ONE POLICEMAN KILLED, ANOTHER FATALLY SHOT

Burglars at Bay Use Revolvers With Deadly Effect and Make Their Escape.

DETROIT, Nov. 18.—Patrolman John Daly, who was shot down and murdered in cold blood at midnight, had detected two burglars at work in the rear of Wm. Deidrick's store in Michigan avenue. Herbert H. Pickell, special officer for the Michigan Central Railroad, was shot through the abdomen and probably fatally injured when he ran to the policeman's assistance. The murder occurred in the heart of the business district of Detroit in an alley back of Michigan avenue and Wayne street. Patrolman Daly's revolver was found within a few feet of the store window, which the burglars had partially opened. He had evidently turned to follow his assailants after he had received a mortal wound through the breast. The patrolman's cry for help and the noise of the shooting awoke the neighborhood and a large crowd, pursued by a constantly increasing crowd darted westward zig-zagging between Lafayette avenue and the alley that parallels the avenue half a block northward. Officer Pickell was a leader in the chase. Pickell had followed the murderers nearly four blocks when they stopped near Lafayette avenue and Third street and shot him through the body. Having intimidated the pursuing crowd the fugitives escaped in the direction of the railroad yards. Patrolman Daly was one of the most popular and efficient officers on the force. All descriptions agree that one of the two was white and the other a negro. A colored man was arrested on suspicion within an hour after the murder.

PORT ARTHUR'S ARSENAL BLOWN UP BY SHELLS.

But Stubborn Garrison Still Holds Out--Jap Attacks on Russian Position Near Mukden Repulsed

ST. PETERSBURG, Nov. 18.—A despatch from Lieut. Gen. Sakharoff dated today says that during the night the Japanese attacked the Russian position in front of Poutouff hill but were repulsed. FAKKEBERG, Denmark, Nov. 18.—The second division of the Russian Baltic squadron has arrived here and is anchored near the lighthouse. TOKIO, Nov. 18, 3 p. m.—A telegram from Meiji reports the destruction of another Russian arsenal and magazine at Port Arthur. The Japanese discovered, it is said, the location of the arsenal and centred their artillery fire upon it. After dropping two hundred shells in the locality they succeeded in blowing it up. The Japanese are widening their saps and are using them to move their guns forward. The Russians continue their spirited sorties using hand grenades in their attacks upon the saps. ST. PETERSBURG, Nov. 18.—The newspapers today devote long articles to praise of Lieut. General Stoessel and the heroic garrison of Port Arthur and to a general endorsement of the movement started at Kiel for a national subscription in behalf of the families of the killed and surviving defenders. POSSIET BAY, Siberia, Nov. 18.—

PORT ARTHUR'S DEFENDER, GENERAL STOESELL.

According to estimates made here exclusive of the garrison of their Yalu river positions, the Japanese have 25,000 men, Korea, including 600 at Gen-san, 200 at Hamhung and detachments at Hamkyong, whence scouting parties go so far as Pousichen. The discontent of the Koreans is increasing. Cases of armed resistance to the Japanese are reported. LONDON, Nov. 18.—The fact that the Russian torpedo boat destroyer Rastvoroff (which arrived at the Foo later than the date of General Stoessel's published report which relates nothing later than Nov. 3) is regarded as significant. Apparently, however, Tokio has not yet received as late news as is contained in the report of American Consul General Fowler at Chefoo, transmitted to the state department at Washington Wednesday. Special despatches from Tien Tsin report a heavy bombardment of Port Arthur as late as Nov. 12, and nightly sorties by small parties of Russians who lose heavily by bayonet fights. These reports give no reliable details, but occur in statements that guns are wearing out and that the Russian ammunition is becoming scarce. The Daily Telegraph's Tien Tsin correspondent says he has received a report that the Japanese have suddenly advanced in the direction of Mukden, from which place they are now only twelve miles distant. ST. PETERSBURG, Nov. 18, 2 1/2 a. m.—Rejoicing over the undaunted spirit displayed by General Stoessel in his telegram of congratulation to Emperor Nicholas on the anniversary of his accession to the throne, and officially announcing the failure of General Nodua's nine day attempt to present Port Arthur to the Mikado as a birthday gift, is tempered by private information that the gallant commander of the garrison has been wounded. General Stoessel was struck in the head by a splinter from a shell while he was personally directing the repulse of a particularly desperate assault, but fortunately the wound is

