PRICE TWO CENTS.

BUSINESS IN LONDON BRISK FACTORIES WANT MORE MEN

The Fall Season of 1911
Auspiciously in
This City.
LABOR SUPPLY -
RATHER SHORT

Many Handsome New Stores
Are Being Built, and Ad-
ditions to Shops Are
Going Up.

It is seldom that the fall season in the business and industrial world opens more favorably in London than it does this year. Everywhere people are busy and many of the factories are working nights in an effort to get out their contracts. The only complaint of the manufacturer is that he cannot get help. One after another stated to The Advertiser that all they need now is men, and all are willing to pay good wages.

Outlook Is Good.
In the building trades things are remarkably brisk and the outlook is for a very busy time right up to the end of the year. A great deal of new work is already under way and much more is planned.

New Additions.
Messrs. F. J. Darch & Sons, harness makers of Talbot street, have plans prepared for a new five story addition to their present factory. The work will be gone on with at once.

The Ontario Spring Bed Company commence work shortly on a new 3-story factory on York street.

The McClary Manufacturing Company are already at work on a big new 3-story factory for their south end plant.

Mr. John Forristal, of the London and Petrolia Barrel factory, stated that the firm has under consideration a big addition to its plant, and that work will probably commence on it next year.

Spending Millions.
It was officially announced by the C. P. R. that in addition to the quarter of a million dollars they are spending on improvements in the East End, nearly a million more will be spent in packing all the new bridges on this division with steel structures.

Work is now going on on a new \$750,000 steel bridge across the Thames here at Oxford street, and a contract will be let shortly for another \$750,000 structure across the Thames at Chatham.

The greater part of the new bridge work will be done by the employees of the C. P. R. bridge and building department. The company has also under construction a spur line from the main line to the manufacturing district in the southern part of the city. The survey has already been made, and it is stated that some of the necessary property has been purchased.

New Stores.
On Dundas street three new stores are under construction between Clarence and Wellington streets on the south side.

Mr. James Duffield is building a three-story structure adjoining the Maclellan's, and next door Mr. Harry McKinnon is erecting a two-story store. Further east Mr. George Mann is tearing down one of the city's landmarks, and on its site will be a handsome new three-story store.

In the market square a local bank is building a fine new branch office. On Queen's avenue the work in connection with the new \$50,000 temple in the square is being rushed right along, and all the buildings on the site will be down shortly.

City Is Growing.
That London and its district is growing steadily is shown by some of the big additions local firms have made. The George White firm in East London has built extensively, and has a very fine plant there now, with more contemplated. The Hobbs Manufacturing Company on York street have built one up factory, and are at work now on the new warehouse. The McClary firm has been erecting building after building on the south end, and is still putting up more.

Handsome Residences.
All over the city there is a great deal of beautiful building going on, and some of the most beautiful homes are in the construction. In West London there is a noticeable development, and a number of handsome houses are being planned in some sections. Builders everywhere are complaining of the scarcity of help. The railways state that the present year will be beyond any question the greatest in volume of business they have ever had, and the freight and passenger business has been heavy, and at times really heavy. The outlook for the present year is for a great rush of business, and that will keep everything going at full speed for the rest of the year.

Builders say that everything is in first-class shape. There is no unnatural boom, but a steady expansion of business. If that they promise to be, they say that next year will be another record-breaker.

What They Say.
Following are a few opinions of London's leading manufacturers on the Outlook.
Gardshore, of McClary's: "We are very busy, and expect to continue so. We have 1,200 men on our payroll at the present time, and are extending our plant in the south end, and are extending our plant in the south end."

BUILDING PERMITS SHOW SATISFACTORY INCREASE

91 Permits Were Issued in
London During Month
of August.

Building permits show a good increase for the month of August. During the period 91 permits were issued, the total value of which was \$66,075. This is an increase of over \$25,000 more than the same month last year, when 65 permits to the value of \$40,705 were issued.

The total for the eight months of the present year is \$523,224. The total for the first eight months of 1910 was \$263,871, giving 1911 a start of \$259,353.

However, September last year was a big month, permits to the value of nearly \$100,000 being issued. This year all the month has been issued, the total of last year is to be exceeded.

WORK BEING RUSHED ON NEW STATION

Traction Company Will Soon Have Fine
New Premises.

Work is being rushed on the hand-some new red brick and white stone station that the London and Lake Erie Transportation Company is building on Horton street.

The ground floor of the new station will be used as a large store room in connection with the freight business of the company. The upper story will be fitted up as offices. The tickets will be sold from the same place as at present.

Mr. John Purdon is doing the work on the new station, and it is expected that it will be ready for use about November 1.

WOMAN IN SERIOUS CONDITION FROM MORPHINE OVERDOSE

Mrs. Margaret Wise Is In an Unconscious Condition in Victoria
Hospital—Is a Stranger in the City,
Coming From Detroit.

Mrs. Margaret Wise, aged 36, wife of William Wise of Detroit, was taken to Victoria Hospital this morning in the city ambulance in an unconscious condition. It is stated from the doctor that the effects of too much morphine.

The woman went to an East London hotel yesterday afternoon, and was in a domestic. Last night she was found asleep on a sofa, and the hotel people had a lot of trouble arousing her. When they discovered what the trouble was they sent her away.

It is said that she spent the night with her husband at another hotel. This morning she came down to the office of Dr. J. Stapleton and begged him to give her morphine. He refused, and she slipped off the chair she was sitting on and lapsed into an unconscious condition. The doctor called the ambulance and had her removed to the hospital. It was some time before she came to.

Relatives of Mrs. Wise seen by The Advertiser this afternoon stated that she is 35 years old, and that she has been addicted to the use of morphine for some time. This has resulted in her husband separating from her.

She came to London last week with her husband and mother, and her father and mother reside there.

COMMISSION ORDERED TO NAME ARBITRATOR

McGuigan Company Demand
\$400,00 From Hydro-
Electric.

Toronto, Aug. 31.—Acting for the McGuigan Construction Company, W. Tilley this morning applied to Chief Justice Falconbridge for an order appointing an arbitrator to represent the Hydro-electric commission in the arbitration of the company's claim for over \$400,000. This sum is claimed due on the contract for the construction of the transmission line from Niagara to Toronto. The work was completed on December 17 last, since when there has been no payment.

An effort is said to have been made to agree on an arbitrator, to deal with the matter, but this failing, the company appointed Wallace Nesbitt, K. C., to represent them, but the commission has appointed no one.

Chief Justice Falconbridge directed that the commission should appoint an arbitrator by Tuesday, failing which, he will himself name one.

DRUNKEN MAN FELL BEFORE AUTOMOBILE

Narrow Escape From Death of John Brown.

"Jack" Brown, an ex-Indian lister and a well-known police court character, had a close call from being killed today when on the market he fell in a drunken stupor in front of an automobile driven by a chauffeur named Grant. The car was stopped barely in time and Brown was hustled off to the police station. He will appear in the morning before Magistrate Judd.

STEAMERS ARRIVED.
Manchester Exchange, at Liverpool, from Montreal.
Uranium, at Rotterdam, from New York.

Nimrod, at Glasgow, from Boston.
Cape Race, Nfld., Aug. 31.—Steamer Lunenburg, Liverpool for New York, left here, when 1,200 miles east of Sandy Hook, at 2:30 a.m. Dock about 8 a.m. on Saturday.
St. Louis, Southampton for New York, reported 1,065 miles east of Sandy Hook at 4:30 a.m. Dock about 8 p.m. on Saturday.

CONDUCTOR RECOVERS.
Montreal, Aug. 31.—Conductor Prel Monday, the Grand Trunk Railway employee, who was thrown from the train by a huge last Saturday night, has now fully recovered from his injuries.

STORK BUSY HERE DURING MONTH

105 Babies Born as Compared
With 84 for August of
1910.

DAN CUPID DIDN'T SHIRK

Forty-Five Couples Wedded Against 36
in Same Month a Year Ago—
Less Deaths Reported.

Of the 62 deaths recorded at the office of City Clerk Baker for the month of August, 21, or about 33 per cent of them were of infants.

This is considered a very high percentage, indeed. However, there was no epidemic manifest. Cholera infantum considered a very fatal disease in July and August, was responsible for five deaths only. It was thought that owing to the extremely hot summer the number dying from this disease would be greater.

The total number of deaths is not so great as in August last year, when 66 were recorded.

Hard on the Aged.
The month was quite hard on old people, sixteen of those passing away being over 70 years of age. The oldest was in her 92nd year.

Tuberculosis caused two deaths, as did cancer. Typhoid fever caused two more, quite an unusual number for London. Neither of the cases could be traced to infection from city water.

There were four accidents, and one other violent death.

Many Births.

The stork was a busy bird during the month, no less than 105 youngsters being placed in happy homes.

This is a big increase over August, 1910, when but 84 babies were born.

Cupid Busy.

Dan Cupid showed some improvement in his work. Forty-five couples were married during the month, an increase of nine over the corresponding month of last year.

RAINFALL IN AUGUST WAS EXTREMELY HEAVY

Local Weather Records For the
Month Are of Interest.

The records at the local weather observatory for the month of August show considerable contrast to those for the same month in 1910. During the month terminating today, there was a total rainfall of 3.21 inches.

In August, 1910, the rainfall totalled only 1.86 inches. On Aug. 5, 1911, the highest temperature for the month was reached at 83.5 degrees.

