Canadian Headquarters in France, June 27.—Sports held by the army with which the Canadian corps is connected resulted in the rediscovery of Tom Longboat, the famous Canadian Indian runner. In a three-mile cross country race Longboat romped home well in advance of some of the most famous British and Canadian runners, without even extending himself. He had a great reception from his regimental comrades. The tug-of-war competi-tions were won by a British Columbia battalion and the Canadian heavy artillery, with the English infantry and artillery teams in second place. The British won the artillery drive easily, a Canadian battery taking second place.

Beer Manufacture to Be Prohibited in the U.S.

Washington, June 27 .- With drastic prohibition amendments to prohibit furter Zeitung says there are indica-the manufacture of beer, as well as tions that the next returns of the imdistilled liquors, and giving the pre- perial bank of Germany will show a sident discretion to permit the manu- considerable decrease in the stock of sident discretion to permit the manufacture of wine only, the administration food bill was agreed on today by the senate agricultural committee and favorably reported as a substitute gold for the purpose of raising the exfor the bill now under consideration.

a Russian offensive is entirely impossible at this time. He bases his opinion on contemptuously scathing criticism on the Russian revolution, its leaders, and its troops.

fact that the Australian Government Operations on the Macedonian front continue of minor importance and there is nothing to be gleaned from the of the empire and that there was an estimated exportable surplus of the official reports of the belligerents eighty million bushels in Canada, he

the same facts to go on, makes the guess that the British will strike in the Warneton region, at the southern end of the new defensive line taken up by the Germans after the Wytschaete defeat. All the critics agree that no serious French offensive is to be expected at present.

General von Ardenne also declares a Russian offensive is entirely impossible at this time. He bases his opinion on contemptuously scathing criticism on the Russian revolution, its leaders, and its troops.

NIOBE SAILORS' UNIQUE PARADE

Jack Tars Carry Rifles With Fixed Bayonets, and Cutlasses.

DAY OF SIGHTSEEING

Receive Welcome From Provincial Cabinet and Civic Authorities.

British navy as represented by the visiting members of the crew of the H.M.S. Niobe. The sailors assembled Pearl street, at 10 o'clock, under Capt the and marched to Queen's at

The parade was quite unique and impressive. It was headed by the Jack Tars' own bugle band, followed by the main body, armed with rifles with fixed bayonets. A party of signallers with cutlasses as equipment was included in the procession. The lads, none being over 18 years of age, made a very sturdy appearance.

On arrival at the front of the par-

liament buildings they were welcome by Hon. Dr. Pyne, minister of cduca in the absence of Sir William Hearst.
With Hon. Dr. Pyne were Hon. I. B.
Lucas, Hon. W. D. McPherson,
Aemilius Jarvis, Rev. Dr. Alfred Hall, and Rev. J. Russell Maclean. The sailors executed drill manoeuvres, under command of Warrant Officer Hockley, the precision with which they were carried out evoking admira-

tion from the spectators.

Capt. Newcombe elicited by calling for a show of hands that 16 of the 75 lads in the party were from Toronto, 38 from Ontario in general and

Hon. Dr. Pyne, speaking for the government, said: "I won't call you Ontario or Manitoba boys, but 'Niobe' boys, and you might better be called Jarvis' boys' for the name of the man who has done so much to re-cruit you. You have joined one of the best branches of the service, and our wishes are that you will carry on as your predecessors have done, those who have kept the seas free, and have also kept our shores from being invaded by the enemy. All I can do is to say God bless you, and when you return to your ships do your duty as Lord Nelson did his, and serve

After the ceremony at the parliament buildings the sailors marched to the Yonge street wharf via University avenue, Queen and Yonge street, where they boarded the "Hiawatha" the Island for lunche and sailed to the Island for luncheon at the Royal Canadian yacht club rooms. Later in the afternoon they were inspected on the Island by Mayor Church and then taken on a boat tour around the bay. They returned to the city at 6 o'clock. In the evening the sailors attended the Regent in the work where a special program was Theatre, where a special program given in their honor.

STREET RAILWAY WAGES DISCUSSED AT MEETING

Men Confer With Company Directors-No Agreement Yet Reached.

Discussion of the proposed new vage scale for members of the Toronto Street Railwaymen's Union took place at a joint conference of the board of directors of the company, headed by Sir William Mackenzie, and the men's committee yesterday afternoon. A statement to the effect that no agreement had been reached, but that further meetings would be held to obtain a settlement if possible, was issued by the leaders at the conference, and vas the only available information forthcoming from the meeting.

A conference of the board of directors was held yesterday morning, and then followed the joint meeting. The new schedule and conditions proposed by the union were presented six weeks ago. It is doubtful if terms of a set-tlement will be made public until a mass meeting of the members of the union is called. Among those who attended the conference were R. J. Fleming, manager of the company, and Ald. Robbins, financial secretary, and Ald. Gibbons, business agent, repre-

BRIG.-GEN. GIBSON TAKES SALUTE MONDAY

Lieut.-Col. Fearman as Brigadier in Hamilton Semi - Centennial Celebration of Confederation.

Hamilton, Thursday, June 28. — Details of the parade and review of the militia regiments which will take place here Monday in connection with the semi-centennial celebration of the semi-centennial celebration of the confederation have been announced. Brigadier-General Sir John, M. Gibson will take the salute and Lieut.-Col. George D. Fearman, officer commanding the 13th Royal Regiment, will act as brigadier. The bands of the militia units and the cadet band of the Canadian, Mounted Rifles will also take part. The depot battalion of the Mounted Rifles will march with the 13th and 91st Highlanders.

Major Drew, D.S.O., who left Canada as a lieutenant and was formerly identified with the Steel Company of Canada, has been granted permission to return to Canada. Major Drew was made officer commanding the 13th Battery in France.

Acting-Corporal Joseph Newton, D.C.M., and a holder of the Montenegrin silver medal for travery, was at the armories yesterday securing

his discharge papers. Corp. Newton received the D.C.M. for resduing Capt. Kilmer of Toronto, whom he brought in under a heavy fire.

"CAPT." DE WILLOUGHBY TO FIGHT EXTRADITION

Success of Deportation Arrangements Depends Upon When He First Entered Canada.

Hamilton, Thursday, June 28.—Whether or not "Captain" Percy Seymour de Willoughby, whose four weeks' career among New York's 400 and romantic marriage to the daughter of a Syracuse millioneire, culminated in his arrest here, will be deported to the United States under the immigration act now depends upon the date of his entering Canada.

If Willoughby entered Canada before April 18, 1911, there is every possibility that the deportation order may be thrown out. The present Canadian immigration act, which now requires a person to live three years in the country before he or she can become a citizen, states that my person residing in Canadia for two years before the act was passed would be legally entitled to Canadian domicile, and could not be deported. If it is proven that the prisoner did enter Canada before the date mentioned in the act, then he is entitled to Canadian domicile, as he lived two and a half years in Canada before the outbreak of the war.

T. R. Shoan, counsel for the defence, told The World representative last night that any effort to fight the deportation order, which is dated to go into effect to-

* WAR SUMMARY

THE DAY'S EVENTS REVIEWED

N front of Avion yesterday, skilled Canadian advance parties tested the strength of German defences in the village and found them too strong to rush, so the Canadian heavy batteries assumed the task of making Avion untenable for the enemy. The Germans had intended to hold in great force a trench cut in the chalk about a quarter of a mile down the slope from the first row of village houses, but the Canadian gunners speedily blew the enemy out of this line. He now occupies defences drawn just before the western limits of the place. The only other infantry event reported on the British front yesterday was the repulse of a German raiding party north of Roeux. The fighting was sharp.

The activity of the British infantry in the past week has consisted largely of feints. Under cover of these Sir Douglas Haig has, it seems, effected a regrouping of his infantry. The Germans look for the next offensive move to come from the British army and not from the French or

The first division of an American expeditionary force has landed in France. It made a safe yoyage on government transports thru submarine intested seas and shortly the reinforcements that have begun to set in will swell this force into a formidable army. In bidding defiance to the United States by the launching of their submarine campaign, the Germans are finding that they made grave miscalculations. One was the efficiency on the British counter-campaign, and the other was the rapidity with which the United States could send forces to Europe.

The British admiralty returns of British shipping sunk by mines or ubmarines in the past week shows a decrease of four in the total and of six in the large victims, from the previous week. The figures show a loss of 21 ships over 1600 tons and of 7 ships under 1600 tons. No fishing vessels went down. Twenty-two, including seven in previous weeks, beat off submarine attacks. Included in the returns are one large and one small ship destroyed in previous weeks. Thus the submarine campaign has failed to hold its comparatively high record of last week and it has not come near its maximum record of 40 large ships destroyed in one week

morrow, will be based upon the ground of whether the prisoner is under the jurisdiction of the police or immigration authorities. In all probability, however, habeas corpus proceedings will be instituted at these

URGE RIGID INSPECTION.

last night given by a jury under Coroner Victor McCormack. The jury could not say whether Mason turned the gas on or whether it had been left that way, so a rider was added to the verdict recommending more rigid inspection of gas fixtures, and a more efficient system of placing meters by the gas company.

WIN-THE-WAR MOVEMENT IS TO BE DEVELOPED

adian Unity League held an enthusiastic night. It was the unanimous opinion of

Are You YourCountry's Partner?

Fave and Invest in "Canada Unlimited"

"A great struggle still lies before us." Sir Robert Borden.

O defend your freedom—your family—your right to live secure from intolerable Prussian despotism-Canada is paying a heavy price in blood and treasure

Are you paying your share?

Are you a real and active partner in Canada's tremendous effort? Are you devoting your money as freely as thousands have devoted their lives?