GAYNOR AND GREENE CASE BEFORE PRIVY COUNCIL

Decision May Soon be Rendered Holding Them Over Again to U. S. Authorities

NEW YORK, Nov. 18.—A Washington despatch to the Tribune says that the case of Benj. Greene and John F. Gaynor which grew out of the case against Oberlin M. Carter, who was implicated in the Savannah river contract scandal, will be taken up by the privy council of England on Jan. 1. This tribunal may render a decision which may place Greene and Gaynor, who went to Canada while their cases were pending, in the hands of the U. S. authorities. Proceedings for the extradition of Greene and Gaynor were begun as soon as the American authorities received information that they had taken up their residence in Montreal. Accordingly application was made and a writ was issued by an extradition commissioner of Montreal. The two men, however, were apprehended in Quebec, to which jurisdiction they had made their way. They were taken to Montreal and a Quebec judge immediately issued a writ of Habeas Corpus, which was served on the Montreal jailer. He brought Greene and Gaynor back to Quebec, where a legal controversy ensued, which finally resulted in the issuing of another writ of Habeas Corpus by Judge Caron. It is this latter writ which permits the freedom of Greene and Gaynor within the bounds of Quebec and exempts them from interference from the U. S. authorities, and from which the U. S. government appealed to the privy council. Officials of the Washington government believe that a final decision will be reached before the first of the year.

NORTH SEA INQUIRY CLOSED

British Board of Trade Finish Investigation—High Tributes to Gallantry of the Fishermen

HULL, Eng., Nov. 18.—The Board of Trade inquiry into the actual occurrences off Dogger Bank, Oct. 22, closed with yesterday's session and the commissioners will report to the Board of Trade as speedily as possible. At the opening of today's session the commissioners and others paid high tributes to the gallantry of the members of the fishing fleet. Dr. Woodhouse, representing the Russian government, said he would like to say in behalf of those represented how much they regretted what had occurred and how he agreed with the remarks concerning the bravery of the fishermen. It would give him the greatest pleasure, he said, to convey the purport of those remarks to the Russian government.

STEAMER BURNED AT SEA

NEW YORK, Nov. 18.—The Central Vermont Railway's freight steamer Mowhawk, was burned off Horton's Point, N. L., near Greenport, early today. The Mowhawk's crew was taken off by the Fall River Line steamer Boston, and taken to Fall River, Mass. Greenport is at the eastern end of Long Island sound.

THE "CUMULATIVE FORCE" OF GOOD ADVERTISING IS THE SAME AS THE "CUMULATIVE FORCE" OF GOOD FOOD.

Here and there a merchant believes a little too much in the force of advertising—that is, in the wrong way. He is convinced of the "cumulative force" of good advertising; and he thinks that two or three good ads. a week will generate enough of this "cumulative force" to run his business for the other days of the week on which he does not advertise.

The rule will apply to eating with just the same force as to advertising.

No one doubts the "cumulative force" generated by good food, in ample quantities.

But no one imagines that because of this "cumulative force" he may do without eating on one, or two or three days a week.

Of course he COULD do it—and live, and "jolly" himself into the belief that he was thriving very well on "cumulative" nourishment.

But yesterday's good dinner does not do away with the desirability of as good a meal to-day—or a better one. And yesterday's good advertisement may well be followed by a better one to-day—and still a better one to-morrow.

YOUR STORE WILL THRIVE NO BETTER TODAY ON YESTERDAY'S ADVERTISING THAN YOU WILL THRIVE TODAY ON YESTERDAY'S DINNER.

