

VOL. IV, NO. 201.

ST. JOHN, N. B., SATURDAY, MAY 23, 1908.

THE WEATHER. Easterly winds, fine and cool Sunday, fine and a little higher temperature, Monday, fair.

TEN PAGES—ONE CENT.

### IMPROVE WATER SUPPLY OF LANCASTER HEIGHTS

#### Interesting Report of Engineer H. G. Hunter in Connection With This Matter—How the Consumption of Water in Lancaster Heights Has Increased in the Past Seven Years.

At the last regular meeting of the water and sewerage board a report was read from Engineer H. G. Hunter dealing with the increased consumption of water on Lancaster heights in the last seven years and suggesting two schemes whereby the water supply could be improved. One would be the location of a pumping station and the other to introduce Loch Leonard water via a pipe across the suspension bridge.

The report was discussed at some length and it was decided that copies of the report should be made and handed to each member of the board and that Mr. Hunter should continue his study of the problem and submit a more extended report at a later date.

The portion of the report dealing with this matter was as follows:

"At our last regular meeting you directed that certain investigations as to the pressure of water at Lancaster Heights be made. In looking into the matter and getting acquainted with the system a number of observations have been made, one of which has led to another, and it is believed that if you were conversant with the conditions known to exist, and others said to exist, you would wish to change the scope of your instructions and go more fully into the matter.

"There is no question but what careful measurements of the flow and pressure must be made to check the amount of water used to be consumed. In view of the fact that frost would be out of the ground in a short time and the weather will be such that gauges will not freeze it is considered advisable to go to the extra expense of excavating frost and protecting gauges to do this work.

"Increased consumption of water in past years must have its effect on the pressure at Lancaster Heights. The records at the office show the following:

Consumers	per day	per consumer	Rate
1901	5558	1,182,000 gals	220 gal.
1902	5800	1,292,000 "	223 "
1903	5840	1,435,000 "	247 "
1904	6276	1,734,000 "	276 "
1905	6880	2,028,000 "	295 "
1906	7450	2,312,000 "	310 "
1907	7749	2,410,000 "	310 "

"The consumption includes water for manufacturing.

"As this rate of increase in the next seven years there should be over 10,000 consumers and a consumption of over 3,000,000 gallons, and therefore, under present conditions the pressure at this time would be better than it is today.

"There has been more or less centennial paper removed in the last few years and it would seem in the reduction of pressure that there is more to be removed. The work of renewing this pipe should be done in accordance with a well-devised plan of a pipe system, one that will give the best results under all conditions. There is no reason why this plan should not exist, the layout of the streets, so far west as Lancaster street will not be changed in any extent, and every pipe that is renewed or extended should form a part of a well-devised plan of the whole.

"The west side is having a very healthy Continued on Page Three.

### A FORTUNE FOUND TIGHT MONEY MAY HELP TOURIST DRAWER

#### This Story of the Barber of Millville, N. J., Reads Like a Romance—\$175,000 Hidden by Father Found by Son.

Millville, N. J., May 23.—Albert Kendall, the village barber of Newfield, and his two sisters, who have for years been struggling for a livelihood, have discovered what is believed to be a fortune in an old desk which had been stored in the attic for years.

The desk was carried down into the barber shop to receive a coat of varnish, preparatory to its being sold to a dealer in antique furniture. Kendall was sandpapering it when he was surprised to find a small secret drawer. Forcing the drawer open he was amazed to discover documents believed to be worth \$175,000 and a deed for a large farm situated near Reading, Pa.

The papers were railroad bonds made in the name of the late John Kendall, father of Albert, who died suddenly fifteen years ago. The bonds are dated 1866. John Kendall was reputed to be at the time of his death one of the wealthiest men in the section and was known to hold many West Jersey Railroad bonds. After the funeral a search was made for his will and valuable papers. To the surprise of the family they could not be found, and Albert and his sisters have been in almost destitute circumstances.

When the discovery was made the barber called in his neighbors and friends, who shared the joy with them. The whole village population visited the shop this afternoon to take a look at the desk and to inquire about the papers. Kendall will take the documents to the office of a Canadian lawyer to investigate their validity.

### FISHERMEN TRY THEIR LUCK ON LAKE

#### Disciples of Isaak Walton Were on Lily Lake Early This Morning—There Were Some Good Catches Reported.

There were quite a number of fishermen at Lily Lake this morning anxious to have the first try at the speckled beauties who have for so long been protected from the sportsmen's deprivations. Between 5 and 6 o'clock and thereafter throughout the morning boats could be seen in different parts of the lake with ardent fishermen whipping the waters with flits of all colors.

Though the fog interfered somewhat with the sport there were some good catches made and friends of the fishermen will be repaid during the next few days with stories of the big ones that they "almost" caught. Some good sized fish were taken, however, and the sportsmen seemed well satisfied with their luck. This afternoon there will be a band concert and all the attractions will be in full swing, and on Monday next there will be something doing all day.

### MONDAY MARKS OPENING OF THE SUMMER SEASON

#### With Fine Weather There Will be a Great Exodus From the City—Suburbanites are Getting Their Villas in Shape—Summer Will be a Busy One at Suburban Resorts.

Victoria Day will this year be observed on Monday next, as the 24th falls on Sunday and as usual many will take advantage of the excursions offered by the railway and steamboat companies to spend the day out of town, while others will seek recreation at Rockwood park and the seaside resorts, and those who prefer to remain in the city can find entertainment at the theatre. All of which will present special holiday attractions. There will also be ball games at the athletic grounds.

Numerous picnics and fishing parties have also been arranged and only the good offices of the weather-man are required to make the day a complete success.

Once again the shutters will be removed from the suburban villas along the intercolonial and Canadian Pacific railways which during the long winter months have been dark and cheerless, and city folk, who for weeks have been planning for the summer outing will have an opportunity of putting their out-of-town homes in order for the season of rest and relaxation.

At Westfield, Ononette and Woolstock on the C. P. R., as at Rockwood, on the Intercolonial, a number of new cottages have been erected, while many of the older ones have new occupants this year. Quite a number of people have already gone to their summer homes, while the large majority will vacate their winter quarters early next month. All preparations at present are confined to gardening and lawn-dressing.

It was the intention of the Westfield Outing Association to have a programme of sports for the holiday, but, according to statements made by some of the members, the train service will not admit of carrying such plans into action. This enterprising organization is, however, under the direction of the secretary, W. C. Rodwell, preparing an interesting programme of summer sports to be held on Monday next.

The tennis tournament, which starts about the middle of July will be continued on Saturdays not otherwise occupied and one or two Saturdays in August will be devoted to field and aquatic sports.

Class A boats are rapidly growing in number and suburbanites have found that no type of craft offers the same excellent opportunities for both racing and pleasure. The improved salmon boat can be built for from \$250 to \$300 with cabin accommodation for four people. They are ideal craft for what is popularly known as afternoon sailing.

As already stated, some cottagers have already gone to their summer homes and others will follow in June.

At Ononette there are four new cottages owned respectively by Percy Humphrey, David Ledwith, Miss Roberts, who was formerly at Woolstock, and L. G. Crosby.

Mr. Small also expects to erect a new summer villa.

Mrs. Weeks and family have taken a summer cottage, and among those who have returned from their winter homes are E. G. Knowlton and family and Ralph Roberts. Continued on Page Five.

### PRINCES AT OSBORNE LIKE ANY OTHER BOYS

Prince Edward not to come to Canada With His Father—Public School for Princess Mary.