This is no time for careless indulgence, but for earnest thrift and systematic saving. Invest every dollar you can spare in Canadian War Savings Certificates. Take an active interest in Canada's stern struggle now, and thus become a worthy partner in her unlimited future after the victory is won.

War savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face value. They cost \$21.50, \$43 and \$86 respectively, at all Money Order Post Offices and Banks, thus yielding over 5% Interest. Should you need it, you can get your money back at any time.

CARVELL TO VOTE FOR CONSCRIPTION

(Continued from Page 1). tells me to do." He could only wish that that was the universal sentiment in Canada. (Applause).

Attacks Nationalists.

In announcing that he would vote at no distant day to follow him to against the referndum and for conscription. Mr. Carvell said that it gave him great pain to differ with his He sympathized with Sir Wilfrid Laurier, whose aim in life had always been to mould the two races in ninion into a united nation. Sir Wilfrid realized better than many other people could how fearfully and frightfully unpopular this conscription bill was in Quebec. There was a lists, but Sir Wilfrid Laurier and his tion bill was in Quebec. There was a atiment in Quebec for which the French-Canadians were not entirely to We must remember that in 1910 and 1911 prominent English Canadians had spent hundreds of thousands of dollars disseminating literature in Quebec which advocated Canada taking no part in the wars of the empire. The Conservatives had profited by this expenditure, but the chick-

referendum during the war. Suppose the referendum should be defeated? Members of the house must accept the responsibility placed on them, and the man unwilling to take that responsi-

bility should not sit in parliament. This last sentence was interpreted by some as an indirect blow at Sir Wilfrid Laurier, but Mr. Carvell almost immediately after spoke in the highest terms of the Liberal chieftain, and said that he would continue to follow him as his political leader, and hoped

victory.

Onslaught by Edwards. Dr. Edwards (Frontenac) gave many figures showing the enlistments by provinces and nationality, and arrived at the conclusion that very few French-Canadians had enlisted in the friends had been teaching disloyalty and sedition while the Nationalists were in their cradles. He read from Sir Wilfrid's Boston speech and the campaign literature of the Liberal party in 1891 which, Dr. Edwards said, openly favored annexation. He also quoted from pro-annexation speeches made by the late Hon. Mr. Mercier and said that Sir Wilfrid Laurier, after those speeches had been made,

Denounces Bureau. "You cannot exculpate Sir Wilfrid Laurier," Dr. Edwards continued, "by abusing the Nationalists. It was Bourassa who suggested the referen-dum on the conscription bill and the

Logical Dyspepsia Treatment

ports have frequently appeared in the government. Dr. Edwards closed with press concerning the remarkable value of an earnest appeal for the prompt pass-bisurated magnesia as an antacid, and ing of the conscription bill without its ability to promote normal, healthy waiting for a referendum. were coming home to roost.

Violent Speeches Deplored.

Rowever that might be, Mr. Carvell went on to say, the fact remained that we had to have more men and there to seemed no way to get them except by conscription. He would therefore vote for the bill, but he hoped the government would give the voluntary system one more trial. He deplored the speeches made in the house yesterday by Col. Arthurs, Mr. Sutherland and Mr. Bureau as calculated to increase discord and impair recruiting. Was it for this that men had shed blood and women tears? The referendum might be all right on an ordinary is. digestion by preventing food fermenta-

Elaborate Sarcasm. leader of the opposition is behind him."

Dr. Edwards alluded facetiously to the demand for conscription of wealth.

Importance of Eliminating Acidity and Food Fermentation.

During the past two or three years reports have frequently appeared in the

that many of the Conservative mem-bers of parliament were less anxious to win the war than damn Quebec. Personally, he was opposed to conscription, but he would vote for the

sue, but we could not stop to take a referendum during the war. Suppose the referendum should be defeated?

The empire, he said, was not on the defensive. Great Britain had sent an in parliament for 20 years and always canadian ports.

Of Members Now Overset they died of, or whether they lived a fair hearing of his views they died of, or whether they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they died of, or whether they died of, or whether they lived a fair hearing of his views they died of, or whether they died of, or whether they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his views they died of, or whether they lived a fair hearing of his view or died, so long as they died with their bellies full.

"Shame on such a man!" said Dr. was idle to say that we were confederated. "I repeat, shame on him!"

Mr. Devlin said that speeches like those recently delivered by Col. Ar-thurs and Dr. Edwards would only in-Dr. Edwards then reviewed the recent speeches delivered in the conscription debate by Messrs. Lemieux and Bureau. These gentlemen thought we could do our duty by sending food and munitions to the front without sending any more men. Mr. Bureau sending any more men. Mr. Bureau days the demand for conscription of wealth, and suggested that a committee might be selected from the Liberal members on their subject. Mr. Carvell, he said, without a mandate from the people. Coercion was hateful and never succeeded permanetly, whether it was applied in Poland, Ireland or Canada. Canadians, like Britons, would never drafts. The doctor thought the demand for conscription of wealth, and suggested that a committee might to enforce a conscription law passed without a mandate from the people. Coercion was hateful and never succeeded permanetly, whether it was applied in Poland, Ireland or Canada. The doctor thought the conscription of wealth, and suggested that a committee might to enforce a conscription law passed without a mandate from the people. Coercion was hateful and never succeeded permanetly, whether it was applied in Poland, Ireland or Canada. The doctor thought the conscription of wealth, and suggested that a committee might to enforce a conscription law passed without a mandate from the people. Coercion was hateful and never succeeded permanetly, whether it was applied in Poland, Ireland or Canada. The coercion was hateful and never succeeded permanetly, whether it was applied in Poland, Ireland or Canadians, like Britons, would never the coercion was hateful and never succeeded permanetly, whether it was applied in Poland, Ireland or Canadians, like Britons, would never the coercion was hateful and never succeeded permanetly.

waiting for a referendum.

Mr. Devlin (Wright) said he feared that many of the Conservative members of parliament were less anxious bers of parliament were less anxious sity for raising more men either by conscription or the voluntary system. In favor of the referendum. conscription or the voluntary system. If they were raised by conscription, only unmarried men would be drafted and men who could be spared from non-essential industries. If we could not spare 100,000 men taken by selective draft, we certainly could not spare 100,000 wolunteers; but apart from this it seemed evident that we could not raise the men by the voluntary

secured a fair hearing of his views however unpopular at the time they might be. He was sure that Quebec would feel insulted by the suggestion that French-Canadians should be classed with Doukhobors and Mennon-ites instead of being subject to mili-tary service like all other Canadians. Blames Willison.

Mr. Gauvreau (Temiscouata) said he had two sons in the navy, and a third would join as soon as he completed his studies. He had told his constituents that this was a just, almost a holy war, but he had not hesitated to unce ill-management on the part drafts. The doctor thought it would also be a good idea to put a tax on titles. Every knight should come across with five hundred thousand dollars, as all the knighthoods were now going to millionaires. The newly created lords and barons should pay at least a million dollars, but he did not favor a tax on honorary colonels, at any rate not over a dollar a colonel. So long as this government permitted Armand Lavergne to be a colonel, he thought every decent man in the country with the title of honorary colonels would feel like handing it back to the government. Dr. Edwards closed with an earnest appeal for the prompt passof the government. Mr. Gauvreau, nevertheless, announced himself as un-

figures as to our forces in England Mr. Boulay (Rimouski) defended the and in Canada were misleading. Of French-Canadians from charges of distinct 126,000 soldiers in England only loyalty, and read the report of the military commission on the alleged stone-throwing in Riviere du Loup and other

WIFE RETAINS PROPERTY.

referendum, and if the majority of the people of Canada by a plebiscite decided for conscription the people of Quebec would loyally obey the law. They did not want Quebec to be explied; neither did they want conscription to be applied; neither did they want conscription to be applied unless it was the will of the people of Canada. He disputed the proposition that Canada was fighting in defence of the empire.

and men who could be spared from non-essential industries. If we could not spare 100,000 men taken by selective draft, we certainly could not spare 100,000 wolunteers; but apart from this it seemed evident that we could not raise the men by the voluntary system. We had already raised an astounding number of men by the voluntary system. Sir Herbert, in closing, said that free speech was not dead in Quebec.

Of Members Now Overseas

At the meeting of the local bricklayers 'union in the Labor Temple the following officers were elected: Fresident, J. Jenoves; vice, John Spencer; recording secretary, E. Tremwith; financial secretary, Joseph Bamber; treasurer, W. Thorne; business agent, J. Vick; executive board, W. Jenoves, John Vick, J. Bamber, J. Sutherland, E. Tremwith, W. Jarvis; arbitration board, W. Jenoves, J. T. Vick, W. Thorne, J. Bamber, J. Adams and J. It was decided to tax each member

DEATH OF JAMES BARRON.

By the death of Mr. James Barron, which occurred at his residence, 1062 College street, Tuesday, Toronto loses a well known citizen. Mr. Barron was a native of Elgin, Scotland, coming to this country thirty years ago, when he settled in Toronto. For over nine years he had been employed by the board of education, and he is survived by his widow, one son, W. J. Barron, and four daughters, Mrs. Wm. Kerr, Mrs. W. J. Barron, Mrs. Cecil Dixon and Miss Effie, all of Toronto.

NEXT YEAR'S PRODUCTION.

Special to The Toronto World.
Chatham, June 27.—The Kent
County Council opened a special session (goday. E. Brock, representing the organization of resources commit tee, outlined a plan for big food production campaign next year, providing for all available land to be tilled. A special committee to look afterthe work will be appointed. Before the close of the session the council considered the good roads bylaw.

