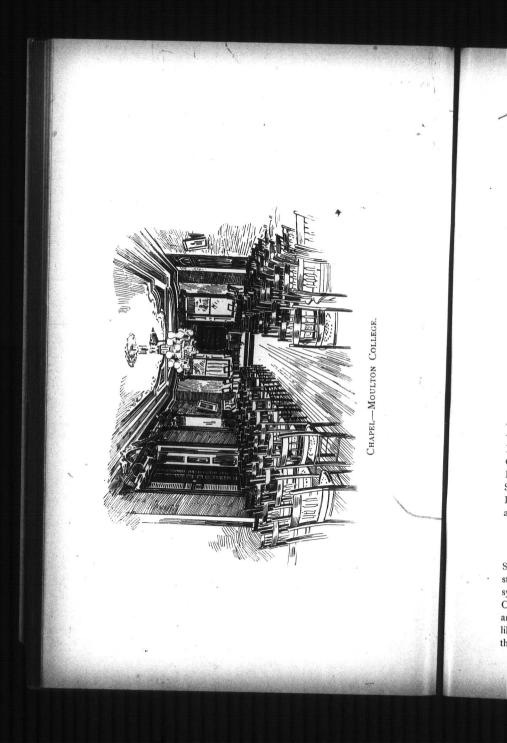

The College diploma for the course in instrumental music is accepted by the Toronto Conservatory of Music as entitling the holder to enter upon the third, or final, year of the Conservatory course, without examination.

5. ELOCUTION—The art of good reading is considered a very important part of a girl's education. A thoroughly competent teacher has charge of this department of work. All students in the regular courses are required to have at least two years' instruction in this study. Other students will be accommodated in class as far as convenient. A limited number of pupils can arrange for private lessons.

6. In the English Department special attention is paid to essay-writing; such grammatical exercises, with analysis, as may be found necessary to aid in the appreciation and expression of good English, will also be required, together with the memorizing of selected passages from the authors studied.

7. The laboratories in which instruction in Natural Science is conducted are supplied with all the latest appliances necessary to secure the best results. Full provision is also made in these laboratories for the practical application, by each student, of the instruction received from her teacher.

# GENERAL INFORMATION.

### ÷

# LOCATION AND BUILDINGS.

The elegant and commodious McMaster residence, 34 Bloor St. East, Toronto, was placed, in 1888, by Mrs. William McMaster, founder of the College, at the disposal of the Senate and Board of Governors of McMaster University, for the purposes of the institution. The building is situated on one of the best residence streets of the city, and is in every way admirably adapted to the work to which it has been devoted.

This building, although large and commodious, was found inadequate for the accommodation of all who sought admission to the College. The Board of Governors, therefore, erected a large building in the rear of the former one, 43 feet by 92 feet, three stories high. It contains a large and well arranged dining-room, three additional class rooms, dormitories for fifty students, with every modern convenience necessary for their comfort and for the work of the College. In the rear of this new structure, fronting Bismarck Avenue, is located the building containing the Science Class Room and Laboratory, and the rooms for instruction in Drawing and Painting. The main College building, fronting Bloor Street, contains the Public Reception Room, Principal's Rooms, the Library and Reading Room, the Chapel, Class Rooms, Dormitories, and twelve Music Rooms.

# CHARACTER AND AIM.

The College is designed to be, in the highest sense, a Christian School of Learning. Its constant aim will be to surround the students with the best possible Christian influences; to guide them sympathetically in the pursuit of knowledge, and to teach them the Christian way of seeing things; to keep before them Christian ideals, and by word and life commend the knowledge of God and Christlike character as the highest possible attainment. For this purpose thorough class-work is an essential element. The scholastic train-

ing sought by the students is therefore given, and given faithfully. The principles of government and courses of study adopted by the College are in every way well fitted to secure the two-fold object of building up a Christian character and insuring thorough scholarship.

pra

hoc

und

the

con proj

Most of the subjects in the fourth year are taken in the classes of McMaster University without extra charge. It will be observed that one of the courses of the College leads directly to University matriculation. It is to be hoped that many of the students of the College will be content with nothing short of a full University course, with the accompanying degree. One of the conditions under which the College was founded was that the Arts and Theological classes of McMaster University should be opened in perpetuity to such of its students as may be qualified to pursue University and Theological courses. It is also hoped that many of our young women, especially those who have consecrated their lives to Christian work, either at home or abroad, will avail themselves of the advantages open to them of attending the lectures in Arts and Theology in the University, either as matriculates or occasional students.