London, May 22.—It seems that there is no truth in the report that Prince Edward is to go to Canada with his father for the Quebec celebrations. After the holidays the young prince will go back to Osborne, taking his second teacher, Prince Albert, with him.

Beyond having a private room each the young princes will be treated exactly as any other cadets while they are at the naval academy. The present intention is that Prince Wales is that each of his sons shall pass through a course of training at Osborne as he becomes old enough. Prince Edward, the eldest, is not, however, to attend Osborne next year and begin his studies for his university career. Ultimately he will join the army when about to cast her aside. The decision which was made, was rendered by Presiding Judge Arnold, the Quarter Sessions Court of Philadelphia county, February 11, 1902, in the case of Herbert Wright. Judgment in a statement to the coroner's jury, declared the Douglas girl had made frequent threats of taking poison before and that when she really did swallow the dose he did not suppose that she had taken enough to kill her.

### ROOSEVELT'S DAUGHTER CAUSES SENSATION BY WEARING GOWN OF EXTREME DECOLLETE CUT.

Washington, May 23.—Mrs. Alice Roosevelt Longworth created a sensation in the National Theatre Thursday night, by wearing a flaming red gown cut extremely low, and with no sleeves at all. It is not customary in Washington to wear very low cut gowns in the theatre and Mrs. Longworth divided the attention of the audience with the Alton Opera Company. She occupied a prominent position in the most conspicuous box in the theatre.

### ALICE SHOWED TOO MUCH "NECK"

Washington, May 23.—Mrs. Alice Roosevelt Longworth created a sensation in the National Theatre Thursday night, by wearing a flaming red gown cut extremely low, and with no sleeves at all. It is not customary in Washington to wear very low cut gowns in the theatre and Mrs. Longworth divided the attention of the audience with the Alton Opera Company. She occupied a prominent position in the most conspicuous box in the theatre.

### GERMANS TAKING ADVANTAGE OF THE DUTY PREFERENCE

Toronto, Ont., May 23. (Special.)—Reports that German goods are being wrongfully brought into Canada under the preferential tariff freight rates on goods from Canada and France and a recommendation as to costing regulations on the Pacific coast were some of the matters which yesterday received the attention of the council of the Canadian Manufacturers Association. It is claimed that under existing conditions German articles which are further manufactured in England by an expenditure of 5 or 10 per cent are introduced into Canada under preferential tariff. An enquiry will be made at Ottawa to ascertain whether such a regulation is to be imposed and put in force.

### KNABENSHUE FLIES DIRIGIBLE AIRSHIP THAT CARRIES THREE

London, May 23.—A. Roy Knabenshue established a new world record when he successfully flew his big new airship, carrying two assistants with him.

Never before has an air craft that half a dirigible been propelled and guided through the air in America carrying other persons.

Slightly at first, and making as its gain momentum the big bag kept up and up until it was several hundred feet in the air. Then it assumed a horizontal position and travelled a distance of five or six blocks. Knabenshue then brought her down almost to the earth and rapidly ascended again; this time making a circle of several hundred blocks around his aerodrome, finally coming to a full stop about two blocks ahead of his aerodrome.

Then by means of the aeroplanes alone, Knabenshue descended to within a few feet of the earth, and landing a distance straight for the entrance of his canvas home, he delighted the thousands who had gathered by scudding along the top of the earth at a very fair clip till he had all but reached the canvas, where he stopped the engine, reversed it and the ship was seized by his waiting assistants.

### HARPER'S MAGAZINE SUFFERS FROM FIRE

New York, May 23.—Fire, which broke out between 12 and 1 o'clock this morning in a five-story building on Park Row street occupied by J. Goldstein, a manufacturer of gas stoves, gave the firemen a stubborn fight for two hours and caused a loss estimated at \$100,000, half of which was on the factory building and the remainder on the stock in the building of Harper's Magazine, publishers, next door.

The Harper building, which is on the fourth floor, and officials of the publishing company, after an inspection of the building early today, declared that half a million dollars worth of the June edition of Harper's Magazine, stored on the floors above, had been damaged at least \$50,000. Slight damage was also done to the building of the Derby Deck Company, adjoining the Goldstein building on the other side.

### LAPORTE JURY INDICTS A DEAD WOMAN FOR MURDER

#### Mrs. Belle Guinness Charged With the Murder of Andrew Helgelein—Her Accomplice Charged With Five Murders and With Arson—Another Skull Found.

Chicago, Ill., May 22.—Friends of Benjamin F. Carling, formerly Chicago manager for a prominent life insurance company, believe that he was one of the victims of Mrs. Guinness. Carling disappeared March 7, 1906, and nothing has ever been heard of him since that time. He told some friends that he had met a rich widow, with whom he was going to make some business deals. When the skeletons were dug up on the Guinness farm, one of them bore so strong a resemblance to Carling in the shape of the head and a peculiar set of four false teeth, that his wife, now living in Chicago, is confident that he went to Laporte to see Mrs. Guinness and was there murdered.

Laporte, Ind., May 22.—In returning seven true bills against Ray Lamphere to the Laporte county grand jury also indicted Mrs. Belle Guinness for the murder of Andrew Helgelein, of Mansfield, S. D. No warrant was issued for Mrs. Guinness, for she was declared officially dead by the verdict of coroner Mack, but to vote a true bill against Lamphere as an accessory in the killing of Helgelein, it was necessary to indict Mrs. Guinness as the principal. Lamphere now stands before the bar of justice officially charged with arson, five murders and being an accessory in the Helgelein murder.

### VANDALS DESECRATE A ROMAN CATHOLIC CHURCH

New York, May 23.—For the seventh time in two years the Roman Catholic Church of St. Raymond in Westchester, one of the oldest parishes in that part of the country, was profaned by vandals. There is much excitement over the robbery and the agitation was heightened yesterday by the report that Archbishop Farley's absence from the confirmation services on Sunday was due to threats upon his life by "Black Hand" associates.

### ST. JOHN IS IN IT

The St. John County Rifle Association has entered a team in the "Daily Mail" Empire Challenge Cup competition which will be fired on Monday next.

This competition is open to teams of eight from any rifle club, civilian, military, any regiment or unit of militia or permanent forces and is divided into two sections within the British Isles, teams within the Empire outside the British Isles.

A handsome trophy (value \$5 guineas) will be given to team making highest score in each section while a challenge cup (value 100 guineas) goes for the year to the team making highest score in the whole Empire. Silver and bronze medals go to individual members in six leading teams of each section.

Match will commence at 9:30 and all members of the County Association are requested to take part.

Monday, Victoria Day, the Evening Empire Challenge Cup will be published.

### TEXT OF THE GOVERNMENT BILL FOR AGRICULTURAL COMMISSION

The following is the text of the government bill to provide for an agricultural commission, which was introduced in the provincial legislature yesterday by Hon. D. V. Landry, commissioner of agriculture.

AN ACT TO PROVIDE FOR AN AGRICULTURAL COMMISSION.

