"The Union Jack"

(By Kitty Perkins)

In 1603 Scotland joined the Union with England. At this time James VI, of Scotland, became King James of England. He was the son of Mary, Queen of Scots, and the first King of England and Scotland. In 1606 they had the first "Union Jack," and in 1707 the Union Jack was used on both land and sea. Ireland joined the Union in 1801, and we then had the three crosses—St. George's, St. Andrew's and St. Patrick's in our flag.

St. Andrew was the Patron Saint of cross on a blue ground; St. George's is a vertical red cross on a white

ground. St. Patrick's is a diagonal red cross on a white ground.

St. Andrew was the Patron Saint of Scotland, he was the first apostle and was taken as a Saint by Scotland in 740.

St. George was the Patron Saint of England. He died in 303 on April 23. Soldiers wore badges with his cross on them in 1500.

Years ago when St. Patrick was teaching in Ireland he showed the people how "Trinity" was Three in One, by means of a shamrock which he picked from the roadside. Ever since then the shamrock has been the emblem of Ireland.

St. Patrick's Day is the 17th of March.
St. George's Day, the 23rd of April.
St. Andrew's Day, the 30th of Nov.

Visits Rebekah Lodge

Miss Ethel Johnston of St. Stephen, Vice-Pres. of the Rebekah Assembly of the Maritime Provinces of Canada and Newfoundland, paid an official visit to Myrtle Rebekah Lodge No. 46, Middleton, on Thursday evening.

Miss Johnston is a very pleasing speaker and the large attendance listened to her address with marked attention. At 9.40 the officers and members of Sunbeam Lodge were invited to an "At Home" tendered on behalf of the Vice President, and lodge closed to admit the brothers.

A splendid programme was given consisting of original songs composed by the lodge poets, and addresses by the honored guest and visiting brothers and sisters, after which refreshments were served and all left for their homes having spent a most profitable and pleasant evening.

In the afternoon D. D. P. Mrs. Amy Cummings entertained the P. N. Gs. and officers of the lodge to an afternoon tea in honor of the Vice President, and here also a very jolly time was spent.

Myrtle Lodge is one of the live lodges of the jurisdiction and its members are ever ready to seize every opportunity for doing good.

"The season for presents is at hand, and the Middleton Valley Bakery will make its debut in this respect, by giving each customer, who buys One Dollar's worth of goods on Saturday, 29th, a package of Goody Seeded Muscat Raisins. These Raisins have just been imported. They are fresh and delicious.

Harry Murray coming. Coming to the Armada Theatre on Friday, Nov. 28th is a provincial favorite. Harry Murray, formerly leader 85th Band Concert Party and well known to all theatre-goers for his presentation of "The Old Homestead" with an all-soldier cast. This year he has his own company presenting "The Rosary" a comedy drama in four acts. Special scenery, music and electrical effects. A show for the family. 1p

A very pleasant surprise was given Mr. and Mrs. E. L. Chipman on Saturday evening when a number of their friends gathered at their home in honor of the 20th anniversary of their marriage. The evening was spent in games and music, and delicious refreshments were served. Rev. W. D. Wilson, in behalf of those present, presented Mr. and Mrs. Chipman with a purse of \$10.00. After singing "Auld Lang Syne" the company departed to their homes, wishing the bride and groom many happy returns of the day.

A special meeting of Rosemary Chapter of I. O. O. F., held last Saturday afternoon, made necessary by the resignation of the Regent, Mrs. H. W. Kirkpatrick and of Miss Gladys VanBuskirk, both of whom will shortly leave Middleton. Miss Olga Sponagie was appointed Regent, and Miss Emma Dickie, Secretary. A luncheon was then served by the hostess, Miss VanBuskirk. The next meeting is to be held at the home of Mrs. J. A. Reagh, to make plans for the presentation of the Lyceum entertainments which have been engaged to play here.

We understand that Dr. and Mrs.

H. W. Kirkpatrick and family intend leaving this week for their new home in Halifax. They will be greatly missed from our midst, as they were very prominent figures in the social, community and church life of this town. Dr. Kirkpatrick as an eye, ear and nose specialist had a splendid practice here in the Valley and the people will regret indeed his departure. However, what is Middleton's loss will be Halifax's gain, and we are sure that we speak for the entire community when we state that the well wishes of all will go with them.

An interesting function took place on Friday evening last, when the "Kula Kula," C. G. I. T., group of the local Baptist Church held a "Mother and Daughter Banquet." The guests were the mothers of the girls comprising the group. After the sumptuous repast had been enjoyed, the following toasts were given, each proposed by a girl and responded by a mother: "The King," "The Church," "Our Mothers," "The Junior Group of the C. G. I. T. of the same Church served in an efficient manner. The president of the Kula Kula group, Miss Dorothy Simms, and the leader is Miss M. Harlow, and although newly organized is doing efficient work.