#### ADMISSION.

Application for admission should be made to the Principal before coming to the school. Such application should be accompanied by a certificate of character, and a statement of the age and scholarship of the applicant, and of the Course of study she desires to pursue, and blank forms will be furnished for this purpose. None, however, need apply for admission but such as are prepared to comply heartily with all the requirements of the College, and devote their entire time and energy to the work prescribed. The superior advantages for study and for the development of a true womanho od which the College affords, are intended for such only as desire to make the best possible use of their school life, and who can, therefore, enter fully into the spirit of earnest work which pervades every department of the Institution.

Names of pupils will be registered in the order of their applica-

tion, and choice of rooms given, for the most part, in the same order. In case the applicants cannot all be accommodated, preference will be given to those purposing to enter the regular College classes.

# PRINCIPLES OF GOVERNMENT.

I. In seeking to develop a symmetrical character and the power of self-government in each student, the Golden Rule, "Do unto others as ye would that they should do unto you," is made the foundation of every requirement.

2. The relation of teacher and student involves a pledge on the part of each to regard the interests of the other as sacred, which pledge is assumed to be given when the student enters the College-

3. From the very nature of the relation between teacher and student, the teacher is always to be regarded as the proper judge of what is to be viewed, under any given circumstance, as right or wrong, but before making any decision, all the circumstances are fully considered.

4. The highest good of the individual student, so far as it is compatible with the highest good of the whole College, is regarded as a fundamental principle in all discipline.

5. No requirements are made of any student that are not, under similar conditions, made of every student in the College.

6. The spirit in which everything is done is considered more important in its effect upon the student and the College, than the form.

7. Character and correct deportment receive the first attention of the teachers.

Mental discipline alone is not the highest measure of success in practical life, nor is it the measure of the highest form of womanhood. The power acquired through the study of various subjects under the guidance of teachers will be effective in after life just to the extent to which strength of character and the power of selfcontrol have been developed. In view of these truths, character and proper deportment are regarded as the crowning excellence of true.

scholarship. The various regulations of the College are intended to secure to the students the conditions for successful work, and to foster right standards of action and a high sense of personal responsibility and honor.

In general, quiet and orderly conduct, a polite and courteous demeanor, a conscientious discharge of all duties, and prompt and respectful compliance with the personal requirements of the teachers as well as with the prescribed regulations of the school are expected from all students.

Students will not be allowed to remain in the College after it becomes evident that they fail to enter into the spirit of the College. It is believed that the excellence of the School can be maintained in no other way.

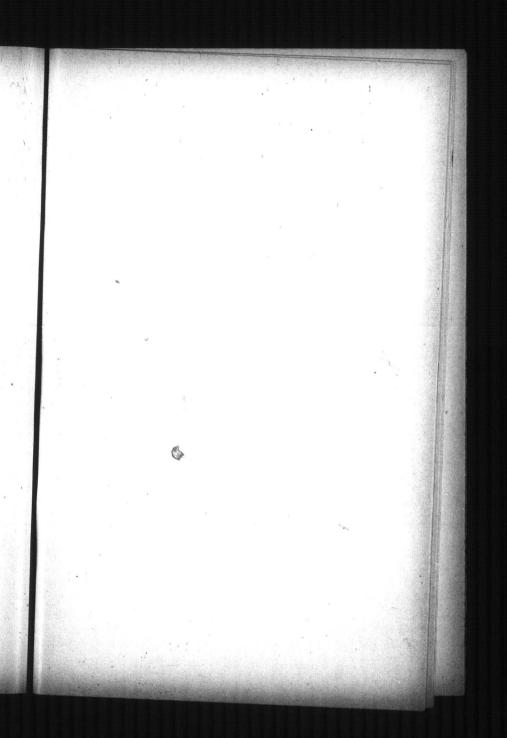

# RELIGIOUS PRIVILEGES.

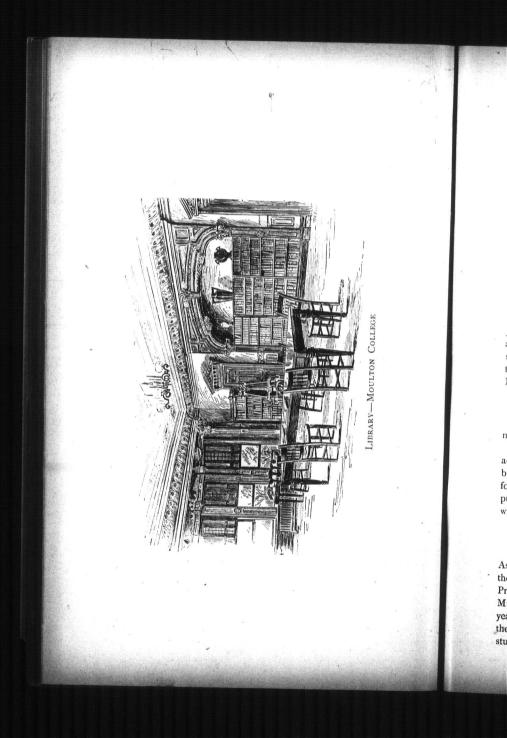

Free sittings are provided for the College at Bloor St. Baptist Church, and the resident students are required to attend in a body on the Sabbath, but provision is made for students of other denominations to attend once a Sunday, accompanied by a teacher, the church which their parents or guardians may prefer. Such preference should be communicated to the Principal in writing when pupils enter the College. No change in the place of worship of any pupil will be allowed without the written consent of the parents or guardians.

