frighten capital out of the country,

Lansdowne's Speech Lacked Concen-

tration of Energy.

The London correspondent of The New York Tribune, in describing Mo :-

day's proceedings in the house of lords,

Lord Lansdowne began quietly, but

it was not long before his voice deep-

ened with earnestness he referred to

the finance bill as an unprecedented

measure, which could not have the

concurrence of the lords without a

direct mandate from the general elec-

torate. His voice dropped into a conversational key as he discussed the

budget from many points of view and

the commons in taking upon it a series

of highly controversial measures. What

the speech lacked was concentration

of energy on one or two fundamental

covering too many details of 'ne gen-

effective speech of the evening, con-

tending with great force that the busi-

ness transactions of the country made

it necessary for the representative

chamber to have exclusively the power over the purse, and that the stoppage of supplies had never occurred in the

whole history of parliament. In his most solemn tones he warned the lords

It is quite probable that the car ser vice will not be effective for a week The Winnipeg Electric Street Railway flume at Lac Du Bonnet, burst this afternoon; causing a flooding of the power house, and not until late this ever ing was the water diverted.

As yet the extent of the damage i unknown, but if the generators should When the inquest was resumed at have been wet, it is highly probable Meanwhile, the street lights are out, as the city, despite their suit with the company, depends on he company for ings depending on electric light are dimly illuminated by the steam plant which is kept as reserve. However, it was hopeless to attempt the will probably be used to stable the cars after midnight, when the call for power

is at the lightest.

The disaster will be fresh evidence for the judge in whose hands the case between the city and railway company is now resting for adjudication The company claimed the car service was operated by a steam plant, which the charter requires to be within the city limits, while the Lac du Bonnett plant served the general light and pow-er contracts. However, the complete steamplant to move the cars, and also serves as an object lesson, since should the cit ywin, and the judge decide that he city, and issue a mandate to ther effect, it is very evident that the power, light and car service would be paralized indefinitely.

MUST TEAR UP THE RAILS

Stamford Township Council's Ultimatum to Electric Railway.

NIAGARA FALLS, Ont., Nov. 23,-—(Special.)—Dissatisfied with a change of schedule from 20 minutes to one hour for the trip between Falls View and Mentrose Station, Stamford Township Council has ordered the Niagara and St, Catharines Street Rallway Co to restore the former service or tear un their rails and ties.

The railway company has been serv ed with notice to this effect, and the fight between the company and the three to four hours after death from council, who fought the hydro-electric commission so hardly, is awaited with

Brick Block Burned, WAPELLA, Sask., Nov. 23.—(Special.)—Kidd and Clements' new brick block was totally destroyed by hre

this morning.

The Globe and The Tubes and the Viaduct

The Toronto Railway refuses to extend its line with the growth of the city. It claims it is master of the whole city traction situation. It says and has said that masmuch as the franchise has only twelve years to run it will make no new expenditures in that time, even if urgently required! There is to be no extension of the poor-man's home belt at a single fare!

The Toronto Railway owns all the radials that come to or enter

The Toronto Railway says it will not let its own radials in over its tracks unless it is given a permanent franchise (even after the Toronto franchise expires) for such radials. We would then have a perpetual Toronto Railway franchise imposed upon the city system when taken over by the municipality! Such a system could eventually milk the city system dry.

The Toronto Railway owns over seven miles of radial lines now within the city, whose franchises it claims are more or less perpetual or renewable, located on five different sets of streets, and to go over any one of which an additional fare is taken from the passenger on the street railway. Double fares, sometimes triple fares, are collected in going from East Toronto (in the city) to Davenport-road (in the city).

The whole policy of The Toronto Railway is dog in the manger and is to-day a dead load on the city's growth. We haven't a complete service; we haven't a quick service; we have had all the lines clipped unmercifully at the ends a lot of unnecessary transfers forced on the public in consequence, the limit has been reached for twelve years of inducing working men to build their own homes in the outer sections of the city, as the company will not extend its lines for a single fare, nor abandon its two-fare system!

Fortunately the city is not without recourse and resource It can ask for the right to expropriate. But it has also the right to build a system of tubes and surface lines in the recent additions to the city.

The tube system will give rapid transit and single fares to the furthest outskirt, as fast as the city extends. No more talk of 'the franchise soon running out." The tubes will let all the radials into the city on equal terms

and at double the speed of the street car lines. They will come in by express. With such an entrance for the radials, millions will be at once spent on radials by other capitalists independent of the present

that centre on Toronto. Once that the radials can get into Toronto in spite of the Toronto Railway and once they can get abundance of electric energy from the public system-and this energy will be here in less than a year—an era of radial development like that about Cleveland and the other Lake Erie cities will come to Toronto and this city will soon have a population exceeding half a million and a new wave of prosperity attend all the towns in the radius of this trolley

local traction organization, radials to all the sections of Ontario

The tubes also mean that at night time they can be used for the distribution of freight, to the great relief of the streets. The tubes will relieve street congestion.

