NOT MELON YEAR C.P.R. SHOWS IT

Stock Has Receded 20 Points Because of Inability to Realize Guarantees.

NEW YORK, July 22.—(Special.)—The action of the Canadian Pacific stock on the market here and in Europe is due largely to the inability of the management in Montreal to guarantee a "melon" of any kind this year.

The stock was sent soaring to 200 on the report of bigger "rights" than ever going to the shareholders at the forthcoming meeting—a new land company made of shareholders with "rights" in the present lands owned by the company—like Jim Hill's ore rights—and perhaps twenty millions more of stock at a small premium.

In consequence to the opposition to these "melons" that has developed in Canada, and the injection of the question into the political field, with a demand for lower rates on traffic; in consequence also of a partial crop failure in the three western provinces, Sir Thomas Shaughnessy and his inside associates have not been able to guarantee what was in substance hinted at in May and June.

Montreal buyers at the high prices are badly hit. The company and the syndicate in control at Montreal could put up the shares if they had a short interest to tackle; but if it is so that the whole range of investors are sore, it will be impossible for anyone outside of a fifty-million cash pool to head off a selling movement.

C.P.R. sold on May 21 last at 198 1-4 and to-day at 179 1-2, a loss to shareholders of nearly $34,000,000.

TOBOGGED AT MONTREAL

Long Expected "Break" in Stock Values is Under Way.

MONTREAL, July 22.—(Special.)—Stocks went tumbling at a great rate on the local market to-day, when heavy liquidation developed in the active speculative securities.

Among the leading financial men here a big break in stock values has been expected for several weeks, but it has been headed off until weakened by the slaughter in C.P.R. and Soo on other exchanges.

With the break in these premier securities, other active specialties, which were bulled during the latter part of 1909, have been coming into the market in considerable volume, and there was little support for any of them except from short covering by those who saw the inevitable collapse in this market.

Dominion Steel Corporation, Montreal Railway, Quebec Light and Power, Montreal Power, and Soo were the principal issues sold. At the close of the market there was considerable uneasiness owing to the various rumors, which were unconfirmed, however, that the big break in the market would result in failures.

The banks have put a tight rein on loans and it is almost impossible to get any accommodation from these institutions with stocks as collateral at the present time.

FIVE MEN IN A TRENCH ARE OVERCOME BY GAS

Might Have Lost Their Lives Had Not Rescue Been Quickly Accomplished.

Five men came close to death by asphyxiation in a trench at Sherbourne and Duchess-street, where they were making a gas connection, at 5 o'clock yesterday afternoon. They were Gordon, James and Alexander Thompson, 107 Yarmouth-road, Alfred Baker, 49 Jones-avenue, and Jack Crest, Gardenavenue, employes of the Consumers' Gas Company.

They had stopped off the gas from a section of the main by the insertion of a big rubber bag inflated to block the pipe, and were cutting off the emptied end when the bag was punctured, allowing the gas to escape.

The men were immediately overcome and it was with difficulty that they were withdrawn from the trench. So rapidly did the gas escape that it soon filled the street, and even loiterers who hung about were made dizzy. The police ambulance was summoned, but when it arrived Drs. Simpson and Glendenning had all the men returned to consciousness.

The escape of the gas became dangerous because of the possibility of ignition, and John Laxton, superintendent of the company, undertook to shut it off. He descended into the trench with his head swathed in sacking and finally succeeded in doing so, but was in a serious condition at the end of his strenuous task.

POLICEMAN ON EVERY BRIDGE

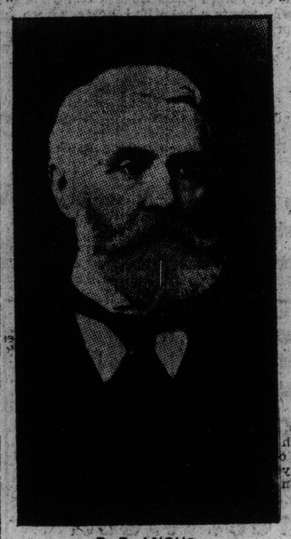

Will Guard Against Any Tampering With G.T.R. Property.

Yesterday a policeman was placed upon every bridge in the city over the G. T. R. tracks. This is following the company's allegation that the wreck of the Muskoka express Thursday morning immediately north of the Dundas-street bridges, was caused by tampering with the tracks.

Thirty extra policemen were sworn in by the company.

Albert George, 340 George-street, fell from the first storey of a Front-street building where he was at work yesterday, breaking his right arm. He was taken to St. Michael's Hospital.

ATTACK BY SOCIALISTS ON THE ROYAL FAMILY

Make Effort to Reduce the Civil List and to Exclude Most of the King's Children.

LONDON, July 22.—After an acrimonious debate, in which the royal family was dubbed "immoral" by a Laborite, the house of commons this evening granted the King and the members of the royal family a civil list of $3,106,600 yearly.

A motion made by George Barnes, the labor leader, to reduce the civil list by $950,000, was voted down, 206 to 26. Keir Hardie moved to omit from the list provision for all the King's children with the exception of the young Prince of Wales, and to provide for the Queen Mary only in the event she survives King George.

"These proposals mean that the English people must furnish money to enable royalties to lead lives of ease and luxury and idleness, without giving any service to the public in return," shouted Mr. Hardie, who challenged Chancellor of the Exchequer Lloyd George to reply, but the noted Welshman said nothing.

W. H. Dickinson, M.P., suggested to the commons that it was absurd to give young children the expectation that eventually they would come into great sums of money without even their father having a "say so" in the matter.

Chancellor Lloyd George, replying to Dickinson, said he agreed with all the demands of the government, adding that the money for the minor children of the royal families would be paid over to their trustees. Hardie's motion to exclude the children was defeated, 207 to 20.

The government's proposal, carrying a civil list of $3,106,600, was thereupon formally adopted.

REGULATE SALE OF POISONS

Hardware Stores Should Be Restricted Same as Druggists.

That the sale of poisons by hardware stores should be subject to regulation, was the recommendation of the jury empaneled by Coroner Gilmour of West Toronto to enquire into the death of James Doyle.

Doyle, who was living apart from his wife, had been drinking heavily, and on July 13 committed suicide in his boarding house by taking paris green, which he obtained at a hardware store.

The jury did not attach any blame to the proprietor of the establishment, but thought it would be wise to impose restrictions somewhat similar to those which regulate the sale of poisons in drug stores.

BARGE RAMMED GATES

Accident in Cornwall Canal Does Thousands of Dollars' Damage.

CORNWALL, July 22.—(Special.)—Every available man of the Cornwall canal staff is working night and day to repair the damaged lock 18, caused by the George Hall Company's steam barge Phoenix, which rammed two gates out of that lock this afternoon.

The rush of the water into the lower level resulted in several thousand dollars worth of damage to the plant and stock of the Dundas Mill, into the card room of which the water rose to the height of four feet. The office was also flooded to a certain extent.

A big staff is working on the repairs, which will require from two to four days.

Want Roosevelt and Whitney.

NIAGARA FALLS, N.Y., July 22.—To-day Mayor Anthony C. Douglass and Colonel David Isaacs of this city are to call on ex-President Roosevelt in New York in an effort to induce the colonel to attend the Good Roads Congress here the last three days of this month. Thousands from all over the United States and Canada will attend the congress, and it is the desire of the executive committee to secure the colonel as a speaker. Sir James Whitney has been invited and will likely be present.

WAS BANK CLERK NOW PRESIDENT

R. B. Angus Is Placed at the Head of the Bank of Montreal's Affairs.

MONTREAL, July 22.—(Special.)—The financial community is jubilant over the appointment of R. B. Angus, senior director, as president of the Bank of Montreal, the choice having been made to-day at noon. The same meeting of directors also elected H. Vincent Meredith, manager of the Montreal branch, and assistant general manager, to a seat on the board of directors, both appointments being made necessary by the death of Sir George A. Drummond.

Mr. Angus entered the Bank of Montreal in 1857, and altho he was a married man his salary was then $600 per annum. He worked up to the position of general manager, leaving the bank in 1879 to accept the position of manager of the then newly acquired St. Paul, Minneapolis and Manitoba Railway. He was made a director of the bank in 1897. Mr. Angus is a director of the C. P. R. and is generally considered the financial genius behind Sir Thomas Shaughnessy.

There is a legend in Montreal that when Mr. Angus left the bank, he was obliged to do so because of the St. Paul transaction, in which Lord Strathcona, Lord Mounstephen, Jim Hill and others were engaged, the statement being made a thousand times in a thousand places that these magnates borrowed millions from the Bank of Montreal without security, and that, had things gone wrong, the future of the bank would have been jeopardized.

This, however, is an absurdity from beginning to end. The loan amounted to about half a million dollars only, and the security was of undoubted quality. In fact, had everything gone to the bad, instead of making the men millionaires, the bank would not have lost a single cent.

Mr. Angus, who was born near Edinburgh, Scotland, in 1851, first entered the service of the Manchester and Liverpool bank, coming here in 1867 to enter the Bank of Montreal. In 1863 he was placed in charge of the Chicago agency, and a few years later was made representative of the bank in New York, returning to Montreal to become local manager, and in 1867 becoming general manager.

He was one of the original C. P. R. syndicate in 1880.

Mr. Angus is known as a generous patron of art, and has one of the finest private art collections in Canada. He has also been prominently identified with the Royal Victoria Hospital, McGill University and various charitable organizations. It is understood that he will soon be knighted.

H. Vincent Meredith, who entered the bank in Hamilton in 1867, is also a safe banker and his promotion a well-merited one.

NOT BLACKMAILERS

Says Balfour's Argument is Shattered by Canadian Farmers.

LONDON, July 22.—The Daily News says: "We should have thought that even the most reckless imperialists would have hesitated to represent the attitude of the colonies towards the mother country as that of blackmailers demanding costly concessions by menaces. The whole substance of Balfour's argument was drawn from Canada. The memorial of the Canadian farmers shatters every one of his statements of facts and demonstrates the utter futility of his threat of secession.

The Standard says that the demands of the western farmers are explicable as being a counterblast to the agitation of eastern manufacturers for higher protection and ridicules the idea of the free trade press here, that the views of a so-called gigantic delegation is more truly representative of Canadian opinion than the publicly expressed views of her statesmen.

BELLEVILLE OLD BOYS.

BELLEVILLE, July 22.—(Special.)—Belleville is expecting a big time tomorrow when the Old Boys' excursion arrives. The Grand Trunk are running a special, leaving Toronto at 8 and due here at about 11.30 a.m.

BROCKVILLE CROWD ATTACKS DEPOT SEVERAL MEN BRUTALLY ASSAULTED

Mob of 1000 Batter Into Agent's Office, Break Windows and Turn Hose on the Railwaymen.

TWO SO BADLY INJURED THEY GO TO HOSPITAL.

BROCKVILLE, July 22.—(Special.)—A mob, estimated to number about 1000 persons, late Friday attacked a number of non-union Grand Trunk employes in the station here, severely assaulted about a dozen of them and badly wrecked the building. Two men had to go to the hospital.

At 1 o'clock this morning the crowd is still hovering around the depot, awaiting the arrival of the Montreal local, which was due at 11.25 p.m., but which is apparently being held down the line until the crowd disperses. Station Agent Patton has asked the mayor to call out a militia company, but nothing has been done.

Altho the crowd had been gathering around the station from about seven o'clock, only two town policemen were on the job, and they were useless. The chief himself left the station a few minutes before the rioting broke out.

The disorder followed the arrival of the local passenger train from Toronto and a freight. Half a dozen Thiel detectives, a couple of trainmen and Road Foreman Szammer of Belleville were in the station agent's office, when the crowd made an ominous movement in that direction. Those inside bolted the door, but, while some of the crowd used a baggage truck for a battering ram, others began to stone the windows, and others again got out the company's hose and began to flood the office.

The occupants, unable to withstand the siege, came out on the platform, when they were surrounded by the crowd, and struck and kicked and generally assaulted.

Then the crowd moved against the telegraph office, where P. F. Wilcox of Toronto, the conductor of the local from Toronto, with two other Toronto men and a despatcher named Johnson of Belleville, so it is said, were sitting. Somebody in the office fired a revolver shot thru the window to scare the invaders, but they came right on, forced the men out, and set upon them so savagely that Wilcox had to go to the hospital, suffering from cuts about the head and body.

E. Course, a private detective from Montreal, is also in the hospital. His shirt was soaked with blood when he was admitted. He said he had been hired to act as a special officer to protect trains along the line to Montreal. Wilcox says he was out of employment when he was engaged by the railway in Toronto.

The windows, doors and furniture of the station are practically destroyed.

Great excitement prevails in the town. Altho a crowd has been gathering nightly at the station it has heretofore been only in a curious mood.

FIRE IN BOX FACTORY

Hamilton Firemen Manage to Avert Conflagration.

HAMILTON, July 22.—(Special.)—Fire threatened the Ontario Box Factory about midnight, but owing to the hard work of the firemen, the plant was saved. The fire broke out in a pile of sawdust in the boiler room and it looked as tho the serious fire of ten years ago might be repeated. Had it not been for the sprinkler system and automatic alarm, the fire would undoubtedly have been serious.

William Hammil, North Bay-street, was arrested to-night at the request of the Dunras police on a warrant charging him with assaulting his mother-in-law, Mrs. Devlin of Dundas.

Young Wife Suicides.

CARMAN, Man., July 22.—Mrs. Wilkie, wife of William Wilkie, a farmer living six miles west of Carman, committed suicide last night by drinking carbolic acid. The deceased wife was a young woman, about thirty years of age. She is survived by a husband and two children.

The absorbing news topic is the G.T.R. strike. It will be covered up till the last minute.

IT IS UP TO MR. HAYS

Mr. Hays cannot be advised by the heads of the organizations now on strike how to settle it; but he can be advised by his own assistants and deputies, who are in direct touch with the men, and who understand the situation; and if he gives them a free hand to outline such advice, and if he will be guided by the same, The World believes an honorable adjustment may be reached.

Still Are Dead Locked On Arbitration Point

Mackenzie King Asks for Definite Replies But Get Only Repeated Offer Under Old Terms.

As far as the public can see there is no change in the strike situation, altho well posted people in Montreal state that an arbitration is near at hand. So far, Hon. Mackenzie King has made little progress towards that end. From the men's side comes the statement that they will accept the minister's offer to create an arbitration board, but they demand American arbitrators, which could not be accepted either by the government or Mr. Hays. It is believed that if the fight continues for some days more without either side scoring success, each will most likely accept the government's good offices.

Passenger trains are moving freely and some progress was made yesterday with freight, one being sent thru from Sarnia to Montreal.

The company have asked for police protection from a number of towns, with the intention of trying to start freight moving more generally to-day.

MONTREAL, July 22.—(Special.)—The following reply was sent to Hon. Mackenzie King's telegram by James Murdock this morning:

"Replying to your telegram of even date, wherein you ask if we will now be willing to refer existing differences to arbitration, provided a board of arbitrators mutually satisfactory can be secured, I answer 'yes,' and believe that our position in that connection has been fully outlined in previous correspondence.

"It should be understood, however, that the two words, 'mutually satisfactory,' from our point of view, would mean that arbitration offered by us previously, and now offered, would only appear to be satisfactory to the employes.

"The general committee, before leaving for their respective homes on Saturday last, to order a strike on Monday evening, unless satisfactory settlement had been previously arranged, definitely passed on this phase of the situation and instructed their representatives, without further instructions from the general committeemen, who pass judgment on and instruct in these matters, we would not be prepared to go further than outlined in previous statements to you.

Will Pay the Cost.

"We do not think the government should be called upon to bear any part of the necessary expense incidental to the convening of the board; the government has already expended considerable money in this regard for little or no purpose. The organizations to which these men who are on strike belong are well able to pay all or part of the expense incidental to the convening of a board to dispose of these matters.

"We regret exceedingly, for the sake of the public and your government, the extraordinarily unusual and inconsiderate attitude of the other party to this dispute that caused the employes engaged in this strike to leave the service of the company, and thereby make effective the largest strike in train and yard service that these organizations have ever been called upon to participate in.

Could Quickly End It.

"We will undertake to promptly assist you in bringing about normal conditions on the Grand Trunk just as soon as we can be advised that our offers of arbitration, repeated heretofore, have been accepted."

Mackenzie King Wants Straight Reply

OTTAWA, July 22.—Annoyed by the evasive answers received from both parties to the G.T.R. strike, Hon. W. M. King, minister of labor, yesterday sent telegrams to Messrs. Mays and Murdock, saying:

"Referring further to my letter of the 20th instant and the replies received, I would respectfully point out that neither the reply from the president of the company, nor the reply from the representative of the general committee of the employes, answers the question it asks, which is, whether, as representing one of the parties to the present dispute, you will be willing to refer the existing differences to arbitration, provided a board of arbitrators mutually acceptable can be secured, and the necessary expense incidental to such a board be met by the government.

"This is a question to which the people of Canada, who, at the present are being more largely affected by the existing dispute than either of the parties, have a right to expect a definite reply, and which, as a minister responsible to them, I feel it my duty to ask on their behalf.

Wants It Direct.

"Will you kindly give a direct answer to this question at your earl-

WHAT KEEPS THEM APART?

It is surely a strange situation—both the Grand Trunk and the striking employes professing a belief in the blessed principles of arbitration, but unable to put them into practice. Why should there be an unbridged gulf between these two proposals?

G.T.R.: "We are willing to submit the whole question at issue to a board of arbitrators, composed of experienced railway men, with the obligation on our part to abide by the result of such arbitration, conditional only upon the employes in question agreeing to do the same."

THE MEN: "We offered some time ago to leave this entire matter to the disposition of Hon. E. E. Clark of the U. S. interstate commerce commission, and to P. H. Morissey, president of the Railway Employes and Investors' Association.

SERVICE INTO NORTH BAY IS STILL DISORGANIZED

Only One Train in Two Days—Young Man on Way to Get Married is Stranded.

NORTH BAY, Ont., July 22.—(Special.)—The strike situation here is practically unchanged. Thursday not one Grand Trunk train, freight or passenger, entered or left this station, altho one passenger train from Toronto reached Callander, 12 miles south, where it remained all night, returning south this morning without completing the journey to North Bay.

No tickets are being sold out of here by the G. T. R., passengers for Toronto going via Sudbury, while those for intermediate stations have to stay here and take a chance on an occasional train being sent out. Some have waited two days now, including a young man from Cobalt who was to have been married in Burk's Falls yesterday, but was absent at the altar on account of the strike, and phoned his regrets. Liverymen are driving passengers to Callander, where it is reported trains stop and return south.

Not a wheel turned here to-day until 7.30 p. m. when a train arrived from Toronto with mail and a few local passengers, in charge of Trainmaster Pickett. No demonstration occurred. No Grand Trunk trains are booked to leave to-night, but it is expected that a passenger train will leave in the morning. Delayed mails are arriving at all hours, via the C. P. R., and the postoffice keeps open until 10 o'clock each night to accommodate the public.

Another Train Running.

GALT, July 22.—(Special.)—The first regular train over the Harrisburg-Southampton branch line since the strike was inaugurated, went thru to-day, one each way. Agent McCallum expects that they will be regular. Delayed mail arrived in large quantities at the Galt postoffice this morning.

Disarmed by Police.

WHITE RIVER JUNCTION, Vt., July 22.—Fearing that further disorder would follow that of last night, when non-union men manning Central Vermont passenger and freight trains were attacked, a large number of police were scattered about the yards today.

One of the strikebreakers was arrested for flourishing a revolver in the face of a striking freight brakeman. As a result of this incident, the police immediately disarmed the strike-breakers.

FATAL HOTEL FIRE.

HOQUIAM, Wn., July 22.—It is now believed five persons perished in the fire which destroyed the Hotel Hoquiam early to-day. The body of C. E Junnet, a lineman, was taken from the ruins to-day. There are two other known dead and two missing.

A MILE OF FREIGHT CARS.

There is a line of box cars in the West Toronto yards. It extends in a long line, nearly a mile in length, from Royce-avenue almost to the Dundas-street bridges. In some places it is a double line.

RAINY RIVER IS IN DANGER AGAIN

Fire Regains Headway and C. N. R. Roundhouse Is Threatened — Many Leaving the Town — Winnipeg Sends Steamer and Detail of Firemen on Special.

BEAUDETTE, Minn., July 22.—(Special.)—Forest fires, which were fanned by a strong wind yesterday, were under control last night, when the wind dropped, but regained headway again to-day and are threatening the Canadian Northern Railway's round-house at Rainy River. The C.N.R. have a large gang of men on hand to protect their buildings.

The fire, which was burning in the vicinity of Spooner, a small village across the river from Rainy River, burned out several settlers, many of them losing all their belongings. The party who were fighting the fire were forced to the river on account of the heat becoming too much for them to stand. Apparently the fires die out at night and burn underground, but as soon the wind rises in the morning regain force. The air in the Towns of Beaudette and Rainy River is dense with smoke, it being almost too thick to see a hundred feet in any direction.

Many of the people are leaving the Town of Rainy River. This afternoon it is expected the town will be saved, as it looks as tho the fire had been checked at right-of-way. Thousands if cords of pulpwood have been burned and the cabins of twenty settlers have been destroyed. It is reported that two little girls in the Rainy River district wandered into the forest and were burned.

The fire to the south of Beaudette is almost burned out and was under control at 3 p.m.

Help From Winnipeg.

WINNIPEG, July 22.—(Special.)—A small crowd of curious spectators saw the embarkation of a steam engine whose wagon and detail of six picked men were sent by special this morning to the relief of Rainy River, at the urgent request of the mayor of that town. The party was in charge of Assistant Chief Code.

Within Limits of Kenora.

KENORA, July 22.—Bush fires continue to burn in this vicinity. One outbreak has been checked on Old Fort Island within the corporation limits. A fire is burning one mile north, but it is believed the greater danger is passed. Fires were burning fiercely along the west shore of the Winnipeg River, north of Keewatin, this afternoon. Houses were in danger and much valuable timber was destroyed.

In Lake Up to His Neck.

NEGAUNEE, Mich., July 22.—Forest fires last night reached the city limits, and to-day Negaunee is enshrouded in a pall of smoke. The fires abated some towards morning. Many homesteaders have lost their homes and their property is practically ruined. The loss to lumbermen will be enormous.

John Carlson, a homesteader, living near here, was driven into the lake by the fires last night, and with water up to his neck he stood all night and watched the flames wipe away his home. He is in a serious condition from the long exposure.

Half a Million Loss.

