CHINTZ COSTUMES FOR LAKE SHORE

Stunning New Outing Costumes-Fashioned of Floral Materials. SMART ACCESSORIES Hat, Sunshade and Handbag in Harmony Are Included.

Beach costumes of chintz are destined to be worn at fashionable resorts this summer, and there are some very "sporty" little suits being displayed just now. This fall has created considerable comment, but it seems likely that the devotees will adopt the approved design, in which a short circular skirt, a smart wide-rimmed hat, a handbag of generous dimensions, and sometimes a sunshade, are all fashioned from this gaily patterned material.

THE GREATEST CONFLICT OF MODERN TIMES

Murder and piracy have been committed on the high seas, little Belgium has practically been wiped off the map, and seemingly all of Europe is to be shot to pieces. In fact, this is the most disastrous war the world has ever known, and naturally it is felt decidedly by the entire civilized world.

ALL MAY ASSIST IN GIVING HELP

Conditions in Northern France Warrant Donations From Everywhere.

EXHIBIT OF PAINTINGS Large Attendance at Announced Event Will Help Swell the Funds.

Among the activities deserving of the utmost support is the Secours National, which for the past few months has been doing many things in order to be in a position to assist the needy French in the war-zone, and especially in Northern France.

Conditions in those districts are most pitiable. So reduced are the impoverished and war-worn people that it is reported the thousands of little ones born since the beginning of the campaign, have in numerous instances come into a world that had nothing better to give them in the way of covering than a newspaper.

A way in which many may help is to attend the art exhibit to be held at the Grange, and which opens on Wednesday. The entrance fee is small, but the aggregate may be made something worth while, if only a general interest may be aroused.

Besides there are many works of art which will be on view, which come from private collections and to which opportunity is rare.

Attend the exhibit and assist the cause, while at the same time adding another lesson to your never too large survey of the field of art.

NURSERY CONDUCTED BY Elvira Murray The Mother of the World

When a mother says that she has no heart to correct her child, that a child's career years are so few that she would rather overlook the little faults, and let the child have a free, unhampered life, it sounds plausible and human. But one hard, unavoidable truth remains that she cannot change. Some day that child will be punished for what the mother now chooses to overlook.

It is one of the bitterest decrees of nature, but it is unavoidable. If the mother who might exact obedience and discipline lovingly and willingly, when the faults are small, will not do so, she is leaving her child to imagine or infer that there is no law for him, she leaves the discipline to a cold and heartless world. But come it will without fail. And there will be no tenderness in it; no sympathy in it. It may come in the guise of failure and disappointment, but it will cause years of heartache or a ruined life. In all probability it will come too late to be of use to the child, but come it surely will. No man has ever gone thru the world with any success whose early training has not taught him that his will is not supreme. We must all obey the law of nature if we will have health; the law of man if we will have liberty; the law of God if we will have peace. But obey something or somebody we must!

THE IDEAL VACATION TRIP VIA GREAT LAKES STEAMSHIPS.

At this season of the year, when so many are planning their vacation trip, the question "where to go" naturally arises. What could be more delightful than a great lakes trip, where the air is pure, the sun shines and the cool, refreshing breezes blow?

If you are contemplating a trip, don't let this slip your memory. Canadian Pacific steamships make, at this time, have the best of accommodation and the table is unexcelled. Full particulars from Canadian Pacific ticket agents, or write M. G. Murphy, district passenger agent, Toronto.

DR. A. W. CHASE'S 25c CATARRH POWDER advertisement.

The GARDEN advertisement for water hyacinths, conducted by R. Todd.

A Tender Aquatic—The Water Hyacinth

Strictly speaking, I suppose, we should only deal with the hardy aquatics easily obtained in our own country, when advising our gardeners about suitable water plants for their new lily-pools. But there are one or two aquatics that may be bought from your reliable florist, which are not native here, yet which may be cultivated with success if you water garden is of such a size that it can either be carried into a shelter during the three very cold months, or may be given adequate protection during the severest spells of cold.

One of the easiest grown of all these tender aquatics is the water hyacinth, a most curious plant. It is, as I have pointed out, not native here, having first been found in South America; but it has been brought to the southern states and successfully naturalized there. Indeed, so much that it bids fair soon to become more than a pest in some of the many low-lying ponds and streams.

