

DISASTROUS FIRE AT BOW PARK FARM

Thirty-Five Horses and Other Stock Cremated in Barn Fire Early This Morning--Loss Will be Very Heavy--Impossible to Check Progress of The Flames.

With terrific intensity and sweeping everything before it, a very serious and disastrous fire occurred early this morning at Bow Park Farm, entailing a loss of between \$40,000 and \$50,000.

Three of the large buildings were left a mass of charred ruins. Twenty-seven horses and eight other animals perished in the fire, only one mare and its colt escaping the savage flames.

Fifteen breeding sows also perished. A Courier representative in company with A. B. Cutcliffe visited the scene of the fire this morning and on arriving there found three immense buildings, namely the horse stables, sheep and cattle sheds and the implement shed in a mass of smouldering ruins.

Mr. O. Herrold was seated in his office talking over the long distance phone when seen by a Courier reporter, and stated that the loss was very great and a serious blow to the company, coming as it did right in the spring of the year. Mr. Herrold stated that he was unable to account for the origin of the fire, unless it was because of defective wiring in the horse stables.

Mr. O. Herrold immediately purchased horses, but in the meantime would rent them if possible to do the farm work.

Mr. Herrold stated that the buildings were completely covered by insurance and that as soon as insurance matters were straightened out, Mr. Herrold felt very much grieved at the sad fate that befell the horses.

Night Watchman's Story. W. Pyne the night watchman was next interviewed and stated that he was on duty last night and that he detected his round about 3:45 a.m. and went over to the house to get something to eat.

He pulled out his large pocket knife and laid it on the table. He was just about to commence his meal when he looked out of the window and saw a blaze in the horse stables. He immediately ran and rang the alarm bell, but before assistance could arrive the building was a roaring mass of flames, and jumped in and bounds from one end to another.

His first thought was for the horses and he ran there to loosen them from their stalls but in his rush the alarm left his knife on the table and had to untie the beasts by hand.

He untied the halters of a couple of horses and drove them out but they came right back again. By this time the fire was so hot, and the smoke so thick he was forced to beat a hasty retreat.

Employees of the farm rushed to the scene and tried to get the stock out, but they were too late—the flames had secured too good a start and were licking up everything in their path. The night watchman managed to get out one old mare and her colt. Weekly the sheep were out in the fields.

Mr. Pyne and others then tried to close the doors, but it was an utter impossibility. Fifteen fine breeding sows perished in the flames, only a few of the stock escaping.

Only the charred carcasses of the horses were left in the smouldering mass of ruins, most of them being burned in their stalls. Dr. Cutcliffe said that the most of them would be suffocated with smoke before the fire reached them.

Narrow Escape. Two men, R. Breuckner and G. Hamilton, who were sleeping in a room adjoining the horse stables, found the bedding on fire when they heard the alarm, and had to jump out of the building clad in their night apparel to save their lives.

Their clothes were all burned, and they had to borrow clothing and shoes from their fellow-employees. D. J. Orr, manager of the farm, stated that as soon as he heard the alarm sound he put on his trousers and shoes and raced for the horse stables, but the fire had gained such headway that to rescue the animals was an impossibility.

Like Fireworks. He stated that while the fertilizer was burning the flames shot many feet into the air. Nearly every implement in the place was burned, and these will be replaced at once. The wind was blowing pretty stiff at that time, and had it not subsided in all probability the whole of the buildings, along with the dwelling houses, would have been completely destroyed.

Help Appealed For. Chief Lewis was asked to give assistance, and he instructed his men to give assistance to the fire.

Mayor Hartman, who instructed his men to give assistance to the fire, stated that he could not go to the scene with a number of the firemen when he received another call from Mr. Herrold that the fire had gone so far that he could probably do little if he came there.

The Origin. The origin of the fire is a mystery and there are rumors of incendiarism. Mr. Herrold would say nothing on this point, but a thorough investigation of the fire will be held.

The farm is owned by one of the richest corporations in the Dominion the Dominion Canners Limited, and is used for the raising of seeds for distribution to the growers.

Insurance is Heavy. The insurance was placed through Messrs. Bunnell & Co., and arrangements have already been made to have an adjustment made on Monday.

Table listing insurance companies and amounts: Northern \$10,000, Insur. Co. of North America 6,000, London, Liverpool & Globe 6,000, Yorkshire 6,000, British America 7,000, Western 6,000, Sun 5,000, General 5,000, Queen City 4,000, 2,000, Hand-in-Hand 5,600, Atlas 2,000, Economical 2,000, Phoenix 2,000, Total \$64,600.

NEW YORK, May 17.—After forty years of struggle to support herself by running a little bakery in New York, Mme. Charlotte Françoise Rousseau has learned that the man with whom she eloped in France when she was only 16 years old has died leaving her a fortune of over \$100,000.

she came to America to seek her livelihood. The letter which she has just received from a friend in France informs her that the courts have been looking for her for the past four years since her husband died leaving her about 500,000 francs in money, a cross of the legion of honor and certain sealed papers addressed to her child of Henry Courdat a wealthy refiner in Lille France, when she fell in love with her father's coachman Adolph Gruson 18 years old.

partment that forced recognition from the union standpoint was these bookbinders, but they are now on strike, being forced out as the policy of the firm is to replace men with boys. first acts to show his progress, cut off his queue. There are now very few Chinamen living outside of the Chinese Republic who still wear one. At one time there was a well known character in London, England, who wore a queue down to his knees. In San Francisco several months ago many of the young Chinamen were so zealous in their desire to have all queues cut off that they chased their fellow countrymen in the streets. As yet this hasn't happened in Brantford.

A Model Cottage, Beautiful Design, Costing \$1200
Designed By Chas. S. Sedgwick, Architect

The size of this cottage is 28 ft. in width by 31 in depth. It has a good foundation with a small basement under the rear part and one chimney with flue for furnace and kitchen, and a flue for fire-place. It is picturesque in its appearance and will make a very pretty cottage for any locality, and is estimated to be built as described for \$2200 exclusive of heating and plumbing.

The height of the studding is 8 ft., using a double plate at top and bottom and making the story 8 ft. 6 in. in height. The outside is sheathed, sanded and covered with good cedar shingles, stained brown. The casings and cornices are painted white, and the roof shingles stained red.

There is a central porch entrance with a seat on each side, and the main roof covering over the side porch. The entrance is in the centre with a good sized living room on the

left, 12 ft. in width by 20 ft. in depth with the fire-place at the rear right-hand angle, and on the opposite side a projected oriel window with a seat giving a very attractive appearance to the exterior. At the right of the hallway are two bed rooms with a bath room between, there are three clothes closets. There is a stairway with door at the foot of the same leading up to the attic space, and the cellar stairs underneath. The floor and the finish is of Washington fir, stained. The house is plastered throughout. The kitchen is convenient with cupboard and with rear entry way and space for refrigerator. The main room being long, serves the purpose of dining room and living room combined.

This is indeed a model cottage and will interest very many people who desire a small and convenient home

SYNDICATE PLANS BIG SUBDIVISION

American Architect is Looking Over Bennett Farm on Paris Road.

The syndicate that purchased the Bennett farm on Paris Road is having plans prepared by an American landscape architect for the subdivision of this property. No expense will be spared to make this the model residential district which its location justifies. It is planned to have curving boulevards, generous sized lots, small parks at different points, and building restrictions which will permit only a good class of residences. This property would have been sold and built on before this had it not been held off the market by the fact that the original owners were out of the country. At different times efforts have been made by prominent residents to acquire it. The present owners were fortunate enough to make their bid for it just when it was possible to complete the deal. They came near losing it even then. Before their offer had been accepted, another of equal value had been forwarded by a Hamilton syndicate, but fortunately for the local men, the latter offer did not reach the vendors in this instance. Later, another syndicate of Hamilton investors offered a sum largely in excess of the price paid for the present owners, but they preferred to split it themselves.

Our Garage is cheaper in price than, wood, brick or any other structure. On receipt of a card we will mail you one of our illustrated booklets.

men of the steamers include a large number of Royal Naval Reserve men, who in case of an emergency would be capable of manning the guns.
This armament is of course not intended for offensive purposes, but the admiralty believes that for defensive purposes it is sufficient to counteract the risk of attack from lightly armed foreign merchant ships. It is the intention that a large number of steamers, especially those engaged in carrying food supplies shall be thus armed in the future.