The lowest temperature was on Tuesday, Aug. 30, when the thermometer stood at only 39.

In August of last year the highest temperature was 90.5 on Aug. 15. The lowest temperature was 45 degrees on Aug. 20.

Not only has a much greater amount of rain fallen in London this August, but higher extremes of temperature have been registered.

BOXING BOUT RIOTS IN NEW YORK STREETS

Police Reserves Obligated to
Charge Mobs Around
Madison Square
Garden.

[Canadian Press.]
New York, Aug. 31.—Emphatic protests against the management of the big Wells-Brown fight here last night poured in today on police, newspapers, reform organizations and the state officials, charged with supervision of boxing clubs.

The ten-round battle was the first big fight staged under the new law legalizing boxing, and it attracted a crowd unprecedented in New York fight history.

Police Charge Mobs.
Police reserves from eleven precincts had to be called out in an effort to restrain the throng which mobbed the streets around Madison Square Garden. With drawn night sticks the bluecoats repeatedly charged the mob in riot formation, and finally resorted to the expedient of closing up several streets.

The trouble began early in the evening with a series of protests against the manner in which the price of tickets to the fight was being raised. Holders of 10 tickets, calling for admission, found signs stating them in the face "standing room only" and the price of tickets continued to soar as the evening advanced. It was charged also that the spectators had a corner on the best seats.

Nearly fifteen thousand persons finally gained admission to the big amphitheatre, but there was still a mob of at least equal size clamoring and fighting in the streets outside. Hoodlums were rampant. Police inspector McCloskey blamed the new boxing law, which provides that the police may not enter any portion of the building where a fight is being held, for most of the trouble. He said: "The wild scene was disgraceful. It was the old days and the old game over again. The hands of the police are tied."

The receipts of the fight were not made public. Experts estimated the proceeds at anywhere from \$50,000 to \$60,000, and declared that the profits would exceed those of any fight held since the Jeffries-Johnson battle at Reno.

BEYOND HIS DEPTH.

Montreal, Aug. 31.—Thomas Kirby, aged seven years, while bathing in the canal at St. Paul last yesterday afternoon, walked beyond his depth and before help could reach him he was drowned.

ILLUSTRIOUS POTENTATE J.F. TREAT, OF FARGO, IS COMING

Head of the Shriners of America Will Pay a Visit to Mocha Temple in October.

Most Ill. Potentate John F. Treat, of Fargo, North Dakota, head of the Shriners of America, will pay a visit to Mocha Temple during the last week of October.

The exact date has not been finally settled. Noble Treat, who will be in Fargo on Oct. 21, will visit Mocha Temple, Grand Rapids, Mocham Temple, Detroit, and then will come to London. As he has been in Philadelphia on Oct. 1, he will likely be in the city about Oct. 25.

Ill. Potentate C. McGuire, and Recorder W. H. Abbott are arranging for the affair. It will be impossible for the Shrine here to host on a ceremonial session, but it is expected that a big reception and banquet will be tendered Noble Treat. He is making a tour of the West during the months of September and October, working his way back to his home in Fargo, N. D., by way of visiting November.

Many of the local Shriners met him in Rochester, and found him to be an exceptionally fine fellow. His temple brought several fine camels to draw his carriage in the big parade, and it goes without saying that they made a hit.

This is the first time an Imperial potentate has visited Mocha Temple. Several past potentates, including the late Harry Collins, of Toronto, and Fred Bufflo, and Frank G. Roundy, have visited Mocha, but none of them were occupants of the chair of the time.

No. 6, which is expected to have a big time, said Noble McGuire. "We will give him a royal welcome."

NO REGISTRATION ON FRIDAY BUT COURTS RESUME SATURDAY

Over 1000 Names Have Been Added to the List—Some Facts
for Those Who Should Register.

More than one thousand voters have been added to the list as a result of the past two days' registration, and this morning the list stands as follows:

On Tuesday, 456 were put on, while yesterday the number was 657, making a total of 1,013 votes. With today's registration it is 1,932, with South London to be added.

The number will undoubtedly be increased greatly this afternoon and evening and on Saturday. There will be many travellers here on the last day, and many of them are not on the list. They will be put on on that day. Much more activity is being manifested than usual, and every effort is being made to get out the total vote.

Yesterday, as on the day before, the registration booth at 421 Richmond street, showed the best results, no less than 334 being added there.

The Registrations.
The totals for the various divisions for the first two days' registration is as follows:

City hall..... 155
231 Richmond street..... 255
Colborne street..... 128
East End town hall..... 126
Harring Hall..... 118

SAVING PROPERTY OVERLOOKED CHILD

Three-Year-Old Chatham Girl
Burned to Death.

Chatham, Ont., August 31.—The three-year-old daughter of Mrs. Edeline met death in a fire which completely destroyed her residence on concession 6, Zone township. The children were playing with matches up stairs. In an attempt to save the household goods the child was lost to sight, and the body was later found in the ruins. Coroner Stewart decided an inquest was unnecessary.

MR. HAWKES AND HIS NEW PARTY

One of the most curious, unexpected, and regrettable developments of the present political campaign is the attempt of Mr. Arthur Hawkes and his group of backers to round up those electors who are comparatively recent arrivals in Canada from the United Kingdom, and to form them into a political party, the British-born party. They are appealed to as the "British-born," and are told that their devotion to the home-land requires that they must resist reciprocity, and do their utmost to defeat the Liberal party and place the Conservatives in office. The coming of the Canadian Courier justly objects that if Mr. Bourassa's racial cries in Quebec are injurious to the best interests of the country, the British-born racial appeals in Ontario are equally deserving of blame. They are even more so, for Mr. Hawkes and his associates are deliberately entering the political field to create differences between newcomers and oldcomers, all British together. His work, if it succeeded, would have the effect of banding newcomers together as a people apart, and delaying their fusion with the general population of the country to which they have come, and where their children are being born. And are we not all British born? Are not those of us who are the sons and grandsons of men who came out fifty and eighty years ago, and the knickerbockered sons of the very men to whom Mr. Hawkes is making his racial appeals, are we not all British born? If in a narrow sense we are not to be so described, the sense is too narrow to which to found a political movement, and the movement as far as it went would be narrow and evil in its results.

Let the newcomer on whose unfamiliarity with Canadian politics Mr. Hawkes and his associates are trying to trade, ask himself what encouragement he should give to a little political scheme, the purpose of which is to fence him off as a person having interests essentially different from those of the little toddlers who have been born to him since his arrival here. There may be something in this game for the Conservative party, but for the British-born, but what is there in it for the men who are being rounded up and urged to vote on grounds of racial prejudice?

It is a division in Ontario between the British born and the Canadian born, and Mr. Hawkes and his backers can make none. At most he can succeed in deluding a few new arrivals who have not had time to get acquainted with Canadian affairs. But even this is a matter of rather small importance. They must perceive at once that if such a division could be created, it would be a most undesirable thing, and one which every public man who has not had time to understand this game, because many of them are singularly clear-sighted on trade issues. So he makes his racial appeal. His auditors, however, may, with a little effort, learn that the Government which Mr. Hawkes is trying to defeat is being bitterly fought in Quebec on the charge that it is a quite too-British Government for Canada to have, and that those who there seek its defeat profess to seek it for that chief reason—Joseph T. Clark ("Mack") in the Toronto Star Weekly.

KAISER'S GAME GIGANTIC BLUFF SAY THE BIG BERLIN BANKERS

Germany May Have to Reckon With Combination of Russia,
Britain and France Over Moroccan Situation.

[Canadian Press.]
New York, N. Y., August 31.—A London cable to the Tribune says:

The optimism prevailing in the press respecting the settlement of the Morocco difficulty is not shared by politicians and officials here. They are aware that the admiralty is quite prepared for an emergency and that the home fleet can be brought into condition for war at a moment's notice.

It is an open secret that there are active negotiations in progress at the foreign office and that the Russian ambassador has been frequently consulted.

Depends Upon Russia.
A member of parliament, who is watching the situation closely, remarked last night: "Everything depends upon Russia. If France can have military as well as naval support the German Emperor will not be allowed a victory in West Africa, which will increase his prestige at home and be a source of danger and embarrassment to the British Empire."

The speaker added that he was hoping for a change of diplomatic methods by which the German foreign office would be forced to deal collectively with England, France and Russia, instead of individually with one of them.

Financiers ordinarily well informed do not share the apprehension of a war involving the four powers, but insist that ultimately there will be a settlement, although neither France nor Germany is prepared at present to accept the terms offered by the other.

A Gigantic Bluff.
New York, Aug. 31.—A cable to The Times from Berlin says:

"There will be no war over Morocco. Germany is putting up one of the most gigantic bluffs on record."

This is the summary of the existing international situation that was given today to The Times correspondent by a prominent official of a New York banking company, who has been in intimate touch with the leaders of the German financial world for the past fortnight. For obvious reasons he declines to permit the publication of his name. He said:

"German financiers assure me that war cannot possibly eventuate from the Moroccan crisis unless, of course, some sudden and wholly unexpected volcanic eruption should lead to it. German diplomacy is maintaining an ostensibly stiff-necked and uncompromising attitude in dealing with France, but the German Government knows very well that at the present moment to court the insupportable risk of a great international conflagration, the financial and industrial situation simply will not permit it."