There are cranberries and cranberries. There are good cranberries grown in the Valley, but we think the Valley must doff its lid to the Shore in the case of Cranberries, because the Shore folk produce real cranberries. Possibly they try to "give" this peculiar berry more attention—at any rate the berries are superior. Over at Mr. D. H. McLean's not long ago we had the privilege to gaze upon about 25 barrels of the finest cranberries that eyes ever gazed upon—all grown on Dave's plantation—and they were swell berries too, all nice, uniform and red. Being the recipient of a generous quantity of these cranberries, we speak from sight and taste—therefore we know they were good. Thanks Dave, we'll see you again in cranberry time.

The Congregation of the United Church continued their observance of the opening of their new church last week, when a rally was held in the interests of the mid-week meeting. Rev. H. P. Patterson of Aylesford gave an address on Bible Study, and Rev. J. H. Freestone of Bridgetown spoke on the place of the prayer meeting in the life of the church, and gave some new ideas concerning the carrying on of the mid-week meeting. On Sunday at noon a rally of the Sunday School was held. At this meeting of the school a number of certificates were given to pupils, advancing from the Cradle Roll to the Primary class. A special program was the order of the day. A very large number were in attendance considering the disagreeable day.

Item by W. J. McKnight, D. D. taken from "The Christian Nation," published in New York City: "My first Sabbath, at home after my vacation was an occasion of great sorrow in the First Boston Congregation. Mrs. Jane Nixon, who for fifty years has been a real pillar in our church, and who had retired in her usual health the night before, was found dead in bed Sabbath morning. The news had reached the entire congregation before the hour of worship, and the message of the day was delivered from a heavy heart to heavy hearts. She lived on the second floor of a spacious apartment, and on the day of her funeral both her own apartment and the apartment above her on the third floor were filled to capacity and the stairway was thronged clear down to the street. Mrs. Nixon was one of those rare persons who never made an unkind remark about anybody, and who never saw the poor need without helping them. No wonder people loved her. No wonder our hearts were sad that Sabbath morning. The 14th of September, 1924, will not be forgotten by First Boston in many a year."

ENGLISH YPRES

How many people know there is a Ypres in England? This is the ancient Ypres Tower, situated in the historic Cinque Port of Rye. This quadrangular building, still in excellent preservation, was built in the 12th century by William Ypres, Earl of Kent, as a protection against French invasion. It is one of fate's ironies that the people should have figured so prominently in the recent war when the same nation was our Ally.

**Accident Results in
Death of Teacher****Mr. Frank Andrews Succumbs From Injuries Sustained
Last Friday. Was on High School Staff Since
1903. Well-Known Authority on Canadian His-
tory and Politics Was Frequently Consulted. Sat
in Nova Scotia Legislature.**The Daily Colonist, Victoria, B. C.
Wednesday, November 12.

The death early yesterday morning of Mr. Frank Andrews, 1388 Pandora Avenue, was the unhappy sequel of the accident which he suffered last Friday evening when returning from the Melghen meeting at Pantages Theatre. On his way home he went to the Westholme Hotel to call on a friend and owing to failing sight he made a misstep in the dark and fell down the steps leading to the basement. Unconscious when picked up, he was rushed to the Jubilee Hospital and found to be suffering from concussion of the brain and a fractured arm. His dangerous condition from the first leaving little room for hope. The greatest sympathy is extended to the widow. No arrangements have as yet been made for the funeral.

The late Mr. Frank Andrews, who was seventy-two years of age, was a native of Victoria, Vale, Annapolis County, Nova Scotia, son of Mr. John Andrews, a Cornishman, who came to Canada and settled when a young man. A clever student, he took his B. A. degree from Acadia University in 1881, and took up teaching, a profession for which he proved himself eminently qualified. He had attained the principality of one of the public schools at Halifax, Nova Scotia, later at Windsor, Nova Scotia, before he entered politics. Always a staunch Conservative, his nomination a second member for Annapolis in the election of 1886 was on this ticket. Married some years prior to this, he and Mrs. Andrews (nee Bertha Phinney, daughter of Mr. and Mrs. Wallace Phinney, then of Victoria, Vale) were living, during the absence of Mr. and Mrs. Phinney, on their farm in Annapolis Valley. His honest and pronounced views on matters of political policy found ample opportunity for expression during the Federal administration, when the withdrawal of the Maritime Provinces from Confederation and the formation of a Maritime Union became leading questions. To this policy he was definitely opposed.