The scheme is entirely separated from that by which larger steamers, such as the Mauretania and Lusitania and the new steamers proposed for the Canadian service, are under contract with the government to be armed in case of war for both offensive and defensive purposes.

The German government has similar arrangements with the German lines, some of the vessels of which are so built that they could be converted into very formidable merchant cruisers.

MARRIAGE PROMISE.
The case of the prosecution against Jeannie Baxter was closed on Tuesday, when the temporary Marlborough street Police Court was crowded.

Teresa Pantanello, Miss Baxter's servant, said that only on two of the occasions when Hall visited her mistress was he sober. On April 11 Miss Baxter said Hall had promised to marry her on the 17th by special license, and that if he had an accident while flying she would get a large sum of money.

Miss Pantanello admitted in cross-examination that she had made a statement in which she said: "I have never heard Baxter use any threats to Mr. Hall except when he aggravated and teased her, and then she picked up what came to her hand and threw it at him. I have never heard her threaten to shoot him or seen her with a weapon of any kind whatever in her hand."

Louis Royle, a valet, said Hall usually had a bottle and a half of brandy a day while at the flat. Between Saturday, Sunday and Monday he had three and a half bottles.

Dr. Edwards, who described Hall's injuries, was asked by Mr. Valetta, who defended, "The theory of a struggle is not inconsistent with the position of the wound which caused death is it?"

"No," was the reply.
"Assuming two people were struggling for this revolver, it might have gone off?—Yes."
"And caused these wounds?—No, I do not think so."

The case was adjourned for a week.

Mr. Hall's Will.
The shooting led to an application in the Probate Court, on Monday, with regard to the disposal of Mr. Hall's property. The application was that Mr. Hall's brother should be appointed administrator, pending suit, with the object of paying off money borrowed at high rates of interest. The application was granted.

BECK AND THE HYDRO-ELECTRIC

There seems to be no end to the efforts to hamper and heckle Hon. Adam Beck in connection with Hydro-Electric.

Here is a man who at enormous personal sacrifice has fought down all obstacles against this great scheme for the benefit of the people, and, in fact, so earnest and so arduous has been his devotion to the scheme that his health has finally broken down.

Still the gnats seek to continue to torment.

The latest incident comes from Toronto.

Some young men in the Hydro-Electric office got fresh, and were very properly fired.

Now the members of the Board of Control of that city have decided not to renew the appointment of Mr. P. W. Ellis on the local commission until Mr. Beck has reported on the aforesaid trouble.

The Toronto Star (Liberal) warmly urges Hon. Mr. Beck not to pay any attention to such a cheeky demand.

It points out that Mr. Beck has a wide province to look after. The relations of the province with the city, and of one municipality with another, and of all with the Ontario Hydro—these interests are numerous and difficult, and they all have demands on him. But the domestic, the indoor, the kitchen disputes of the Toronto City Hall are, it thinks, good little troubles for the Minister of Power to keep aloof from and remain superior to.

The Star is right. Hon. Adam Beck has risen to the demands of a big job in excellent fashion, and it is for him to keep his hand on the tiller without the distraction of below-hold trivialities.

THE SENATE AND DIVORCE

The members of the Senate at Ottawa recently turned down an application for divorce by a vote of 24 to 20.

What the evidence showed this paper does not know, but it is very much open to question as to whether such cases should get to the Upper Chamber at all.

In the first place, fifteen of the members who voted against this particular application were Roman Catholics. One of the tenets of that Church is strong opposition to the dissolution of the marriage tie. That view is nobody's business outside of the adherents of that Church, but it is and should be everybody's business to see a jury does not include men who will only cast their voice one way, no matter what the testimony.

In the next place, the cost of going to Ottawa with witnesses and lawyers, and so on is very great. In fact, such things in Canada, under existing circumstances, are only for the rich.

No one of common-sense wishes to see the marriage tie lightly regarded, or too easily capable of severance, but there are, unfortunately instances in which a separation is not only warranted but desirable.

In this regard there ought, as in the Old Country, to be recognized divorce courts, before which applicants could readily appear and secure a hearing, even to the extent of forma pauperis, or, in other words, without cost, because of lack of means.

Under any circumstances, the Senate is most emphatically not the place for the airing of marital difficulties.

SALARY FOR THE OPPOSITION LEADER

When Premier Borden, as leader of the Opposition, accepted a salary of \$7,000 a year, the Toronto Globe used to continually jibe at him for so doing.

Since ex-Premier Laurier has found it very convenient to accept a like emolument, the leading Grit organ, in characteristic fashion, has had nothing to say.

The Courier has always contended that such leaders have a right to be paid, and still thinks so. No Minister, outside of the Premier, does such hard work as the head of an alert Opposition. Moreover, he has not the advantage of Cabinet consultation, or of the services of the Deputies and the rest who help to make the life of the head of a department

more easy. In addition, for secretarial and other help he has to pay out of his own pocket.

Mr. Borden did not sacrifice one iota of his dignity when he accepted the stipend, neither is Sir Wilfrid Laurier in so doing.

SOME GRIT BALDERDASH

The following is from an editorial in the Peterboro Examiner, Hon. Mr. Stratton's paper: Premier Borden is to follow Sir Wilfrid Laurier's example and visit Toronto, to make a speech, next Monday. Even with Tory Toronto's population—three to one Grit—it is doubtful if Mr. Borden will be received more enthusiastically or attract a greater audience than did the great Liberal Chieftain. And the truth is that he will not make so great a speech, for he comes in an apologetic spirit. He must defend an un-Canadian and un-British naval policy. He must defend, in Tory Toronto, "Oranges" Toronto, a naval policy dictated by the French-Canadian National element, the only openly disloyal element in Canada.

When Grit papers have to feed their readers with the above brand of buncombe they must be hard put to it indeed.

NOTES AND COMMENTS

In the spring a young man's fancy lightly turns to thoughts of love. So wrote the poet, but this particular spring his thoughts are largely centred with regret that he put his fur cap in hock.

Speaking of Senators dealing with divorce cases brings to mind the fact that they are quite likely to divorce themselves from their lifelong job if they continue to monkey with important Government measures.

Bourassa is writing his political reminiscences, and what he has to say of Laurier's truckling with the Nationalists will not make good reading for he of the sunny smile. For instance, he announces that it was with great reluctance that Laurier supported the plan of Canadian soldiers going to help the Mother Land in the Boer War.

Just ask any intelligent Liberal you know, to state wherein the Laurier navy program is practicable, or even a patch on the Borden plan, and then watch him switch about the weather.

Meaford has had the fool habit of carrying overdraft after overdraft until the figures have reached such an enormous total that it is proposed to impose a tax rate of fifty mills for two years. Pay-as-you-go is an excellent method with municipalities, as well as individuals.

There is some talk of sending the British militant suffragettes to St. Helena. All right. Hand each of these dearies a large-sized hammer and don't let a mere man show his nose on the island from year's end to year's end.

Somebody has started the rumor that Teddy Roosevelt may have a chance to become King of Albania. That would be rather a drop from his effort to become Czar of the United States.

The Toronto Globe contended that Hon. Mr. White's splendid budget was made possible by the wise tariff measures of Hon. Mr. Fielding, and then it yelled because duties were not further reduced. This is the same paper, it will be remembered, which in the awful days of Rossism called for the removal of the barnacles with an "iron hand," and then, when nary a barnacle was touched, it swallowed the whole bunch of them and kept on imploring the people to keep such an excellent Government in office.

What the Other Fellow Thinks.

Protecting the Immigrants.

Ottawa Journal: Hon. T. W. Crothers, acting Minister of the Interior, is to be congratulated upon the new regulations he has drafted to protect immigrants from unscrupulous employment agents. These regulations make it incumbent upon employment agents who are to be licensed, to deal with immigrants in a manner that ensures either satisfaction or redress. The effect of dishonesty in dealing with immigrants is very great in the countries from which they come and has much influence in keeping the better class of workers from coming to Canada. The influx of a large number of men who do not understand the language of the country of this country offers a golden opportunity for profitable misdealing on the part of employment agents. Much misleading has gone on in the past and Canada has suffered from it. Immigrants have been induced by promise of employment to hand over money and the promise has not been redeemed. The new regulations, if successfully carried out, should give Canada a new prestige, as a land of promise for foreign workers.

