"Increase your profits by advertising in The Evening Telegram."

VOLUME XLVII.

\$6.00 PER YEAR.

ST. JOHN'S, NEWFOUNDLAND, SATURDAY, JUNE 13, 1925.

PRICE: TWO CENTS.

NUMBER 134.

## TO THE MOTORIST

Since the opening of the Automobile Season, we read of various Accidents occurring, doing damage to property, and injuries to pedestrians. Whether the car owner is entirely to blame or not, he is invariably held responsible, and is frequently obliged to pay heavy damage costs. Many a man's business and future have been ruined in consequence. It behoves you to avail of the protection offered by a Policy with our Company. Delays may prove dangerous. **SEE US NOW!**

# MAVIS de Vivaudou FACE POWDER

Mavis Face Powder, with its fascinating perfume, is chosen by beautiful women all over the world because it gives that soft perfection to the skin which enhances beauty and is so irresistible.

A touch of Mavis Rouge makes such a difference!

V. VIVAUDOU, INC. Paris New York

## THE PANGS OF REMORSE OR A COMPLICATED TANGLE.

### CHAPTER III.

The tutor fellow gone, Mr. Besant, on the floor, her hair all flowing with the wisdom that was to be expected of him, commenced to urge his

He said that he was sure that Lillian would come to her senses now that the fellow had gone for good, and—

Stopping in the troubled pangs to and fro, he turned the agitated face full upon the smooth fronting one.

"Harry, for Heaven's sake leave me! I can say nothing to-night. I can scarcely think. I cannot answer for anything that may occur. I do not even know how much has occurred already. He—he looked true, however false, he may have been, and—there, go, leave me to-night alone."

Mr. Besant, thinking it prudent to obey, shook his hand with unctuous sympathy and departed, clattering over the courtyard stones as noisily as usual.

Sir Ralph, after pacing the room for another quarter of an hour, rang the bell.

"Ask Miss Melville if she can come to me," he said, and the footman retired.

Presently Miss Lucas opened the door, stealthily.

"You sent for Lillian, Sir Ralph?" she said.

And Sir Ralph, too much agitated to be courteous, said:

"Where is she?"

"In her own room, very unwell, I fear," said Miss Lucas, with her slow monotony.

Sir Ralph trembled for a moment.

"Tell her, please, I should like to see her, and will come up."

Miss Lucas retired with the message and Sir Ralph, forgetting that he had sent her, followed a moment afterwards, so that he entered Lillian's room at the governess's heels.

A strange sight met his view.

His daughter, his beautiful, proud, self-possessed daughter, was sitting

"Oh, why did you not tell me? Vile as he is, I—I could not have—"  
Lillian broke in passionately.

"Papa, are you mad? Vile! He is the soul of honor. Why did I not tell you? Because he himself made me promise that I would not. He knows why, but for some good reason, I am sure. Vile! Ah, who should know better than I how noble—how kindly he is!"

"He tried to rob me of you, Lillian, to steal your love, to—"  
"It is false, whoever told you so!" cried the girl, her eyes flashing and her hands clinched. "False! false! He? It is he who has kept me true to you; he who has repelled—with sternness—the slightest advance I made. For—no shame now when he has suffered so much—I loved him weeks ago. I know it now—I know it now; blind I was not to have known it then. I knew it the moment I saw him spring upon the horse, for I felt at that moment more for him than myself—and that was love! And now—now you call him vile, and you have sent him away. What was that upon his face?" she added, turning upon him abruptly, almost savagely.

"What was it? Harry Besant was with you; he was coward enough to strike him, while you were there to help, and the poor fellow was weak—weak!"

Her voice died away almost in tenderness at the last words, but it revived fiercely, with all the Melville fierceness, as she continued:

"But, no matter. If he struck him, my hero will pay him back, measure; he will take no man's blow. Cowardly villain, to strike him—strike him!"

Her hands went above her head in a frenzy of passion at the thought.

Sir Ralph groaned, and something in the groan sounded so self-reproachful that the girl dropped her arms and looked at him. Her face blanched and she staggered.

"Father!"—it was the first time she had ever used the word—"you—you did not strike him?"

He could not reply, and she read his silence aright.

"Oh, shame! shame!" she wailed, dropping to the ground again and putting up her hand again to keep him off.

"He saved my life, and—you—struck him!"

Sir Ralph uttered a cry for help and sprang forward, for, with the last word, the overstrained strength gave way, and the beautiful head, covered by its wealth of hair, fell back heavy and lifeless.

Possibly the reader may share in Mr. Clifford's wonderment as to where Mr. Besant had obtained the materials of his really clever articles of accusation. If Mr. Besant himself had been asked he could not have told.

The morning after his refusal to Lillian he had stamped home in a fearful temper, vowing vengeance against everyone and Lillian's lover, if he could discover him, in particular.

But how to discover whom she had the good taste to prefer to him, the lord and master of the Towers, he could not decide. Spying was quite out of his way; he did not lack the spirit, but he was entirely deficient in all the qualities requisite in a good dogging spy.

He asked his mother if she knew of anyone who was likely to have put his nose out of joint, as he phrased it, but beyond an illusion to the dear alderman as a man who could have told him, if he had lived, Lady Besant did not assist, and Mr. Harry Besant at last concluded that he must wait his chance.

He had not to wait long. The next morning a boy used by the Towers' servants to run surreptitious errands and do dirty and sly work generally, came sneaking up to Mr. Besant through the stable entrance and thrust a letter in his hand.

Mr. Besant good-naturedly gave him a cut with his whip, and after he had glanced at the letter, sixpence, and a promise of another if he would disclose from whom he had received the letter. But the boy was either ignorant of its origin or told a falsehood admirably. He said that some one had stood behind the hedge in the green walk of the common and called him. When he had run up to the spot the some one had told him to stop and turn his back. He did so, and the some one handed him the letter over the hedge, which he received by extending his hand over his shoulder, and told him to take it to Mr. Besant's at the Towers, and deliver it 'on the quiet.'

(To be continued.)

# CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little Freezezone on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of Freezezone for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

LONG LIFE.

The span of life increases, the learned physicians cry, and voters and their nices are not so apt to die; for Science, health's defender has made old illness surrender, some triumph, in its splendour, each morning greets the eye.

The future generations will live two hundred years, as from the happy nations the microbe disappears; fair Science daily seizes a bunch of dread diseases, from them the life she squeezes, and lays them on their biers. She says, in language weighty, strange things will soon be seen, when sprightly lads of eighty will gambol on the green, and girls of ninety summers will vamp the village plumbers—such prophecies are hummers, and will come true, I ween.

But there's the Book that teaches this lesson to all men, that one is through who reaches his three-score years and ten; he may hang on a little and sit around and whittle, with aching bones and brittle, but he's a relic then. This long established limit will doubtless always hold, though does may try to trim it, or stretch it manifold; we'll live the term accorded, with noble aims or sordid, and then we'll be rewarded with sleep as good as gold. Why should we wish to tarry when rest is what we need? Why should we ask to carry our burdens till we bleed? To see old things paraded when all their bloom is faded, and we are stale and jaded, from all illusions free?

LISTEN!—Children's Canvas Skufter Shoes, leather soles, cool and comfortable, sizes 6 to 2, in Brown and White. Special price 99c. the pair. PARKER & MONROE, LTD.—June 11, 21.

## O'Leary V. C. Acquitted

MONTREAL.—Sergeant Michael O'Leary, V.C., now a Fort Erie railway employee, who has been in goal in Buffalo since January, charged with smuggling aliens from Canada across the border, has been acquitted by the United States District Court jury at Rochester.

He claims that the charges were falsely laid by enemies he made while he was Prohibition officer in Ontario.

Prints and plaets are a smart combination for the tunic blouse.

A scarf of plain tulle may be worn with the fork of printed chiffon.

Each—98c., \$1.75

Could Not Sleep Nights

Pains and Headaches Relieved by Taking Lydia E. Pinkham's Vegetable Compound

Dublin, Ontario.—"I was weak and irregular, with pains and headaches, and could not sleep nights. I learned about Lydia E. Pinkham's Vegetable Compound by reading the letters in the newspapers and tried it because I wanted to get better. I have got good results from it as I feel a lot stronger and am not troubled with such bad headaches as I used to be and am more regular. I am gaining in weight all the time and I tell my friends what kind of medicine I am taking. You may use my letter as a help to others."—MRS. JAMES RACHO, Box 12, Dublin, Ontario.

Halifax Nurse Recommends.

Halifax, N. S.—"I am a maternity nurse and have recommended Lydia E. Pinkham's Vegetable Compound to many women who were chills, also to women who need a good tonic. I am English and my husband is American, and he told me of Lydia E. Pinkham while in England. I would appreciate a copy or two of your little books on women's ailments. I have one which I keep to read. I will willingly answer letters from any woman asking about the Vegetable Compound."—MRS. S. M. COLEMAN, 24 Uniacke St., Halifax, Nova Scotia.

Each, 14c. and 19c.

# Murphy's Good Things

The Charm of Silk Hose. There is pleasure in noticing the perfect weave and shapeliness of these Silk Hose and one further anticipates the satisfaction to be derived from their most serviceable wear.

Pair, 49c. and 75c.

# Can You Picture this Happy Baby?

When Woodward's Gripe Water enters the home baby's tears of pain are turned to smiles of comfort and content. Read this pleasing letter from Mrs. Facer, 41, Ben Jonson Road, London, E.L.: "Enclosed is a photograph of baby, who has taken Woodward's Gripe Water since she was two weeks old and who always laughs when we shake the bottle before giving her a dose. Baby has two teeth—cut them at 5½ months, and was not cross at all. She sleeps all the night through after her dose of Gripe Water. I cannot speak highly enough of your Gripe Water."

Woodward's Gripe Water is a perfect remedy for babies' stomach troubles and teething pains, and is equally good in larger doses for most internal disorders of older children and adults. It is free from opiates and all enjoy its pleasant flavour.

KEEPS BABY WELL

## Power Plant in New Waterford a Complete Wreck and Stores Looted

Bolsheviks Show Touching Concern for Chinese Strikers -- Baron Byng will Not Retain Governor Generalship -- Mexico Receives Sharp Reprimand From U.S.A.

**BOLSHEVIKS SHOW CONCERN FOR CHINESE STRIKERS.**  
MOSCOW, June 12. The Central Council of the Trade Unions of Soviet Russia has telegraphed 50,000 rubles to Peking to assist the striking Chinese and families of those killed in the rioting.

**CHINESE FIRE ON FOREIGN SHIPS.**  
CANTON, June 12. Foreign steamers were fired upon today as they moved within the fighting lines established by the rival military leaders who continued battling for Canton, which is now held by the defending Yunnanese Army. The Chinese stevedore on the steamer was wounded severely to-day when struck while aboard the craft. While gunfire continued from both sides to-day after a continuous night of shooting, neither army gained ground.

**MEXICO TOLD TO MEND HER WAYS.**  
WASHINGTON, June 12. That the United States Government is beginning to lose patience with Mexico, was indicated in a statement issued to-day by Secretary of State Kellogg. Mexico, he declared, must protect the lives and rights of U. S. citizens and comply with international obligations, if it is to retain the support of the United States Government.

**STRIKE TROOP UNDER ORDERS.**  
TORONTO, June 12. Officers and men of the Royal Canadian Dragoons now in camp at Niagara on the Lake, are under orders to be in readiness to proceed by special train to Glace Bay, N.S., where striking miners are rioting and a special C.N.R. train has been prepared for use the moment the Government authorities give the word.

**STORES LOOTED AND PLANT WRECKED.**  
SYDNEY, June 12. Quiet was reported throughout the colliery district this evening, and the five hundred soldiers and police who arrived at noon from Halifax took up their quarters for the present in the plant of the Steel Company here. At New Waterford, where the thirteen week old strike of the United Mine Workers of America against the wage rates of the British Empire Steel Corporation, culminated yesterday in a bloody clash in which one miner was killed and two seriously wounded, all was quiet. The power plant, which the corporation police won by a surprise attack yesterday morning and lost in a counter-attack yesterday afternoon, when their forces were completely routed by the miners, presented a deserted aspect to-night. There were no pickets and no company officials; they were not necessary this evening because the power plant was a complete wreck and beyond all usefulness for weeks to come. Looting of the company stores and property had ceased early this morning and the affairs of the colliery towns were pursuing their usual orderly course. It was estimated by the company that the looting of the company's property during the night had resulted in a loss of from \$75,000 to \$100,000. The power plant had been wrecked inside and out, valuable electrical appliances and instruments had been torn from their emplacements and battered as though by sledge hammers, the windows were smashed, and two boilers were believed to have been burned beyond all usefulness through fires having been placed under them while they were empty of water. Two very essential and valuable pieces of electrical machinery will have to be ordered from an English firm which made the original units. Weeks must elapse, the authorities stated, before the plant can be again operated. When the troop train arrived this morning, it bore signs of having passed through difficulties. Windows were smashed and the cars scored by the stoning they received when passing through the northern colliery towns.

**TO GRANT SWEEPING AMNESTY.**  
ROME, June 12. The newspaper Sereno declares to-day the Italian Government has decided to grant a sweeping amnesty on July 29, and that Alfredo Reco, Minister of Justice, is now working out the details of the plan.

**BELGIAN GOVERNMENT HERE AND GONE.**  
BRUSSELS, June 12. Viscount Paulet, who yesterday formed a new Belgian Cabinet, was defeated in the Senate to-day, and informed the King he was unable to establish a Government.

**SIR WILLIAM PETERSON DIES SUDDENLY.**  
OTTAWA, June 12. Sir William Peterson, Chairman of Peterson and Co. Ltd., London, who has been appearing before the Canadian Government several weeks lately in connection with the proposed Canadian subsidy to the Peterson Steamship Line, collapsed suddenly in his apartment at a local hotel to-day and died a few minutes later of heart trouble. Sir William had been active in the operations against the alleged North Atlantic Steamship Combine. Prime Minister W. L. King, of Canada, leaving Sir William's room when all efforts to restore life had failed, remarked that Sir William had given his life for the freedom of the seas. He was born May 29, 1886, and educated at Roskilde, Denmark; also educated at Copenhagen. He was founder and director of the London-American Maritime Trading Company, Ltd., and director of several other shipping companies. He founded the Royal and Uranium passenger lines to Canada and the United States. He was the author of two books, "The Aften In Our Midst," and "The Kiel Canal Problem."