Came to Victoria

Leaving the Legislature, Mr. Andrews went to Harvard University to take a post-graduate course in pedagogy in 1901 before resuming his profession of teaching. In 1903 he came to Victoria to take a position on the high school staff here, and this he held until the time of his death, greatly esteemed by his pupils as well as his associates in and out of the school, to the former familiarly known as "Pat" Andrews.

Although as a teacher he ranked as an expert in mathematics and spent most of his time teaching this subject, he was widely regarded as an authority on matters of Canadian history, particularly from the period of Confederation onward. In fact he was so generally recognized as one of the best informed men in the city on this subject that his opinion was frequently sought by persons quite unknown to him. His removal to Western Canada did not in any wise remain a loyal Conservative to the last, although his friendships were not confined to men of his own belief. A notable instance was his friendship with the Hon. Mr. Longley, Attorney-General of Nova Scotia during the four years that Mr. Andrews sat in the Legislature of that province, the former being a Liberal.

A great reader and student, he was also already and forceful debater, either on the platform or in the columns of the press, and brought out many valuable points in discussion of local and national questions. He was an uncompromising supporter of the temperance movement. Although not particularly prominent in the congregational part of church life, he was for some years teacher of the Adult Bible Class of Emmanuel Baptist Church.

Besides the widow, there survive one daughter, Mrs. W. C. Keeble, of Portland, Maine; a sister in law, Mrs. Mary Andrews; a niece, Mrs. H. O. English of this city; and three brothers, Dr. A. R. Andrews, of Malden, Mass.; Mr. G. W. Andrews, and Mr. Arthur Andrews, both of Middleton, N. S.

Some Tributes

Mr. J. L. Beckwith, one of Mr. Andrews' oldest friends here, expressed his sense of personal loss in the death of his old acquaintance.

"I have known Mr. Andrews for many years—before he came to British Columbia, as well as since he came here—and have appreciated him very much as a friend, and thought of him as one of our most worthy citizens. As a member of the High School staff he has been one of the most valuable teachers that the school has ever had. I agree with what has been said by others: that the school will be greatly the

Here and There

British Columbia's agricultural production last year increased in value \$4,000,000 over the 1922 period, figures compiled by the provincial Department of Agriculture show.

A steady increase in the volume of wheat exports from Canada is noted in the monthly statement just issued by the Dominion Bureau of Statistics. In April, 1924, 6,086,465 bushels in all were exported, as against 5,143,904 in April, 1923.

It is anticipated that hundreds and thousands of visitors to the beautiful Annapolis Valley, Nova Scotia, will help to celebrate the famous fruit-district's "Apple Blossom Sunday," which falls on June 8th this year. The entire orchard belt, extending from Annapolis Royal to Windsor, a distance of about 80 miles, is always white and pink with blossom in the first part of June.

Hon. Honore Mercier, Minister of Lands and Forests, speaking of arrangements made in the province for forest protection this year, stated: "I really believe that the way the service is organized and with the good-will manifested by all classes of the community, who realize the importance of protecting our national domain, the year will be a good one and the losses reduced to a minimum."

The report of the statistician to the board of grain commissioners for April, recently issued, records the heaviest spring great lakes shipping season on record. The report says that there are indications that all the surplus of the western crops will be moved as fast as transportation facilities permit, as export purchases are to be heavier than usual and all ocean tonnage out of Montreal for May and June has already been engaged, as well as part for the July loading.

Something new in the way of railway equipment is the new storage battery car now operating over Canadian Pacific lines between Galt and Hamilton. The car attains a speed of 35 miles per hour and makes two trips a day in each direction. It has three compartments: general, passenger, smoking and baggage, is of all-steel construction and will accommodate 60 passengers. The service is reported to be giving every satisfaction to the people of the district.

Interviewed in Vancouver as to the success of the round-the-world cruise completed on May 24th by the "Empress of Canada," E. W. Beatty, said:

"To gauge the success of the 'Empress of Canada's' round-the-world cruise one has only to ask the passengers their opinion of the entire trip. I spoke to several while crossing from Victoria and without exception they all expressed their complete satisfaction with the ship, its officers and the arrangements made and carried out since the day she left Vancouver, almost five months ago.

"That is good enough for me. It is simple demonstration that the Canadian Pacific can successfully conduct cruises in competition with any organization in the world and maintain that company's standing as a credit to Canada. The 'Empress of Canada' has carried the Canadian flag over the seven seas and into most of the world's great ports, and the missionary work she has done for Canada in the various countries touched should not be lost sight of. As one result of the undoubted success of this cruise, we look forward with renewed interest to the Canadian Pacific cruises of next season. They include the West Indies, the Mediterranean and another round-the-world cruise which will be made by the 'Empress of France,' already overhauled and fitted with a view to providing the greatest possible comfort for her passengers. The experience gained this year will greatly help in enabling us to make these cruises even more successful than those recently completed."