THE LATE CAPTAIN ROUSE.

He Was Out of Employment—Discouraged and Despondent. Relatives in this city of Capt. A. T. Rouse have not received any information from New York that throws new light on his suicide, and are at a loss to understand what could have caused him to take his life.

The New York Herald of Wednesday said: "After a brave fight against adversity in a foreign city, Alphonso T. Rouse, formerly a captain in the British Naval Reserve, killed himself early yesterday morning by drinking carbolic acid in a furnished room on the fourth floor of a flat house at No. 236 West Sixteenth street. His body was found by Miss Mary Morton, from whom he had leased the room. Rouse was a fine looking, well preserved man of about fifty-five years. He hired the room in the sixteenth street house three weeks ago. He was then in reduced circumstances, and said he was seeking employment, but he paid his rent for the first two weeks. The man was sensitive about his position and during the last week paid from day to day for his room, because he said he could not be sure of having the full sum at the end of the week. Miss Morton prepared some tea and toast for the captain yesterday morning, and taking it to his room, found him dead in bed. The police were informed, and the body was removed to an undertaking establishment in Eighth avenue. In Rouse's room were found letters from his sister and niece, dated Carlton, New Brunswick."

Capt. Rouse's relatives here say that he made considerable money by the sale of some patents, and they cannot understand his being in poverty unless it was that a recent law suit, which went against him, caused him to lose all. This is the only clue to the cause of his death, and it may be that he worried over the loss and the fact that it compelled him to begin anew the struggle. The body will likely be interred in New York, the Canadian Society, of which he was a member, looking after the details.

A ROYAL AUDIENCE.

Two Kings, Two Queens, With Princess and Dukes Galore, Attend Theatrical Performance.

LONDON, Nov. 17.—One of the most brilliant theatrical performances ever held in Windsor Castle occurred last night, when Beerbohm Tree, by the King's command, took down a special company to reproduce "A Man's Shadow." The stage was erected in the historic Waterloo chamber, and the audience was worthy of its setting. In the front row of gold and red plush chairs sat King Edward, next to him was Queen Amelia of Portugal, then King Charles of Portugal with Queen Alexandra at his left. These were flanked on either side by the Prince and Princess of Wales and the Duke and Duchess of Connaught. All wore the Windsor uniform, namely evening dress with red collars and lapels, the orders worn by the men and the jewels on the women's dresses added brilliancy to an audience such as has seldom gathered in England.

The cast included Lionel Brough, Gerald Du Maurier, Clarence Blakiston, and Kate Cutler. King Edward, despite a long and tiring day, looked exceptionally well. He sent hearty thanks to Mr. Tree for producing this play, which as Prince of Wales, was always one of his favorites.

Sporting News.

WOLFVILLE, N. S., Nov. 15.—The great football game of the season was played on the campus here this afternoon between the Mt. Allison team and the Acadia team.

The Sackville boys came in on the morning express and were heartily welcomed and driven over the grounds and around the town. Farrell of Halifax, refereed the game and the team lined up as follows:

- Acadia. Full-Back. Nelly.Takeman. Halves. Howe.Black.Schaeffer.Wright.Beales.Quarters. Christie.DeLong.Lewellyn.Forwards. Bates.Steeves.Dixon.McQuade.Wheeler.McFadden.Flick.Oulton.Doa.Archibald.Motever.Chittick.Hallett.

Mount Allison were the losers and Acadia had the kick-off. The ball went into play near centre field and was worked back and forth by loose scrimmages, the advantage at first being with the home team. The visitors' half-backs did excellent work, but they were well watched and failed to get away. Acadia's defensive work all through the game was good, the tackling being very sharp and effective.

In the second half, Acadia fumbled the ball from Mt. Allison's kick-off and the visitors by splendid work, rained the ball almost to Acadia's goal, but the home team recovered itself and dribbled the ball the whole length of the field, but lost it in front of the goal.

