

EUROPEAN NEWS.

By the ship Orpheus at New York, from Liverpool, London papers have been received to the 15th, and Liverpool, to 16th September.

The corporation reform bill has passed as amended in the House of Lords, the Commons having acceded to them at the recommendation of lord John Russell.

The Irish title bill was read a third time and passed by the house of lords. The royal assent was given to both bills, by commission on the 9th September.

KING'S SPEECH.

At the Prerogative of Parliament. My Lords and Gentlemen. I find with great satisfaction, that the state of public business enables me to relieve you from further attendance, and from the pressure of those duties which you have performed with so much zeal and assiduity.

I receive from all Foreign powers satisfactory assurances of their desire to maintain with me the most friendly understanding, and I look forward with confidence to the preservation of the general peace, which has been, and will be, the object of my constant solicitude. I lament that the civil contest in the Northern Provinces of Spain has not yet been brought to a termination; but, take a deep interest in the welfare of the Spanish Monarchy, I shall continue to direct to that quarter my most anxious attention, in concert with the Three Powers with whom I concluded the Treaty of Quadruple Alliance; and I have, in furtherance of the objects of that Treaty, exercised the power vested in me by the Legislature, and have granted to my subjects permission to engage in the service of the Queen of Spain.

I have concluded with Denmark, Sardinia, and Sweden fresh Conventions, calculated to prevent the traffic in African Slaves; I hope soon to receive the ratification of a similar treaty which has been signed with Spain.

I am engaged in negotiations with other powers in Europe and South America for the same purpose, and I trust that ere long the united efforts of all civilized nations will suppress and extinguish its traffic.

I perceive, with entire approbation, that you have directed your attention to the regulation of Municipal Corporations in England and Wales; and I have cheerfully given my assent to the Bill which you have passed for that purpose.

I cordially concur in this important measure, which is calculated to avert discontent, to promote peace and union, and to procure for these communities the advantages of responsible government.

I greatly rejoice that the internal condition of Ireland has been such as to have permitted you to substitute for the necessary severity of a law, which has been suffered to expire unaccompanied by a milder character.

No part of my duty is more grateful to my feelings than the mitigation of a penal Statute in any case in which it can be effected consistently with the maintenance of order and tranquility.

Gentlemen of the House of Commons. You have for the readiness with which you have supplied me with the necessary supplies.

but country by French troops, in order to maintain the authority of the Regency against parties who are in favor of the Constitution of 1812, has caused a depression nearly equal to the previous improvement, sales of Consols for Account having been made yesterday at 90 1-2, and for Money at 90 1-4.

The unfavorable tenor of the advices from Spain to-day has been the subject of much anxious conversation in the city. Some of the letters state confidently that the presence of at least 20,000 French troops will be demanded by the Regency from the government of Louis Philippe, to order to maintain the authority of the young Queen, and to crush the efforts of the parties who are clamorous in favour of the Constitution of 1812.

The Spanish treasury is also represented as being in a most impoverished state, and the funds at the disposal of Government were not likely to be much augmented except by a new loan, as many of the principal provinces had positively refused to forward to the Treasury Department the surplus collection of the Revenue.

There has been a report current this afternoon, which however, we believe, deserves no credit, that another action had taken place between the auxiliary force and the Carlists, in which the latter were defeated.

The Observer regrets that the Address from the Throne at the end of a long and laborious session should record not more than one legislative measure which has passed in that for the Reform of Municipal Corporations in England and Wales.

Captain Back arrived at Liverpool on Tuesday, in the packet ship 'North America.' On Friday he had a long audience with Lord Glenelg at the Colonial office.

Mr O'Connell has addressed a very long letter to the Duke of Wellington, and in reply to his Grace's assertion, in the House of Lords that he (O'Connell) had more power than any individual possessed since the Revolution of 1688, calls it a gross exaggeration and states that he owes all the influence he possesses to his Grace, and other noblemen like him, who opposed the measures which were intended to benefit and pacify his country.

Steamboats from Ireland to the United States.—The Galway Irishman, of Sept. contains the prospectus of a Steam company, entitled "The European, British and American Inter-course Company," capital two millions sterling, with power to add one million.—Shares £25 each. Deposit one pound. Acting manager, Thomas Birmingham, Esq. Carrismans, Kilocannel, or 23 Dover street London.