Woodstock Sentinel-Review (Lib.). The cable announces that three thousand Scotch immigrants are on their way to Canada. As loyal Canadians we welcome them, because the Scotch people are among the very best of our settlers, and there is still room for them. As loyal imperialists we may be permitted to regret the necessity that is forcing so many people to seek new homes for themselves. And we may take it for granted that it is not for nothing that a people like the Scotch leave their native hills and glens.

Will Get Fooled. Guelph Herald: The Liberal that relies upon an election this year is going to be greatly disappointed. There is no reason why there should be one, and it might as well be understood that Liberalism is not in control of the affairs of Canada.

A Striking Example. Galt Reporter: As a boy the late Chris. Kloeffer went from a Waterloo county hamlet to Guelph with perhaps enough money in his pocket to pay his first week's board. In a few years he was heard of as the Royal City's leading manufacturer and financier. When he died a few months ago he was at the head of half-a-dozen industries. His estate is valued in returns to the Surrogate Court at \$361,000. Such opportunities as faced the young German lad from this county are open to others brought up amid rural surroundings, who have the stuff in them that makes a strong man out of the ambitious boy.

British Closure. Ottawa Journal:—"Much has been made of the fact that closure rules are in existence in the British parliament and in other public bodies. But the British parliament did not make its closure rules in the middle of a debate on an important subject and it did not force, as the rules on the House by a government majority.—Hamilton Times (Lib.) The foregoing is not true. The British parliament made its first closure rules in the middle of a debate on the suspension of the Habeas Corpus in Ireland, and only forced the rules through the House of Commons after the ejection of the whole of the Irish Home Rulers.

THE PEOPLE'S PAPER

IT IS the desire of the Courier to be "the people's paper" of Brantford, in name as well as in fact. In future it will be sold at the popular price—one cent—every day. In the past the price has been one cent every day but Saturday. On this day—the farmers' day in the city—the price has been two cents. Country cousins will no doubt appreciate this concession, as well as citizens.

ANNUAL MEETING OF Y.W.C.A. SHOWS SPLENDID PROGRESS

The Institute is Going Ahead Splendidly Under Excellent Management—Reports of Various Committees.

The annual meeting of the Brantford Young Women's Christian Association was held in the Association parlour yesterday afternoon, with Mrs. J. H. Oldham, 1st vice-president, in the chair. The meeting was opened with devotional exercises led by Mrs. John Ott, after which the report of the previous annual meeting was read by Miss Perley, secretary of the board.

Treasurer's Report
The report of the Treasurer was then read by Mrs. W. E. Mann, and showed the receipts for the past twelve months to be \$9,507.25, disbursements \$9,448.71, leaving a balance of \$58.54 on hand.

House Superintendent's Report
The house superintendent's report was read by the superintendent, Miss Haycock, and showed that department to be in a prosperous condition. Miss M. Best, General Secretary, submitted a very lengthy report of the work of the past year.

Membership
There is a total of 400 Y. W. C. A. members, made up of junior department 80; senior department 131; yearly subscribers 180.

Religious
The week of prayer for the Y. W. C. A. work of the world was observed in November. Capable ladies and appropriate music were provided for each meeting. All were well attended. This week of prayer afforded a splendid opportunity to gain a knowledge of the association work of other lands as well as our own. While struggling with the problems of the local association it may be forgotten that it is but a part of a strong world-wide force for good in the service of the Master. Through this week of prayer the local workers clasped hands with sisters across the sea in united prayer for guidance in the work of providing for the highest interests of womanhood. The local contribution to the world's penny fund amounted to \$5.

The Blodgett Bible Class was conducted through February and March by Mrs. (Dr) G. W. Barber. A bible class for the physical girls was led by Rev. Mr. Brown in a course of six studies. The Monday night bible class and the Sunday afternoon bible class are led by Miss Best.

The "I Will Trust Club" has been held each Saturday night with an average attendance of 32. Addresses

Miss Best expressed her great interest in the girls of the industrial centres of the city. "Truly my thoughts, my interest, my heart is with them. If we could in some way make them understand that the Y. W. C. A. is all its phases is for them, is ready to advance anything for their best interests, and needs their sympathy and support, we would be able to overcome much of the prejudice felt by the girls. The association is intended to be a centre of spiritual, educational and social activity for all young women of the city. All are especially welcome."

Girl Guides.
The Girl Guides have been faithfully following their different lines of training, working for proficiency badges.

In closing Miss Best said: "It has been wisely planned that the human mind is not limited to a review of the past and does not rest with even its greatest achievements and successes but ever reaches out into the future with vision and hopes that next year will be better than last year and we are made strong in this hope."

The following report of the nominating committee was unanimously accepted:

President—Mrs. John Ott.
First Vice-President—Mrs. J. H. Oldham.
Second Vice-President—Mrs. D. J. Waterous.
Third Vice-President—Mrs. Livingston.
Fourth Vice-President—Mrs. W. J. Verity.

THE SURRENDER OF SCUTARI AND ENTRY OF THE VICTORS.

ENTRY OF MONTENEGRINS INTO SCUTARI

Some of the first photographs brought to America of the fall of Scutari, which was captured at so great a loss by King Nicholas of Montenegro, are shown above. The formality of the actual surrender, which is pictured, took place in the old Venetian citadel. On the right is Prince Danilo of Montenegro and on the left Essad Pacha, who commanded the Turkish troops after the murder of Hassan Risa Bey. The other picture shows the formal entry of the Montenegrins in Scutari. They are marching over the bridge which spans the Boyana and connects Tarabosh with the bazaar. The building in the background was used as a hospital.

\$3.50 RECIPE FREE FOR WEAK MEN

SEND NAME AND ADDRESS TO DAY—YOU CAN HAVE IT FREE AND BE STRONG AND VIGOROUS.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. I have determined to send a copy of the prescription free of charge in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together. I think I owe it to my fellow-men to send them a copy in confidence, so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest acting, restorative, rebuilding, SPOT TOUCHING remedy ever devised and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 3782 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$3.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free.

The Late Mrs. Cobden

All that was mortal of the late Caroline, nee Abel, Cobden, beloved wife of P. C. John L. Cobden, of the local police force, was laid peacefully to rest in Mt. Hope cemetery Thursday afternoon. Impressive services were conducted at the family residence, 78 Spring St., and at the grave by the Rev. J. C. Potts. Many friends attended to pay their last respects to the deceased. Next to the police the largest division was the street cleaning department with 1,770 white uniformed sweepers and lockmen and 351 dump carts and sweeping machines. The department of parks added variety with cages of animals from the central park zoo, headed by a trick elephant. The aqueduct police, who keep order among the 35,000 foreigners working along the 125 miles of the tunnel that will bring New York its new water supply from the Catskill, sent 300 men, about half of them mounted.

The various departments vied with one another in devising floats describing their branch of city service. The ambulance service sent twenty ambulances. The Department of Corrections had two wagons containing samples of goods made in the city prisons. The Bureau of Weights and Measures showed a float exhibiting defective scales.

The parade was in charge of Commissioner Joseph Johnston of the Fire Department.

Buying Shoes On Reputation

When any article has consistently "made a good" with the public for over 40 years, it must be a SAFE article to buy. No inferior product can stand the acid test of time.

Literally MILLIONS of Canadians have bought and re-bought the genuine Slater Shoe during its 40 odd years on the market. From Halifax to Vancouver it has been put to the trial tests of hard wear and often rough usage, year after year.

The sales of the Slater Shoe are greater to-day than ever in its history. More people are wearing it. More people are satisfied by actual trial and hearsay that the Sign of the Slate on a shoe stands for extra COMFORT, more VALUE and BETTER WEAR.

The genuine Slater Shoe is a SAFE Shoe to buy. It has a reputation to maintain, which the makers have spent over 40 years and thousands of dollars to build up. Beware of imitations. Look for the Slate Mark on the sole.

Monotony of Woman's Work

How is the woman with the cares, worry and work of a home to get well when she feels that her strength is being overtaxed and that nervous prostration is slowly but surely creeping upon her?