**AFRICAN PRINCE SHORT OF CASH.**  
CHICAGO, June 12. Prince Koj Tovalon Hovenou, of Dahomey, Africa, spent last night in jail after being arrested charged with passing a worthless cheque. The Prince, who recently received the keys to the city, was arrested at the home of his hostess, Mrs. Irene Knowlton. He lacked a bondsman to obtain his freedom pending the settling of the matter. The Prince, through his temporary Secretary of State, explained he had just overdrawn his bank account. The cheque was for \$350 and was given to a lingerie shop where the Prince recently made a purchase for a woman companion.

**BYNG NOT REMAINING FOR SECOND TERM.**  
OTTAWA, June 12. Baron Byng of Vimy, is not remaining for the second term as Governor General of Canada, Premier King said in the Commons to-day in reply to a question from Right Hon. Arthur Meighen, leader of the Opposition, intimating that His Excellency regretted that he would not be able to consider an extension of his term.

**ALBERTA COAL FOR ONTARIO.**  
MONTREAL, June 12. The Canadian National Railways to-day issued instructions to transportation and traffic officers located in the western region, to accept 25,000 tons of Alberta coal for shipment to points in S.W. Ontario.

**U.S. LABOR LEADER DIES.**  
CLEVELAND, June 12. Warren S. Stone, President of the Brotherhood of Locomotive Engineers, and one of the leading labor leaders and labor financiers of this country, died in hospital here late to-day of uremic poisoning.

**CONFEDERATION LIFE.**  
St. Bon's "Adelphian"  
We cannot recall the publication of any College magazine that can compare with the latest issue of the "Adelphian," with a copy of which we have just been favoured. In make-up it is far beyond what we should expect to find in this class of publication, and is a very distinct advance upon any previous attempt. In all there are one hundred and four pages, the paper being of a very superior quality. The cover is beautifully designed and exhibits very effectively the College colours—Gold and Blue. There are several full-page illustrations, including the victorious track team of 1922-23, the inter-collegiate hockey champions, the College trophies, and the cast which produced the "Double Triumph." Many articles of real literary merit are found in its pages, all of which have direct bearing upon some phase of the work of both College. The various sports of both past and present pupils are interestingly contributed, while the "College Diary" is a record abounding in interest to the many who love to look back upon student days passed within the College walls. Other attractive features are, an illustrated article entitled "Twenty-five years of progress at Mount Cashel," a picture of Rev. Bro. J. B. Ryan and a reference to the work accomplished by him, "Personal Pars and Past Pupils," the New Palace, the complete College Roll, and a detailed account of the annual sports which took place only last Wednesday, etc., etc.

**Blind Boy Subscription.**  
Those interested in this matter desire to acknowledge the following subscriptions: E. G. Consens, Esq., \$20.00; Mrs. D. Monroe, 10.00; Sympathiser, 10.00; Other Friend, 1.00. Some members of the Orphan-aid Society, 10.50. \$51.50.

They are glad, however, to be able to announce that the Dorcas Society, through Mrs. R. A. Brehm, has generously undertaken the charge of the case and will defray the remainder of the expenses. It is hoped, therefore, to send the boy away to the Blind School upon its reopening in the fall.

Have you read **HARTLEY'S** announcement in the Telegram to-day? June 13, 11

**Helping Boy Scouts.**  
Excellent results are expected from the campaign inaugurated by the Melbourne Rotary Club to collect £10,000 to endow headquarters for the Boy Scouts' Association. The campaign will extend over a fortnight. It was begun on the afternoon of April 25, when a carnival was opened at Luna Park. St. Kilda. The opening ceremony was preceded by a march of Boy Scouts from St. Kilda railway station to Luna Park. The programme included the Victorian Amateur Athletic Association's relay race, which was won by a team representing the Victorian Amateur Walkers' Club, and the preliminary rounds of the Boy Scout boxing championship for the silver cup presented by Arthur Goggs and Company. All of the amusement facilities of Luna Park were in full use, and large numbers of people attended. The carnival will be continued during the week. On Sunday, April 26, references to the Boy Scout movement were made in many of the churches in the city and the suburbs, and the importance of the training of boys in manliness and good citizenship was emphasised. Many other events have been arranged to assist the campaign. On May 2, a carnival will be opened at the Melbourne Motorrome. Before the carnival is opened Boy Scouts will march through the city streets, and on arrival at the Motorrome a display will be given by wolf cubs. Several metropolitan bands will cooperate, and will play massed band items. A pushball match will be

**Canadian Failures in May.**  
The Canadian insolvency statement for May shows an increase both in number and liabilities of commercial failures over the total for the same month of 1924, but a decrease as to number in comparison with May of both preceding years. Thus, last month's defaults in Canada, according to the returns to R. G. Dunn & Co., numbered 196 and had an indebtedness of \$6,835,029, whereas the number for May, 1924, was 162 and the amount involved \$3,524,146.

The unusual amount of defaulted indebtedness reported for May this year, is due mainly to an exceptionally heavy manufacturing default which occurred last month; otherwise the statement makes a very satisfactory showing.

The Canadian insolvency statistics for May are compared herewith for a series of years:

Year	Number	Liabilities
1925	196	\$6,835,029
1924	162	3,524,146
1923	262	4,622,960
1922	308	4,070,794
1921	137	3,581,437

A great many of the hats roll smartly up in the back.

at New Waterford, the store at New Aberdeen, and the store at Reserve, were raided, as well as the wholesale grocery store conducted by Solomon Udovin, at New Waterford. During the night the wash-houses at New Waterford were destroyed by fire. Captain D. A. Noble, commanding the company's police, is reported to have been painfully though not seriously injured. A detachment of approximately fifty provincial police arrived in Sydney this morning under command of Captain S. Curry. They will be uniformed and given mounts and will, if called upon, it was reported, in conjunction with the Militia. Three policemen, involved in yesterday's encounter, reported this morning after a night spent in the woods in the vicinity of New Waterford.

**RYAN-KING.**

The marriage of Miss Mary C. Ryan, only daughter of the Hon. J. D. Ryan, K.S.G., and Mrs. Ryan, to Mr. F. J. King, was solemnized this morning at St. Bride's Chapel, Littledale.

The Nuptial Mass was celebrated by His Grace the Archbishop, assisted by Rev. Mgr. McDermott, V.G., and the Rev. P. J. Kennedy. The bride was attended by Misses Amy McEvoy and Madeline Kavanagh; the groom was supported by Mr. Hubert Hutton.

Miss Ryan was a prominent member of the R.C. Cathedral Choir; she was dowered with a rich contralto voice, and her musical and dramatic talent, was high above the average. Her splendid talents were ever at the disposal of every philanthropic and charitable object in the community.

The groom was formerly organist at Sandringham, and assistant organist at Norwich Cathedral, which position he resigned to take on work in Newfoundland. He has been in turn organist at Gower St. Church, and music-master at the Methodist College, organist at St. Andrew's Presbyterian Church, and later organist and choirmaster at the Anglican Cathedral. He, too, in addition to his musical ability, possesses much dramatic talent which was also given freely for all charitable purposes.

**"The Fighting Coward"**

AT THE MAJESTIC NEXT WEEK.

FAMOUS PICTURE SAID TO BE GREATER THAN "THE COVERED WAGON"

James Cruze again! What more need be said when one recalls such pictures as "The Covered Wagon," "Hollywood," "Ruggles of Red Gap" and "To the Ladies?" "The Fighting Coward," Cruze's newest production for Paramount will have its first local showing at the Majestic Monday.

It's an adaptation by Walter Woods of Booth Tarkington's stage success, "Magnolia," which ran on Broadway during 1923.

Ernest Torrence, Mary Astor, Noah Beery, Phyllis Haver and Cullen Landis are featured in the principal roles. The story is an entertaining southern love comedy-drama.

Cullen Landis plays Tom Rumford who returns to his home after years spent with a step-uncle in Philadelphia. He knows nothing of the dueling code prevalent in the southern states and is ordered from the house in disgrace when he refuses to fight a duel with Major Patterson for the girl he loves.

In "Natchez he meets Gen. Orlando Jackson (Torrence), a fighting, gambling man who takes a fancy to the boy and builds up for him the reputation of a dangerous gun-fighter. The notorious Colonel Blake he calls him.

Seven years find Tom once more back at his folks' place. It is his moment for revenge. Years ago they had branded him a coward, a miserable hound's dog. Now he, the most feared and respected man along the Mississippi, would show them a thing or two.

issued a proclamation in which he threatened to execute any Chinese who disturbed the foreign concession. There was no repetition to-day of the rioting on Thursday night, in which a number of Chinese were killed or wounded while making an attack upon the British volunteer army. It is estimated that five thousand Chinese soldiers were stationed around the concession to-night. One Japanese was killed and five were injured in last night's fighting before

the foreigners fled. This ended the British volunteers were still on duty at the British Concession.

Teas and Suppers served at Private Parties catered to by English Tea Rooms "Blights" Western Road, Freshwater. —June 11, 1925

Many printed frocks are veiled plain chiffon.

"How did you get that wonderful Pompadour Blue?"

"It's as easy as can be. I dyed it with SUNSET. Isn't it a lovely color!"

The SUNSET "Season's Colors" folder that they give you at the store tells how to get all the popular shades. For Pompadour Blue—if your goods are white and weigh a pound—take a cake and three-quarters of Bright Blue and one-eighth cake of Heliotrope. Of course my blouse weighed very little so I used less dye but kept the same proportions. Then I just followed the directions wrapped with the cake.

"It's really very simple—and easy too. I don't mind in the least dyeing things with SUNSET. It never stains my fingers, and doesn't harm the utensils one bit."

**SUNSET Soap DYES**

SUNSET'S 22 colors are all fast on all fabrics. Ask to see SUNSET Color Card in drug, grocery, meat, grocery and general stores.

### Railing Sergeants' Memorial

Editor Evening Telegram  
Dear Sir—In your issue of yesterday, "Union Jack" made some inquiries in connection with the railing for the Sergeants' Memorial. For the information of "Union Jack" and others who may be interested, we would appreciate your courtesy in publishing the following information:

In June last, a subscription list was opened in the columns of The Evening Telegram, and the sum of \$1,078.70 was subscribed. This amount was deposited as a Trust Fund for the erection and maintenance of the railing.

A committee was appointed by the Sergeants' Mess of Nfld. to procure designs and quotations from various firms for a suitable railing. A design submitted by Messrs. Henry Rodgers, Sons and Co. of Wolverhampton, was adopted by the Mess, and the order was placed on Feb. 25th, 1925. The railing should arrive by the next English boat.

It was hoped that lighting standards could be embodied in the design of the rail, but as neither the Government nor the Municipal Council would undertake the payment of lighting expenses, the lighting Standard has to be omitted from the Design.

Should the railing arrive on the "Digby" which is now due, every effort will be made to have it erected by July 1st, if not some suitable Battle Anniversary Date will be selected as a Dedication Day.

Yours truly,  
A. J. IVANY,  
Secretary Treas.  
Sergeants' Mess of Nfld.

### Girl Guides

Miss Penberthy, the Red Cord Diploma Guider will leave early on Thursday for Carbonar to inspect the Guide Company there and to visit and inspect the Guide Companies at Harbour Grace and Bay Roberts.

She will hold a Guiders' Training Camp at "Virginia Waters" from June 27th to July 7th when it is hoped Guiders from the Outport Companies will attend as well as many St. John's Guiders. Notices of this camp have been sent to all Outport Companies and any information that may be required will be forwarded at once by the Island Secretary.

In July Miss Penberthy will visit Grand Falls, Springdale, and if possible Catalina.

Before she leaves for the Outports Miss Penberthy will have completed her visits to all St. John's Companies. The training classes for Guiders will be held on Tuesday the 16th, and Tuesday the 23rd, at 8 p.m. at Girl Guide Headquarters.

The purest in the British Empire—

### A Youthful Exhibitioner

At the conclusion of the Music Exams conducted throughout the Island, by Mr. George Vincent of the Trinity College of Music, London, it was ascertained that little Miss Smyth daughter of Mr. Thomas Smyth, King's Bridge Road, and a pupil of the Presentation Convent, Cathedral Sq. had gained 90 marks in Junior Practical Music—which distinction entitles her to an Exhibition of Six Guineas.

This scholarship is open to all pupils entering for Senior, Intermediate and Junior Music, every year, and the age limits are respectively, sixteen, sixteen and fourteen years; but Miss Smyth is now only in her eleventh year, and has gained the highest marks of the three Grades.

To the youthful exhibitor, her parents, her teacher, and her school we extend hearty congratulations.

### First Aid

In case of sprains, bruises and inflammation apply Minard's at once. It prevents complications, soothes and heals.

### Medicine Company Offers Stock

Shiffet, Cumber & Co., Limited, are making a public offering of 8 per cent. cumulative redeemable preference shares of A. W. Chase & Co., Limited, incorporated under the Ontario Companies Act, owners and successors to Edmanson, Bates & Co., Limited, Toronto, and Dr. A. W. Chase Medicine Co., Buffalo.

The stock will be sold at par. \$100. A. W. Chase Co., Limited, have \$1,000,000 authorized preferred stock, of which \$800,000 is issued or to be issued, while the amount of common stock authorized and issued is 40,000 shares, no par value. Each share of preferred stock will carry as a bonus two shares of common stock.

The management of the company includes the same men who have been identified with the growth of the business and in addition men who have had wide experience in successful merchandising, both in the Canadian and United States fields.

Based upon the balance sheet as of April 1, 1925, after giving effect to the preferred shares issued, the total assets available for security for these shares are \$1,050,000, which is over \$28 for each preferred share.

Sales in 1924 amounted to \$481,000, and net earnings during the past eight years have averaged \$31,403 annually. Net adjusted earnings in 1924 were \$87,360, sufficient to meet all requirements on the 8 per cent. cumulative preference shares and leave a substantial surplus applicable to common shares.

It is expected that application will be made in due course to list the shares on the Toronto stock exchange.

### Grand Concert

MONDAY NIGHT'S ATTRACTION.

A grand concert will be held in St. Patrick's Parish Hall on Monday night June 15th, the proceeds of which are to be devoted to the garden party vestibule columns many of the city's leading artists will contribute. The worthiness of the object will no doubt be sufficient to attract bumper houses as on all previous occasions. The concert is under the capable direction of Miss Kathleen Hayes and the public are assured of a musical entertainment of real merit.

### Sachem in Port

The S. S. Sachem which arrived in port yesterday from Boston and Halifax brought a large general cargo and the following passengers for here.

### First Cod Taken in Straits

HOME BRINGS INTERESTING REPORT.

