THE KILTIES ARE GAINING

Scots Boys' Brigade Closing up on Leaders

IN TIMES CONTEST

Court La Four Still Ahead With Scots Brigade Second and St. Mary's Band Third---

Only seventeen more voting days and the Times contest will be ended. If you have a favorite organization in the race and have not as yet given it your support, you should do so at once or you may have cause to regret your inactivity later on.

In the short time that now remains before the close of the contest, a great deal may be accomplished if the friends of the organizations in the competition will use their best efforts to secure the interest of their respective candidates.

Today the leader is still Court La Four, 1,070, although the Kilties are gaining ground rapidly, while the landowners are just behind the Scotch lads.

St. Rose's L. A. D. Society and the High School Athletic Club are evidently preparing a sudden surprise for the leaders, judging from their suspicious alibis.

The Neptune Rowing Club may possibly do something equally startling before the week ends.

The various contestants should therefore prepare themselves against a sudden surprise by increasing their strength in the struggle, and making every effort to reach the top of the list.

St. Mary's Band today cast a total of 1,200 votes, though they still remain in third place, the Kilties holding their lead by the addition of 1,100 votes.

Many of the minor figures in the contest are showing a marked improvement in their standing.

CHASING A GRATER

Western Promoter Sold Fictitious Mining Stock and Now Officials Are After Him.

GOLDFIELD, Nev., Nov. 30.—Dr. N. G. Lyman, a promoter, lately operating under the name of the Union Securities Co. of Goldfield, in Chicago, New York and elsewhere, is sought by the sheriff of Esmeralda county, Nevada, because of charges of fraud brought against him by B. F. Shofield, of Chicago. Dr. Lyman's office is in possession of the authorities and his secretary, E. H. Latimer, is under arrest. Shofield in his complaint alleges that he was induced to buy a large amount of stock in the Do-ton & Greenwater Mining Co. through misrepresentation, the amount of money paid in the transaction being \$3,850. Lyman is now supposed to be in Pasadena, Cal., and a warrant has been sent there for his arrest. Latimer who was arrested here today and placed under \$1000 bond, says that he is an innocent party, as he was employed in the office simply in a clerical capacity and that he is sure to be released from custody as each one perfunctorily.

AMERICAN COMMENT ON CANADIAN TARIFF

BUFFALO, Nov. 30.—Commenting on the new Canadian customs tariff introduced in the Dominion house yesterday by Finance Minister Fielding, the Buffalo Commercial (Republican) editorially says: So far as the Canadian tariff affects American interests it may be said to be "as you like it" to the extent of a ten per cent. discount. It is early yet to determine how this option is likely to operate in creating sentiment in this country in favor of a reciprocity treaty with Canada. The subject is not likely to be revived in a separate form in the near future but to be considered in the general tariff inquiry that is sure to come soon late, probably soon.

Two small-pox patients, Emma and Edna, who have been in the isolation ward were discharged from custody.

BUSINESS IN FULL SWING

Winter Port Operations Are Well Under Way

A SCENE OF ACTIVITY

Sand Point is Now an Interesting Place --- Empress of Ireland Sailed Last Night and Parisian Today --- Big Cattle Shipments Coming.

The winter's business at Sand Point is now on with a merry swing. The small army of ship-labourers, checkers, freight handlers, railway men and customs and immigration officials are all busy, and "the point" has taken on its usual appearance of activity, consequent on the winter port operations coming and going.

Freight is coming in freely for shipment to the old country, and the big elevator is rapidly being filled with grain. Cattle shipments have commenced, nearly 2,000 head having been already allotted to steamers now in port. The first consignment arrived yesterday, consisting of 600 head for the Donatien liner Alcaide. According to advice received by A. C. Smith & Co., who have charge of the cattle business, next week will see about 3,000 head shipped from this port, and the indications are that preparing a sudden surprise for the leaders, judging from their suspicious alibis.

The Neptune Rowing Club may possibly do something equally startling before the week ends.

THE GREAT REFINERY

Canada the Land Where Men Are Made Over

A MIGHTY CONTRAST

Between the New Settlers Who Are Coming Into the Country for the First Time and Those Who Are Returning Home After a Stay in Canada.

With the departure of the steamer Empress of Ireland and the arrival of the Monctonia at Sand Point yesterday there was an opportunity for the observer to note the difference between the people leaving port on the one steamer, for a visit to their old homes and those arriving on the other for the first time in the land where they expect to settle. Those going outward after a few years in the western portion of the Dominion had little to distinguish them from the ordinary citizen, while those arriving with the strange garments and in most cases only a few years ago on arriving here they had developed from the illiterate peasant into Canadian citizens who were able to cope with whatever came along.

Whereas a few years ago on arriving here they had developed from the illiterate peasant into Canadian citizens who were able to cope with whatever came along.

CUT THEIR WAY THROUGH BARS

Ten Prisoners Escaped From a Long Island City Jail and Are Not Yet Captured.

NEW YORK, Nov. 30.—Ten of the most desperate prisoners in the Queen's County Jail at Long Island City escaped from that institution today. The police of Long Island City began a search for them several hours after they got away, and the entire police force of New York City was notified to be on the watch for them.

