Brant Indians Are Seeking Asylum in New York State

Syracuse, N.Y., March 11.—More than 8,000 Iroquois of the Six Nations, residents of the Brant reservation in western Ontario, determined to resist compulsory citizenship in Canada, have asked Dr. E. A. Bates, of this city, an adopted chief, to appeal to President Harding for asylum in Indian reservations in New York State.

A great council meeting of the chiefs of the Six Nations will be held this week at the Onondaga reservation to outline a plan of action. The Indians, it is claimed, have been ordered to take out citizenship papers in the Dominion within thirty days. The situation may bring to a head the long continued negotiations between the Indians, the state and federal governments, as to the future of the tribes in the United States.

LABOR BODIES IN BIG LEGAL FIGHT

National and International Engineering Unions Prepare to Lock Horns.

COERCION IS ALLEGED

One of the biggest legal battles in the history of organized labor in the Dominion is expected to result from the suit of the National Union of Canadian Hoisting and Portable Engineers against the International Union of Steam and Operating Engineers and the Toronto Building Trades Council over the change of the national organization that the international body are coining workers to prevent their joining the national organization and that they are trying to prevent those who do join from obtaining employment.

International Organizer John Platt of the American Federation of Labor held a long conference with the executive committee of the Toronto Building Trades Council yesterday morning on the coming fight between the national and international bodies.

Support is Pledged. Organizer Platt has just come from Washington, where he has been in consultation for several days with the executive council of the building trades section of the American Federation of Labor on the issues involved in the present legal struggle in Toronto. He now brings to Toronto the message that the international building trades council and the international unions affiliated have pledged their full support to the Toronto Building Trades Council and will finance the case in all its stages through the courts.

This means that nearly two million international union members will back the defense of Toronto building trades council and the International Union of Steam and Operating Engineers. Of the following 18 international unions which now pledge their support, the international brotherhood of carpenters alone have a paid-up membership of over half a million, the unions involved being: Asbestos workers, bricklayers and masons, bridge, structural and ornamental iron workers; cement finishers, carpenters and joiners, electrical workers, elevator constructors, granite cutters, hod carriers, building and common laborers; hoisting and portable engineers, marble, stone, slat and polisher, painters, plumbers, steamfitters, sheet metal workers, stone cutters, stone masons, united slate, tile and composition roofers, and the wood, wire and metal trades.

A Determined Battle. The reason these unions are taking up the fight of the Toronto section of the international is that the American Federation of Labor, thru the building trades department of the organization, are determined to see that the constitution and bylaws which apply to local councils are protected and upheld thru the North American continent. The constitution and bylaws hold that no member of the international body shall work with non-union men, and the constitution has as one of its main objects the abolition of the open shop.

All disputes in the building trades in this city are placed before the joint industrial council, the chairman of which is from the architects, a neutral body, and is composed of five members, representing the contractors and five members representing the building trades section of the A. F. of L. It is held that if the Toronto Building Trades Council recognize the national unions, the agreements obtained thru the joint industrial council would be rendered void. This is one of the reasons why members of the A. F. of L. have refused to work alongside of members of the National Union.

Card the Test. Workers under the jurisdiction of the Toronto Building Trades Council carry A. F. of L. working cards, the cards being changed quarterly for a card of a different color, and all those who cannot produce one of these cards of the current color are held to be non-union men. No international union man will work alongside those who do not possess such a card. It would appear that one of the objects of the present legal action against the

MEAT INJURIOUS TO THE KIDNEYS. Take a Tablespoonful of Salts If Back Hurts or Bladder Hurts.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your aches and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritated, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism, and bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

Knocking Canada's National Railways

another paper surmises for printing, but which he did not sign? And the same noble intriguer has been sending typewritten communications to premiers and ministers that he dared not sign, but which his enclosing envelope contained his card, carelessly (!) slipped therein; and the reply to which semi-anonymous communications was a letter to the owner of the name on the card, returning the same with the request that if he had anything to say in a letter to sign it with his name. That the reply was effective is proved by the fact that the noble sender failed to reply in the way of a disavowal or a request for further explanations!

Everything that applies in the above despatch applies to the administration of railways in the United States, where they are now supposed to have been returned to their former owners; and where the difficulties of the situation are more aggravated than they are in Canada! And there are just as many unnecessary duplications in the United States and still greater waste, because of such duplications, than in Canada! The outstanding contrast between the two countries is the fact that Canada is now in a position to work out surprising economies that will immediately improve the efficiency of the consolidated National Railway System, and presages the certainty of the consolidated system at an early date, being able to pay its running expenses and secure for the public lower freight rates. We are leading the States.

The situation over there can only be improved by the government taking over the American roads at a cost of several billion dollars or granting two or three billions for the immediate relief of the roads, with a greater and growing problem ahead.

Papers like The Montreal Gazette, The Montreal Star, The Toronto Mail, and papers similarly minded, make their unfriendly position all the more pronounced at this moment, because of the immediate likelihood of the Melglen government forcing the consolidation of the Grand Trunk and other government lines some time in April and putting an end to the existing wastefulness which these Montreal papers so tearfully deplore!

As The World pointed out the other day, Canadian business conditions will be improved because of our forthcoming railway consolidation and because instead of having the Grand Trunk system and the Canadian Northern system and the Transcontinental and Intercolonial systems there will be one consolidated national system to encounter the competition of the Canadian Pacific. And once the Canadian Pacific comes to recognize this improved condition the opportunity will present itself of a proper understanding between the two roads of improved service, improved savings, and a better position for both roads and better service to the people!

For papers like The Montreal Star to suggest that the Canadian National Railways, now that they are about to be consolidated, must go out of the passenger business and turn it all over to the Canadian Pacific, after so much expenditure of the people's money, is both unparliamentary and disgraceful, inasmuch as these papers assert that the Canadian people cannot maintain a great public service without reckless administration! When these papers are able to show that the Hydro-Electric Commission of Ontario has been a failure they may be able to demonstrate that national railways under a similar administration must be against the public interest.