Whereas, the development of the farming and kindred resources of the province is of the greatest importance to the prosperity of our people, and will have the strongest influence in inducing our province-born young men to remain here and build up new homes in New Brunswick, as well as being the most effective means of attracting a desirable class of immigrants;

And Whereas, a wise and prudent policy for encouragement of agriculture, immigration and colonization in its widest sense must be based on the fullest possible knowledge of present conditions, and of the means best adapted to their improvement;

Be it therefore enacted by the Lieutenant-Governor and Legislative Assembly as follows:

For the purpose of thoroughly investigating the agricultural conditions of the province with a view of securing the greatest benefits possible from such a source, and encouragement as this legislature can afford to devote to the development and advancement of agriculture, immigration and colonization, and for the purpose of ascertaining the quantity, location and quality of land in the settled, partially settled, and uncultivated districts of the province available for profitable agricultural occupation, the needs of our farmers in reference to labor, transportation and markets, and the adaptability of the various sections of the province to the growth of different crops, fruits and other products of the soil, with a view to retaining our native born population, and the encouragement of colonization and immigration of the most desirable character, and the general prosperity of our farmers;

The Lieutenant-Governor is hereby authorized and empowered to issue a commission under the Great Seal of the province directed to the commissioner of agriculture, who shall be chairman, and two other commissioners, who shall make a full and complete enquiry into the subjects above mentioned together with other kindred industrial and other matters pertinent thereto.

In order to expedite the work of the commission and give full effect to its labors, one of such commissioners shall be secretary, and specially appointed to undertake the more directly executive duties of the commission, the superintendent of the office work and correspondence, the preparation of reports, forms and returns, the collection of evidence and the conduct of such branches of the enquiry as may be from time to time assigned to him.

All the provisions of Chapter 12, the Consolidated Statutes, 1903, entitled "The Investigations and Departmental Enquiries Act," applicable to this act shall apply hereto, and the commissioners appointed under this act shall have and exercise all the rights, powers and authority conferred by said chapter on commissioners appointed thereunder.

### POLICE COURT

The police court session opened at 8:30 o'clock this morning as it will each Saturday during the summer months.

Andrew Astbury, charged with drunkenness and indecent behavior, was fined \$8 or twenty days in jail.

Christopher Keirle, charged with attempting to assault twelve year old Gerude McNamara, of Chesley street, will hardly be dealt with before Monday.

### TO PLAY IN FREDERICTON

The association football team of the Cornwall and York county mills will leave on Monday for Fredericton, to play the Cornwall team. The lineup will be as follows:

Goal: Whittaker; Backs: Laughlin and Eastwood; Right wing: Dellow and Pollard and centre, Bromfield.

Twenty-four deaths were reported at the board of health during the present week as follows:

Consumption, five; senility, pneumonia, erysipelas cerebral hemorrhage and accidentally killed, two each; inanition, paralysis, convulsions, diptheria, apoplexy, tubercular meningitis, heart disease, malignant jaundice and chronic nephritis, one each.

A still alarm was sent in for a slight blaze in Percy Thomson's automobile garage off Duke street at 10 o'clock this morning. The chemical and No. 1 hose cart responded.

### HIRAM IN TOWN

Mr. Hiram Hornbeam was in the city this morning getting supplies for the accommodation of hotel visitors to the "Ginger" and they were ginger all.

Recalling Hiram's recent remark about the demand for buttermilk, the Times' new reporter mentioned it; but Hiram said the weather was not hot enough in the settlement yet to cause a thirst for buttermilk. What the sports wanted was something "with ginger in it."

### THE TIMES NEW REPORTER

Hiram was highly pleased to read this morning that there will be after all, a "Ginger" at the exhibition, and one with "Ginger" in it. He is entirely in accord with the suggestion that it should be a little apart from the main show. When it is so situated he can sidle around there often, and stay longer.

Hiram is coming to town on Monday to see the sports, and will take a medal or two and he wants to be there to yell.

A GROSS INSULT.

Mr. Peter Binks is highly incensed at the conduct of those who turned the Union Jacks upside down in the high school as a greeting to the new chairman of the school board, the mayor and Col. Sturges. As a joke he admits that it has its merits, but these worthy reformers should not be treated lightly on the occasion of their first joint appearance before the citizens of the future.

But Mr. Binks is thankful the Colonel did not ask the other two visitors any questions about the future.

### PRIZE OFFERED

The Times' new reporter has decided to give a free notice to any fisherman who on his return to the city after the holiday will tell the truth about it.

THE EVENING TIMES, ST. JOHN, N. B., SATURDAY, MAY 23, 1908.

BOSTON THE MECCA NOW FOR KNIGHTS OF PYTHIAS

Supreme Lodge and Uniform Rank Will Meet There August 3d to 9th--Many St. John Knights are Planning to Attend--What They May Expect.

The Knights of Pythias in St. John and in fact all over the continent have their attention fixed on Boston where, in August, the biennial convention of the supreme lodge and the encampment of the uniform rank will be held.

The knights will gather in "The Hub" on August 3 and there will be something doing all the time until Sunday the 9th when a big church service will be held to mark the closing of the gathering.

Everywhere "Boston '08 Clubs" have been formed to interest the members in the trip and St. John lodges will be largely represented.

The fact that the supreme convention is meeting so near St. John has made the occasion more than usually interesting.

In 1906 the meeting was held in New Orleans and in 1904 at San Francisco but this year it will be nearer home and a big attendance is expected from all over the maritime provinces.

Some time ago the St. John knights formed a "Boston '08 Club" and committee have been at work arranging for the crowd that are expected to visit "Beantown" on that occasion.

The Boston knights have been working energetically for some time preparing entertainments of various kinds for the crowd that are expected to visit "Beantown" on that occasion.

The following article from the Boston Traveller of recent date gives some idea of what may be expected by those who attend the gathering:

"Comparing favorably with the encampment of the Knights Templar held in Boston in 1883 is the mammoth convention of the Knights of Pythias to be held here in August.

The watchwords for Massachusetts Pythians for the past two years have been "Boston, 1908."

On Tuesday, the 4th, from 14,000 to 15,000 members of the uniform rank will take part in the military parade, starting from the great encampment on Franklin field, Dorchester, under Major General Arthur J. Stobbert.

On Wednesday the 5th, the most spectacular parade ever seen on the streets of Boston, reports to date show that there will be at least 20,000 men in line.

Many lodges will have floats in line and the Pythian Sisters of New England will also have a division.

TO AWARD PRIZES. Prizes amounting to \$800 will be given as follows:

Class A. K. P. Lodges. For floats or special features—first prize, \$125; second, \$75; third, \$50.

Class B. K. P. Lodges. Lodges making best appearances both in uniformity and dress—first prize, \$75; second, \$50; third, \$25.

Class C. K. P. Lodges. Lodges making best appearance in marching and deportment—first prize, \$75; second, \$50; third, \$25.

CITY DECORATIONS. The city will be decorated with bunting and electricity, the parks will have splendid floral designs emblematic of the order.

One night will be set aside for lodge night, and Mechanics building, capable of holding 10,000, has been engaged for this occasion.

Another evening will be devoted to the great military ball, which will take place in the same hall, and on Saturday evening a river carnival will take place on the Charles river.

The official badge for the encampment has been adopted. In the upper portion of the badge are the two principal points of the design, "Our Emblem" and Boston's most noted product, "Baked Beans."

There will also be the F. C. B. shield of the order together with the words "Boston, 1908." On the lower pendant of the badge the most conspicuous figure will be that of a Hub to the right of which is a representation of the Old State House and to the left Bunker Hill monument. Below is Faenul Hill.

CONVENTION PROGRAMME. The programme in brief as decided upon to date, follows:

Aug. 4 (Afternoon)—Military parade. (Evening)—Reception to supreme lodge. Aug. 5 (Morning)—Subordinate lodge parade. (Afternoon)—Review and drills. (Evening)—Reception by the supreme lodge.

Aug. 6 (All Day)—Sight seeing. (Evening)—Reception and ball to the uniform rank. Aug. 7 (All Day)—Sight seeing. (Evening)—Exemplification of 1st and 3d rank. Aug 8 (All Day)—Sight seeing. (Evening)—Grand river carnival at Waltham. Aug. 9 (Morning)—Church service at Union Church, by the Rev. Allen A. Stockdale, grand prelate of Massachusetts.

