MANCHESTER LINERS WILL LEAVE ST. JOHN. Summer Service to be Abandoned---Last Boat Till Winter Port Opens---Too Much Business at Philadelphia.

The sailing of the steamer Manchester, Commerce this evening will mark the closing of the regular sailings of the Manchester line from this port until the opening of the winter port season, about the last of November. During the past season the Manchester Corporation and the Manchester Commerce have been making regular trips between Manchester and Philadelphia, with St. John as a port of call. The steamships would bring considerable freight here from Manchester for local merchants and points east and west, and on her outward manifest the cargo averaged about one thousand tons. The cargo consisted chiefly of lumber and pulp and a good quantity went to Philadelphia, the greater portion was taken to Manchester.

KING'S DAUGHTERS. Officers Elected This Morning—Miss Barker Chosen as Provincial Secretary—Yesterday's Meetings.

Yesterday afternoon's meeting of the King's Daughters' convention opened with devotional exercises conducted by Miss Thorne, of Fredericton. Miss Brown, the Dominion secretary, conducted the symposium of circle work which followed. Little Miss Hilda Galley was then called and sang delightfully "Sleep Little Baby Sleep." Miss Edna Golding, Fredericton, read a most interesting paper on "Our Badge and Our Motto." Miss Brown then read a Bible reading.

LOVE FOR CIRCUS GIRL KILLS BARON. Empress and His Family Forbade Their Marriage. He Shot Himself and Girl Attempted Suicide—Tragic End of a High Life Romance.

(Special cable to the Star.) BUDAPEST, Sept. 16.—A tragic story of the love affair of a young German nobleman and a lady circus rider has just been brought to light through the attempt of the young lady to commit suicide. Mile Feodor, as she is known, though her real name is Fraulein Weissenbach, while performing in Dusseldorf so charmed a young Baron von Leyden, an officer in the German army, by her beauty and horsemanship, that when the circus left Dusseldorf the baron obtained leave of absence in order to accompany her to Budapest, and there he promised to marry her.

VATICAN CONFINEMENT INJURES POPE'S HEALTH

(Special cable to the Star.) LONDON, Sept. 16.—The Italian correspondent of the "Lancet" writes as follows regarding the health of the Pope: "Just before the Supreme Pontiff was about to assume a second anniversary of his promotion to the Holy See he had one of those recurrent attacks with which, if not secreted, his ailments, are sufficient to cause a flutter in the ecclesiastical dovecots. There is a report that the Pope is confined to the left knee. Dr. Lapponi was called in, and having with local and general treatment included the welcome news that he left his august patient to the seclusion of his private apartments, with his physicians to spare himself the transaction of all but the least harassing business. Punctually carried out, the physician's prescriptions which for forty-eight hours enabled his holiness to give more than one audience, and to receive a deputation of some forty persons.

SEARCH FOR KELLY PROVES UNAVAILING.

NEW YORK, Sept. 15.—No trace has yet been found of Paul Kelly, motor-man of the "L" train wrecked on Monday morning with a loss of twelve lives. The police have kept up their search, but have been able to obtain no information of his movements since he left the house of a friend in East 134th street soon after the accident. All concerned agree that Kelly was not blame in running past the signals showing that the switches were set for the Fifty-third street curve. Cornelius Jackson, towerman, admittedly had the switches wrong for Kelly's train, whether he was at his post of duty or not.

GENERAL BOOTH'S OFFER.

MONTREAL, Sept. 15.—A London cable says: General Booth has asked Alfred Deakin, Australian premier, by cable, whether he can place in Australia 5,000 families not destitute and who are expected to be available during the coming winter. Interviewed by the Daily Chronicle, regarding the scheme, General Booth said that the Salvation Army was now engaged in reducing emigration to a system by which, on a large scale, able bodied men with their wives and families may be fitted to earn a living in another country. Last year he sent 1,000 to Canada, and only four or five turned out failures. Canada can swallow up people by the thousands, but there are other countries besides Canada open for the purpose.

GREAT FAMINE IN SPAIN; THOUSANDS STARVING. Hardships Unparalleled in Nation's History---40,000 Emaciated Victims Storm Houses of Rich.

(Special cable to the Star.) MADRID, Sept. 16.—The famine in Spain is believed to be the worst in the history of the kingdom. Telegrams are arriving from all parts of Andalusia giving most alarming accounts of the disorders arising from the famine. Great excitement has followed the despatch of the troops to Osona, where anarchy is reported to prevail. The wealthier families are flocking into Seville and Cordova for protection. At Seville, Utrera and Carmona, the prisons are crowded. In spite of the efforts of the police new bands of hungry peasants have forced their way into Malaga.

FORTUNE WON AND LOST.

Stoker Who Won \$150,000 in Lottery Got Drunk and Had it All Stolen From Him Shortly After. (Special cable to the Star.) PARIS, Sept. 16.—A remarkable story which reads like a scene from a play is told along the Boulevard of Paris. While in New York a young German stoker, of twenty, on board a steamer bound for the West Indies bought a one dollar ticket in a lottery for charity, then called for the Antilles. On his return to New York he happened to pick up a paper and found that his ticket had won the big prize of \$150,000. No more stoking for him; he shook the coal dust of the engine room from his feet forever, went to the bank, put in his precious ticket, received a draft for \$150,000, prefixed a "V" to his common or old family name, and took the next steamer as a saloon passenger for Paris, there he intended to spend his fortune.

WAS THE UMPIRE RIGHT OR WRONG? NEW YORK, Sept. 16.—Henry Pullen, President of the National League, has decided against the Brooklyn baseball club in regard to the ruling of umpire Klem against fielder Lumley in the second game played with Chicago on August 22. Tinker in this game sent a long fly to deep right which Lumley apparently caught but then bumped against a pole dropping the ball when declared fair by Klem and then ruled that he was safe. Pullen protested the game on the ground that Lumley's throw was momentarily as prescribed by the rules. Pullen decides the umpire is the sole arbiter.

Queer Little African Pygmies Will Go Back.

They Have Enjoyed Life in London—One of Them is in Love—The Mysteries of the Gramophone.

LONDON, Sept. 16.—"We must go back," said Bokani, chief of the Pygmies now being exhibited at the Hippodrome through Mr. Harrison. The Pygmies are to be taken to their own country...

"We can always walk back to London," said Bokani simply. "Others of the little men and women seemed indifferent. Like most natives of a low type they are very bewildered by the constant contact with civilization. They live for the moment and the only fact of life are the eating and drinking and sleeping. The rest is not understood."

In a few days the six Pygmies will be taken to Bournemouth by King Leopold, and then the question of the duration of their stay in Europe will be settled. Col. Harrison's contract with the Hippodrome management has expired and it is only a question of time before he must return to his duties in the Congo Free State.

Col. Harrison before he was granted permission to bring the Pygmies away from the forest, Central Africa, entered into an agreement to take them back to their own country. These new conditions of life are found to be at all uninteresting that they must at once leave not only London but Europe as well.

As far as their health is concerned the Pygmies appear to have benefited greatly by their stay in London. Life in an apartment house between Tottenham Court-road and Finner Street, with their little thirty-two-year-old woman, who appeared with the white man when she arrived here is now the sleekest and merriest little personality in the land.

The other five call her "Mrs. White" and laugh at and tease her about her gluttony so as to make her at times very angry. But she is not any of them since they came to London is eating more than her fair share of the honey provided is not going to be cured by Pigmy testing. Sixteen large spots of honey disappear each week in the Bloomsbury household of the Pygmies, and it is washed down by seven or eight bottles of lime juice diluted. The Pigmy who does not drink alcohol, is not temperate however, where lime juice is the field of his mania. The electric light certainly did puzzle the little fellows and they wanted to see how it was made. Now every one of the six little Africans gets a good deal of amusement whenever they can be switched on or off the light.

Matches caused wonder also, but this week Bokani astonished the "natives" by lighting a match and smoking a cigarette. The gramophone is still a deep source of wonder; the Pygmies

heard their own voices reproduced by it. The beauty of the English girl has been too much for one of the Pygmies brought over by Mr. Harrison. This particular Pigmy has fallen in love with a pretty fair-haired girl who is employed as a typewriter by the Gramophone Company.