WASSAU, Wis., July 22.—The fires near Gallaway which caused disastrous losses yesterday, are reported to-day fairly under control. The flames still extend five miles east of Eldron to Pike Lake Village, and large crews of men are fighting the fires thruout the standing timber in that district. The loss yesterday in standing timber and logs according to conservative estimates is $500,000.

Steamer Burned.

CHICAGO, July 22.—The steamer T.R. Wiehe of the Hines Lumber Co., Capt. R. D. Myers, was destroyed by fire on Portage Bay, near Escanaba, Mich., according to advices received to-day by the owners.

At the Queen's Hotel.

Sir William and Lady Ramsay arrived at The Queen's yesterday.

July 23, 1892: Provincial prohibition was favored in Manitoba by a vote of the electors of the province.

DOG DAY HAT SALE.

Most of the hot weather is yet to come, and the straw hat men are in their glory with the prospect of some good heavy days of selling. The Dineen Company, however, are going to cut the season short by clearing out the stock of men's straw hats, both Panama and plain straw sailors. The fact is that the company is forced to do it because of the extensive building operations now going on. To-day every straw hat for men in the store is reduced in price by at least fifty per cent. Exclusive designs by the best of English makers are marked at $2.00 and Panamas start at $5.00. Store open every evening.

HAMILTON HAPPENINGS

ASSOCIATE ARCHITECT FOR LIBRARY BUILDING

Was One of the Judges in the Competitions—Strikers Ejected From the Station.

HAMILTON, July 22.—(Special)—The building committee of the public library board held a meeting this afternoon, and appointed Architect Green of Buffalo associate architect with A. W. Peene on the new library building. This was acceptable to Mr. Peene, but it is not known whether Mr. Green will consent to act. He was one of the judges of the plans submitted in the competition for the architectural work of the library.

The committee also decided not to try and sell the buildings on the library site just yet.

The board of control had a private session this afternoon with representatives of the Dominion Power and Transmission Co. for the purpose of considering the various matters in dispute between the city and the company. Nothing was agreed upon, but the deputation promised to meet the board again, and resume negotiations. J. R. Moodie, the president; General Manager Hawkins, and Traction Manager Coleman represented the company.

That the local officials of the Grand Trunk Railway anticipate trouble when the company makes an attempt to operate its freight cars was evident this morning when a number of employes were sworn in as special constables and detailed to assist the seven former city policemen who were sworn in a few days ago. Already the special police and the strikers have clashed, a number of the latter being ejected from the Stuart-street station yesterday afternoon and this morning. Several of the constables are stationed on the platform with instructions to order off all those they know to be strikers.

The freight traffic is still at a standstill, altho a number of trains containing live hogs consigned to F. W. Fearman & Company were moved from the yards to the factory yesterday, the trains being manned by union engineer and fireman and by a number of non-union switchmen. No attempt will be made to-day to move any freight, altho such is expected to be done within a few days, possibly to-morrow.

This morning Hugh F. Davies and W. H. Shawcross, 61 North Victoria-avenue, reported to the police that they had been held up last evening on Hunter-street near Hughson-street, by two toughs, and that they had been assaulted. Davies claimed that the pair who did the damage were thieves and were trying to get away with his watch. Detectives Sayer and Coulter investigated. They found the men who did the damage, and who claim the pair who reported that they had been assaulted deserve all that they got. The accused say they were with ladies and were insulted by the pair, whom they thrashed.

Weston Imitator Arrested as "Vag."

Policeman Bolton (235) is no sport. That is the opinion of Frank Hines, who is on a 15,000-mile walk across the continent. The cop collared Frank in the Kirby House yesterday and charged him with vagrancy. Frank protested that he was no vagrant, and produced letters from the mayors of Ottawa, Valleyfield, Hull, Montreal, Brockville, Belleville, Cobourg, Napanee and Cornwall, and another signed by Mayor Geary, to show the big business he had on hand, namely, to walk across the continent. He said he was only offering to distribute the hotel cards as he went along, but Bolton seemed to think he was begging, and turned him to face the magistrate this morning.

Pain in Heart

"For two years I had pain in my heart, back and left side. Could not draw a deep breath or lie on left side, and any little exertion would cause palpitation. Under advice I took Dr. Miles' Heart Remedy and Nervine. I took about thirteen bottles, am in better health than I ever was, and have gained 14 pounds."

MRS. LILLIE THOMAS,
Upper Sandusky, Ohio.

For many years Dr. Miles' Heart Remedy has been very successful in the treatment of heart troubles, because of its tonic effect upon the heart nerves and muscles. Even in severe cases of long standing it has frequently prolonged life for many years after doctors had given up all hope, as proven by thousands of letters we have received from grateful people.

SWANSEA PEOPLE HOT AFTER SCHOOL BOARD

Want Them To Resign on the Spot—Big Meeting Voices Disapproval—N. Toronto News.

SWANSEA, July 22.—(Special.)—Swansea people are up in arms and not even the G. T. R. strike or matters provincial or federal could arouse a fraction of the interest which to-day attaches to the action of the school board in the dismissal of Principal Beecroft of the Swansea school. It is many a long day since the little burg was so excited and to-night's mass meeting held in the Baptist mission tent just a short distance from the school, was a rouser, the place being packed to the doors, and the excitement intense.

The ex-principal was there and got the reception of his life.

The circumstances leading up to the present trouble are briefly these. Three years ago the board engaged William Beecroft, but the latter's failure of two years ago to successfully pass any entrance pupils save one, is said to have displeased the trustees, and this year, just before the examinations came on, the board, composed of Dr. Spaulding, R. C. Smith and Samuel Wright, asked him to resign, which he did. Later, when the results become known and it was shown that Beecroft had succeeded in passing four out of 5 candidates writing, all of them with honors, and two of them succesful in winning the gold and silver medals annualy donated by the York Township Council, and open to the whole township, there was no end of trouble.

To-night's gathering was in the nature of a protest, and John R. Robinson, editor of The Evening Telegram, was chairman and made a rousing speech, eulogizing the late principal, charging that the act of the trustees was high-handed and that of intermeddling busy-bodies. "I am glad to see that you have not lost your sense of fair play and justice," said he, "and counseled them to stand firm in defence of their rights, and if possible secure the reinstatement of the late principal.

A dozen or more of the leading ratepayers in the district spoke disapproving of the action of the trustees and expressing their determination to fight the matter to the bitter end.

Mr. Beecroft was presented with a magnificent gold watch and Mrs. Beecroft with a dozen silver spoons.

A resolution calling upon the school board to call a special meeting, and another asking them to resign forthwith was signed by every ratepayer present. A petition, signed by 350 residents, expressing confidence in Mr. Beecroft, was shown and his appearance was the signal for a tremendous ovation. Altogether, the affair is making no end of excitement. Whether the board will consent to call a special meeting or resign, or both, or neither, are open questions, and the end is not yet.

NORTH TORONTO.

Members of Council All Express Desire for Sewage Plant.

NORTH TORONTO, July 22.—(Special.)—A meeting of the town council in committee of the whole was held to-night, Councillor Reid in the chair, when the matter of the construction of a sewerage system was the chief subject under discussion, and following a declaration by the members individually favorable to the prosecution of the work, a good deal of discussion ensued.

On the suggestion of Mayor Brown, Engineer James was invited to join in the discussion, and it was agreed that the latter's advice would largely guide the course to be finally adopted.

The engineer suggested that a profile of every street in town should be prepared and the sewerage system in its initial and final stages conform to city requirements, whether the system was of an independent nature of not.

He urged that the measurements taken should be accurate and not superficial, and incidentally stated that there were in town at the present time about 35 miles of streets. The question as to whether the system should be a combination one or separate ought also to be decided, he favoring rather the separate as most in vogue thruout the country.

Councillor Lawrence threw out the suggestion that the engineer could also report as to the financing of the project, but his confreres objected to this as outside his duties.

By a unanimous vote it was decided that the engineer be instructed to secure from T. Aird Murray, C.E., profiles of the streets of the town, including the parallel roads and showing: (a) All manholes; (b) all sewers with relation to their size and grade; (c) location of Toronto sewers; (d) cellar levels; (e) all levels to be taken from the Toronto B. M., the total cost not to exceed $250.

Following this disposition of the sewerage question, the members again resolved themselves into a committee of the whole to consider the double tracking of Yonge-street, macadamizing, the object onal le blowing of whistles, crossings, platforms for passengers, the fenders in use on the freight and passenger cars.

All these matters were taken up in detail, and while the discussion was only informal, it was felt that some drastic reforms were necessary, tho council was evidently in doubt as to the best solution of the trouble. One thing the committee did was to agree to write the general manager of the Meropolitan Railway, asking him to submit a written offer re the running of Sunday cars.

Solicitor Gibson is away on his holidays and members were not altogether sure of their ground legally, and so no very great progress was really made, as the whole question will in any event come up for final disposition at next meeting of the council. In the last analysis the ratepayers will be called upon to decide on the merits or demerits of a local sewerage scheme, and while the council are to be commended on their efforts to do something along the line of sanitation, the proposal to go on with the work is not thought to be generally favored around town. A condition of the plan is that no vote shall be taken before the next municipal elections, and long before that the question of annexation will be voted upon and carried beyond the shadow of a doubt. The effort to introduce a sewerage scheme at this particular time looks to many like an attempt to head off the annexation movement.

The delegates from York Lodge, North Toronto, in attendance at the Belleville meeting, all arrived home this morning, having greatly enjoyed the trip. "There was a good deal of routine work," said Mayor Brown, "but our fellows all appreciated the kindness shown us."

MIMICO.

Member for West York Got the Worst of the Argument.

MIMICO, July 22.—(Special.)—Dr. Godfrey, M.L.A., West York, had a close call on Thursday night, when the horse which he was dirving on the Lake Shore-road during the heavy thunder storm, was stuned by lightning and the harness and rig badly shattered. Dr. Godfrey was thrown from the rig, as was a companion riding with him, and both were stunned for a short time, but revived on arrival at their home, whither they were taken. To-day they are about all right, tho a trifle nervous from the shock. The horse was taken to the stable, but has lost the use of its limbs and will, it is believed, require to be shot.

WANT RURAL MAIL DELIVERY.

At a largely attended meeting of the patrons of Todmorden, Don and Donlands postoffices held last evening in Don schoolhouse, it was decided to take the necessary steps to secure a rural free mail delivery up the Don-road. W. F. Maclean, M.P., was chairman, and Dr. Milne acted as secretary.

FARM FOR SALE.

Two hundred acres, consisting of lot 4, in the 6th concession of East Gwillimbury, convenient to schools, church and postoffice. The soil is a good loam and on the property there are about 20 acres of good mixed timber, together with about 50 acres of pasture land, the balance in a good state of cultivation. The property is well fenced and there are two good bank barns and other outbuildings, with a good brick house, containing 12 rooms. On the farm there are two wells and a cistern, together with three acres of orchard and a never-failing spring creek. For full particulars apply on the premises.

BURNED AT THE STAKE.

DALLAS, Tex., July 22.—Henry Gentry, a negro, who attempted to enter the room of a white woman at Belton, Texas, early this morning, and who later killed Constable James Mitchell, who tried to arrest him, was burned at the stake to-night by a mob.

Baron Calthorpe Dead.

LONDON, July 22.—Augustus Cholmondeley Gough-Calthorpe, sixth Baron Calthorpe, died here to-day. He was born Nov. 8, 1829.

A BROKEN-DOWN SYSTEM.
This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is *increased vitality*—vigour—
VITAL STRENGTH & ENERGY
to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of

THE T. EATON CO LIMITED

Baseball Toronto 5 Providence 2 · Program To-day's Sports · Lacrosse Players Expelled

Note and Comment

The Torontos played yesterday like a pennant winning baseball teab. The battery work was a pleasing feature. Lundgren looks to have regained his Chicago form. He allowed only three hits before the ninth, including a Texas leaguer and a bunt. With the game safely stowed away the twirler was entitled to slow up in the final round and the single and double scored a run that did no good or harm. Tonneman's catching was clean.

Mullen's hit thru short in the eighth, with the fielder over on the bag to take the catcher's throw, is the business that gets to the other fellows' nerve.

The Grays had out their star performer, Barberich, rated next to Russell Ford, last season in this circuit. Thus no one need be surprised to see the Leafs take this series of four games from Providence.

The Torontos are displaying that harmony on the field that goes to win games. And why not? Ain't they nearly all from the same country, viz., Ireland.

It has been suggested that when John Redmond comes next October McCaffery and Kelley line up their countrymen on one side to show the king of the Emerald Isle that they can wield clubs in this country as handily as they sling shillelahs at home. A division of the club into equal sides like this would surely entertain Brother Redmond.

The Irish: Shaw rf, O'Hara cf, Delehanty lf, Kelley 1b, Mullen 2b, Fitzpatrick ss, Carroll 3b, Slattery c, McGinley p.

The others: Grimshaw rf, Newton cf, Rudolph rf, Meyers 1b, McAllister 2b, Vaughn ss, McDonald 3b, Tonneman c, Lundgren and Corey p.

It is unfortunate that the Toronto lacrosse team will not have their full strength in Montreal this afternoon, when they meet the Nationals, the league leaders. And as the Frenchmen won at Scarboro, they look to have much the better chance this afternoon on their own grounds.

Montreal go into the second game for the world's lacrosse championship six goals behind New Westminster, and, with the same conditions in vogue to-day as a week ago, and a crowd more hostile than ever, it looks far from probable that the Minto Cup will come east on this occasion.

The mark made by Bland S. in the first heat at Winnipeg yesterday, 2.07½, is just the fraction behind the time made by Harold H. over the same course, 2.07 being the Canadian record for a half-mile track. Searchlight (2.03½) holds the Canadian record over a mile track (Fort Erie).

Rumor has it that the unknown to be backed by McIntosh and trained by Corbett, if a match with Jack Johnson can be secured, is Warren Barbour, the amateur heavyweight champion. Corbett recently put on the gloves with Barbour, and was surprised by the latter's strength and science. Barbour is said to be wealthy, but hankers for fame in the prize ring. It is only a rumor, of course.

Langford and Kaufman, aspirants for Johnson's title, have signed an agreement to box six rounds in Philadelphia next month. The men will receive separate guarantees, it is said, and the fight will be on its merits. Langford and Kaufman were matched to fight twenty rounds in San Francisco last June, when Governor Gillett stopped all glove fighting in California, so that their meeting in Quakerville will probably stir up renewed interest.

American League Scores.

At Boston—Boston hit the ball hard with men on the bases and won from St. Louis to-day 6 to 3. A peculiar double play was a feature. In the second innings, with Stahl on first base, Lord popped a fly to Wallace and Stahl was caught off the base. Lord, however, blocked the shortstop's throw and Stahl was called out for it. Score: R.H.E.

LUNDGREN'S GREAT WORK MAKES VICTORY SURE

McGinnity Wins First at Rochester—Bisons and Orioles Win—Two Games To-day.

Under Carl Lundgren's masterly twirling and his mates' hitting behind him, the Leafs had little trouble in defeating Providence in the first game of the series by a score of 5 to 2. Lundgren was there with everything and the result was he had the visitors all tied up in knots, only allowing three scattered hits up to the ninth, when he eased up a little, Providence grabbing two more. Lundgren's work was about the nicest seen here this season, for he had perfect control and kept mixing up his assortment all the time. Again the dark day just suited Carl, for his fast ball had the Greys dizzy.

Barberich, the leading twirler of the league last year, and lately turned back to Providence by the Boston Americans, was on the slab for the visitors, he keeping the hits down to four innings, and in three of these the Leafs tallied, for the Kelleyites had a fondness yesterday for hitting in pinches.

The features of the game outside of Lundgren's twirling were catches by O'Hara and Kelley, and McDonald's great play in the third innings, when he speared Hoffman's nasty bounder with one hand and caught Barberich at third. Jimmy Mullen's baserunning in the eighth was great, when on the hit and run, he singled past Atz and when both Welday and Atz loafed on the ball, Jimmy stole second.

In five out of the nine innings, Providence were retired in order by Lundgren, while in another only four men faced the Leaf heaver. Thus it will be seen how effective Lundgren's twirling was in all but two innings, in which the visitors scored. Providence broke the ice in the second, when a base on balls was transferred into a run. Peterson, the first batter, was passed, and sacrificed to second by Fitzgerald. Barberich dropped a Texas leaguer over short that scored Peterson. Barberich journeyed to second on the return, while Welday was passed. Arndt flied out to Shaw, who should have doubled Welday at first, but he made a wild throw that Meyers was only able to knock down. Hoffman then rapped a nasty bounder at McDonald, who speared it with one hand and caught Barberich going into third. The visitors' other run came in the ninth, when Atz singled with one down, and stole after Elston fanned, scoring on Sullivan's double.

Toronto scored one in the first on Shaw's double, Mullen's sacrifice and O'Hara's single, while their second came in the fifth, when, with one down, Fitzpatrick got a triple out of his single, as Elston tried to make the catch and missed. Tonneman's infield out scored Fitz. Lundgren rapped a long one down to the left field bleachers for a double, but was nailed going to third on the return.

The Kelleyites made the game safe in the eighth by scoring three. Lundgren fanned, but Shaw was passed and on the hit and run, Mullen caught Atz going over to second and poked the ball thru short, Shaw going to third, while Mullen stole second, when Welday and Atz loafed on the return. Bill O'Hara landed on the mazuma for a double to right, scoring Shaw and Mullen. Meyers laid down a perfect bunt and reached first safely. Kelley's infield out tallied O'Hara and sent Meyers to third. McDonald was passed and on an attempted double steal Meyers was run down. Score:

A Double-Header To-day.

There will be a double-header at the island to-day between Toronto and Providence, at 1 and 4 p.m. for the one price of admission. Rudolph, McGinley or Corey will pitch for Toronto, and Steele, Lavender or Sline for the visitors.

Johnson Had Bad Day.

BUFFALO, July 22.—(Special.)—A home run with the bases full by Johnson featured to-day's game, which went to the Bisons, 6—4. Johnson made four errors at short, his miscues counting against his team and figuring in every run made by the Herd. With good support, Kisinger would have won the game. Taylor was a puzzle in the early stages, but towards the latter part was found more frequently. The playing of Hannifan at second was among the features. A double-header will be decided to-morrow.

Sam McBride Wins at Montreal.

MONTREAL, July 22.—Rain again spoiled the second day of the trotting and pacing meet at Delorimier Park. Owing to the heavy rainfall in the early morning, it was the middle of the afternoon before a start could be made. Sam McBride's Lady Brant, who captured the opening heat of the 2.30 trot Thursday, over a heavy track, won, with Geo. Kaplin second and Pender third. When the second heat of the 2.30 pace was being raced there was a heavy rainfall, but Dena, owned by Pierce of Stanstead, Que., who won the opening heat on Thursday, again went under the wire first, with Jap, an Ontario entry, second, and Jose S., a New York State horse, third. The final heat of the trot was raced over a murry track, Brant winning the heat and race. Geo. Kaplin, an Ottawa horse, got second money; Princess Eleanor, a local entry, third money, and Dix-Septe, another local horse, fourth. The track was in no condition for a third heat of the 2.30 pace.

To-Day's Program

Lacrosse—Torontos at Nationals, Capitals at Cornwall, Tecumsehs v. Maitlands, junior C.L.A., at Cottingham Square, Montreal at New Westminster.

Baseball—Toronto v. Providence, at Hanlan's Point, 2 and 4 o'clock p.m.

Canoeing—Club dinghy race and northern division regatta for A.C.A., members only.

Yachting—Queen City class races, last day L.Y.R.A. at Kingston.

Athletics—Central Y.M.C.A. meet, Scarboro Beach, 2 o'clock p.m.; Street Railway games, 2.30 and 8 o'clock p.m., Scarboro Beach.

Golf—Forester Trophy, at Mississauga.

Lawn Bowling—Annual newspaper tournament at Todmorden.

Baseball Notes.

Providence are pretty well crippled up this trip. Manager Jimmy Collins is out of the game with a broken toe, First-Baseman Courtney has a split hand, and Shortstop Roy Rock has a sprained ankle, while Centre-Fielder Jack Phelan is laid up at Providence with typhoid fever. Catcher Scanlon and Pitchers Jack Cronin, Thompson and Young have been released.

Joe McGinnity has likely been saving himself for the Rochester and Toronto series. Joe will likely pitch one of the double-headers to-day at Rochester, or may wait till Monday.

Two games to-day from Providence would look very nice for the Leafs; but stop and remember what the Greys did to us the first Saturday double-header. They only won two games!

Cravath of Minneapolis (American Association) holds the long-distance clouting honors this year, poling out hits that have netted him sixty extra bases. "Gavvy" has eight homers to his credit, seven triples and twenty-six doubles, leading the league in two-sackers. His nearest rival is Murray of the St. Paul Club, who holds the league mark for home runs, making ten, and boosting his mark up to within two bases of that of Cravath.

Outfielder Edward Zwilling of the Battle Creek (South Michigan) Club has been sold to the Chicago American League Club. He is to report to the White Sox on Aug. 5.

No more National League games will be called at a fixed time to enable a team to catch a train, says President Lynch. A time limit may be fixed, but if an innings is started it must be finished, even if it runs from ten to fifteen minutes beyond the fixed time. Many complaints have been registered by persons who went out to see ball games and found that an agreement had been reached to call the game at a certain time. It generally happened that the club in the lead within a few minutes of the time limit was able to prolong a half-innings by jockeying, and thus rob an opposing team of a chance to tie or win a game.

Torontos Early on the Job.

MONTREAL, July 22.—(Special.)—Torontos arrived here to-night to rest up for the match at Maisonneuve to-morrow with the Nationals. Fitzgerald and Carter came down, but when seen at the Windsor Hotel it was stated that they would not be in line against the Frenchmen. Stagg will be given the job of watching Lalonde, Anderson will go in at centre, while Wright will work on the home. The largest crowd that has ever witnessed a lacrosse struggle in this vicinity is expected to be at the Nationals' grounds when the teams line out, as the French-Canadians are all worked up over the outcome. The prices were raised and extra stands built, but every ticket was sold before the middle of the week.

Jeffries Still Dopey.

SAN FRANCISCO, July 22.—Some curious information about Jeffries comes from Burbank, near which town the defeated pugilist lives on his alfalfa ranch. One letter says:

"Altho I have been with Jeffries every day since he returned, I can't figure out just what's the matter with him, but the fact remains that he has agen ten years since you and I saw him last at Rowardennan, and he surely is a pitiful sight now.

"He is stoop-shouldered and has a far-away look in his eyes that reminds me of a person whose mind is not altogether sound. He droops his head and rambles in his talk like a 10-year-old child."