In the meantime notice how anxious the enemies of the National Railways are to knock them in view of the great savings in wages, in upkeep, in services, that is now coming in the States and must follow in Canada! Keep on knocking, gentlemen. You are making a mess of your case. You are inspiring the Canadian people to show that national railways and national telegraphs are not above their capacity!

building trades council is to try and force the members of the building trades unions to recognize the open shop and work with those who do not possess this union card.

These cards are recognized not only anywhere on this continent but in Europe as well. If a worker gets a quarterly working card from the Toronto Building Trades Council he can not only work as union member of his trade in any city in Canada and the United States, but he is also eligible to work as union man in the British Isles and the principal countries of Europe.

SIR SAM IN HOUSE URGES PATRONAGE

(Continued From Page 1). Foster and Hon. C. J. Doherty on behalf of the government, and by Hon. Rodolphe Lemieux and Ernest Lapointe on behalf of the opposition.

The resolution calling for a return to the patronage system, standing in the name of Sir Sam Hughes, was made a special order today upon the motion of the prime minister. When Sir Sam rose to address the house from a desk near Mr. Speaker, his honor suggested that he is also eligible to work as union man in the British Isles and the principal countries of Europe.

The debate was enlivened by criticism of Sir George Foster, minister of trade and commerce, in appointing 2,000 census enumerators under the patronage system. In this Ernest Lapointe joined, and Hon. W. S. Fielding made biting comments upon the vice of "hypocrisy." Nearly all the members complained of the burden under which they had labored under the spoils system. Their homes, they

said, were invaded at all hours of the day and night by a horde of office-seekers. Dr. Chabot of Ottawa said he only consented to run for re-election to the house in 1917 upon the government's pledge to abolish patronage.

Members Should be Responsible. Ottawa, March 11.—(Can. Press).—Echoes of old battles over patronage rang thru the house today. It was Sir Sam Hughes—frank advocate of methods in vogue before the civil service commission was created—who raised the issue in a motion that the interests of Canada and its people would be served by a system of political patronage, "wherein appointments to and promotions in both the outside civil service and the inside of the government, and the recommendation of the members of parliament, or of candidates of parliament, to the party in power."

But the feature of the day's proceedings lay in the opportunity for attack they gave the opposition. For the coming Dominion census 24,000 enumerators will be employed, and members of parliament from Liberal ranks (with production of much correspondence) claimed that the appointments were being made by patronage. "What of canker and dry-rot," exclaimed Hon. W. B. Fielding, "the words once used by Sir George Foster, minister of trade and commerce."

Sir George replied that the civil service commission had been consulted but had not cared to handle the appointments of the enumerators. "The burden of Atlas," Sir George retorted, "is a holiday time as compared with the burden of a member under patronage."

Quoted Scriptures. The debate went on hour after hour. I. E. Pedlow (South Renfrew) lent it variety by delving into scriptural authority. He compared Sir George with

the apostle Paul, in that "the things that I do not, I do; the things that I do not, that I could." "Oh Jerusalem," The house laughed, "oh Jerusalem." Mr. Pedlow mourned, "oh Jerusalem! How often would I have gathered thy children together even as a hen gathereth her chickens, and ye would not."

"What authority is the honorable gentleman citing?" queried N. H. Stephens (Vancouver Centre) in pursu'd tones.

"The Bible," reproved a Liberal member. "I am afraid," Mr. Pedlow rebuked, "that Mr. Stephens is more familiar with what averages, Chinese immigration and cabinet positions than he is with the Book of Books."

(Continued From Page 1). years, a member before my chief accuser and pastor was born, and I hope to be a member long after he has ceased to be anything but an unpleasant memory in the town from which I come."

Talks of Big-Heartedness. The commissioner asked if he thought that the correspondence between the great leniency, due to largeness of heart. "That has been intimated," he said, "perhaps so, but I do not say business of heart."

So, that's to your credit. But a strong head should go with it. "Perhaps you have discovered that I have some correspondence between me and Mr. Hastings."

Yes, and that you are quite a speaker, Mr. Hastings was on the stand for over an hour and a half and the afternoon was taken up in cross-examination by crown counsel.

Private Letters. He was questioned closely by R. U. McPherson as to his views on private letters or private correspondence between the heads of departments of the government and employes or officials. Some members of the legislature, he said, are confidential, even if they were not so marked, but he did not consider the attorney-general's letter of suspension a private letter, as it referred to public business, the police court. He admitted, however, that if the attorney-general felt that departmental letters of instructions were private, he could correctly refer to this letter, which requested his resignation or attendance in Toronto, as private.

The magistrate said he received the letter just as he was going to hold court, and he read the letter in court, and was there asked for a copy of it by a newspaper correspondent.

UNION LEADERS MAKE CHARGES

(Continued From Page 1). a considerable period of time must elapse before a sufficient number of decisions, even if favorable, can be secured by the railroads. The New York financial district has already recognized this tendency. In spite of the act of the proposed wage reductions and the sanction by the government to advance payments of its guarantees to the carriers, railroad securities afterward reached a low level on the stock exchange.

"This would not be so if the railroad executives were straightforward and sincere in their labor policy, and if their plans were directed by the most intelligent and far-seeing heads of the roads. If financial relief and not the breaking down of the labor organizations were the object, the railroads in a certain area or district would notify their employes of proposed wage cuts, invite them to select representatives to meet the representatives of the carriers in conference, and then, if no agreement could be reached, a complaint covering a large number of railroads and their employes could be brought before the labor board.

Concerted Action. "The reason concerted action for wage reductions is not taken is that the Association of Railway Executives is dominated by a shortsighted and misguided group, who are more interested in breaking down labor organizations than in individual roads than they are in securing wage reductions. Their real aim is to neglect what the more rational railway president's early practice is to be the financial interests of the transportation industry."

The only road entering Chicago which has not called conferences of its men to discuss wage readjustments is the Illinois Central. In the case of the Chicago, Great Western, the conference was to discuss a proposed reduction of 20 per cent. in the pay of all employes, excepting those in the train service, telegraph operators and unskilled labor. The notes proposed that the reductions be made effective within thirty days.

