HUNS BOW TO THE ULTIMATUM OF THE ALLIES

Sign Agreement Accepting Terms, But Under Protest

Given Till Noon Today, Signatures Affixed Quarter Hour Before—Request for Elimination of One Paragraph

(Associated Press.) Spa, July 9.—Germany's delegates at 11:45 o'clock this morning signed an agreement accepting the terms of the ultimatum relative to disarmament, presented yesterday.

The allied note, which represented virtually an ultimatum, demanded that the Germans accept the terms presented by noon today, and stipulated that, in the event of the Germans failing to carry out the provisions of the demands, allied forces would occupy parts of the German empire.

The decision of the German cabinet to obey the allied demand was reached at an early morning session today, the vote being unanimous. The vote was taken after a telephone communication with Reichstag leaders in Berlin approving acceptance and communicating the decision to the Reichstag and party leaders for the cabinet at Spa to use its own judgment.

An unanimous vote was also taken by the cabinet that the allies should be informed that Germany could not accept these stipulations concerning possible occupation of the Ruhr and other territories provided the disarmament was not executed according to the allies' judgment. It was held that the German cabinet was not bound by conditional reasons from entering into any such arrangement without the authority of parliament.

CONVENTION OF LABOR PARTY OF UNITED STATES

Chicago, Ill., July 9.—The programme of the convention of the Labor Party of the United States, to be held in Chicago, July 11 to 18, is announced by Secretary Frank J. Eaper.

The first day, Sunday, will be given over to hearing addresses from various organizations. These include the Friends of Freedom for India, the Proportional Representation League, and the American Friends of Irish Freedom.

Governor Lynn J. Frazer of North Dakota is scheduled to speak in behalf of the Nonpartisan League. It is regarded by Secretary Eaper as very probable that the Labor Party of Canada will be represented by fraternal delegates.

The Nonpartisan League will be represented by fraternal delegates, but will not participate otherwise in the convention. Max S. Hayes, of Cleveland, chairman of the National Labor Party, will preside.

Nominations for president and vice-president are scheduled for Tuesday if the convention is then ready to act. A platform is also to be adopted then.

CHIEF OF POLICE RIDEOUT

The Montreal chief of police, Mr. Riou, is probably one of the best known figures in the province, and no other official's experience better fits him to pronounce an opinion on the efficiency of the present Prohibition Act. Mr.

CHIEF OF POLICE RIDEOUT.

Rideout does not believe that there has been as much liquor sold under prohibition as before, and gets down to the root of things when he expressed himself as follows in a recent communication to Mr. Donald Fraser: "Much as the bootleggers are to be despised, still I am of the opinion that it is better for the sale of liquor to be confined to bootleggers than sold openly and given credit by respectable merchants. Mr. Riou speaks with considerable authority, and his experience of many years suggests respect for his opinion in this matter." (Adv't.)

THE ISSUE IN SATURDAY'S ELECTION

Important Details That Should be Read Carefully by Saturday's Voters Who Might Not be Thoroughly Familiar With the Conditions — To Thoughtlessly Cast a Vote Against Prohibition Seems Almost Criminal—Less or More Prohibition the Issue—No Citizen Should Shirk Responsibility.

Hundreds of queries indicate that comparatively few appreciate the enormous advantages offered by the opportunity to cast the ballot Saturday in favor of prohibition. The present local conditions, poor or good, lemon extract sales and the existence of dope fiends are all secondary to the paramount question. Do we want more prohibition than during the last three years or less? The latter must mean a new crop of dope fiends, drunks and ruined lives for the coming decade and generation, while the former makes possible, if the present act is retained, to go forward and accomplish more than in the past. This represents—first, to take the sale of liquor for medicinal and sacramental purposes from the drug stores in favor of government depots, as provided for by law at present on the statutes; then, a Dominion referendum on inter-provincial traffic is obtainable by a request through proper channels, which, if successful, as it doubtless would be, makes it impossible for the rich man to stock up his cellar. These and other possible changes, with much better enforcement, which will be aided and abetted by every man and woman who has helped to retain the act, will create a really dry province. From the vote for prohibition and against light wines ideal, but from the other way vote the path leads backward and downward, and the voter who proposes to cast his or her ballot Saturday with the intention of leading New Brunswick in that direction, is not only a poor patriot, but an unfeeling parent and citizen. Prohibition advocates feel confident that the vote Saturday will be in favor of prohibition and against light wines and, if perchance they are wrong, it certainly will be an unfortunate thing for this province. Vote for prohibition and take no chances. (Adv't.)

NIGHT FLIGHT OVER NEW YORK

Wonders of the Metropolis as Seen from the Air — Fourteen Men Make the Trip.

The sight of New York city from the air is one which no man can ever describe or forget, but the night view is a thing to behold at a great silver moon, glowing like a diamond spark, is worthy of rank with the wonders of the world.

Fourteen men on Sunday night had the unique privilege of viewing the panorama of the five boroughs passing two thousand feet below at the rate of one hundred miles an hour. The men flew from Atlantic City up the Jersey coast in the giant two-motored Aeromarine Yacht. They started shortly after eight o'clock, while it was still dusk, and this made the scene progressively more wonderful as the great plane winged through the fading afterglow and gathered darkness northward toward the metropolis.

The night had fallen as the plane soared past Belmar and the Shark River and the great clump of lights which were Ocean Grove and Ashbury Park came into clear view. Onward through the gloom the plane flew, while those on board gazed at the lights of Jersey City and the moon as a scudding cloud loomed it out, recalled Kipling's "Night Mail".

Night had fallen as the plane soared past Belmar and the Shark River and the great clump of lights which were Ocean Grove and Ashbury Park came into clear view. Onward through the gloom the plane flew, while those on board gazed at the lights of Jersey City and the moon as a scudding cloud loomed it out, recalled Kipling's "Night Mail".

On either side bunches of lights marked the closely settled Brooklyn side and lesser groups, Staten Island's little towns. As the plane drew near Manhattan the great torch of Liberty was sighted and the graceful sweep of lights marking the East River bridges. Lower Manhattan, while brightly lighted, did not exceed the brilliance of New Jersey's display, for the great black gaps which marked the great marshes and meadows set off the Jersey city lights. Broadway stretched like a flaming sword through the heart of the island, dimming the brilliance of other avenues by its greater lustre.

The great flying boat descended gradually as it travelled northward up the Hudson. At 80th street, where the Columbia Yacht Club is located, the pilot, W. H. Alexander, reduced his speed, and aided by the glare of huge electric signs on the Jersey shore and the pale light of the moon, set the big plane lightly on the water. The first trip of the night express in real life was over, and the hundred miles or more it

Hardware Association

The regular annual meeting of the Maritime Hardware Association was held on Tuesday in the Pines at Digby (N.S.). The members from St. John, accompanied by several ladies and visitors from some of the manufacturing industries left here on the S.S. Empress on Tuesday morning and returned Wednesday. They had a fine and enjoyable trip both ways. Several matters of importance were discussed. Officers were elected as follows: L. Crowell, Halifax, president; W. G. Stratton, St. John, vice-president; A. W. Morton, H. Stevens, R. Simonds, Halifax, and H. M. Barsh, H. W. Emerson and J. P. Tilton, St. John, additional members of the executive.