Crossed Atlantic Unafraid

Little Samuel Molyneux arrives at a very pathetic figure, as he stepped off the Canadian Pacific train, between the conductor and an official of the department of immigration, into the noise of shunting trains, the confusion of hurrying express trucks, and the bustle that attends the arrival and departure of friends, Samuel Molyneux, 393 Oakwood Avenue, Toronto, as the label on his little bag proclaimed him, paused for a moment, and then, overcome by a sense of loneliness produced by the loss of his friends of ship-board and train, burst into tears. A second later he was seized by his mother, from whom he had been separated for one and a half of his four years, and sobbed himself to contentment in her arms.

Samuel came to Canada on the Montclare, making the complete trip from the old land to Toronto by himself. Samuel was a favorite on ship-board, according to reports. He became particularly attached to the ship's nurse but was the pet of all the passengers and crew.

GOOD ADVERTISING FOR NOVA SCOTIA

ENGLISH PUBLICATION GIVES PROVINCE PLACE OF HONOR IN CANADIAN EDITION.

On his recent visit to England, Premier Armstrong, arranged with "The Empire Mail and Overseas-Trade," an influential journal published by The British Commonwealth Trade Press, London, for the publication of a comprehensive review of the industries of this province. The result is seen in a very fine Canadian Number of that magazine which has just come to hand and where Nova Scotia is given the place of honor.

The Nova Scotia section opens with a brief message from the Governor and a review by Premier Armstrong of the resources of this Province. This is followed by an account of how the natural wealth of Nova Scotia is being developed. A third article deals with Nova Scotia's attractions and why they should be more widely known. A fourth deals with the port of Halifax, and is entitled "Canada's Atlantic Gateway—Its Facilities and Equipment." The material for this article was furnished by Premier Armstrong by the Secretary of the Halifax Board of Trade. These articles cover six pages and are illustrated with seven photographs.

A full page advertisement featuring the situation, climate, agriculture, coal mining, fisheries and timber lands of Nova Scotia appears in this edition, inquiries being referred to the Agent General of Nova Scotia, London, or to the Provincial Secretary, Halifax.

In an editorial comment the remark is made that the up-to-date accounts given of the resources of Nova Scotia and their development show that "the Province is displaying remarkable enterprise in exploiting the valuable material with which nature has endowed it."

A perfectly satisfied world would be a very poor world to grow in. Desire lures us, need drives us forward and humanity has developed because of what it lacked as surely as because of what it possessed.

THE PROSECUTION IS COSTING COUNTRY \$1,200 A DAY NOW

THERE ARE FOUR CROWN COUNSELLORS IN ADDITION TO OTHER OFFICIALS.

TORONTO, Nov. 24—It is costing about \$1,200 a day to try the Home Bank directors accused of conspiracy to defraud before Judge Coatsworth at the Toronto City Hall. The trials of the eight directors, the accountant and auditor of the ill-fated Home Bank will cost approximately \$175,000 before they are finished, with a prospect of another \$25,000 added to the cost by proceedings at the Assizes afterwards.

The trials began on September 9, with Ocean G. Smith, accountant of the bank the first to appear before County Judge Coatsworth. At that time a period of two weeks was estimated for each trial, and there were ten men for each trial, which would run the trials to the middle of February, 1925. It has taken 7 weeks to try the accountant, the bank auditor, Sydney H. Jones, and the first director, Clarence F. Smith, and the trials of the remaining seven will take 14 weeks, it is expected. The process is a tedious and intricate one, hampering with countless legal and technical details.

Why \$1,200 a day? There are four Crown counsel in addition to the representatives of the finance department of the Dominion Government. The leading counsel receive at least \$300 a day each. The chief prosecuting counsel was specially appointed by the Province of Ontario, which pays his fees. Expenses of the defence counsel are, of course, paid by the accused. There are the "ordinary" witnesses, who are paid \$1 a day, and the "professionals," at \$4 a day, and in the first three trials 105 witnesses were examined. Then there is the cost of the stenographic report, —no small item. The salaries of the judge and permanent officers of the court, etc., are of course out of the public purse.

The stenographic report of the first three trials contains approximately 1,250,000 words. Proceedings are pending in the Assizes which will likely add \$25,000 to the total cost they take place following the present trials before Judge Coatsworth.