Another man in Burbank who went to school with Jeff tells of Jim's loss of memory. He writes:

"Hanged if I don't think he is doped yet. He wanted to introduce me to a fellow and didn't know my name, altho you know I went to school with him and have been with him right along. Isn't that strange? He looks all right. I couldn't see a mark on him, but, say, his queer actions are certainly funny to me. Just think of it—he couldn't remember my name."

Others who have seen Jeff lately say he goes around humped over like an old man and pays no attention to what is said in his presence.

Black Sam Winner.

PARIS, July 22.—Sam McVey, the American negro heavyweight pugilist, to-night made Peter Rice, an Englishman, quit in the fifth round.

Records at Grand Rapids.

GRAND RAPIDS, July 2.—Records were made at the races here to-day. Giftline, who brought the pacing record down to 2.03¾ one year ago, to-day clipped it a full second to 2.02¾ in the first heat of the 2.03 pace. Later on, in the fourth heat of the 2.14 trot, Hall Worthy dropped the track trotting record to 2.07¾. Turf history was made when Willy won the first heat of the 2.14 trot, as it was the first time that a foreign bred trotter had won a heat in less than 2.10. Willy made it in 2.08¼.

Tennis Finals at Montreal.

MONTREAL, July 22.—In the lawn tennis championships of the Province of Quebec to-day, Capt. Foulkes, the champion, won the finals of the open singles, defeating Macdougall of Montreal in three straight sets, 9—7, 6—4, 6—4. In the doubles Cassiband Sherwell of Montreal defeated Foulkes and Smith, 6—3, 2—6, 6—1.

Frigid Investigation.

"My new refrigerator has a temperature constantly in the neighborhood of the freezing point," said Colonel Stillwell.

The visitor who was warm and thirsty, looked up with great interest as he enquired:

"Have you—er—have you any proofs."

U. S. NATIONAL REGATTA

Canadian Oarsmen and Scullers Who Will Compete at Washington.

NEW YORK, July 18.—Rowing champions of America, as well as Canada, will compete in the 37th annual regatta of the National Association of Amateur Oarsmen, over a 1 1-4-mile straightaway course on the Potomac River, opposite Potomac Park, Washington, D.C., on Friday and Saturday, Aug. 12 and 13. The course will run from a point off the government wharf, near Easby's Point, starting well over on the Analostan Island side of the river and will strike across the channel in a direct line, paralleled with the seawall of Potomac Point, to a point 100 yards west of the highway bridge. It will be 500 feet wide and was selected in order that the public might have a better chance to witness the races, rather than on the upper river course where the regattas were rowed in the past.

The national championships are the aim of all the first-class scullers and crewmen of this country. They follow the months of training necessary for development in the local regattas, which usually act as a tryout for the big championships. The races this year will include a special junior eight-oared shell contest and also the twelve regular events extending over the two days; single sculls, one fourth-mile dash, intermediate, senior, association and championship doubles; intermediate and senior four-oared shell; intermediate, senior and international quadruple scull or centipede; intermediate and senior eight-oared shell. Entries will close on July 30, with Secretary Fred Fortmeyer, box 740, New York City.

Among the Canadian crews expected to row will be the Winnipeg senior four (F. F. Carruthers, bow; E. E. Allen, C. B. Aldous, C. S. Riley, stroke), which so shocked the English critics by winning the Stewards' Cup, a trophy never before won by any but English crews. The Pegs will give the international fours a real meaning this year.

The Hamilton (Ont.) Rowing Club senior four (C. Pilgrim, bow; E. Skelley, Geo. Slean, J. Mahoney, stroke), which won the intermediate race last year, is expected to row. Another almost sure entry will be the Ottawa senior eight, being coached by Jim Ten Eyck. They are using a sectional shell like the Belgian eight rowed in when they lifted the Grand Challenge Cup on the Thames, and like the Belgians the Ottawa crew will try to win this trophy next year. One of the conditions for the trip over is that they win the Canadian and American title this year.

One of their strongest competitors will be the Argonauts of Toronto, who made several unsuccessful efforts to capture this trophy. They will row in the Canadian Henley regatta at St. Catharines, Aug. 5 and 6.

Jimmy Cosgrove of the Argonauts, who surprised everybody by being beaten in the first heat of his attempt to bring back the Diamond Sculls on July 5, at the Royal Henley in England, will very likely try to win the championship senior title this year. It was at the Canadian regatta last August that Cosgrove gained prominence by winning junior and intermediate single events. The following week at Detroit he lost the association single race to Merhoff of the Nassau Club. The Canadian entries will depend on the work of the men in the St. Catharines regatta, post entries being received by the National officials. St. Louis, St. Paul, Minneapolis, Duluth may also enter the senior four and eight class as well as the big eastern clubs.

Philadelphia, New York, Baltimore, as well as Boston and vicinity and several southern cities are going to enter their best crews. The Vespers of Philadelphia will try to regain the championship in the senior eights. The last won at the world's fair in St. Louis in 1904, when they beat the Argonauts. This year they beat five crack crews at Philadelphia on July 4, including Nassau, which has since disbanded; New York A.C., present champions; Detroit B.C., Wahnetah of Flushing, L.I., who won the American Henley on May 21 at Philadelphia, and also at Harlem on May 30; and the Ariels of Baltimore.

Harry G. Shears, who last week for the third time defended his title of sculling champion of the Southern Rowing Association on Lake Pontchartrain course, at New Orleans, may row at the National regatta. Opposed to him were Fred Demoruelle, Robert Young and Beverley Hoffman, all powerful scullers of the Young Men's Gymnastic Club of that city. Shears, who is a member of the St. John Rowing Club, may also row senior double with E.H. Keep. They won in the regatta the same day. They might give Guessel and Shepherd of the Harlem Club a hard rub. The New York pair will row at the Canadian regatta.

Ottawa Cricketers Make a Score.

PHILADELPHIA, July 22.—The Ottawa cricket eleven, which to-day started a two-days' match with the Merion Cricket Club, at Haverford, had a comfortable lead when stumps were drawn for the day. The visitors made 20 runs in their first innings, and the home team had but 56 for the loss of seven wickets. O. Wallace was top scorer for the visitors, putting together 68 runs.

BLAND S. IN STRAIGHTS WINS THE FREE-FOR-ALL

Merry Widow is Second in Feature at Winnipeg Show—Belgrade Wins Trot.

WINNIPEG, Man., July 22.—(Special.)—There was a splendid attendance at the third and final day's racing of the Winnipeg Industrial Exhibition Association. The weather has been very dry and hot, and the track was not just in the best condition for records. Bland S. (2.05¼), by Egyptian Boy, paced the three fastest heats ever paced or trotted on a half-mile track, and he could easily have reduced the track (2.07) had he been forced to do so. Merry Widow and he were split favorites, the price in the books being Bland S. 2 to 1, Merry Widow even money, and then they would be reversed, the money being on the Widow 2—5 and Bland S. even for first heat only, as Bland S. was the class of the race. After the first heat the judges fined Patch, the driver of Star King, $25 for interfering with Merry Widow on the first turn.

In the 2.15 trot, eight good trotters took the word. R. J. McKenzie's Belgrade, b.h., by Directo, won his race quite handily, his driver, Hayes James, having the race well in hand all the time. Heartwood gave him a good race in the last heat, but the best he could do was second.

The third race was a stake event for three-year-olds. There were only three starters, but the winner wiias much the best. There were also two running events, a five-furlong consolation race and a seven-furlong race, weight for age, as an extra attraction. Harold H., who holds the track record here, was driven down the stretch by his old-time driver and trainer, Al. Proctor, who drove him to his mark. The old horse looks well and is still as game as a pebble. He is very fat, but he had not forgotten his way of going, and could show fast sprints for a short distance. The race meeting just closed has been a decided success from every standpoint—large fields, good time and a good track. The summary follows:

First race, 2.15 trot, purse $1000:

Belgrade, br.h., R. J. McKenzie, Winnipeg (James)	1	1	1
Heartwood, blk.h., T. E. Battell, Moose Jaw (Battell)	2	4	2
Bill Nevitt, blk.h., M. L. Smith, Joliet, Montana (Smith)	3	2	4
Miss Bentley, ch.m., E. Chevrier, Winnipeg (Riggs)	4	3	3
King's Carole, br.h., H. W. Hudson, Prince Albert (Dompier)	5	5	5
Gov. Wilson, b.h., Harry Helms, Glendive, Mont. (Koch)	6	7	6
Geraldine, ch.m., G. G. Daily, Helena, Mont. (Patch)	7	6	7
Dr. Chas. K. Cole, b.h., Ben Steele, (Green Falls, Mont. (Rasdale)	dis.		

Time—2.16, 2.17, 2.16.

Second race, free-for-all trot or pace, purse $1500:

Bland S. (2.05¼), b.h., Carson and Brown, Winnipeg (Barnes)	1	1	1
Merry Widow (2.09¼), b.m., R. J. McKenzie, Winnipeg (Spencer)	2	2	3
Sherlock Holmes (2.06), ch.h., Mrs. D. J. McDrevuld, Spokane (McGuire)	4	5	2
Star King (2.11½), b.g., C. G. Daily, Helena, Mont. (Patch)	3	3	5
Ianetta (2.05½), b.m., Geo. C. Loomis, St. Anthony Park (Loomis)	5	6	4
Capt. Derby (2.09½), b.g., P. O. Dwyer, Edmonton (Burrows)	6	4	ds

Time—2.08¾, 2.08¼, 2.09¾.

Third race, three-year-old trot or pace, stake $500, two in three:

Lady Hart, b.m., P. R. Olston, Fargo, N.D. (Elston)	1	1	
Allie Hall, b.m., C. J. Lord, Cando, N.D. (Clarke)	2	2	
Tecumseh Boy, blk.g., C. J. O'Connell, Winnipeg (Palmer)	3	3	

Time—2.28, 2.24½.

Fourth race, five furlongs, consolation, for horses not having won first money, purse $250—1, Miss Rafell, b.m., 119; 2, K. C., g.g., 121; 3, Estelle M., blk.m., 111. Dawn of Spring also ran.

Results at Erie.

ERIE, Pa., July 22.—(Special.)—Long shots won two out of three of to-day's races at Reed's Driving Park. Darena Dale was the favorite in the 2.19 trot, but after a hard battle, Zoe Patchen, a 10 to 1 shot, took the race. It took Margaret M. seven heats to win the second race. Henry Bedworth, the favorite, finished second. In the third race Glendale won in straight heats, the gelding was a favorite at long odds. The 2.20 pace and the colt race has been postponed until to-morrow. The summaries:

First race, 2.19 trot, purse $400—

Zoe Patchen, b.m., by Zombro (Beaty)	6	4	6	1	1	1

C.L.A. Executive Meet, Decide Protests Arrange Semi-Finals

The C.L.A. executive met last night at the Iroquois, with President Eby in the chair and the following members present: J. J. Kelly, J. K. Forsythe, Ernie Knott and W. H. Hall.

Guelph Juvenile Club protested Galt on the ground that two of their players were over age. The protest was sustained and the certificates of Harvey Vrooman 221, and Charles Young 217, were canceled and the players expelled from the association. The game was ordered to be played over at Galt on a date to be named by the president. Galt pays all the costs of the protest.

The Walkerton Juvenile lacrosse team was expelled for changing certificate No. 433, to Arthur Robertson, and the game was awarded to Durham.

Weston offered no defence in the protest put in by the Capitals and the game was awarded to the Caps.

Walkerton Juniors and Owen Sound Juniors have been ordered to play off on the following dates for the championship of their district. Walkerton at Owen Sound on Aug. 1, the return in Walkerton on Aug. 6.

The executive made the following draw for the semi-finals:

Intermediate Series.

2. Galt v. Capitals.
3. Allistion v. Newmarket or Bradford.
4. Orillia a bye.

—Second Round—

Winners of No. 3 v. winners of No. 4.
Winners of No. 1 v. winners of No. 2.

Home and home games will be played in the first round and sudden death games in the second round.

Hanover Intermediate C.L.A. lacrosse team defeated Mt. Forest yesterday at Mt. Forest in a league game by a score of 14 to 0. This victory gives Hanover the district.

The Woodgreen lacrosse team will play Norway a schedule game on the latter grounds at 3.30. Woodgreen players will meet, corner Woodbine-avenue, at 2.30.

Fred Wagherne will referee the junior game at Hamilton to-day between St. Kitts and Hamilton.

St. Helen's lacrosse team will play Weston in Weston at St. John's picnic at 2.30 p.m. sharp. All players are requested to meet at the club rooms not later than 2.30 o'clock.

ROUGH PLAY IN LACROSSE WHAT SHALL REMEDY BE?

Ottawa Journal: What shall be the remedy for the elimination of the rough element from lacrosse?

One of the most important issues of the day in the lacrosse world, and state of affairs that calls for the earnest consideration of every man interested in the welfare and growth of our great national game, is the element of roughness, which at present mars the big league games.

There is nothing that will kill lacrosse quicker than the sight of one player deliberately slugging another, in the presence of thousands of spectators, and a remedy for this is being eagerly looked for.

Mr. A. S. Robertson, manager of the Capitals, has offered a few suggestions in regard to keeping the game clean, and these will be brought up at the annual meeting of the N.L.U. in Montreal next spring. Mr. Robertson's plans are somewhat identical with the manner in which the National Baseball Commission looks after its players, and as the scheme has worked out satisfactorily across the border, there is no reason why the National Lacrosse Union cannot adopt the proposed rules and put them in force next summer.

The suggestions are, that any player who deliberately slugs another over the head be banished from the game, being fined in addition, while his team is allowed to bring out a substitute so that the members of the club will not suffer from the rash act of one player. The fines so imposed would go to the league, while the offending player could be dealt with as that body saw fit, after the match was over.

The advantages of such a scheme are many, and the general idea will appeal to all lacrosse fans. Many a team has lost its matches thru the brainstorms of one or two men, and as the absence of one or two players weakens a team, making the game one-sided, so does the game lose its attraction as a sporting contest, and the spectators would much prefer witnessing a game with even sides, than one in which one team or the other is continually at a disadvantage as regards players. Then, again, the clubs could make it the rule to pay their men according to the matches played, the time for the penalties to count against the men.

The major baseball leagues conduct their games under such conditions, and there is no reason why the lacrosse teams could not do likewise. It would surely bring about a cleaner style of play, and much of the beauty of lacrosse that is now marred by the rough work, would again be uncovered. The innovation would also appeal strongly to the spectators, with whom brain work instead of a display of brawn is the winning card.

Boys in Trouble.

Vincent McNeil, 17 years, 83 Markham-street; Michael Hammon, 15 years, 62 Bathurst-street, and Timothy Donahue, 15 years, 35 Turner-avenue, were arrested yesterday by Policeman Bradley, who caught them removing brass trimmings from the steamer Picton, which has been laid up on the waterfront. These thefts have been going on for a month.

A Serious Charge.

Thomas Jackson, 21 years, elevator man at the Grand Union Hotel, was arrested by Detective Taylor yesterday charged with rape upon Mrs. Mary Quinn of Philadelphia, a guest in the hotel. He is further charged with theft of $5 from her.

William Toom, a guest at the same hotel, complained to the police yesterday that $250 had been stolen from his room while he was asleep.

A Slight Encouragement.

"If I were to ask you to marry me," said the timid young man, "what would you say?"

"I don't know," replied Miss Cayenne. "But I'd be too polite to say what I thought."—Washington Evening Star.

Clintons play Wesley this afternoon at 2 p.m. on diamond No. 2, Centre Island.

Charged With Dividing Spoils.

Frank McDonald, 21 years, 1 Grange-avenue, was arrested last night by Detective Cronin, charged with receiving stolen property. It is alleged that while Frank Monkman, Wychwood Park, left his coat hanging in a West Queen-street poolroom, $19 was stolen from his pocket, and that the thief hid it and told McDonald where, and a division of the proceeds followed.

EPOCHS OF FRENCH ART

Prof. Squair's Lecture in the University Summer Series.

The second lecture in the University summer school series was delivered by Professor J. Squair of University College in the physics building last evening. The subject chosen was, "The Great Epochs of French Art." Prof. Squair treated this comprehensive subject in an interesting and scholarly way.

Starting with the period of the early 17th century, he described the work of the chief masters, including Poussis and Claude. Watteau and David were chosen as the chief exemplars, respectively, of the early and late 18th century, some fine examples of their works being thrown on the screen by way of illustration.

Passing to the 19th century, Prof. Squair referred to the masters of the romantic school, such as de la Croix, and then the Barbizons, of whom Millet, Rousseau, Troyon and Corot are among the best known. Brief notice only was given to the impressionist movement, Manet and Monet being chosen as representative of the period.

The lecturer also made a few remarks about French sculpture, with special reference to Rodin, the most famous of workers in that field.

CARLING'S GOLD MEDAL ALE & PORTER

From Canada's GREATEST Brewery

For sixty years we have brewed by the old English methods as adopted by BASS & CO. and GUINNESS & CO.

WE DO NOT CARBONIZE, and by so doing destroy nature's best and finest health-giving properties of barley malt and Bohemian hops.

No fads, no new methods, as used by some brewers who can't compete with genuine methods.

SATURDAY MORNING, JULY 23, 1910.

IT IS UP TO SIR JAMES, TOO.

Sir James Whitney will pardon us if we follow up our remarks of the past two or three days, these being to the effect that improved farming and more efficient transportation, especially from the farmers' point of view, were the prime essentials in the policy of any government of this province.

It is true that transportation in a way is a matter of federal law, but that doesn't interfere with a sovereign province like Ontario having a policy of its own in regard to transportation, especially when it is an essential part of the development of that province; and if Sir James will listen for a moment further we beg to tell him that the main policy and the main concern of the prime minister of British Columbia, Richard McBride; of the prime minister of Alberta, now Mr. Sifton; of the prime minister of Saskatchewan, Hon. Mr. Scott; the prime minister of Manitoba, Hon. Mr. Roblin, and the prime ministers of all the eastern provinces, turns largely on railroad matters, and that in Ontario we have had no such thing as a live railroad policy on the part of the provincial government for a good many years.

Now Ontario people want transportation as much as any other province to-day, and they want this transportation brought right to the farmer, and they want more even than this, an efficient service given to them by the companies which now enjoy franchises, notably in the case of the Grand Trunk and the Canadian Pacific. These companies are not giving the people of Ontario the service that they and the towns of Ontario, and the manufacturers of Ontario, are entitled to; furthermore the management of this service, given by these two big companies in Ontario, is handled from Montreal without any regard to the wants of the people of Ontario, and often with a view to prejudicing the interests of Ontario. We pointed out yesterday that the Grand Trunk has fought Ontario and antagonized the people of Ontario from the day it came into the province up to the present, largely by reason of the Montreal management. The Canadian Pacific has done better in some cases, perhaps in many cases, and this may account for its improved business; but even the Canadian Pacific and the Grand Trunk are against Ontario, and especially against the views of the people of Ontario, who among other things demand the regulation of the railways by the state. The railway commission was forced into being by Ontario! Recall how the passenger agents in chief came up to Toronto the other day to curse suburban services and commutation tickets. We never saw a more insolent conduct in our lives. Insults heaped on a sovereign people, who could tax the railroad into civility in quick order! These roads must be put in their place and if Ottawa refuses to do it Ontario can find a way.

We also want to point out to Sir James Whitney that one of the main reasons for the lack of influence in federal politics of this province is because the two big railways in Montreal, backed up by the Province of Quebec, deliberately refuse to put the City of Toronto and the Province of Ontario in direct touch with the capital at Ottawa. It is possible to have a five-hour service between Toronto and Ottawa, instead we have an all night service and an all-day service of from eight to twelve hours. This accelerated service has been promised and not conceded for twenty years. The ministers from Ontario at Ottawa are dead to these facts.

And now to come quickly to our point. We wish to tell Sir James Whitney that inasmuch as THIS PROVINCE IS SOVEREIGN IN THE MATTER OF TAXATION, IT CAN COMPEL THE RAILWAYS TO DO JUSTICE TO ITS OWN PEOPLE, AND THAT SIR JAMES OUGHT TO HAVE A MINISTER IN HIS CABINET DEVOTED BOTH TO LOCAL TRANSPORTATION AND TRANSFORTATION AS SUPPLIED BY FEDERAL COMPANIES, and that this minister ought to be on the job day and night, and that only by such action can this province get the transportation that is necessary for its full development. And a high-class commission is part of the game.

And again we say that Ontario is the greatest state or province in the whole of North America, and that a new era of development awaits it the moment the railways, big and little, are compelled to do justice to this province.

And just one word more, Sir James, you must see that Ontario has a very vital interest in the strike that is now on over the Grand Trunk system. The Grand Trunk system, as The World pointed out yesterday, is an Ontario system of railway more than it is anything else, and the people of this province, as a province, may have to interfere and so ensure that both a proper and efficient service is given and that the public, including workmen, are treated as well as elsewhere!

To Mr. Hays we say: Settle the strike and link up with Ontario and watch your system grow. You could do most of the business if you went after it right. Get right with Ontario now and keep right.

BANKS AND LOCAL INDUSTRIES.

One of the strongest objections advanced against the Canadian system of banking is that it provokes and favors the practice of using branch deposits for head office purposes, and is thus detrimental to the expansion of local industries. This tendency is not necessarily inherent in the system. It is rather a matter of policy on the part of the responsible management and it can scarcely be denied that the tendency has to some extent at least been apparent in the financial transactions of some leading Canadian banking institutions. For this reason the establishment of new banking companies, dependent on district support and concerned with local development, deserves encouragement and forms a valuable deterrent to the prosecution of foreign enterprises with Canadian money which should find employment in the building up of Canadian manufactures and in the utilization of the national and provincial resources.

Various incidents of recent occurrence prompt the belief that the older and larger banking institutions of the country are not favorably disposed towards the appearance on the field of competing companies. The absorption of smaller concerns is not uncommon and hostility to their continuance occasionally makes itself visible in the shape of disparaging comment and comparison. This form of attack cannot be commended. Banking more that almost any other financial business is peculiarly susceptible to the influence of public sentiment. Success depends on reputation, and detrimental representations easily affect popular confidence. An example of this occurred the other day at Lindsay, where the local branch of the Farmers' Bank suffered severely from the withdrawal of custom consequent on quite unjustifiable representations made apparently for competitive purposes.