In the presence of his friends from Central Africa the youngest of the Pigmy band boldly declared his love and avoided mistake as to the identity of the chosen one, he pointed out the object of his affections with a steady looking spear. "Would you like to take her away and marry her?" asked the interpreter. "Yes, that one, that one," he rapidly replied. "But for me they are danced, keeping time to a banjo solo that was issued from a monster gramophone."

Armed to the teeth with bows and arrows and spears, dressed in their most gorgeous clothes, and decorated with beads, bracelets, earrings, nose rings, anklets, etc., the diminutive warriors crossed London from the Hippodrome to the offices of the Gramophone Company in a four-wheeled cab. At each window stood an armed man ready to guard against surprise attack. The two women of the party sat silent, only speaking when spoken to and carrying the drums and other impediments of their life.

The object of the visit when the warriors from the heart of Africa lost their hearts to the fair-haired English girl was to procure suitable records of the voices of the Pygmies. Once in the record-taking chamber at the gramophone office the eyes of the Pygmies opened in absolute astonishment. They could hear a man whistling in the corner, but could not see him. They were told there was no man, but they were incredulous. A council of war was held and then, under the direction of the Chief Bokani, they proceeded to spread themselves across the room, and crouching forward, each with his spear in his right hand, slowly advanced. Every inch of the chamber was carefully explored, and by means of a sweeping movement the whistling gramophone was encircled and examined. It was then taken to pieces and reassembled. The Pygmies were incredulous and mystified. Laughing songs delighted them, and they rolled upon the floor in glee. The laughter from the gramophone rose louder and louder and higher and higher and higher. Afterwards Bokani and Matuska stepped forward, and standing in front of the funnel projecting from the gramophone, they sang their folk songs to the accompaniment of drum and stick music. Matuska next takes the Pygmy language with the interpreter for the second record. For the third the chief Bokani sang to the British interpreter for the preservation of the language of the Pygmies of Africa. As a reward for what they had done, the Pygmies were presented with a number of silver keyrings were presented to the black visitors and they departed in the highest spirits.

WHAT ST. JOHN WOMEN WEAR, AND ARE LIKELY TO WEAR.

A little Commonsense Chat, not on New York or Paris Styles, but Home Styles.

By POLLY CADABOUT.

SHOPPERS WERE SOMEWHAT INTERFERED WITH BY THE RAIN THIS WEEK, but the late clear-up has boomed things again. It's really terrible the way inclement weather hurts businesses in which women are depended upon to make success, for St. John ladies seem to be a great deal like the Lotus who after she looked behind, that is, salty. It at least seems so for an old saying has it that persons afraid of a little shower or two—or even a few days of it on end—are made up some way of "sugar and salt." Be that as it may the fact remains that a rainy day works unweave wonders in dry goods stores or any other stores in which women are the chief visitors. But now that the rain has let up, and there is some prospect of a little really nice weather the air takes on a fallish crispness, a biting, exhilarating, zealous quality that hurries us females to the shops to see what's the very latest.

GARMENT BY GARMENT, HAT BY HAT, SHOE BY SHOE, summer dressery is disappearing. In a week more little, if any, of it will be seen on the streets. As warm weather clothing is wiped out of vision, cooltime apparel hots up. Shirts of flaring, yet pretty greens; headpieces of velvet, chenille, all having the now raging wings or cool feathers, are coming to the front in generous sprinklings. After real style tests, the millinery openings, they will be decidedly more numerous. Automobile veils seem to be gaining favor, man-

ish gloves are comfortable for this season, and are therefore on top, while soft clingy scarfs, and neck wraps of all kinds—save furs—are coming in for a big share of favor. The new shoe models are pretty, and by the way, a great deal more common sense than for some seasons, displaying a breadth of last and solidity, which denotes a good "understanding" in any way you are a mind to take the word.

SHOULD A PLAIN WOMAN WEAR A VEIL? MAY BE ASKED WITH PROPRIETY. Some sisters not blessed with the most comely features in the world will possibly take offense (privately, of course) at this question, but it is a matter that can well be considered. If you want to take my opinion for what it is worth I will say by all means let the person with the non-beautiful feature don a flimsy adornment, if such attire is classed as an adornment. Any woman who has ever used a veil tastefully knows that it enhances her looks. We take it then that a pretty woman is made the prettier by the use of a chiton or net face covering, or it may be simply a gauzy frame for her features, not a covering at all. Therefore, if the good-looking person looks better when so attired, should not the crude features of a homely woman be greatly brightened by using the same goods? Besides a face adornment the veils they are wearing now serve as a hat drape and neck scarf (some of them), the whole combination having a jauntyness that spells style and smartness. When a woman is stylish and smart her natural beauty is always increased.

THE WOMAN WITH THE MOHAIK SUIT NEED NOT WORRY. SHE'S ALL RIGHT, for the mills can't turn out this material fast enough to supply the demand. It is really phenomenal the rage this goods has had for a season or two back, and buyers who hesitated about buying fresh supplies are now willing to stock up strongly. Nothing is newer or more serviceable than such goods, all termed in a general way Mohair, Henrietta and Broadcloth. Theon-toned colors and black appear to hold the ladies' fancy, and what new tailored costumes are to be made will surely be along these very lines. Briefly, this coming cool weather season is going to be one of "straight" colors, rich and deep,

or rather membership, to the undomesticated stranger, but in the plunge, this time diving deep into the German classics. His preparations for the event are most elaborate. Six actors from London, a large choir for vocal effects and enough musicians and supernumeraries to bris the total membership to 117 will participate in the production.

The local theatrical season has started in real earnest, both theatres having been opened during the past week and the support on the part of the general public has been so far really excellent. Altogether prospective are very bright, and provided the various managements will do their part in securing the best of homes possible in their line, there seems little reason to doubt that the season just entered upon will be one of the most successful ever put in in local theatrical circles for some years past. The wish of all devout Theatricals will surely be answered.

THEATRICAL CHIT-CHAT.

The local theatrical season has started in real earnest, both theatres having been opened during the past week and the support on the part of the general public has been so far really excellent.

Monday night Gorton's minstrel troupe, "I want to come in," I held away at the gate. I knocked out of a very ordinary type, but the costumes were really good. The most noticeable feature was the lack of good sentimental songs. One of the chief delights of a minstrel entertainment is to listen to a good ballad well sung, but neither the tenor or the bass of the choir group were accepted in the choir of any third rate church or chapel.

Another dismal failure was the introduction of questionable jokes and bye play, with the intention of raising a laugh. It seems a great pity that to make a man driven so hard to secure a laugh that they have to adopt means which almost invariably result in a failure. As an instance of what is meant, the following is a specimen of the "humorous" of "Alleged" Faus man: Say Mr. Pearl, I dreamed that I died the other night and went to heaven. When I arrived at the gates, I knocked at the door, and St. Peter answered me. "What do you want?" said St. Peter. "Come in," I answered. "Where do you come from?" said the Saint. "From St. John, New Brunswick," I answered. "You are the first one ever to come from that city."

John Phillip Sousa's Sunday night concert at the Hippodrome, New York, forms an exceedingly popular feature of amusement life in the big city and has thus far drawn immense audiences to the most wonderful show edifice in the world. One of the features of the Hippodrome, of which little or nothing is known, is an emergency hospital back upon the stage. Here the management maintains a resident physician and two Red Cross nurses, and although the services of these persons are not in constant demand, they form a very useful adjunct when some acrobat or equestrian sustains a tumble or some dancing girl overrears herself and collapses. This hospital is one of the schemes original with Thompson and Dunly. They first established it at Luna Park, where it was found highly useful and of much benefit to the public. At that resort whenever an infant falls and bumps its head, or a woman caught in the crush faints away, or anything else in the way of a mishap occurs, the victim of the accident is instantly caught up and given into the hands of the waiting doctor and nurses before there is any opportunity for the spread of excitement of the sort that usually crises from such events.