The encampment of the military department will be held in Franklin field, Dorchester, and the entertainment will include free vaudeville shows, band concerts and prize drills.

The committee on ways and means is composed of five men, as follows: D. S. Woodworth, president; John P. Scott, treasurer; G. W. Penniman, secretary; John Ballantyne and J. S. B. Clarke. The supreme chancellor of the order Charles A. Barnes of Jacksonville, Ill., will be present.

Every meeting of K. P.'s here now has some allusions to the Boston trip. On Tuesday evening May 23, there will be a meeting of Victoria Company No. 1 of the uniform rank and the local Boston '08 Club will also meet in a couple of weeks to hear reports from various sub-committees.

THE HORRORS OF CHILD LABOR

Where the coal comes from the mines there are weather-beaten wooden buildings, scaffolded structures, shaken by the vibration of coal crushing machinery within, writes Edward A. Sistine in New York Outlook. From their third or fourth stories down young boys sit before troughs, along which the coal runs and rumbles and tumbles. Nine hours a day, in an atmosphere black as night from coal dust, sitting in a cramped and unnatural position, the breaker-boys pick slate from the falling coal by the light of two smoky oil lamps directly under their nostrils. Nine hours of this, and many of them, coughs, or hiccups, although every one to be the legal age, which is fourteen, walk home with their faces as white as paper, and old, so worn, that they are not "Friedman" the man climbs down the breaker. He, too, is now a breaker boy. Only about thirty years of age, shift for the harder work in the mine, he picks slate from the trough, as soon as the fresh air strikes him. He coughs so violently that his paroxysm shakes the fence. The boys stand about, waiting, but when a bit of coal comes from a breaker's mouth, and another, followed by a stream, the boys take to their heels. "Frach, the dust got into my lungs," the Slovak miner says. "It's not last much longer." Looking after the boys and the dust, for our enrichment, is unable to walk home; so I lead him. Home! This troubles and makes sickly or siling children well and strong. And this medicine is absolutely safe—the mother has the guarantee of a government, that this is true. Mrs. Alfred Suddard, Hal-dimand, Que., says: "I have used Baby's Own Tablets for constipation, stomach troubles and redness and find them a splendid medicine. They have made my little one a healthy, fat and rosy child. I always keep a box of Tablets in my home." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

FOR LITTLE BABIES AND BIG CHILDREN

Baby's Own Tablets is good for all children, from the feeblest baby, whose life seems to hang by a thread to the sturdy boy who occasionally gets his digestive organs out of order. Baby's Own Tablets promptly cure all stomach and bowels troubles and make sickly or siling children well and strong. And this medicine is absolutely safe—the mother has the guarantee of a government, that this is true. Mrs. Alfred Suddard, Hal-dimand, Que., says: "I have used Baby's Own Tablets for constipation, stomach troubles and redness and find them a splendid medicine. They have made my little one a healthy, fat and rosy child. I always keep a box of Tablets in my home." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

IMPROVE WATER SUPPLY OF LANCASTER HEIGHTS

Continued from Page One. growth, the Heights is a very desirable location for building, the street railway has opened up this property and made it accessible and it is being built upon. A satisfactory water supply for this high level with fire protection cannot be had with the present system, and the question is, how is it to be supplied? There appears to be two ways, one by pumping for the high service and the other by the trenching Loch Lomond water. The trenching system brings up the question where to locate a pumping station. Would pipes that must be laid in the next few years have any effect on the location of a pumping station? Would a stand-pipe be feasible in this climate? These questions should all be considered in the near future and any work that is done should be laid out with this in view. "You are planning now to lay a pipe out Green Head way. Would this be a pumping station where this pipe is to cross the Canadian Pacific Railway tracks? Railroads are handy to deliver coal to plants of this kind. The scheme would be to extend the pipe in Douglas avenue and Strait Shore road, take it across the river on a bridge and connect in some way at Manawagush road. There has been a petition before this board to extend the pipe in Douglas avenue. Is the proposed extension of pipe size to work in a scheme? That in case of a break—such as we had on the Loch Lomond system a few months ago—would be able to supply some water to people on this side from Spruce Lake. These questions are of importance, and it is believed that the instructions given at your last meeting should embrace a part if not the whole of the ground covered by the above observations. Another matter of interest dealt with in the report was the following: "The leakage of water from Nos. 2 and 3 mains, as well as in the distribution system throughout the city, is a matter of great importance. Last year I personally traversed a large portion of the streets of the city, making such inspection as I could in the hope of locating some of this leakage. Late last fall a house to house inspection of plumbing was started to see if the leakage could be accounted for by plumbing fixtures. There have been up to the present time 2,290 houses inspected and the leakage estimated at about 250,000 gallons. This would tend to show a total leakage in house plumbing for the whole city of 500,000 gallons. I propose—unless otherwise directed—to give a large amount of my time this spring to investigating, and, if possible, locate the trouble. Inspection of house plumbing, it is believed, should be continued. However, there seems to be a difference of opinion in regard to this, and it is looked upon as a useless expenditure of money. The mere fact of having it known that this inspection is going on is having its good effect, and I believe that the inspection should be continued."

HALIFAX MAY GET SHARE

(Halifax Herald.) A week or ten days ago Mr. Huskins, representing a large Chicago manufacturing concern, was in Halifax looking over the shipping facilities at this place with a view to making it the port of shipment for between 500 and 600 cars of harvesting machinery every year. He has also been in St. John for the same purpose, and it would appear that the two ports will get all the trade of this kind that can be handled by them. Under the terms of the new treaty between Canada and France, the latter country gives a substantial deduction in customs duties to goods shipped from Canada. The harvesting concern sells immense quantities of machines in France and hitherto they have been shipped through American ports. As a result of the new treaty it will be cheaper for the concern to manufacture the machines for the French market in Canada, and to ship them from Halifax and St. John during the winter on the steamers which ply regularly between these ports and Havre. The representative of the company was here to see if adequate storing facilities could be secured, as the goods will have to be assembled here during the summer ready for shipment in the winter. In this respect, it seems, he was somewhat disappointed, as the storage room at this port is nearly all in constant use already. Pier 8, which might have met the need in some degree, is used for the storage of the Mexican freight which reaches here on the Sokoto and the Borna, and all the other government sheds are taxed to the utmost. Private properties were also inspected, in fact, a tour of the whole waterfront was made. All Halifax has to do to secure this big trade is to show that it can handle the whole or part of the shipments and the goods would doubtless be shipped through this port. The representative of the company is said to have been greatly pleased with the shipping facilities here, the only objection being the lack of storage room. The smile of a hypocrite is on a level with the laugh of a hyena and the tear of a crocodile. Guilty of Assassination. A man, razor in hand was caught by his wife assassinating not an enemy but a comrade—what he needed was "Putnam's" Corn Extractor, it's safe, painless and sure. Try "Putnam's"—nothing sells so well.

Sprains, Weak Muscles—How Best Treated.

In minor sprains the muscle is strained a little and all that's needed is a vigorous rubbing with Nerviline. This draws the extra blood away and permits the muscle to return to its normal condition. The unusual supremacy Nerviline enjoys, is owing entirely to its penetrating power—it strikes in depth, that's why it removes deep seated pains and cures rheumatism, lumbago, pleurisy and sciatica. As liniments go, there is just five times more pain destroying power in Nerviline than in any other remedy. No wonder it's sale is so large.