Mt. Allison made a long kick-off and followed it up so well that Acadia was forced to touch for safety. Following the kick out there was good individual play, but no scoring. The game ended with the ball in Acadia's possession.

In the evening a reception was held in Collier Hall in honor of the visiting team, and it proved to be a very enjoyable affair.

MURMURS FROM THE GROUND.

A singular phenomenon occurs on the borders of the Red Sea at a place called Nakous, where intermittent underground sounds have been heard for an unknown number of centuries. It is situated about half a mile distant from the shore, whence a long reach of sand ascends rapidly to a height of 300 feet. This reach is about 800 feet wide and resembles an amphitheatre, being walled by low rocks.

The sounds coming up from the ground at this place recur at intervals of about an hour. They at first resemble a low murmuring, but then there is heard a loud knocking, somewhat like the strokes of a bell and which at the end of about five minutes becomes so strong as to agitate the sand. The explanation of this curious phenomenon given by the Arabs is that there is a convent under the ground here and that these monks ring for prayers. So they call it Nakous, which means "the bell."

The Arabs affirm that the noise so frightens their camels when they hear it as to render them furious. Philologists attribute the sound to suppressed volcanic action—probably to the bubbling of gas or vapor underground.

TRADE CHANCES IN CHINA.

The vast opportunities offered for the extension of foreign trade in the great empire of China is already having an effect on the imagination of those interested. Estimates of the value of the trade of China is already having an effect on the imagination of those interested.

There would be a demand for at least 50,000,000 tons of steel and iron, an order large enough, when properly divided to aid in keeping the world's iron and steel industries profitably employed for fifty years. It is hardly necessary to take the trouble to give estimates of this kind. For even if one makes allowances for over-estimates there is still enough to warrant the hopes expressed. Railroads are not the only works that give promise.

There are other great transportation systems, such as telegraph wires and poles to be erected, bridges to be built, rivers to be regulated, bars in rivers to be removed, and a host of other kinds of public works that will need foreign materials, many of which can never be carried out unless by the aid of foreign machinery.

SOVEREIGN LADIES.

(London Truth.) The French professor of Prince Henry of Prussia one day read him the following exercise for translation: "Sovereign ladies have not merely an air of majesty, but a gracious deportment peculiar to them."

"The prince laid down his pen and raised his hand. 'Have you any remark to make,' asked the teacher. 'Only this: do you or do you not wish to teach me to be truthful?' 'Certainly, I wish to teach you truthfulness.' 'Let me tell you, then, that I have known sovereign ladies all my life, and never noticed in them any majesty or peculiar grace of deportment. Quite the contrary. Ought we not, therefore, to omit the phrase you have just read?' The professor said that he would accept the scruples of his pupil. He could not, however correct an exercise book which had been carefully inspected and found to be correct in every particular. Besides, the taste of a boy of twelve differed from that of an adult. He might hereafter see majesty and grace where he now sees none. Henry took up his pen and wrote out the phrase in French. He then uttered a groan, and observed: 'It's an awful shame to foist such books upon us.'"

LIFE.

(A. T. Schumann in the Literary World.) A little longer and the toll is done. A little farther on the road to go. A little stress of shifting, drifting snow. A little journeying through shade and sun. A little rest where quiet waters run. A little parting with friend and foe. A little oasis where blossoms grow. A little darkness where the light is won.

WILL HOLD A MEETING.

NEW YORK, Nov. 17.—In order to obtain an expression of local public opinion favorable to international arbitration and especially to the treaties recently negotiated to that end by secretary, under the direction of President Roosevelt, it was decided today at a meeting of prominent citizens in the office of Francis L. Stetson to hold a public meeting in Carnegie Hall on the evening of Dec. 16th at which Mayor McClellan has been asked to preside. Invitations to speak are to be extended to ex-President Cleveland, Governor Odell, Carl Schurz, Bishop Potter, Archbishop Ireland and John Mitchell of the Miners' Union.

ENGINEER BARBOUR WILL SEE MAYOR CROSBY.