The first four to get out sawed the bars of their cells and got out, leaving the window open. Once in the yard they had only to climb a fence and they were free. They were August Schram, charged with highway robbery, John Leonard and Thomas Sammette, charged with burglary, and Alexander Templeton, charged with larceny.

The absence of the men and sawing of the bars and doors and windows were unnoticed until the keepers opened the cell doors and allowed the other prisoners in the corridor at 6 o'clock this morning. Six other prisoners immediately crawled through the hole in the wall. The delivery was not discovered until 7 o'clock when an alarm was spread and a reward was offered for the recapture of the prisoners.

ASPXYIATED BY GASOLENE FUMES

PHILADELPHIA, Nov. 30.—Gustave Soeding, aged 58 years, who was known as a promoter of amusement enterprises, was found dead in his automobile in a garage in the northern section of the city only to climb a fence and they were free. They were August Schram, charged with highway robbery, John Leonard and Thomas Sammette, charged with burglary, and Alexander Templeton, charged with larceny.

The absence of the men and sawing of the bars and doors and windows were unnoticed until the keepers opened the cell doors and allowed the other prisoners in the corridor at 6 o'clock this morning. CIRCUIT COURT

The case of Alex. Wilson and James O'Donnell vs. A. C. Clarke and John Adams was resumed this morning in the circuit court before Justice H. Kingston. Several witnesses were examined and the case adjourned until this afternoon, when it will probably be concluded.

Coadjutor Bishop J. A. Richardson returned today from Montreal.

BOY THIEF SENTENCED

Robert Clayton Gets Four Years in Reformatory

BLAMES OTHER BOYS

After Pleading Guilty to Theft C. Argues, He Says, His Companions Stole Also—Magistrate Ritchie Hands Out More Advice to Boys.

Twelve-year-old Robert Clayton, a boy with a record, who in October last was arrested on a charge of breaking and entering and theft, was today sentenced by Judge Ritchie to four years in the reformatory, and will probably be taken to the institution this afternoon.

The little lad, whose home is in Bruce street, who brought into court, and sentenced, burst into tears and blamed the boys, Monahan and Moore, with whom he was associated in most of the offenses, with committing the crimes. The statement rather surprised some of the court officials, as the lad had pleaded guilty before being remanded, shortly after his arrest.

His honor gave Clayton some advice and reminded him of the fact that in August last he had been arrested on a similar charge and, in consideration of the fact that he had a mother at home, he had been allowed out on a bond of \$100.

His honor added that the same boy had come to him recently and told him that not only had he broken and entered, but he had also stolen a pair of shoes and a pair of boots, and had been sent to the reformatory. He must be satisfied in his own mind as to the criminality of the crime and be convinced that it is for the material and moral welfare of the boy, that he should be sent to the reformatory, which is necessary in the case of boys, but not with men. He also pointed out to the youthful prisoner that he would be taught the value of regular hours, and would be required to attend school and to work in a factory.

The last charge against Clayton was that of breaking and entering. He had stolen a pair of shoes and a pair of boots, and had been sent to the reformatory. He must be satisfied in his own mind as to the criminality of the crime and be convinced that it is for the material and moral welfare of the boy, that he should be sent to the reformatory, which is necessary in the case of boys, but not with men. He also pointed out to the youthful prisoner that he would be taught the value of regular hours, and would be required to attend school and to work in a factory.

SCHOONER CAPTAIN IN POLICE COURT

A case which may lead to an enquiry as to certain practices of the Imperial Oil Company in the delivery of kerosene, came up in the police court before Judge Ritchie this morning.

Capt. William Trahan, of the schooner "The Empress," was charged with delivering kerosene to the schooner "The Empress" in violation of the law. He was fined \$100 and costs.

The case of Alex. Wilson and James O'Donnell vs. A. C. Clarke and John Adams was resumed this morning in the circuit court before Justice H. Kingston. Several witnesses were examined and the case adjourned until this afternoon, when it will probably be concluded.

Coadjutor Bishop J. A. Richardson returned today from Montreal.

ARE TIRED OF WAITING

Moncton Alderman Are Angry at the Delay

OVER 'PHONE QUESTION

N. B. Telephone Company Representatives Will Meet Moncton Council on Dec. 14 ---Municipal 'Phone System Favored---News of Moncton

MONCTON, Dec. 1.—(Special)—The city council is growing tired of waiting for the New Brunswick Telephone Company representatives to come to Moncton to discuss matters relating to rates, etc. At last night's meeting of the council Ald. Welch moved that the council decline to hold further communication with the Telephone people, but as there was a letter from A. G. Blair, president of the company, intimating that a company representative would come to Moncton, Dec. 14th or 15th, it was decided to arrange for a conference on the 14th inst.

The city clerk was instructed to communicate with other cities, towns and municipalities in the province interested in the telephone question, suggesting a conference on the matter, the time and place to be agreed upon. There is quite a feeling in favor of establishing a municipal telephone system.

The council will ask for legislation giving the police magistrate power to enforce under oath into all matters of civic administration.

Owing to several narrow escapes at dangerous railway crossings in this city, the I. C. R. management is to be asked by the council to provide grade protection the same as other places have. Some crossings are regular death traps. A man named Godfrey and his wife narrowly escaped a fatal accident at a crossing on the street crossing. This has stirred the city to activity.