Are You Having Home-Baked Beans Tomorrow?

We are! Mother's away—the whole family's tired of canned foods; we wanted a change, and we got it. Yep! Really, truly, home-oven baked beans produced under the most favorable conditions, and ready to serve. Dropped into the College Inn last night, and made the discovery down there that delicious delights the town—you'll see the counter the minute you enter the store. We get our brown-bread, and desert there, too! Salads, cold-meats, pies, cakes—everything to make a happy meal. It's just opposite the Dufferin Hotel, at 106 Charlotte street.

TOMORROW'S VOTE

The people of New Brunswick will decide tomorrow whether they want more prohibition or less. Stripped of all personal or other considerations that are the real issue—more prohibition or less.

Every citizen will have a plain duty tomorrow. It is to go to the polls and vote one way or the other, in order that the verdict may be conclusive.

FOR CONTROL OF MALARIA AND OF HOOKWORM

President's Review of Work of Rockefeller Foundation for 1919.

New York, July 9.—The second installment of the president's review of the work of the Rockefeller Foundation for 1919, to be issued in a few days, tells of its campaigns for the control of malaria and of hookworm disease.

Public Funds to Fight Malaria

As a consequence of these demonstration public funds for malaria control operations are now being appropriated faster than sanitarians can be found to do the work.

Hookworm Control

"Hookworm control has proved a most successful means of convincing communities that health is a purchasable thing."

NARROW ESCAPE OF TWO-YEAR-OLD BOY

Chatham, Ont., July 9.—Through the prompt action of Engineer Grubbs, of the east-bound Pere Marquette express, the two-year-old son of Mr. and Mrs. Lowes, residing two miles east of Merlin, was saved from death on the tracks and got in front of the approaching express. He was noticed by the engineer, who put on full brakes and brought the train to a standstill, not, however, before the little child. The engineer extricated the baby from under the pilot and ran to the arms of his mother, who came running to the scene. The child was not hurt.

20,000 ITALIAN WORKERS ARE TO LEAVE FOR CANADA

London, July 9.—The C. P. R. is negotiating for the immigration of 20,000 Italians as railway workers, and will probably arrange a sailing from Italy to facilitate their passage. The Italian government recently relaxed the very strict regulations as to steamship accommodation for its emigrating citizens.

THE AROOSTOOK POTATO CROP

The acreage in potatoes in Aroostook county, Me., is about 10 per cent. less than 1919. Conditions of the crop is reported to be well up to the average.

Early cobblers are well advanced. Owing to slow shipments of fertilizers, some of the crop was put in a little late, but to remedy this an extra top dressing of fertilizer is being used. The cost of growing the crop this year is estimated at about 10 to 15 per cent. higher than last season. The general stand of the potatoes is good and recent rains have helped materially.

OFFICERS INSTALLED.
Officers of Jewel Rebekah Lodge, No. 6, I. O. O. F., were installed by Edwin Irons, D. D. P., on last Wednesday evening, as follows:—Mrs. W. Gregory, N. G.; Miss Dorothy Emerson, V. L.; Miss H. Lambert, R. S.; Miss Maud Reid, treasurer; Miss Jessie Brittain, F. S.; Miss Edna Garnett, warden; Miss Helen Brittain, conductor; Miss Laura Parks, R. S. U. G.; Miss Edwina Irons, L. S. U. Launch Seven in Day.
Philadelphia, July 9.—Seven 125-ton steel cargo carriers will be sent into the Delaware River at the Hog Island shipyard on July 21, establishing what is claimed to be a new world's record for ship launching in one day. When the last of the seven vessels leaves the way, 122 ships will have been launched at Hog Island since August, 1918.

OUCH! LAME BACK
Rub Backache, Lumbago, Soreness and Stiffness Away—Try This!

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin. Linger up! Don't suffer! Get a small trial bottle from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

RECENT WEDDINGS

Amherst, July 7.—A pretty wedding took place at the home of Captain Eurus Spicer, Spencer's Island, last week when his youngest daughter, Ella Corley Taylor, of Salisbury (N.B.), was united in marriage to Beverley Taylor, of Salisbury (N.B.). The ceremony was performed by Rev. Mr. Gesner. Little Miss Phyllis Morris, of Advocate, was flower girl and Miss Greener played the wedding march. After the ceremony and luncheon Mr. and Mrs. Taylor motored to Amherst where they spent a few days and then left for their future home in New Brunswick. The bride is a graduate of Mount Allison in Domestic Science and has a wide circle of friends as evidenced in the many wedding tokens.

RECENT DEATHS

Newcastle, N. B., July 8.—The death of Mrs. Forester Adams, widow of Captain Forester Adams occurred here this morning. She was eighty-three years of age. She was born in Port Soyr, Banffshire, Scotland and had lived in Newcastle for forty-two years. She leaves one daughter, Mrs. Colson Hubbard.

Sarah Helena St. Clair Peacock, young daughter of William G. Peacock and Mrs. Peacock of 82 Moore street, died last night of pneumonia. She was five years and ten months old, and besides her parents is survived by a sister, two step-sisters and a step-brother. The funeral will be held on Saturday.

St. Stephen, N. B., July 8.—The death occurred here this morning of Mrs. Carter, wife of Harold C. Carter of this town. Mrs. Carter has a large circle of friends who will hear of her death with much surprise and regret. Besides her husband she leaves six small children, the youngest being about a week old.

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain, unperfumed coconut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather. The lather rinses out easily, and removes every particle of dirt, dirt, sand and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get multifold coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

THE MISERY OF BACKACHE
Removed by Lydia E. Pinkham's Vegetable Compound.
Mesford, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for backache, and I also had a female weakness. I felt dizzy and nervous, and was without energy. I had to force myself to do my work, and was always tired. Saw a Pinkham advertisement which induced me to take the Vegetable Compound, and my back gradually stopped aching and I felt lighter in spirits. I am recommending the Vegetable Compound with pleasure to all I meet who complain as I did."—MILDRED BROOK, Mesford, Ont.
The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.
If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

OPENED CLINIC FOR WELL BABIES

The well babies' clinic was opened yesterday afternoon at the home of the Victorian Order of Nurses, Carleton street. Although this clinic is common through the United States and other portions of Canada this is the first time that one has been organized in the city. Only seven babies were brought to the clinic yesterday afternoon, but it is thought that the small attendance was due to the unfavorable weather, and also because the advertisements announcing the opening might not have been seen. Dr. Rowley has been appointed examiner for the clinic.

The "well baby" clinic is solely for "well" babies, and not for those who are suffering from any ailments, or for those who are receiving treatment from any hospital or physician. The clinic is open to the public, and the "well" babies can be taken there and weighed, and any necessary advice given to the mother.

It has not yet been decided by those in charge how often the clinic will be open.

SALVATION ARMY GIRL TESTIFIES

Says Tanlac Completely Restored Her Health After Suffering Eight Years.

