Why All This Nickel Mystery?

n town yesterday, and he knows something about it; and he was in conference with Hon. Mr. Hearst, and he must know something about it and what it means o Ontario, to Canada, to the empire. We also had a mysterious article in The Globe. It said The World did not appear to have confidence in Mr. Monell's tatement as to the International Nickel Company's policy, and that if what we id were true, Sir Robert Borden ought to be in jail for treason.

If anyone ought to be in jail it is that one who helps the wrong-doer to put ething over the nation in its hour of supreme trial. And this is the hour of preme peril for the British Empire, when her navy is menaced and her coasts naced, and her soldiers and sallors menaced by ships and shells and bullets No Marked Advantage Evinored with Canadian nickel, that got to Germany by slack conduct, where here should have been vigilance, and where that one corrective of things of this kind, publicity, was side-tracked.

The World is not anxious to get people in jail; it is anxious to have the port of Canadian nickel out of Canada stopped absolutely and forthwith; and AUSTRIA'S HEAVY LOSSES cially does it wish to see the production of our nickel controlled in our own try-not by a foreign company, one located in the United States, and who some kind, or had some kind, of connection with the great German armaant outfit engaged in supplying armor for warships and ammunition for rifles or the nation and the kaiser who is now engaged in a gigantic effort to put our e, our empire, and our world leadership out of business.

We published some surprising information yesterday, and we are only or the threshold. One of the most surprising things is that the legal agents of the American (German?) nickel trust in Canada are so active and influential, and constant in their appearance in the political and economical affairs of this country, and how they seem to be all over the lot, so to speak, and how newsapers reflect their views and reiterate their assurances.

But the one great outstanding fact is that Germany got all, or nearly all, of her nickel from Canada, and that the British Government some years ago drew the attention of our authorities to this situation with a view to having it stopped, but that nothing substantial was done.

Germany has stacks of nickel in stock, and it will be no trouble to get more om the United States, where all our nickel ores are treated or smelted!

This present war costs Britain and Canada more in a fortnight than would but contents itself with saying that buy out the nickel properties already acquired, all their plants, and pay wages for a dozen years!

And yet having the nickel and the right to control the output, we have given it all over to foreigners, who have made enormous profits! We have allowed them to juggle the organization of their companies, the Canadian public are ignorant as to who make them up, one or two Canadians are on the directorate, and they sold it to our enemies, an enemy that seeks to destroy our empire! And we know nothing. But Germany gets the nickel and widows and orphans are being made in thousands, when British soldiers and sailors go to death because of bullets and torpedo boats and warships made in part of Canadian

Britain and Canada should have kept our nickel for imperial use and protection—not allowed it to get to our possible and probable enemies.

We do not like this state of affairs. We do not like the policy of the Ontario Government, or of the Dominion Government, and we do not like the inaction of the oppositions at Toronto and at Ottawa. Why is not The Globe making

We hear that a commission may be appointed to investigate the situation To us that only spells delay. There is only one thing to do, and that is, take over the nickel deposits, control the production and sale, and prohibit all export to Germany, or to countries whence she may draw it for her own use!

Commissions will spin out the situation and only find things that are already known, or should have been known and made public for years back.

The thing to do is to close the situation and cut off the menace at once.

And one thing more for this Christmas morning: We say on the best differs little from former years. The home enjoyments are on a more econo-

authority that the greatest mineral deposit in any one place in the world in value is at Sudbury, Ontario, and that it consists of an enormous range of nickel and copper! It is worth in value more than the gold fields of the Rand, the copper deposits of the northwestern States, the diamond fields of Africa all put together! There are untold millions there. A small royalty out of the nickel and copper that can be produced there would pay the whole cost of governing and developing Ontario for a hundred years! And no other country outside of New Caledonia is known to have any. It's the greatest monopoly in the world.

And yet somehow the Canadian people have been more or less chloroformed as to this fact, and the control of it so far is out of our country, and it is a dress given in the hope of obtaining a profound mystery to our various governments, past and present!

We await an explanation from Mr. Hearst, from Mr. Cochrane, from Sir Robert Borden. So far the explanations seem to come from the Honorable Wallace Nesbitt of Toronto, counsel for the International Nickel Company, whose headquarters are in the United States!

