King Albert Enters His Capital at Head of Allied Troops

Climax To Belgium's Part In Great War Drama Tremendous Ovation for Royal Party From Loyal Citizens Who Had Suffered Four Years Under Rule of Invaders

Brussels, Friday, Nov. 22—King Albert entered Brussels this morning at 8.30 o'clock. He was accompanied by Queen Elizabeth, Princess Leopold and Charles and Princess Marie José.

The royal party entered at the Porte de Flanders and proceeded to the Place de La Nation, receiving a tremendous ovation along the streets. Entering the parliament house, King Albert and his family listened to an address of welcome.

Flowers were thrown in the path of King Albert as the procession made its way along boulevards lined for miles with dense throngs. As this despatch is being written the noise of cheering rolls continuously like thunder across the city.

Event Forecasted. The return of King Albert to his capital recalls the king's prophecy in an interview with the Associated Press only a few months after the Germans, having checked the first rush of the Belgians, had been driven from their country.

Carusnet in a morning paper regarding the diagnosis in the case of a man taken from the steamer, as suffering from smallpox, Dr. G. G. Melvin said today that four medical men including himself concurred in the diagnosis. He regretted that such a statement should be made, especially as Dr. Derby did not see the patient himself.

Human Beings Never In Such a Bad State

Pitiable Conditions Among British Prisoners of War Released by Huns, Without Food or Money, They Started on Fifty Mile Walk to Freedom—Many Died by the Roadside—Brutality Continued Until the Last

London, Nov. 23—Pitiable conditions among British prisoners of war who have been liberated by the Germans since the signing of the armistice, are described by Reuter's correspondent at French headquarters. Thousands of these men, mostly British, are entering France daily. The correspondent writes: "I have never seen human beings in such a state of raggedness, hunger and misery. When the camp at Forbach, thirty-eight miles east of Metz, as well as those elsewhere, were broken up, the prisoners, some of whom were captured during the March offensive, were told to clear out and seek help from their Allies. They started to walk the fifty or sixty miles to the Allied lines, but were given no food and had no money. They were in shameful rags, the soles dropping off their boots. Some wore dogs and no socks."

THEIR HATRED OF ENGLAND AS BITTER AS EVER. The hatred of England is universal from the beggar to the banker, and the idea of revenge for their defeat by England is implanted already in the hearts of the tiny children. The Germans will neither forgive nor forget. Neither money or comfort will tell with them henceforth. They have been beaten by England and they will live and die to smash England. England has never had a deadlier enemy than the new Germany.

The advantage of a good baking powder as a leavening agent instead of cream of tartar and soda is twofold. First, it is scientifically prepared in such a way as to insure satisfactory results. Second, it is much more economical when one considers the high price of cream of tartar.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

BETTER THAN THE "OLD HOMESTEAD"

Wonderfully Sweet New York Production at Imperial Dec. 4th and 5th.

Tears and laughter fight for mastery in "Turn to the Right" the comedy success to be presented at the Imperial Dec. 4th and 5th, by the United Producing Company Limited, but there is one big moment in the play when the two give way to hushed stillness. Tears flow when the silence is broken, but for the moment the audience is held dry-eyed and rigid.

This is the scene wherein Joe Bascom reappears in the home that he left as a young boy seven years before. So far as the manuscript is concerned there is no scene at all for not a word is spoken, and yet it is the one incident of the play that lingers longest in the minds of the audience.

The scene is laid in the kitchen of Mrs. Bascom's little farm-house. Mrs. Bascom is reading her Bible, seeking to prove to herself that her boy must return in answer to her prayers. Betty Bascom, the sweet-faced daughter, who has but the faintest recollection of her brother, has placed in the window the lamp that for seven years has shown nightly to guide the wandering boy's footsteps homeward. Not a sound is heard. The door opens softly and Joe Bascom enters. He stands gazing at the little mother bent over her big Bible, while Betty, who does not recognize the intruder, stares at him.

Suddenly old Mrs. Bascom's sweet and gentle face is raised as if in response to some whispered call and her tired old eyes gaze into those of the son for whose return she has just been praying. For a moment neither stirs. Then the old lady glides forward and takes the boy by her arms and falling on her knees, buries her head in the old rocking chair and pours forth her soul in silent thanksgiving.

TRANSPORT AND FOOD PROBLEMS ACUTE IN INDIA

Calcutta, India, Oct. 2.—The question of food stocks and transportation in India has become sufficiently acute to warrant the calling of an important conference at Nagpur in the Central Provinces, which is as nearly as possible in the center of the peninsula. Sir Benjamin Robertson, chief commissioner of the province, presided, and Sir Claude Hill, a member of the government of India, was also present.

The chairman explained briefly the causes of the traffic difficulties of the Indian railways. Owing to the shortage of sea freight, coal and other commodities had to be transported by rail instead of by sea. Large demands for military purposes in Mesopotamia had to be met, and there was thus a heavy call on the available rolling stock in India were adequate, but their distribution would be a difficult problem for the railway administrations.