Conduct of this kind is wholly indefensible and reprehensible and ought not to be permitted. In the long run it must fail to secure its immediate object and it will react unfavorably, not only on the rival institutions concerned, but on the banking situation generally, which requires that a high standard of professional honor should prevail, not merely as touching the public, but in the dealing of banks with each other. Certainly the people on whom they are dependent will not approve of underhand methods of obtaining business, nor will they remain indifferent to an attempt to injure companies that are striving to develop locally and are largely concerned with the expansion of local industries. Such companies are needed and there is plenty of room for them in Canada, and particularly in Ontario. Prosperous local centres are of incalculable value to a nation, but they cannot gain their proper place in the national economy without the existence of banks whose interests are identical and whose policy is conditioned by that consideration. It is certainly not for the general good that capital should be concentrated in the hands of a few powerful companies with external affiliations. Smaller institutions devoted to local expansion are a national necessity.

GOOD TILLAGE, GOOD CROPS.

Poor farming is the cause of bad crops more than the withholding of the rain by Providence:

WINNIPEG, July 21.—"The only portion of Saskatchewan where the crop prospects are not satisfactory," said Hon. W. R. Motherwell, minister of agriculture, here to-day, "is a strip 100 miles wide on the western boundary. In this strip good yields will be secured, where there has been good tillage. Had there been the right kind of tillage there would have been no part of Saskatchewan which would have suffered severely from dry weather. What was needed was more intelligent cultivation of the soil, and conservation of the moisture."

But this is as true of Ontario as it is of the west. And there is a lot of poor farming in Ontario.

The best fields in Ontario to-day are the fields that have clean fences, are clear of weeds, have no stumps, no stones (also nests for weeds) drainage (that takes away water and allows early seeding), and good working of the ground. These things give the grain an early and good start, the crop comes thick, and a thick crop helps to hold the moisture after the ground has been mellowed by work.

Don't blame Providence, but revise your methods, oh you farmers of the east and west.

CALL ALD. PHELAN QUICK.

It looks as if Ward One sent Ald. Phelan to the council to block the city's scheme for cheap light and power by humbug speeches about "the pole nuisance." And yet who wants cheap light and power more than Ward One? And who could stand factories (with cheap power) so much as this ward? And old East Toronto came in to get cheaper light!

Call Phelan off the grass, quick.

AN OBSTRUCTIVE POLICY.

The Evening News says that "an attempt has been made to magnify into an attack upon the hydro-electric project the honest efforts of a number of west-end home owners to protect their investments and preserve the attractiveness of their surroundings."

This is hardly putting the matter fairly. Not only has an attempt been made, but an actual obstruction has been put in the way of the city's construction work by some of the aldermen who used the plea of The News as a pretext to interfere with the work of the electrical department. The attempt to protect their property by west enders is highly commendable, but The News still ignores the point that the enemies of the power project have used this and other complaints as an excuse to delay the delivery of power and to discredit the hydro-electric scheme.

It is a pity that the property owners had not seen the electrical department before the poles were put down and proposed the use of the lanes or a right of way at the back of the lots in question. They surely do not want to assume the responsibility now of stopping the work of the electrical department. The city council has adopted that policy, and the sooner it reverses it the better. The mayor and the board of control are not shining in the light of the situation.

Mrs. Rechtin, who is heading an anti-kissing crusade, declares that rubbing cheeks is a highly satisfactory means of expressing satisfaction. The trouble is we haven't always cheek enough to try.

ALTERATIONS TO NIOBE

Cruiser Will Not Sail for Canada Until September.

LONDON, July 22.—Admiral Kingsmill returns in a fortnight. The admiralty has agreed to make alterations in the Niobe suggested by Canada. She will not sail until September. The Rambow sails the first week in August, and the admiralty has agreed to lend men of skilled ratings and an instructional staff of officers for the safe conduct of the ship. Admiral Kingsmill states that enquiries are now being made among firms on the admiralty list for tenders for the construction of four Bristols and six destroyers. A body of free trade M. P.'s will spend their holidays in Canada under the leadership of J. A. Simon.

Canadian teachers visited Windsor and inspected the castle and were entertained at lunch by the mayor. They afterwards visited Eton.

D. O. Malcolm, ex-secretary to Lord Selbourne, sails shortly for Canada as private secretary to Earl Grey.

Fourteen boy scouts will sail for Canada on the 29th.

DEAL MAY FALL THRU

Lease of Iroquois Hotel Deter Intending Purchaser.

It looks as if the proposed sale of the Iroquois Hotel would fall thru. Some weeks ago George A. Graham, the present proprietor, entered into negotiations for the sale of the hotel to J. Hessey of Orillia. The price to be paid was $100,000, and Mr. Hessey paid $1000 down to secure the option. It seems, however, that at that time he did not understand the terms of the land lease held by Mr. Graham.

While the lease on the building, which belongs to the Palmers, has fifteen years yet to run, the ground itself belongs to the General Hospital, and is held by Mr. Graham under a lease due to expire in April, 1912.

Mr. Hessey has until the end of the month to come to a decision, and Mr. Graham has expressed his willingness to restore the deposit of $1000 and cancel the agreement, in which case he will continue to run the hotel himself.

Justice Sutherland Directs Trial of Issue After Commenting on the Contradictory Evidence.

ANNOUNCEMENTS.

Master's Chambers.
Before George M. Lee, Registrar.

Eby v. Foster—F. Aylesworth for plaintiff. Motion by plaintiff for leave to serve defendant substitutionally with writ of summons. Motion enlarged to supplement material.

Ruggles v. Reynolds—R. A. Reid for plaintiff. Motion by plaintiff for leave to issue writ for service out of jurisdiction and for service of same and of statement of claim on defendant in Halifax, and for order shortening time for appearance. Order made for issue and service and shortening time for appearance to 14 days.

Forster v. Carmichael—J. P. Eastwood for owner of property. Motion by owner for order removing certificate of lis pendens registered in 1896 on a lot on Avenue-road, Toronto, and action not proceeded with. Order made.

Judge's Chambers.

Rex v. Barker—T. N. Phelan for defendant. J. R. Cartwright, K.C., for the crown. Motion by defendant for bail. The defendant, George Barker, has been charged with the murder of Michael J. Mangle at Port Credit on June 30 last. Defendant is alleged to have struck the deceased with his fists as deceased was preparing to strike him with a hammer. Bail allowed in the sum of $1000 with not more than four sureties.

Re Michael Fraser—A. McL. Macdonell, K.C., for Miss McCormick. J. King, K.C., for Michael Fraser and wife. Motion by Miss McCormick for an order for an issue to try the question whether Michael Fraser is a person of unsound mind. Judgment: While on the weight of testimony before me, and even on the character of the testimony as a whole, it would be impossible for me on this application to make an order as asked by the applicant, that Michael Fraser is of unsound mind, there is nevertheless the absolute contradiction of witnesses other than the medical on the material facts in question and the direct contradiction of the medical men themselves as to his sanity or insanity. It seems, therefore, to me necessary that an enquiry should be directed. An order will therefore go directing the trial of an issue whether or not Michael Fraser is at the time of such enquiry of unsound mind and incapable of managing himself or his affairs; that such issue be tried by Britton, J., at the approaching sittings of the high court for the trial of actions with a jury, to be held at Barrie, commencing the week of Sept. 26, 1910. I think the action can be tried better without a jury and under ss. 2 of s. 7 of the Lunacy Act, I so direct, unless the presiding judge at the trial shall see fit to otherwise order, and also unless under s 8 of said act the alleged lunatic shall demand a jury in the manner therein mentioned. The trial judge will also dispose of the costs of this application.

Trial.
Before Sutherland, J.

Pittsburg-Westmoreland Coal Co. v. Jamieson—C. H. Ritchie, K.C., for plaintiff. A. G. MacKay, K.C., for defendant. The plaintiff is a foreign corporation of Pittsburg, U.S.A., dealing in coal. The defendants prior to March 18, 1907, were shareholders in the Crescent Coal and Coke Co. On above date an agreement in the nature of a guarantee was signed by the defendants in favor of the plaintiff company. Plaintiffs contend that this document was a continuing guarantee and was valid and subsisting in the year 1909. Defendants deny this and say that even if agreement had any effect plaintiffs by change of financial relationship between them and Crescent Coal and Coke Co. had released defendants from liability. Judgment: I think the guarantee must be restricted to the period of one year, and also that plaintiffs varied the terms of payment as to coal delivered in July. Action dismissed with costs. Thirty days' stay.

New Litigation.

Charles W. MacLean, administrator of the estate of George Fulford MacLean, who died when six hours old, has brought action against the Toronto General Trusts Corporation, executors of Senator Fulford, Dorothy Fulford Hardy, George and Mary Fulford Hardy, George Taylor Fulford, Arthur Sturgis Hardy and Mary Fulford Hardy, for a declaration of the amount of value of the share and interest in the estate and effects of the late Hon. George Taylor Fulford, the infant George Fulford MacLean was, and his estate is, entitled under the will of the late Senator Fulford. It is asserted that his claim would be one-third, or about $2,000,000.

The Bank of British North America has entered action against Henry C. Osborne and Gwyn L. Francis of Toronto to recover $13,744.30, alleged due for money lent to the defendants in connection with bonds of the Chicago and Milwaukee Electric Railway.

Jacob Andrea Kammerer of Toronto has entered action against William D. Earngey to recover $5047.50, alleged due on a promissory note.

Marjorie McLean, a young girl, who was employed at Bradshaw's, Limited, has entered action against the company to recover damages for injuries.

Mary Henderson, as administratrix of the estate of the late Dougall Howard Henderson, has entered action against the Canadian Guardian Life Insurance Company to recover $1099.31, alleged due under a policy on D. H. Henderson's life.

THE WEEKLY REST DAY FOR FREIGHT CLERKS.

Editor World: In your morning edition of 21st July, under the heading, "A Tip to the Alliance," over the signature of "A Subscriber," is a statement to the effect that the C. P.R. freight clerks have to work "every night, also on Sunday," and "clerks are asked to come back and work, and if they do not they are dismissed from the company." He also says, "Tell me why the Lord's Day Alliance does not stop this work on Sunday."

We beg to assure "A Subscriber," that his letter is the first intimation we have received, concerning this Sunday work. As soon as the Alliance receives definite and reliable information, we shall certainly render every possible assistance to secure the C.P.R. freight clerks their weekly day of rest. Every toiler requires one day of rest every week, and we are ever laboring to secure that privilege to every citizen.

The law permits, "the continuance to their destination of freight trains in transit when the Lord's Day begins, and work incidental thereto." The work incidental to these trains may require some clerks to labor on the Lord's Day, but very clearly the whole staff cannot be necessary.

Then for those who must toil on Sunday the Lord's Day Act secures this privilege:

"Except in cases of emergency, it shall not be lawful for any person to require any employe engaged in any work of receiving, transmitting or delivering telegraph or telephone messages, or in the work of any industrial process, or in connection with transportation, to do on the Lord's Day the usual work of his ordinary calling, unless such employe is allowed during the next six days of such work, twenty-four consecutive hours without labor. This section shall not apply to any employe engaged in the work of any industrial process in which the regular day's labor of such employe is not of more than eight hours' duration."

We are glad to be able to state that managers of many industrial concerns in Canada have instructed their employes that no work is to be done on Sundays except such as is absolutely necessary and wholly unavoidable: and that every employe required on sunday will be given a day of rest the next week if he so desires. Many have added that no employe is required to work on successive Sundays.

If "A Subscriber" will call at the Lord's Day Alliance office, or give us over his signature, the facts of the case, his statements will be treated as confidential, and an effort will be made to secure the weekly day of rest for those freight clerks.

T. Albert Moore,
General Secretary, Lord's Day Alliance.

The Heintzman & Co. Removal Piano Sale

Greatest Piano Sale Ever

The history of the piano trade does not tell of a piano sale that can compare with the removal piano sale of this house.

Started in March last, when architects commenced to get busy on our new premises, 193-197 Yonge Street, interest in the sale has grown week by week. Were we to publish a record of the sales for the month of July---usually one of the dead months of the year---it would prove a startling piece of news.

There has simply been no "let up" on sales—alike in the city and outside. Buyers realize that the opportunity will not come to them again, and just now they face the fact that the day cannot be far distant when the removal will take place and the sale close.

—Be wise and select your piano now—unheard of prices.
Easy terms of payment for everyone—small amount down, and a small amount monthly.

INCENDIARY SUSPECTED IN OWEN SOUND BLAZE

Fire in the Northern Town Causes Damage Estimated at $55,000.

OWEN SOUND, July 22.—(Special.)—Owen Sound had its first extensive conflagration to-day in twenty years. Four acres along the water front and about $55,000 loss is the result. The blaze was started in a vacant stable about fifty feet from the town's electric light plant and swept every building along the East First-avenue front to the Northern Navigation Company's warehouse at the corner of Tleventh-street, where it was got under control in a slow burning log building sheeted with lumber.

The firemen put up a strenuous fight and kept the fire from getting into immense quantities of cordwood, which were piled in the spaces between the buildings.

The first to go were the coal sheds of the Davis, Smith, Malone Companies, then followed a three-storey wooden elevator warehouse, owned by James A. McLauchlan, and its contents, owned by the McLauchlan and Sons Co., wholesale grocers, and W. A. McClane & Co. The residence of Chas. Heibien adjoining and the one-storey brick warehouse and office of the Dominion Transportation Company were soon ablaze, and as the latter connected with the immense four-storey elevator and storage warehouse, also owned by the Davis, Smith, Malone Company, it was in incredible time a mass of flames. Cinders were carried half a mile from the blaze and caught in the roof of a frame residence owned and occupied by Abel Wright. As no assistance was available, nothing could be done to save it or its contents.

North of the warehouse was one of the earliest buildings of the town, a log residence, owned by the W. H. Smith estate. The slow burning nature of this building enabled the firemen to concentrate their efforts on staying the conflagration before it reached the warehouse of the Northern Navigation Company.

The wind was for a time from the south, and it looked as tho the fire would cross 11th street and extend northward, where the C. P. R. property and the town gas works were right in line.

The C. P. R. steamer Assiniboia, which was lying at her wharf, had steam up ready to move. Superintendent Buchanan had the hose manned, and two well-directed streams assisted materially in saving the warehouse of the Northern Navigation Company.

At 1.30 the fire was under control. The loss on buildings is estimated at $32,000, and the contents about $25,000. Four residences, four coal sheds, two elevator warehouses and the steamboat offices, make up the list, leaving the waterfront swept clean for nearly five hundred feet.

A half-witted lad named William Haley, who was formerly an inmate of the Orillia Asylum, was taken into custody this afternoon on suspicion of having been responsible for not only this afternoon's blaze, but for several that have occurred during the past week.

Losses are: Davis, Smith & Malone, $22,000; McLaughlin, Son & Co., $7000; Jas. McLaughlan, $500; Godfrey & Sibbald $7000; W. H. Smith, $1500; M. Mortaowitz, $1000. The losses of the Dominion Transportation Company, the Northern Navigation Company and George Herdein will amount to $10,000.

DEATHS.

GRIFFITH—Died at his late residence, Church-street, Weston, July 22, A. J. Griffith, in his 74th year.
Interment at Riverside Cemetery, Monday, July 25, at 2 p.m. Friends and acquaintances please accept this notice.

OAKLEY — At 30 Bellevue-avenue, July 22, 1910, Thelma Maud Oakley, infant daughter of Frederick and Annie Oakley, age 11 months.
Funeral from above address at 4 p.m., July 23, to St. James' Cemetery. Friends and acquaintances kindly accept this intimation.

IN MEMORIAM.

MOONEY—In loving memory of our dear father, John Mooney, who died July 23, 1908.
Do not ask us if we miss him,
Oh, there is such a vacant place,
Oft we think we hear his footsteps,
Or see his smiling face;
He has gone to higher regions,
Safe from every grief and care,
We shall meet again in heaven,
And never more be parted there.

Police Go to Mimico.

At any rate the local officials added 18 more special constables to their staff and sent most of them out to Mimico last night. They expect to be doing something with the freight in Mimico this morning and will allow no interference with the working crews. There was not a car moved in the Mimico yards yesterday, but seven or eight Grand Trunk lorries were busy all day transferring freight from the company's cars to the C.P.R.

A feeling of depression prevailed at the fruit market. Business was slow and one big firm is now barely getting out $100 worth a day. J. Langskill, president of White & Co., said the G. T. R. returned him yesterday fruit which he had delivered to them last Monday. Of course the stuff was putrid. Mr. Langskill is filing a claim against the company.

Peach Trees.

The largest blocks of peach trees growing in Canada are to be found at Brown's Nurseries in Welland Co. The assortment of varieties is complete. Write Brown Bros. Co. for prices. 136

To Study Canadian Conditions.

MONTREAL, July 22.—In order to bring the colonial office into closer touch with the colonies, H. W. Just, one of the senior of the under secretaries connected with that office, arrived here to-day on the Empress of Britain. He will go thru Canada from the Atlantic to the Pacific and make a careful study of conditions.

James McDougall, 32 Verral-avenue, was doing a plumbing job at 40 Maitland-street yesterday morning, when in fixing a gasoline stove a small quantity of the liquid was spilled and ignited. His right hand was severely burned. It was dressed at St. Michael's Hospital.

Joseph Evans, 28 Garnet-avenue, was injured at the foot of York-street, where he was helping to unload girders for his employers, the Dominion Bridge Co., yesterday morning. One of them fell and his left foot was severely crushed.

FREIGHT STARTS MOVING MAY BE GENERAL TO-DAY

Company Has Asked For Police Protection, Claiming It Has Sufficient Men.

Freight will move to-day if the plans of the Grand Trunk do not miscarry. The only fear of officialdom is that strikers or sympathizers may become belligerent, and to guard against interference the police authorities along the lines where traffic is to reopen have been asked to be particularly vigilant and afford the company's employes proper protection.

"We can start a thru freight service from Brockville and Belleville at any time the authorities are able to furnish proper protection for our men against the mob which continues to molest them around the stations and yards," read General Manager Brownlee from a report received from the east yesterday.

"All we want is that these people let us alone. We must have protection for our men, or else they will not be asked to handle freight trains," he added. "The authorities at Richmond, Quebec, where we had riots on Tuesday night, have notified the strikers that if any more trouble occurs, they will run them out of town.

"We have now sufficient crews of experienced men to handle all our passenger service, and a large number of conductors and brakemen are being examined and instructed to-day to put in charge of freight trains to-morrow. To the extent of our ability we will furnish one of our old men as pilot on each of these trains. By pilot, I mean a man who is thoroly conversant with our rules, and the physical peculiarities of the road."

Mr. Brownlee was pretty tired last night, and turned in early for a good night's sleep, perhaps in anticipation of a busy day. He did not issue a detailed statement, saying that it was really unnecessary, in that passenger trains were running on normal schedules, thruout the system, even in the northern division. Freight had been moved out of Toronto, Sarnia, Montreal, Ottawa, Port Levin, Que., and Portland, Me., without trouble.

The freight movement would be improved to-day, he hoped.

One Freight Goes Thru.

Divisional Superintendent W. E. Gillen lit out for Sarnia early in the morning and about 8 o'clock last night a good sized freight train steamed thru the Union Depot from "the tunnel," proceeding east.

To facilitate the freight traffic as much as possible, with new crews in charge of trains, the company last night issued instructions to engineers to reduce speed to six miles an hour going thru the yards and on approaching switches. Apprehension of rioting or stone-throwing on the part of strike sympathizers is also partly responsible for this.

Train No. 7 from Montreal was besieged at York Station night before last while the rain was pouring down. A tremendous cheer from a mixed crowd on the platform as the train pulled in drew the conductor to the doorway of one of the coaches, and he was met by a fusilade of eggs fired from the darkness some distance back of the station.

Hard on Strike-Breakers.

"We cannot tell how the freight business will go under the new conditions until they have tried it," was the guarded remark last night of A. M. Clarke of Chicago, who is acting as deputy for C. N. Berry, vice-president of the O.R.C., while the latter is attending negotiations with the Wabash R. R. officials in Detroit.

"The company will, I presume, make some effort to get this branch of their business reorganized and re-established, but we know that men who go around the country looking for jobs that other men have relinquished in the hope of bettering their families' circumstances, are incapable of making competent trainmen. They knock around the country and read newspaper advertisements looking for chances of this kind to get a few square meals now and then, but they don't know what it is to have a sense of responsibility.

Men Were Consulted.

Answering a query concerning a report from London, Ont., saying that the strikers there were inclined to agree with President Hays of the Grand Trunk in the opinion that if the company had dealt with the men individually instead of thru Mr. Murdock there would have been no strike, and alleging that the men were not made fully acquainted with the schedule proposed by the company, Mr. Clarke said:

"I am sure that the proposition submitted by Mr. Hays was submitted to the men. We cannot accredit any statement but what we get ourselves. Newspaper articles of that kind might be sent out with some incentive. I know that Mr. Murdock and Mr. Berry in their negotiations submitted everything to the committee and everything was sent on to the men. In any action which Mr. Murdock took he was merely the mouthpiece of the men. I do not give much credence to the report."

The meeing last night in St. Andrew's Hall was largely attended and had, besides the strikers, a goodly representation of locomotive firemen and engineers and telegraphers, who showed a willingness to lend all possible support to the strikers.

Startling, If True.

A startling instance of the alleged danger the traveling public is being subjected to thru passenger trains being manned by incompetent crews was reported to the meeting. It was said that a disartrous wreck was narrowly averted at Clarkson's last evening when G. T. train No. 12 from Hamilton was going to take the siding for the purpose of letting the C.P.R. express pass. The G. T. train had a green crew, it was stated, and when it stopped at the switch nobody had a switch key. While a man was running down to the depot to get the key along came the C.P.R. express. The C.P.R. engineer pulled her up in the nick of time and so close did he skid to a catastrophe that the express messengers on both trains jumped.

Enquiries at the Union Depot last night were a failure, so far as corroboration of the story is concerned. If there was such an incident, it was not reported, and the schedule of trains running did not coincide with the trains mentioned in the story.

STILL ARE DEADLOCKED ON ARBITRATION POINT

Continued From Page 1.

iest convenience, that the public may be able to judge for itself of the present position and attitude of the parties on a matter which so vitally affects its interests?"

President Hays' reply to Mr. King's letter of yesterday says:

"What you propose is what I offered Messrs. Berry and Murdock in my letter of July 8. It is also what I proposed in my letter to you of July 13, to which in yours of July 15 you replied, 'I regret that it does not seem to me that I have the requisite authority to take either of the courses you suggest, nor do I believe it would be in the public interest to do so.' While your attitude appears to have changed I infer from the reported statement of the views of Messrs. Murdock and Berry, as contained in the morning papers, that they maintain the same position they have taken from the beginning."