Hon. Mr. Hearst's Statement

In reply to the questions asked by The Toronto World re Ontario's responsibility in the matter of nickel exfederal government. Ontario hid no and personal, control over the two companies in question and could not limit even if it so desired, the export of nickel ore.

He said in addition that the Ontario Government as well as that at Ottawa had abundant assurance that since the war had broken out not a pound of Ontario nickel had been exported either directly or indirectly to Germany.

One would have thought that the Americans would have been stirred up a bit over the last attempt of the Germans to impose some of their "Kultur" on Great Britain, when they bombarded defenceless cities and killed a number of innocent people, including women and children, and particularly so, considering the wond-erful indulgence of Britain towards the United States since the war be-

Germany is not the only country which was firmly convinced that Britain was a decadent nation, anterior to Aug. 4 last. That view was just as prevalent to the south of us as it was in Germany. For a long time past American wit has taken keen delight in depicting John Bull as in his dotage, his lion screaming with pain, owing his lion screaming with pain, owing to the violent tall twisting administered by Uncle Sam, Britannia looking dejected and sad, because of the supposed passing of the nation's commercial greatness to our neighbors; New York, in no time, was to displace London as the world's financial centre, etc. When the day of trial came, however, instead of collapsing, as Germany and the United States had predicted, our the United States had predicted, our motherland arose in her might and majesty, and, after the smoke had cleared away, we saw her emerging from the upheaval, carrying not only her own children on her shoulders, but other nations as well. The principal of these nations was Uncle Sam, who had fallen by the wayside, dazed and stunned, and knew not what to do. He has now been set upon his feet again by his benefactress-and protectress, and we hear no more about Britain's decadwe hear no more about Britain's decadence. It is not realized by Americaus, but it is a fact, nevertheless, that the United States has been hiding behind the British fleet for years past in just the same way as we have been doing in Canada. The Monroe doctrine, characterized by Germany as a piece of international impertinence, would long ago have been cast on the scrap heap by that country had she not known by that country had she not known that any assault upon it would find the British fleet standing in the way. In addition to this constant protection and support from Britain, which the United States has had, she has, since the war broke out, been rendered three great and outstanding services by the

First, when the world's credit came crashing to the ground in August, and t was found that America had no way of liquidating her floating indebtedness of about \$500,000,000 to Britain without exporting gold, Britain permitted her to extend her debt, and agreed in effect to take payment largely in trade by placing orders for war material and equipment in the United States. To export gold for the full amoun of the obligation would have caused such a panic as would have brought al-most absolute havoc and ruin on the

United States. The American financial position had reached such a pass that Sir Geo. Paish, who was, at the request of the inited States Government, sent over by Britain to show them how to straighten out their affairs, was urged most strongly to endeavor to arrange a fresh loan for them of one hundred a fresh loan for them of one hundred million dollars (\$100,000,000) from the Bank of England, so that they might be able to take care of the avalanche of selling orders which it was anticipated the New York Stock E xchange Melbourne on Tuesday next,

MESSAGE FROM DUKE

Twentieth Battalion Fit for Active Service—Equal to Line Regiments.

Major H. C. Bickford, general officers' staff, devoted the whole of the first page of the orders of the day at Exhibition Park camp to e sentiment, "A Merry Christmas." All drills are off until 9 o'clock to-

morrow morning, when two hours will be devoted to physical drill and two to nusketry practice.

The transport section of the Arm; Service Corps was strengthened yes-terday by the arrival of 28 members from Montreal.

Battalion Fit for Service.

H.R.H. the Duke of Connaught's inspection of the 20th Battalion has resulted in the official announcement from Ottawa that it is "fit" and will go as a unit with the second contingent. This place gives it full recognition with the 19th. The two infantry battalions showed precision and steadiness under inspection worthy crack line regiments.

Greetings From the Duke. The governor-general sent this recting to General Lessard yesterday:
"Please convey to the troops in your command my sincerest wishes for a Merry Christmas and Happy and Prosperous New Year. Arthur."
The following reply was "rushed" to Ridean Hall:

"On behalf of the troops in my com-mand, I beg to thank you for kind wishes which are heartly recipro-

cated by all ranks.

