How They Are Divided.
In the parliament these twelve London divisions were represented by ten Liberals and two Unionists, while the sixty provincial members were divided into forty-eight government and eighteen opposition supporters. This the seventy-eight divisions polling on Saturday. The Liberals and Unionists are divided into six groups: the twenty-five Liberal and twenty-five Unionist. Of the total thus classed on the government side, seven, however, were Laborites, being one member each for Bolton, Derby, Halifax, Stokington, and Wolverhampton, and two members for Manchester. A Unionist gain in 1908, when Johnson-Hicks defeated Winston Churchill, who was then the Liberal member for the constituency.

Pearson, who was fatally injured being run over in the Streetsville yards, January 7th, while performing his duty as a brakeman on the Canadian Pacific Railway.

Dr. Clarke Thought that at the present period of national growth, the best advice which could be given the government was to lose not one opportunity to extend the commerce of the country so that we would always be able to dispose of our surplus agricultural products.

FRIDAY'S GRAIN MARKETS.
 Winnipeg, January 15.—Live-pool cables came 1/4 up. There was a better export inquiry, and with the recent reduction in all rail freight prices were more nearly in line with bids. There was not much trading, however, and an excellent demand for all grades of cash wheat prevailed, but this demand was chiefly from men supplying Ontario mill trade.

The improvement in exports inquiry probably prevented a sharp decline in prices in sympathy with American markets. As it was, May option to 1.07%, but recovered to 1.07%, yesterday's close. January closed 1/4 and July 1/2 lower. American wheat prices and professional bulls seemed to have got scared that the wheat market may follow the example of cotton and go plunk, and there was sufficient limitation to break the market 1/4 to 1/2 for May in Chicago; 1/4 to 1/2 for July and 1/2 for September. In Minneapolis the break was not quite so marked, May dropping 1/4 to 1/2; July 1/2. American markets all closed lower, and a further decline in prices is possible.

CHICAGO LIVE STOCK.

Chicago, January 14.—Nine cent hog made today was re-established on a 10 to 15 cent bulge, but it was a fictitious market. Bad weather and inadequate railroad service were responsible factors. A top was made at \$9.02. Cattle and medium steers were a little lower than last week.

Hogs—Receipts 9,000; 10 cents higher. Mixed and butchers, 8.45 to 8.95; good heavy, 8.70 to 9.00; rough heavy, 8.45 to 8.80; light, 8.40 to 8.60; pigs, 7.35 to 8.35; bulk, 6.00 to 6.25.
 Cattle—Receipts 2,000; market strong. Beeves, 4.25 to 7.50; cows and heifers, 2.25 to 6.40; stockers and feeders, 3.25 to 5.75; Texans, 5.00 to 6.25; calves, 7.00 to 10.00.
 Sheep—Receipts 6,000; market steady. Sheep, 3.75 to 6.80; lambs, 5.75 to 8.75.

CHICAGO GRAIN MARKETS.

Chicago, Jan. 14.—A merchant prince of Chicago, who was the holder of a big line of May wheat future, led in the selling at the opening today because of the poor prospects for profits. The rapid selling of the state street line was the signal for general liquidation. Nearly every contract in the trading took a free hand in making sales with the uppermost thought in their minds to get rid of the grain and the price a secondary consideration.

Had not the shorts come to the rescue and absorbed the grain as it slid downward there is no telling just where the grain would have been checked. May fell from 1.11% to closed at 1.11% to 1/2 cents, showing a net loss of the day about 1 1/2 cents. July was nearly 1/4 lower and September was off 1/2 cents.

There were many conditions favoring the buyers from a domestic standpoint. The Modern Miller crop outlook, which was construed as bullish a week ago, was decidedly bearish today.

This publication's report on the growing crop was flattering. A great deal of wheat was bought on the recent dips and the holders were weary of viewing unchanged market conditions.

The trade gazed steadily upon the figures chalked up, showing 448 cars of wheat from Minneapolis in 1909, and of this grain was doubtless stuff which had been seldom side-tracked at country stations. The receipts were big and that sufficed, as surrounding circumstances were not considered. Stocks at Minneapolis increased 375,000 bushels, and at Duluth they increased 360,000 bushels for the week. The bull forces, instead of rallying and giving the market support, sold wheat in moderate quantities. There seemed to be a lack of recuperative power. The receipts at Winnipeg of 1,000,000 bushels and of 29 boat loads at Duluth, for export, failing to act as a help save possibly in checking the decline.

The liquidation by longs in wheat seemed to drive out a great deal of corn with a profit attached to it. The selling was fast and furious and May broke rapidly from 93% to 85% and July from 63% to 65, showing net losses of 1% to 1 1/2 cents. The orders from the farming community, which would doubtless have been on the buying side, were retarded by poor wire service. The weather bureau promises a clear and colder weather, and this fact is likely to help the movement to market.

Oats were sympathetically weak with other grains and closing showed losses of 1/2 to 3/4 cents. Cash lots were firm. Only 110 cars were received, with 89 cars estimated for tomorrow.

Provisions—Not to be left at the post market for hog products showed fractional declines with corn, oats and wheat.

The western hog run was less than last year and the hog situation seems to be the big consideration governing sentiment.

THURSDAY'S GRAIN MARKETS.
 Winnipeg, January 13.—Market played one of those curious anomalies for which wheat is famous. Wednesday's close was fairly strong and cables came 1/4 lower to 3/4 higher and a further advance might reasonably have been looked for.