Being a true aquatic, it floats upon the waters. The leaves come up from the shallow depths in which clusters, borne upward upon strange stems which hold the leaves floating lazily upon the surface of the pool. The blossoms come up in a loose spike, throwing themselves well above the level of the foliage, and are wonderfully beautiful, showing changing tints of pale blue, lavender, deep blue, verging now and again into yellow and rich cream. The blossoms last a long time before and fading begins, some times one full blossom remaining apparently unchanged for from ten days to two weeks.

If our new water gardeners have a taste for the odd, we advise them by all means to secure a specimen or two of this unusual water plant, and plant it along with other oddities. All that needs to be managed, out of the ordinary water-plant care, is a

 Conducted by Mrs. Edmund Phillips.  
 Mrs. Langstaff, president of the Daughters of the British Empire in the United States, spent yesterday with Mrs. Bruce on route to New York after having been the guest of the Lord Tenison Chapter, I.O.E.E. in St. Catharines, where she was much feted. Those entertaining for her included: Mrs. Leonard, Mrs. Williams, the Misses Catharine and Emily Merritt (Toronto) and several other people. Mrs. Langstaff was born in St. Catharines.  
 The Hon. Wallace and Mrs. Nesbitt and Mrs. Jack Nesbitt motored to Woodstock yesterday for the wedding of Mr. Heber Phillips to Miss Kathleen Nesbitt.  
 The Lady Evelyn Ward has arrived safely in England, having sailed by the New York last week. She is staying with her mother, the Countess of Errol, in London, and will return in August to Toronto.  
 Mrs. Neale has arrived at the King Edward from the west and will continue her journey to England at the end of the week.  
 The marriage takes place today very quietly in Woodstock of Mr. Heber B. Phillips to Miss Kathleen Nesbitt.  
 Among those who spent the week-end at the Caledon Club were: Col. and Mrs. J. MacLean, Mr. and Mrs. J. A. Cameron, Mr. Acton Burrows, Mrs. John Nesbitt, Mr. and Mrs. Ross King, Mr. and Mrs. Walsh, Mr. and Mrs. Lloyd Harris (Brantford).  
 The United Empire Loyalist Association will hold an excursion to Niagara-on-the-Lake on Friday, the 18th inst., the 100th anniversary of the battle of Waterloo.  
 The dinner for those assisting on Rose Day, which is the guests of Col. and Mrs. Logie at Niagara-on-the-Lake, will be served at 6 o'clock and the tickets are for sale in the Victoria street office of the hotel, Friday, 12 cents.  
 Mrs. J. E. Tyrrell has moved to her cottage in Weston for the summer, and can be reached by telephone on the Weston exchange.  
 Mrs. Tom Woods is going to Niagara-on-the-Lake on Wednesday.  
 Mrs. George Marks is paying a visit in Montreal.  
 Miss Margaret George is staying at Jackson's Point.  
 The Misses Naomi and Audrey Horrocks are the guests of Col. and Mrs. Logie at Niagara-on-the-Lake.  
 Dr. and Mrs. J. A. Macdonald, Spadina road, will celebrate the twenty-fifth anniversary of their marriage on Friday, and will be at home both afternoon and evening.  
 The Daughters of the Empire want 25 more motors for Rose Day. If the owners will be kind enough to lend them, they will telephone Mrs. R. S. Wilson, West Bloor street. The question has been asked why the I.O.E.E. are selling artificial roses instead of natural ones on Alexandra Day. It is compulsory on holding the day, that the "wild" roses should be used. They are made by the crippled children in the John Grooms Crippled in England, and the money received is used for the maintenance of hospitals, etc., in which Her Majesty Queen Alexandra is much interested.  
 The party organized by the Women's City Club, Boston, U.S.A., will pass thru Toronto today en route to Niagara Falls, and thru to British Columbia.  
 Mrs. Norvege Worthington, daughter of the late Mr. H. C. Cook, a former president of the U.E.L., has lent her beautiful place, Armatcolle, in Parkdale, to the United Loyalist Association, to hold a garden party in aid of the Red Cross work of the society, which will take place on Saturday, the 26th inst.  
 Mr. and Mrs. Norman Gooderham and Mr. and Mrs. Zimmerman were at the Queen's Royal, Niagara-on-the-Lake, on Saturday.

sand banks as well as breakwaters. At Heligoland there are only a few German torpedo boats and submarines. In naval warfare one goes by probabilities, not possibilities. A British submarine wouldn't have one chance in a million of getting behind the stone walls where Germany hides its fleet. It's not a question of initiative. What our submarines have done in scouting around Heligoland and around the Dardanelles proves this. It's just a question of common-sense tactics. The German fleet only needs to come out to sea and leave its stone-locked fortresses for a few hours in order to get all the trouble it ever will be able to seek.