It seems to be the general impression that "Beauty and the Beast" is rather too English in tone to meet with the wholly undivided favor of this community. Everybody cordially, however, that Nat Goodwin's impersonation of the elderly sea captain who is the most prominent figure in the story, is quite the most delightful example of stage drolery this master artist of the comedy world has given to the public in many years. It is the setting and not the jewel that has evoked criticism, and led to the likelihood of a change of finding as many plays as may be required for the successful fruition of the season. Under the Frohman direction Mr. Goodwin will have no difficulty in season. It is supposed that he shall remain at the Lyceum until well into the winter.

Richard Mansfield, who is recovering from the effects of two operations, is to produce Echlin's "Don Carlos" this season. Mr. Mansfield's success with "The Father Mathew" was such that he had put their house in order for the season, and announced a minstrel performance for their opening evening, which will be held early in October. An amateur minstrel show is always worth going to, as whether it is good or bad or indifferent, there is plenty of amusement to be got out of it.

Monday at the York Theatre Fred Leach's vaudeville entertainment will hold the boards. Sunday and Saturday are announced, and it will be interesting to see what sort of public support will be accorded a show of this nature.

What is described as the "farewell" return of Lewis Morrison in Faust, is announced for Friday and Saturday next at the Opera House. Mr. Morrison has a reputation for his impersonations of the most of Moliere all over America, which His Satanic Majesty has well earned.

THOUSANDS ARE STARVING IN SPAIN—TERRIBLE FAMINE.

(Continued from Page One)

Blame is laid upon the government which for centuries has neglected the agricultural inhabitants of the province. The intense drought this year has brought things to a crisis.

Meanwhile an attempt is being made to relieve the distress by an abundant distribution of victuals. The archbishop of Seville has opened a public subscription list.

Reports from Arco state that the workless inhabitants have reached such a state of debility that they are unable to masticate the bread which is gratuitously sent to them. As far as possible they are being kept alive with beet-leaf and wine.

Three thousand people belonging to the villages of Casaroneña, Junquera, Pizara and Alonaina have made a pitiful appeal to the government for food. The local treasuries are exhausted, and no more assistance can be given by the authorities.

The town of Trebujena is in a state of riot owing to the construction of a highway being discontinued, and hundreds of men thrown out of work.

In Bajalance, near Cordova, the principal square is filled all day with starving people who lie in the sun and look like living skeletons. The town council is at the end of its resources and is in three months' debt to its employees. No grant has yet been made for the event are most elaborate. Six actors from London, a large choir for vocal effects and enough musicians and supernumeraries to bris the total membership to 117 will participate in the production.

The story of the romantic court of Philip II. of Spain has had its vogue in the German play houses, but has not before been deemed to lend itself readily to the demands of the theatre of other lands.

"Don Carlos" will have its first presentation in English at the Grand Opera House, Chicago, on October 15. Excerpts from Verdi's opera of the same name will constitute the incidental music, played by a concert orchestra of sixty-six members. Mr. Mansfield does not abandon his repertoire, but will carry seven plays on tour.

Really good verse is not heard often in comic opera now-a-days, which may be the reason that it is so loudly praised when discovered. The newspaper of Boston, where De Wolf Hopper is editor, has a list of the lyrics of "Happyland," which do not do justice to the lyrics of Gilbert and Sullivan since the days of Gilbert has surpassed the verses of Frederick Locker. An example which is quoted is the following list, in which is described a method of arming soldiers with musical instruments instead of weapons:

I have armed each strapping fellow With a piccolo or cello; I have regiments of altos and basses, and I have regiments of sopranos. All our trumps and railway hobs, I equip with drums and oboes. And they have to go up on the latest tunes.

Where the town to be attacked is assembled them for practice. And outside the gates I give a Sunday "pop."

"Pop!" the villagers may curse us, I play all the encore verses. 'Till they promise to surrender if I stop.

JIM THE PENMAN.

WOMEN IN CHURCH. (London Telegraph.) The following remarkable notice has been issued by Rev. G. M. Parsons, vicar of Cranock church, Newquay, Cornwall:

"Cranock church is closed until further notice except at hours of divine service. The church has hitherto been freely open. It is deplorable that it cannot so remain, as it ought to. This is wholly due to the irreverence of numbers of women, who walking uncovered, presume to enter God's house with no sign of reverence or modesty upon their heads. A small veil or kerchief would begeth this and be sufficient, but remonstrance during several seasons has proved in vain.

"Such a refusal by men to offer the customary respect of uncovering would justify their exclusion from God's house. The corresponding refusal by women to cover their heads obliges It. The church is closed with deepest regret and shame for the cause, but I mean much in the church of the devout and offerings of the reverence disposed. It is hoped, however, that the solemn protest thus made in God's name will bring thoughtful persons to a better sense of what is due to His presence and glory, so that His house may speedily be set open as freely as before."

DIDN'T SUSPECT HIM. (Success.) —Dr. Robert Ball, the English astronomer, is a round-faced, jovial-looking man in appearance, not resembling in the least the ordinary conception of a famous scientist. Once he was engaged to lecture in a remote part of Ireland, and found no vehicle waiting for him at the station. At last a typical Irish servant came and said, "Maybe you're Sir Robert Ball?" When he found that he was correct in his surmise, the man said: "Oh, sure, your honor, I am sorry to have kept you waiting, but I was told to look out for an intellectual-looking gentleman."

is especially well adapted to the growing of wheat. If the government would only irrigate the land in the wheat growing regions it would not be necessary to buy wheat from beyond the borders. In 1903 there was comparatively no rain. The recent bread riots are the results of the drought. Irrigation would not be difficult, for the rivers, swollen by the melting of the snows from the mountain ranges flow full banked throughout the dry season. The droughts deprive the laborers of the opportunity to earn even the small wages which they are accustomed to receive. The suffering of the Spanish people is never greater than it is today, though there has been something of an agricultural and industrial development during the years that have followed the Spanish-American war. The loss of the colonies was not a blessing to all Spain. The commerce of Barcelona and Cadiz, the property of Catalan manufacturers, of Andalusian wine-growers suffered when the market in which Spanish producers possessed a monopoly was cut off. In some ways the results of the Spanish-American war may have been beneficial to Spain, in other respects Spanish commerce has been damaged. But these things, taken in connection with the great drought, make the condition of the Spanish people at the present time anything except pleasant and comfortable.

THE CHILD ASLEEP. Writing on "The Right of the Child," in the October Delinctor, Dr. Grace P. Murray has some remarks of particular interest for young mothers. It is difficult to keep mothers and nurses from the old custom of rocking the child to sleep," she says, "but children and mothers alike should be emancipated from such bondage. When the time for sleeping has arrived the child should be put in his cradle or crib and left to woo sleep on his own account. Scarcely, with any exception, should a child be put in his cradle or crib and left to woo sleep on his own account. MONDAY THE VAUDEVILLE SHOW
W. E.
OPENS AT THE YORK.

The Lewiston, Me., Daily Journal of recent date contained the following: Honors were shared equally in the programme. It is to be said of each that a very high class of talent was represented. Prof. W. E. Floyd, from his neat initial appearance in appropriate turkey red evening suit, with black satin knee breeches, in the role of prestidigitator, made a startling and deep impression upon the Kora Templars. With all the mysteries of the Mystic Shrine, Prof. Floyd's achievements deserve to rank. His tricks and illustrations were original, and again and again he proved the truth of what he said in his introductory words: "I want you to watch me closely; in fact, the more closely you watch me the less you will detect."

Prof. Floyd presents one of the many good acts with Leiders Vandeville Company.

Seats now on sale at the theatre and are selling fast, as at the remarkably low figure, one dollar and twenty cents a dozen, by Monday (noon) there will probably not be a seat left.

Hunting His First Job

SOME OF THE RISING GENERATION OF JOB HUNTERS

This Is the Month When the Boy Who Does Not Want to Go Back to School and Last Summer's College Graduate Go Hunting for Work.

How a Country Boy's Unexpected Candor Won Him His Start With a Big Publishing House.