The S.S. Home, Capt. Norman, arrived from the Straits of Belle Isle via usual ports yesterday morning. Capt. Norman reports that at Bonne Esperance Whiteley's men jigged 4 or 5 qts. last Friday. This is the first sign there for the season. At Isle au Bois some cod were also jigged. Three salmon, the first for the season, were taken at Battle Hr. the day the Home was there. At Cow Head 15 barrels cod were taken in trap last Tuesday. There is a sign of cod at Flower's Cove on the outer ledges, and at Port aux Choix and St. John's Bay there has been good codfishing. At the latter place J. H. Halliburton has about 150 qts. under sail. Off Port aux Choix the United States schooner Henry Ford secured 100,000 lbs. of halibut. She made the trip from the time of leaving her home port till she started for home in exactly a week. The halibut were very large, the smallest being over 250 lbs. There is no ice along the Straits coast. There was a small patch reported at Grady. A steamer was loading pit props at Hawkes Bay and would be ready to sail to-day. The Home brought several passengers. She sails north again after the arrival of to-day's express train.—Western Star, 10.

Death to Flies and Insects of all Kinds

## SAN-O-SPRAY

Ellis & Co. Ltd. 203 Water St.

## SAN-O-SPRAY

Certificate of Approval N.Y.F.D. Reg. No. 306.

## SAN-O-SPRAY

WHAT IS SAN-O-SPRAY

Certain filthy and pestiferous insects have for many years been the bane of households, hotels and institutions. While most of us have become accustomed to them because of their general prevalence and the difficulty of destroying them, there is now no need of tolerating them any longer. Since the discovery of SAN-O-SPRAY, it is very easy to rid the premises of Cock-Roaches (water bugs), Bed-Bugs, Moths, Flies, Mosquitoes, Ants, Fleas, Weevils, etc., by applying SAN-O-SPRAY to the retreats of these pests.

### WHOLESALE PRICES ON APPLICATION.

RETAIL PRICES.

With Sprayer, per set \$1.50  
Quart tins, each . . . . . \$1.40  
Gallon tins, each . . . . . \$4.50  
Sprayers, each . . . . . 60c.

### Rhodes Scholarship for 1926.

Applications for the 1926 Scholarship may be sent to the undersigned any time up to the beginning of November next.

The application must be accompanied by two typewritten copies of certificates and recommendations with one unmounted photograph not larger than 4 by 7 inches.

As applicants must appear before the members of the Committee, those who intend proceeding to Universities should send in their applications before the end of September so that they may be able to call on the members of the committee before the commencement of the University session.

The following are the conditions under which candidates are eligible to compete:—

- (a) They must be British subjects and unmarried.
- (b) They or their parents must have been domiciled in the colony for five years immediately preceding the selection.
- (c) They must have completed their second year at some recognized degree-granting University or College before going into residence at Oxford.
- (d) They must have passed their nineteenth birthday, but not have passed their twenty-fifth birthday on October first of the year for which they are selected.

(Birth certificates must be submitted)

Forms of application can be obtained at any time at the C.H.E. Office, Mills Building.

Saturday, June 13, 1925.

Where is the Board of Works?

There has been considerable criticism of late of various actions of Government departments, and we have been at some pains to ascertain to what extent it is justified by facts. Much of it is based on nothing more substantial than the frenzied desire of the agitator to keep the political pot boiling. Mountains by him are made out of mole-hills; to him every attempt to encourage development is wasteful extravagance; he examines every action or decision to find a sinister motive, and because it is not apparent, he considers it his duty to invent one, which he forthwith broadcasts in the hope of being hailed by the public as the saviour of his country. In most cases he is nothing more than an assassin, gloating in his crime, even though it is his country which is most seriously affected by his deadly thrust. It is not our intention by any means to extol all that the Monroe Government have done. In fact, certain matters deserving of criticism have been brought to our attention, and we intend to deal with them frankly. We do so because we have absolute faith in the integrity of Walter Monroe, the Prime Minister, and are determined to do everything possible to strengthen the hand that he has put to the plough. We do so because the policy adopted by the Party was that demanded by the Telegram from the moment that the excesses into which the country had been plunged were revealed, and we do so because we intend that policy to be adhered to regardless of the individuals concerned. The first matter deserving of attention has to do with the Public Works Department. In addition to the Minister and his permanent staff there is a Board of Works, consisting of five paid officials, not including the Minister, who is the Chairman. In all matters pertaining to the Public Service those officials are supposed to be consulted, but although in the last six months many matters of moment have been dealt with which should have been considered by them, the Board has not been called together since December. Two members of that Board, have handed in their resignations, and their action is not surprising. In fact it is difficult to understand how any of them have been willing to accept pay under the circumstances. The Department of Public Works is responsible for the expenditure of considerable sums of money, and to ensure that the utmost vigilance will be exercised a Board is appointed to confer with and advise the Minister upon all matters of and over which the Department has control or cognizance. We call attention to the departure from the statutory regulations because, however carefully matters may be administered by the Minister himself, he is shouldering unnecessary responsibility, and leaves the door wide open for criticism which has a harmful effect on the whole Administration.

Child Welfare

HEALTHY BABIES.

“An Ounce of Prevention is Worth a Pound of Cure.”

BABY WEEK.  
Begins on Monday at 3 in the afternoon. Come to the Star Hall—we know you will be interested.  
1. To see what has been done for the Competition.  
2. To see the best foods to use and why—and to read the food Alphabet.  
3. To see the best clothes for baby and why.  
4. To see the many ways we can help to kill off and get rid of flies.  
5. To see the Movie “Swat that fly” (this film will be in the Exhibition Hall itself. On Tuesday and Wednesday there will be other films shown as well.)  
Don't forget to come and have a look in sometime Monday, Tuesday or Wednesday, and we are sure you will not be disappointed.  
C. W. A.  
June 13, 1925.

Outward by Silvia

The following are sailing by S. S. Silvia—Mr. W. J. Crogrove, Mr. and Mrs. A. D. L. Laine, Mr. and Mrs. W. H. Willis, Mr. and Mrs. M. McGottigan, Mr. and Mrs. H. R. Silver, Mr. R. A. Corbett, Mr. M. Gibson, Mr. V. Leslie, Mrs. Shea and three children, Mr. and Mrs. Harrison, Mr. F. Bancklin, Mr. and Mrs. M. G. Withers, Mr. C. D. Sullivan, Mr. J. S. LeDoux, Mr. Hiram W. K. Cave, Mr. B. D. Miller, Mrs. M. Kelling, Mrs. P. Zerrallo, Mr. L. Scanes, Mr. and Mrs. James Connors, Mr. J. Walsh, Mr. F. Conran, Mr. and Mrs. R. T. Klauber, Mr. L. Green and 22 second class.

Brooklyn Chamber of Commerce Cruise CANCELLED.

Notification has just been received that the proposed cruise of the Brooklyn Chamber of Commerce has been cancelled owing to unavoidable circumstances, but it is hoped that the four may be arranged for next summer. Reference was made a week ago to the members having hired the steamer Fort St. George for the tour, which it was intended would include a visit to St. John's.

Tablet for National Memorial

A dedicatory tablet to be placed on the National Memorial at the King's Beach, is expected to arrive from England by S.S. Digby. It will be placed in position at once and unveiled at the Memorial Service on the first Sunday in July.

Discharging Rails

According to a message received yesterday by Messrs. Furness Withy & Company, the work of discharging the cargo of rails from the S.S. Fanad Head, at Heart's Content, is proceeding with despatch, and up to noon there had been 2,600 tons discharged. It is expected that she will be ready to sail on next Thursday.

Personal

Mr. and Mrs. L. C. Outerbridge left by Thursday's express for Toronto, news having been received by Mrs. Outerbridge of the death of her brother, Dr. George Strathy, of Toronto, after a brief illness.

Store Window Attracting Crowds

Large crowds gathered around Beards' Duckworth Street store yesterday, to see the unique window display of IVORY SOAP. An electrical figure compels instant attention, as it moves and seems to speak the words appearing on the various cards advertising IVORY SOAP. Hundreds of people stepped inside this busy store to buy IVORY SOAP—the toilet soap which nearly everyone is using these days. IVORY has the reputation of being the most economical soap, and besides, it is a very fragrant and dainty soap too. It has certainly become immensely popular in St. John's during recent weeks, and scarcely a woman goes shopping without bringing home a cake of IVORY these days.

PEPPY'S BEHIND THE SCENES

June 12th—A bright fair morning, yet I stir not abroad till late, being that I do sleep beyond my time, and do seem how I do permit myself to adopt lazy habits. A paucity of news all this day and has been the same these 3 months past, albeit discouraging of this matter with Peppy he do give it as his opinion that there has been such a glut of political excitement in the 5 years past, that we do notice the quietness of this year more by contrast than for the actual lack of news. My wife this day would persuade me that we take a house in the country for the summer, and would give me no other reason for her coming to this mind, where before she would hear naught of leaving town, that I am sore pained. But anon, he do tell me how his wife goes to Brigus this summer, and has persuaded my wife that she should accompany her. Little news out of Cape Breton this night, albeit to hear that there have been some riots and that drivers of the Company stores are raided. Indeed, it will be a good thing for this country if the strike should soon end being that many Newfoundlanders are now out of work that at this time were accustomed to making good wages at Sydney.

Schooners Ashore and Reloated

A message from the Sub-Collector at Woods' Island to the Deputy Minister of Customs, was received this morning, stating that the schooner Max Houton, bound from Halifax to Corner Brook, struck on bar south east point Woods' Island last night, and was later reloaded at high tide. No damage was done. A similar message was also received that the fishing schooner W. G. Robinson of Lunenburg had struck on the bar and was safely reloaded this morning.

Silvia's Additional Passengers

The following additional passengers are sailing by the Silvia at 4 o'clock this afternoon from Halifax, via New York:—H. Young, Miss S. Shea, Mammal, Kathleen and Gerald Shea, J. E. LeDoux, Mr. and Mrs. F. J. King, Miss E. Roache, H. R. Silver, R. J. Gearing, Mr. and Mrs. W. W. Willis, Mr. and Mrs. M. McGottigan, also fifteen additional in steerage.

Large English House

TO HOLD BIG DEMONSTRATION. A cable has been received by Leo A. Duffy, residential agent here for Sir Wm. P. Hartley, Ltd., saying that arrangements are now being made for a big demonstration to be held in the Newfoundland territory in the very near future.

A new film is now ready which will give our local people an opportunity of understanding what the largest Preserve House of the world can mean. Acres upon acres of strawberry and raspberry beds, glaucous currants, gooseberries and other glorious gifts of nature growing in abundance readily bring to the minds of millions that after all Hartley's is the wonder orchard of the world. Many who have been fortunate enough to visit the Hartley works claim that it surely is a visit worth while.

The beautiful buildings—the gorgeous surroundings—all multiply in giving the name of Hartley a personality only to be found in the avenue of perfection itself.

We are authorized to state that Sir Wm. P. Hartley, Ltd., will be pleased to have any citizens who may be in Wembley, visit them at any time. Newfoundlanders may be assured that a royal welcome awaits one and all at the Hartley Gardens.

Always insist on the best preserves—buy Hartley's Jams, Jellies and Marmalade—obtainable at leading stores in every nook and corner in Newfoundland.

Watch for the demonstration and a great surprise awaits you. One of the biggest shipments for some time is now due ex S. S. Digby. June 15.11

Shipping

S. S. Hitherwood, which arrived a few days ago, with a cargo of cement for the dry dock, sailed this morning for Montreal.  
S. S. Rosalind is leaving New York to-day.  
S. S. Sable I., is expected to leave Boston on the 16th, for Halifax via St. John's.  
Sch. Gordon Tibbo has entered Grand Bank to load codfish from S. Tibbo and Son for Oporto.  
Steamer Hangerland left Bell Island yesterday with 10,500 tons ore for Sydney.  
S. S. Thornged cleared from Port Saunders last night for Newport News with a cargo of pulpwood.

TO-DAY'S MESSAGES.

SHIPWRECK WHILE INTENT ON BUSINESS, OVERTAKEN BY DEATH.

OTTAWA, June 12. The death of Sir William Peterson, this afternoon, came without warning. He had visited the House of Commons at 3 o'clock when the report of the Special Committee, which sat on the Peterson Ship Subsidy Contract was presented to the House. Returning to his hotel, he conversed with friends for an hour and then set out accompanied by W. T. R. Preston to fulfil an engagement with the Prime Minister. While waiting for the taxicab at the hotel steps, he appeared to be so ill that Mr. Preston prevailed upon him to return to his rooms. Mr. Preston went in search of the hotel doctor, Dr. F. W. McKinnon arrived in a few minutes later to find Sir William at the point of death. He tried vainly to revive him, but within two minutes the ship owner was dead. Another physician had been sent for and the two used every medical aid without success for an hour to restore Sir William. Death was due to angina pectoris, from which Sir William had suffered for some time. The body will be sent overseas for interment, probably at Sir William's home on the Island of Elgls, in the Hebrides.

U. S. SECRETARY OF STATE'S BLUNT MESSAGE.

WASHINGTON, June 12. The blunt warning to the Mexican Government that the United States cannot countenance violation by Mexico of her international obligations or failure to protect citizens of this country, was served by Secretary of State Kellogg today, in a formal statement. The Secretary's statement declared that while relations with the Mexican Government were friendly, conditions are not entirely satisfactory, and we are looking to restore properties illegally taken and to indemnify American citizens.

Marriage Court

The Board of Liquor Control vs. John Fitzgerald.  
This man was arrested for (1) being drunk in a public place and (2) for disorderly conduct at the Dry Dock and obstructing the work by trying to cause a disturbance. He was found by the police down among the workmen at the dock with a book, in which he was taking down their names. He obstructed the men in their work and endeavoured to get them to stop work until he had been reinstated. It appears that he had been discharged by the company because his work was not satisfactory. Judge Morris, in dealing with the case, strongly condemned actions of this kind and stated that as work had now been provided for men, who had to be assisted by Government relief during the winter months, he would see that those men would not be interfered with while at work. He intimated that cases of this kind coming before him would be dealt with severely. In this case he fined the prisoner \$20 or sixty days imprisonment and told him that if he came before the court again on a similar offence he would be fined \$200 or six months imprisonment.

COMPARATIVE QUIET IN STRIKE AREA.