"F. L. Lessard,
"Inspector-General,"
Lieut.-Col. Elliott made a special
Caristmas Eve inspection of the hospital camp. He found conditions excellent and the inmates cheerful and keenly interested in the program for today's festivities. The incipient cases of pneumonia had taken a seasonable furn for the better and are not likely n for the better and are not likely

to prove serious.

All the companies as paraded heard the Christmas greeting read from the orders of the day issued by General

Lessard:

"The general officer commanding, in wishing all ranks under his command the compliments of the season, takes this opportunity of appealing to the members of the second contingent stationed at Toronto, to the effect that while they are away from the barracks, and particularly during vacation time, the men should behave in a soldier-like manner.

"They must not forget that the eyes of the public are turned upon them, and their efficiency will be judged by their good behavior both in and out of camp.

"From the sea to the Lys we made

fore show by our good example at all times that we are worthy of the trust reposed in us."

Permits to Leave Camp.
Special permits have to be obtained by members to leave the camp today by those who did not draw Christmas tickets, but will get their three days off at New Year's.

In accordance with the practice of the Anglican and Roman Catholic churches, the regular Christmas services will be held at the camp this morning by the camp chaplains.

The staff officers, while deeply regreting that General Lessard's promotion is about to sever his direct connection with the camp, are in readiness to give the newly-appointed commanding officer, Col. W. A. Logie of Hamilton, a hearty welcome, and enthusiastic support. The appointment, the temporary, is regarded as a recognition of Col. Logie's zeal in organizing the 91st Highlanders' Regiment in 1903, of which he accepted the command. He retired from this command in 1909, and was placed in command of the 15th of the southeast of Arias the southern part of this village a counter-attack of the southeast of Amile of the southeast of Amile of the southeast of Amile of the southeast of the thusiastic support. One of the difficulties that many practical people had to face in the old days was the confusion and error that arose in the translations. Not all of these have been removed in the revision, but many passages have been elucidated and the obscurities explained. The Christmas season constantly brings one of these to mind, and in this particular Christmas season, with all the world at war, or about to be at war, the anomaly of the passage in question, if the Bible is to be taken as a book of common sense, becomes more and more evident.

The old translation is dear to many easts from long and tender associaions. In other words, the negotiations instituted between the two commissions some time ago at the instance of bolt from the blue" is declared by the organ of misrepresentation to be an "order" for new reductions by the city commission. This is merely a campaign falsehood, such as Controller Church's candidature is expected to thrive upon. Mayor Hocken and Mr. P. W. A FORM OF Inviercession

All kneeling, the minister shall say:
Let us pray for the King and all in authority.

O Lord God Almighty, guide, we pray Thee, our Sovereign and all those to whom Thou hast committed the government of our nation and empire; and grant to them at this time special gifts of wisdom and understanding, of counsel and strength; that upholding what is right, and following what is true, they may obey Thy hely will, and following what is right, and following what is true, they may obey Thy hely will, and following what is right, and following what is registered to the seech Thee so to order and dispose the issue of this war, that was to pray for the sallors and soldiers of our King.

A Manighty Lord God, the Father and Protector of all that trust in Thee;
We commend to Thy fatherly godness the men who thru perils of war are serving this nation; beseeching Thee to take into Thine own hand both them and the cause wherein their King and country send them. Be Thou their strength when they are set in the midst of so many and great dangers. Make all bold thru death or life to put their trust in Thee, who art the only gives of victory, and canst save by many or by few; thru Jesus Christ our Lord. Amen.

Let us pray for the sick and wounded, which the called Bethlehen; (became and the case wherein their King and country send them. BRITISH INVESTOR IS BECOMING MORE ACTIVE

Rate of Exchange Offers Favorable Opportunity—High Interest.