"I've tried Tanlac myself now and am recommending it because I believe I'm telling suffering people of a medicine that will help them," declared Miss Ethel Thompson, a well known Salvation Army worker, residing at 15 Hampton street, St. John (N. B.).

"Eight years ago," said Miss Thompson, "my stomach began to bother me and kept getting worse until my condition was simply dreadful. It was impossible for me to eat one particle of solid food for it would so nauseate me that I couldn't retain a morsel. Even a cup of tea would turn me deathly sick. What little I did eat soured on my stomach forming gas which pressed up through my chest until I thought I was going to smother. I had continual pains in my stomach, and became so weak that the least little exertion would tire me out. I was so nervous I could hardly sleep, and a good night's rest was out of the question. At times the least little excitement made me tremble like a leaf, and I would just scream out. I had even spent six months in a hospital without relief, and as I was eating barely enough to keep body and soul together I was at my wits' end to know what to do."

"My mother read a statement from an old friend of hers praising Tanlac and was so struck by it that she had me get a bottle. I have taken four bottles now and am enjoying better health than I have in years. My stomach is in such good condition that I never suffer from pains, gas, or nausea. I'm not nervous like I used to be, and at night I sleep like a child. I'm gradually gaining in weight and am so much stronger and better in every way that I feel almost like a new person. Tanlac has certainly proven a boon to me, and I don't hesitate to endorse it."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highland; John F. Meagher, Debec; D. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station, and by the leading druggists in every town—(Advt.)

SUGGESTIONS AS TO CABINET POSSIBILITIES

(Canadian Press Despatch.)

Ottawa, July 8—Hundreds of telegrams are pouring in today on Hon. Arthur Meighen. Last night's announcement that he has the "undivided support" of the remaining members of the Borden administration, should make his

work of cabinet making fairly easy, although there still remains the question of provincial representation. The previous resignations of Messrs. Carvell and A. K. Maclean, and now that of Sir Robert Borden, have left the maritime provinces without cabinet representation.

and New Brunswick is on the cards with the name of F. B. McCurdy, formerly parliamentary secretary of the department of soldiers' civil re-establishment, from Nova Scotia, and Rupert W. Wigmore, member for St. John city, from New Brunswick, mentioned as the most likely appointees. R. F. Green, mem-

ber for Kootenay West, or H. H. Stevens of Vancouver Centre, are most prominently mentioned to succeed Hon. Martin Burrell in the representation from British Columbia. The appointments would entail a by-election in East Elgin (Ont.) This vacancy was created by the death of David Marshall, who had re-

presented the division in parliament for ten years. Altogether, then, four by-elections are probable.

C. B. Allan yesterday received the sum of \$41.75 from the Seal Cove, Grand Mannan, Red Cross Society, for the Serbian Relief Fund.

Two of the three cases of suspected typhoid discovered in the city last month have proved to be negative, and the positive case is of a mild form, according to the records of the board of health.

Hon. W. E. Foster, Hon. Dr. E. A. Smith, minister of lands and mines, and Hon. C. W. Robinson, arrived in the city yesterday from Fredericton by the Valley Express.

The extension of the Provincial Memorial Home building will be carried on as a result of the decision at a meeting last evening at which Dr. James Manning presided. The plans were prepared gratuitously by Garnett Wilson.

Work of placing a nine-inch terra cotta and cast iron water pipe in Hawthorne avenue was continued by the department of water and sewerage yesterday and probably will be completed on Saturday. New pipe will be laid as far as the corner of Hawthorne avenue and Sandy Point road.

The shipping officials of this city and Halifax spent some time this week trying to trace John Watson, a seaman engaged in Halifax and given his passage money to come to St. John and John's vessel. After some trouble the officials located Watson at work in a Halifax shipyard. He will be sent to this city.

The regular monthly meeting of the board of directors of the Home for Incurables was held yesterday afternoon. Dr. Thomas Walker, chairman of the board, presided. No applications were received for admission during the month. The accommodations of the home are at present taxed to their utmost.

C. M. Bailey, C. P. R. station agent at Fairville, and last winter assistant agent at West St. John, has been transferred to Windsor (Ont.) where he will be assistant superintendent under General Superintendent H. C. Groat of the Ontario division. Mr. Bailey will leave Sunday night to take up his new position.

The regular monthly meeting of the Children's Aid Society was held last evening in the Children's Home, 68 Gaither street, with the president, A. M. Belding, in the chair. Reports of the various committees were handed in and some correspondence read. Mrs. A. J. Mulcahy and Mrs. (Dr.) Bonnell were added to the buying committee.

Yesterday was the regular tea day at the Riverside Golf and Country Club. The weather was not all that might be desired, but the golf cleared away during the afternoon allowing the mixed foursomes to be played. Two rounds were played which resulted in Mrs. W. Audrey McCord and Capt. Barrill coming out first with Mrs. N. R. DesBrisay, H. Shaw and Mrs. J. Pope Barnes presiding over the tea table, which was centered with rose peonies. Many players remained to dinner and several private dinner parties were held.

SOME FEATURES OF STEEL TRADE

In its summary of the iron, steel, metal and machinery markets for the week ended July 8, Canadian Machinery and Manufacturing News, Toronto, makes the following comment: Certain of the Canadian steel merchants are firmly of the opinion that we are facing a better steel market from the standpoint of the consumer, and they look for the disappearance of the premium dealer as the first move in this direction. They point to actual cases where they are buying from the same firms at better prices than they could hope for a few weeks ago. Sheets, for instance, were held up for \$8 a hundred, while now \$6.50 is gladly taken. The protected helplessness of the American railroads to tackle the traffic situation across the line and straighten it out helps to keep the market at a higher level, and there are good reasons to believe that with good transportation facilities we would be now dealing with a normal steel market.

Power and fuel problems are troubling Canadian industry in no small degree. In a plant where there are hundreds of employees, the great majority of them depending on power to get reduction, it is a serious matter to have the current turned off in the middle of the day. Shops in many cases are finding that they have to pay for a good many hours of idle time for a month for which they receive no return.

Old country ironmasters are paying higher prices for scrap metal, much higher than are quoted in Canada or the United States. Canadian dealers would like very much to get a chance to ship to that market, but they cannot get shipping space. One Toronto firm has offered as high as \$20 a ton—as much as some of the metal can be sold for here—for shipping space to reach the old country market, but there has been no response, and there the matter rests.

Bar mill material is much needed, especially in the industrial centres of Ontario at present. The agricultural trade needs flats, while the building and contracting interests are after rounds for reinforcing purposes.