And this tube system will do all these things and more and pay from the start. There will be no trouble in financing it. There are traction men in the States who would come here and give many millions for such a franchise and probably give universal three cent fares. But Toronto must never part with it

According to The Toronto Globe (Hon. Robert Jaffray, president: also electric capitalist;) this tube system and the Bloor-Danforth viaduct will make W. F. Maclean rich thru his Donlands farm (seven to nine miles from the City Hall), enormously rich or he thinks it will. Hence The World's attitude. If it will do that for him it will do it for thousands of others, the man with the little lot and the man with the big one; and if it will do all the things that we have tried to set out that it will do then in the name of Heaven let us have tubes and viaduct at once. They do the trick! The World's approach to this question is from the people's side: The Globe, while professing public spirit, has sinuously pur-

sued the course that meant private corporation benefit at the price Let the people judge.

The mere mention of tubes starts the street railway concern throwing handsprings; it is a great "compeller;" only a public enemy would belittle it; The Globe hasn't a good word to say for it: that paper has no way out of the deadlock

G.T.P. ENGINEERS

And Chief Lumsden, Disgusted by General Disregard for Adhering to Specifi-

> cations, Resigned.

OTTAWA, Nov. 23 .- (Special)-The events and the causes which led up to the resignation of Hugh Lumsden, chief engineer of the National Transcontinental Railway, are related in a series of papers and correspondence laid upon the table of the commons to-day.

Mr. Lumsden, in his letter of resignation, says he found his position untenable, because neither the general, specifications nor his instructions regarding classification had been adhered to, but, on the contrary, large amounts of material had been returned as solid rock, which should only have been classified as loose rock or common excavation, and material was returned as loose rock, which was or could have been handled by plowing or scraping, and should have been returned as common excavation.

The district engineers and contractors on the ohter hand, says some cor-respondence, denied that Mr. Lumsden's letters had been ignored.

The correspondence opens with a series of letters from H. A. Woods, assistant chief engineer of the Grand Trunk Pacific, protesting energetically against over-classification on the transcontinental. The first is dated Oct, 7 1907, and begins: "At the request of District Engineer Armstrong, he was urnished recently with a statement of classification for the heavier work upon the above mentioned section, which were, when given in detail, so different from his expectations, that he requested the writer to visit the work."

Was Greatly Surprised. Mr. Woods then states that he visited the line near the Batisican River, and with regard to one section of the

work says:
"With the latter portion, which had a detailed percentage for each cut, I was greatly surprised at the allowances made for solid and loose rock. In nearly every case, where the cutting was nearly all ledge, the estimate given for solid rock is double, or more than double, what it should be. In fact, the specifications had been entirely ignored, and an excessive allowance made, not by reason of any error in judgment, but, as I understand, by special in-structions from the assistant district

engineer." After some further correspondence, Mr. Woods wrote on March 30,1908, objecting to the over-break in the rock cuttings on district "F." Among other things he said: "While we wel know that it is not possible for contractors to work with the exact slope line in all cases, we are satisfied that little, if any, attention has been paid in so instances to the amount of overbreak by sub-contractors."

The objections of Mr. Woods continued, and by January and February, 1909, the appointment of a third arbitrator to pass upon these cuttings was under consideration. Mr. Lumsden wrote on February 1 to Mr. Kelliher, chief engineer of the G. T. P., suggesting the name of Colingwood Schreiber as third

Continued on Page 7. THE NEW TUBERCULOSIS.

Supposing you were playing a game of cards and ou had only three cards in your hand. Suppose, also, that your opponent was an experienced player and not over-scrnpulous. Would you take your best card, throw it on the table and say to your opponent "This card is no good," and throw, up your hand? This is what The Globe, The Star and Controller

do, in regard to the tubes, in professing to play the itizen's game with the Toronto Railway. The Toronto Railway is afraid of two things; three things, in fact-tubes, expropriation and the devil. But most of all of tubes.

Geary have hastened to do, gone out of their way to

Robert John Fleming has only to touch a button and tell the professed journalistic friends of the people how to give the game away and the professed friends hasten to comply.

BY THE FRONT DOOR AND THE MAIN STAIRCASE.

The World's new building is coming rapidly into use. The Main Entrance has its new circular door in position (and it happens to be the finest round door yet built in Toronto) and at the service of the public; the main stairway is now sufficiently advanced to give ready access to the editorial flat and the newsroom flat above; in a few more days the new counters in the business office will take the place of the temporary ones. Both of our big new presses have already turned out The World, so that every day will see a fresh instalment of newspaper efficiency by reason of the new building and the new equipment. In a few days the most up-to-date newspaper plant in Canada, and certainly the livest newspaper will be in Richmond Street at the corper of James, and overlooking World-square. Senator Jaffray, of The Globe, will be suitably welcomed should be give us a look-in.

LADIES' FUR-LINED COATS.

The Best Garment for Evening Wear in Winter.
A fur-lined coat for evening wear is

a very necessary garment in the wardrobe of a Canadian woman. There is nething so comfortable or safe for winter as one of these, and they do not cost very much, Dineen at 140 Yongs-street has on sale to-day some splendid new designs just turned out the workrooms all built from Parisian models. Prices to suit any pocket ok, according to the nature of the hining used in the coats.