COUNCIL INSPECTS THE HARBOR WORK

Party Amazed at Dimensions and Capacity of New Steel Plant.

VISITORS FROM STATES

Civic Officials of Bayonne, New Jersey, Congratulate Toronto.

Toronto's new steel plant situated on the property of the harbor board at Ashbridge's Bay, and kuilt by the imperial munitions board, was the chief centre of interest to those who accompanied the harbor commissionaccompanied the harbor commissioners on their annual inspection of the improvement work yesterday. The party, which included the city officials of Bayonne. New Jersey, who were the guests of the commissioners, Mayor Church, board of control, city council and the heads of the civic departments, was greatly amazed at the dimensions and working capacity of the new plant thru which it was conducted by E. L. Cousins, chief engineer and manager of the harbor improvement work. And the visitors from the New Jersey city heartly congratulated the mayor and the board of control on their business foresight in bringing about the locaforesight in bringing about the loca-tion of the plant which has the larg-est installation of electric steel fur-naces in the world.

naces in the world.

Those in the party from Bayonie were: City Commissioners Matthew T. Cronin, Hugh H. Mara and Horace Robertson and De Wit Van Buskirk, president of the Bayonne Chambef of Commerce; Chas. A. Ruhlmann, tax assessor; Jude Peter Stilwell, Joseph J. Cain, Jacob Tucker and J. Spencer Smith. They arrived in Toronto yesterday morning and were met by the members of the harbor commission and the purpose of their visit is to learn of the city's harbor scheme ro that they can take back suggestions to aid them in constructing a prothat they can take back suggestions to aid them in constructing a projected \$10,000,000 terminal station on the Bayonne water front. The party will spend two days in Toronto and will proceed to Montreal before returning home.

All the work that has been completed in the past year from the armonder of the state of th

The need for economy and thrift was never greater. But your savings should be lent to the nation and not locked up where they cannot be utilized to national ends. Avoid all expenditures on ostentation, all expendi-tures that exhaust instead of re-creating, that lower instead of increas-ing efficiency. Avoid luxury and waste and extravagance. Save your waste and extravagance. Save your money and put it to your advantage and to the advantage of the state. Men in France are sacrificing themselves for you. Sacrifice yourself for them. Never mind your comforts and your pleasures. Abandon them and put your savings where they will do

OF HEALTH BULLETINS

Flight Lieut. G. M. Dick Killed Trustee Hopkins Says There Are Humewood Schools. Facts in Pamphlets Pupils Should Not Read.

> mmittee of the board of education yesterday, Trustee Dr. Hopkins de- counts for \$1280.15 for collegiate insti-scribed the distributing of the health tutes and \$8095.91 for public schools bulletin pamphlets to the scholars as "disgraceful" without proper supervision. He maintained that there were many things in the bulletins that should not be disclosed to the pupils. Dr. Noble was a strong advocate of the pamphlets, but eventually the matter was left to the chief inspector and the senior principal.
>
> Dr. Hunter's motion that the minis-

ter of education be asked for legislative provision for the appointment of a teachers' council was voted down on the report of the senior principal, G. A. Smith, who pointed out that the board cannot depart from the provincial system of education. The request of Mrs. Arthur VanKoughnet that a collection be made in the schools towards a fund for the army and navy veterans was left over until the fall. The committee concurred in the re-commendation of the senior principal 14, 4 Mould street, Runnymede, was struck by a motor car driven, by Bert Reid, 494 Ontario street, and received injuries to the head. The injured boy was taken to Dr Norman's office, St John's road, by Reid, then to his home. But nobody being in, he was again removed, this time to the Western Hospital.

Reid was held by the police until a report on the boy's condition was received from the hospital. He was allowed to go. The boy has head wounds, but his condition is not thought to be serious.

URGES WIDENING OF INTERSECTION

Jury Finds Little Girl's Death Was Accidental, But Adds Rider.

Accidental death was the verdict last night given by the coroner's jury under Dr. J. C. Elliott, in the case of two.year-old lrene Parish of 491 Indian Grove, who was fatally injured on June 19 at the corner of Dundas and Keele streets by being run over by street car No. 1342.

The verdict exonerated Motorman H. Wilcocks, and the traffic officer at the intersection, and recommended the widening of that intersection, so as to relieve traffic congestion; further, that the T. S. R. use a loop to turn their cars, instead of a "Y."

Jacob Bernbaum, 116 West Bloor street, was the only eyewitness, and in his evidence he stated that the child was knocked under the car by the front steps.

Walter McRay, master mechanic of the T.S.R. Co., also gave evidence, and said that the company employs the most efficient excident, presention deavises on the

that the company employs the most effi-cient acciden: prevention devices on the continent, which are approved by the Ontario Municipal Railway Board.

WELLESLEY HOSPITAL **GRADUATING EXERCISES**

Diplomas Presented by Sir John Hendrie, and Class Pins by Lady Hendrie.

The graduating exercises took place at Wellesley Hospital yesterday after-noon, Sir William Mulock presiding. Professor Law officiated at the opening prayer, and Miss Knox, principal of Havergal College, addressed the grad-uates. A report of the year's work was given by Miss Flaws, the superintendent. The diplomas were presented by Sir John Hendrie, and Lady Hendrie presented the class pins.

Dr. Bruce's scholarship for proficiency in operating room technique was won by Miss Laura Moore; Sir John on the new Union Station continues to spread, and yesterday the builders' laborers went on strike in sympathy Sir William Mulock scholarship for with the structural iron workers. It is now two months since the latter struck for an increase in their wages. The wages paid to them were 35 cents per hour, and they ask for the usual rate how paid by all firms.

Sir Whilam Millock scholarship for intermediate class was won by Miss Madeline Rogerson and Miss Adabelle McLeod. In the junior class the Sir Edmund Osler scholarship was won by Miss Shella Cardwell and Miss Marion Robinson. Dr. McLauren's prize for highest grade in physiology was won by Miss Marionia McStidey was won by Miss Marjorie McBride. The graduates are: Miss M. Canada Strong for the War.

There is an impression in some quarters that Canada as a nation is when charity is not merely local and against the democratic idea of conscription under the form of selective draft. We believe that this is entirely an erroneous view. It is possible that and pitiful claimants, but there are where the old idea of the press gang always more, and this week a special and its methods still lingers there might be some objection to that method of recruiting, but it is absurd and square-dealing system of the light of metropolitan interest and out to suppose that when the equitable selective draft is explained to anyone of sight in quiet country towns, do he would oppose it. Labor and the not receive the aid or attention which farmers, two elements which are they require as badly as the bigger inalleged to be strongest against it, will stitutions. be strongest in its favor when it is properly operated. Will any farmer object to Col. Arthur's statement that fit of these small hospitals in France, labor service here? This is the prin- business for which they exist. After hands to see that it is properly car- scurces are of the slenderest. ried out. It has been shown that we In Poitiers, for example, a small to the front. No one can have any objection to this but the few who suffer from lack of nerve, to put no worse construction upon it.

The people of Canada, except in one province, are generally and profoundly interested in the war, for their friends and relatives are engaged in it. According to the minister of militia the enlistments in Canada number 155,000 British born, 121,000 money and almost without clothing. native born, and 14,000 French-Canadians. These represent roughly 290,- many severely wounded, direct from 000 families and many more besides of their kin and friends. This per- for these wounded men. Cocoa, rice, sonal interest alone counts for much, sugar, prunes, oxo, malted milk, hos for no man with child or friend at pital supplies, clothing, towels, blanthe front will hesitate about a mea- kets, hot water bottles, old linen, anyto a victorious conclusion.

Beyond this there are the appeals of principle and of patriotism. These count for more than some people fancy. Their power can be estimated and the most grateful acknowledge by their reverse operation, in Quebec, where principle has been converted into self-interest, and patriotism into parochialism. But even Quebec is Canada goes either to Germany or in In either case there is an end of Quebec as such and bilingualism, and all those things which the rest of Canada is fighting Germany to maintain. Quebec either does not know or see this, or the whole basis of the war has been misinterpreted to the for this the prolonged debate in parliament has already shown. If the people of Canada were against

the war they would not have turged in their money for the war loans as hey have, nor would the voluntary enistments have been even what they are. nother sign of the solid opinion of out exception the newspapers are winagain be ignored, for the Quebec people do not seem to have heard or grasped the facts. When the people of Quebec understand that the whole civilized world but themselves is in the war against Germany, and that Quebec for its stupidity, they will adopt another attitude.

The unanimity of the country in regard to the war should be reflected in the government of the country, and it is evident that a new government is being incubated. Just what may hatch out no one is in a position to say, for an incubator gives no indication of the breed of fowl that may emerge as a motherly and businesslike hen might.

The Need for Action.

In the strong statement made in yesterday's World by a military authority recently from the front, move even Quebec if it were properly presented to the people. The most difficult thing in the world is to get the facts before those who need to hear them. All the suggestions made by this officer may not be agreeable to everybody, but they indicate the direction taken by the minds of

In the days of the deluge is no time for splitting hairs. In a famine the question is not what we shall eat, but shall we get anything to eat? In the war it is not what Canada should do that is to be considered, but the hard fact that there won't be any Canada if we do not all exert our utmost effort. Those who refuse to do anything cannot expect much reward if the others pull the country out of the hole.

The war is still yery far from ever

are as determined as we, and it will be a fight to a finish.

The vast amount of talk in parliament is naturally irritating to practical people who perceive an urgent necessity and no good reason for delay for the sake of palaver. If there were any decided leadership all the talk would be unnecessary, but as it is there appears to be a dim hope that out of all the oratory there may come some oracle of wisdom.

"Friends of France."