SIR LOMER GOUIN ISSUES STATEMENT

Sir Lomer Gouin who tendered his resignation as premier of Quebec yesterday, issued the following statement: "In 1905, after having been called upon to form a government, I drew up a programme which since that time, has appeared to carry weight and which affected every branch of the administration. "During fifteen years, I have had the signal honor of enjoying the most complete confidence of our population and with the co-operation of my colleagues in the cabinet as also that of my friends in the legislative council and assembly, I have applied myself conscientiously to carrying out that programme. "To this task I have given the best of my energy and of my devotion and I have today the satisfaction of having attained the goal that I set before myself. "I feel that I should now confide to other hands the work of peace, concord and prosperity which the Liberal party has striven to accomplish in this province. "My successors, I am convinced, will pursue this work with energy and success. "Thanks to the harmony that reigns among all the groups of our population and to their intelligent and effective collaboration our province is developing rapidly and already occupies a very enviable position in the Dominion. I have an unshakable faith in the brilliant future that awaits it. "The ambition of my life has been to merit the confidence of my fellow citizens and, in taking leave of them as prime minister, I am gratified to think that I have been worthy of that confidence. I offer to them my profound gratitude for having afforded me the opportunity of working so long for the welfare of our province and at the same time, I thank my sincere and devoted collaborators very sincerely."

HOPEFUL FOR NEW REPUBLIC

Daughter of Czech-Slovakian President in London — Is President of Red Cross.

London, June 12.—(A. P. Correspondence)—Dr. Alice Masaryk, daughter of the President of the Czech-Slovak Republic and herself the president of the Czech-Slovak Red Cross, who has been visiting London, expressed herself hopelessly with regard to the future of her country. "There is a promise of a good harvest," she said, "the sugar beet crop is estimated at 700,000 metric tons of which 400,000 tons will be available for export. The political outlook is also good, the sound working basis, its democratic character afforded protection for the minorities in the German districts which could not be given up. "The Germans," she remarked, "will not have such a hard time as we were in public as we had when they were in power."

The children of Czech-Slovakia are being organized into a junior Red Cross, over 4,000 schools were built in one year in the eastern part of the country. Over 900,000 children are being taught the importance of personal hygiene.

STILL MISSING. No trace has yet been found of the seventeen-year-old Edgar McClure, who disappeared on Tuesday morning. He was working in the pulp mill at St. George and was last seen standing on a rock by the river. No trace of his body has been found.

SUN PREVENTED AN OUTBREAK. How the Madrid Populace Amused Themselves While Waiting for Bread. Madrid, June 11.—(A. P. Correspondence)—The sun prevented what threatened to be a serious outbreak in Madrid during the recent bakers' strike. The first two days of the bread scarcity were dull and threatening and the hungry poor were so affected by the lowering skies and the lack of food that they prepared the streets in groups uttering shouts and menacing threats which kept their establishments open. On the third day the sun shone and although still hot and compelling to wait indefinite hours for the loaves to be doled out, the people did so patiently and even cheerfully. All kinds of laws and police regulations were broken by the men, women

and children forming the almost endless bread-lines but the authorities took a lenient view of what occurred. When an old man brought a camp bedstead, set it up on the sidewalk and stretched himself on it, a policeman first looked grave, then began to laugh when the offender explained he knew he might have to wait anything from twelve to twenty hours for his bread and had merely propped against fatigue. He was released and returned to his place in the line with his bed amid the applause of the crowd. Another group hired a barrel organ whose owner played popular melodies while the people waiting with growing appetites and hollow stomachs danced merrily. On the Calle de la Magdalena a cobbler arrived carrying a stool, his tools and a pair of shoes, which he was able to sole and heel before his turn came to obtain a loaf. Similar scenes were enacted day after day amid general hilarity until the municipal authorities decided to break up the big bread-lines by distributing loaves from a larger number of centres. The danger was then over.

GENERAL STRIKE IN ENGLAND IS THREAT

Miners' Stand on Matter of Troops in Ireland and Aid to Enemies of Bolsheviki. Londington, Eng., July 9.—The miners' federation in session here yesterday adopted a resolution providing that if the government does not withdraw the troops from Ireland and cease furnishing war materials to enemies of the Bolsheviks, a general strike of all unions shall be called. There was only one vote against the resolution, which will be presented to the special trades union congress which will meet in London next Tuesday.

First elected to the provincial legislature in 1900, the attorney-general has been one of the strong men of the Liberal party ever since, and has been twice the confidant of Sir Lomer Gouin. In 1907 the portfolio of minister of public works and labor was offered him and he remained the head of this department until the recent cabinet reorganization, when he succeeded the premier as attorney-general. From 1905 to 1906, he was an alderman of Quebec city and he has served as bailiff of the bar of the district of Quebec. In 1891 Mr. Taschereau married Adlene, daughter of Hon. Edouard Drouin, M. L. C., and has three sons and two daughters.

Probable Successor. Hon. Louis Alexandre Taschereau, 400,000 tons of which 400,000 tons will be available for export. The political outlook is also good, the sound working basis, its democratic character afforded protection for the minorities in the German districts which could not be given up. You May Buy Two of These Dainty Voile Blouses

FOR THE USUAL COST OF ONE Yet There is Not One Whit of Difference

One typical style is made in smart vest effect; very fine tucks in front, square front, neck finished at back with round collar; lovely fine flet lace trimmings; also many other smart designs at \$3.50. Another unusually sweet little affair of very fine Voile has a pretty V neck and reveals many pin tucks. Collar, front and cuffs edged in Val. lace, set-in sleeves. Has the appearance of a very expensive blouse. This is but one of many pretty styles for \$4.50.

Very fine Voile, exquisitely embroidered is the pretty picture presented by another blouse model, V neck, cuffs and collar edged with Venise lace, set-in sleeves. Large variety of other pretty styles. All \$7.50

The styles are charming. Clever copies of imported models. We make them ourselves, which accounts for their modest pricings. Of the finest Voiles, cut and finished with all the skill of the better Blouses. Nor do they omit one clever device of the chic French Blouses — embroidery, pin tucks, fine laces and tiny pearl buttons. You should see these.

A COOL KITCHEN

Better Cooking - - - - - Cheaper Fuel

Why toil and drudge over a hot coal or wood stove in warm summer when you can so easily avoid it and make summer cooking a real pleasure by using a

New Perfection Oil Cooking Stove

which keeps the kitchen cool and livable, besides doing away with the expense of coal which is costly—for the New Perfection burns the plentiful, economical kerosene oil—then there's no dirt, dust, ashes, or odor with the New Perfection; it's tall blue chimney ensures perfect combustion, taking the heat just where it is needed; giving you, in fact, all the advantages of a modern gas range at trifling cost for oil.

The New Perfection comes in one, two, three and four burner sizes, with or without ovens or cabinet tops. Call and see them in our **OIL COOKER SECTION.** TAKE THE ELEVATOR.

TWO SIDES OF A DISAGREEABLE STORY IN COURT

Assault by Wife Charged—Alleged Attack on Mother-in-Law in Another—The South End Liquor Case.

The police court session this morning was an interesting one as there were two unusual assault cases, one that of a woman charged with assaulting her husband and another in which a mother-in-law was said to have been assaulted by her son-in-law. Florence Mary Prince, charged with assaulting her husband, Thomas Prince, pleaded not guilty. The husband said that for the last few weeks he had had a great deal of trouble with his wife; that she had kept bad hours and been keeping company with another man. One night, the witness said, as he was in bed his wife came over to the side of the bed and struck him continually until he was forced to stop her. He said in consequence of information he went to Seaside Park where he found his wife with another. He said he asked her to go home with him and she did after a few minutes but when they were going to the car tracks some conversation took place and the witness said the accused struck him in the face. On cross-examination by Roy A. Davidson, counsel for the accused, the witness said he had never used threatening language nor physical violence to her. He also said he never used a revolver or threatened her in any way.

