At the request of the Inspector, Mr. Samuel Wilmot was sent here to in restigate the whole subject of our fisheries, and as we intimated last week, a meeting was held in Mr. Snowball's effice, at which the Editor was present to champion his cause. As we had no notice of the meeting, we are not in a position to state whith was the nature of the evidence elicited, but if we may judge from what we were told by those who were present, the report of Mr. Wilmot will contain some strange revelations, and if we mistake not will fully corroborate the substantial truth of the statements made by the fishery officers and effectually disprove the misrepresentations of the Advance and its Editor, whose pretended solicitude for our fisheries is only a cover for his bungling schemes in the interest of a gentleman who has sadly overrated both the ability and the influence of his man.

very ingenious affair for keeping the dress from contact with the Stove, or for dryirg clothes. Works equally well with either wood or coal, costs but little more than an ordi-nary cook stove and will do double the am-ount of work with less fuel,

Warranted to be a perfect baker and only needs to be seen to be appreciated.

I am now prepared to fill orders for he above Range, and will deliver and put in omplete working order to purchasers free f extra charge. J. H. PHINNEY. Newcastle, March. 10, 1877.