It is difficult to stir up interest in the far-away and little khown charities when the greater organizations with their insistent needs and their periodic demands will not be denied. But it is a mark of high civilization selfish but widely diffused and uni- he won't be. versal in its sympathies. Toronto has done well for many of these distant effort has been made for the smaller French hospitals, which on account of their situation, away from the fierce

WINIFRED BLACK WRITES ABOUT Letting the Sunlight In

A man was arrested the other day for carrying his umbrella wide open above his head while the sun was shining and there wasn't a drop of rain.

The policeman who saw him doing this thought it feally looked suspicious. He felt more than convinced that the man must have stolen the umbrella or he would not he doing another than the stolen the umbrella or he would not he doing another than the stolen the umbrella or he would not he doing another than the stolen the umbrella or he would not he doing another than the stolen the umbrella or he would not he doing another than the stolen th brella or he would not be doing anything so un-

L do not know what will become of the Suspicions Person who was so deep in thought that he had not noticed that the sun had chased away the storm clouds. I hope the poor man won't be punished for thinking. We all have to make the best of such an army of non-thinkers every day.

I hate to think of the Suspicious Person being punished at all—and perhaps

I was genuinely interested in it all because I've seen the same thing happen ever so many times. I live in a city where at certain seasons of the year it rains rather easily and clears quite as easily, too, and I've been interested to watch for the Suspicious Persons who walk right along with umbrellas held carefully over their precious heads and the sun looking down at them and chuckling kindly all the while.

No Sunshine Anywhere.

Sometimes the absorbed Suspicious Person is a lovely young girl. You can just tell she's on a shopping tour because there's going to be a wedding tour before many days. Little does she know whether it is raining or the sun is shining. Mother handed her the raised umbrella and she'll carry it so until some doorway she wants to enter is rude enough to stop her and make her close the poor unnoticed umbrella.

Then, again, it's an older woman. Something is troubling her. It may be that baby is ill and she fears to be long away from him. It was raining when she hurried out and-

Once the Suspicious Person was a woman, middle-aged and bitter-faced. Life had been one long storm to her. There was no more sunshine anywhere. Some heavier storm than usual was darkening her eyes that day. How could she know that the sun was shining and the umbrella no longer

Another April-like day I saw two youths huddled under one umbrella and talking very earnestly. As they passed me one of them said: "Well, it's not my fault that you went in so heavy. Why did you bet at all if you feel like this?" In the land where those youths dwell there is no sunshine, I'm afraid, aren't you?

Right down the middle of the crowded sidewalk came the Drunken Man one day when sun and rain were battling as does a strong man for mastery of himself. Here he came, the Suspicious Person, with his umbrella sticking into first this person and then that and he making elaborate apologies to one and all. And up in the sky I looked to see if there was even one little cloud left of all the scurrying mass that had darkened the day but a few minutes before. No, there was not one. Away they had all gone and there was the good old sun shining in the good old way he's done for so many, many days.

A young man stepped from the crowds on the sidewalk and took the imbrella from the hand of the Drunken Man, lowered it and handed it back to him—all quite respectfully and pleasantly. The Suspicious Person thanked the man for telling him that it was no longer raining and that the sun was shining, and we all hurried on-in fact, we hadn't really stopped at all-but I think we were all glad the young man had done what he did and that he did it because the sun was shining-at last.

On one of those rain-and-shine days I went to buy a newspaper of the old, old man who never seemed to have very many customers. He was quite a philosopher, I had found, and I had rather grown to like a word with him now and again. I peered under the wet, rusty, old umbrella that had protected him for so long, nailed by its ugly old handle to the little wooden rack that held his papers.

There was no answering word. The worn old hand did not reach for a paper in the accustomed way. I stopped and looked again under the

"What is the matter?" I called to him, thinking that he slept. "Don't The tired old man had gone to his rest. Whether it rained or shined a damn fool to get into this, but I but it will be inevitable. mattered not to him ever again.

I hope the sun shines always in the land where he has gone and that there is rest and gladness for all those who have grown old—allone.

And I hope that if your umbrella is raised and that you have not discovered that the rain is over you'll notice right now, and let the sunshine of love and happiness warm your very soul, dear friend who reads.

How to Make Garden Work Aid Beauty

and beauty, and both may be com-

Exercise has its bearing on every find that gardening is an inexhaust-ible source of healthful pleasure. relation to beauty is a matter of grace. The pliant, agile form, the charming carriage—all these are the

direct outgrowth of proper exercise.

Work in a gymnasium will not appeal to the majority of heanty seek. so willingly. In every garden, seeds are planted.

When the time comes for transplanting the seedlings do not get down upon your knees, but bend from the waist, reaching to the ground, digging up the tiny plant and depositing it in its permanent growing place. You can plainly see how this exercise will strengthen, the muscles of the back, arms and shoulders and wear away any superfluous flesh about the waist.

Digging Good Exercise.

The earth about growing plants must not be allowed to harden. It must be

kept light and loose, digging about the roots of each plant with a trowel. This exercise is excellent for the hands. wrists and arms, making them graceful and strong. Rose bushes require constant atten-

tion, the gardener with her pruning shears should clip the blooms and trim off the withered leaves and dried branches. Unconsciously, while doing this work, you will exercise the muscles of the arms, back and lower

If the roses climb high up the side of the house or over a trellis so much the better. In reaching up to train the young shoots and tie the older ones in place it is necessary for you to stretch. This form of exercise will much toward making you graceful and lithe. Do the work systematically, without haste, and keep in mind the fact that you are working for a pur-

When the flowers are blooming you will gather them into baskets and distil their fragrance into sweet lotions the their fragrance into sweet lotions to aid you in your quest for beauty. Surely this will reward you enough for the care you have bestowed upon the growing plants.

Every garden grows weeds aplenty. Every day the new ones that have sprung up must be destroyed. In pulling the weeds bend over

ing the weeds, bend over from the waist and straighten up to throw each handful into the garden basket; bend

alone. You will find that it will be less tiring and that the exercise will this easily place the fruit in a basin add greatly to your freedom and grace and pour boiling water over it. You

Fresh air and proper exercise are of condition," means hours and hours two essentials in the quest for grace of hard work. If you are really interested in watching the growth of "green things" and are proud enough of your flowers to give them a certain unt of attention each day you will Wear Comfortable Clothing.

The rose bushes, as well as other plants and vines, must be kept free from destroying bugs and worms. This means that you will have to spray the foliage with an insect-destroyer. Tall chrysanthemums, must be supported by stakes or the wind will break and tear them, garden walks must be kept neat, and the grass about the flower beds cut and trimmed about the edges, all of which is work and health-giv-

Remember when working in garden to wear loose, comfortable clothing. Stiffly-boned stays are not even to be thought of. An elastic girdle corset should be substituted i out any support. After your muscles have become accustomed to being without this stiff armor you can dis card it.

The garden, smocks are neat look ing, comfortable and picturesque. They have taken the place of the once popular garden apron, and are better suited to the gardener's need for com fortable "working togs."

That modern women lawyers and even Portia celebrated from the "Mer-chant of Venice" had their prototypes in ancient days is the evidence to be found on ancient Babylonian tablets On these tablets it is given as a mat ter of interest that in the year 550 B. C., a woman appeared in the high case without assistance from any

The oldest bell in the United States hangs in the rectory of the little vil-lage of East Haddam, Ct. The bell bears the date A. D. 1803. But the bears the date A. D. 1803. But the first bell that ever rang out over the fields of the country is said to have been the "bell of the fig tree" which is still preserved in Chicago and which is said to have been used in the town of Isobella in San Domingo, founded by Columbus in 1495 and named in hence of his every

Oilcloth can be preserved by putting two ounces of glue into a pint of water and standing it in a warm It oven until it malts. needs no explanation to tell you what should be cleaned and allowed to dry, such exercise will accomplish.

The earth of the large flower beds must be kept loose and this will require the use of a rake. Grasp the handle of this very necessary garden handle of this very necessary garden will be left, and only dusting will be needed for some time.

Tomatoes should always be skinned before being used for salad. To do will find that the skin can be removof movement.

INTENSE ENTHUSIASM.

A French Seaport, June 27.—The second contingent of American troops arrived and disembarked this morning. The troops landed amid the framtic cheens of the people, who had gathered for hours before in anticipation of duplicating yestenday's surprise.

Enthusiasm rose to fever pitch when duplicating yesterday's surprise.
Enthusiasm rose to fever pitch when it was learned that the transports and

Lost the Use of Right Hand

From Extreme Nervous Exhaustion-Had Doctored for Years for Thin Blood, and is Now Fully Restored.

Thomas, Ont., June 27.-There been much comment here on the cure of Mrs. Bremner, who suffered years from extreme nervousness and almost entirely lost the use of her

right hand.
Thin blood had been the cause of trouble, and the nervous system had become starved and exhausted until paralysis seemed the only result to expect. But a friend recommended Dr. Chase's Nerve Food, and the as-tonishing results are described in this

Mrs. C. Bremner, 14 Arthur avenue, St. Thomas, Ont., writes: "I had doctored for some time for a weakness of my right hand, and also for thin blood. I doctored for years for thin blood. I doctored for years for this latter, and all my trouble seemed due to this. My nerves were so bad that I was afraid to stay alone, and if I had to stay up late at night to complete any work I was doing I would keep some of the children up with me. I used to have some of the most hideous dreams, and would wake up in great excitement. I tried a great many remedies without benefit. My husband brought home a box of Dr. Chase's Nerve Food one day, but Dr. Chase's Nerve Food one day, but I was using some doctor's medicine at the time, so I did not bother. Later a lady friend said to me: 'Why don't you persevere with the Nerve Food? They have certainly helped me.' So I commenced using them, and dropped all other medicines. all other medicines. After a good treatment of the Nerve Food I felt. much better and stronger, and had the full use of my hand. I found that as I got stronger the nervousness disappeared. I am feeling so much better now that I am able to do all my own work. I always keep a box of Dr. Chase's Nerve Food in the house, "My little kirl has also received great benefit from taking some of Dr. Chase's Nerve Food. She seemed to be nervous, and was troubled with bed-wetting, so I thought I would try them with her, and was pleased to find that she has been completely cured of both these troubles.