Stratford's Appeal.

MONTREAL, July 22.—W. S. Dingman, mayor of Stratford, has telegraphed President Hays:

"With the example of Britain and the United States arbitrating at The Hague to avoid war between the nations, Stratford appeals to you to accept the minister of labor's proposal to arbitrate to stop industrial war with harsh infliction upon combatants and the country at large. This city is hard hit, tho innocent of blame. With fair reference secured thru the minister of labor there will be no loss of dignity or advantage to either party to accept arbitration."

C. H. Hale, president of the Orillia Board of Trade, also wired a plea for arbitration.

Would Summon Parliament.

BELLEVILLE, July 22.—The board of trade has sent the following to the minister of labor at Ottawa:

"Board of Trade of Belleville earnestly urge intervention of government to end present strike as disastrous to the public interests of Canada, either by immediate arbitration and conciliation, or failing other means, by legislation at special meeting of parliament, to be called for that purpose." Signed W. B. Deacon, president; W. N. Ponton, secretary.

London Endorses It.

LONDON, Ont., July 22.—(Special.)—The board of trade to-night passed a resolution endorsing the action of the minister of labor in endeavoring to settle by arbitration the dispute between the G.T.R. and its employes. The resolution will be sent on to Hon. Mr. King.

BERLIN, Ont., July 22.—(Special.)—At a meeting of the board of trade council this evening, the following resolution was passed to be sent to the Ottawa board, which is advocating settlement by arbitration of the Grand Trunk strike: "Berlin, as a manufacturing town, is vitally interested in a speedy settlement of Grand Trunk strike. Board of trade strongly endorses proposed principles of arbitration in settlement of same."

Jennie Morley and Ida Fotheringham, shoplifting sisters, the latter having a record, were yesterday sent to the Mercer for six months and one year respectively.

LIFE A NIGHTMARE

Helpless and Broken Down, Dr. Williams' Pink Pills Came to the Rescue.

There are many who think anaemia is a trouble confined to growing girls and women, but this is not the case. Thousands of men are anaemic, and attribute their growing weakness to mental or physical overwork, or worry, and who do not appear to realize that they are swiftly passing into that condition known as general debility, and that their trouble is due entirely to the fact that their blood is watery and impure. If the trouble is not taken in time, they pass from one stage to another until the breakdown is complete, and often until a cure is beyond hope. To men in all walks of life there is no medicine so valuable as Dr. Williams' Pink Pills. If you feel jaded, weak or worn out these Pills will make that rich, red blood that put vim and energy into every portion of the body. Making good blood is the mission of Dr. Williams' Pink Pills and good blood is the one secret of good health and vigorous life. An excellent case in point is that of Mr. R. W. Ellis, of Balcarres, Sask., who says: "Just four years ago I was in England making preparations to fulfil the long cherished ambition of coming to Canada. My health at that time was normal, though I was never very strong. Three weeks before the time of my departure I was overcome with a feeling of general weakness and faintness which rendered me so inert and lifeless that my days were shrouded in gloom. Consultation with a doctor brought me no consolation. Debility was my trouble and I was on the point of a breakdown. 'Canada in your condition means death,' said the doctor. 'You must have a complete rest.' A rest, however, was out of the question. A fortnight's holiday I had and then back to earn my daily bread. The next years were a series of misery and despair; body and brain undermined with a complaint the doctor could only call debility, but apparently could not cure. Snatching holidays when I could I struggled on until the opening of 1909, when completely prostrated I was compelled to go to my parents and become a burden to them. My life was simply an existence and friends said, behind my back, 'consumption.'

"In April, 1909, I began taking Dr. Williams' Pink Pills. Three months later, on July 1st, I sailed from Liverpool on the Tunisian for Montreal, full of new life, energy and hope. In this great country I am making good and I owe it all to Dr. Williams' Pink Pills. In three months they changed me from a nervous wreck to a healthy man. When doctors failed they succeeded, and I honestly believe they saved my life."

You can procure this great health-giving medicine from any dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

NO ADVICE ON NAVY FROM UNITED STATES SETTLERS

Sir Wilfrid Laurier Resents Intimation that They Are Opposed To Government Policy.

MELVILLE, Sask., July 22.—(Special.)—Sir Wilfrid Laurier's meeting today was not without incident. Prior to the public meeting in the afternoon the prime minister met a deputation of grain-growers. Charles Lunn represented that American settlers were opposed to the naval policy of the government, and objected to a grant to the imperial navy. He characterized the bridging of the Saskatchewan River as a mere bluff, in lieu of the building of the Hudson Bay Railway.

Sir Wilfrid replied to the point, saying that he did not propose to take advice on the navy from American settlers.

A memorial was also received from the Bangor Liberal Association, indorsing the navy and anti-cobmine legislation, and asking that South African veterans from the old country, who were residents in Canada at the time the scrip was issued, be allowed to participate; that the time for selection of grants on scrip purchased by speculators be restricted; that cooperative legislation be placed upon the statute books; that the tariff should be reformed by admitting farm implements free of duty; that unoccupied lands held by speculators be especially taxed, and that direct legislation be established. They also asked that five per cent. interest be declared the maximum on lien notes for farm implements and agents be prohibited from pricing chattel mortgages from farmers after machines are partly paid for.

The prime minister reserved his reply until this afternoon, and said, when introduced by J. S. Dawsey, mayor: "We have come to the last example of progress in Melville. The age of fairies has not gone, the age of miracles is still with us, but the fairies have changed their names to pluck, energy and enterprise."

The civic address with which they had presented him coupled his name with that of the late Sir John A. Macdonald. "When Sir John Macdonald went to his grave, he left no hand behind him to take up his work, and, having built the C.P.R., thought they had done for the country all that was to be done."

Taking up the resolution of the grain growers, Sir Wilfrid, promising that remedial legislation would be introduced next session, disposed of the elevator question, and said in reference to reciprocity: "If United States will give us a fair deal we will deal with them. They are a great people; they are a mighty nation; next to England they are the most magnificent nation in the world. If they will not give us a fair deal, we still can live as we have been living for the last 14 years." Answering the demands of the Bangor Association, he declared that they wanted him to go farther than he was prepared to go. He would go so far with them, and when the time came to drop off, he was sure his place would not be taken by a Tory.

Continuing, Sir Wilfrid remarked that eastern Conservative papers had charged him with promising anything and everything. "I am promising nothing at all, but I see everywhere that millions of dollars have to be spent for the development of this country. The government will not be afraid, and the west will not be afraid of it, either."

Hon. George P. Graham took up the cudgels in defence of the Hudson Bay project. He suffered several interruptions from Louis Gabriel, a pro-Boer agitator, who narrowly escaped lynching in Winnipeg some years ago. Gabriel got tangled up in his accounting and could not understand why a government with a surplus should borrow money. "The people of Canada will receive in one year as much benefit from the Hudson Bay Railway as they will ever be taxed for the building of that railway," said Hon. Mr. Graham. Certain lands have been set apart and the value of these lands will pay for the construction of the route.

"There has been opposition to the route from those who want a monopoly of it. The government thrives on it. The more they get of the present quality, the stronger they will be with the country. Opposition to the Hudson Bay Railway will never be as severe as it was against the National Transcontinental. There has never been a policy undertaken in this country which has been so maligned as has the N. T. R.

"We will have to borrow more money, and it will be in order that the wheat of Western Canada may get a better price in the markets of the world."

BELLEVILLE ATTACK MUCH EXAGGERATED

BELLEVILLE, July 22.—(Special.)—In reference to the exaggerated accounts of rioting here which appeared in one of the Toronto papers this morning, Mayor Marsh gave The World to-day the story of what actually happened.

"On the arrival of the 9.10 train from Toronto," he said, "Roadmaster Donovan, who was acting as conductor, and Superintendent of Bridges McMahon, who was a passenger on the train, were leaving the yards, when they were assaulted by six or eight men, who injured them both slightly, knocking them down. They escaped into Docter's hotel, and in the excitement two stones were thrown thru a window.

"Donovan left for Kingston this morning at 7 o'clock, and McMahon went to Port Hope on the 11 o'clock train. So, you see, they couldn't have been very badly hurt.

"The police have been in absolute control of the situation here, and are still so. The statement that hack drivers are afraid to come to the station for fear of being assaulted is absolutely untrue. We are handling all the passengers and traffic that comes along.

"There has not been the slightest disturbance since the arrival of the 9.10 train yesterday. That was more of an assault than a riot and an investigation is being made as to who committed the assaults."

TRAIN SERVICE BETTER MEN DON UNIFORMS

Passenger Traffic is Getting Better —Transit of Lone Freight Causes Satisfaction.

The transit of one freight train from Port Huron to Montreal marked the success of the company yesterday in its efforts to supply a proper service. It is the first freight which passed thru Toronto since last Monday night and consisted of 20 cars, seven of which contained perishable goods and the balance dead freight. It left Sarnia yesterday morning and arrived in Toronto at 7.50 last night, leaving for Montreal 20 minutes later. It was drawn by engine 690 and taken out by engine 702.

It was manned with a full crew, all except the engineer and fireman being enlisted men, and it is expected that the train will arrive in Montreal this morning.

The despatching of this train has proved a source of more satisfaction to the officials at the Union Station than even the success in sending out passenger trains, as it has really augured well towards breaking the backbone of the strike.

Conductors in Uniform.

No official, however, seemed to be in better humor last night than J. D. McDonald, district passenger agent of the G.T.R. The enlisted men yesterday for the first time donned uniforms, and look the part, with the result that public patronage greatly increased. Every train entering the Union Station last night carried a fair complement of passengers. "We have been getting a good class of men," said Mr. McDonald, "considering what we are up against." The Montreal train especially was well filled.

A further evidence that the G. T. R. is putting forth every effort to give the public a service is the arrival of a special immigrant train about six o'clock last evening. There were about 200 passengers, who had landed in Canada off the steamship Corsican. The C. P. R. brought about 300 to Toronto off the Empress of Britain.

The heaviest train sent out by the Grand Trunk since Monday was the Muskoka express, which left yesterday afternoon almost filled to its capacity.

Interchange of Tickets.

"Has the C.P.R. been honoring G.T. R. tickets since the strike opened?" was asked one of the officials.

"Only when we have been unable to despatch our regular trains to North Bay. Of course we want to protect our passengers. We have given them transportation over the C. P. to Sudbury."

"Has this been done on any other lines of the service?"

"No, because on every other line we have sent out our own trains."

To-day the Grand Trunk will send out two special excursion trains, one for the Belleville Old Boys, and the other for the Kingston Old Boys.

"The Belleville people have been very excited over the riot down there yesterday, because they were anxious that we should assure those who are to go on the excursion proper protection," said an official, "but it is quite evident from the amount of traffic to-day that the public are gaining confidence in the service we are suplying."

John Griffin II.'s Track Record.

WINDSOR, July 22.—John Griffin II. established a new track record when he won the third race to-day, running the six furlongs in 1.12. Jockey Pease's effort on Caper Sauce in the first race, when he made his run too late, was the cause of his being set down indefinitely by the judges. Results:

FIRST RACE—Purse $400, Dominion-bred, six furlongs:

1. Mill on the Floss, 109 (Musgrave), 11 to 5, 1 to 3 and out.
2. Caper Sauce, 116 (Pease), 3 to 5, out.
3. Commonola, 101 (Feden), 20 to 1, 5 to 1 and 3 to 5.

Time 1.13 4-5. The Shrimp, Alberta Boy and Mendip also ran.

SECOND RACE—Steeplechase, $500 added, four-year-olds and up, two miles:

COBOURG HORSE SHOW.

The sixth annual Cobourg Summer Horse Show, which is to be held August 16, 17, 18 and 19, promises to eclipse any of the former shows. The prize list of cash and silver cup trophies amounts to over $4000. Upwards of seventy-five classes will be judged during the four days, and already entries from many of the leading horsemen of the province have been received. Special attractions at this year's show will be the red coat races, daily exhibition of high jumping, and evening concerts by the 48th Highlanders' Band of Toronto. Single fare for the round trip has been arranged to Cobourg, covering the entire time of the show. Prize lists may be obtained on application to the secretary.

Central Y.M.C.A. Meet To-day.

This afternoon at Scarboro Beach, one of the best meets of the season will be held under the auspices of the Central Y. M.C.A. Athletes from all over the continent—from the States, as well as from many outside points in Canada—will compete. Probably the best event on the program will be the half mile, in which Jack Tait and Mel Brock, the speedy west ender, and Arnold Knox, the crack Central man, will start. This will be the first time this season that the three stars have competed in the same race and a great finish is expected. George Goulding, the world's champion walker, will endeavor to set a world's record for the seven mile walk. He has taken the English champion's time for the event as a time table and this he will try to beat. An innovation will be the ten-mile relay race for teams of two men each. This will be the very first race of its kind ever held at an athletic meet. Two novelties will be provided in the 2½ mile steeplechase and the one mile lap bicycle race. The games start at 1.30.

The Don Valley League, which plays al lits games in Riverdale Park (west side), offer their patrons two very choice games this afternoon, as all the teams have been considerably strengthened and clean, fast games are assured. The 2.15 game is between the Gerrards and I.C.B.U., and this is sure to be some game, as both teams are coming very strong. The points will include Sharpe of Purcell and O'Brien; Glynn or Coulter and Valiant. At 4 o'clock the Lourdes will endeavor to trim the leaders, All Saints', who have only lost one solitary game this season. Manager Currie's choice will be Owens or Downs and Woods, while Manager Gore will depend on his reliable battery, viz., Allward Graham an dBourne. Eddie Barnes will have charge of both games. These games are played on park grounds, and are entirely free to the public. Take Carlton, Winchester or Parliament cars to Riverdale Park.

The Grand Centrals play the St. Joseph's to-day at Bayside Park at 4 p.m. The following players of the Grand Central are requested to be on hand at 3 p.m.: M. Burns, M. McQuim, S. Cason, W. Bakerville (capt.), A. Wineburg, G. Deas, G. Yerman, S. Gilmore, J. Youngs, H. Freedom and W. Harrigan (Mgr.).

The Gerrards play I.C.B.U. at 2 p.m. in the Don Valley League. Players be on hand 1.30.

The card in the City Amateur League at the Brock-avenue grounds to-day is: At 2 o'clock, Park Nine vs. St. Mary's; batteries, Clements and Lynd. Downs and Downing. At 4 o'clock, Royal Oaks vs. Wellingtons; batteries, McDonald and Toft, Rosser and Graham. Umpire, Bill Phyle.

The Lourdes of the Don Valley League play All Saints at 4 p.m. today. Players meet in club house at 3 p.m.

College Street and Dovercourt play a league match in the Baptist League at Hanlan Memorial Park, Hanlan's Point, requested to be on hand.

The Gibson House at Lambton defeated the Fleming House team by 6-3. A return match will be arranged at a later date. All players are requested to turn out for practice this afternoon at 3 p.m. for the game on Monday afternoon with All-Stars at 4 p.m.

Sports at Orillia.

The Orillia Old Boys' and Girls' Association of Toronto will have a big day of sport at their annual re-union in the home town on Aug. 6. There will be a long list of both land and water events. The big feature is the four-mile ladies' walk, open to all, first prize being a sewing machine; second, a gold watch; third, a silver watch. The association is putting up a silver cup for a war canoe race.

AUTO STRUCK BY TROLLEY.

OLEAN, N. Y., July 22.—An auto driven by Max Lang, and carrying four little children, was struck by a Lake Shore trolley here this afternoon. Irene Meder is dead. Lina Heath is dying from a fractured skull; Garrett Henan and Marion Ball are badly hurt but will live. Lang is badly bruised and delirious from mental strain. He had taken the children out for a ride and was running fast when the accident happened. The auto turned turtle and the children were thrown clear.

Inspecting the Canals.

BROCKVILLE, July 22.—(Special.)—On a tour of inspection of the St. Lawrence and Welland canals, the deputy minister of railways and canals, A. W. Campbell, the superintendent of Canals W. A. Stewart, and Colonel A. Bertram of Dundas, arrived here during the night aboard the government steamer Speedy. This morning they left for Welland.

"I FEEL IT MY DUTY

To Give You a Statement In Regard To 'Fruit-a-tives'"

Hardwicke, Miramichi, N.B., Jan. 17th, 1910.

"I feel it my duty to give to you and the world an unsolicited statement in respect to the wonderful cure I received by taking 'Fruit-a-tives.' Chronic Constipation was the complaint I suffered with for years. My general health was miserable as a result of this disease, and I became depressed and alarmed. I was treated by physicians without the slightest permanent benefit, and I tried all kinds of pills and tablets but nothing did me any good.

"I saw the strong testimonial in favor of 'Fruit-a-tives' by New Brunswick's 'Grand Old Man,' the Hon. John Costigan, and I knew that anything he stated was honest and true and given only to help his fellow-men. I tried 'Fruit-a-tives' and the effects were most marvellous, and now I am entirely well from all my Chronic Constipation that I suffered from for so many years. My general health is once more excellent, and I cannot say too much to express my thanks for the great benefits derived from taking 'Fruit-a-tives.'"

A. G. WILLISTON.

"Fruit-a-tives" is not gotten up by druggists or expert chemists—who know nothing about disease and the needs of the human body—but is the scientific discovery of a well known physician, and is the only medicine in the world made of fruit juices.

50c a box, 6 for $2.50, or trial size, 25c. At all dealers, or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

Summer Amusements

At the Alexandra.

Next week the Percy Haswell Players will offer another comedy equally as well known as "A Night Off," but written some years before it. "School" is by Tom W. Robertson, the well-known author of "Caste," "David Garrick," "Ours" and other great successes of 40 and 50 years ago. It is a comedy of manners without much of a plot or story, the author depending more upon the characters in the play which he has so cleverly drawn.

The plot, if such it may be called, hinges upon the disappearance of a child, who is subsequently found and reinstated in the position to which she belongs. Beau Farintosh is a fop of the old school, with considerable wealth. He had a son who, somewhat of a scapegrace, ran away and married. O child was born, and it is around this girl the story principally hinges. Farintosh made but little effort to find the whereabouts of his son, his wife, or daughter, but lived the life of a genteel foppish old spendthrift. Bella, the child, was adopted by a family named Marks, and subsequently entered the employ of Dr. and Mrs. Sutcliffe, who conducted a genteel boarding school for girls. There she becomes a great favorite, not only with her employers but with the school pupils. Another character in the school is Mr. Krux, who is the head master. He was a sneak and very unpopular with all around him.

It is while the school is at the height of its popularity that Lord Beaufoy and his friend, Jack Poyntz, enter on the scene. They are the guests of Beau Farintosh at the shooting lodge, which is nearby. In their wanderings they run across the girl pupils and become acquainted. One of the pupils is Naomi Tighe, who is a wealthy heiress. She and Bella are great chums. Poyntz falls in love with Naomi, and Beaufoy does the same with Bella. Bella, thru Krux, gets into trouble with her associates, and Beaufoy takes her away and marries her. Beau Farintosh for some little time has been trying to find his granddaughter, and traces her back to the school. When he asks for her he is told about the elopement and Krux puts as bad a face on it as he can. At this juncture Beaufoy enters and introduces Bella as Lady Beaufoy, and they receive the blessing of old Farintosh. Naomi, of course, marries Jack Poyntz.

This is pretty much the whole story, but the way the scenes and situations have been worked about by the dramatist, makes it one of the most enjoyable and popular of English comedies.

It was written shortly after the Crimean war, when exaggerated costumes were worn by both men and women. It is Miss Haswell's intention next week to reproduce these costumes, which will add much to the pleasure of those who witness the comedy, and as the action of the play takes place in one of those pretty rural English villages, it gives the scenic artist and stage carpenter a splendid opportunity for the use of their talents, and there is little doubt that "School" will prove just as popular as "A Night Off" this week.

At Scarboro Beach.

"It looks like a big night to-night" at Scarboro Beach, no less than three important organizations being represented on the list of special events scheduled for to-day. The outing of the Toronto Railway employes, which will be continued next week, opens this afternoon, coincident with the conclusion of Eaton week, which has been one of the most successful enterprises yet held under the auspices of the Eaton Athletic Association, the attendance records showing that practically the entire force of the big store took advantage of the hospitality extended by the association. This afternoon the Central Y. M. C. A. will hold a meet at Scarboro Beach Athletic Park, with 150 star athletes present to compete in the various contests, and at the conclusion of the games all present will be given free admission to the amusement park. The Carl Dammann troupe, who appear next week in the big free circus act, give a spectacular acrobatic exhibition which has won them wide fame both in Europe and the United State. The troupe consists of three men and two women. Excellent programs have been prepared for the two sacred band concerts at the Beach tomorrow afternoon and evening.

At the Island.

This will be baseball "fans" day at Hanlan's Point, where Providence and Toronto will play a double header in the stadium at 2 and 4 o'clock. Only one admission fee will be charged. To-day and to-morrow, Antinarelli and his band will give their farewell concerts. During the past two weeks, no band that has appeared at Hanlan's Point in years has given so much satisfaction or drawn such large crowds.

One of the special features, and one that is attracting a great deal of attention is the giant "Baby Boy," five years of age and weighs somewhere about 160 pounds. He is a well built, manly little fellow and one of the handsomest babies ever exhibited.

Next week the annual musical festival will be given by the military bands, both afternoon and evening each day, starting with the 48th Regiment Band on Monday, Body Guards on Tuesday, Grenadiers on Wednesday, and Thursday afternoon. Thursday evening a special event takes place when massed bands of the 48th, Queen's Own and Grenadiers will give a combined concert. Friday afternoon and evening, the Queen's Own will play, and Saturday afternoon and evening the 48th. The directors of the various bands are preparing special programs, in which will be introduced a number of soloists and special instruments.

IN SOCIETY.

Mrs. D. M. Beattie, Farnham-avenue, announces the engagement of her eldest daughter, Ada Mary, to Mr. Wm. L. Torrance, Vancouver, B.C., son of Adam Torrance, Listowel, Ont. The marriage will take place quietly in August.

The engagement is announced of Marion Alice Miller, youngest daughter of the late Mr. F. C. Miller and Mrs. Miller, to Mr. Ernest John Gammon of Devonshire, England. The marriage will take place on Sept. 7.

Personal.

Mr. J. Wood, manager of the Robert Simpson Company, has returned to the city after a six-weeks' trip to the old country.

The honorary governors who will visit the Toronto General Hospital during the week are Messrs. W. G. Gooderham and W. R. Brock.

Wireless Overland.