The object of this company is to shorten by about two-thirds, the time of passage to and from America to England, Scotland and all parts of Europe. It is well known that the voyage across the Atlantic from America to Europe, is an open free navigation of the sea, as far as the Irish Coast, and that afterwards the transit up the English or Irish Channel, or through the Bay of Biscay to European ports farther east than Ireland, is the portion which is most dangerous.

Death of Maj. Barry.—This distinguished man died at Liverpool, Aug. 30, while on his way to the Court of Spain to which he had been deputed by our Government.—Age 60.

IRELAND. Accounts from Kerry agree that, in the memory of man, there never has been so cheering a prospect of a superabundant harvest; nor so great a take of every sort of fish. The boats actually loaded to the gunwale with the latter on the western coast of that county.

Mr. Thomas Moore dined at Oroca on Monday, on which day Mr. Boyse arrived in Enniscomerty, in order to conduct the poet to his beautiful residence at Graigue, where Mr. Moore's arrangements will not permit him to sojourn longer than two or three days, when he will visit Wexford in company with his single-minded and hospital host.

A private, named William Sisson, of the 43d regiment, the depot of which is stationed in this town, was lodged in our county goal, on Thursday last, under a charge of robbery, preferred against him by Lieutenant J. W. Jones, of same corps. He was arrested in England.—Colonel Ado.

On Thursday last a most respectable meeting of the citizens of Waterford took place—Alderman Henry Alecock in the chair—when a highly complimentary address to the Lord Lieutenant was agreed to.

The Catholic Church.—The clergy of Cork and its vicinity have resolved to give the Right Rev. Dr. Clancy a public dinner on Wednesday, previously to his departure for America.

Dr. Whately, Archbishop of Dublin, and Dr. Ponsonby, Bishop of Derry, are the only Irish Prelates who have not signed the petition against the Church Bill.

Mr. Power, Member for Waterford county, died on Monday night.—Mr. Viliers Stuart and Mr. J. M. Galway are mentioned as candidates to succeed him.

SCOTLAND.—The King has been pleased to present the Rev. David E. Mellis to the church and parish of Tealing, in the Presbytery of Dundee and county of Forfar, vacant by the transportation of the Rev. Peter Balfour to the church and parish of Clackmannan.

INVERNESS-SHIRE.—The crops in the vicinity of Inverness have suffered much from the long drought, and in general look thin and stunted.—On heavy soils and the higher grounds, however, the prospects of a fair average return are good.

SCOTLAND.—The Crops.—Harvest is now general in Dumfriesshire and Galloway, and indeed over the whole country, if we except mountain lands, moorlands, and moors. Continued solar heat, unparalleled since the year 1827, has accelerated the period fixed on by many at the commencement of Harvest, by at least a fortnight, and expelled at the same time many gloomy forebodings, which we confess, we shared in common with others. While we rejoice to see the crops in such a state, we are not less sensible of the wrong to our country's civilization.

the facts of legal excuse, and, finally, upon the question of discreditation, when the accused is under 16 years of age.—Art. 3. If the guilt of the accused is acknowledged, and one or more of the jurymen require it, at the question of whether there be extenuating circumstances, should be deliberated upon, there shall be voting upon this point; but the declaration of the jury shall not express the result of the scrutiny, unless it be affirmative.

Art. 4. After each vote, the foreman of the jury shall examine the votes in the presence of the jurymen, and shall immediately inscribe the result on the margin, or at the foot of each question decided, without, however, signifying the number of votes, except when an affirmative decision is come to by a simple majority.

If it should happen that among the bulletins there should be found any that does not declare any vote at all, it shall be counted as giving a negative answer to the question put.

Art. 5. Immediately after each scrutiny the bulletins shall be burnt in the presence of the jury. The other Royal Ordinance is composed of—1. "The previous authorization required by Art. 19. of the law of 9th Sept. 1835, shall contain a summary description of the design, engraving, lithography, print, or emblem, desired to be published, and the title intended to be given it. The author or publisher shall be bound to produce this whenever required. When impressions of an engraving, lithography, print or emblem are to be multiplied the author or publisher, on receiving the authorization, shall deposit at the office of the Minister of the Interior, or of the Secretary of the Prefecture, a proof, which may serve as a copy for comparison. He shall certify the conformity between this proof and the impressions he proposes to publish. The 2d and 3d articles prescribe similar rules with regard to the multiplication of Medals of the Royal Mint, which private engravers are entitled to have struck there, under a decree of the 24th March, 1834, and an ordinance of the 24th March, 1832. These authorizations are to be inserted in alphabetical order weekly in the journal of the book trade.