The chairman went on to explain that certain action had been taken in the restriction of exports inter-provincially, which seemed to the government of India highly inexpedient, but rather than override the discretion of the local governments, an emergency conference was held at Poona. This conference was attended by the directors of civil supplies for Bombay, the Central Provinces and Hyderabad, and after discussion it was agreed that the prohibition of exports was undesirable, since the political boundaries of India were not coterminous with the physical boundaries, more-over the dominating factor in the distribution of foodstuffs was the railway system and transport facilities, while arbitrary restriction on the normal traffic would not subserve the economic needs of India as a whole.

The chairman asked the representatives to view the requirements of their provinces from the broader standpoint of the economic needs of the whole of India, remembering the essential needs of the empire at large and that their difficulties were occasioned by the fact that they were at war. Evidently that business was to economize in India for the benefit of India and the Empire at large.

After referring to extravagant habits occasioning cross traffic and an unnecessary strain on the railways the chairman appealed to the representatives to explain to the people of the provinces they represented the need for curtailing unnecessary demands on the railway traffic, hoping that it would be clearly understood that if any class persisted in urging demands occasioning unnecessary traffic such class was hampering the distribution of the necessities of other classes, less well able to represent their needs.

Resolutions on these lines were passed by the conference after full discussion, and also one emphasizing the need for the provision of larger freight facilities in India's needs in order to relieve the congestion on the railways.

AMERICAN AMBULANCE SAVES FRENCH BATTALION

During a battle on the French front last August an American ambulance was the indirect means of saving a French observation balloon, says the December Popular Mechanics Magazine. The balloon was being fired on by a Hun airplane when the Red Cross ambulance passed below. Evidently the Red Cross insignia is like the proverbial red rag to the bull, for the airman at once left the balloon in safety and swooped after the ambulance, which escaped unharmed, however.

Keep Baby's Woollens Soft and Sweet

Even little garments are dear now—you must make them last, and of course you want them always soft and comfy for the important wee person.

The little woollens need never shrink a thread—never stiffen or grow thick—not after repeated washings if you cleanse them in the pure, creamy Lux lather. It's so simple to whip the delicate Lux flakes into a rich suds—so simple to squeeze the suds through the little garments—then take them out absolutely sweet and clean and fresh.

Lux harms nothing that pure water may touch.

ASIA MINOR.

Among the peoples who hope for freedom and opportunity as a result of the peace conference are those Greeks of Asia Minor who have been systematically persecuted by the Turks for years past, and especially so in the last four years. Germany had her eye on this rich territory as a source of profitable trade, and in recent years German scientific enquirers were sent there in numbers to study the country, its people, and the best means of exploiting it for the benefit of German industry and commerce. So large a proportion of the people are of Greek origin, and so much more intelligent and progressive are they than other races that they are surely entitled to such recognition as will free them from age-long persecution and give them the opportunity to live their own life. They number probably more than two millions of people, who are keen for education, active in trade, intelligent as artisans, and devotedly attached to their language, traditions and religion. Indeed it was their success in imposing their culture upon communities and extending an influence out of proportion to their numbers that made them the subject of bitter persecution by the Turks. A wonderful history has been that of Asia Minor, and one of the beneficent results of the war will be the lifting of the ban of Turkish oppression which has so long crushed the people. When the Young Turks came into power at Constantinople in 1908, they set out upon a systematic policy of persecution of the Greeks and Armenians, which has continued with growing severity ever since. When the Balkan States entered Turkey in 1912 and certain islands of the Aegean coast of Asia Minor were annexed by Greece, the Turks began a systematic expulsion of Greeks from the coast itself. Before the present war, more than hundreds of thousands of Greeks had been expelled from Turkish soil, and they were not permitted to take any property with them. Since the war began this policy has been pursued with even greater brutality, with the result that many of the exiles perished from hardship and hunger.

The world is especially interested in the fate of Asia Minor because of its noble contributions in the past to the cause of civilization. This is briefly reviewed in a book just issued by the American-Hellenic Society of the United States, of which Dr. Nicholas Murray Butler is president and Dr. Charles W. Eliot and Dr. Jacob G. Schurman vice-presidents, and whose object is "to extend and encourage among Americans an interest in the cultural and political relations between the United States and Greece; to promote educational relations; and to defend the just claims of Greece in particular and of Hellenism in general."

We are reminded that Ancient Greece in her days of glory planted a series of Hellenic democracies along the islands and coasts of Asia Minor, and that these not only formed a bulwark against oriental barbarism but reached out into the interior and left their impress upon Persian-civilization. Ten centuries before the Christian era there was a fringe of Greek settlements along the coast, and between the 4th and 2nd centuries, B. C., there arose in the interior of the country a series of Greek cities. One writer says:—

"The wise men, the thinkers, the philosophers, that these democracies produced were numerous, and the influence of their teachings was very great. It was in this Greek element and among the populations Hellenized by them that Christianity first germinated. It was the Greeks of Asia Minor who first offered their blood for the triumph of the new faith. The foremost church fathers, John Chrysostom, St. Basil and very many others were born there or taught there. Throughout the Middle Ages the Byzantine-Greek civilization flourished in these lands. It formed the most powerful barrier against the wave of barbarism which threatened to inundate the civilized world. The desperate resistance offered by Hellenism permitted the west, by its contact with Byzantine-Hellenism, to acquire those requisite elements which have formed the basis of western civilization."