The Proceedings Slow
The history of the trials of the Home Bank directors and officials arising out of the Home Bank crash in August, 1923, shows a strong contrast to the usual speed with which justice is administered in Canada under the British system. Police court proceedings in the fall of 1923 were brief, due to the action of the Crown in preferring an indictment in the Assizes, but there followed as a result of the latter move the hearings before County Judge Coatsworth. Mr. Justice Middleton, the Appellate Division and the judicial committee of the Privy Council. All this ran the

costs of the case up a considerable extent. And the end is not yet in sight.

Japanese hairdressers are in a state bordering on consideration in consequence of a tendency of their clients to adopt bobbed hair. In Japan the hairdressing profession is a large and lucrative one, as the coiffures are so elaborate that few women can dress their own hair.

CUTTING HIS LOSS

The gas, says "Whiting" in the Boston Herald, breeds philosophy and logic and an agreeable way of viewing many things. Take for example this case of a handy man on Cape Cod:

"How much do I owe you, Ched, for fixing this screen?" a customer asked him.

"Wal, be ye givin' to pay on a charge it?"

"Oh, whichever you prefer."

"Wal, at it's cash, it's two dollars and sixty cents for the job; but if you're goin' to charge it, it'll be two dollars."

"Why, Obed, that's queer! Usually it's less when it's cash."

"Yes, but ye see so many summer folks go 'way an' forget to pay their bills, I lose more where it's charged, an' so I'd rather keep them charged accounts as small as I kin."

The good man thinks of himself last of all.

Mediterranean Was Once Whole World

History's pages. "Have you looped the loop around the Mediterranean?" is a phrase much in vogue, and each year thousands of wanderlust folk are able to say "Yes!" and wish that they were going to loop the same old loop again.

The "Empress of Scotland," if a big steamship of 25,000 tons gross register and 37,500 tons displacement, could be interviewed, would say that she was departing on her fourth annual cruise of the Mediterranean from New York on Feb. 5, 1925, and that although she could find her way around in the dark she would much prefer daylight so that she would not miss any of the wonderful scenery of the Mediterranean. Passengers on the "Empress" will see Madeira, then drop in to pay a call upon Lisbon, Portugal, as well as another call upon Cadiz, Spain, with Seville as a side trip. Gibraltar, the famous "Rock" next gets the once over, and then Algiers, capital of the French colony of Algeria is visited. Athens, Greece, Constantinople and the Bosphorus are next, and when the ship visits Beyrout and Haifa all the famous places of the Holy Land are within a short distance of the vessel. "The storied Nile" awaits the "Empress" and 12 days are spent in seeing the cities of Alexandria and Cairo, the Pyramids, the Sphinx, etc.; then Naples, Pompeii, Rome, Monaco, Cherbourg, Southampton and other places. One can see a lot in 68 days in and about this cradle of civilization, and that's the job of the big oil-burning "Empress of Scotland," the largest vessel in the whole Canadian Pacific fleet.

Queen Of Beauty Sues For \$30,000

TORONTO, Nov. 22.—Willing slaves held up a golden carpet and from this glittering pedestal bounded Norma Niblock through the rose-scented atmosphere, into a fairytale of opulent freedom. Fame, renown and wealth, at fifteen. Acclaimed by a frenzied crowd in Madison Square Garden as the elected queen of all modern beauty, "Miss Toronto" quivered as Rudolph Valentino, his act expressing the poetry of motion, gracefully crowned the glorious dark hair of Norma Niblock with a scintillating diadem of rhinestones, while a bank of Glorif de Dijon roses was placed in her arms.

"Miss Toronto" had captivated a tremendous New York audience and at their demand the laurel was snatched from "Miss New York," "Miss New Orleans" and scores of other regal dames who pitted their lines of beauty, their coloring, their charm, their Paris and New York clothes, against the little girl from Toronto in her home-made frock, and had lost.

Norma found the rainbow and the pot of gold. She was the queen of beauty. She was to appear as the leading lady of Rudolph Valentino, that little Italian whose mimic love-making and duelling mark made him a screen favorite.

"I think it is all a dream, and that I am going to wake up any minute," exclaimed the brilliant young beauty in December last as she arrived in Toronto directly after her New York triumph.

The waking-up has taken place. The fabric of gold and gossamer has been swept down. Norma Niblock, the Queen of Beauty of all America, fades out as the scenario writer puts it, and she now re-appears as plaintiff in law against Scott Preparations, Inc. of New York City, claiming the sum of \$30,000 alleged to be due her. There are so many cases piled up in the New York courts that, although the may not be heard for a considerable period.