The Montieur publishes a circular letter of the Keeper of the Seals to the Procureur-Generaux throughout the kingdom, which, after recommending the laws and ordinances of the 9th of September to their careful attention, desiring them to report on the advantages and inconveniences resulting from them, concludes with the following sentence:—"France desires order, the charter, and the King, who has sworn to the charter, and whose first thought is to cause it to be respected by others as he respects it himself. It depends on your zeal that the august objects of the political fate of France shall not be scandalously violated with impunity within your jurisdiction. The continuance of so many frightful excesses, by perverting the public mind, retards all social improvement, and leads to the renewal of crimes, which we have all had to deplore, and which do the most deadly wrong to our country's civilization."

its own reward. The gentleman who recently died, could not but have been a most interesting character, and one who would have been found to contain the above munificent deed, of which Mr. Wood has been so noble an actor!—New Jersey, Gazette.

HUTCHINS AND WINTERBORN POTATOES.—The potato practice pursued by our best farmers, generally induces me to state the manner I have adopted for years with unvaried success. To prevent 5 or 600 bushels, I make a box or bin 4 feet wide, 4 feet high and sufficient length to contain the required quantity—have the joints well fastened and side as tight as possible—put into the cellar bottom. The potatoes are intended to be taken out at different times, two or three partitions should be put in across of the bin, to preserve such as are not required for immediate use from exposure to the atmosphere. After the preparation is completed, the potatoes are put in a galvanized and luted tin.—Here I must again dissent from the usual practice of farmers generally. Instead of leaving them in the sun and wind to dry, after digging, in small parcels, in air or heaps, they should be immediately covered with top, or something else, even if they remain in the field but a few hours. This destructive practice, most I think, is entirely attributed to want of reflection. It is the sole cause which produces the evils so much complained of, by us called the warty potatoe—by the Irish warty potatoe—destroying not only the flavour, but a great portion of the nutriment. In fact, sea, wind and rain are destructive to a new dug potatoe, as much as to a fresh caught fish. When your potatoes are removed to the cellar, put into the bottom of the bin two inches of fresh earth; then fill one apartment with potatoes; with three or four inches of the top—immediately cover with rough grass turf, cut up with the spade a little, done falling to the thickness of three or four inch; cover them with turf, grass side up, packed close, and pounded down with a wooden maul, to exclude as much air as possible. In this manner in a clear or suitable temperature, they may be kept for a year without germinating. No digger is to be apprehended of having too much dirt sick to the potatoes—It is as in preserving them, in occasional sprinkling of fresh earth among them will be found serviceable.—Grassia Farm, &c.

THE LEGACY.—We understand it is would be more accurate to say, that the English legacy of £200,000 was bequeathed "to the United States, for the purpose of establishing an University at the seat of Government for the promotion of the arts and Sciences." The money, we are informed in the hands of the Lord Chancellor of England ready to be paid over conformably to the will, which fact he has communicated to our Government, with a copy of the will.—No Int.

Lord Stanley who is returning to Kinsale, from attending his duties in Parliament, has fallen upon a rather novel mode of locomotion. It appears that, last year, when his lordship and family travelled post, from London to Lancaster, his lady was much annoyed by the fatigue of the journey, which was attended by very inconvenient and rather serious consequences. To avoid a repetition of this evil, his lordship has engaged one of Messrs. Pickard & Co's light fly boats and is actually coming down by canal! The boat has been neatly fitted up for the occasion, and Messrs. Pickard & Co. have undertaken that the length of the voyage from London to Liverpool shall not exceed 48 hours.

We have to apologize this Editorial notices, in consequence of Mr. SMITH, who left yesterday, with the St. Andrew's Rail Road exploration party, however, that the additional topographical information obtained thereby, will simply Public, for any deficiency of returns.

Fire.—We are sorry to see that the Saw Mill belonging to Geo. on the Macaularie River, was on fire, and two men who were perished in the flames.

On Thursday the 23rd inst. in age, Mr. Isaac KERRISON. The wife of Ireland, born in the County of Wick, and who had been engaged to this country in the last numerous and respectable, pointed by the members of the H. 138, of which he was late master.

EUROPE.

Sept. 25. - The Paris papers announce the arrest of...

The Earl of Chatham died yesterday. By his demise, the title of Earl of Chatham is now extinct.