By Anthony J. Henson. Says many a boy well started in his... "I don't want to go back to school." "Wait!" exclaims the parent. "Well, I just guess you will, and you'll be there the first day and on time, too."

ting off their papers." The superintendent looked at the boy... "I am looking for a job with you," he said politely.

shamefacedly. "Well, I took you because you were candor itself," went on the manager. "Every boy who had come to me before had sworn that he knew a whole lot about the business, but not one of them did. They lied to get work. You, however, you were up a peg next by Monday, and so does your salary."

all the leading papers—and as his parents were none too well off, he did not feel like appealing to them for assistance. Therefore, instead of looking for work for the next few days, he hung around a ferry slip, and picked up quite a deal of change each day helping women across the wide, truck-crowded street with their baggage to and from the station.

He went to the leading physician of the town, who was also something of a local politician and had been a delegate to several state conventions. "Doctor," he asked, "you know some of those Tammany fellows in New York, don't you?"

HOW CANDOR WON A BOY HIS START. Billy Jones was 15 when he set about his first job. Previous to that time he had earned several dollars a week by selling copies of his town's evening newspaper after school.

For an instant it was in the boy's mind to engage in some skillful equilibrium act, but something inside of him checked him, and looking into the man's face, he said earnestly: "Not a damned thing."

Thousands of city boys and young men, when they set about to look for their first job, put their trust in the "ads" of the daily newspapers. A few days' experience at answering "ads" showed a particularly keen Jewish boy of an Eastern city that he stood little chance of getting a job in this way.

He went to the leading physician of the town, who was also something of a local politician and had been a delegate to several state conventions. "Doctor," he asked, "you know some of those Tammany fellows in New York, don't you?"

Is your Coal Wasted or Used? It is comparatively easy to build a range that will make a lot of heat, but it requires the exact science of Pandora range building to produce a range that will use all the heat in the coal without waste. A common range may burn twice the coal that a Pandora will, and yet do only half the work. If you use a Pandora range you can be certain that your coal money is not wasted, but used.

INSURANCE CO. GAVE \$48,000 TO CAMPAIGN FUND.

Bomb Exploded at Investigation Into New York Life's Affairs Yesterday—Mr. Perkin's Peculiar Position.

NEW YORK, Sept. 15.—Geo. W. Perkins, member of the firm of J. P. Morgan & Co., and first vice president of the New York Life Insurance Co., was the star witness at today's session of the special legislative committee which is probing the methods of life insurance companies in this state, and his testimony was replete with revelations in the development of finance as applied by insurance companies. Mr. Perkins was first called just previous to the hour for luncheon. He resumed immediately after the recess and was on the stand when adjournment was taken for the day. The climax of the day came when Mr. Perkins was asked concerning an entry of \$48,000 in a ledger, marked "ordered paid by the president." Mr. Randolph, the treasurer of the New York Life company, who had been on the stand earlier in the day, had been sharply questioned as to the purpose of this entry, but he was unable to explain it. He thought no one but the president could do that, and he was asked to testify as to some other transactions and after the recess he was asked to produce the check. It was made out payable to J. P. Morgan & Co., and Mr. Perkins frankly stated that it was a contribution to the National Republican campaign committee and had been paid to Cornelius N. Bliss. Mr. Perkins said: "This payment was made because we felt that the assets of the New York Life Insurance Co. would be jeopardized by democratic success." Mr. Perkins said contributions were also made in 1900 and in 1902. Assemblyman Rogers then expressed his desire to ask a few questions about the sale of bonds on Dec. 31 to J. P. Morgan & Co. and the repurchase on Jan. 2. "Now, Mr. Perkins," he said, "you acted in the transaction for the life insurance company and also for J. P. Morgan & Co?" "I completed the transaction for J. P. Morgan & Co. because that house was the only place where I could realize a fair sum for the bonds at that time. We lost nothing in that transaction and we made nothing, but in financial transactions it is sometimes just as important not to make a loss as to show a profit." Assemblyman Rogers—"Has there been any other case in which you have acted for both the New York Life and J. P. Morgan & Co. at the same time?" "I recall no other transaction." "Now in the transaction, when did Mr. Perkins an officer of the N. Y. Life, give way to Mr. Perkins, an officer of J. P. Morgan & Co.?" "I don't understand your point." "With you, as an officer of the N. Y. Life, issue one order, and Perkins, an officer of J. P. Morgan & Co., receives it. When were you acting for the New York Life, when for J. P. Morgan & Co.?" "When were you acting for the New York Life?" "All the time." "When were you acting for J. P. Morgan & Co.?" "That depends on the occasion." "Well, if you are acting for the New York Life there is not much time left for J. P. Morgan & Co.," remarked Senator Armstrong. Mr. Perkins then burst into a protestation: "Mr. Chairman, I act as I think right. I do not think whether I am acting for the New York Life or J. P. Morgan & Co. I follow my conscience and do what I think is right." The senator was unmoved, and asked: "Where did your loyalty to one of the other end?" Mr. Perkins replied: "My loyalty lies where my duty is." "That depends on the occasion." "Well, if you are acting for the New York Life there is not much time left for J. P. Morgan & Co.," remarked Senator Armstrong. Mr. Perkins then burst into a protestation: "Mr. Chairman, I act as I think right. I do not think whether I am acting for the New York Life or J. P. Morgan & Co. I follow my conscience and do what I think is right." The senator was unmoved, and asked: "Where did your loyalty to one of the other end?" Mr. Perkins replied: "My loyalty lies where my duty is." "That depends on the occasion." "Well, if you are acting for the New York Life there is not much time left for J. P. Morgan & Co.," remarked Senator Armstrong.

DR. GEORGE WITHOFF, for whom the police of many cities are searching on charges similar to those preferred against Johann Hoeh. It is said, however, that the doctor was a much more ardent suitor than Hoeh, for he is known to have married fifty women, one of whom was the daughter of a former mayor of New York city.

GENERAL SHAKE-UP ON THE INTERCOLONIAL.

MONCTON, Sept. 15.—Mr. Emmerston, minister of railways, and Deputy Minister, Dutrie, having completed their inspection of the Intercolonial, will probably return to Ottawa within a day or so. All the heads of the departments, divisional superintendents, and chief train dispatchers were summoned to a private conference at the I. C. R. general offices, and for that purpose the following officials are in the city today: Mr. Pottinger, general manager; W. M. MacKenzie, chief engineer of construction; T. C. Burpee, general traffic manager; E. H. Fitzgibbon, superintendent motive power; T. Henderson, superintendent car service; J. C. Campbell, accountant car service; Y. C. Campbell, superintendent New Glasgow; W. A. Fitzgibbon, chief dispatcher, Sydney; L. S. Brown, chief dispatcher, New Glasgow; G. M. Jarvis, superintendent, Truro; J. T. Halliday, chief dispatcher, Truro; H. B. Fleming, chief dispatcher, Moncton; Evan Price, superintendent, Campbellton; H. H. Bray, chief dispatcher, Campbellton; L. B. Archibald, superintendent sleeping and dining car service; Truro; J. B. Lambkin, assistant general passenger agent, Halifax; G. A. Sharp, superintendent P. E. I. railway, Charlottetown. The meeting has been in progress all day, but is strictly private and none of those in attendance will talk for publication. It is hinted, however, that Deputy Butler has informed the minister as it relates to that branch of the service more particularly. The action of the minister has given rise to many rumors, and it is the general opinion that something like a crisis has been reached in the affairs of the Intercolonial.

G. P. R. EMPLOYE GETS TWO YEARS IN PRISON FULL DETACHMENTS FROM THE ARTILLERY. Will Leave on Sept. 30th for the Annual Camp at Petawawa.

QUEBEC, Sept. 15.—George White, aged about thirty, who a few weeks ago absconded with five hundred dollars belonging to the Canadian Pacific railway, was today sentenced to two years imprisonment in the penitentiary. White had been in the service of the C. P. R. for two years as biller in the freight office and assisted the cashier in his work at times, when the latter was busy. Becoming involved in debt, and seeing no way out of it, he jumped the city with what money he could lay his hands on, having previously induced a fellow employe to endorse a note in his favor for one hundred dollars. White, who previous to entering the service of the railway company was a gunner in the Royal Canadian Garrison Artillery in this city, was traced to Montreal and New York, and finally to Chicago, where he had obtained employment under an assumed name. His arrest was the result of some smart work on the part of Detective Crever of the Canadian Pacific staff, who was assisted in his efforts by Superintendent Rosseter of the Pinkerton detective agency.