You Have Indigestion

And conclude of course that the stomach is in fault. So it is, but there is a cause away back of the stomach that must be reached before the stomach can be made to do its work. The cause is nervous disturbance or nerve debility. First get the nerves in shape and then the stomach will be right also. Perrozons has accomplished this for thousands of people whose indigestion was completely gone. Perrozons is a food for the nerves and works wonders in stomach trouble. Where indigestion, appetite and assimilation are faulty, just try Perrozons. It cures thoroughly. Price 50c at druggists.

Where love is we forget labor.

Manchester Robertson Allison, Ltd.

HOW THE PUBLIC HOUSE TRUST IS WORKING OUT IN ENGLAND

A pamphlet just issued in England giving an account of "The Herts and Essex Public House Trust" indicates that that experiment in the liquor license has set on foot by Earl Grey before he became Governor General of Canada, is achieving a notable success. The success is more notable in quality than in quantity as yet, still there are now thirty-eight Public House Trusts in England, owning 208 houses—an experiment now on a sufficiently large scale to offer, by its striking success, a promise that it will have a tremendously important future. The Trust venture may be said to be based upon the view that while the abuse of liquor is a great public and private evil, the use of liquor will continue for a long time yet, and that humane and public spirited people should look for means to make the use of liquor as safe as possible, and particularly to make the places where liquor is sold retail not only safe, but as publically advantageous otherwise as can be. As the shortest cut to this, the English Public House Trusts aim to capture public houses, in order to run them upon principles which will minimize the sale of liquor and improve the rest of the accommodation. The first and very ingenious principle of control is to appoint for each inn or house captured by a Trust a manager who is made to profit by all the business except the sale of liquor. He is paid a salary, but in addition a commission upon the sale of food and non-alcoholic drinks. Also, good food and temperance drinks are provided—and meals for all classes at all times. Consequently, in the Trust public houses the sale of non-alcoholic refreshments increases, and the sale of liquor drops. In the Herts and Essex Trust houses, which number 14, the percentage of receipts from food and temperance drinks has risen to one-half of the whole, where it used to be less than a quarter. Other points are that no sales of liquor on credit are allowed; the license law is rigidly observed (there has never, in six years, been a conviction recorded against any of the fourteen houses of the Herts and Essex Trust); and a special point is made of harmless recreations in the houses, billiards, checkers, dominoes, etc., but no gambling; a comfortable reading room, etc. Why public-houses at all, an advocate of prohibition may ask? Well, in the fourteen houses of the Herts and Essex Trust, one hundred thousand meals were

consumed last year to patrons. These places are public necessities. In one sense, it is not necessary for anybody who runs a hotel in England or anywhere, to sell liquor in order to provide meals. But for the ordinary country hotel or wayside inn in England or anywhere, to sell good meals at a reasonable price, it is necessary to sell liquor. Without liquor, there will be less patronage for even the meals, and accordingly less profit; but the main point is that the sale of liquor is in itself much more profitable than sale of food, and if the profit from liquor is used to improve the other accommodation of a hotel, as it is used by the English Trusts, the public gets a proportionate benefit. The Trust aims to pay a dividend on its capital; but the dividend is limited to 5 per cent. Any surplus goes to improve the accommodation of the inn. On this continent, where the disposition is always to try short cuts to seemingly desirable public goals, the majority of temperance advocates aim to get temperance by enacting prohibition. At present, this short cut is being popular over considerable parts of the continent, and possibly may prevail over all of it within a generation or two. Hopeful of such victory, our prohibitionists may be inclined to scorn such a comparatively slow-going temperance scheme in England has opened. But if there is anything certain on this earth in public policies, it is certain that prohibition is not going to prevail in Great Britain within a generation or two. The great liquor vested interest, and a great force of something regarding which every Englishman is personally particularly thin-skinned and sensitive to a degree not paralleled among any other people on the face of the globe, not even among Canadians or Americans, namely, individual liberty. If there is to be advance of the temperance cause in England, it must for many decades yet be looked for, not in prohibition, general or local, but in other policies—and of such, we know of nothing which seems to appeal more to common sense than Lord Grey's Trust idea.

MONDAY MARKS OPENING OF THE SUMMER SEASON

Continued from Page One.

At Westfield Robert Bartsch takes the Maxwell cottage, John O'Keefe will have the Houston cottage and D. J. Purdy will go to Miss Lyons' house. R. H. Robb will shortly occupy his own villa. A. B. Gilmour is occupying J. Willard Smith's cottage. Harry Dunn, with his sister, Mrs. Morrison, to L. C. Prime's cottage. Harry Ellis to the Colford cottage and B. R. and Alexander Macaulay will again occupy their own summer homes. Mr. McGregor has built a pretty new villa near Westfield station.

Those who summer in Westfield and the vicinity complain bitterly of the train service, which they say is anything but satisfactory—until about the middle of June—giving no chance whatever to the younger people many of whom are obliged to be in the city and at work at 8 o'clock in the morning, thus making it necessary for their parents either to remain in town or keep up both a summer and a city home until the middle of

June. It is further stated that owing to the present arrangement some of those who have spent Sunday at Westfield and nearby places were obliged to walk to the city on Sunday rather than stay over until the following morning, when they would arrive here an hour too late for their work.

Rochesay will also be as popular as ever this season, and there are at Westfield and Ononette a number of new cottages are being built. Among those who with their families have already settled in their summer homes are Dr. A. A. Pugsley, E. Hall, P. D. Blanchard, E. J. Armstrong and C. A. Robertson. Judge Wilcox, American consul, who last summer occupied the Fraser house, has taken a cottage in the park. J. M. Robinson's cottage is situated on the Gonsola Point road, and a new cottage to be erected on the Netherwood College grounds will be occupied by Miss Gausson and Miss Picher, the principals of the school.

The tennis court is being overhauled and put in splendid order and will probably be completed in a few days. Another summer resort which continues to grow in popularity is Millidgeville—the one of the R. K. C. and one of the loveliest spots within easy reach of the city. Here, as at other summer resorts, back houses and gardens are being put in shape and needless to say numerous enjoyable functions have been planned for the summer. It was stated recently by a summer resident of Millidgeville that about the only room left for summer cottagers was on the main road. The pretty residence of J. Fraser Gregory is being underheated with a view to making it warmer when the autumn days draw to a close. Mr. Gregory is also having his tennis court put in shape and he is planting a plum and apple orchard as well as a vegetable garden. The grounds surrounding F. E. Williams' pretty villa will be greatly improved this year by the addition of a lilac hedge. Mr. and Mrs. C. A. Rutherford went to Millidgeville for the summer on Wednesday last; Mrs. Vroom and Mrs. Simpson have been there since the first of May, and Mr. and Mrs. J. Fraser Gregory go today, while Mr. and Mrs. Horace King and the Misses Murray will probably move out within the next week or two. Steve Matthews has this season offered his Millidgeville cottage for sale.

When you go shopping don't simply say "A pound of tea," because you can secure better tea, more delicious tea, if you only ask for "Salada."

If you once try the Ungar Laundry way of cleaning linen, etc., you will never allow any other method. Phone 24 for a team to call.

Special Sale OF WAISTS

\$4.50 Silk Waists, Now \$2.75. These Waists are made of fine quality, and are up-to-date in every particular. White Lawn Waists from 35c to 75c. All Excellent Value.

THE ONTARIO Fire Insurance Co'y

Lowest Rates, Non-Tariff. Alfred Burley, Gen. Agent. Office, 44 Princess St., Prince, N.B.