It is often monotony that breaks down the nervous system, and woman's work is above all else monotonous. Doing the same thing day after day has a wearing and depressing effect on both body and mind.

It is easy for doctors to advise change of scene and work, but how few women with families about them can follow such advice. The cure must be brought to them, and no treatment has ever proved more satisfactory under these conditions than Dr. Chase's Nerve Food.

By increasing the red corpuscles in the blood this great food cure builds up the system and restores vitality to the wasted nerves. Gradually and certainly it brings back the courage and strength which have been slowly ebbing away. Unlike stimulating medicines, its benefits to the system are both thorough and lasting.

Nervous prostration does not come on you

without warning. Some of the signals of danger are tired feelings and a disinclination to attend to the duties of the day; nervous headaches, feelings of depression and discouragement, nervous indigestion, neuralgia and sciatic pains and general lack of energy and ambition. Some women become hysterical and have spells of erythra. Others are peevish and irritable and easily upset by a little extra strain or excitement.

Some patience and perseverance is necessary in the treatment of diseases of the nerves, but you will not be using Dr. Chase's Nerve Food long before you can note signs of improvement, and will be encouraged to keep up the treatment until thoroughly cured.

Mr. Edwin Martin, Avar's Cliff, Ont., writes: "Before I began taking your Nerve Food I was in a terrible condition; dizzy spells came over me, and I would fall to the floor and I could not as much as sweep the floor without fainting unless they took me out in the air. Now I can wash and work a lot, and your medicine helped me when the doctors failed. I felt as though it was a God-send to me."

"I hope you will use my name wherever you like, so that if there are any others suffering as I have done, they may be benefited by using your medicine, for it will do all it claims to do. I think it is the best of medicines. Dr. Chase's Ointment is the best that can be had for piles."

Dr. de Van's Female Pills

They're Hanging of the Cubists in the Morning

"What are the Cubists painting for?" said the Critics-on-Parade. "Can't make it out, can't make it out," the Art Reporter said. "What makes you look so white, so white?" said Critics-on-Parade. "I'm dreading what I've got to watch," the Art Reporter said. For they're hanging of the Cubists, you can see the colors gay Green pyramids and yellow squares, they're hanging them to-day. "Twould make you burst your buttons off, the things the people say And they're hanging of the Cubists in the morning. "What makes the rear rank breathe so hard?" said Critics-on-Parade. "He thinks they're sold! He thinks they're sold!" the Art Reporter said. "What made that front rank man fall down?" said Critics-on-Parade. "That purple sun, that purple sun," the Art Reporter said. They are hanging of the Cubists, and the crowds are marching round. They're halted by what seems to be a Brainstorm done in brown: And they'll swear in half a minute that they're hung it upside down. Oh, they're hanging of the Cubists in the morning. "What's that so black against the sun?" said Critics-on-Parade. "They say it's a flight of stairs," the Art Reporter said. "What's all that wreckage overhead?" said Critics-on-Parade. "A 'culbig' nude is passing down," the Art Reporter said. For they've finished with the Cubists; you can feel your hair's turned gray: The visitors are in column, and they're marching them away. Ho! the nervous ones are shaking, and they'll want their beer to-day. After viewing of the Cubists in the morning! —Edwin W. Goodwin.

Miss Gretchen Dunstan, Nelson street, was the hostess of a charming little "tea" given in honor of two popular guests in town at present, Miss Margaret Armstrong of Montreal and Miss Hudson of England, on Thursday afternoon of this week.

It has been unanimously decided that the convention of the I.O.D.E. for the year 1914, will be held in Toronto next year, this decision having been reached during the session in progress at Winnipeg this week and enthusiastically approved by all present.

"Lenore" the pretty summer home of Mr. and Mrs. Frank Cockshutt on Tutela Heights, overlooking the river and Brantford, has been the scene of many informal little tennis parties during the week, the courts being in excellent condition and motors making it easy of access.

Matters are well under way now in regard to the "Flag Day" to be held in Brantford on the 7th of June this year and under the auspices of the W. H. A. of the Brantford General Hospital, Mrs. A. B. G. Tisdale who is convener of transportation, also has undertaken to look after all the automobiles, and is now busily engaged in making the very pretty pennants to be used this year—something quite out of the ordinary and most attractive in color and design.

Mrs. C. A. Waterous, Lorne Crescent, was the hostess of a jolly little bridge of two tables on Tuesday evening of this week, given in honor of Miss Kathleen Agnew. Those enjoying the game and also the cosy little round table supper, which followed were: Mrs. Piton, Mrs. Aird, Miss Wilson, Miss Gertrude Wilson, Miss Marian Wisner, Miss Helen Waterous, Miss Agnew and Miss VanNorman.

The recent visitors in Brantford have been the raison d'être for much informal entertaining this week and our little city has been unusually gay for this time of the year in consequence.

A most delightful little bridge of three tables claimed Miss Dorothy Wilkes, Chatham street as hostess on Thursday evening of this week, when she entertained in honor of Miss Margaret Armstrong of Montreal (Miss "Marjorie Wilkes" attractive guest). The pretty prizes were won by Miss Helen Waterous and Mr. Stanley Schell.

A most delightful luncheon was given at McConkey's on Tuesday of this week when Mrs. W. Wood of Calgary and Miss Carrie Schultz, entertained all the Brantford relatives at this popular cafe in the Queen City. A short stop over was made in the wedding trip en route to New York from the West, and a gathering of the clans called for Toronto.

Mrs. R. L. Borden entertained at luncheon at Ottawa this week in honor of Mr. and Mrs. Robert Mantel, the celebrated actor and his wife. The guests were the Hon. Robert and Mrs. Rogers, Sir Edmund Osler, Hon. William Dennis, Captain and Mrs. Walter Long, Mr. and Mrs. Hugh Fleming, Hon. Adam and Mrs. Beck, Mrs. Harry Cassils and Mrs. F. W. Avery.

A most instructive as well as profitable afternoon was enjoyed by all those who journeyed to the Conservatory of Music Hall, Nelson St. yesterday afternoon to see and hear the celebrated demonstration and graduation of Macdonald Institute, Miss McPhee of Montreal, in her practical demonstration of pastry making and cooking. The stage was converted into a model kitchen for the occasion—a gas range, kindly loaned by Messrs. Howie and Frey) connected and all the cooking done in plain sight of the audience which made it very interesting and certainly were there never more luscious looking lemon pies than those made during the afternoon. The affair was under the auspices of the Moyke-Tranquility branch of the Women's Institute—its president, Mrs. J. J. Hurley, presiding—and the proceeds go toward the building of a shack at the Brant Sanatorium. The admission fee was small, but cook books and other things were on sale, so that together quite a neat little sum was

Quality

in tea may mean to you flavor or strength or fragrant richness. Red Rose Tea is blended with such nicety that it is the combination of all three points of merit. Will you try a package.

Mrs. McBride, 2nd, Vice, Mrs. Greenwood; Assistant Secretary, Mrs. G. Wood; Musical Convener, Mrs. Dora Arnold; Press Correspondent, Mrs. J. J. Hurley; Directors, Auditors and district representatives were also elected. The Institute regrets exceedingly the resignation of Mrs. Wood as Secretary, who has been for the past three years a most painstaking and efficient officer. The Institute is very fortunate indeed in having Miss Good as Secretary for the coming year. Refreshments were served and the meeting closed.

For Thursday evening, May 22nd, Miss Sternberg, who conducts many dancing classes in Toronto as well as in Brantford, announces through the press the closing recital of her Queen City classes in classical and national dancing, and physical exercises to be held in Columbus Hall 582 Shrewsbury St., Toronto, for the benefit of the Pre-ventorium in that city. The patronesses for the occasion are Lady Gibson, Lady Pellatt, Lady Willison, Lady Melvin Jones, Mrs. A. E. Gooderham, Mrs. Edward V. Reynolds, Mrs. E. F. B. Johnson, Mrs. J. D. Hay, Mrs. John Bruce, Mrs. Edmund Bristol.