PEOPLE OF RUSSIA TIRED OF BAYONETS

(Continued From Page 1). for the Russian hordes are tired of the Bolshevik experiment. The Soviet claims that the present rising is due to allied intrigue are entirely unfounded. Allied aid to the anti-Soviet forces ended with the collapse of General Wrangel. The success of the present movement depends largely on non-interference from the outside world. Russia must be left alone.

Beginning of the End. "Hatred of the Bolshevik regime has been smoldering for months, but Russia has been suspicious of the ultimate aims of foreign governments. Therefore, various frontier campaigns sponsored by the allies failed, and in doing so they paralyzed the risings from within. Russia has been left alone for a while, and we see the result. It is the beginning of the end.

"Kronstadt and Reval furnish means for wireless communication thru which the workers should be told that it is not the allies who are enforcing an economic blockade of their country, but their own leaders. The United States would render humanity a service if it undertook to do this.

"Russia is starving, and if she is not relieved Lenin and Trotsky may perpetrate their tenure of office. But when Russia is able to express herself, there will be no more Bolshevikism."

Kerensky characterized the report. A concessions in Eastern Russia to Washington B. Vanderbilt as "a gigantic bluff on both sides." He said that if the Soviet leaders feel that their position is untenable, they will make any concessions in order to conclude an Anglo-Russia treaty.

The leaders of the revolutionary movement now developing in Russia are entirely unknown in Russian political circles, which indicates that the movement is non-political, and one of the broad masses of the Russian people themselves, according to Anatoly Bakaloff, president of a group of Russian Social Democrats in London.

M. Bakaloff today communicated private information, which has filtered into Russian political and social circles in London, from what he characterized as "most reliable" sources of information in Russia. "Statements of the Soviet government that the movement is directed by a White counter-revolt and the movement are entirely false," declared M. Bakaloff in his communication to the labor leaders.

"The revolution is being carried on by workers, sailors, soldiers and peasants. The Socialist parties are not even indirectly responsible. The movement is concentrated in Petrograd, but already is spreading thru the country.

Other Garrisons Revolted. "We have reliable information that the garrisons of Pskov and Smolensk have revolted; that in Tula, Serpukhov and Koloma, (respectively 180 miles south, 57 miles south and 83 miles southwest of Moscow), the workers have expelled the commissars and proclaimed a general strike, and that the peasants of the Ukraine, western Siberia and the Ural are in open revolt.

"Moscow, where the most reliable Soviet troops are concentrated, is quiet, but only by military force can the authorities prevent the Moscow workers from joining the revolutionaries."

COAL OIL IN THE TRACTOR. When coal oil is used as fuel in the motor tractor it will be found necessary in many cases, to change the oil in the crank-case after every twenty hours of running. This is because of the tendency of coal oil to condense when it is not properly heated, whereupon it mixes with the oil and destroys its lubricating qualities.

RANEY IS AGAIN ON THE DEFENSIVE

Charged With Trying to Direct Conscience of the Judiciary.

CONTROLS ALL WISDOM Ferguson Says Attorney-General Treats Magistrates as Hirelings.

A report in The World, headed "Raney Orders Probe," was brought to the attention of the legislature yesterday by Conservative Leader Ferguson...

"This is an entirely new and startling doctrine," said Mr. Ferguson. "The magistrates of this province are a part of the judiciary of the province. Their duty is to exercise their judgment conscientiously and in the best interest of justice and the public welfare."

"If this state of affairs is to continue, there can be no longer protection for the public against persecution on the part of the attorney-general or his officials. Moreover, no self-respecting man will assume the position of a magistrate if he is there simply to carry out the views of the attorney-general and not to make use of his own brains, intelligence and judgment in administering the law."

Stands By His Guns. The attorney-general replied that he considered then and still believed that such letters should be regarded as private.

There was no difficulty, for Mr. Hastings had simply to adjourn the court and state he had a communication that made it undesirable to occupy the bench that morning or merely make an announcement at all and adjourn the case, proceeded the attorney-general.

Local Member Speaks. W. Stringer, the U. F. O. member for Haldimand, said some time ago he had heard complaints about liquor coming into Dunnville, but when asked if he could do something, answered that that was none of his duty and referred them to the liquor department. He had no desire to be mixed up in the matter and kept him-

self aloof. He did not wish to side in with either those in favor of liquor or those against. He represented all classes in the riding. He had been asked to recommend a new magistrate by the attorney-general and had done so and had been criticized. However, he believed he had done his duty.

The premier said two distinct charges had been made against the magistrate in question and they could not be evaded. The present law regarding police magistrates should be amended so as to make the magistrates amenable at all times to the attorney-general of the province. It was not in the nature of honor and decency for an official to rush into print when he receives a letter from the attorney-general.

REQUET PRODUCTION OF ARENA DOCUMENTS There was a tilt between J. F. Boland, representing the Toronto Hockey Club, and J. M. Bullen, representing the Arena Gardens, before Master in Chambers J. A. C. Cameron at Osgoode Hall yesterday when Mr. Boland moved for an order requiring an officer of the Arena Gardens to produce an assignment, minute books, and a notice to bondholders.

Mr. Bullen stated that at the examination the minute referred to lay right near Mr. Livingstone. Mr. Boland said he had asked for production of that and of an assignment.

LITTLE EFFECT ON HYDRO BY DECISION OF JUDGE

"It will not have any serious effect on the Hydro or its development in this district," said Sir Adam Beck yesterday regarding the dismissal by Justice Rose of the action brought by the attorney-general to compel the Great Lakes Paper Company to take Hydro power to operate their mills on the Pic River timber limits.

HOLD CONFERENCE ON CLEAN-UP DEAL

The board of control had a private conference yesterday with Corporation Counsel Geary with regard to certain contentious clauses in the Hydro, dealing with the radicals to be taken over under the general clean-up deal. Two of these matters pertain to the right-of-way on Kingston road for the West Hill line and the right-of-way in the west for the Mimico line.

SHOWS UTILITY OF REAPER-THRESHER

Freight Cheaper to France Than Winnipeg, Rotary Club Speaker States.

