BULGARIAN SERBIA PRACTICALLY AT WAR

Serbia Hands Passports To Former's Minister In Sofia

Attitude of Greece to Allies "Benevolent Neutrality"—More Troops Land at Saloniki—A Remarkable Manifesto By Bulgarian Government

Nish, Serbia, Oct. 8.—The diplomatic rupture between Serbia and Bulgaria is complete. The foreign office has handed his passports to the Bulgarian minister.

Although there has been no formal declaration of war, the cordial reception by Bulgarian officers in Sofia of German aviators who dropped bombs on Belgrade and Nish yesterday, is regarded here as tantamount to the commencement of hostilities against Serbia by Bulgaria.

GREECE "BENEVOLENTLY NEUTRAL"

London, Oct. 8.—A message to the Times states that the Greek government has decided to issue a declaration of its attitude of "benevolent neutrality" toward the Entente powers.

HOW BULGARIA EXCUSSES HERSELF.

Berlin, Oct. 8.—The Frankfurter Zeitung asserts that the Bulgarian government has issued a manifesto announcing its decision to enter the war on the side of the Central Powers. This, as quoted from the Frankfurter Zeitung, states that Bulgaria would sacrifice if she did not sign herself with Germany and her allies. The manifesto follows:

"The Central Powers have promised us parts of Serbia, creating an Asiatic Bulgarian border line, which is absolutely necessary for Bulgaria's independence of the Balkans. We do not believe in the promises of the Quadruple Entente. Italy, one of the allies, treacherously broke her treaty of thirty-three years. We believe in Germany, which is fighting the whole world, to fulfill her treaty with Austria.

"Bulgaria must fight at the victor's side. The Germans and Austro-Hungarians are victorious on all fronts. Russia soon will have collapsed entirely. Then will come the turn of France, Italy and Serbia. Bulgaria would commit suicide if she did not fight on the side of the Central Powers, which offers the only possibility of realizing her desire for union of all Bulgarian peoples."

The manifesto states that Russia is fighting for Constantinople and the Dardanelles. Great Britain to destroy Germany's competition, France for Alsace and Lorraine and the other allies to rob foreign countries. The Central Powers are fighting to defend property and assure peaceful progress.

ALLIES STILL LANDING TROOPS.

Paris, Oct. 8.—The Havas Agency has a despatch from Athens under Thursday's date, saying: "The disembarkation of the Allies at Saloniki continues."

Will Not Oppose Ministry.

Paris, Oct. 8.—An Athens despatch to the Havas Agency, under Thursday's date, says: "It is understood that Premier Zaimis has informed former Premier Venizelos of his confidence in the government, by the chamber of deputies is absolutely essential, as a mere vote of tolerance would not give the government the requisite authority to deal with the grave problems of the present hour."

The supporters of Venizelos, who constitute a majority in the Greek chamber, it has been learned on high authority, will not oppose the new ministry. Overthrow of the Zaimis cabinet would mean the dissolution of the chamber, which is considered extremely hazardous as the Greek constitution does not permit fixing a date for elections during mobilization of the new army.

Turks Planned Destruction Of Whole Armenian People

Horrors Without Parallel in World's History—What Will United States Do To Follow up Protest?

Copenhagen, Oct. 8.—Revelations regarding Armenian atrocities, made this week in the British parliament, are the subject of outspoken editorial comment here. The Politiken says:—

"Turkey attempted no less a task than the destruction of the whole Armenian people. The heartless and gruesome horrors which these deeds reveal are without a parallel in the history of the world."

"One would have thought," says the Politiken, "that Germany would have been glad to have done something in this matter, if only in the hope of obliterating, in part, the world's memory of Belgium. European Christians who, with any justification, can be accused of having some responsibility for these gruesome events, will find their culture held in slight esteem."

The Berlingske Tidende declares:—"What has happened surpasses anything ever heard of before."

All the papers ask what degree of firmness the United States will exert in the enforcement of its protest and they unite in urging that all neutral states join in vigorous representations to Turkey.

CANNON FIRING ON WEST IS KEPT UP

Paris, Oct. 8.—North of Arras last night the cannoning continued, with both sides taking part, according to announcement by the French War Office this afternoon. There was also artillery activity in the region of Roye and to the north of the river Aisne.

In the Champagne district there was violent bombardment on the part of the German artillery, with very energetic replies from the French cannon. There was also active fighting in the trenches southeast of Tabora.

FRENCH GAINING THE UPPER HAND

Paris, Oct. 8.—Soldiers wounded at the capture of Tabora are now arriving in Paris. All are of the opinion that the French are gaining the upper hand, not only through artillery, but because of the gallantry and dash of the infantry.

"At the rate things are going," said a wounded sergeant-major, "it will be a long time before the Germans are in a position to think of a counter offensive. Our heavy artillery 'sprays' their rear formations, paralyzing the bringing up of reinforcements and supplies to such a degree that the last prisoners captured at Tabora did not even in more than forty-eight hours and had no cartridges in their pouches."