**SMILE OF GRATITUDE IN EVERY PURCHASE**  
 Thursday Will Be the First Rose Day to Be Held in Toronto.  
 Grateful Hearts Will Be Made Cheerful if Everyone Buys.  
 Wild roses—thousands of them—all so dainty and pretty that one can almost imagine the perfume of the hedges in English country lands, as one goes among the clusters and boxes piled up at its East King street, where the committee of the Imperial Order Daughters of the Empire are preparing for their beautiful June fete.  
 It was indeed a pretty cargo which the good ship brought across the ocean or distribution among Toronto's people on Thursday next, when every one will be asked to buy a rose from which it is hoped twenty-five thousand dollars will be gathered in for the little sick ones whom the day is intended to benefit.  
 There are 1730 gross—just think of it—of single blossoms that will be sold for five cents each. An equal quantity are equipped with pins ready for dainty fingers to place on very willing coat-lapels. There are 2500 shallow baskets in pale green straw, for holding the roses, and the same number of pretty boxes in pink and white bearing the credentials of the queen mother, the much-loved woman to whose initiative rose day owes its existence. Delightful wreaths to be worn by fair sellers and shoulder badges in white with rose edge, on which "Alexandra day" is inscribed in letters of gold, are all part of the consignment brought from overseas to make beautiful Toronto's first rose day.  
 The city will be divided into fifty-one districts, each in charge of a captain who will command the girls selling in her territory. Many of the cars to be used will be swathed in roses and the commination will un-

 LONDON, June 7.—Commander Clayton Bellais, the great British naval expert, replied today to recent criticism of the British navy appearing in American newspapers, suggesting that the navy might try a little initiative, occasionally, sending submarines to "chase" the German fleet.  
 He said: "The man who writes a note that asks for a scale chart and then in a few minutes complains of an American newspaper editor, then he might learn quite a lot about the navy. He would find behind miles of heavily mined

**SMILE OF GRATITUDE IN EVERY PURCHASE**  
 Thursday Will Be the First Rose Day to Be Held in Toronto.  
 Grateful Hearts Will Be Made Cheerful if Everyone Buys.  
 Wild roses—thousands of them—all so dainty and pretty that one can almost imagine the perfume of the hedges in English country lands, as one goes among the clusters and boxes piled up at its East King street, where the committee of the Imperial Order Daughters of the Empire are preparing for their beautiful June fete.  
 It was indeed a pretty cargo which the good ship brought across the ocean or distribution among Toronto's people on Thursday next, when every one will be asked to buy a rose from which it is hoped twenty-five thousand dollars will be gathered in for the little sick ones whom the day is intended to benefit.  
 There are 1730 gross—just think of it—of single blossoms that will be sold for five cents each. An equal quantity are equipped with pins ready for dainty fingers to place on very willing coat-lapels. There are 2500 shallow baskets in pale green straw, for holding the roses, and the same number of pretty boxes in pink and white bearing the credentials of the queen mother, the much-loved woman to whose initiative rose day owes its existence. Delightful wreaths to be worn by fair sellers and shoulder badges in white with rose edge, on which "Alexandra day" is inscribed in letters of gold, are all part of the consignment brought from overseas to make beautiful Toronto's first rose day.  
 The city will be divided into fifty-one districts, each in charge of a captain who will command the girls selling in her territory. Many of the cars to be used will be swathed in roses and the commination will un-

HOPES SOON TO USE HORSE ARTILLERY

Long Wait of Crack Canadian Battery at Maresfield About Over.

QUERY IN COMMONS

Under Secretary of War Tenant Admitted Difficulty in Placing Them.

Canadian Associated Press Cable.

LONDON, June 7.—R. P. Houston, Conservative member of Toxteth, addressed a series of questions to the under secretary of war in the House of Commons this afternoon bearing upon the alleged undue detention in England of the Royal Canadian Horse Artillery, under command of Colonel Panet, and upon the efficiency of the unit and its officers.