A special train with the English mails from Halifax made the run to Moncton this morning in exactly five hours, arriving here at 8:30. This is slower than the regular train.

Leslie Chappell who was appointed chief of police for three months upon A. J. Tingley's resignation, has been reappointed for another month.

WHO TOOK HIS MONEY?

Campbellton Man Tells Police He Has Been Robbed of Large Sum.

David Curran, who came here recently from Campbellton, alleges to the police that since coming to the city he has been robbed of a considerable sum of money by parties unknown to him.

Curran was arrested last night as a common drunk and this morning Judge Ritchie sent him into jail.

According to the police, Curran had been drinking on the way, and on arrival here, was taken to a boarding house, in what he describes as a respectable part of the city.

On awakening the following morning, he found that instead of being the sole occupant of the room, two other men had shared the apartment with him, and on searching his pockets found that his money had vanished.

MONTEAL STOCKS

MONTEAL, Dec. 1.—(Special)—The bulk of the interest in the stock market today was in the steel shares, the tone of the market being generally firm, and the buoyant extension continuing to exert a favorable influence. MORE CANADIAN BISHOPS

ROME, Dec. 1.—For the first time during the present pontificate, the pope will hold both secret and public consistories the same day, December 6th. He will deliver an allocution and announce the appointment of 84 resident and 40 titular bishops, including three American and four Canadian and Newfoundlanders.

In the police court this morning, Thomas Hibson, charged with wandering about Sydney street last night, and being unable to give a satisfactory account of himself to the police, was remanded. John Curran, a simple drunk, was remanded.

DEATH CAME SUDDENLY

Mrs. F. P. Thompson, of Fredericton, Died Last Night

WAS ILL TWO DAYS

She Was the Wife of Senator Thompson and a Leader in Philanthropic and Charitable Works --- Death Due to Heart Trouble.

FREDERICTON, N. B., Dec. 1.—(Special)—The death occurred here at ten o'clock last evening of Mrs. Eliza Thompson, wife of Senator Fred P. Thompson. She had been ill only two days, and her death was altogether unexpected, and has greatly shocked the community. She was taken ill on Wednesday night from heart trouble, and while her condition was not thought to be serious, a telegram was sent to her husband at Ottawa, advising him to return home. He left Ottawa yesterday afternoon, and did not know of his wife's death until the sad news was broken to him by his son, who met him at the Junction this morning. It is thought that Mrs. Thompson's death was caused by the rupturing of an artery near the heart.

The deceased lady was a daughter of the late Rev. John Snowball, Methodist minister of Newfoundland, and a sister of Lieut. Governor Snowball. She was fifty-eight years of age, and is survived by her husband, one son, Alexander, and three daughters. Mrs. Leroy Shaw, of Montreal, and Misses Nan and Margaret Haines, of Fredericton, are her nieces. She is a sister. The deceased for years had been an active worker in the Methodist church, and was one of the organizers of the Fredericton branch of the order of King's Daughters. She was of a charitable disposition, and any movement of a philanthropic nature had her active support. Her said death has caused great regret in the community and much sympathy is felt for the bereaved family. The funeral will probably take place on Monday afternoon.

The school at Morrison's Mill has been closed owing to an outbreak of diphtheria in the neighborhood.

The imports here for the month just ended totalled \$39,449 against \$28,233 for the corresponding month last year. The duty collected was \$4,517.72.

Dr. Russell, veterinary surgeon, of Denver, Colo., has decided to locate here.

MEN HAVE GONE OUT

Strike Among Section Men on Dominion Atlantic Railway Went Into Effect This Morning.

DIGBY, N. S., Dec. 1.—(Special)—The D. A. R. section men are out on strike this morning. As near as can be learned, the strike extends along the line from Windsor to Yarmouth. At Digby the foreman showed up for duty, but the men failed to put in their appearance. No new developments have taken place this morning, trains are on time, but must be running "blind" over sections where not even the foremen are on duty. (See also page 6.)

VICTIM OF THE LAW'S DELAY

WATERBURY, Conn., Dec. 1.—Mrs. Henry Hibson forwarded yesterday to her husband, who has languished in Montreal hospital, the naturalization papers which the immigration officials in that city demand before allowing Hibson to return to the United States.

The last rites of the church have been administered to the sick man, and it is feared by his wife that he will not be able to leave the hospital when the papers arrive there. Mrs. Hibson believes that his serious condition was brought on by the trouble he has experienced in attempting to get home.

A FINE LIKENESS

(St. John Monitor) Hanging in the lobby of the Opera House is an exceedingly true likeness of P. A. Nannary, a drawing that reflects a great deal of credit upon Miss Bessie A. McCoskey of Carleton by whom it was executed.

The drawing is a pencil reproduction of a photograph of the veteran musician. Miss McCoskey's features to paper in a truly artistic way, and many persons have been struck by the faithfulness of the likeness.

SURE SIGN.

If God gives you manna, don't let it spoil while you are waiting for moses to ask with it. If you want to know how to administer a vast fortune, inquire of the man who hasn't any—Bam's Horn.