LONDON, Dec. 24.—Canadian invest-ment circles here report revival of ac-tivity on the part of the British in-vestor. This has been in no small part due to the fact that the rate of exchange offered a favorable opportunity to he investor in this country, ableu thereby to increase and returns. Another reason, of course, is that Canadian municipals and other securities, in proportion, have never offered such a high interest, and the chance of securing some municipal debentures to yield from live to nearly seven per cent, has proved very

Everyone understands that this condition is caused by a temporary emergency, but the recent war loan introduces a more permanent factor, which will inmore permanent factor, which will influence the financial market for some
Years to come. With the competition of
a British Government security yielding
four per cent. Canadian municipalities
will undoubtedly have to pay more for
their requirements and this principle will
operate in all spheres of finance. The
intervention of the British Government, nowever, in providing for certain money requirements of the Canadian Government at the same rate of interest on which it is borrowed by the home government. was alluded to by a Canadian financier here as pointing the way to similar ac-tion by the Canadian Government, sub-

"The period of dear money will be pro-longed," he said. "All over the world there will be demands for large sums for development, and to repair the wastages the war. Tho it would involve a perthe war. The it would involve a zer-tain recasting of the existing system, it is possible that the Canadian and Pro-vincial Governments will consider the question of some form of aid by which canadian municipalities may secure Canadian municipalities may secure froncy at reasonable rates. After the war the time will be ripe for a change in methods.

The same instinct shows itself in England, where some firms have been detected in endeavoring to get food supplies into Germany at enhanced prices thru Holland, despite the "Pealing with the Enemy Act."

The Globe is clearly tied up and bound by the commercial view. Its editor quotes the International Nickel Company's defending statement with as much unotion as if it were a series. Gibbons, Geo. Birdsall, J. L. Brown, Ald. Ryding, Ald. Whetter, W. H. Weir, A. Chisholm, M. D. Armstrong.

But you have proved your case. What you have shown is: (1) Krupp Company or its nominees bought four Ald. Wanless is making progress nillions of stock in International Nickel Company in order to secure its Nickei Company in order to secure its supply; and it is contrary to our idea of German thoroness if their purpose has proved futile. (2) The Welsh refineries supplied with Canadian matte can supply four times what is needed by the British armorers, and have sufficient left for the allied armies. The made a favorable impression by the list of reforms he enumerates that he has been a factor in bringing out during his term at the hall. Donald C. MacGregor, aldermanic candidate in ward six, is making an impression at the meetings he adsented in the quilts and in hand-paintfact that International Nickel Company may temporarly lose their trade
with those countries is only of commercial interest. The supply from
Wales is sufficient for war purposes.

(3) The partial shutting down of
smelting in Sudbury, if it produces
temporary trouble for workmen, can
be provided for by compensation. What
we want is to stop the war. The money
and compensation are the industries give work to about
the fact that International Nickel Company may temporary lose their trade
do toys, the making of which gives
employment, and the proceeds will
later be distributed among those in
need. A toy-house model for which,
the maker will be glad to receive orders, as he is in dire straits,
was also seen, as well as mechanical
toys, for which sale is anxiously
watched.

The industries give work to about dresses nightly. He has a clear insight into the requirements and improvements needed for the coming year and has a well defined platform. He stands for street car extensions thruout the ward, public lavatories a northwest labor bureau, the draining and filling in of the old lily pond we want is to stop the war. The money and commercial part is insignificant. Behind the whole question, of course, in High Park and especially the givng of employment to as many men as possible by keeping a sane, econ-omic system of public work in operation even in the face of war condito public and patriotic policy.

If it were not so, this agitation

would never have begun.

Then two deceiving publications were made: (1) That export of nickel to Germany had been embargoed by order-in-council when it appears that never an ounce of ore or matte had ever gone there. There are no refiner-ine in Germany (2) Cortain editors. Russell Nesbitt is a candidate for the board of education in ward four, and his wide acquaintance in business circles and otherwise is a guarantee of good support. He has delved into the ducational administration and contends that Toronto is paying higher ies in Germany. (2) Certain editors were informed "confidentially" that an embargo to New Jersey would embarrass Britain and the allies; whereper capita for education than any other city on the continent. Mr. Nesbitt is ublic-spirited and may be depended upon for his best energies if given the as it now appears that British refineras it now appears that British refinerles in Wales can supply more than
enough for both their own and all
allied countries. If there was no aggressive commercial interest, why deceive the public and press with such
delusive statements which are now exploded, leaving only the plea that Mr.
Monell tells the Dominion Government
where they are selling the metal but
not the oxide?

season at the Arena with Wanderers as
their opponents. The local caus is plactically a new team this year and several
apeedy youngsters have been secured to
the forward line. Tommy Smith is sure
to start at centre and Skinner and Delinenny will likely be on the wings. The
defence will be the McNamara brothers
and Percy Lesueur in goal.