We are told by another writer that "up to the end of the first millennium of the Christian Era, at a time when the Balkan Peninsula, including Ancient Greece, had long since lost its ancient city life and culture beneath the inroads and devastations of Goths, Avars and Slavs, Asia Minor was still a populous and blooming land with countless large cities, whose inhabitants combined Hellenistic culture with Christian fervor."

At the end of the 13th Century, however, the country which had been beaten back other hordes was conquered by the Seljuk Turks. The conquest was not complete, however, for the Greeks and Crusaders gradually thrust the invader back; but in the 14th century the powerful Ottoman Turks swept in from the east and, as one writer puts it, "what the Seljuks in 240 years had failed to accomplish the Ottomans were destined to bring about in a single generation—the ruin of Hellenism in Asia Minor."

In 1402 the country was over-run by Tartar hordes under the dreaded Timur, whose joy was found in burning, pillaging and murdering. One of the Byzantine historians wrote a description of the

Tartars which reminds us very strongly of the modern Hun. He wrote:— "Timur left neither living men, nor weeping children, nor barking dogs nor crowing cocks, but everywhere nothing but the stillness of death."

During the centuries following the Turkish conquest the Greeks have been persecuted, but their spirit was indomitable. The people were scattered, Turkish colonists were brought into the country, and the Turkish language and laws prevailed; but the Greeks retained their intellectual superiority, preserved in some measure their language, religion and schools, and impressed their culture upon their conquerors. Indeed in the last century they had made such progress as to draw down upon them fresh persecution and the horrors they have suffered since the Young Turks came into power.

The defeat of the Central Powers opens the door of freedom to these people. That they will play a very important role in the future of Asia Minor is beyond doubt. Dr. Theodore P. Ion, in the book under review, very reasonably observes:—

"The Hellenic state should be the natural inheritor, or at any rate the executor, of the estate of the Sick Man of the East; if not of all of Asia Minor, at any rate of a great part of it, that is, western Anatolia. But if the Ottoman way in Anatolia is prolonged, it is to be hoped that the country will at least be under the joint tutelage of some civilized states, which will take into consideration the wishes and aspirations of the Hellenic people."

We may be sure that Greece will demand one of the terms of peace the emancipation of these people, and as the Turk will be without a friend in the conference the chances are that the demands of Greece will get a very sympathetic endorsement among her Allies. If the Turk is to remain in Europe and in Asia Minor his power for persecution must be taken from him, and much more than his word taken as a guarantee of future good behavior. The civilized nations have now their great opportunity and the cry of the little people goes up to them.

THE RECALL.

Messrs. McLellan and Hilyard have their critics as well as their friends, and Messrs. Jones and Thornton will have both friends and critics, for such are life and politics. At the moment the needed thing is to give the electors information as to what the candidates stand for in relation to control of the police force.

Some electors believe the police force should be a labor union, subject to the influences, rules, and alliances of such unions; other electors do not think so.

What do Messrs. Jones and Thornton think? Do they stand for a police force wholly and continually under the control of the civic authorities? Or do they favor a police union subject to union influence, control or authority?

By declaring themselves they will make votes or lose votes, according to the views of the electors. The main thing is to let the citizens know precisely where they stand. The position of Messrs. Hilyard and McLellan is known. That known position will gain votes for them in some quarters, and lose votes in others. When the two new candidates have declared themselves clearly the people will be in a position to give an intelligent verdict. And that is what is wanted.

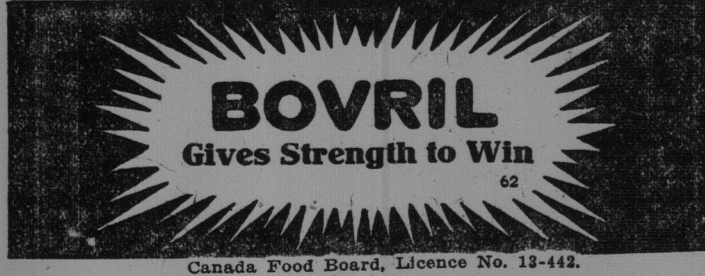

A correspondent quotes Admiral Beatty as saying of the German ships: "I thought they would come out, but not like this, on a piece of string." The Spanish admiral Cervera led his fleet out of Santiago harbor to certain destruction in battle. The German metal proved softer in the testing hour.

The complete surrender yesterday of the German fleet to the Allies was the greatest naval achievement in the history of the world, and a notable triumph for the Royal Navy of Great Britain. To mark this mighty event and to show our appreciation of the glorious efforts of our navy in bringing it about, every member of the Navy League in the province is asked to wear his or her badge decorated with a ribbon or rosette of navy blue for the next few days.