We are assured that the Portuguese government has refused to the any part in the settlement of the disturbances in Spain unless an example be set it by the cabinets of London and Paris.

The German papers mention that crowds of Italians have taken refuge in Bavaria from the cholera.

MEDITERRANEAN SQUADRON. - A letter from Toulon of the 3d of September says: "The English Mediterranean Squadron, commanded by Admiral Kowley, cast anchor on the 13th of August, in the evening, in the port of Corfu."

EAGLE'S NEST. - Whilst a herd was tending his sheep on the Pentland Hills a few days ago, he found in the cavity of a rock a nest of that rare Bird the Golden Eagle.

DEATH OF PAGANINI. - A letter was yesterday received in London conveying the mournful intelligence of the death of this celebrated violinist at Genoa.

NEGOTIATIONS are pending for a marriage between the Duke of Orleans, eldest son of Louis Philippe and the eldest daughter of the Emperor of Russia.

SHIPWRECK AND LOSS OF ONE HUNDRED AND THIRTY LIVES. - The coasting ship George the Third, bound to Hobart Town, was lost on the 12th April, and out of 292 who were on board 132 perished.

FRANCE. The Monitor contains a proclamation for the propagation of the French Chambers, and a list of thirty new peers, most of whom are mere dependants on the Court, and of exceedingly small reputation.

ADVICES from Spain state that the suppression of the monastic institutions will place a sum of 29,000,000 to 29,000,000 sterling at the disposal of government, after making a life provision for the aged religious.

A change of Ministry has taken place in Spain. - General Alava is appointed foreign minister, M. Mendizabal of Marine, Mariano Aurore, of war, and don Martin de los Herreiros, of the interior.

The reported battle of the 11th turns out to have been a skirmish, in which for the most part, Portuguese only were engaged; but one English battalion, was in the fight and sustain a loss of two killed and ten wounded.

The change of Ministry seems to have already produced a good effect. The junta of Murcia has dissolved itself, and it was hoped that the other provinces would speedily return to their confidences in the government.

A conspiracy had been discovered, on the night of the 15th in the barracks of the cuirassiers. Ten Sergeants were arrested, and some important papers seized. The conspirators were Carlists, and it is proposed to operate by proclaiming the constitution of 1812 in Madrid.

A letter from Cadix, under date of Sept. 4, says: "The people are in arms and declaring for the constitution and liberty America, as they term it. The convents have sacked and the friars obliged to fly, and some of them have been killed. The troops are much engaged. It is reported that Don Carlos is on his gaining tack. Fraits are scarce and high."

PORTUGAL. The abrupt dismissal of the Portuguese ambassador at the court of the king of Sardinia is now ascribed to the breaking off of the negotiations for the young queen's marriage with the prince of Carignano.

More MOONSHINE. - Though stories are becoming too common. "Humming all the trade is," among the newspapers, and, like the player-folk complained of in the critic, when they get hold of a good thing, they know when to be done with it.

It is not PAGANINI, the fiddler who is dead. He has lost a brother, but is himself yet on the surface of the earth instead of being below it, as was reported. We may yet have a chance of hearing this modern Orpheus.

More MOONSHINE. - Though stories are becoming too common. "Humming all the trade is," among the newspapers, and, like the player-folk complained of in the critic, when they get hold of a good thing, they know when to be done with it.

perfect respect and protection for the property of all Sardinian subjects - until the renewal of amicable relations. No further steps had been taken in the queen's marriage.

ADVICES from Greece are to the 15th August. There was much ferment among the people on account of taxation. Formerly among the Turks, their practice was to refuse to pay, and allow their masters to take their own course. They wish to follow the same course now. The people are adopting European habits in their domestic arrangement - copying the dress of the French.

FROM Italy we learn that there are causes of alarm for the public tranquility - but nothing is said of the cause. The Cholera still fills the Italians with anxiety.

Constantinople, Aug. 26. - Great preparations are making against the insurgents in Albania. The accounts from that country are by no means tranquilizing, and the reinforcements are being sent there daily both by sea and land. The news from Persia is still deplorable. Civil war continues to rage there. On the 23d, Mr Ellis, the British Ambassador, appointed to congratulate the Schah on this accession, arrived here in the pilot, a steam vessel, in which he intends to make a voyage to Trebizond. The plague is subsiding at Smyrna, but is increasing here.