"I cannot great to the Torento World.

Belleville, June 22 John Stapley died today as the resulting injuries sustained when a team of horses, becoming frightened at an airplane passing over the city, ran away. The victim was 48 years of age and is survived by a widow and family. "I cannot speak too highly of Dr. Chase's Nerve Food, and would re-commend it to anyone suffering from

to decide in conference with the French general staff and officials of the British army.

The American troops will be an independent force co-operating with the allies. It has been suggested that the Americans might be placed between the French and British forces as a connecting link, but the exigencies of

convoys had successfully passed the submarine zone. The port was speedily beflagged in honor of the occasion. All the troops now arrived were ransferred today to a camp not far distant from this point, where Major-General William L. Sibert is installed. Thence they probably will go soon to a point near the front. All the troops

a point near the front. All the troops are in excellent shape.

Major-General Pershing, the American commander, is expected tomorrow, when additional troops are expected.

The harbor is dotted with convoys. The streets are filled with soldiers in khaki land with bluejackets. Great numbers of trucks are transporting immense supplies to the camp in which the troops are concentrating.

Harper, customs broker, 39 West Wellington st., corner Bay st.

NOT Greater in Price **BUT Greater in Value**

As some would say, "There is milk and The Farmers' Dairy Milk.

There are many things which contribute to make The Farmers' Dairy Milk superior. And these causes are first noticed on the farms -the farms of our own shareholders. For instance, exceptional care is taken of the cows. They are carefully fed. Kept in the healthiest condition. Inspected regularly. Milked by experts in sanitary

Then at the dairy, a sanitary, perfectly-equipped building, flooded in sunshine, the milk is again handled with the utmost care. Scientifically pasteurized. Cooled. Bottled by machinery.

That's why this milk is better. That's why The Farmers' Dairy milk, though not greater in price, is greater in value.

Decide now which milk you will select. To combat high prices you need not only a food that costs less, but one that will give greater food value. And The Farmers' Dairy Milk does this. It costs little, but is worth much. Get tickets today. Our salesmen have them. Or you can get them by writing or phoning us.

VETERANS OF WAR TO HEAD PARADE

Heroes Returned From Present Conflict to Have Place of Honor Monday.

Camp Borden, June 27.-Major-General Logie has sent word to Col. Grasett that the veterans of the present war, whether they can march or have to be driven in carriages or autos, are to lead the Do-minion Day parade in Toronto, and at minion Day parade in Toronto, and at the review they will be given the place of honor at the right of the line. The parade will be in charge of Brig.-General Sir Henry Pellatt, with Lt.-Col. J. Cooper Mason as his trigade major.

The taking of photographs for commercial purposes within the limits of Camp Borden on Sündays has been forbidden. This step has been taken in order that the photographer who is willing to observe the law in regard to carrying on business on Sunday may not have an unfair advantage taken of him by his less scrupulous competitor. It does not affect the taking of photos on Saturday, or in case of a special permit on other week days.

Three officers of the 255th Battalion, C.E.F., have been struck out the strength. They are Capt. Andrew H. Paterson, Capt. John W. Bartiett and Lt. Robert Gilbert, all Queen's Own Rifles officers.

Lt. H. G. Brunton, 4th Batt., C.E.F., has been taken on the staff of the Whitby Military Hospital, with the temporary rank of captain. Capt. G. W. Carleton, A.M.C., joins the staff of the Toronto Base Hospital.

NO BAIL FOR ALDERMAN.

Special to The Toronto World,
Kitchener, June 27.—Ald. H. M. Bowman, committed for trial on a charge of attempted bribery, failed to put in an appearance before Magistrate Weir for the purpose of producing ball. When brought by a policeman he pleaded that he thought the case was adjourned. He was un ble to furnish bail and asked audit life a. The court adjourned until Prodes with the understanding that if

bail is not furnished at that time Ald Bowman will be lodged in fail unt.

WHITEMAN'S HOMER **WON AT RICHMOND**

Leafs Lost Lead in Seventh, and Then in Eighth Pulled Game Out of Fire.

Richmond, Va., June 27.—Jack Enright's former team-mates manifested a familiarity with his offerings and a pleasure at viewing them that netted them six hits in the opening innings of the game with Richmond today, and that enabled the Leafs to win a 7-to-5 victory. During the game Enright's offerings were driven to all corners of the field, and at least one impression was made in the territory outside the park, Whiteman's wallop clearing the fence in deep left field and sending Jacobson, who had walked, home ahead of him. This was the hit that wen the game for Toronto, Richmond having come from behind in the seventh and taken the lead by one run. Hearne iced the decision in the final stanza by singling and scoring Warhop, who had doubled at the opening of the round.

The Leafs appeared to have thrown the game away when the locals managed to garner a couple of tallies in the seventh, an error, a wild pitch and a passed ball making them possible.

In fact, Toronto, deserved to win the game by a much different score than is given them. Their miscues made possible all but the single run earned by Richmond.

Bankston's catch of Kelly's fly in the

Grays Beat Bisons In Eleven Innings

At Providence (International)—It took eleven innings again to reach a decision yesterday. Trovidence beating Buffalo 5 to 4. After two were out in the eleventh Tutwiler hit safely, Kane got on, on Hummel's error, and Thomas smashed the bell against the centre-field fence Score:

Providence .0 0 2 0 1 1 0 0 0 0 1—5 10 2 Buffalo ... 0 1 2 0 0 1 0 0 0 0 0—4 13 5 Eatteries—Gregg and Mayer; Leake and J. Onslow.

At Bultimore—Gerner's wildness cost him the opener between Montreal and Baltimore, 4 to 3. The Ordoles had 18 men left on bases. Moran's hitting featured Score:

Montreal ... 0 0 0 2 1 0 0 0 0—3 11 1 Baltimore ... 1 0 0 1 1 0 0 1—4 12 1 Baltimore—Gerner and Madden; Hill and McAvoy.

McAvoy.

At Newark.—Johnny Enzmann shut out

MAKES GOOD FRIENDS

EVERYWHERE

It's a far cry back to the days of the "Seersucker Suit," the first tentative effort on the part of men to dress sanely in hot weather. But "Seersucker" wouldn't do, and its successor, "Crash," wasn't much better; for while men liked the coolness of these fabrics, they would not hold their shape or look respectable for any length of time. And so they went into oblivion.

But in the last few years have come a host of specially designed weaves-Palm Beach Cloths, Breezeweve, Linens, Mohairswhich are of tropical weight and which can be, and are, beautifully tailored into smart, cool garments which in every way meet a gentleman's idea of what is right and proper.

We sold quantities in 1915, more last year, and this year bids fair to be a record breaker. If you don't know their comfort you have missed something.

Try them out this season.

KENDAL BASEBALL .: 4

Kendal. June 27.-Kendal baseball team kendal. June 27.—Kendal baseball team is making a name for itself as rather a stiff proposition to run up gainst. At a baseball tournament at Shiloh recently Newtonville won from Elizabethville, and was later vanquished by Kendal by a score of 9 to 3. Kendal also defeated a picked burch. Carmen and Baillieboro, by a score of 12 to 8.

Blue Serge Sensation For Thursday

Extraordinary Blue Serge Values are offered to men of Toronto by Hobberlin's on Thursday. This Blue Serge is absolutely guaranteed all-wool and guaranteed Fast Indigo Dyes at values far below present market prices. These serges are of Dyes at values far below present market prices. These serges are offer for Thursday only at \$20.00, \$25.00 and \$30. Suits will be made-to-measure; the trimmings and linings will be of high grade materials throughout. Style, fit and workmanship are guaranteed; the terials throughout. Style, fit and workmanship are guaranteed; the tailoring will be done by expert designers and cutters and a large staff will be ready to serve you. All-wool serges have soared tremendously, and are hard to get at any price. Wool fabrics are now being interwoven with cotton to keep down rising cost, and the woolen situation is so serious that soon materials for men's clothing will be nearly all cotton. In view of these conditions ton. In view of these conditions Hobberlin's offer is the more remarkable. It is a sufficient recom-mendation that this all-wool material mendation that this all-wool material offered is guaranteed by the House of Hobberlin, known all over the Dominion for its policy of square dealing. As the offer is for Thursday only, men will be well advised in taking full advantage of this astonishing opportunity.

There will be no waiting as full preparations have been made to take care of the lucky two hundred. However, we have the server of the lucky two hundred.

Whether "Jim" is on a man-of-war or in a trench, he's going to have long-lasting enjoyment and a lot of benefit from

It's one of the outstanding features of the war—this great pick-me-up, with its tonic nect on stomach and nerves. Are you using it? If not, you are missing a big comfort.

The Flavour Lasts

PLAYS PICTURES. AND MUSIC

"THE ROBINS PLAYERS."