Subscribers are requested to report any irregularity or de-iay in the delivery of their copy to Mr. J. S. Scott, agent, at this office, rooms 17 and 19, Arcade Building. Phone 1946.

FOR THE ANNEX SEWERS

Young Liberals Elect Officers-Rats Start a Fire-Police Court Cases,

HAMILTON, Nov. 23 .- (Special.)-The sewers committee this evening awarded contracts for the annex sewers as follows: Arthur-street, J. J. Armstrong, 40 cents a foot; Imperialstreet, J. J. Armstrong, 35 cents; base line, Andrew Meyer, 50 cents. It will be necessary for the city to expropriate part of the base line property and also to do some piling, but the cost will be slightly under the rate of \$1.44 set of Ferguson-avenue thru revetment wall was given to Thomas Williamson at \$1325. The city engineer was instructed to lay out a sewer scheme for the southwestern section of the new annex. T. L. Charles Choate, 17 Myutle-avenue, said yesterday: "Bloor-street is already surshot a wolf at Trout Creek, and is applying to the government for the \$15 and in time it will be the equal of sioner Thompson have already gone to Queen-street. With the city expanding of tawa. as it is, Bloor-street is bound to become the centre of the city. The via-

desirable undertaking. I am speaking rison and Ward were dubious, for an industry located in the west end Controller Ward thought and as such only interested in a general should have a chance to say whether way."

CARRIAGE OF EXPLOSIVES

Colonel Dunn of the bureau of ex-plantives department of the American printed and discussed by the board or Colonel Dunn of the bureau of ex-Radiway Association, formerly with with a sub-committee of the C. M. A. yesterday morning, on the laws of the American railroads, regarding the transportation of explosives.

Canadian manufacturers are opposed to the suggestion of the ratilways that the American regulations should be adopted en bloc, and the C. M. A. are framing several amendments to meet the view of the association. Colonel Dunn tendered the committee several useful hints which will guide them in the report they are to submit on this matter to the railway commussion on Dec. 21.

Fire did \$100,000 damage at Canastota, N.Y., yesterday.

Working Properly, Because There is Wind in It, Use Stuart's Dyspepsia Tablets to Set It Going Again.

A TRIAL BOX FREE.

THE DOCTORS call it flatulency, but unprofessional folks know it as "wind on the stomach," and a most distressing state of things it is. It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times often leading to bad and fatal results. The stomach embarrassed and hampered with wind, cannot take care of its food properly defect which should be remedied. He and indigestion follows, and this has a denounced the tontine system of life train too appalling to enumerate. The insurance. He was also opposed to entire system is implicated—made an mutual and participating policies, and active or passive factor in this trouble

ALL THIS IS EXPLAINED in dbc-Sir Richard Scott and Senator Owen tor books; how undigested food causes fermentation and fomentation, in which process some essential fluids are destroyed-burnt up-wasted by chemical action, followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements, and as a consequence the stomach and entire system is starved. Plenty of food, you see. but spoilt in preparation and worse

A DERANGED STOMACH is the epitome of evil, nothing too bad to ema nate from it, but the gas it generates is probably the worst primary and the only way to do away with this more hard knocks last night. A BROKEN-DOWN SYSTEM. Into is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the 'ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour— VITAL STRENGTH & ENERGY

to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of THE NEW FRENCH REMEDY THERAPION No. 3 THE EXPIRING LAMP OF LIFE

strong and restores lost powers.

The Merchant of Venice

Edward Howard Griggs used "The Merchant of Venice," last night as the vehicle for an incisive but subtle indictment of the nominal Christianity the modern world. His picture of Shy-lock, which followed the interpretation adopted by Sir Henry Irving, was a keen and arresting analysis of the character of the Jew.

character of the Jew.

The play, one of the most beautiful and appealing of Shapspere's, had the wealth of lyrical beauty of the early period poured out with the same profusion as in the 'Midsummer Night's Dream," said Mr. Griggs, but out of all this these agrees the great type of trathis there arose the great type of tra-gic character. Italy and Venice was depicted as by magic of imagination with a fidelity as close as the Shakspere had visited the country.

Bascanio was admired as people al-

ways admire the brilliant gambler with opportunity. He was typical of the mercantile spirit of the Venice of the period. But Shylock regarded him and Antonio as the man who deals in money regards the adventurer in merchandise, with contempt. He hated Antonio for good human reasons, as well as racial

Portia, an accomplished woman the world, with complete mastery of social forms, was skilfully outlined; and her courtship with Bassanio de-lightfully described.

"Beyond compare is the charm with

which she opens her heart and con-fesses herself the frank child of nature. And observe; she does quite half the wooing. And that's right," was Mr. Griggs' comment.

Shylock was the result of an historic accident, a mistake in political economy thru centuries of Christian history. Christianity put the stamp of on wurers, all who lent money for interest of any kind.

"Lending money without interest is not a Christian virtue," was the shrewd reflection upon this. The Christian borrowed at interest from the Jew and despised him for lending. Shylock in turn hated the Christians. "It would be beautiful if we were all

absolutely tolerant in religion, and respected all honest religious conviction, remarked the speaker, who instanced

had acted on them. The people who make the laws always keep some tricks up their sleeves, so that the laws won't roll back on those who make them, re marked Mr. Griggs as he described Shylock's discomfiture. But when Por-tia got the mastery there was no mercy for Shylock. It was right that he should be baulked, but what of the humanity of his subsequent treatment?

