Lord Claude would leave the impression that it was I who dragged Mr. Hickson's reputation into the discussion, a suggestion which belongs to the class of statements and insinuations which his Lordship can not sustain and should have withdrawn. His Lordship it was who introduced Mr. Hickson on the scene and presented him him for general public admiration. dare say that Mr. Hickson is capable of returning the compliment and of declaring that my Lord Claude Hamilton stands head and shoulders above the ordinary railway director. But the most amusing passages between members of a mutual ing to the success of Grand Trunk mangement or lift the burthens off the revenues of that unfortunate road. Since his Lordship has once more raised the question, it is my right to point out that the Jingo policy of the Grand Trunk under Mr. Hickson is absolutely fatal to the dividends of the Grand Trunk investors. What are the facts? To secure a railway monopoly in Ontario, the management rought about a fusion with the Great Western, and so burthensome are the points on the south shore, as well as the river pooling arrangement with the river Trunk agents here and in England have steamers. Are these the proofs of that villified to the last degree, but which exceedingly able management of which is Lordship speaks? But these are not to be found in any other country in the failed to secure control of the road. It quarter in the Grand Junction Railway, a large portion of the securities were purchased by the Grand Trunk, but the was that assumed in the construction of be seen today for mile after mile, unused and worthless. The threat did not succeed and the work was abandoned. On this folly there is said to have been expended about \$500,000. Does Lord Claude Hamilton, a director, know where this amount is accounted for? If not, perhaps he will examine the details of sing, the Whitby and Port Perry, the Victoria, and the Grand Junction roads, giving a combined mileage of 300 to 400 ciles. These roads had all been bonused by municipalities as competitors of the stock, obtained a blanket act from the Ontario Legislature, despite the strenuous opposition of the municipalities, and massed the whole under the name of the Midland system. It is believed that the the giant strength and vast resources of Grand Trunk did not pay of its own five millions of Canadians will rise such monies anything approaching the sum for which the system subsequently issued bonds, and it is surmised that in this quarter may possibly be found the source from which the monies came which were

JAMES BROWN Newcastle, Oct. 6, 1884 THE NORTH AMERICAN

The Improvements claimed and obtained for this Food are, that the ingredients of Nutriment and Condiment are more Concentrated and better Proportioned than any other in the market, also that several objectionable mineral ingredients which most other foods contain are dispensed with and vegetable matter of rare fattening power substituted, so that animals may have a change of diet without suffering as they do if previously used to arsenical preparations. Smoothness of coat and brightness of eve are given to Horses. Cows give licher milk and more of it. Oxen can do more work on it. Pigs feed quicker, the pork weighs better and is of finer flavor. Poultry thrive amazingly, both in fattening and laying, and every class of animal acquires what is most essential, a perfect system of digestion and freedom from disease.

Sold in Bags of 10 lbs. at \$1; 20 lbs. \$1.75, 50 lbs. \$4.00; 100 lbs. \$6.50. With tin measure in each bag, and directions for use, with testimonials to its genuine character.