THE TIMES NEW REPORTER. JAMESY WORRIED AGAIN. THIS IS GOOD NEWS. AN APOLOGY. An Indignant Subscriber from the west side called this morning and asked for the Times reporter. He said he wanted a correction made in the issue of yesterday. The reporter yesterday made some remarks about the odors in the cabins of the Wau Lang. The Indignant Subscriber wanted it stated emphatically that the odors there are perfumes of Arabie coquette and he encountered in the east side ferry toll house. This correction is cheerfully made. The Times reporter has no desire to be unfair to Wau Lang—or to the toll-house. He desires the ferry committee to know that he makes this explanation and apology. Moreover if there are worse smells to be found anywhere than those in the cabins of Wau Lang the public ought to know it.

THE DRILL HALL

After all the agitation of years past, in St. John to have a drill hall only at the expense of the fall exhibitions? The militia department has called for the removal by the city of the present exhibition buildings, in order that it may erect a new drill hall.

MONTREAL'S LIQUOR PROBLEM

The question of the early closing of liquor saloons is at present a very live issue in Montreal. The advocates of the measure only ask what is already the rule in this city—that saloons close at seven o'clock on Saturday evening and at ten o'clock on other week-day evenings.

The American people are studying the new Canadian tariff, especially the intermediate proposition, with an eye to possible developments along the line of reciprocity.

The letter "A Plea for the Boy," which appears in today's Times, is worthy of the thoughtful attention of the Christian people of St. John.

The Emperor of Ireland must call at Halifax for the seals that were carried past St. John to that port. Could they farther go?

The transition from autumn to winter has been so gentle and kindly this year as scarcely to be noticeable.

CRITICISM IS EASY

It is easy to sit in the sunshine and talk to the man in the shade. It is easy to float in a well-trimmed boat and point out the places to wreck.

It is easy to sit in your carriage and counsel the man on foot. But give your feet a rest and you'll change your talk.

It is easy to tell the fellow how best he can carry his pack. But give him a pack and a wiper tip and he'll be a different man.

The un-curling mouth of pleasure can't give it a slip and a wiper tip was never made on earth.

IN LIGHTER VEIN NO MOTORS THEN. Motorist (whose car has stopped dead five miles from anywhere, to wit) "Here's a pretty fix, isn't it? A drop of spirit left in the car."

A CROWING PART. Slinger (to star)—"You won't refuse me a ticket to come and see you?" I once acted with you.

DIRIGIBLE BUT NOT DIGESTIBLE. Enthusiastic inventor—"Colonel, my dirigible would be invaluable in time of war. It would entirely take the place of the horse."

MOST IRRITATING. "I am so very much annoyed by my servant that I have just kicked him out. Only half his body has been found, and with the other half are my keys."—Bon Vivant.

PROUD OF IT. A provincial paper announced the sudden death of a color-blind person in the following terms:

"The illustrious Prof. Geo. X.—has done the office of this paper the extensive honor of dying within its walls."

BRO. DICKEY AND BROTHER WILLIAMS. (From the Atlanta Constitution). "How come dey always paint Death riding on a pale horse?"

"Does you reckon de men angels will have wings in glory?" "I reckon so—of de wimmen folks don't want all de feathers fer dey tails."

"I reckon so—of de wimmen folks don't want all de feathers fer dey tails."

"What is yo' opinion of de race problem?" "Ter keep 10 yards ahead of Satan on a plank road what he can't set fire to."

"When does you think de world gwine come ter an end?" "Lard, know! But I done quit payin' house rent in advance!"

A PLEA FOR THE BOY

To the Editor of the Times. Sir—I have been reading the opinions given on the "boy problem" of the city with great interest, a subject in which for years I have been deeply interested, and in which my sympathies are with the poor boy, brought up with no idea of right or wrong (except a scared conscience), forced to fight for himself from the cradle (if he had one) every morning by pushing him down; what chance is there for him with his environment and no sympathy from anybody? None whatever.

The respectable boys are well looked after outside the home as well as in it; but the poor boy, with no home training and perhaps an inherited tendency for evil, no good influence, no helping hand stretched out, no comforter anywhere, is left to his own evil nature, and some say, "arrest him every time he commits an offence, and give him severer punishment," (and so harshen and make him more determined to make trouble).

As one of a number of the Order of the King's Daughters, who were interested and tried to interest others in the uplifting of these boys by getting them some place of their own; I believe our Lord will require their souls at the hands of the Christian people of St. John.

They are boys, with a boy nature, and the coming men. The men of means have their clubs, orders, etc.; the good boys their home influence and affection, besides Y. M. C. A., boating and other clubs, temperance and boys' brigades, while these boys are debarred because they have not the home training and means, which makes them eligible for membership, although filled with the same longings and ambitions as the better boy; but they will have their clubs, and follow the leading of other boys and men; as they cannot hire a room, they must get some secluded dark place, barn, or some place, out of the way of police, and so the tendency is still downward, and they become gangs.

It means sacrifice of time, energy, and money on the part of Christians, but the reward will be sure. Pity the poor boy, with his discomforts at home and his training for evil, instead of good, and give him a chance. The discouragements and failures for a time may be almost heart-breaking, but it is worth the trial. Even the stranger scaman are looked after and our own poor boys left out in the cold.

The King's Daughters are trying to do their best for the girls of this class, but a crying need is a curly bell rung and enforced for the young girls, who will walk the streets at night and chide the shame of no police matron in a city like St. John!