The Odessa letter gives accounts from Constantinople, which state that an army of the Taurus consists of 16,000 men, and is further reinforced by four regiments of the Turkish Guards, with artillery. The commander, Mehemed Reschid Pasha, continues the war against the Kurds, and has just gained a victory over one of the most formidable tribes of those barbarous hordes. Three hundred prisoners were sent in chains to Constantinople, but the ship of war in which they were embarked foundered in a violent tempest.

IMPORTANT FROM TEXAS. A slip from the office to the New Orleans True American, dated 13th inst., announces the receipt of an extra from the Red River Herald containing the following important intelligence.

WAR IN TEXAS. - GEN. COS LANDED NEAR THE MOUTH OF THE BRASSOS WITH 400 MEN. Isaac has just arrived from Texas bringing the intelligence that Gen. Cos has landed near the mouth of the Brassos with 400 men, with the intention of joining the 700 federal troops stationed at San Antonio de Bejar, and marching upon the people of Texas. He has issued his Proclamation, "declaring that he will correct the revenue, disarm the citizens, establish a military government, and confiscate the property of the rebellious." Messrs. Johnson and Baker bare the express from San Felipe to Nacogdoches. Stephen S. Austin has written to several citizens of Nacogdoches, that a resort to arms is inevitable.

They have hoisted a flag with the "Constitution of 1824" inscribed on it, and two hundred freemen have gathered around it, determined to stand or fall with it.

We submit the following letter from General Houston to the gentleman who brought the intelligence.

SAN ANTONIO, TEXAS, 5th Oct. 1835. Dear Sir - At your request I hand you a memorandum, that you may be informed of our situation. War in defence of our rights, our oaths, and our constitution is inevitable in Texas!

If volunteers from the United States will join their brethren in this section, they will receive liberal bounties of land. We have millions of acres of our best lands unchosen and unappropriated.

Let each man come with a good rifle and one hundred rounds of ammunition - and come soon.

Our war cry is "liberty or death." Our principles are to support the Constitution, and down with the Usurper. Your Friend, SAM HOUSTON.

We have no time to make any comments. The people of the United States will respond to the call of their brethren in Texas!

UNITED STATES. William Summers, the young man who absconded from his employers, Messrs. Ashley's bankers in Regent street, London, taking with him £3,240 in Bank of England notes, 400 sovereigns, and about £40 in silver, was arrested at Quebec on the 14th inst, and confessed his guilt. He gave up about £1,300 of the property. The circumstances which led to his detection, was his offering one of the £50 notes to the Montreal Bank. He states that George Jackson, his accomplice in the robbery, left him at Dublin, taking about two thirds of the booty. - New York Ad. and Ad.

It is not PAGANINI, the fiddler who is dead. He has lost a brother, but is himself yet on the surface of the earth instead of being below it, as was reported. We may yet have a chance of hearing this modern Orpheus.

More MOONSHINE. - Though stories are becoming too common. "Humming all the trade is," among the newspapers, and, like the player-folk complained of in the critic, when they get hold of a good thing, they know when to be done with it.

The abrupt dismissal of the Portuguese ambassador at the court of the king of Sardinia is now ascribed to the breaking off of the negotiations for the young queen's marriage with the prince of Carignano.

tern district of Tennessee, which gives an alarming account of a deep laid plot, by those Western insurrectionists. The writer states that a steambot came up the Mississippi river very recently, and inquired of the inhabitants of Tippon County, if they might be permitted to bury some fifty persons, who had died on board with Cholera. Leave being granted, they proceeded and buried them. The inhabitants seemed somewhat surprised at the singular appearance of the coffins; and after the boat had left, it became a matter of much talk and speculation. Finally they determined to disinter, and examine them. Accordingly an examination took place: when, lo! instead of finding the bodies of dead men in the coffins, or boxes, they were filled with arms and ammunition. No doubt they were intended to be used in some contemplated insurrection or other bad cause. Our correspondent says the people in that section, are of the utmost alarm and confusion; and that they have determined to search every grave on the Mississippi.

There will be about fifteen millions of dollars, surplus revenue, in the United States Treasury this year, and there will be some trouble in disposing of it. A war with France would be very opportune, and prevent all difficulties on that score.

COLD AT THE SOUTH. - In many parts of Georgia, ice as thick as a dollar was formed on the morning of the 3d inst. The cold was felt severely in Savannah and Augusta.