TELEPHONES:— BUSINESS OFFICE, 15. EDITORIAL AND NEWS DEPT., 117.

ST. JOHN STAR. ST. JOHN, N. B., SEPTEMBER 16 1905

CIRCULATION. The word "circulation," as used by newspapers, is a very elastic one.

On every modern newspaper press there is a mechanism which registers the number of papers printed. The figures shown on this at the close of the day's run are quoted by many papers—and by some in this city—as their "circulation."

Now every day in every newspaper office there are some papers spoiled in the press and some more left over unsold and undistributed. As these do not go outside the office and meet the eyes of nobody save the employes whose duty it is to handle them, it is plain that they should not be counted as part of the day's "circulation," which should mean the papers actually circulated among the reading public, and should not even be considered when a journal refers to "its issue last evening."

"Issue" should mean the number of papers sent out of the office, but the ordinary journal uses that word to denote the total number of papers printed. And some—even in this city—are not above the trick of printing daily several hundred more papers than they know they will sell, simply to be able to claim that their "issue of yesterday" was a certain figure, or that their "average circulation" is thus and so.

The Star is the only paper in this city that has published statements of its actual circulation, deducting all spoiled or unsold papers and counting only those which have actually been placed before readers.

AN INEFFECTUAL REFORM. Even if the Duma, the new Russian house of assembly, were to be any governmental power—which it will not, its functions being purely advisory—it would still be ineffectual as a piece of representative government machinery.

A study of the new electoral system indicates that the party seats are morally certain to return 150 of the 412 members of the Duma from the 51 provinces hitherto included in the plan, and are likely to have 225. This result would be regarded as a triumph for the masses if it were not feared that the police and other local representatives of the Government will dictate the elections. It is notorious that the cantonal chiefs have arbitrary power over the cantons which hold the primary elections. They may impose fines and sentences of imprisonment without appeal.

The Minister of the Interior has published a circular purporting to curtail the powers of village autocrats, and the Nationalist press explains that this is to prevent them from interfering with the cantonal elections, but the utterances of the Liberal papers show that little credence is placed in the good faith of these promises. It appears that the new body will probably be but a feeble tool in the hands of the bureaucracy and will give opportunity to place their views before the Czar and the public.

ALIEN LAW BARBARITIES. More than once or twice this newspaper has chronicled outrages perpetrated by American officials whose duty it is to guard the land of the free, at this time, from undesirable immigrants. But nothing which has occurred here can compare in unreasoning brutality with some recent incidents in the enforcement of the immigration laws at New York which have aroused the severe censure of leading American journals.

Today's edition of Collier's Weekly quotes some notable instances of the callous stupidity of these officials. In one case a man who had lived in the United States for thirty-two years and had voted in presidential elections, many and because he could not show his naturalization papers and was over the age limit was summarily deported, though he was well-to-do and had with him \$1,163.29 in cash.

On the same ship was a butcher fifty-five years old, who asserted that he had been in business in New York for ten years. He came back last May and was deported on account of a growth in his neck. That, he declared, was cured after his enforced return to Germany, but when he returned to this time they decided to deport him on the ground that the United States had no use for a man fifty-five years old.

On August 29th, a woman was deported with a baby, an American citizen, born that very day. She had a home in New York, where she had lived for fourteen months with her husband, who was earning a comfortable livelihood. Her mind had been temporarily affected by the strain of approaching childbirth, and she had been sent to Bellevue, whence she had been transferred to Ward's Island, and registered as a public charge, in spite of her husband's protest, and his offer to give a bond for her support in a private asylum. She recovered her reason as soon as her baby was born, but her home was broken up and she was shipped abroad in a condition that threatened her life along with the boy whose birth made him eligible to the Presidency of the United States. It is atrocities like this, says Collier,

ers, which have no relation with the original purpose of the immigration laws, which give foreigners the impression that the United States is inhabited by savages.

NO FEVER HERE. The Globe observes that "the reflecting citizen must surely have noted that the city has gained nothing by 'feverish haste in any of its undertakings; but that such haste often resulted most unsatisfactorily.' It would not be easy for the reflecting citizen to point to many instances of feverish haste in carrying on the public undertakings of the city of St. John. In the work of increasing harbor accommodation the symptoms of fever are not manifest to any considerable extent. We have not observed any dangerous display of impetuosity in the amendment of the assessment law. On occasions when private corporations had interests at stake. The extension of the water service to Loch Lomond recommended a quarter of a century ago, will probably be completed before long, after a reasonable period of reflection and strong pressure by insurance companies. We have a new ferry boat, but that business was not rushed through at much more than lightning speed. There is no danger of the spontaneous combustion of city hall through the feverish intensity of the proceedings in reference to west side lighting. If the city has gained nothing by the feverish haste of its government it has lost nothing. There has been no feverish haste.—Sun.

THE WORD OF PRAISE. By William J. Lampton. It's an easy thing to say it, And to say it quite strong, And to say it pretty frequent; For it helps a chap along. Oh, of course, you pay him money, Doubtless all that he is worth; But does money, man and brother, Represent the best of earth?

What's the good of keeping from him Any good thing you might say That will lift his load of labor? It's something more than pay? He's worthy of your praise. Do you think that he's a lack? If you tell him he's a good one, And pat him on the back?

There are some who think it's praiseworthy Not to raise a row and kick, And they'll pay an extra dollar To a chap that's extra slick; But it isn't that that heartens. It's the kind word and the thought For the deed done and the doer, Out of which the good is wrought.

As when the weary pilgrim, Who has trod the long hard way, With praise and praise is measured to him day by day, Hears the kind words of the Master, Like the kind word and the thought: "Well done, thou good and faithful!" It is Heaven enough for him!

SATURDAY SERMONETTE. MONOPOLISTS. From my reading I get the idea that there are only a few monopolists and that they are very rich and very wicked. From observation I find that they are as numerous as microbes and bacteria, and that they are everywhere. Man, woman and child is not a monopolist not because they do not want to be but because they are. There are two boys playing marbles for "keeps." They played until they could play no longer for one boy got crazy and will one be another (the monopolist) were full of overflowing. Two or ten young fellows are courting the same girl. They all want to monopolize her time, attention and affection. As only one can get her the rest throw stones at him and call him a monopolist.

If there are two blacksmiths in a village and only enough work for one each will try to monopolize the work. The same with butchers, bakers, candlestick makers, dry goods men and wet goods men; all want to monopolize the trade.

Will you patronize Ungar's? Your friends do. Judge Savary of Annapolis is in the city on his return from the General Synod. The Judge has been on the bench twenty-three years and about this time next year he will be able to retire on a pension equal to his present salary. He is still vigorous and active, and has been giving his spare time largely to historical work. Judge Savary's history of Annapolis county is very well known and he is the author of the genealogy of the Savary family, which is likely to go to a second edition. At one time in his early life Judge Savary was a resident of St. John, and he has a number of relatives here.

LOCAL NEWS.

Tom P. Robertson, son of John M. Robertson, 220 King street east, arrived in the city from the Pacific coast yesterday morning on a visit to his father, Mr. Robertson, let from the west about ten years ago, and this is his first visit to St. John since that time. During the last five years he has resided in San Francisco, where he is vice-president of the W. F. Boardman Co. This company represents on the Pacific coast a number of big eastern concerns in hardware lines, including the tin trust, the gas stove trust and other lines. They also do business in the Hawaiian Islands, China and Japan. The annual sales of this company amount to about two million dollars. They own a controlling interest in half a dozen gas and electric plants.

After an illness extending over five years, Mrs. Robert Staines died last night at her home, 161 Mecklenburg street. Mrs. Staines was eighty-seven years of age, and leaves several sons and daughters.

An installation service will be held in Portland Street Methodist Church Sunday evening, when the officers and teachers for the year will be installed. The whole service will be devoted to these proceedings and Rev. J. E. Ganong, field secretary, will be present and deliver an address appropriate to the occasion.

Annie Martin of Caledonia, P. E. I., who arrived in Boston for the first time this week, left from Kingston house Tuesday night, and failed to return. Miss Martin was practically without funds in Boston, and the visiting house people, former Prince Edward Island folks, made strenuous efforts to locate her, but without success, at last accounts. She started out merely for a short walk and apparently missed her way in a fog.