A TRAVELERS' PLATOON FOR 88TH

Halifax, Oct. 8.—The Norwegian bark Queen, from Liverpool to Halifax, with 5,200 bags of salt, has foundered at sea. A message to C. P. Harvey, agent of marine and fisheries, states that the three-masted schooner Bravo Long overdue at Sydney, with cargo of hax coal from Vancouver Haven.

MASSACRE BY YAQUI INDIANS

Douglas, Ariz., Oct. 8.—Twenty-three inhabitants of La Colorado, a mining town in the Sonora district, were massacred by Yaqui Indians, who captured the town this week, according to reports here. It was said that women and children were beaten to death.

CONTRACTS FOR THE NEW PROVINCIAL BANK HOME

Contracts for remodeling the Purton building in Charlotte street for the permanent quarters of the Provincial Bank of Canada have been awarded as follows: Masonry, B. Moore & Sons; carpenter work, Edward Bates; painting, James H. Fuller; metal work, James McDade; plumbing and heating, J. H. Doody; electrical work, Frank E. Jones.

WILL NOT BUY GUN BUT WILL GIVE TO THE FUNDS INSTEAD

The railway mail clerks of this district have abandoned the idea of presenting a machine gun to the militia department for one of the overseas departments. The fund was commenced by the time such subscriptions were being made generally and a substantial amount has been contributed. Owing to the fact that the fund is being closed, it has been decided that it will be just as well to leave the matter open and allow the fund to be closed at a later date.

GEORGE CURRAN WOUNDED

Frank P. Curran of Paradise Row has received from his son, Signaller George Curran a field post card saying that he has been wounded in France and is in hospital in Bedford, Eng. The lad's name has not yet appeared in the casualty list, though the card was written on September 24. The young soldier's condition was not stated, but his friends will hope that it is not serious.

FINED FOR SUPPLYING LIQUOR TO SOLDIER

In the police court this morning Robert Hunter was fined \$8 or two months in jail for drunkenness, and an additional charge of \$20 or two months in jail for supplying or treating soldiers in uniform with liquor.

A WELCOME OFFER

Miss Brenda Thompson, whose magnificent contralto voice is known to every music lover in the city, and who is the leader of the choir of St. David's Presbyterian church, called on Mayor Frink this morning and informed him that if a recruiting meeting is to be held in the Imperial Theatre on Sunday evening she will be glad to assist personally and could also arrange to have a full choir present to aid in the singing.

PRESBYTERIAN SYNOD CLOSED

Unfinished Business Disposed of This Morning

THANKS EXTENDED TO CITIZENS

Widows and Orphans Fund Included in Budget—Amalgamation of Committees Left For Next Synod—Report of Hunter Building Fund

The closing session of the maritime provinces Presbyterian synod for 1915 was held this morning in St. Andrew's church. Unfinished business was the order of the day and it was disposed of with great celerity.

Among the matters dealt with was the question of including the W. & O. fund in the annual budget and this was decided upon. The recommendation to home missions, augmentation and social service were all left over until the next synod for further discussion. In order to encourage the delegates to remain until the end it was decided that those who leave before Thursday noon without permission shall not benefit from the synod fund.

A cordial vote of thanks was extended to all who assisted the synod in any way. The press was included and but for the kindness of the citizens of St. John's, the press is equally indebted to the officers and members of the synod for the extreme kindness and courtesy shown to their representatives.

The synod adjourned to meet next October in St. John's. After a meeting which had been marked by the business-like way in which the transactions have been expedited and by the good feeling which has marked all their discussions and deliberations.

When the synod resumed this morning it was decided, on motion of Rev. W. T. Suckling, that the Widows and Orphans Fund be included in the budget, thus disposing of a matter which has been reported on favorably by the committee. Rev. S. J. MacArthur moved that the synod approve of the proposed amalgamation of the funds was decided. On motion of Dr. Sedgewick the whole matter of amalgamation of the committees was referred until the next synod.

The trustees of the Hunter Church building and reporting on the surplus. The surplus was quite sufficient to meet all the obligations and to have a considerable surplus. But the demands during the past three or four years have largely increased. Our surplus has not been so large and we have been compelled to hold over some worthy applications for assistance to a later date. Several grants already promised have not yet been paid. With the small balance on hand and the increasing interest we will endeavor to meet these promises as soon as possible. Since our last report the following grants have been made—Malone Bay, \$200; Blue Rocks, \$200; Kentville, \$200; Wolfville, \$200.

MINISTERS' PLATOON IS POSSIBILITY

Section At Least To Be Raised In Nova Scotia

LOCAL NEWS OF WAR

Nova Scotian Gets The D. S. O.—Platoons in Halifax—Rev. Mr. Suckling Anglican Chaplain of the 85th

A Halifax despatch says that in consequence of the large number of clergymen who have applied to join the 85th Nova Scotia Highlanders, authority has been given for the raising of a section (fourteen men), or if sufficient members are available, a platoon fifty-four men composed entirely of clergymen.