Mr. Tennant replied that the facts stated regarding the early part of the question are substantially accurate. "I have no information as to what the Duke of Connaught told the battery before it left Canada. I have every reason to believe Colonel Panet was a very efficient officer and the same applies, I am informed, to the officers and men of it also. It is true artillerymen were not so well trained with any particular gun as some make themselves efficient with another gun, but there is no justification for the suggestion that a slight is placed upon them by being retained in this country for military reasons."

Some difficulty is found in placing an artillery battery which does not form part of a brigade, especially when it is armed with 15-pounder guns, as it is hoped that the occasion will utilize their services at the front may shortly occur.

OFFERED MONEY NOT TO APPEAR

Toronto Contractor Told He Would Get Twenty-Five Thousand.

IN WIRE-TAPPING CASE

New York Swindler Soon Will Be on Way to Sing Sing.

Special to The Toronto World.

NEW YORK, June 7.—Fearing James O'Reilly, the Toronto contractor swindled out of \$17,000 by Fred Gondorf and James Fitzgerald, would not appear to testify against the two men when they come to trial, the Canadian was placed in the house of detention today by Judge Matuzen. O'Reilly, it was said, appeared reluctant to give testimony to the grand jury, and almost declared he would not appear against the defendants, both of whom were indicted.

He was held in \$50,000 bail. It is said he is all wrought up over the matter, and has summoned a lawyer from Toronto to look after his interests. It was said the Gondorf gang had been trying to reach O'Reilly and persuade him to abandon the case. One member of the coterie is reported to have said: "You go back to Canada and witness name one of our men will see you. If you do that you can not only get your \$17,000, but \$7500 besides. If you appear against us you don't get anything back."

Gondorf and Fitzgerald were the only men indicted by the grand jury. He was unable to identify any other of the men the police picked up, and so the four were released.

The district attorney's office seems to think Gondorf will soon be on his way to join his brother, Charles, in Sing Sing, as there are now six indictments for grand larceny against him. There are two in the O'Reilly case. He is also being held on the charge of swindling another officer and 64 sailors who were picked up by a British torpedo boat destroyer. It is possible that other survivors were able to reach the coast, where they may have been taken prisoners by the Turks.

O'REILLY IS ARRESTED

NEW YORK, June 7.—Wm. O'Reilly, a builder of Toronto, complaining witness against Fred Gondorf and James Fitzgerald, alleged wireless wire-tappers, who were charged with having swindled O'Reilly out of \$17,000, was himself locked up today in \$50,000 bail for changing sides in his mind and deciding that after all he would not testify against the two men.

MADE BY C. P. R.

But Toronto Market for Stocks is Higher Than That on Wall Street.

With C.P.R. at a new low level for the year, it could scarcely be expected that the Toronto Stock Market would have much semblance of strength in other directions.

A note to the local firm of brokers attributed the selling of C.P.R. to holders in Holland. The break was said to be well taken, with cover a thousand shares changing hands at 5.70.

Braxillan, Mackay and Maple Leaf were transferred in small amounts at unchanged prices.

Orders are light and prices steady.

New Buying Orders Too Limited to Stir Mining Stocks Into Strength.

A scarcity of new buying orders left the mining exchange without the substance necessary to foster further activity in the stock, which others are more concerned in the attitude of the market.

There is a general feeling of depression in the market, and a favorable turn would result in a sharp rally.

Timiskaming, McIntyre and Vindicator monopolized most of the trading. Early prices were strong, but traders forced a moderate reaction towards the close.

FRENCH MINE-LAYER LOST IN AEGEAN SEA

Number of Survivors Picked Up and Others May Be Prisoners.

PARIS, June 7.—The ministry of marine has given out an official announcement reading as follows: "The French mine-layer Casablanca has struck a mine at the entrance of a bay in the Aegean Sea. The captain and another officer and 64 sailors were picked up by a British torpedo boat destroyer. It is possible that other survivors were able to reach the coast, where they may have been taken prisoners by the Turks."

O'Reilly is arrested.

TOO MANY CATTLE MARKET WAS SLOW

At Conclusion of Day's Trade Twelve Hundred Were Unsold.

FEW CHANGES NOTED

In Most Classes, Values Continued Steady With Exception of Hogs.

Receipts of live stock all sold since Friday at the slow market. Yards were 277 carloads, comprising 3294 cattle, 2788 hogs, 164 sheep and lambs, 133 calves and 2470 horses.