SYDNEY, N.S., June 12. A day of comparative quiet followed yesterday's stormy scenes in the colliery districts of Cape Breton where the forces of Besco and the striking members of the U.M.W. of America, engaged in their first sanguinary clash since their wage dispute ended in a strike on March 6. There was some disorder this morning when the troop train, entering the colliery districts of the northern area, was stoned and some windows broken and also late tonight when miners were reported by the Glace Bay police to be looting the Company stores at New Aberdeen and Dominion. It was evident that the police were not taking the disorders in the Glace Bay district too lightly, as indicating anything of a serious nature.

APPAIRS IN STRIKE AREA.

SYDNEY, N.S., June 13. Further depredations by the striking miners of the British Empire Steel Corporation, which now include the burning of the Company's store at Caledonia early this morning and the alleged beating up of a number of officials at New Waterford last night, were being investigated today. In the meantime the vanguard of permanent troops numbering 800 in command of Lieut. Col. W. H. Elkins, which have been called out under the Military Act to assist the civil power in the restoration of law and order, were remaining in their quarters at the steel plant. It was announced last night that the inquest into the death of William Davis shot down during an attack by strikers at the new Waterford power plant would open this morning and might possibly pave the way for an investigation of the circumstances surrounding the outbreak.

B.C. COAL MINERS RETURN TO WORK.

NANAIMO, B.C., June 13. Work will be resumed in two coal mines of the Western Fuel Company here this morning, and in two others on Monday next. A mass meeting of miners was held yesterday, as the result of which a motion was adopted by a large majority favoring a return to work.

HUMBER A HIVE OF INDUSTRY.

MONTREAL, June 13. "Since Grand Lake and Deer Lake were harnessed for electrical power that part of Newfoundland between Howley and Bay of Islands has become a hive of industry," said Dr. N. S. Fraser, of St. John's, here last night, en route to a Convention of the Canadian Medical Association at Regina.

AGITATORS STILL IN JAIL.

SOFIA, June 14. There are still 3194 persons in jail awaiting trial on various charges in connection with the recent military clean up of Communist activities in Bulgaria. The Chamber of Deputies was told last night by the Minister of War.

SUICIDE FACT.

WESLEY FARMS, Mass., June 13. Sterling Mills, an 18-year-old High School student, admitted to the au-

In the Supreme Court

THE TRUST CORPORATION CLAIM  
The hearing of the Ndd. Banking and Trust Corporation case was continued in the Supreme Court yesterday afternoon when Mr. J. Turner was called and examined by Mr. Emerson, concerning certain surveys he had made in the Gander area. Mr. John Powley, employed with Lord Rothermere, whose evidence was taken on commission in England, was read after which adjournment was taken until 11 a.m. to-day.

CHINESE TROOPS IN SHANGHAI.

SHANGHAI, June 14. Two thousand troops from the Mukden army of General Chang Tso Lin, the Manchurian Dictator, arrived in Shanghai this morning under command of General Chang's son, Chang Hsueh Chi Kiang. The troops were posted throughout the city and the boundaries of the international settlement which was marked by Chinese flags.

THE RELIEF SHIP'S PROGRESS.

S. S. Ingertite, bound for Spitzbergen, June 13—Members of the Norwegian Government Relief Expedition, on board the Ingertite, expected to reach Arvert Bay, their destination, this afternoon. Good weather has been experienced throughout the voyage from Horten, except a near squall which struck the vessel Thursday. Upon arrival at Arvert Bay, where Amundsen's ship Fram is reported to be waiting, the armen will disembark and prepare for their flight to King's Bay, while the Ingertite will proceed to Cole's Bay to load coal for Alexandrovsk Farm and is expected to return to Cole's Bay to report the weather conditions there before the armen start.

Child Welfare Essay Competition Results

The results of the Essay Competition which was held in the city schools and Colleges at the suggestion of the Child Welfare Association are as follows:—  
Best essay of all competitors—Annie McCormack, St. Bride's College.  
Winner Boys ages 15-16—James C. Grievy, Bishop Field College.  
Winner Girls 15-16—Annie McCormack.  
Winner Boys 13-14—Arthur Barsey, Parade St. School.  
Winner Girls 13-14—Susan Kelly, Parade Street School.  
Five hundred children in all entered the competition, and to decide the winners was no easy task for the judges. Fortunately, however, although acting independently all three were unanimous in their decisions. The subjects were: (a) How to make St. John's a Happier and Healthier City; (b) My Duties as a Young Citizen. The general standard of quality and matter was high, and we trust shortly to publish the splendid article written by Miss McCormack, the first of the winners. The prizes which consist of sets of books of the Nelson Edition will be presented by Lady Aldred in the Star Hall on Monday at 3.15 p.m. after the Baby Week Campaign has been opened.

Fences Obstruct Old Railway Line

CITIZENS living in the vicinity of Freshwater Road complain that persons have placed fences in some cases consisting of barbed wire across the old railway line, which is a popular walk. We are unaware of any right which the builders of the fences have on the property, and as it forms one of the few roads which are not used by motor traffic, those who enjoy a stroll should not have that pleasure marred by these obstacles.

Wake Up the Unregistered Drivers

It is learned that up to yesterday only 375 cars had been registered, and drivers and owners were coming forward very slowly to make up their requirements. We would suggest as a spur to the tardy individuals that the Highway Department issue a notice on Monday to the effect that after Wednesday next no cars that do not conform to the regulations, will be permitted to appear on the streets or highways.

Government Boats

Argyle left Haystack 2.40 a.m. Monday morning's train connects for West P.B.  
Clyde left Fogo 8.50 a.m. Sunday's express connects for North N.D.B.  
Glencoe left Garnish 8.30 a.m. Wednesday morning's train connects at Argentina.  
Home, no report. Tuesday's express connects at Humbermouth.  
Kyle left for North Sydney 8.45 p.m. yesterday.  
Malakoff left King's Cove early this morning. Sunday's express connects for Bonavista Bay North.  
Portia left English Harbour West 9.30 a.m. Sunday's express connects at Port aux Basques.  
Prospero left Wesleyville early morning, going north.  
Saguna sails 10 a.m. for Labrador. Not calling at ports en route, except Conception Bay.  
Meikle north of Black Island, Labrador.

Personal

Mr. Israel Pelley of Hant's Hr. left by the Silvia to-day on a business trip to Boston.  
Mr. Hiram Young, of the Royal Stores, left by the Silvia on a business trip to Toronto and other Canadian cities.  
Mr. Sydney Rendell, is at present in the city on a visit from Grand Falls.

Not Giving Up Practice.

Dr. G. N. Murphy wishes to state that, contrary to rumours that have been circulated, he has no intention of giving up his practice in Newfoundland.—June 12.

A Mean Act

On Friday night a couple of scamps tore down part of a fence surrounding the farm of Miss Bridget O'Neill, Freshwater Valley and not satisfied with this act of vandalism, they carried away the gate. Suspicion rests on two well known characters and if the gate is not returned the police will be notified.

A Night with the Bible  
ADVENTIST CHURCH—COOKSTOWN ROAD  
SUNDAY, JUNE 14th. 6.30 P.M.  
SUBJECT: "PETER and THE KEYS OF HEAVEN."  
Was Peter the Rock on which Christ built His Church?  
SEATS FREE—ALL WELCOME—COME!

COLUMBUS LADIES' ASSOCIATION  
OUTING  
"SMITHVILLE" JUNE 24th.  
SPORTS — SUPPER — DANCE  
Tickets may be had from members of the Association, members of the Gentlemen's Committee, the Steward at Columbus Hall, and at the following stores: Kearney's, P. O'Mara's, C. J. Ellis', A. S. Wadden's and P. J. Fortune's.

The Newfoundland Memorial College and Normal School!  
At the opening in September next advanced classes will be organized under the presidency of MR. JOHN LEWIS PATON, M.A. (CAMBRIDGE).  
In addition to the Professional training of teachers, the Institution will furnish courses for the first and second years of University work in liberal Arts and pure Science; the curriculum will include English, Mathematics, Chemistry, Physics (and other Sciences), French, Latin, Greek, Spanish, and other subjects for which there may be a demand.  
The Memorial College will be associated with the principal universities of North America and the British Isles, and its certificate accepted pro tanto. In the case of the universities in North America, this will reduce the residence abroad to two years.  
ENTRANCE EXAMINATION: Junior Associate (Matriculation) of the Council of Higher Education with a general average of fifty per cent. or equivalent examination to be set by the College shortly before the date appointed for the opening.  
SPECIAL STUDENTS: Students not desiring the full course may be admitted to any class as special students provided they are able to present evidence of qualification for such class.  
An important purpose of the College is to help forward in any of the subjects named any student who has already reached the Junior Associate (Matriculation) standard (C.H.E.).  
FEES: For the full course of five subjects or classes \$40.00 per annum will be charged, and \$10.00 for special subjects.  
The President is at present engaged in securing a suitable staff of Professors for the institution.  
Mr. S. P. Whiteway, B.Sc. (Columbia University), will continue in charge of the teacher-training or normal classes.  
The President plans to reach here early in July. Until then, application for admission and for further information should be addressed to the DEPARTMENT OF EDUCATION.

The STORY OF THE  
MOST DARING EXPLOIT  
IN HISTORY

H.M.S. VINDICTIVE sending Marines over the Mole at Zeebrugge in defiance of the death dealing fire of the German batteries

Their Majesties received by Earl Beatty at premier performance of ZEEBRUGGE from Photo. at Marble Arch Pavilion, London

Produced with the co-operation of the British Admiralty, and endorsed by their Majesties, the King and Queen.

wards Admiral, rescued the Greely party. Capt. Ash afterwards delivered the "Bear" to the American Government who purchased her in the following year.

Just before America went into the war, Captain Bartlett was busily engaged in getting ready and equipping a ship to be used in the experiment of drifting across the Polar regions. The idea was to build a ship on the Pacific, at Seattle, place a party of ten men on board, and getting into the Polar pack, let the ship drift to the Arctic regions, across the Pole, and come out between Spitzbergen and Greenland. This idea was based on the result of an experiment made by Admiral Melville of the United States Navy, and Henry G. Bryant of the Philadelphia Geographical Society in 1857, when forty-seven casks were set adrift in the Arctic floe. Three of these turned up, one south of Greenland, one in Iceland, and the other in Norway. Added to this was the fact that Nansen many years previously, having seen some wreckage of a vessel that had gone down near the islands of New Siberia, and which having drifted right across the Pole, was later found on the South-west Coast of Greenland.

So the "Fram" was specially built for the purpose, and Nansen going around the Coast of Norway, through the Kara Sea, past Cape Chelyuskin to the northern point of Asia, was soon frozen in the Arctic floes. After two years of drifting he left the "Fram" and erected huts at Cape Flora in Franz Josef Land. Here he fell in with Jackson who brought him back to Norway in his ship the "Windward." The "Fram" in the meantime drifted along and eventually forced her way out of the ice. Just as preparations were well under way, the Great War broke out, and Captain "Bob" was obliged to drop the intended expedition.

Captain "Bob" now volunteered for service in the United States Navy, having previously gone to Canada and been rejected. Shortly after being commissioned in the service he was ordered to Greenland to bring back MacMillan's party who had spent three years in exploration work in that region. For this purpose he came to Newfoundland and chartered the Neptune, in which ship he successfully carried out the mission entrusted to him. He then was active in the transport service, carrying troops to Europe and the Pacific. After the signing of the Armistice the big work of getting troops back to America again delayed further Polar ventures, but eventually he was released from active duty in the Service, and permitted to engage in Arctic work.

After his successful attempt to the Pole, Commander Peary told Captain "Bob" that he was firmly convinced that the day of Polar explorations by sledges and dogs had gone, and that the work of the future would be carried out successfully and efficiently either by dirigible or aeroplane, and expressed the hope that Captain "Bob" would continue the work along this idea. Andree had attempted the trip to the Pole by balloon in 1897. He started from Dane's Island, Spitzbergen, and was never heard of again, but with the modern dirigible with its up-to-date appliances and equipment and its multiple engines, even if one or more engines gave out there would be a spare, and if all became inactive, the ship could be used as a balloon and brought to safety with a favourable wind. With this idea strongly in mind, Captain Bartlett approached the then Secretary of the Navy, Mr. Denby, and coupling his arguments with the fact that if airships were to be of real value to the Navy, young men must necessarily be found and trained, and given some incentive to enter the service. He eventually got Mr. Denby to see the logic of his arguments, and preparations were made to equip the big dirigible Shenandoah for the trip to the Arctic.

A hangar for this ship had already been erected at Lakehurst, New Jersey. True, many difficulties presented themselves as the airship had then but a cruising radius of 1200 to 1500 miles. However, the outcome was viewed with optimism. At this time the Germans and French were up to date in dirigible construction, and the British very close, the latter nation being the first to adopt the idea of the mooring mast. Hydrogen gas was found to be too dangerous, being so inflammable, and the gas bags of dirigibles were filled with the safer gas called helium. The plan outlined for the trip by a dirigible was to erect mooring masts at different points en route and go north of Alaska, through the Behring Straits into the Arctic, and then to the unexplored regions. All the mooring masts were erected by the Navy, except the final one at Nons. Unfortunately before this one was commenced, the Secretary of the Navy, Mr. Denby was superseded by a new official, and money from private sources being difficult to obtain as a result of the aftermath of the war, the project fell through.

The National Geographical Society was later approached and the co-operation of this organization being obtained, Polar work again took on new life, and last year through the efforts of the National Geographical Society and the Navy Department combined, Capt. Bob was enabled to conduct an expedition to Alaska for the gathering of scientific data and exploration work. From present indications there is every possibility of this work being continued this year.

Some have asked me, said Capt. "Bob" if I were lonely during my sojourn in the north. May I say that I am never lonely when I can look upon, and see floating in the breeze, the old flag, the Union Jack or the Stars and Stripes. However, there is no place like home, and no place looks as good to me as Newfoundland does. I think, however, that our people of to-day are living too fast, and the tendency appears to be towards selfishness and greed. We should have unbounded faith in our little country, and the men of intellect and means amongst us should accept their share of the responsibility in promoting the welfare of our people and our country, otherwise they fall in their duty, and will have a lot to answer for.

Sir Patrick McGrath who is with us to-day has an intimate knowledge of Robert Peary, his work, his character, and his wonderful exploits, and he, I am sure, will agree with me when I say that the greatest honors and laurels that it is in the power of man to bestow on Peary, would fade in the shadow of his greatness. Since first entering his service in 1897, never a discordant note marred the spirit of comradeship which cemented a lasting, loyal friendship. When danger threatened most, Peary was calmest; with limbs frozen and injured, no complaint escaped his lips. He was indeed, a leader of men. Some scientists of to-day appear doubtful of Peary's accomplishment, but in the ages to come when Arctic regions will have no longer resisted the onward progress of civilization, and her vast expanses of territory will have become an open book, no single doubt will exist, and universal homage will be paid to Robert E. Peary, Explorer and Discoverer.