Engineer F. A. Barbour arrived in the city yesterday morning on his way to Halifax. In the evening he continued his journey to Halifax, where he is to see Mayor Crosby, who recently visited Mr. Barbour's appointment by the common council to superintend the improvement of the Halifax water system. Before leaving for Halifax Mr. Barbour said that everything was progressing favorably with regard to the extension of the St. John system. The final surveys, he thought, would be completed about Christmas and work begun in the middle of February.

UNPLEASANT FOR HER. (From the Brooklyn Eagle.) A well dressed woman of refined manner appeared in an uptown police court the other day and walking up to the desk of one of the clerks asked for a warrant for the arrest of one of her neighbors. The clerk, ever ready to oblige, asked what offense the neighbor referred to was guilty of.

"She disturbs my peace of mind and prevents my getting any rest at night by operating a machine in the room directly over my chamber," replied the visitor in all earnestness.

"And what kind of a machine is this your neighbor operates at night?" questioned the clerk, becoming very much interested.

"It's a frankfurter sausage machine." "Operated in a flat?" "Yes, sir, and it's always going." "Buy why is it in use tonight?" "Because the woman uses it to grind up babies."

Then the clerk realized he had an insane person to deal with and called an ambulance.

VICTORIA STREET F. B. CHURCH

Held Anniversary Services Last Evening.

Addresses Given by City Clergymen, and History of Church Read by Guy Kierstead.

The anniversary services in connection with the founding of the Victoria street Free Baptist church, held last evening in the school room of the church, were attended by a large number of the congregation and others.

A paper on the history of the church was read by Guy Kierstead. Beginning with the Free Baptist history, some twenty-seven or twenty-eight years ago, before any church in the north end was organized, he spoke of the inconvenience to which the F. B. of that section were put by having to walk to the Waterloo street church in order to attend divine worship among their own denomination.

The three ministers taking part and the ten deacons and all the members of the church were present.

The first business meeting was held at the home of Calvin Phelps, Nov. 25, 1874. Rev. J. W. Clark was engaged as pastor until the conference of 1880 at a salary of \$400.

At the close of Bro. Clark's term Rev. Jos. Noble took charge. Bro. Noble resigned in March, 1882, and in May 18th of the same year, lamented by all members of the church and congregation.

Rev. B. H. Nobles was given a call, and he took charge after the conference of 1888. In Sept., 1884, the name had been changed to Victoria street F. B. church, and in 1891 the building of a parsonage was considered necessary.

The lot next the church was occupied, consequently the building was moved down one lot and both lots (parsonage and church) were purchased and the parsonage built, the whole involving the church in debt of about \$2,000.

At the close of Bro. Halse's second term the present pastor took charge. An extension in the rear of the church has been constructed, electric light system installed and many other improvements made.

FEDERATION OF LABOR

Received a Visit From a Member of Britain's Parliament.

SAN FRANCISCO, Nov. 17.—So many resolutions regarding the labor day question were presented today to the national convention of the American Federation of Labor and so important was the matter considered by the executive council of the federation, that it was recommended that all legislation pertaining to the short work day be referred to a special committee of 14 members.

At the hour set apart for listening to fraternal delegates from Great Britain and Canada, James Wignall of England was introduced and was given a great ovation in his speech he said that to be ambassador of labor was a greater honor than to represent his country as a diplomat.

John A. Platt, representative of the Dominion of Canada, addressed the delegates to hold their next annual meeting, commencing the quarter century of the Federation of Labor in Canada.

TRAMPLED BY A HORSE.

Sensational Incident at the New York Show.

NEW YORK, Nov. 17.—The spectators were thrown into intense excitement tonight at the horse show in Madison Square Garden when John G. Hecksher, secretary of the National Horse Show Association, was run down and trampled by a pair of horses on exhibition in the ring.

Mr. Hecksher is the father-in-law of Mayor Geo. B. McClellan and is a member of many prominent organizations.

GOLDWIN SMITH AGAIN

Says a Few Words More on Annexation.