Florence Mary Prince, the wife, said that her husband said if anything happened between them he would riddle her and somebody else with bullets, she said he produced a loaded revolver at the time. On the night of the alleged assault she said he took hold of her by the arms and forced her up to a room. She said she was not guilty of the assault.

She was remanded and the case was postponed until her mother could be summoned as a witness.

James E. Verper was charged with assaulting Mrs. Mary Hasty, his mother-in-law, in her home in Brussels street and pleaded not guilty. Mrs. Hasty said she was under the influence of liquor, that she threatened to murder and kill the family and burn the house, took her by the shoulders and shook her and raised his foot to kick her. She said she did not want to prosecute him and she would be willing if they could have peace in the family.

An arraignee was suggested and she said "Yes! All I want is for him to sign peace; I don't want him to be put in jail." The accused was remanded and the case was postponed. L. A. Conlon appeared for the complainant.

In a case against Doyle, Alexander, Doyle, Haynes and McGarrigle, on suspicion of stealing five cases of whiskey the property of George K. Bell, Charlotte street, the Doyle, Alexander and Haynes pleaded guilty but McGarrigle pleaded not guilty. When asked by the magistrate if McGarrigle was connected with the case the four said he was not, so the case against McGarrigle was dismissed. The magistrate allowed the others to go on a suspended sentence. B. Dyer appeared for Alexander and McGarrigle, J. A. Barry for the Doyle and K. A. Logan for Haynes. L. A. Conlon appeared on behalf of the prosecution.

According to a statement in a letter the editor of one of the morning papers it was said St. John was "going to the devil" on account of liquor. The magistrate said this morning that it was not because of whiskey but on account of the immorality of some of the women in the city. This statement was made at the conclusion of two assault cases.

Four men, charged with drunkenness, pleaded guilty and were remanded to jail.

THE HARBOR

Speaking of the tri-party agreement of the city, the C. P. R. and the Dominion government regarding the development of terminals at West St. John, which was referred to at a meeting of the common council this week, Commissioner Bullock said this morning that the question of the carrying out of the contract by the government was a matter which should be taken up by the board of railway commissioners of Canada. He said this was provided for in a section of the agreement which says that in case of dispute or question as to the carrying out of the agreement the same should be determined by the board of railway commissioners if it has jurisdiction or is willing to act as arbitrator. Otherwise arrangements were provided for the appointment of a board of arbitration by those interested or by the chief justice of the supreme court, in case of any of them fail to appoint.

The commissioner said that he was looking into the matter with a view to seeing what could be done to prevail upon the government to carry out its agreement.

NOT ABDUCTION

Robert Crawford, traffic constable in Robtsey avenue last night investigated the alleged abduction case in which it was reported that a young girl had been taken, against her will, in a car bearing a Maine license tag. Mr. Crawford encountered the car in the case in Robtsey avenue and stopped it. He says he found that in the car were two young women who said they were friends of the men and were taking a drive of their free will. As there was nothing out of the ordinary in the appearance of the occupants and the contents of the car, Constable Crawford allowed them to proceed on their way.

Application for Increase in Capital—Likely Decision on Rates Today.

At a session of the public utilities commission for New Brunswick this morning an application was made by Dr. B. M. Baxter, K.C., on behalf of the New Brunswick Telephone Co., for permission to issue \$175,000 additional stock. The present authorized issue is for an issue of \$2,000,000. H. P. Robinson, for the company explained that the additional issue was to pay for extensions and improvements effected during the last few years for which no stock had been issued. The commission's decision will likely be given this afternoon.

An application was also received from the Grand Main Light and Power Co. for authority to issue \$75,000 stock in accordance with 10, Edw. VII and 10, Geo. V. It was said that no stock had been issued nor had any development taken place to date, but this was now contemplated. It was expected that about 500 horsepower would be developed. N. M. Cockburn, K.C., of St. Andrews, presented the application.

It was announced that the hearing in the York & Carleton Telephone Company's application for increased rates would be taken up in Woodstock on Tuesday, July 27, at 10.30 o'clock.

The finding in the application of the New Brunswick Telephone Co., for increased rates will also likely be given out this afternoon.

"Commerce on the Pacific To Exceed All on Atlantic"

Startling Statement of Robert Dollar, An American, Who Has Led Development of Trade With Orient.

(By B. C. Forbes) The commerce on the Pacific is to exceed all the commerce on the Atlantic. This startling statement is not made by an American who has done more than any other man to develop trade between the United States and the Orient, an American whose ships ply the seven seas, an American who has received signal honors alike from China and France, with headquarters in San Francisco, but having branches in other leading cities at home and in foreign lands. It was Mr. Dollar, that the American government turned to when it wanted China to build ships during the height of the war emergency, and he promptly set China at work, the Chinese government stipulating that the money to be used for the purpose be paid over to Mr. Dollar, without asking him to put up one dollar of security.

TWO DROWN IN STONEY CREEK

(Canadian Press Despatch) Moncton, July 8—Lester Rogers, aged eight years, and his uncle, Harry Steeves, aged twenty-six, were drowned at Stoney Creek, Albert county, about ten miles from Moncton, this afternoon about 4 o'clock. The boy was playing on the bridge that spans the creek when he accidentally fell into the water. His uncle, who was working nearby, ran to his assistance and jumped into the creek with the result that he, too, lost his life. Both bodies were recovered about four hours later.

The boy lived with his grandfather, David Steeves, since the death of his parents, and Harry Steeves is a son of David Steeves. Besides his parents Steeves is survived by his wife and one child. He was a veteran of the Great War, having had two years service in France.

MURDERED TURFMAN'S WILL GONE

Authorities Hope to Gain Some Information on the Details of His Death.

New York, July 8—Search for papers of Joseph B. Elwell, and for a later will than that filed for probate today marked a new turn in the district attorney's investigation in the mysterious murder of the wealthy turfman and whist expert here last month.

Banks where Elwell kept funds, were asked to furnish transcripts of his accounts for several months prior to his death. Evidence that the turfman, noted for his "conquests," had been paying one woman \$50 and another \$400 a month is being investigated in the hope that more light may be shed on such disbursements.

In the search for a will said to have been drawn in December, 1916, leaving

NEW RADIO PLANT CAN CIRCLE GLOBE

Station to Be Five Times as Strong as Nauen—Improved Type of Apparatus.

Contracts for the construction of what will be the most powerful radio station in the world, to be built east of Fort Jefferson, on Long Island, are being let by the Radio Corporation of America. This new super-station, which will occupy a 6,400 acre tract, will be five times as powerful as either the one at Nauen, Germany, or Bordeaux, France, according to Edward J. Nally, president of the corporation.