The 64th Battalion at Sussex, now has more than 2,000 men and recruits are coming in daily. While many rumors are in circulation regarding the disposal of the corps for the winter, nothing as yet is known.

Col. Fowler is at present in Halifax completing arrangements for recruiting and mobilizing the 88th, and will at once begin the active work.

Chaplain of 5th. Rev. W. T. Suckling, rector of the Anglican church at Joggins Mines, has been appointed chaplain of the 88th regiment, now being organized in Nova Scotia.

Complaint from St. Andrews. Beason—St. Andrews does not seem to be a favorable place in which to hold recruiting meetings, though just why we are at a loss to understand. It ought to be a good place for such a purpose, and speakers might be procurable if an effort was made. Perhaps someone who has the real interests of the Empire, the Dominion, the province, the county and the town to heart may be able to help.

Another Minister Goes. Rev. George Mitchell, pastor of St. James' Presbyterian Church, Oxford, N. S., will go to the front with the Dalhousie Hospital Corps. He passed the necessary physical examination before Dr. C. W. Bliss last week and signed the enlistment roll before Major W. A. Pillsbury. He expects to report for duty about the first of November and it is said to be quite probable that the corps will cross the water by the end of the year.

Platoons in Halifax. Halifax Echo—The young business and professional men's platoon is now complete. Their presence every day at the Armories should be an inspiration to another sixty young professional and business men of Halifax to fall in with them. There are some 600 such men in Halifax who can well afford to be there with their fellow-citizens. From some number another platoon is expected within a short time. Bankers, brokers, scientists, clerks, insurance agents, commission merchants, students, druggists, teachers, lumber merchants and so on throughout the whole category of professional and business men, every man physically fit to enter military service is expected to consider the call for a second platoon, and answer that call to the strict dictates of duty.

Annapolis Man Gets D. S. O. A letter has been received by ex-Major Alice of Annapolis from his son, Lieutenant H. B. Alice, R. A. M. C., attached to the 1st Royal Munster Fusiliers, dated at Gallipoli, August 20th, informing him that he had received the D. S. O. for rescuing two wounded men and returning the second time and bringing a wounded officer, under the heavy fire.

FOUR RECRUITS. At the Mill street recruiting offices today four men were enrolled for overseas service.

Australians Make Important Gains at The Dardanelles

Paris, Oct. 8.—A despatch to the Havas Agency from Athens, dated Thursday, says: "The Australians have made important progress in the Surva region of the Gallipoli Peninsula and on the southern front there."

"According to reliable information from Constantinople the audacity of the Turks knows no bounds now that they feel a German attack on Serbia is imminent. Greeks, Russians and British are being severely maltreated. The representations of the American ambassador prove ineffectual."

"A Mytilene despatch received here asserts that a French seaplane bombarded Aivali, Asia Minor, on Wednesday morning."

All-Night Rain Had Made It Very Doubtful

FIRST OF WORLD SERIES

Contest to Be Started at 2 O'clock, in Philadelphia, With Alexander Probably Pitching For the Home Team

Philadelphia, Pa., Oct. 8.—Philadelphia baseball fans and visitors from many sections of the country, who were fortunate enough to secure tickets for the world's series games, awoke this morning to find the sky overcast, and the National League park soaked from a steady rain that continued throughout the night. Their hopes of witnessing the first contest between the Boston Americans and the Philadelphia Nationals today were not entirely blasted, however, as the weather man said there was a slight chance that the clouds might lift in the forenoon and give the sun and wind an opportunity to dry the playing field.

All day yesterday and last night the grounds were protected as much as possible. While the outfield was exposed to the weather, it has a drainage system which officials of the club said would put it in fair condition a few hours after the rain ceased. One thing is certain, there will be no postponement of the initial contest if it is as possible to play ball.

What the Managers Say. Manager Carrigan declared that his men are as fit as a fiddle and are going out victorious in the series, declined to make any predictions. "I hope we will win," he said. "The boys put their hearts and soul into bringing the pennant to Philadelphia and they will strive just as hard to win the world's title. I know that nearly all the experts pick the Red Sox to win, but this does not injure us in the least."

"Alexander has been our mainstay in the box and he has performed wonderfully all year, but one man not over thirty years of age, who has worked only about one-third of our games. "Some people are inclined to the opinion that if the Red Sox should beat Alexander, we would throw up the sponge. We would not. We have Deane, Myer, Behlman, Rizey and McQuillan, any of whom is good enough to beat a lot of clubs in the right, an every pitcher is in first-class condition."