The attraction offered by Edward be the latest Oliver Morosco success, 'The Cinderella Man,' from the pen of Edward Chils Carpenter. The of Edward Chils Carpenter. The acenes of the play are laid in New York, and the action begins with the return to America of Marjorie Caner,

by the talented corganization at the clown, will be the other acts on Grand Opera Heuse next week. Those bill. who heard the company in "Robin Hood" this week, and are aware of the splendid manner in which the opera was sung and staged, will greet Serenade." The scenes of this opera are laid in old Spain, and opportunity The attraction offered by Edward is given for picturesque and attractive costuming. A special matinee their tenth week at the Alexandra will will be given on Monday, Dominion be the latest Oliver Moresco success.

LOEW'S YONGE ST.

Long Tack Sam, the greatest Chiyoung life abroad with her mother. Upon the death of the latter, she comes to live with her father, a grim, powerful captain of industry. But it is Antony Quintard, a poor young writer, who interests her. Of course, a fairy godmother appears at last to batter down the walls between the budding genius and wealth.

"THE SERENADE" NEXT WEEK.

One of the most successful comic operas ever offered to the public was who has spent most of her nese showman, and his company of "The Serenade," and it held the attention of the theatre-going public tention of the theatre-going public for several years. It is to be sung

"FRECKLES" AT MADISON.

A strong and pleasing headliner at with favor the announcement that the company is to remain and sing "The the balance of the week will be "Freckles," the film version of Gene Stratton Porter's well-known "best seller," with those two delightful stars, Louise Huff and Jack Pickford. This photo-play centres around a crippled orphan and the way in which his "Angel" helps him thru.

GARDEN PLOT TEA ROOM. Back Yard Gardens Committee to Con-

Walk-Over Boot Shop, 290 Yonge Street

pearance at the Hippodrome next week in the great Pathe release, "Blind Man's Luck." The picture tells the story of a charming girl born in a family of somewhat shady reputation. Despising her environment, the girl is forced into marriage with a wealthy young man. It is then that her adventures really begin. "The Garden of Mirth," a smart miniature musical comedy, will prove particularly attraccomedy, will prove particularly attractive. Mrs. Vernon Castle in the last episode of "Patria" will be shown, and all the problems of fifteen episodes will be unraveled. Sealo will prove a mine of fun to the children. Morgan and Wright in a novel sketch; the Graham Girls, smart singing comediannes; Street and Walker in a clever aerial act, and Wood and Wilson in "The Parkers Man" complete the hill. Ragbag Man," complete the bill.

RED CROSS PARTY.

Proceeds of a garden party held at the residence of Mr. J. K. Brodie, East Roxborough, by three little girls, Betty Brodie, Virginia Gundy and Betty Bailey, realized \$24.75, which goes to assist the Red Cross.

DEAD AT LONG ISLAND.

Island, N.Y., aged 60 years. Two daughters and one son survive.

Announcements

Notices of any character relating to future events, the purpose of which is the raising of money, are inserted in the advertising columns at fifteen cents a line.

Announcements for churches, societies, clubs or other organizations of future events, where the purpose is not the raising of money, may be inserted in this column at two cents a word, with 4 minimum of fifty cents for each insertion.

THE UNITED EMPIRE LOYALISTS'
Ladies' Committee hope that all Loyalists and their friends will attend the garden party given by a Loyalist, Lady Flavelle, in aid of their Red Cross work, on Saturday, June 30, from 4.30 to 7 o'clock, at "Holwood," Queen's Park.
THE RED CROSS TEA ROOMS at the Garden Allotments of the Women's Thrift Committee, Oriole Parkway, will be opened on Thursday afternoon. A flag will be raised over the gardens at five o'clock to show that those working at food production are serving the empire. All are welcome.

Is Suing Bank of Hamilton For Hundred Thousand Dollars

At Osgoode Hall yesterday E. R. Clarkson of Hamilton entered an action against the Bank of Hamilton to recover \$100,000 damages and also a taking of accounts since Jan. 1, 1905. The plaintiff further demands the return of Shares of the Cornplanter Refining Company of Warren, Pa., which, he alleges, were hold as security for his account.

LIQUOR SELLING CASE.

Jack Aseler, who trades as a grocer under the euphonious name of "Ruth-enian Company, Limited," appeared in Special to The Toronto World.

Kingston. June 27.—R. J. Bowes, a former prominent dry goods merchant here, and an ex-alderman, died at Long Island, N.Y., aged 60 years. Two daughters and one son survive.

Hand Company, Limited, appeared in the police court yesterday on a charge of keeping liquor for sale, the liquor in question being "Hall's Wine." Plainclothesman Bruce said he found four cases of the wine in Aseler's store and a quantity of the same stuff in Polish lodging houses, where a MY WASHWOMAN COULDN'T COME

right, title, interest and equity of re-

MORTGAGE SALE.

Under the powers contained in a certain mortgage, which will be produced at the time of sale, there will be offered for sale by public auction at the auction rooms of Waiter Ward Price, on Wednesday, the 11th day of July, 1917, at 12 o'clock noon, the following freehold property, namely:

Lots Numbers 32 and 34 on the west side of Devon road in the City of Toronto, according to registered Plan Number 1,450.

The said lands will be offered for sale subject to a prior mortgage and to a rescrived bid.

Terms of sale: 10 per cent, of the purchase price to be paid in cash on the date of sale and the balance, over and above such prior mortgage, within fifteen days thereafter.

For further terms and conditions of sale apply to Messers. Barton & Henderson, Royal Bank Building, Toronto, Solicitors for Vendor.

Dated at Toronto this 27th day of June, A.D. 1917.

Synopsis of Canadian North-West Land Regulations

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saakatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Suo-Agency) on certain conditions.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

Live stock may be substituted for cultivation under certain conditions.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre.

Duties.—Six months' residence in each of three years after earning homestead patent, also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as a homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased

conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price

homestead in certain districts. Price \$3.00 per acre.

Duties.—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

Deputy of the Minister of the Interior, N.B.—Unauthorized publication of this advertisement will not be paid for.—1141. C.P.R. LIVE STOCK MARKET.

Montreal, June 27.—At the Canadian Pacific live stock market today the offerings amounted to 200 cattle, 100 sheep and lambs, 550 hogs and 900 calves. Owing to the small supply of cattle, the tone of the market was firm, and prices were fully maintained at the recent advance noted. The demand was fairly good from butchers for small lots to complete their requirements for the balance of the week, and a fair trade was done, with sales of choice steers at \$11.50 to \$12; good at \$11 to \$11.25; fair at \$10 to \$10.75, and common at \$9 to \$9.50, while cows sold at from \$8 to \$10, and bulls at from \$8.50 to \$10.50 per cwt. The trade in milch cows was slow.

Because of these and other reason we are offering for immediate public iption treasury shares of the Belle-Ellen Mines of the Cobalt-South

"Belle-Ellen is a representative de-velopment issue of an attractive camp awaiting capital and development-a which has shown production, earnings and dividends. Belle-Ellen is located where it should make good. Its management is good. Its geology is good. It has been well and favorably reported upon by competent en-

NORTH DAVIDSON.

Diamond drilling operations are progressing favorably on the North Davidson mine. Results of the initial hole have been satisfactory to the management, and the announcemen that may be expected soon should please those who are interested in the property. A second drill hole is being in the next few months. But the latest sunk. Application has been made for discovery far eclipses those of last the listing of the stock on the New York curb market, and the listing is expected in a short time.

MINING ORE.

Large quantities of ore are being mined from the promising sulphide property at Doudreau, owned by the Rand Consolidated. Machinery has been ordered and is being shipped.

A Troublesome Conscience

An interesting sidelight on human nature is portrayed in the following letter, which is a by the president of one of the mines in the north country. Names have for obvious reasons been omitted. Enclosed was found a cheque for \$10. the presence of which the letter

South Porcupine, June 24. Dear Sir: Find enclosed the sum of \$10, being payment for that were taken by me from property your amounted at to about \$7, that the three dollars will be interest, etc. Please let me know if this is satisfactory. So if you would send me a receipt if possible,

I remain, yours truly. The recipient of the retribution money decided to hand the amount over to the Canadian Red Cross, and in doing so will request that the sender be supplied with the requested receipt. The donation will be credited to the sender.

above that level, whereas most of the gold taken from the Hollinger has come from a horizon from 200 to 425 feet

from the surface.

The Jupiter does not show any very ced shearing. In this respect it is quite different from the Plenaurum ing. The surface indications on parts of the latter are equal to any in Porcupine. The shaft on the Jupiter will soon reach a depth of 1000 feet. Hoists for operating to that depth are already on the ground and progress is the work of connecting the two properties at that level.

According to the present program tere will be no development Plenaurum until this shaft is finished but in depth, if sufficiently explored, it is likely to prove a very interesting proposition. Great Shear Zone

The great Hollinger-Newray shear one does not show very strong on the western 160 acres of the Newray. The diamond drill has, however, located one good vein following a contact with quartz porphyry, and an effort is now being made to pick up the south-western extension of the Connel vein. But the special feature of the Newray is now the late find on the eastern 160 acres of the property. Last season prospecting disclosed visible gold in several places in the vicinity of the Anchor, Hanson and Helena veins. These will all be proved in depth withyear. The new shear zone forms practically a right angle, with one projec-tion northwest and southeast and the other northeast by southwest. The total area is very large, even for Porcupine, and the shearing is, on the whole the strongest in the camp.

further on the same strike, and the character of the intervening space is not well known. But on the Davidson the main line of fracture seems to be northeasterly, and the extensive ore bodies seen in the workings at the 100 and 200-foot levels seem also to have the same trend. Mining men do not yet fully appreciate the ultimate value of the great shear zones of Porcupine, containing as they do so many veins and vein systems. The advantage over the single vein is so enormous that only devel-

Will Cause Revival of Interest in Cobalt Stocks.