It appears that Scott Preparations, Inc. of New York City, are proprietors of a beauty mud which will do wonders to any face. It was decided to stage a universal advertisement of this product and a "beauty contest" was held, which, in territory embraced the entire continent.

The crowd turned thumbs down on 56 radiant beauties, and selected Miss New Orleans and Miss Toronto, and finally Miss New Orleans got the gate and Norma Niblock was left with her triumph.

The Queen of Beauty: This was in December of last year. She returned to Toronto in a Pullman drawing room. The pencil behind the scenes engaged an elaborate suite for her at the King Edward hotel. People flocked to see her. She was a queen indeed.

The Toronto Telegram reporter found Norma Niblock and her mother in their little home at No. 105 Westmount recently. The girl wore an ordinary little house dress, and her mother appeared in a blue wrapper.

"Action has been entered against Scott Preparations, Inc. of New York for \$30,000," said Mrs. Niblock. "When Norma won the beauty prize in New York, she signed a contract under which she was to receive \$10,000 a year for three years from that company, who are proprietors of—'Mineralava.' This is the name of the beauty mud.

"It was understood also that the winner was to become leading lady with Rudolph Valentino. After the contest they sent Norma through N.

New Lamp Burns 94% Air

BEATS ELECTRIC OR GAS

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, J. M. Johnson, 248 Craig St., W., Montreal is offering to send a lamp on 10 day FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Y. and other States, as far as New Orleans, in company with young women who demonstrated Mineralava at each stop.

"They were demonstrating the preparation, and at the same time stock was being sold. I think a great deal of stock was sold in Toronto. The manager of the company told me Norma would 'concentrate to the art,' until February and then go into motion pictures. But that was not in the contract. Norma travelled in this way for a couple of months, and she received some \$3,000 of the \$30,000 salary she expected. Then on the ground that the plan was not paying the company gave 2 week's notice to Norma. But the terms of the contract were that she was to receive two week's notice and \$1,500. She did not get the money and we claim that the notice was improper, and that the contract is still in force.

"Norma returned home. Then my husband lost his position here, the leather belting factory which he was connected with, closed down. He made arrangements to take a new agency in Vancouver. So I sold all the furniture of this house at a sacrifice and we all went to the coast. But my husband found they were employing machinery out there that did not require leather belting. In his first month he made just \$6. So, as I found I could neither rent nor sell this house, I decided we had better not try to keep up two establishments up. So my husband remained and we returned.

Out of the Movies: "Norma gave up the idea of motion pictures for a time, and we decided to go into a new line. We met the manager of an American vaudeville circuit on the coast, and Norma started to learn the words of a musical monologue—'Zingarella.' The intention was that she might start performing in Seattle, but then I was obliged to return home and she came with me."

"Did Valentino ever tell you you would be his leading lady?" Norma was asked.

"No. The programme said 'May be, but we all understood the winner would act with Valentino.'"

"And what are Miss Niblock's plans now?"

"I don't know," replied Mrs. Niblock. "It would have been better for her if she had not won the prize. Offers were made for her to appear in several New York theatres, but the amounts or remuneration did not satisfy the people with whom she was under contract. Then, motion picture directors who might, after seeing her, have made overtures for her services on her appearance and ability alone, were prevented by the knowledge that she had won the prize as the most beautiful girl in America—which meant a large salary to their minds. Why, do you know, that some of the girls who went down as applicants for the prize, and who were weeded out, actually made good

contracts with the movies in New York. There was one girl who put her name down in the studio as being willing to act for \$7 per day, who was given a trial by a director who then said she suited the part perfectly and put her on the salary list at \$15 per day.

Under Contract: 3 "But Norma was tied up and could do nothing independently. Even here in Toronto, where she appeared in a large store exhibiting frocks, \$100 per day was paid, but the company got that. And when she rode on an elephant in New York in the Shriner's parade, they charged the Shriners for her services. And my husband, who is a Shriner, did not like that."

Norma Niblock is not daunted by these rebuffs, apparently. The girl's beauty is moulded on line of strength. She is determined to win.

C.P.R. Settlement Plan in Province

Parcel of Land Secured Near Yarmouth and Divided into Acre Plots

MONTREAL, Nov. 17.—A statement was made recently that the Colonization and Development of the Canadian Pacific Railway to the effect that the Company has purchased a parcel of land near Hectanagan, 20 miles from Yarmouth, which has been divided into acre farms, and which will be sold to intending settlers from the British Isles.

Two years ago this land was thoroughly inspected by the Department of the Interior as to soil conditions, and the company's engineers recently completed a survey of the land. Colonization is expected to begin in the spring of 1925.