Wanderers are much stronger than last season and the eastern papers pick them to win over Ontarios Ottawa are strong and should just about wan at Quebec. Torontos should win from Canadiens. The Ontario-Wanderer game should prove to be a red-hot argument. The locals have speed and a grand defence and look, from this end, just about good enough to down the strong Wanderers.

Benealet, Metrin and Shote win line-up will consist of Darragh, Broadbent and Gerard, with Ronan, Graham, Lake and Duford as subs. Alex. Lobs'nger took his belongings away and anhounced that he would figure on another team in the N.H.A. race.

McLaren, who played with Parkdale last year, has signed up with T. R. and A. Juniors. McLaren has been working out with St. Michaels.

The following o.........s have been appointed by President T. Emmett for the opening games in the N. H. A. to be played on Saturday night:

At Toronto—Referee, Dr. W. G. Wood; judge of play, Lou Marsh.

At Quebec—Referee, Riley Hern; judge of play, Dave Power.

At Montreal—Referee, Harry Westwick; judge of play, Johnny Brennan.

In gout with St. Michaels.

Percy Lesueur will report to the Ontarios on Saturday morning. Roman will likely be here in time for Saturday's game. Harold McNamara was out yesterday morning. Beatty and Randall will be let out.

Conn Smythe has been elected captain of the Varsity junior team.

RONAN WITH ONTARIOS.

The Beaches Hockey League will stage a senior doubleheader on Saturday night at the initial opening of the Riverdale Hockey Rink. This will give the public the opportunity to see the new covered rink in Toronto and also to see the senior series of the Beaches League in action under better conditions. The first game will start at 8 o'clock, with St. Josephs and Kew Beach battling or the honors, and at 9 o'clock St. Francis and Don Rowing Club will make their debut. It is hoped to make this series one of the fastest ever seen in Toronto outside of the senior O.H.A.

Ottawa Free Press: Ottawa hockey fans have been fed up more than the usual on the outlook of their representatives in the N.H.A. this season, but must not expect too much at the start of the season. The team on both paper and ice looks much above average standard, in brief—the class of the l-ague Rutsuch aggregations have failed to come up to expectations many a time. The team is made up for the most part of young men lacking in experience only. They have two or three veterans along-side them and once they catch their stride, should display their real class. A hard schedule confronts the team at the season's start, inasmuch as it is called upon to play four of the first stagmas on the road. To maintain a percentage of .500 furing that period the team will be called upon to anney both home fixtures and one of the road symmes. As the league is well balanced this season, that is, no particularly weak team as has been the case in former years, each contest will be a battle. Local sunger porters need not take fright if the Ottawas drop two out of the first three. It will he recalled last season the team lost the first two games, then started on a winning streak that placed them look sure champions till the crack came at Ouebec. With a fifty-fifty break up till.

An Ottawa despatch says: The Senators will be in great shape for their opening game at Quebec on Saturday. Last night they did lightning work at their practice. Gerard played centre for the first half and then Ronan got into the game. Alf. Smith is well satisfied with what they have accomplished so far, and thinks they may surprise Quebec at the ancient capital Saturday. Jack Darragh will captain the Senators. Benedict, Merrill and Shore will figure on the regular defence, and the line-up will consist of Darragh, Broadbent and Gerard, with Ronan, Graham, Lake and Duford as subs. Alex. Comiskey Real Manager Of Chicago White Sox

By H. L. Everard,

(All rights reserved by Collyer's News
Bureau.)

CHICAGO, Dec. 24.—All good things, the proverb has it, come in threes. Apparently Charles A. Comiskey, owner of the White Sox, is a believer in precedent, for he has already given Chicago fans two of the three good things Eddle Colling for second these Charles Botte the White Sox is a believer in precedent, for he has already given Chicago fans two of the three good things—Eddie Collins for second base, Clarence Rowland to pilot the aggregation, and the third, still up his sleeve, will be shaken down in due time if the information which I have is as reliable as I have every reason to believe it is.