A new departure in radio construction is to be made at the new station. There will be five complete duplex transmitting units, with a corresponding receiving station located near by. The great power of the station is due to the fact that the five transmitters, each one of which will have as much power as any in existence today, can be operated simultaneously.

Under this new scheme, Mr. Nally went on to say, New York would be the direct focal point of the world's intelligence in an entirely new sense.

The form of aerial construction is also to be entirely new. From the central power house six spans of aerial wire, each supported by twelve 400-foot towers, will radiate out in a star pattern to a distance of more than one mile from the centre. Five of these antennae spokes will be used for regular service, the sixth being reserved for an emergency.

The telegraphic signal created by the combination of these five units will be able to encircle the globe. The equipment of each of these units will be similar to that which is at present in use at the corporation's New Brunswick, N. J., station, from which the voice of Secretary of the Navy Daniels was carried to President Wilson when he was at sea on board the U. S. George Washington. In experimental tests with this radio telephone the distance of 2,500 miles has

successfully been covered. The energy required to span these thousands of miles will be generated by ten alternators of 200 kilowatt capacity each. Two for each unit are to be installed at the new station, thus generating a total power of 2,000 kilowatts, 8,000 horse-power.

STEAMERS MOVING.
Montreal, July 8—The Pretorian, C. P. O. S. will leave port tomorrow for Glasgow, carrying a full complement of passengers. The Victorian sailed from Quebec this morning and the Empress of France arrived there late tonight. The steamer Thetis which passed Father Point inwards yesterday afternoon, has been chartered by the Lamson and Hubbard Canadian Company, Limited, and will proceed this summer to Hudson Bay, carrying goods and equipment for further trading routes to be established by the company.

"3450" Insulators Resist Knocks, Shocks, Heat and Expansion to a Wonderful Degree

They are so hard and tough that they stand up under treatment that is never experienced even in emergency use in a motor or engine.

You can heat them white hot, then douse them in water—knock them with a wrench—drive them through a cake of lead—drop them on the floor—and you won't find even a chip or crack in the glaze.

CHARGED WITH SUPPLYING LIQUOR

The case against Alfred Emden, charged with supplying liquor to Charles Ackleson, was continued in the police court yesterday afternoon. Inspector McAlnah was put on the stand and he told of going to the defendant's store in Front street with the witness, Charles Ackleson, and the latter pointed out Emden who, he said, gave him a bottle of gin. Ackleson, who was recalled by the prosecution, said that there were several men in the store when he entered it, and that the defendant was behind the counter. He bought a bottle of gin from him, the defendant taking him into the back room before giving him the bottle. He paid \$4.50 for it. Cross examined by counsel for the defence, he said that he had several drinks of two per cent before dinner, but he did not remember whether he had purchased the gin before or after dinner. He did not have any hard liquor before dinner and he did not remember hearing the proprietor of the restaurant when the latter told him he had better go home. The case was postponed until Wednesday afternoon at 2.30. J. A. Barry appeared for the defence and W. M. Ryan for the prosecution.

Half a Pineapple For One Dessert

In Jiffy-Jell desserts the fruit flavors are abundant. For instance, half a pineapple is crushed to make the flavor for one pint dessert. This is done in Hawaii from fruit too ripe to ship.

All Jiffy-Jell fruit flavors are made from condensed fruit juice. They come in liquid form—in vials—a bottle in each package. That is true of no other quick gelatine dessert. A few cents will serve a real-fruit dessert for six people. No artificial flavor, no saccharine. It is the most delicious fruit dessert available, and it comes in ten choice flavors.

DIVORCE COURT

Fredericton, N. B., July 8—The divorce court held a very brief session this afternoon in which David McKay vs. Nellie McKay, the defendant formerly named Elliott, resides in Marysville, and the plaintiff in St. John. William Scott, who appeared, moved to amend the libel as he had found that errors had been made in the dates. The court permitted the amendment, but ruled that the libel must be served again. This will put the case over until another term.

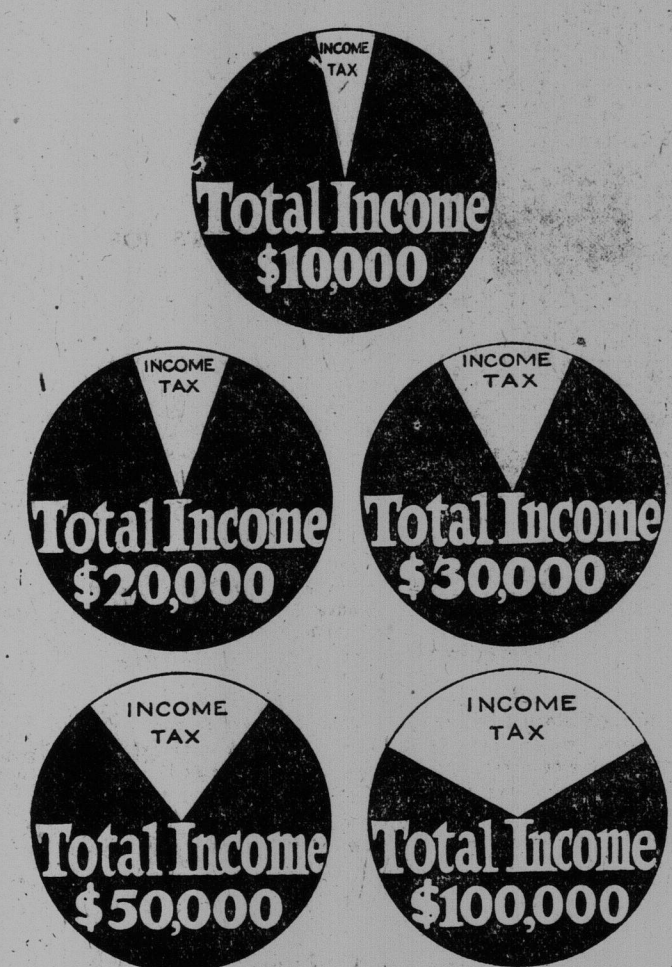

No speakers and no audience appeared at the Seaman's Institute where it had been suggested that a debate be held last evening on the liquor question between Rev. Dr. David Hutchinson, pastor of the Main street Baptist church, representing the dry forces, and J. J. McDonnell for those in favor of beer and wine. It developed that although Mr. McDonnell had accepted Rev. Dr. Hutchinson's challenge to verbal combat no agreement could be reached as to who should pay for the use of the hall.

"WET" OR "DRY"

Milk is the food of children and old people. Combined with cereals it makes the ideal ration—but if your stomach does not take kindly to milk pour a little hot water over two Shredded Wheat Biscuits, put a small chunk of butter on each Biscuit, allowing it to melt into the shreds. If you like the Biscuit "dry" split it into two halves and crisp them in the oven and eat them with butter—a real whole wheat toast, wholesome and nourishing.