Why not take a cup of hot Bovril

GALT GETS STANLEY CUP GAME.

Cup trustees have accepted the challenges of Winnipeg, Shamrocks and Galt. The Shamrocks will have their try against Ottawa during the week before Christmas, and Galt between Christmas and New Year's.

"The Beer With A Reputation" Is Better Than Any Imported Lager

'Imported" does not mean "better". It simply means "higher prices" because of the excessive duty.

It is a Government regulation that all Canadian lagers must be brewed only from barley malt, hops and water, -which cannot be said of any American lager.

O'Keefe's "Pilsener" costs about half as much as imported brands-and is their superior in every respect-in purity, in flavor, in wholesomeness.

Are you going to pay a higher price for a poorer lager -or are you going to insist on having O'Keefe's? Leading dealers, hotels and cafes have O'Keefe's.

WHITE SLAVE TRAFFIC

One of Four New Comers Led Astray. Says Mr. Shearer. At a meeting of the Household Ecoomic Association yesterday afternoon,

n the Canadian Institute, an address was delivered by Rev. J. G. Shearer, on the white shave traffic.

The speaker stated that every year over 15,000 girls from foreign countries came into Canada and the United States, and of these, at least one quarer were added to the white shaves, while many thousands were rechulted from the girls of our own country and the States.

The question of boarding houses was also discussed. He said that many girls on their arrival in the city dill not know the nature of the place where they secured rooms. In many ases they stayed in houses of a questionable nature. If they were not in-fluenced by the other inmates to adopt their form of life, they had a bad re-putation, which would follow them

wherever they went.

There should be no double standard of morality. A man should be marked just the same as a woman for his sins. In this country it is not so. Many men that have turned girls into the downward path are to-day received in the

pest of society. Actress Weds Indian Prince. LONDON, Nov. 23.—Dolly Parnell, a popular musical comedy actress, was narried to-day to Prince Neser All Khan, son of one of the most powerful prince presented his bride with jewels

valued at \$100,000. Boy of 12 Leaves Home. Fred Darby, aged 12, son of Walter R. Darby of 662 Block-avenue, ran away from his home Monday week and has not been heard from since. He'is described as having fair hair and wear-

ing a long light overcoat.

The Toronto World

LOST IN FAR NORTH Anxlety Felt for Bishop Stringer, Now

in the Yukon. The following item from the "White Horse Star," of the 5th November, has been received in Toronto, stating that anxiety is felt for Bishop Stringer, who is still in the wilds of the far north:

"The fact that the last steamer from the lower river reached Dawson some weeks ago, bringing no word of Bishop I. O. Stringer, is the cause of considerable worry on the part of the revernd gentlemen's many friends. "With competent guides Bishop Strin-ger left via the Edmonton trail last .june

for the mission posts in the north, Fort McPherson and Herschel Island, the latter in the Arctic Sea. It was his intention after visiting these outlying stations to return to the lower Yukon River, and come on the Carcross where his wife and children were to join him, they having remained with relatives at Kincardine, Ontario, while he was away on his long northern voyage.
"While the bishop is long overdue it is not thought by his friends that anything serious has overtaken him, as it is known that the Porcupine River froze up very early this year and that travel by it was out of the question fully three weeks carlier than usual. "For this reason," says The Star, "It is believed that the bishop is staying with the Peel Indians, until they make their annual pilgrimage from the Mac kenzie River, their home and hunting grounds, to Dawson, which is usually

late in December or early in January. It is to be sincerely hoped that this in the case, and that the bishop will be heard from soon. If he is with the Peel Indians, they may make their annual pilgrimage early this winter on his account."
Rev. A. E. O'Meara, of the Yukon. who is at present in Toronto, states that Bishop Stringer's plan was to re-turn from Herschel Island, to the Yukon River by the most direct route across the mountains to the headwaters of the Porcupine. Mr. O'Meara, states that while it is possible the turned to Peel River, it is more proba-ble that he has been detained by the

early freeze-up at Rampart House, an

Indian trading post, or some other place on the direct route, and that the ice being now strong enough for tra-

veling, he may be heard from very Archbishop Sues Bank. MONTREAL, Nov. 23. - A against the Plank of Montreal for the sum of \$21,852.28, was entered in the superior court of Saskatchewan by the Archibiship of Saskatchewan, action arose out of a legacy by Bartlette, who was domiciled in New York, to the Roman Catholic episcopal corporation of Saskatchewan of all the money he had on deposit in the Bank

N.Y.C. RY. STOCK ISSUE Public Service Commission Lays Down Certain Restrictions and

CONDITIONS THAT BIND

Demands Monthly Reports. AIBANY, N.Y., Nov. 22 .- The public service commission, second district, has authorized the New York Central and Hudson River Company to issue 446,-580 shares of its capital stock of the total par value of \$44,658,000. The stock

is to be sold at par, in conformity with a resolution recently adopted by the board of directors. Of the proceeds of the sale of stock, \$21,966,615.48 is to be used for the discharge of certain three year five per-cent. gold notes of the company, maturing Feb. 10, 1910, the total am principal of the notes being \$25,-

The company is not allowed under the order to use any part of the proceeds for the discharge of the remaining part of the principal of these notes, but the commission find that the \$3,033,384.53 is not properly chargeable

The company is to use the remainder of the proceeds, \$22,691,384.52 for the acquisition of property and for the extension and improvement of its facilities acording to a schedule filed with the commission. Not more than \$5,000,-000 is to be used for the purchase of new equipment and rolling stock.