MANY KHAKI BOYS VISIT OAK HALL'S CLOTHING SALE

Their Warehouse, 101-107 Germain Street, Being Used to Display This Clothing.

A large number of soldiers who are being discharged are finding it to their advantage to buy their civilian outfits at the O'Donnell Clothing Sale being run by Oak Hall at their large warehouse 101-107 Germain street. Oak Hall is offering clothing here at such low prices that from fifteen to twenty per cent can easily be saved on each suit or overcoat. This drive on men's clothing certainly represents an opportunity, not for soldiers alone, but for every man to make substantial savings, and just at a time when the extra money will come in useful for Christmas. In order to accommodate as many as possible Oak Hall are keeping the wholesale warehouse open tonight.

THE OAK HALL WAREHOUSE IN GERMAIN STREET, A CENTRE OF MERCANTILE ACTIVITY.

The Oak Hall warehouse at 101-107 Germain street, although it has a very large floor space, was taxed yesterday to its limit by the O'Donnell Clothing Sale. This O'Donnell stock is well displayed on racks and tables and the public are taking full advantage of the exceptionally low prices. The volume of business being handled is without precedent in the history of Oak Hall sales, and all simply because the people realize that an Oak Hall sale is genuine in every sense of the word, and that the order to accommodate as many as possible Oak Hall are keeping the warehouse open tonight.

Another Hotel in King Street.

The leasing of the large Sears building, No. 23 King street, next to M. R. A. Ltd., as a boarding house for the business girls and young woman of the city under the direction of the Young Women's Christian Association will veritably add another hotel to the St. John busiest thoroughfare. As the Revere House the Sears building was at one time a prominent hotel, but for a considerable period it has been rented in suites, for office and dwelling purposes. Its four spacious floors make it ideal for the purpose to which it is now going to be put and with a cafeteria and gymnasium in addition to its cosy-furnished and homelike individual rooms it will make a most attractive and happy place.

"Double the Amount"

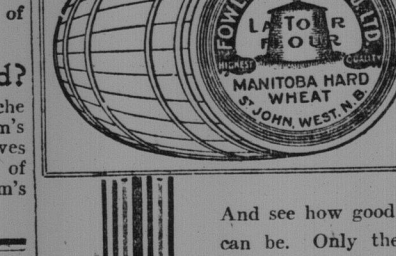

would have meant double the satisfaction," said a highly pleased Policyholder a few days ago, when receiving the returns of his Policy the day it was due. "The fact is, I consider this Endowment Policy the best investment I ever made, and I could easily have saved considerably more than double the amount of the annual deposit. From the moment I received the Policy, I enjoyed a feeling of security, knowing that in the event of anything happening, my family would be provided for. My advice to all young people is to 'play safe' and carry a guaranteed policy with The Manufacturers Life Insurance Company."

New Trial Ordered. The appeal court in Fredericton yesterday delivered judgment in case of Grant & Horne at the suit of Silas B. Gregg, was an action for alleged negligence, the plaintiff having been struck and injured by a motor belonging to the defendant firm in St. John. A new trial was ordered, the ground being that damages had been excessive, unless both parties within thirty days file a written consent reducing the verdict from \$800 to \$600.

Without Music You Cannot Live a Full Life

Music is now recognized as a necessity in the home. Music feeds the soul, as food feeds the body and literature feeds the brain. Next to religion, it is humanity's greatest comforter.

The New Edison opens the doors to the world of music. It brings the supreme art of the greatest singers, instrumentalists and musical organizations to you with such unerring fidelity that the artists themselves could give you no more.

The NEW EDISON

"The Phonograph with a Soul"
does not merely imitate; it actually RE-CREATES.

Before audiences totalling more than two millions, thirty great artists have conducted tone tests which proved that no shade of difference could be detected between the artist and the instrument. They have sung in direct comparison with the New Edison, then suddenly ceased, permitting the instrument to continue alone. The only way the listeners could tell when the artist stopped was by watching his lips. And with the lights lowered they were unable to say when it was the living voice they heard and when the New Edison.

Could a more convincing test than this be devised? Doesn't it prove the truth of our assertion that ownership of this instrument is equivalent to having all the great artists of the world literally at one's command?

Come in and hear the New Edison here, or allow us to send one to your home, where you can hear it at your leisure.

Had Whooping Cough
At the Same Time.

Whooping cough is one of the most dangerous diseases of children, especially to those under five years of age. It first starts with a fever and cough, sneezing, watering of the eyes and an irritation of the throat. Later the coughing increases, the child becomes livid in the face, the eyes appear as if they would burst from their sockets, and suffocation seems imminent till relief is brought by the "whoop."

chaos until the Bolshevik terror has been quashed by the force of arms," said Tschalikovsky. "The force now here is unable to do this quickly. Mean- while hundreds are dying daily."

"The world must understand that Bol- shevism, like imperialism, is a foe to democracy. It is in Russia a mere dic- tatorship, a group of men holding sway by force of arms. They seize every straw, falsifying logic to justify them- selves. As an example they now de- clare that the proposed league of na- tions is only another scheme to give power to the bourgeoisie against the working men."