HYDRO KNIGHT CAN GET UP A GOOD DINNER

An amusing, and it is declared, perfectly true story is being told in St. Thomas, Ont., about Sir Adam Beck and Hon. Mr. Biggs, provincial minister of Hon. Mr. Biggs, who with their wives and highways, who with their wives arrived at Port Stanley on Dominion Day. Sir Adam had been acting as the minister of public works, and when the hour for refreshment arrived, found the cafeteria so packed that it was impossible to find a place to entertain his guest. Nothing daunted, he proceeded to the kitchen and, consulting the aid of Hon. Mr. Biggs, set about preparing a meal for himself and guests. Stripping off his coat, Sir Adam first set about clearing a space at one of the tables; then he turned to, ably seconded by Mr. Biggs, and washed sufficient dishes for his party, after which the cooking and serving of the meal followed. According to the employees at the cafeteria, it is nothing unusual, if Sir Adam is down at the Port on a very busy day, for him to take off his coat, and turn to, and help wherever extra help is needed.

GIANT WOMBAT

Hobart, Tasmania, July 9-A complete skeleton recently discovered in the Mowbray Marsh, on the far outskirts of the wild marshy regions of Northwest Tasmania, confirms the existence 20,000 or 30,000 years ago of a giant wombat, one of the pouched animals peculiar to the Antipodes. The skeleton lay buried in six feet of decayed vegetable matter, resting on sand that was once the bed of a lake. Naturalists expressed the opinion that the animal had lived perhaps more than 20,000 years ago. In life it would be bigger than a mule, with four elephantine legs and a head resembling a bulldog.

PULPWOOD AT \$12

Regina, Sask., July 9-An offer for pulp wood at \$12 a cord (10 c. b. cars, Fort Frances, has been received by the Bureau of Labor and Industries. An inquiry will now be instituted as to the freight rates, points of shipment and other features with a view to finding a market if possible for the great quantities of this wood being cleared from the settlers' holdings in the northern part of the province. At present this wood is being destroyed and a market would prove a source of revenue for settlers during the years the land is being cleared and before crop can be secured.

BROKEN NECK CURED

London, Eng., July 9-Lieut. R. W. Leonard, secretary of the Tonbridge Swimming Club, had his second vertebrae fractured at Gallipoli when in the army. He is thirty-five. Physicians have pronounced him "cured". He is able to swim, but cannot move his head sideways. Beyond the fact that he suffers from constant noises resembling the drone of machinery in his head, he says that his broken neck bothers him very little.

RECORD IN DIVORCE DECREES

London, Eng., July 9-In the Divorce Court Sir Henry Dukes, the president, decreed 243 decrees in one day, which is said to be a record.

RUSSIAN SOVIET TRADE BUREAU IN THE DOMINION

Authorization from Ottawa Says Martens - Montreal or Toronto Likely Headquarters.

(Canadian Press) New York, July 9.—Ludwig C. A. K. Martens, chief of the Russian Soviet government bureau here yesterday announced that he had received authorization from Ottawa for the establishment of a Russian Soviet commercial office in the Dominion.

Martens declared that he would open the office just as soon as the necessary arrangements can be made, but none of the details has been worked out as yet.

Martens issued a statement regarding the lifting of trade restrictions with Russia by the United States government. He expressed skepticism as to the effectiveness of the U. S. government's declaration, but declared that he welcomed the ruling as "a concession to the demand of the American business men for the opening of trade with Soviet Russia."

The U. S. government's declaration, according to Martens, virtually nullifies itself in that it does not provide for establishment of credits by which the U. S. business man may be paid for his goods, and it does not provide for commercial communication facilities by mail cable.

LET THE MERRY BELLS RING OUT

The Telegraph-Times Team Has Won a Game—Film Men Defeated, 9 to 8.

The pull is lifted. After two unsuccessful attempts the Telegraph-Times baseball aggregation managed last night to grab off a bunch of laurels from the film men on the East End diamond and after five innings of snappy baseball went home with a 9 to 8 victory tucked in their belts.

The news men got down to real business last night and showed the results of their training. Johnson, a soupbauer from the mulling room, was on

the mound and the shadow representatives couldn't move the ball outside of the infield.

Captain McEachern of the press gang had lots of luck with him first. Although his glasses became fogged up early in the game all he had to do was stick out his hand and the ball dropped into it. He landed two flies from the clouds in this manner.

Watts showed a little pep in the third when he beat out a bunt to first which caused quite a sensation.

McNorgan, who heaved for the flicker team, was bothered by the damp ball and hit several of the news scatterers on various parts of the anatomy. Five times did the batters get a passage to first base in this rather rough manner.

Lowe, speedy little second sacker for the T-T organization, was again in the limelight, his home run being one of the

ST. PETER'S TEAM'S WINS IN AMHERST

The following are comments from the Amherst News on the two games there on Wednesday when St. Peter's cleaned up a doozy when the aggregation of the busy town. The evening game was a no hit, no run contest to the credit of Pitcher Hansen. The News says:—

"Congrats to St. Peter's, and condolences to the home team. The best team seen on the showing that was made. Those Loyalist City boys sure know how to play the ball, but they were out on their toes all the time. We give credit where credit is due, for St. John certainly played the better brand of ball. But for all that, we believe that a team can get together here that can trounce them. Here's hoping we get a chance to do it."

"Great base runners those St. Peter's boys, they sure storm around the bags. McGovern sure did travel some on that home run of his. Chestnut got slammed harder than "Beet" in the afternoon, but he gave no bases on balls, while "Beet" gave four. Brownell wasn't at his best, seemed to lack his usual confidence and speed.

"Hansen sure is a nifty pitcher. He knows how to handle himself, and the game too. His delivery was a bit odd, but very effective. He learned a few things during his try-outs with Toronto.

"Did you notice the pep those St. Peter's boys had, on the hop all the time, and a lively line of chatter going steady. They play together well, each encouraging the other. Mighty few errors too, only three to Amherst's eleven in the two games.

The attendance at both games was excellent, but many spectators refused to contribute a cent. From the whole crowd along Academy street, only four bought tickets. That's rotten mean. Anyone can shout and yell at a ball game, but it takes a man to dig down and pay over for the privilege. There were few real men in that quarter of the field. Buck up and back up your home team."

SETTLE SUNDAY BASEBALL CONTROVERSY IN FAYETTE

Fayette City, Pa., July 9—The controversy between church people and the management of an independent baseball team here over the question of Sunday baseball was settled today when Andrew Brown, wealthy farmer and well known churchman, announced that he had leased the only available baseball grounds in this region. In order to secure the ground Mr. Brown had to lease a tract of 197 acres from a coal company, owner of the property.

Despite the fact that members of the club had been arrested and fined for playing Sunday baseball the games continued so Mr. Brown decided to settle the controversy by securing control of the diamond. He posted trespass notices at the ball grounds today and announced that, while Sunday games were banned, he would help finance the team for week day games.

TRURO WINS FROM ST. PETER'S

Truro, N. B., July 8—This evening in the greatest baseball game seen here this summer the crack St. Peter's team of St. John went down to defeat before the all-Truro aggregation, the score standing 7 to 1. It was fast ball all the way keeping the spectators on their toes.

St. Peter's made their lone fly in the fourth inning when O'Regan singled and Dever scored from second. Truro scored two in the second and five in the fifth.