The company is required to make monthly reports of its stock cales and must account for its expenditures. Within thirty days after the payment of the gold notes, the company must file with the commission a verified re-port showing the amounts and dates when paid:

ART LOAN EXHIBITION

Formal Opening To-night in Reference Library, College Street.

The formal opening of the Art Loan Exhibition, to take place in the gallery above the reference division of the new Public Library, College-street, takes place this evening, the lieutenant-governor doing the honors. Byron E. Walker, president of the Art Museum of Toronto, under the auspices of which the exhibition is being held, will de-liver the introductory address.

The exhibition will be open daily from 10 a.m. to 10 p.m. and will com-prise paintings by many of the old masters, as well as the more modern schools. Dutch, Flemish, British, Italian and other European schools will be represented on the walls by some of the best examples of art. On Saturdays, Nov. 27, Dec. 4 and 11, the gallery will be open to the pub-lic free, but on other days a charge of 25c will be made for admission. galleries have been well arranged and appropriate shaded lights put in, so appropriate shaded lights put in, so that the best possible view may be had in the evening. A full descriptive catalog of 130 pages has been prepared and Seats will be provided

TO THE WEAK AND NERVOUS

If you are losing the strength of youth and can see evidence from day to day that your physical system is going to decay, you should, in common justice to your future happiness, take steps to check this. Don't make the mistake of thinking that this can't be done; it can beand has been done in thousands of

Don't deceive yourself into believing that it is natural for any person to thus exhaust his strength.

Nature is appealing to you every moment to save yourself. The slight pains that you feel; the momentary spells of weakness; the periodical loss of memory, duliness of brain, drowsiness all point to the necessity of curing yourself now. I have a positive cure for you in my

Dr. McLaughlin's Electric Belt

No matter what ails you there is a cure for you in Nature's remedy—Electricity. The greatest cures on record have been performed by this famous Belt, and it is recognized to-day as the greatest remedial agent known to mankind. It cures every form of weakness, restores the fire and vigor of youth, cures all forms of Nervous Diseases, Kidney and Biladder Troubles, Rheumatism, Sciatica. Lumbago and many other complaints, after every other knewn system of medical treatment has failed.

medical treatment has failed.

Dr. McLaughlin:

Dear Sir,—I wish to say that your Belt has done me more good than all the medicine I ever took. I used it every night for about three moaths, and since then I do not need it. I can sleep well and feel as well as ever I did. I am only too pleased that I made up my mind to get your Belt. You have my permission to use this letter if you wish, as I will be only too pleased if it will help anyone to get a cure. Yours sincerely,

PROF. EDGAR L. LARKIN says:—"The trend of science is toward electricity on all sides. Discoveries made hour by hour point to one grand conclusion—the substratum of nature is electricity. Life, force and mind are intimately related with it. All animals are merely electric machines. A man, brain and body, is the battery, and nerves correspond to wires. It is now certain that transmission of sensation over them is electric. Nerves have been cut and a galvanometer inserted. The needle moved, proving that nerve power is electric.

The human system is an electro-chemic battery, and the life principle electrical.

"The electric age is here. Drugs are hard hit on all sides, and an intelligent physician tells me that he has almost entirely stopped their use.

"The word health now means a normal supply of electricity in the body, and the word disease means an insufficiency of that power."

If you are sick and discouraged, and have failed in your search for relief, with no result, try my Belt. If it fails to cure you, it costs you nothing. Beasonable security is all I ask. Remember, my terms are:

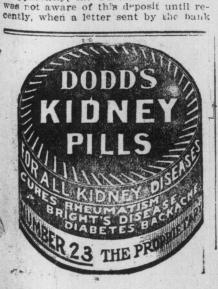

PAY WHEN CURED

My Belt is applied while you sleep. It sends a constant stream of electric life into the nerves and vitals all night long. FREE BOOK.—Cut out this coupon now and mail it. I'll send this book without delay, absolutely free. Call if you can. Consultation free.

DR. M. O Mclauchlin, 112 Yonge St., Toronto, Can. Dear Sir.-Please forward me one of your Books, as advertised.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got The New Method Treatment. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$12 a week in a machine shop before treatment, how I am earning \$21 and never lose a day. I wish all sufferers knew of your valuable treatment.

Some Fine Residences Change Hands in the North-County Council Meets Next Week.