Winnipeg May opened 1/4 over Wednesday's close and sold as high as \$1.08%, but eventually closed 1/4 under Wednesday. The weakness was due to heavy selling by American holders, it being variously estimated that from two to three million bushels of wheat held by American speculators was offered this morning, and even at the lower level to which prices dropped the market would not take it all. Whether this American business was putting spreads on or taking them off it was not possible to ascertain. The demand for cash wheat was light and there was again very little export trade. American markets were dull but held steadier than Manitoba. Chicago May was unchanged at the close; 1/4 to 3/4 higher and September 1/2 higher.

Minneapolis May was down 1/4 and July unchanged to 1/4 lower. Chicago and Minneapolis May is now selling at the same price, while in July there is a spread of nine cents.

Winnipeg cash prices: No. 1 Northern, 1.03%; No. 2 Northern, 1.01; No. 3 Northern, 98%; No. 4, 95%; No. 5, 92%; No. 6, 94%; rejected 1-1 Northern, 97%; rejected 1-2 Northern, 96%; rejected 2-1 Northern, 96%; rejected 2-2 Northern, 94; rejected 1 Northern for seeds, 96; rejected 2 Northern for seeds, 94.
 Oats—No. 2 white, 36%; No. 3 white, 35.
 Barley—No. 3, 46; No. 4, 44.
 Winnipeg options: Wheat—January 1.03%; May 1.03%; July 1.03%; 1.03%; 1.03%; 1.03%; July 1.03; 1.03%;

FIVE PEOPLE BURNED TO DEATH IN SASKATOON

Fire in West End Shack of Myrtarous Origin, Wipes Out One Whole Family and Two Members of Another—What Prevented Family From Escaping from House is Unknown.

Saskatoon, Jan. 14.—As the result of an early morning fire here no less than five persons lie cold in death, while a sixth is so badly burned that it is doubtful if he will recover. Just how the fire originated or what prevented the family from escaping the devouring element is not yet plain, but the grim reality of the affair is realized when it is stated that a whole family is wiped out, while a second family is wiped out of its younger members. The fire occurred about 7.15 this morn-

ing in a shack on the west side occupied by a family named Henderson. In *From Homestead*.

The father, it seems, had just returned to the city from his homestead in order to spend a few days with his loved ones, and was accompanied by a man named Reid, whose two children were staying in the Henderson house. They retired, it is supposed, as usual last evening, and nothing unusual occurred until shortly after seven o'clock this morning, when the shack was discovered to be in flames.

Fire Department Helpless.
 The fire department hurried to the scene. When they arrived there, however, there was little to be done but to pull out the charred remains of the victims from the almost destroyed shack. Five blackened and utterly baked bodies were brought out by Fire Chief Heath, those of the mother, Mrs. Henderson, her two children, and the two Reid children, while the man Reid, who it seems had attempted to rescue the children before the ar-

rival of the department, also had to be taken care of, the entire lower part of his body being burned and blistered so that the skin literally fell off.

Mystery Surrounds Origin.
 There is much mystery as to the origin of the conflagration, but it is supposed to have been caused by a coal stove becoming overheated and setting fire to the woodwork or the ceiling. Coroner Webster viewed the details of the most fatal affair that has ever occurred in this city will be made public.

Winnipeg, Jan. 14.—Fire broke out in the Tribune office at 7 o'clock this morning and although the Tribune plant did not suffer greatly several tenements met with losses. This is the second time in ten days the building has been on fire. The fire started in a lavatory, presumably from a cigar after an absence of eight years. One Monday at one o'clock he happened to see in his sister's home the photograph of a young Ottawa lady, Miss

company, who occupy offices on the ground floor, suffered a loss of about \$800, while Morrison & Co., printers, claim \$142 loss. The loss to the Tribune plant is trifling and only a slight delay will be caused in the operation of the linotype machines. R. L. Richardson, managing editor of the Tribune, is at present in Toronto.

WOODED AND WED IN 9 HOURS.
 Farmer From Kamloops Takes Ottawa Girl by Storm.

Ottawa, Jan. 13.—Western methods of lustle were illustrated here this week when a stalwart and prosperous farmer from British Columbia met, courted and proposed and married an Ottawa girl all in the space of nine hours. George Finter, of Kamloops, B.C., returned to Ottawa last week Monday at one o'clock he happened to see in his sister's home the photo-

graph of a young Ottawa lady, Miss Maggie Robinson. He expressed a desire to meet her and, securing her address, made an immediate call. Miss Robinson was busy at the time, but Finter made an engagement to meet her later in the afternoon. At five o'clock he had made considerable progress in the acquaintanceship. With commendable vigor he then got a marriage license and a wedding ring. At ten o'clock that same evening the pair were married. Mr. Finter says that the way they do things out west.

PREMIER THE C. In Simple and Frank English in House of Commons Sir Infrid Outlines Government Proposals.

Ottawa, Jan. 12.—The first field of the naval policy of the government undoubtedly reserved for a special advantage for the ministry, the bill itself was of so simple a nature that it might have been explained to any wise statesman to have passed the ordinary formalities of a first reading.

But the neck of unity of the Conservative party on the naval issue strikingly illustrated just as soon as F. D. Monk, the Conservative leader from Quebec, the Conservative leader of the party, to assign him to routine work.

Provisions of Bill. The bill which will be laid on the table is entitled "An Act to provide for the creation of a naval reserve force and of a volunteer force."