In his address at the weekly Rotary Club luncheon yesterday, Geo. Valentine, assistant general manager of the Massey-Harris Co., outlined the development of modern agricultural implements with special reference to the reaper-thresher, a machine drawn by eight horses that cut and threshed the grain as it proceeded. Only two men were necessary for its operation, and the bagging of the grain in the machine was a great factor in cutting down expenses.

Mr. Valentine did not believe that as much advantage had been gained by any other development as that of modern agricultural machinery, stating in support of this that also England in the 17th century was agricultural and had been famine-stricken through lack of efficient means of tillage.

Mr. Valentine said that the transportation charges for reapers to France were less than to Winnipeg, and that the price of machines in home and foreign markets was the same.

APPROVE EASTERN BRANCH LIBRARY

Management Board Orders Plans Prepared and the Calling of Tenders.

Discussion by the board of management of the Toronto Public Library at their regular monthly meeting yesterday of the proposed Eastern branch library to be erected near the corner of Main and Gerrard streets, featured the session, following the report of the chairman of the finance committee, N. B. Gash.

The committee recommended the approval of the sketch plans for the building, which were prepared by Mr. J. P. Hynes, a member of the Town Planning Association, and that Dr. G. H. Locke, chief librarian, instruct him to prepare plans and specifications and invite tenders for the work, to be ready for the April meeting.

Tenders will also be invited for the removal of the three old buildings on the site one month after acceptance. E. S. Caswell, the secretary, was instructed to invite the Roden Patenteers' Association to send a deputation to wait upon the finance committee at the next meeting to supply data as to the claims of that district in population, etc., for the erection of a branch library there.

The new eastern branch will cost approximately \$30,000, including the cost of the site, which amounts to \$10,727.75, including solicitors' fees etc. The site was bought last year and the erection of the building will be pushed as rapidly as possible. The main floor of the building will be used as a reading room, while the first floor will be for children's room. The sketch as outlined by Mr. Hynes shows the building to be simple in design yet attractive and the library board have every confidence in the building being large enough to supply the needs of that part of the city.

A large framed photograph of the retiring president, Mr. Banton, has been received by the board and will be hung in the new Eastcourt library.

GOODS MADE BY BLIND ON SALE IN TORONTO

Something with a real national value is the shop which was opened yesterday at 712 Yonge street, where articles made by the blind in many parts of Canada were on display. The shop is the first of its kind in the Dominion, and it is hoped that two patronage given will make it a permanent success. Yesterday the prettily flower-decorated store attracted many members of the auxiliary, among them the president, Mrs. Lionel Clarke, who was one of the first to show her interest by a personal visit. Numbers of the general public also made a call. Miss Rudolph, assisted by members of the auxiliary, is in charge.

The blind workers, men and women, whose products are for sale, will receive all receipts outside of cost of material at the store. Most of the articles have been made in the homes of the producers, where they have been taught by instructors sent out by the Canadian National Institute for the Blind. Included in the display are baskets, willow furniture, brooms, knitted goods, hammocks, aprons and hats. The pretty work of the blind is remarkable for its substantial and accurate character.

WILL ASK PENSION FOR WIDOW OF SOLDIER

Officials of the G.A.U.V. yesterday paid tribute to the work of the mothers' pension board, which is expected to take up the case of Mrs. Frederick Shaw, widow of the late Frederick Shaw, 38 Mercer street, formerly of the 19th Battalion, who sustained a fall two nights ago and died on Thursday afternoon.

WHAT TO DO FOR STOMACH TROUBLE

Good Advice From One Who Had Suffered Much.

Nine-tenths of all forms of indigestion or so-called stomach trouble are not due to the condition of the stomach at all, but are caused by other influences. The great contributing cause of indigestion is thin blood, good blood and plenty of it is required by the stomach to take care of the food. If the blood is thin the stomach functions sluggish, food lies undigested, gas forms and causes pain in various parts of the body. Instead of getting nourishment from the blood the system gets poison.

Relief from this condition can be obtained by the tonic treatment which Mr. D. Shaw, Mt. Stewart, P.E.I., tried and now warmly recommends to others. Mr. Shaw says: "I suffered from indigestion for over four years, and have tried many of the well-known remedies for such troubles, but never obtained more than temporary relief. The trouble was aggravated by constipation setting in owing to the stomach failing to do its work, and laxatives only gave relief to the bowels and left the stomach in worse condition. The result was my blood was growing more and more anemic. I did not sleep well at night and was growing despondent. I was finally advised by a friend when a friend advised me to try Dr. Williams' Pink Pills. I got three boxes and by the time they were finished there was some change for the better. This greatly encouraged me and I continued taking the pills for some three months, by which time my stomach was all right again, my blood good, nerves strong and life was again worth living. My advice to all who suffer from stomach trouble is to give Dr. Williams' Pink Pills a fair trial."

Dr. Williams' Pink Pills can be obtained thru any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50. The Dr. Williams Medicine Co., Brockville, Ont.

ST. ELIZABETH NURSES SHOW GOOD RECORDS

Reports read at the regular meeting of the St. Elizabeth Order of Nursing Nurses, held at St. Michael's Hospital yesterday afternoon, showed that from January 22 to March 11 420 patients had been attended, 108 night calls had been made, and among the cases were 102 obstetrical, 118 medical, 35 surgical and 20 chronic; deaths, five; number of nurses, seven. The treasurer, Mrs. Dwyer, reported receipts \$2,366.71; disbursements, \$1,542.21. Interesting accounts of cases visited were given by the nurses and the secretary, Mrs. Emma O'Sullivan, asked for an increase of convalescents.

A Versatile Scottish Vocalist.

It is a program full of interesting variety that will be presented by Joseph Hislop, Scottish tenor of the Chicago Opera Company, in his concert at Massey Hall on Wednesday, the 16th. It really came to Sweden and Italy to "discover" this young singer, who had been singing the principal tenor roles in the Royal Opera at Stockholm for three years. In addition to Mr. Hislop's vocal and musical accomplishments, enabling him to sing English, Scotch, Italian, Swedish and other selections, he has specialized also in the art of making up, all of which adds to the interest of his unique and striking programs. On this occasion, as apparently is the custom with all great artists, he will use only a Heintzman & Co. grand piano, of "Ye Olde Firm's," at his Canadian concerts.