Probable Line-up. No official announcement as to the batting order for the opening game has been made by either Moran or Carrigan but it is virtually certain that Alexander will do the pitching for the Philadelphia while Shore was believed to be the most likely candidate to oppose him. Burn and Cady probably will be the opposing catchers. The probable line-up for today's game follows:—

Philadelphia Nationals—Stock, 1b; Bancroft, s.s.; Paakert, c.f.; Cravath, r.f.; Luderus, 1b; Whitted, 1b; Niehoff, 2b.; Burns, c.f.; Alexander, p. Boston Americans—Hooper, r.f.; Scott, s.s.; Speaker, c.f.; Hohlstedt, 1b.; Lewis, 1b.; Gardner, 2b.; Barry, 2b.; Cady, c.f.; Shore, p.

Umpires—(N. L.), Klem, and Rigler; (A. L.), O'Loughlin and Evans.

LATER

Philadelphia, Pa., Oct. 8.—The wind shifted into the northeast, blew away the storm clouds, and permitted the sun to shine brightly to the delight of the thousands of fans who had tickets for the opening contest. At 10.45, announcement came from the National Commission that a game will be played, starting at two p.m.

WHERE ARE THE MEN?

Have the young men of St. John made up their minds that they do not care a button whether Britain or Germany wins in this war? Have they decided that it does not concern them whether Canada remains a free Dominion or becomes a German colony?

THE UNITED STATES ARMY

The question—What could the United States army do if that country became engaged in war?—is dealt with by Mr. J. Bernard Walker in the American Review of Reviews. He says the actual strength of the trained army that could take the field if the United States were invaded is 80,000 men, made up of 30,000 regulars and 50,000 effective militia.

The attendance at the recruiting meetings would certainly suggest that the men care little and the women less. Why, then, sing the national anthem any more? We may as well look this situation in the face. The news from the war zone is not satisfactory. It indicates that the British Empire must put forth its full strength or there will be no British Empire. That is the issue—plain and simple.

The citizens of St. John must wake up. The attention of the people is too much divided. There are too many appeals for attention to other things when the one great and essential thing at this moment is to get men, and more men.

Do the business men of St. John realize the situation? Do the women of St. John realize it? If they do, why do they do general enthusiasm, and why do gifted speakers like those who spoke at the Opera House last evening find themselves facing a mere handful of people, while hundreds upon hundreds stroll up and down past the door on pleasure bent?

A recent letter from London tells of a bomb from a German Zeppelin falling upon a bus in the street, killing every passenger. Are we waiting for German bombs in St. John?

It is quite true that a small number of recruits is secured each day, and that many St. John men are now in the trenches and more en route; but their courage and devotion will have been in vain unless they are supported by steadily increasing numbers.

The business of St. John today is war. Too many citizens either do not believe, or do not care. If they do not believe, their ignorance is appalling. If they do not care, they do not deserve the freedom they enjoy.

Every man and every woman should think war and talk war, with a grim resolution to see it through to a successful issue. That is what the German people are doing, and they have had forty years of preparation.

What the Germans did to the Belgians, the Turks are doing on an even larger scale to the Armenians, with full German approval. Germany could put an end to the Turkish atrocities, but has no desire to do so. The Turks regard this as an opportune time to exterminate the Armenians, and the story of the atrocities perpetrated has shocked the world outside of Turkey and Germany.

The attitude of Greece is still very uncertain. Roumania still refuses to permit the shipment of German contraband through her territory. The Germans are attacking Serbia and French and British troops are hastening to her assistance by way of Saloniki. Greece is bound by treaty to aid Serbia, but the new cabinet gives no sign of an intention to keep faith in that regard.

It has taken the British a month to advance 800 yards along a four mile front at Saloniki in the Dardanelles. This tells us clearly enough how difficult is the task, for that advance was made at heavy cost.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Diamonds

The "War" has not lessened the demand for Diamonds—the reason being, no doubt, that of all commodities "The Diamond" is affected less by business panics or depressions than any other.

It is stable. It holds its value, while other classes of merchandise suffer.

It is thus a safe investment at all times. Our prices have not advanced. We can show you some excellent values.

HIGH SCHOOL TEAM WINS OPENING GAME

Blank Rothersey College Boys 9 to 0 in a Well Contested Match

The opening game of the Intercollegiate Football League, on the Marathon grounds yesterday afternoon, attracted a large number of enthusiasts. The St. John High School boys started off well, vanquishing the Rothersey College team, 9 to 0.

In the first half the locals carried the ball into their opponents' territory and soon were forming on their five yard line. After five minutes of play Captain Williams Donnelly received a quick pass from Quarterback McDonald, and, after a brief but stiff fight, crossed the line for the first touchdown of the game. Fullback Webster endeavored to convert, but failed.

Rothersey kicked off from their twenty-five yard line and the struggle was again on. The locals forced the pace and soon had the ball well down the field. Scrim after scrim was formed and each time the High School boys showed to better advantage. After fourteen minutes of play Captain Donnelly again crossed the line. He was given an ovation as he walked back to try to convert. His attempt was nearly crowned with success for the ball sailed over the tall post, but not quite close enough to be counted.