NORTH TORONTO, Nov. 23 .- (Special.)-That North Toronto residential shown by the sale yesterday by S. J. Douglas of his handsome residence on Yonge-street to James A. Childs. The price paid, while a generous one, is only in keeping with the substantial advance generally in North Toronto values within the past year. The grounds are large and attractive, and Mr. Childs has acquired a splendid

deal with matters pertaining to the Christmas bazar. and blacksmith shop to T. B. Hopkins for the sum of \$7300 is also noted. Mr. Hopkins will at once assume possession of the house, and will carry on the

went thru yesterday is the purchase by S. J. Douglas, of the magnificent residence on Glencairn-avenue, for-nerly owned and occupied for a short time by Fred. J. Allworth, with the T. Eaton Company. Mr. Allworth had only recently completed this fine home this removal to Montreal, and the residence being offered for sale, Mr. Douglas was fortunate enough to become the owner. The house is one of the most commodious and modern in town, and commands a splendid situation. The property has Giencairn-avenue, of 100 feet, by a depth of 188 feet. Mr. Douglas will take possession within the next fort-night when some slight improvements

The town band the practice night of which has been changed from Thursday to Monday night, had one of the most successful evenings of the season last night, in the town hall. The band now numbers about 25 members, and in the latter part of the winter the first public concert will be held. An excellent concert was given to-

ville Young Men's Club, which again and the almost certainty that Agincourt will be right on the line of tract for drilling, with the young men's lady friends and the superstance of the tract for drilling, with the young men's lady friends and the superstance of the town. In Eglinton Methodist Church to-

morrow, Wednesday evening, there will be fine service of praise in which the local choir, and a number of wellknown city artists will participate. these will be Mrs. Sanderson, Mrs. Reburn, Bruce Bradley, H. P.

Don't forget the concert in the town hall on Thursday evening under the auspices of Eglinton L.O.L. A numauspices of Eglinton L.O.T. A num-ber of first class artists will assist Maclean, M.P.; Capt. T. G. Wallace,

Concert at 8 o'clock.

There are rumors around town respecting a movement on the part of the Metropolitan Railway to acquire Yonge-street for double tracking pur-

The downpour of yesterday had the effect of cutting cut a big hole on Yonge-street, opposite the Dovercourt Land Company's properties, about five not guilty. According to Wright's evidence Newsom chaimed that the feet deep, and at the same time carrying away about 100 feet of sidewalk which was deposited in the ravine at the side of the road. A force of men was at once put to work dumping fore, had a claim on the business. No metal and earth into the hole. To night the sidewalk has been replaced and Newsom was bound over in two and the damage repaired. Whether the company or the town will pay for the loss will likely give cause for who was hurt recently by being struck

Liquidation of Crown Reserve shares was not quite so precipitate during today's session and the stock, after a weak opening at \$4.50, managed to maintain at slightly better figures than restorder. Quotations ranged all interpretations of the stock of t

yesterday. Quotations ranged all the Trethewey—100 at 1.59, 500 at 1.59½. way from \$4.50 to \$4.65, closing around the latter figure.

The latter figure. The latter figure. The latter figure. The latter figure. La Rose was listless between \$4.56 at 15.

and \$4.50, closing two points above the latter. An easy tone was displayed by this issue thruout, the stock showing a tendency to sag when any large liguidating orders appeared in the marat 79, 200 at 79.

in the lower priced Cobalts, regaining 1000 at 38. some of its recent activity. The stock Watts-100 at 17. was buoyant thruout, selling up to 18 1-4, a gain of over two points from yesterday's close. Some profit-taking was encountered at times, but all offers were taken care of, and the shares closed at 17 7-8.

Reaver, Cobalt Lake, Foster, Peter-

Wall-street have served to keep the public interested in the larger markets, and with speculative attention attracted to other centres, the Cobalts have been subjected to some neglect. Despite from day to day has remained firm. with the exception of such of the higher priced mining securities as have been under pressure.

ROCHESTER MEETING.

Te annual meeting of the Rochester Cobalt Mining Co. was held yesterday afternoon at the offices of the company, 15 Toronto-street. Only regular busi ness was transacted.

The statement presented showed a balance of about \$40,000 in the treas-\$00,000 shares issued recently. The old board of directors were re-elected.

WIRES ARE DOWN.

On account of the severe storm on Monday all telegraph wires into Cobalt are down, consequently it was impos-sible to get into communication with the mining camp yesterday. This had a tendency to curb business on the local exchanges and the listless tone which characterized dealings was in some measure due to this factor.

VALUABLE PROPERTIES

Mr. Fraser Offers Immediate Profits.

The big values shown in the Gillies limit have already been more than de-monstrated by the celebrated Wald-man property, and the Yonge and O'-Brien claims. Previous to the uncovering of values on the above two pro-perties, the Gillies limit received lit-It is somewhat peculiar that this part of the camp, which is only about one of the camp, which is only about one and a quarter miles directly south of Cobalt, should not have been recognized as possessing big mineral values and more especially so because of the nearness of some of the large properties which have proved valuable since practically the opening of the camp.

It is not to be expected that every It is not to be expected that every section of the Gillies limit will prove a bonanza mine, but among the fortunate ones in making selections, it is now W. A. Fraser, of Georgetown.

the prices for which were \$26,230, \$50, 100, and \$21,000; respectively.