WRIT AGAINST DINNICK

G. T. Clark, liquidator of the Standard Reliance Mortgage Corporation, yesterday afternoon at Osgoode Hall, issued a writ against W. S. Dinnick, of the village of Stratton, North Devon, England, claiming \$15,487, mortgaged to have been lent by the Standard Reliance, and interest. On December 31, 1915, there is said to have been an advance on an overdraft of \$9,229 and on Jan. 7, 1918, a loan of \$1,500.

HEAD OF VENDORS GIVEN FREE HAND

Does All Purchasing and Recommends Prices to Be Charged Public.

Chairman J. D. Flavell of the license board was examined before the public accounts committee yesterday by Liberal Leader Dewar regarding cases under the O.T.A. in which clemency had been refused. Mr. Dewar asked where the records of these cases were kept and was referred to the attorney-general's department.

Records of the dispensary were also made the subject of inquiry by Mr. Dewar. Mr. Flavell replied that all such records were in keeping of the general manager of the dispensary, who had practically a free hand in determining purchase of liquor for the board and also in arranging the selling prices, although an advisory board discusses such matters. In selling liquor discounts are given to medical men of 10 per cent. Druggists get a discount of 15 per cent, and hospitals are required to pay only an amount equal to five per cent. more than the actual cost price.

DISCUSS WOMEN AS POLICE MAGISTRATES

The question of a woman magistrate for Toronto, which for some time has been the subject of much consideration among women's organizations, is revived with enthusiasm because of the passing of legislation authorizing the appointment of women police magistrates for cities of the province with a population of over 100,000.

With regard to nominees for the appointment, the name of Mrs. O'Sullivan, superintendent of the Mercer reformatory, is prominent among those mentioned as a desirable nominee for the position. In an interview, Mrs. A. M. Huestis, chairman of a special committee of the Local Council of Women, stated that while there is nothing official from the council yet that both Protestants and Catholics who know the value of Mrs. O'Sullivan's work believe that, by reason of her excellent service and her life spent in the uplift of women, she has understanding and sympathy that would fit her excellently for the office. Other names mentioned are Mrs. E. V. Laughton, who was the advocate of legal training, and Mrs. H. W. Parsons, corresponding secretary of the National Council of Women, who has, according to her supporters, a sane outlook on life.

PAULIST CHORISTS FOR MASSEY HALL

The Paulist Chorists of New York, 60 boys and 20 men, Father Finn, conductor, will be heard in Massey Hall on March 31. Their success of last year will be remembered, and they will repeat the gala performance of the history recently given at the Metropolitan Opera House, New York, where they sang to a capacity audience, which, no doubt, will be repeated here. An added attractive feature will be the Blackford String Quartet and ensemble of Torontians, which will take part in the accompanied numbers. The a cappella part of the program embraces some gems of Palestrina, Vittoria, and other sixteenth century composers.

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Lustre With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation improved by the addition of other ingredients called "Wyneth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application of two, your hair becomes beautifully darkened, glossy and luxuriant.

TOWNSHIP OF HARWICH SUCCESSFUL IN APPEAL

The appellate division yesterday allowed the appeal of the township of Harwich, against whom Justice Onda gave judgment for \$1,000 in favor of the father of Rita Burk, who was killed on the centre extension road, near Blenheim. Plaintiff alleged that his daughter, who was driving in a car with a 17-year-old youth, met her death owing to the car overturned, caused by the disappearance of the road.

ANNUAL SPRING SALES

The Greatest Hosiery Sale of All! Women's Full-Fashioned Pure Silk Stockings

The Noted Lecturer Mrs. Margaret J. Blair Will Be Here Monday

That smiling apostle of Health, Beauty, and the Home Beautiful, Professor Blair, will again give her intensely interesting talks and demonstrations in our Tea Room, Fifth Floor, beginning Monday afternoon at 3 o'clock.

Mrs. Blair comes to us direct from New York, where she has conducted a most successful lecture course on such subjects as "Dressing for Beauty," "The House We Live In," "Dancing for Health," and others equally absorbing in interest.

For twenty years Mrs. Blair was Director of the Domestic Art Department of the University of Minnesota, where her work was such that to-day she is recognized as an authority throughout the United States and Canada on the particular subjects on which she lectures. Especially is she competent to speak on dress and the important part it plays. Naturally, to have dress becoming, one must have style of figure and health, and the lecturer goes into these subjects in a most illuminating and convincing manner. She shows how different types and complexions should be costumed, how the furnishings in a room should harmonize with the people who live in them and other topics sure to make a strong appeal to those who wish to look their best, keep fit, and have their home surroundings artistic and harmonious.

Take centre elevators to Fifth Floor and hear a lecture that will be found profitable and entertaining.

Women's New Spring Oxford Ties Plain and Semi-Brogue Models \$7.85

Those who take the view that the price is too low for smart, well-made footwear will miss one of the few really worthwhile opportunities that come every season. The footwear is good, is made in the smartest styles, and the leathers are popular ones for spring—Black Vicil Kid, Gumstall Oak, and Patent Leather. Had we bought them in the regular way we would have been obliged to mark them considerably higher. Plain and semi-brogue models, with Goodyear welt soles, Cuban and Military heels. Every size in the offerings.

LAW WILL PUT BAN ON THREE CARD MONTE

Montreal, March 11.—The minister of Justice, Hon. C. J. Doherty, proposes to make an amendment to the criminal code so that "three card monte" will no longer be considered as a present legal, according to a letter received by Judge Cusson from Ottawa this morning. Some time ago his lordship wrote to Mr. Doherty, explaining the disgraceful situation in Montreal regarding the game.

ST. FRANCIS RIVER ICE CAUSES IMMENSE DAMAGE

Bromontville, Que., March 11.—The ice shove on the St. Francis River here and at Drummondville has caused several thousand dollars' worth of damages. In both towns the railway tracks have been overflooded and telegraph poles torn down by the rush of ice. The bridge at Drummondville has also suffered considerable damage.

STRANDED LINER FLOATED.

New York, March 11.—Tugs tonight floated the passenger liner Stavengerford, which went aground this afternoon at the southern end of Governor's Island. She was not damaged and continued her voyage to Christiana.