NEW YORK, July 22.—Altho the plan of sending wireless messages on land for a distance of more than 100 miles has been declared impracticable in a commercial way, a scheme is now on foot to form a company for this purpose. It is to be formed of five companies, that now have $14,000,000 capital. The largest of these companies which it is proposed to form into an organization to control the wireless field is the Pacific Wireless Telegraph and Telephone Company, with a capital of $10,000,000.

A Big Diamond.

NEW YORK, July 22.—Maiden Lane heard to-day from Johannesburg of the finding of a pure white flawless diamond at the Premier Mine, said to weigh 191 karats. It is said to be two inches long and three-fourths of an inch thick, tapering from one and a quarter to three-fourths of an inch. It is estimated to be worth $150,000 uncut.

Seventy thousand dollars worth of railway bonds have been stolen from the Russo-Chinese Bank in New York.

HOME BANK EXPLAINS SITUATION AT LINDSAY

Planning For Two Years to Open Branch There—Manager McGill Resigned From Farmers' Bank.

Referring to the Lindsay despatch in yesterday's World, Col. James Mason, general manager of the Home Bank of Canada, makes the following statement:

"The Home Bank of Canada has been considering the possibilities of opening a branch in Lindsay for some time. In September, 1908, the matter was under discussion thru the solicitation that had come to us from a prominent business man in that town, and since then the matter of locating in Lindsay has been before us at different times.

"In the application which Mr. McGill sent to us, dated 22nd June, he stated that he had resigned from the Farmers' Bank on June 4. We did not open the branch until the 29th.

"Of course, we have no knowledge of what Mr. McGill may have said to his friends in Lindsay regarding the Farmers' Bank. If it had been intimated to us by the Farmers' Bank that he was injuring their credit in order to bet business for the Home Bank, we would have at once cautioned him. The only instruction he received from us in the solicitation of business was in the form of a letter to be sent out to the people of Lindsay generally, announcing that the Home Bank had opened a branch. In this letter there was no reference whatsoever to the Farmers' Bank.

Withdrawals Distributed.

"The first intimation we had of the trouble which has been so freely ventilated in this morning's papers, was in a telephone communication from Mr. McGill last night. What were the particulars of the affair, we were not aware until we read the morning papers. Of course, Mr. McGill has been sending us reports showing the number of deposits received by the Home Bank since opening in Lindsay. The morning papers state that $60,000 has been withdrawn from the Farmers' Bank. If this is the case, some of the other banks in Lindsay have profited by the withdrawals, because the Home Bank has not received nearly this amount of money.

"The newspaper reports on this matter seem to give the idea that the Home Bank secured the staff from the Farmers' Bank and opened the branch, making a deliberate set for the Farmers' Bank business. This is not the fact—as I have said before, the matter of opening a branch in Lindsay has been under consideration for the past two years. Mr. McGill was, as far as we were aware at the time he was engaged, without employment in Lindsay, and he was engaged by the Home Bank upon recommendations which showed that he was an honest and trustworthy young man and was very well and favorably known in Lindsay and thruout the township. His work in Lindsay so far has been what we would have expected from any competent manager opening a new branch of the Home Bank.

Fleury Not in Home Bank.

"It might also be added that Mr. Fleury is not in the service of the Home Bank as stated in the morning papers, and the other young man, Mr. Coulter, left the service of the Farmers' Bank on the 4th July, joining the service of the Home Bank on the 14th."

In applying to the Home Bank for a position under date of June 22, Mr. McGill said: "Two years ago I opened a branch here. I resigned my position on the 4th inst. There is a good opening for a branch of your bank in this town. This is a very wealthy agricultural district and I have a large and influential connection."

Thought He Had Killed Mother-in-law

NEW YORK, July 22.—Apparently believing that a shot he had fired thru a glass door at his mother-in-law had killed or seriously injured her, Richard Soile, a young west sider, went into the basement of the house on West 55th-street to-day and sent a revolver bullet into his own brain, dying instantly.

INNOCENT MAN SUFFERED

Was Convicted of the Murder of His Five Children.

TOURS, France, July 22.—A rag picker named Joseph has confessed to the assassination, April 21, 1901, of five children of a farmer named Briere, in the vicinity of Chartres. The father of the children was found guilty of the murders and sentenced to life imprisonment. He died in prison.

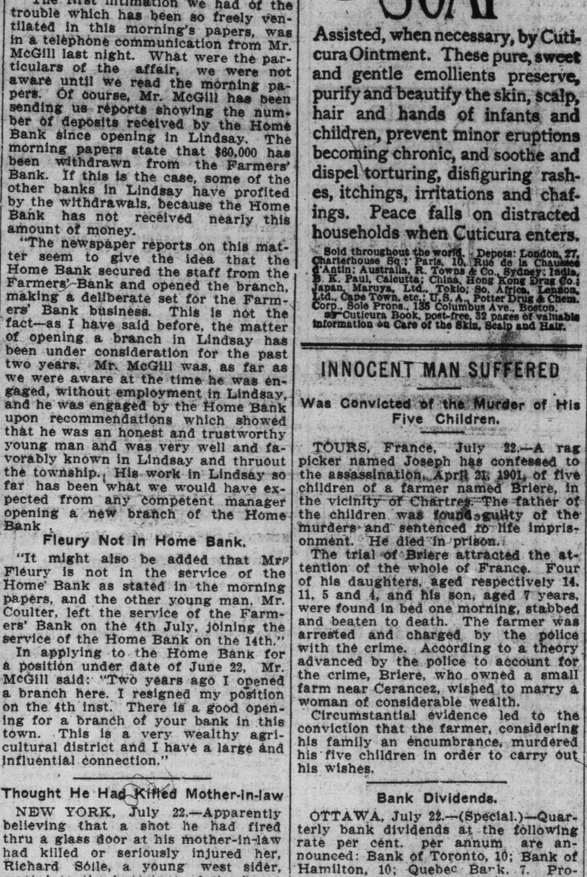

The trial of Briere attracted the attention of the whole of France. Four of his daughters, aged respectively 14, 11, 5 and 4, and his son, aged 7 years, were found in bed one morning, stabbed and beaten to death. The farmer was arrested and charged by the police with the crime. According to a theory advanced by the police to account for the crime, Briere, who owned a small farm near Ceranczes, wished to marry a woman of considerable wealth.

Circumstantial evidence led to the conviction that the farmer, considering his family an encumbrance, murdered his five children in order to carry out his wishes.

Bank Dividends.

OTTAWA, July 22.—(Special.)—Quarterly bank dividends at the following rate per cent. per annum are announced: Bank of Toronto, 10; Bank of Hamilton, 10; Quebec Bank, 7. Proceedings are underway to effect the sale of the Union Bank of Halifax to the Royal.

The annual convention of the American Federation of Labor will be opened on November 14.

C.P.R. ALLOWED TO FIGHT VIADUCT AND BRIDGE

Leave to Appeal Granted by Privy Council—Hearing in November.

The C.P.R. has been given leave by the judicial committee of the privy council to appeal against the orders of the Dominion Railway Commission, sustained by the supreme court for Canada, both as to the construction of the Esplanade viaduct and Yonge-street bridge.

Intimation of this action was received in a cable from Corporation Counsel Drayton, received by the city's legal department yesterday. It reads: "Leave granted. Terms: Cases to be consolidated and expedited."

In a Canadian Associated Press despatch, Mr. Drayton is quoted as saying that the expedited hearing will take place in November and that he will then have another opportunity to object to the special leave to appeal.

Argument on both points is to be heard at once so as to hasten matters along.

The railway commission on Dec. 31, 1908, issued an order that the viaduct be built, the city to pay one-third and the Grand Trunk and C.P.R. also one-third each. This order was not opposed by the Grand Trunk in the supreme court, but the policy of the other road has been to fight to a finish. It asserts that the commission has no power to order the construction of a viaduct on what it maintains to be its private right of way, and that an agreement entered into by the city, Grand Trunk and C.P.R. in 1892, stands in the way of the issuance of such an order.

The order that the railways build the Yonge-street bridge was made by the old railway committee of the house of commons and was upheld by Judge Anglin. This order is superseded by the viaduct order, but the C.P.R. is evidently determined to fight both.

Second Ward Appeals.

The number of appeals against assessment in the second ward this year is 119, or about the same as last year. The court of revision will listen to the appeals Aug. 8 and 9. The total assessment of the ward is $35,335,083, an increase over last year of $2,883,057.

Work has begun at the main pumping station, foot of John-street, on the cutting of the 36-inch discharge pipe to make a connection with the new 15,000,000 gallon pump, which will be ready for use in a few days. No. 4 engine has been shut down during the work, the present being an opportune time, as the reservoir is almost full of water, the recent rains having called a halt on the consumption for lawn sprinkling.

METHODISTS MAY UNITE 2 MISSION DEPARTMENTS

General Conference Likely to Discuss Amalgamation of Home and Foreign Missions.

There are a number of important issues to come before the general conference of the Methodist Church, which will receive considerable discussion. The general conference, which meets every four years, will be held at Victoria, B.C., next month, and among the most important questions to be settled is the appointment of a successor to the late Rev. Dr. Sutherland, who was secretary of the foreign mission department.

Altho it would appear that the one most entitled to the secretaryship is Rev. T. E. E. Shore, who has been Dr. Sutherland's assistant, there is a general feeling, especially among the ministers, according to one of their profession, that the foreign and home mission departments should be amalgamated and managed by one head, as was the system previous to the Montreal conference eight years ago.

"It is felt that two different departments make too much division in the work of handling missions," said the minister.

Should such amalgamation take place it is probable that one of the older ministers might be appointed as head of the department.

Amalgamate Publications.

To dispense with the publication of The Wesleyan at Halifax and join its forces with those of The Guardian may also be a step decided upon at the conference. Altho The Wesleyan has been published for fifty years, it is felt that one publication is sufficient in Canada. Should such action be taken it is quite probable that an associate editor will be appointed, whose duties will be to cover the western provinces.

Church union will be discussed at length, after which the question will be submitted to all the quarterly boards. Their reports will be received some time next year and should the vote be in favor of church union a special general conference will be called in 1912 to finally adopt the measure.

To Curb Professors.

In view of the fact that college boards are allowed to become too progressive in their ideas of church doctrine, according to the views of many laymen and church dignitaries, it is quite possible that there will be a warm discussion over the appointment of college professors. At present the conference has no supervision over the college professors and an effort will be made to give the conference some say, if not all the say, as to who shall be the instructors of the young men, who are studying to become preachers of the gospel. This control can only be secured by the conference board thru a complete change in the methods of appointing the professors. Advanced ideas of some of the professors are credited as responsible for the desire to take such action.

Bakers in Court Again.

On Monday the medical health department will prosecute the Nasmith Co. and A. W. Carrick under the new bread law. They are charged with violating the bread law in selling loaves of a less weight than 24 or 48 ounces, and in selling "small bread" of a weight exceeding twelve ounces.

Gourlay Pianos

THE PRIDE OF OWNERSHIP

To own a Gourlay Piano is to be proud of your piano. If you are a musician, the sympathetic bond between you will be strong indeed, for a Gourlay piano responds to every mood of the player. There is a crispness and delicacy of tone for the daintiest improvisation and a richness and volume for the most exacting bravura passages.

If you are not a player, but a lover of music, the pleasure of your friends' enthusiasm will more than repay you for the amount of your investment, to say nothing of the extra years of service over an ordinary piano. Write for Catalogue and prices.

C. M. A. PACIFIC TRIP

Three Hundred Members Will Take It in—Will Leave Sept. 11.

The secretary of the Canadian Manufacturers' Association has just issued a very artistic booklet descriptive of the proposed excursion to the Pacific Coast in September. The booklet is illustrated with a number of attractive photographs of scenes along the line of travel. The excursion is to be limited to members and their families, and already some 250 applications have been received. It is expected that over 300 will comprise the complete party, so that it will be necessary to charter two entire trains and dining cars. The party will be by way of being a community in itself; even a daily newspaper, with a "thoroly organized reportorial staff," being contemplated.

The itinerary includes Port Arthur, Fort William, Winnipeg, Brandon, Regina, Calgary, Banff, Laggan, Vancouver, Edmonton, Saskatoon, Minneapolis, St. Paul, and Sault Ste Marie. At each stopping place a program is to be planned, including drives, harbor excursions, receptions by the local boards of trade, and informal dances. At Minneapolis and St. Paul the party will be entertained by the Commercial Club of the Twin Cities. In Vancouver it is said that the association intends to tackle the British Columbia companies act on its home ground.

It is planned to leave Toronto on Sunday morning, September 11, returning on Sunday, October 2.

Along the Waterfront.

Christie, Brown & Co.'s employes are going to Niagara to-day, 2000 strong.

The City of Hamilton arrived last night from Montreal with passengers and freight. The J. H. Plummer, with package freight, and the Advance, with explosives, also arrived from Montreal and proceeded to Fort William.

The Newcombe Piano Co.'s employes went to Oaklands Park yesterday on the Turbinia. The Nordheimer folks are going to-day to Mohawk Park in Brantford.

The Toronto's purser has lost his watch. It dropped overboard just as the boat was leaving the pier, and the owner at once offered $25 reward for its recovery. Mait Aykroyd dragged, and some intrepid souls dived, but without success.

Two parties, one from Owen Sound, the other from Harriston, Ont., arrived yesterday by C.P.R., and proceeded by boat to Niagara.

BLOCKED YONGE STREET

G. T. R. Conductor Paid $5 for Offence—Heavier Penalty Promised.

Because the Grand Trunk freight train, of which he was in charge, blocked Yonge-street crossing of the Esplanade for seven minutes on the afternoon of July 13, Conductor Clarence Kleppett was fined $5 in the afternoon police court yesterday by Magistrate Cohen.

The prosecution was the result of the irate feelings of a would-be boat passenger, who missed his steamer thru being held up by a train. He complained to Constable Holmes, who kept close watch, with the outcome as stated.

Thomas Irwin, the engineer, appeared in court several days ago and escaped penalty by pleading that in shunting back and forth he only obeyed the conductor's signals.

Magistrate Cohen intimated that any future offence would receive a higher penalty.

His refusal to pay ten cents for a ride in a night car, cost William McDonald $2. It happened on a belt line car last May. McDonald boarded the car while the day tariff was operative and stayed on until the double fare went into force. He was ejected after a struggle and was charged with disorderliness.

For driving an auto on Sherbourne-street without a light, William Oakley was fined $5.

Bail in Manslaughter Charge.

George Barker, the worker in the St. Lawrence Starch Works, at Port Credit, who killed Michael Mangle, a fellow-worker, after a few words, while at work on June 30th, has been granted bail in $1000 by Justice Sutherland on the application of T. N. Phelan.

FREE TO YOU—MY SISTER

FREE TO YOU AND EVERY SISTER SUFFERING FROM WOMEN'S AILMENTS

I am a woman.
I know woman's sufferings.
I have found the cure.

I will mail, free of any charge, my home treatment with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—you, my reader, for yourself, or your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home with the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhœa or Whitish discharges, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.

I want to send you a complete 10 days' treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhœa, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always result from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all woman's diseases and makes women well, strong, plump and robust. Just send me your address, and the free ten days' treatment is yours, also the book. Write to-day, as you may not see this offer again. Address

PRESS ON PREFERENCE

British Comments on the Memorial of Western Canadian Farmers.

LONDON, July 22.—(C.A.P. Cable.)—Referring to the debate in the commons, The Daily News says the colonies mean to control their own affairs, and imperial preferentialists mean they will not. For that reason an imperial preference is an insidious attack upon the integrity of the empire. What Canada thinks of protection and preference the farmers' memorial shows. We would not add one word to it save this, that it is the farmers who are destined to control the Canadian policy.

The London Express says that party spirit has stood blindly in the way of tariff reform and the empire has to suffer for it. Soon our chance of imperial salvation will have passed from us; when it has passed it will have passed irrevocably and the empire will pass with it.

The Morning Post says the French-Canadian treaty has been the severest blow at preferential prospects for the future. In discussing fiscal relations between Germany and Canada, Asquith carefully avoided the slightest reference to the real cause of that dispute.

The Leader says it is an odd coincidence that the Western Canadian farmers were protesting against the evils of protection on the very day that Balfour was preaching its advantages in England.

The Glasgow Herald says that Canada cannot give away a preference and keep it, therefore the danger of delay should be obvious to a Canadian. Canada's action as a separatist would be futile, even if it were accurate.

The Scotsman declares that even those who are unwilling or tardy converts recognize that tariff reform, with colonial preference is inevitable.

The London Daily Mail, in reference to Asquith's point about the difficulty of instituting a preference without causing jealousy, says that the dominions are not animated by the dog-in-the-manger temper which Asquith so unjustly ascribed to them, and declares that behind the acceptance or rejection of the offer of the oversea states lies the even larger issue of the union or disintegration of the empire.

THE AMERICAN CONTENTION

Argued That Foreigners Could Fish Under Protection of U. S. Flag.

(Canadian Associated Press Cable.)

THE HAGUE, July 22.—Continuing his argument for the United States, Elder affirmed that, notwithstanding Lord Elgin's warning to the governor of Newfoundland to conform to the modus vivendi concluded between Britain and America in 1906, the Newfoundland law prohibiting the sale of herrings to American fishermen for use as bait, which had for its object to render it impossible for Americans to fish for cod, was carried out with the utmost rigor against American vessels and those inhabitants of Newfoundland who had procured bait for them.

Elder further said that Newfoundland fishermen had demanded the abolition of the law, which did them great harm, and had also addressed petitions to the same effect to the Newfoundland Parliament. The Newfoundland law forbidding inhabitants of the colony to take service on foreign craft was repealed in the case of American vessels by a royal decree, but Newfoundland had, in spite of this, enforced its provisions.

He contended that owners of United States fishing vessels could engage foreigners to fish for them under the protection of the American flag. This contention gave rise to considerable discussion between counsel and several members of the tribunal, who appeared to dissent from the view of Elder.

GRENS OFF ON LONG MARCH

Company of Thirty-Three Men Tramping It to Hamilton.

Sharp at 9 o'clock last night a party of the 10th Royal Grenadiers set out, 33 strong, on their trek to Hamilton, to the accompaniment of rousing cheers from the host of friends and admirers gathered to see them off. The men were full of enthusiasm and not a bit daunted by the difficult prospect ahead of them.

The purpose of the expedition is to test the fatigue endurance of the men rather than to find how fast they can cover the ground. The detachment consisted of an individual company formed out of "D" and "G" companies. Those in command were: Lieut. G. C. Ryerson, Lieut. M. Sanderson, Lieut. V. W. S. Heron. The men of rank and file together with their respective merits and qualifications were:

BIG STRIKE INCIDENTS FROM ALL OVER SYSTEM

Vice-President Murdock on the Closing of the Shops—C.N.R. Switching in Toronto Yards.

The announcement of Mr. Fitzhugh, vice-president of the Grand Trunk, that the company contemplated opening the car shops on Monday, has brought from James Murdock, the leader of the local fight, the following statement: "It is now up to somebody to prosecute the Grand Trunk Railway Company for perpetrating a lockout, contrary to industrial disputes act. Closing the shops was without any other justification than to raise public sentiment in favor of the company. You know how men thrown out of work will seek to find someone to blame. Theoretically, their anger would be directed against the brotherhood and raise an adverse public feeling. I can assign two or three possible reasons for the reopening of the shops, if the company actually does so. Either they realized that they were doing a great injustice to innocent men, or representations were made to them from powerful quarters, or, thirdly, they feared an investigation."

In answer to the objections made by Vice-president Berry on behalf of the O. R. C. against the practice, since the opening of the strike, of the Canadian Northern trainmen switching their own trains at the Union Station, the Canadian Northern management made a statement yesterday defining and maintaining their position.

They pointed out that if such a principle as Mr. Berry urges in his letter to the executive were allowed to be established it would have tremendously far-reaching effects. For instance, in the event of a strike involving the interlocking cabinmen of the G. T. R., no other road would be able to operate trains across an intersecting point with the G.T.R.

In this case, the Canadian Northern Ontario trainmen are required to switch or make up C. N. O. passenger trains in the Union Station terminals. This work was formerly performed by the Grand Trunk yard crews, but the C.N.O. have, of course, retained all their rights in the terminals under the order of the Railway Commission. The C.N.O. trainmen are not asked to switch any other than Canadian Northern cars. The Canadian Northern Ontario management does not contemplate the tying up of the Canadian Northern on account of the G. T. R. strike.

One of the Canadian Manufacturers' Association's officials said yesterday: "Several freight trains have left for the west this morning, and this will help a whole lot. Altho the manufacturers expect to be inconvenienced with their orders coming in and going out for a short time, they do not look for any real trouble."

Secretary Morley of the board of trade said he had heard little or no complaint from members.

It is assumed by some that the uncomplaining attitude of the Canadian Manufacturers' Association towards the strike is due to a desire not to embarrass the company, because of the common ground on which they stand in regard to organized labor.

C. N. R. bridge gangs on the new construction east of Toronto are idle because owing to the G. T. R. strike they cannot get material.

The Speight Wagon Works at Markham have shut down owing to interrupted transportation.

The G. T. R. is spiking down siding switches. "We have a number of sidings for placing cars for holding coal, and empty cars that we are not using," said one of the officials. "Now, if we did not spike these down, there is nothing to prevent someone coming along and pushing a car out on the main line and causing considerable trouble and perhaps death to some innocent person."

LANSING, Mich.—Acting Superintendent Erhke of the Grand Trunk has appealed to the state railway commission for state protection of railroad property during the strike, claiming that railroad property is being destroyed in some places, train service interfered with and strike-breakers threatened.

CLEVELAND, O.—President W. G. Lee of the Brotherhood of Railway Trainmen has received a telegram from James Murdock, vice-president of the brotherhood in Canada, asking him to come to Montreal to discuss the situation and formulate plans for the fight for higher wages. Lee said he would go to Montreal and en route meet President Garretson of the Order of Railway Conductors, who also has been asked by Murdock to attend a meeting in Montreal.

The freight tie-up as the result of the Grand Trunk strike has hit the wholesale and manufacturing concerns of Hamilton so hard that concerted action will be taken to get the C. P. R. to build the Hamilton and Guelph Junction Railway to give the city a direct freight connection with Galt, Guelph, Waterloo, Goderich and that district.

A Boston despatch says: To-day several freight trains that have been tied up by the conductors' and trainmen's strike were started. Altho the appearance of strike-breakers was the signal for outbursts of violence in several places in Vermont yesterday and last night, more of the men were sent out to-day.

Five hundred strike-breakers have been engaged so far in Chicago, most of them being sent to various points along the company's lines.