Within one hour after the offers had been accepted by the provincial mining department, Mr. Fraser was offering department, Mr. Fraser was offering department, Mr. Fraser was offered \$25,000 profit on lot 48, \$15,000 profit on 53 and S. J. Madden, who has acted for many important syndicates, offered for lot 98, \$50,000 above the price paid at the sale.

A United City.

Elik City is about equally divided into two parts by the Montreal River, while a third community has sprung into existence across Bear Creek which can foot in Januaches or canoes, or by the large transient population which are for lot 98, \$50,000 above the price paid at the sale.

paraded at night by the watchman, whose dury it was to see that no candle burned down to the woodwork, thus gering the building. To one in whose mind remained this

vhait dismal picture of a year ago the Esk City of 1909 came as a revelation. Darkness had fallen short-ly after the steamer cleared from Mountain Chutes. Soon the lights could be seen ahead, strong lights that shone decisively in the black setting of the night. It was perfectly clear to me when three miles down the river that Elk City had found new illuminants. The city seemed to spread itself out to the east and west like a blazing fan which cast a grotesque mirage of flame into the water. Lights tively supplementing the religious 43 Scott St. the blackness of the night, was an impressive sight in this country where contrasts heighten the tone of every impression. Lights appeared in camp buildings to the right and left. The sputtering of a gasoline engine was detected and in a few minutes a launch glidded past. And finally the steamer landed at the dock, where the pasengers climbed over the sides and irried off to the various hotels, for Elik Clity has a number of them now, the best in the north country. A well dressed clerk turned the re-gister around and I signed my name.

F. N. Burt Company, Limited.

The following information is supplied for the month of September and October, being the first two months of the new company, show an increase of 17 per cent, over the high months of the per cent. new company, show an increase of 17 to \$2,500,000. per cent, over the highest corresponding months in the history of the busi-

For the ten months of 1909 they exceed by \$33,000 the total shipments for the twelve months of 1908, and it is expected that for the whole year of 1909 they will exceed by upwards of \$175.-000 the shipments for the year 1908. It also expected that they will exceed the shipments for the year 1907, which is the largest previous year, by nearly

The Canadian branch of the company's business is also showing increases for the months of September and October. These were 15 per cent. in excess of the corresponding months

Dividend on Mackay. Mackay Companies declared quarter-ly dividend of 1 1-4 per cent. on com-mon stock, an increase of 1-4 per cent. quarterly. Also regular 1 per cent. on preferred stock, payable Jan. 3 to stock

of record Dec. 11. On Wall Street. Erickson Perkins & Co. (Beaty & Glassco) received the following letter: Liquidation had about run its course by midday and during the afternoon

DIVIDEND INCREASED, BUT STOCK DECLINES.

World Office, Tuesday Evening, Nov. 23.

An increased dividend on Mackay Common has been rumored for a long time, but confirmation of this was only received at the opening of this morning's market. The stock did not respond to the news and, in fact, declined to 931/2, compared to a price of over 96 some time ago. Under ordinary circumstances the shares should sell higher, but if the pool is distributing on the dividend increase, this is not likely to occur. A certain amount of nervousness as to speculative issues was felt again to-day, owing to the Wall-street irregularity, but this influenced trading rather than weakened prices. The market is in a waiting mood for the time being, and unless more stocks are thrown over prices are likely to resume the advance.

HERBERT H. BALL.

prices slowly recovered, with a quick (Tel. Main 7517), to-day report exchange usual after a collapse; it means the hasty retreat of shorts and a desire on the part of the pools to restore condence. The advance should go some further; then we would sell out long stocks bought on the break, and wait for them to go back again. Railroad stocks led the recovery the the Hart. stocks led the recovery, with the Har-riman issues prominent. CHICAGO. Nov. 23.—The anti-corner amendments to the rules of the board of trade was defeated at a special ballot today by a vote of 400 to 359.

The proposed rule provided that in case of a "squeeze" or "corner" in any commodity, a committee would determine the value of that commodity, on final delivery day, and the interested parties would be compelled to settle accordingly.

Another clause provded that if a member conducted an unjust deal or "corner" he could be expelled. W. E. ELMORE & CO. Brokers and Promoters TORONTO AND MONTREAL 614-20 Traders Bank-125-6 Coristi no Build

BUTCHERS' TRADE STEADY

Sheep, Lambs, Calves, Unchanged -Hogs Sell at \$7.65

The railways reported 102 carloads of live stock at the City Yards since last Friday, consisting of 1677 cattle, 781 hogs, 2216 sneep and lambs and 64 calves. There were 16 cars of northwest cattle, 19 cars of which went direct to the Harris Abattoir, and were not for sale on the

Four cars were consigned to John Squires and two cars to Geo. Dunn. Of the sheep and lambs, several car-loads were snipped direct to the Harris Abattoir, so that there would only be about 1200 or 1300 on sale at the market. There was a good trade for butchers' cattle at about steady prices, but there were cone sold at \$5.50 per cwt. The highest price quoted by Geo. Rowntree for butchers' cattle was \$5.30, and there were very few even at that, and few reached \$5 per cwt, and any quotations given above these figures are misleading, no matter from what source they may ema-

nate. Excepting about half a dozen bulls, there were no exporters on sale at this market. The bulls sold up to \$4.50 per