As will be seen from the curriculum, special provision is made for Bible study in accordance with the general aim of the Institution as a Christian school of learning. In addition to this, all resident students are required to attend, on Sunday mornings, a Bible class conducted by the Principal. A weekly prayer meeting is held on Tuesday evening, led in turn by the teachers and students. There is also a Missionary Society which meets once a month for the study of home and foreign mission news, and for regular and systematic contribution to the work.

# LIBRARY AND READING ROOM.

Large and pleasant rooms in the main College building are devoted to the Library and Reading Room. A goodly number of books, adapted to the wants of the College, have already been secured. The number will be increased as the demands of the

College may require. The purpose is not to secure a large collection of books, but rather, such a collection as will be of real service to the students in prosecuting their studies. The Library, will, therefore, contain a good collection of books of reference in every department of College work. There has been added during the past year a number of volumes on the history and work of Christian missions. The Reading Room is well supplied with the periodicals and magazines of the day. Special care is taken by the Faculty to direct the reading of the students, and thus make the Library and Reading Room most valuable educational adjuncts.

### LECTURES.

Special courses of lectures will be arranged upon various subjects bearing upon the curriculum of the College. These lectures are intended to broaden, liberalize, and improve the reading of the students and the instruction received in the Class Room from their teachers. They will be delivered chiefly by the Professors of McMaster University.

# FACILITIES FOR INSTRUCTION IN THE NATURAL SCIENCES.

The Science Class Room is furnished with all appliances necessary for purposes of experiment and illustration.

The chemical laboratory is well lighted and ventilated. It has accommodations for twenty-four students. Every precaution has been taken against accident and danger. All necessary apparatus for the study of the elements of Chemistry is provided. All students pursuing this subject will have the advantage of doing practical work under the immediate direction of the teacher.

# DEPARTMENTS OF MUSIC AND ART.

Music and Art are recognized as important means of education. As such they have a place in the curriculum of the College, though they are not allowed to interfere with its general educational work. Provision is made for the regular College classes, by which either Music or Art may be pursued throughout the course by taking a year's extra time. Those admitted as Special Students may devote themselves largely to these departments, taking, however, one full study besides and the Bible work.

The Music is in charge of the resident teachers in music, and under the control of the Faculty and Principal. Assistant teachers are provided, as needed, on the concurrence of the Principal and Chancellor. Students in music are admitted to the occasional lectures in acoustics in McMaster University without extra charge. Suitable opportunities are afforded students, under the charge of their teachers, to hear visiting musical artists of distinction. It is the desire of the Senate that the subject of music shall be so treated as to render its influence a valuable auxiliary in strengthening character, and securing the development of higher spiritual impulses.

# DRAWING AND PAINTING.

This department is placed under the immediate management of Mrs. M. E. Dignam, subject to the Principal and Chancellor. Mrs. Dignam will be assisted by other competent teachers, approved by the Principal.

Every facility is offered for a thorough and comprehensive course of Art study. A large and well-lighted studio, a fine collection of casts from the antique, and thoroughly competent instruction afford excellent opportunities of academic study.

It will be the aim of this department to provide first-class technical instruction in Drawing and Painting, and, at the same time, give to the students an acquaintance with Art history and with the characteristics of the different Schools of Act.

Special effort will also be made to develop individual talent and taste.

Students residing in the city are admitted to the Music and Art departments, though not otherwise connected with the College.

All the students meet once a week for choral practice, and the younger classes for lessons in freehand drawing, without extra charge.

F

L

Μ

# COURSE OF STUDY IN DRAWING AND PAINTING

Instruction is first given in drawing with charcoal from casts and objects; afterwards from life (head and draped model).

Painting in oil or water color is begun as soon as the principles of drawing with charcoal and of composition are sufficiently understood.

There will be an elementary department for design, including geometrical work, perspective, historical ornament, freehand drawing, and conventionalization to be used in applied designs. Students will be admitted to any special branch of this course.

The Sketch Class, both in studio and out of doors, is open to students without previous knowledge of drawing.

There is also a Saturday morning class in elementary drawing, painting and modelling, to which children from the city are admitted.

Instruction in Freehand Drawing is given free of charge to the preparatory and first year classes of the College.