While there has already been much comment over Rowland's appointment as manager of a team, which at the worst will be the pennant contender in the American League next season, and more than likely the actual winner, the fact that the old Roman will himself be manager of his own team more than ever before seems to have escaped the attention of all of those interested.

Years may have dulled the ardor of Commy's earlier days, but let it always be remembered that he was, is and always will be, tho perhaps to a lesser degree, a man of action. The same active bag in a way unseen before has made it irksome for him to transfer the manager it was generally understood mamager it was generally understood mamager it was generally understood mamager it was generally understood that Comiskey really intended to retire from the active participation in the management of his team and that aposition would be left entirely in the agood but it is left to the imagination what a pent up lot of steam and energy there is in his system now.

There is nothing dearer to the heart of the old Roman than another American League championship, and another chance at the world's title. In Rowland ginger and energy and a judge-of ball players second to none. Also, he has salected a man young, full of the salected and to none. Also, he has and the world and the salected and none than and the salected and none also, he has and the salected and to none. Also, he has and the salected and to none. Keene to Schuyler Parsons of New York are apt to turn out the cream of the lot. Of Major McDowell's lot of twelve the three colts by Voter—Lady Anne, Voter—Esctacy, and Watercress—Pearl V., seamingly are the best, while he declares that his filly by Ogden—Kirg's Daughter, is the fastest thing he ever bred and he has bred some that have been really flyers. Notwinstanding the excellent showing of this quartet Jack Keene before the sale of the Peter Quince—Micaela filly off and to bet McDowell that the latter would beat any one of the four he might start in the Breeders' Futurity at Louisville maxt spring, while Wallace was willing to match his Duke of Ormonde coit, which he values at \$10,000 and for which he has refused \$7500, against anything of McDowell's, the winner to take both.

Stabled now at Juarez ready to make their debut with the beginning of the year are several claimed by their respective owners to be better than anything ever raced in the south. The Newmans have a coit by Abe Frank out of Burnie Eunton, thus being a full brother to Closer, which has been highly tried. Allen and Hensley have a full sister to Bob Hensley by Rapid Water—Alice Young, which they have called Alice Milrow, that is a bear. Miller Henderson is represented by a colt by Jack Atkin, out of Tower of Candles, while Adolph Spreckels has two flyers in Norman and Damietta, the first a colt by Dr. Leggo—Break o'Day, and the second a filly by Dr. Leggo—Carnation II. The ralibrids at the Mexican track are very syeet on a pair owned by R. A. Jones. One a colt, which has been called Heir Upparent by Biues—Royal Lady, and the other a filly called Julia by Harringform there are strong indications that the youngsters when they arrive at racing age do not always retain their yearing form there are strong indications that the year now almost over.

At Osgoode Hall yesterday Mr. Justice Middleton awarded judgment for \$14,760.21 in favor of Loomis, WeBean and Williams against the City of Ottawa in connection with the intake pipe contract. He dismissed the city's claim for \$25,000 damages and a penalty of \$2200.

PORT HOPE, Dec. 24.—Capt. Campbell, who was wounded in France and is at present in the hospital at Paris, is an old Trinity College schoolboy and a nephew of Mrs. Barlow Cumberland, Port Hope. It appears that the officer went with his men to take a trench held by the enemy in the wood at Ypres, and while thus engaged he was wounded in the shoulder by a shrapnel shell. He continued fighting and succeeded with nismen in taking the trench, but afterwards he was struck by a shell and had to be removed from the field. Capt. DUFF INQUEST OPENED.

Coroner Dr. W. Graham opened an inquest at the morgue yesterday afternoon into the death of James Duff, who was killed at the new Nordheimer building at the corner of Yonge and Albert streets yesterday morning. Duff, who was foreman for the Wickett Contracting Company, was riding on the hoist. When he got to the fifth floor the cable slipped and the elevator fell to the basement. Death was instantaneous. The inquest was adjourned until next Wednesday.

Holiday Cheer Everywhere Evident at the Hospital.

PRESENTS FOR EVERYONE

Patients Will Enjoy Splendid Dinner Amid Bright Surroundings.