ALLOWS SALVAGE CLAIM AFTER FOUR YEARS

London, March 11.—After four years correspondence the admiralty has at last expressed his readiness to consider the right to claim salvage made by Lieut. Henry Bell Irving, of a famous Vancouver fighting family, and another officer in connection with the salvage of a steamer value at \$120,000 pounds from the Goodwin Sands. These two officers boarded the steamer in a heavy gale of wind in an effort to salvage her, but owing to the danger into which they were running were ordered by their superior officers to abandon the attempt. However, they succeeded in their task, and eventually succeeded in salvaging the ship and her valuable cargo.

Would Remove War-Time Restrictions on Liquor

London, March 11.—A movement is afoot among a numerous group of members of parliament to urge the government to remove the war-time restrictions upon the sale of liquor. Probably some extension of the present hours of opening may be granted shortly, but it is certain the country will never go back to pre-war hours. License holders themselves are opposed to a return to the pre-war condition in this regard.

Objects to \$10 Charge For Landing at Honolulu

Meibourne, March 11.—Minister of Home Territories Poynton has made renewed representations to the Washington government in connection with a charge of ten dollars which Australians are compelled to pay to land at Honolulu or Manila. The minister in his representations declares that the suggestion that Australia make a reciprocal charge against citizens of the United States visiting Australia.

NO ICE AT BROCKVILLE.

Brockville, Ont., March 11.—The St. Lawrence is now open here from shore to shore, after a month's ice blockage. Fishing for sturgeon and bullheads has commenced in this neighborhood.

TRIAL OF PHIL KONOWAL STARTS MARCH THIRTIETH

Ottawa, March 11.—The trial of Philip Konowal, V. C., charged with the murder of an Austrian at Hull, in the summer of 1919, was today fixed for March 30. He will be defended by A. Germaine, the well-known Montreal barrister, and G. C. Wright, of Hull.

Get on the Ground, Commissioners!

Let the transportation commission get down to actual business and postpone all frills like a three-million dollar luxury to widen upper Yonge street.

The main duty of the commission is to be ready to take over everything and consolidate the services in September; to have cars ready by that date; to have one north and south line parallel of Yonge street all the way and built by that date.

But if Chairman Ellis wants, a suggestion as to one of his ideas, let him ask that power be given to the commissions this session to take over blocks of land for sub-division and sale at a profit near proposed street car lines.

Therefore, the first things for the commission to do are: (1) fix the gauge; (2) take over the rails as soon as the clean-up is a fact; (3) order rails, ties, cars; (4) get this session any further legislation they may need.

Then they'll have time to plant their morning glories, hill-up their hollyhocks, cultivate their sunbeam patches.

There is a world-wide demand for retrenchment in consequence of further war taxation, and the almost entire absence of elasticity in our credit system.

The Dominion budget calls for a revenue of \$600,000,000. An enormous sum that will tax the ingenuity of the finance minister to carry out with the least disturbance to business.

WE HOPE THAT DIRT LION ISN'T SIMPLY LYING LOW. While trying to board the Fairbank bus while the vehicle was in motion at Avenue road and St. Clair avenue yesterday afternoon, Edward Tunwell, Fairbank, Ont., missed his footing and fell under the wheel of the bus, which passed over his leg.

OLD MAN ONTARIO: 'I've sort of been expectin' this little argument.'

Want to really do something, why not try lowering the price? As a measure of economy, Hamilton City Council has cut off towels for the use of city hall employees.

Beer is a medicine, says a new reading of U. S. law, and the brewers report they feel better already.

Court witness says eggs do not reach the "second-class" stage until they are two years old. Now and again we run across one that must be at least a century.

The statement by The Farmers' Sun that Toronto papers hand their copy to a Hydro official to be censored or edited before being published, reduces that paper to the level of a common liar.

Now that the regular contractors have started house building with a rush, it would be like some member of council to reopen the agitation for civic housing commission, just to give them a scare.

Mayor Church, who is returning on Sunday, after three weeks spent in the United States, will probably bring back some first-hand information about the lute war.

The "drink-more-milk" campaigners are reported to be about to ask Premier Prury to milk a cow on the platform of the parliament buildings, as a dramatic send-off to the campaign.

At least we thought that what he said perhaps we got him wrong, but yet it surely cheered us up to hear Prury refuse. The Farmers' Sun will be corroborated in its privately-held opinion that he is no true farmer.

WE TREAT HIM AS AN HONEST BIRD UNTIL WE FIND HIM OUT. And then we really have no cause for doubt.

While trying to board the Fairbank bus while the vehicle was in motion at Avenue road and St. Clair avenue yesterday afternoon, Edward Tunwell, Fairbank, Ont., missed his footing and fell under the wheel of the bus, which passed over his leg.

SCORES CHRISTIAN SCIENCE MOVEMENT

Real Menace to Judaism and Christian Denominations, Says Rabbi Bricker.

The menace of Christian science to Judaism, or the Jewish religion, formed the basis of an address made to a large congregation in the Holy Blossom Synagogue last night by Rabbi B. R. Bricker.

Miss Audrey Hart, played the role of Sylvette with an ease, charm and conviction that many a more experienced actress might envy.

When asked what she thought of the play, she said: "I was very much interested in the play, and I think it was very well acted."

ROY MITCHELL MAKES HIT WITH "ROMANCERS"

The production of "The Romancers," by Edmond Rostand, at the Hart House, under the direction of Roy Mitchell, was decidedly one of the most pleasing theatrical events of the week.

THE WORLD'S WEEKLY NOVEL

(Continued From Yesterday's World.)

Great was the consternation in the little party when it was discovered that Drew was absent.

At the head of his hand he left the stockade and Parmalee waited till they felt sure that all had gone and that no guard left behind was stealthily watching them from the trees.

OFFER STOCKS HEAVILY; SOME SEVERE LOSSES

Many Favorite Issues Suffer Setbacks of Two to Twelve Points, and Dealings Are on the Most Extensive Scale of the Year.

New York, March 11.—The stock market was swept by a succession of irrefutable selling movements today, many favorite issues suffering further losses of 2 to 12 points, while shares of less prominence, but recognized value, reacted to the same degree.