Canadian immigration officials at Windsor late Thursday night turned back a party of about 25 strike-breakers who attempted to cross the Detroit River to take the places of striking Grand Trunk employes in Canada.

Supt. Gillen of the middle division is in Sarnia directing the freight movement.

James Murdock, the commander of the brotherhood forces in the strike conflict at Montreal, says: "The boasted successes of the company with their claims of running trains on time and reviving the freight traffic are largely fictitious. The company makes a daily announcement to that effect, I have scores of telegrams every few hours from all points on the system informing me of crippled freight business, of canceled passenger trains and of increasing confidence among the strikers."

NIAGARA FALLS, Ont.—By the first of next week freight trains will again be running on the Grand Trunk between here and Windsor, according to Superintendent C. S. Cunningham. The official said he had 150 experienced trainmen ready to go to work just as soon as he pushed the button.

Superintendent Donaldson of the G. T. R. at Ottawa, has called on the crown attorney of the Counties of Stormont, Dundas and Glengarry, at Cornwall, to issue orders to the police of the various towns on the G. T. R. in the three counties to keep the platforms of the stations clear of everyone who has no business or is not traveling on the road. This action was taken by the superintendent in view of the egg-throwing at Glen Robertson on Wednesday night, and the insults offered to the conductors and even passengers by the people on the platform.

The Wall Street Journal says: As a result of the practical suspension of the Grand Trunk freight service the company is losing, approximately, $117,000 per day in gross income on its own lines, and $6700 per day on the Central Vermont.

At this rate the Grand Trunk will lose in twelve days an amount equivalent to its entire surplus, after charges, shown for the six months ended December 31, 1909.

The Central Vermont, which showed a surplus for the year ended June 30, 1909, of only $3117, will fare comparatively much worse. The Grand Trunk's daily revenue is reduced about one half.

Conductor Thos. Ausebrook of Goderich still takes out his train regularly in spite of the strike. He is an old and trusted employe of the Grand Trunk, and states that the men were not fully informed before the strike was called.

NEWTONTOWN, Conn.—A crowd of women and boys attacked strike breakers in the Central Vermont freight yards at East New London and some one in the crowd fired a shot. The police arrested two men.

LANSING, Mich.—Two hundred business men of Charlotte sent a telegram to the state railway commissioner asking that body to prevent the G. T. R. operating its lines with incompetent trainmen.

The International Harvester Co., Hamilton, say they are losing thousands of dollars every day the strike lasts.

The Port Credit Brick Company have 250,000 brick loaded in Grand Trunk cars and addressed to builders in Toronto.

I'M FURNACEMAN IN TWENTY DIFFERENT HOMES

That's why I claim to know something about furnaces. It's my business—**to get the best possible results from the different heaters.** See how I put the word "possible" before results. There's a reason. With some furnaces satisfactory heating is about impossible. So complicated is their construction they fool even an expert furnaceman. **Complicated construction means furnace trouble.** The house is always cold, no matter how much fuel you burn. Now, the Pease

"ECONOMY" FURNACE

is different. It is simplicity itself because it's built right. The "Economy" Furnace is so simple that you, or the boy, or the girl can attend to it. Whether it is thirty above or thirty below zero, you can have an even, summery temperature in every room in the house. I have noticed that folks who own Pease Furnaces are a happy, contented lot, because the "Economy" certainly does cut out furnace fuss and bother. It's the perfect construction of the Pease "Economy" Furnace that counts. You want to know more about the "Economy" before investing a dollar in any heating system. Look for my talks. They will interest you.

It is Far Better to Be An Old Man Who Feels Young Than a Young Man Who Feels Old

HERE IS AN OLD YOUNG MAN.

HERE ARE THE BOOKS THAT GIVE THE SECRET OF PERPETUAL YOUTH, LET ME SEND THEM TO YOU FREE.

HERE IS A YOUNG OLD MAN.

Years count for nothing if you have the vitality. You can feel young all your life where there is ample nerve force to back your courage. Let me make you a "HEALTH BELT MAN." Let me supply you with that vim, vigor and manly strength which conquers all obstacles. A man at 60 should be in the prime of life; early decline unfits you for the world's work. I have talked with more than 100,000 debilitated men; the lack of vital vigor is responsible for most failures; you can't command the attention and admiration of women or even men if you lack personal vitality. My HEALTH BELT fills you full of vital force; it strengthens weakened parts; it gives you courage to meet squarely any eyes which may look into yours. You become as attractive in your personal influence as the strongest, most full-blooded man you know. Thousands upon thousands have been cured by my HEALTH BELT. Worn nights for two or three months, it sends the continuous tonic current of electricity into your system all the time you are sleeping. No privations, no medicines, no restrictions, excepting that all dissipation must cease. Cures weak back in one night; benefits from first hour. It has special attachments which carry the current to the weakened parts. Used by both sexes for rheumatism, kidney, liver, stomach, bladder disorders, etc. John Mulholland, Tyneside, Ont, writes: "Your Health Belt restored me to manly vigor. Use my name as you see fit." If in or near this city, call and see the Belt in my office, otherwise send for the free books which explain all and tell you how, for a few dollars, my Health Belt will give you back your manhood. No charge for advice at office or by mail. Use the coupon if more convenient.

FREE UNTIL CURED

Call or write to me and I will at once arrange to let you have the Belt on trial, not to be paid for until cured. No deposit or advance payment. Send it back if it doesn't do the work. Liberal discount for cash if you prefer to deal that way.

WHAT PROVINCE HAS DONE FOR THE FARMER

Lieut.-Col. Henderson's Address in Laying Corner Stone of Town Hall at Beaverton.

BEAVERTON, Ont., July 22.—(Special.)—The corner-stone of the town hall being erected jointly by the municipality and the Township of Thorah was laid to-day by Lieutenant-Colonel Henderson of the department of agriculture, Toronto, commanding officer of the county regiment, and for many years identified with education in the county.

In performance of the ceremony Colonel Henderson related some interesting reminiscences.

"I feel, sir," said the colonel, "that I am not here merely because I am not elsewhere; nor am I here solely because I am the commanding officer of one of the finest regiments that wears his majesty's uniform, the Ontario County regiment. Nor am I here principally because I devoted the best thirty years of my life to the educational interests of this great county; nor am I here simply thru that accident of birth that enables me to make my proudest boast—to wit: I am an Ontario County boy, born and bred. But, while these may be contributory causes, I feel that I am here in the midst of a great agricultural community, chiefly because I am a member of the staff of that department of civil government that has done and is doing and will continue to do more for the social and material advancement of the agricultural communities of Ontario than has been done or can possibly be done by any other department of that same civil government—the provincial department of agriculture.

"I recognize in the building of this union town hall by the sister municipalities of Beaverton and Thorah a consummation devoutly to be wished for thru the length and breadth of this province—an acknowledgment of the economic fact that the mutual success of urban and rural communities is commensurate only with the degree of reciprocity and mutual dependence and support that exists between them. As with the body corporal, so with the body corporate; it is only when the different units work together in unison that the best results are obtainable.

"A few years ago, many of you will remember, there was a great efflux of the rural population to the cities. The most valuable assets of a rural community, the brawn and the brains and the muscle and the sinews of its rising generation, flowed cityward; a general discontent prevailed, and the young people preferred a precarious living in the towns and cities to a rude plenty, with drudgery, on the farm. Then the authorities became alarmed, and those potent agencies called into being and controled by the department of agriculture, such agencies as the Experimental Union, the Dairymen's Association, the Farmers' Institute, the Fruit-growers' Association, the Women's Institute, and a dozen similar associations, backed up by that storehouse of agricultural and scientific knowledge, the O. A. C., were inspired to increased activity, and the farmer eventually awoke to the fact that farming is a science, as well as an art, and a science sufficiently intricate to claim the best efforts of the best brains of the community. The result was that within fifteen years the output of the Ontario farms increased 100 per cent.

"As a resident of the City of Toronto, I would not protest so vigorously against the excessive cost of living were I convinced that the farmer is receiving his due share of the inflated prices, but of that I have my doubts. I think I am safe in saying that very few farmers know how enormously much of the produce of the farm increases in value after it leaves the possession of the original owner."

$3.50 Recipe Cures Weak Men---Free

Send Name and Address To-day—You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 3933 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain, ordinary envelope free of charge. A great many doctors would charge $3.00 to $5.00 for merely writing out a prescription like this—but I send it entirely free. 45tf

NOTICE TO CONTRACTORS

Tenders for Wiring Systems, Switch Board and Transformers.

SEALED TENDERS addressed to the undersigned, and marked on the envelope, "Tender for Wiring System, Switch Board and Transformers," will be received at the office of the Commissioners of the Transcontinental Railway, at Ottawa, Ontario, until twelve o'clock noon of the 26th day of July, 1910, for the wiring systems, switch board and transformers, required in connection with the Locomotive Shops of the National Transcontinental Railway, east of Winnipeg.

Plans and specifications may be seen in the office of Mr. Gordon Grant, Chief Engineer of the Commissioners, at Ottawa, Ont., and in the office of Mr. S. R. Poulin, District Engineer, St. Boniface, Manitoba.

Persons tendering are notified that tenders will not be considered unless made on the form supplied by the Commissioners, which may be had on application to the Chief Engineer at Ottawa, or to the District Engineer at St. Boniface, Man.

Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered Bank of the Dominion of Canada, payable to the order of the Commissioners of the Transcontinental Railway, for a sum equal to ten per cent. (10 p.c.) of the amount of the tender.

Any person whose tender is accepted shall, within ten days after the signing thereof, sign the contract, specifications, and other documents required to be signed, and in any case of refusal or failure on the part of the party whose tender is accepted to execute and complete the contract with the Commissioners, the said cheque shall be forfeited to the Commissioners as liquidated damages for such refusal or failure, and all contract rights acquired by the acceptance of the tender shall be forfeited.

The cheque deposited by parties whose tender is accepted will be deposited to the credit of the Receiver General of Canada, as security for the due and faithful performance of the contract according to its terms.

The cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order,
P. E. RYAN,
Secretary.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price $3.00 per acre. Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

SIR W. M. RAMSAY HERE

Is a Noted Professor of Aberdeen University.

Sir W. M. Ramsay of Aberdeen University, a cousin of Prof. Ramsay Wright of Toronto, arrived at the Queen's yesterday. Prof. Ramsay is visiting America, chiefly on pleasure, tho he intends giving a few lectures in passing thru the United States.

The professor expressed himself as much struck by the large scale on which we do things in Canada. He hoped Toronto would come up to the expectations he had formed from hearing about it over in Scotland; tho his first impression, that of the dreary waste south of Front-street, was not particularly encouraging.

For thirty-one years Prof. Ramsay has made a practice, at the end of the spring term at Aberdeen, of taking a party to Constantinople and setting out thence on an exploring expedition. He is now familiar with the geography, natives and customs of every part of Asia Minor, including the most remote and barbarous districts. "One reads in ancient history," says the professor, "of the happenings then. It is better to see for yourself now!"

The Montreal and Quebec newspapers got Prof. Ramsay confused with Sir William Ramsay, the noted chemist. The two are no relation to one another ,tho they are friends.

JURIES MORE MERCIFUL

But Lawyer Was Late and Magistrate Imposed Sentence.

Joseph Bishop decided he would be tried summarily, then he thought he wanted a lawyer, and a jury trial. In yesterday morning's police court A. R. Hassard, the lawyer, was absent, and Bishop thought he would do without the jury trial and pleaded guilty. He was given six months. Later the lawyer turned up and wanted to plead not guilty.

"Your worship knows," he said, "that the right to elect a trial by jury is used by counsel as a means to bring young offenders for trial before judges who are known to take a more merciful view of these cases. That is a privilege which a counsel has a right to exercise and to so advise his clients."

"I cannot do that. It would make a farce of justice," said the magistrate.

Recovered the Body.

PORT ARTHUR, July 22.—(Special.) The body of Roy McGillivery, the fire ranger drowned on May 23 in Lake Helen, near Nipigon, was recovered today.

The Fashionable Scent.

The fashion papers have their views
And some decree
'Tis proper for a man to use
Perfumery.

But others look at this askance,
And frankly say,
They cannot perfume countenance
In any way.

I think that perfume has its place.
It is, I ween,
Permissible to use a trace
Of gasoline.

Rent Buys Nothing; Our Easy Plan Buys a Home!

The man who pays rent might just as well have that much money put to his credit every month on payment for a home. The rent-payer is not getting any substantial return for his money. It is the landlord gets the money, and the rent pays him a profit on the cost of the house you are renting, and in time pays for the house—but he keeps the house and goes on drawing rent for it. If you adopt our plan

You Pay for the House and the House is Yours---Easy as Paying Rent.

We will sell you a splendid lot in that well-known, well-settled district—the

Parsons Estate

To assure you that our easy plan is a practical one, let us state that

700 Families Are There Now

and have built their homes on our plan and are now proprietors, instead of rent-payers; are people with an established property, and can go ahead and improve and gradually increase the value of their investment while they are paying for it. All we ask is to sell you a lot, and you build your house.

Lots are $4 to 12 Per Foot
Terms are $10 Down, $5 Per Month.

After you get the lot you will have money from your rent appropriation to buy materials for your house, and you can do the work of building very largely yourself in the evenings, holidays and spare time—just the way others have done. You can save rent while you are building by putting up a tent on your new lot. It makes comfortable summer living, and is exceedingly convenient to your work of building.

Go--Look--See for Yourself

Saturday afternoon go to the Parsons Estate and look at the thrifty homes there. Take a Lansdowne-avenue car, go up to Davenport-road, and then east to Dufferin, and thence north to the Parsons Estate. Office and agent on the ground.

Automobiles Meet Cars To-Day

From 2 to 5 p.m. our motors will meet Lansdowne-avenue cars and take visitors to the Parsons Estate. Be sure you get to the Parsons Estate as that is where the real values and specific proposition above are offered.

You ought to read our book entitled: "Who Gets Your Wages." It fully explains our easy plan of owning a home. We send it free to all who apply for it.

MAJOR BARKER RETIRES

After Twenty-Four Years in Militia Goes to the Reserve.

Brevet-Major R. K. Barker has retired from the Queen's Own Rifles after 24 years in the militia. He retires to the reserve of officers with full rank.

When 15 years old he enlisted with the 7th Regiment at London to go to the Riel rebellion, but owing to his youth was not allowed to go. In 1888 he enlisted in the University company of the Q. O. R., and served as private, corporal and acting sergeant and in 1890 became second lieutenant. In 1907 he became captain of "K" Company, and in 1899-1900 commanded "C" Company R. C. R. in active service in South Africa.

Holiday Trip at 101.

PETERBORO, July 22.—Joseph Mantell of this city, who has passed his 101st birthday, has gone on a journey to Western Ontario, visiting London, Ingersoll and other points. Mr. Mantell is in splendid health and particularly active and strong for his advanced years. He was accompanied by his granddaughter, Mrs. J. C. Edwards, of this city, and her little son.

Broomhall's Cables.

Broomhall cables from Liverpool:

France.—Crop reports are extremely variable; and many sensationally bad. Cold, rainy weather prevailed up to the early part of the week, and prospects underwent further deterioration. Damage is still being reported by extensive lodging, rust and overflows. Food crops are a fortnight back, and only a very moderate out-turn is looked for. Our agent in Paris cabled this morning that the outlook is moderately unfavorable, with conditions against any improvement. Reserves are much smaller than expected.

Russia.—Crop advices continue unfavorable in the leading growing districts. Rains continue in the southwest, and the southeast is still very hot, and much lower estimates are being made regarding the yield. Markets continue strong, with offerings light and an urgent demand for export.

World's Shipments.

Broomhall estimates the total shipments for Monday next, exclusive of North America, at 6,000,000, against 5,568,000 bushels actual last week. Of this total, Europe will take about 5,000,000 bushels. The total shipments last week, 5,464,000, against 5,000,000 last year. Arrivals of breadstuffs into the United Kingdom will aggregate about 3,200,000 bushels. He predicts that there will be only moderate changes in the quantity on passage.

Argentine shipments: Wheat this week 1,384,000, against 896,000 last week, and 1,832,000 last year. Corn this week, 2,863,000, against 3,178,000 last week and 3,226,000 last year.

Visible supply of wheat now 1,120,000, against 1,248,000 week ago, 860,000 year ago, and 1,328,000 two years ago. Corn now, 4,378,000, against 4,533,000 week ago, 3,413,000 year ago, and 1,849,000 two years ago.

India shipments for the week, 1,600,000, against 840,000 last week, and 2,056,000 last year. Broomhall estimates next week's shipments at 1,880,000.

Australia shipments this week, 288,000, against 216,000 last week, and 96,000 last year.

Winter Wheat Yield Good.

Modern Miller says: Weather conditions favorable for threshing; has started a general movement of winter wheat to market, the some farmers are holding. Farmers report the yield above expectations.

Chicago Gossip.

J. P. Bickell & Company say at the close:

Wheat—Lower. Increased offerings of new winter wheat, with declining southwestern markets, was again the factor for further liquidation and short selling, closing values 1/2c to 1¼c lower. Market still has the appearance of a trading affair, and profits on long side on quick bulges should be taken. Foreign situation strong, and bears watching. On all sharp declines purchase.

Erickson Perkins & Co. had the following at the close:

Wheat—Market opened a shade easier, but firmed up on the strong cables. Local crowd were bearish all day, and were the best sellers, altho commission houses were also on that side in a moderate way. Weakness in corn helped the decline in the market. Northwestern markets were about as weak as our own. The basis of the liquidation and short selling in wheat to-day was undoubtedly the pressure which it is expected the movement of winter wheat will make. The continued strength abroad indicates their belief in damage, and, while this condition exists, we prefer to keep to the long side, buying on the weak spots.

Corn—Market rallied fractionally toward the close. We would exercise care not to sell on sharp breaks, but as long as prospects continue as at present we do not care to buy on this level of values.

Oats—Prices did not participate fully in the weakness in other grains, as they did not advance yesterday. Receipts of new crop are reported at various interior and southwestern markets. Quality is excellent. We see nothing on which to advise purchases.

New York Dairy Market.

NEW YORK, July 22.—Butter—Slightly firmer; receipts, 8154; creamery, specials, 28½c to 28¾c; extras, 27¾c to 28c.

Cheese—Steady, unchanged; receipts, 3081.

Eggs—Firm; receipts, 10,188; fresh gathered, seconds, 17c to 18c.

The Western Crops.

Local opinions are very contradictory regarding the western crop situation. Most of the brokers take a more sanguine view than has prevailed of late. They claim that conditions are not nearly as black as they are painted, and that the tendency to exaggerate bad news is very marked. One broker felt certain that 75,000,000 bushels would be quite a low enough estimate for the total crop.

At the Manitoba immigration office the reverse opinion is held. The brokers could think themselves mighty lucky if they got 75,000,000. The southern crop was spoiled weeks ago, and a deluge now couldn't do a particle of good. It was too much to expect a bumper crop every year, and the country ought to be strong enough to stand a bad season now and then.

TIED TWINE ON SUNDAY A WORK OF NECESSITY.

LONDON, Ont., July 22.—Five employes of the International Harvester Company were in police court this morning charged with a breach of the Lord's Day Act in working on Sunday. The men were at work last Sunday tying up and getting ready for shipment packages of binder twine. The manager pleaded that at this time of the year it was a work of urgency and necessity to meet the needs of the farmers so that the farmers might get in their crops. The magistrate dismissed the case.

Judge Morson leaves early next week for Nova Scotia, where he will spend the month of August by the sea. He is due in Toronto again by September 6th.

DOMINION BOND COMPANY OFFERS BIG BOND ISSUE

Public Gets Opportunity of Subscribing For $200,000 of Six Per Cent. Bonds of Canada Machinery Corporation.

The Dominion Bond Company of Montreal and Toronto makes announcement in this issue of an offering of $200,000 of the first mortgage 6 per cent. bonds, carrying with them a 25 per cent. bonus of common stock of the Canada Machinery Corporation, Limited. The bonds are being offered to the public at par and interest, and the subscriber receives in addition to his bonds 25 per cent. of common stock of the total amount of bonds he purchases. The total issue of bonds of the company is only $400,000, and the high standard of the security there is behind the bonds is indicated by the fact that the appraisals made by the Canadian American Appraisal Company show that the reproductive value of the plant stands at $1,027,973.33 over two and a half times the total present bond issue of the company.

It is conservatively estimated that the net earnings of the company for the ensuing year, based on present output, will be over $120,000, which will show the bond interest earned five times over.

The Canada Machinery Corporation represents a consolidation of practically all the woodworking, machinery and tool concerns of Canada, and at the same time constitutes a large percentage of the manufacturing capacity of iron working tools of the country.

The headquarters of the new company will be situated at Galt, which has been for a great many years past the centre of wood working machinery of Canada.

Total Live Stock.

The total receipts of live stock at the City and Union Yards for the present week were as follows:

	City.	Union.	Tl.
Cars	169	164	333
Cattle	2251	2629	4880
Hogs	2783	2083	4866
Sheep	2482	619	3101
Calves	491	143	634
Horses	1	160	161

The total receipts of live stock for the two yards for the corresponding week of 1909 were:

	City.	Union.	Tl.
Cars	173	212	385
Cattle	2093	3790	5883
Hogs	2726	791	3517
Sheep	4473	571	5044
Calves	685	286	971
Horses	2	108	110

The above figures show a total decrease of the combined receipts at the City and Union Yards for the present week of 59 carloads—1003 cattle, 1943 sheep, 337 calves—but an increase of 1349 hogs and 51 horses, in comparison with the corresponding week of 1909.

At the City Yards, these figures show a decrease of 11 carloads—1991 sheep, 194 calves, 1 horse—but an increase of 158 cattle and 57 hogs.

At the Union Yards, these figures, in comparison with the receipts for the corresponding week of 1909, show a decrease of 48 carloads—1161 cattle and 143 calves—but an increase of 1292 hogs, 48 sheep and 52 horses.

Market Notes.

Geo. Dunn will have four loads of Manitoba stockers and feeders for sale on Tuesday at the City Market. Two loads of these are choice steers, weighing 1000 lbs. each, one load of which is dehorned. The other two loads weigh 800 lbs. each, and one of these loads is composed of steers and heifers. Mr. Dunn has been advised that this lot, taken altogether, is as good, if not a better shipment than he has had for some time.

YONGE STREET CHANGES

Applegaths to Move to Hobberlin Corner—New Sky Scraper Probable.

L. J. Applegath and Sons have leased the corner premises of the new Hobberlin building to be erected at Richmond and Yonge-streets, and will take possession as soon as the new structure is completed. The site will have 20 feet frontage on Yonge, by about 75 feet on Richmond, and the rental is understood to be approximately $12,000 a year.