"My German banking friends do not mean to intimate that the country's condition is unsound. What they mean is that Germany owes colossal sums abroad, notably to French bankers. These credits would cease automatically the moment war began. Germany's economic fabric would be paralyzed at a blow. Her huge export trade would be arrested. The pioneer work of years would be undone."

"Germany is trading and developing her industries to an incredible extent on borrowed foreign capital. Her indebtedness to French banks alone probably amounts to over \$100,000,000."

"German financiers, who would have the last word if it really came to a question of war, knows all this and they declare that war is not dreamed of."

VANCOUVER MAN SENDS \$1.00 CONSCIENCE MONEY TO FAIR

Makes Reparation for Stealing Into the Grounds in London When
He Was a Boy—Secretary Thinks Much More Such
Money Might Be Received.

The secretary of the Western Fair received a letter yesterday from a gentleman in Vancouver, Inland, enclosing \$1.00 conscience money to square up accounts with the Association for the times he stole into the grounds when a boy.

The letter was acknowledged and the offender forgiven.

Secretary Hunt says he is ready to accept a lot more just like that which he is sure due and that it is a warning to all, either young or old, who may think of doing it this year. There will be plenty of fun for the little folk at the exhibition this year. On the Midway will be found a "donkey track," where all may have a ride for the small sum of five or ten cents. One of the most unique and interesting shows which will appear on the Midway is the

"U-I-I Tribe." This show of itself has contracted for 100 francs by the same in depth, and will be very interesting.

The Midway.
Contracts for shows arriving every day, and although a new Midway will be opened across the grounds, it is doubtful that there will be more than enough room for all.

There are a few good locations left on the grounds for concessions and refreshments, but should be applied for at once if wanted.

With favorable weather the exhibition is bound to be a success. Entries for dog and cat shows close next Tuesday night, and for all other departments on Thursday night of next week.

Those who intend exhibiting should not leave their entries until the last day, but make them now. All information at the general office, Richmond street.

LOCAL HORSE DEALER IS IN FAVOR OF RECIPROCITY

Pact Will Prove a Good Thing
For the Breeders of Ontario.

Mr. William Wallace, one of the largest horse dealers in this city, and the well known throughout Western Ontario, is in favor of reciprocity, and declares that he is very beneficial to the breeders of Ontario, as well as the dealers. The west would also be benefited.

"I have no hesitation in saying that reciprocity will be a good thing for the breeders of Ontario," said Mr. Wallace. "It will increase the sales of horses, as it will open the markets of the east to them. Montreal will be benefited also. The west will also have much the best of it. The farmers will beyond question profit greatly by the deal. I am in favor of it."

Murray's Trial.
The case of Thomas Murray, who is charged with assaulting his wife and setting fire to their home in London Junction, will be heard tomorrow in the county court. The case will be opened at 11 a.m. The office at the court house will be kept open until 5 p.m., commencing tomorrow. The long vacation closes today.

RECIPROCITY WITH STATES MEANS HIGHER HORSE PRICES

May Be Some Shifting From Western Market, But the Nearby Market Will Far More Than Compensate.

Toronto, Aug. 30.—"Between 1882 and 1905 I handled no less than 100,000 horses," said Walter Harland Smith, of Ridgewood Farm, Trafalgar, P. O., Huron County, whose name was known in connection with the old repository nearly a quarter of a century and whose word can be accepted as final in questions relating to the horse business.

"I think I may fairly claim to know a little about the horse trade and on the basis of that knowledge I say there is no danger whatever of Ontario farmers being obliged to accept \$50 per head less for their horses than they do now if reciprocity goes into effect. The only one who will be hurt by the new arrangement will be the local dealer, and the only hurt that will come to him will be in the possibility of finding more difficulty in buying horses than he does now. Local horse dealers are in precisely the same position as the pork packers and those in the canner's combine. They pretend to be crying out because of fear for the farmers; their real trouble is that they fear for their own interests. Every man whose memory goes back to a time prior to the McKinley bill remembers something of the thousands of horses that were then picked up in Ontario for New York, Maine and Michigan. American buyers then visited every local market in Ontario; they visited almost every farmer's yard. And they did not flatter over prices; they bought quickly. Ontario may lose some of its trade in horses with the west. Western farmers may be able to supply their needs in Minnesota and Dakota, perhaps not quite so satisfactorily as to quality, but at lower prices than now. On the other hand, we in Ontario will have a nearby market; that we have not got now, in the States lying up front and to the east of us. Boston, Rochester and New York now go as far as Chicago at least, and frequently to the Dakotas and Minnesota for their horse supply. Ontario will, under reciprocity, be able to supply that market and at better prices than now obtainable in the west. Not only that, but there will be a saving in time, in freight and in depreciation. To ship a car of horses to the west takes about four days. Horses can be landed in Buffalo from Toronto in five hours. In the one case there is serious danger of loss by the way and depreciation in quality is certain; in the other both of these dangers are avoided. To ship a car of horses to the west costs about \$250, to ship a car to Buffalo about \$24. We may lose something of the small market thousands of miles away; we will gain one of 26,000,000 within 100 miles."

"Eat and Be Merry!"

Stop starving yourself—stop suffering the pangs of indigestion—stop worrying about what you dare and dare not eat. Eat hearty meals of wholesome food, take

NA-DRU-CO DYSPEPSIA TABLETS

and you'll feel like a new person. Sour stomach—heartburn—occasional indigestion—chronic dyspepsia—all yield quickly to NA-DRU-CO Dyspepsia Tablets. The properly digested food restores your strength, your stomach regains its tone, and soon requires no further aid.

50c. a box. If your druggist has not stocked them yet send 50c. and we will mail them.

NATIONAL DRUG AND CHEMICAL CO. OF CANADA LIMITED, MONTREAL.

Summer Strength and Summer Satisfaction

come from foods that are easily digested—foods that supply the greatest amount of nutriment without taxing the liver or heating the body. Cut out the flesh foods and indigestible pastries for awhile and eat

SHREDDED WHEAT

the whole wheat food that is ready-cooked, and ready-to-serve. All the meat of the golden wheat prepared in its most digestible form. Give the cook "day off," close up the hot kitchen and serve Shredded Wheat Biscuit with berries or other fresh fruits. It means health and strength, with freedom from work or worry. Place two Shredded Wheat Biscuits in a dish, cover them with berries or other fresh fruits, then pour over them milk, adding a little cream and sugar to suit the taste. Nothing so wholesome or satisfying in the Summer or nothing so easy to prepare.

TRISCUIT is the Shredded Wheat wafer, made of the whole wheat, steam-cooked, shredded, baked and pressed into a wafer. A crisp, tasty Summer snack for the camp or the long tramp, for the bungalow in the mountains, for picnic or excursions on land or on sea. Eaten with butter, salt, cheese, or marmalade.

Made by
Canadian Shredded Wheat Co. Ltd., Niagara Falls, Ont.

ALBERTA'S PREMIER FOR RECIPROCITY

Hon. Arthur Sifton Shows How Greatly Canada Will Benefit.

MACDONALD WAS FOR IT
Declares That the Farmer Wants Open Markets and More Markets.

Edmonton, Aug. 30.—Hon. Arthur Sifton, premier of Alberta, and brother of Hon. Clifford Sifton, declares strongly for reciprocity in an interview.

"It is desirable that the people of this country should be able to ship their produce wherever they please and at whatever time they please."

"If it is desirable to sell it in the home market of Canada, or if it is in their interests to put it on the markets of Great Britain and Europe, they should be able to do it, but it was so much desirable of a third choice was given them, as it is now by the efforts of the Liberal party in Canada," he said.

Macdonald's Policy.
"We are told that the Liberal party is going to bring the Liberal party to power, because they are adopting this traitorous policy, and although some of you may possibly have read that Sir John A. Macdonald, that eminent chief of the great Conservative party, was in favor of it, and that many of his lieutenants after his death were in favor of it, still some of you may be a little dubious. I have written me a copy of the statutes of the Dominion of Canada which will show you that Sir John A. Macdonald, when he introduced his national policy, put upon the statute books a clause conferring reciprocity with the States. In 1879, the same session, he introduced the national policy, and in the same statute, section 6, chapter 15, 42 Victoria."

Premier Sifton read the clause which gave a long list of articles which the statute went on to say: "May be imported into Canada free of duty, or at the least rate of duty thus provided by this act upon proclamation of the governor-in-council, which may be issued whenever it appears to his satisfaction that similar articles from Canada may be imported into the United States free of duty."

"We are told that the Liberal Government is traitorous to the Empire because it is making an agreement with the United States. But that is just what was done by Sir John A. Macdonald. They have put it upon the statute book, saying that any time the States see good and fit to allow our goods to go into their country, they will allow our goods to go into theirs. That is the only and sole exponent. I believe the farmers want more markets and open markets, but it is not particularly for the few more cents a pound for wheat. The open markets are for the sake of encouraging people to come into this country, because the open markets will bring production to Alberta. We want more population so that we may build more for the people of Canada. I am advocating it for the prosperity of the people of Alberta so that this country may continue prospering, so that the 50,000 of Calgary may become 500,000 and the 40,000 of Alberta will become 4,000,000 people. It is for this reason that I am advocating this. If we have a prosperous country, the prosperity of the people will take care of itself."