A few minutes later Kane, who substituted on the half for Gorman who was sick, carried the ball across the line for the third touchdown. Again Captain Donnelly endeavored to kick the ball between the posts, but just failed. From that time until the end of the first half the locals held the Rothersey boys in check and only once did the ball pass the fifty yard line.

In the second half neither team was able to score although several good attempts were made. The locals fought hard at the first of the period, but then tired and played on the defensive. Captain Donnelly's knowledge of the game stood him in good stead and his kicking into touch was largely instrumental in keeping the Rothersey boys from becoming dangerous. This half was a better exhibition of football as the visitors had struck their stride and were fighting hard to score. Despite their efforts the locals held them and only once did they look dangerous.

The High School series is one of the heaviest they have had for some years and with more training should make a

formidable aggregation. They were slow at first in getting down, and many of them made glaring forward passes, but with a little more practice they will make the best scrim in the league go some.

The locals quarters are good and got the ball out well to their half-backs, who played a stellar game. Russell Donnelly is becoming a steady, aggressive player, and was largely instrumental in checking the Rothersey boys in the second half.

The Rothersey boys failed to mark their men. Time after time players were all eyes on the scrim, forgetting that their opponents were stretching out on the field ready for a run around the end. They showed grit and plenty of fight and should develop into a good team. They are all good punters. This was noticed before the game but when they started to play it was conspicuous by its absence. A Beauty Hint

For ageing, wrinkled skins

JUST as soon as you let your skin grow lax and sluggish, the tiny wrinkles, and then the bigger ones are sure to come. But you can keep your skin so firm, so active that it will defy wrinkles and will retain its clear, smooth youthfulness. To do this, make the following Woodbury treatment a daily habit.

Wash your face and neck with plenty of Woodbury's Facial Soap and hot water. If your skin has been badly neglected, rub a generous lather thoroughly into the pores using an upward and outward motion, until the skin feels somewhat sensitive. After this, rinse well in warm, then in cold water—the colder the better. Finish by rubbing your skin for a few minutes with a piece of ice and dry carefully.

Woodbury's Facial Soap is the work of a skin specialist. This treatment with it cleanses the pores, then closes them and brings the blood to the surface. Use it regularly and it will keep your skin so firm, so healthy and active that it will resist wrinkles and retain that fresh, clear youthful look you want it to have.

A 25c cake of Woodbury's Facial Soap is sufficient for a month or six weeks of this treatment. Get a cake today. It is made in Canada and is for sale by Canadian druggists from coast to coast.

While engaged in a conversation, two prominent police magistrates began telling stories of funny cases that had been brought before them.

"Probably the funniest I ever had," remarked one, "was an aged colored man, bearing the earmarks of the south,

who applied to me for a warrant. The offender, it seems, had been blaspheming Rastus before and he had then appealed to me for aid. Standing before my desk he proceeded as follows:

"Yo' honah, I wants a warrant for George Washington. He's dat colored

man what you told to be good two weeks ago, but he's been worse'n eah, sah. I can stand him no longer."

"Hump," I remarked, casually, "seems to me I have heard that name somewhere before."

"Yes, sah," he answered, with alacrity, "two weeks ago, sah."

TEN SUBMARINES  
CROSSED OCEAN

ix in First Fleet From Montreal  
—Eleven Days For Trip—German Cruiser Sunk by One—Others at Dardanelles

New York, Oct. 8.—From advices received here, it is believed that the British submarine which sank the big German battle cruiser Moltke, in the Baltic Sea a few weeks ago, was one of the group of ten assembled in Montreal early this summer, and which crossed the ocean three months or more ago.

These Montreal built submarines journeyed from this side of the Atlantic to the coast of Ireland, then to the Mediterranean, and as far as the Dardanelles, where they have been operating against the Turks with considerable success. Four boats made this journey of about 7,000 miles without mishap of any kind. It is the longest trip ever made by a submarine.

Ten submarines, each about 100 feet in length were built. In four months after the work started the first boat was completed and the others followed very quickly. These boats make fourteen nautical miles on the surface and about nine miles submerged.

Six were to go in the first trip, and they took on their supplies of torpedoes, oil, food, clothing and water. When thoroughly equipped they displaced less than their specifications called for showing greater buoyancy and efficiency than had been expected. A freight steamer had been converted into a machine shop. It was fitted to convey the submarines across the Atlantic, and be on hand in case of an accident. Two British cruisers, the Calgarian and Canada, were also to accompany the undersea craft.

Six left Montreal very quietly and proceeded down the St. Lawrence. Then they went south of Newfoundland and put into St. John's. No accident of any kind had happened, and the men on the boats were enthusiastic about their performance. A short rest was made at St. John's, and then they started off very quietly on the most dangerous stage of their journey to cross the Atlantic.