While no definite terms have yet been laid down, it is understood that the conditions of purchase will be made very easy, so that the settlers will have every opportunity to make a success before being called upon for a substantial financial outlay. A common wood lot will be available to each farm. The provincial government intends to build short roads—which will give the farmers access to United States through Yarmouth and the markets of Halifax and in the United States through Yarmouth and Halifax.

OBITUARY

MRS. DONALD W. McDONALD

On Nov. 17th, a cable from Ham Heung, Korea, brought to Mr. and Mrs. J. W. Baltzer, of Middleton, the sad news of the death of their only daughter, Mrs. Ivey Baltzer McDonald and her infant child.

This sudden death brought a great shock not only to Mrs. McDonald's family here, but to the entire community in which she was held in the highest esteem.

After studying at the Macdonald School, Middleton, Ivey Baltzer taught in the public schools for a time and then took the Household Science Course in the Truro Normal College. She taught the Household Science branch at Bridgewater, Lunenburg and New Glasgow in the last named town in both the public and technical schools.

Ivey united with the Baptist Church of Middleton at the age of fourteen during the pastorate of Rev. C. W. Corey. Wherever she lived she was an enthusiastic worker in church and social service activities. She was a Rebeckah and a member of the W. C. T. U. Her's was a life of service and devotion.

It was at a Missionary conference in Wolfville that Miss Baltzer first met her future husband, Rev. Donald W. McDonald, then on furlough from the Canadian Presbyterian Mission field in Korea.

About a year after Mr. McDonald returned to Korea, Miss Baltzer fol-

lowed, in company with a missionary party and on arrival at Kobe, Japan, they were married, Oct. 5, 1915.

Three years ago Mr. and Mrs. McDonald and two children were home on furlough returning to Korea in Sept., 1922.

Mrs. McDonald leaves to mourn, a devoted husband and two small children, Ella and Jimmie, in Korea; her father and mother, and two brothers, Percy and Corey, in Middleton, besides other friends and relatives. The deceased was a niece of Dr. C. H. Baltzer and Mr. and Mrs. J. H. Baltzer of Middleton.

Deep sympathy is felt here, not only for the sorrowing parents and brothers, but also for the husband and children in far away Korea in the loss of a faithful and loving wife and mother.

TO BE WORTHY

I may not reach the heights I seek,
My untied strength may fail me;
Or, half-way up the mountain peak,
Pierce tempests may assail me;
But though my goal I never see
This thought shall always dwell with me—
I will be worthy of it.
I may not triumph in success,
Despite my earnest labor;
I may not grasp results that bless
The efforts of my neighbor,
But though life's dearest joy I miss
There lies a nameless strength in this
I will be worthy of it.

—Ella Wheeler Wilcox.

"Exhausted Nerves and Palpitating Heart"

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:

"I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better. I tried several doctors, but it seemed nothing they gave me helped. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I tried it, and can say it certainly has done wonders for me. I did not stop until I had taken twenty-five boxes."

Marks New Era In Apple Trade

SUCCESS OF EXPERIMENT IN PACKING PROMISES TO DOUBLE EXPORT.

London, Nov. 15—Wembley has revolutionized the British-Canadian apple trade, according to A. W. Tolmie, Commissioner General of the Canadian Pavilion.

Thousands of pounds worth of apple orders have been booked by British firms, to say nothing of the German ones," he says, "and in addition the exhibit has proved finally the necessity for the adoption of a new packing system by our Canadian growers.

Hitherto fruit from the orchards of British Columbia, Ontario, and Nova Scotia has often been sold at a heavy loss in the English market because it has suffered bruising against the side of the boxes.

"A new experiment was tried with the exhibits for Wembley. The apples were 'crown-packed' or protected from the sides of the cases by a layer of special packing material. The result is that these apples are as fresh and as sound today as when they left the trees over a year ago—a durability record in the history of the Canadian trade.

"Both the dealers and growers have been amazed at the success of this experiment and we are confident that Wembley will result in almost doubling the apple business between here and Canada during future seasons."

JUST WHY SOME DYES ARE FAST

Why some dyes are "fast," and others fade either when the goods are washed or when they are exposed to the sunlight, is explained in the American Dyestuff Reporter, by Bradford Webster, who points out the limited field for American chemical engineers in perfecting processes for producing economically perfect dyes. The fastness or otherwise of a color depends upon the arrangement of the atoms that make up its molecules. If these be closely interwoven, neither light nor water can separate them; but if they are loosely joined together light and water make them disintegrate.