"In the 400,000 people of Alberta, there were representatives of all the civilized portions of the world, representatives of all countries of Europe and the States. They came here because the natural resources of this country were open to them, and they came here for the purpose of making homes for themselves and their families, and," he exclaimed, "I have yet to hear where Germans or Swedes, Danes or Norwegians, Russians, Italians or Americans have said, 'I wish we were allied to the country of our birth.'"

"They came here for the purpose of entering upon their citizenship in this country under the conditions they find here."

"They are satisfied with the administration of British justice. They are satisfied with the administration of the law in this country. They are not wishing to disunite from the government under which they have had to live and are satisfied, and there are no more devoted citizens of Great Britain than the people who have settled on the broad prairie of Alberta."

BIG KENT CONSERVATIVE OUT FOR RECIPROCITY

Says Party Feeling Should Not Cause Voting Against Measure.

Chatham, Aug. 30.—John A. Cameron, for four years manager of the Kent Farmers' Produce Company, one of the best-known Conservative farmers of South Harwich, has declared himself emphatically for reciprocity.

"I have always been a Conservative, and now, and will continue to be one, but I don't care who knows that this time I will mark my ballot for McCole, thus voting for the benefit of myself and farmers in general. No farmer should allow his party feeling to go so far as to vote against a measure that means so much to himself in increased values to his farm and farm products, no matter what party brings it in."

AN ARMY MUTINOUS

Norway is Called Upon to Check Spread of Socialism.

Christiania, Aug. 30.—The Norwegian press is calling upon the Government to adopt stern measures to prevent the spread of Socialism in the army. The Young Socialist party has secured enormous influence over the soldiers, and mutinous scenes are constantly occurring on the drill grounds. Two serious affairs of this kind happened at Stenklia and Gardemoen, soldiers storming the cells and liberating comrades whom they considered to have been unjustly imprisoned.

A well-known Dr. Mothé woman after suffering miserably for two days from bowel complaint, was cured by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all druggists.

WESTERN FAIR SPECIAL TRAINS

On Sept. 12, 13 and 14, the Canadian Pacific will run special trains to London as follows: Leave Chatham 8:15 a.m. arrive in London 10 a.m. stopping at all intermediate stations. Leaving London 10:15 a.m. arriving in Chatham 11:20 a.m. Special will leave Galt 8:25 a.m. arriving in London 10:15 a.m. stopping at all intermediate stations. Returning, special will leave London at 11:00 p.m. arriving in Galt at 12:15 a.m. The tables and programmes can be had from all C. P. R. agents.

SPLENDID RALLY AT TAVISTOCK

In Interests of N. Oxford and S. Perth Candidates.

TOWN HALL WAS PACKED
Vigorous Defence of Reciprocity by Minister of Labor.

Tavistock, Aug. 30.—An enthusiastic political meeting in the interests of Messrs. E. W. Nesbitt, the Liberal candidate in North Oxford, and G. H. McIntyre, the Liberal candidate in South Perth, was held in the town hall here tonight. The hall was packed, and many were unable to gain admission. Farmers from all parts of Oxford County were in attendance.

The speaker of the evening was Hon. Mackenzie King, Minister of labor, who delivered a vigorous address on the advantages of reciprocity, during which he dealt with the arguments of the Opposition in masterly fashion. His speech was a revelation to the big assemblage, as he gave an elaborate description of all the points leading up to the making of the agreement.

The candidates also delivered short addresses.

There was not an interruption of any kind, and such a meeting as that held tonight in Oxford County is a decided answer to the question whether the farmers in this banner old county want reciprocity.

LONDON EXCHANGE WAS VERY NERVOUS

A Severe Slump in Railroad Shares on Wednesday.

London, Aug. 30.—There was a feeling of nervousness on the Stock Exchange today over the railroad situation. There was a severe slump in the market for some railroad shares, and prices fell to a lower level than at any time during the recent strike. The evidence that is being given before the Royal Commission which is investigating the strike is regarded as disquieting, and the threatening attitude of the Great Eastern Railway men has come with renewed alarm. Secretary White of the Midland railway branch of the Amalgamated Society of Railway Servants, testified today before the strike Commission that he was investigating the recent trouble. When asked to substitute for the present conciliation board as a way of settling the dispute, Mr. White advocated the creation of a central board of arbitration, consisting of the 19 principal railroads and their employees. The latter, he said, should be selected by the executive committee of the four railway unions.

Mr. White was emphatic in declaring that the men would not accept any machinery for the settlement of disputes unless the unions were represented.

WARMER WEATHER SETS IN IN THE WEST

Fear of Damage By Frost Has Vanished For Present.

Winnipeg, Man., Aug. 30.—Forty thousand men have been brought by the Canadian Pacific Railway and Canadian Northern Railway to harvest the western crop of this year. Some 34,000 have come from Eastern Canada, and the remainder from the United States. Temperatures have risen all through the West. There was no frost last night at all, the average temperature being above 50, and harvesting operations are proceeding very favorably. Threshing will be in full swing next week.

The lowest temperature last night was 39 at Saskatchewan points. Reports of frost damage on Saturday and Sunday in Saskatchewan continue to come in, but the effect has not been merely reducing the grades in the northern section. In Manitoba the harvest is nearing its end, and in Saskatchewan it is about one-third completed.

On the whole, conditions are declared by grain men to be satisfactory. The only trouble now is the cold nights and frosty cold showers, holding up field work. The new wheat is moving—the lakes in many places frozen.

FRENCH FEMINIST WOULD FIGHT DUEL

Newspaperman Refuses, But Is Willing to Meet Substitute.

Toulouse, France, Aug. 30.—There were further developments today in regard to the attempt of Mile, Arria By, a leading feminist of this city, to fight a duel with M. Cazale, the editor of a paper here, who criticized an article she had written. Last Saturday Mile By sent her second, Mile, Anne Lear and Mile, Maria Puguet, to M. Cazale, with a note, in which she said she was opposed to duelling, but was compelled to have recourse to a paper here, who criticized an article she had written.

It seems that M. Cazale was absent on a holiday trip when the second was sent, and yesterday M. Massat, the acting editor, came out with another criticism of Mile By's article, which was resented by her. She then sent her second to him, but M. Massat replied that he was unwilling to fight a woman. He was willing, however, to make a male substitute. Miles Lear and Puguet, in describing their interview to Mile By, said that Massat was at first willing to fight, but afterward trembled, became pale and then declined to fight. The would-be woman duellist, in thanking

World-Wide Free Delivery

BY MAIL--Anywhere Within the International Postal Union

BY FREIGHT or EXPRESS--To Any Destination in the Dominion of Canada

By Mail

Anywhere in the Dominion of Canada, and to all parts of the world, all purchases (no matter what amount) which can be sent in one package by mail within international postal limits of weight, will be prepaid by us.

Fall and Winter Catalogue

Now Ready

A postcard with your address will bring it by return mail.

By Express or Freight

On all purchases no matter what the amount. All merchandise, including furniture, linoleums, etc., express or freight will be prepaid by us to your nearest express or freight station to any destination in the Dominion of Canada.

No More Postage, Express or Freight Bills

Every person in the Dominion of Canada will now enjoy the same shopping privileges and advantages offered by this store. From Vancouver to Halifax the merchandise of the Smallman & Ingram store will be delivered free. No longer need you figure how much more will the article cost, when freight, express or postage is added. The price of the article in the store is the cost of the same in your home. You now enjoy the same privilege as the citizens of London who shop in person at our counters.

Another Epoch in Our Business History

During the thirty-five years of our business history many milestones have been passed, and from year to year new methods have been adopted in keeping abreast of the times and catering to the convenience of our customers, the result of which has been the making of one of the greatest business centres in Western Ontario ---like from an acorn it has grown to the sturdy oak. Of all the innovations or advances that have been made in this business in thirty-five years, our WORLD-WIDE FREE DELIVERY is the most important and far-reaching of any privilege that has been granted to the shopping public, and should prove the greatest convenience to customers who shop by mail.

Fall and Winter Catalogue Now Ready For Mailing

A 96-page Catalogue, beautifully illustrated, which contains nothing but new fall merchandise bought for fall and winter season, 1911-12, will give you some idea of the immense stocks we carry, as it contains not all lines carried, but only such as are most likely to prove of interest to customers out-of-town, who find it difficult to suit their taste locally. This Catalogue contains almost everything in wearing apparel for men, women and children, including men's and boys' clothing and furnishings, and almost everything for the furnishing of the home, including furniture, wall paper and carpets. Write for Catalogue.

Fall Samples Now Ready for Mailing

We will be pleased to mail samples of any yardage merchandise you may require, such as Dress Goods, Silks, Flannels and Flannelettes, Laces, Embroideries, Trimmings and Edgings, Drapery Materials, Ribbons, Cottons, Etc.

Money Refunded on All Purchases

If for any reason goods sent are not satisfactory or up to your expectation, the same may be returned to us within ten days if in good condition, and your money will be promptly refunded and express, freight or postage charges paid both ways.

TOMORROW, SEPTEMBER 1st, we will resume our regular business hours, 8 a. m. to 6 p. m.

Dainty Afternoon Lunches Served in Restaurant, 15c or two for 25c.

SMALLMAN & INGRAM

LIMITED

Shampoo and Hairdress, 50c. Manicure Parlor on Second Floor.