Cross in Eleven Days  
They proceeded in close company, with the mother vessel close behind, and the two cruisers guarding the column. In less than eleven days they arrived at the British naval base on the west coast of Ireland, where they were inspected by the leading naval officers.

They then went to Portsmouth and were later ordered to the North Sea and the Baltic, and, according to reports from the British Admiralty, have given good accounts of themselves.

The other four made the voyage across the Atlantic just as the first did. When they arrived at Portsmouth they took on a full supply of oil, and then began the second voyage. They went down the English Channel across the Bay of Biscay, and stopped for a short time at Gibraltar. Then they started off again through the Mediterranean to Malta and finally joined the British fleet operating at the Dardanelles. Some have been sent

A Remedy  
For All Pain

"The efficiency of any drug," says Dr. C. P. Robbins, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of a preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often complains of. It is something to relieve his pain. If we can arrest this promptly, the patient is most likely to trust in us for the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is Anti-kamnia Tablets. Many and varied are their uses. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headaches of malarial origin, where quinine was being taken. They appear to prevent the bad after-effects of the quinine. Anti-kamnia Tablets are also excellent for headaches from improper digestion; also for headaches of a neuraltic origin, and especially for women subject to pain at certain times. Two Anti-kamnia Tablets given promptly will, and in a short time the patient is able to go about as usual. These tablets may be obtained at all drug stores. Ask for Anti-kamnia Tablets. They are also indicated for headaches, neuralgia and all pains."

ANOTHER GOOD  
DAY AT AUCTION

Some of the Features For Today and Tomorrow in St. Andrew's and Queen's Rinks

Another very large crowd gathered last night in Andrew's and Queen's rinks at the \$30,000 Patriotic Auction. There were many good-sized sales, with a wide variety of merchandise sold. Much interest centered in the auction of lumber, wood and coal in the Queen's rinks and prices very nearly standard prevailed. Live stock was sold yesterday afternoon, and a pony outfit and donkey outfit were sold, the former to Walter C. Allison for \$108 and the latter to Robert E. Armstrong for \$75. The big sale went merrily on in the several departments in St. Andrew's rinks, and a great quantity of valuable goods was disposed of much of it at bargain prices. Today's Sales.

The sale of a beautiful etching of the Suspension Bridge at 8:30 o'clock tonight will afford interest. It is by John Hammond, R. C. A., and is framed in wood taken from the old bridge. There is also considerable interest in the sale of real estate to be conducted by Commissioner Dethlefsen. A list will be found in another column. Lines of "specials" announced are:—  
The usual bargains in all lines today. Goods from every department will be offered in auction afternoon and evening. Besides the ordinary stock and fixtures, there follows a list of some of the other special articles to be sold: 7 to 10 p. m., St. Andrew's rinks—Groceries, provisions, hardware, ornaments, china, art, pictures, dry goods, boots, furniture, drugs, stationery, and other articles.  
4 p. m.—Mahogany antiques.  
8:15 p. m.—Office specialties and fixtures, printing presses, gasoline engines, also valuable microscopes.  
8:30 p. m.—Etching of Suspension Bridge with frame made of wood taken from bridge.  
8:45 p. m.—Several good lots of real estate, surgical nautical instruments.  
9 p. m.—Silver nautical cup for yachtsmen; also set of surgical instruments found on board of Waterloo.

Travelers' Day.  
At the auction tomorrow the commercial travelers will hold sway. Many will be auctioneers disposing of the lines with which they are most familiar. A meeting of the travelers is called for tomorrow morning at ten o'clock in the Queen's rinks. They are all going to join the "Buy-a-Car-for-a-Dollar" Movement, and they're going to do a few other things not on the program. Tomorrow will be a general "clean-up" day and an endeavor will be made to get rid of all the stock still left, which is a very large assortment.

At an executive meeting of the Ladies' Association of the Natural History Society held in their building yesterday afternoon, the members of the party, one before Christmas entitled "Musical Sketches," and one later on the Life and Work of Natural Scientists. In addition special or invitation lectures will be given to the King's Daughters' Guild, the Harmon Association and the orphan asylum.

S. DRISCOLL OF LORNEVILLE  
HELD ON CHARGE OF KILLING  
SUNBURY COUNTY MAN  
Samuel Driscoll, of Seaview, near Lorneville, St. John county, was found by a coroner's jury to have fired the shot which caused the death of Artemus Driscoll, of Lakesville Corner, Wednesday night. The verdict recommended that he be punished. Driscoll is being detained pending the decision of Attorney General Baxter. Driscoll was one of a party of three young fishermen who left Seaview in a hunting trip in Sunbury county. The other members of the party were William R. Smith and William Steeves.

A slight fire broke out in a house in Main street occupied by Lewis Howitz, yesterday afternoon but was extinguished before any damage was done.

WILL BORROW THE MONEY AT HOME

Domestic Loan to Meet Canada's Financial Requirements - Announcement of Hon. Mr. White

Toronto, Oct. 7.—Addressing the members of the board of trade here today, Hon. W. T. White, minister of finance, dealt with several matters of interest to the financial and commercial community which had arisen since the outbreak of the war.