**ADVOCATES CHANGE IN LOCATION OF MORGUE AND TURNKEY'S OFFICE**

**Sheriff Ritchie Says Morgue Should be Situated on the Water Front--Present Jail Offices Are Too Small and Not Suitable.**

Sheriff Ritchie says that a new and more suitable office is needed for the turnkey of the jail, and suggests that the room above the deadhouse be used for the purpose, and a new morgue be constructed on a suitable site directly on the water front. A number of suggestions have been offered by jail officials and persons who have visited the institution.

Sheriff Ritchie contends that the turnkey's office is not only too small, but very unsuitably located. He had been advocating the change, he said, for several years, and although the matter had been brought before the municipal council and discussed by them, no definite action had been taken. He expressed the opinion that the room directly above the deadhouse would be suitable for the turnkey's office, while the lower apartment could be utilized for the storage of jail property.

The sheriff also pointed out that the present morgue is not suitably located, and should be situated near or directly on the water front, where most of the bodies come from. He recalled the finding of the body of the Indian, Joe Muise,

**Section Men on Dominion Atlantic Railway to go on Strike - - Management Offered Slight Increase But Men Refused it.**

Digby, N. S., Nov. 30--Unless some arrangements are made tonight it is the intention of all the section foremen and men employed along the line of the Dominion Atlantic Railway between Windsor and Yarmouth to go out on strike tomorrow morning and endeavor to tie up the road, as it will be almost impossible to run trains over a road not controlled by regular section men.

General Manager Gilkins was accompanied by Mr. Campbell also of the D. A. R. The latter is in charge of the section men. Disaffection has existed among the men for some time but lack of thorough organization has prevented a regular strike.

The bosses at present get \$1.50 per day in winter, which goes into effect from October 1st to the end of the year. The men \$1.15 in summer and \$1.00 in winter, which goes into effect from October 1st to the end of the year. The men organized and two weeks ago made their demand. The management offered them \$1.10 in winter and \$1.00 in summer. The bosses to get \$1.80 in summer and \$1.50 in winter. This did not satisfy them. And they are now asking for \$1.25 in winter and \$1.25 in summer, the bosses to be paid \$1.75. They now claim to be thoroughly organized with headquarters

**ROB ROY AT THE OPERA HOUSE**  
Rob Roy, the famous Scotch play chosen by the Nannery-Bennie players for Monday night, is far different from any play ever seen in this city. It is known as an operatic melodrama from the fact that at frequent intervals during the progress of the play there are a number of favorite Scotch songs introduced as solo, duets and choruses by the members of the company. Here are a few of the songs to be sung: "My Love is Like a Red Red Rose," sung by Miss Stone; "Through I Leave You Now in Sorrows," sung by Miss Stone and Mr. Hedlung; "My Gallant Braw John Highland," sung by Miss Stone; "A Fane Man Was Robin Hood," sung by Mr. Webster; "And Lang Syne," Messrs. Ryan, Hedlung, Webster and Harland; "Oh, Life is Like a Summer Flower," Mr. Hedlung; "Forlorn and Broken Hearted," Mr. Hedlung and Miss Stone.

**Mrs. C. Currie**  
FREDERICTON JUNCTION, Nov. 30--The death of Mrs. Comfort Currie took place yesterday morning, after an illness of six weeks. Mrs. Currie was the widow of the late Hatfield Currie, and was eighty-four years of age. She was a woman of sterling qualities, and will be much missed by her many friends. She leaves a family of three sons and two daughters.

**Views on the Tariff**  
Toronto, Nov. 30--At a largely attended meeting this afternoon of the tariff committee of the Canadian Manufacturers' Association, the new tariff was discussed at length, and the following was the official opinion regarding it:

"Generally speaking the new tariff is a disappointment. The general tariff is practically the same as the old tariff and will not encourage the establishment of new industries. The recommendations made by different manufacturers regarding their individual lines of industry have seemingly been disregarded.

A case to be tried in the near future is that of Beloved against the Kennebec Steamship Co., owners of the river steamer Hampton. John Beloved, the plaintiff, is administrator of the estate of his son, the late George Beloved, one of the Hampton's crew, who, on the 4th of June, four days later. The plaintiff claims that the deceased came to his death while in the discharge of his duties, while the company deny their liability on the ground that he had no business where he was at the time. W. H. Trueman for the plaintiff and A. I. Trueman, K.C., for the defendant.

L. R. Ross has received four fine pleasure boats from the workshop of John Richardson, Sherburne, N. S., and he intends taking them to his private boat house at Sandy Point on the Kennebec. The boats are of American construction, made in one piece, with oak seats and gunwales, while birch linings, covered with the finest material, are fitted with the latest style swing rowlocks and finished in the natural wood.

Robert Donald, a Singshoreman, residing on the Montserrat, last night slipped and fell down one of the hatches, a drop of about twenty feet. Donald lighted on his arm and also had his leg injured. He was taken to the C. P. R. hospital in St. John's, where Dr. Kenney and a nurse in charge rendered surgical assistance. It is estimated that the hospital about three-quarters of an hour, he was able to go to his home on Protection street, Charlottetown.