EXPLODING CAP INJURES LITTLE ONES

Ottawa Children Hammered It With Stones.

Ottawa, Aug. 30.—Theodore Gerdin, aged 6, and his sister, Reta, aged 3, were seriously injured in the west end of the city last night by the explosion of a fulminating cap in the hands of the boy. Part of the lad's right hand was blown off and he will probably also lose the sight of one eye. The girl is painfully injured about the face. The little tot was being excavated. There were ten pounds of dynamite and a number of caps in separate boxes, and the lads secured one of the caps. The two children, not knowing their danger, then seated themselves on the box containing the dynamite, and attacked the cap with stones. Fortunately the explosion of the cap did not disturb the box containing the dynamite, else both children would have been blown to atoms. The boy's condition is critical, as lockjaw is feared. The civic bylaw permits the storing of 25 pounds of dynamite, but a charge of negligence may be brought against the contractor.

Do not suffer another day with itching, burning Piles. No surgical treatment required. Dr. Chase's Ointment will relieve you in a few days. A box, 50c. a box, 1.00. A box, 2.00. A box, 3.00. LONDON, THURSDAY, AUG. 31.

BOURASSA'S LOCAL APOLOGIST.

Our local contemporary, in a recent and a melting mood, writes in praise of Bourassa. Time was when — but that's another story. Now it is all peaches and cream.

"These are the things Bourassa is saying," writes his new apologist, with reference to his contention that the widows and orphans of men killed in the Quebec bridge disaster should have received consideration from the Ottawa treasury, and his unrelenting attention to Lanctot and point.

"Henry Bourassa began to break away from the leadership of Sir Wilfrid Laurier when he denounced the dishonesty and corruption of the Government and its supporters. That must have been, then, before 1899, when the contingent went to Africa, for which Mr. Bourassa has never ceased to assail the Premier. In that case Mr. Bourassa must have cried out before there was any corruption, or the Government must have sprung into being fully corrupted from the start, beginning, so to speak, where the old Conservative regime left off. It was a very clever Government to succeed in so large an undertaking.

When and on what grounds did Mr. Bourassa break with Laurier? and what is he saying? Our local contemporary tells a minimum of truth on the subject. Here is what Mr. Bourassa, who, according to the Free Press, is trying to do Great Britain "a more real service than in building a navy," said in a speech at Montreal on Oct. 20, 1901:

"What I should wish is that between the old British frigate about to sink and the American corsair preparing to pick up its wreckage, we should manoeuvre our bark with prudence and firmness, so that it will not be swallowed up in the vortex of the one nor be carried away in the wake of the other. Let us not sever the chain too soon, but let us not rivet its links too closely.

"I am not referring to the situation of ideas which is the triumph of imperialism, but to the situation of the parties of such ideas should gain the upper hand, oh, then I would say: 'Forward! Let us be independent without hesitation.'

"What the Free Press thought of those words in 1901 would not be fit to print at this time. The editor of Mr. Bourassa's paper, Mr. Omer Heroux wrote in 1905 that 'we believe the constitution of an autonomous French state is our logical destiny.' And Mr. Bourassa's right-hand man, Armand Lavergne, has written in lyric terms to the same effect:

"When we shall be sufficiently numerous and strong the Franco-American race will also wing its flight, independent and unlinked, to play in the new world the glorious and sublime role played in Europe by France."

Messrs. Bourassa and Lavergne were anxious to establish the French language in the West, and they still denounce in the most furious terms the immigration of English "scum," as they call the "British-born," as well as of foreigners into the great wheat country. No wonder Mr. Bourassa and his paper, Le Devoir, condemn the navy which is to help Britain in war, or any other of Laurier's devices to bind Canada closer to the empire. Le Devoir, Mr. Bourassa's own paper, said a few days ago:

"As Viger, at the close of his career, so Sir Wilfrid Laurier has yielded to the imperialist seduction. Both have failed of the patriotic energy which was once their glory, and as Viger fell into the hands of Metcalfe, Sir Wilfrid Laurier has bowed the knee before imperialism."

A tendency may be judged by its extremes, said Macaulay. Ordinarily Mr. Bourassa and his lieutenants keep a stopper on their most anti-British feelings. Occasionally, however, they flame forth in violent outbursts. Mr. Bourassa has objected to the British white ensign, symbol of royal supremacy, being flown on the stern of yesterday's Canadian navy. Mr. Jean Prevost, one of the Conservative-Nationalist leaders, came out with a declaration that Great Britain, afraid of Germany, had found it necessary to look to the United States for support, and in order to obtain her treaty of arbitration with the United States had coerced Sir Wilfrid Laurier into the reciprocity agreement. This was spoken in support of the Conservative candidate for Terrebonne, and received no rebuke from him, nor from Mr. Bourassa or Mr. Monk.

Contrast with the adulation of the Free Press the real Mr. Bourassa. The real Bourassa represents the

faction which wanted everything in 1905, the disloyal feeling of it is probable, only a small section of the habitants, and those who wish an independent French Canada. The alliance between Bourassa and Borden is monstrous, and it is to be hoped not a portent. Extremes have met in Canadian politics. But there is every reason to believe that the solid core of British and Canadian self-respect will crush this infamous combination and vindicate at the polls, more triumphantly than ever, Sir Wilfrid Laurier, consolation, the golden mean, united nationality and imperial union.

HORSES AND RECIPROCITY.

Mr. Yeager, a well-known Norfolk horse dealer, says that teams which would sell for \$400 to \$500 in Canada, would bring \$700 to \$800 in the United States.

Mr. Burns, a Toronto horse dealer, asks why, if this is the case, Canadian dealers do not buy teams here, ship them across the line, and make a profit after paying freight and duty.

Mr. Yeager's reply is that Canadian horses are kept back from the line not only by the duty, but by the customs regulations. He gives an instance of a Canadian farmer who tries to ship a team across the line, valuing them at \$500. The appraiser says the value is \$600. If the farmer does not like that appraisal, he must put the horses in bond, employ an American lawyer, wait for a hearing for perhaps thirty days, and pay for board during that time. If he wins the case he is still out of pocket so much that he loses on the transaction. He becomes disgusted and does not try any more. "He is frozen out."

Take off the tax, and the farmer saves not only the \$150 tax on the \$600 team, but the annoyance, the delay, the law fees, the keep of the horses and the hotel bill.—Toronto Star.

COMPROMISED CANDIDATES.

The Advertiser has sent its representative to study the political outlook in seven ridings within the last two weeks. One outstanding feature is that several Conservative candidates had committed themselves in favor of reciprocity before the contest was announced. Especially is this true of the men who come in contact with the farmers.

In East Lambton Joseph E. Armstrong, ex-M. P., the Conservative candidate, has failed to deny a signed statement that he favored reciprocity in natural products at Christmas time.

In East Elgin, T. W. Crothers, ex-M. P., the Conservative candidate, has failed to deny that he said he could see no harm in reciprocity for counties such as Elgin.

In West Elgin, David Marshall, ex-M. P., the Conservative candidate, is shipping cream to the American market, because of the high prices prevailing there. As president of the Farmers' Combine he warned wholesalers that the prices of vegetables would advance if reciprocity were enacted.

In West Huron, E. N. Lewis, ex-M. P., the Conservative candidate, refuses to mention reciprocity in his official letter to the electors. His party had to pledge him to vote against the agreement.

In East Huron, James Bowman, the Conservative candidate, supported the deputation sent to Ottawa to plead for reciprocity. On his platform is Dr. Chisholm, the former member, who is on record in Hansard as flitting with reciprocity before the pact was announced.

The other two candidates, Messrs. Lesser in West Lambton, and Merner in South Huron, are merchants, who previous to dissolving of parliament, had no chance to go on record publicly in favor of an open American market.

FOOLISH TO REFUSE.

It is a pretty safe conclusion that the Canadians will favor reciprocity. They would be foolish if they didn't. Sentiment in Eastern Canada is divided, while in Western Canada it is almost unanimous in favor of the agreement. The matter has passed out of our jurisdiction, but American Agriculturist almost hopes that the Canadians will refuse to ratify the proposition. What a rebuke that would be to President Taft, who has disregarded the interests of every agriculturist and farmer in the whole United States.—American Agriculturist.

NOT A TREATY.

The Toronto News gave prominence recently to a letter headed, "George Brown's View," in which that statesman, smarting from the American denunciation of reciprocity trade in 1866, is quoted as expressing his unwillingness that a trade arrangement should be entered into with the United States dependent on the frail tenure of reciprocal legislation, repealable at any moment at the caprice of either party. Of course it is American "caprice" that George

Brown feared, because of the advantages accruing particularly to Canada.

The writer of the letter goes on to say that the very thing objected to by Brown is a distinctive feature of the present arrangement; it is not a treaty for a fixed term of years, but a mere agreement that can be at any time discontinued by either party, as Messrs. Fielding and Paterson explicitly insisted and Mr. Knox asserted. The writer says:

"As Hon. George Brown saw it then, and as the people of Canada see it today, that clause is the 'Joker' in the agreement—it leaves the whole matter open and liable to be put an end to at the 'caprice' of either country."

Caprice or no caprice, the agreement is not a treaty, as the anti-reciprocity press seeks to maintain.

ANYTHING TO OBLIGE.