"Perhaps the world will naturally ask what Russia is doing to help herself," said Tschalikovsky, "and I can only an- swer that we are doing our best. A re- cent example is the reorganization of the government of the North. Now every party and every class is represented. Forgetting politics they are turning their efforts toward putting down the Bol- sheviki evil. We are mobilizing our forces but the Allies must help."

President Tschalikovsky is a Socialist.

TWO TONS OF PEACH PITS. When the call came for peach pits and shells for gas masks it found the good people of Kosh on the job. Just as an evidence of what a real peach country can do, despite the fact that there wasn't a peach raised this year, the Red Cross shipped out of Kosh one day this week over two tons of peach pits, and there are more to follow.—West Plains (Mo.) MILBURN'S
LAXA-LIVER
PILLS

Act as a stimulant to the sluggish liver, clear the furred tongue, sweeten the foul, obnoxious breath, and clear away all the poisonous accumulations from the system by causing the bowels to move regularly and naturally every day, thus preventing as well as curing constipation, sick headaches, biliousness, heartburn, water brash, heartburn, and all diseases arising from a lazy, slow or torpid liver. They are purely vegetable, small and easy to take, and there is nothing of the gripping, weakening and sickening effects of the old-fashioned purgatives. Mrs. John Kadedy, Chipman, N. B., writes: "I have been using Milburn's Laxa-Liver Pills for some time and can recommend them to anyone suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recom- mend Laxa-Liver Pills to all sufferers, as I think they are a valuable remedy." When you go to your dealer and ask for Laxa-Liver Pills, see that you get the genuine "Milburn's". Price 25c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

"STINGAREE" SPENDS THE WEEK-END AT WEST END THEATRE Special discrimination has been used by the management of Empress Theatre, West End, in the selection of their features since the lifting of the ban on public entertainment, for they realized that after such a lull their patrons would be athirst for really excellent productions. This fore-sightedness was amply justified in the enthusiasm with which the West Side crowds greeted the Kaleid production "Stingaree," which pictured version of Hornung's famous novel by the same name was a source of surprise and continual delight surpassing far the mere perusal of those exciting pages. True, Bondsman in the name-rod has made himself and his mount as famous in picturedom as Tom Faggot and his strawberry mare or Robin Hood in action.

Buying Upon Faith

UNLESS you are an expert, you cannot judge the quality of a shoe by looking at it. It is possible to take most of the wearing qualities out without changing its appearance. Shoes are bought largely upon faith in the integrity of dealer and manufacturer.

In these days of high-price levels, your confidence should be well placed. Go to a reliable dealer, whose judgment you can trust. Get his candid advice as to values. Buy for the best service at the price which you wish to pay.

Look for the manufacturer's trade-mark on the shoes you buy. It is a sign that the manufacturer himself has confidence in the shoes, and that they are worthy of your confidence. A responsible manufacturer will not jeopardize his reputation by placing his business signature upon an unworthy product.

Buy shoes of a brand you know, from a dealer whom you know. Buy for service rather than merely for appearance. Thus you may be assured of Quality Shoes at Fair Prices.

A.H.M. War-Time Selections offer Special Service Values for Men, Women and Children. Ask your dealer for them.

Belgium Needs Your Help MORE THAN EVER!

As Homes are Freed from Grasp of Germans New Horrors Revealed.

Every cent you can send to them NOW will help to feed a famished patriot or clothe one whose meagre rags will never keep out this winter's cold.

Raise Your Fund and Send It In!

Perhaps you cannot spare as much as you would wish, but go around among your friends, plead Belgium's cause, collect all you can in every possible way, and turn it in QUICKLY to your local Committee or to Headquarters.

HEARTY APPLAUSE SHOWS APPROVAL OF OPERA HOUSE BILL

The change of programme at the Opera House last evening attracted a large number of patrons, who evidently enjoyed the stellar programme provided. The five vaudeville acts were diversified and, judging from the frequent and hearty applause, afforded good wholesome entertainment. In addition to the vaudeville numbers the first episode of "The Woman in the Web" was thrown on the screen and judging from the large gathering here introduced many original steps in a manner which evoked prolonged applause.

Among the five vaudeville acts Jack Dempsey made the big hit of the evening. He impersonates a tramp-comedian and his make-up, line of patter, singing and dancing made a decided hit with the large gathering. He introduced many original steps in a manner which evoked prolonged applause.

Another feature was the Edwards Trio in a musical act. The trio consists of a man and two young ladies. All three are clever musicians, one young lady being an exceptionally good pianist and the other young lady and man good vocalist, or trumpet, players. Their rendition of several difficult and catchy airs was

greeted with well merited applause. Norton and Model won instant favor when they appeared in a singing and dancing number. They are two of the best dancers seen on a local stage for some time and their clever work was thoroughly appreciated. The male member is also a very good singer and a solo, which he rendered in a most pleasing manner, was well received.

The Riscos in an unique act entitled "Fun in the Jungle," was amusing and afforded amusement to all. Both are good acrobats and their act was greatly enjoyed.