Loss of Appetite

Is common when the blood needs purifying and enriching, for then the blood fails to give the digestive organs the stimulus necessary for the proper performance of their functions.

Hood's Sarsaparilla is pre-eminently the medicine to take. It makes the blood pure and rich, and strengthens all the digestive organs.

"I have used Hood's Sarsaparilla as a spring medicine and find it excellent. My brother-in-law used it for blotches on his face and was perfectly cured. He has not been troubled since." HAROLD PARKER, Peterborough, Ont.

Hood's Sarsaparilla Is the world's great blood purifier and tonic. 100 doses one dollar.

OCEAN POPULATION IN THE TRAVEL SEASON

An Atlantic Liner Carries Enough Passengers for Small Village.

75,000 People Are On the Ocean Every Week in the Year—Eighty-two Regular Steamships Plying the Atlantic All the Time.

In the transatlantic trade alone an average of fully 75,000 are afloat in every week of the year. The usual spring rush to Europe has not yet set in. But the figures are employed merely for the purpose of showing the general average of the statistics of last week may be employed. This showed 82 passenger steamships sailing over the transatlantic lines, 40 bound east and 42 westward.

It is estimated that this Atlantic ferry and its other equipments costs not less than \$200,000,000. Americans may have a melancholy interest in knowing that of this vast fleet the Stars and Stripes ripples from the jack staffs of but four vessels and that two of these were English built, but admitted to American registry by special act of congress.

MASCULE MODES

Let us have a little talk about trousers. It is an old saying that a man is known by the shoes he wears, but for a good many years, since the creased trousers came into fashion, the crease has taken the first place in showing to his fellows the careful and the well-groomed man.

Such a press costs about \$2.50. You will pay that amount to tailors for pressing purposes in a few months. There are, of course, varieties of presses where the full length of the garment is screwed down tightly. But one has to be very careful about this process. It takes both time and trouble and, again, is hurtful to trousers which are wet after putting a wet pair into such a press they usually come out very shiny all down the crease.

Appearance counts for a whole lot nowadays, and the two pair of trousers each suit when you only possess one or

ACADIA BOYS WIN INTER-COLLEGE MEET

They Score 54 Points Compared With 26 for U. N. B. and 10 for Mt. Allison—Shot Put Record Broken.

Moncton, May 22.—Acadia swept the field in the intercollegiate sports held on the M. A. A. grounds here this afternoon, making a total of fifty-four out of ninety points. The U. N. B. was second with twenty-six and Mt. Allison third with ten. Perfect weather conditions prevailed and there was a good attendance.

One record was broken. In the shot put, the star of the U. N. B. team put the shot 37 feet 8 3/4 inches, breaking the record of Jones of Acadia by nearly two and a half feet.

High Jump (record 5 feet 7 inches). Shot of Acadia 1st, 5 ft 4 in; of U. N. B. 2d, 5 ft 4 in; of Mt. Allison 3d, 5 ft 4 in.

Quick Cure for Biliousness. Nothing will cleanse the stomach, regulate the bowels and assist the liver in removing bile from the system as fast as they cure biliousness in one night, 25c at all dealers.

HINTS ON HEALTH

A SUGGESTION FOR THE SUMMER. Apropos of the danger of infection, the Nursing Times mentions that a very effective method of catching flies is to take a square of stiff paper or cardboard and cut a small hole in the center.

A BLESSING IN DISGUISE. Pain is a blessing in disguise, according to Dr. Dixey, of Kings College, London. He says that pain was primarily designed as a preservative agent. Pain revealed danger, and in many cases protected the body.

WHAT IS A BLUSH? It seems that, unlike an oscillatory demonstration, a blush can be defined. A physician attempts it as follows: A blush is a temporary erythema and coloric effluence of the face, caused by the preperception of the sensorium when in a predicament of unequilibrium from a sense of shame, anger or other cause.

Useful Suggestions for Those Out of Work or With Spare Time. Free advice is cheap, and therefore not often taken. Yet sometimes a hint proves useful. I purpose giving a few hints in this column from week to week.

As a jack knife. He went out, bought these things at a second-hand store, went to work and stayed on the job six weeks at \$2.50 per day and extra time. Although he started on a bluff, he soon fell into the work by watching the others.

That man was resourceful and courageous. He is now a manager and draws a big salary. Courage is one of the absolute necessities for a man who wants to get on. He must have courage. If you are out of a job, don't despair. Just keep saying to yourself "I will win out and have for a new job. And you will get one."

Did you ever hear of an idea merchant? There undoubtedly are some big fellows in this business. But that is no reason why you should not start in a small way among the smaller fry of business people.

Take any business as you pass along the street. It may be a store or a factory; it may be an advertisement that strikes you; it may be a good manufacturer or some other section. Think about it and

EXHIBITION WILL BE HUGE SUCCESS

People All Over the Province Are Taking a Great Interest in the St. John Fair.

There is plenty of evidence that the people throughout all sections of the province are taking a keen interest in the exhibition to be held in St. John from September 12 to 19. Inquiries for the program are pouring in, and, from many sources, the indications are that the exhibition will be numerous when the show opens.

able to go about blind-folded and tell pretty nearly exactly where they are. By carrying out this plan the midway may not be found in the same place, but the people who like that sort of thing may not have to go very far on the grounds to find it. And when immense crowds gather, as they have in the past to see some wonder of the show, the midway will not be in the way of the people.

will find some place outside the fence, where they can more easily fool and fleece the unsuspecting. The prospects for St. John's big show, even at this early date, are good, and it is believed that the exhibition of 1908 will be a banner one in every respect.

The first band concert of the season given last evening by the City Cornet band at the Three Lamps, Prince William street, was much enjoyed by the large number gathered. The band played an excellent programme and the music was much appreciated.

Newbro's Herpicide

More men and women have gotten positive results from the use of NEWBRO'S HERPICIDE than from all other hair remedies combined.

Newbro's Herpicide is the original remedy that kills the dandruff germ. It eradicates dandruff, stops falling hair and permits a natural hair development by destroying the tiny vegetable growth [a germ or microbe] that causes hair destruction.

Nature constantly struggles to supply life and vigor to the hair, but the dandruff germ saps this vitality and strangles the life out of the hair.

START RIGHT BY DESTROYING THE CAUSE of Hair Loss with NEWBRO'S HERPICIDE EXTRAORDINARY RESULTS SOMETIMES FOLLOW ITS CONTINUED USE It Benefits a Lady, Scalp Specialist.

2807 Archer Ave., Chicago, Ill. "I am sending you my photograph to show what Newbro's Herpicide has done for me. Since I first tried Herpicide upon my hair I have used it exclusively in giving scalp treatments to others, and I would not think of trying to get along without it."

(Signed) MRS. ANNA CONNER.

Indispensable Following Severe Illness 1717 Tremont St., Denver, Colo. "I was convalescent from a critical illness of pneumonia and my hair was left in a deplorable condition, falling out and breaking off, dry, harsh and brittle. The scalp lacked nutrition and seemed dead. I used Herpicide according to directions with most beneficial results and attribute the restoration of my hair entirely to your Herpicide. I can conscientiously endorse it for doing all you claim, and it gives me great pleasure to recommend it."

(Signed) MRS. M. MEGRUE

For regular toilet use, Newbro's Herpicide easily occupies first place. It is sold in practically every civilized country on the globe, and a single trial will show why discriminating ones prefer it. Contains no sticky substance. It will not stain or dye the hair. It stops itching of the scalp almost instantly.