On Thursday afternoon, Mrs. Alfred Wilkes, Darling street, was the hostess of a delightful "tea" with the Montreal visitor, as guests of honor, old friends of Mrs. Agnew and Miss Kathleen Agnew, welcoming this opportunity of meeting them again after their long sojourn abroad. The tea and coffee-table were presided over by Mrs. E. J. Gould and Mrs. George Hartley, who were ably assisted in their duties, by Miss Marjorie Wilkes, Miss Armstrong (Montreal), Miss Dorothy Wilkes, Miss Reding, and little Miss Gwendoline Wilkes. Altogether between forty and fifty friends enjoyed the "tea" and Mrs. Wilkes' kind hospitality and in parting wished Good-speed to the two travellers who on the day following started on their long journey to their new home in the Canadian West.

A letter of recent day received from Mr. Ted Roberts tells of wonderful musical treats enjoyed in Old London by this talented and lucky Brantfordite: Melba, Kubelik, Covent Opera and "The King of the Nibelungen"—one after the other. He was also present when the King reviewed the Brigade of Guards (7,000 men), in Hyde Park, the Duke of Connaught and little Lord Roberts being close at hand, Easter was spent touring Harrogate, Leamington, Stratford-on-Avon, Warwick and Avon. Now Mr. Cockshutt and Mr. Roberts are once

more in London, the latter hard at work with his music and reading, while all hope, slowly and surely, the ladder of fame.

As an offset to suffragets, turkey trotting and the tango, Miss Gertrude Phillips, the seventeen-year-old daughter of Richard Phillips, a wealthy lumber and paper pulp man of Hartford, Conn., recommends that young girls keep on playing with dolls and reading fairy tales.

Mrs. Flora McDonald Denison left Toronto this week for New York where she will visit the International Woman's Suffrage Alliance. She will then sail for Europe to attend international conferences in Berlin, Buda-Pest, Vienna, London and other cities. She will not return until the first of September.

A message of greeting to their Royal Highnesses the Duke and Duchess of Connaught, coupled with a formal resolution expressing grateful thanks to the Heavenly Father for the condescension of her Royal Highness the Duchess of Connaught was an interesting feature of the convention of the Imperial Order of Daughters of the Empire at the Royal Alexandra, while in Winnipeg. The resolution was moved by Mrs. A. E. Gooderham, and seconded by Mrs. Bruce, both of Toronto.

Reading of papers and open discussion on hostels for women throughout Canada formed a large part of the day's business.

Ontario is leaving the old days behind. In the past couple of weeks two stage coaches have been driven to pass away. The old coach which has carried his Majesty's mail between Guelph and Erin for the past

fifty years has been replaced by an up-to-date motor car, to carry the mail, baggage and passengers, and make two trips a day. With the old stage, it took all day to make the trip, and required a change of horses. The wagon which has carried the mails between Lakefield and Agsey for the past fifty years was laid aside recently and replaced by an up-to-date auto car, making two trips in the day over the route which it took the old stage coach two days to cover.

In England a great demonstration throughout the country in July is to be organized by the National Union of Women's Suffrage Societies. The demonstration is to take the form of a number of simultaneous marches from the North, South, East and West of England and Wales, all converging upon London on a given day. Four routes will be selected, following the great main roads—London, and the federation through which these roads respectively pass will be asked to form joint committees for making all the arrangements along their route.

The union states: One object of the march will be to raise a large sum of money for which preparations should be made immediately. There will be work for every member of the union to undertake. Those who cannot join the march can offer hospitality to the marchers, or lend horses and conveyances, and all can contribute to the big fund which is to be raised. The marches will end with a great demonstration in London, at which the amount will be announced. The date and all other details will be published later when arrangements have been completed.

Dogs and Cats By WALT MASON

We always tax man's loving friend, the dog, that's faithful to the end and six months after; and if the dog tax isn't paid we plant the bow-wow with a spade, midst hideous laughter; we put poor Fido in the pound or see that he is promptly drowned or else beheaded; the tax unpaid, the canine race is always liable to face a fate that's dreaded. And anger burns within our slats when thinking of the way the cats are always favored, for cats are wicked, sneaking brutes, with midnight vampires in cahoots, and evil savored. They prow around at night and steal, and on your roofree squawk and squeal when you'd be sleeping; they always have some fiendish scheme to swipe the liver or the cream, and set you weeping. They do not guard your home by night (in which good bow-wows take delight), or the chickens; they do not drive the cows away, or work the pig or pull the sleigh, but raise the dickens. They're of no use, really cats, except to make a bluff at rats and two-cent mouses; they should be taxed to beat the band, until they're driven from the land and from our houses. It isn't fair to put the dog on the asses' catalog and skip the tabby; it isn't right to tax the pup and the ding-donged tomcat up—such treatment's shabby.

BERLIN—The finest game of the season and with Brad Berlin pitched Berlin won their first game from Hamilton by the score of 0 to 0. Rose pitched well for the home team, and both teams put up no runs. Berlin got two of the five hits in the second. Miller got a double. White's single went to third and he scored on a walk. C. in the Canadian League, and the locals defeated the Guelph Leafs by 2 to 0 yesterday in the second game of the series. Baseball of the kind which Pitcher Chaput served up for the fans was a revelation, as he allowed but two singles, and the two runs with which the locals defeated the visitors were driven in by his hit in the fifth, following a hit by Dunlop and an error on Myers' grounder by Wiltse. Whenever Guelph looked dangerous with men on bases Chaput tightened up and Cook's men were retired runless. A left-handed pitcher in Bobby Heckl will report to-day, while Earl Powell, the heavy hitting first baseman, arrived in the city yesterday. Manager Deneau's club now looks formidable as the weak spots have been plugged up and the pitchers are rounding to form.

SPORTING COMMENT By FREE LANCE

The Red Sox will be home on Monday and morning practices will be indulged in.

Kane will make them come to time during the morning exercises next week.

Just to think that Knotty Lee's Tigers are on top, the team that was supposed to be a weak one.

There is one consolation, it is a long time until Labor Day.

Poor old London is on the slide, but Rube Deneau will probably put a stop to it shortly.

St. Thomas fans are confident that the Saints will win the pennant.

The St. Thomas magnates are erecting a new grand stand, while the team is making another kind of a stand in the league race.

Berlin has not found it any too fine sailing and has run against the rocks several times.

Many are they in Brantford who are of the opinion that the Sox pitching staff is weak.

Umpire McLaughlin, now officiating in the Canadian League, has so far not been named "Silk" by many of the sporting column writers.

Judging by the way the umpires in the Canadian League are putting managers out of the games, President Fitzgerald must have given them their instructions to take no back chat from anybody.

There are many fans who cannot bear to lose.

The Navy Bill must have upset the Brants, not the "all four kind" but the Red Sox.

These set backs make the game all the more interesting when the teams begin to win.

That chap "DeLane" let go by the Brantfords, seems to be making good with Peterboro.

In London, Brantford and Peterboro, the ball games are all over the river.

After all, it's only a ball game.

Buster Burrill is gaining strength daily, and when he breaks into the game he should strengthen the team considerably.

Manager Kape followed up his recent telegram to President Nelson with a long letter complaining of Umpire O'Laughlin at Ottawa.

London is here on Monday, Deneau's team has been strengthened.

Bradshaw, the fine young Berlin right hander should be a sensation in the Canadian League this year.

Wet grounds saved our team yesterday.

Kane will be in uniform to-day, if it means only a chance to talk to the umpire. This he couldn't do legally in his civilian clothes.

Geo. Mullin, who for eleven years has worn a Tiger uniform has pitched his last game for Detroit. Mullin was purchased yesterday by Clarke Griffith of the Washington Americans for a cash consideration said to be in the vicinity of \$2,500.

For several years Mullin has tried to get away from Detroit, being dissatisfied with his berth there. He is a right hander and a fine batsman. Last season he won twelve and lost seventeen games.

Jacobson, the left hander who was St. Thomas' mainstay in the box last year, and who has been holding out, has reported, all differences having been settled, Pitcher Leroy, the Indian, has been released.

Tutela vs. Y.M.C.A. at Tutela Park Holmedale vs. Dragons on O.I.B. Cockshtts United vs. St. Andrew's at Mohawk Park.

Dufferin Rifles vs. S.O.E. at Agricultural Park.

With the temperature about normal to-day, there ought to be some real good football played in the city league games which take place this afternoon. The teams have been practicing diligently all week, and the players should be in the very best of shape and in condition to go the limit.

Over in Eagle Place the Y.M.C.A., the leaders of the league, will line up against the fast Tutela team. The Eagle Place eleven will make one desperate effort to pull out a win, as a victory for them at this stage would help them considerably.