Conley and Chick were heard in a singing and repartee act, which was very good. The male member recited a pathetic piece, which had a real "heart throb" in it, and he won well merited applause. On the whole the show is good and well worth seeing.

STORAGE BATTERIES

The Storage Battery With the Exclusive Machine Pasted Plates

Battery Repairs

Our U. S. L. Battery Service Station is now completely equipped with the necessary apparatus and electrical instruments for the care and repair of storage batteries of all makes, and in charge of expert battery men. We carry a full line of spare parts and make repairs promptly and at reasonable prices.

Winter Storage and Overhaul

Your storage battery requires special winter care. Batteries stored wet in apparently good condition frequently develop trouble during the winter or soon after being placed in service in the spring. You can't determine the condition of the working parts without disassembling the battery. They deteriorate appreciably in acid, even though standing idle and properly cared for, and usually require overhauling annually.

We therefore store "dry" by a new process all batteries left with us—overhaul, wash, re-insulate, re-assemble, charge completely, then remove acid and seal them. We make only our regular overhauling charge of \$4.00, and store your battery free until next spring.

High Tension Work

To understand the work of the girl at central is to sympathize with her—for hers is a continuous high nervous tension.

As these critical times, when help is so scarce and the wires so busy, the task of the telephone operator is made doubly trying on her nerves.

How like her own nervous system is the complicated electrical equipment which she manipulates.

The central station may be likened to the brain, and the cables and wires, which go out from it, correspond to the spinal cord and intricate nerve fibres which branch off to the members and organs of the body.

The electric current is similar to the nerve force in the human system, for without this nervous energy the human mind and body would be just as dead as a telephone system without electricity.

The continuous strain to which the brain and nerves of the operator are subjected exhausts the nervous energy at an enormous rate, and starved nerves cry out for nourishment with headaches, neuralgic and sciatic pains, nervous indigestion and sleeplessness.

The functions of the vital organs become weak and irregular, as is shown by the feeble action of the heart and the tardiness of the liver and bowels.

It is comparatively easy to restore exhausted nerves if Dr. Chase's Nerve Food is used regularly when these early indications of trouble are apparent.

This food cure is also effective in the treatment of nervous prostration, and even in many cases of locomotor ataxia and partial paralysis, but when these ailments develop it is usually necessary that considerable patience and persistence be applied, as recovery must necessarily be a tedious process.

On this account we always like to look on Dr. Chase's Nerve Food as primarily a preventive treatment—a means of restoring feeble, wasted nerves while there is yet a foundation to build on.

Rest, gentle exercise out of doors, cheerful companions help the sufferer from nervous exhaustion, but there must be additional nourishment supplied to the nervous system, and the ideal way to supply the essential elements is by the use of Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto. Look for the portrait and signature of A. W. Chase, M.D., on the box you buy.

Oh It's Measles

Cries Many a Woman Whose Weakened Run-Down Condition Makes Her Cross, Irritable, Wrinkled and Old Before Her Time.

Most Women Who Tire Easily, Have Fits of the "Blues" or Look Pale, Haggard and Worn, Need More Iron in Their Blood to Strengthen Their Nerves and Put Color in Their Cheeks, Says Dr. Kenneth K. MacAlpine, Formerly New York Surgeon and Former Adjunct Professor New York Post Graduate Medical School and Hospital.

With the divorce courts showing an ever increasing number of homes broken up often through woman's highly nervous state—with thousands of women leaving their business positions or unable to attend to their household duties because of their weakened run-down conditions, and still others whose constant complaining make life a burden to themselves and to their families, it should be especially interesting to the public generally to read the opinion of such a medical authority as Dr. Kenneth K. MacAlpine, a prominent New York surgeon, member of the New York State Medical Society and for 16 years Adjunct Professor of the New York Post Graduate Medical School and Hospital, who tells below how by increasing the supply of iron in the blood, women may become stronger, healthier and more successful in the home, social and business life.

Dr. MacAlpine says: "In my opinion practically nine out of every ten women who suffer from 'Nerves' can improve their health, strength, vitality and general appearance by getting more iron in their blood. You can tell the women whose blood is rich in strength-giving iron, they are the beautiful, healthy, rosy-cheeked ones, radiant with life, vim and energy—eviled and sought after everywhere they go. Yet despite all that has been said and written by physicians about the alarming iron deficiency in the blood of the average American woman, if today there are still thousands who need something to increase their red blood corpuscles and build up their strength and endurance and are either weak in their condition or do not know what to take. In my opinion there is nothing better than organic iron—Nuxated Iron—to help make healthy, all-blooded, beautiful women. By enriching the blood and increasing its oxygen carrying power Nuxated Iron will often transform the flabby, flesh-colored, tissues, and pallid cheeks of nervous, run-down women into a glow of health and make them look younger within a surprisingly short time.

years it was a problem with physicians how to administer iron in a form that could be taken up by the system and increase the red blood corpuscles without upsetting the stomach, blackening the teeth or producing other disorders almost as serious as the lack of iron itself. But the introduction of Nuxated Iron has done away with all the objectionable features of the old mineral salts of iron and gives to every careful, thinking physician a tried and valuable prescription which he can recommend nearly every day with benefit to his weakened and run-down patients. In my opinion, Nuxated Iron is the most valuable tonic strength and blood-builder any physician can prescribe."