Rotarians accorded Captain "Bob" a hearty vote of thanks for his most interesting and descriptive address. Included in the guests present at the Luncheon were:—Mesdames J. W. Morris, Tasker Cook, C. E. Hunt, E. B. Watson, J. A. Young, Harry Wyatt, R. Mitchell, F. W. Angel, W. Dove, H. A. Smith, M. A. Lester, Miss Milley, Sir Patrick T. McGrath, K.B.E., Dr. C. Macpherson, F. W. Hayward, S. Churchill, R. G. Ash, H. V. Parry, J. B. Orr, J. A. Young, W. R. Dove, and visiting Rotarian "Joe" LeDoux.

**Disastrous Fire at Pouch Cove**  
At 12.30 this morning a fire broke out at Pouch Cove in a building in which two families resided, and despite the efforts of the people of the neighbourhood, both homes and contents were totally destroyed. The unfortunate victims of the conflagration were William Evans, a widower with nine children, and his brother John Evans, with a wife and five children, all of whom were rescued uninjured. Both these men are poor fishermen and their heavy loss is made all the more serious because at the time of the fire the engine of their boat was in the house and was also destroyed. From the Rev. Father Fortune we learn that a committee has been formed in the Cove to obtain help for the stricken families, and he will be very glad to receive offers of assistance from sympathizers in the city.

## Better and Better

Dependable ten years ago, and five years ago, and more dependable than ever to-day, Dodge Brothers Motor Car simply represents the latest phase in a process of continual betterment.

The first cars Dodge Brothers built established a world-wide reputation. The cars they are building to-day incorporate the accumulated refinements of those ten intervening years.

That important improvements in the comfort and appearance of the car are made from time to time, implies no basic departure from Dodge Brothers' traditional policy of PROGRESSIVE rather than SEASONAL development.

CARNELL STREET ST. JOHN'S, NFLD.

### Well-Known C.I.D. Chief

To Take Up High Position at Jerusalem — Distinguished Police and Military Career.

After twenty-five years' service in the Metropolitan Police, Det.-Inspector Joseph Broadhurst is about to retire on pension to take up his appointment as Assistant Inspector-General (C.I.D.) Police and Prisons, Palestine Government, at Jerusalem. In the course of his varied career, Inspector Broadhurst has served at Greenwich, Deptford, Plumstead, Woolwich, Sidcup, Vine-street and Scotland Yard, as Chief of the C.I.D. at Rosyth Dockyard, and finally at Jerusalem. With other officers he was engaged in many murder cases, including that for which two young brothers, named Stratton, were hanged for the murder of Thomas and Ann Farrow, at a shop in High-street, Deptford, in May, 1905. A single finger impression of one of the men on a rifled cash box was the match which brought them to the scaffold. He was also concerned in the investigation of a number of domestic tragedies, the most terrible being one where a man murdered his wife and six children off Clifton-hill, New

Cross. Inspector Broadhurst dealt largely in combating cheque frauds and blackmail on members of society. His duties in the West-end brought him into close touch with the theatrical profession, and his affable personality made him well and popularly known to all classes of persons. Together with the late Chief Inspector Kane he investigated the sensational and mysterious Dublin Castle crown jewel robbery, and on another occasion the theft, by her Grace's then valet, of the Duchess of Westminster's jewellery. A bogus marquis, whom he brought to book, received three years' penal servitude for bigamously marrying the daughter of a well-known Edinburgh doctor. In another instance he was responsible for a female trickster being sentenced to four years for defrauding West-end tradesmen by personating prominent people and tendering worthless cheques. Sternly denying that they were written by her, she was unmasked by a simple writing test. Instead of "Threadneedle-street," the woman misspelt it "Threedeedle-street," the same mistake having been repeated on the cheques. During the war Inspector Broadhurst had a distinguished military career. Appointed a Lieutenant in 1915, he commanded B. Battery, 179th

Brigade, R.F.A., being later promoted captain and appointed A.P.M. In this capacity he acted at Cairo, Port Said, Alexandria, Jerusalem, Hebron and Bethlehem. He was for a time governor of the citadel prison at Cairo, and also of the Field Punishment Compound at Abbassia, Cairo. There he instituted summary military courts, and acted as prosecutor. Further, he carried in to effect the Cairo purification scheme, which was headed by the Bishop in Jerusalem, Dr. Rennie M'Innes, and Lieut. General Sir Edwin Altham. For his services to the Carabinieri and the Bersaglieri who formed the Italian Egyptian Expeditionary Force, he was created a Cavalier of the Royal Order of the Crown of Italy. Inspector Broadhurst was also charged with the duty of making the arrangements for the triumphal entry of Lord Alibeny into Jerusalem and Alexandria, and upon the success of this he was personally congratulated by Lord

Allenby. He was also mentioned in dispatches by Sir Archibald Murray. Returning to his police duties, Inspector Broadhurst was for three years in charge of the G.I.D. at Rosyth naval base, and, going to Scotland Yard on promotion, was appointed to the Police and Prisons Department at Jerusalem, a position he, as stated, is now relinquishing to take up even a more important appointment.

### Donahey Talks Before B. R. T.

HITS "INDIRECT TAXES," BUSINESS MONOPOLY CONTROL.

Gov. A. V. Donahey was the principal speaker at the opening session of the fourth triennial convention of the Brotherhood of Railroad Trainmen in Gray's army. The morning was devoted to registering the 1,000 delegates, some of whom came far as Alaska and Newfoundland.

City Manager William R. Hopkins and Mayor Clayton Townes have also been scheduled to speak at the convention, which is expected to be in session three weeks. The ladies' auxiliary of the brotherhood, with 800 delegates, is also convening with headquarters in Hotel Statler.

Gov. Donahey drew prolonged applause with his attacks on monopoly control of business. "Any man who gambles in the necessities of life should be sent to the penitentiary. Some day we will come to this," he said.

"Indirect taxes were severely criticized by him. They are the kind one pays unknowingly, but believes are paid by big business, he held. Business in the meantime grins, and extracts a little of the tax for its own coffers, he charged, saying these indirect taxes are doing more than any other thing to stagnate commerce.

"Old fashioned" economy in government must be practiced and fewer laws passed at every session of congress if taxes are to be reduced, Donahey said.

Examples from his own administration were cited by Donahey, self-termed "veto-governor," to show what he said should be done with special or privileged class legislation.

An act was once passed in Ohio which restricted work on public improvements to firms whose boards of directors had no members residing in a foreign land. This was purely to stifle competition and was vetoed, Donahey related.

The Bible was passed by the last general assembly was vetoed because it would force public worship on some children to the disregard of their religious faith and training. It was a measure of intolerance desired by only a small class, he stated.

W. G. Lee, of Cleveland, president of the brotherhood for the last 16 years, will conduct the meetings which will discuss fraternal insurance with a possibility of increasing the value of the policies. Some legislation as a result of matters brought before the convention by the delegates will be enacted and discussion held on the employee's relation to the employer.

During the final week of the convention elections of officers will be held. The present officers, W. G. Lee, A. L. A. E. King, secretary-treasurer for 10 years, and D. L. Cesse, editor of the brotherhood magazine, will probably be re-elected, it was said.

Delegates to the brotherhood and the ladies' auxiliary will go to Niagara Falls on a special train furnished by the New York Central lines without cost.

NOTE.—Terra Nova Lodge, No. 929 is represented by Conductor C. A. Lush of the Nfld. Govt. Railway at the above convention, the account of which is taken from a Cleveland journal.

### 1,900 Feet Fall From Aeroplane

PARACHUTE THAT DID NOT OPEN.

How Corporal Ronald Wilson, 25, of New Skelton, Cleveland, Yorkshire, recently one evening, fell 1,900ft. from an aeroplane in a practice jump with a parachute at Andover Aerodrome and was dashed to death was disclosed at the inquest at Andover recently. Flying Officer Horace John White, who took the machine up, said he throttled down the engine at about 1,900 ft. Wilson, who had to jump first and then pull the cord which would open the parachute, got down the ladder all right but seemed a little tremulous.

Aircraftman R. C. Read said that as Wilson went down the steps he had his hand on the rip cord but afterwards loosened his hold. As far as Read could see Wilson did not pull the cord. The parachute would not open unless the cord was pulled.

Flying Officer Frank Soden, attached to No. 12 Squadron, said he thought that when the pilot opened out the engine Wilson was taken unaware and "feeling himself going off," he let go the cord and tried to clutch the ladder. He was too panic-stricken to find the rip cord afterwards.

Wilson's harness was properly fitted. A verdict of Death from Misadventure was returned.

MINARD'S LIMENT FOR COLDS.

# "Bringing Charm and Beauty to Every Woman"

**RICHARD HUDNUT**  
**THREE FLOWERS CLEANSING CREAM**  
Used instead of hard soaps for cleansing the skin after Automobile driving or other outdoor activities

**RICHARD HUDNUT**  
**Three Flowers Skin and Tissue Cream**  
Invigorates, nourishes and protects the skin and tissues. The Night Cream per excellence.

**Three Flowers Talcum**  
This cream is very different from either of the other Three Flowers Creams and is perfectly designed to supplement them. It is a non-greasy cream, but, unlike many vanishing creams, it is so constituted as not to be too drying to the skin. It is absorbed at once by the pores, leaving a smooth, velvety surface, which acts as a perfect base for powder. Any shine there may be on the skin disappears as the cream is absorbed, and any little rough places are softened and smoothed down. This smooth base makes the powder adhere so evenly that it is never unattractively apparent.—85 Cents.

**RICHARD HUDNUT**  
**THREE FLOWERS FACE POWDER**  
This powder not only has unusual adherent qualities, but contains perfume essences and other ingredients which promote a healthy condition of the skin and protect it from the sun, wind and dust. It is exquisite in odor and delightfully soft in texture.—85 Cents.  
June 2, 1925

T H R E E F L O W E R S

### The value of using all three Creams.

Used regularly and faithfully, these three creams together will do more to keep the skin thoroughly clean, free from blemishes, fresh, youthful, firm and unlined, than any other treatment. There is no type of skin that is not benefited by their use. A very oily skin reacts wonderfully to the Three Flowers treatment. It opens the overloaded pores and allows them to throw off the excessive oil that has become habitual to them. On this type of skin—all three creams can be used generously, even lavishly, with beneficial results.

F L O W E R S

**Three Flowers Talcum** is made from purest selected and tested ingredients. It is impalpably fine and smooth, of just the right "weight," and is exquisitely perfumed. Excellent to use after bath to absorb remaining dampness.—80 Cents.

## HERE'S SOMETHING NEW! PATENT HOUSE SHEATHING COSTS ONLY 6 CTS. PER POUND. PATENT HOUSE SHEATHING MAY BE USED LIKE SHEATHING PAPER.

It is water-proof, wind-proof, and cannot rot. It will last as long as your house. It will help to keep your house cool in summer and warm in winter.

Because Patent Sheathing is rot-proof and water-proof, it preserves the rough boards and clapboards on your house.

Patent House Sheathing is safe; no bugs, roaches or other vermin can get through Patent House Sheathing.

One roll of Patent House Sheathing will cover (allowing for laps) 200 square feet of surface at a cost under \$4.00. So you see it is not expensive.

You may use Patent House Sheathing for any purpose that one-ply felt is suitable for, therefore it's a double purpose sheathing.

Use it under floor canvas, it lies close, prevents dust or water getting through your floor. You can wash it at house-cleaningtime.

You may use it as a wall covering for your kitchen, you can paint it, kalsomine it, and you can wash it.

It's splendid for lining poultry houses and for roofing them also, for damp proofing and for temporary erections.

# Colin Campbell, Ltd.

### Knife Swallower

**CONVICT'S TRICKS WHICH LED TO HIS DEATH.**  
At an inquest at Parkhurst Prison, Isle of Wight, yesterday, on Joseph Keaton, 43, labourer, who was serving a sentence of seven years' penal servitude passed at Manchester last

### July for wounding with intent to murder, the jury found that death was due to chronic gastro-intestinal inflammation caused by swallowing foreign substances while in prison.

Dr. Craig said Keaton had been addicted for about three years to swallowing handles of knives, forks and spoons, parts of scissors and machinery and buttons. He had been operated

### ed upon two or three times in other prisons for the removal of things he had swallowed, and last November he swallowed the handles of two spoons.

There was method in the madness of prisoners who adopted this habit, a doctor said, because, to prevent excessive injury, they broke off the sharp parts of the knives and forks and other things before swallowing them.

### Fads and Fashions

The redingote idea has proved to be very popular this season. Black is usually brightened by the use of rhinestones or silver. For afternoon wear the one-strap slipper is still very smart.

Paige and Jewett High Pressure Oiling System

MODERN motor cars should be built to run continuously, hundreds of miles, at high speed. This requires high pressure oiling to all main bearings and important working parts of the engine. Paige and Jewett engines are so oiled.

The oil gauge will show twenty to forty pounds of oil pressure at all speeds. This means that ample quantity of oil is being constantly circulated at high pressure to all main and connecting rod bearings and sprayed up through the cylinders to lubricate piston and wrist pin. Ample lubrication together with perfect circulation of water insures perfect cooling under all conditions.

Besides smooth performance, high pressure lubrication means long wear. Every part of Paige and Jewett motor cars are designed for maximum performance plus long life and freedom from repairs. They are alike in quality; different only in size and price. Let us show them to you.

PAIGE AND JEWETT SPECIFICATIONS

Engine—6 cylinder, Paige 3 1/2" x 5"—Jewett 3 1/4" x 5"; lubricates by high-pressure oiling; two-main electrical starting and lighting; shafts driven by clutch with automatic take-up; self-adjusting chain with plate of saw blade steel; four-speed

Christian business men contributed over \$80,000, local currency, to erect for Canadian Mission the best-equipped hospital in all South China, outside of Hong Kong and Canton. It will cost the Canadian Church nothing to maintain this hospital except the salaries of the two Canadians in charge, Dr. G. G. Wannop, of Winnipeg, and Miss B. F. Baty, of London.

Political conditions more favorable to Christian effort are reported from Korea. The present Japanese Government has removed many of the irksome restrictions, though police requirements are still onerous. Religious instruction which was forbidden can now be imparted in mission schools. The high standard of education required by the government greatly increases the cost of educational institutions.