OTTAWA, Ont., Nov. 17.—Prof. Goldwin Smith, in a letter to the press, defends himself against being called a pessimist because of his recent utterances here. He also says: "A word on another point. A cheer was drawn, as usual, by a deprecation of American aggression. For thirty years I have been holding familiar intercourse with Americans of every class and party, and during that time I have never heard a single word expressive of the slightest desire to aggress upon Canadian independence."

MRS. RICHARD ROACH DEAD.

The Filigree Ball

BY ANNA KATHERINE CREEN AUTHOR OF "THE LEAVENWORTH CASE."

(Continued.)

I was no exception to the rest. Though I had exerted myself from the first to bring matters to a climax—but not to this one—I experienced such a shock under the steady gaze of her sad but gentle eyes, that I found myself recoiling before my own presumption with something like the shame I felt when I was relieved by the thought that a perfectly innocent woman would show more feeling at so false and cruel a position.

"How are you connected with the deceased Mrs. Jeffrey?" "I am the child of her mother by a former husband. We were half-sisters."

No bitterness in this statement, only an infinite sadness. The coroner continued to question her. He asked for an account of her childhood, and forced her to lay bare the nature of her relations with her sister. But little was gained by this, for their relations seemed to have been a sympathetic character up to the time of Veronica's return from school, when they changed somewhat.

His first inquiry was in reference to the conversation held between her and Mr. Jeffrey at the time he visited her room. We had listened to his account of it and now we wished to hear hers. But the case which had been given her by this very account had been invaluable to her, and her testimony naturally coincided with his.

"What can you tell us about the interview you had with your sister prior to her going out on the night of her death?" "Very little, except that it differed entirely from what is generally supposed. She did not come to my room for conversation but simply to tell me that she had an engagement."

"Did she know that Mr. Jeffrey had visited you earlier in the day?" "Did she make any allusion to it, I mean?" "None at all. She shrugged her shoulders when I asked if she was well, and anticipated all further questions by running from the room."

"The coroner favored the witness with a look of respect, perhaps because his next question must necessarily be crucial."

"Is that all you have to say concerning this important visit, the last you held with your sister before her death?" "No, sir, there is something else, something which I should like to relate to this jury. When she came into my room, she held in her hand a white ribbon; that is, she held the two ends of a long satin ribbon which seemed to come from her pocket. Handing those two ends to me, she asked me to tie them about her wrist."

"I should be glad to spare you," said he, "but I do not find it possible. You knew that Mr. Jeffrey had a pistol?"

NOW IT'S CODFISH.

Salt Cod Higher Than for 38 Years -Worth 5 Cents Per Lb, on the Wharf.

Flour is sky-high, sugar is up to almost the top notch and not to be outdone in price in the spring, salt codfish of commerce has made a jump that beats all records. From the vessel today salt cod are being sold at five dollars per hundred pounds. A figure that for this season of the year is unprecedented.

A South wharf merchant remarked to the Star today that he had been in business on that wharf thirty-eight years and in all that time had only on one occasion known the price to approach the present figure at this season of the year. The merchant referred to was over thirty years ago.

It is not uncommon for codfish to advance in price in the spring, salt codfish as high as \$4.85 being quoted, but it is remarkable to have the price up at this season when the supply is plentiful. The occasion of the present stiff price, unlike sugar and flour, the work of speculators, is that the catch during the summer was small and that in consequence it is difficult to secure a supply of good grade fish.

Under the agreement the city lays the pipe from Carleton to high water mark, near the breakwater, the government do the rest. The city's part of the contract was completed some time ago.

Win. J. Cain, the well-known excavator and contractor, is superintending the job for the government. About the pipe lands near the wharf at the island, a 6-12 inch main will be laid to the whistle house with branches to all the buildings on the island. At the point where the main emerges from the channel it will be necessary to excavate fully fifteen feet into the solid rock and the pipe will then be gradually brought toward the surface and will have an average depth of six feet one and a half inches. It is a big job and will take considerable time as all the cutting is through solid rock.