Our local contemporary challenges The Advertiser to quote the lumber schedules of the reciprocity agreement. We shall oblige our contemporary in tomorrow's edition, and shall quote also Mr. Fielding's references to these in his speech introducing the reciprocity bill. The American duties on dressed lumber will be much reduced by the agreement, but the two countries could not agree on identical the same rates.

The schedules quoted by the Free Press were not correct.

It has made a mistake of running schedules B and C together, following an error in a Toronto paper. It will be a pleasure to give our contemporary the official table, knowing its insatiable thirst for truth, especially at election time.

BEATLE AND BOURASSA.

McEvoy and more markets.

Mr. Beattie opposed the British preference.

Mr. Beattie is afraid to say whether he favors a policy of Imperial naval defence.

Those anti-reciprocity alleged Liberal big guns in Toronto haven't awakened an echo in the country.

"So far this has been a country of cheap hogs and dear bacon," says the Canadian Collier. There you have the case in a nutshell.

THE PROVINCIAL TREASURER OF ONTARIO.

who put \$25,000 in the Farmers' Bank to oblige Beattie Nesbitt and the Toronto World, is altogether too obliging for his job.

THE ORANGE JUDD NORTHWEST FARMSTEAD.

A United States agricultural journal, says the reciprocity agreement is "jag-handed." "It gives Canada the jug and leaves Uncle Sam only a small bit of the handle."

DAVID BISPHAM HAS JUST SECURED THE SINGING RIGHTS TO ARTHUR STRINGER'S IRISH POEM, "OF MY OULD LOVES," AS SET TO MUSIC BY GENE BRANSON.

and will use the piece in his repertoire this coming season. This makes the fourteenth musical setting for different lyrics in Mr. Stringer's little volume of "Irish Poems."

A GOOD STORY IS TOLD OF TWO CITIZENS OF LONDON, ONE FROM THE NORTH OF IRELAND, THE OTHER FROM THE SOUTH.

The northerner was boiling over against reciprocity. "If the thing carries I'll not live in the country; I'll go back to Ireland!" he shouted at the south of Ireland man. "You're all the same!" was the reply. "You'll just be there in time for home rule."

DR. EDWARDS, CONSERVATIVE MEMBER FOR FRONTENAC, SAID IN THE HOUSE OF COMMONS FIVE DAYS BEFORE THE PACT WAS BROUGHT DOWN:

"When this Government took the duty of America into their hands, they neglected a splendid opportunity of conferring a great benefit upon the farmers of Canada in not exacting from the United States a quid pro quo that they would remove the duty from Canadian barley."

THE AGREEMENT REMOVES THE DUTY ON BARLEY, AND DR. EDWARDS IS STILL KICKING.

TRYING TO SCRAMBLE TOGETHER THE UTTERANCES "LEADING AMERICAN POLITICIANS" TO THE EFFECT THAT "RECIPROCITY OPENS THE WAY FOR THE HOISTING OF THE STARS AND STRIPES OVER CANADA," THE FREE PRESS MAKES AN OMELET FROM THE HEART PAPERS (SOME OF IT IRRELEVANT), AND FROM MR. CHAMP CLARK. WHERE ARE THOSE "LEADING AMERICAN POLITICIANS" WHO SEE THE ANNEXATION SEED IN THE RECIPROCITY FLOWER? THE FREE PRESS DRIVES AROUND A COLUMN WITH ITS SELECTIONS FROM THE LEADING POLITICIANS, EXCEPT ONLY OUR OLD FRIEND, CHAMP CLARK. HIS QUOTATION FROM GOVERNOR OSBORNE, OF MICHIGAN, DOES NOT CONNECT HIS VIEWS WITH RECIPROCITY.

WHAT, INDEED!

Cherbourg police think the "Mona Lisa" has been taken to America, but what do we want of an old master's moving pictures, so are silent.

WHEAT PRICES WILL BE HIGHER IN CANADA.

Imagined two ponds of equal size one ten feet higher than the other, separated by a narrow neck of land. Remove the barrier and the higher pond will fall and the lower pond will rise until they are exactly at the same height. Apply this to the wheat areas of Canada and the United States. It is clear that the price of

THE LONDON ADVERTISER.

COMRADES!

"He (Sir Wilfrid) found it right and good to cause fifty thousand men to be massacred, millions of farms to be ravaged, homes to be pillaged, women to be outraged and little children to be shut up in pestilential camps, where they die like flies."—Mr. Bourassa, on the South African war.

"Such a man then is Bourassa, brilliant, cool, courageous, attacking evil wherever he sees it, a Nationalist standing for a strong and vigorous Canada."—London Free Press.

wheat will range lower in the United States and higher in Canada, by reason of this agreement, and that a price equilibrium will be reached. Who will get the benefit of it?

SERVING BOTH SIDES.

The editor of the Toronto News has the proud distinction of supplying campaign material for both sides. While his daily editorials give aid and comfort to the anti-reciprocity cause, his biography of Laurier is one of the most valuable of the Liberals' campaign text-books.

LAURIER'S WIT.

[Sir Wilfrid Laurier at Ahunatic.] When I see Mr. Borden, Mr. Sifton and Mr. Bourassa united against me, I say to myself, "What a salad!" I suppose Mr. Sifton furnishes the oil for the dressing, while poor Mr. Borden has to eat it.

A RURAL VISIT.

[Simcoe Reformer.] Borden went to go to the country, and evidence accumulates daily that he will stay there.

CONDENSATION.

[St. Louis Republic.] Here is a news item from Bellefontaine: Henry Wertz, 14, of Botkins, shot through the left lung when his rifle accidentally exploded yesterday, died today.

The correspondent has told: Who was shot? How old he was? Where his residence was? In what part of the body he was shot? How he came to be shot? What he was shot with—revolver, shotgun or rifle? When he was shot? When he died?

And all in eighteen words. We commend this little news dispatch to teachers as a high example of the possibilities in condensation. We further urge its consideration upon those business men who dictate three pages of letter to convey three words of information.

SINCE MONA WENT AWAY.

[Cleveland Plaindealer.] List to the moon from fair Paree. Lost is the dame so good to see; Mona Lisa, ah! where is she? Gone!

There she hung on the honored wall; Now she has passed beyond my sight; Vanished with strangers—big or small! Skipped!

Men who flatter may prove untrue; Trust not strangers who come to woo; Carry this moral home with you: It's good.

SCOTCH DOGS' BUSINESS INSTINCT.

[Our Dumb Animals.] Left on night on Wagoner Mountain with 2,000 sheep by the death of John Sagoday, her master, one female shepherd dog two weeks later delivered to Manuel Saunders, owner of the sheep, 3,000 of the animals, having lost only one during two weeks of privation. The dog's achievement was carried out despite the fact that she was the mother of puppies only a few days old when her master died.

NO ROOM FOR DOUBT.

[Answers.] The afternoon was warm, holidays were approaching and the teacher was almost worn out in trying to drum the elements into the wooden craniums of her pupils.

"Now, Johnny," she said wearily, "tell me—would it be proper for you to say 'You can't learn no nothing'?" Johnny looked thoughtful for a moment and then replied in a tone of conviction:

"Yes, ma'am."

The teacher sighed.

"Why, Johnny?" she asked. "Tell me why."

And now the answer came quick and pat:

"'Cause you can't," said Johnny, triumphantly.

HAY FEVER.

[Brooklyn Eagle.] About a million little ants crawl round within my nose; No remedy a respite grants, While irritation grows. Like Tennyson, in lyric burst, I take the self-same grounds: "I hate the little hollow" worst. Where golden-rod abounds. No temper attacks Hay Fever's wreck; Old friends are now my foes; You ought to see the servants trek; My cough most quickly goes. My folks into the mountains flit, From anarchy they roam; I'm almost starving as I sit, In what was once sweet home!

THE LATEST STYLE.

[Detroit Free Press.] "She has a model husband." "What?" "1910 or 1911!"

LOYAL TO THEIR BELLIES.

[Dr. Andrew McPhail, McGill University.] There are certain subjects of which one does not speak unless he is compelled to. They are taken for granted, like the honor of a patriot, the virtue of a woman, the fidelity of a friend, the loyalty of a subject. And yet into this matter of trade the question of loyalty has been wistfully forced.

BUSINESS IN LONDON.

Continued From Page One.

McCormick Manufacturing Company: "The only thing that is worrying us is the shortage of help. We want it badly, and have all kinds of work."

London Rolling Mills: "We are very busy. We are working with 125 men. We are working with 125 men."

George White's: "We are very busy."

Come to the Opening Display of Men's Fall and Winter Fashions at the New Semi-ready Store YOU ARE INVITED

That English Effect

The rolling lapel, with its soft, yielding and natural effects, is one of the outcomes of our wholesale migration to see the Coronation festivities.

It is "that English effect," and it is illustrated in the Semi-ready style book this season. The truly English garment is characterized by the natural shoulders, the softness of the coat front and lapels, the precise roundness of coat corners, and the absolute absence of even the suggestion of a "dip." The vest is high cut and the trousers are "slim."

You need not buy because you look, nor keep because you buy.

We want this store to be yours for service and satisfaction.

Come---just to see.

RAILWAY OFFICIALS LOOK OVER SITUATION

Policy of Retrenchment and Economy Under Discussion.

Chicago, Aug. 30.—Members of the committee on relations among railroads of the American Railway Association met here today, and discussed the employment situation on transportation lines in different parts of the country. The session was held behind closed doors, and railroad officials declined to discuss any action likely to be taken in advance of the meeting.