Almost phenomenal is the progress as seen by the fact that from one station, six out-stations, and five missionaries in 1899, there are now five stations, three hundred and ten out-stations, one hundred and ten places of worship, and fifty missionaries, besides five hundred teachers and evangelists and more than 20,000 children in Day and Sunday Schools. The Korean church supports its own pastors, builds and maintains its own churches, and for ten years has been sending out its own foreign missionaries to China and Siberia. Out of their poverty the Korean Church in the Canadian mission field contributed last year \$73,000, being an average of \$4.00 for each member and adherent. \$300 per annum support a Korean pastor, and \$150 a Korean Bible-woman.

Just Folks.

By EDGAR GUEST.

LIFE'S ALL.  
A little patch of sunshine,  
And a little patch of blue,  
The songbirds gayly singing  
A lull for me and you;  
The sound of childish laughter  
Near many a happy den,  
Here's all that makes for gladness,  
The world can give no more.  
A few bright blossoms nodding  
To greet the morning sun,  
A task that will reward us  
With pride when it is done;  
A friend or two to follow  
Our fortunes good or ill,  
No more than this we'll harvest  
How'er the purse we fill.

The trust of those who know us,  
The love of all our own,  
A night of rest unbroken,  
No cross to bear alone;  
The strength for tasks before us,  
High faith when sorrows fall;  
No more the world can give us,  
With these we have it all.

So guard the home you cherish,  
And love your patch of ground.  
Keep faith with all who trust you  
For when life's dapples you round,  
You'll find that peace at evening,  
However long you live,  
And love of friends and neighbors  
Is all that life can give.

A Vanishing Sea

Romance and the labour of earning a livelihood go side by side on the Zuidere Zee, and with its disappearance, which is to take place during the next twenty-five to thirty years, many people are likely to suffer for the loss of both.

Already the first part of the great dyke which is to prevent the sea from overflowing is nearing completion. The island of Wieringen will in future be no longer an island, for the dyke will keep off the water which separated it in the past from the mainland. Later, as the dyke is extended to the coast of Friesland, the Zuidere Zee will vanish. Marken will then be an inland district with one or two agricultural villages, and Monnikendam, Volendam, Edam, will be inland villages with little of their old seaside picturesque outlook—that is, if they are not utterly deserted.

Already some of the fishermen, whose families for generations have lived and worked there, who have fought to win a means of livelihood and to prevent their homes being overwhelmed by the waves, are leaving for other places, and the white caps and many coloured dresses of the women are beginning to be seen

in villages and towns along the North Sea coast.  
One result of the Zee's disappearance will be the development of fresh-water fisheries. Another is the problem of disposing of the salt which will be left as the sea water is drained or evaporated. How to make this of use, what crops to grow

pending the settlement of the new ground, whether to attempt at first to turn the land into pasture or to plant timber and shrubs that will give the ground stability, are questions which the Government's scientists are now considering.  
To the average man the great thing is that islands and seaside

villages of a curiously picturesque and interesting character are disappearing, and that in their place is springing up a new land, the character, appearance, and utility of which can only be guessed.

Presbyterian General Assembly  
TORONTO, June 4.—The report with the board of foreign missions submitted to-day to the Presbyterian Assembly looked in two directions, it was said. On the one hand, the promise was brighter than ever before; on the other, the opportunities so inviting. On the other hand, the staff was never so depleted, the funds so lacking.  
"Everywhere in the foreign fields," declared the report, "there is a state of openmindedness toward the missionary and his message, which makes for progress. On the other hand, greatly increased cost of carrying on the work without a proportionate increase in revenue from the Canadian church in the grants to the fields during the last three years. The staff has become depleted also through inability of the board to finance the sending of new missionaries, though several are ready and eager to go. These opportunities have been neglected, and, as is stated in the report from China, tens of thousand more might have been reached, if the means had been provided.  
"With the church well established in solid foundations in every field, there is the necessity of providing trained leadership which requires more supervision by missionaries than the present staff can furnish. The church of the future will suffer as a result of the enforced neglect of training leaders to-day.  
"Reports from all the fields indi-

cate development in self-support, self-management and self-extension on the part of the Christian Church. The various missions report increasing transfer of responsibility and control to the church on the field. The missionary is endeavoring to make himself superfluous as soon as possible. Yet the work is only in its beginning, and in no field is there any sign that the day is near when the church can get along without the missionary."  
In 1875 the Presbyterian Church in Canada had three missions: New Hebrides, Trinidad and Formosa—and about a dozen missionaries. After fifty years there are now eight missions: Trinidad, British Guiana, Formosa, Central India, Gwalior, Honan, Korea, and South China—and 333 Canadian men and women. 842 native workers are employed, and a total Christian community of 56,320 reported. There are also reported 1,032 places of worship; 720 Sunday Schools with 36,120 enrolled; 16 hospitals and 25 dispensaries treated last year 194,428 patients, giving 266,559 treatments. Foreign mission receipts from congregations totalled \$281,408, and other special donations and contributions of the Women's Missionary Society as the Maritime Provinces, together with transfer from reserve fund, brought the total revenue up to the amount of the disbursements of the year \$462,561. The report shows that, large as this work is, it is only a small part of a world-wide enterprise—the greatest business in the world.  
"There are to-day nearly 90,000 Protestant foreign missionaries in various lands, and over 150,000 native workers. The total amount given by Christians of British and North American for foreign missions is \$46,272,793 from United Churches, \$3,367,733 from Canadian Churches, and \$13,342,499 from churches in Great Britain.

The Women's Missionary Society, both east and west, had a very successful year. In addition to the \$49,475 contributed by the W.M.S. of the Maritime provinces for foreign missions, the W.M.S. of the western section contributed for the same purpose \$177,521.  
MacKay Memorial Hospital, Tai-hoku, Formosa, closed for six years, was opened in February, doctors and nurses having arrived to make this possible.  
The first union of Christian denominations took place in South India several years ago. In December, 1924, a union of Presbyterian and Congregationalists in North and West India was effected. "In no land," said the report, is the New Testament as much in demand and being earnestly studied as by non-Christians in India. In one district of the Central India field within five days, 123 were baptized, and it reported that several villages are ap-

Practical Rules for Mothers

Every normal mother in the world strives earnestly to give her children the food she supposes to be "good" for them, and nowadays the elements of dietetics are pretty generally understood; and yet we are authoritatively assured that many a child develops bad food-habits through fault of a mother who perhaps is blissfully unaware of her own responsibility for conditions that give her no end of worry.

Insurance Temple ROMANTIC STORY OF ORIGIN OF LLOYD'S. The King To Open New Building. There is a distinct flavour of commercial romance associated with Lloyd's, the great maritime house, recognised by every British ship that sails the seas, which is to be removed from its time-honoured headquarters at the Royal Exchange to a commanding site in Leadenhall-street.

sulted in the sheet being suppressed. Nothing daunted, he reverted to the practice of reading the letters he received and handing them round among his customers. When a more tolerant spirit obtained, in 1726, "Lloyd's List" first saw the light of day, and the publication has continued to the present, sharing with the "London Gazette" a hoary newspaper distinction.

"SUFFERING FROM HABITUAL CONSTIPATION and weak from a recent operation, it was impossible for me to continue my social duties and club work. I dropped out of everything. I felt fagged in the morning and was nervous and irritable. Finally our family physician prescribed yeast. In three days I noticed an improvement, while in three months' time with stomach trouble and constipation conquered, vitality restored, I felt like a new person. I have now resumed all social and club activities—singing the praises of Fleischmann's Yeast."

What Everybody Knows

The danger of clogged intestines The evils of digestive troubles and disfiguring skin eruptions The tragedy of lowered vitality

NOT a "cure-all," not a medicine in any sense—Fleischmann's Yeast is simply a remarkable, fresh food. The millions of tiny active yeast plants in every cake invigorate the whole system.

"AFTER I GAVE BIRTH to my child, I felt very much 'run down.' I lost weight, was very anemic; food would nauseate me, had constant trouble with my stomach, and what troubled me most—I suffered from terrible eczema. I tried all kinds of remedies. I finally went to an eye specialist. He prescribed Fleischmann's Yeast—three cakes a day. After two months there wasn't a trace left of the eczema. My complexion improved wonderfully. I no longer sit down at the table with an aversion for food. I manage to keep and look young with the help of Fleischmann's Yeast."

(Mrs. Sarah Steinhardt, New York City)

"OUR EIGHT-YEAR-OLD GIRL would lose four or five weeks of school work, besides being incapacitated while she was in school from attacks of stomach trouble. I decided to give Fleischmann's Yeast a trial. I began with half a cake mixed with peanut butter on bread, and then as I found that the yeast was going to succeed, I served it in many different ways. My child has never had another attack of stomach trouble since I gave her yeast."

A FAMOUS FOOD for health—start eating it today

CROSS-WORD PUZZLE

Crossword puzzle grid with numbered squares for words. Includes horizontal and vertical clues.

SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

- Start out by filling in the words of which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn to still others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically or both.

Our Dumb Animals.

Report of S.P.A. Inspector, Week Ending June 13th, 1925. Attended to the landing of sixty-five head of cattle and four horses, for George Neal, Ltd., from S. S. Hitherwood; eleven head of cattle, some sheep and pigs, for the Abattoir Co.; Twelve head of cattle, three horses and some sheep for W. Brennan. Also two horses for Mr. P. Summers.

Britain's Health and Unemployment Bill

The cost to Great Britain for the year ended March 31, 1925, by the existence of health and unemployment funds, old age pensions and unemployment grants, was £53,819,000. According to official figures received by Bankers Trust Company of New York, from its British Information Service, the health insurance scheme accounted for £8,046,000 of this amount.

**A Nation of Won't Works**

SIR A. MOND ON DOLE RUM.

Disaster will overtake the industries of Britain if the Government fails to attack the problem of unemployment on national lines, said Sir Alfred Mond, M.P., in an address to the Royal Society of Arts at John-street, Adelphi, W.C.

It is anything could be done, he said, to improve a small number of staple industries, the problem would be solved. Coal-mining, steel, engineering, shipbuilding, cotton, wool and worsted, and building, accounted for 1.7 per cent. of the total unemployment, and another 21 per cent. was found in industries dependent on the general purchasing power of the community, such as clothing, food, transport, and distributive trades.

Nearly 25 per cent. of the total was contained in the two industries (coal-mining and textile manufacture) most affected by lost foreign markets.

One In Ten On Dole.

Other points from the address were:

Whatever slight variation there may be during the next few years in the trade cycle there is no ground for assuming that any continued or considerable reduction can be made in the unemployment figure.

The present total of 1,282,131 does not represent the volume of unemployment in Great Britain and Northern Ireland. To this Ministry of Labour figure must be added some hundreds of thousands more unemployed in agriculture and domestic services. One-tenth of the whole population is dependent upon unemployment benefit, Poor Law relief or charity for sustenance.

The development of a sound policy of emigration would contribute something towards a solution of the problem.

Sir Alfred expressed regret at the Government decision not to proceed further with his proposal to transfer unemployment benefit to employers on condition that full-time employment was given at trade union rates of wages. He added:

Since the Armistice we have spent £300,000,000, not to obtain work, but to subsidise idleness. One wonders that any nation is prepared to go on spending £100,000,000 a year for no other result than to keep people out of work, with the prospect of a generation growing up that has never known work, and, if it continues, will never want or know how to work.

Trade Can Be Increased.

It is assumed that there is only a certain volume of trade obtainable in the world, and that my scheme, the result of which would be to reduce the cost of production, would not produce new business. The volume of trade is only limited at a given level of prices. Reduce your prices and the demand increases. There is an indefinite amount of trade in the world.

If a revival of trade took place now we should be unable to reap the full rewards because a large percentage of our population are losing their industrial skill and productive power.

The question which the country must decide is whether it can afford to let the present state of affairs continue. If it decides it cannot, some scheme such as I have outlined must be adopted. The possibility of risk, of abuse, and of some amount of inequality must be faced. These can, I believe, be provided against by proper safeguards and efficient administration.

The alternative is certain—further deterioration in industrial efficiency, physical capacity, and moral and mental outlook, leading to desolation and despair.

**Radio Sets in Summer**

**HOW TO COMBAT THE WEATHER.**

Summer weather conditions, which should include high temperature, long periods of sunshine, and increased static (or atmospheric) electricity, tend to affect a wireless receiving station in several marked ways, none of which is to the advantage of the owner.

The liquid in the accumulators must be kept as cool as possible, and certainly not left exposed to direct sunlight. Sunlight has a decomposing effect upon ebonite, and the receiver should therefore be kept shaded or the ebonite parts will turn yellowish and will suffer a reduction in their insulating qualities.

A dry "earth" is inefficient, and the spot where the earthplate is buried should receive a rainfall of water every few days during continued dry weather.

Atmospherics.

"Atmospherics" are well-known summer pests, and short of very complicated filter circuits and other special devices such as used on commercial stations, there is really no cure for them. The use of a loud speaker appears to mask the interference of atmospherics to a great extent, and in the reception of moderately loud music little trouble need be anticipated.

The chief disturbances from atmospherics generally arrive in England from directions somewhere between south-east and south, and therefore the use of a frame aerial, which may be said to receive only from the directions in which it is pointed, should be a partial remedy.

**PEARS' Used in the best circles.**

**The Plight of the Underprivileged**

Two-thirds of Chicago's boys, or 450,000 out of 615,000 youths less than twenty-one years of age, are underprivileged, according to a recent survey. In brief, they do not have sufficient nourishing food, proper housing, play facilities, direction, opportunity for schooling—any one or all of these. What is true of Chicago's boys is probably true, in varying degree, of boys everywhere. To the Des Moines Register the pitiable plight of the hosts of the underprivileged means that we suffer from a log-cabin tradition, which holds that hardship and deprivation are the things that make for strength and success. But, says The Register, the record is overwhelmingly in favor of the opposite conclusion.

"While the majority of boys are underprivileged, the great majority of eminent people come from the privileged group, where they have had adequate food, encouraging direction, a stimulation toward school interests at least, health care and the like. 'Who's Who in America,' encyclopedias of biography and intelligence-test data all point this way.