PLEASANT SURPRISE PARTY.

On Wednesday evening, the home of Mr. and Mrs. Wesley Baker, 132 Winslow street, West End, was the scene of a genuine surprise party, when about seventy of their friends gathered at their home and passed a very pleasant evening. At the close, the Rev. Mr. Ferguson presented Mr. and Mrs. Baker with a handsome side board as a token of esteem by their many friends.

COUNTY COURT.

In the county court this morning the trial of the case of Dean vs. Flood, an action for extras for carpentry work, was continued. Witnesses for the defendant were examined. A. A. Wilson for the plaintiff and M. G. Teed for the defendant.

SUGAR ONCE MORE.

Another Big Advance in Raw Sugar Which the Refineries Must Follow--More Coming.

Raw beet sugar sold today in London for fourteen shillings and sixpence for November delivery, a considerable advance on previous prices. In New York yesterday the market closed with raw sugar one-sixteenth of a cent higher than the opening price. Those advances in the price of raw sugar must necessarily be followed by a further advance by the refineries.

There is a big difference of opinion among business men as to the cause of the big advance and as to whether it will continue or not. Many are inclined to believe that the rapid upward move is purely the work of speculators and that when it does come there will be an awful slump.

On the other hand, it is pointed out that for years sugar has been sold at a loss and that the people of the British West Indies have been laboring under an awful burden and that the present price is a fair one and will hold. They point out that a few years ago when the present prices, or about the present prices, prevailed there was no kick made and that all the planters were able to make a living and pay fair wages.

What the outcome will be, however, remains to be seen, but one thing is certain, and that is that there will be another advance inside of a few days. After that no one knows what will happen. There has been a big surplus of sugar for years past and when this is raked together there may be a break in the market.

STMR. KILKEEL SOLD

Is Now Owned by a Parrsboro Man and Will Run on North Shore Route.

The steamer Kilkeel has again changed hands and is now the property of Mr. Nevins, of Parrsboro. The Kilkeel recently lost her propeller and was docked at Bathurst for repairs, which have been effected and she leaves that port today for a Nova Scotia port, her first trip under her new owner's management.

Just what route the Kilkeel will go to is not known here, but it is thought that she will be kept on the North Shore route.

This steamer has had rather a hard time since she was booked for service on this side of the water. She was purchased in England some few years ago by a Nova Scotia company and after several unsuccessful attempts finally reached this side of the water. Since then she has been engaged on various routes and a little time ago it was intended to run her between Amherst and this port. An old wharf was rebuilt near Amherst, but the deal fell through and the steamer went into the coal business between Cape Breton and the North Shore.

FOR THE CHAMPIONSHIP.

Carleton and Neptune Fight for League Trophy.

WIRES STILL DOWN.

But the Lines Between Here and Boston Will Soon be Working Again.

According to reports received this morning the repair work on the damaged telegraph lines has advanced considerably since yesterday. The Western Union has not yet wholly restored communication with the United States, but messages can now be sent as far as Ellsworth, twenty-five miles east of Bangor. Bangor can be reached from Ellsworth by telephone, so that practically there is entire communication.

The extent of the damage inflicted by the storm is greater than was anticipated, so that the linemen are endeavoring to restore communication by the two principal wires and leaving the others for the present.

The C. P. R. service is all intact east of Bangor and the work is being rushed.

YORK THEATRE.

The present company under the management of Robt. D. Hyde, has proven a worthy one, and is drawing good houses nightly. Yesterday and last night the house was packed. Every seat was taken and standing room was at a premium. The show went with a vim, and every one had a word of praise for the artists and management.

A good company has been secured for next week, headed by the great laugh manufacturer, Barr and Evans. A matinee will be given today at 2.30.

DEAF MUTES' THANKSGIVING.

The first thanksgiving at the Deaf and Dumb Institution at Lancaster was passed by the pupils in a most pleasant way.