Dealings totaled 1,100,000 shares, the turnover being almost the most extensive of any session so far this year. The number of issues traded in was kept up with this unusually large volume of operations, including many obscure stocks.

RUMORED GEN. ELECTRIC MAY INCREASE STOCK

Canadian General Electric stood up strong in yesterday's market, and made a further recovery to 115. Round the exchange it was believed that the upward movement in these shares is a consequence of the decision of the directors to issue another million dollars' worth of stock, thus using up the authorized capitalization of ten million dollars.

GENERAL ELECTRIC GAINS ON MONTREAL EXCHANGE

Montreal, March 11.—Changes through the list in today's trading on the local stock exchange were mostly of small size, and in raising prices. The general sentiment advanced. In the paper stocks, which retained firmness through and made some further small advances.

DIVIDEND DECLARED

The directors of the Spanish River Pulp and Paper Mills, Ltd. have declared a quarterly dividend of 1 1/2 per cent. on the common and 1 1/2 per cent. on the preferred, both payable April 15 to stock of record March 21.

TREASURY RATE CUT

London, March 11.—The Bank of England announced today that the rate of interest on treasury bills had been reduced one-half per cent., and that three months' and twelve months' bills now may be purchased at six per cent. The reduction from 6 1/2 per cent. caused a corresponding easing in discount and imparted a distinctly better feeling to the stock exchange, when gilt-edged securities, industrials and oil improved in the hope that the monetary situation, allowing the reduction in the interest rate on treasury bills, may be followed by a corresponding reduction in the bank rate in the near future.

HEAVY SHIPMENT OF SILVER

Cobalt, March 11.—Shipping continued its heavy shipment of silver bullion during the week ending tonight. This mine sending out 145 bars, containing 180,491.31 fine ounces. This was the only export activity in the camp. No other shipments being reported by the T. & N. O.

MORE BONDS TO THE STATES

New York, March 11.—The province of Manitoba has sold to the National City Company \$1,000,000 five-year five per cent. bonds, with principal and interest payable in New York in United States funds. They were offered by bankers today at 90 1/2 to yield 7 1/2 per cent.

Tonopah Divide issued an official statement that there is a full scale of sampling from 30 to 450 silver feet from the 1000-foot level 800 feet from the surface level. This discovery was responsible for good buying in this stock, which sold at 1 1/2. Gold zone and divide extension also reached higher levels. Eureka-Crosscut again featured the mining list, selling at 1 1/2. Boston and Montana sold up to 68. United Retail Candy showed a firm tone and sold above 8.

PETROL GAS PROFITABLE

A shareholder's letter issued by the Petrol Oil directorate states that the company's net revenue has been doubled on account of higher prices for gas, despite the fall in oil prices, the average monthly gas production being 16 1/2 million cu. ft. The directors state that if earnings continue at present levels they will declare an initial dividend next June, as heavy capital expenditure has already been completed.

OPINION ON MERGER

Ottawa, March 11.—Alex. Johnston, recently appointed deputy minister of marine, is back in the office at the marine department again. When asked this morning with regard to the British Empire Steel Corporation, with which he had a brief association, Mr. Johnston expressed the opinion that the scheme, as at present proposed, would almost certainly be successful.

ARGENTINE DECISION HURTS GRAIN PRICE

Removal of Surtax on Exports Causes Break on Winnipeg Mart.

Winnipeg, March 11.—A sharp break occurred on the local wheat market today, prices declining from two to three cents during the session. This was attributed to Argentine government's decision not to place a surtax on wheat exports, making it possible for European buyers to obtain wheat at a considerably lower price here. Futures closed 3 1/2 to 5 1/2 lower.

An excellent demand for cash wheat continued today, with prices on track premiums demanded by another 4c, being set over for No. 1 northern. The cash grain was all lower in sympathy with what. Oats closed 1c to 1 1/2c lower; barley 1c to 1 1/2c lower; flax, 2c to 1 1/2c lower, and 7 1/2c lower.

WHEAT SURPLUS IN AMERICA IS LARGE

Washington, March 11.—The wheat surplus for export and carry-over of the United States and Canada is 165,000,000 bushels, according to estimates of the bureau of markets, U.S. department of commerce, reports it was said today at the combined crop of the two countries and the carry-over from the 1919 crop was placed at 1,165,000,000 bushels. The surplus estimate, it was explained, took into account bread and seed requirements and export clearance from seaports to Feb. 7.

ENDORSE PLANS FOR WIDENING YONGE ST.

Committee on Works Sends Recommendations to City Council.

APPROVE OF GRADINGS

Decision to Place Signs Warning Motor Drivers When Passing Schools.

Endorsement of the report of Commissioners Harris and Forman recommending the widening of Yonge street was voted by members of the committee on works yesterday, and the report was sent on to council with the blessing of the committee. Commissioner Forman expressed the opinion that if the widening was to be done on the north side of the street, the improvement as far south as Davenport road or Collier street, at which point Church and Terauley streets could be made to converge and take some of the traffic from Yonge street.

Ald. Burgess argued, however, that considering the magnitude of the work it would probably be better to proceed with the widening north of the C.P.R. tracks at present, and the piece south of the tracks could be taken up at any time later. The report estimated that the widening of Yonge from Shaftesbury avenue to the north limits from 66 to 88 feet would cost \$1,350,000, of which the city at large would pay 75 per cent. The balance would be taxed locally, some of the properties being assessed as high as \$1.07 per foot frontage.

the donors did not ask to be relieved of local assessment for the work, a concession which could not be granted. On motion of Ald. Davy the committee endorsed the report and it will go before council for approval on the 20th inst.

Gradings Approved. The committee decided to recommend the grading of the 33-foot street running between Queen street and the lake shore, and on the boundary between the city and Scarborough. Several property owners on this street have been trying for months to get a grade so that they can go ahead and erect houses. According to the bylaw the city is debarred from grading narrow streets and an effort was made to get the owner of the land adjoining the street on the east side to give 22 feet to make a 66-foot street, but he refused. The bylaw will be amended in this case.