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair Becomes Charming, Wavy, Lustrous and Thick in Few Moments

Every Bit of Dandruff Disappears and Hair Stops Coming Out

For a few cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderrine. Also try this—moisten a cloth with a little Danderrine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderrine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Knowlton's Danderrine from any drug store or toilet counter and just try it.

SEARCH FOR BANDITS STILL UNSUCCESSFUL

Believed That They Are Headed Towards Prince Albert—No Trace Yet of McKay's Body

Prince Albert, Sask., Nov. 22—The evidence tonight is strongly to the effect that the Steep Creek bandits, Carmel and St. Germain, are in the area between the north and south Saskatchewan rivers, about eighteen miles east of Prince Albert, probably coming toward the city.

Three residents of the district have been located who saw men who were apparently trying to keep out of sight as much as possible. One in the part of the south Saskatchewan river where the body of McKay was said to have been put into the stream was dynamited today but no trace of the body was discovered. A stone which it was said had been attached to the body to sink it was discovered.

It showed that it had been tied to the body by a rope made of strips of cloth of the inner coat worn by McKay. Desormeaux, the boy who was forced to help in the disposal of the body, said that this had been done and he took the searchers to a place on the river bank where the bandits had set up a stake to mark the place of the disposal of the body. Investigation of the place where the McKay car was buried in the bank shows that a most complete job was done. The wheels had been chopped off with an axe and the vehicle was so completely concealed that it would be most difficult to find it. The axe and a shovel were found beside the car.

There is a suspicion that the body of James Suger, the farmer who is supposed to have been murdered by the bandits, may be under the car.

Two more dugouts have been found further down the river. They are connected by a tunnel, but bear no traces of having been occupied and there was no material of any kind in them.

THE AFTER EFFECTS OF DREADED LA GRIPPE

Worse Than the Disease Itself—Victims Left Weak, Nervous and Worn Out.

La Grippe, or Spanish influenza as the epidemic now sweeping over all America is called, is one of the most dangerous diseases known to mankind. Anyone who has felt its pangs is not likely to forget the trouble. La Grippe, or influenza, starts with a slight cold and ends with a complication of troubles. It lays the victim on his back, it tortures him with fevers and chills, headaches and backaches. It leaves him a prey to pneumonia, bronchitis, consumption and other deadly diseases. Its after effects are often more serious than the disease itself. It is quite possible to avoid la grippe by keeping the blood rich and red by the use of Dr. Williams' Pink Pills—a tonic medicine which enriches the blood and strengthens the nerves. If, however, the disease attacks you, the patient should at once go to bed, and call a doctor when the complications set in. This is the only safe thing to do. But to recover your strength after the severity of the disease, you need, you will find Dr. Williams' Pink Pills an unsurpassed tonic. Through the use of this medicine all the evil after effects of this terrible disease are banished. This has been proved in thousands of cases throughout Canada, where in previous seasons la grippe has attacked many. Many thanks restored to full health is Miss Irene Bootes, Portsmouth (Ont.), who says: "I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of la grippe and left me weak and all run down. I had severe pains in the chest and under the arms, palpitation of the heart and attacks of neuralgia which left me with the feeling that life was scarcely worth living. I was advised to try Dr. Williams' Pink Pills and began their use only on the principle that I would try anything that might better my condition. I had only been using the pills a couple of weeks when the pains began to leave me, my appetite improved, and in a little more than a month I felt all my old time vigor had returned. I am sincerely glad I was persuaded to try Dr. Williams' Pink Pills, and I shall always have a good word to say for them.

Dr. Williams' Pink Pills not only cure the disastrous after effects of la grippe, but are also specific for all troubles due to poor blood, such as anæmia, rheumatism, indigestion, women's ailments, and the generally worn out feeling that affects so many people. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists, took medicines, used lotions; but nothing did me good.

Then, I began to use "Fruit-a-lives" and in 18 days, the pain was easier and the Rheumatism was better. Gradually, "Fruit-a-lives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. Also, I had severe Eczema and Constipation, and "Fruit-a-lives" relieved me of these complaints; and gave me a good appetite, and in every way restored me to health."

Browning of the British navy. He was sent to Germany for that purpose according to the correspondent of the Daily Mail with the British fleet. The Koenig has been in dock and could not be moved, while the Mackensen had not been completed.

Some naval men, the Daily Mail correspondent adds, reject the idea that the surrendered German ships will ever be returned to Germany. They believe they will be divided among the Allies, including the United States.