Libell, Plant & Co., brokers, are making the following statement on the silver situation this diver situation this week thru The Canadian Mining Nows:

"The great improvement which has taken place in the suspicious outlook for its continue."

World Special Correspondent.

Porcupine, June 20. — When the Hollinger people started to enlarge their plant two years ago it was found impossible to obtain space in the present market price."

Kashbaw, June 27.—This place is situated on the Canadian Northern Raifway 80 miles on the Canadian Northern Raifway 80 miles northwest of Sudbury. It is the most convenient point of departure for the promising gold the grant and the great on the understance on the Canadian Northern Raifway 80 miles northwest of Sudbury. It is the most convenient point of departure for the promising sold the grant and the great of the promising sold the grant and the great of the promising sold the grant and the great of the promising sold the grant and the great of the promising sold the grant and the great of the promising sold the grant of the grant of the grant of the gra

tree is similar to that of Porcupine According to R. B. Stewart, who examined the region in 1912 for the Onamined the region in 1912 for the Ontario Bureau of Mines, the principal formation is ellipsoidal basalt. Then there are small areas of quartz popphyry, syenitic porphyry and felsite resembling rhyolite. At a later period the mines branch at Ottawa sent experts into the camp. They identified considerable flows of andesitic lava, so called because it is the prelava, so called because it is the prebeing made from the McIntyre end in vailing rock of the Andes in South America,

such a valuable property as the Ribble the Wasapika Mines, Ltd., should have Rock Formations. Granites and andesites are the principal sources of the world's gold. Most The first discovery of gold in this district was made on the Gosselin of the other igneous intrusions are only factors in bringing the royal metal to the surface and depositing metal to the surface and depositing it in veins. In Porcupine granite is the source of the gold and granite may also have played a part in the mineralization found at West Shining Tree. It occurs in the southern ing Tree. It occurs in the southern portion of the camp.

Visiting the Camp.
We have just returned to the railbut the property is so large and the outcrops so numerous a great deal of way after a week's visit to the district in company with George R. Rogers, M.E., an engineer of wide experience in Australia and in other parts of the At the Holding property near Cow Moose Lake we found considerable visible gold. The formation is horn blende schist. Further east is the proworld. Prior to the outbreak of the war he was general manager of the Mann Mines, Ltd., at Gowganda. He has made several visits to the new gold camp, beginning in 1915, and after very careful examinations of near-ly all the most important properties small vein is very rich in gold. Between these two properties the Shining-tree Mining and Milling Company has has finally closed a deal for the celeabout 80 acres and lie on the west side of Lake Wasapika, pronounced as if spelled Wah-saw-pica, with the acnorth on the east side of this lake D. cent on the second syllable. White Rock. strong shearing and mineralization.

The vein systems on the Gosselin have Indian names always have a pro-nounced local color and Wasapika means white rock. This was in allutually reach Cow Moose Lake. They belong to the shear zone and not to sion to the large outcrop of quartz on the Ribble vein. It runs along the wall of a mass of andesite which borders a long depression due to a contact between the andesite and brothers gives some color to their opinrhyolite porphyry. This contact can be traced in a southerly direction for four miles and a series of claims have been staked thereon. We followed been staked thereon. We followed this line of mineralization for nearly camp of great promise, well worthy of a mile but did not anywhere find ore strong development. The Ribble claims shoots so large or strong as on the are in a class by themselves. shoots so large or strong as on the lare in a class by themselves. Owing Rogers property. The dynamic action to the igneous intrusion already menhere has been very marked. An intrusion of olivine diabase about 150 others on the same line of contact, feet wide has cut across the vein and feet wide has cut across the vein and the large of the same line of contact. doubt was a great factor in its engineer whose judgment as to the enrichment. The diabase has thrown the vein into a great fold but none commercial value of a gold property cannot be gainsaid, and one whose of its original length has been lost. The vein averages five feet in length edge and experience should enable him and is exposed for fully 1200 feet. It has been carefully sampled for a has been carefully sampled for a to command success. The Wasapika length of 800 feet and one hundred mines, if sufficiently financed, must make good in a comparatively short and one assays of these samples were made by the provincial assay office, conducted under the supervision of the Ontario Bureau of Mines. Every one of these assays the taken from the surface gave gold values, the lowest The Horibern Miner

teing \$1.20 and the highest \$216.80. Good Values. The average over a length of 800 feet is \$8, and \$11.52 over 120 feet. These values are more even and consistent than those usually obtained in the 200-foot level and it will Porcupine or any of our great gold camps, and considering the strength

MINING STOCKS

Buying of Gold and Silver Issues Resumed With Responsive Move in Prices.

The bears are again in the minority at the Standard Stock Exchange and altho ominous predictions are forthcoming occasionally they are treated with scant respect by the majority of the brokers. This, let it be understood, is something of a change from the existing conditions a short time ago. The renewed confidence displayed by traders has given the bulls a rew lease of life and the cheerfulness appears to be contagious, as many of the erstwhile pessimists have been converted. The gloom is gradually being dispelled. The strike situation in The progress of this camp has been somewhat retarded by difficulties in transportation, but last year the government of Ontario completed a good rising. This was so yesterday, as

The granting by Big Dome of the in crease in wages to the men, thus following the lead of McIntyre, was ine launches are now being put in strong bull card and the market mad assengers from the railway to the a responsive move toward higher lev Dome stock made a nice recovery to \$11.50 as compared with the recen low at \$9.75, closing at the top. Re newed buying of McIntyre also developed, which carried this issue up t \$1.52, a gain of four points for th day and within striking distance of the recent high point at \$1.57. Hollinge met a good trading, holding at \$3.60 thruout the day. The statement sent out by the president, which appears in part in another column, evidently firms the already stated policy of development at this property until the labor shortage is overcome. The wisdom of this course is unquestioned view of the operating report for the Vipond has evidently touched

ttom and is on the upward trend, a further recovery being made yesterday to 28½ as against the opening at 27. West Dome Con. was in good deman and sold a little higher at 19. One of the features of the list was the rapid drop in the price of Newra to 50, constituting a new low in sev eral months for this issue. In lanation of the move it was stated that there was a large block of stock everhanging the market which would have to be cleaned up before any re-covery was made. The stock was well taken on the decline. It would appear from recent event that the quotation sent out from New York on silver was too low. Presi-

dent F. L. Culver stated yesterday that a strike a little west of north, and if he had made a sale a few days ago of prolonged to the southeast would eventhe record price of \$1 cents net per ounce, which made a return of \$104.282. The Boston News Bureau also reports that the Nipissing sold a large sales were not made thru New York as is usually the case on account the high insurance demanded, due to the submarine menace, but went thru Vancouver for delivery to the east. In view of this it would seem that the quotation from New York yesterday at 78 1-4 is somewhat too low. This news coming out on the exchange gave the bulls increased conidence as regards the silver stocks and Timiskaming went up to 40 3-4 on the close with New York still heavy buyer. Nipissing was also strong at \$7.60 and Beaver made a

Isbell-Plan MACMURCHY Mining Talks

The mineral resources of Canada are immeasurable, and we are without ostentation to hold a brief for them.

The subject of Canada's—even Ontario's—mining future is to me most engaging and fascinating one.

Porcupine and Cobalt alone have been pouring out a stream of six and gold day by day, Sundays included, amounting approximately \$75,000 a day or over \$27,000,000 per annum. To allow outside ag to come in and dam up such a stream at this time, when silver and gold a not only the lifeblood, but the very breath of the nostrils, of the nations is submit cravenly to an arbitrary interference with Canada's greatest dustry. The same class of agitators has put the Greene-Cananea Mir on the southern boundary of the United States, out of operation recently

We sincerely sympathize with all the wholesome aspirations of le And if we did not we would not be fools enough to say so and thus d public opinion in an age where labor is coming into its own-where omic and humanitarian reforms are so overwhelmingly, and rightly, on half of bettering the conditions of those who do the work of the world. we cannot go to the extreme of subscribing to the crusades of those sow dissension wherever they go, who set brother against brother, often leave fire and bloodshed in their wake.

The importance of Canada's mineral wealth and of the develop of this wealth should be kept fixed in the public mind at this time

For Canada is especially a great mineral country and is destine become far greater. The land which one hundred years ago—in Was ton Irving's time-was described by him in "Astoria" as rich in p as a compliment to the mineral wealth of the Montezumas to the s today far richer and more important in the production and develop the precious and the base and the rare metals than it ever was or e could be in the furs and skins, costly and valuable as they were, wh were gathered by the far-flung organization of the Hudson Bay Co and the intrepid and adventurous trappers. Today the total mineral duction of Canada is \$175,000,000 a year. The time is coming whe will quadruple and quintuple that total.

In a list of the mineral resources of the world it will be found to but few important ones are missing in Canada. In some of these it be found that Canada leads the world.

The greatest nickel deposits in the world are located at Sudbury, thome of the International Nickel activities. The British-America Nickel Corporation, Limited, a strong British-Canadian Company, controlled by the controlled by Imperial Government, has broken ground for the construction of I smelting and refining works near Sudbury, for the production of refinickel. This places two glant corporations in the field where perhaps most valuable metal deposits in the world are located.

The coal resources of Canada are among the greatest in the world, only await proper distribution to heat the homes and plants and to turn the wheels of Canadian industry from the Arctic Ocean to Nia Falls-of transportation from the Atlantic to the Pacific.

The eastern townships of Quebec supply commerce with the bulk

Here in Ontario is the largest body of high-grade tale, a most use mineral, to be found on the continent.

And Canada can claim the largest body of high-grade feldspar, test mica mine and the greatest graphite mine on the continent.