#### RECREATION.

The closest attention will be given by the Principal and Faculty to all matters affecting the health of the students. An experienced teacher is in charge of Physical Training and Calisthenics, and all the students are provided with the means of daily practice. At least one hour's daily practice, either in class or out of doors, is required of all resident pupils. Provision is made for out-door exercise under such supervision as may be deemed necessary. The location of the College affords good opportunities for this purpose.

Physical Culture-1st term, fee.	2 00
2nd	3 00

Each pupil resident in the College building is required to take the Physical Culture course.

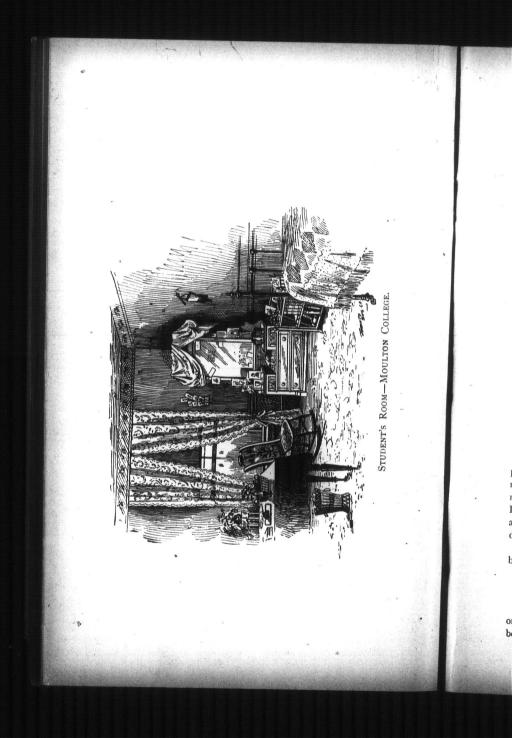

Cheques not payable in Toronto must have exchange added.

All fees must be paid, or satisfactorily provided for, each term, before admission to class. For the second term, one-half the fees will be required at beginning of said term, and the balance on March 20.

A discount of ten per cent. is allowed on board and tuition in case of two or more daughters from the same family. A special discount is allowed the daughters of all Baptist ministers in Canada.

A discount of three per cent. on charges for the second term will be allowed when payment is made in advance for the whole year, and a discount of one and a half per cent. will be allowed on the payment due March 20, when made at the beginning of said term.

Only those students who are taking the full course in drawing will be permitted to take half work in painting (one lesson a week), and for these twelve lessons they will be charged \$9 for the Elementary and \$12 for the Advanced.

In case of protracted absence on account of sickness, a reasonable deduction will be made for board, but there is no deduction for absence during the first two or last two weeks of a term. As the arrangements for instruction are all made in advance for the year, no deduction will be made from tuition fees in case of absence. Day pupils, however, absent a half term, or more, on account of sickness, will be allowed half tuition on the next term's bill.

The price for board includes laundry service (twelve pieces), fuel and lights. For laundry over twelve pieces, 50 cents per dozen will be charged, payment to be made on delivery. Each week will be treated by itself, and no averaging of weeks will be allowed. Dresses and skirts will be charged extra, but no charge is made for table napkins, towels and bed linen.

An extra charge will be made for all meals carried to rooms, and for ordinary sick-room care.

Day pupils pursuing one College study, in addition to the Bible, will be charged one-half the regular fee.

### REQUIREMENTS.

The rooms are furnished with carpets, bedsteads, mattresses, pillows, bureaus, washstands, tables and chairs. The students are required to provide their own bed linen, blankets, coverlet, towels, napkins, napkin ring, and silver spoon for use in case of sickness. In cases where it is preferred, the College will furnish these articles at a moderate charge. All linen and articles of clothing must be distinctly marked with the owner's name.

Resident pupils are required to have a gymnastic suit of navy blue flannel. Directions for making this will be sent to all applicants.

# A WORD TO PARENTS AND GUARDIANS.

1. It is most important that students be present at the College on the first and every day of the term. Rooms applied for will not be kept vacant for the applicant after the first day of the term, unless

the cause of delay be previously or immediately communicated to the Principal.

2. The pupils of the College have no occasion for expensive or elaborate clothing. We strongly advise parents to provide their daughters with plain and simple dresses. Dressmaking and general shopping should be attended to before the pupil enters the College.

3. Our table is well supplied with every variety of wholesome food. Boxes from home containing eatables other than fresh fruit will not be received.

4. Students must present to the Principal *upon entering the* College, the names of those friends in the city whom their parents wish them to receive as callers or to visit occasionally on Saturdays. This list of names must be short, and must be furnished and signed by the parents or guardians.

For further information, application may be made to the Principal of Moulton College, 34 Bloor St. East, Toronto.