D. H. Duggett, of Grand Harbor, Grand Manan, made a peculiar find there on Nov. 16. He discovered on the beach four large books (carefully tied together) of Chief Engineer E. T. Brown, of steamship "Jelly," of Guenock, Scotland, commanded by Captain E. K. Perry and bound from Shields to Tainish. It would be interesting to know how the books reached Grand Harbor.

**VERY PREVALENT IN YOUNG WOMEN**  
A Condition of "White-Bloodedness" is Fast Increasing.

It is always associated with languor and susceptibility to cold. All the mucous surfaces, such as the gums, lips and eyelids, are blanched and waxy looking, the skin is pallid and cold.

The pulse becomes rapid and feeble; there is also loss of appetite and enfeeblement of the system, and a tendency to faint. In extreme cases there is complete disappearance of the menstrual flow and drooping of the breasts.

Physicians know of no remedy so prompt in results as Ferreroze, which contains all the elements lacking in debilitated blood.

Ferreroze not only improves the present quality of the blood, but actually forms more blood--the rich, red kind that nourishes and feeds the organs that require assistance.

"About a year ago," writes Mrs. S. G. Stanhope, of Rollaway, "my daughter complained of feeling tired. She was very pale and listless, and kept losing strength until too weak to attend school.

"We read of a similar case, that of Miss Deacon, of Stirling, Ont., being cured by Ferreroze, and this induced us to get it for Elaine. It took three boxes of Ferreroze to make any decided improvement, but when six boxes were used my daughter was beginning to be her old self again. It didn't take much longer to make a complete cure. It has made a new girl of Elaine. She has gained ten pounds in weight, and looks the picture of perfect health. She is stronger and enjoys the best of spirits."

Every growing girl and young woman can make herself strong and healthy with Ferreroze. Price 50c. per box, or six for \$2.50, at all dealers.

**BOSTON BLACKMAILERS SENT TO PRISON**  
Boston, Nov. 30--For impersonating agents of the Watch & Ward Society and attempting to extort money from Augustus M. Woodman, a business man, on the strength of blackmailing threats, Charles O. Woodman was sentenced today in the superior criminal court to a term of five to seven years in the state prison, and Harry A. Mardon was given a sentence of three years in the house of correction.

Woodman and Mardon made frequent demands on Mr. Mardon for money, and threatened to expose him for an alleged indiscretion. They finally became so tormenting that he applied to the police, and their arrest followed.

R. W. McLellan and wife, of Fredericton, were in the city yesterday.

**Just Where the Danger Lies**  
In many catarrhs, cocaine is the largely used ingredient; in consequence the drug habit may be formed. To be really cured of catarrh, to do so quickly and pleasantly, doctors say Catarrhicine is superior to any other remedy. It heals sore places, stops discharge, prevents hacking, spitting and bad breath--does this by first destroying the cause of the disease. Catarrhicine is no experiment; it is a tried and proven cure that is guaranteed for bronchitis, throat, nose and lung catarrh. Two sizes, 25c and \$1.00 at all dealers.

WONT ROW IN U. S.

LONDON, Dec. 1.—The Standard this morning declares that the Oxford and Cambridge boat clubs have decided to withdraw the invitation to row at the Jamestown Exposition, in 1907. The reasons given are as follows:—First, on account of expense, and second, because there is strong feeling here that the Americans should establish a big regatta of their own similar to Henley, where foreign crews might compete.

THE HAMILTON STRIKE

It is worth pointing out that the striking street railway carmen of Hamilton are in their negotiations with the company. They were ready to submit their dispute to an arbitrator, but they refused to do so before the Ontario Railway Board. Under all the circumstances and in consideration of the fact that the company controls a service of thousands of people, dependent on the street cars, it is the opinion of the Ontario Railway Board that the company's action should be upheld.

THE HOME CIRCLE

Frocks for the Debutante. By Dorothy Dale.

In planning an outfit for a debutante too much elaboration as to trimming should be carefully avoided, and especially for street wear her frocks should be rather severe in outline.

One of the leading New York tailors, who makes a specialty of young girls' suits, has a favorite model which will be much worn this winter.

Quite possible to get a very effective little gown at a very small cost. Very often it is sold in the large stores at great bargains.

ly takes some cleverness to contrive dainty and effective evening gowns which will be inexpensive, but excellent results can be obtained in these light-colored frocks for a very small outlay.

DOROTHY DALE.

A Man's Den. By Beatrice Carey.

A room which the man of the house can have entirely to himself is always much appreciated, and often a small apartment, too small for a bedroom or sitting room, can be made into a very cozy little den or smoking-room.

The room should contain a solidly built desk or table fitted with stationery, pens and ink, etc., and there should also be shelves or a table or so containing newspapers, magazines or novels.

moderate a large piece of work, but an embroidered parlor strip or a small piece of lace can very conveniently be tucked away in it.

BEATRICE CAREY.

Some New Fish Recipes. By Sarah Cranford.

ROLLED FILLETS OF FLOUNDER.—Sprinkle each fillet with salt and pepper. Spread it with a mixture made of butter, lemon juice and parsley cut in pieces, not chopped fine.

CREAMED FISH WITH POTATOES.—Make a good white sauce, or any other sauce preferred. Cut cold boiled fish in pieces, one or two inches across, and heat them in the sauce without breaking them.