Clement M. Kelly, who for the past two terms has been head of the manual training department at the Kingston consolidated school, has resigned his position at that institution, and will take a medical course in the University. Mr. Kelly graduated from U. N. B. in 1901, and had a fine record there, being an honor student and valedictorian of his class. His influence at the Kingston school was strong, and his place will be one hard to fill.

ANGELICAN SYNOD CLOSED. QUEBEC, Sept. 15.—The General Synod was prorogued this afternoon, a great number of resolutions having been withdrawn or held over till next year. Amongst them were those of Rev. Dr. Langley, concerning religious education in schools, which Mr. Lake, M. P., declared related a political question, and declaring those believing the higher criticism were ineligible to hold office as professors in church theological colleges.

On motion of Rev. Dr. Scott, it was decided that the government be memorialized to establish in the various military depots of Canada well built and well equipped cafes where refreshments and temperance drinks may be obtained and opportunities for recreation afforded.

Another motion by Dr. Scott was adopted calling upon church people to discourage the pernicious habit of "treating."

A message was received from the upper house declining to concur in the continuance of the committee on the dislocate.

ALL IT NEEDED. There is more real oxygen in a liquid form in the "Solution of Ozone (the coupon kind)" than in any other form. It is the only one that is a prompt cure in the killing of all inside germs of throat, lungs, stomach or bowels. It has equal weight coupled with "Celery King" the famous laxative. That the stringent Ozone needed a tonic of this nature to procure the best results was so apparent that the Public Drug Co. of Bridgeport, Ont., offer through your druggist, a free package of "Celery King" with every fifty cent or one dollar bottle of "Solution of Ozone (the coupon kind)."

FUNNY SIDE OF LIFE.

LOOKING FOR A HUSBAND.
Tramp (at back door)—Ah, fair lady, will you—
Old Man—This is so sudden.

ON A SOUTHERN RAILWAY.

(Cleveland Plain Dealer.)
Marshall P. Wilder, at a dinner in St. Louis was telling railroad stories.

"One bright afternoon I was riding on a southern trip," he said. "It was full of sunshine and dust, and the air that swept through the open door was warm and gritty and unrefreshing. Everybody was uncomfortable, and a little boy who sat in front of me had his head poked out of the window all the time in search of coolness. Now and then, with some loud remark, he drew in his head all coated with dust and soot, and made a few white streaks over his face by dabbing it with a handkerchief.

"The boy's remarks were amusing, and we all fell into the habit of waiting for them. In the heat and dust and glaring sunshine they seemed to afford us a little relief.

"The train after a time struck a serpentine stretch of track and began to rock from side to side. Now we were hurled to the right, now we were flung violently to the left. On we went with this crazy, rocking motion, and in the distance a tunnel appeared. As always awaiting violently, we drew near the tunnel the boy in front of me in his excitement dashed quickly, and in wild excitement shouted:

"By George! I believe we'll miss the hole!"

MELODRAMATIC.
Miss Vasarward—And wasn't the professor awfully awfully provoked when he caught you in the very act of painting his door with nasty, black sticky tar?
Talton—I guess he was pretty mad about it! He told me to never darken his door again!

CHEAP TRAVELLING IN RUSSIA.

(San Francisco Chronicle.)
"He was a Russian and wanted to go back to his native land. So he dropped into the ticket office and entreated Passenger Agent Charles Miles in a debate on the reasonableness of second class rates to New York.

"Say, mister, please you make it a little bit less, please, and tomorrow I come in and buy the ticket," said the subject of the Chat. "You charge too much. Sure, you can believe me when I tell you it is too much money. I can travel from St. Petersburg to Manzhuria for \$15."

Miles explained that he had no discretion in the matter and would have to charge the established tariff rate.

"Please, mister, you make it a little less," persisted the prospective passenger. "In my country we do not treat a foreigner so. You have no money; you get on a train; you say to the conductor you have no money. Then you hand him 450 copecks, which is \$2 in your money, and he lets you ride for two days."

A GOOD IDEA.

CONUNDRUM FOR THE TELLER.

(Boston Herald.)
There is a rule in one at least of the savings banks in Massachusetts that when a passbook is presented with an order for payment from the depositor the identification of the payee is required for amounts exceeding \$100.

One day an Irishman, evidently not long in this country, appeared at the paying teller's window for a draft of \$123, presenting a passbook and an order from the owner of the book to pay Patrick Rafferty the amount.

The order was in proper form, but the payee was not known to the teller. "Do you know any of the officers here?" he asked of Pat.

"No, sir," replied Pat. "Well, then, you will have to be identified to us in some way."

"What's that?" asked the now confused Irishman.

"Why," explained the teller, "you will have to get some one whom we know and who knows you to come in here and identify you. You might be anybody, and we want to be sure that we are paying Patrick Rafferty."

Pat looked daunted and went over to a seat, and for ten or fifteen minutes looked stupidly at the passbook and order.

Finally he approached the window again, with the most dubious look imaginable on his face, and said: "Say, young feller, if I'm not Pat Rafferty, who the devil am I?"

ILLITERATE MAGISTRATE.

New Magistrate—What's the next case?
Police Sergeant—John Smith alias Williams.

SATO UPON THE JAPANESE SUMMER.
Mr. Sato, of the Japanese peace commission, presided in Portsmouth, the pleasant and stimulating coyness of the American summer in New England, and then, with hot summers in Japan, said Mr. Sato. "We have hot weather stories there, too. For instance: A philanthropic Japanese rode through the streets one scorching day when a beggar woman accosted him, holding a baby in her arms.

"Kind sir," she said, "will you not give a copper coin to your servant, who is in sore need?"

"Yes, gladly," said the gentleman, and he took out a handful of small change.

"But just as he was about to give this to the woman he chanced to look closely at her baby, and behold, it was only a great doll.

"Why," he cried, "that baby is a fraud, a sham."

"Yes, your honor," said the woman, humbly. "It was so hot I left the real one home today."—Philadelphia Bulletin.

Mrs. O'Reilly—No, I said his attack of Christian Science was cured by indigestion.

TWO SAMPLES.

(New York Times.)
Samuel Gordon, the Spanish evangelist, praised in New York American humor.

Some one instanced, as a superb piece of American humor, Artemus Ward's dictum on the Shakespeare-Beacon controversy:

"I believe these plays were not written by Shakespeare, but by another man of the same name."

Thereupon Mr. Gordon said: "That is good, but I like better a piece of humor about a tramp.

"This tramp, dilapidated, a ruin, entered a newspaper office jauntily.

"Say, only, is dis de Free Press?" he asked the editor.

"Yes, my man," the dignified editor replied. "What can we do for you?"

"I'll just set down a minute and unpeel," said the tramp. "I want creases pressed in dese here pants."

SHAH'S PROPHECIC SOUL.

(From the London Globe.)
An anecdote is being told of the Shah which shows that the Oriental imagination can at times anticipate the triumph of Occidental civilization.

When staying at Lemberg on his way to Carlsbad recently the local sights were pointed out to gratify the distinguished guest. "This," said the provincial governor, "is the old horse trap, but over there you see the new electric cars."

The Shah's curiosity was not satisfied, as he pointed to and had explained to him the horse-drawn policeman on guard before his hotel. "Why not an electric policeman?" he queried, innocently. "The local potentate was left gaping at the hitherto unsuspected backwardness of Europe."

A CONVERSATIONAL OPENING.
Rushing into the smoking car, an old man cried excitedly:

"A corker! Who's got a corker?"

A score of kindly hands sought pockets, and a score of kindly voices said: "Here you are, sir."

"I thought so!" shouted the old man, "and now I lay before you, gentlemen, fifty temperance pledges. Who will sign first?"—Chicago Chronicle.

A TURN-DOWN.

"Here y' are! Extry!" yelled the newboy. "Big accident!"

"What was the accident, boy?" asked Klossman.

"Why, de accident was dat anudder stinky cuss like you onct found out de news from me without buyin' a paper!"—Philadelphia Press.

HOPELESS.

Gunner—Hear the bicycle is to be revived, and a score of my bicycle. After Blunderwood finished learning to ride on it here is nothing on earth that could revive it.—Chicago News.