The quality of the bulk of fat cattle on sale was good to choice and at no previous market this season were there as many of the light class of butchers' steers and heifers, such as buyers have been asking.

The large number on sale caused trade to be dull and draggy, as buyers were trying to get lower values, which sellers refused to take.

The market lasted all day and closed with 1200 cattle reported unsold.

There were several lots of export cattle left unsold and if one of the local commission firms had not made an order for an outside order for this class there would have been many more.

Having compared the sales made during last week with those made yesterday we found that there was little or no change in values, only that the market was slower and a larger number left over.

The best choice of butchers' cattle sold at \$8 to \$8.25, a very few reaching \$8.50 to \$8.75, no more.

A very large number of butchers' cattle sold at \$7.50 to \$7.75, with a few reaching \$8 to \$8.25.

Stocks and feeders were slow sale at unchanged quotations.

Milkers and springers were about steady with last week's market.

Sheep, lambs and calves sold at about steady prices. In fact there was scarcely enough to make a quotable market.

Owing to the fact that since last Friday about 160 hogs arrived from Winnipeg and the west, there were few for them west.

Butchers' Cattle.

Choice heavy butchers' cattle sold at \$8.25 to \$8.50; choice butchers' steers and heifers, \$7.50 to \$8.25; medium, \$7.00 to \$7.50; good, \$6.50 to \$7.00; common, \$6.00 to \$6.50; culls, \$5.50 to \$6.00; cowboys, \$5.00 to \$5.50; medium, \$4.50 to \$5.00; culls, \$4.00 to \$4.50.

Stocks and Feeders.

Good choice of milking steers sold at \$7.40 to \$7.65; medium, 7.00 to 7.25; culls, \$6.50 to \$7.00; cowboys, \$6.00 to \$6.50; medium, \$5.50 to \$6.00; culls, \$5.00 to \$5.50.

Milkers and Springers.

Choice milkers are still in demand. The range in prices was from \$6.50 to \$9.00, according to quality.

Choice calves sold at \$9 to \$10; good, \$8.50 to \$9.50; medium, \$8.00 to \$8.50; culls, \$7.50 to \$8.00; cowboys, \$7.00 to \$7.50; medium, \$6.50 to \$7.00; culls, \$6.00 to \$6.50.

Sheep, \$8.50 to \$7.50; spring lambs at \$4 to \$5 each, or 15c per lb.; yearling lambs \$4 to \$5.

Hogs weighed off cars sold at \$9.75.

McDonald and Halligan sold 15 cars of stock Monday, as follows: Best butcher steers, \$8.15 to \$8.40; good, fair butchers, \$7.50 to \$8.15; medium, \$7.00 to \$7.50; good, fair cowboys, \$6.50 to \$7.15; medium, \$6.00 to \$6.50; culls, \$5.50 to \$6.00; cowboys, \$5.00 to \$5.50; medium, \$4.50 to \$5.00; culls, \$4.00 to \$4.50.

VISIBLE GOLD IS NOT A GUIDE

Hollinger is Not Paying Dividends From Clear Quartz.

STUDY IS NECESSARY

To Prevent Waste of Money in Developing Porcupine Properties.

In the report which he issued on the "Hollinger" in January, 1912, P. A. Robbins, the general manager, said: "In the quartz masses the occurrence of gold is extremely spotty and check samples taken from the same point on the vein will seldom agree within reasonable limits."

It is plain that "Hollinger's" dividends are not coming from the clear quartz which outcrops at intervals on the surface. The greater part of the ore mined is in the large mass of quartz at a moderate depth and to be characteristic ore in the large mass of quartz at a moderate depth and to be characteristic ore in the large mass of quartz at a moderate depth.

The original country rock at Porcupine did not contain gold bearing veins. The shear zones and veins as we now find them are due to later intrusions of granite, diabase and other igneous rocks.

Every great mining region has features of its own and local conditions should be carefully studied. Large sums of money have been wasted at Porcupine by want of knowledge of the nature of the ore bodies and properties have been turned down which would have been profitable values under surface sampling by those who did not know where to find the ore.

In the principal mining area at Porcupine the veins begin and end in the basement rock and are not continuous through the gold from surface weathering. The veins are not always regular or well defined and are not always rich in gold. The veins are not always regular or well defined and are not always rich in gold.