Butchers. Geo. Rowntree bought 560 butchers' cat-tle for the Harris Abattoir Company— steers and heifers at \$4 to \$5.30; cows at \$1.75 to \$4.50; bulls at \$2.50 to \$4.40 per

Stockers and Feeders. There was a fair trade in stockers and feeders at steady prices, as follows: Best feeders, 900 to 1050 lbs., at \$4 to \$4.50; best feeders, 800 to 900 lbs., at \$3.50 to \$3.80; good stockers, 500 to 700 lbs., at \$2.75 to From the Cumberland stables (John \$3.25; common stockers, 500 to 700 lbs., at

Underwear for Men Who Work Outside

A MAN who does real work cannot be bothered with a Coat half the time. Cold weather or hot, he likes to work in his shirt sleeves, so it is important that he choose the right kind of winter underwear-you'll agree with us there.

But, as you know, a man is not the best judge in the world when it comes to buying woollens. Often he will get hold of a cotton mixture and never know the difference. He'll find out, however, the first time he wears it and gets cooled off in it.

Now, we want to make this fact plain—we have the Wooly Wool Underwear—lots of it and you may trust us to sell you what you want. Here are four English lines we back with all the conviction we know how:

"Stralian," imported English natural wools, light, natural shades, fine soft yarn, well knit and sized; made in sizes 34 to 46; one of our best, values at, per garment. Thursday, \$1.25.

"Pénman's" extra heavy natural wool; the standard shade; best trimmings; shirts or drawers; sizes 34 to 40. These garments are non-irritating to the most sensitive skin. A good investment at, per garment, Thursday, \$1.25.

"Britannia," natural w "Britannia," natural wool, extra fine and heavy, soft and closely knit: a garment all through of good value; imported England; sizes 34 to 48; one of the best values we offer at, per garment. Thursday, \$2.00.

"Wolsey," extra heavy natural wool; shirts made double back and front; drawers have double back; made with spliced elbows and knees; sizes 34 to 48; one of our best sellers; \$2.50.

See Our Coon Coats Thursday at \$33.00

V OU'D judge them up for \$50.00 Coats sure. Winter Caps are here, too, when you want them—the ear-protecting kinds.

20 Men's Canadian Raccoon Fur Coats, natural dark and heavy furred skins, well matched, strongly sewn, and well lined, deep storm collars and 50 inches long. Thursday

WINTER CAPS, 50e to \$1:00. Men's Winter Wear Caps, with fur bands to pull over the ears, in tweeds, corduroys, serges, beaver cloth, sealette and curl cloth, extra good values at 50c, 75c, 85c and \$1.00.

An Ideal Winter Overcoat

A T \$14.95 we can give you a Coat made up in the fur-lined style with an Otter

Now, there's a Coat worth seriously con-

You have the chief comfort of a fur coat, namely, the snug fur collar, and you don't have the excessive weight. It looks-well, there's nothing to choose between it and a regular furlined coat costing several times the price:

Made of a smooth finished rich black imported English beaver cloth Coat latest style, double-breasted, lined with heavy quilted Italian cloth, finished with mohair-covered barrel buttons and loops, deep shawl collar of full-furred German otter, a storm resister, presenting all the appearance of the fur-lined coat.

Men's College Ulsters, dark brown and Oxford grey cheviot inished tweed coatings, Prussian collar, heavy twill mohair lin-ngs, glissade sleeve lining, \$12.50.

Sahlin Perfect Form and Corset Combined

THREE hundred and sixty-six pairs of this perfect figure builder just to hand. If you have never seen the "Sahlin" you should make it a point to do so to-morrow. Ask to have it explained and demonstrated to you. It has wonderful possibilities. Try it, and you will prove for yourself that it will do all that is claimed for it.

The 'Sahlin' made of fine coutil, in bodies, lengths 56, 58, 60 inches, Thurstwo lengths, no hooks, no clasps, no day, each, 48c. yelets, no strings, no heavy steels, high bust, tapering walst, light weight, absolute comfort, self-adjusting to every figure, sizes to fit 32 to 38 bust measure, Thursday \$1.25. WOMEN'S FLANNELETTE NIGHT

DRESSES-NO PHONE ORDERS. Every one of these gowns will be gone before moon, so come early if interested. At, the present price of cotton you could scarcely buy the material of which they are made for the price we ask for the finished garment Thursday.

neck, front and cuffs, large, full-sized each, 890

WOMEN'S COMBINATION UNDER-WEAR. Slight imperfections and small displorations make a difference of price n this underwear of exactly half. The vearing qualities, however, are not affected a particle. Come Thursday for

Women's Fine Union Suits, slightly mperfect, white or natural ribbed fine wool with single thread of cotton in We cannot promise to fill phone or mail back of rib, unshrinkable quality, high 300 only Women's Nightdresses, fine ence style, buttoned across shoulders, neck, long sleeves, ankle length, Flor-

quality fancy striped flannelette. Mo-ther Hubbard yoke, frills of goods on price if perfect \$1.75 each; Thursday.