"Things should not come too easily, of course. But what is stimulating

and disciplining to one exceptional person would be overwhelming to others and the general situation is one of lack rather than surplussage of advantage. We don't want to take away the priceless initiative of boys and girls; neither do we want to dwarf and thwart it. Schooling and health and a comfortable home are the essentials. By mental and physical advantages we do not develop little Rollos and little Wilburs, but by too much social pie and cake, and mills isn't giving them pie and cake, but health and strength and education. Innate eliminations are grievous enough without adding environmental shortcomings. Here is the public responsibility. This is why child labor will continue to be a National issue, why all improvements in housing and in educational facilities are outstandingly important. A majority of the children underprivileged means an underprivileged generation and that affects all of us, making the whole level of life lower, more futile and disappointing than it should be."

**European Congress on Silk Industry**

The French Federation of Silk Industries is organizing a European silk congress which will meet in Paris during the middle of June and will include delegates from England, Germany, Austria, Belgium, Spain, Italy, Poland, Switzerland and Czechoslovakia who will represent the interests of silk worm producers, natural and artificial silk manufacturers and also Allied industries such as the dye industry.

The object of this congress, according to advices received by the Bankers Trust Company of New York from its French Information Service, is to reach an understanding on matters of common interest and the program of the congress, as established at the present time, includes the discussion of international relations, the establishment of a uniform tariff denomination, the regulation of importation and exportation of samples and various matters relating to the improvement in manufacture of silk and artificial silk thread, also the advisability of choosing designation for artificial silk.

Floral and geometric designs are used on printed fabrics.

Fringe over a yard long edges an evening cape of satin.

## The Board of Pension Commissioners for Newfoundland!

### Notice to Newfoundland Ex-Service Men.

The attention of all ex-Service Men is drawn to the fact that the time in which an application for a pension shall be made, has been extended to July 31st, 1925. If you are suffering from a disability which you claim to be due to service, it is necessary to make an application for consideration of same, before the 31st day of July, 1925, to

The Secretary,  
Board of Pension Commissioners for Nfld.,  
Militia Building, St. John's.

NOTE:—In making an application, please give your Regimental Number, Rank, Name in full, Address, the disability in respect of which you are claiming pension, and attach a Medical Certificate in support of your claim.

### Jimmy Johnson and Troupe Make Big Hit

This talented aggregation which opened at the popular Star last evening instantly won for themselves a big name with the large audience, and it goes without saying that during their engagement they will be greeted with large and appreciative audiences. "Jimmy" in his dance brought down the house and was obliged to respond to an encore. The different members of the company proved to be a finished master of the work he or she performed, and the audience was not slow to show it, and as they become better acquainted with our audiences they will be heard to better advantage. Mr. Johnson wishes to state that he will during the engagement be only too pleased to sing or play any particular number the audience may so desire, all that is necessary is to leave their selection at the ticket box.

### Child Hit on the Sidewalk

A child on the pavement of the east end car stand, was struck by a motor this morning and only escaped serious injury by his presence of mind in scrambling out of harm's way after he fell. When the authorities going to regulate this traffic across the pavement? Never!

  - Rumbo . . . . . Frank Jonsson

### Governor and Suite to see "Zeebrugge"

GREAT FILM UNDER DISTINGUISHED PATRONAGE AT THE NICKEL

His Excellency Sir William Allardice and party will be present at the showing of that remarkable film "Zeebrugge" at the Nickel Theatre on Monday night.

All heroes—"Zeebrugge" is, simply and in three words, a great film. The producers have splendidly refused to introduce drama; yet it is intensely dramatic.

There is no handsome "naval officer" striking heroic attitudes; no round-eyed heroine. There is no sob-stuff—except a sob of pride in the glory of it all.

The printed page can never give complete comprehension of what the bottling up of Zeebrugge meant. The all-seeing eye of the moving picture camera explains it all, reveals it all.

The glorious "mutiny"—First there are scenes of the havoc wrought by the German submarine pirates (actual films of the events captured during the war from a German submarine).

You should have heard the excited burst of applause on the first night at the Marble Arch Pavilion when the British destroyers dash to the scene of a torpedoing.

Then we see the planning and preparing of the attempt to bottle the pirates in their lair, the assembling of the ships, the setting out, that glorious "Mutiny," the disappearance of the surplus crews when the time came for them to return and "Miss the show," the laying of the smoke screen by the C.M.B.S., and then the assault.

### Prowlers About

Complaint is made that prowlers in the vicinity of Bennett's Grove are molesting children and young girls who frequent this place. A good description of one of these gentry was obtained on Thursday by a lady who was watching his antics and it is possible that if he does not desist, he will find himself behind prison bars.

## The Cemetery Beautiful

That is something more than a pretty phrase. It is an appeal to each individual lot-owner to do his share toward making the Cemetery what it should be—really attractive—full of harmony—replete in restfulness.

It calls for artistic—although not necessarily large—Memorials, placed in well ordered, well kept settings—all brought together in a colorful gloom-dispelling picture.

The essential part of our business is to give assistance to those deciding these matters. Our service, with complete information, Catalogues and estimates, is at the disposal of all Memorial purchasers. We invite you to visit our Display Rooms and let us confer with you on what you require.

### An All-Wave Broadcast Receiver.

EDITED BY JOHN M. CLAYTON.  
PART II

The photograph above is a rear view of the receiver. A detailed layout of the panel and baseboard is not necessary. This layout will vary with different types of apparatus. The general location of the apparatus can be seen from our illustration.

The parts required are as follows: One hard rubber or Bakelite panel one-quarter inch thick, 7 inches high and 18 inches long; one hard wood sub-base 1/2 inch thick, 17 inches long and 8 inches wide; one 17 plate (.00025 mfd) low loss variable condenser; one 23 plate (.0005 mfd) low variable condenser; two standard tube sockets; one 30 ohm rheostat; one .00025 mfd grid condenser with grid leak clips; one open circuit jack; 7 binding posts; one hard rubber terminal strip 1/2 inch wide and 8 inches long; one low ratio audio frequency type dial; two indicator "buttons"; one 1/2 inch wood dowel 3 inches long; two ounces of small wire (number 30 to 36 B & S gauge D.C.C.); five coil forms 2 1/4 inches in diameter and 2 inches long together with 20 terminal "plugs"; one socket strip with four contact sockets to fit the plugs; 15 feet of No. 14 square bus wire; 3 feet of spaghetti tubing; two 1/2 inch by 1/2 inch brass angles; small quantity of No. 20, No. 24 and No. 28 D.S. C. magnet wire (quarter pound of each will be more than ample), miscellaneous assortment of No. 6 flat and round head brass wood screws (about a dozen of each size).

The choke coil is made by winding the wood dowel with a layer of the small wire (No. 30 to 36). Wood screws are screwed into each end of the dowel. These screws act as terminals for the coil, one end of the coil being connected to each wood screw, and in addition they act as supports for the choke. Short pieces of bus wire are soldered to the wood screws—the choke is made self-supporting and is wired into the circuit by means of ordinary bus wire. The dowel should be boiled in paraffine to exclude any moisture and also to provide a thin layer of material on which the wire can be wound and held in place.

This choke coil is connected in series with the plate of the detector tube and the "P" terminal of the primary of the audio frequency transformer. It acts as a radio frequency choke, preventing the radio frequency current from flowing through the audio transformer and allowing the B battery from the detector tube to get to the plate.

On Monday the construction of the coils will be taken up.

"It's hard at times to be so big," Sighed the Rabbit Giant to Peter Pig. "The door is so small. Now what shall I do?"

"Why, take out your money and pass it through," Answered Peter Pig, with a wink and a grin.

"Why, that's the easiest kind of a stunt."

"Hello, hello, Mr. Ragged Rabbit Giant," shouted obliging Uncle Lucky, leaning from the bank window and holding out his precious old wedding stovepipe hat. "Drop in your money and little Pass Book; don't break down the door or they'll think you're a crook."

"Much obliged," said the Giant, with a grin, and the next moment he poured maybe a million carrot cents out of a big bag into the dear old gentleman bunny's hat.

"Goodness meebus, wait a minute. Don't drop all the money in it. My old hat won't stand the strain of this heavy money rain."

begged anxious Uncle Lucky, doing his best not to drop his precious old wedding stovepipe hat, now so heavy that it was all he could do to keep it from dropping to the sidewalk. Well, anyway, after it had been filled three times and a half, and the Carrot Cents stored away in the safe, nice Uncle Lucky handed the Pass Book back to the Ragged Rabbit Giant, saying, with a happy smile: "Save the pennies and the dollars will take care of themselves."

Then off strode the Giant to his castle on the Tiptop, Skyhigh Mountain.

"Well, now that everybody has deposited his money, I guess I'll hop out to my little bunny nephew," sighed dear Uncle Lucky, and dusting off his precious old wedding stovepipe hat with his blue silk polka-dot handkerchief, he hopped out to the Lucky-mobile. There stood Squirrel Nut-

cracker, Henny Jenny and Peter Pig telling the little rabbit:

"We have money in the bank. Drawing interest day by day. Save your money, little honey. That's the better way."

"I do," answered the little bunny. "Mother gives me a Pumpkin Penny every day to keep Old Man Worry far away."

"Jump on the back seat," invited nice Uncle Lucky. "I'll take you all home as soon as I've engaged Mr. Zebra to paint Lady Love's little white bungalow. Then in he hopped and drove off to the paint shop. Luckily the painterman was in. He had once been a donkey, but finding it difficult

to impress people that although he was a donkey he was a good painter, he had striped his hairy coat to look just like a Zebra. After which he had so much business on hand that he found the days too short to paint all the houses in Rabbitland. Quite a bright idea of the old donkey, wasn't it? Well, I just guess you see three times and a half, and maybe a whistle and perhaps a laugh. And in the next story you shall hear what happened after that, provided, of course, all you little boys and girls who read this story will try to save your pennies for a rainy day.

### IN THE REALMS OF SPORT

#### LAST NIGHT'S FOOTBALL.

SAINTS . . . . . 3  
C. E. L. . . . . 1

Only a small attendance of spectators turned up at St. George's Field last night to witness the third game of the regular football fixtures. The game was played between the Saints and C.E.L. teams and resulted in a win for the former by three goals to one. A chilly atmosphere prevailed, making it very uncomfortable for the spectators, while the footballers were handicapped somewhat with the strong westerly wind, which made it difficult to control the ball. The C.E.L. appeared on the field, practically a new team, and winning the toss elected to defend the eastern goal. The Saints had several changes in their line-up over last year. Thistle, formerly with the Guards, played left full-back. Tom Noseworthy guarded the twins while J. McKinley, who figured with the Wesley team last year, held down the inside right position. With the Saints having advantage of the wind play was confined mostly to the eastern end of the field, and time and again the C.E.L. backs were called upon to defend their lines. The shooting of the Saints forwards was a bit wild, but several shots that were well placed were safely handled by Knight, who was putting up a splendid exhibition. The Institute players managed to work the ball against the wind into their opponent's territory, but beyond the securing of a corner, nothing resulted. The ball was immediately transferred to the other end and captured by Young, who sent in a pretty shot from the right, which found the net, after twenty-one minutes of play. Ten minutes later, a free kick was given against the C.E.L. near mid-field. This was dropped nicely to the goal by Adams, and partly saved by Knight, when McKinley and Young rushed in and safely lodged the ball between the posts. Half time sounded a few minutes later, with the Saints leading by two goals.

#### 2nd Half

When the teams changed over, many were of the opinion that the C.E.L. would storm the Saints citadel, but the game took on a different aspect, only to find the Scotchmen controlling the ball nicely against the wind, and giving the C.E.L. backs many anxious moments in keeping the ball from danger. When the Institute players came to life the Saints backs were found ready to stuff off all attacks, while Noseworthy in goal had very little to do. No further scoring resulted until twenty-five minutes of play had elapsed, when McKinley scored for the Saints on a pass from McKel. The C.E.L. then bucked up, and confined the ball to their opponent's territory, and after some hard work on the part of the forwards a corner was secured. This was placed to the goal mouth by Richards and brought into the net by Long, thus scoring the C.E.L. one and only goal. During the dying moments of the game the Institute lads played hard to reduce the Saints' lead, but nothing resulted. The game ended Saints 3 goals; C.E.L. 1.

#### Notes On The Game.

The referee's timepiece was minutes out as against the clock kept by the watches of spectators on the stand. In the first half one spectator kept time with a stop watch, which registered 34 min. 5 sec. of play, while in the second half the same ticker registered 34 min. 21 sec. of play. Who is right? Amongst those invited to attend are His Excellency the Governor, Lady Allardys and suite, The Prime Minister, Hon. W. S. and Mrs. Monroe, Sir R. A. Squires, His Worship Mayor Cook, Hon. W. J. Higgins, and Mr. Fred Ayre.

#### MEETING OF THE REGATTA COMMITTEE.

A meeting of the Regatta Committee took place last night in the T.A. Armoury, with President Hiscock in the chair. There was a large attendance of members, and much business was finalized. President Hiscock, upon opening the meeting, took occasion to thank the Committee for again electing him as President. For the past twelve years he has held this office, and added that for forty-nine years he had been connected with the Regatta. With the objection of two new raceboats this year, he felt sure that greater interest than ever would be created and asked the assistance of all to make it the best year on record. The Honorary Committee was again selected with the addition of Sir Michael Cashin. Secretary Ellis then presented a report of the Rules Revision Committee. Considerable discussion took place in connection with same, and several alterations were made and will be prepared for publication later. The programme of events for the day was also dealt with at length. The opinion of the meeting was to drop the Intermediate Fishermen's Race off the programme for this year, as in the past there was a difficulty in securing crews. A committee consisting of Vice-President W. J. Higgins, F. W. Hayward, J. E. Croft, F. F. Moore and E. J. Brophy, was appointed to deal with matters as to the eligibility of intending competitors in the Amateur, Trade, Senior Poolball and Mercantile Races. A new rule was also enforced, that the names of all competitors with addresses and occupations, must be entered two weeks before the Regatta, and objection to any competitor must be filed with Sec-

retary Ellis at least ten days before the races. After several minor matters had been disposed off, the meeting adjourned.

#### BASEBALL

Yesterday's Results. American League. Washington 7; Detroit 5. Boston 7; St. Louis 2. Cleveland 6; New York 2. National League. Chicago 9; Boston 7. Cincinnati 6; Brooklyn 0. Pittsburgh 3; St. Louis 1. New York 4; Philadelphia 1.

#### FOOTBALL MEETING.

At 1 p.m. yesterday, an emergency meeting of the Nfld. Football League was held in the office of the President, when the principal business discussed was the request from W. Thistle for his release from the Guards football team. After some discussion this was granted. Thistle played with the Saints last night.