Tutela will line up as follows: Stanley, Glanville, Bowden, F. Wright, N. McLeod, Vining, F. Usher, A. Usher, Johnson, P. McLeod, Baker. Reserves, Mitchell and Aspen.

Up at the O. I. B. grounds the Tigers will tackle Colonel Muir's body guards. The cavalry will have to make some fierce charges if they expect to capture the jungle boys.

The military team has been gaining ground fast, while on the other hand the Tigers are becoming fiercer every game.

The Holmedale Tigers will put the following players in the field: Scanlon, Martin, Iverson, Scott, Williamson, Mason, Park, Street, Archer, Maycock, Scanlon, Clark.

Brant Dragons Manager Garrow will select his team from the following: Harbour, Atkinson, Marlatt, Lord, Weir, McDonald, Garrow, Whelan, Bonner, Brown, Daniel, Darch, Matta, Holmes, McCann, Pratt and Woodcock, all of whom are requested to report at the O. I. B. grounds.

Across the Lorne bridge at Agricultural Park the Sons of England will make one grand effort to capture the Dufferin Rifles.

The Englishmen are a little shy of wins, and a victory for them to-day would boost their percentage somewhat.

Trainer Blues of the 25th is confident of winning, and his gallant band of infantry will be Johnny-on-the-spot to repulse any attack of the enemy. Dufferin Rifles. The following is the team selected to play for the Duffs: Dudden, Coo, Richardson, Harris, Rogers, Myrning, Coale, Humphres, Bingham Mercer, (Capt.) Hutchingson. Reserves, Mah-

HEATHER BOWLERS WILL HAVE GREAT TIME MAY 26

Big Opening of New Green is Planned on Holiday—Very Large Expenditure Has Been Made By the Club.

The official opening of the Heather Bowling Club Limited, will take place on Monday, May 26th, and a day to be remembered is looked forward to by the members of this and neighboring clubs.

Invitations are being sent out to each of the eleven bowling clubs in Brant county as follows, Brantford Club, Pastime Bowling Club, Dufferin Club, Sydenham, Balfour, Scotland, St. Basil's, Mt. Pleasant, St. George, Burford and Paris, asking that a representative team of four players be sent from each, to be the guests of the Heather Club and to give exhibition games on the new green. At 9.30 a.m. the annual president vs. vice-president match will be played, at which it is hoped every member will be present, both old and new.

At 2 o'clock the official opening of the new club will take place. Several speakers who are well known players will be asked to assist and no long speeches will be allowed.

The first bowl will be rolled and the club and green declared opened.

Immediately following this ceremony will come the presentation of a large handsome Union Jack, the gift of Mr. Blue, Mr. Tobias, a genial and well liked member of the club known as "The Bowler," will make the presentation and Mrs. Blue will unfurl the flag.

The visiting teams will then enter into friendly rivalry with "The Heather Boys" and a set of good exhibition games looked for.

The public are cordially invited to be present, and especially the ladies. Light refreshments will be served free of charge to all comers.

Roughly, the history of the club is as follows:

Early in 1906 Mr. E. L. Cockshttt donated ground on Darling street, which was to be used as an open air bowling green. The old Huntington residence was altered at Mr. Cockshttt's expense and made into a handsome club house.

Mr. Cockshttt offered a prize of \$5 for the best name which was won by Judge Hardy, with the name "Heather," and many of the members hail from the land of the heather.

The grounds were levelled and on the 7th of May, 1906, the sod was laid. On June 2nd, 1906, the club was formally opened by E. L. Cockshttt, who rolled the first bowl, the president being Mr. C. H. Waterous, and the first secretary, Mr. John S. Dowling.

During the first year the lawn was excessively rough and the players green, but things are changed and to-day "The Heathers" are known and respected at every tournament.

In 1908 the Heather club secured the Labatt trophy in London, Ont. The team consisting of Dr. W. T. James

O. A. L. A. here yesterday afternoon and the following schedule was drawn:

ARE AMERICANS RESPONSIBLE FOR HIGH PRICES FOR OLD PRINTS?

Boom in Rare Engravings Increasing in England

Sale of Phillips Collection Evidence of the Growing Demand for Old Prints, Which Some Attribute to the Influence of American Connoisseurs Abroad.

DRAWINGS BY SIR THOMAS LAWRENCE ON VIEW

(Special Dispatch.) LONDON, May 17. THE sale of the Phillips colored mezzotints at Christie's fully bore out what was said in America last January...

At Walker's galleries is an exhibition of humorous sporting and other water color subjects, entitled "Children of the Sea." They are all by Mr. Lawson Wood, and many of them are popular...

Prince Alexander of Teck was the means of attracting a considerable crowd of well known persons to the opening of an exhibition of drawings by Sir Thomas Lawrence at the "Edgware" Gallery, which, of course, means Edward Duveen, at King Street, St. James.

There is a charming sketch of "Children of the Sea," by the well known painter of "Nature," exhibited at the Royal Academy of 1824, and there is an interesting portrait of "Sir Thomas Lawrence when a Boy," made for the more elaborate work engraved by T. A. Dean for D. B. Ackermann.

Among other in a collection every number of which has its own special interest there are a sketch of "Lady Ingham," one of the notable pictures of the 15th Academy; a sketch of "Lady Betty Fowler," well known as the companion, friend and successor of Georgina Duchess of Devonshire, probably the most famous portrait of her, now in the hands of Mr. J. Pierpont Morgan's collection.

The second portion, letters C and D, appeared Messrs. Sotheby's on eight days in June, 1912, and realized nearly \$100,000. The third portion, letters E and F, with their contents, was sold by Mr. Alex. Mackenzie, at the sale of the third portion of the celebrated Ruth Library has been fixed by Messrs. Sotheby for the first fortnight of June and will occupy nine days.

More typical of the "pastoral" intention of the exhibition, however, and forthrightly staple, are the works of the older hands. There is Mr. F. G. Cotman, for example, with such an excellent drawing as "Upper Green Valley," and Sir Ernest Waterhouse with his quiet, straightforward "Hillside, Crowhurst," among others; or again, Mr. A. Winter-Shaw, who is working for poetic effects in his "Farm-

Baron Henri de Rothschild Talks of Play To Be Produced in London.

WATCHING REHEARSALS AT GARRICK THEATRE

Hero a Millionaire and Piece Asks Question Whether Wealth and Happiness Can Coexist.

(Special Dispatch.) LONDON, May 17. BARON HENRI DE ROTHSCHILD, the author of "Croesus," which is to be produced soon, has been supervising the rehearsals of his play at the Garrick Theatre here for some days.

"I would really prefer not to talk about my new play at all, but perhaps I may say that its theme is most human; for the rest I must leave its merits to the judgment of the men and women who, with the longings and difficulties of men and women, make up the playing public. My hero is a millionaire, and it is more or less true, as has been stated, that the play asks the question whether great wealth and happiness can exist together. On the face of it this may appear to be a problem that can appeal only to a very small minority, but, as a matter of fact, it is of supreme interest to every one, because the answer to it compels us to make a proper valuation of life's possessions. Perhaps, after all, the man who is fortunate enough to win and keep the whole-hearted love of a woman is the real millionaire, for he owns the wealth that brings with it entire happiness and contentment. Mr. Salter Hansen will leave England in the early autumn to make arrangements to this effect.

Rise of the Torpedo; Decline of Destroyer

(Special Dispatch.) LONDON, May 17. WHETHER by an odd coincidence or by a natural sequence of development, the admission by the First Lord of the Admiralty that the value of the torpedo boat destroyer is declining as it exceeds that of the battleship...

That some Powers think it should be clear from the decision of the Japanese to equip their four new battle cruisers with eight torpedo tubes each, while the French are providing for six tubes in the battle ships, as compared with the battle ship, the field of vision of the destroyer, which lies so much lower in the water, is limited, preventing it from making the best use of the increased range. Whatever may be thought of the proposal of the writer in the Quarterly Review, he exhibits a close acquaintance with the problems at present confronting the naval authorities, and his conclusions and the arguments advanced in support of them deserve the most careful attention.