On the recommendation of the commissioner of works the committee approved of the grading of the following streets: Cathness avenue, from Danforth avenue to Milverton boulevard; Glebeholme boulevard, from Donlands avenue to Greenwood avenue; Milverton boulevard, between Donlands and Greenwood avenues and Glendonwynne road, between lot 238, plan No. 135, and Glendonholme drive.

Ask Street Paved. Geo. S. Henry and others appeared on behalf of the Farmers Dairy to ask for the paving of the street in front of their property on Walmer road, north of Dupont street. Only about 500 feet of pavement is required and the company has had much trouble in the spring and fall getting in and out with their wagons, because of the mud. The dairy owns 70 per cent of the property abutting on the street to be paved. The committee decided to recommend the work under section 9 of the act.

A petition was presented asking for an asphalt top on Ossington avenue south of Dundas street. The commissioner has recommended a permanent pavement, as the old one is worn out, having been laid in 1898. The petition represented 70 per cent of the property owners on the section of the street affected. The committee decided to recommend the paving of the street to be paved. SPURT IN BUILDING TO PROVIDE WORK

Registrations Make Low Record and Fewer Seek Relief—Some Impositions.

Signs of an improvement in the unemployment situation are becoming more evident daily. It was reported yesterday that many of the workers in the building trades who had been out of employment are now back on the job again, due to a partial resumption of building activity in this city. It is expected that the next few weeks will see all building workers busy and unemployment a thing of the past as far as the building trades of Toronto are concerned.

Another new low record was made at the government employment office yesterday when the registration for work went down to the 900 mark. This is a drop of 60 compared with the previous day, and a drop of more than a hundred during the week. Only 23 new applications for relief were made at the Krausmann Hostel yesterday, less than half the number applying the previous day. The total number of meal tickets handed out during the day was about two thousand.

Two rather glaring cases of imposition were disclosed yesterday, one being a young man obtaining relief when his own mother was running a prosperous boarding house. The other case was that of a man who obtained married relief when the woman with whom he was living was not his wife.

Officials are criticizing the action of those who are inserting advertisements in the old country papers and in cities in parts of Europe calling for workers to come to this country, when the unemployment situation here is still more acute.

A married couple from Denmark reported at the Krausmann Hotel yesterday that they had just been induced to come to this country under false pretences. Following an advertisement in a Copenhagen, Denmark, newspaper for an experienced gardener and wife, they were told that if they came to Canada the man would receive \$60 a month and board and the wife \$50 a month and board.

board. When they arrived at St. John the best they could obtain was \$20 a month each, but they were told they might do better if they came thru to Toronto.

Another case is that of a young English girl who arrived in Toronto last week as a domestic worker. She obtained work in this line with the family of a Toronto business man, only to have it discovered that she had never done housework in her life. She had been told that if she was willing to do house work she could be sent to Toronto from England. It turned out that she was an experienced stenographer, and the citizen to whom she was sent as a domestic, managed to obtain for her a position as a stenographer. As there are already many stenographers in this city at present out of employment, it was considered as rather bad judgment, bringing English stenographers here in the guise of domestics.

In speaking to The World yesterday, Sergeant-Major Credington, who is in charge of the relief at the Krausmann Hostel, was very doubtful of the wisdom of the proposed to cut off all relief in about a week's time. He pointed out that unless the now out of employment were given work in the meantime they would still be without means of support, and a very serious situation might develop with the cutting off of their relief.

DOUGHTY TRIAL FIXED.

John Doughty will go to trial in the criminal sessions before Judge Coatsworth on Tuesday, March 22.

POLICE COMMISSIONERS MEET.

The board of police commissioners, at their regular meeting yesterday afternoon, accepted the offer of George H. Locke, chief librarian, to place the police war memorial service book in the College street library, where it will be accessible and under supervision for those who wish to see the record. P.C. Dixon, who joined the force in November last, was dismissed for improper conduct.

CHARGED WITH ASSAULT.

John Collum, no home, was arrested last night by P.C. Gadd, on a charge of assaulting Walter Jones. Jones claimed that Collum struck him in the eye with his hat, discoloring it.

FRAUD CHARGED.

Margery Allen, Jarvis street, was arrested last night by P.C. Dunn on a warrant charging her with fraud. John Keegan, 421 Church street, is the complainant. The charge is said to have arisen out of the alleged failure of the woman to pay a board bill.

DIES FROM HEART FAILURE.

Suddenly stricken with an attack of heart failure while at work at the Canada Metal Co. plant yesterday afternoon, Samuel R. Hess, 18 Dufferin avenue, almost instantly died. Mr. Hess, who has not been well for some time, just resumed his work a week ago. He is survived by his wife and a small family.

SEND IN YOUR THUMB-PRINT AND YOU MAY WIN \$25 PRIZE

Thumb-Print Contest

NAME

ADDRESS

CITY

Make your thumb-print in blank square next to Miss Dean's, fill in your name and address, clip coupon and send to Contest Editor of The World. You may win \$25.00. Competition open to all; but thumb-print must be on coupon clipped from The World.

Hotter and hotter grows the trail to the \$25 prize that The World is offering for the nearest thumb-print to that of Priscilla Dean, a reproduction of which appears in the accompanying coupon. Somebody's going to get that prize. Will it be you? All you have to do is ink your right thumb, preferably by means of an ink pad (or rub a soft lead pencil to get the print) and make the impression in the space opposite Miss Dean's.

Then mail or bring the coupon, properly filled out with your name and address, to the Contest Editor, The World, Richmond Street West.

Every thumb-print will be referred to a local expert. His decision will be final. Each one will be judged thru a microscope and a most careful study it will be. There are characteristics similar in every thumb-print, but no two are EXACTLY alike. How near does yours come to the sample published? Make the impression and compare them yourself, and you will, perhaps, be surprised at the similarity.

Hundreds of answers are in. The judging will commence soon. There will be ten prizes, and those who come second to tenth will receive two tickets to the Regent Theatre to see Priscilla Dean in the greatest of all melodramas, "Outside the Law." The contest will close in plenty of time for the winners to see the photoplay before the engagement, which opens on Monday, comes to a close.