The slogan which he would give the country was, still is and indeed should be for all time "Production, Production and again Production." What was a few millions of annual interest on war expenditure, as against the hundreds of millions of possible annual increase in production, he asked.

There had been a period of severe dislocation after the outbreak of war, he said. During this period the government had felt that it would be disastrous to abruptly close down public works construction and add to the unemployment.

So far as concerned the war there could be no talk of financial prudence. The life and liberties of the nation were at stake, and no considerations of self must stand in the way of the most vigorous prosecution of which we are capable.

SOLDIERS' WIVES RE-ELECT OFFICERS

At the annual meeting of the Soldiers' Wives League, held in St. Andrew's church school room yesterday afternoon, the efficiency of the executive which has directed the organization during the last year with marked success, was recognized in the re-election of the executive, as follows: Honorary president, Mrs. James Donaville; president, Mrs. George F. Smith; first vice-president, Mrs. J. L. McAvity; 2nd vice-president, Mrs. B. R. Armstrong; 3rd vice-president, Mrs. Murray MacLaren; 4th vice-president, Mrs. W. W. White; secretary, Miss Winifred Barkley; treasurer, Miss Grace Skinner; members of committees, Mrs. George Skinner and Mrs. M. B. Edwards.

SYNOD CALLS ON PEOPLE TO SUPPORT EMPIRE IN WAR TO LAST MAN AND LAST DOLLAR

A patriotic service, the more impressive because of the deep religious feeling which inspired it, was held in connection with the meetings of the Maritime Synod of the Presbyterian church in St. Andrew's church last evening.

The resolutions affirmed the belief of the synod in the righteousness of the war being waged by the empire and its allies and that peace can be secured only by crushing German militarism and bringing to justice the perpetrators of the Belgian atrocities; urging the enlistment of every available man and the practice of economy by those who cannot go; that the temptation to drink be removed from the soldiers in barracks and training camps, and that a day be set aside for national humiliation and prayer.

The work of Pine Hill Theological College was set before the synod and the principal also reported that there is a debt which he urgently desired the church to clear off.

Foreign missions occupied much of the time at the afternoon session, and resolutions covering this phase of the work were adopted. The budget for the schemes of the church, covering missions, etc., was presented, the total being \$181,000 for 1916, as compared with \$188,000 for the present year.

PHILADELPHIA OR BOSTON, WHICH?

Joe Page Casts His Eye Over The Rival Teams--Thinks Well Of Moran--Alexander, Cravatch and Burns Likely Great Factors in Phillies' Struggle--Boston's Strong Point is Team Work

(By Joe Page)  
Patsy Morin or Bill Carrigan—who wins what promises to be one, if not the greatest battle that has yet been staged on the battlefield of baseball? Montreal baseball fans are greatly interested in the Philadelphia club on account of their manager, Pat Morin, at

going from Montreal to Boston via purchase route.  
Morin, while he was with us in 1909 or thereabouts, proved himself not only to be one of those shooting stars on the baseball horizon, but one that grasped every detail of the game, not only from the playing point, but from the managerial end. The writer, who knows him intimately, knows that at that time he was a close student of the only one who ever brought a championship to Montreal—Charles Dooley. One other there was at that time who was instrumental in forming the baseball character of Morin, and that was the old-time short stop—Frank Shibeck—a ball player who was second to none when it came to out-guessing his opponents.  
Pat Morin today has won the National league championship for a city

that for thirty-nine years has been vainly spending money and striving to gain what looked to be the impossible; but, thanks to the early training of their manager, and the wonderful and careful teachings bestowed upon him by such men as Selee and Chance, he has more than made good. The question now is, can he reach the highest pinnacle that it is possible for baseball to give him—the world's championship?  
To the writer's mind, he has a team who, in the season just past, have a slightly lower record both in hitting and batting than their adversaries, the Boston Red Sox; but in a short series of seven games, will that amount to much? With Alexander touted as the world's greatest pitcher by no less a personage than Ty Cobb, there is just that possibility that he may not only work in two, but possibly three games of the series, and if his work shows anywhere near as well as it did in the last game against the Boston Braves, where he held them to one hit, he will more than likely come through with flying colors.  
Burns, another Montreal player, and one whom the writer considers one of the best catchers in the world today, and who was recommended to the White Sox by the writer, is one of those earnest, aggressive, fighting, peppery catchers to whom the other eight men look when it comes to the issue. Burns showed himself, while in Montreal, a catcher who was destined to make others sit up and look. This may be a little far fetched, but it might not be Alexander, Burns and Cravatch will undoubtedly prove to be the stars of the series.

Has the strength and flavor, the quality for baking good things.

No. You may think you are---and perhaps you are---in the ordinary Tailor Shop or Ready-Made Clothing Store, but not at the English & Scotch Woollen Co.