BAKED ROE COQUETTES.—Cook the roe in boiling salted water 15 minutes, drain and wash. For each pint of roe beat together one-fourth of a cupful each of butter and corn starch and cook in a cup and a half of hot cream 10 minutes.

An Inexpensive Christmas Gift.

The illustration shows a rather unusual little pocket workbox, which is small enough to be tucked into one's shopping bag or muff, if desired.

DOROTHY DALE.

An Animal's Toilet.

Cats large and small make the most careful toilet of any class of animals, excepting those of the pomona. The lions and tigers wash themselves in exactly the same manner as the cat, wetting the rubber-like ball of the forehead and imperious and passing it over the face and behind the ears.

BEATRICE CAREY.

croquettes, egg and bread crumb and fry in deep fat. CREAMED FISH ON TOAST.—Pick into fine flakes enough cooked fish to make a scant pint. Heat it thoroughly with a cupful of milk. Heat separately another cupful of rich milk, thicken with a level tablespoonful of flour, rubbed smooth in a little cold milk. Add to this a teaspoonful of butter, a half-teaspoonful of salt and a quarter-teaspoonful of pepper.

**Religion and Life**

SERMON PREACHED BY REV. A. B. COHOE IN BRUSSELS STREET CHURCH, SUNDAY EVENING, NOVEMBER 26th, 1906.

The Christian's faith is not a mere intellectual assent to a set of dogmas. It is a living, breathing thing, which fills the soul with light, and which gives to the life a new meaning and a new purpose. It is a power which enables us to overcome the weaknesses of our nature, and to live in a way which is pleasing to God. It is a power which gives us the ability to love our neighbors as ourselves, and to live in peace and harmony with all men.

**UNBELIEF.**

We do not lack the possibility of reverence. We lack the power of obedience to that reverence. That is the real tragedy of life. The glory of the secret-place becomes the foolishness of the counting-house. The supremacy of the soul is mockingly disregarded by the judgment of practical life. We are ravished by the high destiny of our being and the unlimited possibilities of human life. But the sense of the market-places, the judgments of worldly wisdom lead us to regret our foolishness and to damn our lives with things which are practical. We hear the soul speak as in a deep sleep, but, as we wake and forget the dream in the clear light of common day, which is waking and which sleeping? Is it sense, or is it unbelief? Whatever it may be, obedience to the dream implies the obedience to the day, destroys the soul.

**SELF-DISTRUST.**

What use to mock a man in hell with a dream of heaven? What I am, what I feel, the essential. What might have been is small comfort. The placid waters of the upper river will not save a man caught in the grip of the current that rushes toward the fall. What use to cherish the vision beautiful in the mind, if it is not realized in the life? Many a man sees that righteousness is right, but feels himself doomed to sin because of his weakness. He is held in the clutch of sin by the power of his unbelief.

**THE HOPELESSNESS OF THE TASK.**

Or, the Christian is a man helpless because of his perfection. To Paul there came the colossal task of preaching the gospel to the Gentile world. Small were the spirits who tried to do. To make St. John a city for boys and girls, for youths and maidens, to beat back the darkness and bring in the light, to bring bright and happy home circles and minister to a limited community, to save the souls of a city of men and women or of one man or woman, are tasks before which the hesitant and the weakling shrink. Any one who has lived with discernment that unbelief condemns a man to failure and weakness. If a man cannot believe that he shall obey the commands of the Father, he never will be free. He never will be free until he believes that a task can never be accomplished he will remain small and in the accomplishment of the task.

**POWER.**

The testimony of Christian men is that they possess a power that enables them to make their way through the examination of their experience leads to the conviction that they were actually able to keep the vision of the secret place in the midst of the market-places. Their own explanation of the fact is that they had a sense of companionship, of communion with the Father in the secret place. The soul alone fathomed the meaning of life, and understood the hidden nature of things. The ideal was the only reality. He believed that it was the Father's universe, that, therefore, the judgment of practical common-sense was common, but was not that that faith in every relation in life because they had that communion in every hour of life.

Every man has been swept by the power of high impulses, but this experience is succeeded by the reign of low and selfish instincts. The world about him which is blind to temporal and eternal, is indifferent reality. But to Jesus, at least, the seen and the temporal faded away before a more transcendent reality. By the power of apparently hopeless tasks his disciples carried prayer. He felt the impulse of the purpose of the Father in the midst of every earthly circumstance. As it was with Jesus so has it been in a measure with his disciples. They have been sustained in their obedience to the secret place of the soul by the presence of a sense of the unseen and eternal.

**HABITS BROKEN.**

Moreover, the power of habit has again and again been broken by the power of faith in God. Many a man doomed by his unbelief to a servile life of sinfulness, chained with iron to the self that he had created, dashed to failure by his own despair, has been freed by a sense of companionship with the Eternal Father. It is not theory. It is a fact, and a fact never wholly explained. But when a man comes to feel that God is his Father he experiences a renewal of power, of hope and of life. It is regeneration for him.

**POWER FOR GREAT TASKS.**

Furthermore, the witness of the past is, that men have been sustained in the performance of their apparently hopeless tasks by their unflinching faith in God. They have marched round the ramparts of evil, confident that these must fall. They have not feared to live the ultimate result with God. They have said:

"What's time? Leave Now to dogs and apes, Man has Forever."