HONOR TO WHOM HONOR IS DUE. - We copy the following article from the Albany Evening Journal, with as much real pleasure, as we recollect ever to have experienced on any occasion upon which Collegiate honors were conferred upon a fellow citizen.

A COLLEGE HONOR, WORTHILY CONFERRED. At the late Union College commencement, the Honorary Degree of A. M. was conferred upon John Patterson, of this City, a Journeyman Printer, whose mathematical attainments entitle him to that distinction. Mr Patterson who served his apprenticeship at Buffalo, came to this city about twelve years ago, where he has since worked as a Journeyman. He is now one of the most practice printers in the Union. By devoting those hours of relaxation, which most of us idle away to severe study, Mr Patterson has not only stored his mind with useful general information, but acquired a knowledge of Mathematics which was won for him a degree from one of the most reputable colleges in the Union. In addition to all this, with a family to support from his earnings, Mr. Patterson has gathered up about \$3000, the fruits of toil and economy. Such an instance of industry and frugality, combined with high intellectual aspirations, is worthy of the palmy days of Rittenhouse, and Franklin.

The London Gazette of September 23d contains the following announcement: - "The King has been graciously pleased to nominate and appoint Henry Stephen Fox, Esq. now his Majesty's Envoy Extraordinary and Minister Plenipotentiary to his Majesty's the Emperor of Brazil, to be his Majesty's Envoy Extraordinary and Minister Plenipotentiary to the U. States of America. - Ad. & Ad.

THE GREAT STEAMBOAT SPEED. - The Captain, Capt. Gorham, left New York on Wednesday, 7 o'clock A. M. made 14 landings, and arrived at Albany 14 minutes after 4 P. M. beating the Bunker Hill 46 minutes. This is the greatest steamboat speed on record. - Alb. Eccl. Journal.

THE GULF FISHERIES. - Neilson's Gazette, in noticing a paragraph from an American paper, says: "It shows to what an extent the Americans carry on fisheries in the Gulf of St. Lawrence. Two thousand five hundred vessels, manned by what we should suppose six to eight men each, or employing fifteen to twenty thousand hands for three months, at £2 a month, making the total amount of wages £90,000 to £120,000. The capital employed, and the necessary profits, must make the resources of such a trade of very great value. The 100 barrels given as the average catch may be estimated at 15 each, or £75 x 2500 = £1875000 and this is called a scarce year. Why is the Gulf, wholly surrounded by British settlers, so exclusively used by citizens of the United States, - in this branch of fishing alone, - cod, seal and herring not being taken into account? It must be owing to their superior intelligence, industry and enterprise.

With feelings of the deepest regret, we announce the death of the Hon. Capt. Norton, son of Lord Granley, and Son in Law to His Excellency - and Captain in His Majesty's 52d regiment. - This sad event took place at 11 o'clock on Tuesday evening this illness was of seven days duration - the effect of cold - his sufferings, most of the time, were painful and severe, but he bore them with great fortitude. Though the period of the residence of this worthy man in this garrison was but short, his excellent disposition, and social unassuming habits, greatly endeared him to a numerous circle of acquaintances. Funeral to-morrow at half past two o'clock. - Gaz.

The Mexicans continue to annoy the settlers in Texas by every means in their power. Not only have large bodies of troops been marched into Texas, but the neighboring Indians have been stirred up to attack the colonists. The Camanches and Cherokees have made several incursions. Ex-Governor Houston, and several other influential gentlemen in Texas have written to Washington to entreat the interference of the National Government, in their behalf. The New Orleans Bee calls Americans to "rescue to save their brethren from massacre by the hands of hired Indians. It is evident that affairs are rapidly approaching a crisis in that quarter, and the result of it may be the addition of Texas to this republic. As one of the means tending to that end, we learn that two Mexican armed vessels have been sent out from Vera Cruz, with orders to cruise on the Coast of Texas, for the purpose of capturing the American Schooner San Felipe, which took the Cocon, and her private, Captain T. J. J. J.

and brought them into New Orleans. The battle once begun, if these miserable Mexicans have the courage, the flame will soon spread, and it is easy to anticipate the result.