My business is making clothes for men—not writing advertisements. But, day after day, as I see our finished garments put upon customers in our salesrooms, I truly wonder why we are not making clothes for every man in St. John. I do know that the Made-to-Measure Suits and Overcoats that we produce at \$15, no more, no less, are equal to most \$25 garments made in Canada. Mind you—I say I know—and I have the courage to express my convictions.

## CHANGED TO OTTERPOOL

Q. M. S. Jennings Writes of 29th Battery, 8th Howitzer Brigade

A letter received yesterday by Mrs. P. Jennings of East St. John from her son, Q. M. S. Frank X. Jennings, said that his unit, the 29th Battery, 8th Howitzer Brigade, had shifted camp to Otterpool, Kent, where the 2nd Division Ammunition Column, part of which mobilized in St. John, had been stationed for a time.

"The column sailed for France on last Tuesday" he wrote on Sept. 18, "and I suppose are by this time hard at the actual work of waging war. There are three batteries of us here, the 29th, 30th and 31st, and the Brigade Ammunition Column. I was to have been Q. M. S. of the 29th, but was shifted to the senior battery yesterday. Part of our equipment of howitzers is here but as yet we have no horses—we expect them the first of the week. Just how long we will be here we cannot say, but as the instructors arrived today we will no doubt get down to work right at once, and six weeks is said to be sufficient for us in fairly good shape. "The brigade is representative of nearly every province in Canada. We have both first and second contingent men, and some of the most recent Canadian arrivals. Sergeant-Major H. H. Mitchell is with the 29th Battery; Mr. McEachern, who came over with the 29th, is in the 29th; Major McKay is in charge of the 30th. The brigade commander is Lieut-Col. King, who went to France with the first contingent and was won the D.S.O. He is a fine officer and we are looking forward to making good."

## TO BE MARRIED ON NEXT MONDAY IN WESTBROOK

The wedding of George M. Flood of the firm of J. Flood & Son, will take place on next Monday morning in the parish church in Westbrook. His bride being Miss Clara M. Theriault, a popular young woman of that place. Mrs. John Flood, mother of the prospective bridegroom, and his sister, Miss Lillian, accompanied by Miss Helen Hayler of Moncton, will leave today to attend the ceremony. George F. Cunningham, who will act as best man, and W. J. McMillan, will leave tomorrow night to attend. Miss Dora Dame of Westbrook, will assist the bride.

Following the ceremony which will be performed in the parish church by Rev. A. A. Hamel, the bride and groom will leave on a honeymoon trip to New York, returning to St. John in about two weeks, and taking up apartments for the winter in the Queen Hotel. Mr. Flood has been engaged in business with his father for some time, and enjoys the esteem of a wide circle of friends. Miss Theriault is popular with friends here, and both will have the best wishes of numerous friends for future happiness.

## SENT UP FOR TRIAL

The case against Andrew Bennett charged with wilfully destroying furniture in the home of Mrs. Mary Manson, 119 Market Place, West St. John, was continued in the police court this morning and the defendant was sent up for trial.

J. Starr Tait on behalf of the defendant called Mrs. Bennett and her daughter. Mrs. Bennett said her husband had been about the house on last Saturday evening, and later had accompanied her to a store. They went home and retired and her husband had not left the room until the following morning. The daughter told of accompanying her father to church Sunday morning and on their return seeing him remove a ladder from in front of the house. He thought it strange that the ladder was in that position and had removed it on account of it being in front of their window.

Mr. Tait delivered an eloquent plea for the dismissal of the case. The published statement that Mrs. Manson had accused the defendant of bringing an axe into her home and threatening to damage the household effects was erroneous. The evidence brought out that an axe had been found in a room where the defendant had been, but according to the plaintiff no threats were made.

## AN AUCTION INCIDENT

An interesting incident marked the close of the patriotic auction last evening. As the hour for closing arrived, Auctioneer Webber picked up a violin which is on sale, and the crowd prepared to bid. Instead, however, they received a surprise, and a very pleasant one. Tucking the instrument under his chin, Mr. Webber struck up the national anthem, playing it in a way which aroused general approval. He then asked the crowd to join in and God Save the King was sung with a heartiness appropriate to the occasion. At its conclusion three hearty cheers were given for Mr. Webber.

She was a sister to A. T. B. Howard of Fredericton.

## A "National" Point of View

Mr. Manufacturer, when you figure out the profits of your sales force, do you take the force as a whole, or by individuals?

Don't you want to know whether Bill Jones is as good a salesman as Tom Brown?

Don't you eliminate the salesmen who do not hold up sales?

Why not consider your national advertising with the same point in view?

The minute you do you will be convinced that newspapers are the logical media. And once you realize this you will get down to a business basis and know what pays and what does not.

Information helpful to manufacturers will be given on request to the Bureau of Advertising, American Newspaper Publishers Association, World Building, New York.