INSTANTLY KILLED BY SHELL SPLINTER

Comrades Tell of Death of Gunner James Henderson of 8th Siege Battery

A letter has been received by Mrs. S. Dec, of Days Corner, Kings County, N. B., from Gunner James Henderson of the 8th Siege Battery, in which he refers to the death of her son, Jack, as follows:

"Dear Mrs. Dec—I am writing these few lines as I can readily understand how anxious you will be to have a few particulars from one who was present at the death of your son, Jack. While returning to rest in our billets on the night of the 19th, a shell landed close in our vicinity and a splinter from the same caused his sad end. No doubt it will be some consolation to you to know that he did not suffer any pain, as he was hit exactly over his heart. Immediately after the occurrence everything possible was done for his good, but to our deep sorrow, death was instantaneous. He was laid to rest in the cemetery the next day, alongside many more of his comrades, who have also been called upon to pay the supreme sacrifice.

"As one of his many chums in this great war, permit me in a few words to express to you and your dear family my deepest sympathy with you all in this sad loss you have to bear. To all of us here his loss is deeply felt; as a chum and comrade his bright cheery and kind hearted manners chased many dull and anxious moments away. It will be a great comfort to you when I say that he is sincerely attended to his religious duties, so that you can rest assured that he was fully prepared to answer the call. All his personal effects are being forwarded on to you through the proper channels, and if you require any further information I will be only too pleased to give it to you.

"Trusting, Mrs. Dec, that yourself and family are in good health and that the numerous messages of sympathy will ease your heavy burden and bring comfort to your sorrowing hearts. Yours sincerely, (Sgd) JAMES HENDERSON.

MAYOR WILL TRY TO ARRANGE FOR WORK TO GO ON

One Thousand Railway Freight Handlers Quit While Awaiting Settlement of Wage Dispute—A Difference of Four Cents

Freight handlers who have been at work in the West St. John, numbering about 250, quit work last evening at 11 o'clock, following a decision which was reached last night at a special meeting of the freight handlers' union. About 1,000 men are affected.

H. C. Grout, general superintendent of the C. P. R. New Brunswick division, waited on Mayor Hayes this morning and discussed the situation. As a result, his worship promised to do anything in his power to get the men to return to work until their committee goes to Montreal in order that they should not tie up the port and prevent foodstuffs from being sent to the coast.

The following statement was issued from the office of the superintendent of the C. P. R. today: Under the provisions of the McAdoo Award and supplements, which the railways of Canada have, through the Canadian Railway War Board, bound themselves to apply to all of their employees, a maximum rate of forty-three cents per hour is fixed for freight handlers.

Some weeks ago the committee representing the West St. John freight handlers were called in by General Superintendent Grout, who explained to them the provisions of the McAdoo Award as it affected them and informed the committee that although their agreement with the company providing a rate of thirty-five cents per hour did not expire until November 29, the maximum rate of forty-three cents would be applied to the men at West St. John, effective from September 1, and this the railway company has done.

During the last week notice was served on the company that the men would not accept this rate and made demand for a rate of forty-seven cents per hour, claiming that the provisions of the McAdoo award as applied to them had been wrongly interpreted and that they were entitled to an increase of twelve cents per hour, ignoring the maximum rate fixed.

The men were asked to carry on the work while the question was referred to the Wage Adjustment Board, appointed by the Canadian Railway War Board to settle all disputes between railway companies and their employees. It being particularly urged that cessation of work at this time would cause delay to boats which are carrying foodstuffs to the German forces overseas, the company agreeing to abide by the decision of that board and make the rate fixed by them retroactive to November 21.

If this would be agreed to by the men, the company offered to ignore the maximum rate of forty-three cents in the case of men working at night and pay them forty-seven cents per hour to conform with the rate paid for night work at Montreal wharf, which has been a special arrangement, although this day the rate paid there is but forty-two cents per hour.

TO ASK FOR TENDERS ON WATER EXTENSION

Local Contractors Will be Given Opportunity to Figure on East St. John Work

A meeting of the common council was to have taken place this morning but owing to the lack of a quorum it did not materialize. The meeting was called to decide regarding the letting of a contract for the digging of a trench to East St. John for the installation of the new water main. Mayor Hayes and Commissioners Bullock and Fisher were present in addition to Engineer Hare and a general discussion took place, after which it was decided to have all contractors interested and who are in a position to guarantee to have the work completed at a specified date, submit an estimate of the cost for Monday morning's meeting.

Mayor Hayes said he had been approached by M. F. Mooney, who said that local contractors should be given some consideration when the subject was taken up. His worship also read a letter from the Engineers and Contractors Ltd., who were one of the original contractors. They said they would undertake to do the work on a basis of cost plus fifteen per cent.

A communication was also read from Thomas Conzolino, who said he would be ready to undertake the work in a few days and would do it on a basis of cost plus ten per cent. Commissioner Hilyard spoke of the urgency of the case and said that all knew the circumstances and the importance of having the water main extended to the coast hospital as soon as possible. Regarding Mr. Mooney, he said that he had asked him to meet the council and present a proposition. Mayor Hayes suggested that those interested be asked to make a bid and give some definite figures as to the cost. He said they would then have something to work on. He felt it would be better to have a short delay and have the work done properly. Engineer Hare explained details about the cost, etc. after which a decision was reached to have the regular committee meeting on Monday morning and the council meeting Monday afternoon.