Most of the modern dyes are derived from coal tar and consist of atoms of carbon, hydrogen, oxygen, and other elements. The vegetable dyes usually contain no other elements but carbon, hydrogen and oxygen. That is why, being so simple, such colors as logwood and natural indigo are the fastest of all. The few animal dyes—cochineal, for example—are fast for the same reason. But the so-called aniline dyes are the product of the chemist's laboratory and are complex and loosely bound combinations of the atoms of many elements.

There are acid dyes and alkaline dyes, and before applying them to any stuff one must know whether the cells of this are acid or alkaline in reaction. For opposites attract. Like repels. Therefore we must use acid dyes for alkaline materials and alkaline dyes for acid materials. Cotton, for instance, is naturally alkaline. To make such brilliant dyes as methylene blue, basic magenta or fuchsia and methyl violet "take," it is necessary to acidify the cotton by giving it a bath in tannic acid. This is called a mordant. Wool is naturally acid and if we want to dye it with any of the acid alizarin colors we must make it basic with chrome mordants.

"Old Subscriber: Finding a spider in your paper was neither good luck nor bad luck to you. The spider was merely looking over our paper to see which merchant is not advertising so that he can go to that store, spin his web across the door, and live a life of undisturbed peace afterward."

IN MEMORIAM

Respectfully dedicated to Mrs. Robert Condon, and written on the death of her son.

THE WARRIOR DEAD
I stood where the evening shadows fell.
And long and sadly there I mused
On the life he freely gave.

Far from the bloody field he sleeps,
And peaceful is his rest,
The nodding pines above him sigh
In quiet obsequiousness.

The trumpets blast, the cannons roar,
On his dull ear sabbil fall
And long the battle waits his sword
Unheeded is his call.

'Twas freedom's banner waved him on
And bright his bayonet shines:
And long remembered is its thrust
By the "Foeman of the Rhine."

He sleeps amid his native hills
Hard by his childhood door,
Within a mother softly weeps
For he who comes no more.

The rushing stream, the verdant fields,
Wherein his footsteps strayed;
They long shall wait and wonder
Why hast he thus delayed?

For him the spring time ne'er shall wake,
Nor loving words implore
The pleasant smile, the fond caress,
Can rouse him never more.

And lovingly the sunshine
Upon his grave shall fall,
And the drifting snows of winter
Shall o'er it weave a pall.

Then stranger pause ye here awhile
Beside his honored grave
And its verdure drop a tear
For the life he freely gave.

Wounded Terrier Back in Line

"Spot" Returns From Hospital Looking for Police Dog Which Bit Off His Leg

"Spot," a little fox terrier, is back home looking for German police dogs that may intrude on the lawn of his mistress, Miss Dorothy MacKaye, of 98 Beechknoll Road, Forest Hill, New York. He came back recently minus his left foreleg, after a month in the care of a veterinarian.

One of the first things he did with his tail, still wagging his pleasure at being home, home again, was to limp out upon the lawn. Those who know dogs say he gave every indication of being disappointed at the absence of any wolfish strangers.

Four weeks ago, Aileen Raymond, the five-year old niece of Miss MacKaye, was romping with "Spot." A German police dog, surl and suspicious, happened along. For some reason, perhaps for none, the German dog attacked the little playmate of "Spot." The fox terrier did not hesitate and sailed into the police dog, three times the size of Spot.

The terrier held off the police dog until Aileen escaped. "Spot" was still fighting when the dogs were separated, but he could not have fought very much longer because his left foreleg had been bitten off in the encounter. The terrier was taken to a veterinary hospital in Richmond Hill. There it appeared he would lose his life as well as his leg. Four times the dog

surgeon operated. And four times the little terrier went through it all, with maybe a shiver, with perhaps a deep, dull look in his eyes—but with no yelps and with no anaesthetic. The wounds were slow to heal—and all the time there might have been German police dogs on the MacKaye lawn.

Miss MacKaye, who is an actress, said yesterday that she paid only \$15 for "Spot," but that she wouldn't take \$1,000,000 for him now. She has ordered an artificial leg to be made at a reconstruction hospital. The neighbors are discussing some way in which to recognize the fact that their children's playmate is a hero.

LISTEN BROTHER!

If you are blessed with good health surrounded by friends, able to work and enjoying the sunshine, flowers, outings and other opportunities, you have no kick coming. If you, with all the modern advantages and sixteen hours out of every twenty-four for freedom and rest, think you are having a hard lot in life what of the blind, the lame, and halt, the sick and dying tossing on beds of pain? In this life we all should have just enough pain to cause us to appreciate pleasure. We should have just enough trouble to make us thankful that we are not hopelessly crippled or without the light of day. Trouble is a medicine that our gracious and wise physician prescribes, and sometimes it takes a pretty big dose to bring us to a full understanding that there are no crown-wearers who have not been cross bearers.