Two Sizes, 50c & \$1. AT DRUG STORES—Send 10c. in stamps to THE HERPICIDE CO., Dept. N., Detroit, Mich., for sample.

Guaranteed under the Food and Drugs Act, June 30, 1906. Serial No. 915 BE SURE YOU GET HERPICIDE

A Square Eight Room House

DESIGNED BY CHAS. S. SEDGWICK, ARCHITECT, MINNEAPOLIS, MINN.

The beauty of a square house is that you get the "most for your money," both in size and convenience of arrangement. The square house will always outlast the irregular shaped houses by far greater number. A square house is strongest in point of construction, it has a substantial look to it, it is the easiest to warm in winter, there is no lost space by reason of angles, there is far less labor in constructing it, it will stand up straight square and true year after year much better than a house of irregular outline but after all has been said about a square house its greatest recommendation is that it is the most economical to build, you get the "most for your money."

In our illustrated plan we have a house 30 feet in width by 32 feet in depth, with a large piazza across the front and extending around on one side nine feet in width, built with a good solid stone foundation and concrete and cement floor. This house has recently been well built and finished in oak in the first story and natural pine in the second, with a good basement under the entire house, for \$3,700, exclusive of heating and plumbing.

It is without question a good plan, it has the feature of a large living-room across the front 14 by 29 feet, with a stairway leading up on the right hand side and basement stairs underneath, a liberal fireplace opposite the entrance, and at the left a pair of sliding doors opening in the dining-room, which is 12 feet six inches by 16 feet. The pantry

comes between the dining-room and kitchen, and back of the kitchen is a porch and room for refrigerator and kitchen cupboard. The kitchen is 12 feet by 12 feet 6 inches. In the passage-way between the side-board opposite the sliding doors, and living room and the kitchen is a nice clothes closet, which also could be used for a toilet room, if desired. In the second story are four good-sized chambers, each provided with ample closets, and a central stairway leading up to the attic story, which has ample space that can be used for amusement-room and servants' room, and extremely good-looking house.

NO MORE RHEUMATISM

"FRUIT-A-LIVES" CURED HIM
Christopher D. Graham is a well known citizen of Ottawa—formerly in the City Hall and largely instrumental in forming the Ottawa Hunt Club.

Ottawa, Ont. Nov. 26th, 1907.
Dear Sir—
I have been a sufferer from Rheumatism for a long time—pains in my shoulder and joints practically all the time.

T. OF H. PRIZES AWARDED

Two presentations were made at an open session of Rockwood section T. of H. and in the Tabernacle hall last evening.

AN ANTI-TOBACCO BILL IS INTRODUCED IN THE HOUSE

Its Purpose is to Prevent the Gift or the Sale of Tobacco to Those Under Sixteen—Col. Hughes Heard in Defence of Ross Rifle.

Ottawa, May 22—The house was treated today to what not inaptly has been termed a sham-battle. Col. Worthington's amendment condemning the Ross rifle contract was under discussion and Col. Sam Hughes, who is a member of the board responsible for its adoption as the arm of the Canadian militia and naturally chaired under Col. Worthington's criticism.

Geo. W. Fowler followed. He opened with a cynical criticism of Col. Hughes' record, somewhat reminiscent of the speech delivered a few years ago in the house by the present Judge Russell of Nova Scotia upon the same subject.

Mr. Aylesworth today introduced and explained his bill, "To restrain the use of tobacco by young persons." The bill is designed to prevent the use of tobacco in any form by those under sixteen years of age and it shall be an offence on part of anyone to give cigarettes or cigarette paper to a young person, whether for their own use or not.

had nominated a liberal for that position, namely, Colonel J. M. Gibson.

Then said Mr. Fowler, Col. Hughes was a member of the small arms committee. "Without pay," said Col. Hughes.

Mr. Fowler retorted that the minister of militia was an astute man and apportioned pay to the value of the service rendered. He jollied Col. Hughes about having a Fenian raid medal, which showed that despite his ambition to be still eligible, he was not a babe in arms in 1870.

"I was put on the staff by Lord Dunsford," Col. Hughes retorted. Mr. Fowler replied that Lord Dunsford did not have influence enough to save his own head, much less to put a crown on the head of Col. Hughes.

Mr. Fowler described Col. Hughes as going to South Africa and telling Lord Roberts and Kitchener that he knew it all and finally ending the war. And yet while the Parliamentary Conservative contained a page and a half of the Colonel's autobiography, his military record was told in the red book in just one line and a half.

he called a board of experts to report, but had not ascertained whether a sufficient number of Lee-Enfield rifles could have been procured.

The board of experts had reported that there were defects in the Ross rifle, but the minister seems to have accepted the word of Sir Charles Ross that these defects could be remedied.

The minister had been carrying on experiments with the Ross rifle but it occurred to him that it would have been better to take the experience of Great Britain. It had not appeared that the same terms had been offered to any small arms company in Britain that were given to Sir Charles Ross.

Mr. Borden said that Birmingham Small Arms factory were willing to supply rifles but he wanted to have a factory here.

Mr. Borden quoted some of the expert evidence and proceeded to say that it was evident that the Ross rifle was one that would stand rough usage and after all what was wanted was a weapon that would stand the test in active service.

Eating Carelessly

frequently causes stomach troubles, but careful eating will never right them. When your stomach is out of condition, it needs help and strength.

BEECHAM'S PILLS

are the greatest stomach medicine human skill ever compounded. Don't attempt to cure your stomach by dieting. You will half starve and get little benefit.

A NICE-LOOKING LOAF

LATE LOCALS

Boston steamer Calvin Austin is due here at 3.30 p. m.

Get your Upholstering done by Sinclair, 77 Princess street. You will get satisfaction.

Steamer Prince Rupert, Captain Potter, went on the route between this port and Digby this morning.

Cape Foucher new quick flashing light at the entrance to Yarmouth, N. S., harbor will be put in operation July 1.

No. 8 Field Ambulance Corps begin recruiting at their armory, Oddfellows' hall, Union street, Tuesday, 26th May, at 7 p. m.

There were twenty-three births, 14 female and 9 male, and 9 marriages recorded with Registrar Jones during the present week.

The Hibernian Cadets held their first march out of the season last night and made a good appearance. There were about 100 in line.

Mrs. H. Niles, Douglas avenue, has gone to Fredericton to attend the funeral of her nephew, the late George E. Moore, of that place.

Notice is given that owing to an accident to the machinery of the quick flashing light at Southern Wolf Island, it may possibly be that the light shown will be a fixed white, or there may be no light, until repairs have been completed.

About seventy beer licenses have already been issued by Liquor License Inspector Jones and the last day on which applications can be received will be the 31st of May. The number issued is about half the number granted last year.

It is said that the steamers Camden and Governor Cobb will perform the service on the international division during the summer months, the Calvin Austin, now running on this service, to be transferred to the St. John and Boston direct route.

The members of the N. B. Military Veterans' Association are requested to attend the funeral of their late comrade, James McAvity, on Sunday afternoon at 3 o'clock from his late residence, 72 High street, media to be worn.

Mission Church St. John Baptist, Paradise Row, Services tomorrow, Fifth Sunday after Easter; Holy Eucharist (plain), at 8 a. m.; Matins at 10.30; High Celebration and sermon at 11; Choral Evensong and sermon at 7; Catholic Ritual, 8 a. m. seats free.

The High School had their try out for the interscholastic meet, on the Victoria grounds, this morning. The Every Day Club having placed the grounds at their disposal for the purpose. The boys are being assisted by Thomas Daley, who has had many years in athletics.