LOOK OUT FOR FORGED NOTES!!! - We have two paper factories of our own, but it seems the scanty supply issued by them does not equal the demand, for almost every man among us in possession of three promissory notes, finds at least one of them, a New Brunswick note, and a great many of the New Brunswick Notes are forged. - five shilling notes patched up into "five pounders" and ten shilling ones into "ten pounders." The careless manner in which these notes have been at first executed affords abundant facilities to such as are ingeniously disposed to exercise their talents in this way; so that by clipping a few of the superfluities from a "five" or "ten pounder" and therewith embellishing the imposing frontispiece of a less pretentious "five" or "ten" shilling ticket, any gentleman disposed to speculate, can make a clear profit of nine pounds and ten shillings on two of "them ere bits of rags, in a minute less than no time." - Pictur. Bee.

PROVINCIAL. From the Fredericton Gazette, Oct. 28. AT THE COURT AT SAINT JAMES'S. the 26th of August, 1835.

PRESENT: - Lord President, Viscount Melbourne, Lord Privy Seal, Lord Auckland, Lord Chamberlain, Lord Glenelg, Earl of Albemarle, Sir John Robinson, Lord John Russell, Mr. Chancellor of the Exchequer, Viscount Palmerston.

Whereas the Legislative Council and Assembly of His Majesty's Province of New Brunswick did in the month of June last, pass an Act which has been reserved by the Governor for the signification of His Majesty's pleasure and transmitted entitled as follows, viz: - "An Act for the commutation of His Majesty's Quit Rents in the Province of New Brunswick." And whereas the said Act has been referred to the committee of the Lords of His Majesty's most honorable Privy Council, appointed for the consideration of all matters relating to Trade and Foreign Plantations, and the said Lords of the Committee have reported, as their opinion, to His Majesty, that the said Act should receive His Majesty's special confirmation; his Majesty was thereupon this day pleased, by and with the advice of his Privy Council, to declare his special confirmation of the said Act, and the same is hereby specially confirmed, ratified and finally enacted accordingly; Whereof the Governor, Lieutenant Governor or Commander in Chief of his Majesty's Province of New Brunswick for the time being, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

C. GREVILLE.

AN ACT for the commutation of His Majesty's Quit Rents in the Province of New Brunswick. Passed 24th June, 1835. Most Gracious Sovereign,

Whereas it is deemed expedient to grant to your Majesty, your Heirs and Successors, a certain annual sum of money, in Commutation and in full discharge of all Quit Rents now due, or to become due, to your Majesty, your Heirs and Successors, in this Province, by virtue of any Grants, or Letters Patent, from the Crown, heretofore made of Lands within this Province;

And whereas your Majesty's dutiful and loyal Subjects the Assembly of New Brunswick, in General Assembly convened, and as for a commutation of all Quit Rents reserved to the Crown in and by Grants of Land within this Province, have freely and voluntarily resolved to give and to grant unto your Majesty to make and improve Roads and Bridges within this Province, an annual sum of money to be expended in such manner for the above purpose, as your Majesty, your Heirs and Successors, may deem most conducive to the welfare of your Majesty's said Province, and do therefore pray your Majesty that it may be enacted;

I. And be it enacted by the Lieutenant Governor, Council and Assembly, and by the authority of the same, That there be and there is hereby granted to the King's Most Excellent Majesty, his Heirs and Successors, the annual sum of Twelve Hundred Pounds, currency, in commutation and in full discharge of all Quit Rents and arrears of Quit Rents now due or to become due, reserved in and by any Grants or Letters Patent from the Crown heretofore made of any lands within this Province; the said annual sum to be drawn from the Treasury of this Province, by Warrant or Warrants of His Excellency the Lieutenant Governor, or Commander in Chief for the time being, by and with the advice and consent of His Majesty's Executive Council.

II. Provided always, and be it enacted, That the said annual sum hereby granted shall be applied by His Majesty, his Heirs and Successors, towards making and improving Roads and Bridges in this Province, and to and for no other use or purpose whatsoever.

III. And be it enacted, That a detailed account of an expenditure of all such sum or sums of money as shall be drawn from the Provincial Treasury, by virtue of this Act, shall be annually laid before the House of Assembly of this Province.

IV. And be it enacted, That should any sum or sums of Money payable by his said Majesty, his Heirs and Successors, by virtue of this Act, remain unexpended for the space of three years next after the same shall become due, other than for want of monies in the Province; the same shall revert to and become part of the Revenue of the Province, any thing in this Act contained to the contrary thereof in any wise notwithstanding.

V. And be it enacted, That this Act shall not be in force until His Majesty's Royal approbation be thereunto had and declared.