Hope to Harness Tides for Power. Locomotives May Be Driven, Cities Lighted and Houses Warmed by Force of Ocean. (Special Dispatch.) LONDON, May 17. WILL the harnessing of the tides—the age-long dream of scientists the world over—be realized at last? C. A. Battiscombe, M. S. E., writes in the Quarterly Review that he believes that a battery of quick firing guns for defence against hydro-aeroplanes, dirigibles, and small torpedo craft, but the removal of their heavier guns would enable the thickening of the armored deck and of the conning tower to be doubled, rendering them capable of withstanding an enemy's gun fire at the same time that it enabled them to develop their torpedo attack.

Revival of Needlecraft Among Society Women

Exhibition Opened in Baillie Galleries, London, Last Week Is the Outcome of Queen Mary's Active Interest in the Work.

EMBROIDERIES OF FORMER DAYS ARE ON VIEW

(Special Dispatch.) LONDON, May 17. THE present revival of needlecraft among society women is the outcome of Queen Mary's active interest in the art, and as a pleasing and somewhat unexpected development has made such progress that the work done by the modern embroidress ranks with other works of art now on exhibition in the Baillie Galleries.

Side by side with the beautiful productions of the busy twentieth century woman are shown cherished specimens of the work wrought by embroidresses of other and more leisurely centuries, whose designs, to a very considerable extent, are inspiring the present revival.

Even more interesting, to many persons, than the treasures handed down from the great days of needlecraft is the representative display of work done by women of the present generation who have returned to the cult of the needle. Of baskets alone there is a varied collection, the Worshipful Company of Broiclers having offered a gold chalice for the best set of panels for a basket. Lady Fitzherbert, for instance, reproduced a sixteenth century tapestry design for her own design. Mrs. Brodie chose a fifteenth century Spanish design. Lady Hylton, the vice president, is exhibiting, and she is also offering a special prize for the best colored drawing of any design earlier than 1820, the design to be selected from any source except the London museum. Lady Hylton is herself one of the embroidresses who frequently work from their own designs. Countess Bathurst sent a large altar frontal and some Italian embroidery, her own work. Lady Carey is represented by Jacobean embroidery; Lady Cory, another member of the Athens Society, goes in for woodwork pictures; Lady Talbot favors the bold Italian school of embroidery, and Lady Macdonnell has revived Portuguese needlework. Other society women associated with the exhibition are Lady Florence Duncombe, Lady Margaret Campbell, Lady Harry Cavendish, Lady Bigby, Lady Egerton, Lady Ada Fitzwilliam and Lady Phyllis Windsor Clive.

(Special Dispatch.) LONDON, May 17. The special train of the first and second class carriages will leave Charing Cross at 4:30 P. M., and arrive at the Gare du Nord, Paris, at 11:25. The return train will leave the Gare du Nord at 12:30 A. M., and arrive at 10:15 A. M. The journey from Paris to Calais being taken slowly to enable passengers to rest a comfortable night's rest. Newspapers Will Be More Costly

Expert Believes Price Will Advance as Cost of Production Increases. (Special Dispatch.) LONDON, May 17. THE reduction of the price of the Times from 3d. to 2d., or 4 cents, has created more stir in newspaper circles than among the general public, because it is recognized that it places the two cent papers in rather a new position. The Times is like American newspapers in one respect at least. It is printed in sections, and each issue looks more like two or three newspapers than one, one section being devoted to news of the day, with leading and other articles, the other sections being purely literary, financial, engineering, or supplement relating to the commerce of the colonies, the development of new centres of industry and so forth. At the price, therefore, it is the cheapest newspaper publication in the Kingdom, cheaper than either the two or even one cent papers.

CRYSTAL PALACE WILL BE SAVED

(Special Dispatch.) LONDON, May 17. Although things looked very ominous a fortnight ago for the Crystal Palace, it is now certain that the place will be saved. The London County Council is to contribute \$250,000, if not more, and already other grants have been made. Croydon has voted \$100,000, Penge has promised \$50,000, Camberwell is understood to be good for \$100,000. This \$300,000 is assured, and as local authorities are expected to contribute \$100,000, the total will be \$400,000. The London County Council, having waked up to the necessity of saving the beautiful grounds from the bulldozers, will surely make up any deficit.

Optimists for British Revival

(Special Dispatch.) LONDON, May 17. THERE are signs that a revival is set on foot in England. "Wake up, England!" is the motto, and among the "Optimists" are prominent figures in the business and advertising worlds. In fact, "optimism" in their dictionary may be defined as the best means of giving publicity to and obtaining efficiency in business.

Ambition

By HOWARD L. RANN

AMBITION is an unseen force which gets behind a man and pushes him ahead of other people. Sometimes, however, it is seen in time so that it can be headed off at a primary election and thus reduce the number of honest heads in a congress.

One of the saddest sights in this world is that of an ambitious man who has been tipped in the bud by an avalanche of scratched tickets. Usually, one thorough treatment of this description will discourage the candidate to such an extent that he won't even dare to run for night watch, and then again it will only spur him on to greater effort. Some of the most ambitious men in this country had to be walked on several times by a skittish and vehement electorate before they got where they could distribute free seeds with one hand and pull down public buildings with the other. This kind of ambition is harder to restrain than the desire to murder a flat-footed street car conductor who

The Care of Baby Chicks

COURIER POULTRY SERIES
ARTICLE II

This question may well be divided into two sections, that is "care of chicks raised by the natural process," and "the care of brooder raised babies." The consideration of one section will be confined to the present article, and the hatching of present article, and rearing by brooders being reserved for another paper.

To begin with then, let us start with the selection of the mother hen. When you see the same hen on the nest each time you go into the coop, it is a sign she is getting broody. If she be still there when you lock up for the night she is ready to be set. Being sure of your broody hen, go into the house when it is almost dark, stoop down in front of the nest, place your hands over Biddy, the thumbs meeting between the shoulders, the fingers passing over the body, and picking up the feet. In this way she is easily removed without fright being caused to her or the other hens. Dust her feathers thoroughly with insect powder, rubbing it in well. After preparing the nest with from thirteen to seventeen eggs, according to the size of the hen, gather your hen up in your hands in the same way as before, and place her over the nest, letting her feel the eggs, and release her gradually as you feel her settling down. About the seventh or the fifteenth day after the sitting has begun, the hen should again be powdered. Set two or three hens at the same time. You can then give the two clutches to the one hen, returning the other to the laying house where she will soon get down to business again.

When Biddy has been setting twenty-one days, listen carefully and if you hear a twitter in the morning wait until evening before slipping your hand under her to remove the dry chicks. If it be evening before you hear any sign, wait until morning.

The object in removing the young ones is that the hen in moving about to help the later chicks out of the shell may trample and injure those already out. At the same time clear the nest of broken shells, for there is danger that a broken section may get fitted over a piped egg, excluding the air, and smothering the occupant.

The new comers may be wrapped in flannel, put in a basket, and kept

MYSTERY OF MOTOR CAR FATALITY

Police in Leicester, England,
Track Down Reckless Driver.

The Leicester police have traced the driver and occupant of the motor car which, it is alleged, caused the death on April 26 of Mrs. Colcutt, the wife of a Leicester picture dealer. She received terrible injuries.

At the inquest on Tuesday at Leicester, the name of the coroner as the car was given by the coroner as Mr. Fanshawe, and that of the driver as John Henry Stapleford. The car was traced through descriptions given to the police, and both the occupant and the driver voluntarily made a statement.

The coroner (Mr. E. G. B. Fowler) stated that, according to Mr. Bishop, an eye-witness, the car was approaching Leicester along Evington-road when it swerved, and, after a grating noise, the car pulled up and the driver got down from his seat, went to the back of the car, looked at something in the road, went to the side door of the car, then to the front of the car, and started again.

"The police," said the coroner to the jury, "have traced the occupant of the car, and their conduct, if proved, is inhuman, un-English, and inexplicable. You have to consider the question of the car, not stopping—a fact that may need explanation—but more important still is the question if there was such a nature as for you to bring in a verdict of manslaughter."

At this point Mr. W. A. Clarke, representing Mr. Fanshawe, said: "When you make these remarks, and before they go out to the Press, I should like to say you are assuming that the occupant knew beforehand of this accident, whereas it was not until this afternoon that Mr. Fanshawe knew that he had been in a car that had encountered an accident. It is not even certain that he was the occupant."