The new corner store will be fitted up in the latest fashion, with plate glass fronts on both Yonge and Richmond, making it one of the finest shops of its kind on the continent.

The premises now occupied by Applegath & Sons, at 145 Yonge-street, were bought by R. S. Williams & Sons, and will be taken over by them as soon as the new Applegath store is completed. It is stated that the Williams Co. will erect a modern fireproof building on the site, either eight or ten stories in height, part of which will be let as offices.

CHANGES AT PUBLIC LIBRARY

New Style of Borrower's Ticket is Introduced.

There have been many changes at the public library, but none so radical as that now in progress, whereby all the borrowers' tickets now in use are to be gradually canceled, a new and improved style of card substituted and the borrowers' ticket made good at any public library in the city.

In addition to this a new system of registration is being introduced, whereby what the public terms "red tape" is made almost wholly to disappear, and if a man's name is in the directory he may obtain a borrower's ticket. If his name is not in the city directory, or if he is under twenty-one, his application must be endorsed by some one whose name is in the directory.

The work is beginning at College-street branch and the library board hopes that it will have the co-operation of the citizens in helping this simple plan to operate successfully. The amount of machinery is reduced to the minimum to the end that the borrower may have as little trouble as possible.

In all the branches there are large placards after the fashion of "Instructions to Voters" at our Dominion elections.

A Woman Aviator.

CALAIS, France, July 22.—Mme. Mathilde Francke, wife of an English journalist, and one of the most daring women aviators in the world, announced to-day that she will compete in the 960-mile aeroplane race between New York and Chicago.

She made this announcement to-day when she arrived from Paris to undertake a flight in a French biplane across the English Channel.

Off to Prison.

For robbing Cecil Walker of $50 as he slept in the Black Horse Hotel stable, Albert Welch was sent to the Central Prison for two years less one day and his brother James for six months. This was upon the statement of the crown attorney that the men did no work, and were a menace to the community.

C. P. R. a Leader in the Decline On the N. Y. Stock Exchange

Wall Street Witnesses Another Day of Forced Liquidation—Toronto Market Influenced by Weakness at Montreal.

World Office,
Friday Evening, July 22.

Considering the heavy liquidation at the Montreal Exchange to-day, securities at the Toronto Exchange held with remarkable firmness.

Interlisted issues between here and Montreal and New York naturally kept close to a parity on to-day's declines, but the purely local stocks were not much impaired by selling.

The outstanding speculative long account in this market, as has been frequently stated before, is small, and unless investors get nervous, securities will be still held off the market.

Frequent references were made in these columns to the absurd price of Dominion Steel when it was being boomed a few months ago. Montreal speculators loaded up to the neck with this stock around 70, and to-day's decline was the result.

A further break in "Soo" and C. P. R. helped the downward movement.

Foreign tractions sympathized with the general weakness, but were not so weak as many anticipated.

Toronto Railway was decidedly heavy, with offerings at 112 and bids a point lower.

In some roads it was difficult to get bids, and prices showed steadiness because there was no necessity to sacrifice holdings.

The investment section of the market was not perturbed, and some of the speculative stocks were wanted by buyers well able to take care of them.

At the close it was felt that no improvement could take place here until the Montreal tangle had been unraveled.

Joseph says: The copper stocks will occupy the spotlight and will offer excellent trading chances. There will be no strike on the C. P. R. Buy Reading for turns.

* * *

Lead will be sold on all rallies for the present. The same may be said of Smelting. Steel remains in the 68-72 area. Linseed Oil stocks may show some strength on the advance in product price. Union Pacific and Reading have again been heavily sold short, and may rally a little to-day, but we would not care to follow them up. Amalgamated is likely to show some further temporary strength. Reading will be sold by the room on rallies. Southern Pacific is well taken.—Financial Bulletin.

* * *

There may be some moderate rallies after the opening, but sharp breaks may be expected at any time. The sensational decline in Lead has created an additional feeling of pessimism as to the future trend in several of the better issues, and lower prices may come at very short notice. Advantage should be taken of any momentarily strong spot to sell Union Pacific, Northern Pacific, Atchison and Reading.—Town Topics.

Railway Earnings.

Panhandle, June, decrease $125,534.

New Director.

Thomas McDougall, former general manager of the Quebec Bank, has been elected president of the Amalgamated Asbestos, in place of E. B. Greenshields, retired.

Dividends Declared.

The North American Co. declared the regular dividend of 1 1-4 per cent.

Boston and Montana declared dividend of $2 and $2 extra. This is an increase of $1 over last payment.

Dividend Increased.

The dividend of the Royal Bank of Canada has been increased by one per cent., placing the dividend on a 12 per cent. basis.

Conditions Are Complex.

Edward Cronyn & Co. say in their market letter:

Conditions governing the security markets at home and abroad are about as complex as we have ever known them. The various arguments in favor of better prices and those of a bear character are easy to state, but the leading influences appear to be so many and of such importance that it is difficult to maintain a proper sense of proportion in summing them up. Politics is generally conceded to loom largest on the financial horizon and no doubt the policy inaugurated by Roosevelt and followed more or less closely by Taft and some of his cabinet, has more to do with the low level of prices, as compared with six months ago, than any other force. We do not intend to deal with this side of the question, as we have frequently done so before and this phase is being kept prominently before the public at the present time.

So much has been made of the money situation and so many are the prophecies of a serious stringency this fall that precautions have been taken early and we believe that in London, in New York and locally there will be no such severe pressure in the money market as was looked for. Money has been loaning in New York on call this week as low as 1 per cent., and even six months' money can be obtained at a reasonable rate. Locally there is a considerable expansion shown in commercial loans in the bank statement for last month, but as there has been no great demand for money for call loans on stocks the requirements of commerce have been easily taken care of. It is true that the banks are not encouraging speculation in stocks.

FORMER TORONTO BOY

Talks to The World on the Financial Situation in the States.

George I. Cochran of Los Angeles, president of the Pacific Mutual Life Insurance Co., one of the largest insurance corporations on the Pacific Coast, was in town yesterday.

Mr. Cochran is an old Toronto boy, being the son of a Methodist clergyman, located here at the time when the Metropolitan Church was built. He studied law in this city and was admitted to the bar, being connected with the firm of Mulock, Tilt, Miller & Crowther, but severed this connection to take up a practice in Los Angeles. Later on Mr. Coohran went into life insurance, and at the present time is wholly engaged with his company's affairs.

The Pacific Mutual Co. has branches all over the United States, and Mr. Cochran states that as far as they are concerned business is very good, and he takes this as an indication of the state of affairs all over the country.

In relation to the financial situation, he says that money is rather tight in San Francisco, Chicago and New York, but he does not look for any great stringency during the crop moving period. He does not look for the situation to clear up until nearer the first of the year, however.

Mr. Cochran was much impressed with the very great strides which have been made in Canada during the last fifteen years, and particularly so in Toronto.

ON WALL STREET.

Erickson Perkins & Co. had the following: Stocks were at their lowest in the afternoon; then a little support appeared to come in in Reading, U.P., Steel and other leaders. Amalgamated Copper all this time was well supported and sold off but little from yesterday's closing price. It gradually hardened in the last hour and closed 3-8 higher. With all of the talk about alleged friction between the Guggenheim and Amalgamated interests, the firmness of Amalgamated was a cause of wonder. Some urged that this stock was "pegged" in order to permit liquidation elsewhere. But Wall-street is much mixed up as to the exact facts. One thing, however, is certain: there has been very heavy liquidation of stocks this week and no pool, except possibly that in Amalgamated appeared, to be willing to stand up under it. The selling of U.S.S. at a new low record for the year had a bad effect on sentiment. The decline in the railroad issues was natural enough, with the postponed rate advances. There is little hope in sight as to when any advances will be secured and what concessions will be granted. Reduction of Lead dividend has created unrest—a fear that more reductions are to come.

Charles Head & Co. to R. R. Bongard: There was a continuance to-day of the liquidation that started yesterday. C.P.R. and Soo were especially weak features, dropping several points in early trading. In the early afternoon there was a sharp raid, which carried the whole list down from one to two points, and this was succeeded by a rally in which most of the losses were regained. General and light rains were reported over the entire corn belt. Nothing definite has yet developed regarding the curtailment of Coppers plans, but it is generally believed that something is doing that will benefit the copper trade. Closing was steady at the recovery, but with net results unsatisfactory to the bulls.

J. P. Bickell & Co. from Finley Barrell: Quite a number of specialties fell off on talk, some of it perhaps justified, that business conditions later on will require reductions in dividends. The reaction in wheat, corn and cotton and the prospect of another excellent bank statement had no effect whatever on the stock market. The Copper stocks were the strongest on the list all day and promise to do better. There was something of a rally in the last hour, but only one thing will apparently turn the tide and that is, concerted action by the big interests in buying leading stocks. This will come some time, but there was no sign of it.

Bradstreet's Trade Review.

Montreal reports say the feature of trade conditions there at the moment is found in the G. T. R. strike, which just now has the look of a stubborn affair. The importance of this matter to general trade, however, is so great that a reasonably early settlement is looked for. General wholesale trade is of good proportion for this time of the year. Sorting orders are fair, as the result of an evidently good retail movement in all directions. The outlook for the fall and winter continues cheery despite western reports of crop damage. Ontario crops and those of Eastern Canada are reported excellent. The hay crop is large and of fine quality. All industries seem to be busy and there is still in some lines a shortage of skilled labor. It is stated car foundries will this year turn out 50 per cent. more cars than in any previous season. Cheese exports are fairly large and in most other lines the movement is about normal. Collections are generally fair, altho from some districts they are reported slow.

Toronto reports say while western crop conditions are causing some concern there is still a feeling of security regarding the outlook for future trade. The business moving is of good seasonable proportion, but credit is showing a pronounced tendency towards firmness. Seasonable goods continue to move well, but for goods for later delivery some caution is being displayed. Manufacturers are busy and in most cases have plenty of orders on hand. The demand for all lines of building material continues brisk. Reports regarding Ontario crops are encouraging and the grain yield promises to be well above the average. Country trade is fair. Farm products are offering freely at about steady prices. Hides and leather are quiet and about steady.

Winnipeg reports say wholesalers report an excellent volume of business moving in all lines. In those districts from which crop damage is reported considerable caution is being shown in buying for late delivery. In districts from which little or no complaint is heard the outlook for fall continues very satisfactory. Sorting trade in dry goods continues of good volume and staple groceries are in active demand. Prices generally are steady. The demand for flour is active, with prices firm. Collections are fair, while credits are tightening somewhat.

Quebec reports to Bradstreet's say while the summer holidays are affecting the retail trade at city points, wholesale trade is fair and orders are coming to hand for fall and winter supplies. Collections are on the slow side. Crop reports are generally favorable. Cereal and fruits are looking up well. In the eastern section of the province grain was somewhat retarded by wet and cold weather, but of late appearances are better.

VALUES SUCCUMB TO PRESSURE.

World Office,
Friday Evening, July 22.

Wall-street was pretty well demoralized at intervals during to-day's session, and as usual the Toronto Exchange was sympathetically influenced, tho values here held remarkably well considering the weakness of the larger market. As was to be expected, it was the issues which had been the pet favorites in the recent speculative boom in Montreal which were the first to suffer, with Steel Corporation the leader in this respect. This security, with some of the others which have been boosted on the eastern exchange, were apparently picked out as special targets for realizing, and sagged heavily under the least sign of pressure. There was little forced selling on the local market, however, and values for the purely domestic issues were held fairly well. There is evidently not much weakly held stock overhanging the Toronto Exchange, but Montreal is a weak spot as far as Canadian securities are concerned.

THE CANADIAN BANK OF COMMERCE
TRAVELLERS' CHEQUES

Cobalt--Lower Levels Registered by Higher Priced Mining Stocks--Cobalt

High Priced Cobalts Affected By Slumps in Wall St. Stocks

Nipissing, La Rose and Kerr Lake All Sell Lower—Cheaper Issue Hold Fairly Steady.

World Office,
Friday Evening, July 22.

The local mining markets were affected by the big decline in Wall Street securities to-day, and values of the Cobalt stocks were below those of yesterday in several instances.

It was in the higher priced Cobalts that the most weakness occurred, this department of the exchange sagging heavily in sympathy with New York.

Nipissing was the mark for liquidating pressure and fell back 25 points to $10.35, when the stock was forced for sale. At the close the best quotation was ten points below the bottom for the day, tho no stock was on offer under $10.50.

La Rose was another weak spot, losing 10 points at $3.85, and closing below that figure. Little stock came out on the way down, but there was practically no demand in evidence. Trethewey lost some 5 points at $1.21½. Kerr Lake sold off to $7.70.

In the lower priced stocks, Timiskaming sold down to 60, while Beaver was also fractionally lower. Other cheaper issues were about unchanged, with no great activity in any section.

BUFFALO CAPITALISTS OFF TO GOWGANDA CAMP

Will Visit Boyd-Gordon Property—Competent Engineer Taken Along.

A party of Buffalo capitalists left on last night's train for Gowganda, particularly to visit the Boyd Gordon Mining Company's property. They were accompanied by a competent engineer, who will report as to the future course to be pursued for the proper development of this property under the new management.

The shaft has now been sunk to 150 foot level and drifts have been carried east and west, exposing about seventeen veins, most of which show very high values.

The Henderson vein, from which the Mann Company have bagged a large quantity of ore, has not yet been touched on the Boyd Gordon property. This is very wide and runs high in silver values, and it is altogether likely that work will be commenced on this vein under the present management, which should give immediate profitable returns.

The board of the company is now composed of prominent Buffalo and Toronto business men, who intend pursuing a very aggressive policy in regard to future development.

Shaft Down 180 Feet.

COBALT, July 22.—Good progress is being made with the sinking of the shaft by contract on the Union Pacific lease on Peterson Lake. It is now 180 feet deep. The shaft will be put down to the 200 foot level, when a crosscut will be started to connect with the St. Anthony lease. Depth is necessary as the underground work will all be under water.

BIG FIND ON NIP

In East Cross-cut of 64—Fifteen Hundred Ounce Ore.

COBALT, July 22.—(Special.)—A find which will almost double the ore reserves of the Nipissing was made today in the east crosscut on the 300 foot level in shaft No. 64. The new ore body is about 400 feet from the shaft, and shows 15 inches of 1500 ounce ore. It is probably the same vein that the T. and H. B. are working on. On the first level it was barren, and on the second level at depth of 176 feet, it showed 30 inches of 1800 ounce ore for the distance of 110 feet.

Silvers Limited Closed.

MONTREAL, July 22.—Thirteen shareholders of Silvers Limited met in the offices of the company in the Coristine Building at noon to-day and formally closed down the company's mine at Gowganda because there were no prospects of the mine ever becoming a paying proposition.

Drought Raises Milk.

WINNIPEG, July 22.—A number of Winnipeg milk dealers are about to raise prices to the winter rate, twelve tickets for one dollar, instead of the summer rate of fourteen for a dollar. This is because of the scarcity of fodder owing to the prolonged drought.

Cotton Gossip.

Erickson Perkins & Co. had the following:

Notices on from 3000 to 4000 bales were in circulation during the early session, but were finally stopped by the bull interests without exercising any effect on the near positions. The action of the July options suggests a very small outside interest and we doubt if any sensational developments will occur during the balance of the life of the option. Scattered liquidation was induced in the new crop on more favorable reports from the south. The Habersham King weekly report, indicating favorable conditions over 95 per cent. of the belt during the past week had a bearish effect, but business at best was moderate and prices were bid up during the closing session. The absence of important selling renders the market susceptible to bullish manipulation, but we favor sales for turns on the hard spots.

New York Cotton Market.

Erickson Perkins & Co. (J. G. Beaty), 14 West King street, reported the following prices:

	Open.	High.	Low.	Close.
July	15.98	16.00	15.95	16.00
Aug.	15.20	15.26	15.17	15.26
Sept.	13.65	13.73	13.65	13.73
Oct.	12.99	13.08	12.97	13.08
Dec.	12.80	12.93	12.80	12.93

Cotton—Spot, closed quiet; middling uplands, 16.00; do. gulf, 16.25. Sales, 11,000 bales.

Graft in Railroad Circles.

CHICAGO, July 22.—A system of long-standing graft and corruption in Chicago railroad circles, by means of which stockholders of railroad companies have been defrauded out of hundreds of thousands of dollars may be brought to the surface as a result of the scandal which sprung up following the tragic death of President Rawn of the Monon road.

20,000 Shares Calcite Lake Mining Co. Stock at 50c per Share

This is the first time this stock has ever been offered to the public. Approximately 125,000 shares of Treasury Stock have been sold, the proceeds being expended on the property. The shaft is now down 120 feet, and good ore has been found from 70 feet to 120 feet. Two important veins, twelve and four inches respectively, carrying high grade ore, were located at the 110 foot level when cutting out that station. These veins are being worked, and good ore is being taken out every foot. Part of a carload of high grade is now sacked, and high grade ore is being sacked every day. Some of this ore will run as high as eight thousand ounces to the ton.

We have a letter from the Superintendent at the Mine, dated July 18th, 1910, reporting a new strike at the 110 foot level of an 8 inch vein carrying about six thousand ounces to the ton of native silver.

We consider the receipts from the sale of this allotment of 20,000 shares will furnish sufficient capital to carry on the work until we are in receipt of returns from the first shipment of ore, which we contemplate will be in the early part of September.

Property is open for inspection

The property consists of approximately 80 acres located on the east shore of Calcite Lake, and about six miles east from the east shore of Gowganda Lake it is equipped with good steam plant.

It it is not a prospect---it is a mine

Capitalization of the Company is $1,000,000.00, 1,000,000 shares, par value $1.00 each, divided as follows:—599,995 shares being Treasury Stock, 400,000 shares being issued as payment in full for the proserty.

Five shares issued to provisional directors at the time of incorporation.

Total issued including this issue is less than 575,000 shares.

Copy of the Company's Prospectus can be seen at the Bureau of Mines Department, Toronto, or at Company's Office.

Applications will be filed in order of reception at the Head Office of the Company.

All cheques must be made payable to the Calcite Lake Mining Co., Limited.

COBALTS

It is quite apparent that prices of some of the issues have reached rock bottom. We do not know when there will be a general advance, but we know it is coming. Engineers tell us that the camp was never in better condition. There has been a good absorption of stocks during the past week. We believe there will be no better opportunity to buy than right now.

COBALT PRODUCING

I know of a mine producing $75,000 per month net profit. The shares are selling at 60c on the dollar; should be selling at a premium.

Now for the Big Drive

The sweep of our third floor stock-taking clearance has now reached the suits and coats of the highest class—fashionable Pongee Silk garments, made in New York by some of the best-known firms. But we're going to drive right through them at a pace that will astonish you—suits and coats that you'd be asked twenty-five dollars for in New York will be sold here on Monday morning for $10.75.

Special clearance sale of 75 Women's Summer Suits; the majority of these were manufactured by some of the best garment makers in New York; the materials are fine quality black pongee, and of linen, in black, blue, pink or white; made in a variety of smart up-to-date styles. Some of the coats are braided, others trimmed with lace; some have collars of black satin, and others of white pique. Skirts are pleated, and either braided to match coats or else quite plain. These suits were sold regularly at prices ranging from $17.50 to $29.50. Special Monday $10.75.

Sale of an assortment of Women's High Grade Summer Coats, of pongee, bengaline or moire silks, in black only, and of fine or wide wale cream serges. These are in either long or medium lengths, semi or close fitting backs, mannish collars and lapels; tailored on fine shaped lines. The regular prices of these garments were $15.00, $17.50 and $25.00. To clear Monday $10.75.

These Waists, Slightly Soiled, Half Price

This is a collection of beautiful waists that have become mussed during the summer season on our counters. You'll find here the most popular styles of the season, and the price of one trip to the laundry is all that stands between you and a clear gain of 50% on each waist.

About 150 Waists, broken sizes from this season's best styles and qualities of fine embroidered lawns, pure linen, vesting and repp waists, made in pretty lingerie effects, or smart tailored shirt waists. These waists are slightly counter mussed from handling. All sizes 32 to 44. Regular $1.50, $2.00, $2.50, $3.00 and $4.00. To clear Monday at exactly half-price.

Advance Shipment of Rich Black Silks

For coats, Dresses, Suits, Skirts and Waists.

We have just received an advance shipment of Black Silks. Owing to the strong demand for black silks, and their present scarcity, this new shipment is particularly welcome. There are splendid qualities of C. J. Bonnett's peau de sole, 68c and 88c yard.

French and Italian Taffeta, 36 inches wide, $1.00 yard.

Splendid Black Cord Silks, for coats, etc., 32 and 36 inches wide, per yard, $1.50 and $1.75.

"C. J. Bonnett's" French Taffeta, 36 inches wide, $1.19 per yard.

Duchesse Paillette, 36 inches wide, per yard, 97c.

Rich Duchesse Satin, 38 and 48 in. wide, $1.50 and $1.75 per yard.

French Moire Silks, 20 inches wide, $1.00 and $1.25 per yard.

The Question of Youth

What is real clothing economy for a young man? Our Clothing Department tries to answer this question. By offering young men only the reliable kind of clothes—not as flashy and extreme as they'll see elsewhere, but thoroughly good. So that any reductions we make indicate no falling off in quality, but means, at this season, that the stock-taking pressure is being applied to goods of the very highest quality. Below you'll find youths' suits quoted at about half their value, and some of our very best shirts priced at even a smaller fraction of their regular price.

70 only English Tweed and Fancy Worsted Suits, in medium and dark grey and brown grounds, with neat self and fancy colored thread stripes; single or double breasted styles; also a few black clay twill worsteds, in single breasted style; splendidly tailored in every way. Sizes 33, 34 and 35. Regular prices as high as $15.00. To clear Monday at $7.45.

We have too many expensive Neglige Shirts to take into stock; hence this "extra special" price for Monday.

Men's best quality Neglige Shirts, in fine percales and cambrics; the newest American, Austrian, English and Canadian makes; novelty stripes and figures; cuffs attached; coat and ordinary fronts, pleated and plain; all colors. Sizes and half sizes 14 to 18. Regular prices $1.25 to $2.50. Monday 98c each.

(See Yonge Street Window.)

The Little Tramp

At this stage of the summer, most boys' clothes have just about reached their limit—he's ready to be "done over" from head to foot. Why not take an hour Monday morning, and get him fixed up—there never was a better chance than right now in the midst of this stock-taking clearance.