IMPORTANT PART.

Poet's wife (reading)—Here's an article by a cooking-school graduate telling how to prepare a dinner for four persons at a total cost of \$1.

The Poet—And does she give instructions for obtaining the dollar.

"A little girl I knew," said Susan B. Anthony, "went with her teacher one afternoon to visit the county prison. She became interested in a convict who was knitting stockings, and stopped to talk to the man.

"Do you find it dull here, sir?" she said.

"Indeed, I do, miss," the convict answered.

"Still," said the child, the singing of the birds helps to relieve the monotony doesn't it?"

QUALIFIED.

(Life.)
Two friends started out in life, each of them resolving to pursue his own ideal.

And one of them went out to see the world and the other became a hermit. After many years they met again.

"There is only one thing that I am very curious about—women. Have you met any?" explained the other, smiling. "Why, women have been my specialty."

"Are they valiant?" "Very."

"Are they selfless?" "Yes, enough to suit any taste."

"Have they any good points?" "Well, I should say they had."

"What are they?" "Well, they can be unselfish."

"And they can hold their tongues—when the occasion warrants it."

"You don't say?" "Yes, they are good nurses. In fact they differ widely in their capabilities. They are constant and inconstant, fickle and true, small and large, charitable and uncharitable, good, bad and indifferent."

The hermit grasped his companion's hand eagerly.

"My friend," he said, "this is all very wonderful to me—your knowledge of woman is evidently extensive. And how tell me how many of them you have lived with."

"And the friend replied: "One."

THE REPORT UNPLEASANT.
Mrs. Hoyle—They teach children very differently from the way they did when I was a girl.

Mrs. Doyle—I didn't suppose there were any schools at all when you were a girl.

THE ONLY WAY.

(Everybody's.)
Mrs. "Stonewall" Jackson, widow of the famous confederate general, who now lives in Charlotte, N. C., was chafing a lawyer of her acquaintance about the fees demanded by members of his profession.

"Still, there are occasions when a lawyer isn't the chief beneficiary of a suit," said Mrs. Jackson. "I know of one instance. A friend of mine in Virginia sued a railroad company for damages and secured a verdict for \$50,000, which was paid, and the whole amount is now in bank, subject to her order. Her counsel didn't get a penny of it."

"How was that?" "She found the only way of outfitting him."

"What did she do?" "She married the lawyer."

SHE MANAGED IT.

Knox—Our friend Meeker and the Widow Catchem were married yesterday.

Cox—You don't say! How in the world did he ever pluck up sufficient courage to marry her?

Knox—He didn't have to. He evidently couldn't pluck up sufficient courage not to marry her.

Among examples of American humor recently given in The Nineteenth Century and After, is a story which a bright ornament of the English bench is said to have told more than once.

A speaker in a western town had started out to show that there might be great differences between national and local reputation. He had said, "A man can't always tell what his neighbors think of him," when he was interrupted by one of his hearers.

"I came mighty near knowing once," said the man, with a reminiscent look, "but the jury disagreed."

DESERVED IT.

Policeman—Why did you throw that joke writer out of the window?
Magazine Editor—He came in here and asked me if tuck pants were made out of feathers.

AN UNREASONABLE SNEER.

(Kansas City Times.)
"I tell you," said a negro boot black in a West Side barber shop as he rubbed a customer's shoes, "woman is a peculiar thing. You gotta know just how to handle huh or yoh gonn' to get the worst of it. Lots of times she'll get impudant at yoh so then yoh gotta talk to huh—that's the way to mastah huh. She won't stand fo' no beatin' or nothin' like that. Talk to huh. That's the way I handle ma wife."

Another negro working next to him looked up. "Wha did you git that black eye yoh got?" he asked.

"Well, ma wife done it, but—" "Why didn't yoh talk to huh?" asked the other with a sneer.

"How could I?" came from the first. "She had me by the throat an' had ma wind shot off."

HE COULDN'T.

Mrs. Thomas—They say Jackson is living beyond his means.
Mr. Thomas—He's lucky. I get the same salary as he does, but I can't live beyond my means.

ALTITUDE VS. INSIGNIFICANCE.

(Kansas City Times.)
At a dance out in Westport a few nights ago was a very tall young man. During the evening he had a waltz with a girl at least two feet shorter than himself. It was warm, and after they had danced a little while she suggested that they go out and sit down in the yard.

"Are you very warm?" he asked, looking down at her as they walked across the lawn.

"Yes, indeed," she replied. "It's absolutely hot down here. How is it up there?"

He smiled. "Why," he said, "I'm cool. It's raining a little up here. You'll feel it down there after a while."

A NOVELTY.

His Father—So you've been playing truant again, eh? I'm going to whip you.
Boy—Then lick me in de barn, pop, an' cut out de woodshed dis time. Dat's gotten to be such an old saw now.

A MATTER OF PUNCTUATION.

(Cape Ann Advertiser.)
"A pious old lady, well known in Marblehead, had a husband who was a sailor. He was about to start on a protracted voyage, and his wife was anxious about his welfare. She sent what was intended to be the following notice to the village preacher:

"Capt. Blank, who is going to sea, his wife desires the prayers of the congregation."

As the old lady was quite illiterate, the minister read the following to the congregation from the slip handed him:

"Capt. Blank, who is going to see his wife, desires the prayers of the congregation."

PECKEN—I have been asked to join the "Married Men's Club," my dear Mrs. Pecken—indeed! And what do married men want a club for, pray? Pecken—Why, misery loves company.

ST. JOHN STAR, SATURDAY, SEPTEMBER 16, 1905.

This Store Lives, Moves and Has Its Being on a Value-Giving Basis.

You will not find so many stores brim full of new, stylish, dependable goods as there is to be seen in the new fall stocks now on display here, and such new articles has its price peculiar to this store, which is a shade under what the same article can be duplicated for elsewhere.

New Fall Dress Materials. Chevron Mixtures at 68c

This material is 44 inches wide. Plain ground, with invisible check. A good weight for fall wear.

ENGLISH CHECK SUITING, 80c yard, 54 inches wide. This is an all-wool material, with plain blue ground, and plain brown ground with just a showing of white to make the check.

PRETTY TWEED EFFECTS, at 80c, 90c, \$1.00 and \$1.10.

FLAIDS ARE IN GROWING FAVOR. They are shown here at from 80c a yard up to \$1.10.

LADIES' AND CHILDREN'S COATS. The largest and best selected stock we have ever gathered together. We are showing English, German, New York and Canadian styles in all garments. The prices for ladies' coats run from \$1.00 to \$25.00. A strikingly pretty tweed effect coat is priced \$7.45.

CHILDREN'S COATS run from \$2.25 to \$10.00.

LADIES' GOLF JERSEYS. One very attractive line now on sale is a jersey made, fancy weave jersey, which is priced \$2.00. Comes in all colors and in three sizes. Other prices run from \$1.75 to \$3.55.

F. A. DYKEMAN & CO., 59 CHARLOTTE STREET.

IMPURE MILK

is the kind most frequently gotten from grocery stores—milk that is old, tainted and poor.

We now have an up-to-date system of treating and delivering milk. We have fresh morning's milk from Jersey cows delivered to us early every morning, and it is at once put into sterilized bottles and into our new teed milk cans, where it quickly cools. We can thus deliver ice cold milk which is only a few hours old—and you can always be sure it is sweet, pure and wholesome. A small item, perhaps, but an important one to our customers.

RALPH E. WHITE, 56-62 Wall Street Tel. 571.

Trinity Precatory, No. 507, R. B. K., are requested to meet at the Orange hall, Germain street tomorrow at two p. m., to attend divine service with St. John District L. O. L., No. 1, in uniform.

The deaths during the week numbered eleven as follows: Paralytic, two, and one each of senility, enteritis, consumption, meningitis, peritonitis, typhoid fever, cholera infantum, cancer of breast and capillary bronchitis.

Adam Bell spent \$400 and over at the sale of unclaimed goods in the L. C. R. shed. Among other articles which he purchased was a trunk for which he paid \$48. The speculation was a good one, as it contained several dozen overcoats worth at least \$500.