The policy of retrenchment and economical administration adopted by a number of roads, which has resulted in the laying off of thousands of employees, was considered. It is said, at the conference. The disputes with union labor which has engaged

FEVER AFTER DEATH

Remarkably High Temperatures Noted By French Scientist.

London, Aug. 30.—In a scientific article about the highest body temperatures observed in man the Italian periodical Nuova Antologia mentions cases described by the French professor Lefevre, who has recorded fever temperatures ranging up to 43 and 44 degrees Centigrade. Canavelli found in one case of intermittent fever 46 degrees; but the most remarkable instances are those given of high temperatures measured after death.

Professor Wunderlich found in a sufferer from tetanus a temperature of 47.5 degrees, which increased after death and set in to 46.37 degrees. The highest temperature ever observed occurred in a case described by Professor Lavastine. The patient died of inflammation of the lungs, and five minutes after death had taken place the inner organs showed the temperature of 138.2 degrees Fahrenheit. An

BIG WINE HARVEST

Great French Industry Is Helped By the Hot Spell.

London, Aug. 30.—The persistent spell of hot weather in France promises a wine harvest average in quantity but excellent in quality. In fact, if some rain falls the quality in some districts may prove remarkable.

In the Marne, where champagne, the gathering of the grapes is expected to begin on Sept. 10, from fifteen to twenty days in advance of the usual date. The vintage of 1911 is expected to surpass in delicacy even that of 1893 of famous memory. The Marne's southern neighbor, the Aube, which scored having its output labelled as champagne of the second zone, is favored with fine grapes, but not a very early harvest. In Burgundy a small harvest will be compensated for by extra quality. In the Yonne Department around Chablis, the vintage of an average yield is expected; in the Saone et Loire Department, a half; around Lyons the reports are better, and the

STREET LIGHTING WAS CRITICIZED

LIGHTS ARE VERY POOR

"Wait Till the Leaves Are Off the Trees," Ald. Tancock Told No. 3 Committee.

The hydro-electric department came in for a good deal of criticism at the meeting of No. 3 committee last night. Ald. Mitchell started the discussion when he asked why it was that lights which the council had put up on Hyman street some weeks ago were not yet in use. No one knew, and Ald Mitchell moved that Engineer Gaultz be instructed to prepare a report immediately and have it ready for the next council meeting. This carried.

Ald. Mitchell then wanted to know why it was that the lights on the side streets of the city were in such a poor condition. The commissioners, he said, had agreed to change the lights three times a year.

"We're paying them a year," he said, "for doing it, and they are not carrying out what they agreed. We are not getting within 40 per cent of the current that we ought to get from them. The lights at 10 per cent of the crossings and along the streets are in such a filthy condition that it is positively dangerous to travel on some streets. You can't see if any one is coming. We should get 25 per cent more brilliant than we are getting. I know where I can get a contract tomorrow for lighting London for \$7,000 better than it is lighted now."

Ald. Tancock thought the trouble with the lights now was that the thick foliage on the trees prevented the glow from being thrown very far. It would be all right when the leaves are gone, he declared.

AM. Mitchell laughed at this. His motion that Mr. Gaultz be instructed to prepare a report immediately and have it ready for the next council meeting was carried.

Firemen in Parade.

The matter of purchasing an auto for the fire chief came up, and the chief will go into the details shortly, as he explained that he expected to get some information at the fire chiefs' convention he will attend shortly.

It was decided to allow the fire department to take part in the parade on Labor Day.

Engineer Gaultz reported in reference to Ald. Cooner's request for a statement of hydro-electric expenditures that the statement will be ready in two weeks.

Chief Aitken reported that while at a fire in West London recently a car had overturned and destroyed a lamp of hose. It was unanimously decided to ask the street railway to make the damage, which the chief estimates at \$25, good.

Fire Chief Aitken and Ald. Wilson were appointed to attend the International Fire Chiefs' convention at Milwaukee.

Increase in Wages.

AM. Tancock moved that the men who water the streets be paid \$2 a day, instead of \$1.10 per week as at present. The committee decided to decommit the council to do this.

On account of the strike at the comfort station on the Market Square it was decided to close it indefinitely.

There were present Chairman Wilson, Aldermen Mitchell, Gaultz, Engineer Wright, Fire Chief Aitken, Inspector McCallum, Market Clerk Maker and the secretary.

PLAIN TALK FROM A TEACHER

Boys Are Patted Too Much by Parents.—Smoking Is Damaging to Manliness.

London, Aug. 30.—The half-fellow-well-met spirit which is now the rule between father and son yesterday afternoon, as reported by Dr. Rendall, the retiring headmaster of Charterhouse, "it places both," he said, "on a false equality, which is destructive of all discipline."

"Bullying has been replaced in the public schools by a false equality, which is almost worse than bullying, which is a birth in the home, and is partly due to the growth of wealth. At home boys are indulged, and indulged, and their slightest ailments are unduly magnified."

"Damaging, too, to manliness and health is the way in which either schoolboys or men are encouraged to smoke. Fathers offer their sons cigarettes after dinner and press cigars into their hands as they leave Waterloo at the end of the holidays."

Games Dr. Rendall believes are largely lessons by developing a spirit of keenness, and generally find the boys at Charterhouse, he said, "duller and less attentive on Monday morning after their Sunday rest than on other days when they have had plenty of sport the day before."

Discussing the don't care boy, described by F. S. Jackson at Leeds Grammar School as the boy who, being unable to concentrate on a game "clucked" about soon and whose habit of chuckling stuck to him in after life, J. A. Johnson, headmaster of Highgate School, said: "This type of boy has become a rarity. He is seldom ever encountered at boarding schools. At day schools boys who live under the ever-present influence of excessive home luxuries and a little mollycoddling, perhaps, sometimes show a tendency to slacken at games. Slackness on the field may arise from an inferior instinct to games or from badness. If it is due to the latter, the boy may possibly slack all through life."

BRITAIN BANKRUPT IN 200 YEARS

Coal Supply Is Rapidly Vanishing, Says Sir W. Ramsay.

WONDERS OF RADIUM

Energy From a Ton Could Drive Locomotive a Thousand Years.

[Canadian Press.]

London, Aug. 31.—Sir William Ramsay gave a surprise to the members of the British Association, which began its 80th annual meeting at Portsmouth yesterday.

The eminent chemist had been expected to deal in his presidential address with the wonder of science, instead he delivered a warning to England. At the present rate of consumption of her coal supply she would be a bankrupt nation 175 years hence.

"It may be said that 175 years is a long time," said Sir William. "In the life of a nation it is a mere span." Sir William pointed out the diminishing of the stores of natural energy, and to take steps to lessen its rate.

Two courses, he said, "First, the laissez faire plan of leaving to self-interest the combating of waste, or, secondly, initiating legislation which in the interest of the whole nation will endeavor to lessen the squandering of our national resources. This legislation may be of two kinds—penal, that is, imposing a penalty on the wasteful expenditure of energy supplies; and incentive, that is, imparting information as to what can be done, advancing loans at an easy rate of interest to enable reforms to be carried out, or insisting on the greater prosperity which would result from the use of more efficient appliances.

The subject is a complicated one, and it will demand the combined efforts of experts and legislators for a generation, but if it be not considered, we shall be held up to a deserved execration of our not very remote descendants."

As England's coal supply is admittedly the concrete basis of her wealth and power, Sir William Ramsay's address draws attention to the fact that the country is living on its capital, and that bankruptcy is in sight within a few generations.

Radium Possibilities.
Sir William did not leave radium out of consideration in his forecast. On the contrary, he suggested wonderful possibilities that would enable us to harness that element with its energy stored up. If, he said, the energy in a ton of radium could be evolved at its slow rate of 1,750 years for half disintegration it would suffice to propel for that time a ship of 15,100 tons with engines of 15,000 horsepower at a speed of 15 knots an hour. To do this would require a million and a half tons of coal.

"If we know," Sir William said, "that radium and its derivatives decompose spontaneously, evolving energy, why should not other, more elements decompose when subjected to enormous strains?"

This leads to the speculation whether, if the elements are capable of disintegration, the world may not have at its disposal a hitherto unsuspected source of energy.

Sir William did not seem hopeful in this direction, however, for he concluded: "If radium were to relieve its stored-up energy at the same rate that gunpowder does, it would be a disaster."

ASHPLANT'S SHOE STORE.

ONTARIO FARMERS SOLD SHEEP, CATTLE, HORSES TO UNITED STATES IN HUNDREDS OF THOUSANDS BEFORE MCKINLEY TARIFF; HOW MANY MORE WOULD THEY SELL NOW WITH NO TARIFF AT ALL!

Around 30 years ago moderately good farms in Central and Western Ontario sold freely at \$100 an acre. In not a few cases prices went up to \$125.

The same farms, if offered today, although with better buildings and in a better state of cultivation, would do but bring \$70 or \$80 for the decline?

The chief cause is found in the exclusion of Ontario farm products from the American market, which followed upon the enactment of the McKinley and Dingley tariffs.

In 1882, before the development of the Western Provinces had really begun, and when production in Ontario was much less than it is today, Canada exported \$25,000,000 worth of farm products to the United States.

Two years after the McKinley tariff went into effect we exported about half that amount.