In the second Mont Haslam singled through short; Ross hit a fast grounder to right and Haslam reached third; Ross stole second, Brent Haslam caught Dever scoring from second. Truro scored two in the second and five in the fifth.

In the fifth the local boys enjoyed a slugging test, the scoring being done by Alex. Malcolm, McLaughlin, Jack Malcolm, Goodhue and McKenna.

Near the close of this inning Dever, who had been catching for St. Peter's, went into the box, relieving Chestnut who started the game and Milan took Dever's place behind the plate. Hansen, St. Peter's mound artist, who pitched a no hit game at Amherst yesterday, remained on the bench, his arm being sore from yesterday's work.

Jack Malcolm pitched for Truro and struck out six men. Chestnut struck out four and Dever one. Both sides played good ball and errors were few only three being charged to each team. The local team got eight hits and the visitors six. St. Peter's team plays tomorrow at Moncton.

The line-up:
St. Peter's—Dever and Milan, catchers; Gibbons, right field; O'Regan, third base; Mooney, second base; McGovern, first base; Colquhoun, centre field; Donahy, left field; Lenhan, short stop; Chestnut and Dever, pitchers.

Truro—Goodhue, short stop; Yull, third base; Mackenzie, centre field; Mont Haslam, first base; Ross, second base; Brent Haslam, right field; Alex. Malcolm, left field; McLaughlin, catcher; Jack Malcolm, pitcher.

G. A. Myers, of Truro, was umpire for the bases.

At Bisley.

London, July 8—It was still raining at Bisley today. The morning was devoted mainly to the Conna Doyle match won by the Canadian. Two goals were scored by the Canadian, Sergeant Burr, North London, and Sergeant Pitt, Queen's Westminster, tied with an aggregate of 98.

Burr was declared the winner through his possible at the 800 yards range. Seven Canadians participated and their scores were: Captain F. R. Martin, Calgary, 99; Sergeant James Bon, Montreal, 91; Major Utton, Toronto, 89; Lieut-Colonel P. E. Bowen, Edmonton, 89; Major Northover, Winnipeg, 89; Sergeant A. McCabe, Charlottetown, 92; Sergeant Major F. Goodhouse, Ottawa, 86. Prizes only covered scores above 84. The sweepstake winners to date include Major Utton, Sergeant Major F. Richardson, Victoria; Sergeant W. A. Hawkins, Toronto, and Goodhouse.

PASSING OF A GREAT DOCTOR

Major General Gorgas Was Authority on Military Medicine and Surgery.

Major General William C. Gorgas who died in London a few days ago, was considered one of the world's foremost authorities on military medicine and surgery.

He fought and defeated the malarial mosquito in Panama and thus made possible the building of that great waterway.

He dislodged yellow fever from its century-old stronghold in Havana and under the direction of the United States government and the Rockefeller Foundation supervised campaigns against that dread disease in Central America, Peru and Ecuador.

At the invitation of the British government he went to South Africa in 1918 to establish sanitary conditions in the Rand, as a result of which he received high honors from the medical profession in London and Oxford University conferred a degree upon him.

In the last ten years his services were sought to give battle to plagues in many parts of the world. When the typhus epidemic began in Serbia in the war an effort was made to have him undertake the campaign against it but at that time he was needed to direct the medical and surgical work for the American army in France.

He was decorated by the French government and made a commander of the Legion of Honor and knighted by King George of England, the latter for, as the king expressed it to him, making possible the construction of the great canal.

In the days of the old French company which attempted to build the canal, tropical diseases annually claimed one-fourth of all its workers. The French were powerless before this pestilence.

When General Gorgas became general sanitary officer of the canal commission, the annual death toll had been reduced but it was still difficult to obtain the vast army of workmen necessary and to care for those disabled by malaria, yellow fever and dysentery.

In nine years, by a systematic campaign for the destruction of the mosquito, General Gorgas virtually drove these diseases from the isthmus. When he gave up the work to accept the post of surgeon-general in the army in 1914, deaths among the canal workers had been reduced to five per thousand annually.

Congress, in recognition of his achievement, made him a major-general and the world hailed him as one of the great men of medical science.

In recognition of his services he was made a member of the isthmian commission and served as such until he was made surgeon-general.

His work in combating yellow fever in Havana began when he went to Cuba with the rank of major in the Spanish war. When it ended he remained as sanitary officer of the island. Havana had been for more than a century the focus of yellow fever infection for all of the northern hemisphere.

When he left Cuba in 1902 the island had been cleaned up and Havana, where previously from 200 to 1200 had annually succumbed to yellow fever, since has been virtually free from the disease.

While in the canal zone, General Gorgas visited Guayaquil and mapped out a plan to rid that city, long known as the "pesthole of the Pacific," from the yellow fever scourge and his plan was in process of execution when the great war began.

Soon after the United States entered the world war General Gorgas announced the organization of the extensive system devised for the "reconstruction" for soldiers crippled in the war which included the establishment of the orthopedic hospitals behind the firing lines in France, reconstruction hospitals in the great centres of America and the retraining of crippled men and preparation for resuming their vocations or learning new ones.

General Gorgas reached the age limit while still on duty in France in 1918. When the war was over he was retired from active service in the army. Subsequently in 1919 he was head of the yellow fever commission organized by the Rockefeller Foundation and in that capacity made an extensive tour of Central and South America to direct the work of eradicating yellow fever from some of its breeding centres, notably in Peru and Ecuador.

King George of England conferred upon him in June, 1920, the decoration of Knight Commander of the Order of Saint Michael and Saint George.

General Gorgas was born in Mobile, Ala., Oct. 9, 1854, the son of a Confederate general. He was graduated from the University of the South in 1875. He was appointed a surgeon in the United

RE-CONSTRUCTION IN SOUTH AFRICA

(Toronto Globe). A. J. Esrael, an attorney-at-law from Johannesburg, South Africa, who took part in the campaign under the General Botha against German South West Africa, was in the city last night on a tour of the United States and the British dominions.

"The cost of living is far below that of this country," said Mr. Esrael. "We have a large native population, which does the manual work. The reconstruction of the country is being worked out in a splendid manner by the new government. We have grown twice as large as we were before the war, following the conquests of General Botha and Smuts."

"The Dutch are at the present in the majority, both in the cabinet and in the government, but they all favor the British connection. The Back Velders remain the most irreconcilable, and during the last elections they sent the largest number of members to parliament. The majority of the Dutch Nationalists are clergymen of the Reformed Church, who hold away over the rural populations."

"I have heard of predictions of failure for your National Railways," said Mr. Esrael, "but I would point those critics to South Africa, where we have a splendid service with a yearly surplus, though we are at present handicapped by the lack of rolling stock."

Mr. Esrael remarked that although he had always heard that Canada had a dual system of languages, he never saw any signs on business hours or streets in two languages. "The Dutchmen are very persistent," he said, "in their demands for signs in both languages. They will positively refuse to enter a shop where only English signs are hung out. In the courts all over the South African Union witnesses are given the choice of answering the questions in Dutch or English."