Mrs. Anna T. Morrison, a negro woman, of 65 Brunson street, has entered an action in the supreme court against James McGilvray for \$2,000 damages for assault. She alleges that McGilvray struck her three times with great force on the head. She has retained Dr. Silas Alward to conduct her case.

B. E. Beckford, jr., deputy supreme registrar, representing the Supreme Council of the Royal Order, met the members of Sussex Council No. 472, in Odd Fellows Hall last evening and gave them an account of the proceedings of the Supreme Council session at Put in Bay, Ohio. Deputy Beckford leaves Saturday morning for Nova Scotia.

Conductor C. W. Latta, of the Intercolonial, was married yesterday at Nine Mile River, Hants county, N. S., to Miss Mary Thompson, Rev. A. E. Campbell performing the ceremony.

The bride was married in a travelling suit of blue broadcloth, and the happy couple have gone to Montreal, Toronto, Niagara Falls and Buffalo. On their return they will reside on Victoria street, Truro.

The High School Athletic Club held their annual meeting yesterday afternoon in Mr. Powers' room and elected the following officers for the ensuing year: Honorary president, Dr. Bridges; president, Thomas E. Powers; vice-president, G. Millikan; secretary, J. W. Stirling; treasurer, J. W. Stirling; vice-captain, Robert Stalling; vice-captain, James Duke; member on board of management, without office, Joseph Marry.

According to Billings' statistics, of 60,200 Jews living in the United States on Dec. 31, 1889, the average annual mortality was only .711 per 1,000 population, which is "little more than half of the annual death rate among other persons of the same social class and condition of living in the country." In spite of the fact that many of the immigrant Jews live in congested tenement districts, their rate of mortality is much less than that of the other races and peoples in the same locality, and this is so not only of America, but of Europe.

The whalebone known to commerce is the baleen plates, which takes the place of teeth in the mouth of the baleen whale. They vary in length from a few inches up to ten feet, and even in rare instances, to twelve feet. They terminate at a point in a number of coarse, black fibres of the baleen, which fibres are also found more or less down both sides of the blade, and are much used by brush-makers. Whose requires more or less preparation before being fit for use.

The death took place yesterday of Miss Laura A. Belyea at her uncle's residence, Samuel F. Belyea, Browne's Point, after a lingering illness of more than three months. She was the second daughter of James L. Belyea, proprietor of Rockdale Hotel. She leaves behind her father, two sisters, Miss Della Belyea and Mrs. Wallace Cameron of St. John and two brothers, J. Don Belyea, who is employed with M. R. and A., Ltd., and Bayard W. Belyea, who is now on his way to New York and who will therefore not know of the state's death until his arrival there a week hence.

There are now three cases of diphtheria in the city, the newest being Lillie, a child of Robert Spellman, 138 Orange street. The others are Margaret Lyden, 248 Germain street and Daley Appleby, 75 Germain street. All three are at the epidemic hospital. A Fairville case reported yesterday is that of Mamie Irvin, aged 14 years. Yesterday there was reported a case of scarlet fever, that of Fred W., four year old son of Angus Giggay of Bangor, now visiting George E. Giggay, 121 Adelaide street.

C. P. R. WOULD CAUSE BERTH NO DELAY.

A prominent C. P. R. official, talking yesterday to the Star, with reference to the new berth at St. John, said he very much doubted if any contractor could have a berth ready in February. There is considerable dredging to be done, and the plans for the warehouses to be erected on the new wharf are extensive.

As far as the railway is concerned, the C. P. R. would in no way delay the work, for as soon as the wharf is completed it would take the company but a very short time to lay their rails. Everything is in readiness for winter traffic at Sand Point. The warehouses, immigration buildings and stock yards have been well looked after during the summer, and will be ready for the first arrival. A heavy season is looked for, and it is expected that both exports and imports the coming season will exceed any previous record.

POLICE COURT.

At the Police Court this morning Daniel Gallagher was fined \$3 or two months in jail for being drunk on Water street.

James Stephens who was before the court yesterday afternoon and was remanded on the charge of assaulting a man in view of the police, was before the magistrate again this morning. He said he struck the man for insulting him. He had been drinking, it was his first offense, and if allowed his liberty he would never touch liquor again. The magistrate suspended sentence.

ORANGE CHURCH PARADE.

Tomorrow afternoon the St. John District Lodge will meet at their hall, Germain street, for the purpose of attending divine service at Exmouth street Methodist church. The Orange men of the city and county are very cordially invited to meet with the district on this occasion. The members of the order from Fairville will meet at the rooms of Dominion, L. O. L. No. 141, Simonds street, and march with that lodge to the city lodge room. Members from the west end and the Prentice Boys will also march to the hall, Germain street. The members are called to meet at 2 p. m. Rev. C. W. Hamilton will conduct the service and special music will be rendered. Service tickets have been sold throughout the church.

MORE FOR THE WEST.

On the Montreal train which leaves the city at 1:30 o'clock this evening there will be two extra cars attached for the harvesters' excursion. A speaking of the Scotch coal trade, he said that it is steadily increasing and seems likely to continue. The Indian, expected next week, will bring the largest shipment which they have yet handled, consisting as it will of 25,000 bags. An eleven bags make a ton, the boat will be carrying 2,200 tons of coal, quite a cargo in itself.

LOTS OF SCOTCH COAL.

Harold C. Schofield, who recently returned from a general business trip to England, speaking to the Star, said that very few details of next winter's business have yet been arranged. Speaking of the Scotch coal trade, he said that it is steadily increasing and seems likely to continue. The Indian, expected next week, will bring the largest shipment which they have yet handled, consisting as it will of 25,000 bags. An eleven bags make a ton, the boat will be carrying 2,200 tons of coal, quite a cargo in itself.

SPECIAL ARMY MEETINGS.

There will be very special meetings at the Brimley street Salvation Army barracks on Sunday afternoon and night, commencing at 5 and 8 p. m. These meetings will be conducted by Mrs. Leut.-Colonel Sharp, assisted by the "Sunshine Brigade." Good times are expected. Mrs. Colonel Sharp, who is well known all over the Maritime Provinces for her ability on the platform, will give some very interesting and helpful talks in these meetings. Everybody is cordially invited.

TO SELECT ST. STEPHEN'S PASTOR

The following committee was appointed by the session, trustee board and congregation of St. Stephen's church to aid in the selection of a pastor: Arthur I. Trueman, Ald. Macrae, Mr. Murray Maclellan, Peter Campbell, John Wilson, F. W. Wisdon, D. Barrie Doig, John P. McIntyre and Wm. Kerr. At a preliminary meeting the committee on Thursday arrangements were made for the hearing of certain clergymen, with a view of taking steps to fill the vacancy at an early date.

Further additions in ladies' fall coats—German made goods—just arrived and on display Monday at F. W. Daniel & Company's—Handsome garments, mostly in three-quarter and seven-eighths lengths—See advertisement on page 7.

The Duke of Newcastle, who has been visiting Canada and the United States, will sail for home in ten days. The Duke intended to visit St. John with Haley Pliske of New York, vice president of the Metropolitan Life Insurance Co., but had an engagement in Newport which prevented him. The Duke and Pliske are two of the leaders of the high church party in the Anglican communion.

John E. Palmer of Hampstead, an honor graduate in science in U. N. B.'s 1905 class, passed through the city yesterday on his way to Montreal. Mr. Palmer will enter McGill College and study medicine. Those who are familiar with Mr. Palmer's good work in the provincial university will look forward with a view of taking steps to fill the vacancy at an early date.

It has been announced that a board of officers will assemble at Halifax on the 28th instant, for the purpose of conducting the examination of Lieutenant Mark C. RICH FIND OF GOLD MADE IN IRELAND

(Special cable to the Star.)
DUBLIN, Sept. 15.—Another discovery of gold is reported from the North of Ireland. Thomas Bryson, a farmer, who lives near Linnavady, in County Derry, has for some time past suspected that his land was rich in minerals. Now in a rocky watercourse he has found the ore which experts have examined and declare to be of the highest quality. The discovery has been made, it is on the other side of Lough Foyle from Inishowen, in County Donegal, where gold was discovered last month.