That was the darkest period, even surpassing that of pioneer days. In Ontario agriculture while the sheep were being driven away there was hope of the comforts to be realized when the soil began to produce. In the early nineties there was production, but no market for that which was produced. Not only were sales to the United States cut, but the values obtainable in the home market were correspondingly curtailed.

Every Ontario farmer's wife, whose memory goes back twenty years, remembers the prices at which butter and eggs sold in the early nineties.

Some details of the Canadian farm products sold in the United States, before the days of McKinley, will prove like interesting and informing.

In 1887 we sold 362,000 sheep in the United States. That was nearly four times the number we sold in 1910.

In 1887 we sold over 18,000 horses in the same market. That was upwards of ten times the number sold in 1910.

Our sales of cattle in 1887 totaled nearly 40,000; last year 12,000.

Our neighbors took nearly two million dollars worth of Canadian eggs in 1887; a year ago less than \$12,000 worth.

These things are not the raw products of the farm; they are the finished products. A mere enumeration of the facts as given sufficient amply to show that the reopening of the American market to Canadian farm products would give an impetus to poor farming.

They show, too, how valuable the American market was to Canadian farmers twenty years ago, and indicate how much more valuable it would be today.

BALANCE OF FRUIT TRADE IN OUR FAVOR.
The records of our trade with the United States before the days of McKinley makes a most interesting study. They show that in the fiscal year of '88, before the McKinley tariff became operative, we imported about \$10,000,000 worth of fruit from the United States and exported \$24,000,000.

ELEVEN AND ONE-HALF MILLION BUSHELS OF BARLEY—\$60 A BUSHEL.
For barley the United States afforded an enormous market before McKinley's tariff came into effect. We exported eleven and one-half million bushels, almost all from Ontario, at a value of nearly \$60 per bushel. That amount of barley sold today at that price, would buy a pile of corn for bushing logs and beef cattle.

Our potatoes we shipped to the United States in the same year over three and one-half million bushels at a valuation of 60c per bushel.

WE NEED THE AMERICAN MARKET TODAY.
It has been said that the American market is of less importance to Canada now than it was in the early nineties. It is a true statement, but it is a statement that is based on a false premise. The American market, at present, is of more importance to Canada than it was in the early nineties.

At that time, the American market was a market for raw products. It was a market for the products of the farm, not for the products of the factory.

At that time, the American market was a market for the products of the farm, not for the products of the factory. It was a market for the products of the farm, not for the products of the factory.

A TRIPLE TRAGEDY IN ALGOMA WILDS

Three C. P. R. Construction Engineers Perish When Canoe Overturns.

Port Arthur, Ont., Aug. 30.—An overturned canoe found on Lake Helen, above Lake Nipigon, following the non-arrival at Nipigon Station as expected, indicates the drowning of Division Engineer C. H. Nelson and Resident Engineers C. H. Nelson and Drum, of the C. N. R. construction staff.

The men left camp at Exander Sunday night for Nipigon, telephoning to Nipigon that they were departing. Their route lay across Lake Helen, between their camp and Nipigon River, and when they did not arrive search was made, resulting in the finding yesterday on the shores of Lake Helen of the overturned canoe and floating paddles.

McCoy was 48, married, and came from the Western States, Drum and Nelson are also Americans and their residences are unknown.

STEERING GEAR LOCKED AUTO SHOT ACROSS WALK

Dr. H. A. Kingsmill Had a Close Call on Dundas Street.

Dr. Harry Kingsmill had a close call from being seriously injured last evening. While driving on Dundas street near Wellington street, something went wrong with the steering gear of his auto, and instead of continuing up the street he shot across the sidewalk and came to a stand against the front window of Lombard's tailor shop.

The front axle of the machine was broken, and the window damaged considerably. Dr. Kingsmill escaped entirely. Quite a number of people were on the walk at the time but no one was struck.

Graduate Pupils Obtain Positions Here and Elsewhere

Miss I. Anundson has been placed as stenographer temporarily in the office of City Engineer Wright.

Miss R. McLachlan as stenographer with McConnell & Ferguson, city.

Miss A. Marshall, city, has secured an appointment with the Nelsons.

Miss A. L. Munro, Miss Craig, with the Standard Bank.

Miss G. Nichols, Lambeth, has been placed as bookkeeper with J. Haslett, city.

Miss A. Nicholson, Parkhill, Ont., has accepted a position as stenographer with the Grain Exchange, Winnipeg.

These young people prepared for situations in the business world by attending the Forest City Business and Shorthand College, London, Ont.

NOTICE TO CREDITORS

In the Estate of Samuel James Woods, late of the Township of West Nisour, in the County of Middlesex, farmer, deceased.

Notice is hereby given pursuant to the Revised Statutes of Ontario, 1897, Chapter 12, and amending acts, that all persons having claims against the estate of the said Samuel James Woods, who died on or about the 15th day of March, A. D. 1911, are required to send by post, prepaid, or to deliver to the undersigned, solicitors for the administration of the estate of the said deceased, on or before the 31st day of September, A. D. 1911, their claims and addresses, with full particulars of their claims, and a statement of their accounts, and the nature of the security, if any, held by them.

And take notice that after such last-mentioned date, the administrators will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of those who shall then have had notice of the said administration, and the said administrators will not be liable for the assets or any part thereof to any person or persons of whose claims notice shall not have been received at the date of such distribution.

MCKILLOP & MURPHY,
Solicitors for the administrators of the estate of Samuel James Woods, deceased.
Filed at London, Ont., Aug. 30, 1911.

THE CAMORRA TRIAL

Testimony of a Very Contradictory Nature Introduced.
[Canadian Press.]

Vicenza, Italy, Aug. 31.—Testimony presented at today's session of the Camorra trial was of a contradictory nature. The son of the porter at the house of Maria Stendardo was the first witness called. He was at the woman's house, the carabinieri assert, that the assassins of Genaro Cuccolo changed their clothes and washed their hands of the terrible marks received in the commission of the crime.

The witness confirmed the statement made by the carabinieri that Nicola Morra and Giuseppe Salvi, two of the six alleged leaders, visited the Stendardo house on the night of June 5, 1908, the date on which the crime occurred. The son declared that the woman sent him with a parcel, supposed to contain blood-stained clothes, to the residence without seeing danger. The police and a night watchman asserted that Morra was not at the Stendardo house that night.

The remainder of the sitting was taken up with other conflicting testimony regarding Cuccolo's ring, which the carabinieri allege they found in Salvi's house, and with prison gossip concerning alleged confessions of guilt made by some of the prisoners.

HELPFUL RAINS.
New York, Aug. 31.—Heavy rains during the last few days have replenished the depleted reservoirs, and there are no longer fears of a water famine. During the last twenty-four hours 1.88 inches of rain has fallen, and it was still coming down in torrents this morning.

Mild, But Effective Remedies

Those who prefer homeopathic remedies to the regular old school medicines will find an unusually complete line at our store. Besides the leading lines of ready put-up specifics, we carry

HOMOEOPATHIC MEDICINES
In bulk and can furnish fresh mother tinctures, and pellets and tablets medicated as desired.

Strong's Drug Store

184 DUNDAS STREET.

TENDERS FOR DREDGING.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Dredging," will be received until 4 p.m. Wednesday, Sept. 13, 1911, at 4 p.m., for dredging required at Port Arthur, Ont.

Tenders will not be considered unless made on the forms supplied and signed with the actual signatures of tenderers. Complete specification and form of tender can be obtained on application to the Secretary, Department of Public Works, Ottawa.

The tendering of the plant to and from the work only dredges can be employed, which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within thirty days after the date they have been notified of the acceptance of their tender.

Each tender must be accompanied by an accepted check on a chartered bank payable to the order of the Honorable the Minister of Public Works, equal to five per cent of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tenderer be not accepted the check will be returned.

The department does not bind itself to accept the lowest or any tender.

By order,
R. C. DEROSHIER, Secretary,
Department of Public Works,
Ottawa, Aug. 26, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the department. See city.

NERVOUS BURGLARS.

Montreal, Aug. 31.—Burglars, who broke into the premises of Goulet Bros. St. Lawrence, last night, showed unusual nerve. After gaining entrance by the front door, the marauders closed this entrance, opened the rear door, and, backing up, loaded it heavily with butter, hams, lard, tinned meats, etc., to the value of \$500, and drove away, leaving the door open.

TORONTO EXCURSIONS.

For Canadian National Exhibition tickets, London to Toronto, at rate of \$2.25, on Thursday, Aug. 31, Tuesday, Sept. 5, and Thursday, Sept. 7. All tickets good for return up to and including Sept. 12. All other days, Aug. 26 to Sept. 9, rate will be \$3.40. Fast trains, finest accommodations. Call for programme and time card. City ticket office, 161 Dundas, corner Richmond.

Don't Burn Your Fingers

The E. E. Eddy Co., Limited
HULL, CANADA

"Eddy's Gaslighters"

Are for that purpose. The lighters are 4 1/2 inches long, and have the same tips as our famous "Silent" matches.

You'll find these the ideal matches for lighting gas ranges and lights.

AT ALL GOOD GROCERS.

Coal Breaker AT Western Fair

The Delaware, Lackawanna and Western Coal Company will have a complete line of Coal Breakers in the Machinery Hall, and you can see how Scranton Coal is prepared for market.

We sell it.