#### JUNIOR FOOTBALL FIVES.

The preliminary football fives in connection with St. Mary's Garden Party took place on the C.C.G. grounds last night, and resulted as follows:— Wesley, 2 goals 1 corner, C.Y.M.C. 0; T.A., 1 goal and 2 corners, Gaelic 0; B.I.S., 1 corner, Holy Cross 0. The Mt. Cashel team drew the bye. The games for the Garden Party will be Mount Cashel vs. T.A., and B.I.S. vs. Wesley. The winners of these games will play off for the medals.

#### M.G.C.A. SPORTS MEETING. Arrangements Finalized for Wednesday Next.

A largely attended meeting of the Methodist Guards Sports Committee was held in the Club Rooms last night, with Mr. J. S. Ayre in the chair. The meeting was held for the purpose of finalizing matters in connection with the annual Sports Day, which takes place at St. George's Field on Wednesday afternoon next. The football sides were drawn up and resulted as follows:—

- (a) C.L.B. vs. Star.
- (b) Saints vs. Guards.
- (c) Cadets vs. B.I.S.
- (d) C.E.L. vs. Fieldians.

Winners of (A) vs. winners of (B) and winners of (C) vs. winners of (D) will compete in the semi-finals. (A) and (B) games will be played at St. George's Field Monday night. The first game takes place at 7 o'clock before the regular League game, and the second at nine o'clock. (B) and (C) games will take place on Tuesday night under the same conditions. It was decided that in the event a game should end in a draw at the expiration of the full ten minutes, the game shall continue until the team scores the first corner or goal.

The Field Committee was appointed as follows:— Captain of Field—Mr. Jas. S. Ayre. Judges—Messrs. C. E. Hunt, J. W. Morris, W. J. Martin, J. Campbell, S. P. Cullen, Major March.

Reception Committee—Messrs. H. J. Wyatt, T. Sparkes, H. M. Maddick. The official starter and timekeepers will be appointed by the Nfld. A.A.A. Competitors are reminded that the entries close on Tuesday next at 8 o'clock, with Mr. D. Butler, care of Butler Bros., Water Street. Three prizes will be awarded for each event. Under no consideration will any entries be accepted on the field. Amongst those invited to attend are His Excellency the Governor, Lady Allardys and suite, The Prime Minister, Hon. W. S. and Mrs. Monroe, Sir R. A. Squires, His Worship Mayor Cook, Hon. W. J. Higgins, and Mr. Fred Ayre.

#### William R. Stirling.

There passed to his rest last evening, William R. Stirling, landing surveyor of H. M. Customs, eldest son of the late Edgar Stirling, of Brigus, C.B. Mr. Stirling in his early days occupied the position of accountant in several large outport and city firms, and subsequently entered the Civil Service, in which he laboured for upwards of forty years, and was about to retire from active duty when a sudden collapse supervened. The deceased was one of the oldest members of St. Thomas's Parish, and for many years acted as Lay Reader at Christ Church, Quidd Vidl. As a member of the Diocesan Synod, he represented the Mission of Twillingate for many sessions up to the time of his death. He was also long identified with the Bible Society, as Secretary, and was prominent in Temperance circles. His activities in connection with various fraternal Societies extended over a considerable period.

#### Cheap Coal-Mining

NEW MACHINE TO SAVE U. S. \$100,000,000 YEARLY.

New York.—At the American Mining Congress, which is meeting this week at Cincinnati, the prediction was made that the coal bill to the United States, will be reduced in the near future by \$100,000,000.

This, it was explained, had been rendered possible by the perfection of new devices for mining coal. Mr. Edward J. O'Toole, the general superintendent of the United States Coal and Coke Company, of West Virginia and Kentucky, stated that his company had just mined 115,000 tons by the new process. He added: "This machine makes the use of explosives in a mine unnecessary and reduces accidents. It undercuts coal by chewing into it with steel teeth. Then the coal automatically falls down upon a self-loader. We expect this machine to cut down the cost of mining by half."

### Obituary

CAPTAIN JOSEPH S. GOSS. (H. F. SHORTIS)

The many friends in St. John's and outports, particularly the sea-faring portion of our people, will learn with deep regret of the death of Captain Joseph Goss, which took place last evening, fortified by all the rites of the Catholic Church, of which he was an exemplary and consistent member. The passing of the veteran removes one of the very few remaining master mariners of the days when the house-flags of our great mercantile marine proudly floated to the breeze in the cities of the two hemispheres. Of his contemporaries few now are amongst us, and the majority of them have retired from active service. The chief of these are Captains Nichols, Joyce, Strong, Jolliffe and Manning. When a mere youth, about 16 years old, Capt. Goss, with that inherent love of travel and adventure, shipped on board an American vessel and sailed for New York. After a short time out of American ports, he went to England, and for six years sailed out of Shields in the famous clipper ships to the East Indies and elsewhere. Upon returning to Newfoundland he entered our mercantile marine, and quickly advanced to the quarter deck. The first ship he commanded was the Adamantine, which he brought out, and then for about a quarter of a century he commanded the Ariel, May Cory and the Carpathian out of the enterprising firm of Messrs. Bowring Brothers. It was indeed a splendid record, and the directors of the great firm had implicit confidence in the sturdy and experienced master mariner, whose object was ever to protect the interests of his employers. In December, 1896, while in command of the barque "Carpathian," he was the means of saving the captain and crew of the American barque "G. De Zalda" in mid-ocean, for which he received a gold watch, beautifully engraved, recording the particulars of the event.

Captain Goss was one of those hardy, fearless and capable Newfoundland seamen who made the names of Newfoundlanders honored, respected and sought after by the navy and the mercantile marine of England and the United States. It was a pleasure to hear the veteran relate some of his experiences during his eventful career, but he ever kept his own part of the work in the background, and with that modesty which ever characterized a brave man, he always gave full credit to those who were his associates. He was a man of an iron constitution, and his well-knit figure was the embodiment of strength, hardihood and agility. He was one of those big-hearted, good-natured men whom to meet meant that one made a friend forever, and anyone who visited his home or his ship received a most hearty welcome, while his hospitality was unbounded. About ten years ago the iron constitution of the veteran received a set-back, and the fearless and intrepid mariner who had for so many years braved the rigors, storms, frost and snow of the Atlantic and Newfoundland coast, had to enter the General Hospital, where he underwent an operation. His splendid physical strength, and his well-cared for constitution enabled him to withstand the operation, but he was never the same, although he kept up his courage to the last.

About three weeks ago, Captain Goss was compelled to take to his bed, and calmly and peacefully the veteran mariner prepared himself for his last voyage, and fortified by the rites of Holy Church, surrounded by his wife, son and immediate relatives he entered that port which leads unto eternity—Requiescat in pace.

#### A Guest of Honor at Supper

Past Grand Master J. Craig, of the I.O.O.F. of the Maritime Provinces and Newfoundland, who is at present visiting here, was the guest of honor at a supper given last evening at the residence of D.D.G.M. George Soper, Cook Street. At 8 o'clock all lodges met under the banner of Colonial to tender a welcome to P.G.M. Craig, when the first degree was exemplified for his benefit, the ceremony being carried out in splendid manner. An address was given by the distinguished visitor, who dealt with enthusiasm on the part of members, and the need of even greater interest in the affairs of the order. He also spoke of the Oddfellows' Home at Pictou, a most progressive institution among the inmates of which are eight Newfoundland boys and girls who are receiving the best education that the Canadian public school system can afford, and otherwise fitted for the battle of life. Later they will be placed in positions. On Monday night P.G.M. Craig will be tendered a dinner by the Oddfellows at the Sterling Restaurant, and on Tuesday, with D.D.G.M. Soper and other officials, he will visit Wabana Lodge, Bell Island. On Thursday he leaves for Yarmouth, N.S., and will visit the lodges at Clarendville, Grand Falls and Corner Brook en route. While in the city he is the guest of Joseph Moore, LeMarchant Road.

#### Polo Incident

There was an unusual incident during the second chukker of the second semi-final tie of the Whitney Cup polo tournament at Hurlingham, between Capt. F. E. Guest's Templeton team, and Senior A. M. Fena's La Pampa side. Major Phipps-Horaby, a member of the Templeton team, was mounted on a retractor pony which endeavored to throw him. After trying to restrain the animal for a couple of minutes the player dismounted and, holding the pony by the bridle, struck it two blows with the lead of his polo stick. There were cries of protest from the spectators, but apparently the incident was not noticed by the umpires. The La Pampa side received two goals' start under the handicap and were defeated by 10 goals to 6.

#### Newfoundland Light Here and There.

HAS HAD A SUCCESSFUL CAREER FOR MANY YEARS—EARNINGS PUT BACK INTO PROPERTY.

The Nfld. Light and Power Co. has a good contract with the city of St. John's. It is a perpetual franchise, with the alternative of the city buying out the company as a going concern. It has proved a money maker for the original owners.

Since it passed into the hands of its present owners, interests associated with the Royal Securities Corporation, the policy of ploughing back into the property of a good proportion of the earnings has been continued. Interest charges are easily earned and the bondholders have an equity which assures the payment of principal.

#### Capitalization.

A consistent increase in consumption of light and power in St. John's is anticipated and can be met as required by a further development of the company's waterpower resources.

#### TRAIN NOTES—Thursday's press arrived Port aux Basques last night. The incoming express is due on time. Sunday's express connects with Clyde for N.D.B., North, with Portia at Port aux Basques and LaPolla for East and East to St. Jacques.

BAND CONCERTS—The Cashel Band will hold Band Concerts in the Parks next Wednesday, Monday next, 15th—Bannerman Park. Tuesday next, 16th—Victoria Park. Thursday next, 18th—Bannerman Park (weather permitting). See Program Monday's papers. Note—above will be the only Concert given by this Band during the month, owing to their tour Grand Falls and Corner Brook June13, 21

#### DIED.

Passed peacefully away on June 12th, Capt. Joseph Goss, aged years, leaving to mourn wife, one son and two brothers. Funeral on Sunday at 2.30 p.m. from his late residence, 152 Gower St. R.I.P.

#### IN LOVING MEMORY OF Annie E. Winsor, at rest June 1924.

To-day brings back sad memories of that sad and bitter loss. That was cast upon our homestead. Just one year ago.

In our hearts we mourn the loss of him we loved so dear. What would we give to clasp his gentle voice to hear? His loving smile and welcome that were so dear to us. He's resting now in Heaven, in God alone we trust. Friends may think we have forgotten. When at times, they see us. But they little know the sorrow that our smile hides all the while.

No pen can write, no tongue can utter. Our sad and bitter loss. But God alone has helped us. To bear our bitter cross. R.I.P. —Inserted by his dear

### AMERICAN WOOLEN CO.

Regular Preferred Dividend in Line With Expectations—Very Little Change in Conditions.

BOSTON—Directors of American Woolen Co. did the expected in ordering the regular quarterly dividend of \$1.75 on the preferred stock. Semi-official statements of such an intention were made about a month ago, when the stock dropped below 70.

As a matter of fact, Pres. A. G. Pierce in the 1924 annual report went out of his way to outline the probable attitude of directors toward the preferred stock in the light of a possible continuation of last year's depression in the industry. At that time he said: "Full payments have been maintained upon the preferred stock. This issue has never omitted a dividend since the organization of the company and this record, together with the wide distribution of stock, will always prompt directors to safeguard its position jealously."

There is nothing new in the affairs of the company. Whatever change may have occurred in recent weeks, however, has been for the better. That is to say, wool prices have rallied somewhat, and there is, possibly, a shade better tone to the goods markets. Manufacturing operations are still averaging well over 60 per cent. capacity.

Company is likely to show a modest operating profit the first half-year, but not sufficient to cover the preferred dividends. It is a peculiar fact that American Woolen almost invariably develops its earning power, in good or bad years, in the second six months and it will be interesting to see if precedent is followed this year.

(From Halifax Chronicle, June 8th.)

### THE SITUATION.

The Boston News Bureau says:—The scramble for bonds and the fresh advance of the stock market in Italy has taken one step to stabilize her exchange, and it is to be hoped, may co-operate further in its problem with the Morgan firm. France is yet to take the courageous stand that Caillaux had been expected to espouse. Belgium has sent word of an early intention to adjust her affairs.

In business little new is discernible. The buying movement in pig iron has subsided as might have been expected at this time of year. But there is no price weakness in any direction and commodity prices as a whole showed a very substantial gain last week. Business appears to be taking a normal breathing spell.

### MACK TRUCKS.

NEW YORK, June 3—Mack Trucks issued following statement: "When the March dividend was declared, it was understood that no consideration was to be given to the question of a dividend on common. Same absence of consideration is believed to have obtained at Tuesday's meeting. Energies of the management and organization and financial resources of Mack Trucks are fully absorbed in handling record business which has featured 1925 operations. Company's plants for some weeks have been operating at full capacity on sales booked during the first five months of year. Output is running more than 400 per cent ahead of 1924 period. Profits, as might be supposed, are expanding and kept with marked increase in shipments. While margin of profit is somewhat less than in 1924, the great increase in production and shipments has produced earnings at the largest rate in history."

## Destroying Dogs

COMPLAINT AGAINST THE METHOD EMPLOYED.

Editor Evening Telegram  
Dear Sir:—This morning at 5.30 the residents of a certain section of the West End of the city were awakened by a loud report followed by the agonizing shrieking of a dog. After a little while, another shot and then silence. This was evidently a part of the campaign against dogs at large in the city, but might I suggest that some other method be found for destroying these dogs, which are a nuisance, other than that of sending a policeman (who is a very indifferent shot) around in the early hours of the morning to blaze at these dogs under the very windows of people's houses. Surely a more humane method could be adopted!

Yours truly,

**DISGUSTED.**

P.S.—If shooting is the only way, I would suggest that some other weapon than a sealing gun be used.  
June 13th, 1925.

## The Chance of a Lifetime

Fifty Dollars invested in German Government Bonds two years ago makes profit of Thirteen Hundred Dollars for St. John's man. Had this same man bought his bonds from our company and kept in touch with market prices, he could have sold same for Three Thousand Dollars a few months ago. German Government Bonds that we sold three years ago, as low as four dollars per million, advanced in ten months to Three Thousand Dollars. This Bond is known as the 1914 to 1918 T-S-B. We have Bonds of other issues that we consider having even greater possibilities, and would only be too pleased to explain to any interested people. Will be in St. John's for some time but will not be able to call on every one, but would suggest that any one interested in any foreign issues see WILLIAMSON & MACINTOSH, Imperial Hotel, St. John's.