THE WEATHER continues unusually mild, considering that the season is so far advanced. On Monday morning it was greeted by the fall of a few flakes of snow - the first for the season. The air continued generally moist and foggy until this morning, when a change of wind to the Northward, brought with it a clear atmosphere, and a healthy, bracing breeze. - Courier.

THE WEATHER. - Last week, we made a passing notice on the extraordinary mildness of the weather, which continued without any interruption until Sunday, when the wind came round to the northward. The air has since been bracing and cold, and more like the weather we usually experience at this season of the year. - Glasgow.

NEW BRUNSWICK MARBLE. - We have had an opportunity of examining different Specimens of beautiful white Marble, brought from an extensive and valuable quarry lately discovered at Musquash, and owned by Messrs. Woodward. We understand that it is the intention of those enterprising Merchants to have the quarry opened on an extensive scale which will at once give many of our citizens an opportunity, and at a cheap rate, of beautifying their dwellings with this rich and chaste building material, while at the same time it will prove a valuable article for export either to the home market as ballast, or to the United States. As all our vessels require a large amount of ballast, we are of opinion that each might make a profitable business by carrying it in place of the present unproductive system. The marble has been pronounced by competent judges to be equal to some of the Italian white marble, which generally sells at New York at ten dollars a cubic foot; so much for the value of the article in the United States. One of the specimens which we examined, contains serpentine blended with it, which gives it a beautiful appearance, and forms a valuable compound for ornamental purposes, and is generally known by the name of Verd Antique.

We most sincerely trust that the quarry may realize the fondest hopes of the proprietors, for every man who is instrumental in developing the resources of our highly favored province, is justly entitled to the best wishes and thanks of the community at large; for all have an interest in whatever tends to promote the general prosperity of the Country. - City Gazette.

IN THE SUPREME COURT. Michaelmas Term, 6th William 4th. George Dixon Street, Esq. Attorney at Law is called to the Bar Sworn and enrolled a Barrister of this Court.

Newton Ward Wallop, Stephen Rappallier, Thomas, Thomas Burton Abbott, and Christopher Milner, Gentls. having produced the usual certificates, are sworn and admitted Attorneys of this Honorable Court.

David Shank Kerr, an Attorney of Nova Scotia, having produced the requisite certificates is called to the Bar, sworn and admitted an attorney of this Honorable Court.

Pro. Office. Last Tuesday was launched from the ship yard of Mr. George Thomson in Portland the barque "Campbell's." She is copper fastened and coppered, and was completely rigged on the stocks. She was launched in fine style, and is a beautiful vessel. - We are informed she was built for James Campbell, Esq. of St. Andrews. - Gazette.

The St. Andrews Standard. THURSDAY MORNING, OCT 29, 1835.

LATEST DATES. Via N. York, Oct. 29. Via St. John, Nov. 3. Havre, Sep. 24. Halifax, Oct. 28. London, Sept. 25. Longon, Sep. 26. Liverpool, Sept. 27. Liverpool, Sep. 28. N. Orleans, Oct. 13. Quebec, Oct. 26. To this Port direct - London, Sept. 27.

Charlotte County Bank. HARRIS HATCH, Esq. President. Director next week, - John M. Nester, Esq. DISCOUNT DAY, - THURSDAY. Hours of business, from 10 to 2.

LETTERS and NOTES for Discount must be lodged with the Cashier on or before WEDNESDAY, either wise they must lie over until next week.

ALMS HOUSE AND WORK HOUSE. Commissioners next week - Thomas Sims.

Dates to the 29th Sept. have been received but they furnish nothing of importance. European extracts are given in another column.

THE QUIT RENTS. We congratulate the people of this Province upon the final settlement of this important question; which has been settled in so satisfactory a manner.

The Fredericton Gazette states upon authority, that His Excellency the Lieut. Governor has declared his intention of applying to the Home Government, for permission to return to the persons who, when called upon, came forward and paid the Quit Rents, the amounts so severally paid by them.

The names of the unfortunate men who were burned in the Bay Mill belonging to George M. Kenzie Esq. were THOMAS NICKERSON, of Queen's County N. B. and ALEXANDER HORTON, of Day of Casco, Nova Scotia.

Married. At Fredericton on the 4th inst. by the Rev. Archdeacon, S. P. Fink, Esq. of St. Stephen, to Mrs. J. S. Fink, eldest daughter of Capt. G. Fink, of St. Mary's.