They have wrought at tasks of eternal value, heedless of the temporal gain, confident in the power of a deathless God.

**ACTION.**

Such has been the power of the men of faith. But it is not all mockery to the man who has not faith, who knows not God, who cannot believe? We are doubtless weakened, defeated, condemned to despair by our scepticism, but can a man win power by credulity and faith by sheer dishonesty? The answer comes from the experience of men that there is no such easy way to faith and power. The men of faith know their power by obedience to the

**100 Per Cent. Advance in Price**

The first allotment of treasury stock, at the introductory price of 25c. per share, has all been sold and disposed of. The public has responded most generously, and our shares have been subscribed for by men and women in all walks of life, and lately the big investors have commenced to look up our proposition and invest heavily.

**British Columbia Amalgamated Coal**

**Now 50c. Per Share.**

The investment will prove to be most remarkable, from a financial point of view, and the shares you can today buy for 50c. should be worth at least \$10.00 in a few years, and provide a source of income that will increase in value from year to year.

**"To See the Opportunity and Grasp it in Time, Makes a Man the Master of His Destiny"**

**DO YOU REALIZE**

These shares may be worth \$100.00 in eight or ten years from now, and that 100 shares, which you can today buy for \$50.00, may reach a cash valuation of \$100,000.00.

There never was a failure in coal in the Western States and in British Columbia. Our company controls 17,000 acres of coal land, estimated to contain hundreds of millions of tons of coal. The supply is so great, that the engineer who has made the estimates says, that the supply would last for many hundreds of years, no matter how extensive the output would be.

Our coal is a high-class bituminous coking coal, and free from sulphur, and makes the best furnace and smelter's coke in Canada and the United States. The coal generates a heat of about 14,000 British thermal units, and is equal to the very best bituminous coal in the United States, such as Cumberland and Pocahontas, whose coal averages from 13,000 to 14,000 heat units (British thermal). The average assay runs as follows: Fixed Carbon, 61.47; Volatile, 31.42; Ash, 3.85; Moisture, 3.23; Sulphur, None; and the coke averages: Fixed Carbon, 22.00; Ash, 8.00; and carries no sulphur.

The British Columbia Amalgamated Coal Co. will commence active operations early next spring, and one of its four properties will be equipped with the very best of machinery and up-to-date apparatus to mine coal on a big scale, the aim of the company being to equip one of the mines and place it on a producing basis at an output of 3,000 tons of raw coal per day. This we expect to have accomplished by the latter part of next summer, and a year thereafter there should be a handsome dividend paid to the stock holders. This dividend will increase from year to year, as the enlargement of the output will keep pace with the demand, and in a few years the British Columbia Amalgamated Coal and Coke Co. will be a handsome dividend payer to its stock holders. The officials of the company are all determined to make this a grand success, and we cordially invite you to join us in this great enterprise.

We are now negotiating to employ one of the best known geologists and coal mining engineers in Pennsylvania to have charge of our work and select the machinery and the equipment needed for our operations.

We furnish the best of bank references, and ask you to call at our office, or write, for further particulars.

**DR. ANNAND WILL BE HERE NEXT WEEK**  
Moderator of Maritime Presbyterian Synod to Address Meetings in St. John.

Rev. Dr. Annand, the moderator of the Synod of the maritime provinces, will visit the city next week. He comes in response to an invitation from the Women's Foreign Mission Society of St. David's church, to address a public meeting in connection with their annual thank-offering anniversary. He will speak in St. David's church on Tuesday evening, December 4th. While in the city he will also address a mass meeting in St. Stephen's church on Wednesday evening, and on Thursday evening in the Carleton Presbyterian church. Arrangements have also been made by which he will speak in St. Stephen and Milltown on Sunday the 11th. The following evening he will speak at Hartley Station, and on Tuesday evening, the 13th, at Fairville Presbyterian church.

Dr. Annand has been a missionary of the Presbyterian Church in Canada for thirty-three years. During all that time he has labored in the New Hebrides Islands, a group about 1000 miles north-west of Sydney, New South Wales. His field of labor at present is Santo, the largest and most northerly of the group. These islands are the field in which such men as Dr. Geddie and the martyred Gordons labored, and where John Williams was murdered. Dr. Paton is still at work there.

Dr. Annand has not been in Canada for twenty years, and it is not likely he will ever return to these shores. He leaves here to resume his work in that distant field. During his visit to St. John he will be the guest of Mr. and Mrs. A. R. Melrose, 173 Waterloo street. Everyone is invited to attend all these meetings which have been arranged.

**James Fudge**  
The death occurred at an early hour this morning, at his home on the old Black River Road, of James Fudge. The deceased has been a resident of the parish of Simonds for the greater part of his life and his death will be heard of with regret by all the community.

The funeral will be held on Monday afternoon at 2 o'clock from his late residence to St. Joachim's church. Interment in the new Catholic cemetery. Coffins will leave King Square at 1:15 sharp.

**THE DRILL HALL**  
A meeting of the executive of the Exhibition Association is being held this afternoon in the offices of the association. The purpose of the meeting is to appoint a sub-committee to meet a committee from the city council to consider what can be done to save the exhibition buildings from being removed to make room for the new armory. It is probable that a delegation will go to Ottawa to interview the minister of militia in the matter.

**BOARD OF TRADE**