Ottawa has, according to the Wall Street Journal, the largest and m

odern gold refinery in the world. The smelters at Deloro and Thorold produce more refined cobalt the all the other refineries in the world combined.

The tar-sand deposits of Northern Alberta are the most extensive Cobalt is, of course, the richest silver camp in the world. But Ca

—yes, Ontario—will give us other Cobalts. We believe that capital a labor will make of adjoining South Lorrain a worthy mate of Cobalt. development of Gowganda points to that camp becoming a silver treas house of the first magnitude.

No man has studied geology with reference to silver to more advant than the distinguished geologist, Mr. A. R. Whitman, of Cobalt, who been retained at large fees by the large mining groups of Cobalt, to stuthe underground territory there scientifically.

Mr. Whitman recently addressed the Board of Trade in Cobalt, a

"We have learned something useful about Cobalt silver ore deposits and I have no doubt that ANOTHER COBALT CAMP WILL SOME DATE BE FOUND IN THIS DIABASE REGION. I do not believe the bush has been completely prospected, nor that the small and frequently erratic cigings of prospectors that have been found have been altogether conclus in demonstrating the outlook for ore." He says, further, in the same dress, and no higher authority could possibly be invoked: "Neither I the lessons of Porcupine been carried affeld with sufficient thoroughness and I CONFIDENTLY LOOK FOR ANOTHER PORCUPINE." The CAI

What a magnificent heritage has been bequeathed us, and we would be cowards and delinquents if we did not develop it. Every man who le a hand to this work is helping the Dominion and for the Empire.

We are interested in the development of the West Shiningtree mining district, believing that it must soon occupy an important place on of Northern Ontario as a gold producer. We will be glad to send a re of the well-known mining engineer, George R. Rogers, M.E., on one the principal properties of that camp. Mr. Rogers has a constructive and unimpeachable record, and his credentials can be obtained in the highest mining official banking and professional circles of Toronto.

We are also interested in the development of South Lorrain as a silv cobalt producer. South Lorrain is an extension of Cobalt, lying in diabase region which Mr. Whitman confidently believes will ANOTHER COBALT, as he is known to believe in South Lorrain. Lorrain is already active, has received the attention of the great Lewison organization, and has rewarded their efforts with a big dividend-paye Pittsburg capital is making a mine there. English capital is repr there and will become active when the war is over. The mines there a very similar to Timiskaming and Beaver, the formation being essent

We offer stock of the Belle-Ellen Silver Mines, Limited, at net, 160 share. These properties are located in the heart of the proven miners selt of South Lorrain and have made most important developments as Write us about West Shiningtree (gold) and South Lorrain (silver).

FAMILY—the 7-passenger HO does not prefer the spacious sevenpassenger car with its extra comfort, extra freedom, and extra room for a jolly crowd?

The big car has a character, a class that is highly desirable. It need no longer be an unwieldy car. The Chalmers 7-passenger is as easy to drive as a roadster. Long, lithe, distinctive in look and line, it carries a grace that wins it a place among the costliest motor creations.

This is the car that won so many traffic tests. These tests were for 24 hours continuous travel in city traffic. Only high gear was used the other gears being blocked.

In Chicago the 7-passenger Chalmers ran 586.8 miles in the 24 hours, using gasoline at the low rate of 16.8 miles to the Imperial Gallon.

In Detroit, throttled down to 3 miles or less per hour, she ran 71.7 miles in the 24 hours. 12 miles to the Imperial Gallon. In Grand Rapids the run was 603 miles. In Montreal,

590 miles, with a 5-passenger. What better proof of wide flexibility, fuel economy, perfect cooling and oiling? Surely this roomy, luxurious Chalmers, has all you could desire in a reliable family car.

Ask to see the 7-passenger. Better, drive it. THE CHALMERS MOTOR CO. OF CANADA, LIMITED, WALKERVILLE

TRADING LARGER, **CHANGES SMALL** There was more business on the To-

ronto exchange yesterday, but this was not effective in advancing prices. Changes in any of the issues dealt in were not material, and in most instances represented only fractions of a point. The only buyers just now are insiders or those with financial capacity sufficient to carry stocks without assistance. This is the only redeeming feature of the situation and or-dinarily might be taken as an indication that values are scraping on the bottom. On the other hand, it is admitted that there is still an abundance of listed issues carried on margin, and if these are forced out by calling of loans further recessions will occur.
Government financing is the all-governing factor for the next little while. If another loan could be floated in the States the position would improve but there is no certainty that this can | be done. The 1937 loan made another low yesterday at 93-1-2 and the record of this issue since its emission will go strongly against any further domestic loan. Pending a change possible to

NEW YORK COTTON MARKET.

New York, June 27.—Recording of hather size a fear that this might disturb some of the call loans now at rest. The outlook is no means bright, and those who are fot compelled to be in the market can watch and wait, perbaps with considerable advantage. One thing seems assured and that is that pools might put their specialties up, but they cannot find a market for them.

IRREGULAR PRICES.

Heron & Co. had the following at the close.

Montreal, June 27.—There was an irregular market today and little hangs in prices. Nova Scotia Steel showed some improvement, and fractional advances were noticeable all thru the list. The last war loan was fairly active and apparently this issue is being gradually absorbed.

New York, June 27.—Recording of new high levels in cotton is becoming of new high levels in cotton is becoming a very common occurrence. To-day's move upward was caused by the publication of exceedingly builting private crop reports and continued drought in Texas, where the rainfall was said to have been insufficient and only in limited areas. Scarcity of contracts is still the dominating feature. Operations continue on a small scale, while the trade demand continues large. Consumption of cotton is on a very large scale, and spinners in their anxiety to protect themselves have accumulated and are holking their contracts. Therefore no relief can be looked for until the crop actually begins to move and satisfactional advances were noticeable all thru the list. The last war loan was fairly active and apparently this issue is being gradually absorbed.

Live Stock Market

Trading on the Union Stock Yards yesterday for the first hour or two was comparatively brisk, but after that it essed off considerably and closed around noon fractionally lower and with several loads of medium cattle unsold. On these lines there was a decline of anywhere from 15c to 25c per cwt. The run, over a thousand cattle, was a fairly heavy one for Wednesday and, added to the fact that the larger packing houses were not very much in evidence, tended to give a decidedly easier tone to the whole market.

For choice dry, stall-fed cattle, such as were there, trade was fairly steady thruout, but the bulk of the Ontario stall-fed cattle are all out. It looks, however, as tho a fair run of good grassfed cattle would command fair prices all this next week. The present seems a good time to sell fair to good cattle, as a big run will send them lower. There was very little demand for butcher cows and bulls and prices on these declined in some cases from 25c to 50c. There seemed to be a better demand for milkers and springers, a number of the dealers in this line saying that they had cleaned out early in the day, and one firm, as shown by the representative sales, cleared up the load at \$108 each.

Sheep and Lambs.

Sheep and Lambs.

Sheep and lambs—Spring lambs were lower and off in price from 50c to 75c from Tuesday's figures. Yearlisss and light sheep were steady, and heavy, fat sleep were slow of sale.

Calves—Trade was steady, especially for good choice veals, which sold at from 15c to 15½c; medium from 11½c to 13c and grassers and common calves from 7½c to 9c, while heavy, fat calves brought from 8c to 10½c.

Hogs.—The market for hogs was better, 18c fed and watered and 18½c off cars.

Total receipts were 1030 cattle, 319 calves, 1567 hogs and 521 sheep.

REPRESENTATIVE SALES.

McDonald & Halligan

McDonald & Halligan sold 20 loads at yesterday's market.

Choice butchers at \$11.40 to \$11.75; good butchers at \$11.50 to \$15.50; medium calves at \$1.50 to \$10.50; heavy fat calves at \$3.50 to \$10.50; choice baby beef at \$11 to \$12.50.

H. P. Kennedy.

Butchers—5, 750 ibs., at \$11.13; 1, 870 ibs., at \$11.15; 1, 870 ibs., at \$1.15; 1, 870 ibs., at \$1.50 to \$3.50; medium at \$8.25 to \$8.75; common at \$7.75.

M. Bulle—Choice at \$10 to \$10.50; good at \$1.50; medium at \$8.25 to \$8.75; common at \$1.50; at \$1.

| 10 | St. | 10 | St.

Bulls—Choice neavy at \$8.25 to \$15; bologna, light, at \$8.50 to \$7; bologna, heavy, at \$8.25 to \$9.50; medium at \$8.25 to \$9.50; medium at \$8.25 to \$8.50; common at \$8.75 to \$7.40; canners at \$5.75 to \$6.

Sheep—Ewes, light (clipped), at \$8.50; Sparkshall & Armstrong. S

We advise the purchase of three mining stocks-Dome Kinley-Darragh and Davidson. The first two will earn you dividends. while the latter is one of the proven new mines of Porcupine, and we consider it the best speculative investment the mining market offers. The following basis of purchase is suggested for the small investor. It will cost only \$555.00 and will yield 8.1 per cent.

Yield on investment 10 per cent. 24 per cent.

1867 --- Confederation Jubilee Sale--- 1917 Canada's Fiftieth Year of Confederation finds her engaged in the greatest war of history. As a consequence the prices of nearly all necessities are the highest we have ever known.

The hand-to-mouth merchant is having a hard time of it, stomers know the result.

On the other hand, it takes foresight and courage to buy in advance for such an organization as ours.

But our oustomers reap the benefit, for they buy from us at prices that are months better than the present market. This "Jubilee" page will show you dozens of examples where the price on SOMETHING YOU WANT NOW is below what you'd pay elsewhere.

It's worth reading carefully, and marking the items you want to get at 8.30 a.m. today.

One Dollar for \$1.95 LINGERIE WAISTS