Allan Chisholm, of 183 Waterloo street, a steamer employed in the city water-works service was thrown from a car street and quite badly hurt. His injuries were dressed in No. 1 Hook and Ladder station and he was taken to his home.

The barquentine Hancock which recently discharged coal here, Patrick Farrell, has since been loading laths for the Alex. Gibson Company, and has a five thousand dollar cargo. The Hancock will leave here today with her cargo for New York, and will be towed to St. John by the tug Joseph. She will be able to reach New York in six days. (Fredericton Herald.)

The non-commissioned officers and men of No. 7 Co. Army Service Corps are required to attend at their armory, Church of England Institute, Genoa street, between 7 and 9 p. m. Tuesday, the 26th inst., for the issue of clothing and signing service roll for camp Sussex, June 19. All members will be required to camp must attend this meeting.

Christopher W. Keirstead, aged 65, was last night arrested by Patrolmen Rankine and Covy on a charge of attempted assault upon Gertrude McNamara, the twelve-year-old daughter of Mrs. Ellen McNamara of 469 Chealey street. It is alleged that the assault occurred in Keirstead's house, 323 Chealey street, where he was arrested. Keirstead had been drinking.

A RUNAWAY ON MARSH ROAD.

A countryman named Walsh started to drive into the city this morning with a load of produce drawn by a white horse, but when he reached the stable here his horse was black. The transformation was the result of an accident near One-mile house. The horse became frightened and ran away and ended by falling into a ditch about five feet deep with the wagon and driver piled on top of him. The produce of various kinds was strewn in all directions, the driver was somewhat bruised and the horse lay on his back kicking to get up, but without success. With the assistance of some passers-by he was hauled back on to the road, but he was hardly recognizable with the coating of black mud with which he was completely covered. Temporary repairs were made and the journey citywards resumed.

FRIGHTENED PASSENGERS.

(Bangor Commercial May 22.) Some of the passengers on the 1.40 express for the west Thursday had a bad scare and some of them thought that Mrs. Guinness had surely come to town. When the train arrived here from St. John, one of the passengers went to the baggage car, got a revolver out of her baggage and then went back to her seat in the coach. She laid the gun, which was loaded on the window-sill and seemed to be very restless—as if something had been in the wind. Passengers sitting near the woman commenced to get uneasy and many glances were cast in the direction of the weapon. Finally a man—more courageous than the rest—went over and she promptly placed the revolver out of sight.

BIG RACE HAS FILLED.

Boston, Mass., May 22.—The directors of the New England Horse Breeders' Association today voted that sufficient entries had been received in the \$50,000 American Trotting Derby to announce that the event would be held during the grand circuit meetings at Reading in August.

Richard J. Walsh, head of Waterbury & Rivington's retail department, is seriously ill at his home, Albert street.

FIRST BASE BALL GAMES ON FOR TODAY

Two Leagues Open the Season This Afternoon --- St. John League on Victoria Grounds, Society League in North End

The ball season in St. John will be in full blast this afternoon when two leagues break into their schedules, and indications are that after three o'clock the entire "fan" population will have hiked to the Victoria or Shamrock grounds. On the former the St. John League starts in with the Marathons and Clippers and on the latter the old rivals St. Joseph's and St. Peter's will commence the Inter-Society League.

In both leagues there will be some surprises sprung; the followers of the north end organization will be given the chance to see the popular "Pop" Small back at centre field, while those taking in the Victoria ground games will see the veteran Tommy Howe again in the game. The season promises the best for many years. James McAllister will umpire on the Victoria grounds and George McDerrett on the Shamrock grounds. Mayor Bullock will pitch the first ball for both leagues. At 2.45 he will officiate on the Shamrock grounds and at 3.15 on the Victoria grounds.

FIRE ON STMR. HAMPSTEAD

Lighted Cigar Thrown Into Mate's Room Started a Slight Blaze.

Fredericton, May 22.—There was a slight fire on the steamer Hampstead yesterday shortly before her arrival. Some careless person threw a lighted cigar stub into the mate's room and it set fire to the bedding. The flames were discovered and extinguished before much damage had resulted.

MARINE NOTES

Since Aug. 4 nothing has been heard of the steel four-masted sailing ship Alacritia, which on that day left Delagoa Bay for Hong Kong with a crew of twenty-six. She has been posted at Lloyd's as missing. The Alacritia was commanded by Capt. James Thornton, of St. John (N. B.), and the chief officer was W. R. Palmer, of Dorchester (N. B.). Capt. Thornton, while trading to St. John, was married by Rev. J. M. McAvity. He married Miss Callaghan, sister of Edward Callaghan, of St. John. Mrs. Thornton now resides in New York.

Montreal, May 22.—A bad time was experienced on the St. J. steamer Montreal this evening when twenty tons of sulphur in the hold became ignited, as the vessel was being unloaded. The loss will not be heavy as the sulphur was in a large tank so that the water used in extinguishing the flames was not contaminated by the vessel, while the water would not cause much damage to the unburned cargo.

Hawkesbury, N. B., May 21.—The Plant Line steamer "Perry" is lying in the same position. She is well out of the harbor, but listed to the starboard. Several tons of cargo were taken out to-day yesterday. There is no water in the steamer excepting in the forward compartment. The cargo is being perfectly dry and was forwarded to-day by the steamer Enterprise to the wharf. The cargo in this steamer is being moved to the wharf to-day and an effort will be made to once to float the "Perry". All the damage is to the forward.

EQUITY COURT

In the equity court yesterday afternoon application was made to Chief Justice Johnson on behalf of the plaintiffs in the suit of Shaw vs. Hunter, to continue an injunction issued some time ago, until the hearing in July. The injunction was ordered continued, the parties agreeing to get down to hearing in July. In the matter of William F. Lunn vs. Allan Chisholm, et al., a foreclosure suit, application was made to take the bill pro confesso for want of an appearance. The order was made accordingly. E. T. C. Knowles represented the plaintiff.

HOME FROM KLONDYKE

Rev. Elson Dunham, formerly of St. John, but who left here twenty years ago and is now located in Dawson City, Yukon, arrived in St. John yesterday. Rev. Dunham is a nephew of Mrs. J. M. McAvity, secretary of the Associated Charities. When he returns here he will be accompanied by his mother, Mrs. Dunham, who has been living with her sister, Mrs. Hall. Mr. Dunham will preach in the Congregational church tomorrow.

REVIVAL IN ATHLETICS

No less than forty-six different competitors have entered for the sports on the Victoria grounds Monday afternoon. With such a beginning so early in the season, such a beginning of the revival of interest in athletics during the summer, there should be a general revival of interest in clean amateur sport. As soon as possible after the holiday the club will endeavor to provide some equipment for children, who will be permitted at all times to have the use of a portion of the grounds for free play. A competent caretaker will always be in charge.

TEMPERANCE MEETINGS

At the Every Day Club hall at 4 o'clock tomorrow afternoon W. M. Campbell will discuss the arguments for and against the liquor traffic. There will be more than usually good musical programme, including an instrumental duet and several solos. In the evening at 8.30 Rev. E. W. Kelly will speak and there will be special music.

A fine trout has been mounted by Simbaldi and Ogden Smith, taxidermists, for William O'Keefe. The fish was caught in Victoria Lake and weighed three and one-half pounds. Mr. O'Keefe will send the fish to Charles Marston, proprietor of the Wilbur House, Fall River.

DEATHS

McAVITY.—In this city, on the 22d inst., James McAvity, leaving a wife and one son and one daughter to mourn their loss. Funeral service commences at 3 p. m. Sunday, at his late home, 75 High street.