A glimpse into the holly-decked corridors of the Hospital for Incurables, where every inmate is waiting with an extra flutter of the heart for the gong to summon them to the great feast of turkey, cranberry sauce, plum pudding and fruit, dispels all misgivings in the heart of the interested visitor and convinces him of the fact that here, too, the good Saint Nicholas has cast his glad charm and brought contentment and good-will. A tour of inspection makes the impression a vivid reality, and from Sarah piling bread on the pantry shelves—Sarah, by the way, has been at the home for 23 years and does beautiful fancy work—to Bertha basking at the window in one of the bright sun rooms, there is a brave smile and look of childish anticipation that makes you feel glad that Miss Green's storeroom shelves are crammed with fat, mysterious bundles, bearing dainty little cards with the name of the one for whom it is intended.

ASHER'S SANIT

Mission Worker Remanded on Charge of Shooting Clergyman.

PRESBYTERIANS DISCLAIM

Offender Never Was Agent of Church Nor Received Money From It.

Harry Asher, the Roumanian, who shot Rev. John McP. Sc.tt on Wednesday evening, was remanded for a week, in the police court yesterday without electing or pleading, to allow of Mr. Scott's evidence being given before the case is disposed of.

Mr. Robinette, for the defence, requested that Asher be examined as to his sanity.

Came From United States.

Dr. A. S. Grant and Dr. R. P. Mackay, of the Presbyterian Church, gave out the following statement regarding the attempt on the life of the Rev. J. McP. Scott.

Harry Asher, the would-be murderer, came to the United States from Scotland nine or ten years ago. Mr. W. W. White, of the Bible School, New York, took an interest in him, but scon discovered that he was an impracticable.

man, and with some difficulty got rid of him.

He came to Toronto about three years ago in a state of destitution. Mr. Scott, always sympathetic in distress, and especially when a Jew is concerned, privately aided him, and whilst there was no place in the mission for another agent, gave him a month's employment of work amongst the poor, and gave him a month's salary out of his own pocket. That was followed by a second month on the same terms.

Asher then wanted to go to Montreal, and asked for a letter of introduction, which Mr Scott gave and the money to take him there. Instead of going to Montreal, he remained in Toronto circulating false reports about the Jewish Mission here, hoping to establish a rival mission. This effort failed, and he went to Montreal, but in the meantime Mr. Scott withdrew the recommendation, having d'scovered that he was not a man to be relied upon. Notwithstanding the withdrawal of the recommendation. Asher upon. Notwithstanding the withdrawal of the recommendation, Asher continued to use it, and for a time got sympathy in Mon'real, which was soon, however, withdrawn

In the witness box the professor appeared somewhat reluctant to answer the questions of Mr. Hassard as to whether he wanted the British to win in the present conflict, but when pressed he answered in the aftirma-

Acting with Mr. Hassard was C. M. Garvey, for some person whose name he would not make known, and A. F. he would not make known, and A. F. McMichael appeared for Professor Mueller. The objection was based on the grounds that it was contrary to the interests of the British Empire to grant citizenship to the people of the countries now warring with Britain. It was argued that the statute relating to naturalization referred only to times of peace and that mere compliance with all its requirements was not sufficient to obtain citizenship. That was a question for the judge and if, in his discretion, he thought it was unadvisable he could thought it was unadvisable he could refuse the grant.

Professor Mueller said that he had been 21 years in Canada. His early education had been received at the Missionary Seminary, Germany, Asked why he had lived so long in Canada without becoming naturalized, he stated that he was not certain where he would permanently live. When 13 obtained a permanent appointment as associate professor at the university t determined his citizenship, but he it determined his citizenship, but he kept putting off making the application until after the holidays and then the war started. Professor Mueller expressed his regret regarding the war and was unable to understand its reasons. "Since I left 'lermany, 21 years ago," he said, "its policies and ideas have greatly changed and I don't know what they are I canand ideas have greatly changed and I don't know what they are. I cannot deny that I have sympathies for my own country nor can I deny that I have sympathies for this country."

Anti-Holiday Feeling in Evidence — Bond Market

dence—Bond Market

Also Heavy.