The coroner: I should not have made such a statement at all except that I had a written statement before me. I said, "If proved."

"The car swerved right across the road," said Mr. James Glover, a motor engineer. "I could not see whether or not the driver got off his seat. After a few moments I saw the car start off again, and the light in the car was apparently switched on and off. I noticed something white in the road and as the car passed me I shouted, 'Stop!' three times to the driver. The woman was lying dead on the right-hand side of the road and her small cart was by the opposite gutter. I tracked the wheel marks of the car to Evington Drive. The inquest was adjourned.

The Care of Baby Chicks

For three weeks, "little and often" should be the rule. We feed five times a day—the first meal at 5:30, 6:30 or 7 o'clock, according to light. This meal consists of pinhead oatmeal, cracked wheat, cracked corn, or at least indigestion; the result being slow, growing, scraggy chicks, which are a misery to themselves, and a disappointment to their owners.

The second day, hard boiled eggs, chopped fine without removing the shell, and mixed with equal parts of dry bread crumbs, to each cupful add one dessert spoonful of powdered charcoal.

POPULAR YOUNG FARMER TALKS

Tells What Dodd's Kidney Pills Did For Him.

He's Back at Work Again, After Suffering from the Pains, Nervousness and Depression that Only Kidney Disease Can Bring.

POINT ALEXANDER, Ont., May 12.—(Special)—Mr. D. A. Frontiere, a well-known and popular young farmer, living near here, who has been a sufferer from kidney disease for some time past, is back at work again, and he says, without hesitation, that his cure is due to Dodd's Kidney Pills.

"I was always tired and nervous," Mr. Frontiere says, "in speaking of his illness. I suffered from backache and neuralgia, and my sleep was broken and unrefreshing. My eyes were puffed and there were dark red circles around them."

"My muscles would cramp, I felt heavy and sleepy afterwards, and I was depressed and low-spirited while shortness of breath and dizzy spells served to make life yet more miserable for me."

"I was always thirsty; my limbs were heavy, and I had a dragging sensation across the loins."

"My symptoms led me to believe I had kidney disease, and I started to use Dodd's Kidney Pills. I have taken eight boxes in all, and I am very grateful for the benefit I have received from them."

"If the disease in the kidneys or from the kidneys' Dodd's Kidney Pills will cure it."

---too old to work

Maybe there's an old fellow working beside you—the house keeps him on—he's sort of pensioner. His productive years are gone. While he was a producer he never saved. If you could analyze that old fellow's thoughts, you'd find him sadly rueing the years when he spent all he made. Instead of being able to retire to a comfortable, independent old age, he is working for a mere pittance, keeping body and soul together.

Man! Don't let yourself come to that. Provide for your declining years by means of an Imperial Endowment Policy.

A small amount invested annually in this way will put you on "easy street" in a few years. Yet, if you should die within a month, we'll pay your wife or heirs, the full sum of your Endowment. Write for particulars.

Your Furs are Safe in our Vaults!

Why send them out of town when they can be stored just as well in Brantford?

Furs are so highly prized by everyone, it follows that great care must be taken to protect them from the ravages of moths. It is a fact that more furs are ruined by these pests than by actual wear.

The cold, dry air system of storage is a positive safeguard against moths. Much work and worry can be avoided by simply telephoning us at 819, and we will call for your furs and other winter apparel. You place your own valuation on each article, and we are responsible to you for that amount in case of loss by fire or moth. Our charge for storage and insurance is 3 per cent. of the value—a moderate charge when it is remembered that we carefully dust each article, and hang them in a vault that is intensely cold.

Nothing is packed or folded. Everything is kept on hangers, so that the most delicate article will not become creased or mussed, and will carry no odor of moth preventatives.

ARMAN SHOT DEAD IN FLAT

Startling Story is Told By Accused Woman's Maid—Photo as a Target.

Further evidence was given at the resumed inquest at Westminster on Friday concerning the death of the young aviator, Julian Barnard Hall, who was found shot in his flat at Coventry Mansions, Denman street, W.

The young woman Jeannie Baxter who is charged with causing his death was not present in court, but was represented by Mr. Valetta, who stated that in spite of two or three efforts to obtain from her a full and coherent statement she had been unable to supply such. It was therefore impossible to obtain from her sufficient information to enable him adequately to cross-examine witnesses.

Teresa Pantanello, an Italian girl, who had been employed by Jeannie Baxter at Carlton Mansions, Maiden Vale, was called.

The coroner: Did you ever see a man called Unwin?

No, but I saw letters from him. My mistress told me he had supported her for two or three years, and then he bought a house in the country to take her to live there. He told her he could not marry her until his mother was dead.

Revolver Shots

The girl then narrated a story which she said Mrs. Baxter had told her just before Christmas:

"Mr. Unwin had bought a house for her in the country and had come to London to take her away. On the same evening Mr. Hall came to say good-bye, because he was going away for a fortnight. Mr. Unwin was there, and that was the first time the two gentlemen met. Mr. Hall was very drunk. He brought two revolvers from his pocket and put them on the table. Then he took one and started whistling over the top of the barrel.

"Mr. Unwin was afraid he would shoot himself and tried to take it away. Mr. Hall said: 'Don't worry; I'm not going to shoot myself. Then he wanted to take the second revolver. He said that each should light a cigarette, switch the light off, and then fire at each other in the darkness, being guided by the cigarette light. Mr. Unwin refused and then Mr. Hall took the revolver and shot at Mr. Unwin's photo. The bullet went through the head of the photo, and hit a bottle of champagne.

"Then Mr. Hall shot at Mrs. Bax-

ter's photo and afterwards pointed the revolver over his shoulder and fired backwards through the sitting room door. After that Mr. Unwin and Mr. Hall became friends. Mr. Hall slept on the hearthrug that night and both men went away together the next morning."

Dr. Bernard H. Spilsbury, pathologist, who made the post mortem examination, asked by the coroner if the wound in the chest could have been self-inflicted, replied: "It is just possible. It might have been with a revolver held in the right hand. It could not have been done with a revolver held in the left hand."

He demonstrated with the revolver produced how Hall would have held the revolver had he inflicted the injury himself, and said it would have been very difficult. In fact he (witness) could not pull the trigger with the revolver in such a position.

The coroner said he thought it was practically impossible for Hall to have caused the wound in the chest.

When the inquiry was resumed on Thursday Mr. Valetta remarked that since last hearing he had had an opportunity of questioning the witnesses at the police court, and he therefore did not propose to waste the time of the court and jury by further cross-examination.

The coroner said that being so, it was only left for him to sum up. The jury returned a verdict of

willful murder against Jeannie Baxter, who was committed for trial on the coroner's warrant.

NOBODY CAN TELL IF YOU DARKEN GRAY, FADED HAIR WITH SAGE TEA

Druggist Says When Mixed With Sulphur Prevents Dandruff and Falling Hair.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, then left to age and carefully filtered will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching, and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as

"Wyeth's Sage and Sulphur Remedy" thus avoiding a lot of fuss. Some druggists make their own, but it isn't nearly so nice as "Wyeth's." While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur no one can tell, because it does it so naturally; so evenly. You just dampen a sponge or soft brush and draw it through your hair, taking one small strand at a time. Do this to-night, and by morning all gray hairs have disappeared. After another application or two it will be restored to its natural color and be even more glossy, soft and luxuriant than ever.

Local druggists say they are selling lots of "Wyeth's Sage and Sulphur"; it surely helps folks appear years younger.

PRESERVE THE FLAVOR AND CRISPNESS WITH WHICH THE BISCUITS LEAVE THE OVEN.

Perfect Service

We have been making an unexcelled Soda Biscuit, and to be assured that its oven-given flavor and crispness would be preserved for any reasonable time, we have just installed a series of machines (for which we have the sole Canadian right) which perfectly accomplish this purpose. The first of these machines forms and lines the package with pure wax paper, the second closes, and the third wraps labels and attaches the end seal, all being done automatically, the goods scarcely being touched by human hands. The box itself is made of waterproof fibre, impregnated under pressure with the purest wax, and when completed forms a package that is airtight and absolutely impervious to dust and moisture, keeping the biscuits crisp, full flavored, and as perfect as they leave our ovens.

Queen Sodas