The market closed steady at a shade decline to 1/4c to 1/3c advance, compared with last night. Corn wound up with a gain of 1/3c to 1/3c, and oats of 1/3c. The outcome in provisions was unchanged to 1/3c in shares of investment and speculative values, the list including Canadian Pacific, Baltimore and Ohlo and the southern Railway, while United States steel and Southern Pacific repeated their established low quotations of the receding session. Over a score of inactive and miscellaneous stocks sold lower than before. Trading bore the amiliar ante-holiday aspect, the volume of business falling below recent days.

Opening prices reflected the same degree of irregularity so long prevalent, followed by rallies which carried the leaders 1 to 2 points above yesterday's close. The advance appeared to be the result of short covering more than anything else, and when the demand from that quarter ceased stocks fell back slose. that quarter ceased from sheer inertia. C. P. R. Again Lower. C. P. R. Again Lower.
Renewed weakness in Canadian Pacific and Southern Railway pfd. on extensive offerings unsettled the list in the afternoon with lowest prices of the day. In the final dealings some buying of Amalgamated Copper and Reading imparted a better undertone, but the closing was heavy and uncertain.

Weakness of the high-priced railway shares indicated that the reduced dividends declared yesterday by the directors of the Pennsylvania Company, with its resultant effect on Pennsylvania carnings, was causing some apprehension

The local bond market was heavy on small overturn. Total transactions (par value), aggregated \$1,108,000.
United States Government bonds were unchanged on call.

BIG CONTRACTION IN CURRENT LOANS

Shrinkage in November Exceeds Twenty-Two Million Dollars.

OTTAWA, Dec. 24.—The bank statement for November, just issued shows wery little change in the totals from the statement of a year ago, and is considered almost a normal one for this season of the year. There is a big drop in the current loans in Canada for November as compared with October of over \$22,000,000. On the other hand there has been a slight increase in the current loans outside Canada. The call current loans outside Canada. The call loans both in Canada and outside have fallen off in November from the month off in November from the month before.
The tendency of the public to put their

money away in the savings accounts is shown by the increase in the notice deposits (savings), which were about \$6,000,000 more in November than in October. The current or demand deposits have fallen off very much, part of which is customery, with November when mest business concerns carry large stecks. The falling off of demand deposits is almost \$34,000,000.

CHRISTMAS SPIRIT STRONG IN DETROIT

Fine Tree Blaze of Lights on the City Hall Lawn.

Canadian Press Despatch.

DETROIT. Dec. 24.—Trumpeters in the city hall tower tonight announced the beginning of the local municipal Christmas Eve ceremonies. As the strains of the trumpeters were heard, Mayor Oscar F. Marx pressed a bûtton and a huge snow-laden Christmas tree. Mayor Oscar F. Marx pressed a button and a huge snow-laden Christmas tree on the city hall lawn became a mass of brilliant vari-colored lights. Mayor Marx today exchanged the season's greetings with Mayor Fred L. Howell of Windsor, the Canadian bor-

der city, opposite here.
"During the great crisis thru which we are passing," said the Canadian mayor, "believe me, sir, when I say it has given us a feeling of perfect se curity in knowing that in whatever con tingency that may arise, you and your people could be depended upon to respect every treaty and obligation which might be thrust upon you."

NEWS OF THE EX. CAMP

Two Thousand Men Go Home for Christmas Fun for Others Too.

It is expected by members of the second Canadian contingent at Exhibition Park camp that a large number of their relatives and friends from out-of-town points will come to Toronto on the Christmas excursions and swell the attendance of visitors on Sunday to enormous proportions. Last evening saw two thousand of the troops leave the camp for a three-days' Christmas holiday. The other half of the 4000 men will do the same on New Year's Eve. Great activity is being displayed in decorating with evergreen, holly and flags at the men's quarters, canteens and recreation rooms. For campodation.

Germans Find Swamps Great Obstacles-Heavy Attack on Centre.

Canadian Press Despaces. PETROGRAD, Dec. 24, via London

The Germans appear to a feeling
their way for a weak point in the
Russian defences, but the operations are made more difficult owing to the swampy nature of the valleys. Determined German attacks are reported to have been made in the centre of the entire front between Rawa and Opoeczno, on a line 30 miles east of Piotrkow. These chishes are believed to have been between the cavalry divisions which are protecting the right German flank, and the left Austrian flank, and a strong Russian column advancing on To-
